

1

00:00:00,000 --> 00:00:06,640

This program is rated PG and may contain mature subject matter.

2

00:00:06,640 --> 00:00:08,440

Viewer discretion is advised.

3

00:00:08,440 --> 00:00:11,240

Dragon, what's going on?

4

00:00:11,240 --> 00:00:13,320

We had some crazy stuff go down.

5

00:00:13,320 --> 00:00:18,240

Just after dark, there was something that was shimmering yellowish-orange, then it instantly

6

00:00:18,240 --> 00:00:19,240

vanished.

7

00:00:19,240 --> 00:00:23,600

Within seconds, something flies across the sky.

8

00:00:23,600 --> 00:00:27,360

We invited a veterinarian to look at the cow that died last year.

9

00:00:27,360 --> 00:00:29,760

As you can see, the predators haven't done their job.

10

00:00:29,760 --> 00:00:31,320

No, they haven't touched it.

11

00:00:31,320 --> 00:00:34,280

There's something about that carcass that I don't like.

12

00:00:34,280 --> 00:00:39,040

This petroglyph represents two different worlds, so it's a guardian to the portals.

13

00:00:39,040 --> 00:00:43,960

The portal is a window into the supernatural.

14

00:00:43,960 --> 00:00:46,920

There is a ranch in northern Utah.

15

00:00:46,920 --> 00:00:55,440

It is considered the epicenter of the strangest and most disturbing phenomena on Earth.

16

00:00:55,440 --> 00:01:03,000

Unusual mutilations, bizarre UFO sightings, and unusual energies that have proven harmful

17

00:01:03,000 --> 00:01:04,000

to humans.

18

00:01:04,000 --> 00:01:10,400

For 20 years, the federal government tried to find answers and failed.

19

00:01:10,400 --> 00:01:17,800

Now, a new team of dedicated scientists, researchers, and experts has taken over.

20

00:01:17,800 --> 00:01:24,480

They are determined to solve the mystery and reveal.

21

00:01:24,480 --> 00:01:35,240

The Secret of Skinwalker Ranch.

22

00:01:35,240 --> 00:01:39,560

So Colonel Alexander has told us that he's receptive to having a conversation today.

23

00:01:39,560 --> 00:01:43,000

I've actually got him standing by, so why don't we give him a call?

24

00:01:43,000 --> 00:01:45,420

All right, yeah, all right.

25

00:01:45,420 --> 00:01:50,280

After the recent bizarre events that have happened on Skinwalker Ranch, we really wanted to speak

26

00:01:50,280 --> 00:01:53,200

with a credible investigator with past experience here.

27

00:01:53,560 --> 00:01:57,600

Luckily, Eric Bard was able to convince John Alexander to have a video conference with

28

00:01:57,600 --> 00:01:58,600

us.

29

00:01:58,600 --> 00:02:03,000

John is a retired U.S. Army Colonel, and he was also a member of Robert Bigelow's team

30

00:02:03,000 --> 00:02:06,680

known as the National Institute for Discovery Science.

31

00:02:06,680 --> 00:02:11,040

They investigated the ranch for over two decades, and this is the first time someone from that

32

00:02:11,040 --> 00:02:13,400

group has been willing to engage with us.

33

00:02:13,400 --> 00:02:16,280

Colonel Alexander, do you hear us?

34

00:02:16,280 --> 00:02:17,280

Yeah.

35

00:02:17,280 --> 00:02:18,280

Good morning, John.

36

00:02:18,280 --> 00:02:19,440

This is Eric speaking.

37

00:02:19,440 --> 00:02:22,040

I want to thank you for taking our call today.

38

00:02:22,040 --> 00:02:27,480

John, I understand you came on very early as soon as Robert Bigelow bought the property.

39

00:02:27,480 --> 00:02:31,320

Actually, I was living the day he bought the ranch.

40

00:02:31,320 --> 00:02:37,920

We had a number of very phenomenal events occurred.

41

00:02:37,920 --> 00:02:44,520

After firing the ranch in the 1990s, Robert Bigelow immediately locked the property down,

42

00:02:44,520 --> 00:02:51,320

established 24-hour security, and launched what was an unprecedented scientific investigation

43

00:02:51,320 --> 00:02:53,640

of the property.

44

00:02:53,640 --> 00:02:59,600

They ended up encountering all sorts of strangeness, everything from cattle medallions to UFO

45

00:02:59,600 --> 00:03:04,840

phenomena to what can only be described as poltergeist-like activity.

46

00:03:04,840 --> 00:03:12,840

But most of what Mr. Bigelow and his team reported on the ranch remains either classified

47

00:03:12,840 --> 00:03:15,840

or confidential and is locked away.

48

00:03:15,840 --> 00:03:21,080

So, John, we've been talking about the events that have happened here on the ranch and more

49

00:03:21,080 --> 00:03:23,480

specifically out at the Homestead area.

50

00:03:23,480 --> 00:03:28,760

I understand that this is something that you're very knowledgeable about.

51

00:03:28,760 --> 00:03:33,200

And we're hoping that we can get your perspective on the things that happened out in the Homestead

52

00:03:33,200 --> 00:03:34,200

area.

53

00:03:34,200 --> 00:03:37,080

Like you, we had this instrumented.

54

00:03:37,080 --> 00:03:40,080

We had cameras that were working 24-7.

55

00:03:40,080 --> 00:03:46,280

It did a lot of monitoring, you know, radiation and things of that level.

56

00:03:46,280 --> 00:03:52,800

The old Homestead area is one that seemed to specifically attract a lot of attention.

57

00:03:52,800 --> 00:04:00,360

One of the things that really stand out in my mind is that the observers are on the rich

58

00:04:00,360 --> 00:04:05,720

line to the north and looking down on Homestead 2.

59

00:04:05,720 --> 00:04:10,800

And they see a spot of light that expands.

60

00:04:10,800 --> 00:04:15,320

And something came out about six foot tall.

61

00:04:15,320 --> 00:04:19,720

Now, you know how dusty the roads are there, right?

62

00:04:19,720 --> 00:04:25,880

Well, something big came out, ran off, and yet you don't find any physical evidence

63

00:04:25,880 --> 00:04:26,880

of it.

64

00:04:26,880 --> 00:04:33,320

Well, we've had two events within the last three weeks where something appeared to be

65

00:04:33,320 --> 00:04:35,320

stalking us or watching us.

66

00:04:35,320 --> 00:04:41,560

And when we tried to find it, it vanished and there was not a single track anywhere.

67

00:04:41,560 --> 00:04:45,160

And the roads are just as dusty now as they were then.

68

00:04:45,160 --> 00:04:47,080

So it should have left tracks.

69

00:04:47,080 --> 00:04:48,080

Right.

70

00:04:48,080 --> 00:04:53,760

One of the things that you did mention though about being stalked, one of our guys, he talks

71

00:04:53,760 --> 00:04:58,080

about having another experience out of the old Homestead area.

72

00:04:58,080 --> 00:05:03,960

I put, again, the very high strangest high credibility.

73

00:05:03,960 --> 00:05:06,080

This was in the night.

74

00:05:06,080 --> 00:05:12,680

And there seemed to be something moving across the trees.

75

00:05:12,680 --> 00:05:20,800

Where you get a distortion, but it's not clear that just something might be there.

76

00:05:20,800 --> 00:05:21,880

That's interesting.

77

00:05:21,880 --> 00:05:27,600

We saw something that we described after the fact as looking like a predator.

78

00:05:27,600 --> 00:05:29,960

Was there one second and then it was just gone?

79

00:05:29,960 --> 00:05:32,720

Yes, we had those kind of experiences.

80

00:05:32,720 --> 00:05:39,240

Some of our people, they're out late at night.

81

00:05:39,240 --> 00:05:45,800

This is in the winter and they look up and there's something up in the trees.

82

00:05:45,800 --> 00:05:50,360

And it looks like it's above one of the cattle.

83

00:05:50,360 --> 00:05:56,520

One of our guys had a rifle with him and shot.

84

00:05:56,520 --> 00:06:04,120

The river was fell out of the tree and disappeared totally.

85

00:06:04,120 --> 00:06:09,480

It went out the next day and I said it was winter and there was some snow on the ground.

86

00:06:09,480 --> 00:06:14,520

The one thing we found was this track that looked like a gigantic raptor.

87

00:06:14,520 --> 00:06:17,160

I mean, three prong.

88

00:06:17,160 --> 00:06:21,920

We're talking out of Jurassic Park, trying to raptor print.

89

00:06:21,920 --> 00:06:26,440

We could not find any other tracks whatsoever.

90

00:06:26,440 --> 00:06:30,760

I've never heard that story.

91

00:06:30,760 --> 00:06:33,440

So this is a pretty amazing story.

92

00:06:33,440 --> 00:06:37,400

I don't know what to think of it because I've never seen anything like that.

93

00:06:37,400 --> 00:06:42,000

But given his history and his past, I don't know why I shouldn't believe it.

94

00:06:42,000 --> 00:06:48,240

All these strange phenomena that happened when you were here and even speculate some,

95

00:06:48,240 --> 00:06:50,520

what do you think it is?

96

00:06:50,520 --> 00:06:54,800

I'm not even sure how to begin addressing the complexity of that.

97

00:06:54,800 --> 00:07:00,320

Now, it's my view that these things are all connected in some way.

98

00:07:00,320 --> 00:07:06,400

I would say they are and it is a portal.

99

00:07:06,400 --> 00:07:10,800

It's like multi-dimensional reality.

100

00:07:10,800 --> 00:07:14,440

And I think periodically the dimensions overlap.

101

00:07:14,440 --> 00:07:19,520

And when they do, those sorts of things that you see are just as physical as you sitting

102

00:07:19,520 --> 00:07:21,520

there right now.

103

00:07:21,520 --> 00:07:25,480

But when it separates, it's gone.

104

00:07:25,480 --> 00:07:32,480

I find it both interesting and a bit jarring to hear Colonel Alexander state in such matter-of-fact

105

00:07:32,480 --> 00:07:40,120

terms that the ranch is in fact a place where portals to unknown dimensions actually open

106

00:07:40,120 --> 00:07:42,600

and close.

107

00:07:42,600 --> 00:07:47,920

If we're actually dealing with a portal, one explanation could be that it's a wormhole,

108

00:07:47,920 --> 00:07:52,720

which is theorized to be a literal gateway between two different dimensions in both time

109

00:07:52,720 --> 00:07:53,720

and space.

110

00:07:53,720 --> 00:07:58,560

Now, it might sound like something out of science fiction, but not only did Albert Einstein

111

00:07:58,560 --> 00:08:03,440

believe they could actually exist, I've had my own experiences here that made me wonder

112

00:08:03,440 --> 00:08:05,440

if it's possible too.

113

00:08:05,440 --> 00:08:08,320

It keeps on going all the way across the spectrum.

114

00:08:08,320 --> 00:08:09,320

Wow.

115

00:08:09,320 --> 00:08:13,680

Last year, I was awakened in the middle of the night on the ranch when my spectrum analyzer

116

00:08:13,680 --> 00:08:17,400

suddenly started detecting incredibly high energy spikes.

117

00:08:17,680 --> 00:08:23,360

I'm seeing all these signals from the microwave band all the way down past the handbands at

118

00:08:23,360 --> 00:08:24,600

35 megahertz.

119

00:08:24,600 --> 00:08:29,200

Now, to do that, it would be, I don't even know how we would do that.

120

00:08:29,200 --> 00:08:30,880

It's almost impossible.

121

00:08:30,880 --> 00:08:36,920

The question is, is this crazy signal we're seeing creating some type of event that is

122

00:08:36,920 --> 00:08:39,600

something like Einstein was theorizing?

123

00:08:39,600 --> 00:08:44,600

What if the only way to explain all these things is with a wormhole?

124

00:08:47,600 --> 00:08:54,560

So we're looking at what experiments we can do that hopefully we can either detect one

125

00:08:54,560 --> 00:09:00,920

of these portals, stimulate a portal, or something to see what it could be.

126

00:09:00,920 --> 00:09:06,440

Despite the complexity, I think that's a good thing to do, and I think you're adding to

127

00:09:06,440 --> 00:09:09,200

the data, and that's critically important.

128

00:09:09,200 --> 00:09:13,920

John, we all offer our thanks for your time and for the things you've shared with us.

129

00:09:13,920 --> 00:09:14,920

Really insightful.

130

00:09:14,920 --> 00:09:18,920

Let's move forward to the next chance we have to meet and talk about what we've found.

131

00:09:18,920 --> 00:09:20,920

All right, thank you.

132

00:09:20,920 --> 00:09:21,920

We'll talk soon.

133

00:09:21,920 --> 00:09:24,920

I think that was a great call.

134

00:09:24,920 --> 00:09:25,920

I agree, no.

135

00:09:25,920 --> 00:09:27,400

He was very insightful.

136

00:09:27,400 --> 00:09:31,200

What can we do to follow up on what we learned in the discussion?

137

00:09:31,200 --> 00:09:32,200

What would you do?

138

00:09:32,200 --> 00:09:33,200

I have some ideas.

139

00:09:33,200 --> 00:09:37,080

Let's first assume that somehow there's a portal that appears.

140

00:09:37,080 --> 00:09:41,720

If it is a doorway, it's got to be something like a traversable wormhole, so there's gravitational

141

00:09:41,720 --> 00:09:42,720

anomalies.

142

00:09:42,720 --> 00:09:49,200

If you had laser beams scanning the area when this occurred, the beams would bend, move,

143

00:09:49,200 --> 00:09:52,640

or maybe they're color shifted.

144

00:09:52,640 --> 00:09:55,360

So you could see visible light turned into something else.

145

00:09:55,360 --> 00:09:56,360

Maybe.

146

00:09:56,360 --> 00:09:57,360

Good place to start, for sure.

147

00:09:57,360 --> 00:09:58,360

Yeah.

148

00:09:58,360 --> 00:09:59,360

Let's do it.

149

00:09:59,360 --> 00:10:00,360

I agree.

150

00:10:00,360 --> 00:10:03,360

Travis and Eric are here.

151

00:10:03,360 --> 00:10:04,360

Oh.

152

00:10:04,360 --> 00:10:08,680

Well, we didn't lose anything.

153

00:10:08,680 --> 00:10:20,120

I think we've got everything else we need, at least for now.

154

00:10:20,120 --> 00:10:24,000

While we're arranging to get experts and equipment out to the ranch to help us conduct our laser

155

00:10:24,000 --> 00:10:28,320

experiment, Thomas Winerton had the idea of constructing an observation tower at the

156

00:10:28,320 --> 00:10:32,440

southernmost point of the property to act as a base of operation.

157

00:10:32,440 --> 00:10:36,600

If we can just get two more sheet supply wood up there and grab these two posts, and then

158

00:10:36,600 --> 00:10:38,400

we can haul the rest of it up with the Polaris.

159

00:10:38,400 --> 00:10:39,400

What do you guys think?

160

00:10:39,400 --> 00:10:40,400

Sounds good to me.

161

00:10:40,400 --> 00:10:41,960

Let's just get it done.

162

00:10:41,960 --> 00:10:42,960

Somebody getting cranky.

163

00:10:42,960 --> 00:10:43,960

Go.

164

00:10:43,960 --> 00:10:51,000

The south side really has the best view of the ranch, including the Mesa.

165

00:10:51,000 --> 00:10:52,960

You're able to see clear back to the Uina Mountains.

166

00:10:52,960 --> 00:10:57,040

It really gives you a 360 degree view all the way around.

167

00:10:57,040 --> 00:10:58,040

That's just remarkable.

168

00:10:58,040 --> 00:11:03,400

Let's line it up on one side first.

169

00:11:03,400 --> 00:11:07,920

With all the sightings that we've had in the sky and with everything that's going on here

170

00:11:07,920 --> 00:11:12,640

at the ranch, it's going to be great to have another observation point further away that

171

00:11:12,640 --> 00:11:16,800

can give us a different perspective and give us another set of eyes on what's going on

172

00:11:16,800 --> 00:11:17,800

here at the ranch.

173

00:11:17,800 --> 00:11:19,720

It looks pretty close.

174

00:11:19,720 --> 00:11:23,280

We need a camera on each corner looking in every direction.

175

00:11:23,280 --> 00:11:26,640

Well, I mean, you guys can see the view.

176

00:11:26,640 --> 00:11:29,200

This is the place for observation here.

177

00:11:29,200 --> 00:11:33,160

This tower is not only going to be great for our laser experiment, but since we're about

178

00:11:33,160 --> 00:11:36,920

to bring a new herd of cattle onto the ranch for the summer, it'll also help us keep a

179

00:11:36,920 --> 00:11:38,920

better eye on them and make sure they're safe.

180

00:11:38,920 --> 00:11:40,520

Well, let's keep slinging hammering.

181

00:11:40,520 --> 00:11:41,520

Okay.

182

00:11:41,520 --> 00:11:42,520

Sounds good.

183

00:11:42,520 --> 00:11:43,520

We're almost there.

184

00:11:43,520 --> 00:11:48,800

We've come up with this cattle tracking system that we're going to use.

185

00:11:48,800 --> 00:11:51,320

That might shed some light on what happened last year.

186

00:11:51,320 --> 00:11:53,040

We're meeting with Chris Horat.

187

00:11:53,040 --> 00:11:55,240

Chris has some stories he wants to share.

188

00:11:55,240 --> 00:12:02,240

I wouldn't appreciate you repeating what I'm about to tell you.

189

00:12:02,240 --> 00:12:05,240

Hey, guys.

190

00:12:05,240 --> 00:12:08,240

Hey, Tom.

191

00:12:08,240 --> 00:12:10,240

Hey, Winnerton.

192

00:12:10,240 --> 00:12:12,240

You got the trackers?

193

00:12:12,240 --> 00:12:13,240

Yes, we do.

194

00:12:13,240 --> 00:12:15,240

You got the trackers.

195

00:12:15,240 --> 00:12:17,240

Good deal.

196

00:12:17,240 --> 00:12:23,000

Well, we've got the cows coming in here, as you know.

197

00:12:23,000 --> 00:12:26,640

While the rest of the team were doing final preparations for the laser experiment at the

198

00:12:26,640 --> 00:12:31,440

observation tower, Tom is Winnerton arranged to have a new herd of cattle brought onto

199

00:12:31,440 --> 00:12:32,440

the ranch for the summer.

200

00:12:32,440 --> 00:12:33,440

How you doing?

201

00:12:33,440 --> 00:12:34,440

Good.

202

00:12:34,440 --> 00:12:35,440

How are you?

203

00:12:35,440 --> 00:12:36,440

Good.

204

00:12:36,440 --> 00:12:37,440

Good.

205

00:12:37,440 --> 00:12:38,440

Appreciate you bringing them out.

206

00:12:38,440 --> 00:12:39,960

Well, thanks for letting us come.

207

00:12:39,960 --> 00:12:44,000

We're bringing cows onto this ranch to maintain and take care of the land and keep it grazed

208

00:12:44,000 --> 00:12:45,920

so that it stays healthy.

209

00:12:45,920 --> 00:12:51,360

Keeps it from becoming a fire hazard.

210

00:12:51,360 --> 00:12:56,800

Still, the second thing is, is each cow we put on the place becomes a biosensor.

211

00:12:56,800 --> 00:13:01,560

Animals seem to have that sixth sense.

212

00:13:01,560 --> 00:13:06,200

We want to make sure that all the animals here are taken care of and protected because

213

00:13:06,200 --> 00:13:12,880

of the strangeness of this place and based on what happened last year.

214

00:13:12,880 --> 00:13:15,240

What in the world?

215

00:13:15,240 --> 00:13:16,520

There's no cat tracks.

216

00:13:16,520 --> 00:13:18,000

There's no sign of struggle.

217

00:13:18,000 --> 00:13:19,000

Middle of the day.

218

00:13:19,000 --> 00:13:20,000

It's just dead.

219

00:13:20,000 --> 00:13:23,320

I saw her this morning, but she was alive.

220

00:13:23,320 --> 00:13:24,320

I don't know.

221

00:13:24,320 --> 00:13:25,320

That's weird.

222

00:13:25,320 --> 00:13:28,440

Appreciate you bringing them out.

223

00:13:28,440 --> 00:13:30,120

And I was going to introduce you to Tom and Candace.

224

00:13:30,120 --> 00:13:32,000

They're the caretakers that live here.

225

00:13:32,000 --> 00:13:34,720

They're going to monitor the cows, make sure that they're all healthy.

226

00:13:34,720 --> 00:13:35,720

How are you?

227

00:13:35,720 --> 00:13:36,720

Not bad.

228

00:13:36,720 --> 00:13:37,720

Thanks.

229

00:13:37,720 --> 00:13:38,720

Nice to meet you.

230

00:13:38,720 --> 00:13:39,720

Good to meet you.

231

00:13:39,720 --> 00:13:40,720

You're a glinting lamb.

232

00:13:40,720 --> 00:13:41,720

Nice to meet you, climbing.

233

00:13:41,720 --> 00:13:42,720

They'll report to us, you know, if anything strange has happened.

234

00:13:42,720 --> 00:13:43,720

That sounds good.

235

00:13:43,720 --> 00:13:44,720

Yeah, thanks so much.

236

00:13:44,720 --> 00:13:45,720

Yeah, thank you so much.

237

00:13:45,720 --> 00:13:46,720

Nice to meet you guys.

238

00:13:46,720 --> 00:13:47,720

Thank you.

239

00:13:47,720 --> 00:13:48,720

Yeah, it was a pleasure.

240

00:13:48,720 --> 00:13:49,720

Yeah, you guys.

241

00:13:49,720 --> 00:13:50,920

So tag in time.

242

00:13:50,920 --> 00:13:51,920

Yeah.

243

00:13:51,920 --> 00:13:55,560

So guys, we're going to run them through this green squeeze shoot right here.

244

00:13:55,560 --> 00:13:56,880

I'll tag them right here.

245

00:13:56,880 --> 00:13:57,880

Excellent.

246

00:13:57,880 --> 00:13:59,960

And so if three of you can just keep the shoot loaded.

247

00:13:59,960 --> 00:14:00,960

Okay.

248

00:14:00,960 --> 00:14:03,080

And keep pushing them up, it should go really quick.

249

00:14:03,080 --> 00:14:04,080

Okay.

250

00:14:04,080 --> 00:14:05,080

Sounds good.

251

00:14:05,080 --> 00:14:06,080

Let's do it.

252

00:14:06,080 --> 00:14:07,080

Come on.

253

00:14:07,080 --> 00:14:09,080

Come on, come on, cows.

254

00:14:09,080 --> 00:14:10,080

Come around.

255

00:14:10,080 --> 00:14:15,080

Candace and I have been working with Eric Bard, and we've come up with this cattle tracking

256

00:14:15,080 --> 00:14:17,600

system that we're going to use.

257

00:14:17,600 --> 00:14:22,240

So we know exactly where the cows are, and hopefully that might shut some light on anything

258

00:14:22,240 --> 00:14:25,520

that happens this year.

259

00:14:25,520 --> 00:14:26,520

Last summer.

260

00:14:26,520 --> 00:14:31,080

Three, two, one, ignition.

261

00:14:31,080 --> 00:14:34,800

As we were launching small rockets high above the ranch that were equipped with energy

262

00:14:34,800 --> 00:14:38,680

sensors, suddenly all the cattle started acting really strange.

263

00:14:38,680 --> 00:14:40,280

Look at the cows.

264

00:14:40,280 --> 00:14:41,880

Never seen that before.

265

00:14:41,880 --> 00:14:42,880

Look, look, look, look.

266

00:14:42,880 --> 00:14:43,880

What is that?

267

00:14:43,880 --> 00:14:47,560

Then out of nowhere, we all witness something that we still can't explain.

268

00:14:47,560 --> 00:14:48,560

It's a plane.

269

00:14:48,560 --> 00:14:52,680

It's a plane, I think.

270

00:14:52,680 --> 00:14:53,680

It's gone.

271

00:14:53,680 --> 00:14:55,440

No, that wasn't a plane.

272

00:14:55,440 --> 00:15:00,720

We'd still seen if it was a plane.

273

00:15:00,720 --> 00:15:05,320

Hopefully by tracking the cows' movements, we can correlate that and compare it to when

274

00:15:05,320 --> 00:15:11,240

we're having events take place on the ranch.

275

00:15:11,240 --> 00:15:15,360

When something happens at Homestead 2 where the cows close by, how soon before an event

276

00:15:15,360 --> 00:15:17,320

did the cows leave the area?

277

00:15:17,320 --> 00:15:20,520

What kind of warning is their biosensors giving them?

278

00:15:20,520 --> 00:15:23,480

Well, that's the whole herd.

279

00:15:23,480 --> 00:15:25,840

Nice work, Wranerton.

280

00:15:25,840 --> 00:15:26,840

You too.

281

00:15:26,840 --> 00:15:27,840

Well done.

282

00:15:27,840 --> 00:15:28,840

Here they are.

283

00:15:28,840 --> 00:15:29,840

Hey, guys.

284

00:15:29,840 --> 00:15:30,840

Hey, how you doing?

285

00:15:30,840 --> 00:15:31,840

Welcome to the ranch.

286

00:15:31,840 --> 00:15:32,840

Chris.

287

00:15:32,840 --> 00:15:33,840

Thomas.

288

00:15:33,840 --> 00:15:34,840

Nice to meet you.

289

00:15:34,840 --> 00:15:47,280

Eric Bard and I contacted Chris Novielli and Tim Anderson of New Salt Laser.

290

00:15:47,280 --> 00:15:50,800

To help us investigate if all the strange phenomena that's occurred over the years on

291

00:15:50,800 --> 00:15:55,800

Skinwalker Ranch really could be due to a possible interdimensional portal like Colonel

292

00:15:55,800 --> 00:15:58,120

John Alexander from the former NIDS team believes.

293

00:15:58,120 --> 00:16:01,240

Have you ever tried to open up a portal?

294

00:16:01,240 --> 00:16:04,120

This is kind of a first one for us here.

295

00:16:04,120 --> 00:16:08,160

I'm really interested if you shine the laser through it or close enough to it, we might

296

00:16:08,160 --> 00:16:11,200

see a change in the direction of the beam.

297

00:16:11,200 --> 00:16:12,200

Well daylight's burning.

298

00:16:12,200 --> 00:16:15,560

I know we kind of wanted to get set up before it's completely dark.

299

00:16:15,560 --> 00:16:18,560

I'll go grab our Jeep, bring it over and we'll transfer the gear.

300

00:16:18,560 --> 00:16:21,320

Sounds good.

301

00:16:21,320 --> 00:16:24,720

These guys have really brought out a massive array of lasers.

302

00:16:24,720 --> 00:16:30,200

We want to put them out by this observation tower and as soon as the sun goes down, we

303

00:16:30,200 --> 00:16:33,280

can start this and see if we can stir some activity.

304

00:16:33,280 --> 00:16:35,360

I got this one.

305

00:16:35,360 --> 00:16:40,200

What we're going to do tonight is deploy high powered laser beams aimed over the mesa and

306

00:16:40,200 --> 00:16:45,080

the surrounding areas to see if the light bends, changes colors or disappears in any

307

00:16:45,080 --> 00:16:46,080

way.

308

00:16:46,080 --> 00:16:49,480

If any of those things happen, it could be evidence of a break in the environmental

309

00:16:49,480 --> 00:16:54,880

plane or like Einstein theorized, could be possible evidence of an actual portal to another

310

00:16:54,880 --> 00:17:02,680

dimension.

311

00:17:02,680 --> 00:17:03,680

We ready guys?

312

00:17:03,680 --> 00:17:04,680

Y'all got everything set?

313

00:17:04,680 --> 00:17:09,400

Well we're going to turn the lasers on guys, start scanning the mesa.

314

00:17:09,400 --> 00:17:13,880

Our new observation tower is the ideal spot for our first experiment focusing on the

315

00:17:13,880 --> 00:17:14,880

mesa.

316

00:17:14,880 --> 00:17:18,400

You can put the laser spot right there then I'll look right at the spot.

317

00:17:18,400 --> 00:17:19,400

There it is.

318

00:17:19,400 --> 00:17:20,600

There's two.

319

00:17:20,600 --> 00:17:24,640

Last summer while investigating a documented phenomenon where the top of the mesa actually

320

00:17:24,640 --> 00:17:30,000

glows at night, we focused a single laser beam at it and strangely the point where the

321

00:17:30,000 --> 00:17:33,720

beam landed was split into two by something.

322

00:17:33,720 --> 00:17:36,120

How is it doing now?

323

00:17:36,120 --> 00:17:37,320

That is so weird.

324

00:17:37,320 --> 00:17:42,440

For this experiment we're going to use better cameras, more instruments and sophisticated

325

00:17:42,440 --> 00:17:48,400

scanning laser systems to see if the beams actually split again or bend or disappear.

326

00:17:48,400 --> 00:17:53,360

I don't think the properties of the mesa's natural features could actually cause or explain

327

00:17:53,360 --> 00:17:54,360

something like that.

328

00:17:54,360 --> 00:17:57,520

It would have to be something completely different.

329

00:17:57,520 --> 00:18:03,080

So what's going to happen is their big space laser cannon is going to come up with a ginormous

330

00:18:03,080 --> 00:18:04,520

bunch of beams going straight up.

331

00:18:04,520 --> 00:18:08,440

That's going to be huge and then we'll start scanning the mesa.

332

00:18:08,440 --> 00:18:13,800

We got about almost 600 watts of laser power that we're about to start pumping into the

333

00:18:13,800 --> 00:18:14,800

sky here.

334

00:18:14,800 --> 00:18:15,800

Well let's see it.

335

00:18:15,800 --> 00:18:16,800

Let's go.

336

00:18:16,800 --> 00:18:30,680

Alright in five, four, three, two, one, boom.

337

00:18:30,680 --> 00:18:35,520

That would be really amazing to prove the existence of a portal or possibly one of Einstein's

338

00:18:35,520 --> 00:18:38,880

wormholes with this laser experiment tonight.

339

00:18:38,880 --> 00:18:43,400

But if that does happen, I'm a little nervous about what else we might prove along with

340

00:18:43,400 --> 00:18:47,080

it about what's happening here on Skinwalker Ranch.

341

00:18:47,080 --> 00:18:50,480

Hey, you see that?

342

00:18:50,480 --> 00:18:55,120

The cattle mutilation phenomenon has been going on for over a hundred years.

343

00:18:55,120 --> 00:18:57,840

All female organs were removed.

344

00:18:57,840 --> 00:18:59,600

The skull was removed.

345

00:18:59,600 --> 00:19:02,160

The eyeballs were still there because the skull was gone.

346

00:19:02,160 --> 00:19:05,160

I can't explain it.

347

00:19:05,160 --> 00:19:11,520

Hey, you see that?

348

00:19:11,520 --> 00:19:15,400

I gotta tell you, this is amazing the view you can see from up here.

349

00:19:15,400 --> 00:19:18,640

If there's something that happens over the mesa, we'd see it.

350

00:19:18,640 --> 00:19:19,640

That is unreal.

351

00:19:19,640 --> 00:19:23,640

You know, if light's going to trigger something, you'd think it'd be that.

352

00:19:23,640 --> 00:19:25,640

It's quite a show.

353

00:19:25,640 --> 00:19:26,640

Oh, wow.

354

00:19:26,680 --> 00:19:29,800

You can see the mesa glow in that camera.

355

00:19:29,800 --> 00:19:32,480

Now that looks spooky.

356

00:19:32,480 --> 00:19:38,680

You know, Eric, what you're recording there is telling us a lot about the different color

357

00:19:38,680 --> 00:19:41,640

reflectivity of the mesa.

358

00:19:41,640 --> 00:19:45,520

It's strange how Eric's camera is showing that bizarre glowing effect on top of the

359

00:19:45,520 --> 00:19:48,040

ridge like we've seen in the past.

360

00:19:48,040 --> 00:19:50,640

I'm just not sure yet what could be causing it.

361

00:19:50,640 --> 00:19:54,520

We can go back and look at this video in Analyze so we can see even where they're going.

362

00:19:54,760 --> 00:19:57,800

And it may give us some insight on why the mesa glows sometimes.

363

00:19:57,800 --> 00:20:01,480

Yeah, you know, what I'd like to look for when we go back and play through this frame

364

00:20:01,480 --> 00:20:04,760

by frame is whether we can detect any of that double reflection.

365

00:20:04,760 --> 00:20:05,760

Yep.

366

00:20:05,760 --> 00:20:07,760

You know, that splitting that we saw last year.

367

00:20:07,760 --> 00:20:08,760

Right.

368

00:20:08,760 --> 00:20:14,760

Hey guys, is it possible for you to kill all but one beam so we can just focus on one?

369

00:20:14,760 --> 00:20:16,760

There it is.

370

00:20:16,760 --> 00:20:17,760

There you go.

371

00:20:17,760 --> 00:20:18,760

Hey guys.

372

00:20:18,760 --> 00:20:24,400

So what I want you to do is slowly bring it down to almost treetop height and then

373

00:20:24,400 --> 00:20:28,320

go up to the top of the height that you're cleared for right there.

374

00:20:28,320 --> 00:20:29,320

All right, that's perfect.

375

00:20:29,320 --> 00:20:30,600

That's as low as you need to go.

376

00:20:30,600 --> 00:20:34,280

Now slowly bring it up.

377

00:20:34,280 --> 00:20:35,760

No off-axis scattering here.

378

00:20:35,760 --> 00:20:38,560

Yeah, I'm not seeing anything like we saw that one time.

379

00:20:38,560 --> 00:20:44,600

Let's bring the laser back down onto the mesa and move it to the east until I say stop.

380

00:20:44,600 --> 00:20:45,600

So that's your right.

381

00:20:45,600 --> 00:20:47,200

Keep going, keep going.

382

00:20:47,200 --> 00:20:48,200

Right there.

383

00:20:48,200 --> 00:20:50,200

Now slowly bring it up.

384

00:20:50,200 --> 00:20:51,200

Right there.

385

00:20:51,200 --> 00:20:52,200

Right there.

386

00:20:52,200 --> 00:20:53,200

Stop.

387

00:20:53,200 --> 00:21:01,200

You know, I think I'm seeing some scatter around it hitting other rocks and stuff.

388

00:21:01,200 --> 00:21:03,040

Perfect.

389

00:21:03,040 --> 00:21:04,760

I think we do have all the footage.

390

00:21:04,760 --> 00:21:06,080

I think we have the data we need.

391

00:21:06,080 --> 00:21:08,200

Yeah, yeah, yeah.

392

00:21:08,200 --> 00:21:14,460

We've illuminated the entire ranch with optical beams and we do realize the mesa is highly

393

00:21:14,460 --> 00:21:18,080

reflective in the visible light range.

394

00:21:18,080 --> 00:21:22,440

But we haven't seen what I would consider evidence of anything strange beyond that.

395

00:21:22,440 --> 00:21:25,960

That's not always an automatic reaction when we do stuff, you know.

396

00:21:25,960 --> 00:21:30,440

So just because we don't see something happening right this second, that doesn't mean that

397

00:21:30,440 --> 00:21:33,680

what we're doing tonight couldn't trigger something going forward.

398

00:21:33,680 --> 00:21:35,320

Yeah, I agree with that.

399

00:21:35,320 --> 00:21:36,320

Certainly likely.

400

00:21:36,320 --> 00:21:41,000

It was getting really late and since nothing for certain happened out at the mesa, we decided

401

00:21:41,000 --> 00:21:45,200

in this phase of the experiment and have the guys plan to come back tomorrow night to run

402

00:21:45,200 --> 00:21:47,560

some laser scans at Homestead 2.

403

00:21:47,560 --> 00:21:51,920

Now I was really anxious to see what would happen there, given all we've heard and

404

00:21:51,920 --> 00:21:53,800

experienced ourselves.

405

00:21:53,800 --> 00:21:58,840

So I think we can pack everything up and head back to the command center.

406

00:21:58,840 --> 00:22:00,340

I think it was a very successful experiment.

407

00:22:00,340 --> 00:22:01,840

I really appreciate your help, guys.

408

00:22:01,840 --> 00:22:02,840

Yeah, thank you.

409

00:22:02,840 --> 00:22:05,840

Thanks for having us.

410

00:22:05,840 --> 00:22:18,960

Brian Skinner is coming out today.

411

00:22:18,960 --> 00:22:21,160

He's a ranch researcher.

412

00:22:21,160 --> 00:22:26,160

He's bringing with him a next deputy sheriff from the area named Chris Horrett.

413

00:22:26,160 --> 00:22:27,160

Hey, Ryan.

414

00:22:27,160 --> 00:22:28,160

Hi, guys.

415

00:22:28,160 --> 00:22:29,160

Hello.

416

00:22:29,160 --> 00:22:30,160

Chris.

417

00:22:30,160 --> 00:22:31,160

Can't decide.

418

00:22:31,160 --> 00:22:32,160

Nice to meet you.

419

00:22:32,160 --> 00:22:33,160

Tom Lewis.

420

00:22:33,160 --> 00:22:34,160

Nice to meet you.

421

00:22:34,160 --> 00:22:35,160

Long over.

422

00:22:35,160 --> 00:22:41,960

Chris has some stories he wants to share and he evidently was the officer who reported

423

00:22:41,960 --> 00:22:44,200

one of the cattle mutilations.

424

00:22:44,200 --> 00:22:50,040

So that's pretty compelling considering he's around to talk about it and wants to.

425

00:22:50,040 --> 00:22:52,160

How did you become familiar with the ranch?

426

00:22:52,160 --> 00:22:58,720

I actually met Mr. Myers when I was working for the county and he had a fascination for

427

00:22:58,720 --> 00:23:01,640

horses the same as me.

428

00:23:01,640 --> 00:23:07,920

And so I'd come down and ride with him and from that time on we became really good friends.

429

00:23:07,920 --> 00:23:11,520

Myers family acquired the property in the early 1900s.

430

00:23:11,520 --> 00:23:17,120

They along with the old original Homesteaders really started settling the general area that

431

00:23:17,120 --> 00:23:21,400

has now become Skinwalker Ranch.

432

00:23:21,400 --> 00:23:27,320

Kenneth and Edith Myers ended up living their entire lives on the property and experienced

433

00:23:27,320 --> 00:23:31,000

unusual events on the property.

434

00:23:31,000 --> 00:23:37,680

We've heard stories about there being a lot of locks, some weird chains.

435

00:23:37,680 --> 00:23:38,680

Did you see any of that?

436

00:23:38,680 --> 00:23:41,640

He had everything chained out.

437

00:23:41,640 --> 00:23:42,640

The fridge was locked.

438

00:23:42,640 --> 00:23:43,640

The cupboard was locked.

439

00:23:43,640 --> 00:23:44,640

Yeah?

440

00:23:44,640 --> 00:23:45,640

Even his car.

441

00:23:45,640 --> 00:23:47,240

Why do you think that was?

442

00:23:47,240 --> 00:23:52,440

When I asked him about all the locks he said, Chris, I wouldn't appreciate you repeating

443

00:23:52,440 --> 00:23:56,160

what I'm about to tell you.

444

00:23:56,160 --> 00:24:01,120

And I said, well, your secret's my secret.

445

00:24:01,120 --> 00:24:05,440

And he says, I get visitors.

446

00:24:05,440 --> 00:24:07,800

He says alien activity.

447

00:24:07,800 --> 00:24:11,560

Wow.

448

00:24:11,560 --> 00:24:15,640

And he says, things come up missing.

449

00:24:15,640 --> 00:24:18,720

Things come up dead.

450

00:24:18,720 --> 00:24:22,000

Kenneth had actually seen the aliens or knew what they looked like.

451

00:24:22,000 --> 00:24:25,800

He could feel they were present.

452

00:24:25,800 --> 00:24:33,720

And he says, I don't know exactly why they picked my ranch to pick on me.

453

00:24:33,720 --> 00:24:37,760

Did he talk about any visitations that happened in the house?

454

00:24:37,760 --> 00:24:38,760

Yeah.

455

00:24:38,760 --> 00:24:41,520

The screens on the window being taken out.

456

00:24:41,520 --> 00:24:42,520

Really?

457

00:24:42,520 --> 00:24:51,880

And he'd tell me that at night time he heard something strange while they were sleeping.

458

00:24:51,880 --> 00:24:56,880

Candice and I have experienced crazy things that happen on this property, especially

459

00:24:56,880 --> 00:24:58,960

in this ranch house.

460

00:24:58,960 --> 00:25:04,200

Oftentimes we do feel like we're being watched.

461

00:25:04,200 --> 00:25:05,200

Keep going.

462

00:25:05,200 --> 00:25:06,200

You're right on top of it.

463

00:25:06,200 --> 00:25:11,360

This year after Tom Lewis and Candice Lindy began hearing strange sounds and voices coming

464

00:25:11,360 --> 00:25:16,320

from below their house, we investigated a strange concrete room in the basement that

465

00:25:16,320 --> 00:25:18,360

was totally closed up.

466

00:25:18,360 --> 00:25:22,000

We drilled a hole through the wall and we ran a camera inside.

467

00:25:22,000 --> 00:25:23,880

What we found was really disturbing.

468

00:25:23,880 --> 00:25:25,360

The stop right there.

469

00:25:25,360 --> 00:25:27,360

You see that?

470

00:25:27,360 --> 00:25:28,360

Mm-hmm.

471

00:25:28,360 --> 00:25:30,000

It looks a lot like bones.

472

00:25:30,000 --> 00:25:34,240

What in the world?

473

00:25:34,240 --> 00:25:37,680

What happened right here is one of the biggest tricks you've ever seen in life.

474

00:25:37,680 --> 00:25:38,680

Yeah, what happened?

475

00:25:38,680 --> 00:25:41,200

Ken couldn't find three halfers.

476

00:25:41,200 --> 00:25:45,000

I got here just at sunrise with my horse.

477

00:25:45,000 --> 00:25:49,840

We rode all day long and I said, Ken, I don't know what to tell you about your halfers.

478

00:25:49,840 --> 00:25:52,720

We can't find fresh tracks, you know?

479

00:25:52,720 --> 00:26:00,680

And he had a shed right here and Ken couldn't get the door open.

480

00:26:00,680 --> 00:26:03,560

So we started pushing on and pushing on and pushing on.

481

00:26:03,560 --> 00:26:10,680

I pushed it open as far as I could to the inside and I looked in there and I said, Ken,

482

00:26:10,680 --> 00:26:13,200

you ain't going to believe this.

483

00:26:13,200 --> 00:26:15,000

Your halfers are in this shed.

484

00:26:15,000 --> 00:26:18,120

And he goes, no, wait, how are you going to fit?

485

00:26:18,120 --> 00:26:20,640

Three cows in there.

486

00:26:20,640 --> 00:26:24,400

The halfers stuffed in there is what you're saying, locked in there.

487

00:26:24,400 --> 00:26:27,360

They were stacked when I talked to each other like this.

488

00:26:27,360 --> 00:26:29,360

Oh my God.

489

00:26:29,360 --> 00:26:33,520

And he said they were dead.

490

00:26:34,480 --> 00:26:37,400

And I said, the snows still running out.

491

00:26:37,400 --> 00:26:39,960

Their nose, they're still alive.

492

00:26:39,960 --> 00:26:46,400

And I said, go get a glass of water and dump that right on top of that halfers head.

493

00:26:46,400 --> 00:26:51,520

He did and that damn thing come to life.

494

00:26:51,520 --> 00:26:54,680

Like, they've been drugged.

495

00:26:54,680 --> 00:26:55,880

Drugged.

496

00:26:55,880 --> 00:26:57,480

And you actually saw this.

497

00:26:57,480 --> 00:26:58,480

I seen it.

498

00:26:58,480 --> 00:27:01,160

Yeah, that is an incredible story.

499

00:27:01,280 --> 00:27:07,120

Chris, we'd like to hear more about the cattle and introduce you to some more of the team.

500

00:27:07,120 --> 00:27:09,120

Yeah, that'd be fine.

501

00:27:09,120 --> 00:27:10,120

All right.

502

00:27:10,120 --> 00:27:11,120

Let's go.

503

00:27:11,120 --> 00:27:14,600

So run that tube pattern.

504

00:27:14,600 --> 00:27:17,080

Travis, did you feel that temperature drop?

505

00:27:17,080 --> 00:27:18,080

That's real cool.

506

00:27:18,080 --> 00:27:19,080

I felt it.

507

00:27:19,080 --> 00:27:23,520

Thomas has spotted a right down in the Russian hours off to the west.

508

00:27:23,520 --> 00:27:24,520

We're right here.

509

00:27:32,160 --> 00:27:35,160

Right over there by that tree.

510

00:27:35,160 --> 00:27:36,160

Yep.

511

00:27:36,160 --> 00:27:41,000

In addition to the bizarre events that Chris claims he witnessed at Homestead One, he

512

00:27:41,000 --> 00:27:45,000

also reported an actual cattle mutilation near the command center.

513

00:27:45,000 --> 00:27:48,040

And it was right near where the cow died last year.

514

00:27:48,040 --> 00:27:50,960

So what time of year was it when this event took place?

515

00:27:50,960 --> 00:27:53,760

I'm just saying mid-summer.

516

00:27:53,760 --> 00:27:55,040

I've seen images.

517

00:27:55,040 --> 00:27:57,280

I've read reports of cattle mutilations.

518

00:27:57,280 --> 00:28:02,320

It'll be nice to hear from someone who has actually seen those animals and exactly what

519

00:28:02,320 --> 00:28:08,080

happened to them and get some kind of insight as to what pattern might exist there.

520

00:28:08,080 --> 00:28:13,080

So this is the spot.

521

00:28:13,080 --> 00:28:14,080

Yeah.

522

00:28:14,080 --> 00:28:19,520

This used to be a irrigation ditch right here.

523

00:28:19,520 --> 00:28:23,280

And right in here is where there's two black-angels cows.

524

00:28:23,280 --> 00:28:26,280

What did they look like on the ground here?

525

00:28:26,280 --> 00:28:36,680

The head was facing toward the ditch and the legs were out this way.

526

00:28:36,680 --> 00:28:42,800

All the female organs were removed out of both cows.

527

00:28:42,800 --> 00:28:49,280

And back then the tail and the uterus and everything of the cows were right in here.

528

00:28:49,280 --> 00:28:53,440

The skull, the neck bone, everything was removed.

529

00:28:53,440 --> 00:28:55,280

I can't explain it.

530

00:28:55,280 --> 00:29:00,000

Absolutely no blood, no burn marks, no operation.

531

00:29:00,000 --> 00:29:05,600

Did you have the impression that those cows were in the location where they were butchered

532

00:29:05,600 --> 00:29:06,600

like that?

533

00:29:06,600 --> 00:29:07,600

Yeah.

534

00:29:07,600 --> 00:29:15,000

And there was matted grass where something heavy had set in these weeds and made an impression

535

00:29:15,000 --> 00:29:16,720

in the dirt.

536

00:29:16,720 --> 00:29:17,720

In this same area?

537

00:29:17,720 --> 00:29:22,520

Well, right over here, actually.

538

00:29:22,520 --> 00:29:25,640

And that was that kind of kitty corner this way.

539

00:29:25,640 --> 00:29:31,200

When I wrote the report, I put 23 feet tip to tip.

540

00:29:31,200 --> 00:29:33,200

That could be give or take a little.

541

00:29:33,200 --> 00:29:41,920

I presumed that it was spaceship.

542

00:29:41,920 --> 00:29:45,600

I've said it, didn't I?

543

00:29:45,600 --> 00:29:47,600

Was it square shaped or was it?

544

00:29:47,600 --> 00:29:48,600

Cigar shaped.

545

00:29:48,600 --> 00:29:50,600

Kind of like the tic-tac.

546

00:29:51,120 --> 00:30:00,360

Last year, the Pentagon declassified a video taken by two Navy pilots in 2004.

547

00:30:00,360 --> 00:30:04,520

This video has become known as the tic-tac video.

548

00:30:04,520 --> 00:30:09,400

It shows some kind of flying craft maneuvering with a propulsion system much more advanced

549

00:30:09,400 --> 00:30:12,840

than any human technology we know of.

550

00:30:12,840 --> 00:30:17,240

At about the same time, it came to light that the federal government had been funding the

551

00:30:17,240 --> 00:30:22,560

Advanced Airspace Threat Identification Program, or ATIP.

552

00:30:22,560 --> 00:30:28,360

It's literally a program designed to study unknown aerial phenomena like UFOs.

553

00:30:28,360 --> 00:30:33,480

So it's pretty fascinating to me that a former sheriff in the area is reporting what he believed

554

00:30:33,480 --> 00:30:39,200

to be evidence of a UFO craft on Skinwalker Ranch that is eerily similar to what our

555

00:30:39,200 --> 00:30:41,600

own government has documented elsewhere.

556

00:30:41,600 --> 00:30:44,920

It's a strong statement.

557

00:30:44,920 --> 00:30:46,800

You guys put two and two together.

558

00:30:46,840 --> 00:30:51,120

I'm just telling you what I know and what happened to me.

559

00:30:51,120 --> 00:30:55,720

And I'm not the only person that's experienced this kind of stuff around here.

560

00:30:55,720 --> 00:31:00,720

So there had to be something, something that we have no idea.

561

00:31:00,720 --> 00:31:05,520

So where did it come from?

562

00:31:05,520 --> 00:31:07,120

I would be asking the same question.

563

00:31:07,120 --> 00:31:08,120

You got it.

564

00:31:10,120 --> 00:31:12,240

Chris, this is amazing.

565

00:31:12,240 --> 00:31:13,240

Thank you so much.

566

00:31:16,800 --> 00:31:27,040

We're here.

567

00:31:27,040 --> 00:31:30,920

Once the sun had gone down, it was time for Tim and Chris from New Salt Laser to come back.

568

00:31:30,920 --> 00:31:33,680

And we're going to run more experiments down at Homestead 2.

569

00:31:33,680 --> 00:31:39,200

Guys, I think this spot over here is kind of the best place to set up.

570

00:31:39,200 --> 00:31:43,480

Since numerous credible witnesses like Colonel John Alexander have claimed that they saw

571

00:31:43,480 --> 00:31:48,480

actual portals and other mysterious phenomena here, we're eager to see what happens when

572

00:31:48,480 --> 00:31:51,680

we poke this nest with high-powered lasers.

573

00:31:51,680 --> 00:31:57,400

What I want to do is kind of raster scan back and forth right here up and down to the treetops

574

00:31:57,400 --> 00:31:58,400

and then back down.

575

00:31:58,400 --> 00:32:01,800

And then at some point I want to get hit right in there where the doors and windows are and

576

00:32:01,800 --> 00:32:04,360

just kind of bounce back and forth with it that way.

577

00:32:04,360 --> 00:32:05,360

That make sense?

578

00:32:05,360 --> 00:32:06,360

Perfect.

579

00:32:06,360 --> 00:32:07,360

All right, guys.

580

00:32:07,360 --> 00:32:08,360

If you don't need anything, yeah, I'm going to help them set up the other stuff.

581

00:32:08,360 --> 00:32:09,360

Sounds good.

582

00:32:09,360 --> 00:32:12,000

I think the laser guys are getting that going.

583

00:32:12,000 --> 00:32:13,000

How's this going, Eric?

584

00:32:13,000 --> 00:32:14,400

Have you ever been in a serrated role on that one ever?

585

00:32:14,400 --> 00:32:15,600

I am.

586

00:32:15,600 --> 00:32:20,800

Some of the scientists who have worked here before had descriptions of balls of light,

587

00:32:20,800 --> 00:32:25,400

in other words, orbs, as well as something that is referred to as a portal.

588

00:32:25,400 --> 00:32:29,120

What would appear to be a window opening up and perhaps allowing something to move in

589

00:32:29,120 --> 00:32:31,360

and out of our space through some other dimension?

590

00:32:31,360 --> 00:32:34,280

All right, what about the night vision?

591

00:32:34,280 --> 00:32:35,280

That's rolling now.

592

00:32:35,280 --> 00:32:36,280

Okay.

593

00:32:36,280 --> 00:32:40,800

While Chris and Tim were deploying the lasers, Eric was documenting everything with a night

594

00:32:40,800 --> 00:32:43,680

vision camera as well as a thermal camera.

595

00:32:43,680 --> 00:32:47,400

He's looking for any anomalies for us to focus on.

596

00:32:47,400 --> 00:32:49,720

We're ready if you guys want to come over and check it out.

597

00:32:49,720 --> 00:32:50,720

Oh, yeah.

598

00:32:50,720 --> 00:32:54,720

Absolutely.

599

00:32:54,720 --> 00:32:57,480

So Chris is going to set the zone.

600

00:32:57,480 --> 00:33:01,520

So I'm going to turn it on right now.

601

00:33:01,520 --> 00:33:02,520

Test pattern right there.

602

00:33:02,520 --> 00:33:03,520

Yes.

603

00:33:03,520 --> 00:33:04,520

Seeing any reflection.

604

00:33:04,520 --> 00:33:09,520

Stop in the middle of the doorway and go up and down.

605

00:33:09,520 --> 00:33:10,520

Oh, wait, right there.

606

00:33:10,520 --> 00:33:11,520

Yeah, yeah, got it.

607

00:33:11,520 --> 00:33:12,520

Now go up and down.

608

00:33:12,520 --> 00:33:15,520

That's right where the phenomena has occurred before.

609

00:33:15,520 --> 00:33:24,520

Please be advised, Thomas has spotted a light down in the Russian hours.

610

00:33:24,520 --> 00:33:27,360

Hey, hey, hey, hey.

611

00:33:27,360 --> 00:33:32,400

That's low power and I'll slowly bring it up.

612

00:33:32,400 --> 00:33:34,880

I'm looking for stuff everywhere.

613

00:33:34,880 --> 00:33:37,760

I'm not seeing anything coming back on anything.

614

00:33:37,760 --> 00:33:41,000

With these laser patterns, we're looking for bends in the light.

615

00:33:41,000 --> 00:33:43,200

Anything that might indicate something strange is happening.

616

00:33:43,200 --> 00:33:48,520

On Skinwalker Ranch, you always have in the back of your mind, what if a portal opened

617

00:33:48,520 --> 00:33:50,280

up and a monster crawled out?

618

00:33:50,280 --> 00:33:54,440

What if voices start booming down from the sky?

619

00:33:54,440 --> 00:33:56,440

Let's do the one beam.

620

00:33:56,440 --> 00:33:57,440

One beam?

621

00:33:57,440 --> 00:33:59,520

Yeah, the one beam right through that doorway and it's just scanned through the door or

622

00:33:59,520 --> 00:34:00,520

something.

623

00:34:00,520 --> 00:34:01,520

Okay.

624

00:34:01,520 --> 00:34:03,040

Stop in the middle of the doorway and go up and down and wait, right there.

625

00:34:03,040 --> 00:34:04,040

Yeah, yeah, yeah, you got it.

626

00:34:04,040 --> 00:34:05,040

You got it.

627

00:34:05,040 --> 00:34:06,040

Now go up and yeah.

628

00:34:06,040 --> 00:34:09,040

Is anybody watching the thermographic thing back there?

629

00:34:09,040 --> 00:34:10,040

Yeah, I got you.

630

00:34:10,040 --> 00:34:12,200

You seeing anything?

631

00:34:12,200 --> 00:34:15,800

It's looking pretty normal right now.

632

00:34:15,800 --> 00:34:16,800

Right there, there's not?

633

00:34:16,800 --> 00:34:17,800

Nope.

634

00:34:17,800 --> 00:34:23,960

That's right where the phenomena has occurred before, so light must not be the trigger.

635

00:34:23,960 --> 00:34:25,360

Or it's not the trigger tonight.

636

00:34:25,360 --> 00:34:26,600

Or it's not trigger tonight.

637

00:34:26,600 --> 00:34:27,600

Yeah.

638

00:34:27,600 --> 00:34:30,440

I think at the end of the day, the trigger is when it decides to open up, it's going

639

00:34:30,440 --> 00:34:31,440

to open up.

640

00:34:31,440 --> 00:34:33,640

I think you might be right.

641

00:34:33,640 --> 00:34:37,160

So I think the thing to do now, we're here.

642

00:34:37,160 --> 00:34:42,640

Let's just go ahead and bring it down and let's take the laser in there and shine across

643

00:34:42,640 --> 00:34:45,800

the field and see if we can hit Homestead 3 with it.

644

00:34:45,800 --> 00:34:47,360

Okay.

645

00:34:47,360 --> 00:34:52,800

I thought that we should deploy the laser from inside the old house at Homestead 2 pointing

646

00:34:52,800 --> 00:34:58,120

west towards Homestead 3 just to see if that might trigger something to happen.

647

00:34:58,120 --> 00:35:03,040

If the wrench really does respond to different stimuli like people believe it does, then

648

00:35:03,160 --> 00:35:04,560

it's worth a shot.

649

00:35:04,560 --> 00:35:09,520

So if you'll take this down, I'll get your cord across the canal, okay, over there.

650

00:35:09,520 --> 00:35:16,360

All right guys, as we walk down into the Homestead area, seriously, if you smell anything funky,

651

00:35:16,360 --> 00:35:19,120

feel anything funky, because this is where funky things happen.

652

00:35:19,120 --> 00:35:20,720

Very good.

653

00:35:20,720 --> 00:35:24,400

Right here.

654

00:35:24,400 --> 00:35:25,900

That's a nice clean shot.

655

00:35:25,900 --> 00:35:32,040

If we get about right here, I think you'll hit the Homestead right there.

656

00:35:33,040 --> 00:35:37,040

Do not turn on yet, because we don't know where everybody is yet.

657

00:35:39,040 --> 00:35:43,280

So I would love to be up high watching this.

658

00:35:43,280 --> 00:35:44,280

You guys okay if I...

659

00:35:44,280 --> 00:35:46,680

As long as you don't get downrange in the laser, you should be fine.

660

00:35:46,680 --> 00:35:48,440

If we stay on the north side of the canal, we'll be...

661

00:35:48,440 --> 00:35:51,320

If you're on the other side of the road, you're absolutely fine.

662

00:35:51,320 --> 00:35:53,320

Whoa, hey.

663

00:35:53,320 --> 00:35:54,840

Something to get you.

664

00:35:54,840 --> 00:35:55,840

Lightning strike?

665

00:35:55,840 --> 00:35:58,960

Yeah, this is the third time this has happened today.

666

00:35:58,960 --> 00:36:00,040

Since we've been out here.

667

00:36:00,040 --> 00:36:02,760

I don't know what's setting this off.

668

00:36:02,760 --> 00:36:04,640

Well there's no lightning, that's for sure.

669

00:36:04,640 --> 00:36:06,880

I've been keeping the lightning detector with me.

670

00:36:06,880 --> 00:36:10,840

I've been using it as a kind of canary to let me know whether there are any electrostatic

671

00:36:10,840 --> 00:36:16,080

discharges taking place in the immediate vicinity of our team.

672

00:36:16,080 --> 00:36:19,560

But it was brand new batteries, and I reset the thing back at the command center, it was

673

00:36:19,560 --> 00:36:20,560

fine.

674

00:36:20,560 --> 00:36:21,560

How about the rod?

675

00:36:21,560 --> 00:36:22,560

Interesting.

676

00:36:22,560 --> 00:36:26,560

I suppose one remote possibility is that maybe some of the equipment here could be doing

677

00:36:26,560 --> 00:36:27,560

it, but I...

678

00:36:27,560 --> 00:36:29,520

Nah, those are diode lasers.

679

00:36:29,520 --> 00:36:32,760

There's no high voltage discharge there.

680

00:36:32,760 --> 00:36:36,720

Hey Caleb, do you copy over there?

681

00:36:36,720 --> 00:36:39,080

10-4, go ahead.

682

00:36:39,080 --> 00:36:44,640

Are you seeing anything strange or different on the thermo image?

683

00:36:44,640 --> 00:36:52,360

From what I'm seeing right now, it looks like you got a heat circle right above you.

684

00:36:52,360 --> 00:36:56,800

I don't know how to explain that.

685

00:36:56,800 --> 00:37:01,000

So if you're going to go across the road, I guess let's go ahead and do it now.

686

00:37:01,000 --> 00:37:02,520

Yeah, take this radio with you too.

687

00:37:02,520 --> 00:37:05,320

Tallest when you're in place, and then we'll turn the laser on.

688

00:37:05,320 --> 00:37:06,320

Okay.

689

00:37:06,320 --> 00:37:10,680

Some kind of energy spike was suddenly being detected by Eric's meter, so who knows what

690

00:37:10,680 --> 00:37:14,560

it was, but it made me think we might be onto something.

691

00:37:14,560 --> 00:37:19,400

So while we stayed near the homestead, Eric and Thomas decided to hike up the mesa to

692

00:37:19,400 --> 00:37:26,040

keep watch above the treeline in case something odd was really happening.

693

00:37:26,040 --> 00:37:30,600

So tell them I'm waving my flashlight at them so they know where we're at.

694

00:37:30,600 --> 00:37:35,720

If you look up on the ridge just to the west, northwest of your position, you should see

695

00:37:35,720 --> 00:37:39,760

Thomas' light on his phone so you know where we are.

696

00:37:39,760 --> 00:37:42,720

Yeah, we're down here in the canopy by the homestead.

697

00:37:42,720 --> 00:37:44,560

I don't think we're going to be able to see y'all.

698

00:37:44,560 --> 00:37:46,680

Just stay away from the beam, right?

699

00:37:46,680 --> 00:37:48,280

We can see them.

700

00:37:48,280 --> 00:37:49,960

We are well off axis.

701

00:37:49,960 --> 00:37:53,440

All right, so I say we put some patterns on it.

702

00:37:57,040 --> 00:37:59,760

Hey, Eric, how does that look?

703

00:37:59,760 --> 00:38:01,560

What are we hitting with that beam?

704

00:38:01,560 --> 00:38:07,960

You're hitting one of the Russian olive trees out in the field far south of the actual homestead.

705

00:38:07,960 --> 00:38:12,720

So run that tube pattern, the vortex pattern thing.

706

00:38:12,720 --> 00:38:15,000

What I'd do is get it about right in there somewhere.

707

00:38:15,000 --> 00:38:16,600

Now bring it.

708

00:38:16,600 --> 00:38:19,680

Hey, Travis, did you feel that temperature drop?

709

00:38:19,680 --> 00:38:22,200

I did, and I...

710

00:38:22,200 --> 00:38:23,200

You smell something?

711

00:38:23,200 --> 00:38:24,200

Funny?

712

00:38:24,200 --> 00:38:25,200

Yeah, I felt it.

713

00:38:25,200 --> 00:38:28,200

Mark, tell me just now, but literally I felt...

714

00:38:28,200 --> 00:38:30,680

I felt it felt like just instantly, right?

715

00:38:30,680 --> 00:38:31,680

Yeah.

716

00:38:31,680 --> 00:38:32,680

I think that's real cold.

717

00:38:32,680 --> 00:38:33,680

Yeah, I feel that.

718

00:38:33,680 --> 00:38:34,680

I feel that.

719

00:38:34,680 --> 00:38:36,400

It wasn't just cooler outside.

720

00:38:36,400 --> 00:38:42,480

It was colder by about 10 degrees in that one isolated spot there at homestead 2.

721

00:38:42,480 --> 00:38:44,120

It's still going on.

722

00:38:44,120 --> 00:38:46,320

Oh, yeah, I can still feel it.

723

00:38:46,320 --> 00:38:50,440

And coupled with the odd smell, it wasn't something I could explain.

724

00:38:50,440 --> 00:38:52,680

Something strange was definitely happening.

725

00:38:52,680 --> 00:38:56,440

Oh, there's a light down on those trees.

726

00:38:56,440 --> 00:38:57,440

Where?

727

00:38:57,440 --> 00:39:02,200

There was a light down in that... in the Russian olives down there.

728

00:39:02,200 --> 00:39:03,200

Okay.

729

00:39:03,200 --> 00:39:04,200

Guys, please be advised.

730

00:39:04,200 --> 00:39:11,800

Thomas has spotted a light down in the Russian olives off to the west at the fence line.

731

00:39:11,800 --> 00:39:15,120

Down in the Russian olives to the west at the fence line.

732

00:39:15,120 --> 00:39:16,120

Back here.

733

00:39:16,120 --> 00:39:18,280

Yes, as if someone turned the flashlight on and off.

734

00:39:18,280 --> 00:39:19,280

But where?

735

00:39:19,280 --> 00:39:20,280

Ask him where.

736

00:39:21,120 --> 00:39:22,120

Right there.

737

00:39:22,120 --> 00:39:23,120

There's some trees over there on the west side.

738

00:39:23,120 --> 00:39:24,120

All right, I know what you're talking about.

739

00:39:24,120 --> 00:39:25,120

I had a good look at it.

740

00:39:25,120 --> 00:39:27,120

I kind of looked in that direction when it happened.

741

00:39:27,120 --> 00:39:28,120

Right here.

742

00:39:28,120 --> 00:39:29,120

Hey, hey, hey, hey.

743

00:39:29,120 --> 00:39:30,120

Right here.

744

00:39:30,120 --> 00:39:43,120

This is where it should be right there is where he's talking.

745

00:39:43,120 --> 00:39:45,120

It's over there on the west side.

746

00:39:45,120 --> 00:39:48,660

Right to the south of the tower.

747

00:39:48,660 --> 00:39:49,660

Right there.

748

00:39:49,660 --> 00:39:52,660

Down in the bottom as if someone's standing below those trees.

749

00:39:52,660 --> 00:39:53,660

Wait, wait.

750

00:39:53,660 --> 00:39:54,660

South of the tower is something there.

751

00:39:54,660 --> 00:39:59,660

I got eyes of something over here, guys.

752

00:39:59,660 --> 00:40:03,660

There it is right there.

753

00:40:03,660 --> 00:40:14,660

Where'd it go?

754

00:40:14,660 --> 00:40:17,660

Ask him if they still see it.

755

00:40:17,660 --> 00:40:19,660

Where are you seeing the light?

756

00:40:19,660 --> 00:40:21,660

I don't see it now.

757

00:40:21,660 --> 00:40:23,660

Let's go south.

758

00:40:23,660 --> 00:40:24,660

I don't know.

759

00:40:24,660 --> 00:40:27,660

At this point, they'd be gone.

760

00:40:27,660 --> 00:40:31,660

Yeah, at this point, I don't think.

761

00:40:31,660 --> 00:40:32,660

Anything, Tom?

762

00:40:32,660 --> 00:40:34,660

Yeah, I think it's gone.

763

00:40:34,660 --> 00:40:36,660

OK, well, we don't see anything now.

764

00:40:36,660 --> 00:40:39,660

So I think we'll head back to the laser guys.

765

00:40:39,660 --> 00:40:40,660

Yeah, I don't see it either.

766

00:40:40,660 --> 00:40:43,660

So I think we're going to head down towards you guys at the homestead.

767

00:40:43,660 --> 00:40:44,660

I think that's a good idea.

768

00:40:44,660 --> 00:40:46,660

I think we've done what we can here,

769

00:40:46,660 --> 00:40:48,660

and it's probably getting late enough.

770

00:40:48,660 --> 00:40:50,660

What was that light that was there?

771

00:40:50,660 --> 00:40:52,660

And why was it happening while we're in there

772

00:40:52,660 --> 00:40:54,660

doing an experiment with these lasers?

773

00:40:54,660 --> 00:40:55,660

Hey, guys.

774

00:40:55,660 --> 00:40:57,660

Well, you got my adrenaline pumping.

775

00:40:57,660 --> 00:40:58,660

Well, for sure there was a light.

776

00:40:58,660 --> 00:41:02,660

I saw, I mean, it looked just like a kind of a yellowish,

777

00:41:02,660 --> 00:41:04,660

amberish, like someone took a flashlight,

778

00:41:04,660 --> 00:41:06,660

turned it on and off real quick.

779

00:41:06,660 --> 00:41:10,660

I think there was something, somebody or something out there.

780

00:41:10,660 --> 00:41:13,660

I wasn't sure if it was eyes or if it was like a flashlight

781

00:41:13,660 --> 00:41:14,660

or a projector or something.

782

00:41:14,660 --> 00:41:18,660

So from my perspective, I mean, obviously with the distance,

783

00:41:18,660 --> 00:41:21,660

it's hard to say, but from where we were standing up

784

00:41:21,660 --> 00:41:22,660

by that telephone pole down in the trees,

785

00:41:22,660 --> 00:41:25,660

I mean, it probably looked like it was about that big around.

786

00:41:25,660 --> 00:41:26,660

Travis saw something.

787

00:41:26,660 --> 00:41:28,660

I saw something.

788

00:41:28,660 --> 00:41:30,660

It is concerning that somebody was down there,

789

00:41:30,660 --> 00:41:33,660

or at least I hope it was somebody.

790

00:41:33,660 --> 00:41:36,660

With all of the instruments that we had recording tonight,

791

00:41:36,660 --> 00:41:38,660

there is a mountain of data to go through.

792

00:41:38,660 --> 00:41:40,660

Should we help these guys get packed up?

793

00:41:40,660 --> 00:41:41,660

Yeah, let's get packed up.

794

00:41:41,660 --> 00:41:42,660

Let's get everything back in the jeep

795

00:41:42,660 --> 00:41:44,660

and then head back to the command center.

796

00:41:44,660 --> 00:41:45,660

Yeah, thank you.

797

00:41:45,660 --> 00:41:46,660

Thanks for having us.

798

00:41:51,660 --> 00:41:54,660

Given the fact that we've heard stories of portals opening

799

00:41:54,660 --> 00:41:58,660

and strange beings opening up near Homestead 2,

800

00:41:58,660 --> 00:42:00,660

I'm starting to wonder could this have been a portal opening up

801

00:42:00,660 --> 00:42:03,660

and something from somewhere else coming to see us

802

00:42:03,660 --> 00:42:05,660

while we're doing this experiment.

803

00:42:05,660 --> 00:42:09,660

The previous scientific team that investigated the property

804

00:42:09,660 --> 00:42:12,660

ended up encountering all sorts of strangeness,

805

00:42:12,660 --> 00:42:16,660

everything from cattle mutilations to UFOs to portals

806

00:42:16,660 --> 00:42:20,660

that would open up above the old homesteads.

807

00:42:20,660 --> 00:42:23,660

A lot of the things that we're observing at Skinwalker Ranch

808

00:42:23,660 --> 00:42:28,660

defy our current understanding of physics.

809

00:42:28,660 --> 00:42:31,660

We don't know yet if we'll find mundane scientific explanations

810

00:42:31,660 --> 00:42:34,660

for all the strange events that keep happening,

811

00:42:34,660 --> 00:42:37,660

or if the truth really is much more disturbing.

812

00:42:37,660 --> 00:42:40,660

All I know for sure is that we need to keep exploring

813

00:42:40,660 --> 00:42:43,660

and experimenting until we find the answer.

814

00:42:47,660 --> 00:42:50,660

We're gonna get a 3D model of Homestead 2.

815

00:42:50,660 --> 00:42:52,660

Got some stuff to show you.

816

00:42:52,660 --> 00:42:53,660

Something odd happened here.

817

00:42:53,660 --> 00:42:55,660

When you walked inside the building,

818

00:42:55,660 --> 00:42:56,660

it didn't take any data.

819

00:42:56,660 --> 00:42:58,660

I do sense a presence here.

820

00:42:58,660 --> 00:43:02,660

The temperature around the homestead began to drop.

821

00:43:02,660 --> 00:43:03,660

Are you guys seeing anything?

822

00:43:03,660 --> 00:43:05,660

We're looking at an eye.

823

00:43:05,660 --> 00:43:08,660

This ground here is the gateway for Skinwalkers.

824

00:43:08,660 --> 00:43:10,660

What I saw doesn't belong here.

825

00:43:10,660 --> 00:43:12,660

I'm a little nervous. Hold on.
