

1

00:00:00,000 --> 00:00:01,200

Let's get to it.

2

00:00:01,240 --> 00:00:04,040

The GPR has given us an X mark to spot.

3

00:00:04,080 --> 00:00:05,440

They're hitting something hard.

4

00:00:05,480 --> 00:00:06,680

Man, they're on something.

5

00:00:06,700 --> 00:00:09,440

There is an unnatural structure beneath this property.

6

00:00:09,480 --> 00:00:10,440

That whole thing's shaking.

7

00:00:10,480 --> 00:00:11,840

Look at that. What is that?

8

00:00:11,880 --> 00:00:12,920

Why is that rocking like that?

9

00:00:12,940 --> 00:00:13,640

Oh!

10

00:00:13,680 --> 00:00:14,520

There we go.

11

00:00:14,540 --> 00:00:17,480

I'm hoping that bringing an exotic animal on the ranch

12

00:00:17,520 --> 00:00:20,560

will stimulate whatever is mutilating these cattle.

13

00:00:20,580 --> 00:00:22,620

The alpacas have been torn apart.

14

00:00:22,660 --> 00:00:23,660

What is that?

15

00:00:23,680 --> 00:00:26,000

It's hard to say exactly what bit them.

16

00:00:26,020 --> 00:00:27,560

I'm really glad that whatever it was,

17

00:00:27,600 --> 00:00:29,000

it didn't turn out new, guys.

18

00:00:29,000 --> 00:00:29,900

Yeah.

19

00:00:29,940 --> 00:00:30,900

Ah!

20

00:00:32,940 --> 00:00:36,800

There is a ranch in northern Utah.

21

00:00:36,840 --> 00:00:40,740

It is considered the epicenter of the strangest

22

00:00:40,780 --> 00:00:44,240

and most disturbing phenomena on Earth.

23

00:00:44,280 --> 00:00:48,820

Animal mutilations, bizarre UFO sightings,

24

00:00:48,860 --> 00:00:53,660

and unusual energies that have proven harmful to humans.

25

00:00:53,700 --> 00:00:56,260

For 20 years, the federal government

26

00:00:56,260 --> 00:01:00,060

tried to find answers and failed.

27

00:01:00,100 --> 00:01:04,800

Now, a new team of dedicated scientists, researchers,

28

00:01:04,840 --> 00:01:07,460

and experts has taken over.

29

00:01:07,500 --> 00:01:13,740

They are determined to solve the mystery and reveal

30

00:01:13,780 --> 00:01:16,780

the secret of Skinwalker Ranch.

31

00:01:26,260 --> 00:01:28,220

All right, well, I think we're ready to go down

32

00:01:28,260 --> 00:01:30,360

and hook this thing up.

33

00:01:30,400 --> 00:01:32,160

You got everybody rounded up, huh?

34

00:01:32,200 --> 00:01:32,900

Yeah.

35

00:01:32,920 --> 00:01:33,960

Yep.

36

00:01:34,000 --> 00:01:36,000

For some time now, Tom Lewis and Candace Lindy,

37

00:01:36,040 --> 00:01:38,400

the two caretakers who live in Homestead 1,

38

00:01:38,440 --> 00:01:40,600

they've been hearing a lot of strange noises

39

00:01:40,640 --> 00:01:42,240

coming from their basement.

40

00:01:42,280 --> 00:01:43,240

Right there, perfect.

41

00:01:43,280 --> 00:01:44,200

Don't move.

42

00:01:44,240 --> 00:01:45,540

Just stop right there.

43

00:01:45,580 --> 00:01:48,240

A few weeks ago, Tom Winerton and I went over to see

44

00:01:48,280 --> 00:01:51,720

if we could find anything that might explain what's going on.

45

00:01:51,740 --> 00:01:53,720

You see that?

46

00:01:53,740 --> 00:01:56,440

Although we didn't find what caused the noises,

47

00:01:56,480 --> 00:01:59,980

we did find a really strange, sealed-off room

48

00:02:00,020 --> 00:02:03,120

that had absolutely nothing in it except a few animal bones.

49

00:02:03,160 --> 00:02:04,860

And we couldn't figure out how in the world

50

00:02:04,880 --> 00:02:07,400

those bones got inside them.

51

00:02:07,420 --> 00:02:08,800

What in the world?

52

00:02:08,820 --> 00:02:09,660

Cremation remains.

53

00:02:09,700 --> 00:02:10,500

That's what I'm thinking.

54

00:02:10,520 --> 00:02:12,160

It looks like.

55

00:02:12,200 --> 00:02:13,660

So here's how I want to do this.

56

00:02:13,700 --> 00:02:15,800

I want it to be as realistic as possible.

57

00:02:15,840 --> 00:02:19,400

So we put a microphone right into the middle of that chamber,

58

00:02:19,440 --> 00:02:22,000

and then we'll see the data up here.

59

00:02:22,020 --> 00:02:24,600

Now, in light of all the other phenomena and things

60

00:02:24,620 --> 00:02:26,800

that we've seen in the past few weeks,

61

00:02:26,840 --> 00:02:28,960

we decided to set up an audio experiment

62

00:02:29,000 --> 00:02:31,160

to see if those sounds that Tom and Candice

63

00:02:31,200 --> 00:02:34,600

are hearing in the basement are natural or something else.

64

00:02:34,640 --> 00:02:38,340

We have this theory that concrete room under the house

65

00:02:38,380 --> 00:02:41,680

is acting like a big base drum or a base cello.

66

00:02:41,720 --> 00:02:45,120

And when you vibrate the house or the area around it,

67

00:02:45,140 --> 00:02:47,680

like walking or closing doors, when they're drilling

68

00:02:47,720 --> 00:02:49,480

in the oil wells, those big trucks,

69

00:02:49,500 --> 00:02:52,440

I believe that it's picking up that acoustic vibration,

70

00:02:52,480 --> 00:02:54,840

and it may be what causes some of the phenomena

71

00:02:54,880 --> 00:02:57,240

that have been observed in this house.

72

00:02:57,280 --> 00:03:00,080

Low base noises and infrasonic sound,

73

00:03:00,120 --> 00:03:02,480

it can vibrate your eyeballs in the sockets

74

00:03:02,520 --> 00:03:03,720

and stimulate the optic nerve

75

00:03:03,760 --> 00:03:05,920

and actually make you think you're seeing things.

76

00:03:05,960 --> 00:03:07,760

And it can cause nausea,

77

00:03:07,780 --> 00:03:11,060

and it also can stimulate the fight-or-flight reflex.

78

00:03:11,100 --> 00:03:14,060

And so you might get that creepy, being watched feeling.

79

00:03:15,060 --> 00:03:19,060

And it could be because of that concrete chamber down there.

80

00:03:20,400 --> 00:03:21,700

Let's go. Let's do it.

81

00:03:21,740 --> 00:03:23,860

Ready, sir? Ready, Tom? Yep.

82

00:03:23,900 --> 00:03:25,600

We've got the experiment all set up

83

00:03:25,640 --> 00:03:27,160

to test the acoustics of this room

84

00:03:27,200 --> 00:03:28,540

underneath Tom and Candice's house.

85

00:03:28,580 --> 00:03:31,280

So I've got Tom and Candice walking around in there,

86

00:03:31,300 --> 00:03:33,740

slamming doors, opening up the oven,

87

00:03:33,780 --> 00:03:35,340

refrigerator, flushing the toilet.

88

00:03:35,380 --> 00:03:36,640

And it's really interesting,

89

00:03:36,680 --> 00:03:40,880

everything they do is echoing really big in this system.

90

00:03:40,880 --> 00:03:43,880

Uh, bedroom, walking around.

91

00:03:43,920 --> 00:03:45,840

Closet door in the bedroom.

92

00:03:45,880 --> 00:03:47,880

Three, two.

93

00:03:47,920 --> 00:03:49,880

Oh, wow.

94

00:03:49,920 --> 00:03:52,880

It's like hitting a drum. I'm down here.

95

00:03:52,920 --> 00:03:54,880

You can hear it reverberating. Yeah.

96

00:03:54,920 --> 00:03:57,920

Do me a favor and maybe stomp the floor.

97

00:03:57,960 --> 00:04:01,960

Oh, my goodness. Look at that.

98

00:04:02,000 --> 00:04:04,360

Look at that. That's amazing, guys.

99

00:04:04,400 --> 00:04:08,840

Do me a favor and let's do the closet door.

100

00:04:08,840 --> 00:04:10,840

One more time.

101

00:04:10,880 --> 00:04:12,880

Tempor.

102

00:04:12,920 --> 00:04:15,920

Hey, is there air conditioner on?

103

00:04:17,960 --> 00:04:19,960

Noise level seems a little wider.

104

00:04:23,960 --> 00:04:25,960

Hear that?

105

00:04:27,000 --> 00:04:29,000

What the hell?

106

00:04:29,040 --> 00:04:32,000

What is it, Tom? Helicopter.

107

00:04:32,040 --> 00:04:34,000

There is a helicopter.

108

00:04:34,040 --> 00:04:36,000

But is it turning?

109

00:04:36,160 --> 00:04:38,160

No.

110

00:04:38,200 --> 00:04:41,200

I'm gonna go grab the binoculars.

111

00:04:43,240 --> 00:04:45,240

That dude's hovering right there.

112

00:04:46,640 --> 00:04:49,080

I think somebody's watching us right now.

113

00:04:49,120 --> 00:04:52,120

That's exactly what it looks like, so too.

114

00:04:52,160 --> 00:04:54,160

Huh.

115

00:04:54,160 --> 00:04:57,160

Can you see them with the binoculars good, Tom?

116

00:04:57,200 --> 00:05:00,200

Yeah, here. Come take a look.

117

00:05:01,240 --> 00:05:03,240

It could be lifelike.

118

00:05:03,280 --> 00:05:05,280

You're holding the radio.

119

00:05:05,320 --> 00:05:08,320

I don't see a cross on it, though, like you'd expect with a rescue.

120

00:05:08,360 --> 00:05:10,360

He's going extremely slow.

121

00:05:10,400 --> 00:05:12,400

That's not the behavior over there.

122

00:05:12,440 --> 00:05:14,440

I'm gonna go grab the binoculars.

123

00:05:14,480 --> 00:05:16,480

I'm gonna go grab the binoculars.

124

00:05:16,520 --> 00:05:18,520

I'm gonna go grab the binoculars.

125

00:05:18,560 --> 00:05:20,560

I'm gonna grab the binoculars.

126

00:05:20,600 --> 00:05:22,600

I'm gonna grab the binoculars.

127

00:05:22,600 --> 00:05:25,600

That's not the behavior I would expect from a lifelike.

128

00:05:25,640 --> 00:05:27,640

I want to check it out.

129

00:05:29,680 --> 00:05:31,680

It's a pretty big helicopter, though.

130

00:05:31,720 --> 00:05:33,720

Yeah, our lifelike one is not that big, I don't think.

131

00:05:33,760 --> 00:05:36,280

So, guys, I'm gonna try to go in and look at the transponder data

132

00:05:36,320 --> 00:05:38,320

and see if I can figure out who it is.

133

00:05:38,360 --> 00:05:40,360

Yeah, that's a good idea, Eric.

134

00:05:41,400 --> 00:05:43,400

It's got a sky ball on the bottom of it.

135

00:05:43,440 --> 00:05:46,440

It doesn't even look like it has a big camera on the bottom of it, too.

136

00:05:46,480 --> 00:05:48,480

Oh, it does.

137

00:05:48,520 --> 00:05:50,520

It does have a camera on the bottom.

138

00:05:50,560 --> 00:05:52,560

They're watching us, guys.

139

00:05:52,600 --> 00:05:54,600

Don't look around.

140

00:05:54,640 --> 00:05:56,640

There it is!

141

00:05:56,680 --> 00:05:58,680

There it is!

142

00:05:58,720 --> 00:06:00,720

It doesn't look like it has mobiles on it, either.

143

00:06:00,740 --> 00:06:02,740

It's not moving at all, either.

144

00:06:02,760 --> 00:06:04,680

I don't see them coming.

145

00:06:04,720 --> 00:06:06,720

If I can go near the trucker over there...

146

00:06:06,760 --> 00:06:10,000

From there, I can go to the front of the Doaza State eliminating passages.

147

00:06:10,040 --> 00:06:11,760

I can see that osos just standing,

148

00:06:11,800 --> 00:06:13,480

it's very dangerous up there.

149

00:06:13,520 --> 00:06:15,440

I just think while we're there...

150

00:06:15,480 --> 00:06:17,360

It's definitely a good feeling.

151

00:06:18,680 --> 00:06:20,920

I don't know whose time it is,

152

00:06:20,920 --> 00:06:21,920

Well, isn't it?

153

00:06:21,920 --> 00:06:24,920

Hey, Caleb, y'all see the helicopter?

154

00:06:24,920 --> 00:06:26,920

Yeah, it looks like it's just heading west over the mesa.

155

00:06:31,920 --> 00:06:33,920

I don't see you guys.

156

00:06:33,920 --> 00:06:34,920

It's gone!

157

00:06:34,920 --> 00:06:36,920

What's the purpose of them flying over?

158

00:06:36,920 --> 00:06:39,920

Are they just curious as to what we're doing down here?

159

00:06:39,920 --> 00:06:43,920

Why does someone get a private helicopter and mount a camera

160

00:06:43,920 --> 00:06:45,920

and fly over Skinwalker Ranch?

161

00:06:45,920 --> 00:06:48,920

It definitely makes you feel like you're being spied on.

162

00:06:48,920 --> 00:06:50,920

It was the behavior that was...

163

00:06:50,920 --> 00:06:52,920

It's like they were watching us.

164

00:06:52,920 --> 00:06:55,920

Well, if they're transponding, Eric will pick them up on her.

165

00:06:55,920 --> 00:06:59,920

Well, they should, by law, right? Be transponding.

166

00:06:59,920 --> 00:07:00,920

What we got, Eric?

167

00:07:00,920 --> 00:07:02,920

They didn't show up at all.

168

00:07:02,920 --> 00:07:04,920

Not transponding, though.

169

00:07:04,920 --> 00:07:07,920

So they had their transponder turned off, evidently.

170

00:07:07,920 --> 00:07:10,920

So I was just telling them, depending on the airspace,

171

00:07:10,920 --> 00:07:13,920

and I don't think this is an A or B-class airspace,

172

00:07:13,920 --> 00:07:16,920

it's probably E, then you don't have to have a transponder

173

00:07:16,920 --> 00:07:18,920

up until you get to a certain altitude.

174

00:07:18,920 --> 00:07:19,920

That's right.

175

00:07:19,920 --> 00:07:22,920

And so they could have turned it off so that we couldn't track it.

176

00:07:22,920 --> 00:07:23,920

They were clearly looking for something.

177

00:07:23,920 --> 00:07:25,920

Why would you turn it off, though?

178

00:07:25,920 --> 00:07:27,920

I mean, isn't it in your best interest to be transponding?

179

00:07:27,920 --> 00:07:29,920

If you have an emergency, you want people to know where you are,

180

00:07:29,920 --> 00:07:30,920

and so you would turn it off

181

00:07:30,920 --> 00:07:33,920

because you don't want people to know where you are.

182

00:07:33,920 --> 00:07:35,920

Now, you don't have to fly with it on.

183

00:07:35,920 --> 00:07:38,920

I mean, it's not a law that you have to have it on,

184

00:07:38,920 --> 00:07:40,920

but it's just dumb, right?

185

00:07:40,920 --> 00:07:42,920

Or you're doing something clandestine.

186

00:07:42,920 --> 00:07:45,920

During the time when Robert Bigelow on the ranch,

187

00:07:45,920 --> 00:07:47,920

the federal government spent many years working with him

188

00:07:47,920 --> 00:07:49,920

to investigate this place.

189

00:07:49,920 --> 00:07:50,920

So now that we're here,

190

00:07:50,920 --> 00:07:53,920

and we've been experiencing a lot of bizarre phenomena.

191

00:07:53,920 --> 00:07:55,920

It wasn't 500 feet above the Mason.

192

00:07:55,920 --> 00:07:58,920

I'm wondering if this helicopter is evidence that we're being watched.

193

00:07:58,920 --> 00:08:01,920

Someone's here checking out what we're doing.

194

00:08:03,920 --> 00:08:06,920

In the early 90s, Robert Bigelow,

195

00:08:06,920 --> 00:08:08,920

you know, billionaire entrepreneur,

196

00:08:08,920 --> 00:08:11,920

real estate developer, and aerospace entrepreneur,

197

00:08:11,920 --> 00:08:14,920

founded the National Institute of Discovery Science,

198

00:08:14,920 --> 00:08:16,920

which was his own privately funded effort

199

00:08:16,920 --> 00:08:19,920

to really investigate the UFO phenomena,

200

00:08:19,920 --> 00:08:22,920

cattle mediations, and all sorts of high strangeness.

201

00:08:22,920 --> 00:08:25,920

What started off as a privately funded research effort

202

00:08:25,920 --> 00:08:29,920

transitioned on the ranch to that program,

203

00:08:29,920 --> 00:08:32,920

which was sponsored by the Pentagon.

204

00:08:32,920 --> 00:08:35,920

It remains to this day cloaked in secrecy,

205

00:08:35,920 --> 00:08:40,920

and a lot of the efforts or the findings that came out of those years

206

00:08:40,920 --> 00:08:46,920

of intense study on this property remain under lock and key.

207

00:08:46,920 --> 00:08:49,920

They have a big sky ball in the bottom of it.

208

00:08:49,920 --> 00:08:50,920

Yeah, we saw that.

209

00:08:50,920 --> 00:08:52,920

That made it look like they were watching us.

210

00:08:52,920 --> 00:08:54,920

Should it be a news helicopter or something?

211

00:08:54,920 --> 00:08:58,920

Usually news helicopters have an identification on it.

212

00:08:58,920 --> 00:09:00,920

Well, they clearly had a camera on the bottom of that thing.

213

00:09:00,920 --> 00:09:02,920

Yeah, absolutely it did.

214

00:09:02,920 --> 00:09:04,920

You could see it really well.

215

00:09:04,920 --> 00:09:08,920

Makes you wonder what in the world they're doing here.

216

00:09:11,920 --> 00:09:14,920

Travis, there's something going on out here.

217

00:09:14,920 --> 00:09:15,920

What in the world?

218

00:09:15,920 --> 00:09:16,920

It's just dead.

219

00:09:16,920 --> 00:09:19,920

You're not going to touch it until we see it's radioactive.

220

00:09:19,920 --> 00:09:21,920

Look at the meters going crazy.

221

00:09:21,920 --> 00:09:23,920

All the frequencies are excited.

222

00:09:23,920 --> 00:09:24,920

Mankind doesn't know how to do that.

223

00:09:24,920 --> 00:09:26,920

We need to get out of here, guys.

224

00:09:41,920 --> 00:09:45,920

Hello?

225

00:09:45,920 --> 00:09:46,920

Travis.

226

00:09:46,920 --> 00:09:47,920

Hey, Don.

227

00:09:47,920 --> 00:09:50,920

Hey, I'm not sure where you're at on the property,

228

00:09:50,920 --> 00:09:55,920

but if there's something going on out here, come over here and check it out.

229

00:09:55,920 --> 00:09:58,920

We need to figure out what happened.

230

00:10:10,920 --> 00:10:12,920

Hey, y'all.

231

00:10:14,920 --> 00:10:16,920

What in the world?

232

00:10:23,920 --> 00:10:26,920

No sign of trauma.

233

00:10:26,920 --> 00:10:29,920

Tom and I rolled over just to see if we could see any animal markings on it.

234

00:10:29,920 --> 00:10:33,920

There's no cat tracks, no sign of struggle.

235

00:10:33,920 --> 00:10:34,920

Middle of the day.

236

00:10:34,920 --> 00:10:36,920

It's just dead.

237

00:10:36,920 --> 00:10:39,920

It's hard to kill a cow.

238

00:10:39,920 --> 00:10:42,920

I saw her this morning, but she was alive.

239

00:10:42,920 --> 00:10:45,920

Is that late morning?

240

00:10:45,920 --> 00:10:49,920

It's been dead for a couple hours at least.

241

00:10:49,920 --> 00:10:51,920

No, it really disturbs me.

242

00:10:51,920 --> 00:10:54,920

We've gone three years and haven't had an incident.

243

00:10:54,920 --> 00:10:56,920

And now we have the opaque is getting attacked.

244

00:10:56,920 --> 00:10:58,920

We've got a cow that's dead.

245

00:10:58,920 --> 00:10:59,920

I don't know.

246

00:10:59,920 --> 00:11:01,920

That's weird.

247

00:11:02,920 --> 00:11:05,920

I think next steps is we need to account for the rest of the cattle

248

00:11:05,920 --> 00:11:08,920

and make sure that we don't have any others that are down.

249

00:11:08,920 --> 00:11:11,920

Candice and Tom, you go out and look for the cows.

250

00:11:11,920 --> 00:11:13,920

Make sure that we've got 41.

251

00:11:13,920 --> 00:11:16,920

I want you to close the gate over on this field.

252

00:11:16,920 --> 00:11:19,920

And then the one going across the road right there by the canal,

253

00:11:19,920 --> 00:11:21,920

which will keep the herd from coming in.

254

00:11:21,920 --> 00:11:23,920

I don't want the herd around this cow.

255

00:11:23,920 --> 00:11:27,920

Let's lock them out of this east pasture and keep them over there for now.

256

00:11:27,920 --> 00:11:30,920

And then we get the vet, try to determine cause of death.

257

00:11:30,920 --> 00:11:32,920

Yeah, let's go count.

258

00:11:32,920 --> 00:11:35,920

I think the best thing we can do is treat this like a crime scene.

259

00:11:35,920 --> 00:11:39,920

I'll start taking photos because the more we move around here,

260

00:11:39,920 --> 00:11:41,920

the more we could disturb something.

261

00:11:41,920 --> 00:11:42,920

Yeah, that's a great idea.

262

00:11:42,920 --> 00:11:43,920

So everyone go out.

263

00:11:43,920 --> 00:11:44,920

All right.

264

00:11:44,920 --> 00:11:45,920

Why don't you guys follow me out?

265

00:11:45,920 --> 00:11:46,920

All right.

266

00:11:46,920 --> 00:11:49,920

One of the really cool things is that Caleb treated the place

267

00:11:49,920 --> 00:11:52,920

like he was a police detective.

268

00:11:52,920 --> 00:11:56,920

He would try not to disturb the crime scene and he would investigate it,

269

00:11:56,920 --> 00:11:58,920

take pictures, take data.

270

00:11:58,920 --> 00:12:00,920

He wanted to gather as much evidence as he could.

271

00:12:00,920 --> 00:12:03,920

And while he's doing this, Tom has yelled at me

272

00:12:03,920 --> 00:12:06,920

because suddenly his phone starts going crazy.

273

00:12:06,920 --> 00:12:07,920

Look at this.

274

00:12:07,920 --> 00:12:08,920

Film my phone.

275

00:12:08,920 --> 00:12:11,920

It's going vibrate to mute, vibrate to mute like crazy.

276

00:12:11,920 --> 00:12:12,920

Holy crap.

277

00:12:12,920 --> 00:12:14,920

And we know that when phones go crazy on the ranch,

278

00:12:14,920 --> 00:12:18,920

that's an indication that there are strange electromagnetic signals hitting us.

279

00:12:18,920 --> 00:12:19,920

Get that.

280

00:12:19,920 --> 00:12:20,920

The meter's going nuts.

281

00:12:20,920 --> 00:12:24,920

So I immediately grabbed a tri-field meter to go out and start making measurements.

282

00:12:24,920 --> 00:12:28,920

I was just taking photos and my phone started doing its own thing.

283

00:12:28,920 --> 00:12:31,920

It started like swapping over the video.

284

00:12:31,920 --> 00:12:32,920

Tom's just poop.

285

00:12:32,920 --> 00:12:34,920

Tom's just phone's jumping through all the apps and his buzzings.

286

00:12:34,920 --> 00:12:35,920

That's crazy.

287

00:12:35,920 --> 00:12:36,920

Yeah.

288

00:12:36,920 --> 00:12:37,920

That's what mine was doing.

289

00:12:37,920 --> 00:12:38,920

It was started in my photos.

290

00:12:38,920 --> 00:12:42,920

The meter's jumping like nuts.

291

00:12:42,920 --> 00:12:44,920

Look at the meters just going crazy.

292

00:12:44,920 --> 00:12:46,920

Jumping high then jumping back to zero.

293

00:12:46,920 --> 00:12:49,920

My phone starts freaking out whenever your tri-field goes off.

294

00:12:49,920 --> 00:12:52,920

I don't have any control over my phone right now.

295

00:12:52,920 --> 00:12:55,920

Dude, look at that.

296

00:12:55,920 --> 00:12:57,920

Standing next to Caleb and the dead cow,

297

00:12:57,920 --> 00:13:01,920

when his phone was getting hit, the tri-field meter was getting hit.

298

00:13:01,920 --> 00:13:03,920

So we got two measurements correlated.

299

00:13:03,920 --> 00:13:05,920

There was a strange electromagnetic signal.

300

00:13:05,920 --> 00:13:08,920

I have no idea where these crazy signals are coming from,

301

00:13:08,920 --> 00:13:12,920

but what I do know is it seems to be localized around this dead cow.

302

00:13:12,920 --> 00:13:15,920

13, 14, we're at 15, 16.

303

00:13:15,920 --> 00:13:17,920

Is it still doing it?

304

00:13:17,920 --> 00:13:18,920

Is it five?

305

00:13:18,920 --> 00:13:19,920

It's 18?

306

00:13:19,920 --> 00:13:21,920

It just jumped to 18 just then.

307

00:13:21,920 --> 00:13:26,920

The microwave signals that we measured were as much as 20 milliwatts per meter squared.

308

00:13:26,920 --> 00:13:30,920

When I take the same meter and stand in front of a microwave while popping popcorn,

309

00:13:30,920 --> 00:13:33,920

it only reached about two milliwatts per meter squared.

310

00:13:33,920 --> 00:13:37,920

So this would be like being inside the microwave.

311

00:13:37,920 --> 00:13:39,920

Jim, are you seeing anything on the spectrum analyzer?

312

00:13:39,920 --> 00:13:40,920

Actually, I am.

313

00:13:40,920 --> 00:13:42,920

You are?

314

00:13:42,920 --> 00:13:43,920

What are you seeing?

315

00:13:43,920 --> 00:13:46,920

Something down in the lower areas.

316

00:13:46,920 --> 00:13:50,920

So I'm getting some pretty high spikes.

317

00:13:50,920 --> 00:13:51,920

Oh, wow.

318

00:13:51,920 --> 00:13:54,920

So the noise floor has significantly gone up.

319

00:13:54,920 --> 00:13:55,920

What does this mean?

320

00:13:55,920 --> 00:13:58,920

All the frequencies are excited at one.

321

00:13:58,920 --> 00:13:59,920

It's just...

322

00:13:59,920 --> 00:14:00,920

It's just basically boom.

323

00:14:00,920 --> 00:14:05,920

So what that means is you would have it all the way from microwaves down to past the AEM

324

00:14:05,920 --> 00:14:08,920

and ham radio bands, all of them on at once.

325

00:14:08,920 --> 00:14:11,920

And this is the whole thing is raising up and down like that.

326

00:14:11,920 --> 00:14:12,920

We don't even know how to do that.

327

00:14:12,920 --> 00:14:14,920

Mankind doesn't know how to do that.

328

00:14:14,920 --> 00:14:17,920

Something could be happening right now out of the ordinary.

329

00:14:17,920 --> 00:14:21,920

We don't know what it is, but we're seeing it with multiple instruments.

330

00:14:21,920 --> 00:14:23,920

We need to get out of here, guys.

331

00:14:23,920 --> 00:14:25,920

Let's get out of here.

332

00:14:25,920 --> 00:14:28,920

Is there really a safe place on this ranch?

333

00:14:28,920 --> 00:14:32,920

We're quickly losing places that are safe to go on this ranch.

334

00:14:41,920 --> 00:14:42,920

Can you see anything?

335

00:14:42,920 --> 00:14:44,920

No.

336

00:14:46,920 --> 00:14:47,920

I don't know if they're smart.

337

00:14:47,920 --> 00:14:49,920

They're laying in the shade.

338

00:14:49,920 --> 00:14:53,920

There were several things running through my head as I realized that we have a dead cow.

339

00:14:53,920 --> 00:14:58,920

One was noticing that the entire herd had pushed out of the field.

340

00:14:58,920 --> 00:15:01,920

The fact that they're gone, that's disturbing.

341

00:15:01,920 --> 00:15:03,920

See their heads poking out?

342

00:15:03,920 --> 00:15:05,920

Not yet.

343

00:15:05,920 --> 00:15:10,920

And my first thought was to have Tom and Candace go to a head count

344

00:15:10,920 --> 00:15:13,920

and make sure that this is an isolated incident

345

00:15:13,920 --> 00:15:16,920

and that we don't have additional cows that are missing.

346

00:15:20,920 --> 00:15:22,920

Nope.

347

00:15:22,920 --> 00:15:24,920

Here we go.

348

00:15:24,920 --> 00:15:27,920

We could just probably hop out here.

349

00:15:32,920 --> 00:15:34,920

Should we jump out?

350

00:15:41,920 --> 00:15:45,920

Three here, four five, six seven eight.

351

00:15:45,920 --> 00:15:47,920

Count eight right there.

352

00:15:48,920 --> 00:15:52,920

So we found the cattle on the property all clustered over here in this area

353

00:15:52,920 --> 00:15:55,920

where they have never been before.

354

00:15:55,920 --> 00:15:57,920

19-20, 21-22.

355

00:15:57,920 --> 00:16:01,920

Their location, it made me think they were scared of something

356

00:16:01,920 --> 00:16:05,920

because there's so many other places on the ranch.

357

00:16:05,920 --> 00:16:06,920

I count 30.

358

00:16:06,920 --> 00:16:07,920

Yep.

359

00:16:07,920 --> 00:16:08,920

30?

360

00:16:08,920 --> 00:16:09,920

There's so much other shade.

361

00:16:09,920 --> 00:16:14,920

The options are unlimited for where they could choose to go to.

362

00:16:14,920 --> 00:16:16,920

38, they're 940.

363

00:16:16,920 --> 00:16:18,920

So we're looking for maybe one more.

364

00:16:18,920 --> 00:16:20,920

Missing one.

365

00:16:20,920 --> 00:16:24,920

I was thinking why are they clustered over here in this corner?

366

00:16:24,920 --> 00:16:25,920

20 on this side?

367

00:16:25,920 --> 00:16:26,920

Okay, I'm still...

368

00:16:26,920 --> 00:16:28,920

Oh, there's 41.

369

00:16:28,920 --> 00:16:29,920

There you go.

370

00:16:29,920 --> 00:16:31,920

There you go.

371

00:16:31,920 --> 00:16:32,920

All of them were back here.

372

00:16:32,920 --> 00:16:33,920

That was one thought I had.

373

00:16:33,920 --> 00:16:35,920

What are they afraid of?

374

00:16:35,920 --> 00:16:36,920

41.

375

00:16:36,920 --> 00:16:37,920

Yep.

376

00:16:37,920 --> 00:16:38,920

Right?

377

00:16:38,920 --> 00:16:39,920

Okay, let's go close this fence now.

378

00:16:39,920 --> 00:16:40,920

Yeah, we...

379

00:16:40,920 --> 00:16:41,920

Yeah.

380

00:16:41,920 --> 00:16:42,920

Close that gate and the gate up on the road.

381

00:16:42,920 --> 00:16:43,920

Okay.

382

00:16:43,920 --> 00:16:44,920

All right?

383

00:16:44,920 --> 00:16:45,920

Sounds good.

384

00:16:46,920 --> 00:16:49,920

As we observe these cows' behavior,

385

00:16:49,920 --> 00:16:52,920

one of the things is that they've really just been grazing

386

00:16:52,920 --> 00:16:55,920

on the east side of the ranch for some time now.

387

00:16:55,920 --> 00:16:58,920

And then when Tom and Candace can report,

388

00:16:58,920 --> 00:17:02,920

the cows are pushed as far west on the property as they can go.

389

00:17:02,920 --> 00:17:05,920

And having watched these cows for several months,

390

00:17:05,920 --> 00:17:10,920

they haven't spent any time over there in that very western side.

391

00:17:10,920 --> 00:17:14,920

So the fact that they're over there today at the time that this cow dies

392

00:17:14,920 --> 00:17:17,920

and the time that we're experiencing all these anomalies

393

00:17:17,920 --> 00:17:18,920

is very curious.

394

00:17:18,920 --> 00:17:22,920

And it makes me wonder if there's a connection between the two.

395

00:17:24,920 --> 00:17:26,920

So we're going to close this one?

396

00:17:26,920 --> 00:17:27,920

Yep.

397

00:17:27,920 --> 00:17:28,920

Okay.

398

00:17:28,920 --> 00:17:33,920

Animals actually detect things a little differently than humans do sometimes.

399

00:17:33,920 --> 00:17:37,920

I've actually seen experiments where insects were exposed to microwave radiation

400

00:17:37,920 --> 00:17:40,920

and they could detect it and move away to safe spots.

401

00:17:40,920 --> 00:17:44,920

I believe that the cows could probably have a similar capability.

402

00:17:44,920 --> 00:17:45,920

All right.

403

00:17:45,920 --> 00:17:50,920

If something weird were to happen, like strange radiation or microwaves or something,

404

00:17:50,920 --> 00:17:54,920

they might feel it or detect it some way and just move away from it.

405

00:17:54,920 --> 00:17:55,920

Good.

406

00:17:55,920 --> 00:17:56,920

Yeah.

407

00:17:56,920 --> 00:18:01,920

So now, if the spot where the cow died is a spot where they avoid,

408

00:18:01,920 --> 00:18:03,920

that might mean something.

409

00:18:04,920 --> 00:18:06,920

Burmed wire.

410

00:18:06,920 --> 00:18:08,920

And if something happened at that location,

411

00:18:08,920 --> 00:18:11,920

we need to do a much deeper investigation.

412

00:18:18,920 --> 00:18:20,920

He's breaking in the rib cage.

413

00:18:20,920 --> 00:18:22,920

So we're in the lungs and heart.

414

00:18:22,920 --> 00:18:24,920

It's very, very possible.

415

00:18:24,920 --> 00:18:25,920

Stress induced.

416

00:18:25,920 --> 00:18:28,920

The animal got stressed by something.

417

00:18:28,920 --> 00:18:30,920

And that stress would have been something recent.

418

00:18:30,920 --> 00:18:31,920

Oh, yeah.

419

00:18:38,920 --> 00:18:45,920

We call the vet because we don't know the cause of death for this cow.

420

00:18:45,920 --> 00:18:49,920

And it might be something natural because cows do die all the time.

421

00:18:49,920 --> 00:18:54,920

But they don't die all the time while there's crazy weird electromagnetic signals around them.

422

00:18:54,920 --> 00:18:55,920

How are we?

423

00:18:55,920 --> 00:18:56,920

Good.

424

00:18:56,920 --> 00:18:57,920

How are you doing?

425

00:18:57,920 --> 00:18:58,920

Good.

426

00:18:58,920 --> 00:18:59,920

Thomas.

427

00:18:59,920 --> 00:19:00,920

Mike Gamble.

428

00:19:00,920 --> 00:19:02,920

Obviously, if the cow was diseased or something,

429

00:19:02,920 --> 00:19:04,920

that's something that could affect the rest of the herd.

430

00:19:04,920 --> 00:19:10,920

Or maybe there's something there that would give us some answers on the things we're looking for.

431

00:19:10,920 --> 00:19:11,920

It's back here.

432

00:19:11,920 --> 00:19:12,920

We'll just lead you back.

433

00:19:17,920 --> 00:19:18,920

When did you find her?

434

00:19:18,920 --> 00:19:20,920

A couple hours ago.

435

00:19:20,920 --> 00:19:23,920

So we had eyes on her earlier.

436

00:19:23,920 --> 00:19:26,920

And she was alive.

437

00:19:26,920 --> 00:19:29,920

We probably found her within an hour or two of her being gone.

438

00:19:29,920 --> 00:19:30,920

OK.

439

00:19:31,920 --> 00:19:35,920

Yeah, a little bit of blood coming out the nostril.

440

00:19:35,920 --> 00:19:37,920

Looks like surfactant.

441

00:19:37,920 --> 00:19:39,920

Come on out.

442

00:19:39,920 --> 00:19:41,920

Say she's just a couple years old.

443

00:19:41,920 --> 00:19:43,920

She's two-year-old.

444

00:19:43,920 --> 00:19:45,920

You know?

445

00:19:45,920 --> 00:19:47,920

At least the real world.

446

00:19:51,920 --> 00:19:53,920

You need any help with anything, let us know.

447

00:19:53,920 --> 00:19:55,920

Well, I'll just need to stand her up on her back, kind of.

448

00:19:55,920 --> 00:19:57,920

Keep her a little bit stable.

449

00:19:57,920 --> 00:20:03,920

Watching the vet, it actually made me think of the mutilations that have taken place on Skinwalker Ranch.

450

00:20:03,920 --> 00:20:08,920

Some of these mutilations have reported to have taken place in 10 or 20 minutes

451

00:20:08,920 --> 00:20:11,920

that a cow was observed to be alive and well,

452

00:20:11,920 --> 00:20:13,920

and then come back and find it mutilated.

453

00:20:13,920 --> 00:20:15,920

So are you cutting into the lungs then?

454

00:20:15,920 --> 00:20:17,920

Is that what you're trying to do?

455

00:20:17,920 --> 00:20:19,920

Not yet.

456

00:20:19,920 --> 00:20:22,920

But if you have a pair of tree loppers, I could use them.

457

00:20:22,920 --> 00:20:24,920

I think I forgot mine.

458

00:20:24,920 --> 00:20:25,920

Tree loppers?

459

00:20:25,920 --> 00:20:28,920

Yep. I'll grab them.

460

00:20:28,920 --> 00:20:33,920

It took a lot of effort for this vet to get into this cow

461

00:20:33,920 --> 00:20:35,920

and to really do a thorough examination,

462

00:20:35,920 --> 00:20:39,920

and it made me realize just how more incredulous these stories are

463

00:20:39,920 --> 00:20:41,920

of its cows being mutilated.

464

00:20:41,920 --> 00:20:43,920

I see those tree loppers.

465

00:20:43,920 --> 00:20:44,920

Thank you.

466

00:20:44,920 --> 00:20:46,920

Everybody's breaking in their rib cage.

467

00:20:46,920 --> 00:20:49,920

The fact that they could do something like this in 20 minutes,

468

00:20:49,920 --> 00:20:52,920

when the vet, through a great deal of effort,

469

00:20:52,920 --> 00:20:55,920

took a lot longer than that to get into this cow

470

00:20:55,920 --> 00:20:58,920

was pretty telling to me.

471

00:20:58,920 --> 00:21:00,920

The other thing was the amount of blood

472

00:21:00,920 --> 00:21:05,920

and just how messy an ordeal like this is.

473

00:21:05,920 --> 00:21:09,920

There again, the mutilations were reported to have been very clean.

474

00:21:09,920 --> 00:21:14,920

No blood, no signs of any type of surgery that took place,

475

00:21:14,920 --> 00:21:17,920

and that definitely wasn't the case here.

476

00:21:18,920 --> 00:21:20,920

So we're into the lungs.

477

00:21:21,920 --> 00:21:23,920

Lungs and heart.

478

00:21:24,920 --> 00:21:25,920

That's a big heart.

479

00:21:25,920 --> 00:21:26,920

Wow.

480

00:21:26,920 --> 00:21:27,920

That's huge.

481

00:21:27,920 --> 00:21:30,920

We have a lot of consolidation of the lungs right here.

482

00:21:31,920 --> 00:21:36,920

Most of this black color is postmortem pooling of the blood.

483

00:21:37,920 --> 00:21:39,920

It's very, very possible.

484

00:21:39,920 --> 00:21:41,920

It is stress-induced.

485

00:21:41,920 --> 00:21:42,920

Wow.

486

00:21:42,920 --> 00:21:44,920

Stress will bring on pneumonia.

487

00:21:44,920 --> 00:21:45,920

Oh, really?

488

00:21:45,920 --> 00:21:47,920

Yeah. Cows may get stressed,

489

00:21:47,920 --> 00:21:50,920

and the pathogens that cause pneumonia are typically already within the cow.

490

00:21:50,920 --> 00:21:53,920

If this cow got stressed, would that bring on an acute reaction?

491

00:21:53,920 --> 00:21:55,920

Yeah, stress will cause it.

492

00:21:58,920 --> 00:22:00,920

So the heart looks normal. I don't see anything on the valves.

493

00:22:01,920 --> 00:22:03,920

So you're not seeing anything that shows disease or...

494

00:22:04,920 --> 00:22:05,920

Just the lungs.

495

00:22:05,920 --> 00:22:06,920

Just the pneumonia?

496

00:22:06,920 --> 00:22:07,920

Just the lungs, yep.

497

00:22:07,920 --> 00:22:08,920

And that's enough to kill her.

498

00:22:09,920 --> 00:22:13,920

Is there some particular type of stress that will cause this?

499

00:22:13,920 --> 00:22:15,920

I would worry about predators.

500

00:22:15,920 --> 00:22:20,920

That could have stressed this cow out, whatever it was that came and attacked the alpaca.

501

00:22:20,920 --> 00:22:21,920

Oh, yeah.

502

00:22:21,920 --> 00:22:28,920

I just want to verify something, that the animal was going about her business, doing her thing, got stressed by something.

503

00:22:28,920 --> 00:22:34,920

Then lowered her immune system, which allowed pneumonia to set in, which then, that was the final key.

504

00:22:34,920 --> 00:22:38,920

So the impetus, what the main thing was, is that she got stressed somehow.

505

00:22:38,920 --> 00:22:39,920

Exactly, yeah.

506

00:22:39,920 --> 00:22:43,920

All the signs I've seen point toward stress-induced pneumonia.

507

00:22:45,920 --> 00:22:48,920

And that stress would have been something recent.

508

00:22:48,920 --> 00:22:49,920

Oh, yeah.

509

00:22:49,920 --> 00:22:53,920

So if they got spooked and headed out, and she wanted to go with them and couldn't,

510

00:22:53,920 --> 00:22:54,920

Oh, yeah.

511

00:22:54,920 --> 00:22:55,920

That would definitely stress her out.

512

00:22:55,920 --> 00:22:56,920

Definitely, yeah.

513

00:22:57,920 --> 00:23:00,920

Well, hearing that the cow died of something that was stress-induced,

514

00:23:00,920 --> 00:23:07,920

if stress was the thing that caused this cow to get this pneumonia and die rapidly, what was the stressor?

515

00:23:07,920 --> 00:23:11,920

Animals are attuned to their senses a little better than humans are.

516

00:23:11,920 --> 00:23:16,920

And it's possible that when this cow was being exposed to microwaves, that it was feeling it.

517

00:23:16,920 --> 00:23:19,920

Well, this cow must not have moved to safety in time.

518

00:23:19,920 --> 00:23:23,920

I think that we should get an enclosure around that, protect it from predators tonight,

519

00:23:23,920 --> 00:23:26,920

and grab a few panels and put around it.

520

00:23:26,920 --> 00:23:30,920

And again, I want to thank you for coming out so quickly and doing such a good job.

521

00:23:30,920 --> 00:23:31,920

No problem.

522

00:23:32,920 --> 00:23:35,920

One of those things where we hope we don't see again, but maybe we will.

523

00:23:42,920 --> 00:23:46,920

Brandon Fugel.

524

00:23:46,920 --> 00:23:47,920

Hey, Brandon.

525

00:23:47,920 --> 00:23:48,920

It's Bryant.

526

00:23:48,920 --> 00:23:50,920

I've got Eric here with me.

527

00:23:50,920 --> 00:23:51,920

How's it going?

528

00:23:51,920 --> 00:23:52,920

Good, dragon.

529

00:23:52,920 --> 00:23:53,920

What's the latest?

530

00:23:53,920 --> 00:24:01,920

Things seemed to have been going just fine, but we did have a bit of an incident with part of the livestock today.

531

00:24:01,920 --> 00:24:02,920

What?

532

00:24:02,920 --> 00:24:03,920

With the herd?

533

00:24:03,920 --> 00:24:04,920

Yeah.

534

00:24:04,920 --> 00:24:08,920

We came up on a deceased one of the herd.

535

00:24:08,920 --> 00:24:09,920

Whoa.

536

00:24:09,920 --> 00:24:14,920

We didn't see any sort of wounds on the exterior of the animal.

537

00:24:14,920 --> 00:24:21,920

For all intents and purposes, it looked just like a perfectly healthy cow that just laid down and died for whatever reason.

538

00:24:21,920 --> 00:24:22,920

Wow.

539

00:24:22,920 --> 00:24:25,920

The vet went out there and kind of assessed it.

540

00:24:25,920 --> 00:24:26,920

What happened?

541

00:24:26,920 --> 00:24:30,920

So, Brandon, it was evident this animal was in distress.

542

00:24:30,920 --> 00:24:33,920

Do we have a read on what could have caused this?

543

00:24:33,920 --> 00:24:35,920

So, we had several instruments out there.

544

00:24:35,920 --> 00:24:36,920

A spectra-manalyzer?

545

00:24:36,920 --> 00:24:39,920

Well, a spectra-manalyzer as well as the tri-field meter.

546

00:24:39,920 --> 00:24:43,920

You know, we got big RF spikes during that time.

547

00:24:43,920 --> 00:24:44,920

Hmm.

548

00:24:44,920 --> 00:24:49,920

Interestingly enough, Caleb, that crazy thing with his phone started to happen again.

549

00:24:49,920 --> 00:24:56,920

Travis grabbed a tri-field meter and went racing out there, and the RF was way off the charts.

550

00:24:56,920 --> 00:25:03,920

Having all of these electromagnetic anomalies and interference, it's disturbing.

551

00:25:03,920 --> 00:25:07,920

You know, there's something obviously, I think, more at work here.

552

00:25:07,920 --> 00:25:14,920

I want to get to the bottom of it if we can and try to determine what actually killed this animal.

553

00:25:14,920 --> 00:25:25,920

I'm going to drop everything and come out myself, and I have an expert in this field that has, I think, better knowledge than anyone when it comes to cattle mutilations.

554

00:25:25,920 --> 00:25:26,920

Okay.

555

00:25:26,920 --> 00:25:27,920

That sounds like a good plan.

556

00:25:27,920 --> 00:25:29,920

With that, I'll make arrangements.

557

00:25:29,920 --> 00:25:31,920

I appreciate you reaching out.

558

00:25:31,920 --> 00:25:32,920

Okay.

559

00:25:32,920 --> 00:25:34,920

And Brandon, we'll talk to you later.

560

00:25:34,920 --> 00:25:35,920

Thank you so much.

561

00:25:35,920 --> 00:25:36,920

All right, bye-bye.

562

00:25:36,920 --> 00:25:43,920

So the next step was getting them out of the corral with this top barbed wire and then fencing his subsurface.

563

00:25:43,920 --> 00:25:49,920

Nothing can get in here as long as it's secure, but things could be coming from the sky.

564

00:26:03,920 --> 00:26:15,920

Upon hearing that we had one of the cows found dead on the property under mysterious circumstances, I immediately drove back to the ranch to truly see what is happening.

565

00:26:15,920 --> 00:26:17,920

What is at work?

566

00:26:17,920 --> 00:26:23,920

What kind of events led up to and surrounded the death of that animal?

567

00:26:23,920 --> 00:26:25,920

I want to get to the bottom of that.

568

00:26:33,920 --> 00:26:35,920

Hey, boss.

569

00:26:35,920 --> 00:26:36,920

Hey.

570

00:26:36,920 --> 00:26:38,920

Good to see you.

571

00:26:38,920 --> 00:26:41,920

I'd like you gentlemen to meet Linda Moulton-Howe.

572

00:26:41,920 --> 00:26:42,920

How do you do?

573

00:26:42,920 --> 00:26:43,920

Thomas.

574

00:26:43,920 --> 00:26:44,920

Thomas, thank you.

575

00:26:44,920 --> 00:26:45,920

Hi, Jim.

576

00:26:45,920 --> 00:26:54,920

I immediately reached out to Linda Moulton-Howe, who is a world-renowned expert when it comes to the cattle mutilation phenomenon.

577

00:26:54,920 --> 00:27:12,920

She has spent decades being an active field investigator, so I felt bringing her on the property was going to be important to truly understand whether what we were seeing was anomalous, whether it was strange or whether this was something that had a natural explanation.

578

00:27:12,920 --> 00:27:15,920

Linda is the foremost expert on the planet.

579

00:27:15,920 --> 00:27:21,920

When it comes to some of the strange phenomena you've reported that has occurred here on the ranch the last several days.

580

00:27:21,920 --> 00:27:33,920

And I think with the elevated urgency, the death of the cow, I think it was important to bring Linda out as soon as possible to consult with the team and give us hopefully greater insight.

581

00:27:33,920 --> 00:27:36,920

So tell us what has been happening the last few days.

582

00:27:36,920 --> 00:27:40,920

Well, we can tell you about it, but we can also show you some of it.

583

00:27:40,920 --> 00:27:46,920

You know, we've had some things happen with the cattle, and there's some footage I'd like to share with you.

584

00:27:46,920 --> 00:27:47,920

Great.

585

00:27:47,920 --> 00:27:48,920

Great.

586

00:27:48,920 --> 00:27:52,920

You know, cows die all the time. It's just part of being on a ranch.

587

00:27:52,920 --> 00:27:53,920

Right.

588

00:27:53,920 --> 00:28:00,920

The interesting thing about this was that it was surrounded by a number of anomalies taking place within a short period of time.

589

00:28:00,920 --> 00:28:04,920

That's what got my attention. That's what elevated the urgency with me.

590

00:28:04,920 --> 00:28:12,920

So when you take and add all of the things together, it starts to draw a picture that maybe it's not just a cow dying.

591

00:28:14,920 --> 00:28:17,920

So Linda, what would you suggest we do as far as next steps?

592

00:28:17,920 --> 00:28:20,920

I am really interested in looking at the cow.

593

00:28:20,920 --> 00:28:21,920

Okay.

594

00:28:21,920 --> 00:28:22,920

Great.

595

00:28:22,920 --> 00:28:26,920

I'd like to go immediately with Eric to start looking at the footage.

596

00:28:26,920 --> 00:28:27,920

Let's do that.

597

00:28:27,920 --> 00:28:28,920

Okay.

598

00:28:28,920 --> 00:28:31,920

We'll grab you then, we'll head over, and we'll meet up a little bit later.

599

00:28:31,920 --> 00:28:32,920

Great.

600

00:28:39,920 --> 00:28:43,920

So we immediately take Linda out to see the cow.

601

00:28:43,920 --> 00:28:44,920

Oh boy.

602

00:28:44,920 --> 00:28:51,920

And even though it's only been 12 hours, there's obviously definitely an odor and the insects around it.

603

00:28:53,920 --> 00:28:56,920

You fenced it so we could keep out predators.

604

00:28:56,920 --> 00:28:57,920

That's correct.

605

00:29:04,920 --> 00:29:08,920

And what we're looking at is after necropsy.

606

00:29:08,920 --> 00:29:09,920

Yes.

607

00:29:10,920 --> 00:29:19,920

You know, this particular cow, for two years, she has done everything normally, and she's been fine.

608

00:29:19,920 --> 00:29:31,920

Well, the first thing is if it had been a classic cattle mutilation, the first thing you would do

is you would look at the sky-facing head.

609

00:29:32,920 --> 00:29:37,920

And that is where the sky-facing ear would be gone.

610

00:29:37,920 --> 00:29:48,920

Sky-facing eye would be removed, and often in a circle of flesh around taking out the eyeball, the eyelids in a perfect circle.

611

00:29:50,920 --> 00:29:54,920

The jaw would be right here, like this.

612

00:29:54,920 --> 00:29:59,920

So when the vet did his work, he didn't find any of that type of damage.

613

00:29:59,920 --> 00:30:03,920

But what he did say was very, very interesting, is he felt that stress came first.

614

00:30:03,920 --> 00:30:08,920

So it was a stressful moment for the cow, which dropped the immune system.

615

00:30:08,920 --> 00:30:11,920

And at the same time, your stress, your immune system drops.

616

00:30:11,920 --> 00:30:13,920

He saw some irritation in the lungs.

617

00:30:13,920 --> 00:30:15,920

It actually showed us the pus.

618

00:30:15,920 --> 00:30:16,920

It was like very dramatic.

619

00:30:16,920 --> 00:30:20,920

There was some stress that brought on the initial symptoms.

620

00:30:20,920 --> 00:30:23,920

Another thing was that it was acute.

621

00:30:23,920 --> 00:30:24,920

It wasn't like a slow progression.

622

00:30:24,920 --> 00:30:28,920

It was something that stress came on really fast, and then it took him down.

623

00:30:28,920 --> 00:30:30,920

Fast, fast.

624

00:30:30,920 --> 00:30:34,920

I accept that the veterinarian did the knee crops.

625

00:30:34,920 --> 00:30:36,920

He saw the pus.

626

00:30:36,920 --> 00:30:41,920

But if there is stress involved, as the veterinarian himself suggested, why?

627

00:30:41,920 --> 00:30:43,920

What is the stress?

628

00:30:43,920 --> 00:30:46,920

And is there something still ongoing in the skin walker range?

629

00:30:46,920 --> 00:30:52,920

Many of the animals that she has seen mutilated were missing their eye that was facing skyward.

630

00:30:52,920 --> 00:30:57,920

So while this isn't a textbook mutilation, the fact that the cow died from stress definitely intrigued her.

631

00:30:57,920 --> 00:31:04,920

I can see her wheels turning as she's trying to piece together whether or not this was anything out of the ordinary.

632

00:31:04,920 --> 00:31:07,920

What stress exactly caused her to do this?

633

00:31:07,920 --> 00:31:12,920

Because as far as we can tell, she's been fine.

634

00:31:12,920 --> 00:31:18,920

Well, I can tell you from all of the animal mutilation work that I've done the last four decades,

635

00:31:18,920 --> 00:31:24,920

in some cases it is very clear by tracks on the ground

636

00:31:24,920 --> 00:31:29,920

that an animal that is found mutilated ran for a very long distance.

637

00:31:29,920 --> 00:31:34,920

We have seen it in horses, we've seen it in cattle, we have seen it in other animals.

638

00:31:34,920 --> 00:31:41,920

And that suggests that the animals themselves are aware they're in trouble and that they run.

639

00:31:41,920 --> 00:31:46,920

And it could be that that is the stress that would accelerate death.

640

00:31:46,920 --> 00:31:50,920

Linda, I think if we're done right here, I'm going to move us away from the animal.

641

00:31:50,920 --> 00:31:53,920

We've got so many insects and the smell.

642

00:31:53,920 --> 00:31:56,920

Let's go over here in the shade. I want to visit with you more.

643

00:31:56,920 --> 00:32:02,920

This is a place where strange things happen.

644

00:32:02,920 --> 00:32:08,920

And in this case, it's very clear this is not an animal mutilation in any way.

645

00:32:08,920 --> 00:32:14,920

But it's a very large two-year-old, otherwise healthy-looking cow.

646

00:32:14,920 --> 00:32:18,920

What happened to this two-year-old?

647

00:32:18,920 --> 00:32:27,920

If that animal had been mutilated in the classic way that literally thousands of large and small animals have been mutilated,

648

00:32:27,920 --> 00:32:36,920

we're talking about going back into not just the 1960s, there are reports in Australia going back to the beginning of the 20th century.

649

00:32:36,920 --> 00:32:42,920

So this is almost at least a century and a half phenomenon. It has been global.

650

00:32:42,920 --> 00:32:46,920

Now, what are we dealing with?

651

00:32:46,920 --> 00:32:50,920

There's no question that animals have been stressed or they've been mutilated.

652

00:32:50,920 --> 00:32:58,920

It's a link in the whole history of a century and a half of animal mutilation around the world.

653

00:32:58,920 --> 00:33:01,920

The problem is proving.

654

00:33:01,920 --> 00:33:03,920

Right. That's always the problem.

655

00:33:03,920 --> 00:33:06,920

Which stress did what to which animal?

656

00:33:06,920 --> 00:33:13,920

And that is the challenge. We're dealing with something that doesn't want us to understand.

657

00:33:13,920 --> 00:33:17,920

And you haven't had any animal mutilations here for two or three years, right?

658

00:33:17,920 --> 00:33:18,920

More than that.

659

00:33:18,920 --> 00:33:19,920

More than that.

660

00:33:19,920 --> 00:33:20,920

Maybe ten years.

661

00:33:20,920 --> 00:33:24,920

Well, you may be starting a new cycle.

662

00:33:36,920 --> 00:33:42,920

The cow is here. I can't help but also notice that there's something happening here.

663

00:33:49,920 --> 00:33:59,920

We're trying to make a decision whether this was a natural occurrence or this is a occurrence brought on by some unknown entity that's working on this ranch that we can't identify.

664

00:33:59,920 --> 00:34:04,920

So when you do find these animals, what other things do you measure in the environment?

665

00:34:04,920 --> 00:34:08,920

Well, the one thing I've used is tri-field meters.

666

00:34:08,920 --> 00:34:15,920

And every once in a while you might get a spike in, let's say, the electromagnetic spectrum.

667

00:34:15,920 --> 00:34:17,920

We had that yesterday. Absolutely.

668

00:34:17,920 --> 00:34:18,920

Right here.

669

00:34:18,920 --> 00:34:22,920

Tom and Candice saw this. We all ran out. We brought our equipment with us.

670

00:34:22,920 --> 00:34:28,920

And the minute we got here, this thing was going, our tri-field meters, and we had several of them going crazy.

671

00:34:28,920 --> 00:34:36,920

And then I took out my spectrum analyzer, and at that point I was reading things that you can't possibly understand.

672

00:34:36,920 --> 00:34:45,920

But everything you're describing is electromagnetic frequency intrusion by something that is causing anomalies.

673

00:34:45,920 --> 00:34:55,920

From everything I know talking with government and military people, whether it's CIA, DIA, NSA or military, and they have dealt with animal invutations themselves.

674

00:34:56,920 --> 00:35:01,920

And they know that electromagnetic anomalies are one of the things that you need to measure.

675

00:35:01,920 --> 00:35:02,920

That's interesting.

676

00:35:02,920 --> 00:35:11,920

Yeah, but all of these animals die largely in rural areas where nobody has anything that's monitoring.

677

00:35:11,920 --> 00:35:23,920

And so you all may have the first consistent data where you are truly trying to keep track of what is happening to specific animals here at the Skinwalker Ranch.

678

00:35:24,920 --> 00:35:32,920

While we got you on the property, we definitely want to get you over and show you the exotic animals we brought on here, the alpacas.

679

00:35:32,920 --> 00:35:33,920

Yeah.

680

00:35:33,920 --> 00:35:35,920

And maybe we can get your take on that.

681

00:35:35,920 --> 00:35:36,920

OK.

682

00:35:36,920 --> 00:35:37,920

Tom, let's put the gate up.

683

00:35:37,920 --> 00:35:40,920

Yeah, we need to get this gated back in real quick.

684

00:35:40,920 --> 00:35:47,920

It's obvious that we're gathering a lot of data, but so far the data has led to a lot of questions.

685

00:35:47,920 --> 00:35:56,920

Any time we have someone like Linda who has been on site of many, many, many investigations, it carries a lot of weight with me.

686

00:35:56,920 --> 00:36:02,920

And so after showing her the cow, just wanted to show her the alpacas that got attacked.

687

00:36:07,920 --> 00:36:08,920

Well?

688

00:36:08,920 --> 00:36:10,920

So here's our exotic animals.

689

00:36:11,920 --> 00:36:15,920

Before we put them in here, they were kept in the corral, right up by the ranch house.

690

00:36:15,920 --> 00:36:21,920

And the morning after they were brought in, they were attacked by something.

691

00:36:24,920 --> 00:36:25,920

It looks bad.

692

00:36:25,920 --> 00:36:27,920

I'm just glad he's alive.

693

00:36:27,920 --> 00:36:31,920

I didn't know what you were going to find.

694

00:36:31,920 --> 00:36:32,920

Yeah.

695

00:36:32,920 --> 00:36:36,920

It's hard to say exactly what bit them.

696

00:36:36,920 --> 00:36:37,920

It was rusted.

697

00:36:37,920 --> 00:36:39,920

Let me bring this up.

698

00:36:41,920 --> 00:36:43,920

Oh, my God.

699

00:36:43,920 --> 00:36:47,920

You can almost see something grabbing onto it right about...

700

00:36:47,920 --> 00:36:48,920

Oh, oh.

701

00:36:48,920 --> 00:36:49,920

Right there.

702

00:36:49,920 --> 00:36:51,920

That's when the first bite happened.

703

00:36:51,920 --> 00:36:52,920

Yeah.

704

00:36:52,920 --> 00:36:56,920

I'm really glad that whatever it was, it didn't turn on you guys.

705

00:36:56,920 --> 00:37:02,920

So the next step was getting them out of the corral and bringing them here where they're more secure.

706

00:37:03,920 --> 00:37:08,920

Do you think about the possibility that if you bring a different animal here,

707

00:37:08,920 --> 00:37:12,920

that something might be provoked by it?

708

00:37:12,920 --> 00:37:16,920

It was more about maybe seeing how they react to this place,

709

00:37:16,920 --> 00:37:21,920

see if they sense anything differently than the cows or William or us.

710

00:37:21,920 --> 00:37:27,920

Maybe things that we can't hear and see, you know, these animals seem to have a sixth sense and no...

711

00:37:27,920 --> 00:37:28,920

Well, they can hear emphasis.

712

00:37:28,920 --> 00:37:29,920

Yes.

713

00:37:29,920 --> 00:37:30,920

They can't hear.

714

00:37:30,920 --> 00:37:35,920

And now, do you have cameras that if something did attack them in here,

715

00:37:35,920 --> 00:37:36,920

that you would get it on video?

716

00:37:36,920 --> 00:37:37,920

Yes.

717

00:37:37,920 --> 00:37:38,920

Yes.

718

00:37:38,920 --> 00:37:42,920

So we have everything very closely monitored in this part of the property.

719

00:37:42,920 --> 00:37:47,920

Has anything been caught on any infrared video?

720

00:37:47,920 --> 00:37:49,920

When you say anything, what do you...

721

00:37:49,920 --> 00:37:57,920

Well, meaning something that would fall into the category of a beam, an orb, possibly a silhouette.

722

00:37:57,920 --> 00:37:58,920

You've seen beams.

723

00:37:58,920 --> 00:38:04,920

We have seen beams on the infrared camera that do not appear to the naked eye.

724

00:38:04,920 --> 00:38:06,920

It came over that rise.

725

00:38:06,920 --> 00:38:13,920

A few weeks ago, we actually saw an apparition where there were appeared to be beams of light.

726

00:38:13,920 --> 00:38:14,920

Oh, did you see that?

727

00:38:14,920 --> 00:38:22,920

Emanating from some place to the west of the mesa, coming straight across the ranch and going up into the sky.

728

00:38:22,920 --> 00:38:23,920

That's a definite beam.

729

00:38:23,920 --> 00:38:27,920

It is clearly a beam going across there.

730

00:38:27,920 --> 00:38:35,920

And when you put them in here, did you have a feeling that in the one hand,

731

00:38:35,920 --> 00:38:38,920

you might be separating them from what attacked up there,

732

00:38:38,920 --> 00:38:41,920

but on the other, you might be making them vulnerable?

733

00:38:41,920 --> 00:38:44,920

No, I feel getting them in here was a relief,

734

00:38:44,920 --> 00:38:48,920

because I feel like with this top barbed wire and then the fencing is subsurface,

735

00:38:48,920 --> 00:38:51,920

nothing can get in here as long as it's secure.

736

00:38:51,920 --> 00:38:55,920

But things could be coming from the sky.

737

00:38:55,920 --> 00:38:57,920

That's been our question.

738

00:38:57,920 --> 00:38:59,920

Is it coming from below?

739

00:38:59,920 --> 00:39:01,920

Is it coming from the sky?

740

00:39:01,920 --> 00:39:04,920

Especially with a lot of the tales that have been coming from this ranch.

741

00:39:04,920 --> 00:39:08,920

If it's coming from the sky, there's probably not a safe place anywhere.

742

00:39:21,920 --> 00:39:24,920

So I have the footage that I'd like to show you ready.

743

00:39:24,920 --> 00:39:27,920

And we're going to watch this cow.

744

00:39:27,920 --> 00:39:31,920

After Linda and the rest of the team finished checking out the remains of the dead cow,

745

00:39:31,920 --> 00:39:34,920

they joined Brandon, Dragon and I in the command center,

746

00:39:34,920 --> 00:39:39,920

where Eric was eager to share with us something amazing he noticed in the surveillance footage.

747

00:39:39,920 --> 00:39:44,920

The surveillance cameras captured the ordeal that this animal went through

748

00:39:44,920 --> 00:39:46,920

over a period of several hours.

749

00:39:46,920 --> 00:39:51,920

We're looking towards the right extreme.

750

00:39:51,920 --> 00:39:53,920

I'm going to zoom in on it.

751

00:39:53,920 --> 00:39:55,920

That's the tree that we found the cow by.

752

00:39:55,920 --> 00:39:57,920

Right, right out here.

753

00:39:57,920 --> 00:39:59,920

Is that black object the cow?

754

00:39:59,920 --> 00:40:01,920

Yep, that's it Tom.

755

00:40:01,920 --> 00:40:03,920

The cow is right here.

756

00:40:03,920 --> 00:40:09,920

What we'll do is go forward very slowly and watch what happens with her.

757

00:40:09,920 --> 00:40:12,920

Watch how she moves. It's interesting.

758

00:40:12,920 --> 00:40:15,920

Now you see the cow starts to get up.

759

00:40:15,920 --> 00:40:22,920

I'm going to do this very slowly frame by frame so we can watch what's happening with her.

760

00:40:22,920 --> 00:40:29,920

So here, I can't help but also notice that there's something happening here.

761

00:40:29,920 --> 00:40:32,920

Look at that.

762

00:40:32,920 --> 00:40:35,920

It looks like an object above the tree.

763

00:40:35,920 --> 00:40:40,920

And it happens right when the cow moves, raises up.

764

00:40:40,920 --> 00:40:43,920

Go back and show them where you first see it, Eric.

765

00:40:43,920 --> 00:40:49,920

Okay, so this is where something else does enter the frame, the next frame.

766

00:40:49,920 --> 00:40:51,920

The object is here.

767

00:40:51,920 --> 00:40:57,920

The cow is trying to get up on her feet.

768

00:40:57,920 --> 00:40:59,920

The cow reacted.

769

00:40:59,920 --> 00:41:00,920

Right.

770

00:41:00,920 --> 00:41:07,920

The moment that that object appeared above the cow, the cow was reacting.

771

00:41:07,920 --> 00:41:09,920

Yes.

772

00:41:15,920 --> 00:41:18,920

Something is clearly happening here on the ranch.

773

00:41:18,920 --> 00:41:20,920

We've seen all sorts of weird signals.

774

00:41:20,920 --> 00:41:22,920

We've been exposed to radiation.

775

00:41:22,920 --> 00:41:24,920

I've seen toxic gases.

776

00:41:24,920 --> 00:41:32,920

And now we have this cow dying and there's a strange object flying at really fast speeds above it.

777

00:41:32,920 --> 00:41:37,920

This could be the start of actually an eye-opening experience and experiment.

778

00:41:37,920 --> 00:41:42,920

We might find something here that's a lot deeper than we think.

779

00:41:42,920 --> 00:41:46,920

At first, when I saw this object, my rational mind tried to make sense of it.

780

00:41:46,920 --> 00:41:51,920

Tried to make it look like an airplane or a bird or a bug or something.

781

00:41:51,920 --> 00:41:55,920

But the more I looked at it, the more I thought about it, it was not any of those things.

782

00:41:55,920 --> 00:42:03,920

What was this craft doing out there and why at the very time this cow was dying was this craft seen in the sky.

783

00:42:03,920 --> 00:42:10,920

I think it's very intriguing as to why these two events are taking place at the same time.

784

00:42:10,920 --> 00:42:19,920

While this is not a mutilation in the sense that we did not find the animal cut up and emptied of its blood or anything of that sort,

785

00:42:19,920 --> 00:42:31,920

this is perhaps one of the most well-documented events of such a suspicious and sudden cattle death on a ranch where activity of this nature is known to have taken place.

786

00:42:31,920 --> 00:42:42,920

To this day, not a single scavenger has touched that cow.

787

00:42:42,920 --> 00:42:45,920

Wow, it looks just like Tic-Tac video.

788

00:42:45,920 --> 00:42:47,920

There's some type of proportion that we can't understand.

789

00:42:47,920 --> 00:42:50,920

Does that constitute contact?

790

00:42:50,920 --> 00:42:51,920

They approached us.

791

00:42:51,920 --> 00:42:54,920

Those rays reflect from ranch property.

792

00:42:54,920 --> 00:42:57,920

We've got indisputable evidence that's world-changing.

793

00:42:57,920 --> 00:42:58,920

Agreed.

794

00:42:58,920 --> 00:42:59,920

Somebody's watching us.

795

00:42:59,920 --> 00:43:02,920

I've been contacted by some folks in the intelligence community.

796

00:43:02,920 --> 00:43:03,920

So we're being monitored.

797

00:43:03,920 --> 00:43:04,920

Absolutely.
