

1
00:00:23,790 --> 00:00:20,230
welcome to shattered reality with your

2
00:00:26,769 --> 00:00:23,800
hosts kate valentine and Farrugia

3
00:00:30,839 --> 00:00:26,779
prepare to have your paradigms shifted

4
00:00:37,270 --> 00:00:30,849
in the truth questioned and now

5
00:00:40,420 --> 00:00:37,280
shattered reality hey today is our 13th

6
00:00:43,810 --> 00:00:40,430
show this is going to be lucky 13 and

7
00:00:48,030 --> 00:00:43,820
this is Farrugia and heike valentine

8
00:00:52,120 --> 00:00:48,040
here we have an incredible guest today

9
00:00:54,850 --> 00:00:52,130
John be Alexander PhD is our guest today

10
00:00:57,700 --> 00:00:54,860
and he is an amazing guy the simplest

11
00:00:59,290 --> 00:00:57,710
way to express this is to say that it

12
00:01:01,600 --> 00:00:59,300
seems to me that he has packed five

13
00:01:04,270 --> 00:01:01,610

lifetimes of activities and

14

00:01:07,149 --> 00:01:04,280

accomplishments into one and he's not

15

00:01:09,160 --> 00:01:07,159

done yet if I were to list all of his

16

00:01:12,190 --> 00:01:09,170

awards and his accomplishments it would

17

00:01:14,499 --> 00:01:12,200

take half the show so succinctly here it

18

00:01:17,319 --> 00:01:14,509

goes and he can certainly correct me if

19

00:01:21,819 --> 00:01:17,329

I'm estate something he was born in New

20

00:01:24,760 --> 00:01:21,829

York and entered the army in 1956 he

21

00:01:28,629 --> 00:01:24,770

commanded a special forces a team in

22

00:01:30,129 --> 00:01:28,639

Vietnam and in Thailand he had he headed

23

00:01:33,399 --> 00:01:30,139

the weird desk at the Defense

24

00:01:35,709 --> 00:01:33,409

Intelligence Agency and he started the

25

00:01:39,309 --> 00:01:35,719

advanced theoretical physics project

26

00:01:40,989 --> 00:01:39,319

group while he was still enlisted it was

27

00:01:42,609 --> 00:01:40,999

a cover to meet with others in

28

00:01:45,429 --> 00:01:42,619

government to discuss what they knew

29

00:01:50,190 --> 00:01:45,439

about UFOs he's written several books

30

00:01:54,069 --> 00:01:50,200

including UFOs myths conspiracies and

31

00:01:56,499 --> 00:01:54,079

realities and has been written about in

32

00:01:59,980 --> 00:01:56,509

the Jon Ronson book the men who stare at

33

00:02:03,219 --> 00:01:59,990

goats he knows all about remote viewing

34

00:02:06,550 --> 00:02:03,229

has spent time at the sherman skinwalker

35

00:02:09,639 --> 00:02:06,560

Bigelow ranch he has traveled around the

36

00:02:11,980 --> 00:02:09,649

world investigating shamanism he knows

37

00:02:14,949 --> 00:02:11,990

just about everybody in the paranormal

38

00:02:19,820 --> 00:02:14,959

world and in the intelligence field and

39

00:02:22,100 --> 00:02:19,830

took his PhD under Kuebler-Ross in

40

00:02:25,400 --> 00:02:22,110

Natali on the study of the death and

41

00:02:28,700 --> 00:02:25,410

near-death experience he is an expert in

42

00:02:31,340 --> 00:02:28,710

non-lethal weaponry and after he left

43

00:02:34,310 --> 00:02:31,350

the military with the rank of colonel of

44

00:02:37,190 --> 00:02:34,320

infantry he worked in the field of

45

00:02:40,730 --> 00:02:37,200

non-lethal weaponry at the Los Alamos

46

00:02:44,170 --> 00:02:40,740

National Labs recently he gave a paper

47

00:02:47,210 --> 00:02:44,180

about interspecies communications in

48

00:02:50,140 --> 00:02:47,220

Washington at the Society for Scientific

49

00:02:55,490 --> 00:02:50,150

exploration which he helped to found

50

00:02:58,670 --> 00:02:55,500

Welcome Dr. Alexander we'll like you one

51
00:03:01,880 --> 00:02:58,680
correction as I was never with Dia so oh

52
00:03:03,800 --> 00:03:01,890
ok wonder where that came from i guess

53
00:03:08,380 --> 00:03:03,810
it was at your time at the Pentagon so

54
00:03:14,090 --> 00:03:11,810
inspector general ok you didn't sit at

55
00:03:17,900 --> 00:03:14,100
the desk where all the strange reports

56
00:03:20,590 --> 00:03:17,910
came in there is no such desk how can

57
00:03:23,930 --> 00:03:20,600
turn as part of what we can discuss ok

58
00:03:25,550 --> 00:03:23,940
but dr. Alexander let me also give my

59
00:03:27,259 --> 00:03:25,560
thanks for you taking this time to be

60
00:03:30,229 --> 00:03:27,269
with us you certainly have had a

61
00:03:33,020 --> 00:03:30,239
fascinating life's journey and thank you

62
00:03:36,020 --> 00:03:33,030
for you know for deigning to talk to us

63
00:03:38,509 --> 00:03:36,030

today if I could just quote just to

64

00:03:41,509 --> 00:03:38,519

start since my area is sort of UFOs

65

00:03:44,330 --> 00:03:41,519

that's what I like ah you stayed in your

66

00:03:47,240 --> 00:03:44,340

book UFOs are real with no prevarication

67

00:03:49,970 --> 00:03:47,250

or qualification of terms there are

68

00:03:52,340 --> 00:03:49,980

physical objects of unknown origin that

69

00:03:54,310 --> 00:03:52,350

do transit our universe and I thank you

70

00:03:58,310 --> 00:03:54,320

for saying that because that's really a

71

00:04:01,340 --> 00:03:58,320

paragraph obviously yeah oh it was you

72

00:04:03,229 --> 00:04:01,350

know your book usually I'll blaze

73

00:04:05,570 --> 00:04:03,239

through a book mountain of two hours

74

00:04:07,790 --> 00:04:05,580

maybe I still haven't quite finished it

75

00:04:10,100 --> 00:04:07,800

i'll be honest i've been reading for

76

00:04:12,199 --> 00:04:10,110

hours it's well maybe i should tell you

77

00:04:14,509 --> 00:04:12,209

the last paragraph jumping to the end

78

00:04:16,909 --> 00:04:14,519

because i think that's equally important

79

00:04:20,030 --> 00:04:16,919

I've got it right here and yes please go

80

00:04:22,550 --> 00:04:20,040

ahead pleased involve synthesize it says

81

00:04:25,280 --> 00:04:22,560

whatever we're dealing with it is more

82

00:04:28,760 --> 00:04:25,290

complex than we ever imagined or maybe

83

00:04:31,490 --> 00:04:28,770

then we could imagine and I think rather

84

00:04:33,100 --> 00:04:31,500

than getting simple answers we're not at

85

00:04:35,800 --> 00:04:33,110

the point of even asking

86

00:04:37,810 --> 00:04:35,810

the right questions yes unfortunately I

87

00:04:41,140 --> 00:04:37,820

have to agree with you i would i would

88

00:04:42,580 --> 00:04:41,150

agree as well but you know it occurred

89

00:04:45,430 --> 00:04:42,590

to me because i'm reading your book i'm

90

00:04:47,620 --> 00:04:45,440

sitting in the backyard and we are on a

91

00:04:49,270 --> 00:04:47,630

flight path from newark airport and i'm

92

00:04:51,370 --> 00:04:49,280

watching these planes go overhead and

93

00:04:54,790 --> 00:04:51,380

i'm thinking if i had been a Native

94

00:04:57,340 --> 00:04:54,800

American in the same location and so you

95

00:04:59,680 --> 00:04:57,350

know I don't know I go 760 set whatever

96

00:05:03,550 --> 00:04:59,690

the commercial planes are go overhead I

97

00:05:06,040 --> 00:05:03,560

would think whoa and I couldn't begin to

98

00:05:07,840 --> 00:05:06,050

understand what it was I mean I know it

99

00:05:10,390 --> 00:05:07,850

was up there it was flying and it was

100

00:05:12,610 --> 00:05:10,400

unexplainable but even if someone had

101

00:05:14,710 --> 00:05:12,620

landed and said well this is what it is

102

00:05:16,720 --> 00:05:14,720

it's jet propulsion and special metals

103

00:05:18,820 --> 00:05:16,730

and we have to take off and land a blah

104

00:05:20,830 --> 00:05:18,830

blah blah whatever it would have been as

105

00:05:22,690 --> 00:05:20,840

if they had spoken Greek and I have a

106

00:05:26,260 --> 00:05:22,700

feeling you're correct that's probably

107

00:05:28,150 --> 00:05:26,270

what if the UFO occupants if there are

108

00:05:30,520 --> 00:05:28,160

such would come down and speak to us

109

00:05:37,000 --> 00:05:30,530

it's probably wouldn't really help us

110

00:05:39,280 --> 00:05:37,010

much that's the problem and it's a UFO

111

00:05:43,690 --> 00:05:39,290

occupants I'll start with simple things

112

00:05:47,320 --> 00:05:43,700

like what's a UFO and the reason I say

113

00:05:49,990 --> 00:05:47,330

that is we have stories of little balls

114

00:05:53,320 --> 00:05:50,000

of light that are floating around and

115

00:05:56,350 --> 00:05:53,330

then we've got these hard craft probably

116

00:05:59,770 --> 00:05:56,360

more than a mile across seen by lots of

117

00:06:03,370 --> 00:05:59,780

witnesses and everything in between you

118

00:06:05,380 --> 00:06:03,380

know thousands of perturbations so to

119

00:06:08,500 --> 00:06:05,390

begin with I'm not even sure what we

120

00:06:11,500 --> 00:06:08,510

mean when we say I've seen a UFO other

121

00:06:15,100 --> 00:06:11,510

that's something that's you know flying

122

00:06:18,580 --> 00:06:15,110

about that we can't identify the other

123

00:06:21,700 --> 00:06:18,590

piece that I think is equally important

124

00:06:24,430 --> 00:06:21,710

if we're going to talk about ill alien

125

00:06:28,360 --> 00:06:24,440

encounters and things like that is that

126

00:06:31,750 --> 00:06:28,370

there have been reports of interactions

127

00:06:36,850 --> 00:06:31,760

between humans and sentient nonhumans

128

00:06:40,800 --> 00:06:36,860

throughout Hill recorded history and the

129

00:06:43,540 --> 00:06:40,810

UFO piece of that is really kind of do

130

00:06:45,760 --> 00:06:43,550

basically since the end of the second

131

00:06:46,839 --> 00:06:45,770

world war though there were things going

132

00:06:50,339 --> 00:06:46,849

on back to

133

00:06:54,149 --> 00:06:50,349

the 1880s or 1890s with the airships

134

00:06:56,679 --> 00:06:54,159

millennia no I'm saying that the modern

135

00:06:59,379 --> 00:06:56,689

preservations of that would have started

136

00:07:01,659 --> 00:06:59,389

mostly a post-world war two with a

137

00:07:04,719 --> 00:07:01,669

little bit of a nod to ghost rockets and

138

00:07:07,439 --> 00:07:04,729

so forth but but millennia people I mean

139

00:07:09,429 --> 00:07:07,449

Ezekiel's wheel and and and such and

140

00:07:11,980 --> 00:07:09,439

throughout history there have been

141

00:07:15,219 --> 00:07:11,990

sightings of things unexplainable things

142

00:07:17,320 --> 00:07:15,229

in the sky absolutely and and it really

143

00:07:19,779 --> 00:07:17,330

may not be all the same thing I'm

144

00:07:21,879 --> 00:07:19,789

guessing it may you know it could be

145

00:07:24,119 --> 00:07:21,889

somewhere from space somewhere from a

146

00:07:26,559 --> 00:07:24,129

different dimension some from the future

147

00:07:29,169 --> 00:07:26,569

some of them are of the some of the

148

00:07:31,419 --> 00:07:29,179

vehicles of so-called vehicles may be

149

00:07:33,309 --> 00:07:31,429

living beings I mean for all we know

150

00:07:35,019 --> 00:07:33,319

there's certain things that would lead

151
00:07:39,639 --> 00:07:35,029
us to believe that sometimes that might

152
00:07:42,459 --> 00:07:39,649
be the case well there are certainly no

153
00:07:43,989 --> 00:07:42,469
simple solutions I don't think we're

154
00:07:46,059 --> 00:07:43,999
going to have an answer we're one size

155
00:07:49,689 --> 00:07:46,069
fits all by any stretch of the

156
00:07:52,809 --> 00:07:49,699
imagination and you know frankly I'll

157
00:07:55,959 --> 00:07:52,819
get my mantra in here because people say

158
00:07:58,809 --> 00:07:55,969
why are you doing this and what I think

159
00:08:01,779 --> 00:07:58,819
needs to happen is you get serious

160
00:08:04,600 --> 00:08:01,789
scientists involved in the study and

161
00:08:06,969 --> 00:08:04,610
make it permissible for them to do so

162
00:08:10,540 --> 00:08:06,979
without risking their livelihood or

163
00:08:12,850 --> 00:08:10,550

reputation and the problem for many

164

00:08:14,769 --> 00:08:12,860

people and there are serious scientists

165

00:08:16,959 --> 00:08:14,779

who are interested but they'll also tell

166

00:08:21,629 --> 00:08:16,969

you you know hey don't put my name out

167

00:08:24,669 --> 00:08:21,639

there I suppose they will be attacked

168

00:08:28,209 --> 00:08:24,679

dr. Alexander isn't this really though

169

00:08:32,829 --> 00:08:28,219

part of a larger problem that we have

170

00:08:37,809 --> 00:08:32,839

with science since even even since it's

171

00:08:42,399 --> 00:08:37,819

been over a hundred years since quantum

172

00:08:44,800 --> 00:08:42,409

physics was born many people actually

173

00:08:47,610 --> 00:08:44,810

day to day in science are still living

174

00:08:52,350 --> 00:08:47,620

in the 19th century materialistic

175

00:08:55,900 --> 00:08:52,360

concept and they're not open to other

176

00:08:58,179 --> 00:08:55,910

explanations they're not open to shall

177

00:09:00,400 --> 00:08:58,189

we say consciousness as a big part of

178

00:09:03,809 --> 00:09:00,410

this enigma

179

00:09:08,800 --> 00:09:03,819

oh well that's the fundamental problem

180

00:09:11,800 --> 00:09:08,810

and you know we now politicized science

181

00:09:15,579 --> 00:09:11,810

to high degree you see all arguments

182

00:09:20,379 --> 00:09:15,589

going on them you know from healthcare

183

00:09:23,379 --> 00:09:20,389

to global climate change and a whole

184

00:09:25,389 --> 00:09:23,389

host of areas and the issue is quite

185

00:09:28,480 --> 00:09:25,399

frankly or politically and economically

186

00:09:32,350 --> 00:09:28,490

driven as opposed to being driven by the

187

00:09:35,439 --> 00:09:32,360

facts Dean Radin likes to say you know

188

00:09:40,090 --> 00:09:35,449

if cyber a crime it would be you know

189

00:09:45,249 --> 00:09:40,100

convicted easily many evidences beyond

190

00:09:48,009 --> 00:09:45,259

all reasonable doubt yes so um you have

191

00:09:50,470 --> 00:09:48,019

explained in your book but perhaps you

192

00:09:53,590 --> 00:09:50,480

would like to talk to our listeners a

193

00:09:55,300 --> 00:09:53,600

little bit about how you decided to

194

00:09:59,079 --> 00:09:55,310

first get into this because as I

195

00:10:04,179 --> 00:09:59,089

understand it you have not had a lot of

196

00:10:07,120 --> 00:10:04,189

UFO encounters yourself now my one

197

00:10:10,809 --> 00:10:07,130

experience was really pretty pretty

198

00:10:15,670 --> 00:10:10,819

mundane having said that other members

199

00:10:21,059 --> 00:10:15,680

of my family have been had experiences

200

00:10:24,910 --> 00:10:21,069

that are much more germane than mine but

201
00:10:28,600 --> 00:10:24,920
you know I say in the book my interest

202
00:10:31,590 --> 00:10:28,610
goes back to nineteen forty-seven with

203
00:10:36,160 --> 00:10:31,600
you know they first started making news

204
00:10:39,819 --> 00:10:36,170
and I was a you know student in the

205
00:10:43,329 --> 00:10:39,829
great great school at that time and for

206
00:10:45,720 --> 00:10:43,339
whatever reason this various kinds of

207
00:10:50,740 --> 00:10:45,730
phenomena just have almost struck me is

208
00:10:52,780 --> 00:10:50,750
extremely interesting I I think you know

209
00:10:55,900 --> 00:10:52,790
that that's true of many people in the

210
00:10:58,090 --> 00:10:55,910
field but if I may again quote from you

211
00:11:00,309 --> 00:10:58,100
and I thought it was brilliant that you

212
00:11:03,249 --> 00:11:00,319
set up advanced theoretical physics

213
00:11:05,110 --> 00:11:03,259

project as opposed to UFO research I

214

00:11:07,929 --> 00:11:05,120

mean you just skirted right around the

215

00:11:09,670 --> 00:11:07,939

issue that that was Jesus you know what

216

00:11:11,889 --> 00:11:09,680

we were trying to do there I'll be quick

217

00:11:13,820 --> 00:11:11,899

for sure that was genius from the

218

00:11:17,420 --> 00:11:13,830

Freedom of Information Act

219

00:11:20,270 --> 00:11:17,430

come out uh-huh and I knew that if

220

00:11:23,000 --> 00:11:20,280

anybody under the act or anybody asked

221

00:11:25,970 --> 00:11:23,010

about UFO data we them support it I

222

00:11:28,580 --> 00:11:25,980

didn't think people would come up with

223

00:11:33,950 --> 00:11:28,590

let's ask about advanced theoretical

224

00:11:37,460 --> 00:11:33,960

physics hello it was a way to kind of ID

225

00:11:39,740 --> 00:11:37,470

what we were doing in fact as I

226

00:11:41,870 --> 00:11:39,750

mentioned the book after I had started

227

00:11:45,940 --> 00:11:41,880

the group and whatnot I kind of went to

228

00:11:49,310 --> 00:11:45,950

my bosses at the 3 & 4 star level and

229

00:11:50,870 --> 00:11:49,320

you know hey boss I don't want you to

230

00:11:55,730 --> 00:11:50,880

hear about this first from the

231

00:11:58,880 --> 00:11:55,740

Washington Post interestingly they were

232

00:12:00,440 --> 00:11:58,890

quite supportive well I think everyone

233

00:12:03,200 --> 00:12:00,450

senses that there's something out there

234

00:12:05,540 --> 00:12:03,210

and it's probably not at the top of

235

00:12:08,120 --> 00:12:05,550

everybody's priority list but it

236

00:12:10,220 --> 00:12:08,130

certainly is something to look into but

237

00:12:12,770 --> 00:12:10,230

you use you stated something I found

238

00:12:15,230 --> 00:12:12,780

very interesting when I resisted various

239

00:12:17,540 --> 00:12:15,240

movements and failed to get my way it

240

00:12:19,610 --> 00:12:17,550

was only later that the necessity for

241

00:12:22,700 --> 00:12:19,620

certain events to have occurred became

242

00:12:24,830 --> 00:12:22,710

apparent maybe it was synchronicity but

243

00:12:26,810 --> 00:12:24,840

the eventual functions and outcomes that

244

00:12:29,780 --> 00:12:26,820

led to the observations in this book

245

00:12:33,320 --> 00:12:29,790

were far too complex to have been

246

00:12:35,780 --> 00:12:33,330

planned or orchestrated by me while the

247

00:12:37,760 --> 00:12:35,790

emphasis here is on UFO studies there

248

00:12:40,130 --> 00:12:37,770

were interactions in many other realms

249

00:12:42,860 --> 00:12:40,140

of phenomena that remained totally

250

00:12:45,410 --> 00:12:42,870

intertwined with destiny I mean that's

251
00:12:47,570 --> 00:12:45,420
far from what I would have thought a

252
00:12:51,230 --> 00:12:47,580
military approach to the problem was you

253
00:12:54,560 --> 00:12:51,240
really very interesting well I think

254
00:12:58,460 --> 00:12:54,570
many people were vastly underestimate

255
00:13:01,190 --> 00:12:58,470
the the military per se many of you may

256
00:13:05,480 --> 00:13:01,200
know my good friend Jim Channon yes

257
00:13:07,580 --> 00:13:05,490
Egypt goat and his creation of the first

258
00:13:11,090 --> 00:13:07,590
Earth battalion of the things we did

259
00:13:14,240 --> 00:13:11,100
around that there were a lot of very

260
00:13:17,780 --> 00:13:14,250
bright innovative for people when it

261
00:13:20,960 --> 00:13:17,790
gets to UFOs remember the government is

262
00:13:23,870 --> 00:13:20,970
not monolithic nor as the military and

263
00:13:26,270 --> 00:13:23,880

we know that seven to ten percent of the

264

00:13:27,510 --> 00:13:26,280

adult population have actually seen a

265

00:13:31,110 --> 00:13:27,520

UFO

266

00:13:33,180 --> 00:13:31,120

so that number translates into the

267

00:13:35,720 --> 00:13:33,190

military as well so you've got many

268

00:13:39,630 --> 00:13:35,730

people have had personal experience that

269

00:13:42,840 --> 00:13:39,640

they're not willing to set aside but

270

00:13:45,720 --> 00:13:42,850

there is a difference between individual

271

00:13:49,620 --> 00:13:45,730

interest and institutional interest or

272

00:13:53,940 --> 00:13:49,630

responsibility right hmm well I have

273

00:13:57,660 --> 00:13:53,950

noticed dr. Alexander in my time being

274

00:13:59,370 --> 00:13:57,670

involved with the UFO groups that you

275

00:14:02,010 --> 00:13:59,380

know occasionally go to a meeting or

276

00:14:05,840 --> 00:14:02,020

some kind of a seminar or whatever move

277

00:14:10,470 --> 00:14:05,850

on and I am amazed by the number of

278

00:14:14,130 --> 00:14:10,480

former military people that populate the

279

00:14:16,680 --> 00:14:14,140

interest groups so no they are you guys

280

00:14:20,130 --> 00:14:16,690

guys like George filer passat filer file

281

00:14:24,120 --> 00:14:20,140

right good friend of ours yeah right so

282

00:14:27,740 --> 00:14:24,130

no there's as I said you know military's

283

00:14:30,210 --> 00:14:27,750

big institution you amortize this over

284

00:14:32,850 --> 00:14:30,220

some of those have been around over half

285

00:14:35,850 --> 00:14:32,860

a century and so that's a whole lot of

286

00:14:38,310 --> 00:14:35,860

people and you get probably in the

287

00:14:42,900 --> 00:14:38,320

millions military people who have

288

00:14:46,350 --> 00:14:42,910

actually seen UFOs well it's that is

289

00:14:48,390 --> 00:14:46,360

that is true my point only being that it

290

00:14:51,300 --> 00:14:48,400

seemed like in the groups that I've gone

291

00:14:54,120 --> 00:14:51,310

to including MUFON the military seems

292

00:14:57,570 --> 00:14:54,130

more represented than you would have in

293

00:14:59,760 --> 00:14:57,580

a general population so you know like

294

00:15:02,720 --> 00:14:59,770

every third guy that's in the room is

295

00:15:06,630 --> 00:15:02,730

former military I I have never

296

00:15:09,300 --> 00:15:06,640

experienced that with the MUFON and I

297

00:15:13,260 --> 00:15:09,310

think there's two problems that we're

298

00:15:16,230 --> 00:15:13,270

going to get to hear one of the skeptics

299

00:15:20,400 --> 00:15:16,240

and the bunkers who just will not accept

300

00:15:24,180 --> 00:15:20,410

anything even interesting you sometimes

301
00:15:26,460 --> 00:15:24,190
an apad experience but on the other side

302
00:15:29,730 --> 00:15:26,470
you have the true believers who just

303
00:15:32,580 --> 00:15:29,740
believe anything yes yeah even when the

304
00:15:37,110 --> 00:15:32,590
monster blue balls yes yes what it is it

305
00:15:40,440 --> 00:15:37,120
is a fine line to walk there between the

306
00:15:41,010 --> 00:15:40,450
two and I do think that some of the

307
00:15:43,770 --> 00:15:41,020
skeptic

308
00:15:47,010 --> 00:15:43,780
it's my contention that some of the

309
00:15:50,490 --> 00:15:47,020
skeptics are afraid of the possibility

310
00:15:52,710 --> 00:15:50,500
because if they concede to such a thing

311
00:15:55,950 --> 00:15:52,720
being true then they have to concede to

312
00:15:58,350 --> 00:15:55,960
the idea of something being smarter than

313
00:16:00,480 --> 00:15:58,360

they are because I don't think it's so

314

00:16:03,450 --> 00:16:00,490

much smarter than they are but I think

315

00:16:07,200 --> 00:16:03,460

absolutely you're right the issue in my

316

00:16:09,360 --> 00:16:07,210

view there is that if they accept these

317

00:16:12,660 --> 00:16:09,370

things and we could look at a variety of

318

00:16:15,660 --> 00:16:12,670

phenomenon but if that's true then the

319

00:16:18,540 --> 00:16:15,670

whole materialistic paradigm collapses

320

00:16:20,880 --> 00:16:18,550

their whole review is at stake and

321

00:16:23,610 --> 00:16:20,890

that's pretty scary yes yes loss of

322

00:16:25,260 --> 00:16:23,620

control in either case whether if

323

00:16:27,600 --> 00:16:25,270

there's somebody out there smarter than

324

00:16:30,660 --> 00:16:27,610

them or that their whole paradigm

325

00:16:33,380 --> 00:16:30,670

collapses this the end result is the

326

00:16:36,330 --> 00:16:33,390

same the end result is loss of control

327

00:16:39,890 --> 00:16:36,340

just like in the Old West where there's

328

00:16:43,830 --> 00:16:39,900

always a faster gun there's always a

329

00:16:46,320 --> 00:16:43,840

smarter gal or guy out there a lot of

330

00:16:48,480 --> 00:16:46,330

like people well unfortunately and

331

00:16:50,580 --> 00:16:48,490

there's a world that I've called

332

00:16:53,370 --> 00:16:50,590

actually got published called cerebral

333

00:16:55,200 --> 00:16:53,380

centrism which is sort of an American

334

00:16:57,720 --> 00:16:55,210

disease where we think we're the only

335

00:16:59,790 --> 00:16:57,730

smart people in the world even though

336

00:17:04,020 --> 00:16:59,800

only four percent of the population of

337

00:17:06,270 --> 00:17:04,030

the entire planet yeah well they should

338

00:17:08,820 --> 00:17:06,280

just go to some of the engineering

339

00:17:10,680 --> 00:17:08,830

schools and see that a lot of air a lot

340

00:17:12,480 --> 00:17:10,690

of people who aren't Americans taking

341

00:17:15,240 --> 00:17:12,490

the honours at the engineering schools

342

00:17:18,020 --> 00:17:15,250

in America and then they can work for

343

00:17:20,640 --> 00:17:18,030

mine of this IIT or Indians to

344

00:17:24,180 --> 00:17:20,650

technology is probably the best in the

345

00:17:26,220 --> 00:17:24,190

world now I mean that they are doing

346

00:17:29,310 --> 00:17:26,230

here in delhi india just doing

347

00:17:32,610 --> 00:17:29,320

phenomenal do you think their space

348

00:17:36,210 --> 00:17:32,620

program is going to go anywhere well

349

00:17:38,550 --> 00:17:36,220

china we've seeded space to China I mean

350

00:17:41,760 --> 00:17:38,560

that that's where it's going they use

351

00:17:47,010 --> 00:17:41,770

Russia a kind of as a research

352

00:17:49,680 --> 00:17:47,020

laboratory to add but India is going to

353

00:17:52,230 --> 00:17:49,690

catch up I think it's a matter of

354

00:17:54,640 --> 00:17:52,240

resource but China has committed the

355

00:17:57,260 --> 00:17:54,650

resources to

356

00:18:00,950 --> 00:17:57,270

that's a shame I I think you're probably

357

00:18:05,660 --> 00:18:00,960

right but it doesn't really where does

358

00:18:09,560 --> 00:18:05,670

that leave this country behind yes the

359

00:18:13,160 --> 00:18:09,570

word yeah well actually the direction

360

00:18:15,440 --> 00:18:13,170

we're going to a large degree although

361

00:18:18,020 --> 00:18:15,450

there are government contracts but

362

00:18:22,460 --> 00:18:18,030

you're seeing you know the private space

363

00:18:26,450 --> 00:18:22,470

industry ketchup he had burt rutan I was

364

00:18:28,820 --> 00:18:26,460

frankly honored to be at the the ground

365

00:18:31,550 --> 00:18:28,830

zero when he put Mike mobile into space

366

00:18:34,850 --> 00:18:31,560

for the first time please civilian

367

00:18:38,420 --> 00:18:34,860

enterprise the guy that I watch here you

368

00:18:43,250 --> 00:18:38,430

mentioned the ranch big blow and Bigelow

369

00:18:46,550 --> 00:18:43,260

Aerospace is moving at warp speed Elon

370

00:18:49,280 --> 00:18:46,560

Musk and SpaceX just doing tremendous

371

00:18:51,920 --> 00:18:49,290

thing so we're expecting and eventually

372

00:18:55,370 --> 00:18:51,930

i think the civilian industry must take

373

00:18:57,860 --> 00:18:55,380

over now where they're really going out

374

00:19:04,100 --> 00:18:57,870

front and I don't know if China is going

375

00:19:07,580 --> 00:19:04,110

to be able to catch up but what Burt had

376

00:19:11,690 --> 00:19:07,590

done is basically attacking the business

377

00:19:14,050 --> 00:19:11,700

model when he put my cup I was also

378

00:19:17,120 --> 00:19:14,060

there when he rolled out spaceship one

379

00:19:19,100 --> 00:19:17,130

initially but he put that up he

380

00:19:21,140 --> 00:19:19,110

developed the White Knight to launch it

381

00:19:24,920 --> 00:19:21,150

all the support mechanisms and did the

382

00:19:28,250 --> 00:19:24,930

whole thing for we estimate less than 25

383

00:19:31,070 --> 00:19:28,260

million dollars and as I argue a NASA

384

00:19:34,820 --> 00:19:31,080

couldn't have done the paperwork for 25

385

00:19:37,100 --> 00:19:34,830

million yes he has a lot of a lot of red

386

00:19:38,930 --> 00:19:37,110

tape in dealing with the government's so

387

00:19:41,690 --> 00:19:38,940

you think the private enterprise would

388

00:19:44,720 --> 00:19:41,700

possibly outpace a any sort of a

389

00:19:46,310 --> 00:19:44,730

national program then I i agree with you

390

00:19:48,920 --> 00:19:46,320

I think it would too because you know

391

00:19:53,960 --> 00:19:48,930

people like to work for themselves sort

392

00:19:57,680 --> 00:19:53,970

of and push a little bit harder I'm

393

00:20:00,950 --> 00:19:57,690

sorry on a speakerphone oh no no we got

394

00:20:04,340 --> 00:20:00,960

we got those you were tailing off there

395

00:20:07,039 --> 00:20:04,350

a bit okay I was just basically i think

396

00:20:09,950 --> 00:20:07,049

that people like Elon Musk ins

397

00:20:11,810 --> 00:20:09,960

we'll have a better chance of really

398

00:20:17,210 --> 00:20:11,820

making the major breakthroughs as

399

00:20:20,029 --> 00:20:17,220

opposed to I think the national attempts

400

00:20:22,609 --> 00:20:20,039

are certainly much better funded but I

401

00:20:25,159 --> 00:20:22,619

think they're also more carefully

402

00:20:28,220 --> 00:20:25,169

regulated and less open to innovation

403

00:20:31,369 --> 00:20:28,230

and I'm that I may be perfectly wrong in

404

00:20:37,070 --> 00:20:31,379

that I don't know it just and in its

405

00:20:38,749 --> 00:20:37,080

just sort of my impression um yeah I

406

00:20:42,470 --> 00:20:38,759

think they're going to do whatever it

407

00:20:44,720 --> 00:20:42,480

takes and you're going to see big

408

00:20:49,580 --> 00:20:44,730

advances one of the problems with

409

00:20:52,129 --> 00:20:49,590

regulations here in the US as well as

410

00:20:54,979 --> 00:20:52,139

internationally is nobody's really

411

00:20:57,739 --> 00:20:54,989

thought this stuff through so every time

412

00:20:59,479 --> 00:20:57,749

we get to the next advance they've got

413

00:21:04,659 --> 00:20:59,489

to say what the hell are we going to do

414

00:21:08,090 --> 00:21:04,669

with this and I I know that are

415

00:21:12,200 --> 00:21:08,100

something called I tars which has to do

416

00:21:16,690 --> 00:21:12,210

with the exportation of various

417

00:21:18,830 --> 00:21:16,700

technology and it is just a nightmare to

418

00:21:21,229 --> 00:21:18,840

get through you know most of the

419

00:21:24,799 --> 00:21:21,239

launches are not taking place on the US

420

00:21:28,940 --> 00:21:24,809

so if you ship something out the Rockets

421

00:21:32,509 --> 00:21:28,950

are you know under international or the

422

00:21:39,529 --> 00:21:32,519

US export laws which are absolutely

423

00:21:41,960 --> 00:21:39,539

draconian well I you know to change

424

00:21:44,869 --> 00:21:41,970

gears just a little bit um it's been

425

00:21:48,470 --> 00:21:44,879

about 40 years since we've been on the

426
00:21:51,859 --> 00:21:48,480
moon and not myself obviously except in

427
00:21:53,479 --> 00:21:51,869
my remote viewing but it's been a long

428
00:21:55,759 --> 00:21:53,489
time since we've been on the moon and

429
00:21:58,700 --> 00:21:55,769
China sent up the little Jade rabbit and

430
00:22:02,950 --> 00:21:58,710
it broke down so in in some sense we

431
00:22:06,919 --> 00:22:02,960
haven't we haven't really pushed further

432
00:22:10,099 --> 00:22:06,929
then we are on but you know if you get

433
00:22:13,789 --> 00:22:10,109
back to the economics of that at the

434
00:22:17,739 --> 00:22:13,799
time the Apollo program was running NASA

435
00:22:20,720 --> 00:22:17,749
had four percent of the national budget

436
00:22:23,770 --> 00:22:20,730
right now there at about zero

437
00:22:28,090 --> 00:22:23,780
point four percent yes so we're talking

438
00:22:31,039 --> 00:22:28,100

literally a order of magnitude more

439

00:22:33,500 --> 00:22:31,049

money and we're just not prepared at

440

00:22:35,530 --> 00:22:33,510

this time I don't think to win it when

441

00:22:39,350 --> 00:22:35,540

we talk about going to Mars and

442

00:22:43,630 --> 00:22:39,360

potentially be on and we do send crapped

443

00:22:47,270 --> 00:22:43,640

out periodically but basically we seeded

444

00:22:51,710 --> 00:22:47,280

heavy-lift we're coming back in that

445

00:22:55,280 --> 00:22:51,720

area but let the former Soviet Union the

446

00:22:57,919 --> 00:22:55,290

Russians take over that field you know

447

00:23:02,120 --> 00:22:57,929

we've had people going up to the ISS and

448

00:23:05,690 --> 00:23:02,130

what individuals who can afford millions

449

00:23:08,210 --> 00:23:05,700

to do it but the Russians basically

450

00:23:10,940 --> 00:23:08,220

quadruple the price of what they were

451
00:23:13,970 --> 00:23:10,950
going to charge people to do various

452
00:23:16,640 --> 00:23:13,980
things so sometimes became a club for

453
00:23:19,310 --> 00:23:16,650
only the ultra-wealthy some people argue

454
00:23:22,039 --> 00:23:19,320
that this international space station

455
00:23:25,640 --> 00:23:22,049
isn't literally outer space I know it's

456
00:23:29,240 --> 00:23:25,650
you know it is space but it's it's like

457
00:23:31,930 --> 00:23:29,250
within a certain is it within the Van

458
00:23:37,600 --> 00:23:31,940
Allen belt it's in geosynchronous orbit

459
00:23:40,880 --> 00:23:37,610
or it is orbiting the US or the world

460
00:23:43,909 --> 00:23:40,890
it's high up there now there's huge

461
00:23:49,570 --> 00:23:43,919
controversy on the effects of radiation

462
00:23:53,510 --> 00:23:49,580
on people and we're learning a lot and

463
00:23:55,700 --> 00:23:53,520

those are there are huge questions about

464

00:23:58,370 --> 00:23:55,710

doing deep space explorations with

465

00:24:01,669 --> 00:23:58,380

humans name was not we can physically

466

00:24:06,380 --> 00:24:01,679

withstand it and particularly radiation

467

00:24:08,810 --> 00:24:06,390

as well as you know bone and muscle

468

00:24:12,560 --> 00:24:08,820

deterioration and a whole host of

469

00:24:15,200 --> 00:24:12,570

physical issue I have a friend who's one

470

00:24:17,659 --> 00:24:15,210

of NASA's chief scientist who just says

471

00:24:19,220 --> 00:24:17,669

we shouldn't go out there we you know

472

00:24:22,190 --> 00:24:19,230

will not be able to live in that

473

00:24:24,710 --> 00:24:22,200

environment which which brings me to the

474

00:24:27,409 --> 00:24:24,720

the question which is really theoretical

475

00:24:30,289 --> 00:24:27,419

also are the the so-called Grey's

476

00:24:32,870 --> 00:24:30,299

actually robotic you know

477

00:24:34,040 --> 00:24:32,880

self-replicating characters from some

478

00:24:40,460 --> 00:24:34,050

other

479

00:24:44,150 --> 00:24:40,470

know there's been two talk that I hear

480

00:24:47,840 --> 00:24:44,160

the stories I have no idea i get back

481

00:24:50,090 --> 00:24:47,850

there to say we're not asking the right

482

00:24:53,150 --> 00:24:50,100

question or are we even ready to

483

00:24:59,950 --> 00:24:53,160

probably not you know that there is a

484

00:25:03,590 --> 00:24:59,960

host of anecdotal discussions in

485

00:25:06,230 --> 00:25:03,600

internet is obviously ripe with them as

486

00:25:08,780 --> 00:25:06,240

to who and what they are on various

487

00:25:13,250 --> 00:25:08,790

types you know there n is another

488

00:25:16,040 --> 00:25:13,260

question that I've raised it these UFO

489

00:25:19,580 --> 00:25:16,050

conferences if you're going to talk

490

00:25:21,710 --> 00:25:19,590

about abductions and then can ensure

491

00:25:24,860 --> 00:25:21,720

that some sorts of interactions take

492

00:25:29,780 --> 00:25:24,870

place but then you start looking at the

493

00:25:33,410 --> 00:25:29,790

variety of alien interactions alone and

494

00:25:39,230 --> 00:25:33,420

you go what a we are you know the cosmic

495

00:25:42,740 --> 00:25:39,240

bucket list of places to visitors well

496

00:25:45,520 --> 00:25:42,750

if these if these beings are even from

497

00:25:47,630 --> 00:25:45,530

space or if they're on a parallel

498

00:25:53,600 --> 00:25:47,640

dimensional plane for lack of a better

499

00:25:56,030 --> 00:25:53,610

word you decided at some point it not so

500

00:26:01,310 --> 00:25:56,040

long ago is certainly not in your 20s

501
00:26:03,440 --> 00:26:01,320
you decided to get a PhD in death

502
00:26:06,490 --> 00:26:03,450
studies and near-death studies with

503
00:26:11,000 --> 00:26:06,500
Elisabeth kubler-ross am I not correct

504
00:26:14,120 --> 00:26:11,010
um yeah well i was working obviously had

505
00:26:16,610 --> 00:26:14,130
my masters in education and was working

506
00:26:18,950 --> 00:26:16,620
and i was very fortunate that was a

507
00:26:22,130 --> 00:26:18,960
serendipitous event that Elizabeth

508
00:26:25,600 --> 00:26:22,140
became the head of my committee but it

509
00:26:27,800 --> 00:26:25,610
did cause kind of an abrupt shift in

510
00:26:32,060 --> 00:26:27,810
direction particularly for my

511
00:26:34,580 --> 00:26:32,070
dissertation so so I what drew you to

512
00:26:36,380 --> 00:26:34,590
that because that sounds like I I don't

513
00:26:38,870 --> 00:26:36,390

think it's a complete change of

514

00:26:40,730 --> 00:26:38,880

direction because you know I'm a person

515

00:26:44,360 --> 00:26:40,740

who never feels alone in a room even if

516

00:26:46,340 --> 00:26:44,370

I'm the only human in it so I I you know

517

00:26:47,450 --> 00:26:46,350

kind of get people's interest in

518

00:26:50,810 --> 00:26:47,460

consciousness

519

00:26:53,389 --> 00:26:50,820

and but it does seem probably to a lot

520

00:26:58,130 --> 00:26:53,399

of people like a big change in direction

521

00:27:00,529 --> 00:26:58,140

for you so what brought you to that well

522

00:27:02,899 --> 00:27:00,539

part of this is just the academic

523

00:27:05,570 --> 00:27:02,909

process that the things you have to do

524

00:27:08,840 --> 00:27:05,580

to get a doctrine including a lot of

525

00:27:11,029 --> 00:27:08,850

studies in various areas there was

526
00:27:13,779 --> 00:27:11,039
nothing in that specific field and was

527
00:27:18,820 --> 00:27:13,789
working in behavioral science I have

528
00:27:24,649 --> 00:27:22,600
positions before we had something called

529
00:27:27,710 --> 00:27:24,659
organizational effectiveness we had a

530
00:27:29,510 --> 00:27:27,720
lot of behavioral science there have

531
00:27:32,840 --> 00:27:29,520
also been the various you know

532
00:27:34,909 --> 00:27:32,850
psychological courses human relations

533
00:27:38,510 --> 00:27:34,919
courses accessories such as I was

534
00:27:40,870 --> 00:27:38,520
putting the package together and then I

535
00:27:45,529 --> 00:27:40,880
was always interested in near-death

536
00:27:50,350 --> 00:27:45,539
experiences even before the term was

537
00:27:53,120 --> 00:27:50,360
coined and then I attended a workshop

538
00:27:57,039 --> 00:27:53,130

with Elizabeth called life death of

539

00:27:59,149 --> 00:27:57,049

transition and that was pretty profound

540

00:28:02,990 --> 00:27:59,159

particularly with the kinds of people

541

00:28:06,380 --> 00:28:03,000

who were there including maybe a quarter

542

00:28:10,010 --> 00:28:06,390

of the people attending were actually

543

00:28:12,710 --> 00:28:10,020

dying oh and you really you know this

544

00:28:15,529 --> 00:28:12,720

got a very intense focus of course and

545

00:28:17,450 --> 00:28:15,539

you started hearing more and more of

546

00:28:19,760 --> 00:28:17,460

these stories and then she and raymond

547

00:28:22,990 --> 00:28:19,770

moody okay my own raymond of course

548

00:28:26,240 --> 00:28:23,000

wrote the book life after life which

549

00:28:31,880 --> 00:28:26,250

sort of introduced the world to it and

550

00:28:35,810 --> 00:28:31,890

it has expanded agent mission when i got

551
00:28:37,700 --> 00:28:35,820
my doctorate i did end up eventually is

552
00:28:39,889 --> 00:28:37,710
the president of the international

553
00:28:44,060 --> 00:28:39,899
association for near-death studies my

554
00:28:46,039 --> 00:28:44,070
hands yes yeah and obviously there you

555
00:28:49,940 --> 00:28:46,049
end up you know that was the primary

556
00:28:51,710 --> 00:28:49,950
focus of that organization and you

557
00:28:56,750 --> 00:28:51,720
yourself have never had a near-death

558
00:28:59,690 --> 00:28:56,760
experience I'm taking it I like to say

559
00:29:01,250 --> 00:28:59,700
that I sort of seemed to be a catalyst

560
00:29:05,870 --> 00:29:01,260
strange things

561
00:29:08,570 --> 00:29:05,880
around me as opposed to me my brother

562
00:29:12,050 --> 00:29:08,580
say you know that I study the things

563
00:29:15,410 --> 00:29:12,060

that happen for them because the brother

564

00:29:17,780 --> 00:29:15,420

has had a couple of Indies that sounds a

565

00:29:20,330 --> 00:29:17,790

lot like I think your friend and mine

566

00:29:25,550 --> 00:29:20,340

Russell Targ he seems to also be that

567

00:29:28,220 --> 00:29:25,560

sort of catalyst right yep and also you

568

00:29:30,620 --> 00:29:28,230

keep coming back to synchronicity and

569

00:29:32,570 --> 00:29:30,630

how some force that you call destiny

570

00:29:36,530 --> 00:29:32,580

seems to push you into these things you

571

00:29:38,690 --> 00:29:36,540

seem to be almost a person who is

572

00:29:40,640 --> 00:29:38,700

capable of following the path and so the

573

00:29:43,180 --> 00:29:40,650

past was cleared for you I mean you have

574

00:29:45,200 --> 00:29:43,190

had just an incredible life was oh

575

00:29:48,260 --> 00:29:45,210

that's what you have to do is just

576
00:29:50,690 --> 00:29:48,270
surrender and go with it and one of the

577
00:29:54,200 --> 00:29:50,700
things I pointed out in the book that

578
00:29:58,040 --> 00:29:54,210
you know if you you're pushing really

579
00:29:59,840 --> 00:29:58,050
hard and not getting results probably

580
00:30:03,980 --> 00:29:59,850
there's something else in the offing

581
00:30:06,950 --> 00:30:03,990
that comes along yeah it seems that way

582
00:30:09,350 --> 00:30:06,960
in life it does I always believe in in

583
00:30:12,710 --> 00:30:09,360
making an intention and then letting the

584
00:30:17,980 --> 00:30:12,720
intention go right well the letting go

585
00:30:21,710 --> 00:30:17,990
part really is quite quite important a

586
00:30:23,720 --> 00:30:21,720
lot of folks don't realize that that you

587
00:30:27,500 --> 00:30:23,730
know is this if we doesn't work we'll

588
00:30:31,070 --> 00:30:27,510

just keep trying harder so now not all

589

00:30:34,370 --> 00:30:31,080

us yeah I have to let let let it happen

590

00:30:36,380 --> 00:30:34,380

for you with the intention I I do i do

591

00:30:38,570 --> 00:30:36,390

create a visualization with some of my

592

00:30:41,090 --> 00:30:38,580

clients and and that is something that

593

00:30:44,570 --> 00:30:41,100

you really have to talk to people about

594

00:30:46,400 --> 00:30:44,580

letting go of their not giving up on

595

00:30:48,680 --> 00:30:46,410

their dream but letting it go just

596

00:30:50,240 --> 00:30:48,690

letting the forces that you put in

597

00:30:53,630 --> 00:30:50,250

motion with the creative visualization

598

00:30:56,290 --> 00:30:53,640

let them do their job just let it fly

599

00:30:59,480 --> 00:30:56,300

let it go up to the sky you know and

600

00:31:03,020 --> 00:30:59,490

cute anecdote I don't know if you

601
00:31:04,940 --> 00:31:03,030
remember Cleve Baxter yes primary

602
00:31:07,610 --> 00:31:04,950
perception is one of the talking to

603
00:31:10,910 --> 00:31:07,620
plants yeah all of that I had worked

604
00:31:13,700 --> 00:31:10,920
with clay and national academy of

605
00:31:14,250 --> 00:31:13,710
sciences was doing a study on weirdness

606
00:31:18,060 --> 00:31:14,260
and

607
00:31:22,710 --> 00:31:18,070
I was involved long story short we were

608
00:31:26,040 --> 00:31:22,720
looking at white cells and they were at

609
00:31:28,050 --> 00:31:26,050
the laboratory in San Diego and we had

610
00:31:32,070 --> 00:31:28,060
asked a couple of them to donate cells

611
00:31:35,130 --> 00:31:32,080
and the scientist is looking at where

612
00:31:37,170 --> 00:31:35,140
him in the conference and he and he goes

613
00:31:40,470 --> 00:31:37,180

and all of a sudden you see this big

614

00:31:45,120 --> 00:31:40,480

spike occur they go see it doesn't work

615

00:31:48,660 --> 00:31:45,130

as soon as I stopped you know we got a

616

00:31:53,430 --> 00:31:48,670

predictor that it's hard to explain to

617

00:31:56,040 --> 00:31:53,440

them that's pretty funny that's that's

618

00:31:58,770 --> 00:31:56,050

good and the other thing that you seemed

619

00:32:02,250 --> 00:31:58,780

to be have gotten interested in recently

620

00:32:04,380 --> 00:32:02,260

was interspecies communication and we're

621

00:32:06,960 --> 00:32:04,390

all animal lovers here so late oh hell

622

00:32:08,880 --> 00:32:06,970

yeah I mean I certainly talked to my dog

623

00:32:11,940 --> 00:32:08,890

he doesn't answer a lot of my cats talk

624

00:32:17,420 --> 00:32:11,950

to me not not not verbally but I don't

625

00:32:21,000 --> 00:32:17,430

we this is a much bigger animals and

626

00:32:24,960 --> 00:32:21,010

this talk was given to the Society for

627

00:32:28,560 --> 00:32:24,970

scientific exploration a member of for

628

00:32:31,200 --> 00:32:28,570

about three decades and probably the top

629

00:32:33,510 --> 00:32:31,210

scientific organization looking at

630

00:32:37,560 --> 00:32:33,520

phenomena head and shoulders above most

631

00:32:39,330 --> 00:32:37,570

of the ones that are out there but ya

632

00:32:42,030 --> 00:32:39,340

know I was looking at the work we had

633

00:32:44,340 --> 00:32:42,040

done with dolphins both in captivity and

634

00:32:49,170 --> 00:32:44,350

more importantly in the wild and then

635

00:32:52,530 --> 00:32:49,180

last year we were in Tonga which is in

636

00:32:54,690 --> 00:32:52,540

the South Pacific a little tiny dot out

637

00:32:57,600 --> 00:32:54,700

there but it's one of two places in the

638

00:33:01,050 --> 00:32:57,610

world that you can actually get in the

639

00:33:05,760 --> 00:33:01,060

water with humpback whales Wow and it

640

00:33:09,330 --> 00:33:05,770

got up close and very personal I mean

641

00:33:13,680 --> 00:33:09,340

we're talking ranges of inches at times

642

00:33:16,110 --> 00:33:13,690

and they seem to know exactly where we

643

00:33:19,110 --> 00:33:16,120

were and the interactions were just

644

00:33:21,900 --> 00:33:19,120

absolutely amazing that must have been

645

00:33:24,180 --> 00:33:21,910

an incredible experience I had swum with

646

00:33:28,280 --> 00:33:24,190

the dolphins in the Caribbean and with

647

00:33:31,130 --> 00:33:28,290

wild dolphins when it was legal and

648

00:33:33,740 --> 00:33:31,140

it was really an experience to be you

649

00:33:37,370 --> 00:33:33,750

know to be vibed by them they use their

650

00:33:39,440 --> 00:33:37,380

sonar I guess on you and you it's like a

651
00:33:41,660 --> 00:33:39,450
feeling that's not describable in

652
00:33:45,500 --> 00:33:41,670
English words by me let's put it that

653
00:33:48,410 --> 00:33:45,510
way but now we have them come in down

654
00:33:50,630 --> 00:33:48,420
their ranges where they would wonder Sam

655
00:33:53,240 --> 00:33:50,640
long people don't realize how big

656
00:33:56,720 --> 00:33:53,250
dolphins are but many of them are eight

657
00:33:59,750 --> 00:33:56,730
eight hundred to a thousand pounds nine

658
00:34:02,720 --> 00:33:59,760
ten feet eleven feet long they would

659
00:34:06,080 --> 00:34:02,730
come in have again they would come right

660
00:34:09,290 --> 00:34:06,090
by you within sometimes within an inch

661
00:34:11,870 --> 00:34:09,300
or two yes and again knew exactly where

662
00:34:13,760 --> 00:34:11,880
you were and we had certain protocols in

663
00:34:16,310 --> 00:34:13,770

place so you didn't touch them because

664

00:34:20,120 --> 00:34:16,320

they are susceptible to human diseases

665

00:34:22,460 --> 00:34:20,130

and things patron yeah certainly quite

666

00:34:24,500 --> 00:34:22,470

an experience and you you know of the

667

00:34:29,860 --> 00:34:24,510

dolphin energy group at the monroe

668

00:34:34,190 --> 00:34:29,870

institute i'm taking it I didn't know

669

00:34:36,770 --> 00:34:34,200

they always doing that went out gego

670

00:34:40,850 --> 00:34:36,780

mcmonagle and January and stop by

671

00:34:43,970 --> 00:34:40,860

scooter his wife is now running yes yes

672

00:34:45,770 --> 00:34:43,980

I'm a member so yeah but know that for

673

00:34:48,230 --> 00:34:45,780

years they've had and it's not a direct

674

00:34:50,030 --> 00:34:48,240

directly involved with dolphins in the

675

00:34:52,880 --> 00:34:50,040

sense that they don't swim with the

676
00:34:57,170 --> 00:34:52,890
dolphins nor do they you know touch them

677
00:35:01,070 --> 00:34:57,180
in any way but they have a sort of

678
00:35:04,940 --> 00:35:01,080
mental communication for healing humans

679
00:35:07,760 --> 00:35:04,950
with dolphins that goes on in in the lab

680
00:35:10,970 --> 00:35:07,770
there and I guess surely bliley over

681
00:35:13,670 --> 00:35:10,980
there had started it when robert

682
00:35:16,850 --> 00:35:13,680
monroe's wife got sick and it's been

683
00:35:19,130 --> 00:35:16,860
going ever since with healing you know

684
00:35:23,150 --> 00:35:19,140
you can request a healing and the group

685
00:35:27,790 --> 00:35:23,160
the dolphin energy group will attempt to

686
00:35:31,790 --> 00:35:27,800
contact their dolphins psychically or

687
00:35:34,940 --> 00:35:31,800
you would say telepathically and and ask

688
00:35:37,430 --> 00:35:34,950

for healing on whatever is wrong with

689

00:35:40,970 --> 00:35:37,440

the person in question I just throw that

690

00:35:42,099 --> 00:35:40,980

out there so or a host of various

691

00:35:45,400 --> 00:35:42,109

alternative

692

00:35:49,799 --> 00:35:45,410

old techniques I knew Nancy and of

693

00:35:53,410 --> 00:35:49,809

course Bob was a good friend of mine so

694

00:35:56,499 --> 00:35:53,420

yeah he did some free pretty

695

00:36:00,519 --> 00:35:56,509

unremarkable stuff that public is not

696

00:36:03,640 --> 00:36:00,529

yet aware of as well by the way I might

697

00:36:06,009 --> 00:36:03,650

transition this a bit but I think

698

00:36:08,109 --> 00:36:06,019

directly related you mentioned the work

699

00:36:11,289 --> 00:36:08,119

with shaman one of the things I point

700

00:36:15,339 --> 00:36:11,299

out is that and you had asked talked

701
00:36:18,069 --> 00:36:15,349
about the issue of consciousness and you

702
00:36:22,150 --> 00:36:18,079
know being basically spiritual beings

703
00:36:25,509 --> 00:36:22,160
from the human existence as opposed to

704
00:36:30,970 --> 00:36:25,519
the materialistic world right and the

705
00:36:34,120 --> 00:36:30,980
point is this is really a Western view

706
00:36:36,970 --> 00:36:34,130
of the world there are other cultures in

707
00:36:39,849 --> 00:36:36,980
the world idol of work in Brazil you may

708
00:36:41,950 --> 00:36:39,859
know John of God forums yes yes but I

709
00:36:44,650 --> 00:36:41,960
have many friends down there and the

710
00:36:47,470 --> 00:36:44,660
point is the source of spiritual

711
00:36:50,819 --> 00:36:47,480
interventions are totally accepted even

712
00:36:54,910 --> 00:36:50,829
with the well-educated intelligentsia

713
00:36:59,229 --> 00:36:54,920

whereas here we treat these phenomena as

714

00:37:01,390 --> 00:36:59,239

if they're weird and because and explain

715

00:37:03,460 --> 00:37:01,400

it we're all considered meat puppets

716

00:37:05,499 --> 00:37:03,470

with a chemical consciousness is just a

717

00:37:08,140 --> 00:37:05,509

chemical problem in the brain that it's

718

00:37:10,720 --> 00:37:08,150

accidental chemical consciousness rather

719

00:37:12,700 --> 00:37:10,730

than the brain being a sort of

720

00:37:19,599 --> 00:37:12,710

transceiver for consciousness while

721

00:37:22,059 --> 00:37:19,609

we're a greater being okay you have to

722

00:37:25,059 --> 00:37:22,069

forgive me i miss do we do not disagree

723

00:37:26,769 --> 00:37:25,069

okay good okay oh the other thing too is

724

00:37:31,089 --> 00:37:26,779

when you talk about interspecies

725

00:37:33,640 --> 00:37:31,099

communication what is your view of is

726

00:37:35,470 --> 00:37:33,650

there I mean myself I can't believe that

727

00:37:36,940 --> 00:37:35,480

there were not other sentient being

728

00:37:40,839 --> 00:37:36,950

somewhere in the universe and that

729

00:37:43,029 --> 00:37:40,849

eventually given certainly enough time

730

00:37:45,999 --> 00:37:43,039

we could figure out to come in contact

731

00:37:48,249 --> 00:37:46,009

with them certainly that type of

732

00:37:50,680 --> 00:37:48,259

communication would be quite difficult I

733

00:37:54,729 --> 00:37:50,690

think well I'm not sure if they'd be

734

00:37:55,750 --> 00:37:54,739

difficult or not you know one approach

735

00:37:58,450 --> 00:37:55,760

to this

736

00:38:01,150 --> 00:37:58,460

is obviously there must be sent in life

737

00:38:04,120 --> 00:38:01,160

somewhere in the universe at this time

738

00:38:06,790 --> 00:38:04,130

and that's just based on pure numbers

739

00:38:10,270 --> 00:38:06,800

LLL drink Tessa we're finding out there

740

00:38:12,540 --> 00:38:10,280

and allowing for evolution so from a

741

00:38:15,640 --> 00:38:12,550

straight materialistic view you can

742

00:38:19,360 --> 00:38:15,650

suggest that and we mentioned earlier

743

00:38:23,530 --> 00:38:19,370

about the interactions between humans

744

00:38:25,870 --> 00:38:23,540

and Cynthia nonhumans but you know there

745

00:38:28,570 --> 00:38:25,880

there's another aspect to this and that

746

00:38:31,740 --> 00:38:28,580

is you consider white mice or answer or

747

00:38:35,020 --> 00:38:31,750

you know host of things that we

748

00:38:38,130 --> 00:38:35,030

experiment on scientifically and there's

749

00:38:42,310 --> 00:38:38,140

absolutely no attempt whatsoever to

750

00:38:45,130 --> 00:38:42,320

interact you know with them or you know

751

00:38:48,070 --> 00:38:45,140

ask them what's going on or what they

752

00:38:52,020 --> 00:38:48,080

think about the experiment um hilfe some

753

00:38:54,940 --> 00:38:52,030

hypothesize that if you have sent him a

754

00:38:59,410 --> 00:38:54,950

consciousness that's sufficiently

755

00:39:01,180 --> 00:38:59,420

evolved we may be the white mice well

756

00:39:05,200 --> 00:39:01,190

that's true that's a little scary but

757

00:39:08,860 --> 00:39:05,210

probably true um you know going back to

758

00:39:11,350 --> 00:39:08,870

a couple of things I would throw like

759

00:39:16,410 --> 00:39:11,360

slightly harder a hard a little more

760

00:39:19,060 --> 00:39:16,420

hardball here you in your book you

761

00:39:21,820 --> 00:39:19,070

ascertained that it didn't seem as

762

00:39:25,750 --> 00:39:21,830

though people in the upper echelon of

763

00:39:27,730 --> 00:39:25,760

the military really knew the answers

764

00:39:31,870 --> 00:39:27,740

about UFOs and they weren't holding

765

00:39:34,240 --> 00:39:31,880

things back and that basically and I

766

00:39:37,630 --> 00:39:34,250

agree with you that that there has

767

00:39:41,710 --> 00:39:37,640

already been disclosure on some level

768

00:39:46,570 --> 00:39:41,720

but I point to the things that go on at

769

00:39:49,300 --> 00:39:46,580

JPL in terms of some of the photographs

770

00:39:54,100 --> 00:39:49,310

of Mars where there are people who I

771

00:39:57,420 --> 00:39:54,110

think white quite accurately looked at

772

00:40:02,200 --> 00:39:57,430

some of the photographs and saw some

773

00:40:07,960 --> 00:40:02,210

like what looked a great deal like

774

00:40:08,990 --> 00:40:07,970

fossils in in in on the earth and then

775

00:40:11,960 --> 00:40:09,000

they were prompt

776

00:40:14,600 --> 00:40:11,970

ground up it's sort of like yeah I want

777

00:40:17,900 --> 00:40:14,610

to see what that tree is about and so

778

00:40:19,790 --> 00:40:17,910

I'll cut down the trail anything that's

779

00:40:23,300 --> 00:40:19,800

wait could I do something I think I know

780

00:40:27,200 --> 00:40:23,310

about okay go see how you probably want

781

00:40:30,950 --> 00:40:27,210

to talk to is richard hoover uber is a

782

00:40:35,990 --> 00:40:30,960

guy who spent you know an entire career

783

00:40:39,560 --> 00:40:36,000

at NASA and actually says that we

784

00:40:44,140 --> 00:40:39,570

actually we do have evidence of alien

785

00:40:47,840 --> 00:40:44,150

life he was involved with picking up the

786

00:40:49,370 --> 00:40:47,850

meteorites in Antarctica and they like

787

00:40:52,190 --> 00:40:49,380

that area because it's relatively

788

00:40:55,970 --> 00:40:52,200

pristine and will argue that we have in

789

00:41:00,290 --> 00:40:55,980

fact found life but he takes them to

790

00:41:02,270 --> 00:41:00,300

task for exactly that reason said they

791

00:41:06,470 --> 00:41:02,280

had they were doing with the rover

792

00:41:09,350 --> 00:41:06,480

experiments cutting up rocks there and

793

00:41:12,230 --> 00:41:09,360

he said he saw evidence again but we're

794

00:41:15,650 --> 00:41:12,240

talking understanding unicellular life

795

00:41:18,410 --> 00:41:15,660

but fossils that can be seen and they

796

00:41:22,760 --> 00:41:18,420

did in fact write them up yes I'll in my

797

00:41:25,370 --> 00:41:22,770

view you know NASA is just scared to

798

00:41:31,280 --> 00:41:25,380

death of these topics I mean they are

799

00:41:35,180 --> 00:41:31,290

overtly hostile to UFOs kind of in

800

00:41:40,700 --> 00:41:35,190

general you do find Mavericks guys like

801
00:41:44,330 --> 00:41:40,710
the store story Musgrave um says hey we

802
00:41:47,240 --> 00:41:44,340
will you know I'm certainly open to the

803
00:41:51,590 --> 00:41:47,250
topic he speaks at UFO conference yes um

804
00:41:54,950 --> 00:41:51,600
but says he never saw anything about

805
00:41:58,340 --> 00:41:54,960
that it's also interesting ed Mitchell

806
00:42:02,810 --> 00:41:58,350
is a friend of mine yes great time great

807
00:42:06,350 --> 00:42:02,820
guy sure deal he was Apollo 14 and who

808
00:42:10,010 --> 00:42:06,360
firmly believes that a the you know

809
00:42:13,100 --> 00:42:10,020
we've been contacted and these

810
00:42:17,180 --> 00:42:13,110
interactions go on but equally says and

811
00:42:20,000 --> 00:42:17,190
absolutely nothing that of his beliefs

812
00:42:22,280 --> 00:42:20,010
on this comes from NASA

813
00:42:25,400 --> 00:42:22,290

oh very difficult when you have an

814

00:42:28,700 --> 00:42:25,410

organization that you would think ought

815

00:42:31,340 --> 00:42:28,710

to be you know interested and there are

816

00:42:34,010 --> 00:42:31,350

there are individuals certainly again

817

00:42:37,160 --> 00:42:34,020

and are interested but institutionally

818

00:42:40,760 --> 00:42:37,170

just overtly hostels of the topic isn't

819

00:42:44,120 --> 00:42:40,770

there also a kind of like a competition

820

00:42:47,150 --> 00:42:44,130

between NASA and JPL in the sense of the

821

00:42:49,640 --> 00:42:47,160

manned space flight from NASA versus the

822

00:42:52,990 --> 00:42:49,650

robotic space flight from JPL it's

823

00:42:55,730 --> 00:42:53,000

that's not how I feels a contractor okay

824

00:42:57,980 --> 00:42:55,740

because I've heard that the JPL doesn't

825

00:43:00,710 --> 00:42:57,990

want to hear anything about man in space

826

00:43:03,650 --> 00:43:00,720

they want to send their their stuff in

827

00:43:05,840 --> 00:43:03,660

case there are person as i mentioned

828

00:43:10,190 --> 00:43:05,850

earlier for some pretty good reasons to

829

00:43:14,060 --> 00:43:10,200

ask about whether or not men can survive

830

00:43:20,180 --> 00:43:14,070

in space and these are real very real

831

00:43:23,270 --> 00:43:20,190

concerns and you know also it's kind of

832

00:43:26,180 --> 00:43:23,280

like the whole drone issue that you have

833

00:43:30,230 --> 00:43:26,190

now I mention they had given a talk down

834

00:43:33,380 --> 00:43:30,240

at era university Maxwell Air Force Base

835

00:43:35,750 --> 00:43:33,390

and got booed when I was telling them we

836

00:43:38,770 --> 00:43:35,760

need to get pilots out of planes because

837

00:43:41,540 --> 00:43:38,780

you pay or horrendous price yes for all

838

00:43:43,760 --> 00:43:41,550

of the life-support systems that go

839

00:43:47,510 --> 00:43:43,770

along with that as well as redundancy

840

00:43:50,060 --> 00:43:47,520

and women whereas with robotics there's

841

00:43:54,470 --> 00:43:50,070

a lot you can do at a much more cost

842

00:43:56,660 --> 00:43:54,480

effective manner mm-hmm but don't you

843

00:43:59,660 --> 00:43:56,670

feel that even in space exploration

844

00:44:03,020 --> 00:43:59,670

there has to be some sort of just

845

00:44:06,230 --> 00:44:03,030

eyeball contact to me and I think to

846

00:44:08,300 --> 00:44:06,240

most of the general population there's a

847

00:44:10,700 --> 00:44:08,310

difference between a robot seeing

848

00:44:12,830 --> 00:44:10,710

something on Mars and a fellow human

849

00:44:17,420 --> 00:44:12,840

being seeing something I'm where that's

850

00:44:20,870 --> 00:44:17,430

got a human inquisitiveness yeah and but

851
00:44:24,770 --> 00:44:20,880
again the issue I think the fundamental

852
00:44:27,380 --> 00:44:24,780
issue here is cost effectiveness what it

853
00:44:32,090 --> 00:44:27,390
costs you to do that and we talk now

854
00:44:34,370 --> 00:44:32,100
about Mars missions and you know we

855
00:44:37,760 --> 00:44:34,380
don't do a lot of things or

856
00:44:39,850 --> 00:44:37,770
oberle suicidal so when you start

857
00:44:43,070 --> 00:44:39,860
talking about deep space exploration

858
00:44:45,470 --> 00:44:43,080
many of them are obviously one-way trips

859
00:44:48,620 --> 00:44:45,480
he got individuals who were saying you

860
00:44:53,180 --> 00:44:48,630
know send me not me willing to do that

861
00:44:55,670 --> 00:44:53,190
just for the excitement of it but heart

862
00:44:58,280 --> 00:44:55,680
issues and again I think you really get

863
00:45:01,520 --> 00:44:58,290

back to just the cost-effectiveness a

864

00:45:04,970 --> 00:45:01,530

lot cheaper to send out robotic probes

865

00:45:08,060 --> 00:45:04,980

than to send manned flight and I'm not

866

00:45:12,110 --> 00:45:08,070

set I'm not signing up for a buzz aldrin

867

00:45:14,480 --> 00:45:12,120

saw you know in a more sense to the

868

00:45:17,870 --> 00:45:14,490

other issue the things we talked about

869

00:45:20,660 --> 00:45:17,880

marriage you mentioned that says you

870

00:45:23,740 --> 00:45:20,670

know maybe we don't need to send widgets

871

00:45:26,570 --> 00:45:23,750

out there when you have a consciousness

872

00:45:28,400 --> 00:45:26,580

application absolutely absolutely I

873

00:45:30,650 --> 00:45:28,410

would agree a hundred percent with that

874

00:45:34,250 --> 00:45:30,660

can you can you tell us a little bit

875

00:45:38,690 --> 00:45:34,260

about your experiences at the skinwalker

876

00:45:42,010 --> 00:45:38,700

Bigelow sherman ranch well my

877

00:45:44,720 --> 00:45:42,020

experiences would be pretty boring uh I

878

00:45:48,350 --> 00:45:44,730

know if you saw the program with Jesse

879

00:45:51,680 --> 00:45:48,360

Ventura when he yes trap me on that just

880

00:45:54,440 --> 00:45:51,690

pure nonsense but you know and he asked

881

00:45:57,710 --> 00:45:54,450

could he go up there so but you can but

882

00:46:04,670 --> 00:45:57,720

you'd be really bored there were a

883

00:46:08,600 --> 00:46:04,680

number of very very unusual incidents

884

00:46:11,390 --> 00:46:08,610

that happen but when you amortize this

885

00:46:14,660 --> 00:46:11,400

so we're about six years the

886

00:46:18,470 --> 00:46:14,670

observations went on it turns out

887

00:46:20,870 --> 00:46:18,480

they're really quite rare and some of

888

00:46:23,660 --> 00:46:20,880

them seem to be centered around one

889

00:46:25,640 --> 00:46:23,670

individual seems to be kind of more

890

00:46:29,030 --> 00:46:25,650

sensitive I don't think there's any

891

00:46:32,390 --> 00:46:29,040

doubt that very very strange things

892

00:46:36,440 --> 00:46:32,400

happened there in the hole you need the

893

00:46:38,660 --> 00:46:36,450

bases myself I frankly didn't see

894

00:46:44,540 --> 00:46:38,670

anything and spent hours and hours

895

00:46:46,150 --> 00:46:44,550

looking others at other times did some

896

00:46:48,080 --> 00:46:46,160

of the stuff we had the ranch

897

00:46:53,780 --> 00:46:48,090

instrumented

898

00:46:58,370 --> 00:46:53,790

um they were doing some case climb lap

899

00:47:01,160 --> 00:46:58,380

photography at 24 7 and had some unusual

900

00:47:04,460 --> 00:47:01,170

things happen on camera and some things

901
00:47:08,270 --> 00:47:04,470
that should have been on camera that

902
00:47:11,410 --> 00:47:08,280
never showed up and this is what led to

903
00:47:15,530 --> 00:47:11,420
and place in the book where I talk about

904
00:47:19,430 --> 00:47:15,540
precognitive sentient phenomena and this

905
00:47:22,670 --> 00:47:19,440
is sort of like the trickster it seemed

906
00:47:26,390 --> 00:47:22,680
like there was a superior consciousness

907
00:47:28,780 --> 00:47:26,400
that was involved that was creating the

908
00:47:33,070 --> 00:47:28,790
incidents when I say it's precognitive

909
00:47:37,400 --> 00:47:33,080
get seemed to know how we would respond

910
00:47:40,610 --> 00:47:37,410
to a set of circumstances before it was

911
00:47:45,380 --> 00:47:40,620
even presented and then it kept morphing

912
00:47:47,980 --> 00:47:45,390
of the actions who whatever happened it

913
00:47:51,380 --> 00:47:47,990

you did not generally get the same

914

00:47:54,290 --> 00:47:51,390

experience twice so you would set up to

915

00:47:56,990 --> 00:47:54,300

try and study an incident that happened

916

00:47:59,810 --> 00:47:57,000

and then either it be off camera or you

917

00:48:04,910 --> 00:47:59,820

get something totally different but that

918

00:48:06,680 --> 00:48:04,920

they occurred absolutely happened Wow if

919

00:48:12,050 --> 00:48:06,690

anybody's interested I'd recommend the

920

00:48:16,070 --> 00:48:12,060

book by George Knapp calm kelleher yeah

921

00:48:18,110 --> 00:48:16,080

oh yeah I call him column was the deputy

922

00:48:20,930 --> 00:48:18,120

administrator and probably spent more

923

00:48:24,860 --> 00:48:20,940

time up there than anybody else but they

924

00:48:27,200 --> 00:48:24,870

outline I put a few of them in the UFO

925

00:48:30,410 --> 00:48:27,210

book but you know their whole book is

926
00:48:32,870 --> 00:48:30,420
devoted to that yes pretty accurate the

927
00:48:35,180 --> 00:48:32,880
best of my knowledge yes if that was

928
00:48:39,620 --> 00:48:35,190
accurate that is one scary place well

929
00:48:41,480 --> 00:48:39,630
all those those wolves that were larger

930
00:48:44,420 --> 00:48:41,490
than normal and was sort of

931
00:48:47,120 --> 00:48:44,430
metamorphosize doubt of and I think a

932
00:48:49,370 --> 00:48:47,130
man like mr. Sodor you know that the

933
00:48:53,750 --> 00:48:49,380
grease spot remember week when you

934
00:48:56,750 --> 00:48:53,760
spread them out over years yeah not that

935
00:48:59,210 --> 00:48:56,760
scary well if it happened while I house

936
00:49:02,060 --> 00:48:59,220
I'd be so nervous a lot more you know

937
00:49:06,940 --> 00:49:02,070
people said maybe I just require

938
00:49:09,230 --> 00:49:06,950

right because I tend not to be i

939

00:49:13,490 --> 00:49:09,240

attended me the guy uses let me go look

940

00:49:15,970 --> 00:49:13,500

at that yeah well yeah not any place so

941

00:49:19,370 --> 00:49:15,980

going bed and breakfast ting any times

942

00:49:21,140 --> 00:49:19,380

yeah but the other thing that you might

943

00:49:23,750 --> 00:49:21,150

find interesting when you would talk

944

00:49:28,280 --> 00:49:23,760

about this is that they recently came

945

00:49:30,170 --> 00:49:28,290

out they were studying how life had

946

00:49:32,210 --> 00:49:30,180

evolved in any way and then they were

947

00:49:34,730 --> 00:49:32,220

talking about RNA world and then they

948

00:49:37,370 --> 00:49:34,740

discovered that perhaps trna could have

949

00:49:38,870 --> 00:49:37,380

evolved given you know proteins and

950

00:49:41,600 --> 00:49:38,880

substrates and blah blah blah and all

951
00:49:44,330 --> 00:49:41,610
this stuff but the one research you made

952
00:49:46,100 --> 00:49:44,340
an interesting comment he said that you

953
00:49:49,460 --> 00:49:46,110
know it seems to me the only way to

954
00:49:51,740 --> 00:49:49,470
create RNA would be human involvement in

955
00:49:54,080 --> 00:49:51,750
other words he felt it obviously in the

956
00:49:56,150 --> 00:49:54,090
lab they can create RNA at this point

957
00:49:57,980 --> 00:49:56,160
but i thought wow wouldn't it be

958
00:49:59,960 --> 00:49:57,990
interesting as if the whole point of

959
00:50:02,870 --> 00:49:59,970
evolution was to go back in time and

960
00:50:05,210 --> 00:50:02,880
then you know time being the illusion

961
00:50:07,010 --> 00:50:05,220
create tRNA and then everything else

962
00:50:09,440 --> 00:50:07,020
would come from that so that life would

963
00:50:12,560 --> 00:50:09,450

be as a lot of these people say just a

964

00:50:15,020 --> 00:50:12,570

circular path and i just thought that

965

00:50:17,450 --> 00:50:15,030

was so fascinating that a guy studying

966

00:50:19,670 --> 00:50:17,460

you know just molecular physics in a

967

00:50:22,370 --> 00:50:19,680

sense would come out and feel that you

968

00:50:25,430 --> 00:50:22,380

involvement or perhaps not human

969

00:50:28,940 --> 00:50:25,440

involvement but uh yeah but theological

970

00:50:31,490 --> 00:50:28,950

issues can be interesting mind traffic

971

00:50:34,610 --> 00:50:31,500

oh definitely but i thought it was an

972

00:50:38,420 --> 00:50:34,620

interesting of certainly worth good

973

00:50:39,980 --> 00:50:38,430

lankan yeah creeper station yeah well

974

00:50:43,010 --> 00:50:39,990

coming from that man i thought it was

975

00:50:45,590 --> 00:50:43,020

interesting you know but i was just that

976
00:50:47,960 --> 00:50:45,600
passing to life and we really i guess we

977
00:50:50,450 --> 00:50:47,970
were getting a little bit short on time

978
00:50:53,090 --> 00:50:50,460
now but um we didn't really get into

979
00:50:56,720 --> 00:50:53,100
much about your experiences with the

980
00:50:59,450 --> 00:50:56,730
non-lethal weapons Oh which i have to go

981
00:51:01,520 --> 00:50:59,460
back and ask this question from my

982
00:51:05,600 --> 00:51:01,530
daughter because she and i were

983
00:51:07,340 --> 00:51:05,610
captivated by the feminizing spray which

984
00:51:09,560 --> 00:51:07,350
we thought was the answer to all the

985
00:51:11,750 --> 00:51:09,570
world's problems some time ago when we

986
00:51:14,609 --> 00:51:11,760
first read about it so whatever happened

987
00:51:20,489 --> 00:51:16,920
I don't even know how to adjust that

988
00:51:23,309 --> 00:51:20,499

bucket well I'll tell you one from an

989

00:51:26,579 --> 00:51:23,319

old joke it's a news continuously what

990

00:51:31,079 --> 00:51:26,589

I'm not sure what's the question oh well

991

00:51:33,539 --> 00:51:31,089

is is I'm sorry yeah is well had you

992

00:51:36,749 --> 00:51:33,549

developed a non-lethal weapon such as a

993

00:51:43,140 --> 00:51:36,759

feminizing spray that was used on

994

00:51:45,569 --> 00:51:43,150

opposing up opposing armies no I mean I

995

00:51:50,279 --> 00:51:45,579

think technically that would be illegal

996

00:51:53,460 --> 00:51:50,289

oh okay well you know chemical weapons

997

00:51:57,120 --> 00:51:53,470

of issues chemical weapons okay this is

998

00:51:59,989 --> 00:51:57,130

an issue that we grappled with a long

999

00:52:03,059 --> 00:51:59,999

time and then we got the wrong laws even

1000

00:52:06,390 --> 00:52:03,069

Don Rumsfeld of all people complained

1001
00:52:09,269 --> 00:52:06,400
about the inability use riot control

1002
00:52:13,609 --> 00:52:09,279
agents and now we're literally forced to

1003
00:52:17,759 --> 00:52:13,619
shoot people yeah because you can't use

1004
00:52:20,220 --> 00:52:17,769
some of the alternatives but we had

1005
00:52:22,920 --> 00:52:20,230
questions early on what's chemical

1006
00:52:26,279 --> 00:52:22,930
warfare can I used I for instance I've

1007
00:52:28,410 --> 00:52:26,289
I've got rioters out there rather than

1008
00:52:31,799 --> 00:52:28,420
dealing of the time I'll just spray

1009
00:52:33,950 --> 00:52:31,809
spray on with the persistent die and

1010
00:52:39,569 --> 00:52:33,960
then be able to pick people up later

1011
00:52:42,479 --> 00:52:39,579
there is that chemical warfare it is

1012
00:52:45,349 --> 00:52:42,489
quite an interesting trap there are many

1013
00:52:48,420 --> 00:52:45,359

many systems and we say they range from

1014

00:52:50,940 --> 00:52:48,430

the personal systems you know about from

1015

00:52:54,120 --> 00:52:50,950

pepper spray and tasers and things of

1016

00:52:56,849 --> 00:52:54,130

that nature all the way up to say

1017

00:52:59,009 --> 00:52:56,859

strategic incapacitation where you can

1018

00:53:03,630 --> 00:52:59,019

take down the infrastructure of a

1019

00:53:05,700 --> 00:53:03,640

country both power and you're seeing one

1020

00:53:08,309 --> 00:53:05,710

of the arguments are the arms whether or

1021

00:53:11,400 --> 00:53:08,319

not information warfare which is now

1022

00:53:13,229 --> 00:53:11,410

called cyber war would be a piece of it

1023

00:53:18,479 --> 00:53:13,239

but that's taken on a life of its own

1024

00:53:21,359 --> 00:53:18,489

indeed indeed um it's very interesting

1025

00:53:26,810 --> 00:53:21,369

to me the idea of non-lethal weapons

1026
00:53:30,590 --> 00:53:29,030
agencies and i'm not talking about US

1027
00:53:33,110 --> 00:53:30,600
government agencies I'm just talking

1028
00:53:36,830 --> 00:53:33,120
about I guess nation states would be the

1029
00:53:39,830 --> 00:53:36,840
best way to put it would prefer to and

1030
00:53:42,560 --> 00:53:39,840
you know invade on the nation state next

1031
00:53:44,360 --> 00:53:42,570
to them and render it people list so

1032
00:53:47,600 --> 00:53:44,370
that they could go in and use it for

1033
00:53:50,030 --> 00:53:47,610
themselves so the idea of not being

1034
00:53:51,590 --> 00:53:50,040
lethal as opposed to wasn't there

1035
00:53:54,140 --> 00:53:51,600
something one time something like a

1036
00:53:56,600 --> 00:53:54,150
neutron bomb which was supposed to just

1037
00:53:59,570 --> 00:53:56,610
do a little living things mom is

1038
00:54:02,240 --> 00:53:59,580

actually the antithesis of lethal

1039

00:54:04,760 --> 00:54:02,250

exactly that is what you were describing

1040

00:54:08,930 --> 00:54:04,770

where I eliminate the people and keep

1041

00:54:12,140 --> 00:54:08,940

the resources right ours is the opposite

1042

00:54:14,540 --> 00:54:12,150

and one of it came out from of course

1043

00:54:17,810 --> 00:54:14,550

had muscle thinking in the military and

1044

00:54:23,000 --> 00:54:17,820

is involved in conflicts but also

1045

00:54:26,330 --> 00:54:23,010

looking at safe Panama Grenada and Haiti

1046

00:54:28,310 --> 00:54:26,340

potentially I've written books by the

1047

00:54:29,900 --> 00:54:28,320

way him mentioned those but written a

1048

00:54:34,100 --> 00:54:29,910

couple of books in the field many many

1049

00:54:36,770 --> 00:54:34,110

articles but the point is if you looked

1050

00:54:40,700 --> 00:54:36,780

at the stick panama for is in our

1051
00:54:42,890 --> 00:54:40,710
argument was with Noriega and a number

1052
00:54:45,710 --> 00:54:42,900
of his henchmen not with the Panamanian

1053
00:54:49,100 --> 00:54:45,720
people you were going to invade and

1054
00:54:51,950 --> 00:54:49,110
we've had a historic a favorable

1055
00:54:55,370 --> 00:54:51,960
relationship with Panama for you know

1056
00:54:59,000 --> 00:54:55,380
many decades and so the outcome you

1057
00:55:01,880 --> 00:54:59,010
wanted was Noriega goes away and we

1058
00:55:05,120 --> 00:55:01,890
return the country to the Panamanians

1059
00:55:07,790 --> 00:55:05,130
and have friendly relationship killing

1060
00:55:11,870 --> 00:55:07,800
them is not advantageous not the

1061
00:55:16,100 --> 00:55:11,880
telephone idea was having alternatives

1062
00:55:19,100 --> 00:55:16,110
that allow you to apply force without

1063
00:55:21,530 --> 00:55:19,110

necessarily killing folks well that's

1064

00:55:24,110 --> 00:55:21,540

that's preferable certainly certainly

1065

00:55:26,870 --> 00:55:24,120

preferable but it would seem that a lot

1066

00:55:31,550 --> 00:55:26,880

of of nation states might have other

1067

00:55:34,070 --> 00:55:31,560

plans I would say well I also argue

1068

00:55:37,760 --> 00:55:34,080

another publication that the nation

1069

00:55:40,520 --> 00:55:37,770

state is a failing concept yes oh that

1070

00:55:43,730 --> 00:55:40,530

we you know that now the

1071

00:55:47,120 --> 00:55:43,740

macro social collaboration is based on

1072

00:55:50,480 --> 00:55:47,130

belief system written some articles

1073

00:55:53,330 --> 00:55:50,490

recently about Isis and how to take care

1074

00:55:59,150 --> 00:55:53,340

of that problem that published in The

1075

00:56:01,490 --> 00:55:59,160

Huffington Post but the focus is on you

1076
00:56:03,950 --> 00:56:01,500
know that they can now get together and

1077
00:56:06,560 --> 00:56:03,960
cause things to happen because of

1078
00:56:08,990 --> 00:56:06,570
information technology that not only

1079
00:56:12,230 --> 00:56:09,000
allows them to recruit but as you seen

1080
00:56:14,240 --> 00:56:12,240
recently actually cause people to go out

1081
00:56:17,030 --> 00:56:14,250
and do things you really have no

1082
00:56:19,370 --> 00:56:17,040
physical contact with them it's amazing

1083
00:56:22,910 --> 00:56:19,380
would you like to mention some of your

1084
00:56:25,850 --> 00:56:22,920
other books that we did not mention well

1085
00:56:27,980 --> 00:56:25,860
yes of course the Warriors edge was the

1086
00:56:30,590 --> 00:56:27,990
first one which based on the info its

1087
00:56:33,410 --> 00:56:30,600
community some if you can find it that's

1088
00:56:36,440 --> 00:56:33,420

really out of print cost far too much

1089

00:56:40,250 --> 00:56:36,450

but there I did talk about the metal

1090

00:56:43,070 --> 00:56:40,260

bending and remote viewing and NLP

1091

00:56:46,430 --> 00:56:43,080

research and that future war was the

1092

00:56:49,360 --> 00:56:46,440

first one on non-lethal weapons and I

1093

00:56:54,500 --> 00:56:49,370

did winning the war which was a sequel

1094

00:56:56,240 --> 00:56:54,510

to that and again it was um the advances

1095

00:56:59,180 --> 00:56:56,250

that had taken place and non-lethal

1096

00:57:03,080 --> 00:56:59,190

weaponry i went from mom legal to hyper

1097

00:57:05,510 --> 00:57:03,090

lethal systems uh-huh well I'm sure that

1098

00:57:08,780 --> 00:57:05,520

you know some of our listeners who you

1099

00:57:10,100 --> 00:57:08,790

know military UFO type people who have

1100

00:57:12,290 --> 00:57:10,110

been on the show and may be listening

1101

00:57:16,520 --> 00:57:12,300

would definitely be interested in

1102

00:57:20,330 --> 00:57:16,530

reading those as I would and in terms of

1103

00:57:21,830 --> 00:57:20,340

ISIL or the ish that each where they

1104

00:57:23,450 --> 00:57:21,840

getting the money I think if you follow

1105

00:57:24,980 --> 00:57:23,460

the money that might be part of the

1106

00:57:27,830 --> 00:57:24,990

answer following I mean it's just a

1107

00:57:29,720 --> 00:57:27,840

layman's point of view I'm not you you

1108

00:57:31,100 --> 00:57:29,730

know I'm not an expert on it but it

1109

00:57:33,650 --> 00:57:31,110

seems to me they're selling that oil

1110

00:57:37,130 --> 00:57:33,660

somewhere and getting the money from

1111

00:57:40,550 --> 00:57:37,140

that well it is but they have also

1112

00:57:46,070 --> 00:57:40,560

developed means literally taking over

1113

00:57:48,290 --> 00:57:46,080

banks of the arm much of the arms have

1114

00:57:51,770 --> 00:57:48,300

been just captured a lot of something we

1115

00:57:53,060 --> 00:57:51,780

had delivered to the Iraqi army has been

1116

00:57:56,740 --> 00:57:53,070

captured and used by the

1117

00:58:00,350 --> 00:57:56,750

them they are involved in arms trade

1118

00:58:03,170 --> 00:58:00,360

human trafficking is a major source of

1119

00:58:07,880 --> 00:58:03,180

reason or for them taking over oil

1120

00:58:10,610 --> 00:58:07,890

fields yeah I think they're eminently

1121

00:58:14,450 --> 00:58:10,620

beatable again i wrote to this earlier

1122

00:58:16,460 --> 00:58:14,460

is in February but I don't think it's

1123

00:58:19,550 --> 00:58:16,470

our fight I don't think it's something

1124

00:58:24,230 --> 00:58:19,560

that we can do and as long as the u.s.

1125

00:58:29,060 --> 00:58:24,240

is seen as either integrally involved a

1126

00:58:32,660 --> 00:58:29,070

certain a leading it Isis them as an

1127

00:58:35,990 --> 00:58:32,670

infinite supply of recruits right right

1128

00:58:39,290 --> 00:58:36,000

and their stated objective is to draw us

1129

00:58:41,750 --> 00:58:39,300

into the fight and they also know that

1130

00:58:45,320 --> 00:58:41,760

it's the best recruiting instrument that

1131

00:58:48,080 --> 00:58:45,330

they have right so I was go ahead oh no

1132

00:58:50,090 --> 00:58:48,090

it's good to see you ID at this point

1133

00:58:53,860 --> 00:58:50,100

would be not to so much ignore him but

1134

00:58:59,600 --> 00:58:56,840

unfortunately I think this is a fight

1135

00:59:05,480 --> 00:58:59,610

that that they have got to have and it's

1136

00:59:08,950 --> 00:59:05,490

going to be very very messy I mean since

1137

00:59:12,530 --> 00:59:08,960

13th century it's been ongoing with

1138

00:59:15,590 --> 00:59:12,540

between the Sunni and Shia but i think

1139

00:59:18,320 --> 00:59:15,600

this brand is so extreme that the

1140

00:59:20,780 --> 00:59:18,330

eventually be extinguished and one of my

1141

00:59:23,540 --> 00:59:20,790

early articles pointed out that there's

1142

00:59:27,530 --> 00:59:23,550

adequate force available to do this

1143

00:59:31,130 --> 00:59:27,540

without the US for instance turkey was

1144

00:59:35,150 --> 00:59:31,140

sitting on the sideline is 43 armored

1145

00:59:38,570 --> 00:59:35,160

battalions they have chosen to do

1146

00:59:40,790 --> 00:59:38,580

nothing of course we've just seen a huge

1147

00:59:44,840 --> 00:59:40,800

government change their over the past

1148

00:59:46,940 --> 00:59:44,850

weekend yes yes but uh if you look at

1149

00:59:50,060 --> 00:59:46,950

the forces that are combined and you

1150

00:59:53,090 --> 00:59:50,070

might have some uncomfortable allies I

1151

00:59:56,240 --> 00:59:53,100

what do we do with Iran unfortunately we

1152

00:59:58,730 --> 00:59:56,250

have chosen to demonize Iran which i

1153

01:00:05,960 --> 00:59:58,740

think is the wrong strategic move to

1154

01:00:06,500 --> 01:00:05,970

make that you know they have adequate

1155

01:00:09,980 --> 01:00:06,510

arm for

1156

01:00:15,040 --> 01:00:09,990

and they don't have to wait to train the

1157

01:00:17,900 --> 01:00:15,050

Iraqi army which we've spent billions

1158

01:00:19,970 --> 01:00:17,910

hundreds of billions on already and it

1159

01:00:22,280 --> 01:00:19,980

has proven to be totally ineffective and

1160

01:00:25,340 --> 01:00:22,290

I don't think doing more of the same is

1161

01:00:28,220 --> 01:00:25,350

going to work well I guess I would have

1162

01:00:32,300 --> 01:00:28,230

to agree with you and unfortunately our

1163

01:00:37,310 --> 01:00:32,310

time has run out here I do want to ask

1164

01:00:41,000 --> 01:00:37,320

you one final question which is do you

1165

01:00:45,710 --> 01:00:41,010

see the human race lasting to the end of

1166

01:00:48,290 --> 01:00:45,720

the century oh I think something will

1167

01:00:52,480 --> 01:00:48,300

certainly last what exactly what we look

1168

01:00:55,510 --> 01:00:52,490

like me change but remember we're at

1169

01:01:00,020 --> 01:00:55,520

seven eight billion and Counting

1170

01:01:05,440 --> 01:01:00,030

expanding to rapidly but I think there

1171

01:01:08,930 --> 01:01:05,450

will be early dramatic changes

1172

01:01:11,030 --> 01:01:08,940

unfortunately the beginning social logic

1173

01:01:15,050 --> 01:01:11,040

economic issues of the split between

1174

01:01:19,400 --> 01:01:15,060

haves and have-nots I think our is going

1175

01:01:22,580 --> 01:01:19,410

to be the major dividing force for the

1176

01:01:24,230 --> 01:01:22,590

future and you know you have the elitist

1177

01:01:27,170 --> 01:01:24,240

will certainly move out in some

1178

01:01:31,940 --> 01:01:27,180

direction whether they can survive or

1179

01:01:34,970 --> 01:01:31,950

the have-nots get you know rise up and

1180

01:01:37,100 --> 01:01:34,980

do something it remains to be seen well

1181

01:01:39,710 --> 01:01:37,110

I guess it's always the case the rich

1182

01:01:41,840 --> 01:01:39,720

get richer and the poor get poorer but

1183

01:01:44,000 --> 01:01:41,850

dr. Alexander dis has I thought it was

1184

01:01:49,430 --> 01:01:44,010

rich get richer the poor get babies oh

1185

01:01:51,560 --> 01:01:49,440

yeah that's that I I cannot thank you

1186

01:01:53,870 --> 01:01:51,570

enough for taking the time you are a man

1187

01:01:55,760 --> 01:01:53,880

of incredible accomplishments thank you

1188

01:01:57,650 --> 01:01:55,770

so much for taking this time to spend

1189

01:01:59,540 --> 01:01:57,660

with it yes thank you it's been a

1190

01:02:02,270 --> 01:01:59,550

wonderful experience speaking with you

1191

01:02:04,430 --> 01:02:02,280

and we hope to have you back again if

1192

01:02:09,290 --> 01:02:04,440

you're willing thank you okay thank you

1193

01:02:12,320 --> 01:02:09,300

thanks bye so uh goodbye from Kate and

1194

01:02:16,460 --> 01:02:12,330

farrugia here please like us on iTunes

1195

01:02:20,329 --> 01:02:16,470

and honestly it's so difficult to

1196

01:02:23,479 --> 01:02:20,339

interview a man like dr. Alexander it's

1197

01:02:25,549 --> 01:02:23,489

cadee interviewer encyclopedia well he

1198

01:02:28,910 --> 01:02:25,559

is he's an incredible resource he knows

1199

01:02:30,769 --> 01:02:28,920

so many people yeah and he's done so

1200

01:02:33,410 --> 01:02:30,779

many things we didn't even really get

1201
01:02:36,769 --> 01:02:33,420
into the shame anism very much would

1202
01:02:39,200 --> 01:02:36,779
have loved to hear more about the the

1203
01:02:42,650 --> 01:02:39,210
shaman's up in Siberia that he visited

1204
01:02:45,559 --> 01:02:42,660
and Nepal and all the places he's been I

1205
01:02:48,049 --> 01:02:45,569
mean I'm an inveterate traveler and I

1206
01:02:51,019 --> 01:02:48,059
can't I can't even scratch what he's

1207
01:02:53,359 --> 01:02:51,029
done yeah yeah very fortunate man and

1208
01:02:55,219 --> 01:02:53,369
again I all through his book though he

1209
01:02:57,920 --> 01:02:55,229
always refers to destiny and being

1210
01:03:00,469 --> 01:02:57,930
pushed along that path and I think he

1211
01:03:04,430 --> 01:03:00,479
has been well he's obviously an

1212
01:03:06,650 --> 01:03:04,440
extraordinary fellow uh but next week we

1213
01:03:09,920 --> 01:03:06,660

have another extraordinary fellow yes we

1214

01:03:13,729 --> 01:03:09,930

do actually in two weeks from today we

1215

01:03:17,509 --> 01:03:13,739

have them absolutely phenomenally

1216

01:03:23,120 --> 01:03:17,519

interesting Alex Karras who has his own

1217

01:03:26,839 --> 01:03:23,130

a podcast called skeptic oh and he is a

1218

01:03:30,709 --> 01:03:26,849

big promoter of consciousness as opposed

1219

01:03:33,109 --> 01:03:30,719

to the mechanistic materialistic view of

1220

01:03:37,120 --> 01:03:33,119

the universe and the people are way on

1221

01:03:40,849 --> 01:03:37,130

the other side of that the the kind of

1222

01:03:43,700 --> 01:03:40,859

religious zealots on the far on the far

1223

01:03:46,370 --> 01:03:43,710

right and the the materialist I'm not

1224

01:03:48,579 --> 01:03:46,380

talking about the politics here but just

1225

01:03:51,709 --> 01:03:48,589

on one side of the divide we have

1226

01:03:53,779 --> 01:03:51,719

fundamental religious crazies and on the

1227

01:03:55,819 --> 01:03:53,789

other side are the people who thinks

1228

01:03:59,209 --> 01:03:55,829

we're just meat puppets and he stands

1229

01:04:01,630 --> 01:03:59,219

firmly in between for consciousness so

1230

01:04:04,729 --> 01:04:01,640

we are looking forward to speaking with

1231

01:04:07,130 --> 01:04:04,739

with Alex to Karis and thanks for tuning

1232

01:04:10,160 --> 01:04:07,140

in please like us on Facebook Like us on
