

1
00:00:24,730 --> 00:00:20,140
welcome to shattered reality with your

2
00:00:27,029 --> 00:00:24,740
hosts kate valentine and ferocia prepare

3
00:00:31,749 --> 00:00:27,039
to head her paradigms shifted into

4
00:00:37,330 --> 00:00:31,759
truths questioned and now shattered

5
00:00:40,330 --> 00:00:37,340
reality hey there this is farrugia and

6
00:00:44,500 --> 00:00:40,340
Cape Valentine welcome back yes indeed

7
00:00:48,520 --> 00:00:44,510
we have a wonderful guest today it is

8
00:00:51,520 --> 00:00:48,530
mr. Kent Pfeiffer and he is according to

9
00:00:56,950 --> 00:00:51,530
my understanding he is the head of New

10
00:01:00,430 --> 00:00:56,960
Jersey MUFON he has been a pilot and a

11
00:01:03,540 --> 00:01:00,440
Desert Storm veteran and in addition to

12
00:01:09,070 --> 00:01:03,550
that he maintains one of the most

13
00:01:12,249 --> 00:01:09,080

comprehensive UFO websites filled with

14

00:01:16,300 --> 00:01:12,259

wonderful accounts and pictures and all

15

00:01:20,730 --> 00:01:16,310

sorts of things called world UFO and in

16

00:01:26,170 --> 00:01:20,740

addition to that um he himself is an

17

00:01:30,039 --> 00:01:26,180

investigator of the Mars photographs and

18

00:01:35,289 --> 00:01:30,049

the moon photographs and he has found a

19

00:01:41,770 --> 00:01:35,299

number of startling anomalies so let me

20

00:01:44,260 --> 00:01:41,780

welcome our friend mr. Kent Pfeiffer hey

21

00:01:46,510 --> 00:01:44,270

thanks for thanks for being here can we

22

00:01:50,440 --> 00:01:46,520

really appreciate I saw on your website

23

00:01:54,219 --> 00:01:50,450

some of the anomalies are fascinating is

24

00:01:56,770 --> 00:01:54,229

it yeah yeah I have a I have quite a few

25

00:01:59,529 --> 00:01:56,780

i buy though i think i sent you not only

26
00:02:02,859 --> 00:01:59,539
a few i have literally hundreds of them

27
00:02:05,200 --> 00:02:02,869
out there and i have been searching some

28
00:02:09,730 --> 00:02:05,210
last night a fan of a few other strange

29
00:02:11,680 --> 00:02:09,740
things and and it's up sometimes I think

30
00:02:14,110 --> 00:02:11,690
I'm the only one out there just looking

31
00:02:17,229 --> 00:02:14,120
at these a high-definition photos from

32
00:02:19,470 --> 00:02:17,239
from NASA from the moon Mars I was

33
00:02:22,080 --> 00:02:19,480
looking at some mercury photos

34
00:02:25,050 --> 00:02:22,090
right mercury is fascinating the colors

35
00:02:28,530 --> 00:02:25,060
on Mercury are just unbelievable now

36
00:02:32,490 --> 00:02:28,540
they say something very I saw a special

37
00:02:34,440 --> 00:02:32,500
on TV about it and and of course mercury

38
00:02:37,410 --> 00:02:34,450

is the closest planet to the Sun I

39

00:02:40,500 --> 00:02:37,420

believe they say it's a roughly about

40

00:02:43,020 --> 00:02:40,510

800 degrees Fahrenheit but strange

41

00:02:47,100 --> 00:02:43,030

enough they feel that they have found

42

00:02:49,380 --> 00:02:47,110

these or water or ice on Mercury and I'm

43

00:02:51,390 --> 00:02:49,390

still having trouble wrapping my head

44

00:02:54,809 --> 00:02:51,400

around that oh you know I think I know

45

00:02:56,789 --> 00:02:54,819

the reason for that can what I think and

46

00:03:00,119 --> 00:02:56,799

I could be mistaken i'm not an

47

00:03:03,119 --> 00:03:00,129

astronomer but it it always one side

48

00:03:06,539 --> 00:03:03,129

always faces the Sun in other words we

49

00:03:11,580 --> 00:03:06,549

have a 24-hour day but their day is

50

00:03:13,319 --> 00:03:11,590

exactly as long as they're circulated

51
00:03:16,410 --> 00:03:13,329
you know what making one circle around

52
00:03:19,559 --> 00:03:16,420
one revolution revolution around the Sun

53
00:03:24,120 --> 00:03:19,569
so one side of the planet is hotter than

54
00:03:27,690 --> 00:03:24,130
the hinges of heck and the other side is

55
00:03:29,940 --> 00:03:27,700
not as hot um and it can get rather coal

56
00:03:32,940 --> 00:03:29,950
because it never faces the Sun now I

57
00:03:34,979 --> 00:03:32,950
think that's the reason well it that is

58
00:03:37,020 --> 00:03:34,989
the reason that was given however how

59
00:03:39,870 --> 00:03:37,030
did it acquire water in the first place

60
00:03:43,140 --> 00:03:39,880
and why didn't it just know I'm going to

61
00:03:47,280 --> 00:03:43,150
forget the term this is great just just

62
00:03:50,190 --> 00:03:47,290
not sublimate supplement yeah yeah yeah

63
00:03:54,240 --> 00:03:50,200

well I don't know but they say now nASA

64

00:03:57,990 --> 00:03:54,250

has said that the whole solar system is

65

00:04:00,659 --> 00:03:58,000

awash in water that there turns out

66

00:04:04,289 --> 00:04:00,669

there's a lot more water in the solar

67

00:04:08,629 --> 00:04:04,299

system than previously thought um so can

68

00:04:14,490 --> 00:04:08,639

do you think that that could be a sign

69

00:04:17,970 --> 00:04:14,500

towards maybe a little bit of a little

70

00:04:22,380 --> 00:04:17,980

bit of a disclosure

71

00:04:25,140 --> 00:04:22,390

uh i don't know i don't think so i think

72

00:04:27,720 --> 00:04:25,150

basically what's it saying to me is is

73

00:04:29,340 --> 00:04:27,730

you know I respect the scientists and

74

00:04:31,110 --> 00:04:29,350

you know I wish I was a scientist myself

75

00:04:33,930 --> 00:04:31,120

and i wish i had the education that

76

00:04:36,450 --> 00:04:33,940

these signs just do but quite frankly I

77

00:04:38,100 --> 00:04:36,460

think these scientists are guessing and

78

00:04:41,370 --> 00:04:38,110

and you know it seems like every day

79

00:04:43,620 --> 00:04:41,380

every week we're finding new things that

80

00:04:46,020 --> 00:04:43,630

are or blowing the scientists theories

81

00:04:49,620 --> 00:04:46,030

out of the water you know I really don't

82

00:04:51,480 --> 00:04:49,630

think we really know that much I think

83

00:04:53,360 --> 00:04:51,490

we're just guessing at this point you

84

00:04:55,920 --> 00:04:53,370

know especially with this mercury

85

00:04:57,600 --> 00:04:55,930

finding here with with the ice or water

86

00:05:01,950 --> 00:04:57,610

or mercury I mean who would have thought

87

00:05:04,650 --> 00:05:01,960

yeah really well it's changing theories

88

00:05:06,600 --> 00:05:04,660

as we speak it's more than the water

89

00:05:09,030 --> 00:05:06,610

they found a black what they felt was an

90

00:05:11,430 --> 00:05:09,040

organic matter on top of the water oh my

91

00:05:13,080 --> 00:05:11,440

goodness yeah yeah yeah I didn't read

92

00:05:15,360 --> 00:05:13,090

that that's news to me I guess I'm a

93

00:05:17,850 --> 00:05:15,370

little bit wheels on my reading NASA's

94

00:05:19,200 --> 00:05:17,860

weather site or so tell so yeah I have

95

00:05:21,680 --> 00:05:19,210

to take a look at that well not only

96

00:05:24,210 --> 00:05:21,690

that a long time ago there was somebody

97

00:05:28,010 --> 00:05:24,220

who was a guy from Chicago that

98

00:05:30,300 --> 00:05:28,020

investigated the the airport sighting I

99

00:05:32,010 --> 00:05:30,310

can't say you're saying but anyway he

100

00:05:34,710 --> 00:05:32,020

was very interested in going to the

101
00:05:37,430 --> 00:05:34,720
southwest and he found that there was an

102
00:05:40,260 --> 00:05:37,440
indication on some of the ancient

103
00:05:42,840 --> 00:05:40,270
pictographs or whatever that they had

104
00:05:45,660 --> 00:05:42,850
found this black Atari substance that

105
00:05:47,460 --> 00:05:45,670
they felt was a precursor to DNA while

106
00:05:49,380 --> 00:05:47,470
he was investigating that and of course

107
00:05:52,950 --> 00:05:49,390
you had the x-files with that black gunk

108
00:05:55,110 --> 00:05:52,960
and of course the red rain yeah India

109
00:05:58,590 --> 00:05:55,120
and all of that yeah sorry can't be coy

110
00:06:01,500 --> 00:05:58,600
yeah what we we show them I'm not

111
00:06:04,020 --> 00:06:01,510
learning as i listen here but we should

112
00:06:07,080 --> 00:06:04,030
be asking you to give a little bit of a

113
00:06:11,730 --> 00:06:07,090

history about yourself and how is that

114

00:06:14,250 --> 00:06:11,740

you became so fascinated with the UFO

115

00:06:17,580 --> 00:06:14,260

topic because we are both fascinated

116

00:06:20,370 --> 00:06:17,590

with the topic now i think i sent you

117

00:06:23,340 --> 00:06:20,380

i'm pretty sure accentuate i'm assuming

118

00:06:25,950 --> 00:06:23,350

you guys can post photos on your podcast

119

00:06:30,270 --> 00:06:25,960

well we don't post it exactly on the

120

00:06:31,410 --> 00:06:30,280

podcast we post it on our website which

121

00:06:33,690 --> 00:06:31,420

is associated

122

00:06:37,950 --> 00:06:33,700

with the podcast and we are going to

123

00:06:42,030 --> 00:06:37,960

post several photos up you know around

124

00:06:45,210 --> 00:06:42,040

this particular broadcast but we are

125

00:06:49,680 --> 00:06:45,220

going to keep the photos for use when we

126

00:06:52,950 --> 00:06:49,690

post our podcast to YouTube currently

127

00:06:56,400 --> 00:06:52,960

our podcast goes out not only on our

128

00:07:00,810 --> 00:06:56,410

websites and the old cake Valentine you

129

00:07:04,680 --> 00:07:00,820

fo sho atlantic coast UFOs site but also

130

00:07:08,100 --> 00:07:04,690

on itunes but itunes does not have

131

00:07:11,250 --> 00:07:08,110

photos but our website does and a number

132

00:07:15,540 --> 00:07:11,260

of of those photos which you sent us

133

00:07:17,310 --> 00:07:15,550

we'll be on our website oh good okay

134

00:07:19,110 --> 00:07:17,320

that what that sounds great because i

135

00:07:23,220 --> 00:07:19,120

did send you a photo i'm sure your salt

136

00:07:26,180 --> 00:07:23,230

it's a 1956 of Ocean City New Jersey and

137

00:07:29,310 --> 00:07:26,190

yeah yes that was an amazing photo I

138

00:07:32,190 --> 00:07:29,320

found that in one of our shoebox albums

139

00:07:35,610 --> 00:07:32,200

and and hot [h__h] the holy smokes what is

140

00:07:38,880 --> 00:07:35,620

this and you know of course no one

141

00:07:42,360 --> 00:07:38,890

really noticed it and I showed it to my

142

00:07:44,250 --> 00:07:42,370

wife and she said you know is it looks

143

00:07:45,720 --> 00:07:44,260

like a wave domain I'm saying if you

144

00:07:47,730 --> 00:07:45,730

know I told her well that was a wave

145

00:07:51,120 --> 00:07:47,740

would be about a hundred feet high yeah

146

00:07:54,030 --> 00:07:51,130

it was up on the sky yeah I had it

147

00:07:56,970 --> 00:07:54,040

analyzed and quite frankly I had quite a

148

00:07:58,890 --> 00:07:56,980

few people of photo analyst told me that

149

00:08:00,560 --> 00:07:58,900

there is a definite object there of

150

00:08:02,880 --> 00:08:00,570

course they're not sure what it is but

151

00:08:05,340 --> 00:08:02,890

you know there's the people in a front

152

00:08:07,440 --> 00:08:05,350

that's my father of it the toll guy and

153

00:08:09,120 --> 00:08:07,450

that's my uncle my mother's probably

154

00:08:12,720 --> 00:08:09,130

taking the photo and I'm probably

155

00:08:16,680 --> 00:08:12,730

wondering the kids in the surf but what

156

00:08:19,200 --> 00:08:16,690

has really got me interested in in the

157

00:08:21,150 --> 00:08:19,210

UFOs was course I was born a

158

00:08:22,890 --> 00:08:21,160

Philadelphia but at the age of seven we

159

00:08:25,440 --> 00:08:22,900

moved to a little town called National

160

00:08:27,990 --> 00:08:25,450

Park New Jersey now National Park is

161

00:08:30,960 --> 00:08:28,000

right on the Delaware River and enjoy it

162

00:08:33,660 --> 00:08:30,970

across from the Philadelphia Naval Yard

163

00:08:36,300 --> 00:08:33,670

and of course catty-corner to the

164

00:08:38,130 --> 00:08:36,310

philadelphia international airport so

165

00:08:40,680 --> 00:08:38,140

you know I've been kind of looking in

166

00:08:43,530 --> 00:08:40,690

the sky and seeing planes you know all

167

00:08:45,010 --> 00:08:43,540

my life especially the Philippine Naval

168

00:08:48,640 --> 00:08:45,020

Yard at one time there

169

00:08:50,920 --> 00:08:48,650

had the believe it was the f-102 Delta

170

00:08:52,360 --> 00:08:50,930

daggers they had a squadron of them

171

00:08:54,280 --> 00:08:52,370

there and they used to fly over our

172

00:08:57,880 --> 00:08:54,290

house in formation you know setting up

173

00:09:00,400 --> 00:08:57,890

for approach for landing and I've just

174

00:09:02,410 --> 00:09:00,410

been accustomed to looking in the sky

175

00:09:04,300 --> 00:09:02,420

and you know since I've been six or

176
00:09:07,000 --> 00:09:04,310
seven years old and you know I've been

177
00:09:09,700 --> 00:09:07,010
very interested in the you know the

178
00:09:13,030 --> 00:09:09,710
planets and and you know the stars at

179
00:09:15,840 --> 00:09:13,040
night and matter of fact we stood on my

180
00:09:19,060 --> 00:09:15,850
front lawn there when Sputnik flew over

181
00:09:20,560 --> 00:09:19,070
well i think was october or 57 like me

182
00:09:23,260 --> 00:09:20,570
and my dad and my mom went out front

183
00:09:26,230 --> 00:09:23,270
there and stood on the front lawn and

184
00:09:28,660 --> 00:09:26,240
watch Sputnik fly over and that was that

185
00:09:30,580 --> 00:09:28,670
was very fascinating to me so that that

186
00:09:33,640 --> 00:09:30,590
kind of that kind of got me interested

187
00:09:35,500 --> 00:09:33,650
in in you know looking at the sky and

188
00:09:37,270 --> 00:09:35,510

then you know then you start seeing

189

00:09:38,560 --> 00:09:37,280

things from there if you're not if

190

00:09:41,230 --> 00:09:38,570

you're not looking at a sky you're not

191

00:09:43,000 --> 00:09:41,240

going to see any UFOs what you know the

192

00:09:47,080 --> 00:09:43,010

point I'm trying to make here but that's

193

00:09:50,950 --> 00:09:47,090

how yes are you interesting yes indeed I

194

00:09:52,870 --> 00:09:50,960

am a real sky watching myself and and as

195

00:09:54,700 --> 00:09:52,880

you know I've reported a couple of

196

00:09:58,060 --> 00:09:54,710

things that I've seen to you including

197

00:10:01,300 --> 00:09:58,070

the huge fireball that I saw backup I

198

00:10:03,790 --> 00:10:01,310

guess it was about four years ago now in

199

00:10:07,000 --> 00:10:03,800

a March one of those March fireballs and

200

00:10:10,540 --> 00:10:07,010

that was you know although not generally

201
00:10:12,880 --> 00:10:10,550
considered to be a UFO it is an

202
00:10:16,540 --> 00:10:12,890
anomalous kind of an event where they

203
00:10:18,340 --> 00:10:16,550
move a lot slower than your typical you

204
00:10:21,430 --> 00:10:18,350
know meteorite like from a little

205
00:10:24,130 --> 00:10:21,440
shooting star these are these are big

206
00:10:25,900 --> 00:10:24,140
things and they just an amazing sight

207
00:10:29,020 --> 00:10:25,910
but if I hadn't been looking up I

208
00:10:31,570 --> 00:10:29,030
wouldn't have seen it and my companion

209
00:10:33,910 --> 00:10:31,580
who was walking with me she refused to

210
00:10:36,040 --> 00:10:33,920
look up I'm screaming and pointing and

211
00:10:38,500 --> 00:10:36,050
she's looking at me as though I'd lost

212
00:10:42,310 --> 00:10:38,510
my only brain and meanwhile I saw this

213
00:10:45,160 --> 00:10:42,320

amazing you know show in the sky and she

214

00:10:46,690 --> 00:10:45,170

missed it all well I want to give you

215

00:10:49,660 --> 00:10:46,700

something to think about this is

216

00:10:53,940 --> 00:10:49,670

something that Connor by I came to me

217

00:10:57,430 --> 00:10:53,950

and they thought a few months ago that a

218

00:10:58,690 --> 00:10:57,440

lot of people right off strange lights

219

00:11:00,430 --> 00:10:58,700

in the skies with

220

00:11:02,890 --> 00:11:00,440

sales and everything else is meteors I'm

221

00:11:06,160 --> 00:11:02,900

saying to myself one of these are alien

222

00:11:08,140 --> 00:11:06,170

crafts just entering our atmosphere and

223

00:11:12,550 --> 00:11:08,150

you know of course anything entering our

224

00:11:14,200 --> 00:11:12,560

atmosphere is going to blow and you know

225

00:11:16,120 --> 00:11:14,210

that's just something that I'm thinking

226

00:11:19,300 --> 00:11:16,130

about I think possibly a lot of these

227

00:11:22,240 --> 00:11:19,310

meteor sightings that we have had over

228

00:11:25,300 --> 00:11:22,250

the centuries where possibly alien craft

229

00:11:28,110 --> 00:11:25,310

is entry in our atmosphere yeah i have i

230

00:11:31,960 --> 00:11:28,120

have given that some thought and up

231

00:11:34,990 --> 00:11:31,970

particularly in some of the meteors that

232

00:11:37,920 --> 00:11:35,000

were going over supposed meteors that

233

00:11:41,320 --> 00:11:37,930

were going over ohio and pennsylvania

234

00:11:44,940 --> 00:11:41,330

lobby what and then yeah the huge bowl i

235

00:11:47,590 --> 00:11:44,950

but then it changed direction and

236

00:11:50,430 --> 00:11:47,600

meteors whether they be fireballs the

237

00:11:52,720 --> 00:11:50,440

big bigger bowl lives as Kate said or

238

00:11:55,390 --> 00:11:52,730

regular meteors they don't change

239

00:11:59,410 --> 00:11:55,400

direction it's generally speaking they

240

00:12:02,050 --> 00:11:59,420

come right down so um but particularly

241

00:12:05,230 --> 00:12:02,060

of interest to me or what had been known

242

00:12:07,420 --> 00:12:05,240

as the february fireballs that have been

243

00:12:10,120 --> 00:12:07,430

known about for about 20 years now and

244

00:12:13,600 --> 00:12:10,130

now they're moving well into March and

245

00:12:17,290 --> 00:12:13,610

it caused me to call up the Old Cape

246

00:12:18,910 --> 00:12:17,300

Valentine you fo sho oh and asked a

247

00:12:22,030 --> 00:12:18,920

couple of the guests who were in

248

00:12:25,090 --> 00:12:22,040

astronomy or whether we could be moving

249

00:12:28,270 --> 00:12:25,100

through a debris field at that point in

250

00:12:30,940 --> 00:12:28,280

our orbit around the Sun and both of

251
00:12:33,880 --> 00:12:30,950
these astronomers all seem to agree that

252
00:12:36,220 --> 00:12:33,890
that might be the case but you know that

253
00:12:39,280 --> 00:12:36,230
there are things that we see in the sky

254
00:12:41,770 --> 00:12:39,290
and the they may have multiple causes

255
00:12:44,050 --> 00:12:41,780
you know the same we might say one thing

256
00:12:46,510 --> 00:12:44,060
is a meteor and it actually is three

257
00:12:49,360 --> 00:12:46,520
different things you know that's your

258
00:12:51,370 --> 00:12:49,370
you're absolutely right so have you had

259
00:12:53,590 --> 00:12:51,380
any good personal sightings I know

260
00:12:56,470 --> 00:12:53,600
you've investigated a number of very

261
00:12:58,750 --> 00:12:56,480
interesting cases and we should mention

262
00:13:01,420 --> 00:12:58,760
that you are a star investigator I

263
00:13:04,270 --> 00:13:01,430

believe in a cite strike force

264

00:13:06,580 --> 00:13:04,280

investigative team area researcher

265

00:13:09,370 --> 00:13:06,590

something of that yes tomb you find that

266

00:13:10,900 --> 00:13:09,380

well I am as a matter of fact I am as a

267

00:13:12,220 --> 00:13:10,910

right now at meudon i am chief

268

00:13:14,770 --> 00:13:12,230

investigator

269

00:13:18,220 --> 00:13:14,780

with new fun in New Jersey and they just

270

00:13:22,090 --> 00:13:18,230

promoted me to state director of Vermont

271

00:13:24,010 --> 00:13:22,100

and also Rhode Island wow wow so I'm

272

00:13:27,220 --> 00:13:24,020

working on three states right now but

273

00:13:30,160 --> 00:13:27,230

I'm also a member of the star team which

274

00:13:31,990 --> 00:13:30,170

means strike team area research and the

275

00:13:34,930 --> 00:13:32,000

i'm a member of that as a matter of fact

276

00:13:37,540 --> 00:13:34,940

they deployed me out to london

277

00:13:40,780 --> 00:13:37,550

connecticut of few years ago there was a

278

00:13:44,410 --> 00:13:40,790

humongous triangle that that was witness

279

00:13:46,960 --> 00:13:44,420

flying over New London Connecticut and I

280

00:13:48,610 --> 00:13:46,970

went out there for three days and did a

281

00:13:52,320 --> 00:13:48,620

lot of interviews and talk a lot of

282

00:13:57,520 --> 00:13:52,330

people now in New London Connecticut

283

00:13:59,710 --> 00:13:57,530

they have the Coast Guard Academy they

284

00:14:01,810 --> 00:13:59,720

also have a general dynamics there are

285

00:14:03,610 --> 00:14:01,820

people who get there no ones who make

286

00:14:05,310 --> 00:14:03,620

two nuclear submarines of course you

287

00:14:08,350 --> 00:14:05,320

know they also have the nuclear

288

00:14:13,200 --> 00:14:08,360

submarine pens right there and yes no or

289

00:14:15,910 --> 00:14:13,210

globe for and and they also have a a

290

00:14:18,100 --> 00:14:15,920

nuclear plant right there on the coast

291

00:14:20,650 --> 00:14:18,110

they're not far from London London and

292

00:14:23,290 --> 00:14:20,660

of course groeten is we're close to Bay

293

00:14:26,290 --> 00:14:23,300

there and they have a control tower

294

00:14:28,210 --> 00:14:26,300

airport there so make a long story short

295

00:14:31,000 --> 00:14:28,220

I talked a lot of people and talk to the

296

00:14:33,700 --> 00:14:31,010

police I try to talk to the local

297

00:14:35,590 --> 00:14:33,710

newspaper people there and in New London

298

00:14:37,780 --> 00:14:35,600

they don't want anything to do with me I

299

00:14:39,820 --> 00:14:37,790

mean they were very rude and uneven

300

00:14:42,610 --> 00:14:39,830

never even got a chance to actually talk

301

00:14:45,370 --> 00:14:42,620

to the editor but not since I came up

302

00:14:46,690 --> 00:14:45,380

with with nothing basically I really

303

00:14:49,270 --> 00:14:46,700

couldn't find any witnesses to

304

00:14:52,720 --> 00:14:49,280

collaborate what what my witness saw but

305

00:14:56,020 --> 00:14:52,730

I wish I would think that you know if

306

00:14:59,890 --> 00:14:56,030

the triangle or if an alien craft was to

307

00:15:01,540 --> 00:14:59,900

want to investigate in an area you know

308

00:15:04,000 --> 00:15:01,550

New London and Goten would be the

309

00:15:06,010 --> 00:15:04,010

perfect place because of the nuclear of

310

00:15:08,230 --> 00:15:06,020

you know submarines and and everything

311

00:15:09,970 --> 00:15:08,240

else that's going on there but that was

312

00:15:12,130 --> 00:15:09,980

very interesting case that was that

313

00:15:13,930 --> 00:15:12,140

happened a few years ago you know can I

314

00:15:16,360 --> 00:15:13,940

think we should mention too that when

315

00:15:19,330 --> 00:15:16,370

you go out to investigate for MUFON it's

316

00:15:21,610 --> 00:15:19,340

not like you just go out there's a long

317

00:15:25,490 --> 00:15:21,620

series of training lessons that are

318

00:15:27,560 --> 00:15:25,500

associated with that and a sort of a

319

00:15:30,020 --> 00:15:27,570

protocol as to how you do investigate

320

00:15:33,320 --> 00:15:30,030

these cases and more importantly how you

321

00:15:37,100 --> 00:15:33,330

report them and record them and at least

322

00:15:39,650 --> 00:15:37,110

it's some even though the gathering of

323

00:15:42,170 --> 00:15:39,660

data on these cases is so sketchy and so

324

00:15:43,820 --> 00:15:42,180

difficult at least it's a start and I

325

00:15:46,100 --> 00:15:43,830

think it's very important that you do

326

00:15:49,400 --> 00:15:46,110

that so thank you for doing that hard

327

00:15:52,400 --> 00:15:49,410

work yes it is yeah I love it it's very

328

00:15:54,770 --> 00:15:52,410

interesting at the time Bigelow you know

329

00:15:57,530 --> 00:15:54,780

he's the Jew trillionaire Ilega sake

330

00:15:58,820 --> 00:15:57,540

alone indeed yellow aerospace he's the

331

00:16:02,780 --> 00:15:58,830

one who was running the show basically

332

00:16:05,420 --> 00:16:02,790

and he was paying us to do this but a

333

00:16:09,440 --> 00:16:05,430

couple years later he decided to drop

334

00:16:10,940 --> 00:16:09,450

out and not not not pay investigators to

335

00:16:16,750 --> 00:16:10,950

go ahead on these sightings but from

336

00:16:20,240 --> 00:16:16,760

what I understand any any UFO sightings

337

00:16:22,070 --> 00:16:20,250

from the government or the Air Force or

338

00:16:25,970 --> 00:16:22,080

any of the military's they go directly

339

00:16:31,520 --> 00:16:25,980

to bigelow aerospace that seems like a

340

00:16:34,040 --> 00:16:31,530

breach of protocol doesn't it why no no

341

00:16:36,410 --> 00:16:34,050

nothing to see here just move along keep

342

00:16:38,690 --> 00:16:36,420

it moving because it's a private company

343

00:16:42,020 --> 00:16:38,700

he's have you ever gotten to meet him by

344

00:16:44,150 --> 00:16:42,030

the way has no body ever met him I mean

345

00:16:45,920 --> 00:16:44,160

this is George Knapp madam are you sure

346

00:16:49,900 --> 00:16:45,930

well I think so yeah well he met

347

00:16:53,030 --> 00:16:49,910

somebody yeah who is this mr. Bigelow

348

00:16:56,840 --> 00:16:53,040

he's a but he's big into I think he's

349

00:16:59,329 --> 00:16:56,850

trying to find some kind of foothold in

350

00:17:01,880 --> 00:16:59,339

space there for some reason you know

351
00:17:04,760 --> 00:17:01,890
gamma you know he's doing this work some

352
00:17:07,100 --> 00:17:04,770
kind of a profit because reason why he

353
00:17:09,770 --> 00:17:07,110
was involved with MUFON is because he

354
00:17:11,960 --> 00:17:09,780
wanted to be the first one to be

355
00:17:15,260 --> 00:17:11,970
contacted if we were to find any

356
00:17:17,210 --> 00:17:15,270
evidence of a crashed saucer or you know

357
00:17:19,970 --> 00:17:17,220
apparently he was going to take these

358
00:17:21,829 --> 00:17:19,980
objects and reverse engineering and then

359
00:17:25,360 --> 00:17:21,839
you know make money from it just is what

360
00:17:27,620 --> 00:17:25,370
i thought well i think that if he were

361
00:17:30,170 --> 00:17:27,630
see well i had heard two different

362
00:17:33,549 --> 00:17:30,180
stories that he had a son that passed

363
00:17:36,700 --> 00:17:33,559

away and he was very interested

364

00:17:42,549 --> 00:17:36,710

in like finding some way to contact him

365

00:17:45,639 --> 00:17:42,559

and so therefore things involving a para

366

00:17:47,619 --> 00:17:45,649

para normal kind of interested him but i

367

00:17:50,669 --> 00:17:47,629

would i would think that the way that

368

00:17:54,430 --> 00:17:50,679

nASA has gone towards the

369

00:17:57,700 --> 00:17:54,440

electromagnetic engineering now which I

370

00:18:00,430 --> 00:17:57,710

think and this is a supposition there's

371

00:18:03,549 --> 00:18:00,440

a fellow down south named race race

372

00:18:06,909 --> 00:18:03,559

Sanford who has been taking pictures of

373

00:18:09,310 --> 00:18:06,919

UFOs with regular like old-fashioned

374

00:18:16,830 --> 00:18:09,320

film cameras and slides and stuff and he

375

00:18:21,100 --> 00:18:16,840

was visited by a a professor from rpi

376

00:18:24,310 --> 00:18:21,110

named dr. Luke Rumble Reverend Rambo REM

377

00:18:27,600 --> 00:18:24,320

something French and that this this guy

378

00:18:30,279 --> 00:18:27,610

is the head of space engineering at

379

00:18:33,159 --> 00:18:30,289

Rensselaer Polytechnic Institute and

380

00:18:36,789 --> 00:18:33,169

it's believed that he visited him to

381

00:18:40,269 --> 00:18:36,799

check to reverse engineer or to see what

382

00:18:43,869 --> 00:18:40,279

might be propelling these UFOs and now

383

00:18:47,830 --> 00:18:43,879

the NASA has come out with this whole

384

00:18:51,090 --> 00:18:47,840

idea that perhaps they can make things

385

00:18:55,480 --> 00:18:51,100

go through space through electromagnetic

386

00:18:58,539 --> 00:18:55,490

propulsion which was previously thought

387

00:19:01,480 --> 00:18:58,549

to be not doable but now they're

388

00:19:05,919 --> 00:19:01,490

apparently doing it but let's get back

389

00:19:08,820 --> 00:19:05,929

to you and your wife's your wife had a

390

00:19:12,129 --> 00:19:08,830

triangle sighting in in New Jersey uh

391

00:19:14,230 --> 00:19:12,139

yeah well first of all I did have a

392

00:19:16,200 --> 00:19:14,240

sighting there and well my first actual

393

00:19:20,499 --> 00:19:16,210

sighting I guess you can say was in

394

00:19:26,289 --> 00:19:20,509

Brooklyn New Jersey in 1974 it was a you

395

00:19:28,840 --> 00:19:26,299

know september-october of 74 we were

396

00:19:31,509 --> 00:19:28,850

friend and I we were traveling home from

397

00:19:33,159 --> 00:19:31,519

a we were out of the club and special

398

00:19:35,080 --> 00:19:33,169

about three o'clock in ammonium I guess

399

00:19:39,009 --> 00:19:35,090

and we were heading down the route 295

400

00:19:42,279 --> 00:19:39,019

their interstate and we came up to a an

401
00:19:44,989 --> 00:19:42,289
overpass and you know we went under the

402
00:19:47,059 --> 00:19:44,999
overpass and as soon as I died you know

403
00:19:51,819 --> 00:19:47,069
passenger so I'm always looking around

404
00:19:57,019 --> 00:19:51,829
and I saw a humongous disc it was a

405
00:20:01,669 --> 00:19:57,029
turquoise color turquoise Wow it was

406
00:20:04,489 --> 00:20:01,679
just just above almost peeking out of

407
00:20:06,879 --> 00:20:04,499
the cloud of the overcast I guess it was

408
00:20:09,979 --> 00:20:06,889
about a 300 foot ceiling that night and

409
00:20:12,529 --> 00:20:09,989
this thing was was humongous and it was

410
00:20:16,159 --> 00:20:12,539
traveling towards the philadelphia

411
00:20:18,949 --> 00:20:16,169
airport hmm was because this area

412
00:20:21,949 --> 00:20:18,959
Brooklyn belmar area that that is within

413
00:20:24,829 --> 00:20:21,959

the five mile TCA terminal control area

414

00:20:26,779 --> 00:20:24,839

filled off international so you know of

415

00:20:30,589 --> 00:20:26,789

course me and my friend I was a drunk or

416

00:20:32,659 --> 00:20:30,599

anything or whatever and I saw up and

417

00:20:35,239 --> 00:20:32,669

then he didn't because you know he was

418

00:20:37,459 --> 00:20:35,249

driving and but we drove around till the

419

00:20:40,549 --> 00:20:37,469

Sun came up looking for this thing in

420

00:20:43,029 --> 00:20:40,559

which we didn't see it anymore but then

421

00:20:45,919 --> 00:20:43,039

the next day in the believe it was the

422

00:20:49,099 --> 00:20:45,929

Gloucester times woodberry times at that

423

00:20:51,529 --> 00:20:49,109

point they had an article about the

424

00:20:54,109 --> 00:20:51,539

defra policeman and quite a few

425

00:20:57,769 --> 00:20:54,119

witnesses that did sees something

426

00:20:59,659 --> 00:20:57,779

strange in the sky that night so I've

427

00:21:01,489 --> 00:20:59,669

been trying to get get hold of them

428

00:21:04,609 --> 00:21:01,499

articles we know of course you know

429

00:21:07,039 --> 00:21:04,619

these are the newspaper doesn't exist

430

00:21:09,079 --> 00:21:07,049

anymore and then you know I'll have to

431

00:21:11,599 --> 00:21:09,089

go through some some boxes looking

432

00:21:14,569 --> 00:21:11,609

through some symbols oh maybe the

433

00:21:17,329 --> 00:21:14,579

library or color goes to microfiche

434

00:21:19,519 --> 00:21:17,339

sometimes the libraries have your oafish

435

00:21:21,709 --> 00:21:19,529

you can look at it's probably I should

436

00:21:25,479 --> 00:21:21,719

have saved that and it's funny because

437

00:21:27,679 --> 00:21:25,489

in 2006 right down the road there in

438

00:21:30,049 --> 00:21:27,689

westville New Jersey which sits right on

439

00:21:33,679 --> 00:21:30,059

the Delaware River and it's it's a you

440

00:21:35,199 --> 00:21:33,689

know close to and within a five mile

441

00:21:40,669 --> 00:21:35,209

area of it fell off international

442

00:21:42,649 --> 00:21:40,679

airport we were at air pump was my

443

00:21:46,759 --> 00:21:42,659

wife's 50th birthday is matter of fact

444

00:21:51,379 --> 00:21:46,769

and we went to a fireworks display and

445

00:21:53,329 --> 00:21:51,389

then westville New Jersey and we you

446

00:21:55,180 --> 00:21:53,339

know just before the the fireworks

447

00:21:57,350 --> 00:21:55,190

started

448

00:21:59,480 --> 00:21:57,360

there was another you know overcast

449

00:22:01,460 --> 00:21:59,490

again with the ceiling was probably

450

00:22:03,710 --> 00:22:01,470

about 200 foot and you can hear the

451

00:22:06,740 --> 00:22:03,720

planes flying over you going into

452

00:22:08,690 --> 00:22:06,750

Philadelphia International and darned if

453

00:22:10,670 --> 00:22:08,700

something didn't peek peek out of the

454

00:22:14,270 --> 00:22:10,680

clouds there some it looked like I had

455

00:22:17,090 --> 00:22:14,280

portholes it was a you know a two second

456

00:22:20,690 --> 00:22:17,100

sighting but this thing peeked out of

457

00:22:22,820 --> 00:22:20,700

the out of the overcast and just you

458

00:22:27,530 --> 00:22:22,830

know slowly moved back into the overcast

459

00:22:28,940 --> 00:22:27,540

and wow it wasn't a plane I have no idea

460

00:22:30,920 --> 00:22:28,950

what it was there was a couple witnesses

461

00:22:32,480 --> 00:22:30,930

that also saw that that was with me

462

00:22:34,280 --> 00:22:32,490

because I was you know with new fun at

463

00:22:37,490 --> 00:22:34,290

the time and I'm you know now I'm fully

464

00:22:40,880 --> 00:22:37,500

looking in the sky but yeah that was uh

465

00:22:43,010 --> 00:22:40,890

that was pretty incredible and you know

466

00:22:45,070 --> 00:22:43,020

what I believe a lot of this happens i

467

00:22:48,560 --> 00:22:45,080

think these alien craft they like

468

00:22:52,010 --> 00:22:48,570

airports they like military bases there

469

00:22:56,090 --> 00:22:52,020

they like look at the oil nuclear plants

470

00:22:59,360 --> 00:22:56,100

you know airports of course and you know

471

00:23:02,900 --> 00:22:59,370

they're very very interested in lights

472

00:23:05,480 --> 00:23:02,910

especially we get a lot of sightings up

473

00:23:07,720 --> 00:23:05,490

towards the manhattan area on the New

474

00:23:10,820 --> 00:23:07,730

Jersey side because I think at nighttime

475

00:23:12,710 --> 00:23:10,830

you know any craft any alien craft is

476

00:23:16,010 --> 00:23:12,720

flying around up in the atmosphere you

477

00:23:19,250 --> 00:23:16,020

know the delights of Manhattan with with

478

00:23:21,530 --> 00:23:19,260

of course draw them would make them you

479

00:23:23,150 --> 00:23:21,540

know curious as to what what is all this

480

00:23:24,380 --> 00:23:23,160

light down there on the ground and I

481

00:23:26,600 --> 00:23:24,390

think that's why we have a lot of

482

00:23:33,010 --> 00:23:26,610

sightings in that way have you attempted

483

00:23:39,200 --> 00:23:36,230

information are you you had now forget

484

00:23:41,120 --> 00:23:39,210

it they don't want anything to do with

485

00:23:43,610 --> 00:23:41,130

this turn trying to to get some some

486

00:23:46,310 --> 00:23:43,620

radar information from from any of the

487

00:23:48,290 --> 00:23:46,320

airport so they won't even talk to you

488

00:23:50,930 --> 00:23:48,300

you know it's as a matter of fact that

489

00:23:53,570 --> 00:23:50,940

time I was up there in New London

490

00:23:55,460 --> 00:23:53,580

Connecticut wrote in the airport at a

491

00:23:58,880 --> 00:23:55,470

control tower and I wanted to you know

492

00:24:03,050 --> 00:23:58,890

talk to the people up there to see if

493

00:24:04,940 --> 00:24:03,060

they had any any radars of triangle

494

00:24:07,660 --> 00:24:04,950

flying over on on a certain date and

495

00:24:10,600 --> 00:24:07,670

they won't even let me in the gate

496

00:24:13,930 --> 00:24:10,610

well so now it seems as though it's

497

00:24:16,870 --> 00:24:13,940

going to be even less what we will all

498

00:24:19,990 --> 00:24:16,880

have less ability to find out any

499

00:24:23,080 --> 00:24:20,000

information from the airlines or the

500

00:24:26,410 --> 00:24:23,090

control towers simply because of this

501
00:24:29,170 --> 00:24:26,420
recent tragedy the Germanwings tragedy

502
00:24:31,540 --> 00:24:29,180
and it's always been a black mark on a

503
00:24:34,630 --> 00:24:31,550
pilot's record to report having seen a

504
00:24:39,100 --> 00:24:34,640
UFO and now that they're cracking down

505
00:24:42,580 --> 00:24:39,110
on the psychological testing for pilots

506
00:24:45,430 --> 00:24:42,590
if a pilot reports having seen a UFO it

507
00:24:50,050 --> 00:24:45,440
gives them you know the powers that be

508
00:24:53,470 --> 00:24:50,060
an opportunity to pull him out and so

509
00:24:55,960 --> 00:24:53,480
there are you less likely to say they've

510
00:24:58,710 --> 00:24:55,970
already been not that likely to talk

511
00:25:01,000 --> 00:24:58,720
about it because it's a career buster oh

512
00:25:04,180 --> 00:25:01,010
yeah that that's for sure because I when

513
00:25:05,890 --> 00:25:04,190

I was in McGuire Force Base i was there

514

00:25:09,970 --> 00:25:05,900

from nine years a Desert Storm veteran

515

00:25:12,250 --> 00:25:09,980

and then I was basically my my what I

516

00:25:15,940 --> 00:25:12,260

work for the commander I was called seq

517

00:25:17,830 --> 00:25:15,950

see we quality control we basically

518

00:25:19,210 --> 00:25:17,840

evaluated all the sections of the

519

00:25:21,430 --> 00:25:19,220

squadron just to make shorter they were

520

00:25:23,770 --> 00:25:21,440

doing everything properly you know under

521

00:25:25,810 --> 00:25:23,780

regulations of the Air Force and and I

522

00:25:27,550 --> 00:25:25,820

it would in that position I was able to

523

00:25:29,680 --> 00:25:27,560

talk to a lot of people a lot of pilots

524

00:25:31,420 --> 00:25:29,690

and I was always asking policy you know

525

00:25:34,390 --> 00:25:31,430

have you guys seen anything crazy up

526
00:25:36,400 --> 00:25:34,400
there and they all charge away from that

527
00:25:38,200 --> 00:25:36,410
question you know really didn't want

528
00:25:40,210 --> 00:25:38,210
anything to do with it so I you know I

529
00:25:41,830 --> 00:25:40,220
got zero information from the Air Force

530
00:25:43,810 --> 00:25:41,840
pilots and you know like you said

531
00:25:47,380 --> 00:25:43,820
they're afraid of being criticized and

532
00:25:49,600 --> 00:25:47,390
possibly used losing their rights to to

533
00:25:52,240 --> 00:25:49,610
fly actually I think he got a lot of

534
00:25:54,550 --> 00:25:52,250
information if they hadn't seen anything

535
00:25:56,290 --> 00:25:54,560
they would have just simply said no the

536
00:25:58,960 --> 00:25:56,300
fact that they didn't say anything

537
00:26:00,370 --> 00:25:58,970
probably indicates that they did see

538
00:26:03,580 --> 00:26:00,380

something and they just didn't want to

539

00:26:05,470 --> 00:26:03,590

discuss it a graduate so I think that

540

00:26:07,420 --> 00:26:05,480

probably indicates there was a lot of

541

00:26:09,910 --> 00:26:07,430

information there but as far as

542

00:26:11,440 --> 00:26:09,920

gathering radar information it was a

543

00:26:13,960 --> 00:26:11,450

young man that used to write in

544

00:26:18,820 --> 00:26:13,970

frequently on the old UFO show of

545

00:26:21,460 --> 00:26:18,830

Freeman and he kept trying to develop a

546

00:26:25,029 --> 00:26:21,470

protocol for for radar for

547

00:26:27,399 --> 00:26:25,039

regulating these craft and if you look

548

00:26:29,860 --> 00:26:27,409

him up on the old Kate Valentine UFO

549

00:26:33,039 --> 00:26:29,870

show website and get in touch with him

550

00:26:34,570 --> 00:26:33,049

he'd be more than interested in trying

551
00:26:37,380 --> 00:26:34,580
to help you get some of this information

552
00:26:40,779 --> 00:26:37,390
he's been working on it for years and

553
00:26:43,090 --> 00:26:40,789
not getting too far well apparently they

554
00:26:46,510 --> 00:26:43,100
did do something out there and not

555
00:26:48,970 --> 00:26:46,520
Stephenville the the Phoenix lights

556
00:26:51,039 --> 00:26:48,980
didn't they get some corroboration or

557
00:26:55,560 --> 00:26:51,049
wizard Stephenville maybe it was Stevens

558
00:26:58,180 --> 00:26:55,570
Oh stephenville seven Bell yo case yeah

559
00:27:02,560 --> 00:26:58,190
yeah sometimes they do I mean sometimes

560
00:27:04,990 --> 00:27:02,570
if if it's a high-profile case and and

561
00:27:06,880 --> 00:27:05,000
you know you get a lot of people

562
00:27:09,520 --> 00:27:06,890
involved a lot of officials a lot of

563
00:27:11,830 --> 00:27:09,530

higher ups oh you hear sometimes you

564

00:27:15,279 --> 00:27:11,840

will get some some ray or information

565

00:27:19,390 --> 00:27:15,289

from from the facilities but you know

566

00:27:21,700 --> 00:27:19,400

typically trying to call an airport in

567

00:27:24,399 --> 00:27:21,710

talking to the radar personnel there the

568

00:27:25,899 --> 00:27:24,409

airport about a possible UFO it's a

569

00:27:28,000 --> 00:27:25,909

little over a couple days ago they they

570

00:27:33,820 --> 00:27:28,010

they don't even want to talk to you yeah

571

00:27:36,970 --> 00:27:33,830

that's not not good so you had sent some

572

00:27:40,029 --> 00:27:36,980

remarkable pictures from a MUFON Case

573

00:27:42,460 --> 00:27:40,039

that you investigated in allouez

574

00:27:46,360 --> 00:27:42,470

Township New Jersey do you want to tell

575

00:27:49,649 --> 00:27:46,370

us a little bit about that ah yes that

576

00:27:55,270 --> 00:27:49,659

was a that was really pretty incredible

577

00:27:57,370 --> 00:27:55,280

I was investigator call and someone an

578

00:27:59,560 --> 00:27:57,380

amateur astronomers a matter of fact he

579

00:28:02,350 --> 00:27:59,570

he lived in the Clayton New Jersey he

580

00:28:03,909 --> 00:28:02,360

was retired he was a businessman retired

581

00:28:06,940 --> 00:28:03,919

what his wife was just him and his wife

582

00:28:08,860 --> 00:28:06,950

and you know he was interested in a star

583

00:28:11,620 --> 00:28:08,870

so he decided to move from Clayton New

584

00:28:13,510 --> 00:28:11,630

Jersey down to a low a township which is

585

00:28:18,190 --> 00:28:13,520

down in the bridgeton area of southern

586

00:28:21,490 --> 00:28:18,200

New Jersey as very rural lot of horse

587

00:28:23,740 --> 00:28:21,500

farms a lot of cattle and you know he

588

00:28:25,320 --> 00:28:23,750

had a small observatory that he built in

589

00:28:26,880 --> 00:28:25,330

his backyard and

590

00:28:28,710 --> 00:28:26,890

you know there was no light pollution

591

00:28:31,530 --> 00:28:28,720

you can see you know you can see

592

00:28:33,450 --> 00:28:31,540

everything was just an incredible you

593

00:28:36,720 --> 00:28:33,460

know site for looking at the stars

594

00:28:39,420 --> 00:28:36,730

especially for him but I went down there

595

00:28:41,700 --> 00:28:39,430

we got the call and I interviewed the

596

00:28:44,490 --> 00:28:41,710

witness you know concerning the sighting

597

00:28:46,470 --> 00:28:44,500

and and he provided a drawing of the

598

00:28:51,720 --> 00:28:46,480

flying triangle that passed over his uh

599

00:28:55,530 --> 00:28:51,730

his observatory on octobre 13 2006 and

600

00:28:57,390 --> 00:28:55,540

around 1245 a.m. he said that I was

601
00:28:59,760 --> 00:28:57,400
confronted with an enormous object

602
00:29:02,520 --> 00:28:59,770
clearly defined by ambient lights a

603
00:29:05,700 --> 00:29:02,530
photo was crashing but as it approached

604
00:29:07,950 --> 00:29:05,710
my observatory began to rise this thing

605
00:29:09,900 --> 00:29:07,960
was barely moving forward and I could I

606
00:29:13,260 --> 00:29:09,910
could not have been more than 200 feet

607
00:29:15,540 --> 00:29:13,270
above me probably less I can make out

608
00:29:19,650 --> 00:29:15,550
details of rivets and bolts in its

609
00:29:22,860 --> 00:29:19,660
construction as the object as the object

610
00:29:25,890 --> 00:29:22,870
rounded nose began to approach me I was

611
00:29:27,720 --> 00:29:25,900
really taken back by it slightly lit

612
00:29:31,260 --> 00:29:27,730
windows it was shocking to see a

613
00:29:33,860 --> 00:29:31,270

humanoid form moving as it was pacing

614

00:29:38,220 --> 00:29:33,870

back and forth in a large port though

615

00:29:40,170 --> 00:29:38,230

about 88 feet square as it got closer to

616

00:29:41,820 --> 00:29:40,180

figure moved away from the window the

617

00:29:46,080 --> 00:29:41,830

figure is shown in the upper right-hand

618

00:29:47,880 --> 00:29:46,090

side of the drawing I thought it was I I

619

00:29:50,100 --> 00:29:47,890

thought there was no one at the controls

620

00:29:53,700 --> 00:29:50,110

I got the impression was getting ready

621

00:29:55,830 --> 00:29:53,710

to hover as its open hats moved directly

622

00:29:57,660 --> 00:29:55,840

over me and I was entertaining some

623

00:30:01,590 --> 00:29:57,670

negative thoughts regarding my own sake

624

00:30:04,500 --> 00:30:01,600

hey and good enough and now what we

625

00:30:06,780 --> 00:30:04,510

thought what what this open hatch it he

626

00:30:10,550 --> 00:30:06,790

said he described it is like a big black

627

00:30:13,470 --> 00:30:10,560

dumpster was hanging from under this

628

00:30:15,150 --> 00:30:13,480

humongous triangle and you know of

629

00:30:18,720 --> 00:30:15,160

course the only conclusion that did we

630

00:30:20,760 --> 00:30:18,730

came to was you know we felt that this

631

00:30:24,300 --> 00:30:20,770

thing was possibly looking for cattle or

632

00:30:26,700 --> 00:30:24,310

horses or something out there and let me

633

00:30:28,590 --> 00:30:26,710

read a little bit further here was at

634

00:30:31,410 --> 00:30:28,600

least two stories high with two large

635

00:30:34,250 --> 00:30:31,420

windows port and starboard it has a

636

00:30:37,950 --> 00:30:34,260

rounded nose there were 30 tag light

637

00:30:39,060 --> 00:30:37,960

pipe structures two large turbo type

638

00:30:40,769 --> 00:30:39,070

structures large and

639

00:30:43,440 --> 00:30:40,779

diameter and shorter and lengthen those

640

00:30:46,529 --> 00:30:43,450

on commercial aircrafts a flaps are

641

00:30:49,529 --> 00:30:46,539

stabilizer type structures s a very

642

00:30:51,930 --> 00:30:49,539

large square black container type

643

00:30:56,460 --> 00:30:51,940

structure protruding off-center from its

644

00:30:58,680 --> 00:30:56,470

belly an open hatch and and other bulky

645

00:31:01,590 --> 00:30:58,690

geometric shapes that I saw but I can I

646

00:31:03,779 --> 00:31:01,600

can only remember they were thick huge

647

00:31:07,320 --> 00:31:03,789

bulky with an incredible amount of drag

648

00:31:08,909 --> 00:31:07,330

that it would not be wouldn't be

649

00:31:12,659 --> 00:31:08,919

possible that there would be too much

650

00:31:15,210 --> 00:31:12,669

drag their 22 on this craft to fly to

651
00:31:17,730 --> 00:31:15,220
remain almost immediately I saw they say

652
00:31:20,850 --> 00:31:17,740
surge of static electricity that tickled

653
00:31:23,639 --> 00:31:20,860
my face and hair on my arms and head and

654
00:31:26,779 --> 00:31:23,649
its tail section was about to pass over

655
00:31:29,399 --> 00:31:26,789
me I quickly swung the dome and hurt a

656
00:31:32,269 --> 00:31:29,409
low-pitched roar with the sound of

657
00:31:35,460 --> 00:31:32,279
baking sizzling and a frying pan

658
00:31:37,950 --> 00:31:35,470
suddenly it was gone no sound and i did

659
00:31:41,820 --> 00:31:37,960
a 360-degree search but it's selling

660
00:31:45,990 --> 00:31:41,830
there was nothing there now the crazy

661
00:31:49,289 --> 00:31:46,000
part about about this was a of course i

662
00:31:52,860 --> 00:31:49,299
had to go over his house and you know he

663
00:31:55,919 --> 00:31:52,870

was afraid to go outside hey I would be

664

00:31:59,009 --> 00:31:55,929

I visited him I went over fear four

665

00:32:02,070 --> 00:31:59,019

times and finally you know we talked I

666

00:32:03,899 --> 00:32:02,080

calm them down and and he finally got

667

00:32:07,560 --> 00:32:03,909

the nerve to go out to his Observatory

668

00:32:10,139 --> 00:32:07,570

again the crazy part is weak he has

669

00:32:13,799 --> 00:32:10,149

another incredible sighting I sent you

670

00:32:17,940 --> 00:32:13,809

some photos of it have done to two

671

00:32:21,600 --> 00:32:17,950

shapes like two long tube-like shapes

672

00:32:24,029 --> 00:32:21,610

that were lit up right you know what you

673

00:32:26,249 --> 00:32:24,039

speaking enough yeah they're the ones now

674

00:32:29,960 --> 00:32:26,259

let me let me tell you about this one

675

00:32:32,779 --> 00:32:29,970

here now they were stationary I was at a

676

00:32:35,340 --> 00:32:32,789
convention in Baltimore I had a

677

00:32:36,990 --> 00:32:35,350
presentation of UFO photos with you know

678

00:32:40,350 --> 00:32:37,000
for my website their world you also

679

00:32:42,509 --> 00:32:40,360
photos org I did a photo presentation

680

00:32:44,249 --> 00:32:42,519
and of course i had the bunker say well

681

00:32:47,490 --> 00:32:44,259
you know this was an airplane and

682

00:32:49,619 --> 00:32:47,500
because of the and the camera settings

683

00:32:52,139 --> 00:32:49,629
you know this is just light from an

684

00:32:52,830 --> 00:32:52,149
airplane is flying by I don't know for

685

00:32:54,720 --> 00:32:52,840
the many picture

686

00:32:57,659 --> 00:32:54,730
I have you know this this object was

687

00:33:01,169 --> 00:32:57,669
stationary it was rotating on its axis

688

00:33:04,230 --> 00:33:01,179

and we got we got a few pictures well he

689

00:33:07,230 --> 00:33:04,240

got a few pictures of this triangle

690

00:33:09,210 --> 00:33:07,240

rotating on its axis and quite frankly I

691

00:33:12,830 --> 00:33:09,220

think they're the most spectacular

692

00:33:16,680 --> 00:33:12,840

nighttime photos I've ever seen Wow so

693

00:33:21,930 --> 00:33:16,690

now the information about this was a 924

694

00:33:23,460 --> 00:33:21,940

07 you know less than a year later the

695

00:33:26,789 --> 00:33:23,470

witness said that on the night of

696

00:33:29,610 --> 00:33:26,799

September 24 2007 was brightly lit due

697

00:33:32,070 --> 00:33:29,620

to a full moon it was approximately

698

00:33:34,289 --> 00:33:32,080

twelve-thirty I'm sorry 1130pm and I was

699

00:33:36,930 --> 00:33:34,299

outside with a digital camera nearby I

700

00:33:38,519 --> 00:33:36,940

had nothing special in mind but due to

701
00:33:41,039 --> 00:33:38,529
the bizarre experience i had last

702
00:33:43,919 --> 00:33:41,049
october two thousand six this experience

703
00:33:45,750 --> 00:33:43,929
i'd been recorded on the muon website i

704
00:33:49,470 --> 00:33:45,760
always keep the camera on hand when i'm

705
00:33:51,750 --> 00:33:49,480
out at night see what this guy he takes

706
00:33:53,730 --> 00:33:51,760
a lot of photos of the planets in a mood

707
00:33:56,730 --> 00:33:53,740
apparently he he didn't really have

708
00:33:58,380 --> 00:33:56,740
anything a small that he could take

709
00:34:00,269 --> 00:33:58,390
pictures he got this evening would never

710
00:34:02,039 --> 00:34:00,279
expect anything to fly right over his

711
00:34:05,250 --> 00:34:02,049
observatory evolving in quality

712
00:34:07,830 --> 00:34:05,260
equipment he had he was you know taking

713
00:34:09,270 --> 00:34:07,840

photos of the the universe and

714

00:34:12,300 --> 00:34:09,280

everything else apparently he had a lot

715

00:34:15,629 --> 00:34:12,310

of high-tech equipment but they didn't

716

00:34:17,220 --> 00:34:15,639

have a car to take close-ups of you know

717

00:34:20,490 --> 00:34:17,230

flying saucers coming over his house

718

00:34:24,149 --> 00:34:20,500

there okay now he has a camera in hand

719

00:34:26,159 --> 00:34:24,159

and he said a brake light again caught

720

00:34:28,379 --> 00:34:26,169

my eye and i observed this rectangular

721

00:34:30,960 --> 00:34:28,389

shape light begins to rise slowly behind

722

00:34:33,990 --> 00:34:30,970

a tree line in the southern in the South

723

00:34:36,540 --> 00:34:34,000

approximately one mile away this object

724

00:34:38,639 --> 00:34:36,550

appeared to hover for about 20 seconds

725

00:34:41,849 --> 00:34:38,649

and then began to travel west at a very

726
00:34:44,310 --> 00:34:41,859
slow speed as it began moving west to

727
00:34:46,619 --> 00:34:44,320
seem to pivot on both the vertical and

728
00:34:50,070 --> 00:34:46,629
horizontal axis revealing more detail

729
00:34:52,440 --> 00:34:50,080
until it disappeared behind a tree I

730
00:34:54,480 --> 00:34:52,450
cutter this object with my digital and

731
00:34:57,960 --> 00:34:54,490
my pictures came out surprisingly well I

732
00:35:00,599 --> 00:34:57,970
use a canon 20d a which i use for

733
00:35:02,960 --> 00:35:00,609
astrophotography i have transverse these

734
00:35:07,430 --> 00:35:02,970
images to a disc

735
00:35:09,800 --> 00:35:07,440
and my know it was and this guy here

736
00:35:11,810 --> 00:35:09,810
this witness he became a MUFON

737
00:35:14,839 --> 00:35:11,820
investigator because of this incident I

738
00:35:16,880 --> 00:35:14,849

know yeah this kind of sparked is

739

00:35:19,400 --> 00:35:16,890

interesting and that he did become an

740

00:35:21,560 --> 00:35:19,410

investigator but he only investigated a

741

00:35:24,650 --> 00:35:21,570

few cases and and him and his wife they

742

00:35:28,730 --> 00:35:24,660

i believe they moved to Delaware

743

00:35:31,370 --> 00:35:28,740

Maryland so Ken Ken are you aware i

744

00:35:34,220 --> 00:35:31,380

looked at those photographs and we will

745

00:35:37,010 --> 00:35:34,230

display that photo at least one of those

746

00:35:41,210 --> 00:35:37,020

photographs on our website so our

747

00:35:44,750 --> 00:35:41,220

listeners can see it but um I was struck

748

00:35:47,570 --> 00:35:44,760

by the similarity of that double

749

00:35:52,130 --> 00:35:47,580

tube-like structure that was in the

750

00:35:54,800 --> 00:35:52,140

photograph so um sightings of dual

751

00:35:58,070 --> 00:35:54,810

sightings that happened oh I would say

752

00:36:02,960 --> 00:35:58,080

about two maybe three years ago and were

753

00:36:06,890 --> 00:36:02,970

reported concurrently first down in up

754

00:36:09,800 --> 00:36:06,900

tennessee or kentucky by also an amateur

755

00:36:15,140 --> 00:36:09,810

astronomer and then about a week later

756

00:36:17,690 --> 00:36:15,150

it was reported by a gentleman in not

757

00:36:23,150 --> 00:36:17,700

all the way upstate but like a nearby

758

00:36:25,640 --> 00:36:23,160

upstate New York who ran a small airport

759

00:36:29,420 --> 00:36:25,650

for personal planes you know for private

760

00:36:33,620 --> 00:36:29,430

pilot's and in both of these cases there

761

00:36:37,130 --> 00:36:33,630

was the same the same type of structure

762

00:36:40,810 --> 00:36:37,140

and I believe that these two cases were

763

00:36:43,880 --> 00:36:40,820

reported by Linda Moulton Howe okay and

764

00:36:47,420 --> 00:36:43,890

but the pictures that these people came

765

00:36:50,060 --> 00:36:47,430

up with and the description is very much

766

00:36:52,790 --> 00:36:50,070

like the picture of your alloway

767

00:36:54,349 --> 00:36:52,800

township not the initial one because

768

00:36:57,109 --> 00:36:54,359

there is no picture but the second one

769

00:37:00,200 --> 00:36:57,119

with the two tube-like structures so I

770

00:37:03,530 --> 00:37:00,210

was struck by this the similarity of

771

00:37:06,740 --> 00:37:03,540

those things you know as a matter of

772

00:37:09,320 --> 00:37:06,750

fact I I do have I think there's i'm a

773

00:37:11,120 --> 00:37:09,330

i'm sure i have the photos there or as a

774

00:37:13,960 --> 00:37:11,130

matter of fact i used a couple of photos

775

00:37:16,640 --> 00:37:13,970

in my presentation in baltimore but

776

00:37:20,420 --> 00:37:16,650

y'all have some pretty have

777

00:37:23,630 --> 00:37:20,430

few photos that are very almost exact as

778

00:37:26,720 --> 00:37:23,640

to what i have here for Natalie Township

779

00:37:28,250 --> 00:37:26,730

and I forget the locations but I can if

780

00:37:30,950 --> 00:37:28,260

you need them i can look them up for you

781

00:37:34,210 --> 00:37:30,960

but basically these photos are from

782

00:37:38,480 --> 00:37:34,220

people like himself oh you know astro of

783

00:37:42,170 --> 00:37:38,490

photographers of who are capturing these

784

00:37:44,089 --> 00:37:42,180

things in the higher altitude of you

785

00:37:46,880 --> 00:37:44,099

know of our earth here you know they're

786

00:37:49,670 --> 00:37:46,890

probably pretty high up 50 60 70 80

787

00:37:52,789 --> 00:37:49,680

thousand miles up and early on of

788

00:37:56,809 --> 00:37:52,799

objects that these guys are or capturing

789

00:37:59,450 --> 00:37:56,819

on with their equipment so yeah that was

790

00:38:01,309 --> 00:37:59,460

that was my i have many cases very many

791

00:38:05,089 --> 00:38:01,319

interesting cases but i think this is

792

00:38:09,410 --> 00:38:05,099

the one that that i really like the best

793

00:38:11,539 --> 00:38:09,420

of this one here now now this this area

794

00:38:15,109 --> 00:38:11,549

here as you can see there's high power

795

00:38:18,380 --> 00:38:15,119

lines in the photo and sell a nuclear

796

00:38:20,240 --> 00:38:18,390

plant is only 13 miles away and though

797

00:38:22,220 --> 00:38:20,250

rare force bases across the bay there

798

00:38:25,789 --> 00:38:22,230

that six about that's it's about 26

799

00:38:27,890 --> 00:38:25,799

miles away which is you know very a very

800

00:38:30,980 --> 00:38:27,900

short distance but i think that these

801
00:38:32,839 --> 00:38:30,990
these things are interested in the

802
00:38:35,180 --> 00:38:32,849
nuclear plants i'm not there after

803
00:38:37,700 --> 00:38:35,190
drawing energy off the hot power lines

804
00:38:39,670 --> 00:38:37,710
but in this case like i said i think

805
00:38:43,670 --> 00:38:39,680
they were looking for cattle or horses

806
00:38:47,329 --> 00:38:43,680
that were in the area just abduct them

807
00:38:49,490 --> 00:38:47,339
or to experiment it's just take them

808
00:38:52,670 --> 00:38:49,500
away i guess is the only thing I that's

809
00:38:55,789 --> 00:38:52,680
the only reason why we thought that

810
00:38:58,309 --> 00:38:55,799
these things were flying over so have

811
00:39:00,829 --> 00:38:58,319
you ever been to the observatory at the

812
00:39:03,230 --> 00:39:00,839
Jenny jump out in I guess it's in Warren

813
00:39:05,299 --> 00:39:03,240

County not I don't think that's terribly

814

00:39:07,010 --> 00:39:05,309

far away from you I do don't know where

815

00:39:10,029 --> 00:39:07,020

you are exactly located but I know

816

00:39:12,799 --> 00:39:10,039

you're at you know in the Pennsylvania

817

00:39:14,150 --> 00:39:12,809

border region there have you ever been

818

00:39:18,380 --> 00:39:14,160

up there to look through those

819

00:39:21,109 --> 00:39:18,390

telescopes the photography astronomers

820

00:39:24,410 --> 00:39:21,119

set up these huge telescopes and Jenny

821

00:39:26,150 --> 00:39:24,420

jump I know I would love to see we're

822

00:39:28,000 --> 00:39:26,160

down here and served south jersey I'm

823

00:39:31,240 --> 00:39:28,010

down there violin I'm

824

00:39:33,490 --> 00:39:31,250

very very soldier okay you know these

825

00:39:36,420 --> 00:39:33,500

are as a matter of fact we do have some

826

00:39:38,980 --> 00:39:36,430

observatories I believe it Stockton

827

00:39:40,600 --> 00:39:38,990

Stockton there was a state college I

828

00:39:42,820 --> 00:39:40,610

think just transferred over to a

829

00:39:45,790 --> 00:39:42,830

Stockton University i'm pretty sure they

830

00:39:47,800 --> 00:39:45,800

have an observatory right there as a

831

00:39:50,290 --> 00:39:47,810

matter of fact I've seen it I've seen it

832

00:39:53,170 --> 00:39:50,300

it's it's out on the out in a field and

833

00:39:54,820 --> 00:39:53,180

i wish i had a time I better just

834

00:39:58,480 --> 00:39:54,830

doesn't seem to me enough hours in the

835

00:40:02,800 --> 00:39:58,490

day I wish I had the time to to go there

836

00:40:05,950 --> 00:40:02,810

and to look through a very sophisticated

837

00:40:08,320 --> 00:40:05,960

type of telescope to indeed it looks

838

00:40:10,000 --> 00:40:08,330

like I'd be more missing but I would

839

00:40:12,490 --> 00:40:10,010

probably sit there and watch the moon

840

00:40:14,950 --> 00:40:12,500

all day is what I as a matter of fact I

841

00:40:19,120 --> 00:40:14,960

have people that are constantly send me

842

00:40:22,810 --> 00:40:19,130

photos of objects that are just flying

843

00:40:24,370 --> 00:40:22,820

across the moon wow so what what is what

844

00:40:26,590 --> 00:40:24,380

do you think the reaction of the crowd

845

00:40:28,930 --> 00:40:26,600

would be lets say you had 10 or 15

846

00:40:32,290 --> 00:40:28,940

amateur astronomers in a nice setup in a

847

00:40:34,870 --> 00:40:32,300

in an outdoor like Jenny jump and a

848

00:40:37,810 --> 00:40:34,880

triangular craft one of the triangles

849

00:40:40,060 --> 00:40:37,820

flew overhead do you think that they

850

00:40:42,850 --> 00:40:40,070

would try to discount it you know like

851

00:40:44,170 --> 00:40:42,860

don't believe my lying eyes type of

852

00:40:46,000 --> 00:40:44,180

reaction do you think they'd actually

853

00:40:49,680 --> 00:40:46,010

try to investigate it what do you think

854

00:40:54,820 --> 00:40:49,690

that the human reaction to that would be

855

00:40:56,740 --> 00:40:54,830

well that's such a good question uh if

856

00:40:59,080 --> 00:40:56,750

they're scientists they probably won't

857

00:41:02,370 --> 00:40:59,090

believe it yeah i mean i'll say it so

858

00:41:05,740 --> 00:41:02,380

you know what a military craft

859

00:41:07,840 --> 00:41:05,750

experimental craft well yeah everyone

860

00:41:10,750 --> 00:41:07,850

about what a thousand excuses zoom why

861

00:41:13,360 --> 00:41:10,760

you know a good big if they can't touch

862

00:41:16,570 --> 00:41:13,370

it see it feel it smell it or taste it

863

00:41:21,160 --> 00:41:16,580

it doesn't exist well but i think most

864

00:41:23,590 --> 00:41:21,170

people would probably be either

865

00:41:25,390 --> 00:41:23,600

convinced or you know well especially

866

00:41:29,470 --> 00:41:25,400

with the triangles these days of course

867

00:41:32,460 --> 00:41:29,480

some of the planes that we're developing

868

00:41:35,440 --> 00:41:32,470

like the b-2 bomber and all that the

869

00:41:37,660 --> 00:41:35,450

f-117 they all have a triangular shape

870

00:41:40,890 --> 00:41:37,670

and i'm sure there are some experimental

871

00:41:43,560 --> 00:41:40,900

planes out there that look

872

00:41:46,500 --> 00:41:43,570

that have that triangular form but but

873

00:41:48,570 --> 00:41:46,510

you can't you can't write off all these

874

00:41:51,090 --> 00:41:48,580

sightings to experimental aircraft with

875

00:41:53,010 --> 00:41:51,100

the military that's for sure right let's

876
00:41:54,990 --> 00:41:53,020
count these triangles have been around

877
00:41:57,650 --> 00:41:55,000
for for hundreds if not thousands of

878
00:42:00,180 --> 00:41:57,660
years and we're still discovering

879
00:42:02,280 --> 00:42:00,190
sightings that have happened you know

880
00:42:05,400 --> 00:42:02,290
hundreds of years ago that that people

881
00:42:08,610 --> 00:42:05,410
are either finally found in journals or

882
00:42:10,650 --> 00:42:08,620
diaries and things like that so you know

883
00:42:13,200 --> 00:42:10,660
I think these triangles could could

884
00:42:17,190 --> 00:42:13,210
either be alien or some of them could be

885
00:42:20,070 --> 00:42:17,200
a you know experimental aircraft can my

886
00:42:23,040 --> 00:42:20,080
experience with the guys up at the Jenny

887
00:42:26,070 --> 00:42:23,050
jump there are a lot of them are like

888
00:42:30,680 --> 00:42:26,080

college professors in different

889

00:42:34,830 --> 00:42:30,690

scientific pursuits pursuits yes and

890

00:42:38,340 --> 00:42:34,840

some of them are from the college in

891

00:42:42,720 --> 00:42:38,350

Newark the engineering college in NJIT

892

00:42:44,550 --> 00:42:42,730

and my after speaking to a number of

893

00:42:48,600 --> 00:42:44,560

them sort of putting it to them I think

894

00:42:52,340 --> 00:42:48,610

that it's like one out of three of them

895

00:42:55,770 --> 00:42:52,350

sort of gives the idea of a UFO

896

00:42:57,600 --> 00:42:55,780

possibility some credence and the you

897

00:43:00,960 --> 00:42:57,610

know the other two out of three i would

898

00:43:05,700 --> 00:43:00,970

say kind of poo poos it and like you

899

00:43:09,570 --> 00:43:05,710

said that people are wanting to prove

900

00:43:12,210 --> 00:43:09,580

the materialist mechanistic universe

901
00:43:15,050 --> 00:43:12,220
theory because that's that's what they

902
00:43:21,960 --> 00:43:15,060
grew up studying and believing and

903
00:43:25,500 --> 00:43:21,970
perhaps they don't have enough view to

904
00:43:27,780 --> 00:43:25,510
see the possibilities that things can

905
00:43:32,100 --> 00:43:27,790
get here from other places through

906
00:43:35,580 --> 00:43:32,110
wormholes etc sure but now I've said

907
00:43:38,340 --> 00:43:35,590
before and I'll say it again it did I I

908
00:43:39,690 --> 00:43:38,350
don't think anyone even myself even

909
00:43:41,610 --> 00:43:39,700
yourself you don't have it you don't

910
00:43:44,070 --> 00:43:41,620
have any idea how big these universes

911
00:43:45,960 --> 00:43:44,080
and you know I'll go on record and say

912
00:43:48,000 --> 00:43:45,970
you know I feel there's there's

913
00:43:49,620 --> 00:43:48,010

trillions upon trillions of earth-like

914

00:43:52,620 --> 00:43:49,630

planets out there floating around in

915

00:43:54,360 --> 00:43:52,630

space yes it's like a in that that's how

916

00:43:55,860 --> 00:43:54,370

big the inter vs you know and then

917

00:43:57,930 --> 00:43:55,870

the scientists talk about you know with

918

00:43:59,670 --> 00:43:57,940

you well we think we found the internet'

919

00:44:00,810 --> 00:43:59,680

inter vs you like what should be and you

920

00:44:03,510 --> 00:44:00,820

know what what's on the other words

921

00:44:05,010 --> 00:44:03,520

there a wall is there a starbucks run on

922

00:44:08,490 --> 00:44:05,020

the other side of this wall you know

923

00:44:11,820 --> 00:44:08,500

it's just it's almost my mind and uh

924

00:44:14,280 --> 00:44:11,830

well I Scott said that that is so the

925

00:44:18,390 --> 00:44:14,290

space-time folds in on itself and so it

926
00:44:20,430 --> 00:44:18,400
does have a finite boundary but I I have

927
00:44:22,500 --> 00:44:20,440
to agree with you like okay so space

928
00:44:24,930 --> 00:44:22,510
ends here but what's behind it well more

929
00:44:27,150 --> 00:44:24,940
space they say it's curved but I don't

930
00:44:29,400 --> 00:44:27,160
think they really know or the saddle

931
00:44:35,010 --> 00:44:29,410
shaped are always at any idea I don't

932
00:44:37,380 --> 00:44:35,020
know I a torus shape vor us I don't I

933
00:44:39,780 --> 00:44:37,390
don't quite I don't quite get it but it

934
00:44:42,900 --> 00:44:39,790
keeps changing as you've said can I do

935
00:44:45,420 --> 00:44:42,910
think though that they're trying to you

936
00:44:48,360 --> 00:44:45,430
know slowly but surely first they

937
00:44:52,440 --> 00:44:48,370
introduced planets and then exoplanets

938
00:44:55,410 --> 00:44:52,450

and then rocky planets and it may be

939

00:44:57,930 --> 00:44:55,420

planets with rock and an atmosphere and

940

00:44:59,850 --> 00:44:57,940

oh oh and look there's water all over

941

00:45:02,280 --> 00:44:59,860

the place but recently is a great

942

00:45:05,400 --> 00:45:02,290

article on the blood falls in Antarctica

943

00:45:07,200 --> 00:45:05,410

and there are these waterfalls that are

944

00:45:09,380 --> 00:45:07,210

bright red and they feel like it's due

945

00:45:13,740 --> 00:45:09,390

to iron oxide but it's a pretty eerie

946

00:45:17,070 --> 00:45:13,750

sight and underneath it now in this rust

947

00:45:19,800 --> 00:45:17,080

water at minus god only knows what they

948

00:45:22,740 --> 00:45:19,810

found all sorts of swarming bacteria and

949

00:45:25,740 --> 00:45:22,750

then multi cellular activity as well and

950

00:45:28,860 --> 00:45:25,750

so the comment was why if life can live

951
00:45:31,830 --> 00:45:28,870
here perhaps it can live elsewhere i

952
00:45:33,330 --> 00:45:31,840
call it wow really yeah you think you

953
00:45:35,430 --> 00:45:33,340
know it's so interesting i got

954
00:45:37,740 --> 00:45:35,440
interested in exobiology when it was

955
00:45:40,800 --> 00:45:37,750
considered paranormal maybe several

956
00:45:44,780 --> 00:45:40,810
decades ago and it is so annoying to me

957
00:45:48,240 --> 00:45:44,790
that it was so left at then and it's so

958
00:45:51,300 --> 00:45:48,250
accepted now and I think eventually this

959
00:45:54,150 --> 00:45:51,310
whole idea of alien crafts visiting here

960
00:45:57,560 --> 00:45:54,160
will also become not laughable at some

961
00:46:00,960 --> 00:45:57,570
point hopefully in our lifetime again um

962
00:46:02,940 --> 00:46:00,970
before the time gets away from us there

963
00:46:06,630 --> 00:46:02,950

are two other things that I wanted to

964

00:46:07,890 --> 00:46:06,640

talk to you about you have some opinions

965

00:46:10,859 --> 00:46:07,900

on disclosure

966

00:46:12,329 --> 00:46:10,869

and it's possible negative effects do

967

00:46:15,660 --> 00:46:12,339

you want to speak to that for a couple

968

00:46:18,059 --> 00:46:15,670

of moments uh yeah now everybody is

969

00:46:19,859 --> 00:46:18,069

screaming for disclosure and quite

970

00:46:24,269 --> 00:46:19,869

frankly I don't think any president

971

00:46:26,880 --> 00:46:24,279

would would want to come on TV and you

972

00:46:28,799 --> 00:46:26,890

know say to I can imagine Obama coming

973

00:46:30,630 --> 00:46:28,809

on television and saying hey guess what

974

00:46:32,789 --> 00:46:30,640

folks you know we're where you have

975

00:46:34,620 --> 00:46:32,799

aliens among us I don't think any I

976

00:46:36,539 --> 00:46:34,630

don't think any president or anyone

977

00:46:40,710 --> 00:46:36,549

would want to touch that with a 50-foot

978

00:46:44,190 --> 00:46:40,720

pole quite frankly I think if disclosure

979

00:46:47,730 --> 00:46:44,200

does happen I think it's going i think

980

00:46:53,390 --> 00:46:47,740

the stock markets are crash I think of

981

00:46:55,950 --> 00:46:53,400

religions you know we'll be in turmoil I

982

00:46:59,880 --> 00:46:55,960

think we'll be jumping out of windows I

983

00:47:02,309 --> 00:46:59,890

just think that people can handle it now

984

00:47:07,470 --> 00:47:02,319

a lot of people like ourselves you know

985

00:47:10,829 --> 00:47:07,480

we have the the we feel that there are a

986

00:47:13,829 --> 00:47:10,839

lot of people out there that believe in

987

00:47:16,680 --> 00:47:13,839

UFOs and and you know I don't know if

988

00:47:19,140 --> 00:47:16,690

you realize it or not but but this UFO

989

00:47:22,349 --> 00:47:19,150

community we're very little community I

990

00:47:24,960 --> 00:47:22,359

mean we r we r which is 330 million

991

00:47:27,180 --> 00:47:24,970

people in the United States and you know

992

00:47:30,480 --> 00:47:27,190

even if a million people believe in UFOs

993

00:47:32,549 --> 00:47:30,490

that's still a pretty small percentage

994

00:47:34,380 --> 00:47:32,559

of you know a lot of people just

995

00:47:35,910 --> 00:47:34,390

dismissed this stuff they don't even

996

00:47:38,579 --> 00:47:35,920

want to hear about it they don't they

997

00:47:40,680 --> 00:47:38,589

don't watch the shows on TV you know

998

00:47:42,240 --> 00:47:40,690

they think it's silly there they you

999

00:47:45,120 --> 00:47:42,250

know they bury their head in the sand

1000

00:47:50,190 --> 00:47:45,130

and you know even though we think that

1001
00:47:52,380 --> 00:47:50,200
you know the statistics say that's three

1002
00:47:54,809 --> 00:47:52,390
out of four people believe in alien life

1003
00:47:56,819 --> 00:47:54,819
in UFOs I'm saying myself we're how are

1004
00:47:58,829 --> 00:47:56,829
they getting these figures from because

1005
00:48:00,779 --> 00:47:58,839
uh you know I think that they're

1006
00:48:03,240 --> 00:48:00,789
speaking more about the people who think

1007
00:48:04,559 --> 00:48:03,250
it's possible versus you're speaking

1008
00:48:07,309 --> 00:48:04,569
about the people who are actively

1009
00:48:12,630 --> 00:48:07,319
interested would you agree with that uh

1010
00:48:14,400 --> 00:48:12,640
uh well I think that's uh I think there

1011
00:48:17,279 --> 00:48:14,410
are a lot of people out there who just

1012
00:48:18,720 --> 00:48:17,289
aren't interested I'd like I said I feel

1013
00:48:21,090 --> 00:48:18,730

that the ninety-five percent of the

1014

00:48:22,650 --> 00:48:21,100

population just just their day

1015

00:48:25,560 --> 00:48:22,660

they're not interested in you want to

1016

00:48:28,530 --> 00:48:25,570

think about it scary oh it's kind of a

1017

00:48:30,150 --> 00:48:28,540

lot of people especially Fisher comes on

1018

00:48:32,790 --> 00:48:30,160

meanors there's ninety-five percent of

1019

00:48:35,280 --> 00:48:32,800

our population is going to be shocked

1020

00:48:38,640 --> 00:48:35,290

and you know I don't think they'd be

1021

00:48:42,090 --> 00:48:38,650

able to handle news like that well I'm

1022

00:48:45,810 --> 00:48:42,100

going to get into our last topic sort of

1023

00:48:47,940 --> 00:48:45,820

around through the back door because you

1024

00:48:51,480 --> 00:48:47,950

know you do a lot of looking at photos

1025

00:48:53,790 --> 00:48:51,490

and from from the moon and for Mars and

1026

00:48:56,580 --> 00:48:53,800

I have several questions for you

1027

00:49:00,270 --> 00:48:56,590

regarding that back a couple of years

1028

00:49:05,820 --> 00:49:00,280

ago on my blog site I did an article

1029

00:49:11,900 --> 00:49:05,830

about the pictures that came from Mars

1030

00:49:19,110 --> 00:49:16,530

fossil a type appearing things that were

1031

00:49:21,260 --> 00:49:19,120

picked up by the rover and then the

1032

00:49:23,820 --> 00:49:21,270

rover they were told to destroy them

1033

00:49:25,680 --> 00:49:23,830

over like to thank you aren't they they

1034

00:49:29,190 --> 00:49:25,690

look like tubes no these look more

1035

00:49:31,320 --> 00:49:29,200

almost like um like the trial of bites

1036

00:49:33,930 --> 00:49:31,330

they had a sort of a similar thing to

1037

00:49:36,870 --> 00:49:33,940

trial abides in if you know if you want

1038

00:49:40,860 --> 00:49:36,880

you could look at my website and you'll

1039

00:49:42,960 --> 00:49:40,870

see the crinoids CRI and oids and people

1040

00:49:45,390 --> 00:49:42,970

have said that these pictures there are

1041

00:49:47,520 --> 00:49:45,400

tubes also yeah you know on Mars but

1042

00:49:51,170 --> 00:49:47,530

what I'm speaking to specifically is

1043

00:49:55,340 --> 00:49:51,180

these things that look exactly like a

1044

00:50:00,420 --> 00:49:55,350

things on earth that are prehistoric

1045

00:50:03,090 --> 00:50:00,430

advances and then somebody and and the

1046

00:50:05,760 --> 00:50:03,100

rover team apparently decided that they

1047

00:50:10,680 --> 00:50:05,770

ought to be pulverized to look at them

1048

00:50:13,050 --> 00:50:10,690

and thereby destroyed it so that is one

1049

00:50:17,310 --> 00:50:13,060

thing that is bringing me into talking

1050

00:50:21,360 --> 00:50:17,320

about your Mars and moon discoveries and

1051
00:50:27,720 --> 00:50:21,370
all the photos that you have up on your

1052
00:50:29,460 --> 00:50:27,730
world UFO or Georg I you have to repeat

1053
00:50:30,930 --> 00:50:29,470
that for the for the listeners go ahead

1054
00:50:32,430 --> 00:50:30,940
repeat that right away because people

1055
00:50:34,630 --> 00:50:32,440
are going to want to look at that and

1056
00:50:37,390 --> 00:50:34,640
this is 154

1057
00:50:40,299 --> 00:50:37,400
largest world's largest website for UFO

1058
00:50:44,710 --> 00:50:40,309
photos I got over 8,000 photos and it's

1059
00:50:48,579 --> 00:50:44,720
called the world UFO photos org great

1060
00:50:51,910 --> 00:50:48,589
great so I'm on my news website is world

1061
00:50:54,910 --> 00:50:51,920
UFO photos and news or guy got over a

1062
00:50:57,579 --> 00:50:54,920
thousand pretty good articles on there

1063
00:51:01,359 --> 00:50:57,589

yes you do yes you do have some very

1064

00:51:03,579 --> 00:51:01,369

excellent articles there so um tell us a

1065

00:51:07,299 --> 00:51:03,589

little bit just briefly about the kinds

1066

00:51:08,740 --> 00:51:07,309

of things that you have the kinds of

1067

00:51:11,109 --> 00:51:08,750

things that you have found in the

1068

00:51:14,680 --> 00:51:11,119

pictures first of the Moon and then of

1069

00:51:17,259 --> 00:51:14,690

Mars well with the with the note and I

1070

00:51:20,680 --> 00:51:17,269

have found as a matter of fact there is

1071

00:51:23,349 --> 00:51:20,690

a website I'd also sent that to you i

1072

00:51:24,789 --> 00:51:23,359

sent you the links where i go to so you

1073

00:51:26,680 --> 00:51:24,799

know if people are wondering where i'm

1074

00:51:28,930 --> 00:51:26,690

getting all this information from you

1075

00:51:31,299 --> 00:51:28,940

know i'm giving you the links and you

1076

00:51:33,130 --> 00:51:31,309

can go find it yourself basically yes

1077

00:51:36,150 --> 00:51:33,140

you know I have nothing to hide i would

1078

00:51:38,920 --> 00:51:36,160

i find i feel is real and i found

1079

00:51:42,700 --> 00:51:38,930

there's one will and photo there sits

1080

00:51:44,559 --> 00:51:42,710

for photo number five I have found this

1081

00:51:49,950 --> 00:51:44,569

is near to rittenhouse crater i

1082

00:51:54,609 --> 00:51:49,960

discovered this on 9 24 12 7 30 p.m.

1083

00:51:57,309 --> 00:51:54,619

there's a lot of exes always ones some

1084

00:51:59,980 --> 00:51:57,319

of these photos now i do agree that some

1085

00:52:04,059 --> 00:51:59,990

of these X's could be and i know that

1086

00:52:07,809 --> 00:52:04,069

some of them are you know x is that that

1087

00:52:11,589 --> 00:52:07,819

the the people from from Nassib probably

1088

00:52:15,720 --> 00:52:11,599

you know draw on these photos in order

1089

00:52:18,309 --> 00:52:15,730

to help them crop photos or you know

1090

00:52:21,670 --> 00:52:18,319

they put these in the line just to

1091

00:52:25,779 --> 00:52:21,680

section off a certain section of the

1092

00:52:28,720 --> 00:52:25,789

moon but a lot of these X's are on the

1093

00:52:34,299 --> 00:52:28,730

moon I mean these are 3 DX is there

1094

00:52:37,509 --> 00:52:34,309

they're very large and these X's are put

1095

00:52:40,480 --> 00:52:37,519

in in locations that I feel for some

1096

00:52:43,660 --> 00:52:40,490

reason are very important to NASA haha

1097

00:52:46,509 --> 00:52:43,670

and I have found tons of them out there

1098

00:52:48,230 --> 00:52:46,519

and as a matter of fact on this one next

1099

00:52:51,320 --> 00:52:48,240

year is right in the Brayton basic

1100

00:52:55,610 --> 00:52:51,330

almost the center of a crater that's

1101
00:52:57,470 --> 00:52:55,620
that was photo 5 now i have now another

1102
00:53:00,790 --> 00:52:57,480
one that did very interesting this is

1103
00:53:03,890 --> 00:53:00,800
near to z menu crater discovered this on

1104
00:53:07,460 --> 00:53:03,900
so time of fourteen nineteen twelve it

1105
00:53:09,790 --> 00:53:07,470
that's photo number for it it's the

1106
00:53:14,330 --> 00:53:09,800
strangest things that I've ever seen I

1107
00:53:16,190 --> 00:53:14,340
found this on the the moon and as a

1108
00:53:19,280 --> 00:53:16,200
matter of fact the website that I go to

1109
00:53:24,200 --> 00:53:19,290
to find these things is I go to the

1110
00:53:27,370 --> 00:53:24,210
Gazette of planetary nomenclature I have

1111
00:53:32,600 --> 00:53:27,380
the website there it's a basically a

1112
00:53:34,160 --> 00:53:32,610
planetary names dot wrw USGS you know

1113
00:53:35,600 --> 00:53:34,170

like I said I send this information to

1114

00:53:38,000 --> 00:53:35,610

you there now we'll put that on the

1115

00:53:39,650 --> 00:53:38,010

website actually what they've done is

1116

00:53:42,010 --> 00:53:39,660

they've taken a known and they've cut it

1117

00:53:44,630 --> 00:53:42,020

up into sections you know different pies

1118

00:53:46,880 --> 00:53:44,640

and there's a hundred forty-one sections

1119

00:53:48,620 --> 00:53:46,890

there and you know it's but you're just

1120

00:53:50,240 --> 00:53:48,630

going to go into a section you want to

1121

00:53:54,350 --> 00:53:50,250

click on it and you're just going to

1122

00:53:57,680 --> 00:53:54,360

enlarge you know the the the photos of

1123

00:54:00,670 --> 00:53:57,690

the moon and you'd be shocked as to what

1124

00:54:03,470 --> 00:54:00,680

the what you come across sometimes so

1125

00:54:05,300 --> 00:54:03,480

okay and the photograph I found most

1126
00:54:08,290 --> 00:54:05,310
interesting was the one that you called

1127
00:54:11,090 --> 00:54:08,300
the bridge is is there any sort of a

1128
00:54:13,580 --> 00:54:11,100
nearby structure which gives you how an

1129
00:54:16,370 --> 00:54:13,590
idea of how big that structure would be

1130
00:54:20,020 --> 00:54:16,380
oh that was a that was an incredible but

1131
00:54:23,870 --> 00:54:20,030
that's definitely not a natural thing a

1132
00:54:25,970 --> 00:54:23,880
helping is it wait let me take a look at

1133
00:54:32,120 --> 00:54:25,980
that realer career real quick i have it

1134
00:54:34,490 --> 00:54:32,130
on a structure it's really canal they do

1135
00:54:37,490 --> 00:54:34,500
have the as a matter of fact they do

1136
00:54:40,070 --> 00:54:37,500
have yeah I have it right here moon

1137
00:54:43,790 --> 00:54:40,080
bridge structure near these now as you

1138
00:54:45,200 --> 00:54:43,800

can see i try to to put a reference in

1139

00:54:48,140 --> 00:54:45,210

there that's what I'm trying to put in

1140

00:54:50,480 --> 00:54:48,150

there some plus this be I guess is what

1141

00:54:54,220 --> 00:54:50,490

is called crater if i pronounce that

1142

00:54:57,140 --> 00:54:54,230

correctly i discovered this on 9 27 12

1143

00:54:58,880 --> 00:54:57,150

it looks like you know i mean this is

1144

00:55:00,800 --> 00:54:58,890

not a splice because you can s'matter

1145

00:55:01,790 --> 00:55:00,810

fact right on right above that you can

1146

00:55:06,050 --> 00:55:01,800

see where we r

1147

00:55:10,040 --> 00:55:06,060

to try to display something on it on the

1148

00:55:12,380 --> 00:55:10,050

the right side of the photo maybe eric

1149

00:55:14,150 --> 00:55:12,390

zarnitz place out buildings or who knows

1150

00:55:18,410 --> 00:55:14,160

what they're calling this place happen

1151
00:55:19,850 --> 00:55:18,420
best photo right there is yeah it's kind

1152
00:55:22,670 --> 00:55:19,860
of really kind of hard to say what that

1153
00:55:25,880 --> 00:55:22,680
is it's a either abridge your electrical

1154
00:55:29,060 --> 00:55:25,890
lines or that's probably that's a very

1155
00:55:32,780 --> 00:55:29,070
detailed photo that I was able to pick

1156
00:55:34,550 --> 00:55:32,790
up and yeah that that's that's really

1157
00:55:36,470 --> 00:55:34,560
that's an incredible shot yeah that's

1158
00:55:38,780 --> 00:55:36,480
photo number three so you know like I

1159
00:55:41,840 --> 00:55:38,790
said we're going to note some of them up

1160
00:55:46,670 --> 00:55:41,850
on on the website for people to to look

1161
00:55:48,890 --> 00:55:46,680
at and we'll put the the websites up as

1162
00:55:52,430 --> 00:55:48,900
well both yours and the ones that you go

1163
00:55:55,220 --> 00:55:52,440

to so we are almost ready to wrap up

1164

00:55:56,810 --> 00:55:55,230

here and it's been really great speaking

1165

00:55:59,510 --> 00:55:56,820

to you but I want to give you a moment

1166

00:56:02,420 --> 00:55:59,520

or two to speak to the Mars discoveries

1167

00:56:05,980 --> 00:56:02,430

and this is ken Pfeiffer speaking 10 x 4

1168

00:56:10,250 --> 00:56:05,990

yes I I need Kate here to keep me

1169

00:56:12,650 --> 00:56:10,260

professional in the yeah I understand

1170

00:56:15,950 --> 00:56:12,660

now to mark demars hear about that it's

1171

00:56:18,280 --> 00:56:15,960

photo number two listen you're in a

1172

00:56:21,440 --> 00:56:18,290

Newton crater discovered by myself on

1173

00:56:23,620 --> 00:56:21,450

1123 2011 as you can you know for years

1174

00:56:27,170 --> 00:56:23,630

now I've been I've been doing this and

1175

00:56:29,860 --> 00:56:27,180

this here looks to me like explicitly

1176

00:56:33,260 --> 00:56:29,870

that that that object to the right it's

1177

00:56:35,540 --> 00:56:33,270

this is not man-made I'm sorry this is

1178

00:56:37,250 --> 00:56:35,550

not natural this is you know who knows

1179

00:56:40,190 --> 00:56:37,260

what this is in a matter of fact this

1180

00:56:42,950 --> 00:56:40,200

whole area looks like a looks like a

1181

00:56:45,230 --> 00:56:42,960

crash site I mean if their stuff all

1182

00:56:49,130 --> 00:56:45,240

over the place and and you know this is

1183

00:56:51,080 --> 00:56:49,140

I saw this and it jumped out all of the

1184

00:56:54,020 --> 00:56:51,090

page at me and I'm saying we know what

1185

00:56:58,000 --> 00:56:54,030

the that's that's not natural I mean

1186

00:57:00,830 --> 00:56:58,010

that that's a that's something that that

1187

00:57:03,560 --> 00:57:00,840

someone put there and you know I still

1188

00:57:05,930 --> 00:57:03,570

don't I still don't know what it is does

1189

00:57:10,040 --> 00:57:05,940

NASA have any comments on these pictures

1190

00:57:11,690 --> 00:57:10,050

uh no they they do all they haven't

1191

00:57:14,060 --> 00:57:11,700

gotten back to me I'm use a microphone

1192

00:57:14,640 --> 00:57:14,070

I'm expecting this I'm expecting a man

1193

00:57:18,480 --> 00:57:14,650

in black

1194

00:57:22,020 --> 00:57:18,490

back on my porridge uh that's another

1195

00:57:23,760 --> 00:57:22,030

story but are they they're putting these

1196

00:57:26,310 --> 00:57:23,770

you know they're there they're putting

1197

00:57:29,370 --> 00:57:26,320

the information out there but the only

1198

00:57:33,150 --> 00:57:29,380

problem is NASA must have a thousand

1199

00:57:35,310 --> 00:57:33,160

websites it seems to me that that they

1200

00:57:37,680 --> 00:57:35,320

had put the information out there but

1201
00:57:40,140 --> 00:57:37,690
they're trying to make it as hard as

1202
00:57:42,840 --> 00:57:40,150
possible for you to find it let me ask

1203
00:57:45,570 --> 00:57:42,850
you one final question actually we have

1204
00:57:47,280 --> 00:57:45,580
two more questions but the final

1205
00:57:53,820 --> 00:57:47,290
question I want to ask you about the

1206
00:57:57,870 --> 00:57:53,830
photos is do you have a good website to

1207
00:58:03,150 --> 00:57:57,880
go to for close-up photos of the far

1208
00:58:05,280 --> 00:58:03,160
side of the moon hmm I would yes I do I

1209
00:58:09,240 --> 00:58:05,290
was a matter of fact I would probably

1210
00:58:11,280 --> 00:58:09,250
say that let me go to it here right here

1211
00:58:16,170 --> 00:58:11,290
at this the that's the one I was talking

1212
00:58:20,490 --> 00:58:16,180
about the nomenclature one yes yes that

1213
00:58:23,010 --> 00:58:20,500

would probably be the the ideal 1 i'm

1214

00:58:25,890 --> 00:58:23,020

still looking for the perfect website

1215

00:58:29,730 --> 00:58:25,900

but as a matter of fact i think that now

1216

00:58:33,000 --> 00:58:29,740

i think about it i think google i love

1217

00:58:35,070 --> 00:58:33,010

google I'm not me Duke earth now if you

1218

00:58:37,200 --> 00:58:35,080

download google earth they also have you

1219

00:58:42,150 --> 00:58:37,210

can also look at the moon you look at

1220

00:58:47,430 --> 00:58:42,160

mars and you can also find these high

1221

00:58:49,170 --> 00:58:47,440

definition areas on Google Mars and also

1222

00:58:54,720 --> 00:58:49,180

google moon as a matter of fact you can

1223

00:58:58,920 --> 00:58:54,730

go to the Apollo you can see all of the

1224

00:59:01,440 --> 00:58:58,930

Apollo high-definition 360 images that

1225

00:59:04,590 --> 00:59:01,450

the apparently the astronauts took on

1226

00:59:06,720 --> 00:59:04,600

the moon and I'm still searching through

1227

00:59:08,070 --> 00:59:06,730

these these high-definition photos as a

1228

00:59:12,270 --> 00:59:08,080

matter of fact last night I found

1229

00:59:14,400 --> 00:59:12,280

another UFO on their horizon of you know

1230

00:59:17,820 --> 00:59:14,410

one of these of photos that the

1231

00:59:19,920 --> 00:59:17,830

astronauts took of one of the areas that

1232

00:59:22,350 --> 00:59:19,930

they were working on so I mean there's

1233

00:59:24,660 --> 00:59:22,360

so much information out there and I and

1234

00:59:28,230 --> 00:59:24,670

I like i said i think google moon or

1235

00:59:31,530 --> 00:59:28,240

Google Mars is also an excellent source

1236

00:59:33,720 --> 00:59:31,540

finding these strange anomalies oh you

1237

00:59:36,720 --> 00:59:33,730

know on on the Moon or Mars well thank

1238

00:59:40,650 --> 00:59:36,730

you and just to wrap things up I'm

1239

00:59:43,620 --> 00:59:40,660

wondering if you um what you're up to

1240

00:59:46,080 --> 00:59:43,630

what do you have plans for any new

1241

00:59:48,570 --> 00:59:46,090

research are you going to continue on in

1242

00:59:50,310 --> 00:59:48,580

the very wonderful way you are working

1243

00:59:53,010 --> 00:59:50,320

or do you have something different in

1244

00:59:56,730 --> 00:59:53,020

mind for upcoming for the future or

1245

01:00:02,250 --> 00:59:56,740

what's up with ken Pfeiffer for the rest

1246

01:00:03,960 --> 01:00:02,260

of 2015 into 2016 well basically I would

1247

01:00:06,420 --> 01:00:03,970

love to get on a hanger one that's the

1248

01:00:08,100 --> 01:00:06,430

new TV show well it's not new they had

1249

01:00:09,810 --> 01:00:08,110

it last year and was renewed that's a

1250

01:00:13,920 --> 01:00:09,820

MUFON show and quite frankly I think

1251

01:00:15,870 --> 01:00:13,930

it's one of the best UFO shows on TV and

1252

01:00:19,350 --> 01:00:15,880

i would love to hopefully get on here

1253

01:00:21,840 --> 01:00:19,360

someday well we've luck with that ya

1254

01:00:24,810 --> 01:00:21,850

know I I that would be pretty incredible

1255

01:00:28,560 --> 01:00:24,820

but no I'm just doing my thing here I'm

1256

01:00:31,020 --> 01:00:28,570

I had photos every day to my websites

1257

01:00:33,300 --> 01:00:31,030

and then my facebook page and I'm just

1258

01:00:35,670 --> 01:00:33,310

I'm just plugging away here trying to

1259

01:00:37,950 --> 01:00:35,680

find out the truth well thank you so

1260

01:00:40,320 --> 01:00:37,960

much ken it's been a pleasure talking to

1261

01:00:42,660 --> 01:00:40,330

you really in need and it's been fun

1262

01:00:45,570 --> 01:00:42,670

speaking about UFOs again for a change

1263

01:00:48,120 --> 01:00:45,580

that's one of my favorite topics yes yes

1264

01:00:50,580 --> 01:00:48,130

mine as well and you have done yeoman's

1265

01:00:52,560 --> 01:00:50,590

work out there in the service and thank

1266

01:00:55,500 --> 01:00:52,570

you very much yes thank you can and

1267

01:00:58,110 --> 01:00:55,510

you're a wonderful resource yeah yep

1268

01:00:59,700 --> 01:00:58,120

pollution can take you your sweethearts

1269

01:01:02,670 --> 01:00:59,710

and then it's an honor to be on your

1270

01:01:06,750 --> 01:01:02,680

podcast thank you thank you have a great

1271

01:01:10,620 --> 01:01:06,760

day Andy happy hunting yes indeed okay

1272

01:01:13,680 --> 01:01:10,630

bye-bye okay so that was a very

1273

01:01:17,550 --> 01:01:13,690

interesting presentation by our friend

1274

01:01:19,890 --> 01:01:17,560

can pfeiffer the I the head of New

1275

01:01:22,350 --> 01:01:19,900

Jersey MUFON and also I don't know how

1276

01:01:24,060 --> 01:01:22,360

we even covers on yeah the covers

1277

01:01:28,230 --> 01:01:24,070

Vermont and wrote on that's a long trip

1278

01:01:32,940 --> 01:01:28,240

for the gentleman in any case um just to

1279

01:01:37,200 --> 01:01:32,950

wrap things up mom we are going to ask

1280

01:01:40,440 --> 01:01:37,210

you to put out questions for us things

1281

01:01:41,109 --> 01:01:40,450

that you want to hear about make note on

1282

01:01:45,819 --> 01:01:41,119

our

1283

01:01:49,390 --> 01:01:45,829

website leave leave comments of all

1284

01:01:54,640 --> 01:01:49,400

sorts and please like us on our Facebook

1285

01:01:59,049 --> 01:01:54,650

page please like our blogs and also our

1286

01:02:02,519 --> 01:01:59,059

we've had we're up on iTunes but as of

1287

01:02:04,809 --> 01:02:02,529

yet people have not been able to post

1288

01:02:07,150 --> 01:02:04,819

reviews on iTunes and I don't know

1289

01:02:10,720 --> 01:02:07,160

exactly why but maybe it's just with

1290

01:02:14,410 --> 01:02:10,730

time um I'd see aliens it's the aliens

1291

01:02:17,349 --> 01:02:14,420

yeah sure next week that's all speaking

1292

01:02:20,980 --> 01:02:17,359

of it no speaking of alien sightings

1293

01:02:24,249 --> 01:02:20,990

yeah it is but next week actually it's

1294

01:02:27,789 --> 01:02:24,259

on the fifteenth of may which is two

1295

01:02:31,120 --> 01:02:27,799

weeks from today we are expecting to

1296

01:02:34,900 --> 01:02:31,130

have on a wonderful guest who has been

1297

01:02:40,210 --> 01:02:34,910

making headlines in the Daily News this

1298

01:02:42,789 --> 01:02:40,220

is captain Andrew Danziger who has been

1299

01:02:47,079 --> 01:02:42,799

writing occasionally in the news he's a

1300

01:02:50,620 --> 01:02:47,089

pilot and he's had UFO sightings he has

1301
01:02:55,269 --> 01:02:50,630
some very interesting opinions on some

1302
01:02:57,910 --> 01:02:55,279
high visibility airline issues that have

1303
01:02:59,979 --> 01:02:57,920
been going on and you know you're

1304
01:03:03,759 --> 01:02:59,989
welcome to look him up on on the Daily

1305
01:03:06,579 --> 01:03:03,769
News but he is quite the man in the news

1306
01:03:10,420 --> 01:03:06,589
and we're proud to be able to have him

1307
01:03:13,210 --> 01:03:10,430
on our podcast hopefully on the

1308
01:03:15,759 --> 01:03:13,220
fifteenth mm-hmm ahead and we're really

1309
01:03:18,430 --> 01:03:15,769
looking forward to it but again please

1310
01:03:20,579 --> 01:03:18,440
you know just just right on the blog or

1311
01:03:22,989 --> 01:03:20,589
on the website whatever would you think

1312
01:03:24,759 --> 01:03:22,999
because we're not just doing this for

1313
01:03:26,380 --> 01:03:24,769

the two of us we'd like to know how

1314

01:03:29,890 --> 01:03:26,390

everybody else feels about these

1315

01:03:32,499 --> 01:03:29,900

subjects and the more interest you have

1316

01:03:34,359 --> 01:03:32,509

and wider the interest goes perhaps one

1317

01:03:36,370 --> 01:03:34,369

day we will get to the bottom of all

1318

01:03:38,979 --> 01:03:36,380

this because something's up there and

1319

01:03:42,309 --> 01:03:38,989

it's flying around yes indeed and we

1320

01:03:45,640 --> 01:03:42,319

thank once again our engineer and our

1321

01:03:49,150 --> 01:03:45,650

voiceover gentleman mr. Nate Duffy and

1322

01:03:52,749 --> 01:03:49,160

and so we're going to say a fond

1323

01:03:54,730 --> 01:03:52,759

farewell yep and you know keep looking

1324

01:03:57,550 --> 01:03:54,740

out because something's up their keep

1325

01:04:15,880 --> 01:03:57,560

your eyes to the skies that's right okay

1326

01:04:18,970 --> 01:04:15,890

see you in two weeks okay welcome to

1327

01:04:23,050 --> 01:04:18,980

shattered reality with your hosts kate

1328

01:04:25,960 --> 01:04:23,060

valentine and Farrugia prepare to have
