

1
00:00:24,109 --> 00:00:20,910
welcome to shattered reality with their

2
00:00:26,909 --> 00:00:24,119
hosts Kate Valentine and faroush ah

3
00:00:30,560 --> 00:00:26,919
prepare to have your paradigms shifted

4
00:00:34,680 --> 00:00:30,570
in the truths questioned and now

5
00:00:36,990 --> 00:00:34,690
shattered reality hi welcome to the

6
00:00:40,260 --> 00:00:37,000
first attempt it are shattering your

7
00:00:43,050 --> 00:00:40,270
reality this is Kate and Ferruccio

8
00:00:45,960 --> 00:00:43,060
coming your way on air and up in the

9
00:00:49,530 --> 00:00:45,970
clouds tonight we're honored to have as

10
00:00:52,380 --> 00:00:49,540
our guest mr. Don Ecker his background

11
00:00:54,030 --> 00:00:52,390
in bhau's military law enforcement but

12
00:00:54,840 --> 00:00:54,040
most importantly along with his wife

13
00:00:58,530 --> 00:00:54,850

Vicky

14

00:01:01,380 --> 00:00:58,540

he established UFO magazine he is an

15

00:01:03,060 --> 00:01:01,390

intrepid UFO investigator very well

16

00:01:06,330 --> 00:01:03,070

known very well respected in the field

17

00:01:08,700 --> 00:01:06,340

and tonight he is here with us to

18

00:01:12,270 --> 00:01:08,710

discuss our very mysterious satellite

19

00:01:15,630 --> 00:01:12,280

the moon fittingly just yesterday

20

00:01:17,850 --> 00:01:15,640

morning we experienced the Blood Moon so

21

00:01:21,450 --> 00:01:17,860

done thank you so much for being patient

22

00:01:24,270 --> 00:01:21,460

for being with us and welcome to

23

00:01:26,790 --> 00:01:24,280

shattered reality well thank you so much

24

00:01:31,080 --> 00:01:26,800

and it's quite an honor to be your very

25

00:01:35,790 --> 00:01:31,090

first guest it's all yes we're very

26

00:01:37,560 --> 00:01:35,800

honored and I I have had a great

27

00:01:41,190 --> 00:01:37,570

interest this is Russia here I've had a

28

00:01:44,550 --> 00:01:41,200

great interest in moon anomalies for a

29

00:01:48,210 --> 00:01:44,560

good long time now and the one thing

30

00:01:50,130 --> 00:01:48,220

that has always struck me is something

31

00:01:53,340 --> 00:01:50,140

that I've heard you mention and I've

32

00:01:55,140 --> 00:01:53,350

mentioned it on blogs and so forth it

33

00:01:57,930 --> 00:01:55,150

has to do with the photographic

34

00:02:00,660 --> 00:01:57,940

collections that we are allowed to see

35

00:02:04,950 --> 00:02:00,670

of the moon the stuff NASA puts up for

36

00:02:07,170 --> 00:02:04,960

us and it's it's so far away and fuzzy

37

00:02:11,729 --> 00:02:07,180

and and you and I know that they send

38

00:02:13,530 --> 00:02:11,739

these us these probes up there and they

39
00:02:14,830 --> 00:02:13,540
have cameras on them and the cameras are

40
00:02:17,530 --> 00:02:14,840
great

41
00:02:19,570 --> 00:02:17,540
and with the things down here you can

42
00:02:23,470 --> 00:02:19,580
see a pimple on somebody's butt who's

43
00:02:25,809 --> 00:02:23,480
you know sunbathing on a on a rooftop in

44
00:02:28,710 --> 00:02:25,819
Manhattan so what's up with that Don

45
00:02:30,430 --> 00:02:28,720
what do you think well it's it's quite

46
00:02:36,430 --> 00:02:30,440
simple actually

47
00:02:39,610 --> 00:02:36,440
Purusha it's basically degrading of the

48
00:02:44,650 --> 00:02:39,620
of the photographs that have been it's

49
00:02:48,780 --> 00:02:44,660
been an intentional act by either NASA

50
00:02:54,180 --> 00:02:48,790
or the powers that be that they degrade

51
00:02:59,680 --> 00:02:54,190
these photographs down the extremely low

52
00:03:02,050 --> 00:02:59,690
resolution for anybody's guess now if I

53
00:03:05,979 --> 00:03:02,060
had to for example go into a court of

54
00:03:10,800 --> 00:03:05,989
law and swear to tell the truth raise my

55
00:03:14,140 --> 00:03:10,810
hand to testify I could not absolutely

56
00:03:17,170 --> 00:03:14,150
swear because I haven't yet seen the

57
00:03:21,430 --> 00:03:17,180
proof howsoever what I have done over

58
00:03:25,360 --> 00:03:21,440
the years I have interviewed not only as

59
00:03:28,900 --> 00:03:25,370
a radio broadcaster myself but I have

60
00:03:31,900 --> 00:03:28,910
interviewed lots of people from various

61
00:03:35,740 --> 00:03:31,910
walks of life that have been involved

62
00:03:41,379 --> 00:03:35,750
and interested in these types of items

63
00:03:46,089 --> 00:03:41,389

and including a number of people that

64

00:03:50,069 --> 00:03:46,099

have seen the unedited lunar photographs

65

00:03:54,729 --> 00:03:50,079

yeah that are that are available

66

00:03:57,580 --> 00:03:54,739

providing you have a need to know that

67

00:04:00,990 --> 00:03:57,590

that's a very telling phrase that

68

00:04:04,750 --> 00:04:01,000

anybody that's been in intelligence

69

00:04:09,309 --> 00:04:04,760

operations or military operations will

70

00:04:12,490 --> 00:04:09,319

recognize for example back in 1995 I

71

00:04:14,949 --> 00:04:12,500

interviewed one of the most amazing

72

00:04:17,650 --> 00:04:14,959

people that I've ever interviewed in

73

00:04:21,219 --> 00:04:17,660

almost twenty four years of broadcasting

74

00:04:24,760 --> 00:04:21,229

a guy by the name of Vito Sakaki who was

75

00:04:28,180 --> 00:04:24,770

a petrochemical engineer and during that

76

00:04:33,280 --> 00:04:28,190

show we discussed his almost three

77

00:04:38,820 --> 00:04:33,290

week odyssey back in 1979 trying to get

78

00:04:42,840 --> 00:04:38,830

into Houston NASA with one of his

79

00:04:47,380 --> 00:04:42,850

company clients who had come up from

80

00:04:51,510 --> 00:04:47,390

Venezuela that worked for a Venezuelan

81

00:04:55,390 --> 00:04:51,520

oil company that had a fascination with

82

00:04:58,510 --> 00:04:55,400

not only our Apollo missions to the moon

83

00:05:01,300 --> 00:04:58,520

but a book that had been written by a

84

00:05:04,420 --> 00:05:01,310

science writer by the name of George

85

00:05:09,390 --> 00:05:04,430

Leonard called somebody else is on the

86

00:05:11,860 --> 00:05:09,400

moon now after three weeks of some

87

00:05:14,920 --> 00:05:11,870

honorable mention ations

88

00:05:18,480 --> 00:05:14,930

that these two guys went through they

89

00:05:23,010 --> 00:05:18,490

finally were allowed to see actual

90

00:05:29,470 --> 00:05:23,020

unedited NASA photographs and they were

91

00:05:33,250 --> 00:05:29,480

astounded now the company that was

92

00:05:36,490 --> 00:05:33,260

working in connection with vetos company

93

00:05:39,880 --> 00:05:36,500

okay this engineer wanted to purchase

94

00:05:43,180 --> 00:05:39,890

some of these photographs so vetos

95

00:05:46,840 --> 00:05:43,190

company purchased them for them probably

96

00:05:49,840 --> 00:05:46,850

six weeks later they were sent and they

97

00:05:52,270 --> 00:05:49,850

were all horribly horribly degraded

98

00:05:56,290 --> 00:05:52,280

helpful I mean let's face it we can

99

00:06:00,190 --> 00:05:56,300

shoot literally somebody's license plate

100

00:06:04,120 --> 00:06:00,200

on their car from thousands of miles in

101

00:06:07,570 --> 00:06:04,130

outer space that is how how

102

00:06:12,970 --> 00:06:07,580

sophisticated our satellite technology

103

00:06:16,480 --> 00:06:12,980

is and the thought or the idea that the

104

00:06:18,930 --> 00:06:16,490

government NASA the military or anybody

105

00:06:21,970 --> 00:06:18,940

would ever put up with this lower

106

00:06:25,000 --> 00:06:21,980

resolution stuff is beyond the pale so

107

00:06:28,570 --> 00:06:25,010

they deliberately do it now I speculate

108

00:06:32,530 --> 00:06:28,580

that the reason they do that is so in

109

00:06:35,620 --> 00:06:32,540

fact people will not be able to see some

110

00:06:38,820 --> 00:06:35,630

of these amazing lunar artifacts that

111

00:06:42,030 --> 00:06:38,830

are apparently sitting up there yes yes

112

00:06:46,600 --> 00:06:42,040

well why do you think they would

113

00:06:50,950 --> 00:06:46,610

keep that to themselves well for

114

00:06:55,480 --> 00:06:50,960

actually the the same reason that the

115

00:07:01,210 --> 00:06:55,490

UFO topic has been kept under wraps for

116

00:07:04,690 --> 00:07:01,220

at least seventy years now they don't

117

00:07:07,600 --> 00:07:04,700

want this information out because if

118

00:07:10,630 --> 00:07:07,610

this information became publicly known

119

00:07:14,580 --> 00:07:10,640

Oh once again I'm speculate mmm-hmm this

120

00:07:20,170 --> 00:07:14,590

would absolutely turn our world

121

00:07:23,550 --> 00:07:20,180

topsy-turvy if suddenly the population

122

00:07:25,540 --> 00:07:23,560

of the planet earth were aware that we

123

00:07:29,860 --> 00:07:25,550

the human race

124

00:07:33,280 --> 00:07:29,870

are not alone now imagine how that news

125

00:07:36,100 --> 00:07:33,290

would be received in many many nations

126

00:07:39,760 --> 00:07:36,110

around the world but it would be

127

00:07:42,190 --> 00:07:39,770

frightening Don suppose we're not just

128

00:07:46,120 --> 00:07:42,200

not alone but we're not on top of the

129

00:07:48,220 --> 00:07:46,130

food chain well you know that's funny

130

00:07:51,400 --> 00:07:48,230

that you should mention that

131

00:07:55,320 --> 00:07:51,410

because for several months I've been

132

00:07:59,440 --> 00:07:55,330

working on a paper it's not done yet but

133

00:08:03,610 --> 00:07:59,450

it's involved with something called the

134

00:08:07,660 --> 00:08:03,620

Harrison scenario now basically what

135

00:08:11,680 --> 00:08:07,670

that is back in nineteen fifty-eight

136

00:08:15,900 --> 00:08:11,690

fifty-nine the first SETI search by

137

00:08:20,920 --> 00:08:15,910

Professor Frank Drake was begun okay

138

00:08:24,480 --> 00:08:20,930

with zero incidentally zero results and

139

00:08:28,120 --> 00:08:24,490

but that was the launching point of our

140

00:08:31,300 --> 00:08:28,130

attempt to discover radio signals

141

00:08:35,380 --> 00:08:31,310

intelligence signals throughout our

142

00:08:38,890 --> 00:08:35,390

known universe primarily our galaxy the

143

00:08:43,000 --> 00:08:38,900

Milky Way and except for only a couple

144

00:08:45,990 --> 00:08:43,010

of anomalous signals that have been

145

00:08:50,650 --> 00:08:46,000

received but they've never been repeated

146

00:08:52,630 --> 00:08:50,660

okay we have heard nothing out there

147

00:08:55,810 --> 00:08:52,640

it's kind of like walking through a

148

00:08:58,840 --> 00:08:55,820

cemetery just nothing but science

149

00:08:59,830 --> 00:08:58,850

well there could be a couple of reasons

150

00:09:03,790 --> 00:08:59,840

for that

151
00:09:06,850 --> 00:09:03,800
ladies number one nobody's out there but

152
00:09:09,960 --> 00:09:06,860
I don't think anybody truly believes

153
00:09:13,200 --> 00:09:09,970
that now number two they have other

154
00:09:16,810 --> 00:09:13,210
technology other than radio signals that

155
00:09:21,130 --> 00:09:16,820
we haven't yet discovered how to tap

156
00:09:24,210 --> 00:09:21,140
into or there's another possibility that

157
00:09:28,360 --> 00:09:24,220
they are out there but they're not

158
00:09:29,680 --> 00:09:28,370
broadcasting because they know something

159
00:09:33,430 --> 00:09:29,690
we don't

160
00:09:36,430 --> 00:09:33,440
and what that something maybe is that

161
00:09:41,520 --> 00:09:36,440
top of the food chain predator that

162
00:09:46,650 --> 00:09:41,530
you're alluding to in other words a

163
00:09:50,290 --> 00:09:46,660

civilization of some type that maybe so

164

00:09:53,560 --> 00:09:50,300

xenophobic that when they discover an

165

00:09:56,380 --> 00:09:53,570

emerging civilization perhaps they're

166

00:09:59,560 --> 00:09:56,390

looking down the road and saying oh boy

167

00:10:01,930 --> 00:09:59,570

a possible competitor and they wipe them

168

00:10:05,140 --> 00:10:01,940

out that's and that's one of the

169

00:10:08,800 --> 00:10:05,150

scariest of all the possibilities of why

170

00:10:11,380 --> 00:10:08,810

we haven't heard anything Wow so you

171

00:10:14,200 --> 00:10:11,390

think there's been an actual threat made

172

00:10:16,710 --> 00:10:14,210

at high levels of government and they

173

00:10:19,450 --> 00:10:16,720

think that resident panic people

174

00:10:21,490 --> 00:10:19,460

although I don't think the threats could

175

00:10:24,190 --> 00:10:21,500

get a lot more serious and the real

176

00:10:26,470 --> 00:10:24,200

threats are today I mean we have enough

177

00:10:29,320 --> 00:10:26,480

problems without having you know killer

178

00:10:32,380 --> 00:10:29,330

aliens well no I'm not I'm not

179

00:10:37,330 --> 00:10:32,390

necessarily suggesting that that that's

180

00:10:42,280 --> 00:10:37,340

what it is but okay just take this for a

181

00:10:47,430 --> 00:10:42,290

second I can't consider it what if we

182

00:10:52,240 --> 00:10:47,440

suddenly were confronted with a 100%

183

00:10:55,480 --> 00:10:52,250

totally clean energy source that we

184

00:10:59,470 --> 00:10:55,490

could reproduce mm-hmm here on planet

185

00:11:03,730 --> 00:10:59,480

Earth what would that do to the global

186

00:11:05,560 --> 00:11:03,740

community see you wouldn't energy well

187

00:11:08,680 --> 00:11:05,570

it could be anything it doesn't matter

188

00:11:11,170 --> 00:11:08,690

or even it we big wind

189

00:11:14,890 --> 00:11:11,180

well yeah but but it's not available is

190

00:11:17,520 --> 00:11:14,900

it no not JP Morgan killed that one what

191

00:11:20,650 --> 00:11:17,530

would happen to the global oil

192

00:11:22,810 --> 00:11:20,660

conglomerates that basically surround

193

00:11:25,180 --> 00:11:22,820

the globe right now they would be out of

194

00:11:27,640 --> 00:11:25,190

business overnight you don't for one

195

00:11:32,050 --> 00:11:27,650

second think that anybody would let that

196

00:11:37,600 --> 00:11:32,060

happen to you no no I don't which brings

197

00:11:39,070 --> 00:11:37,610

us to another question if about why we

198

00:11:42,010 --> 00:11:39,080

didn't go back to the moon and what

199

00:11:44,680 --> 00:11:42,020

happened to the Chinese lunar probe the

200

00:11:46,840 --> 00:11:44,690

the little Jade rabbit and why didn't

201
00:11:49,270 --> 00:11:46,850
the Russians get up there after we went

202
00:11:52,900 --> 00:11:49,280
why the heck didn't we go back after we

203
00:11:55,270 --> 00:11:52,910
spent all that money the millions and

204
00:11:57,430 --> 00:11:55,280
millions of dollars training those brave

205
00:11:59,770 --> 00:11:57,440
men and women to be astronauts and the

206
00:12:03,570 --> 00:11:59,780
millions of tax dollars that went on

207
00:12:06,790 --> 00:12:03,580
those those rocket launchers and the the

208
00:12:08,740 --> 00:12:06,800
capsules and the rover is the lunar

209
00:12:10,750 --> 00:12:08,750
Rovers for the the fellas to ride around

210
00:12:14,080 --> 00:12:10,760
in what you know what's your thought on

211
00:12:16,120 --> 00:12:14,090
that okay well you asked you asked a lot

212
00:12:17,980 --> 00:12:16,130
of questions there and not only this

213
00:12:21,490 --> 00:12:17,990

hour but I could talk to you for the

214

00:12:25,860 --> 00:12:21,500

next three hours about that that'd be

215

00:12:28,570 --> 00:12:25,870

fabulous but I guess sure I understand

216

00:12:31,810 --> 00:12:28,580

this is something that I've been

217

00:12:33,460 --> 00:12:31,820

researching and studying since the early

218

00:12:37,870 --> 00:12:33,470

1990s

219

00:12:41,830 --> 00:12:37,880

and we didn't spend millions Cape and

220

00:12:47,280 --> 00:12:41,840

Persia we spent billions and the

221

00:12:50,590 --> 00:12:47,290

Russians spent billions and we both had

222

00:12:54,400 --> 00:12:50,600

casualties in that crazy race to the

223

00:12:57,730 --> 00:12:54,410

moon and you know number one we got to

224

00:13:00,280 --> 00:12:57,740

ask ourselves first what in the world

225

00:13:04,360 --> 00:13:00,290

were we trying to get there so quickly

226

00:13:08,440 --> 00:13:04,370

for now that's question that I have

227

00:13:12,880 --> 00:13:08,450

never heard anybody answer we started

228

00:13:15,120 --> 00:13:12,890

the space race about 1962 with President

229

00:13:19,840 --> 00:13:15,130

Kennedy when he challenged the nation

230

00:13:22,489 --> 00:13:19,850

not only to beat the Soviet Union who

231

00:13:25,459 --> 00:13:22,499

remember what the first

232

00:13:28,329 --> 00:13:25,469

satellite in orbit they put the first

233

00:13:32,179 --> 00:13:28,339

human being in space

234

00:13:35,419 --> 00:13:32,189

okay the Russians did it and we were

235

00:13:38,659 --> 00:13:35,429

left in the dust and a lot of people

236

00:13:41,419 --> 00:13:38,669

were totally freaked out about that did

237

00:13:44,149 --> 00:13:41,429

we lose our technological edge well we

238

00:13:46,399 --> 00:13:44,159

showed that once we got rolling we were

239

00:13:48,169 --> 00:13:46,409

truly a force to be reckoned with but

240

00:13:52,849 --> 00:13:48,179

why did we have to get up there so

241

00:13:58,789 --> 00:13:52,859

quickly well here's what some of my

242

00:14:03,339 --> 00:13:58,799

research has discovered number one for

243

00:14:05,379 --> 00:14:03,349

over 400 years

244

00:14:09,529 --> 00:14:05,389

astronomers that I'm talking about

245

00:14:13,549 --> 00:14:09,539

world-class astronomers were observing

246

00:14:17,589 --> 00:14:13,559

the moon and they were seeing sights on

247

00:14:22,549 --> 00:14:17,599

the moon that were inexplicable and

248

00:14:26,149 --> 00:14:22,559

amazing okay they were seeing okay this

249

00:14:30,639 --> 00:14:26,159

is not only with telescopes but also

250

00:14:34,699 --> 00:14:30,649

with naked eyes going back to the Year

251

00:14:39,339 --> 00:14:34,709

1541 okay now how do I know know that

252

00:14:44,809 --> 00:14:39,349

well NASA contracted out to an academic

253

00:14:50,809 --> 00:14:44,819

group during the Apollo race okay to do

254

00:14:58,089 --> 00:14:50,819

a study of lunar transient phenomena

255

00:15:01,219 --> 00:14:58,099

called NASA technical report TR our 277

256

00:15:04,460 --> 00:15:01,229

which I incidentally have a copy of you

257

00:15:07,759 --> 00:15:04,470

can also see that online it's also

258

00:15:10,129 --> 00:15:07,769

available online but at any rate they

259

00:15:13,819 --> 00:15:10,139

had been observing everything from

260

00:15:17,719 --> 00:15:13,829

lights in craters they had been

261

00:15:21,339 --> 00:15:17,729

observing lights moving across the moon

262

00:15:24,409 --> 00:15:21,349

they had observed what they called a

263

00:15:28,729 --> 00:15:24,419

clouding effect happening over many

264

00:15:33,379 --> 00:15:28,739

craters some of the craters continuously

265

00:15:35,530 --> 00:15:33,389

off and on for years if not decades and

266

00:15:41,530 --> 00:15:35,540

the British Royal Astronomical

267

00:15:45,879 --> 00:15:41,540

comical society in the early 1870s had

268

00:15:49,420 --> 00:15:45,889

seen so many sights on the moon and some

269

00:15:52,150 --> 00:15:49,430

of these sites they claimed at the time

270

00:15:55,960 --> 00:15:52,160

appeared like they were looking through

271

00:15:58,930 --> 00:15:55,970

their telescopes at a city from the sky

272

00:16:03,189 --> 00:15:58,940

Wow with the lights and everything they

273

00:16:05,759 --> 00:16:03,199

observed that for over three years okay

274

00:16:09,970 --> 00:16:05,769

the British Royal Astronomical Society

275

00:16:12,490 --> 00:16:09,980

amazing NASA NASA had to know that there

276

00:16:15,400 --> 00:16:12,500

were a lot of questions about that and

277

00:16:18,910 --> 00:16:15,410

thus the race was started now I'm

278

00:16:23,050 --> 00:16:18,920

presuming both you ladies were around in

279

00:16:27,340 --> 00:16:23,060

the 1960s yes you will you will recall

280

00:16:32,290 --> 00:16:27,350

all the promises that were being made

281

00:16:34,720 --> 00:16:32,300

both implicit and explicitly promises of

282

00:16:38,620 --> 00:16:34,730

putting colonies on the moon

283

00:16:43,180 --> 00:16:38,630

putting manufacturing sites on the moon

284

00:16:46,660 --> 00:16:43,190

doing a lot of things well we finally

285

00:16:51,550 --> 00:16:46,670

get up there in July of 1969

286

00:16:54,460 --> 00:16:51,560

now that was almost immediately when low

287

00:16:58,960 --> 00:16:54,470

key rumors started about what was

288

00:17:03,550 --> 00:16:58,970

actually discovered up there and years

289

00:17:07,510 --> 00:17:03,560

later years later after that after the

290

00:17:13,630 --> 00:17:07,520

Apollo operation was totally shut down

291

00:17:18,429 --> 00:17:13,640

in December of 1972 with other missions

292

00:17:21,069 --> 00:17:18,439

scheduled to be launched rockets already

293

00:17:24,490 --> 00:17:21,079

built the astronauts already trained

294

00:17:28,120 --> 00:17:24,500

everything was paid for NASA pulled the

295

00:17:31,570 --> 00:17:28,130

plug now here's here's something else

296

00:17:35,039 --> 00:17:31,580

that you may or may not be aware of when

297

00:17:37,990 --> 00:17:35,049

the first missions went to the moon and

298

00:17:40,419 --> 00:17:38,000

believe me when I first made this

299

00:17:43,120 --> 00:17:40,429

announcement about 20 years ago after I

300

00:17:46,840 --> 00:17:43,130

discovered it and I ended up calling up

301
00:17:48,830 --> 00:17:46,850
NASA from UFO magazine to make sure that

302
00:17:52,039 --> 00:17:48,840
I wasn't full of it

303
00:17:55,100 --> 00:17:52,049
and they basically said well yeah you're

304
00:17:57,740 --> 00:17:55,110
right the first astronauts that went up

305
00:18:02,390 --> 00:17:57,750
there were armed they carried weapons

306
00:18:04,399 --> 00:18:02,400
with them yes yes I do recall reading

307
00:18:11,120 --> 00:18:04,409
that what kind of weapon so I mean what

308
00:18:13,549 --> 00:18:11,130
would you use the no no no the usage

309
00:18:16,669 --> 00:18:13,559
they carried 45 caliber automatic

310
00:18:20,570 --> 00:18:16,679
pistols and the fact of the matter is

311
00:18:24,110 --> 00:18:20,580
yes that will shoot an event it will oh

312
00:18:26,180 --> 00:18:24,120
sure yeah it's not oxygen that fuels it

313
00:18:29,990 --> 00:18:26,190

it's the propellant in the cartridge

314

00:18:32,149 --> 00:18:30,000

which is a gas okay because I thought it

315

00:18:34,880 --> 00:18:32,159

almost like an explosive I don't I don't

316

00:18:38,899 --> 00:18:34,890

really know much about guns as a matter

317

00:18:41,919 --> 00:18:38,909

of fact I don't know Wow why would they

318

00:18:43,549 --> 00:18:41,929

yeah I'll think that I think that

319

00:18:45,620 --> 00:18:43,559

what's-his-name told me that the

320

00:18:47,419 --> 00:18:45,630

astronaut Edgar Mitchell nation' that

321

00:18:48,950 --> 00:18:47,429

yes go ahead I'm sorry

322

00:18:55,070 --> 00:18:48,960

yeah we don't mean to interrupt you real

323

00:18:57,799 --> 00:18:55,080

easy yeah it's well it's it's it's true

324

00:19:00,049 --> 00:18:57,809

and now when I called up NASA mmm-hmm

325

00:19:03,710 --> 00:19:00,059

and I talked to the public spokesperson

326

00:19:06,950 --> 00:19:03,720

I asked him I said why in the name of

327

00:19:09,830 --> 00:19:06,960

all that's holy what those guys have

328

00:19:12,830 --> 00:19:09,840

been carrying a weapon and he said well

329

00:19:15,289 --> 00:19:12,840

you know we were afraid now this

330

00:19:17,360 --> 00:19:15,299

incidentally and let me tell you this

331

00:19:20,029 --> 00:19:17,370

right up front I didn't believe this guy

332

00:19:22,490 --> 00:19:20,039

for a second although he may have

333

00:19:24,409 --> 00:19:22,500

believed it he may have been told that

334

00:19:27,620 --> 00:19:24,419

he believed that I didn't believe the

335

00:19:29,690 --> 00:19:27,630

story that when they went up there in

336

00:19:33,440 --> 00:19:29,700

case something happened when they were

337

00:19:36,139 --> 00:19:33,450

coming back and and their landing got

338

00:19:39,620 --> 00:19:36,149

screwed up and they landed in a jungle

339

00:19:42,230 --> 00:19:39,630

oh they they wouldn't be unarmed well

340

00:19:46,700 --> 00:19:42,240

here was the thing uh-huh planet Earth

341

00:19:50,389 --> 00:19:46,710

is 75% water well you remember if you

342

00:19:52,760 --> 00:19:50,399

remember when they were the moon shots

343

00:19:56,360 --> 00:19:52,770

were coming back where did they land

344

00:19:59,180 --> 00:19:56,370

they all landed in the ocean okay so

345

00:20:03,530 --> 00:19:59,190

that's why I thought this guy was

346

00:20:06,590 --> 00:20:03,540

trying to sell me a story but here's why

347

00:20:08,690 --> 00:20:06,600

I think once again I got to tell you I'm

348

00:20:12,440 --> 00:20:08,700

speculating that when they went up there

349

00:20:23,380 --> 00:20:12,450

quite honestly they did not know what

350

00:20:31,520 --> 00:20:26,300

that's just what they would have had to

351
00:20:33,890 --> 00:20:31,530
have expected a target I mean there's no

352
00:20:37,340 --> 00:20:33,900
point in having a gun just to shoot it

353
00:20:40,460 --> 00:20:37,350
off I mean so and they would have

354
00:20:42,740 --> 00:20:40,470
expected a target that a gun would be

355
00:20:46,970 --> 00:20:42,750
effective against or are they just

356
00:20:49,990 --> 00:20:46,980
guessing I'm just guessing god only

357
00:20:57,980 --> 00:20:55,100
don't but but here's the other thing now

358
00:21:01,130 --> 00:20:57,990
in in my years of research on lunar

359
00:21:04,960 --> 00:21:01,140
phenomena mm-hmm I found a number of

360
00:21:12,050 --> 00:21:04,970
photographs that were to my eyes

361
00:21:15,740 --> 00:21:12,060
shocking yeah they definitely show what

362
00:21:19,670 --> 00:21:15,750
I believed them to be artificial

363
00:21:22,370 --> 00:21:19,680

artifacts on the moon now if if I'm

364

00:21:25,790 --> 00:21:22,380

correct and if those photographs which

365

00:21:30,010 --> 00:21:25,800

incidentally were all from NASA these

366

00:21:33,610 --> 00:21:30,020

were all NASA photographs if I'm correct

367

00:21:37,310 --> 00:21:33,620

that these showed an artificial

368

00:21:40,250 --> 00:21:37,320

construct well we certainly to my

369

00:21:42,500 --> 00:21:40,260

knowledge didn't have the capability to

370

00:21:45,050 --> 00:21:42,510

put some of the things up there that

371

00:21:48,800 --> 00:21:45,060

appear to be there so what does that

372

00:21:50,210 --> 00:21:48,810

leave us with number one here's one

373

00:21:53,120 --> 00:21:50,220

possibility

374

00:21:55,700 --> 00:21:53,130

you know this planet has been around for

375

00:22:00,380 --> 00:21:55,710

four-and-a-half billion years

376

00:22:03,500 --> 00:22:00,390

wait and the human race is in I believe

377

00:22:08,240 --> 00:22:03,510

it to be much older than its given

378

00:22:13,519 --> 00:22:08,250

credit for but hey look we cannot even

379

00:22:17,060 --> 00:22:13,529

agree on who killed president can

380

00:22:19,700 --> 00:22:17,070

which now is 50 years ago right mm-hmm

381

00:22:22,060 --> 00:22:19,710

we don't know I mean there's still a lot

382

00:22:27,500 --> 00:22:22,070

of controversy about that

383

00:22:31,159 --> 00:22:27,510

freshman yeah so here's here's something

384

00:22:36,310 --> 00:22:31,169

to think about our history our written

385

00:22:43,370 --> 00:22:36,320

history as we know it goes back to about

386

00:22:46,100 --> 00:22:43,380

3500 BC okay just a Titch under 6000

387

00:22:49,370 --> 00:22:46,110

years great that was the world's first

388

00:22:53,930 --> 00:22:49,380

civilization that we recognized which

389

00:22:57,820 --> 00:22:53,940

was in Sumer okay the land of between

390

00:23:02,600 --> 00:22:57,830

the Euphrates and the in what is today

391

00:23:06,139 --> 00:23:02,610

Iraq okay but do we really believe that

392

00:23:09,230 --> 00:23:06,149

that is the earliest civilization I do

393

00:23:11,720 --> 00:23:09,240

not well they found the stuff in Turkey

394

00:23:13,909 --> 00:23:11,730

you know that ten thousand twelve

395

00:23:15,470 --> 00:23:13,919

thousand year old civilization and

396

00:23:19,370 --> 00:23:15,480

teriyaki gold Becky

397

00:23:23,210 --> 00:23:19,380

Eppley boy yes yes yes that is correct

398

00:23:25,549 --> 00:23:23,220

but what about civilizations before that

399

00:23:30,399 --> 00:23:25,559

and that incidentally was about the time

400

00:23:35,870 --> 00:23:30,409

of the cessation of the last ice age now

401
00:23:38,600 --> 00:23:35,880
since that time our world's oceans have

402
00:23:42,549 --> 00:23:38,610
risen in some places up to several

403
00:23:46,610 --> 00:23:42,559
hundred feet higher than what they were

404
00:23:50,750 --> 00:23:46,620
15,000 years ago who knows what was

405
00:23:52,490 --> 00:23:50,760
submerged by that great deluge now is it

406
00:23:56,060 --> 00:23:52,500
possible that there might have been an

407
00:23:59,090 --> 00:23:56,070
early human civilization that was very

408
00:24:01,519 --> 00:23:59,100
highly advanced that went to the moon in

409
00:24:05,480 --> 00:24:01,529
other words ancient human artifacts

410
00:24:07,490 --> 00:24:05,490
that's one possibility now India bears

411
00:24:11,990 --> 00:24:07,500
that out a little bit you know the the

412
00:24:14,570 --> 00:24:12,000
Indian literature talks about another

413
00:24:16,630 --> 00:24:14,580

civilization and there's some indication

414

00:24:20,630 --> 00:24:16,640

that there were nuclear weapons in that

415

00:24:25,340 --> 00:24:20,640

prehistoric Indian civilization exactly

416

00:24:30,799 --> 00:24:25,350

exactly you are absolutely correct now

417

00:24:34,480 --> 00:24:30,809

what if there was another boy let me I'm

418

00:24:45,289 --> 00:24:40,450

what what if at some point in our past

419

00:24:48,320 --> 00:24:45,299

something on another civilization from

420

00:24:51,740 --> 00:24:48,330

outside of our solar system came here

421

00:24:55,789 --> 00:24:51,750

found earth and let's face it this

422

00:24:59,330 --> 00:24:55,799

planet is hospitable to life and for

423

00:25:04,600 --> 00:24:59,340

whatever reason set up an observing base

424

00:25:08,710 --> 00:25:04,610

on the moon that is no longer active or

425

00:25:13,330 --> 00:25:08,720

what if this is another possibility

426

00:25:14,659 --> 00:25:13,340

there are still ongoing activities there

427

00:25:17,149 --> 00:25:14,669

hmm

428

00:25:19,549 --> 00:25:17,159

well and that's in fact what was

429

00:25:22,010 --> 00:25:19,559

discovered by our Apollo mission now

430

00:25:23,870 --> 00:25:22,020

here's something that that kind of play

431

00:25:27,680 --> 00:25:23,880

into that that I have always found

432

00:25:32,090 --> 00:25:27,690

curious there Russians back during that

433

00:25:35,180 --> 00:25:32,100

period of time were prideful if nothing

434

00:25:40,419 --> 00:25:35,190

else and the fact that we got to the

435

00:25:43,669 --> 00:25:40,429

moon and they didn't never struck me as

436

00:25:46,549 --> 00:25:43,679

quite right I would have thought that

437

00:25:50,029 --> 00:25:46,559

the Russians would have gone there just

438

00:25:52,549 --> 00:25:50,039

to prove that they could do it but they

439

00:25:57,049 --> 00:25:52,559

never did they never did

440

00:25:59,899 --> 00:25:57,059

now what the possibility may be although

441

00:26:05,450 --> 00:25:59,909

you'd never get anybody to admit this is

442

00:26:08,600 --> 00:26:05,460

that NASA was warned off the moon and

443

00:26:12,320 --> 00:26:08,610

the warning was such that they relayed

444

00:26:14,539 --> 00:26:12,330

it to the Soviet Union and the Russians

445

00:26:16,700 --> 00:26:14,549

knew better then didn't try to go up

446

00:26:18,590 --> 00:26:16,710

there at that period of time it

447

00:26:20,870 --> 00:26:18,600

certainly doesn't make any sense Don

448

00:26:23,990 --> 00:26:20,880

that they did not want to at least

449

00:26:27,169 --> 00:26:24,000

duplicate our feet and do something more

450

00:26:30,470 --> 00:26:27,179

there there is a rumor which I think is

451
00:26:33,710 --> 00:26:30,480
not true fallacious as it were that Yuri

452
00:26:34,399 --> 00:26:33,720
Gagarin got to the moon I don't think

453
00:26:37,220 --> 00:26:34,409
that's true

454
00:26:38,530 --> 00:26:37,230
but there's a circulating rumor to that

455
00:26:41,330 --> 00:26:38,540
effect

456
00:26:44,810 --> 00:26:41,340
and you do know that the Chinese had

457
00:26:47,720 --> 00:26:44,820
just recently put on that you that lunar

458
00:26:51,710 --> 00:26:47,730
probe which was called Jade rabbit right

459
00:26:53,720 --> 00:26:51,720
and it broke down yeah mm-hmm saw some

460
00:26:56,240 --> 00:26:53,730
strange things and they they got really

461
00:26:57,920 --> 00:26:56,250
embarrassed about it but now we haven't

462
00:27:01,490 --> 00:26:57,930
heard a word that they're they're going

463
00:27:04,850 --> 00:27:01,500

back no no sign of a rerun there yeah

464

00:27:07,070 --> 00:27:04,860

that does sound likely either you know

465

00:27:08,150 --> 00:27:07,080

because obviously once you establish

466

00:27:11,030 --> 00:27:08,160

those programs

467

00:27:13,790 --> 00:27:11,040

it's an enormous expense but then to

468

00:27:16,010 --> 00:27:13,800

keep them going it's not that great an

469

00:27:18,110 --> 00:27:16,020

expense that most of the groundwork has

470

00:27:21,110 --> 00:27:18,120

been done it's just the sign I'm it's

471

00:27:22,280 --> 00:27:21,120

not yeah it's not inexpensive but you

472

00:27:23,480 --> 00:27:22,290

would think that they would have

473

00:27:25,610 --> 00:27:23,490

followed that up

474

00:27:28,130 --> 00:27:25,620

and then there was the other thing that

475

00:27:31,000 --> 00:27:28,140

Purusha was telling me about that time

476
00:27:34,220 --> 00:27:31,010
we what fired rockets into the moon yes

477
00:27:38,240 --> 00:27:34,230
Frankie Bell yes I was very upset by

478
00:27:42,110 --> 00:27:38,250
that at the time was at 2009 we had a

479
00:27:44,720 --> 00:27:42,120
probe going around the moon and they

480
00:27:46,550 --> 00:27:44,730
decided to detonate a rocket towards I

481
00:27:49,280 --> 00:27:46,560
believe it was the South Pole of the

482
00:27:52,580 --> 00:27:49,290
moon they were looking for water so they

483
00:27:54,110 --> 00:27:52,590
said but I can't see bombing something

484
00:27:56,630 --> 00:27:54,120
when you really aren't clear about

485
00:27:59,240 --> 00:27:56,640
what's there you know if what we're

486
00:28:01,220 --> 00:27:59,250
giving to believe is you know we don't

487
00:28:03,170 --> 00:28:01,230
know quite what's there and I think that

488
00:28:05,630 --> 00:28:03,180

that is like why would you bomb

489

00:28:06,980 --> 00:28:05,640

something just to bomb it or to see if

490

00:28:09,110 --> 00:28:06,990

isn't there a better way to see if

491

00:28:10,640 --> 00:28:09,120

there's water didn't the Indians go up

492

00:28:12,290 --> 00:28:10,650

there and discover that there was a

493

00:28:14,510 --> 00:28:12,300

little more water than we thought they

494

00:28:16,700 --> 00:28:14,520

didn't bomb the moon so I was like

495

00:28:19,400 --> 00:28:16,710

really kind of upset by that and

496

00:28:21,350 --> 00:28:19,410

I don't want to go into my experience or

497

00:28:24,980 --> 00:28:21,360

involving that which was a sort of a

498

00:28:27,670 --> 00:28:24,990

remote viewing experience but since I

499

00:28:31,520 --> 00:28:27,680

did mention the remote viewing mm-hmm

500

00:28:34,040 --> 00:28:31,530

you had mentioned to me that you had a

501
00:28:36,590 --> 00:28:34,050
meeting with Ingo Swann where he talked

502
00:28:40,340 --> 00:28:36,600
about his remote viewing experience was

503
00:28:41,930 --> 00:28:40,350
far more extensive than mine and I just

504
00:28:47,430 --> 00:28:41,940
wondered if you had anything to tell us

505
00:28:51,299 --> 00:28:47,440
about that yeah I met Ingo Swann

506
00:28:54,869 --> 00:28:51,309
oh geez I guess it's been 15 or more

507
00:28:58,560 --> 00:28:54,879
years ago when I was asked to give a

508
00:29:01,289 --> 00:28:58,570
talk back in Bordentown New Jersey by

509
00:29:07,409 --> 00:29:01,299
mr. Pat Market tell y'all god bless him

510
00:29:11,700 --> 00:29:07,419
yes and you know I course knew then who

511
00:29:15,240 --> 00:29:11,710
ingo was but I was really surprised when

512
00:29:20,430 --> 00:29:15,250
he traveled down from New York City to

513
00:29:23,220 --> 00:29:20,440

hear my lecture and afterwards we all a

514

00:29:26,909 --> 00:29:23,230

number of people there got together and

515

00:29:28,889 --> 00:29:26,919

we were all talking and exchanging you

516

00:29:33,869 --> 00:29:28,899

know contact information on what have

517

00:29:36,389 --> 00:29:33,879

you and angle and I became very well at

518

00:29:39,990 --> 00:29:36,399

the time we became very friendly

519

00:29:44,730 --> 00:29:40,000

now after Vicki and I got back out here

520

00:29:48,649 --> 00:29:44,740

to the west coast about a year or two

521

00:29:51,990 --> 00:29:48,659

years later Indo who had family out here

522

00:29:54,480 --> 00:29:52,000

was coming out for a visit and one of

523

00:29:57,149 --> 00:29:54,490

our mutual friends

524

00:29:59,639 --> 00:29:57,159

Ingo asked this person if he would

525

00:30:03,269 --> 00:29:59,649

contact Vicki and I because he wanted to

526

00:30:07,100 --> 00:30:03,279

get together for dinner out here and we

527

00:30:11,340 --> 00:30:07,110

said sure absolutely so he came out here

528

00:30:16,710 --> 00:30:11,350

and we all met at an Italian restaurant

529

00:30:18,629 --> 00:30:16,720

in burbank lovely little cafe and we had

530

00:30:23,940 --> 00:30:18,639

about a four and a half almost a five

531

00:30:27,060 --> 00:30:23,950

hour dinner party and we got a chance to

532

00:30:30,149 --> 00:30:27,070

really get some in-depth talking done

533

00:30:32,100 --> 00:30:30,159

Ingo really quizzed me on some of the

534

00:30:35,039 --> 00:30:32,110

things that I had been discovering in my

535

00:30:38,399 --> 00:30:35,049

lunar research and I of course had a

536

00:30:42,029 --> 00:30:38,409

copy of his book penetration had read it

537

00:30:45,600 --> 00:30:42,039

about three times and I was dying to

538

00:30:49,499 --> 00:30:45,610

talk to him about his remote viewing

539

00:30:52,440 --> 00:30:49,509

experiment now I'm sure for oh sure you

540

00:30:55,680 --> 00:30:52,450

had both you ladies read penetration I

541

00:30:57,910 --> 00:30:55,690

have not I have certainly yes I have a

542

00:31:01,260 --> 00:30:57,920

copy of it right on my

543

00:31:03,120 --> 00:31:01,270

my little laptop and I keep it there

544

00:31:07,540 --> 00:31:03,130

yeah

545

00:31:10,390 --> 00:31:07,550

well but perhaps some of the listeners

546

00:31:12,160 --> 00:31:10,400

really are it's hard to believe but

547

00:31:16,780 --> 00:31:12,170

maybe they're not familiar with Ingo

548

00:31:18,970 --> 00:31:16,790

Swann so just that he is and it just not

549

00:31:21,670 --> 00:31:18,980

only he's sort of the remote viewers

550

00:31:24,880 --> 00:31:21,680

remote viewer he was one of the people

551
00:31:27,250 --> 00:31:24,890
who started the remote viewing program

552
00:31:32,340 --> 00:31:27,260
out in Stanford Stanford research

553
00:31:35,920 --> 00:31:32,350
industry with Russell Targ and

554
00:31:37,720 --> 00:31:35,930
the other fellows name is God no no but

555
00:31:40,720 --> 00:31:37,730
uh how put us that's it

556
00:31:45,600 --> 00:31:40,730
how put off and Russell Targ Ingo Swann

557
00:31:49,180 --> 00:31:45,610
and well Ingo was the person that

558
00:31:53,710 --> 00:31:49,190
developed the protocols for the

559
00:31:57,340 --> 00:31:53,720
government's secret for 20 years remote

560
00:32:00,700 --> 00:31:57,350
viewing process Stargate we've all heard

561
00:32:03,160 --> 00:32:00,710
about Stargate absolutely and dark eight

562
00:32:06,390 --> 00:32:03,170
was was basically was put together by

563
00:32:10,870 --> 00:32:06,400

Swann he was one of the most gifted

564

00:32:15,580 --> 00:32:10,880

psychics in the world okay as a matter

565

00:32:18,280 --> 00:32:15,590

of fact he could be almost scary could

566

00:32:20,500 --> 00:32:18,290

be he could be almost scary and what I

567

00:32:24,520 --> 00:32:20,510

really wanted to find out from him

568

00:32:26,860 --> 00:32:24,530

during that dinner party and and this

569

00:32:29,440 --> 00:32:26,870

was after a couple of bottles of red

570

00:32:32,890 --> 00:32:29,450

wine okay he that we were all enjoying

571

00:32:36,160 --> 00:32:32,900

and I asked him now the person he

572

00:32:41,320 --> 00:32:36,170

identified in the book as mr. Axelrod

573

00:32:45,820 --> 00:32:41,330

right mr. Axelrod was and this is what

574

00:32:49,800 --> 00:32:45,830

Ingo told me he was either in one of the

575

00:32:53,530 --> 00:32:49,810

deepest blackest intelligence

576

00:32:56,440 --> 00:32:53,540

organizations ever and he didn't know

577

00:33:01,180 --> 00:32:56,450

whether it was American Russian Chinese

578

00:33:05,020 --> 00:33:01,190

god only knew okay what what was behind

579

00:33:08,680 --> 00:33:05,030

him or and when he told me this he kind

580

00:33:12,419 --> 00:33:08,690

of shocked me he said or for all I knew

581

00:33:15,220 --> 00:33:12,429

they could have been an et outfit

582

00:33:18,900 --> 00:33:15,230

so I mean take it for what it's worth

583

00:33:23,529 --> 00:33:18,910

but basically what these guys did is

584

00:33:26,500 --> 00:33:23,539

they asked him if he would conduct some

585

00:33:28,990 --> 00:33:26,510

remote viewing experiments they wanted

586

00:33:34,200 --> 00:33:29,000

to hire him for a thousand dollars a day

587

00:33:36,940 --> 00:33:34,210

and Ingo smoked cigars okay mm-hmm and

588

00:33:40,510 --> 00:33:36,950

they promised him all the cigars he

589

00:33:42,820 --> 00:33:40,520

needed at this so they picked him up

590

00:33:45,340 --> 00:33:42,830

they put a hood over his head they took

591

00:33:47,740 --> 00:33:45,350

him to God knows where to this what

592

00:33:50,770 --> 00:33:47,750

appeared to be according to England

593

00:33:54,430 --> 00:33:50,780

underground facility they put him up for

594

00:33:57,669 --> 00:33:54,440

several days and they went in conducted

595

00:33:59,919 --> 00:33:57,679

the remote viewing protocols and engel

596

00:34:03,580 --> 00:33:59,929

started remote viewing now at the time

597

00:34:08,590 --> 00:34:03,590

he had no idea what he was remotely

598

00:34:12,129 --> 00:34:08,600

viewing but as he proceeded he said it

599

00:34:15,609 --> 00:34:12,139

suddenly became clear that wherever he

600

00:34:18,190 --> 00:34:15,619

was it wasn't on planet Earth

601
00:34:23,409 --> 00:34:18,200
finally figured out that he was remotely

602
00:34:27,580 --> 00:34:23,419
viewing a spot on our moon and what

603
00:34:32,020 --> 00:34:27,590
shocked him was that he was remotely

604
00:34:35,320 --> 00:34:32,030
viewing what looked like an area that

605
00:34:40,060 --> 00:34:35,330
was covered by some type of either

606
00:34:43,980 --> 00:34:40,070
shield or forcefield or something along

607
00:34:48,369 --> 00:34:43,990
those lines with banks of light in there

608
00:34:52,290 --> 00:34:48,379
with a very pronounced greenish hue and

609
00:34:56,619 --> 00:34:52,300
he saw people that were almost semi

610
00:35:00,700 --> 00:34:56,629
naked working in the lunar dust doing

611
00:35:04,000 --> 00:35:00,710
god only knows what that part was great

612
00:35:09,130 --> 00:35:04,010
that what freaked him out and I mean

613
00:35:11,859 --> 00:35:09,140

really he almost had a meltdown was when

614

00:35:14,560 --> 00:35:11,869

they suddenly realized that he was

615

00:35:18,880 --> 00:35:14,570

looking at them and they turned around

616

00:35:21,880 --> 00:35:18,890

and looked at him back yeah that blew

617

00:35:25,010 --> 00:35:21,890

him literally out of that remote viewing

618

00:35:28,850 --> 00:35:25,020

session mm-hmm and for some time after

619

00:35:31,880 --> 00:35:28,860

that he was truly terrified that they

620

00:35:35,180 --> 00:35:31,890

were going to come somehow psychically I

621

00:35:39,560 --> 00:35:35,190

suppose and scramble his mind he was

622

00:35:42,140 --> 00:35:39,570

terrified of that damn I want to make

623

00:35:44,720 --> 00:35:42,150

one point here you know as a person who

624

00:35:47,450 --> 00:35:44,730

has extensively studied remote viewing

625

00:35:51,080 --> 00:35:47,460

myself and there is something that

626
00:35:53,480 --> 00:35:51,090
happens when you get into a deep remote

627
00:35:55,460 --> 00:35:53,490
view if you're if it's going really well

628
00:35:57,350 --> 00:35:55,470
it can go to the point where it's no

629
00:36:00,110 --> 00:35:57,360
longer a remote view it becomes an

630
00:36:02,510 --> 00:36:00,120
astral projection and when it becomes an

631
00:36:04,460 --> 00:36:02,520
astral projection you actually put in

632
00:36:08,450 --> 00:36:04,470
part of yourself there rather than

633
00:36:12,620 --> 00:36:08,460
viewing something and strangely when I

634
00:36:14,360 --> 00:36:12,630
you know it was when I viewed the moon I

635
00:36:18,530 --> 00:36:14,370
wasn't trying to view the moon I was

636
00:36:21,320 --> 00:36:18,540
doing it I was doing a meditation and I

637
00:36:22,820 --> 00:36:21,330
went to the moon and something rather

638
00:36:27,200 --> 00:36:22,830

similar but a lot less traumatic

639

00:36:30,110 --> 00:36:27,210

happened to me and it can happen in a

640

00:36:31,040 --> 00:36:30,120

remote view when you if you put yourself

641

00:36:34,370 --> 00:36:31,050

too much into it

642

00:36:36,410 --> 00:36:34,380

it becomes you know what for lack of a

643

00:36:41,390 --> 00:36:36,420

better term would be an astral

644

00:36:44,150 --> 00:36:41,400

projection well I got to tell you I

645

00:36:48,830 --> 00:36:44,160

found that I found that rendition he

646

00:36:55,670 --> 00:36:48,840

gave me to be so fascinating but wait

647

00:36:57,710 --> 00:36:55,680

there's more oh no why go ahead I'm

648

00:37:00,050 --> 00:36:57,720

sorry no no I was just as a white piece

649

00:37:01,970 --> 00:37:00,060

why would why did he feel so threatened

650

00:37:06,800 --> 00:37:01,980

what was there about the glance just

651
00:37:09,230 --> 00:37:06,810
that it was a different being and it was

652
00:37:11,660 --> 00:37:09,240
sort of like a xenophobia or was it was

653
00:37:15,140 --> 00:37:11,670
there an actual threat that he sort of

654
00:37:18,740 --> 00:37:15,150
psychically felt yeah according to him

655
00:37:21,560 --> 00:37:18,750
there was it wasn't converter so he

656
00:37:23,960 --> 00:37:21,570
wasn't rooting okay so it wasn't just

657
00:37:25,760 --> 00:37:23,970
that they happened to see him back I

658
00:37:30,410 --> 00:37:25,770
mean there was an actual feeling of

659
00:37:32,680 --> 00:37:30,420
threat yeah he detected according to

660
00:37:37,490 --> 00:37:32,690
what he what he told me he detected

661
00:37:42,140 --> 00:37:37,500
first surprise and then anger

662
00:37:44,359 --> 00:37:42,150
oh but he was one no I want to make one

663
00:37:47,900 --> 00:37:44,369

other point here just as an experience

664

00:37:50,510 --> 00:37:47,910

or that in when you're having this sort

665

00:37:53,720 --> 00:37:50,520

of an experience not as necessarily as a

666

00:37:56,060 --> 00:37:53,730

remote viewer but in in the face of some

667

00:37:59,810 --> 00:37:56,070

form of alien intelligence for lack of a

668

00:38:03,890 --> 00:37:59,820

better term what what transpires is some

669

00:38:06,230 --> 00:38:03,900

form of raw biologic terror that is

670

00:38:08,839 --> 00:38:06,240

within your body it's not like being

671

00:38:11,900 --> 00:38:08,849

afraid that if you know that you'll fall

672

00:38:14,660 --> 00:38:11,910

off the cliff or you came near to a car

673

00:38:16,339 --> 00:38:14,670

accident you have fear the kind of thing

674

00:38:18,530 --> 00:38:16,349

that happens and has happened to me and

675

00:38:21,470 --> 00:38:18,540

I've spoken to other experiences there

676

00:38:24,710 --> 00:38:21,480

is a kind of raw terror that nothing

677

00:38:26,450 --> 00:38:24,720

else duplicates so I'll leave that and

678

00:38:29,390 --> 00:38:26,460

please go on I'm so sorry to interrupt

679

00:38:33,800 --> 00:38:29,400

but I did want to say that no that's

680

00:38:35,720 --> 00:38:33,810

fine I and really Ingo Swan did not seem

681

00:38:38,450 --> 00:38:35,730

like a man to be intimidated either

682

00:38:40,609 --> 00:38:38,460

which is why it always intrigued me that

683

00:38:43,640 --> 00:38:40,619

he felt so threatened but I'm sorry I am

684

00:38:47,630 --> 00:38:43,650

interrupted to know when we left you you

685

00:38:49,790 --> 00:38:47,640

were saying wait there's more so more so

686

00:38:55,579 --> 00:38:49,800

what more is there I mean that's all

687

00:38:59,870 --> 00:38:55,589

good right there so on one of INGOs

688

00:39:03,560 --> 00:38:59,880

trips out here to the west coast he was

689

00:39:06,380 --> 00:39:03,570

going to have now he was a gourmet cook

690

00:39:11,030 --> 00:39:06,390

all right and he was going to have

691

00:39:14,420 --> 00:39:11,040

dinner with some friends down in Santa

692

00:39:19,280 --> 00:39:14,430

Monica and so he was going out to do

693

00:39:21,950 --> 00:39:19,290

some shopping for the ingredients that

694

00:39:25,760 --> 00:39:21,960

he needed hmm and he went to this

695

00:39:29,450 --> 00:39:25,770

supermarket now one one thing in order

696

00:39:33,410 --> 00:39:29,460

for me to for everybody to get the the

697

00:39:37,490 --> 00:39:33,420

sense of what was transpiring I got a

698

00:39:42,020 --> 00:39:37,500

mention that that man mr. Axelrod this

699

00:39:45,320 --> 00:39:42,030

mysterious apparently intelligence

700

00:39:50,120 --> 00:39:45,330

official okay that Ingo had contact with

701
00:39:51,289 --> 00:39:50,130
a number of times had a couple of guys

702
00:39:54,589 --> 00:39:51,299
that

703
00:39:57,439 --> 00:39:54,599
for him and for sure you'll recall this

704
00:40:00,669 --> 00:39:57,449
from the book yet Engel referred to as

705
00:40:04,999 --> 00:40:00,679
the twins yes now these were two guys

706
00:40:09,169 --> 00:40:05,009
who were probably not brothers but they

707
00:40:10,819 --> 00:40:09,179
were very similar in manner physique

708
00:40:12,799 --> 00:40:10,829
could build what-have-you

709
00:40:16,579 --> 00:40:12,809
in other words they were a couple of

710
00:40:20,569 --> 00:40:16,589
bruisers according to angle or could be

711
00:40:23,269 --> 00:40:20,579
if the situation called wart but he went

712
00:40:27,199 --> 00:40:23,279
to the supermarket and as he's walking

713
00:40:29,539 --> 00:40:27,209

in he recounted this story he was

714

00:40:35,870 --> 00:40:29,549

walking down to the vegetable section

715

00:40:39,759 --> 00:40:35,880

and suddenly he was confronted with one

716

00:40:44,509 --> 00:40:39,769

of the most breathtakingly sexual women

717

00:40:47,829 --> 00:40:44,519

he ever saw in his life and he described

718

00:40:52,849 --> 00:40:47,839

her in the book as wearing a pair of

719

00:40:56,629 --> 00:40:52,859

really skin tight short shorts over her

720

00:41:00,859 --> 00:40:56,639

ample bosom she had a from what I recall

721

00:41:04,279 --> 00:41:00,869

a scarf wrapped around that was not an

722

00:41:08,929 --> 00:41:04,289

actual halter top was wearing these

723

00:41:12,859 --> 00:41:08,939

outlandish purple sunglasses had a mane

724

00:41:15,259 --> 00:41:12,869

of hair that I guess you know if you're

725

00:41:19,789 --> 00:41:15,269

a heterosexual guy you want to run your

726

00:41:24,279 --> 00:41:19,799

fingers through it and he was literally

727

00:41:27,649 --> 00:41:24,289

knocked back on his heels by this woman

728

00:41:30,709 --> 00:41:27,659

and he was so taken with her that he

729

00:41:36,709 --> 00:41:30,719

handed walked down to get closer to her

730

00:41:40,579 --> 00:41:36,719

and as he's walking down the hair on the

731

00:41:43,849 --> 00:41:40,589

back of his neck started to tingle now

732

00:41:49,189 --> 00:41:43,859

like I said angle was one of the most

733

00:41:53,599 --> 00:41:49,199

gifted psychics around anywhere for many

734

00:41:55,459 --> 00:41:53,609

many years and it suddenly hit him this

735

00:41:57,289 --> 00:41:55,469

is what and this is what he said in the

736

00:42:01,549 --> 00:41:57,299

book and this is what he told me

737

00:42:04,980 --> 00:42:01,559

personally he said I suddenly realized

738

00:42:09,060 --> 00:42:04,990

that that woman was not a human being

739

00:42:13,830 --> 00:42:09,070

mm-hmm she was an 80mm but then he had a

740

00:42:18,480 --> 00:42:13,840

bigger shock as he as he stopped himself

741

00:42:21,810 --> 00:42:18,490

and he realized that this woman who he

742

00:42:25,380 --> 00:42:21,820

now was convinced was not human might

743

00:42:29,040 --> 00:42:25,390

detect him he's looking around for an

744

00:42:33,180 --> 00:42:29,050

escape to get out of there and he sees

745

00:42:35,760 --> 00:42:33,190

one of these two guys from mr. Axelrod

746

00:42:37,980 --> 00:42:35,770

hmm and he's not going to go that way so

747

00:42:41,310 --> 00:42:37,990

he starts to go another way and there's

748

00:42:44,340 --> 00:42:41,320

the other guy and they both apparently

749

00:42:47,190 --> 00:42:44,350

have this woman there they're observing

750

00:42:48,080 --> 00:42:47,200

her they must have been following her or

751
00:42:51,930 --> 00:42:48,090
something

752
00:42:54,960 --> 00:42:51,940
well that shook him up so bad he just

753
00:42:56,910 --> 00:42:54,970
got the heck out of there okay jumped in

754
00:43:00,330 --> 00:42:56,920
his car and went somewhere else well a

755
00:43:04,500 --> 00:43:00,340
few days later he gets one of these

756
00:43:07,770 --> 00:43:04,510
mysterious phone calls that he has to go

757
00:43:10,620 --> 00:43:07,780
he I let's see I believe he had his his

758
00:43:12,930 --> 00:43:10,630
apartment parotia you may know this

759
00:43:14,670 --> 00:43:12,940
better than I in Greenwich Village is

760
00:43:17,130 --> 00:43:14,680
that correct in the West Village I

761
00:43:20,070 --> 00:43:17,140
believe it was on lower 7th Avenue 7th

762
00:43:24,420 --> 00:43:20,080
Avenue South but I couldn't attest to

763
00:43:28,020 --> 00:43:24,430

that absolutely but it wasn't in in in

764

00:43:31,290 --> 00:43:28,030

the West Village yes well he had a code

765

00:43:33,660 --> 00:43:31,300

set up whenever mr. Axelrod wanted to

766

00:43:36,720 --> 00:43:33,670

get in touch with him he would either

767

00:43:39,480 --> 00:43:36,730

get a note or would get a quick phone

768

00:43:42,810 --> 00:43:39,490

call go to so-and-so and he would go

769

00:43:45,599 --> 00:43:42,820

down to a payphone and then stand there

770

00:43:47,960 --> 00:43:45,609

and wait for the phone to ring well he

771

00:43:50,670 --> 00:43:47,970

got one of those notes or however they

772

00:43:52,950 --> 00:43:50,680

contacted him but he knew he had to get

773

00:43:55,349 --> 00:43:52,960

out to a payphone that had been

774

00:43:57,990 --> 00:43:55,359

pre-selected he went to this payphone

775

00:44:00,359 --> 00:43:58,000

and sure enough the phone rang he

776

00:44:02,160 --> 00:44:00,369

answered it there was a woman on the

777

00:44:02,460 --> 00:44:02,170

other end and said hold for a moment

778

00:44:05,910 --> 00:44:02,470

please

779

00:44:08,790 --> 00:44:05,920

and the next voice he heard was mr.

780

00:44:10,770 --> 00:44:08,800

Axelrod demanding to know what in the

781

00:44:13,859 --> 00:44:10,780

world he was doing in that store where

782

00:44:17,160 --> 00:44:13,869

that woman was and then he told him he

783

00:44:18,279 --> 00:44:17,170

said well just so you know if you ever

784

00:44:21,309 --> 00:44:18,289

run into her

785

00:44:24,819 --> 00:44:21,319

again stay away from her because she's

786

00:44:26,799 --> 00:44:24,829

as dangerous as you can imagine so that

787

00:44:29,829 --> 00:44:26,809

was just another one of these little

788

00:44:33,509 --> 00:44:29,839

weird you know these weird little

789

00:44:39,909 --> 00:44:33,519

antidotes that they keep this field so

790

00:44:41,829 --> 00:44:39,919

interesting yes indeed it is so but you

791

00:44:46,359 --> 00:44:41,839

know sort of to get back to the moon a

792

00:44:48,159 --> 00:44:46,369

little bit too so this fellow really did

793

00:44:51,370 --> 00:44:48,169

feel that there were bases on the moon

794

00:44:54,370 --> 00:44:51,380

in essence I mean some of the certainly

795

00:44:57,130 --> 00:44:54,380

the early astronauts felt the same thing

796

00:44:59,949 --> 00:44:57,140

Edgar Mitchell is very definite about

797

00:45:01,890 --> 00:44:59,959

saying that aliens don't exist which

798

00:45:05,650 --> 00:45:01,900

most of us would take for granted but

799

00:45:10,299 --> 00:45:05,660

actually are here and he's a man whose

800

00:45:12,429 --> 00:45:10,309

word I take so I you know again I mean

801

00:45:14,049 --> 00:45:12,439

it's yeah almost you know follow the

802

00:45:16,319 --> 00:45:14,059

money trail everything comes down to

803

00:45:19,179 --> 00:45:16,329

money and oil is certainly a huge

804

00:45:22,059 --> 00:45:19,189

producer of money but I can't believe

805

00:45:23,739 --> 00:45:22,069

that that's all that there is I mean I

806

00:45:27,039 --> 00:45:23,749

would like to think that there was

807

00:45:32,969 --> 00:45:27,049

something other than just strictly

808

00:45:39,159 --> 00:45:37,239

well you know I I would go along with

809

00:45:42,399 --> 00:45:39,169

that would I agree with even more is

810

00:45:46,239 --> 00:45:42,409

that your a theory that they were much

811

00:45:48,609 --> 00:45:46,249

much earlier human development on this

812

00:45:52,329 --> 00:45:48,619

planet that probably destroyed

813

00:45:55,839 --> 00:45:52,339

themselves or or or met with a horrible

814

00:45:57,849 --> 00:45:55,849

fate and that the moon may just be left

815

00:46:02,409 --> 00:45:57,859

over from them or perhaps there are

816

00:46:05,859 --> 00:46:02,419

still some survivors out there but you

817

00:46:08,409 --> 00:46:05,869

know again everybody seems to feel that

818

00:46:10,239 --> 00:46:08,419

if suddenly the presence of aliens are

819

00:46:12,759 --> 00:46:10,249

known that everything's gonna fall apart

820

00:46:15,219 --> 00:46:12,769

and religious are going to come apart at

821

00:46:17,289 --> 00:46:15,229

the seams and governments are gonna run

822

00:46:19,749 --> 00:46:17,299

for the hills and I honestly don't think

823

00:46:22,269 --> 00:46:19,759

that's true I think you know maybe ala

824

00:46:23,349 --> 00:46:22,279

Spielberg we've been so prepared for so

825

00:46:27,909 --> 00:46:23,359

long now

826

00:46:29,319 --> 00:46:27,919

well we we're a first world country okay

827

00:46:30,609 --> 00:46:29,329

let's look at some of the other

828

00:46:37,359 --> 00:46:30,619

campaigns

829

00:46:39,339 --> 00:46:37,369

that's true and and there is the rub as

830

00:46:42,069 --> 00:46:39,349

say but you know there was something

831

00:46:44,559 --> 00:46:42,079

else about the Mon Tue that I wanted to

832

00:46:46,959 --> 00:46:44,569

mention when we were speaking about this

833

00:46:53,640 --> 00:46:46,969

tonight you know we stopped going to the

834

00:46:56,890 --> 00:46:53,650

moon in 1972 and a lot of people were

835

00:47:03,029 --> 00:46:56,900

curious about that I certainly was one

836

00:47:08,249 --> 00:47:03,039

of them and but what I found even more

837

00:47:12,400 --> 00:47:08,259

curious and they let me say it

838

00:47:15,900 --> 00:47:12,410

inexplicable was do you know that we

839

00:47:20,859 --> 00:47:15,910

went back to the moon in the early 90s

840

00:47:24,509 --> 00:47:20,869

no he did we went back to the moon and

841

00:47:29,440 --> 00:47:24,519

not only went back to the moon we

842

00:47:33,549 --> 00:47:29,450

completely totally rephotographed the

843

00:47:37,690 --> 00:47:33,559

entire moon with what was then

844

00:47:41,469 --> 00:47:37,700

cutting-edge technology the project was

845

00:47:51,279 --> 00:47:41,479

called Clementine right yes and it was

846

00:47:58,859 --> 00:47:51,289

not a NASA project and I had a has a

847

00:48:07,359 --> 00:48:03,239

dr. Brandenburg was the administrative

848

00:48:10,959 --> 00:48:07,369

assistant to the director of the

849

00:48:13,870 --> 00:48:10,969

Clementine project and John and I have

850

00:48:17,079 --> 00:48:13,880

talked about this many times both on the

851

00:48:19,299 --> 00:48:17,089

air as well as off the air and here's a

852

00:48:23,410 --> 00:48:19,309

little factoid that you may find

853

00:48:27,549 --> 00:48:23,420

absolutely astounding you know they took

854

00:48:33,549 --> 00:48:27,559

over 2 million photographs how many of

855

00:48:37,380 --> 00:48:33,559

those photos have you ever seen and even

856

00:48:41,109 --> 00:48:37,390

when they were coming back in real time

857

00:48:44,470 --> 00:48:41,119

during the Clementine mission even

858

00:48:47,200 --> 00:48:44,480

though they were coming back John

859

00:48:50,800 --> 00:48:47,210

the rest of the people in the support

860

00:48:54,450 --> 00:48:50,810

group saw practically none of them they

861

00:48:57,820 --> 00:48:54,460

had a contractor a DoD defense

862

00:48:59,950 --> 00:48:57,830

contractor in there that was getting all

863

00:49:03,130 --> 00:48:59,960

of those photographs and they were

864

00:49:07,060 --> 00:49:03,140

keeping them under wraps and I asked him

865

00:49:09,250 --> 00:49:07,070

about that and I said John I said what

866

00:49:12,310 --> 00:49:09,260

in the world were they doing he said

867

00:49:14,950 --> 00:49:12,320

well he said Don and and I mean he's

868

00:49:17,380 --> 00:49:14,960

he's gone on the record with this he

869

00:49:20,140 --> 00:49:17,390

said they were looking in he said I

870

00:49:23,560 --> 00:49:20,150

believe they were looking for changes up

871

00:49:26,680 --> 00:49:23,570

there and they were looking for specific

872

00:49:30,220 --> 00:49:26,690

things I said what kind of specific

873

00:49:35,849 --> 00:49:30,230

things he said well you know I use your

874

00:49:38,470 --> 00:49:35,859

imagination mm-hmm you know he also

875

00:49:41,770 --> 00:49:38,480

speculated that there was a nuclear war

876

00:49:44,680 --> 00:49:41,780

on Marvis which I found fascinating no a

877

00:49:51,460 --> 00:49:44,690

nuclear detonation not necessarily okay

878

00:49:54,700 --> 00:49:51,470

okay yeah he did he and that got buried

879

00:49:57,010 --> 00:49:54,710

I mean you would think that life and

880

00:50:02,890 --> 00:49:57,020

death on Mars the new Mars synthesis

881

00:50:05,109 --> 00:50:02,900

yeah absolutely and yet it doesn't get

882

00:50:07,780 --> 00:50:05,119

published in journals like science or

883

00:50:10,630 --> 00:50:07,790

nature and I mean certainly the manet

884

00:50:11,980 --> 00:50:10,640

academically is more than qualified for

885

00:50:15,490 --> 00:50:11,990

a peer review

886

00:50:19,620 --> 00:50:15,500

he backed up that so-called theory was

887

00:50:23,340 --> 00:50:19,630

absolute facts and it just gets buried

888

00:50:27,849 --> 00:50:23,350

who's the sensor through all this and

889

00:50:30,790 --> 00:50:27,859

another thing is that at NASA we have

890

00:50:33,250 --> 00:50:30,800

here a number of people from astronauts

891

00:50:38,280 --> 00:50:33,260

like Edgar Mitchell to this gentleman

892

00:50:41,020 --> 00:50:38,290

dr. Brandenburg to maurice chatelaine -

893

00:50:44,260 --> 00:50:41,030

Paul Hill who you know you've mentioned

894

00:50:46,780 --> 00:50:44,270

on your show quite a bit and and other

895

00:50:48,609 --> 00:50:46,790

individuals whose names

896

00:50:51,340 --> 00:50:48,619

unfortunately escaped me at this very

897

00:50:55,450 --> 00:50:51,350

second but there's got to be a dozen of

898

00:50:57,250 --> 00:50:55,460

them including astronauts and and ground

899

00:50:57,940 --> 00:50:57,260

control and people of that nature

900

00:51:01,210 --> 00:50:57,950

who

901
00:51:03,460 --> 00:51:01,220
have not exactly defected but you would

902
00:51:06,849 --> 00:51:03,470
say they have come clean and said a few

903
00:51:08,829 --> 00:51:06,859
things that give us to believe that you

904
00:51:09,930 --> 00:51:08,839
know what you see is not what you get up

905
00:51:14,770 --> 00:51:09,940
there

906
00:51:20,349 --> 00:51:14,780
well why yeah great question why in the

907
00:51:25,630 --> 00:51:20,359
world is is is it still such a secret

908
00:51:29,620 --> 00:51:25,640
why are nobody why is no-one up in arms

909
00:51:31,960 --> 00:51:29,630
about this I mean well good lord you had

910
00:51:37,050 --> 00:51:31,970
mentioned earlier look at the state of

911
00:51:40,300 --> 00:51:37,060
the of the world today we are in a

912
00:51:43,450 --> 00:51:40,310
genuine deeply and I might add a

913
00:51:47,589 --> 00:51:43,460

cesspool right now

914

00:51:49,300 --> 00:51:47,599

it is just you know it's just horrible

915

00:51:53,920 --> 00:51:49,310

and when I get up in the morning I

916

00:51:58,030 --> 00:51:53,930

almost hesitate to turn on the radio I

917

00:52:01,359 --> 00:51:58,040

have my verse death agape and there's so

918

00:52:06,370 --> 00:52:01,369

much bad news I mean recent this of

919

00:52:10,510 --> 00:52:06,380

bolan care that is going on and but you

920

00:52:15,069 --> 00:52:10,520

know you you got to ask yourself in the

921

00:52:17,050 --> 00:52:15,079

powers that be currently where do any of

922

00:52:21,309 --> 00:52:17,060

these items that we're talking about

923

00:52:24,069 --> 00:52:21,319

tonight fall on their scale of things to

924

00:52:27,420 --> 00:52:24,079

be addressed well it's got to be it's

925

00:52:31,440 --> 00:52:27,430

got to be beneath the floorboards UFOs

926

00:52:35,380 --> 00:52:31,450

things on the moon extraterrestrial

927

00:52:39,490 --> 00:52:35,390

intelligence and you know that's where

928

00:52:44,470 --> 00:52:39,500

it's gonna stay until such time as it

929

00:52:47,230 --> 00:52:44,480

doesn't stay there now why is that well

930

00:52:50,319 --> 00:52:47,240

you know and this is something else that

931

00:52:56,130 --> 00:52:50,329

that I have looked at over the years go

932

00:53:00,400 --> 00:52:56,140

back to 1953 particularly January of

933

00:53:04,870 --> 00:53:00,410

1953 which was about six seven six

934

00:53:08,050 --> 00:53:04,880

months after the infamous Washington DC

935

00:53:10,609 --> 00:53:08,060

overflights that happened in three

936

00:53:15,799 --> 00:53:10,619

weekends in July and early

937

00:53:19,069 --> 00:53:15,809

yes of UFOs something unidentified

938

00:53:23,410 --> 00:53:19,079

objects that over flew the net the

939

00:53:27,309 --> 00:53:23,420

nation's capital with total impunity

940

00:53:30,650 --> 00:53:27,319

okay whatever whatever it was went in in

941

00:53:34,160 --> 00:53:30,660

airspace over the Capitol over the

942

00:53:36,380 --> 00:53:34,170

Pentagon over the White House jets were

943

00:53:38,870 --> 00:53:36,390

called in he couldn't catch him these

944

00:53:44,120 --> 00:53:38,880

things flew around as a matter of fact

945

00:53:48,440 --> 00:53:44,130

you mentioned Paul Hill at that time was

946

00:53:54,410 --> 00:53:48,450

a high-level employee of NACA

947

00:53:58,849 --> 00:53:54,420

which was the precursor to NASA okay

948

00:54:01,190 --> 00:53:58,859

mm-hmm ACA which was later what NASA

949

00:54:04,279 --> 00:54:01,200

became although at the time they weren't

950

00:54:09,049 --> 00:54:04,289

as they weren't as concerned with outer

951
00:54:12,349 --> 00:54:09,059
space but he had a tremendous sighting

952
00:54:15,140 --> 00:54:12,359
in Washington or on the outskirts of

953
00:54:19,370 --> 00:54:15,150
Washington during these overflights

954
00:54:21,950 --> 00:54:19,380
went back talked to his people at NACA

955
00:54:25,519 --> 00:54:21,960
and they told him that if he ever

956
00:54:27,979 --> 00:54:25,529
mentioned it publicly he'd be fired yeah

957
00:54:30,499 --> 00:54:27,989
so sure they knew something they knew

958
00:54:33,170 --> 00:54:30,509
something was going on but it had them

959
00:54:35,749 --> 00:54:33,180
scared to death well in January the

960
00:54:37,940 --> 00:54:35,759
government finally said okay look we got

961
00:54:41,329 --> 00:54:37,950
to figure out a way to handle this and

962
00:54:44,569 --> 00:54:41,339
that's where we got what became known as

963
00:54:47,539 --> 00:54:44,579

the Robertson panel they brought in some

964

00:54:50,989 --> 00:54:47,549

of the top scientific talent in the

965

00:54:55,190 --> 00:54:50,999

United States at that time for a week to

966

00:54:57,979 --> 00:54:55,200

discuss UFOs and not what are they where

967

00:55:00,589 --> 00:54:57,989

do they come from what do they want know

968

00:55:03,680 --> 00:55:00,599

that that isn't what they discussed it's

969

00:55:06,410 --> 00:55:03,690

how do we handle it and they decided

970

00:55:09,309 --> 00:55:06,420

upon and I'm just giving you the short

971

00:55:12,979 --> 00:55:09,319

version ridicule

972

00:55:15,319 --> 00:55:12,989

ridicule is the best way to do it and if

973

00:55:18,229 --> 00:55:15,329

you look at the history of the phenomena

974

00:55:20,120 --> 00:55:18,239

from that point forward that's exactly

975

00:55:22,569 --> 00:55:20,130

what the United States government and

976
00:55:23,940 --> 00:55:22,579
the military and the intelligence

977
00:55:29,120 --> 00:55:23,950
agencies

978
00:55:33,359 --> 00:55:29,130
have done for the next 60 years ridicule

979
00:55:36,900 --> 00:55:33,369
the giggle factor yes but you know Don -

980
00:55:40,140 --> 00:55:36,910
knowledge is power and I think a lot of

981
00:55:42,809 --> 00:55:40,150
these people in authoritative positions

982
00:55:44,400 --> 00:55:42,819
like having this knowledge to themselves

983
00:55:46,380 --> 00:55:44,410
it just makes them feel a little bit

984
00:55:48,420 --> 00:55:46,390
more important like you know we can

985
00:55:51,980 --> 00:55:48,430
handle this but you Schmucks can't and

986
00:55:54,960 --> 00:55:51,990
that's you know it's how it's gonna be I

987
00:55:57,420 --> 00:55:54,970
I think I have to agree with you I mean

988
00:56:00,299 --> 00:55:57,430

today's crises so outweigh any

989

00:56:02,549 --> 00:56:00,309

discussion of UFOs and I think you even

990

00:56:05,549 --> 00:56:02,559

see it like in the media and in talk

991

00:56:07,470 --> 00:56:05,559

shows such as this it it seems to have

992

00:56:09,990 --> 00:56:07,480

dropped off a little bit I think people

993

00:56:13,940 --> 00:56:10,000

are so concerned with just staying alive

994

00:56:17,309 --> 00:56:13,950

these days that something is you know

995

00:56:20,270 --> 00:56:17,319

interesting but how would you say just

996

00:56:23,730 --> 00:56:20,280

not really part of their daily life just

997

00:56:26,760 --> 00:56:23,740

that as you say takes the backburner for

998

00:56:30,059 --> 00:56:26,770

sure oh absolutely there's there's no

999

00:56:38,870 --> 00:56:30,069

doubt about it and and let's face it in

1000

00:56:42,750 --> 00:56:38,880

the last 10 to 15 years the level of

1001
00:56:46,670 --> 00:56:42,760
research into this phenomenon and the

1002
00:56:51,140 --> 00:56:46,680
people that that are so-called

1003
00:56:55,940 --> 00:56:51,150
researchers the you know it has just

1004
00:56:59,670 --> 00:56:55,950
degraded into absolutely a mishmash of

1005
00:57:03,420 --> 00:56:59,680
garbage out there yes it has and 20

1006
00:57:05,339 --> 00:57:03,430
years ago we had we had people like well

1007
00:57:08,390 --> 00:57:05,349
at the time Bruce Maccabee Stanton

1008
00:57:11,250 --> 00:57:08,400
Friedman Kevin Randall Richard Owen

1009
00:57:14,490 --> 00:57:11,260
well don't know nobody even knew who

1010
00:57:16,740 --> 00:57:14,500
Dolan was that's true who's true okay

1011
00:57:19,890 --> 00:57:16,750
but then you had people like my wife

1012
00:57:23,130 --> 00:57:19,900
Vicki and I yes with the magazine I mean

1013
00:57:25,700 --> 00:57:23,140

we were concerned with doing actual

1014

00:57:28,230 --> 00:57:25,710

research getting out in the field

1015

00:57:32,010 --> 00:57:28,240

interviewing people going to places

1016

00:57:33,660 --> 00:57:32,020

where things have happened talking to

1017

00:57:36,089 --> 00:57:33,670

neighbors and you know what I'm saying

1018

00:57:37,560 --> 00:57:36,099

conducting an assessment and that

1019

00:57:40,770 --> 00:57:37,570

doesn't happen

1020

00:57:43,080 --> 00:57:40,780

the kid and a lot of them today are kids

1021

00:57:45,030 --> 00:57:43,090

if they have a laptop computer and

1022

00:57:48,540 --> 00:57:45,040

they're sitting down in mom's basement

1023

00:57:51,270 --> 00:57:48,550

with a an internet hookup

1024

00:57:55,230 --> 00:57:51,280

they can call themselves a UFO

1025

00:57:57,510 --> 00:57:55,240

researcher go on the web find a case and

1026

00:57:59,910 --> 00:57:57,520

then just start blabbing blabbering

1027

00:58:03,960 --> 00:57:59,920

about it yes and that's research today

1028

00:58:06,270 --> 00:58:03,970

well you know unfortunately MUFON hasn't

1029

00:58:08,760 --> 00:58:06,280

been you know totally transparent in

1030

00:58:10,500 --> 00:58:08,770

doing their job - some of the people are

1031

00:58:12,390 --> 00:58:10,510

wonderful people and they do their job

1032

00:58:15,210 --> 00:58:12,400

but they're not really releasing the

1033

00:58:17,730 --> 00:58:15,220

cases so people can see them and that's

1034

00:58:20,760 --> 00:58:17,740

an issue - another issue that was true

1035

00:58:23,340 --> 00:58:20,770

thirty years ago bringing it just

1036

00:58:27,090 --> 00:58:23,350

bringing it back to the moon for a last

1037

00:58:31,670 --> 00:58:27,100

question Don there was a discovery very

1038

00:58:35,490 --> 00:58:31,680

recently having to do with a huge

1039

00:58:38,790 --> 00:58:35,500

geologically huge I mean big is like a

1040

00:58:41,880 --> 00:58:38,800

half the moon square artifact that was

1041

00:58:44,220 --> 00:58:41,890

discovered and I know that you know that

1042

00:58:46,890 --> 00:58:44,230

some of the rocks on the moon are older

1043

00:58:49,260 --> 00:58:46,900

than the earth and the soil is older

1044

00:58:52,590 --> 00:58:49,270

than the earth soil so do you have any

1045

00:58:54,420 --> 00:58:52,600

opinion have you seen this research it's

1046

00:58:56,400 --> 00:58:54,430

really very new and no one would blame

1047

00:58:59,340 --> 00:58:56,410

you if you hadn't seen it but about this

1048

00:59:02,580 --> 00:58:59,350

square artifact that has been discovered

1049

00:59:06,840 --> 00:59:02,590

by scientists on the moon I hate to

1050

00:59:09,240 --> 00:59:06,850

admit this and but but I might try to be

1051
00:59:12,000 --> 00:59:09,250
an honest guy no I hadn't heard of it

1052
00:59:13,320 --> 00:59:12,010
well I'm gonna send you it on you know

1053
00:59:15,660 --> 00:59:13,330
on the internet I'll send you an email

1054
00:59:18,330 --> 00:59:15,670
with it but it's it's just this huge

1055
00:59:20,640 --> 00:59:18,340
geological thing that there's this big

1056
00:59:23,400 --> 00:59:20,650
square you know that is not like the

1057
00:59:27,210 --> 00:59:23,410
rest of the moon and it's a big huge

1058
00:59:30,390 --> 00:59:27,220
square that the astrogeologist I guess

1059
00:59:31,800 --> 00:59:30,400
they would call themselves and they have

1060
00:59:34,110 --> 00:59:31,810
discovered this and they are making

1061
00:59:36,360 --> 00:59:34,120
theories now as to what it might be of

1062
00:59:38,820 --> 00:59:36,370
course that the things that are coming

1063
00:59:42,060 --> 00:59:38,830

up with are purely speculative and they

1064

00:59:44,100 --> 00:59:42,070

really don't know but you know so much

1065

00:59:47,160 --> 00:59:44,110

about the moon you don't know like it

1066

00:59:49,680 --> 00:59:47,170

one astronomer said oh the moon no it

1067

00:59:50,760 --> 00:59:49,690

does not exist because it shouldn't

1068

00:59:53,580 --> 00:59:50,770

exist

1069

00:59:57,900 --> 00:59:53,590

the characteristics and so on the orbit

1070

01:00:00,480 --> 00:59:57,910

size the double planet thing the

1071

01:00:03,870 --> 01:00:00,490

rotation that matches this the fact it's

1072

01:00:06,030 --> 01:00:03,880

kept this planet's climate stable long

1073

01:00:10,310 --> 01:00:06,040

enough for life to develop I have so

1074

01:00:12,870 --> 01:00:10,320

many weird things so and they keep this

1075

01:00:16,790 --> 01:00:12,880

finding them the mass cons and all those

1076

01:00:19,590 --> 01:00:16,800

messes almost like a plan yeah I

1077

01:00:21,600 --> 01:00:19,600

honestly you know I think there are some

1078

01:00:23,940 --> 01:00:21,610

artificial satellites

1079

01:00:26,670 --> 01:00:23,950

I think the moons one focus is another

1080

01:00:29,490 --> 01:00:26,680

probably when we get out to Jupiter and

1081

01:00:32,580 --> 01:00:29,500

Saturn and so on I think they have been

1082

01:00:33,690 --> 01:00:32,590

planted here and somebody knew what they

1083

01:00:36,630 --> 01:00:33,700

were doing and they knew how to

1084

01:00:40,530 --> 01:00:36,640

stabilize life-forms on various planets

1085

01:00:43,590 --> 01:00:40,540

and once it gets a massive rock in the

1086

01:00:45,600 --> 01:00:43,600

Goldilocks zone they go put another rock

1087

01:00:47,010 --> 01:00:45,610

out there everything will be peachy keen

1088

01:00:49,860 --> 01:00:47,020

before you know it they'll have an

1089

01:00:52,260 --> 01:00:49,870

atmosphere of rain oceans water

1090

01:00:56,550 --> 01:00:52,270

everything it sounds almost like to

1091

01:00:59,880 --> 01:00:56,560

kumbaya to be true yes yes indeed it's

1092

01:01:01,620 --> 01:00:59,890

that's really true Kate um I am

1093

01:01:04,080 --> 01:01:01,630

wondering whether we should give Don an

1094

01:01:05,520 --> 01:01:04,090

opportunity to you know talk himself up

1095

01:01:09,240 --> 01:01:05,530

and what he's doing and talk about

1096

01:01:11,010 --> 01:01:09,250

pleased I'm sorry my manners are showing

1097

01:01:18,150 --> 01:01:11,020

faroush is absolutely correct

1098

01:01:21,180 --> 01:01:18,160

please yeah I write now primarily what

1099

01:01:26,070 --> 01:01:21,190

what I'm up to is my radio program it's

1100

01:01:30,300 --> 01:01:26,080

called Dark Matters radio it's carried

1101
01:01:34,680 --> 01:01:30,310
on the cyber station USA Network out of

1102
01:01:38,430 --> 01:01:34,690
Boston Massachusetts believe it or not

1103
01:01:42,150 --> 01:01:38,440
now this has been although I haven't

1104
01:01:45,900 --> 01:01:42,160
been 10 years with cyber station this is

1105
01:01:50,130 --> 01:01:45,910
the 10th year of dark matters radio

1106
01:01:54,270 --> 01:01:50,140
Bravo congratulations thank you we we

1107
01:01:57,450 --> 01:01:54,280
run Monday through Friday starting at

1108
01:02:00,540 --> 01:01:57,460
10:00 p.m. Pacific Time that's 1:00 a.m.

1109
01:02:04,240 --> 01:02:00,550
on the East Coast so it's it's kind of

1110
01:02:08,859 --> 01:02:04,250
late for all you folks back east but

1111
01:02:12,730 --> 01:02:08,869
good news is is that all of those shows

1112
01:02:18,280 --> 01:02:12,740
are available for either streaming

1113
01:02:22,780 --> 01:02:18,290

online or a free download we do not

1114

01:02:26,859 --> 01:02:22,790

charge anybody for that and you know it

1115

01:02:28,599 --> 01:02:26,869

runs right Monday through Friday and you

1116

01:02:30,460 --> 01:02:28,609

know just have I've been having a heck

1117

01:02:36,130 --> 01:02:30,470

of a good time doing it for as long as I

1118

01:02:37,330 --> 01:02:36,140

have and I'm a fan thank you and crew

1119

01:02:41,620 --> 01:02:37,340

she was telling me you have a book

1120

01:02:46,030 --> 01:02:41,630

coming out is that so no I have a a

1121

01:02:50,620 --> 01:02:46,040

novel that was buried I'm working on a

1122

01:02:55,300 --> 01:02:50,630

sequel the novel is titled past sins hmm

1123

01:02:57,250 --> 01:02:55,310

it's a horror novel oh and boy I'll tell

1124

01:02:59,500 --> 01:02:57,260

you especially this time of the year is

1125

01:03:03,760 --> 01:02:59,510

a great time port you know Halloween is

1126
01:03:05,560 --> 01:03:03,770
coming up okay I heard you read part of

1127
01:03:10,000 --> 01:03:05,570
it on the air and it was very impressive

1128
01:03:11,910 --> 01:03:10,010
oh thank you that's been a while ago

1129
01:03:18,760 --> 01:03:11,920
good lord

1130
01:03:23,650 --> 01:03:18,770
but yeah passions is a it took care of

1131
01:03:27,810 --> 01:03:23,660
her I had a Jones Jones good horror and

1132
01:03:31,540 --> 01:03:27,820
I've always been especially fond of

1133
01:03:35,770 --> 01:03:31,550
vampire stories and that's what this

1134
01:03:39,430 --> 01:03:35,780
novel is about what if vampires were

1135
01:03:42,520 --> 01:03:39,440
real what if there were creatures called

1136
01:04:01,210 --> 01:03:42,530
vampires and the Central Intelligence

1137
01:04:02,710 --> 01:04:01,220
Agency got their hands on oh boy now

1138
01:04:10,349 --> 01:04:02,720

imagine what they could do with a real

1139

01:04:13,450 --> 01:04:10,359

vampire oh please anyway very scary so I

1140

01:04:17,020 --> 01:04:13,460

want to thank you so much for coming on

1141

01:04:18,070 --> 01:04:17,030

with us and we're gonna you know hope

1142

01:04:21,520 --> 01:04:18,080

they should come back we

1143

01:04:23,650 --> 01:04:21,530

hope that this this podcast that we're

1144

01:04:25,870 --> 01:04:23,660

working on here the shattered reality

1145

01:04:28,300 --> 01:04:25,880

we're hoping to get it going and that we

1146

01:04:30,280 --> 01:04:28,310

get a bunch of good people on and we

1147

01:04:33,580 --> 01:04:30,290

couldn't get anybody better than you Don

1148

01:04:35,380 --> 01:04:33,590

and although I have really you know you

1149

01:04:37,180 --> 01:04:35,390

were talking about remote viewers and

1150

01:04:39,550 --> 01:04:37,190

when I think of you I also think of the

1151

01:04:42,370 --> 01:04:39,560

other great remote viewer because I

1152

01:04:44,470 --> 01:04:42,380

think that you know I trust you in a way

1153

01:04:47,860 --> 01:04:44,480

because I think you've got that you know

1154

01:04:51,460 --> 01:04:47,870

that police ESP like Pat price had who

1155

01:04:53,860 --> 01:04:51,470

was the greatest remote viewer of our of

1156

01:04:55,810 --> 01:04:53,870

our time I think even better than then

1157

01:04:58,390 --> 01:04:55,820

ingo on a certain level and and

1158

01:05:00,160 --> 01:04:58,400

unfortunately he he was he was snuffed

1159

01:05:03,370 --> 01:05:00,170

by one of the governments we never know

1160

01:05:05,440 --> 01:05:03,380

mu but he was a wonderful police

1161

01:05:07,450 --> 01:05:05,450

detective and I really believe that you

1162

01:05:09,640 --> 01:05:07,460

fellas a lot of times you have that

1163

01:05:12,220 --> 01:05:09,650

little extra sense that lets you know

1164

01:05:13,420 --> 01:05:12,230

what to do and what not to do and you

1165

01:05:15,550 --> 01:05:13,430

know you see things that other people

1166

01:05:16,990 --> 01:05:15,560

don't see so I want to thank you very

1167

01:05:20,200 --> 01:05:17,000

much and we're going to end the

1168

01:05:22,390 --> 01:05:20,210

broadcast of this tonight with my

1169

01:05:25,450 --> 01:05:22,400

surmisings and we'll certainly let you

1170

01:05:27,640 --> 01:05:25,460

listen to it mice amaizing x' are things

1171

01:05:30,370 --> 01:05:27,650

that are they're not exactly predictions

1172

01:05:33,790 --> 01:05:30,380

they're things that just figure it to me

1173

01:05:34,630 --> 01:05:33,800

and and as as Russell Targ said about

1174

01:05:37,660 --> 01:05:34,640

UFOs

1175

01:05:39,640 --> 01:05:37,670

something like that is true so I'm going

1176

01:05:43,630 --> 01:05:39,650

to say something like what I'm going to

1177

01:05:46,240 --> 01:05:43,640

say is true and my surmising for this

1178

01:05:48,010 --> 01:05:46,250

evening is that some government maybe

1179

01:05:50,110 --> 01:05:48,020

the US government maybe the Chinese

1180

01:05:53,200 --> 01:05:50,120

government maybe some other government

1181

01:05:56,890 --> 01:05:53,210

is developing what is essentially a

1182

01:05:59,140 --> 01:05:56,900

suicide machine and you know we've all

1183

01:06:02,020 --> 01:05:59,150

heard in books like the men who stare at

1184

01:06:05,260 --> 01:06:02,030

goats we've all heard that there are

1185

01:06:07,540 --> 01:06:05,270

certain psyops things going on and i

1186

01:06:10,270 --> 01:06:07,550

think somewhere in somebody's deep black

1187

01:06:13,270 --> 01:06:10,280

program is a suicide machine that it

1188

01:06:17,200 --> 01:06:13,280

probably works through some form of

1189

01:06:19,270 --> 01:06:17,210

sound waves going out and taking it out

1190

01:06:21,460 --> 01:06:19,280

putting it somewhere where there is a

1191

01:06:23,410 --> 01:06:21,470

population where they don't want the

1192

01:06:26,310 --> 01:06:23,420

people to be there anymore and these

1193

01:06:28,570 --> 01:06:26,320

people will in fact commit suicide I

1194

01:06:29,319 --> 01:06:28,580

don't know when we're going to find out

1195

01:06:31,209 --> 01:06:29,329

about it I

1196

01:06:33,609 --> 01:06:31,219

don't know how it's going to happen but

1197

01:06:34,989 --> 01:06:33,619

that's my surmising for tonight and with

1198

01:06:38,769 --> 01:06:34,999

that Kate you want to say

1199

01:06:42,099 --> 01:06:38,779

yeah well that was criminal but I guess

1200

01:06:44,890 --> 01:06:42,109

we're all dying to find out anyway Todd

1201

01:06:48,640 --> 01:06:44,900

listen I've just really admired you from

1202

01:06:51,009 --> 01:06:48,650

afar for so long UFO magazine god when

1203

01:06:53,620 --> 01:06:51,019

that came out every issue I go yeah here

1204

01:06:56,469 --> 01:06:53,630

it is again and go from this beginning

1205

01:06:58,809 --> 01:06:56,479

right to the end and it's it's really

1206

01:07:01,359 --> 01:06:58,819

been a real pleasure to speak to you and

1207

01:07:03,670 --> 01:07:01,369

you are one of the Great's in the field

1208

01:07:06,099 --> 01:07:03,680

and I thank you so much for being with

1209

01:07:09,099 --> 01:07:06,109

us this evening well thank you so much

1210

01:07:11,380 --> 01:07:09,109

and it's been a pleasure and thank you

1211

01:07:14,079 --> 01:07:11,390

for the honor of being the first guest

1212

01:07:17,469 --> 01:07:14,089

on your your new radio program and hey

1213

01:07:19,269 --> 01:07:17,479

let me let me tell you and this is

1214

01:07:22,739 --> 01:07:19,279

something I don't talk about often but

1215

01:07:27,309 --> 01:07:22,749

you're right I do have a sixth sense

1216

01:07:29,769 --> 01:07:27,319

that works pretty good occasionally and

1217

01:07:31,690 --> 01:07:29,779

I got good feelings about where you

1218

01:07:33,309 --> 01:07:31,700

ladies are going to be heading with this

1219

01:07:35,259 --> 01:07:33,319

well Wow

1220

01:07:38,319 --> 01:07:35,269

thank you thank you thank you it's very

1221

01:07:40,599 --> 01:07:38,329

very encouraging and and I think we'll

1222

01:07:42,670 --> 01:07:40,609

let it go on that I know yeah on that

1223

01:07:45,099 --> 01:07:42,680

high note and it the honor is all ours
