

ROGUE PLANET PRESENTS

UFO
HAPPY
HOUR

001

That UFO Report

1
00:00:19,590 --> 00:00:17,430
look what time it is it's ufo happy hour

2
00:00:22,070 --> 00:00:19,600
welcome to the bar friends this is our

3
00:00:24,870 --> 00:00:22,080
very first episode of our brand new show

4
00:00:26,790 --> 00:00:24,880
ufo happy hour we've been doing ufo

5
00:00:28,790 --> 00:00:26,800
happy hour episodes for years but

6
00:00:31,349 --> 00:00:28,800
they've been periodic episodes

7
00:00:32,630 --> 00:00:31,359
on our other shows so we decided to pull

8
00:00:34,870 --> 00:00:32,640
ufo happy hour out

9
00:00:36,389 --> 00:00:34,880
and make it its own show and that's what

10
00:00:38,229 --> 00:00:36,399
we have here

11
00:00:39,990 --> 00:00:38,239
i'm thrilled to have with me today at

12
00:00:42,709 --> 00:00:40,000
the bar my dear friends

13
00:00:43,430 --> 00:00:42,719

maureen ellsberry ryan sprague and shane

14

00:00:45,750 --> 00:00:43,440

heard

15

00:00:47,830 --> 00:00:45,760

welcome friends it is fantastic to see

16

00:00:50,630 --> 00:00:47,840

you you too

17

00:00:52,310 --> 00:00:50,640

you too awesome to see you man finally

18

00:00:55,430 --> 00:00:52,320

it's been a long time finally

19

00:00:57,510 --> 00:00:55,440

finally well it shouldn't be surprising

20

00:00:59,590 --> 00:00:57,520

but the primary subject we're chatting

21

00:01:01,430 --> 00:00:59,600

about today is that little ufo report

22

00:01:03,189 --> 00:01:01,440

that saw the light of day last week

23

00:01:04,789 --> 00:01:03,199

of course we're talking about the ufo

24

00:01:06,070 --> 00:01:04,799

report from the office of the director

25

00:01:07,670 --> 00:01:06,080

of national intelligence

26

00:01:09,109 --> 00:01:07,680

the one that was requested by the senate

27

00:01:10,070 --> 00:01:09,119

select committee on intelligence last

28

00:01:12,230 --> 00:01:10,080

summer

29

00:01:14,070 --> 00:01:12,240

a classified version of this report was

30

00:01:14,950 --> 00:01:14,080

delivered to congress on friday june

31

00:01:16,870 --> 00:01:14,960

25th

32

00:01:19,350 --> 00:01:16,880

and the unclassified version was also

33

00:01:21,590 --> 00:01:19,360

released to the public on that same day

34

00:01:24,149 --> 00:01:21,600

the report officially titled preliminary

35

00:01:26,950 --> 00:01:24,159

report unidentified aerial phenomena

36

00:01:29,190 --> 00:01:26,960

is just nine concise pages but there's

37

00:01:30,950 --> 00:01:29,200

plenty of good information in this thing

38

00:01:32,469 --> 00:01:30,960

we'll talk about some specific items in

39

00:01:34,630 --> 00:01:32,479

the report but

40

00:01:35,910 --> 00:01:34,640

before we do i want to give us all an

41

00:01:38,710 --> 00:01:35,920

opportunity to share

42

00:01:40,550 --> 00:01:38,720

our individual initial reactions to

43

00:01:43,270 --> 00:01:40,560

reading this ufo report

44

00:01:44,870 --> 00:01:43,280

so ryan why don't you start uh what did

45

00:01:46,870 --> 00:01:44,880

you think buddy after

46

00:01:48,069 --> 00:01:46,880

reading this thing for the first time

47

00:01:50,069 --> 00:01:48,079

yeah i mean

48

00:01:51,910 --> 00:01:50,079

you know everyone's kind of comparing it

49

00:01:53,590 --> 00:01:51,920

to christmas like we are waiting

50

00:01:56,069 --> 00:01:53,600

it's like christmas eve waiting to open

51
00:01:59,429 --> 00:01:56,079
the present and then the present came

52
00:02:00,389 --> 00:01:59,439
and i will say you know the first time i

53
00:02:02,950 --> 00:02:00,399
read it

54
00:02:04,630 --> 00:02:02,960
it was kind of like i i keep to

55
00:02:07,429 --> 00:02:04,640
comparing it to like

56
00:02:08,229 --> 00:02:07,439
you wanted a playstation 5 and you got a

57
00:02:11,350 --> 00:02:08,239
cartridge

58
00:02:13,030 --> 00:02:11,360
to like an atari or something and the

59
00:02:16,869 --> 00:02:13,040
first time i read it

60
00:02:17,990 --> 00:02:16,879
i was like okay one was a cover page one

61
00:02:20,470 --> 00:02:18,000
was an appendix

62
00:02:21,350 --> 00:02:20,480
so really it was like seven pages of

63
00:02:24,710 --> 00:02:21,360

material

64

00:02:25,589 --> 00:02:24,720

but initial reactions uh i felt pretty

65

00:02:27,750 --> 00:02:25,599

deflated

66

00:02:29,910 --> 00:02:27,760

and let down and i sure will get into

67

00:02:31,110 --> 00:02:29,920

you know upon reading in a second or

68

00:02:33,589 --> 00:02:31,120

third or fourth time

69

00:02:34,229 --> 00:02:33,599

you start to really find some nuggets in

70

00:02:36,790 --> 00:02:34,239

there

71

00:02:37,509 --> 00:02:36,800

and i'll say right now at least fast

72

00:02:39,030 --> 00:02:37,519

forward

73

00:02:40,630 --> 00:02:39,040

i feel pretty damn good about it i

74

00:02:41,350 --> 00:02:40,640

thought there was some some good stuff

75

00:02:44,309 --> 00:02:41,360

in there

76

00:02:46,229 --> 00:02:44,319

um so yeah at first you know atari

77

00:02:48,869 --> 00:02:46,239

cartridge but now i'm at like uh

78

00:02:49,990 --> 00:02:48,879

maybe a super nintendo sega genesis

79

00:02:51,750 --> 00:02:50,000

maybe

80

00:02:52,949 --> 00:02:51,760

nice moving up yeah how about you

81

00:02:54,470 --> 00:02:52,959

maureen what do you think about this i

82

00:02:56,070 --> 00:02:54,480

think there's nothing surprising for

83

00:02:59,110 --> 00:02:56,080

most of us in here i

84

00:03:01,270 --> 00:02:59,120

had very very low expectations so

85

00:03:03,589 --> 00:03:01,280

um to me this is a lot of stuff we

86

00:03:07,509 --> 00:03:03,599

already knew was going on or happening

87

00:03:07,910 --> 00:03:07,519

but there are some some positive things

88

00:03:09,750 --> 00:03:07,920

that

89

00:03:11,190 --> 00:03:09,760

are you know the government's

90

00:03:14,550 --> 00:03:11,200

recognizing that

91

00:03:16,550 --> 00:03:14,560

yes this centralized reporting is super

92

00:03:18,149 --> 00:03:16,560

needed from different organizations and

93

00:03:21,030 --> 00:03:18,159

they need to get their act together

94

00:03:22,229 --> 00:03:21,040

i mean we've been slowly reporting not

95

00:03:25,509 --> 00:03:22,239

just in the government

96

00:03:27,110 --> 00:03:25,519

about when official organizations or you

97

00:03:28,630 --> 00:03:27,120

know like

98

00:03:31,270 --> 00:03:28,640

i don't remember what it was like the

99

00:03:33,030 --> 00:03:31,280

fire department of

100

00:03:35,110 --> 00:03:33,040

somewhere that all of a sudden they'll

101
00:03:38,070 --> 00:03:35,120
start adding in little

102
00:03:40,070 --> 00:03:38,080
clips that that are how to report on on

103
00:03:42,390 --> 00:03:40,080
ufos or uav

104
00:03:43,750 --> 00:03:42,400
um so this is good and it's a positive

105
00:03:45,750 --> 00:03:43,760
move forward

106
00:03:46,949 --> 00:03:45,760
from what we're seeing now and again as

107
00:03:50,949 --> 00:03:46,959
you mentioned

108
00:03:54,710 --> 00:03:50,959
we we got seven pages of content

109
00:03:57,190 --> 00:03:54,720
they got a lot more that went in depth

110
00:03:58,309 --> 00:03:57,200
um and when i first read it i was

111
00:03:59,670 --> 00:03:58,319
waiting i was

112
00:04:01,429 --> 00:03:59,680
when they start talking about the

113
00:04:01,910 --> 00:04:01,439

different things they've decided you

114

00:04:04,229 --> 00:04:01,920

know

115

00:04:05,110 --> 00:04:04,239

there's going to be these five sections

116

00:04:06,789 --> 00:04:05,120

uh

117

00:04:08,630 --> 00:04:06,799

that they believe that they're going to

118

00:04:10,710 --> 00:04:08,640

be able to categorize

119

00:04:11,830 --> 00:04:10,720

everything and that's including the

120

00:04:15,030 --> 00:04:11,840

mysterious other

121

00:04:17,430 --> 00:04:15,040

obviously which is where

122

00:04:18,949 --> 00:04:17,440

traditional uip reporting of what if

123

00:04:19,670 --> 00:04:18,959

it's extraterrestrial in nature will

124

00:04:22,230 --> 00:04:19,680

fall

125

00:04:23,510 --> 00:04:22,240

however i kept waiting for i saw a

126

00:04:24,790 --> 00:04:23,520

natural atmospheric

127

00:04:26,870 --> 00:04:24,800

phenomenon and i was like where's the

128

00:04:29,270 --> 00:04:26,880

small gas and uh

129

00:04:30,629 --> 00:04:29,280

instead i got instead i got ice crystals

130

00:04:37,670 --> 00:04:30,639

so

131

00:04:40,310 --> 00:04:37,680

like ryan said

132

00:04:42,150 --> 00:04:40,320

there are some little nuggets in there i

133

00:04:44,390 --> 00:04:42,160

think one of the most exciting

134

00:04:45,590 --> 00:04:44,400

things is they're realizing hey we can

135

00:04:49,350 --> 00:04:45,600

use machine learning

136

00:04:52,310 --> 00:04:49,360

and ai to our benefit to

137

00:04:52,710 --> 00:04:52,320

try to begin to learn and categorize

138

00:04:55,590 --> 00:04:52,720

about

139

00:04:56,390 --> 00:04:55,600

reports and understand what's happening

140

00:04:59,350 --> 00:04:56,400

and

141

00:05:00,230 --> 00:04:59,360

i think by you know how how crazy

142

00:05:02,790 --> 00:05:00,240

machine learning

143

00:05:03,830 --> 00:05:02,800

ai is that we may be able to come up

144

00:05:06,310 --> 00:05:03,840

with some sort of

145

00:05:07,830 --> 00:05:06,320

graph that helps us learn and explain

146

00:05:10,870 --> 00:05:07,840

what some of these

147

00:05:13,029 --> 00:05:10,880

objects might be

148

00:05:14,070 --> 00:05:13,039

yeah very cool how about you shane what

149

00:05:15,830 --> 00:05:14,080

were your initial

150

00:05:17,510 --> 00:05:15,840

thoughts or reactions to reading this

151
00:05:19,830 --> 00:05:17,520
report

152
00:05:21,189 --> 00:05:19,840
yeah i think it's you know what we all

153
00:05:25,749 --> 00:05:21,199
expected it to be

154
00:05:28,550 --> 00:05:25,759
it was you know fairly political

155
00:05:29,430 --> 00:05:28,560
it had a little bit of technical to it

156
00:05:32,870 --> 00:05:29,440
it was really

157
00:05:36,469 --> 00:05:32,880
written in a way i think for the public

158
00:05:38,230 --> 00:05:36,479
to consume it as well as for political

159
00:05:40,390 --> 00:05:38,240
leaders to consume that

160
00:05:41,909 --> 00:05:40,400
even the public version and i was

161
00:05:45,350 --> 00:05:41,919
actually thrilled

162
00:05:48,310 --> 00:05:45,360
in that i i had the scary thought

163
00:05:49,990 --> 00:05:48,320

a la blue book that they would come out

164

00:05:52,550 --> 00:05:50,000

and pull the rug out from us

165

00:05:53,189 --> 00:05:52,560

under us and say we've identified all of

166

00:05:55,350 --> 00:05:53,199

this it's

167

00:05:56,950 --> 00:05:55,360

ours it's blah blah blah you know i i

168

00:06:00,150 --> 00:05:56,960

have expected that

169

00:06:01,510 --> 00:06:00,160

so i'm pretty pleased that um with what

170

00:06:03,189 --> 00:06:01,520

they presented

171

00:06:05,189 --> 00:06:03,199

i mean it was really about you know

172

00:06:08,550 --> 00:06:05,199

setting up a um

173

00:06:11,909 --> 00:06:08,560

you know an institutionalized effort to

174

00:06:13,430 --> 00:06:11,919

you know investigate and analyze and

175

00:06:14,150 --> 00:06:13,440

report and do all those things which is

176
00:06:15,990 --> 00:06:14,160
great

177
00:06:17,430 --> 00:06:16,000
i you know i felt like it was written in

178
00:06:19,670 --> 00:06:17,440
a way that they were

179
00:06:21,029 --> 00:06:19,680
they were doing exactly what the bill

180
00:06:23,749 --> 00:06:21,039
asked them to do

181
00:06:25,029 --> 00:06:23,759
no more no less you know it was it just

182
00:06:26,790 --> 00:06:25,039
seemed very careful

183
00:06:28,629 --> 00:06:26,800
carefully done which you know that

184
00:06:32,150 --> 00:06:28,639
that's reasonable fair enough

185
00:06:32,629 --> 00:06:32,160
um but i too thought there were a lot of

186
00:06:35,909 --> 00:06:32,639
things

187
00:06:37,990 --> 00:06:35,919
in there that were of value

188
00:06:39,749 --> 00:06:38,000

and it was it was one of those documents

189

00:06:41,189 --> 00:06:39,759

where i felt like there was as much said

190

00:06:44,070 --> 00:06:41,199

between the lines

191

00:06:44,390 --> 00:06:44,080

than what was actually stated and so i

192

00:06:48,070 --> 00:06:44,400

think

193

00:06:51,029 --> 00:06:48,080

you know we we should be fairly

194

00:06:52,309 --> 00:06:51,039

you know pleased with it i mean it was

195

00:06:54,469 --> 00:06:52,319

light on technical i

196

00:06:55,990 --> 00:06:54,479

i was i was really confounded in the

197

00:06:58,390 --> 00:06:56,000

fact that they didn't really

198

00:06:59,749 --> 00:06:58,400

provide any case data the only reference

199

00:07:02,309 --> 00:06:59,759

to cases was

200

00:07:03,430 --> 00:07:02,319

we looked at this body between 2004 and

201
00:07:06,550 --> 00:07:03,440
2021

202
00:07:08,230 --> 00:07:06,560
and one case was a balloon okay

203
00:07:10,230 --> 00:07:08,240
that when i read that at first i'm like

204
00:07:11,749 --> 00:07:10,240
oh no and then the other thing that

205
00:07:12,390 --> 00:07:11,759
bothers me we'll talk more about it

206
00:07:14,469 --> 00:07:12,400
later

207
00:07:15,749 --> 00:07:14,479
is that other category and i'll tell you

208
00:07:18,309 --> 00:07:15,759
why from an i.t

209
00:07:19,189 --> 00:07:18,319
perspective but but you know overall i'm

210
00:07:21,110 --> 00:07:19,199
pleased with it

211
00:07:23,670 --> 00:07:21,120
it's a good first step i think it's a

212
00:07:26,070 --> 00:07:23,680
baby step and boy i would love to see

213
00:07:29,350 --> 00:07:26,080

the classified version because

214

00:07:30,790 --> 00:07:29,360

hopefully i hope that they provided real

215

00:07:33,510 --> 00:07:30,800

data in there that

216

00:07:35,749 --> 00:07:33,520

that will paint the correct picture uh

217

00:07:36,469 --> 00:07:35,759

for the for the decision makers those in

218

00:07:39,830 --> 00:07:36,479

congress

219

00:07:41,430 --> 00:07:39,840

etc absolutely and i i agree with with

220

00:07:43,350 --> 00:07:41,440

all of your reactions i mean that's

221

00:07:44,869 --> 00:07:43,360

basically what how i reacted as well

222

00:07:47,029 --> 00:07:44,879

reading this um

223

00:07:48,720 --> 00:07:47,039

we'll say it was again went in with low

224

00:07:50,070 --> 00:07:48,730

expectations and came out

225

00:07:53,430 --> 00:07:50,080

[Music]

226

00:07:55,430 --> 00:07:53,440

very uh it surprised myself but uh

227

00:07:56,629 --> 00:07:55,440

pleasantly surprised it was certainly

228

00:07:59,189 --> 00:07:56,639

not what i was expecting

229

00:08:00,550 --> 00:07:59,199

at all a lot of good things in here

230

00:08:03,029 --> 00:08:00,560

certainly a lot a lot missing

231

00:08:03,749 --> 00:08:03,039

as you pointed out shane but let's go

232

00:08:05,990 --> 00:08:03,759

through some of the

233

00:08:07,270 --> 00:08:06,000

some of the you know notable things in

234

00:08:10,150 --> 00:08:07,280

this report

235

00:08:11,670 --> 00:08:10,160

um and i do like how you mentioned that

236

00:08:13,350 --> 00:08:11,680

it seemed like it was

237

00:08:14,790 --> 00:08:13,360

you know it's not technical at all

238

00:08:17,189 --> 00:08:14,800

written for the public

239

00:08:18,230 --> 00:08:17,199

and that is very clear certainly by the

240

00:08:20,950 --> 00:08:18,240

fact that

241

00:08:22,869 --> 00:08:20,960

they published this thing to the public

242

00:08:24,950 --> 00:08:22,879

on the same day it was released

243

00:08:26,869 --> 00:08:24,960

you know the same day they they sent it

244

00:08:29,430 --> 00:08:26,879

to to congress

245

00:08:30,309 --> 00:08:29,440

um that was surprising to me because

246

00:08:31,830 --> 00:08:30,319

again

247

00:08:34,389 --> 00:08:31,840

there was a lot of hype and a lot of

248

00:08:36,230 --> 00:08:34,399

expectations built up with no foundation

249

00:08:37,670 --> 00:08:36,240

no basis for assuming this was going to

250

00:08:39,909 --> 00:08:37,680

be released to the public

251
00:08:42,310 --> 00:08:39,919
because all it said was there should be

252
00:08:44,070 --> 00:08:42,320
an unclassified version of this report

253
00:08:46,070 --> 00:08:44,080
that doesn't mean public we know that

254
00:08:47,750 --> 00:08:46,080
but it was released and published to the

255
00:08:49,350 --> 00:08:47,760
public that exact same day so i think it

256
00:08:52,829 --> 00:08:49,360
was written for the public

257
00:08:56,470 --> 00:08:52,839
um interesting point number one

258
00:08:59,269 --> 00:08:56,480
um the data gatherers catch a

259
00:08:59,590 --> 00:08:59,279
very much uh wider net than was asked

260
00:09:02,389 --> 00:08:59,600
for

261
00:09:02,870 --> 00:09:02,399
by the report which you know was one of

262
00:09:05,590 --> 00:09:02,880
my

263
00:09:06,790 --> 00:09:05,600

uh very big problem points with the

264

00:09:10,230 --> 00:09:06,800

report request

265

00:09:13,350 --> 00:09:10,240

it just asks for basically navy data

266

00:09:14,949 --> 00:09:13,360

and fbi data which if you really want to

267

00:09:16,310 --> 00:09:14,959

look at the whole picture of ufos and

268

00:09:18,150 --> 00:09:16,320

try to figure this thing out

269

00:09:19,590 --> 00:09:18,160

that's not really doing it it's not

270

00:09:22,710 --> 00:09:19,600

going to get you very far

271

00:09:23,269 --> 00:09:22,720

but in for this report the the navy and

272

00:09:26,310 --> 00:09:23,279

fbi

273

00:09:27,350 --> 00:09:26,320

uh deity was there sure plus army air

274

00:09:30,550 --> 00:09:27,360

force nsa

275

00:09:33,350 --> 00:09:30,560

darpa the faa and many more agencies

276

00:09:34,470 --> 00:09:33,360

so that was great to see but still with

277

00:09:39,590 --> 00:09:34,480

this added data

278

00:09:43,110 --> 00:09:39,600

the focus really still was only on 144

279

00:09:45,110 --> 00:09:43,120

recent military sightings so

280

00:09:46,310 --> 00:09:45,120

still a long way to go but with that

281

00:09:47,910 --> 00:09:46,320

large data pool

282

00:09:50,310 --> 00:09:47,920

i don't know about you guys but that was

283

00:09:52,389 --> 00:09:50,320

a very pleasant surprise

284

00:09:54,070 --> 00:09:52,399

uh i i was just gonna say you know one

285

00:09:55,509 --> 00:09:54,080

thing there there were all these

286

00:09:59,110 --> 00:09:55,519

different agencies and i

287

00:10:02,630 --> 00:09:59,120

100 understand why it's

288

00:10:03,990 --> 00:10:02,640

more limited to situations of like

289

00:10:06,710 --> 00:10:04,000

trained aviation pilots

290

00:10:08,470 --> 00:10:06,720

and things like that or or out there but

291

00:10:11,509 --> 00:10:08,480

i really would

292

00:10:14,949 --> 00:10:11,519

like this to include the nps too

293

00:10:16,310 --> 00:10:14,959

i mean national parks are a source of

294

00:10:17,910 --> 00:10:16,320

high strangeness

295

00:10:19,990 --> 00:10:17,920

that we know that there's a lot of

296

00:10:22,230 --> 00:10:20,000

unidentified objects

297

00:10:23,750 --> 00:10:22,240

that people spot out there and that's a

298

00:10:25,430 --> 00:10:23,760

government organization

299

00:10:27,670 --> 00:10:25,440

i would like to see data from that as

300

00:10:29,190 --> 00:10:27,680

well and a few others i'm not saying

301
00:10:30,710 --> 00:10:29,200
that that's not necessarily something

302
00:10:35,430 --> 00:10:30,720
they've considered but

303
00:10:38,550 --> 00:10:35,440
um it was notable to me missing

304
00:10:41,110 --> 00:10:38,560
interesting yeah i i i think to

305
00:10:42,710 --> 00:10:41,120
the the two that i really wanted to hear

306
00:10:45,990 --> 00:10:42,720
from that weren't in there were

307
00:10:47,990 --> 00:10:46,000
nasa and um the doe

308
00:10:49,190 --> 00:10:48,000
like we hear that a lot of these things

309
00:10:51,829 --> 00:10:49,200
are you know

310
00:10:54,150 --> 00:10:51,839
sent to the doe when it comes to nuclear

311
00:10:55,190 --> 00:10:54,160
incidents with incursions over nuclear

312
00:10:57,269 --> 00:10:55,200
installations

313
00:10:58,790 --> 00:10:57,279

so i wasn't surprised it wasn't there

314

00:11:00,150 --> 00:10:58,800

because they don't really answer to

315

00:11:02,150 --> 00:11:00,160

anyone apparently

316

00:11:03,190 --> 00:11:02,160

um but i was hoping that there would be

317

00:11:05,990 --> 00:11:03,200

some sort of

318

00:11:07,110 --> 00:11:06,000

integration with nasa which maybe we'll

319

00:11:09,030 --> 00:11:07,120

get in the future

320

00:11:10,230 --> 00:11:09,040

i don't know but i think they're they

321

00:11:12,550 --> 00:11:10,240

need to be

322

00:11:13,990 --> 00:11:12,560

briefed on these things they it's their

323

00:11:16,389 --> 00:11:14,000

job to know what's in our

324

00:11:17,269 --> 00:11:16,399

skies and what's going on on our planet

325

00:11:19,190 --> 00:11:17,279

so um

326

00:11:21,350 --> 00:11:19,200

i think yeah while i was i was surprised

327

00:11:23,750 --> 00:11:21,360

darpa was there i was let down

328

00:11:24,870 --> 00:11:23,760

that the d.o.e or nasa's are much more

329

00:11:35,829 --> 00:11:24,880

logical

330

00:11:39,269 --> 00:11:38,790

uh i was thinking too that in in the

331

00:11:42,470 --> 00:11:39,279

report

332

00:11:45,990 --> 00:11:42,480

they talked about this collection bias

333

00:11:47,750 --> 00:11:46,000

that they may have in that that

334

00:11:49,350 --> 00:11:47,760

and this this is one of the problems i

335

00:11:50,310 --> 00:11:49,360

have with this but i think they're going

336

00:11:52,949 --> 00:11:50,320

to be okay

337

00:11:54,790 --> 00:11:52,959

and that is they say hey look uh we can

338

00:11:56,230 --> 00:11:54,800

only work with the data we got and

339

00:11:58,069 --> 00:11:56,240

they're complaining on the one hand we

340

00:12:00,069 --> 00:11:58,079

don't really have the data our sensors

341

00:12:01,829 --> 00:12:00,079

aren't calibrated for this and

342

00:12:04,230 --> 00:12:01,839

we don't have the staff and blah blah

343

00:12:06,389 --> 00:12:04,240

that to me was political pitch for

344

00:12:08,310 --> 00:12:06,399

money to to create a program which is

345

00:12:10,150 --> 00:12:08,320

fine that's what they need to do

346

00:12:11,430 --> 00:12:10,160

but on the one hand they're complaining

347

00:12:14,550 --> 00:12:11,440

about that then they're saying

348

00:12:17,750 --> 00:12:14,560

and there's collection bias well i

349

00:12:18,069 --> 00:12:17,760

i'm sorry but you know you make it sound

350

00:12:20,949 --> 00:12:18,079

like

351

00:12:22,710 --> 00:12:20,959

only ufos are in military training we'll

352

00:12:25,910 --> 00:12:22,720

certainly talk about that more soon

353

00:12:28,949 --> 00:12:25,920

and i'll i'll say mufon for example yeah

354

00:12:31,670 --> 00:12:28,959

5000 we get 5000 cases a year

355

00:12:32,710 --> 00:12:31,680

in non-military settings so if you want

356

00:12:35,269 --> 00:12:32,720

some more data

357

00:12:37,110 --> 00:12:35,279

to help you know you get your footing

358

00:12:40,230 --> 00:12:37,120

maybe you can go to narcap

359

00:12:43,430 --> 00:12:40,240

you know maybe you can go to mufon or

360

00:12:44,310 --> 00:12:43,440

or whatever source but i i get while

361

00:12:46,389 --> 00:12:44,320

they're saying

362

00:12:48,470 --> 00:12:46,399

hey we're only looking at our stuff

363

00:12:49,910 --> 00:12:48,480

because they have the sensors and that

364

00:12:51,430 --> 00:12:49,920

this is their world and

365

00:12:53,910 --> 00:12:51,440

you know they're interjected in their

366

00:12:54,710 --> 00:12:53,920

world so yes they should handle that

367

00:12:57,430 --> 00:12:54,720

first but

368

00:12:58,389 --> 00:12:57,440

i mean on a long term basis on a

369

00:13:01,509 --> 00:12:58,399

programmatic

370

00:13:02,470 --> 00:13:01,519

scale when you're doing your analysis

371

00:13:04,710 --> 00:13:02,480

you need to bring in

372

00:13:06,230 --> 00:13:04,720

more data than just the things that are

373

00:13:07,829 --> 00:13:06,240

happening to you because there's a great

374

00:13:10,870 --> 00:13:07,839

big old wide world

375

00:13:13,910 --> 00:13:10,880

other nations other militaries

376

00:13:15,190 --> 00:13:13,920

you know civilian uh civilian aircraft

377

00:13:17,990 --> 00:13:15,200

all those things

378

00:13:20,710 --> 00:13:18,000

have have these encounters and and there

379

00:13:21,590 --> 00:13:20,720

are reports out there so you know i just

380

00:13:23,990 --> 00:13:21,600

hope that they

381

00:13:25,350 --> 00:13:24,000

set up a true uh investigative

382

00:13:28,550 --> 00:13:25,360

organization and

383

00:13:31,990 --> 00:13:28,560

and um provide real analysis based on a

384

00:13:33,350 --> 00:13:32,000

broader base of case data than just

385

00:13:35,030 --> 00:13:33,360

what's happening with them but i

386

00:13:36,790 --> 00:13:35,040

absolutely get that's what their first

387

00:13:38,550 --> 00:13:36,800

concern should be

388

00:13:40,389 --> 00:13:38,560

and is and i understand that but i just

389

00:13:42,470 --> 00:13:40,399

hope i completely agree and we'll we'll

390

00:13:45,509 --> 00:13:42,480

uh come back to that point in a minute

391

00:13:48,470 --> 00:13:45,519

but uh another interesting thing is

392

00:13:51,269 --> 00:13:48,480

as we already pointed out out of the 144

393

00:13:53,509 --> 00:13:51,279

cases they looked at

394

00:13:55,590 --> 00:13:53,519

they were all essentially still

395

00:13:57,269 --> 00:13:55,600

unidentified which is crazy they are

396

00:14:01,189 --> 00:13:57,279

only able to identify

397

00:14:04,230 --> 00:14:01,199

one out of 144 which is strange because

398

00:14:05,269 --> 00:14:04,240

if you're doing a real look at ufos as

399

00:14:08,310 --> 00:14:05,279

we all know

400

00:14:10,710 --> 00:14:08,320

90 to 95 of those are going to be

401
00:14:12,310 --> 00:14:10,720
able to be identified but in this case

402
00:14:13,030 --> 00:14:12,320
not so much because they're only looking

403
00:14:17,110 --> 00:14:13,040
at

404
00:14:19,430 --> 00:14:17,120
these total unknowns but in 18 out of

405
00:14:22,389 --> 00:14:19,440
the 144 cases examined

406
00:14:23,750 --> 00:14:22,399
the ufo seemed to demonstrate advanced

407
00:14:26,150 --> 00:14:23,760
technology

408
00:14:27,670 --> 00:14:26,160
about 12 and a half percent of the cases

409
00:14:30,150 --> 00:14:27,680
they looked at

410
00:14:31,990 --> 00:14:30,160
and that's probably you know the most

411
00:14:32,470 --> 00:14:32,000
exciting part of the report for a lot of

412
00:14:34,150 --> 00:14:32,480
people

413
00:14:36,310 --> 00:14:34,160

because of course we're talking about

414

00:14:38,550 --> 00:14:36,320

ufos we want the ones that seem exotic

415

00:14:41,829 --> 00:14:38,560

or more exciting or hard to explain

416

00:14:44,069 --> 00:14:41,839

so 18 out of 144 cases seem to

417

00:14:44,710 --> 00:14:44,079

demonstrate advanced technology that's

418

00:14:47,750 --> 00:14:44,720

kind of cool

419

00:14:48,710 --> 00:14:47,760

yeah i think too the um the aircraft

420

00:14:52,710 --> 00:14:48,720

systems

421

00:14:54,870 --> 00:14:52,720

in a small number they said were uh

422

00:14:57,030 --> 00:14:54,880

military aircraft systems processed

423

00:14:59,509 --> 00:14:57,040

radio frequency energy

424

00:15:00,949 --> 00:14:59,519

associated with the uap sightings that i

425

00:15:04,470 --> 00:15:00,959

that that like

426

00:15:06,710 --> 00:15:04,480

when i first read it i kind of like went

427

00:15:08,150 --> 00:15:06,720

just didn't understand it and then when

428

00:15:09,430 --> 00:15:08,160

i went back and actually like thought

429

00:15:12,069 --> 00:15:09,440

about that i'm like huh

430

00:15:14,069 --> 00:15:12,079

that's an interesting observation for

431

00:15:15,750 --> 00:15:14,079

them to make and to put in the

432

00:15:17,750 --> 00:15:15,760

the public report i thought that was

433

00:15:19,189 --> 00:15:17,760

pretty fascinating when it came to

434

00:15:21,430 --> 00:15:19,199

you know catching these things on

435

00:15:22,629 --> 00:15:21,440

multiple sensors too so we know they're

436

00:15:23,870 --> 00:15:22,639

physical objects

437

00:15:26,389 --> 00:15:23,880

this wasn't just like a

438

00:15:28,150 --> 00:15:26,399

misidentification or like

439

00:15:29,430 --> 00:15:28,160

you know a problem with a camera these

440

00:15:31,110 --> 00:15:29,440

were physical objects

441

00:15:32,870 --> 00:15:31,120

and that some of them process radio

442

00:15:34,150 --> 00:15:32,880

frequencies um

443

00:15:35,749 --> 00:15:34,160

you know when dealing with that so i

444

00:15:37,590 --> 00:15:35,759

thought that was pretty cool wasn't

445

00:15:39,110 --> 00:15:37,600

expecting that

446

00:15:41,350 --> 00:15:39,120

but at the same time it made me

447

00:15:44,389 --> 00:15:41,360

immediately think of drones

448

00:15:46,150 --> 00:15:44,399

yeah that's that's a good point too yeah

449

00:15:47,430 --> 00:15:46,160

there's very cool technology out there

450

00:15:48,629 --> 00:15:47,440

but yeah i agree ryan that was one of

451

00:15:50,629 --> 00:15:48,639

the cool points is

452

00:15:51,670 --> 00:15:50,639

is mentioning that they detected rf

453

00:15:54,629 --> 00:15:51,680

frequencies

454

00:15:55,990 --> 00:15:54,639

from some of these hard to explain

455

00:15:57,590 --> 00:15:56,000

incidents

456

00:16:01,509 --> 00:15:57,600

i think one of the things that people

457

00:16:04,629 --> 00:16:01,519

will probably criticize is that

458

00:16:05,110 --> 00:16:04,639

any explanation of you know exotic

459

00:16:08,389 --> 00:16:05,120

current

460

00:16:11,189 --> 00:16:08,399

technology explaining these things fall

461

00:16:12,310 --> 00:16:11,199

short when you really look at the fact

462

00:16:15,110 --> 00:16:12,320

that these things

463

00:16:15,910 --> 00:16:15,120

have been happening since 1947 sure

464

00:16:19,749 --> 00:16:15,920

right

465

00:16:22,870 --> 00:16:19,759

so you know that's not going to be

466

00:16:26,069 --> 00:16:22,880

a panacea explanation for this

467

00:16:29,269 --> 00:16:26,079

um there and and i think we've seen

468

00:16:32,230 --> 00:16:29,279

like chris mellon and and um lou

469

00:16:33,030 --> 00:16:32,240

make comments to that that effect that

470

00:16:36,790 --> 00:16:33,040

um

471

00:16:39,030 --> 00:16:36,800

you know this technology is not like

472

00:16:40,389 --> 00:16:39,040

just around the corner for mankind

473

00:16:43,189 --> 00:16:40,399

technology or

474

00:16:44,470 --> 00:16:43,199

in development that the capabilities

475

00:16:47,269 --> 00:16:44,480

these are demonstrating

476

00:16:48,389 --> 00:16:47,279

are hundreds or thousands of years ahead

477

00:16:50,629 --> 00:16:48,399

um

478

00:16:52,629 --> 00:16:50,639

and that's been the case from the 40s

479

00:16:55,590 --> 00:16:52,639

and probably way before

480

00:16:56,150 --> 00:16:55,600

we just don't have that documented so i

481

00:17:12,789 --> 00:16:56,160

i

482

00:17:14,710 --> 00:17:12,799

all

483

00:17:15,990 --> 00:17:14,720

and of course with any case with any of

484

00:17:18,150 --> 00:17:16,000

this you know

485

00:17:19,270 --> 00:17:18,160

our discussions are are based on

486

00:17:21,189 --> 00:17:19,280

extremely limited

487

00:17:22,710 --> 00:17:21,199

information even the data we have is

488

00:17:24,870 --> 00:17:22,720

limited yes and

489

00:17:26,789 --> 00:17:24,880

you know with some of these cases where

490

00:17:29,110 --> 00:17:26,799

grand claims are made

491

00:17:30,070 --> 00:17:29,120

though those grand claims are based off

492

00:17:33,350 --> 00:17:30,080

of

493

00:17:35,110 --> 00:17:33,360

you know systems that you know

494

00:17:36,789 --> 00:17:35,120

while doesn't happen often they are

495

00:17:38,950 --> 00:17:36,799

fallible right these

496

00:17:41,110 --> 00:17:38,960

statements about oh it went from you

497

00:17:43,029 --> 00:17:41,120

know the the surface of the ocean up to

498

00:17:44,950 --> 00:17:43,039

60 000 feet in a second

499

00:17:46,470 --> 00:17:44,960

i mean instrumentation is telling them

500

00:17:48,470 --> 00:17:46,480

that you know

501
00:17:50,310 --> 00:17:48,480
it's not something that again and we

502
00:17:52,549 --> 00:17:50,320
haven't seen that data we haven't been

503
00:17:55,669 --> 00:17:52,559
provided with that data to prove that

504
00:17:57,990 --> 00:17:55,679
um but you know people

505
00:18:00,070 --> 00:17:58,000
need to understand that's also based on

506
00:18:02,549 --> 00:18:00,080
on sensors and systems digital

507
00:18:03,190 --> 00:18:02,559
systems relaying that that information

508
00:18:04,789 --> 00:18:03,200
to us

509
00:18:06,549 --> 00:18:04,799
you bring up a great point shane though

510
00:18:09,270 --> 00:18:06,559
and i agree with you that

511
00:18:11,350 --> 00:18:09,280
it's hard to explain it away when these

512
00:18:13,750 --> 00:18:11,360
same types of behaviors

513
00:18:14,549 --> 00:18:13,760

from ufos have been documented and

514

00:18:16,390 --> 00:18:14,559

relayed

515

00:18:17,669 --> 00:18:16,400

for decades and decades and decades and

516

00:18:20,310 --> 00:18:17,679

decades

517

00:18:21,430 --> 00:18:20,320

hard to brush it off yep hard to brush

518

00:18:24,549 --> 00:18:21,440

it off

519

00:18:26,710 --> 00:18:24,559

well another thing that i found

520

00:18:28,150 --> 00:18:26,720

quite surprising to see in this report

521

00:18:30,549 --> 00:18:28,160

because it doesn't get brought up

522

00:18:31,590 --> 00:18:30,559

enough especially in these circles where

523

00:18:34,390 --> 00:18:31,600

they're pushing

524

00:18:35,350 --> 00:18:34,400

national security and and and the threat

525

00:18:37,590 --> 00:18:35,360

narrative

526

00:18:38,710 --> 00:18:37,600

we're looking at potential threats in

527

00:18:41,830 --> 00:18:38,720

this report

528

00:18:43,270 --> 00:18:41,840

it actually separates flight safety from

529

00:18:46,150 --> 00:18:43,280

national security

530

00:18:47,110 --> 00:18:46,160

noting that ufos do threaten flight

531

00:18:49,510 --> 00:18:47,120

safety

532

00:18:50,470 --> 00:18:49,520

i loved seeing that that was one of my

533

00:18:52,150 --> 00:18:50,480

favorite parts

534

00:18:54,230 --> 00:18:52,160

because we don't hear enough about that

535

00:18:55,110 --> 00:18:54,240

yes it's great to talk about this

536

00:18:57,909 --> 00:18:55,120

nebulous

537

00:18:58,549 --> 00:18:57,919

national security thing but flight

538

00:19:01,110 --> 00:18:58,559

safety

539

00:19:02,789 --> 00:19:01,120

that's one of the biggest things because

540

00:19:05,029 --> 00:19:02,799

both military and commercial

541

00:19:06,470 --> 00:19:05,039

and private pilots encounter ufos in the

542

00:19:09,430 --> 00:19:06,480

sky all the time they're near

543

00:19:11,190 --> 00:19:09,440

near misses all the time that's a big

544

00:19:12,710 --> 00:19:11,200

deal when it comes to ufos

545

00:19:14,470 --> 00:19:12,720

and that has always been one of the

546

00:19:16,789 --> 00:19:14,480

biggest head scratchers for me

547

00:19:19,190 --> 00:19:16,799

why the faa doesn't give a [h__h] about

548

00:19:21,909 --> 00:19:19,200

ufos

549

00:19:22,870 --> 00:19:21,919

yeah they they even mention 11 near

550

00:19:25,430 --> 00:19:22,880

misses

551

00:19:27,669 --> 00:19:25,440

which is pretty that's a lot for the

552

00:19:29,909 --> 00:19:27,679

hundred and forty four or whatever they

553

00:19:31,669 --> 00:19:29,919

they looked at that's a large fighter

554

00:19:33,190 --> 00:19:31,679

pilots right i mean think about how many

555

00:19:35,190 --> 00:19:33,200

other planes are in the sky

556

00:19:36,789 --> 00:19:35,200

yeah yeah and we don't know i i mean

557

00:19:38,789 --> 00:19:36,799

maybe i'm wrong but

558

00:19:40,470 --> 00:19:38,799

these were all military cases right so

559

00:19:43,669 --> 00:19:40,480

those were just the near misses

560

00:19:46,549 --> 00:19:43,679

with military aircraft imagine you know

561

00:19:48,230 --> 00:19:46,559

what that case that the four of us

562

00:19:49,430 --> 00:19:48,240

talked about on a previous episode of

563

00:19:52,150 --> 00:19:49,440

unknown was

564

00:19:53,830 --> 00:19:52,160

the one where the guy said the disc went

565

00:19:56,710 --> 00:19:53,840

right past him and

566

00:19:57,750 --> 00:19:56,720

right you know so like again i think the

567

00:20:00,630 --> 00:19:57,760

big thing

568

00:20:01,029 --> 00:20:00,640

and um i'm sure we'll get to it is that

569

00:20:04,070 --> 00:20:01,039

uh

570

00:20:07,110 --> 00:20:04,080

it's making it more possible for

571

00:20:09,510 --> 00:20:07,120

people to report these things um faa

572

00:20:11,430 --> 00:20:09,520

wise and hopefully military-wise too

573

00:20:13,350 --> 00:20:11,440

is the the whole stigma and ridicule

574

00:20:14,310 --> 00:20:13,360

thing they mentioned a couple times in

575

00:20:16,310 --> 00:20:14,320

the report

576

00:20:17,909 --> 00:20:16,320

right i think was pretty awesome too

577

00:20:19,669 --> 00:20:17,919

like it's okay to do this

578

00:20:22,149 --> 00:20:19,679

how many military people come to the

579

00:20:23,510 --> 00:20:22,159

four of us 10 years after the event

580

00:20:24,950 --> 00:20:23,520

she's like oh yeah i didn't want to

581

00:20:25,830 --> 00:20:24,960

report it then but i'll tell you about

582

00:20:27,190 --> 00:20:25,840

it now i'm like

583

00:20:29,510 --> 00:20:27,200

cool what are we going to do with that

584

00:20:30,470 --> 00:20:29,520

data so i think that was pretty cool

585

00:20:33,590 --> 00:20:30,480

that it's like

586

00:20:35,190 --> 00:20:33,600

yeah please report it please yep no and

587

00:20:37,190 --> 00:20:35,200

that's kind of the kind of stuff that

588

00:20:38,710 --> 00:20:37,200

really ufologists have just been asking

589

00:20:42,390 --> 00:20:38,720

for for the whole time

590

00:20:43,590 --> 00:20:42,400

is to um you know be open and

591

00:20:46,070 --> 00:20:43,600

transparent with this

592

00:20:48,070 --> 00:20:46,080

take take it serious and you know the

593

00:20:50,710 --> 00:20:48,080

fact that they're doing that now is

594

00:20:53,110 --> 00:20:50,720

really satisfying and i mean we're not

595

00:20:54,549 --> 00:20:53,120

asking for much more than that really

596

00:20:56,149 --> 00:20:54,559

you think about it is just take it

597

00:20:58,070 --> 00:20:56,159

serious do your job

598

00:20:59,190 --> 00:20:58,080

you know and let us know because this

599

00:21:01,270 --> 00:20:59,200

affects everybody

600

00:21:02,310 --> 00:21:01,280

like you said just commercial air

601
00:21:04,870 --> 00:21:02,320
traffic i mean

602
00:21:07,029 --> 00:21:04,880
my gosh that how many planes are in the

603
00:21:10,630 --> 00:21:07,039
air at any given time thousands right

604
00:21:13,830 --> 00:21:10,640
so i mean that that's super serious so i

605
00:21:16,549 --> 00:21:13,840
i am pleased the way this is headed

606
00:21:16,870 --> 00:21:16,559
unless they do some kind of turnaround

607
00:21:18,789 --> 00:21:16,880
but

608
00:21:20,230 --> 00:21:18,799
yeah we're not predicting the future or

609
00:21:22,789 --> 00:21:20,240
looking ahead to the many

610
00:21:24,549 --> 00:21:22,799
problematic things that are sure to come

611
00:21:26,710 --> 00:21:24,559
just looking at this report alone i

612
00:21:28,390 --> 00:21:26,720
agree with you shane i do

613
00:21:30,230 --> 00:21:28,400

so another thing we learned in this

614

00:21:31,029 --> 00:21:30,240

report just kind of dropped in there

615

00:21:34,310 --> 00:21:31,039

subtly

616

00:21:38,149 --> 00:21:34,320

is that the uap task force

617

00:21:39,110 --> 00:21:38,159

has long-term goals right so

618

00:21:41,190 --> 00:21:39,120

they dropped that they had this

619

00:21:43,029 --> 00:21:41,200

long-term goal to widen the scope of its

620

00:21:46,549 --> 00:21:43,039

work to include additional uap

621

00:21:48,149 --> 00:21:46,559

events documented by a broader swath

622

00:21:50,070 --> 00:21:48,159

that's that's good right we just talked

623

00:21:51,750 --> 00:21:50,080

about that we need to get broader and

624

00:21:52,950 --> 00:21:51,760

stop looking at this from such a narrow

625

00:21:55,750 --> 00:21:52,960

lens

626
00:21:58,390 --> 00:21:55,760
but a broader swath of usg personnel and

627
00:22:01,909 --> 00:21:58,400
technical systems in its analysis so

628
00:22:06,070 --> 00:22:01,919
still keeping the focus on military

629
00:22:08,630 --> 00:22:06,080
but anyway they've got long-term goals

630
00:22:10,390 --> 00:22:08,640
i i partially understand why and this

631
00:22:13,669 --> 00:22:10,400
goes back to what shane was saying

632
00:22:14,710 --> 00:22:13,679
earlier they did not include other

633
00:22:18,070 --> 00:22:14,720
organizations

634
00:22:21,029 --> 00:22:18,080
publicly at this stage at this juncture

635
00:22:22,710 --> 00:22:21,039
you can tell that they were very very

636
00:22:23,669 --> 00:22:22,720
very careful with how they wrote this

637
00:22:26,630 --> 00:22:23,679
report

638
00:22:28,630 --> 00:22:26,640

and i think bringing in agencies which

639

00:22:30,470 --> 00:22:28,640

notoriously

640

00:22:32,870 --> 00:22:30,480

are searching for the truth of

641

00:22:36,350 --> 00:22:32,880

extraterrestrial life instead of

642

00:22:39,350 --> 00:22:36,360

just the broad scope of identifying

643

00:22:41,430 --> 00:22:39,360

unidentified objects um was

644

00:22:42,390 --> 00:22:41,440

was very calculated and they know what

645

00:22:45,990 --> 00:22:42,400

they were doing here

646

00:22:48,230 --> 00:22:46,000

and they mention um that the fact that

647

00:22:50,070 --> 00:22:48,240

that a lot of these trains are pilots

648

00:22:54,390 --> 00:22:50,080

and and military officials

649

00:22:55,430 --> 00:22:54,400

are not reporting on uh uaps because of

650

00:22:57,750 --> 00:22:55,440

the stigma

651
00:23:00,230 --> 00:22:57,760
so i think this this was kind of like

652
00:23:02,789 --> 00:23:00,240
let's lay it out so people know

653
00:23:03,909 --> 00:23:02,799
we're not necessarily talking about the

654
00:23:07,110 --> 00:23:03,919
the more

655
00:23:10,390 --> 00:23:07,120
uh out there topics to start

656
00:23:13,430 --> 00:23:10,400
work that's our catch-all bin um

657
00:23:14,870 --> 00:23:13,440
but this that these could be all these

658
00:23:17,110 --> 00:23:14,880
other different things and

659
00:23:18,870 --> 00:23:17,120
stressing the importance of reporting

660
00:23:23,029 --> 00:23:18,880
and i think that that's a basic

661
00:23:23,350 --> 00:23:23,039
first step obviously in my mind and all

662
00:23:25,029 --> 00:23:23,360
of

663
00:23:27,110 --> 00:23:25,039

you we know how many other credible

664

00:23:29,830 --> 00:23:27,120

sightings there are by civilians

665

00:23:31,190 --> 00:23:29,840

and you know like you said just regular

666

00:23:35,430 --> 00:23:31,200

commercial pilots and

667

00:23:35,990 --> 00:23:35,440

and uh everywhere else across the board

668

00:23:39,110 --> 00:23:36,000

and i

669

00:23:41,269 --> 00:23:39,120

think it would be behoove them to

670

00:23:43,269 --> 00:23:41,279

include a lot of those historic reports

671

00:23:46,149 --> 00:23:43,279

in their machine learning figures

672

00:23:47,110 --> 00:23:46,159

and and go from there but maybe it's you

673

00:23:49,990 --> 00:23:47,120

know

674

00:23:51,750 --> 00:23:50,000

they need to have a separate sort of

675

00:23:55,269 --> 00:23:51,760

bank of information that

676

00:23:58,470 --> 00:23:55,279

they they know can be potentially

677

00:24:00,149 --> 00:23:58,480

unclassified compared to what's going to

678

00:24:03,269 --> 00:24:00,159

happen within

679

00:24:06,390 --> 00:24:03,279

these reports where we will lack

680

00:24:10,070 --> 00:24:06,400

uh you know that we're not going to be

681

00:24:12,070 --> 00:24:10,080

privy to see all this information so

682

00:24:14,230 --> 00:24:12,080

i i get it and yeah you think about all

683

00:24:15,669 --> 00:24:14,240

those past military sightings even if

684

00:24:18,310 --> 00:24:15,679

you look at like

685

00:24:20,950 --> 00:24:18,320

robert salas and and other individuals

686

00:24:24,310 --> 00:24:20,960

who have reported

687

00:24:27,110 --> 00:24:24,320

uh you know lights over nuclear

688

00:24:28,549 --> 00:24:27,120

uh weapons over bases and all these

689

00:24:31,190 --> 00:24:28,559

things are they going to add those

690

00:24:34,230 --> 00:24:31,200

historic reports into their

691

00:24:34,870 --> 00:24:34,240

official reports or not uh i i think

692

00:24:38,070 --> 00:24:34,880

that there's

693

00:24:40,870 --> 00:24:38,080

a few ways they can go and unfortunately

694

00:24:42,630 --> 00:24:40,880

we will likely be in the dark on it and

695

00:24:43,750 --> 00:24:42,640

that's why it's great that civilian

696

00:24:46,870 --> 00:24:43,760

groups like

697

00:24:51,190 --> 00:24:46,880

mufon in other areas exist

698

00:24:54,310 --> 00:24:51,200

so uh i get the bigger picture

699

00:24:55,269 --> 00:24:54,320

but i don't think we're there yet yeah

700

00:24:57,669 --> 00:24:55,279

i'm with you

701
00:24:58,870 --> 00:24:57,679
so we we hit a few few of the highlights

702
00:25:01,190 --> 00:24:58,880
and there are some more but

703
00:25:01,990 --> 00:25:01,200
i want to move on to a couple of the

704
00:25:03,990 --> 00:25:02,000
other

705
00:25:05,350 --> 00:25:04,000
parts of the report that uh you know

706
00:25:07,669 --> 00:25:05,360
there were a few uh

707
00:25:08,789 --> 00:25:07,679
kind of no-brainer comments added to

708
00:25:11,269 --> 00:25:08,799
this report that

709
00:25:11,830 --> 00:25:11,279
at first made me roll my eyes pretty

710
00:25:13,350 --> 00:25:11,840
hard

711
00:25:15,430 --> 00:25:13,360
but then after i thought about them i

712
00:25:18,470 --> 00:25:15,440
was happy to see that they included it

713
00:25:20,149 --> 00:25:18,480

um one of those was um

714

00:25:21,830 --> 00:25:20,159

you mentioned before but the limited

715

00:25:23,510 --> 00:25:21,840

amount of high quality reporting on

716

00:25:25,350 --> 00:25:23,520

unidentified aerial phenomena

717

00:25:27,269 --> 00:25:25,360

hampers our ability to draw firm

718

00:25:29,269 --> 00:25:27,279

conclusions about the nature or intent

719

00:25:32,549 --> 00:25:29,279

of uap

720

00:25:34,470 --> 00:25:32,559

really welcome to ufos right i mean that

721

00:25:34,870 --> 00:25:34,480

is ufo research in a nutshell right

722

00:25:37,510 --> 00:25:34,880

there

723

00:25:38,870 --> 00:25:37,520

like you don't you're not going to have

724

00:25:40,470 --> 00:25:38,880

the data you want you're not going to

725

00:25:42,149 --> 00:25:40,480

have high quality data

726

00:25:44,390 --> 00:25:42,159

and you're not going to be able to draw

727

00:25:47,830 --> 00:25:44,400

firm conclusions about nature or intent

728

00:25:48,310 --> 00:25:47,840

of most your ufos so so that was kind of

729

00:25:51,029 --> 00:25:48,320

funny

730

00:25:51,750 --> 00:25:51,039

um yeah another one in a limited number

731

00:25:54,390 --> 00:25:51,760

of incidents

732

00:25:56,710 --> 00:25:54,400

uap reportedly appeared to exhibit

733

00:25:58,950 --> 00:25:56,720

unusual flight characteristics

734

00:26:00,390 --> 00:25:58,960

these observations could be the result

735

00:26:03,750 --> 00:26:00,400

of sensor errors

736

00:26:07,269 --> 00:26:03,760

spoofing or observer misinterpretations

737

00:26:10,310 --> 00:26:07,279

and require additional rigorous analysis

738

00:26:11,350 --> 00:26:10,320

again really of course of course you're

739

00:26:14,710 --> 00:26:11,360

going to get that

740

00:26:15,269 --> 00:26:14,720

in ufo sightings um the third one i

741

00:26:17,510 --> 00:26:15,279

pointed out

742

00:26:19,669 --> 00:26:17,520

uap sightings also tended to cluster

743

00:26:21,510 --> 00:26:19,679

around u.s training and testing grounds

744

00:26:23,669 --> 00:26:21,520

but we assess that this may result from

745

00:26:24,470 --> 00:26:23,679

a collection bias as a result of focused

746

00:26:26,230 --> 00:26:24,480

attention

747

00:26:28,470 --> 00:26:26,240

greater numbers of latest generation

748

00:26:31,669 --> 00:26:28,480

sensors operating in those areas

749

00:26:32,710 --> 00:26:31,679

unit expectations and guidance to report

750

00:26:34,710 --> 00:26:32,720

anomalies

751
00:26:36,390 --> 00:26:34,720
and again you brought this up shane but

752
00:26:37,990 --> 00:26:36,400
of course of course

753
00:26:40,230 --> 00:26:38,000
that's what they found in this case

754
00:26:42,870 --> 00:26:40,240
because we also have to keep in mind

755
00:26:44,710 --> 00:26:42,880
the exact report request the report

756
00:26:48,710 --> 00:26:44,720
request was very narrow

757
00:26:51,029 --> 00:26:48,720
very specific and that's what it wanted

758
00:26:52,230 --> 00:26:51,039
looked into here was the incursions of

759
00:26:55,190 --> 00:26:52,240
training ranges

760
00:26:57,750 --> 00:26:55,200
and of course that was the focus of of

761
00:27:00,310 --> 00:26:57,760
this report of the data gathered

762
00:27:01,590 --> 00:27:00,320
naturally that's what it's going to seem

763
00:27:04,390 --> 00:27:01,600

like there are

764

00:27:05,590 --> 00:27:04,400

sightings clustered around here but for

765

00:27:08,310 --> 00:27:05,600

anybody who wants to

766

00:27:09,669 --> 00:27:08,320

wants to look at uh you know a broader

767

00:27:12,230 --> 00:27:09,679

set of data

768

00:27:13,190 --> 00:27:12,240

cheryl costa man you really gotta gotta

769

00:27:16,230 --> 00:27:13,200

check out

770

00:27:17,110 --> 00:27:16,240

what cheryl costa does she and and her

771

00:27:19,669 --> 00:27:17,120

wife linda

772

00:27:21,830 --> 00:27:19,679

do amazing work they're they're doing

773

00:27:24,070 --> 00:27:21,840

even more work with their new book

774

00:27:25,909 --> 00:27:24,080

if you like statistics and data

775

00:27:27,350 --> 00:27:25,919

associated with ufos you're not going to

776

00:27:30,389 --> 00:27:27,360

find a better source

777

00:27:32,789 --> 00:27:30,399

than than the work that they do so

778

00:27:33,990 --> 00:27:32,799

um you know they would be a great uh

779

00:27:36,870 --> 00:27:34,000

resource for the government

780

00:27:38,870 --> 00:27:36,880

to to tap if they get down to looking at

781

00:27:41,669 --> 00:27:38,880

the broader picture

782

00:27:42,630 --> 00:27:41,679

but another just one more eye roll point

783

00:27:45,110 --> 00:27:42,640

i'll point out

784

00:27:46,230 --> 00:27:45,120

is that when they said if and when

785

00:27:48,070 --> 00:27:46,240

individual uap

786

00:27:49,830 --> 00:27:48,080

incidents are resolved they will fall

787

00:27:51,669 --> 00:27:49,840

into one of five potential explanatory

788

00:27:52,789 --> 00:27:51,679

categories airborne clutter natural

789

00:27:55,269 --> 00:27:52,799

atmospheric phenomena

790

00:27:56,789 --> 00:27:55,279

usg or industrial development programs

791

00:27:58,950 --> 00:27:56,799

foreign adversary systems

792

00:28:00,149 --> 00:27:58,960

and catch all other bin like we already

793

00:28:02,470 --> 00:28:00,159

mentioned

794

00:28:03,590 --> 00:28:02,480

these the government really seems and

795

00:28:05,510 --> 00:28:03,600

you know this shane about

796

00:28:07,430 --> 00:28:05,520

working with government but it seems

797

00:28:09,190 --> 00:28:07,440

like especially with ufos because we

798

00:28:11,269 --> 00:28:09,200

we heard from lou elizondo the five

799

00:28:12,230 --> 00:28:11,279

observables and now we've got our five

800

00:28:13,909 --> 00:28:12,240

bins here

801
00:28:16,149 --> 00:28:13,919
they like to have this number of

802
00:28:18,710 --> 00:28:16,159
cataract cataractization

803
00:28:20,389 --> 00:28:18,720
that they can put things into when it's

804
00:28:23,350 --> 00:28:20,399
kind of unnecessary i mean

805
00:28:24,070 --> 00:28:23,360
ufos are all over the place and i mean

806
00:28:27,830 --> 00:28:24,080
you could really

807
00:28:29,269 --> 00:28:27,840
just say solved unsolved but

808
00:28:31,110 --> 00:28:29,279
i think we would all like to have a peek

809
00:28:33,110 --> 00:28:31,120
at that other bin when they actually get

810
00:28:34,710 --> 00:28:33,120
to putting things in those bins

811
00:28:35,830 --> 00:28:34,720
but as we see from the report it doesn't

812
00:28:37,510 --> 00:28:35,840
seem like they've been able to put

813
00:28:38,710 --> 00:28:37,520

anything but one thing in a bin well and

814

00:28:41,110 --> 00:28:38,720

the other thing too

815

00:28:42,710 --> 00:28:41,120

a balloon one one balloon chain

816

00:28:45,029 --> 00:28:42,720

apparently a balloon um

817

00:28:46,070 --> 00:28:45,039

the other thing too jason is that idea

818

00:28:48,630 --> 00:28:46,080

of like

819

00:28:49,750 --> 00:28:48,640

how they want to set up how they collect

820

00:28:52,950 --> 00:28:49,760

the data now

821

00:28:54,870 --> 00:28:52,960

the whole ai thing um is awesome

822

00:28:56,310 --> 00:28:54,880

and it's kind of this that sounds like

823

00:28:58,789 --> 00:28:56,320

this whole report

824

00:29:00,870 --> 00:28:58,799

was like a sales pitch it'd be like we

825

00:29:03,830 --> 00:29:00,880

don't have the technology

826

00:29:05,669 --> 00:29:03,840

to properly study this we need an ai

827

00:29:07,110 --> 00:29:05,679

system to do this that's gonna

828

00:29:08,710 --> 00:29:07,120

figure out that's a bird that's a

829

00:29:11,190 --> 00:29:08,720

satellite that's a missile

830

00:29:12,870 --> 00:29:11,200

and and he's knocking on the doors and

831

00:29:15,590 --> 00:29:12,880

says hey

832

00:29:16,549 --> 00:29:15,600

we already have that so like work with

833

00:29:19,190 --> 00:29:16,559

the public

834

00:29:21,510 --> 00:29:19,200

you know and i have heard rumblings that

835

00:29:23,990 --> 00:29:21,520

this task force might be

836

00:29:25,510 --> 00:29:24,000

uh consulting with skyhub which is

837

00:29:27,750 --> 00:29:25,520

extremely exciting

838

00:29:29,430 --> 00:29:27,760

so the ball's in their court with sky

839

00:29:31,110 --> 00:29:29,440

hub because all of their data was

840

00:29:34,549 --> 00:29:31,120

working on that stuff too right

841

00:29:36,870 --> 00:29:34,559

right them too working on ai with their

842

00:29:37,990 --> 00:29:36,880

atom project i think or is it the scout

843

00:29:39,909 --> 00:29:38,000

the scout app yeah

844

00:29:41,590 --> 00:29:39,919

oh okay okay yeah so it's out there

845

00:29:44,310 --> 00:29:41,600

already so

846

00:29:46,389 --> 00:29:44,320

but the problem being you know um

847

00:29:47,990 --> 00:29:46,399

skyhub's big thing is transparency the

848

00:29:50,310 --> 00:29:48,000

data is for the public

849

00:29:51,590 --> 00:29:50,320

it's in the cloud so you have to wonder

850

00:29:52,310 --> 00:29:51,600

like are they going to use their

851
00:29:54,470 --> 00:29:52,320
software

852
00:29:56,389 --> 00:29:54,480
but still keep it hidden and classified

853
00:29:57,990 --> 00:29:56,399
so i think uh skyhub is going to have

854
00:30:00,549 --> 00:29:58,000
some ethical questions

855
00:30:02,230 --> 00:30:00,559
on their minds coming soon i don't know

856
00:30:03,350 --> 00:30:02,240
i think it would have to be classified

857
00:30:04,870 --> 00:30:03,360
because it would have to

858
00:30:06,870 --> 00:30:04,880
the thing's going to pick up classified

859
00:30:09,110 --> 00:30:06,880
projects exactly

860
00:30:10,630 --> 00:30:09,120
exactly even though apparently that's

861
00:30:12,549 --> 00:30:10,640
not what any of these are

862
00:30:14,549 --> 00:30:12,559
according to the us government which i

863
00:30:16,470 --> 00:30:14,559

don't believe for a second but that's

864

00:30:17,909 --> 00:30:16,480

that's a whole other debate it's it's

865

00:30:19,750 --> 00:30:17,919

very interesting though because i think

866

00:30:22,389 --> 00:30:19,760

the technology

867

00:30:24,710 --> 00:30:22,399

it's it is out there and and you know i

868

00:30:25,750 --> 00:30:24,720

work at a programming company and i was

869

00:30:28,470 --> 00:30:25,760

at a conference

870

00:30:28,789 --> 00:30:28,480

years ago and i walk around the corner

871

00:30:32,630 --> 00:30:28,799

and

872

00:30:34,470 --> 00:30:32,640

talking about how they were using

873

00:30:37,830 --> 00:30:34,480

machine learning to pull

874

00:30:40,470 --> 00:30:37,840

from all these different sources of

875

00:30:43,029 --> 00:30:40,480

um you know public computers and all

876

00:30:46,149 --> 00:30:43,039

this stuff to put together

877

00:30:48,470 --> 00:30:46,159

information on a mass scale

878

00:30:49,990 --> 00:30:48,480

engineers can do it it's out there and

879

00:30:52,310 --> 00:30:50,000

and i think that you know

880

00:30:53,909 --> 00:30:52,320

if they had a if they want to come

881

00:30:54,470 --> 00:30:53,919

knocking on our door i'll give them a

882

00:30:59,590 --> 00:30:54,480

government

883

00:31:01,269 --> 00:30:59,600

build some sort of crazy machine

884

00:31:03,509 --> 00:31:01,279

learning system for them

885

00:31:04,549 --> 00:31:03,519

i mean those were just saying it's the

886

00:31:06,310 --> 00:31:04,559

research is there

887

00:31:07,909 --> 00:31:06,320

clearly it's the funding the money

888

00:31:11,350 --> 00:31:07,919

that's not there

889

00:31:14,789 --> 00:31:11,360

um and that yes you're right it was

890

00:31:16,549 --> 00:31:14,799

a total sales pitch of okay yes

891

00:31:18,149 --> 00:31:16,559

unidentified we need to figure out how

892

00:31:19,269 --> 00:31:18,159

to make this work if you want us to

893

00:31:22,630 --> 00:31:19,279

exist

894

00:31:25,909 --> 00:31:22,640

we need money give us money

895

00:31:27,750 --> 00:31:25,919

totally well i do have to bring this up

896

00:31:29,669 --> 00:31:27,760

because although there were things in

897

00:31:31,110 --> 00:31:29,679

the report that made me roll my eyes but

898

00:31:31,990 --> 00:31:31,120

later i appreciated the fact that they

899

00:31:34,870 --> 00:31:32,000

are they're actually in

900

00:31:35,350 --> 00:31:34,880

there there's one thing that that just

901
00:31:39,029 --> 00:31:35,360

got a

902
00:31:42,470 --> 00:31:39,039

statement

903
00:31:43,590 --> 00:31:42,480

that said there are probably multiple

904
00:31:47,830 --> 00:31:43,600

types of uap

905
00:31:49,750 --> 00:31:47,840
requiring different explanations

906
00:31:51,750 --> 00:31:49,760
really only probably you think you just

907
00:31:54,070 --> 00:31:51,760
figured that out after your study

908
00:31:57,190 --> 00:31:54,080
give me a break of course of course

909
00:32:01,190 --> 00:31:57,200
there are different types of ufos

910
00:32:03,909 --> 00:32:01,200
yeah no there's only one only one type

911
00:32:05,909 --> 00:32:03,919
one solution yeah yeah now that that's

912
00:32:08,310 --> 00:32:05,919
the problem with grouping everything's

913
00:32:10,070 --> 00:32:08,320

all these strange ufos into one giant

914

00:32:11,669 --> 00:32:10,080

pile when other bin

915

00:32:13,350 --> 00:32:11,679

you know they're not all the same

916

00:32:16,310 --> 00:32:13,360

they're pretty much all different

917

00:32:20,789 --> 00:32:16,320

so again problem with the ufos they're

918

00:32:24,870 --> 00:32:22,710

like snowflakes ryan i like that that's

919

00:32:26,870 --> 00:32:24,880

beautiful thank you i made that up

920

00:32:30,070 --> 00:32:26,880

myself it's never been said before

921

00:32:33,750 --> 00:32:32,310

i feel like you know if jeremy corbell

922

00:32:36,310 --> 00:32:33,760

were here he would have a more

923

00:32:37,430 --> 00:32:36,320

eloquent way of saying that like a like

924

00:32:47,830 --> 00:32:37,440

a

925

00:32:50,950 --> 00:32:47,840

you

926
00:32:54,149 --> 00:32:50,960
he has a way with words man all right

927
00:32:57,110 --> 00:32:54,159
so the biggest question i have

928
00:32:59,430 --> 00:32:57,120
after reading this report is when they

929
00:33:01,029 --> 00:32:59,440
were talking about

930
00:33:02,549 --> 00:33:01,039
that one balloon they were able to

931
00:33:03,870 --> 00:33:02,559
identify

932
00:33:09,110 --> 00:33:03,880
do you think they were talking about the

933
00:33:13,430 --> 00:33:10,870
batman balloon it has to be i thought it

934
00:33:15,430 --> 00:33:13,440
was that man oh really see i thought it

935
00:33:17,350 --> 00:33:15,440
was the omaha video

936
00:33:19,590 --> 00:33:17,360
i was going with the omaha video because

937
00:33:20,230 --> 00:33:19,600
that one like pretty much everyone was

938
00:33:21,830 --> 00:33:20,240

like that's a

939

00:33:24,149 --> 00:33:21,840

it's a balloon at least mcquest

940

00:33:25,750 --> 00:33:24,159

interesting so i thought it was actually

941

00:33:29,029 --> 00:33:25,760

the omaha video

942

00:33:31,029 --> 00:33:29,039

interesting but yeah it it's

943

00:33:32,710 --> 00:33:31,039

yeah actually now that you say it i'm

944

00:33:33,350 --> 00:33:32,720

leaning more towards the batman balloon

945

00:33:35,029 --> 00:33:33,360

but um

946

00:33:36,470 --> 00:33:35,039

i just automatically consumed it with

947

00:33:39,830 --> 00:33:36,480

the deflating batman

948

00:33:41,830 --> 00:33:39,840

balloon yeah but they said didn't they

949

00:33:42,389 --> 00:33:41,840

say in the report that it was a very

950

00:33:45,830 --> 00:33:42,399

large

951
00:33:46,950 --> 00:33:45,840
deflating balloon like right i thought

952
00:33:50,549 --> 00:33:46,960
more like a

953
00:33:51,750 --> 00:33:50,559
um like a macy's no no like a leather

954
00:33:53,750 --> 00:33:51,760
balloon

955
00:33:55,590 --> 00:33:53,760
yeah i mean you know that's a hundred

956
00:33:58,070 --> 00:33:55,600
feet tall and you know it

957
00:33:59,269 --> 00:33:58,080
flattens and looks strange and stuff but

958
00:33:59,830 --> 00:33:59,279
i don't know that's an assumption

959
00:34:02,549 --> 00:33:59,840
largest

960
00:34:02,870 --> 00:34:02,559
objective for sure yeah it is yeah and

961
00:34:04,710 --> 00:34:02,880
as

962
00:34:06,389 --> 00:34:04,720
is everything with this report i mean

963
00:34:07,110 --> 00:34:06,399

we're sitting here chatting about stuff

964

00:34:09,750 --> 00:34:07,120

that

965

00:34:10,230 --> 00:34:09,760

you know we know nothing about oh no

966

00:34:12,230 --> 00:34:10,240

exactly

967

00:34:13,909 --> 00:34:12,240

it's all speculation and the show is

968

00:34:14,230 --> 00:34:13,919

always in the details you know think of

969

00:34:15,909 --> 00:34:14,240

this

970

00:34:18,069 --> 00:34:15,919

think of think of a just a normal

971

00:34:20,869 --> 00:34:18,079

balloon just a regular balloon

972

00:34:22,149 --> 00:34:20,879

and then think about the batman balloon

973

00:34:25,510 --> 00:34:22,159

like in relation

974

00:34:28,230 --> 00:34:25,520

is a large bloom yeah yeah yeah

975

00:34:29,349 --> 00:34:28,240

i mean can't they so now that they've

976
00:34:31,349 --> 00:34:29,359
identified it and

977
00:34:33,030 --> 00:34:31,359
it's a balloon it seems like they should

978
00:34:36,470 --> 00:34:33,040
be able to give us more information

979
00:34:38,710 --> 00:34:36,480
yes you should right balloon spotted by

980
00:34:40,310 --> 00:34:38,720
this person this is how we came to the

981
00:34:42,389 --> 00:34:40,320
conclusion that it was a deflating

982
00:34:45,109 --> 00:34:42,399
balloon

983
00:34:46,310 --> 00:34:45,119
based on all these different uh

984
00:34:48,950 --> 00:34:46,320
assessments

985
00:34:49,430 --> 00:34:48,960
that the public did probably they pulled

986
00:34:51,510 --> 00:34:49,440
a lot of

987
00:34:52,629 --> 00:34:51,520
info from from what of course the public

988
00:34:56,470 --> 00:34:52,639

was doing

989

00:34:59,750 --> 00:34:56,480

uh but yeah i i didn't even think about

990

00:35:01,910 --> 00:34:59,760

other cases i didn't either but

991

00:35:03,430 --> 00:35:01,920

i agree with you and and you know i i

992

00:35:05,349 --> 00:35:03,440

hope they do that down the road when

993

00:35:06,550 --> 00:35:05,359

they figure out how to actually identify

994

00:35:09,349 --> 00:35:06,560

ufos

995

00:35:10,310 --> 00:35:09,359

because that is tremendously valuable

996

00:35:12,790 --> 00:35:10,320

for the public

997

00:35:14,310 --> 00:35:12,800

it really is when they can say look this

998

00:35:16,470 --> 00:35:14,320

thing looks bizarre

999

00:35:17,990 --> 00:35:16,480

um you know even for our fighter pilots

1000

00:35:19,190 --> 00:35:18,000

they saw this thing in the sky and

1001
00:35:20,950 --> 00:35:19,200
they've never seen anything like this

1002
00:35:23,030 --> 00:35:20,960
before because you would see a random

1003
00:35:25,030 --> 00:35:23,040
balloon in the sky it's gonna look weird

1004
00:35:27,510 --> 00:35:25,040
but here's what it looks like just so

1005
00:35:29,510 --> 00:35:27,520
you know that is a balloon

1006
00:35:31,349 --> 00:35:29,520
so there you go you can take this and

1007
00:35:32,950 --> 00:35:31,359
and use that knowledge as you're going

1008
00:35:34,310 --> 00:35:32,960
forward and it will help you identify

1009
00:35:35,589 --> 00:35:34,320
things in the future

1010
00:35:36,710 --> 00:35:35,599
i don't think we're going to get that

1011
00:35:38,310 --> 00:35:36,720
because it doesn't seem like they've

1012
00:35:41,190 --> 00:35:38,320
even gotten down to the part of

1013
00:35:41,990 --> 00:35:41,200

of identifying things so we'll see but

1014

00:35:44,550 --> 00:35:42,000

there is hope

1015

00:35:46,550 --> 00:35:44,560

i think with this report um and with

1016

00:35:48,550 --> 00:35:46,560

other stuff that's come

1017

00:35:49,990 --> 00:35:48,560

after the report was released and that

1018

00:35:52,230 --> 00:35:50,000

is it looks like

1019

00:35:53,190 --> 00:35:52,240

it looks like the plan is to actually

1020

00:35:56,550 --> 00:35:53,200

establish a

1021

00:35:59,750 --> 00:35:56,560

true ufo program right because

1022

00:36:01,430 --> 00:35:59,760

on june 25th the same day that the dni

1023

00:36:03,349 --> 00:36:01,440

ufo report was published

1024

00:36:05,030 --> 00:36:03,359

deputy secretary of defense kathleen

1025

00:36:06,710 --> 00:36:05,040

hicks issued a memo

1026

00:36:08,470 --> 00:36:06,720

directing the office of the under

1027

00:36:08,870 --> 00:36:08,480

secretary of defense for intelligence

1028

00:36:11,589 --> 00:36:08,880

and

1029

00:36:13,270 --> 00:36:11,599

security to quote develop a plan to

1030

00:36:14,550 --> 00:36:13,280

formalize the mission currently

1031

00:36:17,589 --> 00:36:14,560

performed by the uh

1032

00:36:19,430 --> 00:36:17,599

uaptf the plan should number one

1033

00:36:21,430 --> 00:36:19,440

establish procedures to synchronize

1034

00:36:22,550 --> 00:36:21,440

collection reporting and analysis on the

1035

00:36:23,990 --> 00:36:22,560

uap problem set

1036

00:36:25,670 --> 00:36:24,000

and to establish recommendations for

1037

00:36:27,349 --> 00:36:25,680

securing military tests and training

1038

00:36:30,310 --> 00:36:27,359

ranges

1039

00:36:31,670 --> 00:36:30,320

number two identify requirements for the

1040

00:36:34,950 --> 00:36:31,680

establishment

1041

00:36:37,990 --> 00:36:34,960

and operation of the new activity

1042

00:36:39,670 --> 00:36:38,000

to include the organize organizational

1043

00:36:42,069 --> 00:36:39,680

alignment resources and staffing

1044

00:36:43,750 --> 00:36:42,079

required as well as any necessary

1045

00:36:45,109 --> 00:36:43,760

authorities and a timeline for

1046

00:36:46,550 --> 00:36:45,119

implementation

1047

00:36:48,390 --> 00:36:46,560

number three be developed in

1048

00:36:49,109 --> 00:36:48,400

coordination with the principal staff

1049

00:36:50,390 --> 00:36:49,119

assistants

1050

00:36:52,230 --> 00:36:50,400

the chairman of the joint chiefs of

1051
00:36:53,190 --> 00:36:52,240
staff the secretary of the military

1052
00:36:54,950 --> 00:36:53,200
departments

1053
00:36:56,390 --> 00:36:54,960
and the command commanders of the

1054
00:36:58,950 --> 00:36:56,400
combatant commands

1055
00:37:00,630 --> 00:36:58,960
and with the dna dni and other relevant

1056
00:37:01,990 --> 00:37:00,640
interagency partners

1057
00:37:04,230 --> 00:37:02,000
all members of the department will

1058
00:37:08,710 --> 00:37:04,240
utilize these processes to ensure

1059
00:37:10,950 --> 00:37:08,720
that the uaptf or its follow-on activity

1060
00:37:12,950 --> 00:37:10,960
as reports of uap observations within

1061
00:37:15,589 --> 00:37:12,960
two weeks of an occurrence

1062
00:37:17,270 --> 00:37:15,599
so that paired with what we saw in the

1063
00:37:18,390 --> 00:37:17,280

report at the end of the report talking

1064

00:37:20,710 --> 00:37:18,400

about funding and

1065

00:37:21,510 --> 00:37:20,720

and you know funding for a uh ufo

1066

00:37:24,150 --> 00:37:21,520

program

1067

00:37:25,109 --> 00:37:24,160

it looks like that is the goal here to

1068

00:37:28,630 --> 00:37:25,119

establish

1069

00:37:30,150 --> 00:37:28,640

a new government ufo program

1070

00:37:32,550 --> 00:37:30,160

absolutely and you can't tell me this

1071

00:37:34,150 --> 00:37:32,560

wasn't planned i mean it wouldn't have

1072

00:37:36,550 --> 00:37:34,160

this this wasn't an impulsive

1073

00:37:38,310 --> 00:37:36,560

reactionary thing on the part of the dod

1074

00:37:40,310 --> 00:37:38,320

clearly the report was meant to be like

1075

00:37:40,950 --> 00:37:40,320

we left the resources the time to do

1076

00:37:43,910 --> 00:37:40,960

this

1077

00:37:44,310 --> 00:37:43,920

um so here you go dod you deal with it

1078

00:37:46,550 --> 00:37:44,320

now

1079

00:37:47,990 --> 00:37:46,560

so hey i think that's awesome though

1080

00:37:49,430 --> 00:37:48,000

again um

1081

00:37:50,950 --> 00:37:49,440

like they're moving the ball forward

1082

00:37:51,750 --> 00:37:50,960

we're gonna get a permanent program

1083

00:37:54,069 --> 00:37:51,760

hopefully

1084

00:37:55,030 --> 00:37:54,079

um but again the real question is will

1085

00:37:57,270 --> 00:37:55,040

we will we

1086

00:37:58,069 --> 00:37:57,280

see anything from it probably not unless

1087

00:38:01,190 --> 00:37:58,079

it's leaked

1088

00:38:02,950 --> 00:38:01,200

which you know we've heard people saying

1089

00:38:04,630 --> 00:38:02,960

you know the classified report it'll

1090

00:38:05,510 --> 00:38:04,640

probably some of it will get out even

1091

00:38:07,750 --> 00:38:05,520

rubio

1092

00:38:08,710 --> 00:38:07,760

said at one point that you know things

1093

00:38:10,870 --> 00:38:08,720

don't stay

1094

00:38:12,310 --> 00:38:10,880

classified anymore not in today's world

1095

00:38:14,550 --> 00:38:12,320

with the internet and

1096

00:38:15,990 --> 00:38:14,560

you know everything like that so maybe

1097

00:38:18,390 --> 00:38:16,000

we'll see some of it but yeah

1098

00:38:19,829 --> 00:38:18,400

i thought this dod memo was so much

1099

00:38:22,950 --> 00:38:19,839

better than the entire report

1100

00:38:25,430 --> 00:38:22,960

in my personal opinion oh absolutely

1101
00:38:26,470 --> 00:38:25,440
but again the problem and what what

1102
00:38:29,349 --> 00:38:26,480
doesn't get me

1103
00:38:31,030 --> 00:38:29,359
or it gives me pause is that it

1104
00:38:34,470 --> 00:38:31,040
specifically mentions

1105
00:38:38,069 --> 00:38:34,480
formalizing the mission of the uaptf

1106
00:38:39,829 --> 00:38:38,079
which again is focused solely on

1107
00:38:41,990 --> 00:38:39,839
military training ranges military

1108
00:38:44,310 --> 00:38:42,000
airspace it's not

1109
00:38:45,349 --> 00:38:44,320
looking at the whole picture it's not

1110
00:38:47,990 --> 00:38:45,359
concerned

1111
00:38:51,510 --> 00:38:48,000
with civilian sightings which make up

1112
00:38:52,069 --> 00:38:51,520
the large majority of ufo sightings ufos

1113
00:38:54,710 --> 00:38:52,079

are seen

1114

00:38:56,550 --> 00:38:54,720

every day all around the world why are

1115

00:38:58,310 --> 00:38:56,560

we just looking at military training

1116

00:39:01,270 --> 00:38:58,320

ranges it's kind of silly

1117

00:39:02,950 --> 00:39:01,280

but you know hey if the government wants

1118

00:39:04,150 --> 00:39:02,960

their own program to just look at

1119

00:39:05,990 --> 00:39:04,160

military stuff

1120

00:39:07,270 --> 00:39:06,000

that's great it's surprising they don't

1121

00:39:08,790 --> 00:39:07,280

already have that you would think they

1122

00:39:09,910 --> 00:39:08,800

do and i think the branches probably

1123

00:39:11,430 --> 00:39:09,920

already take care of their own thing

1124

00:39:13,030 --> 00:39:11,440

they're just not sharing data

1125

00:39:14,550 --> 00:39:13,040

but that should be a thing that the

1126

00:39:17,589 --> 00:39:14,560

government has

1127

00:39:19,430 --> 00:39:17,599

however i think the government or

1128

00:39:20,870 --> 00:39:19,440

some other entity and i don't know what

1129

00:39:22,550 --> 00:39:20,880

that would be i mean i would like it to

1130

00:39:23,990 --> 00:39:22,560

be on an academic level but

1131

00:39:25,349 --> 00:39:24,000

it should you know i think it would run

1132

00:39:26,230 --> 00:39:25,359

smoother if it were operated by the

1133

00:39:30,069 --> 00:39:26,240

government

1134

00:39:31,990 --> 00:39:30,079

some true genuine ufo program

1135

00:39:33,750 --> 00:39:32,000

to take over the role really of the

1136

00:39:35,670 --> 00:39:33,760

national ufo reporting center

1137

00:39:37,430 --> 00:39:35,680

which sounds like it's a government

1138

00:39:38,710 --> 00:39:37,440

thing but it's not it's one guy living

1139

00:39:42,150 --> 00:39:38,720

in a missile silo

1140

00:39:43,510 --> 00:39:42,160

doing this thankless task of fielding

1141

00:39:46,310 --> 00:39:43,520

ufo reports

1142

00:39:47,990 --> 00:39:46,320

from people all around the world i mean

1143

00:39:48,470 --> 00:39:48,000

peter davenport does a great job but i

1144

00:39:50,390 --> 00:39:48,480

think

1145

00:39:51,510 --> 00:39:50,400

you know the government needs something

1146

00:39:53,430 --> 00:39:51,520

like that

1147

00:39:55,190 --> 00:39:53,440

kind of a central hub for reporting an

1148

00:39:57,190 --> 00:39:55,200

investigation

1149

00:39:58,470 --> 00:39:57,200

yeah that's a no-brainer one of the

1150

00:40:01,190 --> 00:39:58,480

other things too that

1151
00:40:03,270 --> 00:40:01,200
looking at it i mean um that whole

1152
00:40:05,270 --> 00:40:03,280
executive summary and that whole report

1153
00:40:08,470 --> 00:40:05,280
really to me read just like

1154
00:40:10,309 --> 00:40:08,480
uh an sow or a statement of work

1155
00:40:12,150 --> 00:40:10,319
so like whenever you create you know a

1156
00:40:13,990 --> 00:40:12,160
new program in government or you want to

1157
00:40:15,430 --> 00:40:14,000
hire a contractor you want to implement

1158
00:40:17,430 --> 00:40:15,440
a solution a

1159
00:40:18,950 --> 00:40:17,440
maybe a software solution whatever i

1160
00:40:21,910 --> 00:40:18,960
mean that's what it was written like

1161
00:40:23,589 --> 00:40:21,920
it really was a public pitch for a

1162
00:40:26,309 --> 00:40:23,599
program to create a program

1163
00:40:27,349 --> 00:40:26,319

which is awesome that is exactly what i

1164

00:40:29,430 --> 00:40:27,359

wanted to see

1165

00:40:30,470 --> 00:40:29,440

you know and so from that perspective i

1166

00:40:32,550 --> 00:40:30,480

really appreciate it

1167

00:40:34,950 --> 00:40:32,560

but i do think they miss an opportunity

1168

00:40:37,270 --> 00:40:34,960

here um

1169

00:40:38,150 --> 00:40:37,280

the fact that they didn't include any

1170

00:40:40,790 --> 00:40:38,160

specific

1171

00:40:42,390 --> 00:40:40,800

case data i i was thinking what they

1172

00:40:44,550 --> 00:40:42,400

could have done is they could have maybe

1173

00:40:45,109 --> 00:40:44,560

elaborated let's say on the nimitz case

1174

00:40:47,589 --> 00:40:45,119

right it's

1175

00:40:48,790 --> 00:40:47,599

2000 fords no doubt one of the cases

1176

00:40:50,710 --> 00:40:48,800

they were talking about

1177

00:40:52,790 --> 00:40:50,720

it's been out in the public so they

1178

00:40:53,829 --> 00:40:52,800

could have expanded on that referred to

1179

00:40:56,630 --> 00:40:53,839

that they could have

1180

00:40:58,550 --> 00:40:56,640

um they could have included maybe some

1181

00:41:01,670 --> 00:40:58,560

information that we haven't had

1182

00:41:02,230 --> 00:41:01,680

you know it's already declassified it

1183

00:41:05,270 --> 00:41:02,240

wouldn't

1184

00:41:06,950 --> 00:41:05,280

security blah blah blah

1185

00:41:09,270 --> 00:41:06,960

and what they could have done is kind of

1186

00:41:11,109 --> 00:41:09,280

created a model or a template

1187

00:41:12,950 --> 00:41:11,119

of how they're going to report data out

1188

00:41:15,430 --> 00:41:12,960

to the public when they do

1189

00:41:16,630 --> 00:41:15,440

do an investigation and make a report

1190

00:41:18,230 --> 00:41:16,640

and they could have

1191

00:41:19,910 --> 00:41:18,240

felt us out they could have felt the

1192

00:41:20,790 --> 00:41:19,920

public out they could have felt congress

1193

00:41:23,829 --> 00:41:20,800

out by

1194

00:41:24,230 --> 00:41:23,839

by you know including that in the report

1195

00:41:28,950 --> 00:41:24,240

to

1196

00:41:30,950 --> 00:41:28,960

that they will they will generate you

1197

00:41:32,870 --> 00:41:30,960

know what's the end product what's the

1198

00:41:34,230 --> 00:41:32,880

what's the deliverable whenever you have

1199

00:41:35,510 --> 00:41:34,240

a program or something you've got to

1200

00:41:36,950 --> 00:41:35,520

have a deliverable

1201
00:41:38,630 --> 00:41:36,960
and i think they missed kind of an

1202
00:41:41,510 --> 00:41:38,640
opportunity there to set us

1203
00:41:42,950 --> 00:41:41,520
up a little bit for you know create an

1204
00:41:44,710 --> 00:41:42,960
expectation but

1205
00:41:46,390 --> 00:41:44,720
you know that's probably not the purpose

1206
00:41:49,109 --> 00:41:46,400
of what that was about

1207
00:41:50,870 --> 00:41:49,119
i understand the bill was narrow what

1208
00:41:53,030 --> 00:41:50,880
they asked for but they included some

1209
00:41:54,710 --> 00:41:53,040
things outside of it a little bit so

1210
00:41:56,069 --> 00:41:54,720
i don't know i i was just really

1211
00:41:58,390 --> 00:41:56,079
disappointed that there was

1212
00:42:00,790 --> 00:41:58,400
zero case data i mean they referred to

1213
00:42:04,150 --> 00:42:00,800

144 cases 18 this

1214

00:42:05,750 --> 00:42:04,160

21 that blah blah blah fine but

1215

00:42:07,510 --> 00:42:05,760

i didn't find that helpful and i

1216

00:42:08,630 --> 00:42:07,520

especially didn't like the stupid

1217

00:42:11,990 --> 00:42:08,640

balloon reference

1218

00:42:13,750 --> 00:42:12,000

i did the 144 cases and i'm sure there

1219

00:42:15,670 --> 00:42:13,760

were more cases where they resolved them

1220

00:42:17,670 --> 00:42:15,680

you had to pick a freaking balloon

1221

00:42:20,390 --> 00:42:17,680

i mean that's irritating to me that's

1222

00:42:23,270 --> 00:42:20,400

like project blue book that's like

1223

00:42:23,589 --> 00:42:23,280

you know disinformation missing from me

1224

00:42:26,150 --> 00:42:23,599

it's

1225

00:42:28,150 --> 00:42:26,160

smacks of that so i don't know if they

1226

00:42:29,430 --> 00:42:28,160

just don't get it culturally like in the

1227

00:42:30,950 --> 00:42:29,440

ufo community

1228

00:42:32,790 --> 00:42:30,960

which i know they're not writing it for

1229

00:42:35,109 --> 00:42:32,800

us specifically but you know

1230

00:42:35,990 --> 00:42:35,119

have some situational awareness uh

1231

00:42:38,710 --> 00:42:36,000

government

1232

00:42:39,109 --> 00:42:38,720

and you know pick something else but you

1233

00:42:40,790 --> 00:42:39,119

know

1234

00:42:43,190 --> 00:42:40,800

the whole i mean like you started the

1235

00:42:44,710 --> 00:42:43,200

program with swamp gas i mean

1236

00:42:46,230 --> 00:42:44,720

if they had come out with that right

1237

00:42:48,630 --> 00:42:46,240

people would have wailed and i think

1238

00:42:50,230 --> 00:42:48,640

balloon is on the same level so

1239

00:42:52,230 --> 00:42:50,240

i was a little disappointed because they

1240

00:42:54,309 --> 00:42:52,240

had a a case they could have talked

1241

00:42:55,990 --> 00:42:54,319

about that was really incredible

1242

00:42:57,510 --> 00:42:56,000

and it's already in the public sector

1243

00:42:59,030 --> 00:42:57,520

and they could have set a model or

1244

00:43:00,630 --> 00:42:59,040

expectation and they didn't

1245

00:43:02,390 --> 00:43:00,640

i think that's a great point and and

1246

00:43:03,349 --> 00:43:02,400

that would have been cool to see but i'm

1247

00:43:05,589 --> 00:43:03,359

gonna

1248

00:43:07,270 --> 00:43:05,599

just off the top of my head guess that

1249

00:43:08,230 --> 00:43:07,280

even though it's a declassified

1250

00:43:10,470 --> 00:43:08,240

situation

1251
00:43:11,589 --> 00:43:10,480
there would have been a lot more red

1252
00:43:14,550 --> 00:43:11,599
tape to cross

1253
00:43:16,790 --> 00:43:14,560
and it probably would have uh delayed

1254
00:43:22,230 --> 00:43:16,800
the report to the public by

1255
00:43:24,230 --> 00:43:22,240
uh months potentially just knowing that

1256
00:43:25,430 --> 00:43:24,240
to be honest yeah i'm sorry to interrupt

1257
00:43:27,750 --> 00:43:25,440
more but like

1258
00:43:29,829 --> 00:43:27,760
i feel like i wasn't expecting anything

1259
00:43:31,109 --> 00:43:29,839
that day to be honest until i heard like

1260
00:43:33,109 --> 00:43:31,119
the rumblings but

1261
00:43:34,150 --> 00:43:33,119
i would have rather waited another six

1262
00:43:37,270 --> 00:43:34,160
months and got

1263
00:43:38,150 --> 00:43:37,280

some case data to look at which elizondo

1264

00:43:39,990 --> 00:43:38,160

was kind of

1265

00:43:41,430 --> 00:43:40,000

alluding to he's like it's gonna get

1266

00:43:43,829 --> 00:43:41,440

delayed um

1267

00:43:44,710 --> 00:43:43,839

and hopefully that's that's a good thing

1268

00:43:46,630 --> 00:43:44,720

like that's for

1269

00:43:49,430 --> 00:43:46,640

the better but it didn't and this is

1270

00:43:52,710 --> 00:43:49,440

what we got so sorry to interrupt i just

1271

00:43:55,990 --> 00:43:52,720

i yeah

1272

00:43:57,349 --> 00:43:56,000

well something that you know people

1273

00:43:59,030 --> 00:43:57,359

i know a lot of people were disappointed

1274

00:44:00,390 --> 00:43:59,040

with the report like i said i i was

1275

00:44:04,630 --> 00:44:00,400

pleasantly surprised

1276

00:44:08,230 --> 00:44:04,640

but i i really hope people keep in mind

1277

00:44:09,670 --> 00:44:08,240

what the uap task force is

1278

00:44:11,270 --> 00:44:09,680

again there's a lot of this is

1279

00:44:13,589 --> 00:44:11,280

speculation because we don't know much

1280

00:44:16,390 --> 00:44:13,599

about the uap task force i mean we

1281

00:44:17,829 --> 00:44:16,400

know now who the director of that is at

1282

00:44:18,790 --> 00:44:17,839

least you know until that person is

1283

00:44:22,470 --> 00:44:18,800

replaced

1284

00:44:26,150 --> 00:44:22,480

but understand that

1285

00:44:28,550 --> 00:44:26,160

again a task force is a temporary thing

1286

00:44:30,069 --> 00:44:28,560

it's established for a specific purpose

1287

00:44:31,430 --> 00:44:30,079

this isn't something where they went out

1288

00:44:34,710 --> 00:44:31,440

and hired people

1289

00:44:36,710 --> 00:44:34,720

to put them in here and do this thorough

1290

00:44:37,910 --> 00:44:36,720

awesome job and that was the only job

1291

00:44:40,470 --> 00:44:37,920

they had

1292

00:44:41,109 --> 00:44:40,480

it's like if you work in at any business

1293

00:44:43,109 --> 00:44:41,119

and they're all

1294

00:44:45,270 --> 00:44:43,119

well we need a committee to plan a party

1295

00:44:47,430 --> 00:44:45,280

or we need to need a committee to plan a

1296

00:44:49,349 --> 00:44:47,440

conference we're doing

1297

00:44:50,870 --> 00:44:49,359

it's people you already have on your

1298

00:44:52,630 --> 00:44:50,880

existing staff

1299

00:44:53,910 --> 00:44:52,640

and they still are responsible for

1300

00:44:55,349 --> 00:44:53,920

performing their job that they were

1301
00:44:57,910 --> 00:44:55,359
hired to do

1302
00:44:59,270 --> 00:44:57,920
plus this extra committee work that they

1303
00:45:01,510 --> 00:44:59,280
signed up to do

1304
00:45:03,430 --> 00:45:01,520
that's what we have here we have people

1305
00:45:04,950 --> 00:45:03,440
who have a job that they have to do

1306
00:45:07,510 --> 00:45:04,960
but they're also taking on additional

1307
00:45:10,630 --> 00:45:07,520
responsibilities they're people who are

1308
00:45:11,670 --> 00:45:10,640
performing i imagine an impossible job

1309
00:45:15,030 --> 00:45:11,680
of going to

1310
00:45:17,349 --> 00:45:15,040
these different agencies and saying hi

1311
00:45:18,390 --> 00:45:17,359
would you please give us all of your ufo

1312
00:45:20,309 --> 00:45:18,400
information

1313
00:45:21,990 --> 00:45:20,319

and those people are saying [\h__\h] off i

1314

00:45:25,589 --> 00:45:22,000

mean i'm sure that's what happened

1315

00:45:27,750 --> 00:45:25,599

lots of times and that probably

1316

00:45:29,910 --> 00:45:27,760

is responsible for at least one of the

1317

00:45:30,870 --> 00:45:29,920

ig investigations that's apparently

1318

00:45:33,990 --> 00:45:30,880

ongoing or

1319

00:45:37,750 --> 00:45:34,000

evaluations um because

1320

00:45:39,270 --> 00:45:37,760

again ufos it's a big problem with ufos

1321

00:45:42,390 --> 00:45:39,280

and i don't think it's one that will

1322

00:45:43,750 --> 00:45:42,400

ever a hurdle will ever uh you know be

1323

00:45:46,870 --> 00:45:43,760

able to jump

1324

00:45:49,030 --> 00:45:46,880

that's because the nature of classified

1325

00:45:51,589 --> 00:45:49,040

projects the nature of government and

1326

00:45:53,750 --> 00:45:51,599

military and secret programs and

1327

00:45:55,589 --> 00:45:53,760

in all of this stuff that's happening

1328

00:45:57,750 --> 00:45:55,599

that most people in the government

1329

00:45:58,710 --> 00:45:57,760

aren't going to know about and certainly

1330

00:46:00,470 --> 00:45:58,720

other the agents

1331

00:46:03,349 --> 00:46:00,480

agencies working on these things aren't

1332

00:46:04,870 --> 00:46:03,359

going to volunteer that information

1333

00:46:06,470 --> 00:46:04,880

and even if they're forced to it's

1334

00:46:07,589 --> 00:46:06,480

probably not coming out because they

1335

00:46:08,790 --> 00:46:07,599

don't have to they're going to do what

1336

00:46:11,510 --> 00:46:08,800

they're going to do

1337

00:46:12,470 --> 00:46:11,520

um i always bring up the u2 and and you

1338

00:46:14,470 --> 00:46:12,480

know i know

1339

00:46:16,309 --> 00:46:14,480

ufo people don't like to hear that but

1340

00:46:19,270 --> 00:46:16,319

the ufo the the u2

1341

00:46:21,030 --> 00:46:19,280

project is a very important thing for

1342

00:46:22,230 --> 00:46:21,040

ufo history and for

1343

00:46:24,790 --> 00:46:22,240

for present things we're seeing right

1344

00:46:27,270 --> 00:46:24,800

now to understand there was a

1345

00:46:28,390 --> 00:46:27,280

very very very very very very small

1346

00:46:31,910 --> 00:46:28,400

group of people

1347

00:46:34,390 --> 00:46:31,920

who even knew that project existed

1348

00:46:35,910 --> 00:46:34,400

not that it was in development or you

1349

00:46:38,390 --> 00:46:35,920

know being researched

1350

00:46:39,589 --> 00:46:38,400

when it was actually flying missions

1351

00:46:41,829 --> 00:46:39,599

only a small group

1352

00:46:43,829 --> 00:46:41,839

knew that it even existed and it took

1353

00:46:45,910 --> 00:46:43,839

one crashing in russia

1354

00:46:46,870 --> 00:46:45,920

for it to be revealed i mean people in

1355

00:46:48,950 --> 00:46:46,880

the senate

1356

00:46:49,990 --> 00:46:48,960

in these intelligence committees they

1357

00:46:53,190 --> 00:46:50,000

didn't even know

1358

00:46:55,270 --> 00:46:53,200

that the u2 was a thing so

1359

00:46:56,309 --> 00:46:55,280

that stuff happens that's how military

1360

00:46:58,790 --> 00:46:56,319

and government works

1361

00:47:00,550 --> 00:46:58,800

and it's always going to be that way i

1362

00:47:01,910 --> 00:47:00,560

mean i i'm trying not to be pessimistic

1363

00:47:03,510 --> 00:47:01,920

i think that's realistic

1364

00:47:05,190 --> 00:47:03,520

because we know that's how government

1365

00:47:05,990 --> 00:47:05,200

works so there's going to be a lot of

1366

00:47:08,630 --> 00:47:06,000

that

1367

00:47:10,069 --> 00:47:08,640

but i applaud their effort and i do

1368

00:47:12,230 --> 00:47:10,079

think it's very important

1369

00:47:14,630 --> 00:47:12,240

if they really want to try to get to the

1370

00:47:16,790 --> 00:47:14,640

bottom of ufos or or try to at least

1371

00:47:18,950 --> 00:47:16,800

identify some here and there because

1372

00:47:20,069 --> 00:47:18,960

that's really all you can do with ufos

1373

00:47:21,589 --> 00:47:20,079

they really need to come up with a

1374

00:47:23,349 --> 00:47:21,599

better way of sharing data and that

1375

00:47:24,870 --> 00:47:23,359

really is the focus here and i think

1376

00:47:26,790 --> 00:47:24,880

they're hopefully

1377

00:47:28,549 --> 00:47:26,800

getting to a point where they can have a

1378

00:47:33,829 --> 00:47:28,559

conversation about it and try to make

1379

00:47:37,349 --> 00:47:35,990

baby steps yeah i like that something

1380

00:47:39,109 --> 00:47:37,359

cool that's that's happened

1381

00:47:40,790 --> 00:47:39,119

and i'm sure you guys have seen this but

1382

00:47:42,710 --> 00:47:40,800

uh certainly since the release of the

1383

00:47:45,430 --> 00:47:42,720

report

1384

00:47:46,069 --> 00:47:45,440

wow the networks have jumped all over it

1385

00:47:49,190 --> 00:47:46,079

there is

1386

00:47:51,990 --> 00:47:49,200

tv ufo programming on the tv

1387

00:47:53,750 --> 00:47:52,000

like nobody's business um i mean as

1388

00:47:55,430 --> 00:47:53,760

we're recording this i think there's a

1389

00:47:57,510 --> 00:47:55,440

three-hour special happening right now

1390

00:48:01,270 --> 00:47:57,520

on discovery and other networks

1391

00:48:03,430 --> 00:48:01,280

um it's crazy um it's fun i i love it

1392

00:48:06,630 --> 00:48:03,440

i'm trying to watch as much as i can

1393

00:48:07,750 --> 00:48:06,640

but i will will drop this little salt

1394

00:48:09,670 --> 00:48:07,760

promo here that

1395

00:48:10,790 --> 00:48:09,680

i've hinted at but haven't publicly

1396

00:48:14,069 --> 00:48:10,800

acknowledged

1397

00:48:16,790 --> 00:48:14,079

but uh this friday friday what would

1398

00:48:18,630 --> 00:48:16,800

that be that would be july 2nd

1399

00:48:20,309 --> 00:48:18,640

a new show about roswell is premiering

1400

00:48:21,670 --> 00:48:20,319

and i know lots of people like to roll

1401

00:48:24,069 --> 00:48:21,680

their eyes and go

1402

00:48:24,870 --> 00:48:24,079

more roswell give it a rest but there is

1403

00:48:27,750 --> 00:48:24,880

a new

1404

00:48:29,270 --> 00:48:27,760

television show about roswell and i

1405

00:48:31,270 --> 00:48:29,280

happen to be on that television show

1406

00:48:33,430 --> 00:48:31,280

it's called roswell the final verdict

1407

00:48:34,870 --> 00:48:33,440

um i certainly haven't seen the show i

1408

00:48:37,670 --> 00:48:34,880

don't know how good it's going to be

1409

00:48:38,549 --> 00:48:37,680

but i will say this what drew me to this

1410

00:48:41,030 --> 00:48:38,559

project

1411

00:48:43,349 --> 00:48:41,040

was something that we have talked about

1412

00:48:46,309 --> 00:48:43,359

on this episode a few times

1413

00:48:48,230 --> 00:48:46,319

and that is artificial intelligence

1414

00:48:49,670 --> 00:48:48,240

that's a cool approach that this show is

1415

00:48:52,549 --> 00:48:49,680

taking they're applying

1416

00:48:53,430 --> 00:48:52,559

artificial intelligence to witness

1417

00:48:55,910 --> 00:48:53,440

testimony

1418

00:48:56,710 --> 00:48:55,920

related to the roswell incident you know

1419

00:48:58,470 --> 00:48:56,720

assessing

1420

00:49:00,950 --> 00:48:58,480

based on video footage and things like

1421

00:49:02,069 --> 00:49:00,960

that whether or not we get an indication

1422

00:49:05,510 --> 00:49:02,079

of these people being

1423

00:49:06,390 --> 00:49:05,520

deceptive or truthful and so it's kind

1424

00:49:07,990 --> 00:49:06,400

of cool

1425

00:49:10,309 --> 00:49:08,000

and i can't wait to see the show and how

1426

00:49:11,510 --> 00:49:10,319

it comes out in determining

1427

00:49:13,190 --> 00:49:11,520

you know some of this key witness

1428

00:49:14,470 --> 00:49:13,200

testimony that we've all relied on for

1429

00:49:16,950 --> 00:49:14,480

so many years

1430

00:49:18,230 --> 00:49:16,960

for the roswell incident to see what the

1431

00:49:19,750 --> 00:49:18,240

ai technology

1432

00:49:21,349 --> 00:49:19,760

indicates you know if these people were

1433

00:49:23,750 --> 00:49:21,359

being truthful or deceptive

1434

00:49:25,670 --> 00:49:23,760

so that should be kind of fun so yeah

1435

00:49:27,109 --> 00:49:25,680

the first three episodes drop on

1436

00:49:28,950 --> 00:49:27,119

discovery plus

1437

00:49:30,549 --> 00:49:28,960

on friday and then i think they're

1438

00:49:32,309 --> 00:49:30,559

rolling one episode

1439

00:49:34,230 --> 00:49:32,319

every week after that and there's a

1440

00:49:37,510 --> 00:49:34,240

total of six episodes

1441

00:49:39,829 --> 00:49:37,520

so lots of familiar faces from the ufo

1442

00:49:41,829 --> 00:49:39,839

community will be on that show

1443

00:49:43,190 --> 00:49:41,839

i know ben hansen's on there nick pope's

1444

00:49:45,910 --> 00:49:43,200

on there of course

1445

00:49:47,829 --> 00:49:45,920

um ufo jane several people are going to

1446

00:49:48,230 --> 00:49:47,839

be on that show so it should be pretty

1447

00:49:50,630 --> 00:49:48,240

fun

1448

00:49:51,430 --> 00:49:50,640

i'm i'm both terrified and excited to

1449

00:49:54,710 --> 00:49:51,440

see it

1450

00:49:56,950 --> 00:49:54,720

i've seen it i've seen it

1451

00:49:58,069 --> 00:49:56,960

i know i know you can't spoil it ryan

1452

00:50:00,790 --> 00:49:58,079

you can't i won't

1453

00:50:01,349 --> 00:50:00,800

i but i all i will say is it's a new

1454

00:50:03,510 --> 00:50:01,359

approach

1455

00:50:04,710 --> 00:50:03,520

and i thought it was really interesting

1456

00:50:08,870 --> 00:50:04,720

and

1457

00:50:12,150 --> 00:50:08,880

some other conclu they surprised me

1458

00:50:12,710 --> 00:50:12,160

that's all i'll say um yeah it it it's

1459

00:50:14,549 --> 00:50:12,720

well done

1460

00:50:16,870 --> 00:50:14,559

i highly suggest people check it out for

1461

00:50:19,910 --> 00:50:16,880

sure look i mean

1462

00:50:21,910 --> 00:50:19,920

this group of people right here we're

1463

00:50:24,390 --> 00:50:21,920

fans of roswell i mean

1464

00:50:25,990 --> 00:50:24,400

roswell i will never be tired of roswell

1465

00:50:29,109 --> 00:50:26,000

i'll always be a roswell fan

1466

00:50:32,549 --> 00:50:29,119

you can't just brush roswell aside

1467

00:50:35,589 --> 00:50:32,559

um and to that end i mean not going to

1468

00:50:37,750 --> 00:50:35,599

fully detail what we're doing but this

1469

00:50:39,670 --> 00:50:37,760

team right here the the rogue planeters

1470

00:50:42,870 --> 00:50:39,680

the team from rogue planets

1471

00:50:43,910 --> 00:50:42,880

is going to do a little deep dive into

1472

00:50:47,190 --> 00:50:43,920

roswell

1473

00:50:47,829 --> 00:50:47,200

um next year in 2022 there's going to be

1474

00:50:53,670 --> 00:50:47,839

a lot of

1475

00:50:54,150 --> 00:50:53,680

we'll tease that more as that approaches

1476

00:50:56,710 --> 00:50:54,160

but

1477

00:50:57,589 --> 00:50:56,720

uh we we like roswell and and like i

1478

00:50:59,829 --> 00:50:57,599

said i mean

1479

00:51:01,670 --> 00:50:59,839

with this with bringing ai technology

1480

00:51:02,950 --> 00:51:01,680

into it that's rad and we've always said

1481

00:51:04,470 --> 00:51:02,960

with roswell

1482

00:51:06,390 --> 00:51:04,480

there's always new things that can be

1483

00:51:07,990 --> 00:51:06,400

applied new things that can be tried

1484

00:51:09,670 --> 00:51:08,000

when new technology emerges

1485

00:51:11,430 --> 00:51:09,680

that can be applied to these historical

1486

00:51:15,030 --> 00:51:11,440

cases and i think they should be

1487

00:51:16,630 --> 00:51:15,040

so yeah awesome well friends i think

1488

00:51:17,270 --> 00:51:16,640

this is a good place for us to call it a

1489

00:51:19,349 --> 00:51:17,280

night

1490

00:51:20,309 --> 00:51:19,359

so thank you so much friends for

1491

00:51:22,710 --> 00:51:20,319

grabbing a drink

1492

00:51:23,670 --> 00:51:22,720

and chatting about ufos today and thank

1493

00:51:26,470 --> 00:51:23,680

you for

1494

00:51:27,270 --> 00:51:26,480

joining us for ufo happy hour we will

1495

00:51:30,580 --> 00:51:27,280

definitely

1496

00:51:34,829 --> 00:51:30,590

hopefully see you next time cheers
