This program is rated PG and may contain mature subject matter.

2

00:00:06,360 --> 00:00:07,800

Viewer discretion is advised.

3

00:00:30,000 --> 00:00:31,000

Right there.

4

00:00:31,000 --> 00:00:32,400

Hey, are you guys seeing anything?

5

00:00:32,400 --> 00:00:34,240

We're looking at an eye.

6

00:00:34,240 --> 00:00:37,600

The temperature around the homestead began to drop.

7

00:00:37,600 --> 00:00:39,720

There is one other feature.

8

00:00:39,720 --> 00:00:41,600

I want you to see this thing.

9

00:00:41,600 --> 00:00:43,680

Oh, whoa.

10

00:00:43,680 --> 00:00:45,920

What is that?

11

00:00:45,920 --> 00:00:49,800

There is a ranch in northern Utah.

12

00:00:49,800 --> 00:00:53,720

It is considered the epicenter of the strangest

13

00:00:53,720 --> 00:00:57,200

and most disturbing phenomena on Earth.

14

00:00:57,200 --> 00:01:01,840

Animal mutilations, bizarre UFO sightings,

15

00:01:01,840 --> 00:01:06,720

and unusual energies that have proven harmful to humans.

16

00:01:06,720 --> 00:01:09,040

For 20 years, the federal government

17

00:01:09,040 --> 00:01:12,920

tried to find answers and failed.

18

00:01:12,920 --> 00:01:17,640

Now, a new team of dedicated scientists, researchers,

19

00:01:17,640 --> 00:01:20,360

and experts has taken over.

20

00:01:20,360 --> 00:01:23,640

They are determined to solve the mystery and reveal.

21

00:01:23,640 --> 00:01:28,240

The secret of Skinwalker Ranch.

22

00:01:36,240 --> 00:01:37,560

Right there.

23

00:01:37,560 --> 00:01:38,800

What is that?

24

00:01:38,800 --> 00:01:44,040

We have some moving, unidentified sort of object

25

00:01:44,040 --> 00:01:47,560

that appears to be animate.

26

00:01:47,560 --> 00:01:49,840

Why is it cope?

27

00:01:49,840 --> 00:01:51,760

Yeah, if it were an animal, it would

28

00:01:51,880 --> 00:01:52,880

be hot.

29

00:01:52,880 --> 00:01:55,000

As we're watching the thermal camera footage

30

00:01:55,000 --> 00:01:57,160

that we took last night during Rabbi Ariel's

31

00:01:57,160 --> 00:01:59,800

the Doc's portal experiment down at homestead 2,

32

00:01:59,800 --> 00:02:03,080

we're seeing not only what looks like a possible vortex

33

00:02:03,080 --> 00:02:05,480

with a much lower temperature than its surroundings,

34

00:02:05,480 --> 00:02:09,560

but also some kind of black object moving across the frame

35

00:02:09,560 --> 00:02:13,440

that is giving off absolutely no heat signature.

36

00:02:13,440 --> 00:02:15,480

I don't know what to make of that.

37

00:02:15,480 --> 00:02:16,280

Wow.

38

00:02:16,280 --> 00:02:18,560

So yeah, we need to understand that better.

39

00:02:18,560 --> 00:02:20,640

I think we need to understand that better.

40

00:02:20,640 --> 00:02:25,200

To me, this is startling.

41

00:02:25,200 --> 00:02:31,000

It's exciting in that it looks, at least in the same sort

42

00:02:31,000 --> 00:02:36,200

of genre of experience as what the NIDS guys talked about.

43

00:02:36,200 --> 00:02:38,920

Although it wasn't a monster that crawled out of this portal,

44

00:02:38,920 --> 00:02:42,560

it was we see a weird thing, and we did see something

45

00:02:42,560 --> 00:02:46,400

in the flare, but we didn't see it with our eyes.

46

00:02:46,400 --> 00:02:49,600

A couple of weeks ago, retired Army Colonel John

47

00:02:49,640 --> 00:02:52,560

Alexander, who was part of Robert Bigelow's National

48

00:02:52,560 --> 00:02:54,600

Institute for Discovery Science,

49

00:02:54,600 --> 00:02:58,840

and investigated Skinwalker Ranch from 1996 to 2016,

50

00:02:58,840 --> 00:03:01,640

he gave an incredible assessment of what he believes

51

00:03:01,640 --> 00:03:05,040

is causing all the weird phenomena that happens here.

52

00:03:05,040 --> 00:03:09,600

It's my view that these things are all connected in some way.

53

00:03:09,600 --> 00:03:13,840

I would say they are, and it is a portal.

54

00:03:13,840 --> 00:03:16,840

Well, we saw this strange anomaly.

55

00:03:16,840 --> 00:03:18,840

Could it have been something like that they saw?

56

00:03:18,840 --> 00:03:21,840

I don't know, but there is a correlation.

57

00:03:21,840 --> 00:03:23,840

There's a comparison that one could make.

58

00:03:23,840 --> 00:03:25,840

Well, we have the luxury of following up.

59

00:03:25,840 --> 00:03:27,840

You know, we can always take this instrument back

60

00:03:27,840 --> 00:03:29,840

out to the exact same spot.

61

00:03:29,840 --> 00:03:30,840

I would like to have more than one infrared camera

62

00:03:30,840 --> 00:03:33,840

looking there, maybe from a couple of different directions.

63

00:03:33,840 --> 00:03:34,840

Oh, yeah.

64

00:03:34,840 --> 00:03:38,840

And maybe even have night vision goggles going,

65

00:03:38,840 --> 00:03:41,840

everything we can think of, and redo this experiment

66

00:03:41,840 --> 00:03:45,840

and see if we can see anything like we saw the other night.

67

00:03:45,840 --> 00:03:47,840

People say that when you try to stimulate strange

68

00:03:47,840 --> 00:03:50,840

phenomenon on the ranch, the ranch sometimes responds.

69

00:03:53,840 --> 00:03:55,840

Well, last night with the rabbi here performing that ancient

70

00:03:55,840 --> 00:03:59,840

Hebrew ceremony, it may have caused whatever that was

71

00:03:59,840 --> 00:04:03,840

that we recorded on the thermal camera to appear.

72

00:04:03,840 --> 00:04:06,840

Hopefully we can do it all again, but this time,

73

00:04:06,840 --> 00:04:10,840

really figure out just what the heck it is.

74

00:04:10,840 --> 00:04:12,840

Well, I appreciate the time, guys.

75

00:04:12,840 --> 00:04:14,840

Well, of course. Thanks for the kindness.

76

00:04:14,840 --> 00:04:15,840

Look out.

77

00:04:15,840 --> 00:04:16,840

Thank you, Eric.

78

00:04:16,840 --> 00:04:17,840

Sure thing.

79

00:04:26,840 --> 00:04:28,840

While Eric and I were preparing for the follow-up

80

00:04:28,840 --> 00:04:31,840

experiment at Homestead 2, Thomas Winerton met up with

81

00:04:31,840 --> 00:04:34,840

someone with past experiences on the ranch named Stephen Wall.

82

00:04:34,840 --> 00:04:38,840

He's actually a member of the Sherman family who not only

83

00:04:38,840 --> 00:04:41,840

reported very bizarre and traumatizing incidents here

84

00:04:41,840 --> 00:04:45,840

back in the mid-1990s, but also similar phenomena to what

85

00:04:45,840 --> 00:04:48,840

we've been investigating, including the possible existence

86

00:04:48,840 --> 00:04:50,840

of portals.

87

00:04:50,840 --> 00:04:54,840

How many years has it been since you've been on the ranch?

88

00:04:54,840 --> 00:04:56,840

Almost 30 years, I believe.

89

00:04:56,840 --> 00:05:00,840

I'm curious what your feelings are about coming back on.

90

00:05:00,840 --> 00:05:02,840

Nervous, just anticipating it, just seeing it,

91

00:05:02,840 --> 00:05:04,840

seeing if it's still the same.

92

00:05:04,840 --> 00:05:08,840

Stephen is the nephew of Gwen and Terry Sherman and lived

93

00:05:08,840 --> 00:05:12,840

four years here on the ranch when he was a child.

94

00:05:12,840 --> 00:05:15,840

The Sherman family bought the property in the early 90s.

95

00:05:15,840 --> 00:05:19,840

It was their dream to raise prized cattle.

96

00:05:19,840 --> 00:05:21,840

The Sherman's quickly found out, unfortunately,

97

00:05:21,840 --> 00:05:23,840

that they were not alone.

98

00:05:23,840 --> 00:05:26,840

And it's well documented that the Sherman family experienced

99

00:05:26,840 --> 00:05:30,840

everything from UFO sightings on the ranch to disturbing

100

00:05:30,840 --> 00:05:34,840

daylight cattle mutilations to really what could only be

101

00:05:34,840 --> 00:05:39,840

described as terrifying events on a regular basis.

102

00:05:39,840 --> 00:05:43,840

All of the strange events that were plaguing the Sherman family

103

00:05:43,840 --> 00:05:46,840

motivated them to sell the property.

104

00:05:49,840 --> 00:05:52,840

Got to be kind of hard to talk about some of these things

105

00:05:52,840 --> 00:05:55,840

as far as does it dredge up old memories, old emotions?

106

00:05:55,840 --> 00:05:59,840

It does. Right now, I have a lot of emotions going to me right now.

107

00:05:59,840 --> 00:06:02,840

It's bittersweet, I guess, coming back, though.

108

00:06:02,840 --> 00:06:04,840

I lived here as a small child.

109

00:06:04,840 --> 00:06:07,840

There was some crazy, bizarre things that happened

110

00:06:07,840 --> 00:06:10,840

that I can remember as a kid that I just remember feeling a little

111

00:06:10,840 --> 00:06:12,840

scared, a little nervous.

112

00:06:12,840 --> 00:06:15,840

I think bringing Stephen on and getting to the bottom of some

113

00:06:15,840 --> 00:06:18,840

of these stories that we've heard about the ranch

114

00:06:18,840 --> 00:06:21,840

is going to help us in our investigation by leaps and bounds.

115

00:06:27,840 --> 00:06:28,840

Thomas?

116

00:06:28,840 --> 00:06:30,840

Hey, guys.

117

00:06:30,840 --> 00:06:31,840

Nice to meet you.

118

00:06:31,840 --> 00:06:32,840

Nice to meet you.

119

00:06:32,840 --> 00:06:33,840

Hey, man.

120

00:06:33,840 --> 00:06:34,840

Hey, dude.

121

00:06:34,840 --> 00:06:35,840

Good.

122

00:06:35,840 --> 00:06:38,840

So, Eric and Travis are the scientists here on the ranch,

123

00:06:38,840 --> 00:06:41,840

and Brian is head of security and also our safety officer.

124

00:06:41,840 --> 00:06:45,840

I'm just wondering if you can walk us through some of the things

125

00:06:45,840 --> 00:06:48,840

as they come to mind, some places that we can look at where

126

00:06:48,840 --> 00:06:50,840

there are stories associated with it.

127

00:06:50,840 --> 00:06:53,840

Okay, well, y'all want to walk over here.

128

00:06:53,840 --> 00:06:56,840

Everything I know about the time when Terry and Gwen Sherman

129

00:06:56,840 --> 00:06:59,840

lived on the ranch is known through the public record.

130

00:06:59,840 --> 00:07:02,840

I've never had the opportunity to speak with them personally.

131

00:07:02,840 --> 00:07:05,840

I think it's special for our whole team to hear from Stephen.

132

00:07:05,840 --> 00:07:08,840

We are walking down an area where we've been told about

133

00:07:08,840 --> 00:07:10,840

some dogs that were killed.

134

00:07:10,840 --> 00:07:12,840

The vaporizing dogs, right?

135

00:07:12,840 --> 00:07:13,840

They weren't vaporized.

136

00:07:13,840 --> 00:07:15,840

They were compressed into the ground.

137

00:07:15,840 --> 00:07:16,840

Compressed?

138

00:07:16,840 --> 00:07:17,840

What do you mean by compressed?

139

00:07:17,840 --> 00:07:18,840

Like something fell on them?

140

00:07:18,840 --> 00:07:19,840

Like something heavy smashed them.

141

00:07:19,840 --> 00:07:21,840

Really?

142

00:07:21,840 --> 00:07:24,840

Something actually looked like they were just squashed into the dirt.

143

00:07:24,840 --> 00:07:25,840

Yeah.

144

00:07:25,840 --> 00:07:28,840

From what I remember, a blue orb came bouncing down

145

00:07:28,840 --> 00:07:30,840

off them rocks right there.

146

00:07:30,840 --> 00:07:32,840

They believe a blue orb killed the dogs?

147

00:07:32,840 --> 00:07:33,840

Is that what you're saying?

148

00:07:33,840 --> 00:07:34,840

Really?

149

00:07:34,840 --> 00:07:36,840

You heard that story from the people who actually

150

00:07:36,840 --> 00:07:37,840

saw it with their own eyes.

151

00:07:37,840 --> 00:07:38,840

I saw it with my own.

152

00:07:38,840 --> 00:07:39,840

Oh, you saw it?

153

00:07:39,840 --> 00:07:40,840

Yeah.

154

00:07:40,840 --> 00:07:41,840

Wow.

155

00:07:41,840 --> 00:07:44,840

When I was a kid, me and my uncle saw something coming down

156

00:07:44,840 --> 00:07:46,840

off from the Mesa.

157

00:07:46,840 --> 00:07:50,840

As we were standing by the house, it looked like a bouncing ball

158

00:07:50,840 --> 00:07:54,840

and orb, I guess you would call it, but it was like a blue color.

159

00:07:54,840 --> 00:07:56,840

I remember hearing the dogs whimper.

160

00:07:56,840 --> 00:08:00,840

And then I remember finding the dogs smashed.

161

00:08:00,840 --> 00:08:06,840

I don't really know what happened, but I just know that man couldn't do that.

162

00:08:06,840 --> 00:08:12,840

I've been told about an area having been burned in the vicinity of each of the animals,

163

00:08:12,840 --> 00:08:14,840

like a circle in the ground.

164

00:08:14,840 --> 00:08:16,840

And did that actually happen?

165

00:08:16,840 --> 00:08:21,840

Like they looked like something hot sat right there in the weeds.

166

00:08:21,840 --> 00:08:22,840

Really?

167

00:08:22,840 --> 00:08:27,840

And this is around the dog, almost like whatever compressed them was hot and it burned the

168

00:08:27,840 --> 00:08:28,840

earth.

169

00:08:28,840 --> 00:08:30,840

And was it one big circle or was it a circle around each animal?

170

00:08:30,840 --> 00:08:31,840

Each animal.

171

00:08:31,840 --> 00:08:35,840

So almost like the outside edge was hot and whatever smashed them down to the ground

172

00:08:35,840 --> 00:08:37,840

wasn't and just pressed them into the dirt.

173

00:08:37,840 --> 00:08:38,840

Yes.

174

00:08:38,840 --> 00:08:42,840

When I hear these detailed stories like orbs appearing and crushing the Sherman's

175

00:08:42,840 --> 00:08:46,840

dogs, they're hard to believe it face value.

176

00:08:46,840 --> 00:08:51,840

But just a month ago, right after we excavated a mysterious pit near Homestead 2, that night

177

00:08:51,840 --> 00:08:56,840

while we were eating dinner, both Caleb Bench and I saw a glowing object near my trailer.

178

00:08:56,840 --> 00:09:03,840

It was right there, something yellow and goldish color and it was rectangular.

179

00:09:03,840 --> 00:09:08,840

You know, we ought to keep moving and look for other spots that you want to show us.

180

00:09:08,840 --> 00:09:10,840

Maybe head down closer to Homestead 2.

181

00:09:10,840 --> 00:09:11,840

I agree.

182

00:09:11,840 --> 00:09:16,840

As a scientist, I'm still struggling with Stephen's story, but he's so sincere about

183

00:09:16,840 --> 00:09:18,840

what he claims happened.

184

00:09:18,840 --> 00:09:23,840

And given what I've seen myself, I wonder more and more if there really could be things

185

00:09:23,840 --> 00:09:30,840

going on here at Skinwalker Ranch that conventional science just isn't going to explain.

186

00:09:30,840 --> 00:09:41,840

If you can at all be specific about here, if there, you know, if possible, obviously,

187

00:09:41,840 --> 00:09:42,840

it was 30 years ago.

188

00:09:42,840 --> 00:09:43,840

But just keep going.

189

00:09:43,840 --> 00:09:44,840

So.

190

00:09:44,840 --> 00:09:47,840

So you started getting down in here and this is where I did the f\*\*\*.

191

00:09:47,840 --> 00:09:52,840

It gets a little crazy around here.

192

00:09:52,840 --> 00:09:56,840

But so right here on this knoll right here is where everything just gets crazy and it

193

00:09:56,840 --> 00:10:03,840

seemed like it all focused around this right here.

194

00:10:14,840 --> 00:10:26,840

We're going to get out here.

195

00:10:26,840 --> 00:10:27,840

Don't worry about it.

196

00:10:27,840 --> 00:10:31,840

As we were driving toward Homestead 2 with Stephen Wall, who lived here with the Shermans

197

00:10:31,840 --> 00:10:35,840

back in the 1990s, all of a sudden he gets really freaked out.

198

00:10:35,840 --> 00:10:40,840

The first story that I can really, really hardcore remember, down there there's a gulch.

199

00:10:40,840 --> 00:10:41,840

Yeah.

200

00:10:41,840 --> 00:10:42,840

Okay.

201

00:10:42,840 --> 00:10:47,560

Right over there you could see something open up in the sky.

202

00:10:47,560 --> 00:10:48,560

Something came out of it.

203

00:10:48,560 --> 00:10:51,240

The peach colored object up there, okay?

204

00:10:51,240 --> 00:10:54,040

Me and my uncle saw it coming through the field.

205

00:10:54,040 --> 00:10:57,480

But it come working its way up through them Russian olive trees and it came up and it

206

00:10:57,480 --> 00:11:02,080

just scouted these trees just like this.

207

00:11:02,080 --> 00:11:06,920

Came up, went over the canal and it drove down the path of that road right there.

208

00:11:06,920 --> 00:11:08,400

I want to make sure I've understood.

209

00:11:08,400 --> 00:11:11,040

You described a scouting behavior like a searching behavior.

210

00:11:11,040 --> 00:11:15,640

It's like they were searching through the trees and it went straight up and that hole

211

00:11:15,640 --> 00:11:16,640

closed.

212

00:11:16,640 --> 00:11:17,640

Wow.

213

00:11:17,640 --> 00:11:20,160

That's interesting.

214

00:11:20,160 --> 00:11:24,520

Different people describe seeing and opening a portal or whatever.

215

00:11:24,520 --> 00:11:28,120

Maybe this is a spot that we need to investigate for that.

216

00:11:28,120 --> 00:11:32,760

It's amazing to meet another first hand witness who believes he may have seen a portal open

217

00:11:32,760 --> 00:11:34,600

on Skinwalker Ranch.

218

00:11:34,600 --> 00:11:40,320

Stephen seemed very sincere and it's well known that his aunt and uncle, Gwen and Terry

219

00:11:40,320 --> 00:11:45,680

Sherman, were literally terrified so much by what they experienced here that they left

220

00:11:45,680 --> 00:11:50,920

the property in 1996 and have never been back.

221

00:11:50,920 --> 00:11:55,720

Over here on this ridge right here, that's exactly where it all happens.

222

00:11:55,720 --> 00:11:58,920

It's really interesting that Stephen mentioned this location.

223

00:11:58,920 --> 00:12:03,120

Several of our investigations have led us to focus attention on what we've been calling

224

00:12:03,120 --> 00:12:05,280

the triangle.

225

00:12:05,280 --> 00:12:07,120

We have magnetic anomalies.

226

00:12:07,120 --> 00:12:08,820

We have equipment.

227

00:12:08,820 --> 00:12:12,220

I would say malfunctions.

228

00:12:12,220 --> 00:12:17,100

Last year on my very first day here on Skinwalker Ranch, something weird happened in this exact

229

00:12:17,100 --> 00:12:18,500

area up on the Mesa.

230

00:12:18,500 --> 00:12:20,660

Hey, hand me that meter.

231

00:12:20,660 --> 00:12:24,020

Yeah, this was pegging out.

232

00:12:24,020 --> 00:12:25,780

What's it saying?

233

00:12:25,780 --> 00:12:27,980

It's in the milliwatt per meter square.

234

00:12:27,980 --> 00:12:30,980

I mean, that's a significant amount of energy right there.

235

00:12:30,980 --> 00:12:34,220

I think it is going nuts.

236

00:12:34,220 --> 00:12:39,540

A couple weeks later, we got more radiation spikes from three spots across the ranch,

237

00:12:39,540 --> 00:12:44,700

all pointing to this same area, but about a mile high above the property.

238

00:12:44,700 --> 00:12:46,180

Three, two, one, let it launch.

239

00:12:46,180 --> 00:12:50,020

So we launched a weather balloon with instruments hoping to find the energy source.

240

00:12:50,020 --> 00:12:51,360

Good launch.

241

00:12:51,360 --> 00:12:52,360

This is not updating.

242

00:12:52,360 --> 00:12:56,500

Do I've flown this thing 30 times, more than 30 times?

243

00:12:56,500 --> 00:12:58,220

It's never failed on me.

244

00:12:58,220 --> 00:13:02,380

And the balloon just disappeared off the radar.

245

00:13:02,380 --> 00:13:06,340

Steve and I can't thank you enough for all the things you've shown us and shared with

246

00:13:06,340 --> 00:13:07,340

us.

247

00:13:07,340 --> 00:13:10,620

You know, you've really said a lot of the stories straight for me.

248

00:13:10,620 --> 00:13:14,300

And I just appreciate you coming out and giving your time.

249

00:13:14,300 --> 00:13:15,300

Absolutely.

250

00:13:15,300 --> 00:13:16,300

Well, you're welcome.

251

00:13:16,300 --> 00:13:19,820

And it's good to be back and just see that it's still the same that it was when I was

252

00:13:19,820 --> 00:13:20,820

a child.

253

00:13:20,820 --> 00:13:22,580

Well, I guess we should probably be headed back.

254

00:13:22,580 --> 00:13:23,580

All right.

255

00:13:23,580 --> 00:13:24,580

Yep.

256

00:13:24,580 --> 00:13:25,580

Yep.

257

00:13:25,580 --> 00:13:26,580

Sounds good.

258

00:13:26,580 --> 00:13:33,580

That was here.

259

00:13:33,580 --> 00:13:35,580

Yeah.

260

00:13:35,580 --> 00:13:44,340

Well, as I want you to meet Guy Blocker, he's from Turtle US.

261

00:13:44,340 --> 00:13:45,340

Hey, guy.

262

00:13:45,340 --> 00:13:46,340

Hey, how you doing?

263

00:13:46,340 --> 00:13:47,340

Hey, guy.

264

00:13:47,340 --> 00:13:48,340

How you doing?

265

00:13:48,340 --> 00:13:49,340

Good to see you.

266

00:13:49,340 --> 00:13:50,340

Hi, Travis.

267

00:13:50,340 --> 00:13:54,260

Tonight, we're going to reproduce the experiment we did when Rabbi Ariel Zadok was here and

268

00:13:54,260 --> 00:13:58,180

he did a nighttime chant ceremony.

269

00:13:58,180 --> 00:14:04,980

And we're going to replay that over a sound system.

270

00:14:04,980 --> 00:14:10,060

If we can see the temperature change in the infrared cameras, and if we can see this weird

271

00:14:10,060 --> 00:14:16,220

black anomaly moving around again, then we are that much closer to proving that there

272

00:14:16,220 --> 00:14:23,460

is a correlation between the Rabbi's chants and seeing these possible portal phenomena.

273

00:14:23,460 --> 00:14:26,460

I'm interested in seeing what it is you saw.

274

00:14:26,460 --> 00:14:32,420

What we did see was looking at a particular location that the temperature dropped in probably

275

00:14:32,420 --> 00:14:35,260

20 degrees cooler than the area around it.

276

00:14:35,260 --> 00:14:37,420

And we always try to improve on our experiments.

277

00:14:37,420 --> 00:14:43,740

This one, we hope to be bigger, better, and we hope to create a bigger reaction.

278

00:14:43,740 --> 00:14:46,140

We've already been out setting up some of the stuff.

279

00:14:46,140 --> 00:14:49,900

I'd like to get you out there and get set up while we still got good lighting.

280

00:14:49,900 --> 00:14:53,260

I'd say let's grab that and put it in our Jeep and have you ride over with us.

281

00:14:53,460 --> 00:15:03,420

What we're going to try to do when we set up is we're going to have the target area

282

00:15:03,420 --> 00:15:08,420

in focus, get our cameras set up so that we can maximize the effectiveness of our sensors.

283

00:15:08,420 --> 00:15:12,140

With the handheld sensors, we're also able to monitor anything that's going on around

284

00:15:12,140 --> 00:15:13,580

us.

285

00:15:13,580 --> 00:15:17,540

So even though the main event is in front, there may be something else that may be attached

286

00:15:17,540 --> 00:15:18,620

to that.

287

00:15:18,620 --> 00:15:20,260

We also want to document.

288

00:15:21,260 --> 00:15:24,220

All right, well, let's get to putting the hook and stuff up, turn stuff on and getting

289

00:15:24,220 --> 00:15:25,220

set up.

290

00:15:25,220 --> 00:15:27,300

I guess we got a lot of work to do still.

291

00:15:27,300 --> 00:15:31,940

In addition to guys thermal and infrared cameras, Eric and I also set up every energy

292

00:15:31,940 --> 00:15:34,820

and radiation detector that we have.

293

00:15:34,820 --> 00:15:39,100

And just in case something happens that mysteriously shorts out any of our electronic devices,

294

00:15:39,100 --> 00:15:44,020

we also set up old school thermometers in and outside of the homestead building to make

295

00:15:44,020 --> 00:15:49,180

sure we measure any strange drops in temperature like we got the other night.

296

00:15:49,260 --> 00:15:51,700

I think this is the most instruments we put out at once before Eric.

297

00:15:51,700 --> 00:15:55,700

You know, Travis, I think we set a new record every time we do one of these exercises.

298

00:15:55,700 --> 00:15:56,700

Right.

299

00:15:56,700 --> 00:15:57,700

Well, you know what?

300

00:15:57,700 --> 00:16:00,940

If something happens, I want to see it with as many things as we can see it with.

301

00:16:00,940 --> 00:16:01,940

Amen to that.

302

00:16:01,940 --> 00:16:08,180

Look, this is a really speculative exercise when we start talking about portals and such.

303

00:16:08,180 --> 00:16:14,620

But in this particular location on Skinwalker Ranch, anything is apparently possible.

304

00:16:14,620 --> 00:16:21,100

And if we do in fact cause some of this phenomenology to manifest, we absolutely want to document

305

00:16:21,100 --> 00:16:22,100

it.

306

00:16:22,100 --> 00:16:23,780

We're getting really close to being set up.

307

00:16:23,780 --> 00:16:24,780

Yeah, we're about there.

308

00:16:24,780 --> 00:16:28,100

I think it's just a few minor tweaks and then we're just waiting for nightfall to run sound.

309

00:16:34,740 --> 00:16:37,860

Okay guys, I have all the cameras on record, so we're recording right now.

310

00:16:37,860 --> 00:16:40,460

Why don't you guys get in place when you get there and give me a call.

311

00:16:40,460 --> 00:16:41,460

Yeah.

312

00:16:41,460 --> 00:16:43,180

And we'll start the rabbi singing.

313

00:16:43,180 --> 00:16:44,180

Sounds good.

314

00:16:45,100 --> 00:16:51,420

Caleb and I decided that we would go down to the road and watch the ceremony from there.

315

00:16:51,420 --> 00:16:56,700

The first time we saw some type of object that seemed to dart down around the area of

316

00:16:56,700 --> 00:16:57,780

the road.

317

00:16:57,780 --> 00:17:01,660

And so definitely having eyes on it from a different perspective could prove to be useful

318

00:17:01,660 --> 00:17:03,860

as this experiment unfolds.

319

00:17:03,860 --> 00:17:04,860

That's good, Thomas.

320

00:17:04,860 --> 00:17:08,300

Tell me, I'm not seeing you in there, so you're in a good spot.

321

00:17:08,300 --> 00:17:09,300

We are ready.

322

00:17:09,300 --> 00:17:10,300

We're ready here too.

323

00:17:14,180 --> 00:17:37,860

Just seconds after the recording of the rabbi ceremony began to play, there was an obvious

324

00:17:37,860 --> 00:17:43,220

rising temperature being shown across the top of Homestead 2 on the thermal camera feed.

325

00:17:43,220 --> 00:17:45,780

It was crazy, just like a switch got flipped.

326

00:17:45,780 --> 00:17:47,780

Look at the screen.

327

00:17:47,780 --> 00:17:56,140

Hey, hey, hey, come here.

328

00:17:56,140 --> 00:17:57,500

I've got movement on the back.

329

00:17:57,500 --> 00:17:59,540

It's like in the back window or something.

330

00:17:59,540 --> 00:18:00,540

That corner of the house.

331

00:18:00,540 --> 00:18:01,540

Guys, what's going on?

332

00:18:01,540 --> 00:18:02,540

Homestead running.

333

00:18:02,540 --> 00:18:03,540

Homestead running.

334

00:18:03,540 --> 00:18:04,540

They're running around crazy.

335

00:18:04,540 --> 00:18:34,260

Look at the screen.

336

00:18:34,260 --> 00:18:39,460

While the chant's playing right at the doorway of Homestead 2, the temperature changes.

337

00:18:39,460 --> 00:18:44,660

It gets hot by like nine degrees more than the surrounding area.

338

00:18:44,660 --> 00:18:46,700

I can't explain that.

339

00:18:46,700 --> 00:18:52,420

Now if you wanted to look for a stretch and exotic explanation, the rabbi said it was

340

00:18:52,420 --> 00:18:55,540

a chant that's supposed to open up a portal.

341

00:18:55,540 --> 00:19:05,580

So maybe that's what's causing this strange temperature anomaly to occur.

342

00:19:05,580 --> 00:19:10,900

Well several things happened while the ceremony was going and the screen got completely hot

343

00:19:10,900 --> 00:19:14,340

and now it's sort of filtering back to normal.

344

00:19:14,340 --> 00:19:15,340

Slowly.

345

00:19:15,340 --> 00:19:16,340

Yeah, slowly, right?

346

00:19:16,340 --> 00:19:17,340

Yeah.

347

00:19:17,340 --> 00:19:19,180

I wasn't really sure what to expect.

348

00:19:19,180 --> 00:19:23,020

I got to say I was quite surprised by what we did encounter.

349

00:19:23,020 --> 00:19:27,380

It's been the first time that I've been in a place using thermal and watched the temperature

350

00:19:27,380 --> 00:19:29,620

change so drastically.

351

00:19:29,620 --> 00:19:34,380

You know in the first experiment we saw a lot of things after the ceremony was finished.

352

00:19:34,380 --> 00:19:36,340

Do you want us to head back up there?

353

00:19:36,340 --> 00:19:39,620

Do you want us to stay put for a few more minutes?

354

00:19:39,620 --> 00:19:40,620

Stay put.

355

00:19:40,620 --> 00:19:41,620

We're watching it closely.

356

00:19:41,620 --> 00:19:46,980

If we start seeing what we saw last time, I'll tell you guys to rush in there.

357

00:19:46,980 --> 00:19:49,340

What's so wild is how this looks normal now.

358

00:19:49,340 --> 00:19:51,060

And all this was this blue stuff.

359

00:19:51,060 --> 00:19:53,500

I mean it was just bright hot red.

360

00:19:53,500 --> 00:19:55,100

That's just so weird.

361

00:19:55,100 --> 00:20:01,700

It makes no sense that we hit play button on an acoustic recording and the temperature

362

00:20:01,700 --> 00:20:04,780

change went crazy.

363

00:20:04,780 --> 00:20:08,900

Rabbi Zidok performed that chant specifically to open a portal.

364

00:20:08,900 --> 00:20:13,380

So it just makes you wonder, did playing that chant back cause the temperature to spike?

365

00:20:13,380 --> 00:20:15,740

And if so, just what does that mean?

366

00:20:21,060 --> 00:20:27,300

Hey, hey, hey, come here.

367

00:20:27,300 --> 00:20:28,660

I've got movement on the back.

368

00:20:28,660 --> 00:20:31,820

It's like in the back window or something dude.

369

00:20:31,820 --> 00:20:35,340

You seeing it?

370

00:20:35,340 --> 00:20:41,340

What the hell, the flare just went out.

371

00:20:41,340 --> 00:20:50,900

You guys, so the back window of the homestead, there was a definite flickering in the window.

372

00:20:50,900 --> 00:20:52,220

I don't know what it was.

373

00:20:52,220 --> 00:20:55,260

All right, well we're going to head down that way.

374

00:20:55,260 --> 00:21:00,060

We'll watch for you.

375

00:21:00,060 --> 00:21:01,060

I'm seeing that again.

376

00:21:01,060 --> 00:21:03,300

Guys, I see it.

377

00:21:03,300 --> 00:21:07,500

Back corner of the house, back corner of the house, back corner of the house.

378

00:21:07,500 --> 00:21:09,700

Guys, what's going on?

379

00:21:09,700 --> 00:21:12,300

The cops are running, the cops are running.

380

00:21:12,300 --> 00:21:19,460

They're running around crazy.

381

00:21:19,740 --> 00:21:20,860

Right here.

382

00:21:20,860 --> 00:21:22,900

There was something flickering right here.

383

00:21:22,900 --> 00:21:25,980

I've seen it a couple of times and he saw it the second time.

384

00:21:25,980 --> 00:21:26,980

All right.

385

00:21:26,980 --> 00:21:28,140

This is crazy.

386

00:21:28,140 --> 00:21:33,420

Hey, I think we're getting a temperature vortex starting like we had last time.

387

00:21:33,420 --> 00:21:35,540

And it's right above the homestead.

388

00:21:35,540 --> 00:21:37,540

I want to see this thermometer.

389

00:21:37,540 --> 00:21:44,020

Twice now we've played this ceremony and twice now we have had a pocket of air much different

390

00:21:44,020 --> 00:21:47,460

from the surrounding area and temperature come in.

391

00:21:47,460 --> 00:21:53,460

Maybe we are affecting a portal or maybe we're at the very beginning stages of a portal.

392

00:21:53,460 --> 00:21:57,460

Hey, did one of you guys move the thermometer in here?

393

00:21:57,460 --> 00:21:58,460

No.

394

00:21:58,460 --> 00:22:01,460

Is this one's on the ground?

395

00:22:01,460 --> 00:22:02,700

Caleb just went inside the house.

396

00:22:02,700 --> 00:22:04,260

The thermometer was sitting in the window.

397

00:22:04,260 --> 00:22:06,380

It was now sitting on the ground.

398

00:22:06,380 --> 00:22:07,380

On the ground.

399

00:22:07,380 --> 00:22:09,460

Wait, you mean it moved?

400

00:22:09,460 --> 00:22:12,460

Yes, and nobody's been in the house.

401

00:22:12,460 --> 00:22:15,340

And right where you saw that life flicker?

402

00:22:15,340 --> 00:22:17,340

That's a little freaky, guys.

403

00:22:17,340 --> 00:22:21,340

We're having a hard time believing that it just rolled off this window.

404

00:22:21,340 --> 00:22:27,740

Tell you what, guys, while I like watching up here, we're recording all of it.

405

00:22:27,740 --> 00:22:31,340

I'm going to wander down that way and see what you guys are looking at.

406

00:22:31,340 --> 00:22:34,540

Yeah, come down here and check this out.

407

00:22:34,540 --> 00:22:36,500

So that was right here.

408

00:22:36,500 --> 00:22:37,500

It's okay.

409

00:22:37,500 --> 00:22:38,500

Where we said that up.

410

00:22:38,500 --> 00:22:39,500

How was it attached?

411

00:22:39,500 --> 00:22:40,500

Was it simply...

412

00:22:40,500 --> 00:22:46,500

Caleb and Thomas go into the homestead area and they find that one of our thermometers,

413

00:22:46,500 --> 00:22:50,500

one of these big mechanical thermometers that was sitting in a window sill, had been knocked

414

00:22:50,500 --> 00:22:53,500

off somehow, was in the floor.

415

00:22:53,500 --> 00:22:56,500

So if we didn't hear it, how did it fall?

416

00:22:56,500 --> 00:22:58,500

It's a really weird situation.

417

00:22:58,500 --> 00:23:01,500

Did your... was your flare camera, did it have this window?

418

00:23:01,500 --> 00:23:03,500

No, I was only covering those first two up here.

419

00:23:03,500 --> 00:23:05,500

There's something walking in the field out here, guys.

420

00:23:05,500 --> 00:23:06,500

What?

421

00:23:06,500 --> 00:23:08,500

There's something walking in the field, right out there.

422

00:23:08,500 --> 00:23:10,500

What are you just looking at, naked eye?

423

00:23:10,500 --> 00:23:11,500

No, in the bread.

424

00:23:11,500 --> 00:23:14,500

I think I can see what he's talking about right there.

425

00:23:14,500 --> 00:23:16,500

It's moving.

426

00:23:16,500 --> 00:23:17,500

It's moving.

427

00:23:17,500 --> 00:23:19,500

I'm on my way.

428

00:23:19,500 --> 00:23:21,500

It's in there.

429

00:23:21,500 --> 00:23:26,500

I just got a message that said that it's unsafe.

430

00:23:26,500 --> 00:23:27,500

Oh, crap, look at that.

431

00:23:27,500 --> 00:23:30,500

They were actively being electronically attacked.

432

00:23:31,500 --> 00:23:34,500

There's a spot appearing in the trees.

433

00:23:34,500 --> 00:23:38,500

There's something walking in the field out here, guys.

434

00:23:38,500 --> 00:23:45,500

While I was inside the homestead looking out the back window, I saw something in the back

435

00:23:45,500 --> 00:23:49,500

yard that looked like a big blob that was moving.

436

00:23:49,500 --> 00:23:51,500

I thought it may have been bipedal.

437

00:23:51,500 --> 00:23:53,500

It could have been quadripedal.

438

00:23:53,500 --> 00:23:54,500

I'm not sure.

439

00:23:54,500 --> 00:23:55,500

I don't know.

440

00:23:55,500 --> 00:23:56,500

I don't know.

441

00:23:56,500 --> 00:23:59,500

I'm going to say almost to that fence line.

442

00:23:59,500 --> 00:24:02,500

Thomas, you're 30 yards short.

443

00:24:02,500 --> 00:24:04,500

You're right where it was.

444

00:24:04,500 --> 00:24:07,500

I don't see it anymore, but it went straight in front of you.

445

00:24:07,500 --> 00:24:11,500

Thomas, that tree looks like it's hot, or something.

446

00:24:11,500 --> 00:24:12,500

It went right into that tree.

447

00:24:12,500 --> 00:24:14,500

What the heck is that?

448

00:24:14,500 --> 00:24:15,500

I don't know.

449

00:24:15,500 --> 00:24:16,500

I don't know.

450

00:24:16,500 --> 00:24:17,500

I don't know.

451

00:24:17,500 --> 00:24:18,500

I don't know.

452

00:24:18,500 --> 00:24:19,500

I don't know.

453

00:24:19,500 --> 00:24:20,500

I don't know.

454

00:24:20,500 --> 00:24:21,500

I don't know.

455

00:24:21,500 --> 00:24:22,500

I don't know.

456

00:24:22,500 --> 00:24:23,500

I don't know.

457

00:24:23,500 --> 00:24:25,500

What the heck is that?

458

00:24:29,500 --> 00:24:30,500

It's moving.

459

00:24:30,500 --> 00:24:31,500

It's moving.

460

00:24:31,500 --> 00:24:32,500

I'm on my way.

461

00:24:39,500 --> 00:24:41,500

What the frick are you?

462

00:24:41,500 --> 00:24:43,500

Hey, Travis!

463

00:24:43,500 --> 00:24:44,500

Yeah, what do you got?

464

00:24:44,500 --> 00:24:47,500

I saw a white thing and stayed right there.

465

00:24:47,500 --> 00:24:49,500

I thought it was something stationary.

466

00:24:49,500 --> 00:24:51,500

I saw something that started moving.

467

00:24:51,500 --> 00:24:53,500

That's right where I was looking.

468

00:24:53,500 --> 00:24:55,500

There was something coming up out of the ground.

469

00:24:55,500 --> 00:24:58,500

Whatever it was, it was like a round object,

470

00:24:58,500 --> 00:25:03,500

but it was right there, and then all of a sudden, boom.

471

00:25:03,500 --> 00:25:05,500

Hey, it's in there.

472

00:25:05,500 --> 00:25:06,500

You see it?

473

00:25:06,500 --> 00:25:07,500

Yeah, it's right there.

474

00:25:07,500 --> 00:25:08,500

It's right there.

475

00:25:08,500 --> 00:25:10,500

It's moving.

476

00:25:10,500 --> 00:25:13,500

I don't see how you're going to get in there.

477

00:25:13,500 --> 00:25:15,500

Be careful, Thomas.

478

00:25:15,500 --> 00:25:17,500

I don't think we're going to get through that.

479

00:25:17,500 --> 00:25:19,500

It just gets worse.

480

00:25:19,500 --> 00:25:21,500

What the heck?

481

00:25:25,500 --> 00:25:28,500

What I saw was like a six-foot diameter.

482

00:25:28,500 --> 00:25:31,500

It was really intense, and then it kind of got dimmer.

483

00:25:31,500 --> 00:25:34,500

It went out a little bit like it faded,

484

00:25:34,500 --> 00:25:36,500

and while I was sitting there staring at it,

485

00:25:36,500 --> 00:25:38,500

trying to figure out what it was,

486

00:25:38,500 --> 00:25:40,500

it started to move like this.

487

00:25:42,500 --> 00:25:44,500

And it just kind of moved across,

488

00:25:44,500 --> 00:25:46,500

and then it was like it disappeared in the trees,

489

00:25:46,500 --> 00:25:48,500

and that's when we...

490

00:25:48,500 --> 00:25:50,500

Yeah, it was right through there,

491

00:25:50,500 --> 00:25:52,500

and I'm not seeing it anymore.

492

00:25:52,500 --> 00:25:56,500

Let's go back and kind of regroup.

493

00:25:56,500 --> 00:25:57,500

Yeah, regroup.

494

00:25:57,500 --> 00:25:58,500

Catch a breath for a second.

495

00:25:58,500 --> 00:26:00,500

Regroup, calm down.

496

00:26:00,500 --> 00:26:04,500

That was exciting, interesting, and weird all at once.

497

00:26:04,500 --> 00:26:07,500

Whatever it was that we saw tonight,

498

00:26:07,500 --> 00:26:11,500

these were seen only with the thermographic cameras.

499

00:26:11,500 --> 00:26:14,500

We couldn't see them with the naked eye,

500

00:26:14,500 --> 00:26:17,500

and that tells me that we're not dealing necessarily

501

00:26:17,500 --> 00:26:19,500

with something that's physical.

502

00:26:19,500 --> 00:26:21,500

We could be dealing with something that's

503

00:26:21,500 --> 00:26:24,500

another dimension or another realm.

504

00:26:24,500 --> 00:26:27,500

So I know for a fact it was not an animal,

505

00:26:27,500 --> 00:26:30,500

and it definitely was not a human.

506

00:26:30,500 --> 00:26:35,500

Beyond that, you know, your guess is as good as mine.

507

00:26:35,500 --> 00:26:40,500

Think about what we've been told by the former NIDS investigators

508

00:26:40,500 --> 00:26:44,500

about seeing amorphous things out here in the trees.

509

00:26:44,500 --> 00:26:47,500

You know, they would appear, move around a bit,

510

00:26:47,500 --> 00:26:50,500

and then fold in on themselves and disappear.

511

00:26:50,500 --> 00:26:51,500

Right.

512

00:26:51,500 --> 00:26:54,500

You know, I didn't see a monster crawl out of a portal,

513

00:26:54,500 --> 00:26:57,500

but what I did see was something that I couldn't explain

514

00:26:57,500 --> 00:27:00,500

running across the field behind Homestead 2.

515

00:27:00,500 --> 00:27:03,500

What I can take away from the experiment tonight

516

00:27:03,500 --> 00:27:06,500

is that we played the rabbi's chant,

517

00:27:06,500 --> 00:27:08,500

we saw a temperature anomaly again,

518

00:27:08,500 --> 00:27:13,500

and we did see an unusual figure, object, thing,

519

00:27:13,500 --> 00:27:16,500

moving through the infrared camera.

520

00:27:16,500 --> 00:27:18,500

Very similar features to what we'd seen

521

00:27:18,500 --> 00:27:20,500

in the previous experiment.

522

00:27:20,500 --> 00:27:23,500

Our sense of success, I still don't understand what it means.

523

00:27:23,500 --> 00:27:26,500

Well, we got a lot of data, we had some weird things happen.

524

00:27:26,500 --> 00:27:28,500

We just need to go back and analyze the data

525

00:27:28,500 --> 00:27:30,500

and understand what it means.

526

00:27:30,500 --> 00:27:33,500

I've got a few things going on here.

527

00:27:33,500 --> 00:27:35,500

So what I want to do is take us out in the woods

528

00:27:35,500 --> 00:27:37,500

and see what's going on.

529

00:27:37,500 --> 00:27:40,500

I'm going to go ahead and get a little bit of information

530

00:27:40,500 --> 00:27:42,500

about what's going on here.

531

00:27:42,500 --> 00:27:45,500

So what I want to do is take us out into the East field

532

00:27:45,500 --> 00:27:46,500

virtually.

533

00:27:46,500 --> 00:27:50,500

The next morning, Eric called me and dragging into his control room

534

00:27:50,500 --> 00:27:52,500

to check out the surveillance footage

535

00:27:52,500 --> 00:27:55,500

that was captured of the Mesa at the same time

536

00:27:55,500 --> 00:27:58,500

we were conducting our experiment at Homestead 2.

537

00:27:58,500 --> 00:28:00,500

Watch what happens here.

538

00:28:00,500 --> 00:28:02,500

There.

539

00:28:02,500 --> 00:28:03,500

Right, look at that.

540

00:28:03,500 --> 00:28:05,500

Look at the Mesa flickering right there.

541

00:28:05,500 --> 00:28:07,500

And look at the top over here.

542

00:28:07,500 --> 00:28:08,500

There it is.

543

00:28:08,500 --> 00:28:09,500

Look at that.

544

00:28:09,500 --> 00:28:12,500

The whole top of the Mesa lights up.

545

00:28:12,500 --> 00:28:18,500

That piece of the Mesa has a crazy history of us seeing things

546

00:28:18,500 --> 00:28:20,500

ever since the beginning.

547

00:28:20,500 --> 00:28:24,500

Eric Brandon and the team have captured pretty dramatic

548

00:28:24,500 --> 00:28:27,500

surveillance footage in the past where something causes

549

00:28:27,500 --> 00:28:29,500

the entire Mesa to light up at night.

550

00:28:29,500 --> 00:28:30,500

Whoa, look at that.

551

00:28:30,500 --> 00:28:31,500

Holy crap.

552

00:28:31,500 --> 00:28:34,500

Hey guys, we just noticed on the screen here a second ago,

553

00:28:34,500 --> 00:28:36,500

you see the glow, the flicker.

554

00:28:36,500 --> 00:28:37,500

What is that?

555

00:28:37,500 --> 00:28:40,500

And just last year, during a laser experiment,

556

00:28:40,500 --> 00:28:43,500

we observed a similar phenomenon where the ridge appeared

557

00:28:43,500 --> 00:28:44,500

to be glowing.

558

00:28:44,500 --> 00:28:46,500

Yeah, it's almost like the outline of it.

559

00:28:46,500 --> 00:28:47,500

Wow.

560

00:28:47,500 --> 00:28:50,500

So while we're trying to figure out if this footage we got

561

00:28:50,500 --> 00:28:52,500

of the Mesa was connected to what happened last night

562

00:28:52,500 --> 00:28:56,500

at Homestead 2, suddenly, Thomas came rushing in

563

00:28:56,500 --> 00:28:58,500

to alert us of something else.

564

00:28:58,500 --> 00:29:01,500

All right, well, yeah, we definitely need to go put

565

00:29:01,500 --> 00:29:02,500

eyes on that.

566

00:29:02,500 --> 00:29:05,500

Hey guys, I just got a message that something popped up

567

00:29:05,500 --> 00:29:07,500

on the Wi-Fi and it's unsafe.

568

00:29:10,500 --> 00:29:11,500

On the network.

569

00:29:11,500 --> 00:29:12,500

On the network.

570

00:29:12,500 --> 00:29:14,500

And then it kicked me off on my computer too.

571

00:29:14,500 --> 00:29:16,500

Something may be hacking us or trying to get into the system.

572

00:29:16,500 --> 00:29:18,500

It's behaving weird.

573

00:29:20,500 --> 00:29:22,500

Security is a top concern here at the ranch,

574

00:29:22,500 --> 00:29:24,500

whether it be the premises or whether it be our network.

575

00:29:24,500 --> 00:29:27,500

And so when I see a notification like that pop up on my phone,

576

00:29:27,500 --> 00:29:31,500

I'm very concerned about what it could be that's affecting

577

00:29:31,500 --> 00:29:34,500

our network, whether it be an outside influence or something

578

00:29:34,500 --> 00:29:35,500

here on the ranch.

579

00:29:35,500 --> 00:29:38,500

So if something is hacking into the Wi-Fi,

580

00:29:38,500 --> 00:29:41,500

we'd see it on the spectrum analyzer.

581

00:29:41,500 --> 00:29:43,500

So it's an SDR.

582

00:29:43,500 --> 00:29:45,500

We'll pull it up.

583

00:29:45,500 --> 00:29:47,500

Oh, crap, look at that.

584

00:29:47,500 --> 00:29:48,500

Look at this.

585

00:29:48,500 --> 00:29:49,500

Look right here.

586

00:29:49,500 --> 00:29:50,500

All the way across.

587

00:29:50,500 --> 00:29:53,500

See this little, these ripples all the way across the floor?

588

00:29:53,500 --> 00:29:56,500

The noise floor shouldn't look like that.

589

00:29:56,500 --> 00:29:57,500

It should be just random.

590

00:29:57,500 --> 00:29:58,500

That's structured.

591

00:29:58,500 --> 00:29:59,500

That is a signal.

592

00:29:59,500 --> 00:30:01,500

There's a signal right now on the ranch,

593

00:30:01,500 --> 00:30:03,500

all the way across the spectrum.

594

00:30:03,500 --> 00:30:05,500

So what can cause something like that?

595

00:30:05,500 --> 00:30:06,500

I don't know.

596

00:30:06,500 --> 00:30:08,500

That is a manufactured signal.

597

00:30:08,500 --> 00:30:10,500

That is not Mother Nature doing that.

598

00:30:10,500 --> 00:30:11,500

And we're not doing that.

599

00:30:11,500 --> 00:30:13,500

So why is that here on the ranch?

600

00:30:16,500 --> 00:30:18,500

This is a massive energy spike being detected

601

00:30:18,500 --> 00:30:19,500

by the spectrum analyzer.

602

00:30:19,500 --> 00:30:23,500

I'm not even sure how I could create a signal of this magnitude.

603

00:30:23,500 --> 00:30:26,500

But it reminds me of something that happened last year.

604

00:30:26,500 --> 00:30:31,500

Sounds like there's something just screeching in the background.

605

00:30:31,500 --> 00:30:33,500

After being awakened in the middle of the night

606

00:30:33,500 --> 00:30:35,500

by a weird noise outside my trailer,

607

00:30:35,500 --> 00:30:37,500

I checked my spectrum analyzer

608

00:30:37,500 --> 00:30:40,500

and found the same kind of signal being detected.

609

00:30:40,500 --> 00:30:42,500

Wow.

610

00:30:42,500 --> 00:30:46,500

I mean, there's a signal oscillating up and down

611

00:30:46,500 --> 00:30:48,500

all the way up to 2 gigahertz.

612

00:30:48,500 --> 00:30:50,500

The only thing I could think of at the time

613

00:30:50,500 --> 00:30:53,500

that could cause this kind of energy spike

614

00:30:53,500 --> 00:30:57,500

was something Albert Einstein actually had a theory about.

615

00:30:57,500 --> 00:30:59,500

This might sound crazy,

616

00:30:59,500 --> 00:31:03,500

but what if the only way to explain all these things

617

00:31:03,500 --> 00:31:07,500

is with a wormhole?

618

00:31:11,500 --> 00:31:14,500

I'm an astrophysicist who has been researching

619

00:31:14,500 --> 00:31:17,500

and studying the plausibility of these kinds of phenomena

620

00:31:17,500 --> 00:31:19,500

for more than 25 years.

621

00:31:19,500 --> 00:31:22,500

But I never thought that I'd be able to do that.

622

00:31:22,500 --> 00:31:25,500

I've been working on these things for years,

623

00:31:25,500 --> 00:31:29,500

but I never thought it would lead me to a ranch in Utah

624

00:31:29,500 --> 00:31:32,500

contemplating the existence of wormholes.

625

00:31:32,500 --> 00:31:34,500

Look at that. Holy...

626

00:31:34,500 --> 00:31:36,500

Look at that.

627

00:31:36,500 --> 00:31:40,500

I mean, we're actively being electronically attacked right there.

628

00:31:40,500 --> 00:31:42,500

Holy cow.

629

00:31:42,500 --> 00:31:45,500

There is a crazy signal right at 700 megahertz.

630

00:31:45,500 --> 00:31:49,500

There's something so broad band happening right here.

631

00:31:49,500 --> 00:31:52,500

I would just suddenly show a friend.

632

00:31:58,500 --> 00:32:00,500

Look at the pattern.

633

00:32:00,500 --> 00:32:01,500

And you don't normally see this.

634

00:32:01,500 --> 00:32:04,500

No, no. That is a transmitter somewhere doing that.

635

00:32:04,500 --> 00:32:06,500

Can your antenna pick this up?

636

00:32:06,500 --> 00:32:07,500

I'm gonna go over there right now

637

00:32:07,500 --> 00:32:09,500

and I'm gonna get it turned on and get it up

638

00:32:09,500 --> 00:32:10,500

and I'm gonna go start looking at it.

639

00:32:10,500 --> 00:32:12,500

All right. Let me know if you need any help.

640

00:32:12,500 --> 00:32:14,500

Yep.

641

00:32:14,500 --> 00:32:16,500

Eric's just put in this really cool system near my trailer

642

00:32:16,500 --> 00:32:18,500

that has directional antennas

643

00:32:18,500 --> 00:32:21,500

to pinpoint the antenna to see where the signal's coming from.

644

00:32:21,500 --> 00:32:24,500

I want to see if we can pinpoint this signal.

645

00:32:24,500 --> 00:32:27,500

Well, that's interesting. There it is.

646

00:32:27,500 --> 00:32:29,500

I need to rotate my antenna.

647

00:32:29,500 --> 00:32:31,500

Let's see where we are.

648

00:32:34,500 --> 00:32:37,500

I'm pointing right at the homestead right now.

649

00:32:40,500 --> 00:32:43,500

Oh, right there. There it is.

650

00:32:43,500 --> 00:32:46,500

Hey, Siri, FaceTime Eric Bard.

651

00:32:48,500 --> 00:32:50,500

Hey, Travis.

652

00:32:50,500 --> 00:32:53,500

I am picking up the signal and I have zoomed in on it.

653

00:32:53,500 --> 00:32:57,500

It is Southwest from my Yaggy Tower.

654

00:32:57,500 --> 00:33:00,500

Southwest. Yes.

655

00:33:00,500 --> 00:33:02,500

Whatever was causing this energy spike

656

00:33:02,500 --> 00:33:05,500

was not only overwhelming the ranch's network,

657

00:33:05,500 --> 00:33:07,500

but because it was so powerful,

658

00:33:07,500 --> 00:33:11,500

it made me anxious of what could be causing it.

659

00:33:11,500 --> 00:33:15,500

Guys, I'm leaving the ranch. I'm getting about headache.

660

00:33:15,500 --> 00:33:17,500

Are you serious?

661

00:33:17,500 --> 00:33:19,500

I'm dead serious.

662

00:33:19,500 --> 00:33:21,500

Holy s\*\*\*.

663

00:33:21,500 --> 00:33:23,500

You're making a hurt right now.

664

00:33:23,500 --> 00:33:27,500

50 megahertz, it is completely saturating the spectrum.

665

00:33:27,500 --> 00:33:29,500

Well, come back when the signal stops.

666

00:33:29,500 --> 00:33:32,500

Be safe, Tom. Let us know if anything else happens.

667

00:33:35,500 --> 00:33:39,500

I don't know what's going on, but it seems like he's all out of source.

668

00:33:39,500 --> 00:33:41,500

And seeing Thomas react in this way,

669

00:33:41,500 --> 00:33:44,500

obviously it raises concern because he has a history

670

00:33:44,500 --> 00:33:46,500

of having injuries on this ranch.

671

00:33:48,500 --> 00:33:50,500

A couple of years ago,

672

00:33:50,500 --> 00:33:52,500

Thomas was digging out a road on the ranch

673

00:33:52,500 --> 00:33:55,500

and he had a really startling and frightening experience.

674

00:33:55,500 --> 00:33:58,500

It started with him getting a really bad headache.

675

00:33:58,500 --> 00:34:02,500

And then he ended up in the hospital in a very serious condition.

676

00:34:02,500 --> 00:34:04,500

Tom, you all right?

677

00:34:04,500 --> 00:34:06,500

My head is killing me.

678

00:34:06,500 --> 00:34:10,500

Last year, he also suddenly got a bad headache

679

00:34:10,500 --> 00:34:12,500

just after we witnessed that strange glowing phenomena

680

00:34:12,500 --> 00:34:14,500

on the ridge of the mason.

681

00:34:14,500 --> 00:34:18,500

Right here. In the exact same spot, my head is hurting bad.

682

00:34:19,500 --> 00:34:21,500

Holy cow.

683

00:34:21,500 --> 00:34:25,500

There is a crazy signal right at 700 megahertz.

684

00:34:25,500 --> 00:34:27,500

Crazy.

685

00:34:27,500 --> 00:34:31,500

Could this massive signal that's hit our network also be causing Thomas' pain?

686

00:34:31,500 --> 00:34:35,500

Is it possibly evidence, like the Shermans believe,

687

00:34:35,500 --> 00:34:38,500

that the phenomena targets people on the ranch?

688

00:34:38,500 --> 00:34:41,500

And if so, have our recent experiments provoked it?

689

00:34:42,500 --> 00:34:45,500

I am looking due north right now,

690

00:34:45,500 --> 00:34:48,500

and it seems like the signal has moved.

691

00:34:48,500 --> 00:34:51,500

The signal is not as bright in the southwest.

692

00:34:51,500 --> 00:34:53,500

It says it's being north.

693

00:34:53,500 --> 00:34:55,500

Okay.

694

00:34:55,500 --> 00:34:57,500

That tells us the source is moving.

695

00:34:58,500 --> 00:35:02,500

The fact that the source seems to be moving around is pretty mysterious.

696

00:35:02,500 --> 00:35:06,500

It's kind of suspicious, suggestive of something artificial.

697

00:35:06,500 --> 00:35:09,500

We don't know whether we're talking about something on the land

698

00:35:09,500 --> 00:35:12,500

or, in fact, in the sky above us.

699

00:35:12,500 --> 00:35:14,500

I have no air traffic.

700

00:35:14,500 --> 00:35:17,500

You know, normally I would look to something like that

701

00:35:17,500 --> 00:35:20,500

to try to explain a moving source.

702

00:35:20,500 --> 00:35:23,500

I've lost again. It's not south anymore.

703

00:35:23,500 --> 00:35:25,500

It's due west now.

704

00:35:25,500 --> 00:35:29,500

I am looking due west with more than one of our cameras

705

00:35:29,500 --> 00:35:33,500

for anything that shows up in the, you know, beneath the cloud cover.

706

00:35:33,500 --> 00:35:35,500

I got nothing.

707

00:35:35,500 --> 00:35:39,500

I honestly have no idea what is causing this signal.

708

00:35:39,500 --> 00:35:43,500

It's a broadband signal that has structure

709

00:35:43,500 --> 00:35:48,500

that's nothing like we use in modern industry and communication systems.

710

00:35:48,500 --> 00:35:52,500

If I wanted to reproduce it, I'm not even sure how I would reproduce it,

711

00:35:52,500 --> 00:35:55,500

but this signal is going on and on and continuing.

712

00:35:55,500 --> 00:35:59,500

There is a transmitter here that's designed in a way I've never seen.

713

00:35:59,500 --> 00:36:01,500

All right, Aaron.

714

00:36:01,500 --> 00:36:03,500

Yeah, I've got you.

715

00:36:03,500 --> 00:36:05,500

It's moved in frequency.

716

00:36:05,500 --> 00:36:08,500

This is exactly what I've seen it doing before,

717

00:36:08,500 --> 00:36:13,500

but there's so much structure to it that it's clearly...

718

00:36:15,500 --> 00:36:19,500

There's so much structure to it, there's clearly something...

719

00:36:19,500 --> 00:36:22,500

Say it again, please.

720

00:36:22,500 --> 00:36:25,500

Hold on a minute. I've got to think.

721

00:36:34,500 --> 00:36:39,500

I was just suddenly short of breath and, like, I can say...

722

00:36:39,500 --> 00:36:42,500

I just hit pause or something. It was so weird.

723

00:36:42,500 --> 00:36:45,500

Let's not go either, Travis. I don't like this.

724

00:36:45,500 --> 00:36:48,500

It just went better. I don't know. It was weird.

725

00:36:48,500 --> 00:36:51,500

All of a sudden, my thought was not there.

726

00:36:51,500 --> 00:36:54,500

I couldn't finish what I was saying.

727

00:36:54,500 --> 00:36:58,500

God, that was freaking weird.

728

00:36:58,500 --> 00:37:01,500

That was freaking weird.

729

00:37:03,500 --> 00:37:05,500

I was trying to be easy, all of a sudden.

730

00:37:05,500 --> 00:37:07,500

And, like...

731

00:37:10,500 --> 00:37:12,500

I'm going over there, Aaron.

732

00:37:28,500 --> 00:37:31,500

God, that was freaking weird.

733

00:37:38,500 --> 00:37:40,500

I'm going to stand up for a second.

734

00:37:43,500 --> 00:37:45,500

I'm going to get a drink of water.

735

00:37:49,500 --> 00:37:51,500

Hey, Aaron, can you hear me?

736

00:37:51,500 --> 00:37:54,500

Yeah, I can hear you.

737

00:37:54,500 --> 00:37:56,500

He's gone due east.

738

00:37:56,500 --> 00:38:01,500

Dude, I know that you want to figure this out.

739

00:38:01,500 --> 00:38:03,500

But we've talked about this.

740

00:38:03,500 --> 00:38:04,500

Yeah.

741

00:38:04,500 --> 00:38:06,500

Well, let's get you out of here.

742

00:38:06,500 --> 00:38:09,500

Let me go stand in the silo and see if it stops.

743

00:38:09,500 --> 00:38:12,500

Then we'll know it's a signal that we can stop.

744

00:38:12,500 --> 00:38:15,500

Hey, guys, I'm going to go stand in the silo

745

00:38:15,500 --> 00:38:19,500

for a couple of minutes and see if I feel different.

746

00:38:21,500 --> 00:38:23,500

I've never had that happen to me in my life.

747

00:38:23,500 --> 00:38:28,500

If this is an effect of these microwave and radio wave signals

748

00:38:28,500 --> 00:38:30,500

that are here, the strange weird signal,

749

00:38:30,500 --> 00:38:35,500

you can shield out signals with a metal shield.

750

00:38:35,500 --> 00:38:38,500

And we've got these silos here on the ranch

751

00:38:38,500 --> 00:38:40,500

that are thick steel all the way around.

752

00:38:40,500 --> 00:38:44,500

So you get inside it and it's an electromagnetic quiet zone.

753

00:38:44,500 --> 00:38:47,500

Dude, you want to shut the door?

754

00:38:47,500 --> 00:38:50,500

Yeah, cause you leave a little bit of light.

755

00:38:51,500 --> 00:38:53,500

Holy s\*\*\*.

756

00:38:53,500 --> 00:38:55,500

What?

757

00:38:55,500 --> 00:38:57,500

Son of a bitch.

758

00:38:57,500 --> 00:38:59,500

Did it really go away?

759

00:38:59,500 --> 00:39:01,500

Yes, it's like a damn switch.

760

00:39:03,500 --> 00:39:04,500

This is too much.

761

00:39:04,500 --> 00:39:08,500

We need to look into the physiology of what's going on

762

00:39:08,500 --> 00:39:09,500

and why it's affecting you.

763

00:39:09,500 --> 00:39:13,500

And I'm standing right next to you and I feel right as rain.

764

00:39:14,500 --> 00:39:16,500

You may have stopped.

765

00:39:16,500 --> 00:39:18,500

You want to come back out and see?

766

00:39:21,500 --> 00:39:25,500

Yeah, I'm not feeling it now.

767

00:39:27,500 --> 00:39:29,500

I don't know what to make of this.

768

00:39:29,500 --> 00:39:32,500

I don't know how I feel about you staying here.

769

00:39:33,500 --> 00:39:35,500

Well, I feel fine now.

770

00:39:35,500 --> 00:39:37,500

I wonder if the signal's gone.

771

00:39:37,500 --> 00:39:40,500

Let's go in and see if Eric's still seeing the signal.

772

00:39:40,500 --> 00:39:41,500

Okay.

773

00:39:41,500 --> 00:39:45,500

I had this weird static electricity feeling all over my body.

774

00:39:45,500 --> 00:39:48,500

My skin was tingling, my hair felt like it was standing up.

775

00:39:48,500 --> 00:39:49,500

More than usual.

776

00:39:49,500 --> 00:39:53,500

But when I came out the last time, I no longer felt that feeling.

777

00:39:53,500 --> 00:39:55,500

Well, that's not a coincidence.

778

00:39:55,500 --> 00:39:57,500

Where's your spectrum analyzer?

779

00:39:57,500 --> 00:39:58,500

So I've got that.

780

00:39:58,500 --> 00:39:59,500

I've got that minimized.

781

00:39:59,500 --> 00:40:00,500

I'll bring it back up.

782

00:40:00,500 --> 00:40:01,500

Yeah.

783

00:40:01,500 --> 00:40:03,500

Does that look anything like what you were looking at?

784

00:40:03,500 --> 00:40:05,500

Yeah, no.

785

00:40:05,500 --> 00:40:07,500

It just looks like noise to me.

786

00:40:07,500 --> 00:40:10,500

Yeah, I don't think this is exceptional here.

787

00:40:10,500 --> 00:40:13,500

You know, it made me think of how the rabbi told us he believed

788

00:40:13,500 --> 00:40:16,500

that a portal could be allowing whatever it is

789

00:40:16,500 --> 00:40:18,500

that affects the ranching people here

790

00:40:18,500 --> 00:40:21,500

to come and go back and forth from this dimension to another.

791

00:40:21,500 --> 00:40:23,500

I don't know if that's true.

792

00:40:23,500 --> 00:40:27,500

But if we're experiencing evidence that we have the ability to provoke it,

793

00:40:27,500 --> 00:40:32,500

then what can we do to finally identify just what it is?

794

00:40:32,500 --> 00:40:37,500

I think looking at this, I think it's fine to call Thomas and say if it was this,

795

00:40:37,500 --> 00:40:39,500

was the culprit.

796

00:40:39,500 --> 00:40:40,500

It's not happening right now.

797

00:40:40,500 --> 00:40:42,500

Are you comfortable with that too?

798

00:40:42,500 --> 00:40:43,500

Well, I think so.

799

00:40:43,500 --> 00:40:47,500

Okay, well, I'll call him and see if he wants to come back.

800

00:40:47,500 --> 00:40:51,500

Hey, Brian.

801

00:40:51,500 --> 00:40:53,500

Hey, Thomas, how's it going?

802

00:40:53,500 --> 00:40:54,500

Yeah, I'm fine.

803

00:40:54,500 --> 00:40:57,500

You know, I got a little bit of a lingering headache over my left eye,

804

00:40:57,500 --> 00:41:01,500

but a sensation that I had throughout my head is gone.

805

00:41:01,500 --> 00:41:03,500

Well, that's a relief.

806

00:41:03,500 --> 00:41:08,500

I'm in here with the guys, and we're looking at the spectrum again,

807

00:41:08,500 --> 00:41:10,500

and it looks like things have quieted back down.

808

00:41:10,500 --> 00:41:15,500

So if you're comfortable with it, it would probably be a good time for you

809

00:41:15,500 --> 00:41:18,500

to make your way back to the ranch if you want to.

810

00:41:18,500 --> 00:41:20,500

Yeah, as it's all clear, I'll come back.

811

00:41:20,500 --> 00:41:23,500

All right, so we'll see you when you get back.

812

00:41:23,500 --> 00:41:24,500

Okay, see you soon.

813

00:41:24,500 --> 00:41:26,500

All right, thanks, Brian.

814

00:41:26,500 --> 00:41:33,500

I'm glad you're feeling better, and it's a relief to hear that Thomas isn't suffering from any effects.

815

00:41:33,500 --> 00:41:37,500

We fortunately dodged a bullet this time.

816

00:41:37,500 --> 00:41:42,500

I'm going to head outside and wait for him to get back.

817

00:41:42,500 --> 00:41:47,500

Weird day.

818

00:41:47,500 --> 00:41:53,500

There's always a little bit of fear when something weird happens to you.

819

00:41:53,500 --> 00:41:55,500

What is this phenomenon, though?

820

00:41:55,500 --> 00:41:58,500

Why did it affect me and Thomas and not the other guys?

821

00:41:58,500 --> 00:42:01,500

Is there something about our physiology?

822

00:42:01,500 --> 00:42:07,500

Or are we all at risk just by being here and conducting experiments?

823

00:42:07,500 --> 00:42:11,500

I've been on the ranch long enough to just say that it's unpredictable.

824

00:42:11,500 --> 00:42:14,500

You never know what's going to happen.

825

00:42:14,500 --> 00:42:17,500

But really now the question is, is moving forward?

826

00:42:17,500 --> 00:42:24,500

How do we better prepare for this, and what do we need to do to be able to help us understand where this is coming from?

827

00:42:24,500 --> 00:42:27,500

With the ranch, we're dealing with an intelligence.

828

00:42:27,500 --> 00:42:35,500

We're dealing with something that truly has command over space, time, even our very consciousness.

829

00:42:35,500 --> 00:42:41,500

Just when you're relaxed and not expecting something to occur, all hell breaks loose.

830

00:42:41,500 --> 00:42:48,500

It's can walk a ranch.

831

00:42:48,500 --> 00:42:53,500

There's a tunnel system going straight down for miles.

832

00:42:53,500 --> 00:42:55,500

It's right by the triangle.

833

00:42:55,500 --> 00:42:57,500

We need to look underground.

834

00:42:57,500 --> 00:42:59,500

I brought a ground penetrating radar.

835

00:42:59,500 --> 00:43:01,500

That's going crazy.

836

00:43:01,500 --> 00:43:03,500

We should start excavating.

837

00:43:03,500 --> 00:43:04,500

You ready to do this?

838

00:43:04,500 --> 00:43:05,500

Let's dig.

839

00:43:05,500 --> 00:43:06,500

Listen to this, guys.

840

00:43:06,500 --> 00:43:08,500

I don't know what's going on with it.

841

00:43:08,500 --> 00:43:09,500

It's detecting everywhere.

842

00:43:09,500 --> 00:43:10,500

Like we're triggering something.

843

00:43:10,500 --> 00:43:11,500

Yeah.

844

00:43:11,500 --> 00:43:12,500

Do you hear the gamma rays just go off?

845

00:43:12,500 --> 00:43:14,500

What's going on?
