Trivia

According to local lore , the Ute, an Indigenous tribe from this valley and had an uneasy alliance with the Navajo. Siding with American military forces in the late 19th century, the Ute helped force the Navajo people out of the area. As a result, the Navajo unleashed a Skinwalker, a shapeshifter who can possess animals' skin.

FEATURED REVIEW

★ 8/10

Real Phenomena, Expected Cheese

Finally a show that explores real phenomena. All of the reviews about it's cheesiness are valid (except the phone upside down thing, many many apps right themselves when phone is upside down), and the security team is definitely cringey, no reason "Dragon" couldn't afford to use a sling for his AR or Shotty...not sure how he hasn't gotten sick of manually carrying them around the ranch. I believe the scientists are trying to actually capture the real phenomena that occurs there, but the new owner is definitely a little cheesy and the History Channel apparently ONLY knows how to make things extra cheesy. Taking it for what it is tho, it's hands down my favorite History Channel cheese, and covers a REAL mystery that really does beg to be solved or at least better understood.

even though a lot of "mystery" programs of History Chanel are boringly pointless, and redundant, I've got vert interested in the Uinta basin investigation and the possible results, but until now, I can not understand why, with such a display of resources and technology,... >
