The

SKINWALKER

Debrief

1
00:00:00,440 --> 00:00:38,410

[Music]

2
00:00:42,380 --> 00:00:40,550

welcome to the skinwalker debrief

3
00:00:44,630 --> 00:00:42,390

I'm your host TJ Allard and I'm one of

4
00:00:46,310 --> 00:00:44,640

the executive producers of the new TV

5
00:00:47,120 --> 00:00:46,320

series on history called the secret of

6
00:00:49,370 --> 00:00:47,130

skinwalker ranch

7
00:00:51,320 --> 00:00:49,380

I'm joined each week by Jason McCullen

8
00:00:53,360 --> 00:00:51,330

and Marine Ellsbury and together we'll

9
00:00:55,850 --> 00:00:53,370

dissect each episode to give you more

10
00:00:57,470 --> 00:00:55,860

insight and background into the show so

11
00:01:00,140 --> 00:00:57,480

this week's episode we're gonna jump

12
00:01:02,540 --> 00:01:00,150

right into it this week's episode is the

13
00:01:05,930 --> 00:01:02,550

finale for season one called

14

00:01:08,420 --> 00:01:05,940

revelations so guys thoughts what are

15

00:01:10,609 --> 00:01:08,430

your initial thoughts we finally made it

16

00:01:14,300 --> 00:01:10,619

to the end right I mean we get through

17

00:01:19,130 --> 00:01:14,310

now eight episodes reached the season

18

00:01:21,460 --> 00:01:19,140

finale and I don't know I I was really

19

00:01:24,020 --> 00:01:21,470

excited leading into this episode and

20

00:01:27,080 --> 00:01:24,030

you know now that it's here it's come

21

00:01:29,870 --> 00:01:27,090

and gone I'm kind of sad but you know

22

00:01:32,660 --> 00:01:29,880

overall I thought the the episode

23

00:01:34,760 --> 00:01:32,670

delivered on on what it promised and it

24

00:01:38,150 --> 00:01:34,770

it sort of wrapped up the seasoned

25

00:01:40,880 --> 00:01:38,160

nice sure yeah I think I think it's

26
00:01:42,230 --> 00:01:40,890
one of those things where there's a lot

27
00:01:44,840 --> 00:01:42,240
of things that they talked about that I

28
00:01:46,340 --> 00:01:44,850
still have questions and and one of them

29
00:01:48,770 --> 00:01:46,350
in I'll dress because this was right

30
00:01:51,800 --> 00:01:48,780
away and I know we have first let me say

31
00:01:54,469 --> 00:01:51,810
that Thomas did address this last week

32
00:01:57,080 --> 00:01:54,479
and says you know he watched the whole

33
00:02:00,139 --> 00:01:57,090
video and and it's not a fly but that

34
00:02:02,990 --> 00:02:00,149
UFO to me and he said because we could

35
00:02:04,490 --> 00:02:03,000
see it go beyond the tree line what us

36
00:02:07,850 --> 00:02:04,500
the viewers are shown in the final

37
00:02:10,880 --> 00:02:07,860
episode is not that object going behind

38
00:02:13,970 --> 00:02:10,890

the trees so we only see those two

39

00:02:16,850 --> 00:02:13,980

frames so for me as doing my due

40

00:02:20,839 --> 00:02:16,860

diligence even know somebody who I have

41

00:02:24,290 --> 00:02:20,849

grown to trust what they're saying has

42

00:02:27,320 --> 00:02:24,300

not seen that in my head I still think

43

00:02:30,260 --> 00:02:27,330

that still could be a fly so I think

44

00:02:32,930 --> 00:02:30,270

that you know we know that we're going

45

00:02:35,570 --> 00:02:32,940

to as Thomas talked a little bit about

46

00:02:37,940 --> 00:02:35,580

last week and we've seen on soap Branden

47

00:02:40,910 --> 00:02:37,950

talked about on social media we're going

48

00:02:45,709 --> 00:02:40,920

to see this port portal from them that

49

00:02:47,619 --> 00:02:45,719

not not a gnome but a poor like a vortex

50

00:02:50,259 --> 00:02:47,629

portal but we're not going to see that

51
00:02:52,569 --> 00:02:50,269
the web destination destination where

52
00:02:55,330 --> 00:02:52,579
you know people are going to be able to

53
00:02:57,520 --> 00:02:55,340
hopefully see and analyze on their own

54
00:03:00,910 --> 00:02:57,530
the raw data from these types of things

55
00:03:03,580 --> 00:03:00,920
I think that's great because like I said

56
00:03:04,929 --> 00:03:03,590
as as a viewer taking out having talked

57
00:03:07,929 --> 00:03:04,939
to anyone on the ranch that's

58
00:03:09,670 --> 00:03:07,939
immediately what I thought as well I'm

59
00:03:11,199 --> 00:03:09,680
not seeing it go behind the tree line I

60
00:03:15,000 --> 00:03:11,209
could still see it being close to the

61
00:03:17,379 --> 00:03:15,010
camera until I see that full footage I

62
00:03:19,300 --> 00:03:17,389
don't know if it's something about I

63
00:03:22,629 --> 00:03:19,310

mean I'm sure yeah I'm sure we'll get

64

00:03:25,059 --> 00:03:22,639

out there but yeah it definitely it

65

00:03:27,699 --> 00:03:25,069

didn't do any dude to show any favors by

66

00:03:29,649 --> 00:03:27,709

not showing the full clips of stuff I

67

00:03:30,909 --> 00:03:29,659

think it would have helped people feel

68

00:03:33,670 --> 00:03:30,919

that better about it

69

00:03:36,909 --> 00:03:33,680

sorry about that motorcycle oh you hear

70

00:03:40,059 --> 00:03:36,919

it as we pointed out I mean a lot of

71

00:03:43,689 --> 00:03:40,069

time passed since you know the things

72

00:03:45,729 --> 00:03:43,699

happened to now and we know that Eric

73

00:03:48,670 --> 00:03:45,739

specifically and the rest of the team

74

00:03:50,619 --> 00:03:48,680

have had much more time to go through

75

00:03:52,659 --> 00:03:50,629

and analyze some of this stuff so some

76

00:03:54,969 --> 00:03:52,669

of that that due diligence and the work

77

00:03:56,649 --> 00:03:54,979

that's been done and and the information

78

00:03:58,659 --> 00:03:56,659

they're working off of now when we have

79

00:04:00,009 --> 00:03:58,669

them as guests on this show it's stuff

80

00:04:03,129 --> 00:04:00,019

that we haven't seen so to your point

81

00:04:06,610 --> 00:04:03,139

yes the TV show you know from what we

82

00:04:09,780 --> 00:04:06,620

have seen as viewers I'm with you 100% I

83

00:04:14,469 --> 00:04:09,790

mean I'm still in the bug or bird camp

84

00:04:16,839 --> 00:04:14,479

from from what it appears on TV I think

85

00:04:18,189 --> 00:04:16,849

I think Eric will uh we'll start putting

86

00:04:19,779 --> 00:04:18,199

more stuff out there it's just a matter

87

00:04:22,899 --> 00:04:19,789

of time I think there's a lot of will

88

00:04:25,600 --> 00:04:22,909

there's a well there's a lot of you know

89

00:04:27,460 --> 00:04:25,610

hoops to go through here and things to

90

00:04:29,740 --> 00:04:27,470

jump over and hurdles and all that kind

91

00:04:32,320 --> 00:04:29,750

of stuff and in speed up Eric so just so

92

00:04:34,839 --> 00:04:32,330

people know we had initially had plans

93

00:04:37,089 --> 00:04:34,849

to have a guest tonight then it was

94

00:04:38,649 --> 00:04:37,099

supposed to be Brandon and it turns out

95

00:04:42,879 --> 00:04:38,659

everyone is at the ranch right now

96

00:04:45,670 --> 00:04:42,889

working so that's kind of you know there

97

00:04:48,360 --> 00:04:45,680

there's some stuff happening sorry

98

00:04:51,240 --> 00:04:48,370

excuse to miss this show right sorry

99

00:04:53,740 --> 00:04:51,250

working on the ranch come on hey there

100

00:04:55,510 --> 00:04:53,750

yes there's a lot going on right now and

101
00:04:57,519 --> 00:04:55,520
I know Brandon's already announced it

102
00:05:00,010 --> 00:04:57,529
and talks about season 2 happening and

103
00:05:00,760 --> 00:05:00,020
so pre-production is everything like

104
00:05:03,610 --> 00:05:00,770
that is getting star

105
00:05:06,309 --> 00:05:03,620
now so hopefully you know these guys

106
00:05:08,140 --> 00:05:06,319
will get going next couple of weeks and

107
00:05:10,300 --> 00:05:08,150
then getting ready to bring you season 2

108
00:05:11,950 --> 00:05:10,310
in the fall so I want to put that out

109
00:05:13,089 --> 00:05:11,960
there at the top here and the front some

110
00:05:14,379 --> 00:05:13,099
people are not like what are you guys

111
00:05:16,540 --> 00:05:14,389
talking about who's supposed to be there

112
00:05:19,510 --> 00:05:16,550
you know so there it is like there's

113
00:05:21,309 --> 00:05:19,520

people here and I try to get others but

114

00:05:24,070 --> 00:05:21,319

everyone's like I can't man there's too

115

00:05:29,529 --> 00:05:24,080

much stuff going on right now so yep

116

00:05:32,469 --> 00:05:29,539

settle for just just us just us there's

117

00:05:34,330 --> 00:05:32,479

a enough we can talk about that happened

118

00:05:36,070 --> 00:05:34,340

in this episode in terms of the history

119

00:05:38,260 --> 00:05:36,080

that we know about the ranch because I

120

00:05:43,689 --> 00:05:38,270

think forgive me if I'm wrong TJ but one

121

00:05:45,399 --> 00:05:43,699

of the the big revelations that was what

122

00:05:47,830 --> 00:05:45,409

this episode was supposed to cover is

123

00:05:50,110 --> 00:05:47,840

the government interest in the ranch and

124

00:05:53,860 --> 00:05:50,120

and you know we've known for a long time

125

00:05:55,779 --> 00:05:53,870

that there was this twenty two million

126
00:05:57,490 --> 00:05:55,789
dollar program and we've talked about a

127
00:05:59,559 --> 00:05:57,500
tip that we've talked about on the

128
00:06:02,230 --> 00:05:59,569
program before that Bigelow was involved

129
00:06:05,260 --> 00:06:02,240
with with that actually had involvement

130
00:06:08,379 --> 00:06:05,270
with the ramps so it's it was very

131
00:06:11,320 --> 00:06:08,389
curious to see the Utah Attorney General

132
00:06:14,709 --> 00:06:11,330
on Jason what what were your thoughts

133
00:06:16,809 --> 00:06:14,719
with that well you know when when that

134
00:06:19,089 --> 00:06:16,819
whole government interest part was

135
00:06:20,980 --> 00:06:19,099
brought up you know it was and we'd

136
00:06:24,040 --> 00:06:20,990
heard that before I think from Thomas

137
00:06:26,559 --> 00:06:24,050
maybe but yeah the fact that Travis says

138
00:06:30,070 --> 00:06:26,569

he was contacted by people from from the

139

00:06:32,529 --> 00:06:30,080

intelligence agencies you know that but

140

00:06:35,499 --> 00:06:32,539

it's funny oh like he says we were

141

00:06:38,529 --> 00:06:35,509

contacted he never says he was contacted

142

00:06:41,950 --> 00:06:38,539

he says we were contact yeah just saying

143

00:06:45,820 --> 00:06:41,960

and you know what I thought that whole

144

00:06:47,559 --> 00:06:45,830

exchange and the topic as a whole was

145

00:06:49,990 --> 00:06:47,569

was strange and certainly strange that

146

00:06:52,510 --> 00:06:50,000

they were making so much of that because

147

00:06:54,730 --> 00:06:52,520

as you just mentioned Maureen we know

148

00:06:56,409 --> 00:06:54,740

that the government has had an active

149

00:06:58,149 --> 00:06:56,419

interest in that ranch they've mentioned

150

00:06:59,890 --> 00:06:58,159

it many times on the show the

151
00:07:04,749 --> 00:06:59,900
government's interest in that ranch and

152
00:07:07,059 --> 00:07:04,759
active investigation on that ranch so I

153
00:07:08,439 --> 00:07:07,069
don't know it seemed weird to me to

154
00:07:10,769 --> 00:07:08,449
bring that up now and it would seem

155
00:07:12,850 --> 00:07:10,779
weird if the government is still

156
00:07:13,930 --> 00:07:12,860
interested in that ranch when they've

157
00:07:15,640 --> 00:07:13,940
already done their own

158
00:07:19,330 --> 00:07:15,650
and whatever they wanted to do on that

159
00:07:20,980 --> 00:07:19,340
ranch so I think what else Jen's yeah

160
00:07:23,290 --> 00:07:20,990
yeah no it definitely brings up more

161
00:07:27,190 --> 00:07:23,300
questions I think what he was pointing

162
00:07:28,810 --> 00:07:27,200
out too was that the the idea of

163
00:07:33,040 --> 00:07:28,820

comparing notes I think that is a big

164

00:07:36,310 --> 00:07:33,050

one but also the thing that from what we

165

00:07:39,370 --> 00:07:36,320

show from what the viewers saw it was

166

00:07:41,950 --> 00:07:39,380

more of how are they still monitoring us

167

00:07:43,510 --> 00:07:41,960

that's the bigger question who the

168

00:07:45,850 --> 00:07:43,520

hell's monitoring and how that's why

169

00:07:48,880 --> 00:07:45,860

Brennan looked so like wait they're

170

00:07:50,410 --> 00:07:48,890

monitoring us like who and how with what

171

00:07:52,570 --> 00:07:50,420

equipment when like what are there

172

00:07:54,490 --> 00:07:52,580

ninjas in the darkness like what's going

173

00:07:56,710 --> 00:07:54,500

on how are they watching us so I think

174

00:07:58,720 --> 00:07:56,720

that's where the real that real question

175

00:08:00,310 --> 00:07:58,730

comes out because you know being out

176

00:08:02,560 --> 00:08:00,320

there we had talked about a number of

177

00:08:04,330 --> 00:08:02,570

times I mean and Jim even brings it up

178

00:08:05,770 --> 00:08:04,340

you know where helicopters are just

179

00:08:06,670 --> 00:08:05,780

appear out of nowhere or Humvees would

180

00:08:09,060 --> 00:08:06,680

just appear out of nowhere

181

00:08:12,100 --> 00:08:09,070

like who the hell are these people and

182

00:08:14,050 --> 00:08:12,110

what division of the military or you

183

00:08:15,670 --> 00:08:14,060

know who are they a part of so there's

184

00:08:18,250 --> 00:08:15,680

the part of it that yes we know about

185

00:08:19,930 --> 00:08:18,260

the 22 million dollar aspect of it but

186

00:08:22,810 --> 00:08:19,940

then there's this what's going on now

187

00:08:25,180 --> 00:08:22,820

and why and like is it like three guys

188

00:08:28,270 --> 00:08:25,190

you know just doing this or is it like

189

00:08:30,070 --> 00:08:28,280

you know an actual branch of something

190

00:08:31,840 --> 00:08:30,080

or a division of something well I can't

191

00:08:34,390 --> 00:08:31,850

think but think you know I mean this

192

00:08:37,450 --> 00:08:34,400

ties into the fact that the government

193

00:08:40,330 --> 00:08:37,460

is known for actively tracking and

194

00:08:43,810 --> 00:08:40,340

following UFO researchers I mean that's

195

00:08:46,990 --> 00:08:43,820

been going on for decades and there's

196

00:08:50,890 --> 00:08:47,000

documented proof of this and you know

197

00:08:53,770 --> 00:08:50,900

they actively watched people in you know

198

00:08:56,320 --> 00:08:53,780

that a lot of that is trying to keep

199

00:08:57,700 --> 00:08:56,330

tabs on people to figure out have they

200

00:09:00,370 --> 00:08:57,710

figured out some sort of secret

201
00:09:03,660 --> 00:09:00,380
classified project you're working on or

202
00:09:06,940 --> 00:09:03,670
what the results to that were or these

203
00:09:09,730 --> 00:09:06,950
secret aircraft do they mistake them for

204
00:09:12,070 --> 00:09:09,740
UFOs I mean there's lots of cases that

205
00:09:16,000 --> 00:09:12,080
involves specifically those types of

206
00:09:18,040 --> 00:09:16,010
things and connections so for me I'm

207
00:09:20,710 --> 00:09:18,050
like I wouldn't be surprised if they

208
00:09:22,990 --> 00:09:20,720
were being monitored by the government

209
00:09:24,100 --> 00:09:23,000
and being watched for what the hell's

210
00:09:26,720 --> 00:09:24,110
going on out there and

211
00:09:30,070 --> 00:09:26,730
that's just kind of hand in hand from

212
00:09:32,540 --> 00:09:30,080
what we've learned over the years

213
00:09:35,000 --> 00:09:32,550

happens when you get involved in this

214

00:09:37,130 --> 00:09:35,010

type of research I mean it was

215

00:09:39,140 --> 00:09:37,140

validation to for Brennan and there was

216

00:09:42,110 --> 00:09:39,150

a lot you know he said that in the past

217

00:09:45,050 --> 00:09:42,120

he thought it was happening and I think

218

00:09:46,730 --> 00:09:45,060

that a officials that he had spoken to

219

00:09:48,410 --> 00:09:46,740

in the past were like no it's not

220

00:09:50,230 --> 00:09:48,420

nothing's going on nobody's watching you

221

00:09:54,110 --> 00:09:50,240

there's nothing and then here it is

222

00:09:56,330 --> 00:09:54,120

here's your validation that yes it's you

223

00:09:57,830 --> 00:09:56,340

be monitored um that's why you see the

224

00:10:01,040 --> 00:09:57,840

smile he's like cause like I knew it I

225

00:10:03,860 --> 00:10:01,050

freaking knew it you know it was it's

226

00:10:06,770 --> 00:10:03,870

one of those like I still on a personal

227

00:10:09,380 --> 00:10:06,780

level it's I still don't I don't

228

00:10:12,140 --> 00:10:09,390

understand the secrecy of a lot of this

229

00:10:14,450 --> 00:10:12,150

as like a TV producer I look at it and

230

00:10:17,000 --> 00:10:14,460

I'm like you know it's the worst kept

231

00:10:19,420 --> 00:10:17,010

secret in the world that there's

232

00:10:22,100 --> 00:10:19,430

government agencies studying UFOs well

233

00:10:23,960 --> 00:10:22,110

the idea of like using the citizen

234

00:10:27,770 --> 00:10:23,970

scientists and using all of the

235

00:10:30,200 --> 00:10:27,780

available resources you have it never

236

00:10:31,880 --> 00:10:30,210

was more of a you couldn't you could

237

00:10:34,280 --> 00:10:31,890

mobilize it now easier than you could

238

00:10:36,530 --> 00:10:34,290

ever have before and deploy people to

239

00:10:38,480 --> 00:10:36,540

study things and just let people do all

240

00:10:40,700 --> 00:10:38,490

of the like Eric was talking like if you

241

00:10:42,020 --> 00:10:40,710

get 10,000 you know people doing this

242

00:10:43,460 --> 00:10:42,030

stuff or looking into the footage

243

00:10:45,020 --> 00:10:43,470

looking into data then you're going to

244

00:10:46,460 --> 00:10:45,030

find correlations you're going to find

245

00:10:48,860 --> 00:10:46,470

things that others are gonna miss it's

246

00:10:50,390 --> 00:10:48,870

like instead of just on a computer and

247

00:10:51,740 --> 00:10:50,400

it throw people at it because that's

248

00:10:53,300 --> 00:10:51,750

gonna be you're gonna get a different

249

00:10:54,290 --> 00:10:53,310

element you know a different aspect if

250

00:10:56,780 --> 00:10:54,300

the algorithm is not gonna pick up

251
00:10:59,080 --> 00:10:56,790
things whereas people will I don't know

252
00:11:01,850 --> 00:10:59,090
I just think it's a big Mis it's just a

253
00:11:04,130 --> 00:11:01,860
it's a big Mis essentially like we could

254
00:11:05,710 --> 00:11:04,140
be doing a lot more for it then you know

255
00:11:08,420 --> 00:11:05,720
in that research then we are and

256
00:11:12,770 --> 00:11:08,430
everyone knows it's like come on you're

257
00:11:14,570 --> 00:11:12,780
not hiding anything so I don't know he's

258
00:11:17,120 --> 00:11:14,580
always agendas at play you don't know

259
00:11:18,470 --> 00:11:17,130
what the agenda is of course or no I

260
00:11:20,060 --> 00:11:18,480
mean there's all yes of course I'm just

261
00:11:21,740 --> 00:11:20,070
saying like if you step back and look at

262
00:11:25,250 --> 00:11:21,750
it's like well everybody knows this is

263
00:11:26,720 --> 00:11:25,260

going on and you you can't keep calling

264

00:11:29,510 --> 00:11:26,730

people crazy now that there's evidence

265

00:11:32,020 --> 00:11:29,520

that's coming out you know it's that you

266

00:11:34,600 --> 00:11:32,030

have to discount the crazy argument now

267

00:11:37,700 --> 00:11:34,610

especially when you have you have

268

00:11:37,910 --> 00:11:37,710

credential investigators people would

269

00:11:39,650 --> 00:11:37,920

pee

270

00:11:42,680 --> 00:11:39,660

people with top-secret clearance people

271

00:11:44,180 --> 00:11:42,690

you know you have the Sean Reyes that

272

00:11:45,949 --> 00:11:44,190

you have the Attorney General from Utah

273

00:11:49,190 --> 00:11:45,959

they're like you have legitimate

274

00:11:51,800 --> 00:11:49,200

credential people that are all I mean oh

275

00:11:52,910 --> 00:11:51,810

this is it this isn't the first time I

276

00:11:55,100 --> 00:11:52,920

know this is kind of happened I mean

277

00:11:57,740 --> 00:11:55,110

there's always been you know people with

278

00:11:59,120 --> 00:11:57,750

with backgrounds like with you know

279

00:12:02,000 --> 00:11:59,130

credible backgrounds that say these

280

00:12:03,680 --> 00:12:02,010

things but I mean now it's becoming it's

281

00:12:06,620 --> 00:12:03,690

just almost like you can't deny these

282

00:12:08,120 --> 00:12:06,630

things anymore I just write know who the

283

00:12:09,170 --> 00:12:08,130

officials and maybe you guys know who

284

00:12:10,970 --> 00:12:09,180

are the officials that are gonna come

285

00:12:12,350 --> 00:12:10,980

out like what who are the people that

286

00:12:13,490 --> 00:12:12,360

are going to talk about this who would

287

00:12:15,230 --> 00:12:13,500

address this you know it's not gonna

288

00:12:16,670 --> 00:12:15,240

come from like you know the White House

289

00:12:18,079 --> 00:12:16,680

you know it's not gonna come from the

290

00:12:20,360 --> 00:12:18,089

Joint Chiefs of Staff like who is it

291

00:12:22,490 --> 00:12:20,370

gonna come from at some point

292

00:12:24,980 --> 00:12:22,500

who's gonna address any of this that's

293

00:12:27,110 --> 00:12:24,990

my you know I'd love to know that like

294

00:12:29,360 --> 00:12:27,120

somebody's gotta step up not a person

295

00:12:33,650 --> 00:12:29,370

but which group which branch spaceforce

296

00:12:35,810 --> 00:12:33,660

Air Force who you know not going to

297

00:12:37,069 --> 00:12:35,820

crazy town yeah I mean it's it's always

298

00:12:38,360 --> 00:12:37,079

going to change it's always going to

299

00:12:41,269 --> 00:12:38,370

come from a different angle a different

300

00:12:42,949 --> 00:12:41,279

different organization because you know

301

00:12:45,199 --> 00:12:42,959

a lot of these these groups these

302

00:12:46,430 --> 00:12:45,209

organizations these these sections of

303

00:12:48,079 --> 00:12:46,440

the government don't talk to each other

304

00:12:50,269 --> 00:12:48,089

they're doing their own thing and not

305

00:12:52,400 --> 00:12:50,279

necessarily working together so right

306

00:12:54,680 --> 00:12:52,410

now we see you know some activity from

307

00:12:57,560 --> 00:12:54,690

the Pentagon we see some activity from

308

00:12:59,120 --> 00:12:57,570

the Navy so it's kind of all over the

309

00:13:02,990 --> 00:12:59,130

place and I think it'll always be that

310

00:13:04,759 --> 00:13:03,000

way until there's a joint effort right

311

00:13:06,620 --> 00:13:04,769

the really unifying talk to each other

312

00:13:09,740 --> 00:13:06,630

and shares data but you brought up the

313

00:13:13,220 --> 00:13:09,750

Attorney General for Utah and I got a

314

00:13:15,199 --> 00:13:13,230

give that guy kudos because as Brandon

315

00:13:19,880 --> 00:13:15,209

has said before you know when he didn't

316

00:13:20,930 --> 00:13:19,890

initially want to be public he didn't

317

00:13:23,660 --> 00:13:20,940

want to have his name out there

318

00:13:26,930 --> 00:13:23,670

associated with the ranch because you

319

00:13:29,300 --> 00:13:26,940

know he is a businessman he has major

320

00:13:31,730 --> 00:13:29,310

real estate deals he didn't want being

321

00:13:33,860 --> 00:13:31,740

associated with this crazy ranch to

322

00:13:37,610 --> 00:13:33,870

affect any of his clients to affect any

323

00:13:40,730 --> 00:13:37,620

of his deals and he's out there now and

324

00:13:44,090 --> 00:13:40,740

yeah very proud with it very publicly on

325

00:13:47,120 --> 00:13:44,100

TV and then we have attorney general for

326

00:13:49,010 --> 00:13:47,130

the state of Utah going on this crazy TV

327

00:13:51,830 --> 00:13:49,020

show

328

00:13:55,730 --> 00:13:51,840

you know that's a a public public figure

329

00:13:59,180 --> 00:13:55,740

doing that public servant going on TV

330

00:14:01,430 --> 00:13:59,190

and you know a skinwalker ranch TV show

331

00:14:04,640 --> 00:14:01,440

acknowledging that it was not was not

332

00:14:07,130 --> 00:14:04,650

expected at all what one my favorite

333

00:14:10,310 --> 00:14:07,140

part I think was when he told Travis

334

00:14:11,540 --> 00:14:10,320

Taylor his finger was nasty laughter I

335

00:14:14,030 --> 00:14:11,550

got exposed to the radiation

336

00:14:16,490 --> 00:14:14,040

I started getting a knot forming here a

337

00:14:19,070 --> 00:14:16,500

bump coming out of my knuckle there and

338

00:14:20,390 --> 00:14:19,080

then another bump start forming and own

339

00:14:23,210 --> 00:14:20,400

into the summer he kept getting bigger

340

00:14:25,520 --> 00:14:23,220

and bigger and started hurting that's

341

00:14:28,010 --> 00:14:25,530

that's nasty and so now when I had it

342

00:14:30,410 --> 00:14:28,020

x-rayed and my doctor looked at and he

343

00:14:32,120 --> 00:14:30,420

says well you've got to bone spurs in

344

00:14:33,230 --> 00:14:32,130

there and they said well you have to

345

00:14:35,390 --> 00:14:33,240

have it removed because it's gonna keep

346

00:14:36,830 --> 00:14:35,400

getting bigger and worse and so they

347

00:14:44,120 --> 00:14:36,840

went in and they took out a cyst that

348

00:14:46,160 --> 00:14:44,130

was almost as big as in him and in yeah

349

00:14:49,840 --> 00:14:46,170

so that was interesting because I had

350

00:14:53,000 --> 00:14:49,850

had that Google my trusty friend google

351

00:14:57,140 --> 00:14:53,010

weather ionizing radiation exposure

352

00:15:00,980 --> 00:14:57,150

could cause what dr. Google saying well

353

00:15:03,200 --> 00:15:00,990

I had to do a little deep research into

354

00:15:05,420 --> 00:15:03,210

some medical articles which are super

355

00:15:07,040 --> 00:15:05,430

fun but I mean basically and I'm no

356

00:15:09,110 --> 00:15:07,050

doctor so if I say something wrong and

357

00:15:11,570 --> 00:15:09,120

you're watching feel free to let me know

358

00:15:16,330 --> 00:15:11,580

I will not be offended I did this right

359

00:15:19,240 --> 00:15:16,340

before the show is that it can cause

360

00:15:26,090 --> 00:15:19,250

damage to the cartilage in your joints

361

00:15:28,580 --> 00:15:26,100

that could then possibly lead to bone

362

00:15:31,490 --> 00:15:28,590

issues but I didn't see specifically

363

00:15:33,140 --> 00:15:31,500

bone spurs and then I looked at the

364

00:15:36,260 --> 00:15:33,150

causes of bone spurs and courses a

365

00:15:38,360 --> 00:15:36,270

million friction overuse and a ton of

366

00:15:40,760 --> 00:15:38,370

other things but it is interesting that

367

00:15:43,580 --> 00:15:40,770

it was I'm assuming on the same finger

368

00:15:46,670 --> 00:15:43,590

that he got the burn that the burn

369

00:15:49,280 --> 00:15:46,680

showed up on or was that on his hand it

370

00:15:51,760 --> 00:15:49,290

was yeah I think it was a fatty I think

371

00:15:54,500 --> 00:15:51,770

cause the handi gripped the handle with

372

00:15:57,290 --> 00:15:54,510

taken so it's interesting

373

00:15:59,960 --> 00:15:57,300

I mean we don't have a definite proof

374

00:16:02,180 --> 00:15:59,970

that those two are linked but I I think

375

00:16:03,530 --> 00:16:02,190

it's some super roundabout way it's

376

00:16:08,800 --> 00:16:03,540

possible

377

00:16:14,780 --> 00:16:11,090

research how long it would take a cow to

378

00:16:16,100 --> 00:16:14,790

die from pneumonia - so okay what do you

379

00:16:18,560 --> 00:16:16,110

thought what do you think of that like

380

00:16:20,120 --> 00:16:18,570

so and he brought up the scared to death

381

00:16:23,290 --> 00:16:20,130

like he was like quite literally scared

382

00:16:27,080 --> 00:16:23,300

to death okay I yes but had pneumonia

383

00:16:28,690 --> 00:16:27,090

yeah so ammonia take some time and

384

00:16:35,420 --> 00:16:28,700

they'll suffocate

385

00:16:38,060 --> 00:16:35,430

so I actually does it they said usually

386

00:16:40,840 --> 00:16:38,070

when a cow gets bovine gets pneumonia

387

00:16:43,820 --> 00:16:40,850

I'm gonna try to sound smart here Thanks

388

00:16:48,320 --> 00:16:43,830

it can death usually happens within the

389

00:16:51,170 --> 00:16:48,330

first two days however by the time we're

390

00:16:53,150 --> 00:16:51,180

seeing the cow it's already on the

391

00:16:56,090 --> 00:16:53,160

ground when the object passes over it

392

00:16:58,040 --> 00:16:56,100

tries to look at the object it's not

393

00:17:00,110 --> 00:16:58,050

like it instantly got pneumonia and died

394

00:17:03,140 --> 00:17:00,120

and the herd was already separated from

395

00:17:06,800 --> 00:17:03,150

it it's clear the cow had been sick

396

00:17:09,020 --> 00:17:06,810

Peretti so I don't think it's like the

397

00:17:11,569 --> 00:17:09,030

cow saw strange object and the ground

398

00:17:13,550 --> 00:17:11,579

and drop dead right yeah I think that

399

00:17:15,560 --> 00:17:13,560

that wasn't presented in the best

400

00:17:16,939 --> 00:17:15,570

possible way it was almost implied that

401
00:17:18,680 --> 00:17:16,949
that is what happened when in fact it

402
00:17:21,980 --> 00:17:18,690
wasn't and we'd they made it pretty

403
00:17:25,520 --> 00:17:21,990
clear that it wasn't but I love the the

404
00:17:27,740 --> 00:17:25,530
tainted meat theory um you know the

405
00:17:29,330 --> 00:17:27,750
carcass is there and I keep thinking of

406
00:17:30,770 --> 00:17:29,340
it as like a like a video game like a

407
00:17:32,120 --> 00:17:30,780
tainted meat like here it is this

408
00:17:34,100 --> 00:17:32,130
carcass of something that no one wants

409
00:17:37,400 --> 00:17:34,110
to touch because it's been tainted but

410
00:17:38,570 --> 00:17:37,410
from what I have no idea so I had never

411
00:17:40,160 --> 00:17:38,580
heard of that before I don't know if

412
00:17:42,640 --> 00:17:40,170
either of you have like things being

413
00:17:45,080 --> 00:17:42,650

struck by lightning or animals being

414

00:17:46,520 --> 00:17:45,090

tainted in that way I guess I keep

415

00:17:49,880 --> 00:17:46,530

saying I don't know if that's the right

416

00:17:52,130 --> 00:17:49,890

word but I mean personally I don't want

417

00:17:56,870 --> 00:17:52,140

to eat disease to cow or sick cow but

418

00:17:59,330 --> 00:17:56,880

I'm not I'm not a predator so I don't

419

00:18:03,530 --> 00:17:59,340

know Jason no I I don't know I don't

420

00:18:04,790 --> 00:18:03,540

know yeah I never heard that I don't

421

00:18:06,920 --> 00:18:04,800

know I've never heard the lightning

422

00:18:09,710 --> 00:18:06,930

thing for sure but as far as anything

423

00:18:11,690 --> 00:18:09,720

else even disease or something keeping

424

00:18:13,130 --> 00:18:11,700

away predators I would think at least

425

00:18:16,600 --> 00:18:13,140

they would kind of tear at it and then

426

00:18:19,160 --> 00:18:16,610

realize oh this is nasty

427

00:18:21,110 --> 00:18:19,170

yeah I would think so too but you know

428

00:18:22,160 --> 00:18:21,120

we're just humans our senses aren't as

429

00:18:23,750 --> 00:18:22,170

good I suppose

430

00:18:26,300 --> 00:18:23,760

you know maybe they can smell the

431

00:18:28,820 --> 00:18:26,310

disease like can't animals smell yeah

432

00:18:30,710 --> 00:18:28,830

like certain diseases on you yeah yeah I

433

00:18:32,630 --> 00:18:30,720

always get real worried when my dog pays

434

00:18:34,550 --> 00:18:32,640

too close attention to me what are you

435

00:18:39,410 --> 00:18:34,560

smilin on spots don't walk on my hand

436

00:18:41,690 --> 00:18:39,420

stop licking my hand again again no but

437

00:18:44,030 --> 00:18:41,700

you know I mean so what's what's really

438

00:18:47,150 --> 00:18:44,040

cool you're in branding kind of so that

439

00:18:50,690 --> 00:18:47,160

you know this could be well did Travis

440

00:18:52,670 --> 00:18:50,700

it as well like if in fact what they

441

00:18:54,710 --> 00:18:52,680

believe happened based on their evidence

442

00:18:56,240 --> 00:18:54,720

did happen it's this kind of a

443

00:18:59,180 --> 00:18:56,250

groundbreaking thing and it's kind of

444

00:19:00,440 --> 00:18:59,190

flying under the radar where the idea of

445

00:19:02,810 --> 00:19:00,450

quote-unquote air quotes your

446

00:19:05,990 --> 00:19:02,820

communication with something is

447

00:19:07,190 --> 00:19:06,000

happening and like Travis had said maybe

448

00:19:09,080 --> 00:19:07,200

they don't even know that they were

449

00:19:10,760 --> 00:19:09,090

communicating but by sending things up

450

00:19:14,300 --> 00:19:10,770

in the air then maybe they were

451
00:19:15,890 --> 00:19:14,310
inadvertently doing so and then Brandon

452
00:19:16,760 --> 00:19:15,900
you know again talking that you have the

453
00:19:19,460 --> 00:19:16,770
AG there

454
00:19:21,410 --> 00:19:19,470
the Utah's Attorney General and you have

455
00:19:24,500 --> 00:19:21,420
Brandon saying like look we may have

456
00:19:28,460 --> 00:19:24,510
just made first contact whether that is

457
00:19:31,880 --> 00:19:28,470
true or isn't true to be able to say

458
00:19:34,370 --> 00:19:31,890
that in the presence of Utah's Attorney

459
00:19:38,210 --> 00:19:34,380
General national audience

460
00:19:40,370 --> 00:19:38,220
you know phd's people with security

461
00:19:42,290 --> 00:19:40,380
clearance you know tops like that's kind

462
00:19:43,880 --> 00:19:42,300
of saying something like obviously

463
00:19:46,670 --> 00:19:43,890

they're not just throwing it out there

464

00:19:50,060 --> 00:19:46,680

all willy-nilly they obviously there's

465

00:19:52,790 --> 00:19:50,070

something here you know I don't want I

466

00:19:57,020 --> 00:19:52,800

don't want to I don't give away a whole

467

00:19:58,310 --> 00:19:57,030

bunch of stuff on there nothing there's

468

00:20:01,370 --> 00:19:58,320

much to get away but I mean it's like

469

00:20:03,710 --> 00:20:01,380

the mentality is like this is legit this

470

00:20:05,750 --> 00:20:03,720

is you know but you don't want to say oh

471

00:20:07,370 --> 00:20:05,760

look we talked to aliens and then people

472

00:20:08,900 --> 00:20:07,380

like oh you're so crazy you didn't talk

473

00:20:11,750 --> 00:20:08,910

to aliens okay

474

00:20:14,450 --> 00:20:11,760

sure well from the viewers point of view

475

00:20:16,850 --> 00:20:14,460

you know knowing that you know a little

476

00:20:18,950 --> 00:20:16,860

more and knowing that as we talked about

477

00:20:22,550 --> 00:20:18,960

earlier on this episode that the team

478

00:20:24,050 --> 00:20:22,560

has done more investigation into this

479

00:20:25,970 --> 00:20:24,060

they've looked at additional footage and

480

00:20:27,920 --> 00:20:25,980

done additional things they're working

481

00:20:28,830 --> 00:20:27,930

and I have to assume they're working

482

00:20:31,110 --> 00:20:28,840

with more information

483

00:20:33,659 --> 00:20:31,120

because again from what we've been

484

00:20:35,700 --> 00:20:33,669

presented it's a pretty far leap to

485

00:20:37,140 --> 00:20:35,710

start thinking that oh there's something

486

00:20:39,810 --> 00:20:37,150

there that's worth trying to communicate

487

00:20:41,190 --> 00:20:39,820

with because they're more we've seen I'm

488

00:20:44,279 --> 00:20:41,200

still not convinced that there is

489

00:20:46,260 --> 00:20:44,289

anything there no surprise they showed

490

00:20:48,570 --> 00:20:46,270

that clip with that sidebar with with

491

00:20:50,490 --> 00:20:48,580

dr. Cigala you know saying like what can

492

00:20:53,060 --> 00:20:50,500

we use what kind of something like that

493

00:20:56,190 --> 00:20:53,070

was again that's kind of a far or leap

494

00:20:59,220 --> 00:20:56,200

you know try to put the put the dots

495

00:21:01,019 --> 00:20:59,230

together but you know again it has been

496

00:21:04,320 --> 00:21:01,029

a year since a lot of that stuff has

497

00:21:06,419 --> 00:21:04,330

happened and I think that you know just

498

00:21:10,620 --> 00:21:06,429

understand people should understand like

499

00:21:12,659 --> 00:21:10,630

if it's making it to air you've had a

500

00:21:14,399 --> 00:21:12,669

lot of time to be able to edit that out

501
00:21:17,070 --> 00:21:14,409
if they wanted to

502
00:21:19,529 --> 00:21:17,080
so obviously that there's like you're

503
00:21:21,269 --> 00:21:19,539
saying talking with Eric and Bryant and

504
00:21:22,760 --> 00:21:21,279
Tom you know there's a lot of stir and

505
00:21:25,970 --> 00:21:22,770
Jim too like a lot of stuff has happened

506
00:21:28,169 --> 00:21:25,980
there's been a lot of data analyzed so

507
00:21:32,070 --> 00:21:28,179
they're confident enough that they are

508
00:21:34,740 --> 00:21:32,080
still gonna say that you know and it's

509
00:21:36,570 --> 00:21:34,750
not just shock value or for TV or for

510
00:21:37,830 --> 00:21:36,580
ratings like cousin it would look stupid

511
00:21:40,380 --> 00:21:37,840
if there wasn't anything to back these

512
00:21:41,909 --> 00:21:40,390
things up with so you have to just trust

513
00:21:45,750 --> 00:21:41,919

that they're not trying to make

514

00:21:48,870 --> 00:21:45,760

themselves look stupid you know it's

515

00:21:50,490 --> 00:21:48,880

it's the magic of TV oh yeah and you

516

00:21:55,649 --> 00:21:50,500

know there was a lot of attention paid

517

00:21:58,680 --> 00:21:55,659

to the UFOs on this episode and I get

518

00:22:02,010 --> 00:21:58,690

that I really do because visual is very

519

00:22:04,769 --> 00:22:02,020

exciting so and as as we talked about on

520

00:22:06,990 --> 00:22:04,779

this show as Dragon has talked about I

521

00:22:09,000 --> 00:22:07,000

mean when you have UFO sighting for

522

00:22:10,710 --> 00:22:09,010

yourself it's incredibly exciting it's

523

00:22:13,110 --> 00:22:10,720

something visual we can look at and say

524

00:22:16,139 --> 00:22:13,120

wow there's something there that's great

525

00:22:18,720 --> 00:22:16,149

but when it comes to skinwalker ranch

526

00:22:21,029 --> 00:22:18,730

and and the testing and everything for

527

00:22:24,630 --> 00:22:21,039

me I mean yeah something in the sky is

528

00:22:26,460 --> 00:22:24,640

cool but there's so much more exciting

529

00:22:30,779 --> 00:22:26,470

things happening on the ranch in terms

530

00:22:33,389 --> 00:22:30,789

of you know the electromagnetic

531

00:22:34,830 --> 00:22:33,399

magnetism in the microwave radiation I

532

00:22:36,870 --> 00:22:34,840

mean this stuff is happening they're

533

00:22:38,399 --> 00:22:36,880

measuring it it's hurting people they're

534

00:22:40,560 --> 00:22:38,409

they're having physical effects to it

535

00:22:42,530 --> 00:22:40,570

you know that's that to me that's so

536

00:22:44,720 --> 00:22:42,540

much more exciting

537

00:22:47,210 --> 00:22:44,730

if that's the right word then then the

538

00:22:49,220 --> 00:22:47,220

UFOs I mean I'm a UFO guy I love UFOs

539

00:22:51,650 --> 00:22:49,230

but again just seeing something in the

540

00:22:52,850 --> 00:22:51,660

sky yeah that's fun and so I can see

541

00:22:54,860 --> 00:22:52,860

where they're going with that maybe more

542

00:22:55,820 --> 00:22:54,870

experiments we can try to send messages

543

00:22:58,850 --> 00:22:55,830

and see what happens

544

00:23:01,730 --> 00:22:58,860

but with everything else we saw this

545

00:23:03,500 --> 00:23:01,740

season all the the e/m activity

546

00:23:07,280 --> 00:23:03,510

happening is far more exciting to me

547

00:23:09,680 --> 00:23:07,290

personally Orion is that soul true yeah

548

00:23:11,960 --> 00:23:09,690

I think I'd agree because you have the

549

00:23:15,050 --> 00:23:11,970

situation where unknown crafts are

550

00:23:17,540 --> 00:23:15,060

spotted all over the world often maybe

551
00:23:22,900 --> 00:23:17,550
in a more condensed version above the

552
00:23:25,850 --> 00:23:22,910
ranch and it's the idea of tying why if

553
00:23:28,670 --> 00:23:25,860
there are unknown objects flying above

554
00:23:31,190 --> 00:23:28,680
the ranch why are they attracted there

555
00:23:34,040 --> 00:23:31,200
and why they would be attracted there is

556
00:23:35,510 --> 00:23:34,050
something based on the ground like

557
00:23:38,870 --> 00:23:35,520
Jason's meant to mention you know we're

558
00:23:41,900 --> 00:23:38,880
underground or you know I don't know

559
00:23:45,200 --> 00:23:41,910
there had to be something interesting

560
00:23:48,080 --> 00:23:45,210
going on there so for me I agree i think

561
00:23:50,270 --> 00:23:48,090
it's it's like the study of the area and

562
00:23:52,310 --> 00:23:50,280
why things would be happening that are

563
00:23:55,730 --> 00:23:52,320

strange not necessarily flying you know

564

00:23:59,660 --> 00:23:55,740

stopping by like flying overhead you

565

00:24:02,090 --> 00:23:59,670

know I whatever I look for show ideas or

566

00:24:04,400 --> 00:24:02,100

think of ideas it my brain always works

567

00:24:07,310 --> 00:24:04,410

if that then what else and so the stuff

568

00:24:11,540 --> 00:24:07,320

that we've been presented right now just

569

00:24:13,940 --> 00:24:11,550

if I was just a doer the the UFO the

570

00:24:15,530 --> 00:24:13,950

first one you know the the the shiny one

571

00:24:19,610 --> 00:24:15,540

that we saw when they were launching

572

00:24:23,300 --> 00:24:19,620

rockets there well the multiple once I

573

00:24:26,030 --> 00:24:23,310

would love to see where that image if

574

00:24:28,070 --> 00:24:26,040

that appears were other what other

575

00:24:30,050 --> 00:24:28,080

locations have people seen that or has

576

00:24:33,080 --> 00:24:30,060

that been documented that same type of

577

00:24:34,940 --> 00:24:33,090

reflective orb all right I mean there's

578

00:24:38,270 --> 00:24:34,950

tons of them but I mean yeah if you can

579

00:24:41,240 --> 00:24:38,280

right but but the part if that then what

580

00:24:44,210 --> 00:24:41,250

else is if you can find that orb and

581

00:24:46,460 --> 00:24:44,220

then hopefully we can get Eric to talk

582

00:24:49,520 --> 00:24:46,470

about this or or maybe other people

583

00:24:52,220 --> 00:24:49,530

listening know this how were those

584

00:24:54,470 --> 00:24:52,230

readings of the electromagnetic field in

585

00:24:55,670 --> 00:24:54,480

the microwave all the way up to 5,000

586

00:24:57,170 --> 00:24:55,680

feet how were those

587

00:24:59,570 --> 00:24:57,180

sharbat when Eric showed that really

588

00:25:01,250 --> 00:24:59,580

cool graphic what tech was used to

589

00:25:05,270 --> 00:25:01,260

present that almost like that wave that

590

00:25:07,190 --> 00:25:05,280

that waterfall of you know of microwaves

591

00:25:09,890 --> 00:25:07,200

so if you can then find the correlation

592

00:25:12,020 --> 00:25:09,900

where those objects appear and you're

593

00:25:13,400 --> 00:25:12,030

getting that same kind of reading that

594

00:25:14,810 --> 00:25:13,410

same kind of each so now you're having

595

00:25:16,730 --> 00:25:14,820

two data points that you're being able

596

00:25:18,020 --> 00:25:16,740

to put together can you find multiple

597

00:25:19,850 --> 00:25:18,030

locations on the planet that that

598

00:25:21,740 --> 00:25:19,860

happens like that's where my head goes

599

00:25:22,850 --> 00:25:21,750

immediately like taking whatever data we

600

00:25:25,280 --> 00:25:22,860

can find in saying okay there's

601
00:25:26,780 --> 00:25:25,290
commonalities between these try to match

602
00:25:29,150 --> 00:25:26,790
up as many commonalities as we can and

603
00:25:30,710 --> 00:25:29,160
then see like okay other people see

604
00:25:32,240 --> 00:25:30,720
these in Hong Kong people see these orbs

605
00:25:35,120 --> 00:25:32,250
in New York so they see people see okay

606
00:25:37,400 --> 00:25:35,130
great so those locations then find what

607
00:25:38,950 --> 00:25:37,410
the the e/m readings are there or find

608
00:25:41,560 --> 00:25:38,960
out what the you know the microwave

609
00:25:44,150 --> 00:25:41,570
readings are there does anything looks

610
00:25:45,200 --> 00:25:44,160
the same and then you can at least start

611
00:25:46,850 --> 00:25:45,210
with okay well there's two data points

612
00:25:49,700 --> 00:25:46,860
what's a third can we find another one

613
00:25:51,440 --> 00:25:49,710

that matches I don't know I just think

614

00:25:52,610 --> 00:25:51,450

that that's you're gonna see people I'm

615

00:25:55,190 --> 00:25:52,620

hoping people are gonna start doing

616

00:25:58,160 --> 00:25:55,200

these kinds of things to really push

617

00:25:59,690 --> 00:25:58,170

this forward it would be great if you

618

00:26:02,030 --> 00:25:59,700

know but a lot of people don't have the

619

00:26:03,440 --> 00:26:02,040

resources and equipment to actually even

620

00:26:05,900 --> 00:26:03,450

test that kind of thing if they see a

621

00:26:09,770 --> 00:26:05,910

silver orb in the sky they have gotten

622

00:26:11,540 --> 00:26:09,780

they may be in a huge city and see it go

623

00:26:14,030 --> 00:26:11,550

by and take one picture and how are you

624

00:26:16,400 --> 00:26:14,040

supposed to get measures for that so

625

00:26:18,800 --> 00:26:16,410

yeah it's it's like a dream wish that is

626
00:26:21,140 --> 00:26:18,810
probably not gonna happen anytime

627
00:26:23,540 --> 00:26:21,150
soon the part of me though that there's

628
00:26:26,090 --> 00:26:23,550
a lot of publicly available data if you

629
00:26:27,980 --> 00:26:26,100
know where to look for it like the lidar

630
00:26:29,540 --> 00:26:27,990
data from the ranch like that stuff I

631
00:26:31,610 --> 00:26:29,550
mean there is there's some really

632
00:26:34,190 --> 00:26:31,620
detailed data if you look there's

633
00:26:37,070 --> 00:26:34,200
databases I mean ton like open source

634
00:26:38,710 --> 00:26:37,080
databases of mapping lidar mapping from

635
00:26:41,060 --> 00:26:38,720
all over the country but there's also

636
00:26:42,860 --> 00:26:41,070
measurements of different of elements in

637
00:26:45,440 --> 00:26:42,870
all over the country so I'm wondering if

638
00:26:49,250 --> 00:26:45,450

there are measurements of of any of

639

00:26:50,870 --> 00:26:49,260

these other of microwaves of EMV or any

640

00:26:54,290 --> 00:26:50,880

kind of radiation like there must be

641

00:26:55,670 --> 00:26:54,300

somewhere there an open-source database

642

00:26:58,310 --> 00:26:55,680

of this stuff that people are

643

00:27:00,080 --> 00:26:58,320

contributing to and I can't think of the

644

00:27:01,370 --> 00:27:00,090

name the technical terms of these things

645

00:27:02,840 --> 00:27:01,380

right now the names of them there's a

646

00:27:05,090 --> 00:27:02,850

couple that we used to use in

647

00:27:07,220 --> 00:27:05,100

researching stuff for the ranch but like

648

00:27:08,930 --> 00:27:07,230

you just go on and you could do overlays

649

00:27:10,520 --> 00:27:08,940

in Google Maps like literally you can

650

00:27:12,770 --> 00:27:10,530

bring in these they're called like KL

651
00:27:14,990 --> 00:27:12,780
KML files or something you import them

652
00:27:17,180 --> 00:27:15,000
into Google Earth and then there's a

653
00:27:19,520 --> 00:27:17,190
layover I mean it's just the layers of

654
00:27:22,159 --> 00:27:19,530
data then it's just there people just

655
00:27:23,870 --> 00:27:22,169
don't know what to look for that's the

656
00:27:26,539 --> 00:27:23,880
hardest thing I guess to find or figure

657
00:27:29,060 --> 00:27:26,549
out but I mean if you can it's this is

658
00:27:30,380 --> 00:27:29,070
just like you know I always get up not

659
00:27:31,510 --> 00:27:30,390
upset but I get annoyed with the

660
00:27:34,580 --> 00:27:31,520
ghost-hunting

661
00:27:36,890 --> 00:27:34,590
shows because it's like okay set up

662
00:27:39,200 --> 00:27:36,900
every freaking piece of equipment you

663
00:27:41,480 --> 00:27:39,210

can every time somebody says they see

664

00:27:44,510 --> 00:27:41,490

something take every reading that's

665

00:27:46,279 --> 00:27:44,520

there every one of them at all times if

666

00:27:47,870 --> 00:27:46,289

that if you can reproduce all of those

667

00:27:49,370 --> 00:27:47,880

readings and then you see something or

668

00:27:52,100 --> 00:27:49,380

experience something then you know

669

00:27:53,870 --> 00:27:52,110

oh when this happens this happens great

670

00:27:55,850 --> 00:27:53,880

and then just keep digging drilling down

671

00:27:58,070 --> 00:27:55,860

drilling down drilling down at some

672

00:28:00,200 --> 00:27:58,080

point Tech is gonna catch up with us to

673

00:28:02,779 --> 00:28:00,210

be able to answer these um notes it's

674

00:28:05,960 --> 00:28:02,789

just a matter of which tech so an

675

00:28:10,039 --> 00:28:05,970

open-source data gathering is fantastic

676

00:28:12,680 --> 00:28:10,049

but it also has lots of problems and

677

00:28:14,659 --> 00:28:12,690

those problems are what make what's

678

00:28:17,720 --> 00:28:14,669

happening on the ranch special because

679

00:28:20,960 --> 00:28:17,730

again this is a laboratory it's a

680

00:28:23,419 --> 00:28:20,970

working laboratory that tries to have a

681

00:28:26,570 --> 00:28:23,429

controlled environment and has a team

682

00:28:29,690 --> 00:28:26,580

there actively you know conducting these

683

00:28:32,149 --> 00:28:29,700

experiments and they've got you know a

684

00:28:34,399 --> 00:28:32,159

good base that they're working with they

685

00:28:36,200 --> 00:28:34,409

know what you know usual readings they

686

00:28:38,029 --> 00:28:36,210

have there and what's abnormal and

687

00:28:39,649 --> 00:28:38,039

things like that whereas if somebody

688

00:28:41,870 --> 00:28:39,659

like me was just walking around and

689

00:28:43,760 --> 00:28:41,880

taking readings I'd go oh wow this area

690

00:28:46,190 --> 00:28:43,770

is high right how would I know that cuz

691

00:28:49,220 --> 00:28:46,200

I'm not there for months on end you know

692

00:28:51,500 --> 00:28:49,230

taking readings so I mean that's where

693

00:28:53,899 --> 00:28:51,510

Eric you know he he always he was saying

694

00:28:56,659 --> 00:28:53,909

about the sufficiently motivated high

695

00:28:58,730 --> 00:28:56,669

school student you know it's if you but

696

00:29:00,140 --> 00:28:58,740

you have to know what it is that you

697

00:29:02,299 --> 00:29:00,150

need to be doing you don't have to have

698

00:29:04,250 --> 00:29:02,309

any special abilities you just have to

699

00:29:06,799 --> 00:29:04,260

know okay I need to set a baseline like

700

00:29:07,940 --> 00:29:06,809

what is what are the steps Eric I'm sure

701
00:29:10,460 --> 00:29:07,950
he's going to put that out there cuz he

702
00:29:12,320 --> 00:29:10,470
wants this kind of citizen scientist he

703
00:29:15,020 --> 00:29:12,330
wants people to start looking for these

704
00:29:17,419 --> 00:29:15,030
things like there's just so much info

705
00:29:18,890 --> 00:29:17,429
available that he can't possibly as a

706
00:29:19,370 --> 00:29:18,900
human you know as one person and go

707
00:29:22,010 --> 00:29:19,380
through it

708
00:29:27,530 --> 00:29:22,020
so and I don't think he wants to write

709
00:29:31,100 --> 00:29:27,540
the code in Python to do it well I think

710
00:29:33,530 --> 00:29:31,110
this episode episode 8 did a good job of

711
00:29:36,230 --> 00:29:33,540
recapping what we saw for the first

712
00:29:38,630 --> 00:29:36,240
season I'm left with a whole lot of

713
00:29:40,610 --> 00:29:38,640

unanswered questions but you know that's

714

00:29:43,220 --> 00:29:40,620

what happens in a season 1 of a show and

715

00:29:45,650 --> 00:29:43,230

I think Eric you know gave me some

716

00:29:48,050 --> 00:29:45,660

excitement there at the end with his his

717

00:29:50,660 --> 00:29:48,060

little pulling us geographical survey

718

00:29:52,580 --> 00:29:50,670

data and creating that freaky looking

719

00:29:55,250 --> 00:29:52,590

map with laser beams shooting all over

720

00:29:57,140 --> 00:29:55,260

the place so I think with the things

721

00:29:59,900 --> 00:29:57,150

they mentioned you know communicating

722

00:30:02,060 --> 00:29:59,910

with extraterrestrials on there too I

723

00:30:04,400 --> 00:30:02,070

think they they're setting up some

724

00:30:07,730 --> 00:30:04,410

really cool experiments for the next

725

00:30:10,820 --> 00:30:07,740

season so all I'll be excited to watch

726

00:30:15,470 --> 00:30:10,830

that like launching a satellite into

727

00:30:18,500 --> 00:30:15,480

space yes that's a husband no that

728

00:30:20,750 --> 00:30:18,510

didn't been talked about for long I mean

729

00:30:22,910 --> 00:30:20,760

I think that was uh I don't think that's

730

00:30:24,470 --> 00:30:22,920

any kind of secretive technology I

731

00:30:26,090 --> 00:30:24,480

didn't even know until a few years ago I

732

00:30:27,590 --> 00:30:26,100

didn't know you did good any human being

733

00:30:29,420 --> 00:30:27,600

anybody can go and do that you can order

734

00:30:33,680 --> 00:30:29,430

a satellite now it should you know

735

00:30:36,830 --> 00:30:33,690

launching this space for right them

736

00:30:39,260 --> 00:30:36,840

specifically doing that oh yes yeah like

737

00:30:40,520 --> 00:30:39,270

I mean it

738

00:30:42,260 --> 00:30:40,530

travelers would know exactly what to put

739

00:30:43,940 --> 00:30:42,270

on it as well so it's gonna be

740

00:30:45,260 --> 00:30:43,950

interesting to see how that turns out

741

00:30:46,670 --> 00:30:45,270

there's gonna be a lot of cool

742

00:30:48,410 --> 00:30:46,680

experiments and it's gonna be a lot of

743

00:30:51,290 --> 00:30:48,420

you can tell you this I know they're

744

00:30:53,420 --> 00:30:51,300

gonna be a lot of money spent sure you

745

00:30:55,160 --> 00:30:53,430

know Brandon is in your side at all he's

746

00:30:57,770 --> 00:30:55,170

in a for long haul man that guy's not

747

00:31:01,610 --> 00:30:57,780

screwing around so nice but this is

748

00:31:03,470 --> 00:31:01,620

great um well you know hopefully we keep

749

00:31:06,500 --> 00:31:03,480

these going and we'll try to get more

750

00:31:08,540 --> 00:31:06,510

the guys back I can see about you know

751
00:31:11,000 --> 00:31:08,550
maybe next week we can try to keep doing

752
00:31:14,270 --> 00:31:11,010
our weeklies and if I can get an update

753
00:31:15,830 --> 00:31:14,280
from them or you know I will and if we

754
00:31:18,260 --> 00:31:15,840
can bring somebody back on we can you

755
00:31:19,730 --> 00:31:18,270
know I will but I know they're they're

756
00:31:22,670 --> 00:31:19,740
pretty busy right now which is a good

757
00:31:25,430 --> 00:31:22,680
thing for everyone who's interested in

758
00:31:27,500 --> 00:31:25,440
it so it's I'm just glad that everyone

759
00:31:30,200 --> 00:31:27,510
got a chance to see like okay you know

760
00:31:32,720 --> 00:31:30,210
the first eight you know squirt it's

761
00:31:35,030 --> 00:31:32,730
awesome show rated really well

762
00:31:38,710 --> 00:31:35,040
the season coming hopefully it'll be

763
00:31:41,180 --> 00:31:38,720

another you know 10 15 seasons who knows

764

00:31:43,850 --> 00:31:41,190

you know what they find you know and and

765

00:31:45,590 --> 00:31:43,860

again the rumor of oh if they found

766

00:31:47,870 --> 00:31:45,600

something meaningful we would know it no

767

00:31:51,530 --> 00:31:47,880

you wouldn't know people stop thinking

768

00:31:54,950 --> 00:31:51,540

that you would not know if something was

769

00:31:56,240 --> 00:31:54,960

found that you know it would be kept

770

00:31:59,990 --> 00:31:56,250

under wraps things have been kept under

771

00:32:02,180 --> 00:32:00,000

wraps for a very long time so you know

772

00:32:03,970 --> 00:32:02,190

it's the magic of TV man you're just

773

00:32:06,380 --> 00:32:03,980

gonna keep remembering that this is a

774

00:32:08,990 --> 00:32:06,390

business like any other business so

775

00:32:11,990 --> 00:32:09,000

magic and the curse of TV and the curse

776

00:32:14,090 --> 00:32:12,000

of TV yes yes in the curse of TV but

777

00:32:14,950 --> 00:32:14,100

nobody's but there's just no that

778

00:32:20,990 --> 00:32:14,960

there's no

779

00:32:23,900 --> 00:32:21,000

it's all being open you know Marie I

780

00:32:26,419 --> 00:32:23,910

mean we talked about this before Brandon

781

00:32:28,220 --> 00:32:26,429

went on you know podcast with some noted

782

00:32:30,530 --> 00:32:28,230

debunker guy like and he put himself out

783

00:32:32,630 --> 00:32:30,540

there and you can understand for Brandon

784

00:32:34,520 --> 00:32:32,640

to go and do that guy's clearly not

785

00:32:36,289 --> 00:32:34,530

trying to hide anything he's not gonna

786

00:32:38,360 --> 00:32:36,299

put himself in you know the lion's den

787

00:32:41,480 --> 00:32:38,370

and be like oh man this guy's gonna

788

00:32:44,600 --> 00:32:41,490

protect me I'm gonna look stupid no you

789

00:32:46,909 --> 00:32:44,610

know he he went out there and you know I

790

00:32:49,039 --> 00:32:46,919

think he's been very vocal about this

791

00:32:51,080 --> 00:32:49,049

show would not have happened if you know

792

00:32:54,039 --> 00:32:51,090

the channel did not meet my demands

793

00:32:56,630 --> 00:32:54,049

which was you know having my team and

794

00:33:00,650 --> 00:32:56,640

not faking anything showing the real

795

00:33:04,130 --> 00:33:00,660

science and what's going on and stuck by

796

00:33:06,049 --> 00:33:04,140

that and yeah Mick West's interview with

797

00:33:09,820 --> 00:33:06,059

him on I think it was it was the last

798

00:33:12,770 --> 00:33:09,830

Friday people can go check that out and

799

00:33:15,909 --> 00:33:12,780

you can see also where you have this

800

00:33:18,770 --> 00:33:15,919

noted debunker who is the one who

801
00:33:21,650 --> 00:33:18,780
suggested hey look I think I found exact

802
00:33:24,500 --> 00:33:21,660
the exact helicopter data and what the

803
00:33:27,250 --> 00:33:24,510
helicopter was doing that that was seen

804
00:33:29,360 --> 00:33:27,260
in episode I don't know six or seven and

805
00:33:31,100 --> 00:33:29,370
Brandon said thank you very much for

806
00:33:34,070 --> 00:33:31,110
your research just was really incredible

807
00:33:36,470 --> 00:33:34,080
you know blah blah blah it wasn't

808
00:33:38,090 --> 00:33:36,480
something like how are you that was

809
00:33:40,490 --> 00:33:38,100
definitely a government helicopter

810
00:33:42,680 --> 00:33:40,500
watching us it was like whoa cool like

811
00:33:44,659 --> 00:33:42,690
this is what we need we need people

812
00:33:46,810 --> 00:33:44,669
keeping their eyes open and doing that

813
00:33:49,960 --> 00:33:46,820

so yeah

814

00:33:52,660 --> 00:33:49,970

and you guys how tell us how did the

815

00:33:53,650 --> 00:33:52,670

panel go I was on a strange the

816

00:33:55,330 --> 00:33:53,660

skinwalker panel

817

00:34:00,870 --> 00:33:55,340

I mean you for those who missed it where

818

00:34:02,860 --> 00:34:00,880

can people go and still see this soon

819

00:34:04,290 --> 00:34:02,870

yeah I don't know when Dayton's

820

00:34:08,290 --> 00:34:04,300

uploading it to the YouTube channel

821

00:34:09,580 --> 00:34:08,300

uploading it either but all the

822

00:34:12,460 --> 00:34:09,590

presentations will be uploaded to the

823

00:34:13,240 --> 00:34:12,470

road planet YouTube channel ok and for

824

00:34:16,810 --> 00:34:13,250

those who don't know there was a

825

00:34:21,570 --> 00:34:16,820

skinwalker panel at 4:00 at all the

826

00:34:25,000 --> 00:34:21,580

strange the virtual panel that we did

827

00:34:27,490 --> 00:34:25,010

hosted by Maureen and well obviously

828

00:34:28,840 --> 00:34:27,500

Jason was there as well

829

00:34:32,020 --> 00:34:28,850

so you got to see a bunch of the guys

830

00:34:35,080 --> 00:34:32,030

from the ranch and it was great and so

831

00:34:37,960 --> 00:34:35,090

just you know if you want more ranch

832

00:34:40,690 --> 00:34:37,970

content just keep lookout on the rogue

833

00:34:43,330 --> 00:34:40,700

planet channel and Grayson will get it

834

00:34:44,440 --> 00:34:43,340

up soon you can imagine that your prey

835

00:34:45,580 --> 00:34:44,450

you're probably slammed with a whole

836

00:34:50,500 --> 00:34:45,590

bunch of these things that you got to

837

00:34:53,350 --> 00:34:50,510

get up there home I'm not in a rush yeah

838

00:34:54,910 --> 00:34:53,360

J well anyway that's uh that's it again

839

00:34:56,980 --> 00:34:54,920

for another week of the skinwalker

840

00:34:58,930 --> 00:34:56,990

debrief and thanks to everyone for

841

00:35:01,960 --> 00:34:58,940

tuning in and making this show a huge

842

00:35:04,810 --> 00:35:01,970

success and I decide I'm still looking

843

00:35:06,610 --> 00:35:04,820

for show ideas and talent and so people

844

00:35:10,000 --> 00:35:06,620

feel free to reach out to me personally

845

00:35:11,680 --> 00:35:10,010

on Twitter just at TJ Allard because I'm

846

00:35:14,260 --> 00:35:11,690

still trying to look for the next the

847

00:35:16,930 --> 00:35:14,270

next show it doesn't always have to be

848

00:35:20,140 --> 00:35:16,940

in this genre I do other programming

849

00:35:22,690 --> 00:35:20,150

this is just one of the this is just the

850

00:35:24,780 --> 00:35:22,700

really big one that I couldn't pass up

851
00:35:27,640 --> 00:35:24,790
an opportunity to kind of push through

852
00:35:28,750 --> 00:35:27,650
but um you guys what else you have

853
00:35:30,570 --> 00:35:28,760
coming up is there anything else you

854
00:35:33,700 --> 00:35:30,580
should plug it's coming up right now

855
00:35:35,260 --> 00:35:33,710
yeah we just finished all the strange

856
00:35:37,900 --> 00:35:35,270
like you said that was our be a virtual

857
00:35:39,880 --> 00:35:37,910
Expo that took a lot of time out of us

858
00:35:44,230 --> 00:35:39,890
so we're kind of resting right now

859
00:35:46,750 --> 00:35:44,240
sure still doing our bi-weekly UFO

860
00:35:50,410 --> 00:35:46,760
podcast called unknown find that

861
00:35:52,120 --> 00:35:50,420
everywhere podcasts are found and like

862
00:35:55,810 --> 00:35:52,130
this show everything we do is at rogue

863
00:35:58,810 --> 00:35:55,820

planet TV awesome well thank you again

864

00:36:00,220 --> 00:35:58,820

both of you for you know participating

865

00:36:02,020 --> 00:36:00,230

in this and yeah like

866

00:36:04,300 --> 00:36:02,030

we'll try to do it next week again with

867

00:36:06,300 --> 00:36:04,310

someone see what you can bring in and uh

868

00:36:08,620 --> 00:36:06,310

you know I can't even I'll you know what

869

00:36:09,640 --> 00:36:08,630

let's can I keep it a surprise but if

870

00:36:11,500 --> 00:36:09,650

you people if people have questions

871

00:36:14,710 --> 00:36:11,510

still send them you know keep hitting

872

00:36:16,359 --> 00:36:14,720

the pot the skinwalker pod on Twitter

873

00:36:19,359 --> 00:36:16,369

with questions around in the Facebook

874

00:36:21,040 --> 00:36:19,369

group or email would be great we'll

875

00:36:24,400 --> 00:36:21,050

still know we'll address it when we can

876

00:36:26,170 --> 00:36:24,410

and that's all thanks again for everyone

877

00:36:26,690 --> 00:36:26,180

making this a huge success and for
