

1
00:00:00,000 --> 00:00:16,679

Wow

2
00:00:23,730 --> 00:00:20,140

welcome to shattered reality with your

3
00:00:27,040 --> 00:00:23,740

hosts kate valentine and Farrugia

4
00:00:31,750 --> 00:00:27,050

prepare to head her paradigms shifted in

5
00:00:38,259 --> 00:00:31,760

the truth questioned and now shattered

6
00:00:40,780 --> 00:00:38,269

reality welcome back we're happy to have

7
00:00:42,160 --> 00:00:40,790

you tuned in and we hope we always hear

8
00:00:44,410 --> 00:00:42,170

from you and I hope you have some

9
00:00:46,960 --> 00:00:44,420

questions because we have a most

10
00:00:49,570 --> 00:00:46,970

interesting guest today you will be

11
00:00:52,149 --> 00:00:49,580

hearing from him soon that is dr. Ross

12
00:00:54,549 --> 00:00:52,159

done seats but I first I think Russia

13
00:00:57,939 --> 00:00:54,559

you have some announcements well we have

14

00:01:02,979 --> 00:00:57,949

one very big announcement here after

15

00:01:09,010 --> 00:01:02,989

that yes at shattered reality we are now

16

00:01:13,690 --> 00:01:09,020

on iTunes we finally got eight episodes

17

00:01:19,149 --> 00:01:13,700

and so we submitted our podcast to

18

00:01:20,940 --> 00:01:19,159

iTunes and voila we are on in any case

19

00:01:23,590 --> 00:01:20,950

that's that's the most important

20

00:01:26,709 --> 00:01:23,600

announcement that we have the second

21

00:01:32,380 --> 00:01:26,719

announcement revolves around a oddly a

22

00:01:36,399 --> 00:01:32,390

client of mine I've written up a blog

23

00:01:39,249 --> 00:01:36,409

piece about a client of mine who is the

24

00:01:42,190 --> 00:01:39,259

daughter of the late that dr. max

25

00:01:44,830 --> 00:01:42,200

Jacobson dr. feelgood who treated

26

00:01:48,340 --> 00:01:44,840

Kennedy and Nixon and other famous

27

00:01:50,830 --> 00:01:48,350

people and this kind lady lives in

28

00:01:55,989 --> 00:01:50,840

brooklyn new york and the night of the

29

00:01:58,359 --> 00:01:55,999

Germanwings a crash the actually the

30

00:02:00,910 --> 00:01:58,369

night before are there at six hours

31

00:02:03,309 --> 00:02:00,920

ahead of us over there and that time

32

00:02:06,969 --> 00:02:03,319

zone of Europe it was about one o'clock

33

00:02:10,170 --> 00:02:06,979

in the morning and Jill Jacobson

34

00:02:13,900 --> 00:02:10,180

couldn't get to sleep and she was

35

00:02:16,210 --> 00:02:13,910

Restless but perhaps in a liminal state

36

00:02:18,170 --> 00:02:16,220

and these words kept rolling through her

37

00:02:20,750 --> 00:02:18,180

mind and she couldn't raz

38

00:02:26,390 --> 00:02:20,760

until she got up and wrote the words

39

00:02:30,259 --> 00:02:26,400

down and the words revolved around jet

40

00:02:34,220 --> 00:02:30,269

fuel and crashing a plane and flying and

41

00:02:36,559 --> 00:02:34,230

wings and a lot of other things that I

42

00:02:38,509 --> 00:02:36,569

kind of like you to take a look at dear

43

00:02:43,030 --> 00:02:38,519

listeners if you'd like to become dear

44

00:02:47,240 --> 00:02:43,040

readers and this is at Farrugia

45

00:02:49,399 --> 00:02:47,250

wordpress.com and it is a an account of

46

00:02:53,479 --> 00:02:49,409

what happened to Jill Jacobson and the

47

00:02:57,649 --> 00:02:53,489

poem that she wrote and forgot about the

48

00:03:02,199 --> 00:02:57,659

night few hours before the Germanwings

49

00:03:05,270 --> 00:03:02,209

crash that's my second announcement and

50

00:03:08,259 --> 00:03:05,280

now we're going to go to our main

51

00:03:11,869 --> 00:03:08,269

programming which is the very

52

00:03:15,110 --> 00:03:11,879

interesting fascinating intelligent

53

00:03:21,280 --> 00:03:15,120

guess that we have for you today dr.

54

00:03:25,640 --> 00:03:21,290

Ross dunseith dr. Dunn see does work at

55

00:03:29,599 --> 00:03:25,650

the division of perceptual studies at

56

00:03:31,969 --> 00:03:29,609

the University of Virginia he is also

57

00:03:34,460 --> 00:03:31,979

associated with the Cedar Creek

58

00:03:36,530 --> 00:03:34,470

Institute which may be another name for

59

00:03:38,960 --> 00:03:36,540

the Department of perceptual studies i'm

60

00:03:42,789 --> 00:03:38,970

sure he'll set us straight with that and

61

00:03:47,899 --> 00:03:42,799

he works with such parapsychological

62

00:03:53,409 --> 00:03:47,909

luminaries as james tucker and dr. ed

63

00:03:56,619 --> 00:03:53,419

Kelly and the late dr. Ian Stevenson so

64

00:04:01,610 --> 00:03:56,629

I'd like you to welcome dr. Ross

65

00:04:05,270 --> 00:04:01,620

dunseith to our show and his specialty

66

00:04:08,089 --> 00:04:05,280

is psychokinesis dr. dunseith do you

67

00:04:11,119 --> 00:04:08,099

mind if we call you Ross well no go

68

00:04:14,030 --> 00:04:11,129

right ahead thank you well I'd like to

69

00:04:16,670 --> 00:04:14,040

start uh obviously your background is in

70

00:04:18,789 --> 00:04:16,680

electrical engineering and you still do

71

00:04:22,490 --> 00:04:18,799

that type of work with medical

72

00:04:25,540 --> 00:04:22,500

instrumentation now that is a long

73

00:04:27,800 --> 00:04:25,550

distance away from any of the so-called

74

00:04:29,600 --> 00:04:27,810

paranormal ones how did you ever get

75

00:04:32,410 --> 00:04:29,610

into that was it was there a

76

00:04:35,210 --> 00:04:32,420

precipitating episode or event

77

00:04:38,240 --> 00:04:35,220

well it's actually not as far away as

78

00:04:39,740 --> 00:04:38,250

you might think but I really got

79

00:04:42,860 --> 00:04:39,750

introduced to all this stuff as an

80

00:04:46,790 --> 00:04:42,870

undergrad at Duke University ah back in

81

00:04:51,050 --> 00:04:46,800

the 1970s I hate to admit it was that

82

00:04:52,700 --> 00:04:51,060

long ago but working in electrical in

83

00:04:55,390 --> 00:04:52,710

char as a student and electrical

84

00:04:58,610 --> 00:04:55,400

engineering there was a lab they're

85

00:05:02,210 --> 00:04:58,620

called the experiential learning lab and

86

00:05:07,700 --> 00:05:02,220

that was run by dr. John only the late

87

00:05:09,980 --> 00:05:07,710

dr. early when i first started getting

88

00:05:14,720 --> 00:05:09,990

active in that lab that was mostly

89
00:05:19,040 --> 00:05:14,730
biofeedback EEG biofeedback and then egg

90
00:05:21,590 --> 00:05:19,050
kelly joined the lab and brought in sigh

91
00:05:24,920 --> 00:05:21,600
research and his interests at the time

92
00:05:28,430 --> 00:05:24,930
was to try to combine physiological

93
00:05:30,500 --> 00:05:28,440
monitoring with controlled side tasks

94
00:05:32,840 --> 00:05:30,510
which is what we're still working on to

95
00:05:36,130 --> 00:05:32,850
this day but that's how I got my start

96
00:05:39,290 --> 00:05:36,140
in as an undergrad engineering student

97
00:05:41,390 --> 00:05:39,300
yeah well it's funny I applied to Duke

98
00:05:44,150 --> 00:05:41,400
when after I left high school and

99
00:05:46,250 --> 00:05:44,160
because they were the only Institute's a

100
00:05:49,370 --> 00:05:46,260
time that went into paranormal research

101
00:05:53,210 --> 00:05:49,380
and I was accepted and I was frightened

102
00:05:54,620 --> 00:05:53,220
and left Oh seemed a little bit too real

103
00:05:57,830 --> 00:05:54,630
to me and I thought you know I don't

104
00:06:00,860 --> 00:05:57,840
think I wanna investigate ghosts that is

105
00:06:03,410 --> 00:06:00,870
that's Kate speaking yes I'm sorry no no

106
00:06:05,420 --> 00:06:03,420
I don't know who if we're decipherable

107
00:06:09,500 --> 00:06:05,430
did you meet dr. Rhine when you were

108
00:06:11,600 --> 00:06:09,510
there as well no you know I never did to

109
00:06:13,700 --> 00:06:11,610
that I'm I'm really sorry I didn't get a

110
00:06:16,100 --> 00:06:13,710
chance to but when i was there is this

111
00:06:19,130 --> 00:06:16,110
undergrad there were three different

112
00:06:22,220 --> 00:06:19,140
places doing sigh research in Durham

113
00:06:24,080 --> 00:06:22,230

North Carolina Wow so there was the

114

00:06:26,450 --> 00:06:24,090

right Institute which back then was

115

00:06:30,380 --> 00:06:26,460

known as the foundation for research

116

00:06:33,350 --> 00:06:30,390

into the nature of man and they had

117

00:06:36,770 --> 00:06:33,360

moved off of Duke campus to a big house

118

00:06:38,660 --> 00:06:36,780

right off right across the street and

119

00:06:41,830 --> 00:06:38,670

then there was a second place called the

120

00:06:44,430 --> 00:06:41,840

PRF the psychic psychical Research

121

00:06:46,980 --> 00:06:44,440

Foundation I guess sir

122

00:06:50,580 --> 00:06:46,990

I thought of a psychical Research Center

123

00:06:54,090 --> 00:06:50,590

that was run by Bill role has pretty

124

00:06:55,920 --> 00:06:54,100

famous for poltergeist studies and then

125

00:06:59,610 --> 00:06:55,930

our little lab in the engineering

126
00:07:01,890 --> 00:06:59,620
Electrical Engineering Department hmm

127
00:07:04,500 --> 00:07:01,900
what did Doris Duke back any of those

128
00:07:08,250 --> 00:07:04,510
was she interested in that not that I

129
00:07:11,250 --> 00:07:08,260
know no just out of curiosity so what

130
00:07:13,140 --> 00:07:11,260
have you found anything uh you know I've

131
00:07:16,320 --> 00:07:13,150
known you obviously you've been studying

132
00:07:19,080 --> 00:07:16,330
this a long time have you uh sort of

133
00:07:21,290 --> 00:07:19,090
found any clues as to what is behind all

134
00:07:24,480 --> 00:07:21,300
of these so-called telekinesis

135
00:07:26,610 --> 00:07:24,490
psychokinesis psychic yeah we have yes

136
00:07:28,890 --> 00:07:26,620
yes we have left we have a bone of

137
00:07:31,380 --> 00:07:28,900
contention here at shattered realities

138
00:07:34,890 --> 00:07:31,390

are no no don't be sorry I'm gonna be

139

00:07:37,020 --> 00:07:34,900

sorry but I realized I'm I was saying

140

00:07:39,440 --> 00:07:37,030

that one of the first things we should

141

00:07:42,300 --> 00:07:39,450

speak to you about is for you I

142

00:07:47,070 --> 00:07:42,310

understand that your main field of

143

00:07:50,100 --> 00:07:47,080

interest is psychokinesis and Kate then

144

00:07:52,830 --> 00:07:50,110

said telekinesis ni said hmm I think

145

00:07:55,050 --> 00:07:52,840

that's you know tell more like

146

00:07:57,210 --> 00:07:55,060

teleporting from a greater distance like

147

00:07:59,280 --> 00:07:57,220

making something appear that wasn't

148

00:08:01,980 --> 00:07:59,290

there before whereas psychokinesis is

149

00:08:04,380 --> 00:08:01,990

moving something like an object across a

150

00:08:07,920 --> 00:08:04,390

table or something of that nature or

151

00:08:10,890 --> 00:08:07,930

bending spoons as we at the monroe

152

00:08:12,360 --> 00:08:10,900

institute like to do well it's but for a

153

00:08:13,980 --> 00:08:12,370

third term in there just to really get

154

00:08:17,880 --> 00:08:13,990

it confusing how about buying matter

155

00:08:20,040 --> 00:08:17,890

interaction ah okay I like that one

156

00:08:21,690 --> 00:08:20,050

that's great yeah there's a lot of

157

00:08:24,500 --> 00:08:21,700

different terms for the same thing I

158

00:08:28,110 --> 00:08:24,510

mean I think telekinesis really means

159

00:08:30,450 --> 00:08:28,120

affecting something at a distance so you

160

00:08:33,140 --> 00:08:30,460

have tella which is from a distance and

161

00:08:36,959 --> 00:08:33,150

Kinesis which is you know movement or

162

00:08:40,680 --> 00:08:36,969

and then psychokinesis would be

163

00:08:42,750 --> 00:08:40,690

affecting something with your mind and

164

00:08:46,200 --> 00:08:42,760

then it can all just fall into my matter

165

00:08:49,140 --> 00:08:46,210

interaction mm I so the terminologies

166

00:08:50,550 --> 00:08:49,150

problem with all this every every few

167

00:08:52,620 --> 00:08:50,560

years it seems like in the world of

168

00:08:55,170 --> 00:08:52,630

parapsychology they undergo an upheaval

169

00:09:00,019 --> 00:08:55,180

about what these things are called

170

00:09:02,780 --> 00:09:00,029

so you know the famous ESP and

171

00:09:05,090 --> 00:09:02,790

extrasensory perception and PK

172

00:09:08,070 --> 00:09:05,100

psychokinesis and there's clairvoyance

173

00:09:11,160 --> 00:09:08,080

which is essentially finding out some

174

00:09:12,690 --> 00:09:11,170

information that you should know that

175

00:09:17,040 --> 00:09:12,700

that would sort of fall under the

176

00:09:18,930 --> 00:09:17,050

category of ESP but ESP could also

177

00:09:22,440 --> 00:09:18,940

include telepathy which will be

178

00:09:24,050 --> 00:09:22,450

mind-to-mind communication so there's a

179

00:09:26,340 --> 00:09:24,060

lot of different and then precognition

180

00:09:27,930 --> 00:09:26,350

you know like the lady you were

181

00:09:30,780 --> 00:09:27,940

describing with the poem the night

182

00:09:34,260 --> 00:09:30,790

before the crash right right just hours

183

00:09:38,400 --> 00:09:34,270

before us it turns out but yes yes right

184

00:09:41,670 --> 00:09:38,410

so lots of different terms well we would

185

00:09:45,360 --> 00:09:41,680

basically just wanted to clear up for

186

00:09:47,699 --> 00:09:45,370

our less I don't say less informed

187

00:09:50,790 --> 00:09:47,709

listeners but yeah less informed

188

00:09:53,370 --> 00:09:50,800

listeners what psychokinesis actually

189

00:09:56,040 --> 00:09:53,380

was before we took the ball and ran with

190

00:09:58,260 --> 00:09:56,050

the psychokinesis and spoke with you so

191

00:10:01,760 --> 00:09:58,270

I think you've you fought let everybody

192

00:10:04,860 --> 00:10:01,770

know quite clearly inclined me thank you

193

00:10:06,960 --> 00:10:04,870

yeah well you know I can just give you a

194

00:10:09,960 --> 00:10:06,970

real short history about psychokinesis

195

00:10:11,910 --> 00:10:09,970

I'll be great yeah that's well it's it's

196

00:10:15,060 --> 00:10:11,920

been known about for you know a few

197

00:10:17,370 --> 00:10:15,070

thousand years really I'd say the first

198

00:10:18,930 --> 00:10:17,380

instance instances of it that have been

199

00:10:24,500 --> 00:10:18,940

recorded were these so-called

200

00:10:27,690 --> 00:10:24,510

poltergeist type of event which are

201
00:10:30,840 --> 00:10:27,700
classically like showers of rocks

202
00:10:35,160 --> 00:10:30,850
raining down on the roof of the house or

203
00:10:38,940 --> 00:10:35,170
things flying across the room almost

204
00:10:41,910 --> 00:10:38,950
like a mischievous you know ghost or

205
00:10:44,970 --> 00:10:41,920
spirit is getting in and messing around

206
00:10:47,550 --> 00:10:44,980
with things and it's been recorded for

207
00:10:52,110 --> 00:10:47,560
for quite a while these type of

208
00:10:56,850 --> 00:10:52,120
activities and then the next big thing

209
00:11:00,420 --> 00:10:56,860
that came along probably was the in the

210
00:11:03,060 --> 00:11:00,430
late 1800s the spiritualist yes yes yeah

211
00:11:07,440 --> 00:11:03,070
yeah you know materializing things and

212
00:11:10,710 --> 00:11:07,450
the most famous of those was DD Hume

213
00:11:14,100 --> 00:11:10,720

levitate oh and speaking of levitation

214

00:11:18,030 --> 00:11:14,110

there was also in the 15th or 16th

215

00:11:22,770 --> 00:11:18,040

century a very famous monk st. Joseph of

216

00:11:25,200 --> 00:11:22,780

Cupertino who levitated all the time he

217

00:11:27,960 --> 00:11:25,210

became rather infamous the Catholic

218

00:11:29,880 --> 00:11:27,970

Church was really rather embarrassed by

219

00:11:32,790 --> 00:11:29,890

it and kept moving him from a monastery

220

00:11:36,510 --> 00:11:32,800

to monastery but the word would get out

221

00:11:39,150 --> 00:11:36,520

the disguise floating and the crowds

222

00:11:43,560 --> 00:11:39,160

would gather I'd not peanut he was kind

223

00:11:46,590 --> 00:11:43,570

of like a medieval rock star I can't see

224

00:11:49,500 --> 00:11:46,600

why I can see why yeah witness by kings

225

00:11:53,900 --> 00:11:49,510

and queens and 11 quiz / and then DD

226

00:11:57,750 --> 00:11:53,910

human was similar to that he was a

227

00:12:02,690 --> 00:11:57,760

medium who levitated he also levitated

228

00:12:05,970 --> 00:12:02,700

objects and did a lot of quite fantastic

229

00:12:09,660 --> 00:12:05,980

macro PK type things in controlled

230

00:12:11,700 --> 00:12:09,670

conditions and was studied by scientists

231

00:12:15,320 --> 00:12:11,710

of the time some of whom got into

232

00:12:17,700 --> 00:12:15,330

trouble for it sir william crookes

233

00:12:20,210 --> 00:12:17,710

studies him and published papers about

234

00:12:23,660 --> 00:12:20,220

it they actually did measurements using

235

00:12:26,210 --> 00:12:23,670

scales and found that he you know was

236

00:12:29,640 --> 00:12:26,220

reducing the weight of objects or

237

00:12:31,530 --> 00:12:29,650

lifting extremely heavy tables causing

238

00:12:34,940 --> 00:12:31,540

them to levitate that most people could

239

00:12:37,470 --> 00:12:34,950

not you know would take three or four

240

00:12:42,900 --> 00:12:37,480

people to lift this table and he was

241

00:12:45,930 --> 00:12:42,910

just levitating it and so you know them

242

00:12:49,800 --> 00:12:45,940

from there in the early 20s I think

243

00:12:51,600 --> 00:12:49,810

there was a rather famous case of some

244

00:12:55,710 --> 00:12:51,610

psychics we were able to bend light

245

00:12:58,320 --> 00:12:55,720

beams and that was accidentally

246

00:13:00,840 --> 00:12:58,330

discovered and then it sort of evolved

247

00:13:04,050 --> 00:13:00,850

into laboratory research starting with

248

00:13:08,840 --> 00:13:04,060

JV Rhine who tried to get it you know in

249

00:13:11,730 --> 00:13:08,850

a controlled statistical type of study

250

00:13:16,590 --> 00:13:11,740

circumstance and they were using cards

251
00:13:20,220 --> 00:13:16,600
or dice specifically for PK and then in

252
00:13:21,470 --> 00:13:20,230
the 1960s how much met at the Rhine

253
00:13:23,630 --> 00:13:21,480
Center

254
00:13:31,670 --> 00:13:23,640
discovered that you could use a

255
00:13:36,540 --> 00:13:31,680
radioactive source and PK the random

256
00:13:39,450 --> 00:13:36,550
radioactive decay and change the

257
00:13:42,390 --> 00:13:39,460
statistics Wow the way the decay was

258
00:13:44,490 --> 00:13:42,400
happening so that that came to be called

259
00:13:47,160 --> 00:13:44,500
micro PK because was happening on a

260
00:13:51,530 --> 00:13:47,170
quantum level as opposed to sort of the

261
00:13:56,010 --> 00:13:51,540
macro PK of DD Hume and and other

262
00:14:00,170 --> 00:13:56,020
psychics what about Olga I can never

263
00:14:04,380 --> 00:14:00,180

remember open up Olga Olga whirl no oka

264

00:14:07,320 --> 00:14:04,390

colon quiggle i was thinking of lovetsky

265

00:14:10,530 --> 00:14:07,330

the one who was i believe she was in

266

00:14:13,050 --> 00:14:10,540

georgia and soviet at that time Soviet

267

00:14:16,790 --> 00:14:13,060

Georgia and in some way some of the

268

00:14:21,000 --> 00:14:16,800

things that she did I understood or read

269

00:14:25,620 --> 00:14:21,010

was what's the reason that the United

270

00:14:29,400 --> 00:14:25,630

States government got into trying to

271

00:14:33,300 --> 00:14:29,410

beat the Soviets in their psychic

272

00:14:35,490 --> 00:14:33,310

research and thus the remote viewing

273

00:14:38,400 --> 00:14:35,500

project was born but what she did she

274

00:14:40,440 --> 00:14:38,410

was a Georgian woman and she moved

275

00:14:42,630 --> 00:14:40,450

objects across the table in front of a

276

00:14:45,810 --> 00:14:42,640

lot of Soviet scientists and they

277

00:14:48,450 --> 00:14:45,820

released a movie of it i'm going to say

278

00:14:50,340 --> 00:14:48,460

in the 50s or 60s it was a long time ago

279

00:14:52,620 --> 00:14:50,350

the woman has passed at this juncture

280

00:14:54,810 --> 00:14:52,630

I'm quite sure you don't know her well

281

00:14:57,450 --> 00:14:54,820

fan no I know who you're talking about

282

00:14:59,970 --> 00:14:57,460

yeah cool going or something it's like

283

00:15:01,740 --> 00:14:59,980

almost like a Russian kilgallon but his

284

00:15:04,680 --> 00:15:01,750

cold gold going or something like that

285

00:15:10,080 --> 00:15:04,690

yeah I can't remember her name right now

286

00:15:12,090 --> 00:15:10,090

but yes she was filmed moving objects

287

00:15:14,880 --> 00:15:12,100

and you're right that could cause quite

288

00:15:17,790 --> 00:15:14,890

a stir so that would be an example of

289

00:15:21,000 --> 00:15:17,800

macro PK and there was a we have a film

290

00:15:23,850 --> 00:15:21,010

actually a u.s. woman from New York who

291

00:15:28,410 --> 00:15:23,860

was able to move objects as well with

292

00:15:31,230 --> 00:15:28,420

her hands expect she used that model of

293

00:15:34,140 --> 00:15:31,240

the Russian lady really you don't know

294

00:15:37,200 --> 00:15:34,150

where she lives or lived in New you

295

00:15:41,070 --> 00:15:37,210

work there's a reason why I asked about

296

00:15:45,000 --> 00:15:41,080

that because um the fellow who started

297

00:15:49,830 --> 00:15:45,010

the Mormon religion whose name is Smith

298

00:15:53,340 --> 00:15:49,840

Joseph Smith and the Fox sisters the

299

00:15:56,970 --> 00:15:53,350

famous table rapping font sisters lived

300

00:16:01,700 --> 00:15:56,980

just miles apart from one another which

301
00:16:07,200 --> 00:16:01,710
is also in a hotbed area of UFO

302
00:16:12,090 --> 00:16:07,210
sightings mmm so I'm wondering about the

303
00:16:17,160 --> 00:16:12,100
like geomagnetic properties or earth

304
00:16:19,320 --> 00:16:17,170
earth energies that might be involved

305
00:16:20,880 --> 00:16:19,330
there so that's why I was wondering

306
00:16:24,420 --> 00:16:20,890
where this woman in New York lived who

307
00:16:28,470 --> 00:16:24,430
did the PK well as far as i know it was

308
00:16:32,090 --> 00:16:28,480
in New York City ok ok not during place

309
00:16:35,490 --> 00:16:32,100
no and and she worked very hard at this

310
00:16:39,120 --> 00:16:35,500
it took a lot of effort and I took a lot

311
00:16:40,260 --> 00:16:39,130
out of her to do it yes so you know a

312
00:16:42,840 --> 00:16:40,270
different kind of model there's

313
00:16:45,660 --> 00:16:42,850

different ways that people approach PK

314

00:16:48,030 --> 00:16:45,670

and for some that's the no effort

315

00:16:50,310 --> 00:16:48,040

approach for others they have to expend

316

00:16:52,290 --> 00:16:50,320

mighty effort I had a friend that used

317

00:16:54,270 --> 00:16:52,300

to do that and but she'd do it as a joke

318

00:16:56,250 --> 00:16:54,280

like if you were in a back then

319

00:16:59,280 --> 00:16:56,260

everybody smoked and she just moved

320

00:17:00,840 --> 00:16:59,290

ashtrays across the table and and she

321

00:17:03,840 --> 00:17:00,850

just laugh about it and she thought

322

00:17:05,940 --> 00:17:03,850

everybody had that ability and it was it

323

00:17:07,590 --> 00:17:05,950

was interesting and you know people

324

00:17:09,180 --> 00:17:07,600

questioned her she just look at a

325

00:17:11,490 --> 00:17:09,190

picture and it would come off the wall

326

00:17:15,750 --> 00:17:11,500

and but she didn't put any effort into

327

00:17:17,340 --> 00:17:15,760

it though hmm no strange uh uh yeah go

328

00:17:19,260 --> 00:17:17,350

ahead rosslyn I was just going to say

329

00:17:21,800 --> 00:17:19,270

we're looking for people like that don't

330

00:17:24,240 --> 00:17:21,810

you oh yeah no she's not around it was

331

00:17:25,710 --> 00:17:24,250

well you know anybody he's doing things

332

00:17:28,110 --> 00:17:25,720

like that please tell him to get I

333

00:17:31,710 --> 00:17:28,120

definitely I know or if you're out there

334

00:17:37,080 --> 00:17:31,720

of any room I know two brothers one of

335

00:17:39,960 --> 00:17:37,090

whom is a ventriloquist and these two

336

00:17:42,360 --> 00:17:39,970

brothers apparently move things between

337

00:17:43,770 --> 00:17:42,370

them they sit opposite the table from

338

00:17:46,470 --> 00:17:43,780

one another I don't know if they're

339

00:17:48,030 --> 00:17:46,480

twins they might be twins or they might

340

00:17:50,820 --> 00:17:48,040

be very close in a

341

00:17:52,950 --> 00:17:50,830

and they apparently move things but I

342

00:17:57,930 --> 00:17:52,960

wouldn't send them to you Ross until I

343

00:18:00,960 --> 00:17:57,940

saw the evidence first but oh wait i saw

344

00:18:03,150 --> 00:18:00,970

to get back to it you do EE GS and MRIs

345

00:18:05,400 --> 00:18:03,160

and I was wondering ah since you do have

346

00:18:08,850 --> 00:18:05,410

some of the subjects that do this have

347

00:18:11,130 --> 00:18:08,860

you seen any anything that would take

348

00:18:13,110 --> 00:18:11,140

the so called paranormal into the normal

349

00:18:16,200 --> 00:18:13,120

range I'm interview any evidence of

350

00:18:19,200 --> 00:18:16,210

changes and brain waves or anything of

351

00:18:23,970 --> 00:18:19,210

that nature well of course that's that's

352

00:18:28,590 --> 00:18:23,980

what we're after and I've got a bunch of

353

00:18:33,000 --> 00:18:28,600

preliminary data we just came off of a

354

00:18:36,240 --> 00:18:33,010

year and a half pilot study and there's

355

00:18:39,720 --> 00:18:36,250

two two tasks that we have to make

356

00:18:42,890 --> 00:18:39,730

happen for these kinds of studies one of

357

00:18:47,070 --> 00:18:42,900

them is we have to be able to reliably

358

00:18:49,620 --> 00:18:47,080

detect quote-unquote PK and do it

359

00:18:52,890 --> 00:18:49,630

electronically so we can merge that data

360

00:18:58,710 --> 00:18:52,900

in simultaneously with the physiology

361

00:19:00,630 --> 00:18:58,720

the EEG data so we end up having to run

362

00:19:03,540 --> 00:19:00,640

these things in control trials their

363

00:19:06,240 --> 00:19:03,550

timed you have to do several of them

364

00:19:12,090 --> 00:19:06,250

like my standard protocol right now is

365

00:19:16,650 --> 00:19:12,100

48 trials 48 seconds each alternating

366

00:19:19,170 --> 00:19:16,660

between rest and PK and as you can see

367

00:19:23,640 --> 00:19:19,180

that's a difficult task get somebody

368

00:19:25,440 --> 00:19:23,650

turn PK on and off like that oh yeah and

369

00:19:30,840 --> 00:19:25,450

also in the process of doing that we

370

00:19:32,850 --> 00:19:30,850

accumulate mountains of data so and it

371

00:19:37,380 --> 00:19:32,860

took a while as well to get all the

372

00:19:38,730 --> 00:19:37,390

spurious protocols programmed and all

373

00:19:43,260 --> 00:19:38,740

the hardware and everything running

374

00:19:45,980 --> 00:19:43,270

synchronized and and whatnot so my pilot

375

00:19:50,510 --> 00:19:45,990

study that I just finished I've got

376

00:19:52,650 --> 00:19:50,520

significant results and out of those

377

00:19:58,020 --> 00:19:52,660

significant results in terms of getting

378

00:20:00,250 --> 00:19:58,030

PK hits I was running eegees on I would

379

00:20:04,159 --> 00:20:00,260

say to

380

00:20:07,310 --> 00:20:04,169

really good prospects for seeing

381

00:20:09,470 --> 00:20:07,320

something and the first of those we've

382

00:20:12,070 --> 00:20:09,480

started doing some of the EEG analysis

383

00:20:15,830 --> 00:20:12,080

and that's second big challenge is

384

00:20:20,090 --> 00:20:15,840

dealing with the EEG data so in order to

385

00:20:22,580 --> 00:20:20,100

get good you know analyzable EEG data

386

00:20:24,860 --> 00:20:22,590

the person the subject of the experiment

387

00:20:29,539 --> 00:20:24,870

really can't be moving very much they

388

00:20:31,700 --> 00:20:29,549

can't be chewing or moving their eyes

389

00:20:33,860 --> 00:20:31,710

we're talking or moving their hands I

390

00:20:36,560 --> 00:20:33,870

mean they can they can do that but if

391

00:20:40,070 --> 00:20:36,570

it's causing too much interference we

392

00:20:41,510 --> 00:20:40,080

have to throw that trial out and so now

393

00:20:45,289 --> 00:20:41,520

we have to go through all these trials

394

00:20:48,350 --> 00:20:45,299

manually and judge whether they're in

395

00:20:51,669 --> 00:20:48,360

the artifact and that's about the stage

396

00:20:55,519 --> 00:20:51,679

where we're in is grinding through

397

00:20:58,490 --> 00:20:55,529

visually looking at the EEG data but

398

00:21:03,289 --> 00:20:58,500

what I can say preliminary isn't one in

399

00:21:08,600 --> 00:21:03,299

one case the person has a really odd you

400

00:21:12,500 --> 00:21:08,610

know EEG it's a very odd activation in

401
00:21:17,169 --> 00:21:12,510
the PK mode versus his rest mode and it

402
00:21:21,110 --> 00:21:17,179
it's like changing and frequency the

403
00:21:25,100 --> 00:21:21,120
spectral peak frequency is shifting as

404
00:21:27,680 --> 00:21:25,110
you go along as head so napping across

405
00:21:30,500 --> 00:21:27,690
spatially across the brain there's a

406
00:21:34,310 --> 00:21:30,510
different frequency from a certain part

407
00:21:36,549 --> 00:21:34,320
of the brain isn't it yeah yeah and and

408
00:21:40,639 --> 00:21:36,559
then also there's some weird

409
00:21:43,279 --> 00:21:40,649
antisymmetry so one side is set up in

410
00:21:47,899 --> 00:21:43,289
one way and the other side is it's sort

411
00:21:52,610 --> 00:21:47,909
of the opposite of it in other words

412
00:21:54,230 --> 00:21:52,620
like one side of the head the electrodes

413
00:21:57,230 --> 00:21:54,240

have a spectral peak at a certain

414

00:21:59,779 --> 00:21:57,240

frequency on the other side it's a it's

415

00:22:02,799 --> 00:21:59,789

a deep dip like that frequency is like

416

00:22:06,500 --> 00:22:02,809

gone it's missing so my goodness yeah

417

00:22:08,510 --> 00:22:06,510

it's over very preliminary does this

418

00:22:10,430 --> 00:22:08,520

have to do with the dominance of the

419

00:22:12,910 --> 00:22:10,440

right or left hemisphere or am i

420

00:22:16,030 --> 00:22:12,920

listening wrong am i hearing wrong

421

00:22:19,210 --> 00:22:16,040

not getting it I've that point I

422

00:22:22,180 --> 00:22:19,220

couldn't tell you Oh Anna Choi dominant

423

00:22:24,790 --> 00:22:22,190

or not and then one other question about

424

00:22:29,020 --> 00:22:24,800

this in a very broad sense i know you're

425

00:22:32,290 --> 00:22:29,030

measuring you know everything to a very

426

00:22:36,670 --> 00:22:32,300

fine degree but in a very broad sense is

427

00:22:40,450 --> 00:22:36,680

the person this particular person in as

428

00:22:43,870 --> 00:22:40,460

an alpha State when they're moving

429

00:22:47,620 --> 00:22:43,880

things or are they in a you know in a

430

00:22:52,000 --> 00:22:47,630

beta or is it is there any like a

431

00:22:54,130 --> 00:22:52,010

broader place that you can say that

432

00:22:57,580 --> 00:22:54,140

generally it happens in alpha for

433

00:22:59,830 --> 00:22:57,590

instance or it happens and Delta well

434

00:23:02,560 --> 00:22:59,840

that's that was the odd thing about this

435

00:23:04,690 --> 00:23:02,570

particular person that it was extending

436

00:23:06,610 --> 00:23:04,700

along a range of frequencies that you

437

00:23:09,040 --> 00:23:06,620

couldn't even say that anymore it was

438

00:23:11,650 --> 00:23:09,050

running from like sada all the way down

439

00:23:13,720 --> 00:23:11,660

through alpha wow we could you couldn't

440

00:23:15,040 --> 00:23:13,730

really say oh this person's in an awful

441

00:23:16,630 --> 00:23:15,050

state well you could say well part of

442

00:23:19,360 --> 00:23:16,640

their brains in an alpha stay put this

443

00:23:24,070 --> 00:23:19,370

other part over here is in the PK in a

444

00:23:26,470 --> 00:23:24,080

theta frequency Wow did you did you use

445

00:23:28,510 --> 00:23:26,480

a control subject the same time was

446

00:23:31,450 --> 00:23:28,520

there someone who's EEG you were

447

00:23:33,430 --> 00:23:31,460

measuring and finding sort of what I

448

00:23:41,200 --> 00:23:33,440

guess we would be referred to as normal

449

00:23:43,990 --> 00:23:41,210

EEG no that's uh they do that that's

450

00:23:47,260 --> 00:23:44,000

called a standard EEG or whatever if it

451
00:23:49,990 --> 00:23:47,270
based on a person's age and sex and

452
00:23:52,780 --> 00:23:50,000
whatnot there's kind of what you would

453
00:23:55,870 --> 00:23:52,790
expect to see in a standard EEG and it

454
00:23:57,670 --> 00:23:55,880
well eventually will trundle that out

455
00:23:59,470 --> 00:23:57,680
and compare but I can already say this

456
00:24:01,660 --> 00:23:59,480
person doesn't have a standard look

457
00:24:04,930 --> 00:24:01,670
again EG like you see sounds like

458
00:24:06,940 --> 00:24:04,940
nothing like it actually no I've never

459
00:24:08,950 --> 00:24:06,950
seen I've seen a fair amount of eegees

460
00:24:11,380 --> 00:24:08,960
over the years and I have not seen one

461
00:24:13,150 --> 00:24:11,390
that looked like that sounds not to say

462
00:24:15,040 --> 00:24:13,160
that you have to have an EEG that looks

463
00:24:17,590 --> 00:24:15,050

like that in order to make PK happen

464

00:24:19,900 --> 00:24:17,600

that's uh we don't know yet but but if

465

00:24:21,430 --> 00:24:19,910

you've been in the lab doing EEG say for

466

00:24:23,230 --> 00:24:21,440

medical research or something and you

467

00:24:26,530 --> 00:24:23,240

suddenly saw this when you go wait a

468

00:24:30,520 --> 00:24:26,540

minute it just does not look normal

469

00:24:32,290 --> 00:24:30,530

who is that the case I if I saw

470

00:24:35,260 --> 00:24:32,300

something that looked like that yeah I

471

00:24:38,200 --> 00:24:35,270

would be interesting and checking out

472

00:24:41,290 --> 00:24:38,210

the equipment right this is just one

473

00:24:46,300 --> 00:24:41,300

subject so ostensibly other subjects

474

00:24:49,140 --> 00:24:46,310

have provided other data and we're in

475

00:24:52,330 --> 00:24:49,150

the early stages of crunching then but

476
00:24:56,200 --> 00:24:52,340
we're launched into the formal study now

477
00:24:58,240 --> 00:24:56,210
in which we're only accepting what we

478
00:25:01,450 --> 00:24:58,250
would call PK experts into the study

479
00:25:05,560 --> 00:25:01,460
well so in order to get into the study

480
00:25:09,600 --> 00:25:05,570
you've got to like pass a preliminary

481
00:25:12,130 --> 00:25:09,610
exam will call it a screening test and

482
00:25:16,300 --> 00:25:12,140
we have one person that's done that so

483
00:25:19,300 --> 00:25:16,310
far demonstrable PK we will yeah he did

484
00:25:21,880 --> 00:25:19,310
it remotely so we run remote experiments

485
00:25:24,330 --> 00:25:21,890
as well that's one of her screening

486
00:25:27,190 --> 00:25:24,340
tools we can get a person on skype and

487
00:25:30,820 --> 00:25:27,200
let them run through the protocol for da

488
00:25:33,580 --> 00:25:30,830

trials you know 48 seconds each rest

489

00:25:37,960 --> 00:25:33,590

versus PK then he got significant

490

00:25:42,280 --> 00:25:37,970

results so he he visited the lab he's a

491

00:25:44,650 --> 00:25:42,290

healer he does energy healing oh I think

492

00:25:46,480 --> 00:25:44,660

I might have an idea who that might be I

493

00:25:49,300 --> 00:25:46,490

don't know I guess we're not at liberty

494

00:25:51,520 --> 00:25:49,310

to say the person's name I won't so no I

495

00:25:53,890 --> 00:25:51,530

don't think you would mind at Edwards

496

00:25:58,780 --> 00:25:53,900

yes yes I you she was just speaking with

497

00:26:02,920 --> 00:25:58,790

our mutual friend of Leslie about the at

498

00:26:05,440 --> 00:26:02,930

Edwards and so yeah well just just to

499

00:26:09,910 --> 00:26:05,450

set the record straight I know dr. Ross

500

00:26:12,460 --> 00:26:09,920

dunseith as a person who is a fellow

501
00:26:15,840 --> 00:26:12,470
member of the Professional Division of

502
00:26:20,560 --> 00:26:15,850
the monroe institute and in addition he

503
00:26:25,060 --> 00:26:20,570
holds the title of having attended the

504
00:26:26,740 --> 00:26:25,070
most MC squared program tomorrow it's

505
00:26:29,500 --> 00:26:26,750
the dude do you want to tell us about

506
00:26:32,950 --> 00:26:29,510
that a little bit well that's been a lot

507
00:26:35,410 --> 00:26:32,960
of fun I got introduced to Joe gallon

508
00:26:37,480 --> 00:26:35,420
burger and by the way Jose one of the

509
00:26:40,180 --> 00:26:37,490
people that came to our lab and got

510
00:26:43,149 --> 00:26:40,190
successful PK okay

511
00:26:45,700 --> 00:26:43,159
and it actually has has the bizarre EEG

512
00:26:48,220 --> 00:26:45,710
that we were just discussing mojo really

513
00:26:52,360 --> 00:26:48,230

its job then I'm sure I know he doesn't

514

00:26:54,909 --> 00:26:52,370

mind if we mention him well it's maybe

515

00:26:58,330 --> 00:26:54,919

it'll help him sell more books about Las

516

00:27:01,090 --> 00:26:58,340

Vegas I don't know well I can say he

517

00:27:03,789 --> 00:27:01,100

demonstrated you know in our protocol

518

00:27:05,619 --> 00:27:03,799

significant PK of X oh yeah he sees

519

00:27:09,519 --> 00:27:05,629

quite a nice fellow i really like Joe

520

00:27:13,600 --> 00:27:09,529

and so what I'm happy to see can you

521

00:27:17,529 --> 00:27:13,610

move the dice well he does I mean we we

522

00:27:20,529 --> 00:27:17,539

practice doing that at sarah TMI at the

523

00:27:23,889 --> 00:27:20,539

this is where it maybe we should mention

524

00:27:26,740 --> 00:27:23,899

that what being able to move dice why

525

00:27:30,009 --> 00:27:26,750

well maybe they wouldn't let him into

526

00:27:33,399 --> 00:27:30,019

the table special no he wrote a book

527

00:27:34,990 --> 00:27:33,409

about it it already okay i had a friend

528

00:27:37,810 --> 00:27:35,000

that was a card counter and he was

529

00:27:39,879 --> 00:27:37,820

banned from Atlantic City in Las Vegas a

530

00:27:42,539 --> 00:27:39,889

lot of the I don't like them now now

531

00:27:47,740 --> 00:27:42,549

they didn't like him at all but back to

532

00:27:49,240 --> 00:27:47,750

dr. Ross here um and well just you want

533

00:27:52,659 --> 00:27:49,250

to tell us a little bit about your

534

00:27:57,700 --> 00:27:52,669

adventures at MC squared well yeah sure

535

00:28:00,159 --> 00:27:57,710

so I meant Joe at a gateway a gateways I

536

00:28:01,509 --> 00:28:00,169

think that not everybody although most

537

00:28:03,430 --> 00:28:01,519

of our listeners have heard of the

538

00:28:07,560 --> 00:28:03,440

Monroe Institute because I've spoken of

539

00:28:11,529 --> 00:28:07,570

it before as my own personal Hogwarts on

540

00:28:15,549 --> 00:28:11,539

enhancing Virginia but you should

541

00:28:18,340 --> 00:28:15,559

probably you know explain like what is a

542

00:28:20,639 --> 00:28:18,350

gateway and what is MC squared should

543

00:28:24,909 --> 00:28:20,649

you not not volumes but just briefly

544

00:28:27,340 --> 00:28:24,919

sure well I guess nobody's familiar with

545

00:28:29,889 --> 00:28:27,350

the monroe institute or for someone

546

00:28:32,590 --> 00:28:29,899

who's not familiar with it they're

547

00:28:34,930 --> 00:28:32,600

located in central Virginia and they

548

00:28:38,499 --> 00:28:34,940

were started by Robert Monrovia journeys

549

00:28:40,869 --> 00:28:38,509

of the body he discovered some various

550

00:28:42,430 --> 00:28:40,879

audio techniques I think a lot of people

551
00:28:46,180 --> 00:28:42,440
have heard of binaural beats or

552
00:28:48,249 --> 00:28:46,190
hemi-sync and found that that using

553
00:28:50,320 --> 00:28:48,259
these techniques people could could have

554
00:28:51,940 --> 00:28:50,330
altered states of consciousness type

555
00:28:56,090 --> 00:28:51,950
experiences

556
00:28:57,560 --> 00:28:56,100
so they started a center for this in

557
00:29:00,920 --> 00:28:57,570
central Virginia in the mountains it's

558
00:29:03,860 --> 00:29:00,930
absolutely beautiful place and people

559
00:29:07,880 --> 00:29:03,870
can come in do various programs most of

560
00:29:11,540 --> 00:29:07,890
them last for about a week the beginning

561
00:29:13,970 --> 00:29:11,550
program is called the Gateway and I took

562
00:29:16,490 --> 00:29:13,980
the Gateway Program off four or five

563
00:29:18,230 --> 00:29:16,500

years ago beings how we live in

564

00:29:21,980 --> 00:29:18,240

Charlottesville just right up the road I

565

00:29:27,410 --> 00:29:21,990

wanted to go experience it and my one of

566

00:29:30,380 --> 00:29:27,420

my facilitators was to a gallon burger

567

00:29:33,740 --> 00:29:30,390

and I happen to mention I was setting up

568

00:29:35,990 --> 00:29:33,750

to run PK studies at UVA not knowing

569

00:29:37,760 --> 00:29:36,000

that Joe does MC squared program well

570

00:29:41,720 --> 00:29:37,770

it's this is a different program at the

571

00:29:46,520 --> 00:29:41,730

Monroe that's focused on psychokinesis

572

00:29:51,020 --> 00:29:46,530

healing mind over matter making things

573

00:29:53,810 --> 00:29:51,030

happen in your world and we got to

574

00:29:55,250 --> 00:29:53,820

talking and I said that I have portable

575

00:29:58,160 --> 00:29:55,260

equipment I was trying to develop

576

00:30:00,410 --> 00:29:58,170

sensors and it would be great to to be

577

00:30:03,110 --> 00:30:00,420

able to run these you know and groups

578

00:30:06,380 --> 00:30:03,120

people with groups of people who are

579

00:30:10,460 --> 00:30:06,390

studying trying to learn how to do PK

580

00:30:14,000 --> 00:30:10,470

and Joe very graciously volunteered to

581

00:30:17,090 --> 00:30:14,010

let me run it MC squared so I started

582

00:30:20,380 --> 00:30:17,100

coming to MC squirts on Wednesday

583

00:30:23,300 --> 00:30:20,390

evenings bringing all my gear and

584

00:30:25,010 --> 00:30:23,310

setting up with arrays of various

585

00:30:28,250 --> 00:30:25,020

sensors I was developing and we

586

00:30:32,150 --> 00:30:28,260

discovered over time some particularly

587

00:30:36,530 --> 00:30:32,160

good ones then I've accumulated a fair

588

00:30:39,200 --> 00:30:36,540

amount of data probably two rounds now

589

00:30:42,890 --> 00:30:39,210

the first round I came out with

590

00:30:46,130 --> 00:30:42,900

significant results overall comparing

591

00:30:48,050 --> 00:30:46,140

when people were trying to do PK trying

592

00:30:53,540 --> 00:30:48,060

to affect these sensors versus rest

593

00:30:58,580 --> 00:30:53,550

periods and we were even able to to go

594

00:31:02,510 --> 00:30:58,590

to the level of what types of exercises

595

00:31:04,730 --> 00:31:02,520

they were doing seemed to be the most

596

00:31:05,149 --> 00:31:04,740

efficient or causing the sensors to

597

00:31:10,339 --> 00:31:05,159

respond

598

00:31:13,580 --> 00:31:10,349

and and we would also work with small

599

00:31:16,969 --> 00:31:13,590

groups or individuals after the main

600

00:31:20,210 --> 00:31:16,979

session with large groups and some of

601
00:31:23,089 --> 00:31:20,220
these experiences have been really

602
00:31:27,080 --> 00:31:23,099
pretty interesting sometimes some people

603
00:31:30,109 --> 00:31:27,090
can get going and really cause a large

604
00:31:32,779 --> 00:31:30,119
effect it's like intrusion having been

605
00:31:35,570 --> 00:31:32,789
there not when you were there but I

606
00:31:38,389 --> 00:31:35,580
having taken that class and the feeling

607
00:31:39,979 --> 00:31:38,399
one gets when it goes is kind of like

608
00:31:43,460 --> 00:31:39,989
when you're a gambler and you're on a

609
00:31:47,930 --> 00:31:43,470
run mm-hmm but would you agree with

610
00:31:51,200 --> 00:31:47,940
people saying that sort of thing well

611
00:31:54,560 --> 00:31:51,210
for my own personal experience who the

612
00:31:55,909 --> 00:31:54,570
one macro PK maybe I've had a few more

613
00:31:59,769 --> 00:31:55,919

but the one that's the most memorable

614

00:32:02,359 --> 00:31:59,779

was a spoon bending event i went to a

615

00:32:06,249 --> 00:32:02,369

spoon bending party in Durham North

616

00:32:08,749 --> 00:32:06,259

Carolina and I guess the early 1980s

617

00:32:11,180 --> 00:32:08,759

there was an engineer from McDonnell

618

00:32:14,330 --> 00:32:11,190

Douglas back then who was traveling

619

00:32:18,019 --> 00:32:14,340

around the country giving these spoon

620

00:32:20,479 --> 00:32:18,029

bending parties if they consisted of of

621

00:32:23,930 --> 00:32:20,489

Jack at the beginning showing a

622

00:32:26,989 --> 00:32:23,940

slideshow of people bending metal spoons

623

00:32:30,169 --> 00:32:26,999

forks whatever to prove that it could be

624

00:32:32,029 --> 00:32:30,179

done and then in a very party-like

625

00:32:34,879 --> 00:32:32,039

atmosphere people would start bending

626
00:32:37,219 --> 00:32:34,889
and we were doing that in conjunction

627
00:32:41,450 --> 00:32:37,229
with the experiential learning lab at

628
00:32:46,509 --> 00:32:41,460
Duke so we took over all the various

629
00:32:52,450 --> 00:32:46,519
metal spoons we even had three HM inch

630
00:32:55,609 --> 00:32:52,460
steel rods and people started bending

631
00:32:57,580 --> 00:32:55,619
Jack you know got everybody all excited

632
00:33:00,710 --> 00:32:57,590
they were bending it there was even a

633
00:33:03,979 --> 00:33:00,720
woman who had to be in her 70s maybe 80

634
00:33:07,279 --> 00:33:03,989
years old who who took that 38 inch

635
00:33:09,950 --> 00:33:07,289
steel rod that nobody could physically

636
00:33:12,289 --> 00:33:09,960
bend and by the end of the evening she

637
00:33:17,570 --> 00:33:12,299
had it in about though maybe 20 25

638
00:33:18,770 --> 00:33:17,580

degree angle and so you know people are

639

00:33:20,270 --> 00:33:18,780

bending left and right I

640

00:33:23,570 --> 00:33:20,280

a spoon of my an and nothing was

641

00:33:26,450 --> 00:33:23,580

happening so a couple people came over

642

00:33:28,400 --> 00:33:26,460

and stood next to me and started

643

00:33:30,950 --> 00:33:28,410

chanting dan dan Ben and these were

644

00:33:32,570 --> 00:33:30,960

folks who were bendings I was holding on

645

00:33:35,690 --> 00:33:32,580

to the spoon and I felt that spoon

646

00:33:38,450 --> 00:33:35,700

turned into taffy Wow yeah huh you know

647

00:33:42,800 --> 00:33:38,460

absolute Kathy and I quickly rolled to

648

00:33:45,950 --> 00:33:42,810

complete 360-degree spirals yep yep and

649

00:33:47,480 --> 00:33:45,960

then yeah then I went stiff again the

650

00:33:49,460 --> 00:33:47,490

later on I took another spoon it's

651
00:33:52,640 --> 00:33:49,470
exactly the same type I tried to bend it

652
00:33:56,200 --> 00:33:52,650
by force yes and it snapped off before

653
00:34:01,070 --> 00:33:56,210
it even got to 90 degrees oh yes yes

654
00:34:04,190 --> 00:34:01,080
I've had experience with that and to me

655
00:34:07,670 --> 00:34:04,200
I sort of wait for the right moment and

656
00:34:09,140 --> 00:34:07,680
you know I push it one way I push it the

657
00:34:11,810 --> 00:34:09,150
other way without you know without

658
00:34:13,909 --> 00:34:11,820
bending it just pushing it a little bit

659
00:34:15,590 --> 00:34:13,919
one way or another and then you get the

660
00:34:17,840 --> 00:34:15,600
feeling it's going to go you know you

661
00:34:20,720 --> 00:34:17,850
feel it's going to go and then suddenly

662
00:34:23,480 --> 00:34:20,730
you just twist it in into a couple of

663
00:34:26,389 --> 00:34:23,490

spirals and there it goes it but I do

664

00:34:29,060 --> 00:34:26,399

touch it I do touch it Ross I admit I do

665

00:34:31,250 --> 00:34:29,070

touch the spoon I just go back and forth

666

00:34:33,680 --> 00:34:31,260

just looking at it feel it feel it and

667

00:34:38,870 --> 00:34:33,690

then the metal gets loose it gets it

668

00:34:40,700 --> 00:34:38,880

gets more like aluminum foil than then

669

00:34:44,960 --> 00:34:40,710

stainless steel that's the only way I

670

00:34:46,550 --> 00:34:44,970

can sort of describe it myself um well

671

00:34:53,750 --> 00:34:46,560

if you're bending metal we need to have

672

00:34:55,220 --> 00:34:53,760

you come visit us in the lab okay but

673

00:34:57,710 --> 00:34:55,230

actually that almost touches on

674

00:35:00,530 --> 00:34:57,720

something like all the spiritual type so

675

00:35:02,200 --> 00:35:00,540

they have ritual dances and so on any of

676

00:35:04,940 --> 00:35:02,210

these sort of large groups of people

677

00:35:08,270 --> 00:35:04,950

effecting change in something or other

678

00:35:11,480 --> 00:35:08,280

yeah yeah I be interesting if you could

679

00:35:14,390 --> 00:35:11,490

hook up to people doing this telekinesis

680

00:35:17,510 --> 00:35:14,400

to the same EEG machine and see what

681

00:35:19,280 --> 00:35:17,520

would happen if a group effort some form

682

00:35:21,020 --> 00:35:19,290

of a group effort yeah that's well

683

00:35:24,680 --> 00:35:21,030

there's actually been research done on

684

00:35:27,650 --> 00:35:24,690

both of those things the group research

685

00:35:31,640 --> 00:35:27,660

has centered around random number

686

00:35:33,590 --> 00:35:31,650

generators oh yes that's my PK again

687

00:35:35,930 --> 00:35:33,600

isn't it or is it my curb yes that's

688

00:35:39,610 --> 00:35:35,940

micro PK so it's like looking at a

689

00:35:42,200 --> 00:35:39,620

statistical effect and what has been

690

00:35:45,850 --> 00:35:42,210

published I think at least three or four

691

00:35:48,020 --> 00:35:45,860

papers now that when groups seem to get

692

00:35:52,010 --> 00:35:48,030

coherent so like they're doing

693

00:35:54,470 --> 00:35:52,020

meditation or some other things that

694

00:35:56,420 --> 00:35:54,480

just get the group to be coherent the

695

00:35:58,220 --> 00:35:56,430

best that's where i can describe the

696

00:36:01,640 --> 00:35:58,230

other football games you know the home

697

00:36:03,050 --> 00:36:01,650

team advantage always I mean it's a you

698

00:36:05,540 --> 00:36:03,060

know there's more people there for your

699

00:36:08,090 --> 00:36:05,550

team at home than the opposing team and

700

00:36:10,820 --> 00:36:08,100

it's it's actually recognized in sports

701
00:36:12,680 --> 00:36:10,830
is the home team advantage uh-huh and

702
00:36:14,600 --> 00:36:12,690
you know you get that's why you have

703
00:36:18,920 --> 00:36:14,610
cheerleaders that everybody chance

704
00:36:24,650 --> 00:36:18,930
together right so so those are Angie's

705
00:36:28,820 --> 00:36:24,660
will go off random and of course that's

706
00:36:31,310 --> 00:36:28,830
the global consciousness project yes

707
00:36:33,470 --> 00:36:31,320
that was started by folks from the pair

708
00:36:35,750 --> 00:36:33,480
lab at Princeton where they've set up a

709
00:36:38,810 --> 00:36:35,760
network of random number generators all

710
00:36:44,180 --> 00:36:38,820
over the planet you know and they saw

711
00:36:48,620 --> 00:36:44,190
that the the statistical relationship of

712
00:36:51,980 --> 00:36:48,630
these various RN geez shift based on

713
00:36:53,990 --> 00:36:51,990

worldwide events I'd grab the you know

714

00:36:57,590 --> 00:36:54,000

the attention of the entire planet so

715

00:37:00,530 --> 00:36:57,600

there was a measurable shift of it on 9

716

00:37:03,860 --> 00:37:00,540

11 / temple yes and there was one on

717

00:37:07,100 --> 00:37:03,870

Diana was was buried or the day of her

718

00:37:09,880 --> 00:37:07,110

funeral Princess Diana and there but

719

00:37:12,350 --> 00:37:09,890

others I think big sporting events have

720

00:37:15,440 --> 00:37:12,360

caused things to go off arindam as well

721

00:37:18,710 --> 00:37:15,450

I always feel like the atmosphere gets

722

00:37:22,520 --> 00:37:18,720

very quiet like even the voices in my

723

00:37:25,310 --> 00:37:22,530

head quiet down before a major Cataclysm

724

00:37:28,310 --> 00:37:25,320

of some sort occurs it's just seems

725

00:37:30,680 --> 00:37:28,320

things seem to get a bit quiet our last

726

00:37:33,770 --> 00:37:30,690

guest by the way was um angela thompson

727

00:37:37,790 --> 00:37:33,780

smith who were believed was associated

728

00:37:40,280 --> 00:37:37,800

with the pair lab in princeton she's the

729

00:37:41,600 --> 00:37:40,290

remote viewer who's out in a las vegas

730

00:37:45,700 --> 00:37:41,610

now i don't know if you're familiar with

731

00:37:49,370 --> 00:37:45,710

her but be that as it may so

732

00:37:52,730 --> 00:37:49,380

so now this this project that you're

733

00:37:58,430 --> 00:37:52,740

doing currently is this in conjunction

734

00:38:01,790 --> 00:37:58,440

with dr. ed Kelly as well yeah that is a

735

00:38:08,450 --> 00:38:01,800

co-director of the lab with me and he's

736

00:38:10,480 --> 00:38:08,460

the really the neuro scientist behind

737

00:38:12,770 --> 00:38:10,490

all this effort and and

738

00:38:16,280 --> 00:38:12,780

parapsychologist-- i'm more of the

739

00:38:17,990 --> 00:38:16,290

engineer so between the two of us I

740

00:38:20,510 --> 00:38:18,000

think I think we're covering most of the

741

00:38:24,700 --> 00:38:20,520

territory well that's exciting that's

742

00:38:27,109 --> 00:38:24,710

very exciting but it for-for our-our

743

00:38:30,230 --> 00:38:27,119

uninformed listeners who might have

744

00:38:32,510 --> 00:38:30,240

thought that doing pair parapsychology

745

00:38:36,580 --> 00:38:32,520

was extraordinarily glamorous for the

746

00:38:40,390 --> 00:38:36,590

most part it's extraordinarily hard work

747

00:38:45,920 --> 00:38:40,400

amassing data crunching numbers isn't it

748

00:38:49,730 --> 00:38:45,930

yes a slog you do have to acquire lots

749

00:38:51,880 --> 00:38:49,740

of data and be very meticulous about how

750

00:38:55,700 --> 00:38:51,890

you analyze the data and be prepared for

751

00:38:59,620 --> 00:38:55,710

unrelenting criticism because in the

752

00:39:03,140 --> 00:38:59,630

mainstream scientific world they don't

753

00:39:06,290 --> 00:39:03,150

allow these types of things to to have

754

00:39:08,390 --> 00:39:06,300

any credence therefore they can't

755

00:39:11,630 --> 00:39:08,400

possibly happen therefore whatever

756

00:39:14,090 --> 00:39:11,640

you're doing has to be wrong aha you've

757

00:39:17,210 --> 00:39:14,100

made a mistake somewhere just a priority

758

00:39:18,620 --> 00:39:17,220

is that's wrong so I parent

759

00:39:21,530 --> 00:39:18,630

psychologists have to go to great

760

00:39:23,930 --> 00:39:21,540

lengths to show that there's no mistakes

761

00:39:27,859 --> 00:39:23,940

and the technical aspects of their work

762

00:39:30,830 --> 00:39:27,869

indeed indeed and and it would you think

763

00:39:33,410 --> 00:39:30,840

I mean my thought is that this is due to

764

00:39:37,700 --> 00:39:33,420

the fact that although physics has moved

765

00:39:40,790 --> 00:39:37,710

forward into the 21st century most of

766

00:39:45,109 --> 00:39:40,800

the scientists live with the 19th

767

00:39:48,620 --> 00:39:45,119

century paradigm of the clockwork

768

00:39:53,060 --> 00:39:48,630

universe and you know the solidity of

769

00:39:57,260 --> 00:39:53,070

matter and they don't account for more

770

00:39:58,550 --> 00:39:57,270

modern physical more modern theories of

771

00:40:05,750 --> 00:39:58,560

physics

772

00:40:08,930 --> 00:40:05,760

gotten into the 21st century with their

773

00:40:10,970 --> 00:40:08,940

ideas well you know I think it's a

774

00:40:12,380 --> 00:40:10,980

matter first of all that the people want

775

00:40:18,580 --> 00:40:12,390

a career where things are going to

776

00:40:25,790 --> 00:40:21,680

science I know things don't happen a lot

777

00:40:30,460 --> 00:40:25,800

so so because of that most working

778

00:40:34,580 --> 00:40:30,470

scientists you know are into good

779

00:40:37,400 --> 00:40:34,590

reliable physical theories and data and

780

00:40:39,920 --> 00:40:37,410

they pay no attention to the

781

00:40:42,290 --> 00:40:39,930

parapsychological data so they don't

782

00:40:45,310 --> 00:40:42,300

know that there's like a hundred years

783

00:40:49,820 --> 00:40:45,320

worth of a mass data showing that the

784

00:40:52,990 --> 00:40:49,830

visa phenomena are real so it's partly

785

00:40:55,400 --> 00:40:53,000

ignorance it's partly convenience and

786

00:40:59,830 --> 00:40:55,410

also another thing for a lot of

787

00:41:04,180 --> 00:40:59,840

physicists that all the various quantum

788

00:41:08,750 --> 00:41:04,190

philosophies that involve bind and

789

00:41:12,260 --> 00:41:08,760

collapsing the you know the waveform and

790

00:41:14,090 --> 00:41:12,270

all that business they don't think about

791

00:41:17,090 --> 00:41:14,100

that very much quantum theory has been

792

00:41:19,070 --> 00:41:17,100

extraordinarily successful in predicting

793

00:41:22,430 --> 00:41:19,080

say the behavior of solid-state

794

00:41:26,720 --> 00:41:22,440

electronic circuitry okay and that's

795

00:41:28,430 --> 00:41:26,730

what most people use it for when you

796

00:41:31,250 --> 00:41:28,440

start getting into the realm of what

797

00:41:34,130 --> 00:41:31,260

they were called philosophy of quantum

798

00:41:38,270 --> 00:41:34,140

physics a lot of people try to avoid it

799

00:41:40,670 --> 00:41:38,280

and there's even still controversy to

800

00:41:43,730 --> 00:41:40,680

this day about whether the mind is

801
00:41:48,020 --> 00:41:43,740
involved or not whether the observation

802
00:41:50,870 --> 00:41:48,030
that collapsed the wife on the way for

803
00:41:54,920 --> 00:41:50,880
them that's not exactly the right term

804
00:41:57,290 --> 00:41:54,930
but whether that's caused by mind or

805
00:41:59,030 --> 00:41:57,300
just by perturbation of the measuring

806
00:42:03,590 --> 00:41:59,040
equipment whatnot they're still arguing

807
00:42:05,660 --> 00:42:03,600
over that so mm-hmm and we still don't

808
00:42:08,130 --> 00:42:05,670
know if Schrodinger's cat made it or not

809
00:42:13,659 --> 00:42:08,140
you know

810
00:42:17,849 --> 00:42:13,669
catch you in the box well there's that I

811
00:42:22,089 --> 00:42:17,859
don't know I am of the opinion that

812
00:42:26,709 --> 00:42:22,099
without consciousness which we're all

813
00:42:29,409 --> 00:42:26,719

taking part in the other stuff is not is

814

00:42:32,229 --> 00:42:29,419

not really important because otherwise

815

00:42:35,019 --> 00:42:32,239

we're all just a bunch of mechanized

816

00:42:37,479 --> 00:42:35,029

robots in a dead universe or something

817

00:42:39,909 --> 00:42:37,489

yeah but it all goes back to the cart

818

00:42:43,299 --> 00:42:39,919

mind and body separation you know he but

819

00:42:44,439 --> 00:42:43,309

that still Alyssa yeah still but I was

820

00:42:46,449 --> 00:42:44,449

going to say you're really actually

821

00:42:48,699 --> 00:42:46,459

quite brave to have gone into this it's

822

00:42:51,609 --> 00:42:48,709

typically considered a career killer and

823

00:42:53,919 --> 00:42:51,619

yet you seem to have survived that

824

00:42:56,620 --> 00:42:53,929

onslaught as you can and flourished i

825

00:43:00,189 --> 00:42:56,630

can tell you yeah well i haven't been

826

00:43:01,959 --> 00:43:00,199

doing a continuous legal now yeah now

827

00:43:05,169 --> 00:43:01,969

well fortunately pull any I'm an

828

00:43:09,130 --> 00:43:05,179

electrical engineer so I I design you

829

00:43:13,689 --> 00:43:09,140

know instrumentation let's see from

830

00:43:15,249 --> 00:43:13,699

about I was nineteen ninety through 2010

831

00:43:19,509 --> 00:43:15,259

or so I was involved in just

832

00:43:21,789 --> 00:43:19,519

straightforward EEG type instrumentation

833

00:43:25,179 --> 00:43:21,799

development we were developing systems

834

00:43:27,130 --> 00:43:25,189

that would run inside MRI scanners and

835

00:43:28,689 --> 00:43:27,140

things like that so if I do a little bit

836

00:43:30,819 --> 00:43:28,699

of psychic research on the side they're

837

00:43:34,509 --> 00:43:30,829

not going to hold it against me because

838

00:43:36,789 --> 00:43:34,519

it the instrumentation you know it'll

839

00:43:40,029 --> 00:43:36,799

work it gets a workout with that too

840

00:43:41,709 --> 00:43:40,039

yeah and it's needed and there's

841

00:43:47,349 --> 00:43:41,719

probably a suspicion that it might pay

842

00:43:50,279 --> 00:43:47,359

off one day to write for the young the

843

00:43:54,579 --> 00:43:50,289

young person who wants to go into

844

00:43:57,640 --> 00:43:54,589

parapsychology yes but as a as a career

845

00:44:01,319 --> 00:43:57,650

as a parapsychologist solely that is a

846

00:44:05,259 --> 00:44:01,329

huge challenge in the United States

847

00:44:07,359 --> 00:44:05,269

there's much more of a opportunity for

848

00:44:12,789 --> 00:44:07,369

it in in Europe now than there is in the

849

00:44:15,939 --> 00:44:12,799

u.s. whereabouts Oh see in England

850

00:44:18,759 --> 00:44:15,949

there's two or three universities in

851

00:44:21,030 --> 00:44:18,769

Edinburgh Scotland there's psychic

852

00:44:31,690 --> 00:44:25,930

in Germany I have psychic research on

853

00:44:35,380 --> 00:44:31,700

going so I think there's more openness

854

00:44:38,320 --> 00:44:35,390

to it there then there is here what do

855

00:44:40,590 --> 00:44:38,330

you credit that to what do you you know

856

00:44:44,950 --> 00:44:40,600

credit the closed mindedness of the

857

00:44:49,390 --> 00:44:44,960

American academic world as opposed to

858

00:44:53,470 --> 00:44:49,400

the European yeah I don't know I think

859

00:44:59,320 --> 00:44:53,480

it is just a matter of perhaps this is

860

00:45:03,520 --> 00:44:59,330

slowly going to change here as well egg

861

00:45:06,220 --> 00:45:03,530

Kelly and and his fellow editors Emily

862

00:45:08,380 --> 00:45:06,230

Kelly his wife and micro so Bruce

863

00:45:12,280 --> 00:45:08,390

Grayson is on our staff here at this

864

00:45:14,290 --> 00:45:12,290

death experience they all published

865

00:45:16,890 --> 00:45:14,300

edited a book called the irreducible

866

00:45:20,830 --> 00:45:16,900

mind that was published a few years ago

867

00:45:23,470 --> 00:45:20,840

which is essentially a manifesto laying

868

00:45:26,470 --> 00:45:23,480

it down to the materialist science world

869

00:45:30,580 --> 00:45:26,480

that there are several things that

870

00:45:36,850 --> 00:45:30,590

cannot be explained by trying to invoke

871

00:45:40,600 --> 00:45:36,860

straight materialism for example a lot

872

00:45:43,390 --> 00:45:40,610

of the parapsychology data clearly shows

873

00:45:45,400 --> 00:45:43,400

that you know the idea that

874

00:45:48,310 --> 00:45:45,410

consciousness is being generated by the

875

00:45:51,400 --> 00:45:48,320

activity of the brain simply doesn't cut

876

00:45:56,770 --> 00:45:51,410

it right and i think that book has been

877

00:45:59,230 --> 00:45:56,780

having an impact so things may may

878

00:46:01,750 --> 00:45:59,240

slowly open up I I know it feels like

879

00:46:03,310 --> 00:46:01,760

there's becoming more awareness and more

880

00:46:05,110 --> 00:46:03,320

openness to these ideas that

881

00:46:08,650 --> 00:46:05,120

consciousness is an important part of

882

00:46:11,080 --> 00:46:08,660

the equation in that it's not generated

883

00:46:16,020 --> 00:46:11,090

solely by the flapping of neurons in the

884

00:46:18,670 --> 00:46:16,030

brain right English then then who are we

885

00:46:21,040 --> 00:46:18,680

really well there was an interesting

886

00:46:22,690 --> 00:46:21,050

physical question or philosophical

887

00:46:24,550 --> 00:46:22,700

question they said if let's say you

888

00:46:27,000 --> 00:46:24,560

could teleport someone on a Star Trek

889

00:46:28,780 --> 00:46:27,010

and absolutely every last little

890

00:46:32,130 --> 00:46:28,790

nanoparticle in your body was

891

00:46:35,390 --> 00:46:32,140

transported and it's perfectly

892

00:46:38,160 --> 00:46:35,400

yeah okay would your soul go with it and

893

00:46:41,970 --> 00:46:38,170

that that is the question that is an

894

00:46:44,190 --> 00:46:41,980

interesting proposition but I don't

895

00:46:46,560 --> 00:46:44,200

think that the physical sciences are

896

00:46:49,140 --> 00:46:46,570

quite up to giving us the model yet what

897

00:46:51,210 --> 00:46:49,150

they have teleported am I correct in it

898

00:46:53,940 --> 00:46:51,220

dr. Dunn see said there has been some

899

00:46:57,120 --> 00:46:53,950

teleportation of photons or something I

900

00:47:00,030 --> 00:46:57,130

know you know yeah I thought I heard

901
00:47:02,610 --> 00:47:00,040
something about that but I I'm not up on

902
00:47:07,380 --> 00:47:02,620
it I don't I think just something in

903
00:47:10,830 --> 00:47:07,390
Germany they did move some quanta of

904
00:47:13,800 --> 00:47:10,840
matters you know little tiny particles

905
00:47:16,770 --> 00:47:13,810
of matter from one place to another and

906
00:47:19,770 --> 00:47:16,780
it was uh it was received on the other

907
00:47:22,020 --> 00:47:19,780
end and it happened but as far as the

908
00:47:24,150 --> 00:47:22,030
details I'm afraid I'm ignorant but i'm

909
00:47:26,460 --> 00:47:24,160
quite sure it happened in southern

910
00:47:29,580 --> 00:47:26,470
germany somewhere but it all has to do

911
00:47:32,880 --> 00:47:29,590
with the entangle and singing but I mean

912
00:47:37,080 --> 00:47:32,890
I'm oh I'm over my head here but um I

913
00:47:39,770 --> 00:47:37,090

would say that I totally agree with um

914

00:47:42,270 --> 00:47:39,780

the type of things that you are

915

00:47:45,210 --> 00:47:42,280

mentioning having to do with this

916

00:47:47,100 --> 00:47:45,220

irreducible mind book and who publishes

917

00:47:49,230 --> 00:47:47,110

it so we'll give it a plug here I mean

918

00:47:50,580 --> 00:47:49,240

you know not that not that we're going

919

00:47:51,720 --> 00:47:50,590

to make the difference for the book

920

00:47:54,780 --> 00:47:51,730

because we don't know how many

921

00:47:56,370 --> 00:47:54,790

scientists listen to our heart about it

922

00:47:58,260 --> 00:47:56,380

I'm going to sounds good it sounds good

923

00:48:01,230 --> 00:47:58,270

to us so why don't you give us the

924

00:48:03,990 --> 00:48:01,240

repeat the details for our listeners who

925

00:48:08,820 --> 00:48:04,000

might be interested yeah it's called

926

00:48:13,400 --> 00:48:08,830

irreducible mind edited by ed Kelly

927

00:48:16,770 --> 00:48:13,410

Emily Kelly Bruce Grayson micro so I

928

00:48:19,980 --> 00:48:16,780

think it's published by MacFarlane okay

929

00:48:22,740 --> 00:48:19,990

all right so yeah they just actually

930

00:48:24,000 --> 00:48:22,750

came out with another book to throwing a

931

00:48:28,620 --> 00:48:24,010

point for that one's called beyond

932

00:48:31,260 --> 00:48:28,630

physicalism so that's a big Kelly's the

933

00:48:33,560 --> 00:48:31,270

editor and I think Adam cat Crabtree is

934

00:48:36,990 --> 00:48:33,570

editor for both of these books as well

935

00:48:40,050 --> 00:48:37,000

and that book is about some of the

936

00:48:44,229 --> 00:48:40,060

theories that could help elucidate how

937

00:48:49,599 --> 00:48:44,239

it is that mind may exist

938

00:48:53,349 --> 00:48:49,609

without the brain well I try not to be

939

00:48:55,779 --> 00:48:53,359

too dualistic and try to you know look

940

00:49:01,629 --> 00:48:55,789

at consciousness as the primary the

941

00:49:04,329 --> 00:49:01,639

primary element of a mount of creation

942

00:49:06,639 --> 00:49:04,339

of beingness you know consciousness and

943

00:49:11,529 --> 00:49:06,649

without consciousness there is nothing

944

00:49:14,159 --> 00:49:11,539

but do tell us Ross other than your

945

00:49:19,019 --> 00:49:14,169

spoon bending parties etc and

946

00:49:23,289 --> 00:49:19,029

experiences at at the monroe institute

947

00:49:26,399 --> 00:49:23,299

like with class there have there been

948

00:49:29,259 --> 00:49:26,409

other experiences that pulled you into

949

00:49:35,409 --> 00:49:29,269

this field in other words a personal

950

00:49:37,149 --> 00:49:35,419

experience such as did a UFO land on

951
00:49:40,479 --> 00:49:37,159
your lawn or did you see your mother

952
00:49:42,429 --> 00:49:40,489
your grandmother's ghost floating in

953
00:49:44,439 --> 00:49:42,439
your window one night or I'm being silly

954
00:49:50,129 --> 00:49:44,449
you know I'm granted being quite silly

955
00:49:53,169 --> 00:49:50,139
but um did was there some paramount

956
00:49:56,589 --> 00:49:53,179
event that occurred earlier in your life

957
00:49:58,749 --> 00:49:56,599
that you would like to share with us you

958
00:50:02,139 --> 00:49:58,759
know I think about it I was always

959
00:50:06,069 --> 00:50:02,149
interested in this sort of thing even in

960
00:50:09,699 --> 00:50:06,079
grade school I can't say there was any

961
00:50:12,549 --> 00:50:09,709
huge precipitating event except that i

962
00:50:15,279 --> 00:50:12,559
got to duke university in durham and and

963
00:50:17,829 --> 00:50:15,289

there was so much research going on at

964

00:50:21,519 --> 00:50:17,839

the time and i got to meet some really

965

00:50:23,649 --> 00:50:21,529

interesting psychic folks and see

966

00:50:26,619 --> 00:50:23,659

research in action and i did get to

967

00:50:29,439 --> 00:50:26,629

experience one aside from that spoon

968

00:50:32,769 --> 00:50:29,449

bending event a really good laboratory

969

00:50:36,159 --> 00:50:32,779

case under control conditions with

970

00:50:40,269 --> 00:50:36,169

controlled instrumentation where a

971

00:50:43,119 --> 00:50:40,279

person was able to affect what i think

972

00:50:47,649 --> 00:50:43,129

is probably you know indisputable

973

00:50:50,019 --> 00:50:47,659

evidence for for PK ok and I've got the

974

00:50:54,099 --> 00:50:50,029

chart recording of that I like to use it

975

00:50:57,270 --> 00:50:54,109

when I give talks as a motivation for

976

00:51:04,370 --> 00:50:57,280

studying more macro PK and

977

00:51:06,530 --> 00:51:04,380

instead of micro PK day off this was a

978

00:51:11,670 --> 00:51:06,540

if you're familiar with the old

979

00:51:14,730 --> 00:51:11,680

phonograph record players they had

980

00:51:18,960 --> 00:51:14,740

crystal cartridges in them those things

981

00:51:21,300 --> 00:51:18,970

are sensitive to force to vibration so I

982

00:51:26,160 --> 00:51:21,310

build up some instrumentation that used

983

00:51:30,300 --> 00:51:26,170

those things as force detectors and I

984

00:51:34,470 --> 00:51:30,310

have one suspended in a glass tube and

985

00:51:39,110 --> 00:51:34,480

another one mounted on the big granite

986

00:51:42,420 --> 00:51:39,120

rock the whole equipment was resting on

987

00:51:45,180 --> 00:51:42,430

so it was pig the the second one was

988

00:51:48,720 --> 00:51:45,190

picking up environmental vibration okay

989

00:51:52,110 --> 00:51:48,730

as a control the first one in the tube

990

00:51:54,420 --> 00:51:52,120

was the target and on one particular

991

00:51:58,980 --> 00:51:54,430

occasion a person came in it was rather

992

00:52:02,060 --> 00:51:58,990

spontaneous and after about a half an

993

00:52:06,960 --> 00:52:02,070

hour of sitting quietly with the system

994

00:52:10,260 --> 00:52:06,970

suddenly the detector went off it

995

00:52:13,830 --> 00:52:10,270

started getting a rather large signal on

996

00:52:15,570 --> 00:52:13,840

it whereas the control was absolutely

997

00:52:19,080 --> 00:52:15,580

quiet there was no environmental

998

00:52:21,000 --> 00:52:19,090

vibration causing this you know at that

999

00:52:25,410 --> 00:52:21,010

point the person said I've managed to

1000

00:52:29,190 --> 00:52:25,420

put energy my energy into the sensor so

1001
00:52:32,600 --> 00:52:29,200
now this is we're talking the same level

1002
00:52:34,980 --> 00:52:32,610
of force that a phonograph needle

1003
00:52:38,160 --> 00:52:34,990
experiences writing on the grooves of a

1004
00:52:39,630 --> 00:52:38,170
record okay you know that's okay you

1005
00:52:43,710 --> 00:52:39,640
might say that's kind of little maybe we

1006
00:52:46,530 --> 00:52:43,720
could call it mini PK and but you know

1007
00:52:49,680 --> 00:52:46,540
it's it's there it's physical it's in

1008
00:52:52,460 --> 00:52:49,690
this world it's enough to make you hear

1009
00:52:56,880 --> 00:52:52,470
music coming from a piece of vinyl

1010
00:52:58,890 --> 00:52:56,890
exactly and then to top it off they got

1011
00:53:01,440 --> 00:52:58,900
up and left the room it stayed activated

1012
00:53:03,390 --> 00:53:01,450
then they went back in the room sat down

1013
00:53:07,250 --> 00:53:03,400

and said I'm going to pull my energy out

1014

00:53:09,050 --> 00:53:07,260

of it and we watched that signal go down

1015

00:53:13,200 --> 00:53:09,060

Wow

1016

00:53:15,770 --> 00:53:13,210

so I thought that was a really really

1017

00:53:18,060 --> 00:53:15,780

shocking demonstration of pique oh

1018

00:53:21,150 --> 00:53:18,070

that's wonderful that's a wonderful

1019

00:53:24,180 --> 00:53:21,160

demonstration I believe I believe you

1020

00:53:26,970 --> 00:53:24,190

gave a talk about it at the the PD two

1021

00:53:29,040 --> 00:53:26,980

years ago did you not yeah so I say I

1022

00:53:31,080 --> 00:53:29,050

like to use that one as a yeah cuz I

1023

00:53:33,750 --> 00:53:31,090

remembered it when you started talking

1024

00:53:36,630 --> 00:53:33,760

about it I remembered it and it was very

1025

00:53:40,620 --> 00:53:36,640

very very impressive very impressive and

1026

00:53:44,720 --> 00:53:40,630

still is and and how is how has mr.

1027

00:53:48,330 --> 00:53:44,730

Eddie Edwards done I don't know yet he's

1028

00:53:50,850 --> 00:53:48,340

we've got a lot of data now this brings

1029

00:53:52,910 --> 00:53:50,860

up another interesting part of the

1030

00:53:56,370 --> 00:53:52,920

equation with this kind of research

1031

00:54:00,240 --> 00:53:56,380

especially sort of on a macro side of

1032

00:54:03,120 --> 00:54:00,250

things if if the macro PK gets going

1033

00:54:05,010 --> 00:54:03,130

there can be a pretty good chance that

1034

00:54:08,100 --> 00:54:05,020

the whole electronic system is going to

1035

00:54:11,280 --> 00:54:08,110

collapse you know I've had that happen

1036

00:54:15,060 --> 00:54:11,290

to me a couple of times so for example i

1037

00:54:16,770 --> 00:54:15,070

was in la maderia New Mexico had a field

1038

00:54:21,240 --> 00:54:16,780

system setup we were working with a

1039

00:54:23,220 --> 00:54:21,250

local healer and the community ealer had

1040

00:54:25,800 --> 00:54:23,230

been doing this for a million years and

1041

00:54:30,240 --> 00:54:25,810

he had a client that morning and this

1042

00:54:33,630 --> 00:54:30,250

person had a huge cathartic emotional

1043

00:54:37,170 --> 00:54:33,640

release and just at that moment that

1044

00:54:40,170 --> 00:54:37,180

that happened the electronics shut down

1045

00:54:43,950 --> 00:54:40,180

oh do you want to tell him about what

1046

00:54:46,050 --> 00:54:43,960

happened with us here with the no you go

1047

00:54:49,560 --> 00:54:46,060

right ahead no I think it's the the

1048

00:54:54,090 --> 00:54:49,570

first time that you and I and the late

1049

00:54:57,840 --> 00:54:54,100

great Valerie oh we've had we've had a

1050

00:55:00,600 --> 00:54:57,850

lot of issues on the Tesla effect that

1051
00:55:05,070 --> 00:55:00,610
what what what Jackie likes to call the

1052
00:55:08,630 --> 00:55:05,080
Tesla effect where our system you know

1053
00:55:12,270 --> 00:55:08,640
just collapses things disappear it

1054
00:55:15,180 --> 00:55:12,280
crashes it's just played unexplained I

1055
00:55:17,250 --> 00:55:15,190
think you should tell that the the

1056
00:55:19,860 --> 00:55:17,260
Valerie story well we were just

1057
00:55:21,430 --> 00:55:19,870
recording an interview and it was the

1058
00:55:24,130 --> 00:55:21,440
old Kate Valentine shell

1059
00:55:26,230 --> 00:55:24,140
this show yes and Bill was that bill was

1060
00:55:29,680 --> 00:55:26,240
there and Dave mar galati was the

1061
00:55:31,930 --> 00:55:29,690
station manager and dave is very OCD and

1062
00:55:34,329 --> 00:55:31,940
eggs care of everything as this bill and

1063
00:55:37,300 --> 00:55:34,339

between the two of them we never lost a

1064

00:55:39,609 --> 00:55:37,310

recording but this young lady I said

1065

00:55:41,470 --> 00:55:39,619

that's great you know for usha Valerie

1066

00:55:44,559 --> 00:55:41,480

will make this a little show together

1067

00:55:46,240 --> 00:55:44,569

and boom the recording disappeared it

1068

00:55:48,490 --> 00:55:46,250

couldn't be found Dave I think it's

1069

00:55:50,559 --> 00:55:48,500

still looking while it disappeared off

1070

00:55:52,540 --> 00:55:50,569

more than one machine it's the that's

1071

00:55:54,940 --> 00:55:52,550

what i meant yeah yeah all of them it

1072

00:55:58,240 --> 00:55:54,950

was a backup record any initial

1073

00:56:01,690 --> 00:55:58,250

recording bill had it remember it was it

1074

00:56:06,579 --> 00:56:01,700

disappeared from multiple places and we

1075

00:56:08,920 --> 00:56:06,589

we have had other other less well there

1076

00:56:11,230 --> 00:56:08,930

was the atomic clock at the studio which

1077

00:56:13,420 --> 00:56:11,240

they used of course because it was on

1078

00:56:17,020 --> 00:56:13,430

the air at all time and timing had to be

1079

00:56:18,550 --> 00:56:17,030

very very carefully measured and mobile

1080

00:56:21,040 --> 00:56:18,560

was there that I remember but we walked

1081

00:56:23,920 --> 00:56:21,050

in he clocked the second hand get on her

1082

00:56:25,809 --> 00:56:23,930

around and around around around and dave

1083

00:56:28,530 --> 00:56:25,819

was like all you two and you get here no

1084

00:56:32,349 --> 00:56:28,540

no no we've had we've had our share of

1085

00:56:35,650 --> 00:56:32,359

of disturbances and the biggest

1086

00:56:37,930 --> 00:56:35,660

disturbance on on air was not with us I

1087

00:56:40,120 --> 00:56:37,940

mean we lost stuff but the on air

1088

00:56:43,300 --> 00:56:40,130

disturbance which was incredible was

1089

00:56:46,240 --> 00:56:43,310

with the fellow down oh this is going to

1090

00:56:47,530 --> 00:56:46,250

be not good for broadcast because I

1091

00:56:49,480 --> 00:56:47,540

can't think of the fellows name but he

1092

00:56:52,540 --> 00:56:49,490

was he was talking from South America

1093

00:56:56,650 --> 00:56:52,550

and every time he started to talk about

1094

00:57:00,609 --> 00:56:56,660

his psychic stuff that was going on this

1095

00:57:04,809 --> 00:57:00,619

this incredible more than interference

1096

00:57:06,280 --> 00:57:04,819

wow wow wow and come up Oh unfortunately

1097

00:57:08,079 --> 00:57:06,290

I can't think of the man's name that

1098

00:57:09,970 --> 00:57:08,089

would have made the salary good that's

1099

00:57:11,589 --> 00:57:09,980

exactly what makes your research some

1100

00:57:14,410 --> 00:57:11,599

difficult though is these things pop up

1101
00:57:16,420 --> 00:57:14,420
out of nowhere you cannot reproduce them

1102
00:57:18,250 --> 00:57:16,430
as of course modern science would want

1103
00:57:20,440 --> 00:57:18,260
you to do you can't measure them you

1104
00:57:22,990 --> 00:57:20,450
can't quantify them you can't reproduce

1105
00:57:26,470 --> 00:57:23,000
them at will it's data that springs up

1106
00:57:28,390 --> 00:57:26,480
here and here and just never has all you

1107
00:57:31,450 --> 00:57:28,400
can say is it happened and that's it

1108
00:57:35,079 --> 00:57:31,460
well yeah we tried we try to cram it

1109
00:57:37,630 --> 00:57:35,089
into a control setup and it doesn't know

1110
00:57:39,190 --> 00:57:37,640
he's state control but but that I just

1111
00:57:41,739 --> 00:57:39,200
wanted to briefly mention what happened

1112
00:57:45,700 --> 00:57:41,749
when Ted Edwards was here so we were

1113
00:57:48,130 --> 00:57:45,710

running one of the protocols and he

1114

00:57:50,079 --> 00:57:48,140

later told me he was on a on a roll he

1115

00:57:53,170 --> 00:57:50,089

was he gets feedback at the end of each

1116

00:57:56,920 --> 00:57:53,180

peak a trial and he said he was getting

1117

00:58:01,029 --> 00:57:56,930

hit after hit on trial number 13 the

1118

00:58:03,509 --> 00:58:01,039

system just seized up Wow yeah well you

1119

00:58:05,799 --> 00:58:03,519

know and it doesn't normally do that so

1120

00:58:09,339 --> 00:58:05,809

fortunately we were able to restart and

1121

00:58:11,140 --> 00:58:09,349

keep getting our trials but I thought

1122

00:58:13,180 --> 00:58:11,150

that was a pretty interesting sign that

1123

00:58:14,729 --> 00:58:13,190

something was going on with him oh yeah

1124

00:58:19,630 --> 00:58:14,739

well he sounds like a fascinating

1125

00:58:22,150 --> 00:58:19,640

individual everybody who has met him who

1126

00:58:25,229 --> 00:58:22,160

I've spoken to has been very impressed

1127

00:58:27,880 --> 00:58:25,239

with him so he's certainly somebody who

1128

00:58:32,049 --> 00:58:27,890

you know we want to hear more from as

1129

00:58:37,479 --> 00:58:32,059

well as from you so what what's coming

1130

00:58:42,640 --> 00:58:37,489

up for further Ross dunseith well what's

1131

00:58:45,549 --> 00:58:42,650

coming up is find me more subjects well

1132

00:58:48,579 --> 00:58:45,559

put the call out put it out right now on

1133

00:58:51,789 --> 00:58:48,589

on our show we don't we don't guarantee

1134

00:58:54,849 --> 00:58:51,799

anything but it couldn't wait as we say

1135

00:58:58,089 --> 00:58:54,859

in Brooklyn oh yeah boom benden's of

1136

00:59:00,579 --> 00:58:58,099

America listen up there you go and you

1137

00:59:03,670 --> 00:59:00,589

know i'd say subject sort of facetiously

1138

00:59:06,640 --> 00:59:03,680

they really were were co-investigators

1139

00:59:10,450 --> 00:59:06,650

but we're looking for folks who who can

1140

00:59:13,539 --> 00:59:10,460

really do it and want to get in engage

1141

00:59:17,289 --> 00:59:13,549

in some laughter research and help you

1142

00:59:19,299 --> 00:59:17,299

know humanity understand what's going on

1143

00:59:22,870 --> 00:59:19,309

with this stuff so do you see any

1144

00:59:25,089 --> 00:59:22,880

practical application for it I mean in a

1145

00:59:27,339 --> 00:59:25,099

very crass sense I mean I'm sorry I

1146

00:59:30,640 --> 00:59:27,349

don't mean to be that well I think I

1147

00:59:33,069 --> 00:59:30,650

think healing is probably ah you know

1148

00:59:35,739 --> 00:59:33,079

the first one that's such a good one too

1149

00:59:38,920 --> 00:59:35,749

well you're associated with the medical

1150

00:59:42,160 --> 00:59:38,930

school at the UVA right no or or or I

1151

00:59:45,219 --> 00:59:42,170

guess what you were no well Dobson suit

1152

00:59:46,670 --> 00:59:45,229

in the department psychiatry and neyo

1153

00:59:49,490 --> 00:59:46,680

being outside it is

1154

00:59:51,410 --> 00:59:49,500

you know and and I know in Germany you

1155

00:59:54,610 --> 00:59:51,420

can specialize as an md and

1156

00:59:59,360 --> 00:59:54,620

psychosomatic medicine and I I think

1157

01:00:02,120 --> 00:59:59,370

healers probably do what they do without

1158

01:00:04,100 --> 01:00:02,130

realizing how they're doing it and if

1159

01:00:07,520 --> 01:00:04,110

you could train these people to be able

1160

01:00:09,320 --> 01:00:07,530

to know sort of what they're doing it

1161

01:00:11,750 --> 01:00:09,330

yeah I think that would be a wonderful

1162

01:00:13,940 --> 01:00:11,760

thing I think you know we we had a

1163

01:00:16,480 --> 01:00:13,950

resident here a few years ago she's

1164

01:00:19,070 --> 01:00:16,490

since graduated and left but she was

1165

01:00:21,650 --> 01:00:19,080

trained in the barber Brennan school

1166

01:00:23,840 --> 01:00:21,660

uh-huh uh-huh so she was also a

1167

01:00:27,140 --> 01:00:23,850

psychiatrist trained psychiatrist and

1168

01:00:28,850 --> 01:00:27,150

jeet she knew what she was doing and she

1169

01:00:31,760 --> 01:00:28,860

would bring those two modalities

1170

01:00:35,390 --> 01:00:31,770

together and use energy healing and also

1171

01:00:37,610 --> 01:00:35,400

you know work on the mental aspects and

1172

01:00:42,860 --> 01:00:37,620

I can tell you that that was quite

1173

01:00:46,970 --> 01:00:42,870

powerful well I think this has been like

1174

01:00:48,560 --> 01:00:46,980

a really fascinating show today I can't

1175

01:00:50,240 --> 01:00:48,570

believe it's over I can't believe it's

1176

01:00:55,400 --> 01:00:50,250

almost over we have a few more minutes

1177

01:00:59,270 --> 01:00:55,410

and do you want to leave any kind of an

1178

01:01:01,460 --> 01:00:59,280

address for pls and/or an email address

1179

01:01:06,080 --> 01:01:01,470

for people to send to you if they want

1180

01:01:10,220 --> 01:01:06,090

to co-create this study with you and be

1181

01:01:16,250 --> 01:01:10,230

a subject if you will I would ask folks

1182

01:01:18,020 --> 01:01:16,260

to just look up tops do PSUV a google it

1183

01:01:22,640 --> 01:01:18,030

and you can get in touch with us through

1184

01:01:25,880 --> 01:01:22,650

that through our website there's ways to

1185

01:01:28,490 --> 01:01:25,890

to contact us there I think that's

1186

01:01:30,200 --> 01:01:28,500

probably the easiest thing to do and do

1187

01:01:32,390 --> 01:01:30,210

you have a lot of published papers for

1188

01:01:33,980 --> 01:01:32,400

people that may not be subjects but

1189

01:01:39,080 --> 01:01:33,990

would be interested in reading about

1190

01:01:41,510 --> 01:01:39,090

your work the tops website lists various

1191

01:01:45,680 --> 01:01:41,520

publications I don't have very many

1192

01:01:47,120 --> 01:01:45,690

myself most of my stuff our patents for

1193

01:01:51,710 --> 01:01:47,130

instrumentation it's not very

1194

01:01:53,780 --> 01:01:51,720

interesting well cool well it is

1195

01:01:59,000 --> 01:01:53,790

interesting you know because it's it's a

1196

01:02:00,140 --> 01:01:59,010

way for for this work to move forward if

1197

01:02:02,960 --> 01:02:00,150

you have

1198

01:02:04,880 --> 01:02:02,970

created instrumentation to measure see

1199

01:02:07,609 --> 01:02:04,890

that's the part that scientists never

1200

01:02:10,460 --> 01:02:07,619

admit that creation of all their

1201

01:02:13,549 --> 01:02:10,470

different theories and so on is indeed

1202

01:02:15,710 --> 01:02:13,559

to create a mental creation and it

1203

01:02:18,319 --> 01:02:15,720

doesn't I mean obviously it Springs from

1204

01:02:21,789 --> 01:02:18,329

prior works but there's a little

1205

01:02:24,740 --> 01:02:21,799

mentality to it too and I'm just I'm

1206

01:02:27,710 --> 01:02:24,750

seeing seeing that and I'm thinking now

1207

01:02:31,329 --> 01:02:27,720

just simply about the work I've done

1208

01:02:35,089 --> 01:02:31,339

with creative visualization which is

1209

01:02:38,539 --> 01:02:35,099

seeking to do almost a PK kind of effect

1210

01:02:40,339 --> 01:02:38,549

but a more diffuse PK kind of effect and

1211

01:02:43,339 --> 01:02:40,349

the idea of using more than one person

1212

01:02:47,480 --> 01:02:43,349

like gathering a group to do creative

1213

01:02:50,450 --> 01:02:47,490

visualization in for each person in the

1214

01:02:53,170 --> 01:02:50,460

group like each person has a foreseeable

1215

01:02:57,650 --> 01:02:53,180

goal something that's tangible and

1216

01:03:00,349 --> 01:02:57,660

measurable and they can accomplish this

1217

01:03:03,349 --> 01:03:00,359

but the group together the group energy

1218

01:03:05,930 --> 01:03:03,359

sees it happening and helps move it

1219

01:03:08,870 --> 01:03:05,940

forward in the world and I can see how

1220

01:03:13,039 --> 01:03:08,880

these two things can be possibly related

1221

01:03:17,059 --> 01:03:13,049

so um would you like to give us any

1222

01:03:20,049 --> 01:03:17,069

final words there was final words why

1223

01:03:23,930 --> 01:03:20,059

other than I don't even altima tie fine

1224

01:03:29,660 --> 01:03:23,940

you know kind of like like a send-off

1225

01:03:32,450 --> 01:03:29,670

for us here I don't know but that's good

1226

01:03:34,700 --> 01:03:32,460

that's okay that's okay okay but I

1227

01:03:37,069 --> 01:03:34,710

doctor does it honestly I we know you're

1228

01:03:39,440 --> 01:03:37,079

very busy man and you're certainly an

1229

01:03:41,750 --> 01:03:39,450

extremely accomplished person and really

1230

01:03:43,549 --> 01:03:41,760

weird sincere thank you for taking this

1231

01:03:45,740 --> 01:03:43,559

hour to be with us it was a most

1232

01:03:47,960 --> 01:03:45,750

enjoyable conversation thank you so much

1233

01:03:49,760 --> 01:03:47,970

really thank you thank you for us take

1234

01:03:52,789 --> 01:03:49,770

care of now see you soon like you all

1235

01:03:54,559 --> 01:03:52,799

right bye bye I know oh that was

1236

01:03:58,339 --> 01:03:54,569

great I enjoyed that froosh I don't know

1237

01:04:00,620 --> 01:03:58,349

about you but that was uh I honestly you

1238

01:04:03,650 --> 01:04:00,630

know it's not my main area of interest

1239

01:04:06,920 --> 01:04:03,660

but boy really piqued my curiosity well

1240

01:04:10,670 --> 01:04:06,930

it I tend to think that the more you

1241

01:04:13,789 --> 01:04:10,680

know about the paranormal the more it

1242

01:04:15,709 --> 01:04:13,799

becomes almost I'm going to say this is

1243

01:04:18,439 --> 01:04:15,719

of course not scientific board but a

1244

01:04:20,959 --> 01:04:18,449

unified field not like the unified field

1245

01:04:22,039 --> 01:04:20,969

theory of well they said it was

1246

01:04:25,279 --> 01:04:22,049

established that they had their

1247

01:04:27,049 --> 01:04:25,289

established but it you know where one

1248

01:04:28,999 --> 01:04:27,059

thing bleeds into another which was

1249

01:04:34,630 --> 01:04:29,009

about like the last kind of thing I was

1250

01:04:37,130 --> 01:04:34,640

saying like with the intentionality and

1251

01:04:39,979 --> 01:04:37,140

that sort of thing when when you get at

1252

01:04:42,169 --> 01:04:39,989

a large group together and you do some

1253

01:04:45,289 --> 01:04:42,179

creative visualization for one another

1254

01:04:47,359 --> 01:04:45,299

and you all see you know certain project

1255

01:04:49,489 --> 01:04:47,369

moving forward like you sit there and

1256

01:04:51,859 --> 01:04:49,499

you all see Mary Jane passing the bar

1257

01:04:54,049 --> 01:04:51,869

examination well that might really help

1258

01:04:58,130 --> 01:04:54,059

Mary Jane pass the bar examination and

1259

01:05:00,949 --> 01:04:58,140

is it PK or is it not BK we can't say

1260

01:05:04,189 --> 01:05:00,959

but what about if all these things are

1261

01:05:06,910 --> 01:05:04,199

related simply to the consciousness

1262

01:05:11,630 --> 01:05:06,920

element and the fact that we're all

1263

01:05:14,739 --> 01:05:11,640

we're all one on some other level while

1264

01:05:18,859 --> 01:05:14,749

we all have these um you know these

1265

01:05:23,089 --> 01:05:18,869

monkey suits on and and we were all

1266

01:05:27,799 --> 01:05:23,099

these flesh puppets here but underneath

1267

01:05:30,109 --> 01:05:27,809

shattered reality podcast but it is

1282

01:06:20,059 --> 01:06:17,789

under the subcategory of radio okay even

1283

01:06:22,789 --> 01:06:20,069

though we are on the internet and

1284

01:06:25,969 --> 01:06:22,799

Facebook is on the internet they still

1285

01:06:26,760 --> 01:06:25,979

do not have a podcast category amazingly

1286

01:06:33,450 --> 01:06:26,770

enough

1287

01:06:35,820 --> 01:06:33,460

a group thing yes and maybe they will

1288

01:06:39,030 --> 01:06:35,830

bring a whole big ring your show into

1289

01:06:42,510 --> 01:06:39,040

being if we get enough likes yes we need

1290

01:06:46,260 --> 01:06:42,520

we need good ratings on iTunes and we

1291

01:06:49,410 --> 01:06:46,270

need likes on our Facebook page and that

1292

01:06:54,030 --> 01:06:49,420

sort of thing so please help us out send

1293

01:06:56,460 --> 01:06:54,040

us some input as to what you think about

1294

01:07:02,630 --> 01:06:56,470

the show and what you'd like to see here

1295

01:07:05,580 --> 01:07:02,640

next so for Kate Valentine and myself

1296

01:07:23,620 --> 01:07:05,590

prepare to have your paradigm shifted

1297

01:07:30,670 --> 01:07:27,110

1298

01:07:33,650 --> 01:07:30,680
