pleased to welcome onto this podcast

10
00:00:58,430 --> 00:00:55,440
Paul H Smith who is a professional of

11
00:01:03,020 --> 00:00:58,440
remote viewer and a teacher of remote

12
00:01:05,990 --> 00:01:03,030
viewing he became a psychic spy in 1983

13
00:01:09,260 --> 00:01:06,000

when he was recruited for the Army's

14
00:01:12,260 --> 00:01:09,270
remote viewing psychic espionage program

15
00:01:14,240 --> 00:01:12,270
a program he never even knew existed

16
00:01:17,960 --> 00:01:14,250
up until the moment he was invited to

17
00:01:20,360 --> 00:01:17,970
join even though he was like living next

18
00:01:22,940 --> 00:01:20,370
door to skip Atwater

19
00:01:25,430 --> 00:01:22,950
he was one of the longest-serving remote

20
00:01:27,830 --> 00:01:25,440
viewers in the military program during

21
00:01:30,770 --> 00:01:27,840
his seven years in that program he

22
00:01:34,130 --> 00:01:30,780
studied under the legendary how put off

23
00:01:36,590 --> 00:01:34,140
and Ingo Swann he served as a first-line

24
00:01:38,480 --> 00:01:36,600
operational remote viewer doing

25
00:01:41,780 --> 00:01:38,490
thousands of trainings and live

26
00:01:44,210 --> 00:01:41,790
operational RV's sessions he wrote the

27
00:01:48,290 --> 00:01:44,220
official manual on controlled room you

28
00:01:51,050 --> 00:01:48,300
remote viewing and he taught crv to new

29
00:01:53,149 --> 00:01:51,060
remote viewing candidates among his

30
00:01:57,020 --> 00:01:53,159
students are included the now famous

31
00:01:59,810 --> 00:01:57,030
remote viewers such as Lynn Buchanan Mel

32
00:02:04,160 --> 00:01:59,820
Reilly and David Morehouse I studied

33
00:02:06,590 --> 00:02:04,170
with David Morehouse briefly Paul has

34
00:02:08,479 --> 00:02:06,600
briefed and demonstrated remote viewing

35
00:02:11,240 --> 00:02:08,489
to senators and admirals and generals

36
00:02:14,959 --> 00:02:11,250
and other senior military and government

37
00:02:18,890 --> 00:02:14,969
officials a Desert Storm veteran Paul

38
00:02:19,790 --> 00:02:18,900

39

00:02:23,000 --> 00:02:19,800

from his final duty position chief of

41

00:02:28,670 --> 00:02:25,260

42

00:02:30,530 --> 00:02:28,680

Military District of Washington for

43

00:02:33,740 --> 00:02:30,540

three decades now he has immersed

44

00:02:36,500 --> 00:02:33,750

himself in consciousness-based skills he

45

00:02:38,900 --> 00:02:36,510

has dedicated his life to changing

46

00:02:41,300 --> 00:02:38,910

society's attitudes towards applied

47

00:02:44,060 --> 00:02:41,310

consciousness and we're all about

48

00:02:46,370 --> 00:02:44,070

consciousness year through the powerful

49

00:02:48,740 --> 00:02:46,380

leverage of teaching speaking and

50

00:02:52,520 --> 00:02:48,750

organization's founding in 1999 he has a

63
00:03:29,260 --> 00:03:25,860

wonderful book reading the enemy's mind

64

00:03:33,290 --> 00:03:29,270

inside stargate america's psychic

65

00:03:37,340 --> 00:03:33,300

espionage program which was published by

66

00:03:41,090 --> 00:03:37,350

tor forge in 2005 and was a Reader's

67

00:03:45,380 --> 00:03:41,100

Digest Book bonus feature an editor's

68

00:03:47,210 --> 00:03:45,390

choice selection Paul's new book I want

69

00:03:49,940 --> 00:03:47,220

a copy of this book even though it's not

70

00:03:52,340 --> 00:03:49,950

out yet the essential guide to remote

71

00:03:55,160 --> 00:03:52,350

viewing will be released this summer

72

00:03:59,330 --> 00:03:55,170

he is also co-producer of the acclaimed

73

00:04:02,330 --> 00:03:59,340

DVD based learn dowsing training program

74

00:04:05,030 --> 00:04:02,340

and of the forthcoming remote perception

75

00:04:07,580 --> 00:04:05,040

basic operational training course to be

76

00:04:09,460 --> 00:04:07,590

published July 14 2015

77

00:04:11,660 --> 00:04:09,470

that's only a few days from now Paul

78

00:04:15,020 --> 00:04:11,670

that's right

79

00:04:17,390 --> 00:04:15,030

just to finish up here he has a BA from

80

00:04:20,720 --> 00:04:17,400

Brigham Young University an MS from the

81

00:04:23,659 --> 00:04:20,730

national intelligence university both in

82

00:04:25,970 --> 00:04:23,669

Middle Eastern Studies and a PhD in

83

00:04:27,670 --> 00:04:25,980

philosophy from the University of Texas

84

00:04:33,650 --> 00:04:27,680

at Austin

85

00:04:36,410 --> 00:04:33,660

so dr. Paul we're gonna leave it at that

86

00:04:39,800 --> 00:04:36,420

we could go on forever with with Wow

87

00:04:42,430 --> 00:04:39,810

very wonderful potential I'm afraid if

88

00:04:47,000 --> 00:04:42,440

we did I'd get bored pretty quick

89

00:04:50,750 --> 00:04:47,010

okay so just get our viewers up to speed

90

00:04:54,020 --> 00:04:50,760

I had the pleasure of going down to New

91

00:04:57,950 --> 00:04:54,030

Orleans Louisiana about ten days ago

92

00:04:59,960 --> 00:04:57,960

where I attended of the eartha

93

00:05:02,900 --> 00:04:59,970

convention the International remote

94

00:05:05,540 --> 00:05:02,910

viewers Association convention and I had

95

00:05:08,540 --> 00:05:05,550

the pleasure of meeting you and there

96

00:05:11,230 --> 00:05:08,550

were a lot of really interesting remote

97

00:05:14,570 --> 00:05:11,240

viewers there but what drew me to

98

00:05:16,580 --> 00:05:14,580

speaking to you particularly today other

99

00:05:19,400 --> 00:05:16,590

than the fact that I won your new book

100

00:05:21,380 --> 00:05:19,410

which I'm thrilled about what what

101
00:05:25,190 --> 00:05:21,390
brought me to want to speak to you was

102
00:05:28,700 --> 00:05:25,200
the fact that I got your targets the

103
00:05:32,660 --> 00:05:28,710
targets for the ideograms and the target

104
00:05:35,390 --> 00:05:32,670
that you you that you put up for us that

105
00:05:37,280 --> 00:05:35,400
you were tasking us with there I got

106
00:05:39,260 --> 00:05:37,290
hits on all of them whereas you know

107
00:05:42,860 --> 00:05:39,270
sometimes I'm lost in the woods and it's

108
00:05:45,110 --> 00:05:42,870
my idea that when you have a good

109
00:05:48,200 --> 00:05:45,120
relationship to your tasker when you

110
00:05:49,760 --> 00:05:48,210
have a an easy and easy time of it

111
00:05:52,220 --> 00:05:49,770
that's that's a person you should work

112
00:05:56,590 --> 00:05:52,230
with sounds good to me

113
00:06:00,200 --> 00:05:56,600

okay so I you know just before the show

114

00:06:02,360 --> 00:06:00,210

Purusha and I were speaking and remote

115

00:06:05,540 --> 00:06:02,370

viewing is really not anything I'm

116

00:06:08,710 --> 00:06:05,550

totally familiar with and although a lot

117

00:06:11,540 --> 00:06:08,720

of our audience would have heard of it I

118

00:06:14,030 --> 00:06:11,550

was surprised I said to her well can you

119

00:06:16,250 --> 00:06:14,040

just sit there and think of something

120

00:06:18,440 --> 00:06:16,260

and view it like for example Lake George

121

00:06:20,510 --> 00:06:18,450

is a very pretty place could I just sit

122

00:06:22,490 --> 00:06:20,520

there and I think about it and she said

123

00:06:26,450 --> 00:06:22,500

now that's that's not remote viewing

124

00:06:28,400 --> 00:06:26,460

that sort of clairvoyance so from she

125

00:06:31,159 --> 00:06:28,410

made it very clear to me that it's sort

126

00:06:33,680 --> 00:06:31,169

of a targeted viewing and I didn't I

127

00:06:35,930 --> 00:06:33,690

didn't get that before so your purpose

128

00:06:38,450 --> 00:06:35,940

would be to enhance people's abilities

129

00:06:41,150 --> 00:06:38,460

to do that and in their training in your

130

00:06:42,430 --> 00:06:41,160

books is is that correct yes that's

131

00:06:45,500 --> 00:06:42,440

exactly right

132

00:06:46,790 --> 00:06:45,510

the interesting thing is I like to think

133

00:06:49,010 --> 00:06:46,800

of remote viewing is the most

134

00:06:51,770 --> 00:06:49,020

mechanic of all psychic skills okay

135

00:06:54,409 --> 00:06:51,780

because the research basically shows

136

00:06:56,930 --> 00:06:54,419

that everybody can do it to one degree

137

00:06:58,189 --> 00:06:56,940

or another it's not you know you're used

138

00:06:59,180 --> 00:06:58,199

to this thing where it's like you can

139

00:07:01,100 --> 00:06:59,190

say well you have to have this gift

140

00:07:03,469 --> 00:07:01,110

before you can be psychic right right

141

00:07:04,790 --> 00:07:03,479

well it turns out at least from the

142

00:07:07,189 --> 00:07:04,800

evidence from what Jung shows it's not

143

00:07:10,129 --> 00:07:07,199

true it turns out this is a native

144

00:07:13,369 --> 00:07:10,139

normal human skill it just doesn't get

145

00:07:16,430 --> 00:07:13,379

exercised because nobody knows they can

146

00:07:20,809 --> 00:07:16,440

do it right so when when it was

147

00:07:22,430 --> 00:07:20,819

developed and and researched essentially

148

00:07:23,719 --> 00:07:22,440

invented by Ingo Swann and then

149

00:07:26,330 --> 00:07:23,729

researched at Stanford Research

150

00:07:29,689 --> 00:07:26,340

Institute which ultimately came SR I

151

00:07:33,610 --> 00:07:29,699

international their findings were that

152

00:07:37,430 --> 00:07:33,620

just about everybody has the capacity so

153

00:07:39,920 --> 00:07:37,440

it's it is a form of clairvoyance it's

154

00:07:42,559 --> 00:07:39,930

actually clairvoyance wrapped up in a in

155

00:07:45,290 --> 00:07:42,569

that kind of a scientific package you

156

00:07:46,930 --> 00:07:45,300

can think of it as as a discipline form

157

00:07:49,249 --> 00:07:46,940

of clairvoyance because there's some

158

00:07:51,589 --> 00:07:49,259

there's certain protocols you follow and

159

00:07:55,279 --> 00:07:51,599

then then there are certain methods that

160

00:07:57,559 --> 00:07:55,289

can be applied so unlike clairvoyance a

161

00:08:01,550 --> 00:07:57,569

remote viewer will start out not knowing

162

00:08:03,559 --> 00:08:01,560

what the target is mm-hmm so and in fact

163

00:08:06,290 --> 00:08:03,569

that's that's actually helps the process

164

00:08:08,600 --> 00:08:06,300

because you know when you know what what

165

00:08:12,409 --> 00:08:08,610

the thing is you're supposed to be clear

166

00:08:14,570 --> 00:08:12,419

voice that's a word okay trying to be

167

00:08:16,369 --> 00:08:14,580

clear voice up front right then

168

00:08:18,769 --> 00:08:16,379

everything you already know about it and

169

00:08:20,180 --> 00:08:18,779

everything you can imagine or conjecture

170

00:08:22,550 --> 00:08:20,190

about it is going to be right there in

171

00:08:27,469 --> 00:08:22,560

your head and trying to sort out what

172

00:08:31,580 --> 00:08:27,479

you're guessing and I hope you guys are

173

00:08:35,300 --> 00:08:31,590

still ready yeah you did drop out no

174

00:08:36,560 --> 00:08:35,310

this is this is great because I you

175

00:08:42,079 --> 00:08:36,570

surprised me when you said that

176

00:08:44,149 --> 00:08:42,089

everybody has the ability but so and you

177

00:08:47,210 --> 00:08:44,159

can sort of bring this out in people by

178

00:08:49,639 --> 00:08:47,220

with these instructions uh-huh yep you

179

00:08:52,130 --> 00:08:49,649

you basically you know people come from

180

00:08:54,710 --> 00:08:52,140

all over the world to my classes in fact

181

00:08:57,710 --> 00:08:54,720

I have an Australian coming next week so

182

00:09:00,620 --> 00:08:57,720

that'll be interesting but the and I had

183

00:09:10,740 --> 00:09:00,630

a German let in my last class

184

00:09:12,780 --> 00:09:10,750

in the sea college yeah a dog sorry yeah

185

00:09:14,820 --> 00:09:12,790

anytime I get a chance to speak German I

186

00:09:17,010 --> 00:09:14,830

like to practice so I will try and avoid

187

00:09:20,460 --> 00:09:17,020

debt for your audience's benefit okay

188

00:09:22,830 --> 00:09:20,470

but yeah but yeah they're coming and I

189

00:09:25,830 --> 00:09:22,840

teach them you know what what we learned

190

00:09:28,860 --> 00:09:25,840

from Ingo and inhale and and from the

191

00:09:31,770 --> 00:09:28,870

other folks including skip out water at

192

00:09:34,020 --> 00:09:31,780

Fort Meade in the military program so

193

00:09:37,140 --> 00:09:34,030

these these people just sort of stumbled

194

00:09:39,660 --> 00:09:37,150

upon this ability because I from what

195

00:09:43,560 --> 00:09:39,670

ferocious told me Ingo Swann was really

196

00:09:45,390 --> 00:09:43,570

a natural at it and and then he realized

197

00:09:48,300 --> 00:09:45,400

how the people had the ability as well

198

00:09:49,680 --> 00:09:48,310

and started to bring them along I kind

199

00:09:53,010 --> 00:09:49,690

of think that the first thing that

200

00:09:55,050 --> 00:09:53,020

you've got to do in being clairvoyant or

201
00:09:57,480 --> 00:09:55,060
doing remote viewing is you've got to

202
00:09:59,400 --> 00:09:57,490
believe it's possible because I've said

203
00:10:02,640 --> 00:09:59,410
that before on the show but I have to

204
00:10:04,920 --> 00:10:02,650
reiterate that right now okay well that

205
00:10:07,380 --> 00:10:04,930
helps but you know what they were

206
00:10:08,730 --> 00:10:07,390
actually able to get psych skeptics to

207
00:10:11,730 --> 00:10:08,740
do it as long as they weren't too

208
00:10:13,080 --> 00:10:11,740
absolutely convinced against it you just

209
00:10:15,510 --> 00:10:13,090
have to be willing to be open-minded

210
00:10:19,050 --> 00:10:15,520
that seems to be the the main ingredient

211
00:10:22,610 --> 00:10:19,060
here well you know obviously I can

212
00:10:26,850 --> 00:10:22,620
understand why military uses would be

213
00:10:29,430 --> 00:10:26,860

important but is there any do they use

214

00:10:35,010 --> 00:10:29,440

it for other purposes I mean do you try

215

00:10:37,920 --> 00:10:35,020

to locate I don't know oil wells or lost

216

00:10:42,600 --> 00:10:37,930

people or something of that nature you

217

00:10:44,070 --> 00:10:42,610

know the plane crash goes down I I don't

218

00:10:46,110 --> 00:10:44,080

know I really don't know I was just

219

00:10:48,630 --> 00:10:46,120

wondering what you are able to target

220

00:10:52,890 --> 00:10:48,640

well in the military we actually did

221

00:10:55,080 --> 00:10:52,900

locate crashed planes Wow and and

222

00:10:57,240 --> 00:10:55,090

missing people we were many of our

223

00:10:58,740 --> 00:10:57,250

taskings were against hostages in the

224

00:11:01,500 --> 00:10:58,750

Middle East oh you know Western

225

00:11:04,560 --> 00:11:01,510

listeners and you got captured and a few

226

00:11:06,680 --> 00:11:04,570

times we were successful at that most of

227

00:11:09,360 --> 00:11:06,690

the time not and the reason is of course

228

00:11:11,460 --> 00:11:09,370

remote viewing actually isn't people

229

00:11:13,650 --> 00:11:11,470

think it's it's it's a tool for finding

230

00:11:16,080 --> 00:11:13,660

things and it isn't to a finding thing

231

00:11:18,900 --> 00:11:16,090

just doesn't locate them very well so I

232

00:11:21,510 --> 00:11:18,910

like to tell a story back before Osama

233

00:11:23,400 --> 00:11:21,520

bin Laden had been found let's say

234

00:11:25,950 --> 00:11:23,410

somebody asked the remote viewer to view

235

00:11:28,110 --> 00:11:25,960

where Osama bin Laden is and and what

236

00:11:29,760 --> 00:11:28,120

would happen something like this or what

237

00:11:31,500 --> 00:11:29,770

you would say oh yeah there's this guy

238

00:11:33,750 --> 00:11:31,510

with a beard and he's in this really

239

00:11:35,160 --> 00:11:33,760

weird room it's long but it's narrow and

240

00:11:37,200 --> 00:11:35,170

the walls are rocking there's carpeted

241

00:11:38,910 --> 00:11:37,210

floor there's guys with guns that if you

242

00:11:40,170 --> 00:11:38,920

go a long ways down you come out into

243

00:11:42,480 --> 00:11:40,180

the light and you're a bunch of barren

244

00:11:44,640 --> 00:11:42,490

mountains right so the analyst is gonna

245

00:11:47,340 --> 00:11:44,650

say oh yeah that's exactly right that's

246

00:11:49,410 --> 00:11:47,350

exactly right now where is he and the

247

00:11:51,000 --> 00:11:49,420

remote you're gonna say you idiot I just

248

00:11:53,460 --> 00:11:51,010

told you where he was he's in this long

249

00:11:54,690 --> 00:11:53,470

rocky we'll hold room right so the

250

00:11:58,020 --> 00:11:54,700

remote viewers found him but hasn't

251
00:12:00,090 --> 00:11:58,030
located him locational thinks you can do

252
00:12:02,610 --> 00:12:00,100
it with remote viewing but it basically

253
00:12:06,180 --> 00:12:02,620
depends on you describing a setting and

254
00:12:08,790 --> 00:12:06,190
someone I didn't recognizing it right we

255
00:12:12,630 --> 00:12:08,800
do do dowsing we did do dowsing as well

256
00:12:14,490 --> 00:12:12,640
and that has a little bit more use in

257
00:12:17,960 --> 00:12:14,500
terms of finding things that are missing

258
00:12:21,840 --> 00:12:17,970
what remote viewing is good for

259
00:12:23,490 --> 00:12:21,850
partially it's good for predicting

260
00:12:24,270 --> 00:12:23,500
future events which I'll talk about in a

261
00:12:26,160 --> 00:12:24,280
minute really

262
00:12:28,320 --> 00:12:26,170
but mostly it's good for finding out

263
00:12:30,600 --> 00:12:28,330

things that exist right now or in the

264

00:12:32,160 --> 00:12:30,610

past that you don't have enough

265

00:12:36,360 --> 00:12:32,170

information about and that's what we use

266

00:12:39,030 --> 00:12:36,370

it for a lot so yeah so it's intriguing

267

00:12:41,160 --> 00:12:39,040

people do use it practically today they

268

00:12:44,430 --> 00:12:41,170

do help out police with it we recently

269

00:12:46,500 --> 00:12:44,440

had a case where one of my actually a

270

00:12:49,130 --> 00:12:46,510

former sister-in-law of mine and now is

271

00:12:51,330 --> 00:12:49,140

still Protege Angela Thompson Smith

272

00:12:53,040 --> 00:12:51,340

provided information that was actually

273

00:12:55,290 --> 00:12:53,050

instrumental in solving a murder case

274

00:12:57,600 --> 00:12:55,300

and the information was used in court

275

00:12:59,250 --> 00:12:57,610

and the murderer was convicted the

276

00:13:00,990 --> 00:12:59,260

remote viewing the detective that was

277

00:13:02,700 --> 00:13:01,000

involved the remote viewing was directly

278

00:13:04,800 --> 00:13:02,710

responsible for the guy being caught

279

00:13:06,930 --> 00:13:04,810

that that is excellent we did have

280

00:13:09,810 --> 00:13:06,940

Angela on about two months ago I think

281

00:13:13,320 --> 00:13:09,820

and she was a wonderful guest as well

282

00:13:15,420 --> 00:13:13,330

and now I must say that part of the

283

00:13:19,170 --> 00:13:15,430

mystery of why there are so many Smith's

284

00:13:21,390 --> 00:13:19,180

at remote viewing it's Nancy Smith and

285

00:13:23,760 --> 00:13:21,400

you and Angela Thompson Smith and I

286

00:13:26,490 --> 00:13:23,770

begin to think that everybody's name was

287

00:13:27,600 --> 00:13:26,500

going to be Smith well my dad used to

288

00:13:29,310 --> 00:13:27,610

say that everyone

289

00:13:32,340 --> 00:13:29,320

named Smith totally did something wrong

290

00:13:37,590 --> 00:13:32,350

oh well that makes me wonder what

291

00:13:39,750 --> 00:13:37,600

Ferruccio did wrong Wow the other

292

00:13:41,820 --> 00:13:39,760

question I asked you know obviously

293

00:13:45,450 --> 00:13:41,830

you're seeing something but could you do

294

00:13:47,850 --> 00:13:45,460

you ever hear anything is it also you do

295

00:13:50,040 --> 00:13:47,860

that's yes we're remote viewing is

296

00:13:51,660 --> 00:13:50,050

different than clairvoyance and really

297

00:13:52,740 --> 00:13:51,670

shouldn't ought to be called remote

298

00:13:56,400 --> 00:13:52,750

viewing it should have been called

299

00:13:58,200 --> 00:13:56,410

remote perception which is why this DVD

300

00:14:00,240 --> 00:13:58,210

home training program that I

301
00:14:02,670 --> 00:14:00,250
collaborated on it's called remote

302
00:14:04,770 --> 00:14:02,680
perception because that's what it should

303
00:14:08,220 --> 00:14:04,780
have been called Ingo Swann is the one

304
00:14:09,810 --> 00:14:08,230
that named it way back in 1971 long for

305
00:14:11,160 --> 00:14:09,820
you know well at least a year or more

306
00:14:14,280 --> 00:14:11,170
before the government got involved but

307
00:14:15,750 --> 00:14:14,290
he he he relied on the visual aspect of

308
00:14:18,240 --> 00:14:15,760
it mostly and so he called it our more

309
00:14:20,070 --> 00:14:18,250
viewing but in fact you get all of the

310
00:14:23,550 --> 00:14:20,080
five senses involved in fact even some

311
00:14:26,190 --> 00:14:23,560
of the other subliminal senses as well

312
00:14:29,750 --> 00:14:26,200
get getting involved in this process and

313
00:14:33,870 --> 00:14:29,760

so you can hear smell taste touch and

314

00:14:37,320 --> 00:14:33,880

see things as well sometimes it's

315

00:14:38,970 --> 00:14:37,330

actually quite vivid not it's never of

316

00:14:40,770 --> 00:14:38,980

course quite the same as actually seeing

317

00:14:43,050 --> 00:14:40,780

it or hearing it or smelling it in

318

00:14:44,670 --> 00:14:43,060

person right but sometimes it's quite

319

00:14:46,530 --> 00:14:44,680

pronounced although other times it can

320

00:14:48,750 --> 00:14:46,540

be very subtle and part of the trick is

321

00:14:52,500 --> 00:14:48,760

to learn how to recognize the subtle

322

00:14:56,040 --> 00:14:52,510

input as much as the I I have a question

323

00:15:03,110 --> 00:14:56,050

about that it seems that I often get

324

00:15:06,210 --> 00:15:03,120

songs while I'm remote viewing well it's

325

00:15:10,440 --> 00:15:06,220

it's it's completely crazy even me when

326

00:15:12,270 --> 00:15:10,450

you did the talk you did about idea

327

00:15:14,700 --> 00:15:12,280

grams which we don't have to get into

328

00:15:16,890 --> 00:15:14,710

here as you know because that's going

329

00:15:20,010 --> 00:15:16,900

into it a little probably too much depth

330

00:15:22,350 --> 00:15:20,020

down of the weeds too much yeah when it

331

00:15:24,000 --> 00:15:22,360

you know it was the sailing when it was

332

00:15:26,840 --> 00:15:24,010

the picture of the great lake or

333

00:15:30,020 --> 00:15:26,850

something like that that came up on the

334

00:15:33,540 --> 00:15:30,030

on the screen when when it was revealed

335

00:15:36,030 --> 00:15:33,550

you know I had been singing the song

336

00:15:38,010 --> 00:15:36,040

sailing in my mind sailing away it's

337

00:15:40,320 --> 00:15:38,020

like a you know a soft rock song

338

00:15:42,480 --> 00:15:40,330

I don't sing so

339

00:15:48,330 --> 00:15:42,490

I'm not going to regale you with the

340

00:15:51,270 --> 00:15:48,340

sound buddy but also when I had

341

00:15:55,590 --> 00:15:51,280

remote-view day an earthquake some years

342

00:15:59,760 --> 00:15:55,600

ago I kept getting the the Johnny Cash

343

00:16:02,100 --> 00:15:59,770

song the Ring of Fire and and it's

344

00:16:04,740 --> 00:16:02,110

always the songs that I get and I'm not

345

00:16:08,550 --> 00:16:04,750

a musical person the songs that I get

346

00:16:12,300 --> 00:16:08,560

are generally really accurate and and I

347

00:16:15,840 --> 00:16:12,310

wondered if anybody else had that well

348

00:16:17,460 --> 00:16:15,850

um I you know I can't say who all me we

349

00:16:19,770 --> 00:16:17,470

had that kind of experience but it kind

350

00:16:21,480 --> 00:16:19,780

of makes sense in that you're not

351
00:16:25,020 --> 00:16:21,490
consciously paying attention at the time

352
00:16:26,520 --> 00:16:25,030
to the signal right grant alright and so

353
00:16:28,200 --> 00:16:26,530
your subconscious is trying to figure

354
00:16:30,270 --> 00:16:28,210
out a way to convey that to you and so

355
00:16:32,160 --> 00:16:30,280
it says I know I'm gonna have them sing

356
00:16:34,410 --> 00:16:32,170
Johanna ever singing Johnny Cash and

357
00:16:39,270 --> 00:16:34,420
maybe she'll get the hint you know it's

358
00:16:41,790 --> 00:16:39,280
interesting because that almost gives

359
00:16:43,530 --> 00:16:41,800
you like okay expressed it's like two

360
00:16:45,210 --> 00:16:43,540
brains like you know your conscious

361
00:16:47,790 --> 00:16:45,220
driving and they're going to work

362
00:16:49,680 --> 00:16:47,800
whatever and then your subconscious is

363
00:16:51,330 --> 00:16:49,690

rolling along striding to wake you up

364

00:16:53,760 --> 00:16:51,340

and saying you know there's gonna be an

365

00:16:56,760 --> 00:16:53,770

earthquake and right let's sing Ring of

366

00:16:59,700 --> 00:16:56,770

Fire maybe that'll give her an idea oh

367

00:17:01,950 --> 00:16:59,710

that's really fascinating Paul so you

368

00:17:04,440 --> 00:17:01,960

think that the underlying consciousness

369

00:17:07,170 --> 00:17:04,450

really can sort of burble up to the

370

00:17:08,880 --> 00:17:07,180

surface a bit sure I mean it does it all

371

00:17:10,680 --> 00:17:08,890

the time in just everyday life

372

00:17:13,380 --> 00:17:10,690

uh-huh I mean that that's half of what

373

00:17:15,720 --> 00:17:13,390

Freud talked about was the fact that the

374

00:17:16,980 --> 00:17:15,730

until call it the unconscious I don't

375

00:17:19,070 --> 00:17:16,990

know that there's a distinction really

376

00:17:22,680 --> 00:17:19,080

between subconscious and unconscious but

377

00:17:24,480 --> 00:17:22,690

because the unconscious actually caused

378

00:17:27,780 --> 00:17:24,490

us to think and do all kinds of things

379

00:17:29,670 --> 00:17:27,790

in in our waking life that we thought we

380

00:17:31,590 --> 00:17:29,680

were just thinking of right then but it

381

00:17:33,960 --> 00:17:31,600

actually is traceable to the unconscious

382

00:17:37,770 --> 00:17:33,970

and trauma in the past and all that kind

383

00:17:39,960 --> 00:17:37,780

of Freudian stuff so and in fact a lot

384

00:17:41,160 --> 00:17:39,970

of the psychology research and with what

385

00:17:44,310 --> 00:17:41,170

used to be called subliminal perception

386

00:17:46,980 --> 00:17:44,320

is now called priming and perception

387

00:17:48,780 --> 00:17:46,990

without awareness that kind of thing all

388

00:17:50,310 --> 00:17:48,790

that research really does suggest that

389

00:17:54,090 --> 00:17:50,320

there's a lot going on in subconscious

390

00:17:57,080 --> 00:17:54,100

level that we are almost bliss

391

00:17:59,610 --> 00:17:57,090

unaware of in our normal waking state so

392

00:18:02,310 --> 00:17:59,620

you know that's just a very interesting

393

00:18:04,380 --> 00:18:02,320

sort you know I guess I've been aware of

394

00:18:07,470 --> 00:18:04,390

the concept and I never had it put quite

395

00:18:11,490 --> 00:18:07,480

like that well we all I think we all

396

00:18:13,799 --> 00:18:11,500

basically do we meet somebody and we

397

00:18:16,080 --> 00:18:13,809

immediately like them we meet somebody

398

00:18:18,900 --> 00:18:16,090

and we say mmm I think I'm going to stay

399

00:18:20,760 --> 00:18:18,910

away from that person and even if

400

00:18:22,919 --> 00:18:20,770

there's no obvious thing like they're

401
00:18:33,960 --> 00:18:22,929
not carrying a dagger that's pointed at

402
00:18:36,510 --> 00:18:33,970
you in their hand yeah it is interesting

403
00:18:38,730 --> 00:18:36,520
somebody I don't know if it was you or

404
00:18:42,450 --> 00:18:38,740
not I must say my memory fails me but

405
00:18:44,789 --> 00:18:42,460
was talking about it at the that can the

406
00:18:45,360 --> 00:18:44,799
convention the conference down in New

407
00:18:51,510 --> 00:18:45,370
Orleans

408
00:18:53,100 --> 00:18:51,520
as right brain and left brain stop yeah

409
00:18:56,190 --> 00:18:53,110
in fact there's some discussion that

410
00:18:57,720 --> 00:18:56,200
maybe you sub slash unconscious is

411
00:19:00,500 --> 00:18:57,730
really just the right brain because the

412
00:19:02,520 --> 00:19:00,510
right brain isn't verbal particularly

413
00:19:06,169 --> 00:19:02,530

the left brain that's where all of our

414

00:19:08,340 --> 00:19:06,179

most of our verbal mechanism is and our

415

00:19:10,320 --> 00:19:08,350

discussion and our talking and all of

416

00:19:12,630 --> 00:19:10,330

that kind of thing and so there's some

417

00:19:15,600 --> 00:19:12,640

suspicion that maybe the the right brain

418

00:19:17,789 --> 00:19:15,610

is where the unconscious is and and all

419

00:19:20,570 --> 00:19:17,799

of this is going on over there all the

420

00:19:24,800 --> 00:19:20,580

stuff that we're not necessarily

421

00:19:28,640 --> 00:19:26,960

and then it gets fed over through the

422

00:19:31,160 --> 00:19:28,650

corpus collosum into the left brain and

423

00:19:32,690 --> 00:19:31,170

then we you know we behave according to

424

00:19:34,190 --> 00:19:32,700

what we need to behave that are as a

425

00:19:37,220 --> 00:19:34,200

ripening dictates but that's one

426

00:19:40,640 --> 00:19:37,230

possible theory about it now if they

427

00:19:42,530 --> 00:19:40,650

could if if someone in the audience is

428

00:19:45,280 --> 00:19:42,540

interested in mastering this then they

429

00:19:48,680 --> 00:19:45,290

can get your DVD that would help them

430

00:19:52,190 --> 00:19:48,690

once it comes out or start them down the

431

00:19:54,050 --> 00:19:52,200

road yeah it'll part on the 14th of July

432

00:19:56,420 --> 00:19:54,060

is when we're gonna go live with it

433

00:19:57,770 --> 00:19:56,430

fest you including the website and

434

00:20:00,010 --> 00:19:57,780

everything else so if people are

435

00:20:05,510 --> 00:20:00,020

interested they could go to the website

436

00:20:07,840 --> 00:20:05,520

free dowsing DVD calm right that's where

437

00:20:14,300 --> 00:20:07,850

that's that's a portal to the dowsing

438

00:20:16,850 --> 00:20:14,310

training propane in traduction to my

439

00:20:19,850 --> 00:20:16,860

training program and they can go there

440

00:20:22,580 --> 00:20:19,860

and get that they can order that and

441

00:20:26,030 --> 00:20:22,590

then they'll get on the mailing list and

442

00:20:27,350 --> 00:20:26,040

as soon as the the remote perception

443

00:20:29,830 --> 00:20:27,360

course comes out then they'll be

444

00:20:35,510 --> 00:20:29,840

notified about it so why don't you know

445

00:20:38,810 --> 00:20:35,520

that address that web address it is the

446

00:20:42,230 --> 00:20:38,820

three WS of course www dot and then is

447

00:20:45,800 --> 00:20:42,240

literally the words strung together free

448

00:20:50,330 --> 00:20:45,810

dowsing DVD com

449

00:20:54,140 --> 00:20:50,340

so the word free fr EE thousand do W f

450

00:20:56,660 --> 00:20:54,150

ing DVD com

451
00:20:58,610 --> 00:20:56,670
now I always thought dowsing was just

452
00:21:02,950 --> 00:20:58,620
with water and a stick

453
00:21:06,080 --> 00:21:02,960
am I wrong I guess obviously I guess we

454
00:21:08,200 --> 00:21:06,090
missing we search for missing h-bombs we

455
00:21:12,320 --> 00:21:08,210
search for downed aircraft we search for

456
00:21:14,960 --> 00:21:12,330
hostages we search for for contraband

457
00:21:18,230 --> 00:21:14,970
narcotics on container ships we search

458
00:21:20,720 --> 00:21:18,240
for all kinds of things anything that

459
00:21:22,880 --> 00:21:20,730
that you we didn't know where it was but

460
00:21:24,380 --> 00:21:22,890
knew what it was that's that's a

461
00:21:26,720 --> 00:21:24,390
requirement in dowsing after know what

462
00:21:27,950 --> 00:21:26,730
it is you're looking for right anything

463
00:21:29,300 --> 00:21:27,960

we knew what it was but didn't know

464

00:21:31,190 --> 00:21:29,310

where it was we at one time or another

465

00:21:33,410 --> 00:21:31,200

we're probably asked to remote or well

466

00:21:35,450 --> 00:21:33,420

remove you and then dowels for using the

467

00:21:38,180 --> 00:21:35,460

dowsing as an adjunct to remote viewing

468

00:21:43,999 --> 00:21:38,190

and you use maps to do this you use

469

00:21:46,009 --> 00:21:44,009

dowsing okay maps diagrams globe so

470

00:21:48,230 --> 00:21:46,019

whatever whatever it took

471

00:21:50,210 --> 00:21:48,240

so the original water dowsers were

472

00:21:52,220 --> 00:21:50,220

probably just using this stick as a

473

00:21:54,950 --> 00:21:52,230

means to make them believe that they

474

00:21:57,950 --> 00:21:54,960

could do that you know just like an

475

00:22:01,039 --> 00:21:57,960

external talisman or whatever say yeah I

476

00:22:03,379 --> 00:22:01,049

can find water but uh but that's where

477

00:22:06,619 --> 00:22:03,389

the dowsing can so you find things with

478

00:22:08,509 --> 00:22:06,629

this that is just I really am very new

479

00:22:12,769 --> 00:22:08,519

to this so it's to me it's quite amazing

480

00:22:14,240 --> 00:22:12,779

yeah it and it works I mean in fact it

481

00:22:16,759 --> 00:22:14,250

dawns on me we could probably do a whole

482

00:22:18,320 --> 00:22:16,769

other show on dowsing and I have a lot

483

00:22:20,119 --> 00:22:18,330

to say about that I don't want to you

484

00:22:23,149 --> 00:22:20,129

know take over have that take over the

485

00:22:28,159 --> 00:22:23,159

conversation but yeah a little bit about

486

00:22:30,139 --> 00:22:28,169

your new book well I noticed in

487

00:22:31,850 --> 00:22:30,149

surveying the literature the remote

488

00:22:35,509 --> 00:22:31,860

viewing field but there was a big gap

489

00:22:38,869 --> 00:22:35,519

that was missing and that gap was a

490

00:22:41,330 --> 00:22:38,879

basic beginners book that introduces

491

00:22:43,190 --> 00:22:41,340

people to the entire topic of remote

492

00:22:46,610 --> 00:22:43,200

viewing a kind of survey of the field

493

00:22:48,169 --> 00:22:46,620

and and I kind of owe it to my dad

494

00:22:49,730 --> 00:22:48,179

because he said well you shouldn't write

495

00:22:51,649 --> 00:22:49,740

a pamphlet just kind of an introductory

496

00:22:53,690 --> 00:22:51,659

thing and in publish it and he told give

497

00:22:56,749 --> 00:22:53,700

me that I did probably 15 years ago you

498

00:22:58,129 --> 00:22:56,759

know and and I said oh yeah that's good

499

00:23:01,100 --> 00:22:58,139

idea I'll get around to it someday and I

500

00:23:02,570 --> 00:23:01,110

realized there was that huge gap it's

501
00:23:06,049 --> 00:23:02,580
still there people write their memoirs

502
00:23:08,029 --> 00:23:06,059
people write technical books on on the

503
00:23:09,680 --> 00:23:08,039
technical aspects of aspects of dowsing

504
00:23:12,619 --> 00:23:09,690
but nobody's ever written a really good

505
00:23:14,180 --> 00:23:12,629
introductory book and so the essential

506
00:23:17,180 --> 00:23:14,190
guide remote viewing that's the whole

507
00:23:18,980 --> 00:23:17,190
point of the book is to introduce people

508
00:23:21,950 --> 00:23:18,990
to dowsing it actually has three

509
00:23:23,419 --> 00:23:21,960
purposes one is if you just sort about

510
00:23:24,560 --> 00:23:23,429
remote viewing you don't really know

511
00:23:26,600 --> 00:23:24,570
what it is you know one spend a lot of

512
00:23:28,249 --> 00:23:26,610
time and money you can get this book and

513
00:23:29,600 --> 00:23:28,259

it will give you a very thorough

514

00:23:31,460 --> 00:23:29,610

introduction to it

515

00:23:33,460 --> 00:23:31,470

yeah all the different aspects of it and

516

00:23:36,230 --> 00:23:33,470

even teach you a little bit how to do it

517

00:23:38,480 --> 00:23:36,240

and you know and it gives you a starting

518

00:23:41,749 --> 00:23:38,490

point the other the other set of people

519

00:23:43,430 --> 00:23:41,759

who is important for it would be let's

520

00:23:44,659 --> 00:23:43,440

say you are into remote viewing and you

521

00:23:47,960 --> 00:23:44,669

have a bunch of family and friends who

522

00:23:52,040 --> 00:23:47,970

think you're crazy you're mining you

523

00:23:53,960 --> 00:23:52,050

what I hear my gender and you want

524

00:23:56,290 --> 00:23:53,970

something to introduce them to it that

525

00:23:58,340 --> 00:23:56,300

isn't going to get into all the UFOs and

526

00:24:00,410 --> 00:23:58,350

Bigfoot and all that stuff that a lot of

527

00:24:02,150 --> 00:24:00,420

people want to like to connect remote

528

00:24:03,830 --> 00:24:02,160

viewing to just give them a very

529

00:24:04,880 --> 00:24:03,840

sensible approach and then they can

530

00:24:07,760 --> 00:24:04,890

connect it to whatever they want

531

00:24:09,860 --> 00:24:07,770

afterwards right it tries to D

532

00:24:11,360 --> 00:24:09,870

sensationalize it while at the same time

533

00:24:13,340 --> 00:24:11,370

giving you responsible information and

534

00:24:15,020 --> 00:24:13,350

then there's one for the demographic it

535

00:24:15,560 --> 00:24:15,030

may appeal to those our folks have been

536

00:24:17,480 --> 00:24:15,570

in dowsing

537

00:24:21,200 --> 00:24:17,490

I'm sorry remote viewing a long time and

538

00:24:22,880 --> 00:24:21,210

just don't know maybe they know a lot

539

00:24:24,260 --> 00:24:22,890

about some parts of it in other parts of

540

00:24:26,840 --> 00:24:24,270

it they don't really know about and so

541

00:24:30,230 --> 00:24:26,850

so it that pretty much covers I think

542

00:24:32,690 --> 00:24:30,240

the entire field of reasons why people

543

00:24:34,550 --> 00:24:32,700

might want to have a beginning a kind of

544

00:24:37,490 --> 00:24:34,560

an introductory book on remote viewing

545

00:24:39,440 --> 00:24:37,500

yeah I think it's important because you

546

00:24:41,240 --> 00:24:39,450

know when people mentioned remote

547

00:24:43,250 --> 00:24:41,250

viewing to me I think of you know the

548

00:24:46,340 --> 00:24:43,260

infamous men stare at goats and that's

549

00:24:48,080 --> 00:24:46,350

it so I think that's great that you

550

00:24:49,940 --> 00:24:48,090

wrote something like that I think you're

551
00:24:53,990 --> 00:24:49,950
quite right it is important for someone

552
00:24:57,680 --> 00:24:54,000
like my sister but I lost you there yeah

553
00:24:59,060 --> 00:24:57,690
are you there yes good you must have

554
00:25:12,620 --> 00:24:59,070
been on delay and started to say

555
00:25:15,350 --> 00:25:12,630
something bad in any case so I'm going

556
00:25:17,720 --> 00:25:15,360
when I receive my want of the copy that

557
00:25:19,430 --> 00:25:17,730
I want in the raffle which I'm really

558
00:25:22,310 --> 00:25:19,440
looking for when is that coming out when

559
00:25:25,700 --> 00:25:22,320
am I gonna get my copy well hopefully

560
00:25:29,270 --> 00:25:25,710
hopefully hopefully August it's in the

561
00:25:31,130 --> 00:25:29,280
process of being types that right now is

562
00:25:33,200 --> 00:25:31,140
almost done went through a final proof

563
00:25:36,290 --> 00:25:33,210

of it and I should hopefully by the end

564

00:25:38,420 --> 00:25:36,300

of the week we'll have a a final types

565

00:25:40,970 --> 00:25:38,430

that were in which then we will you know

566

00:25:42,260 --> 00:25:40,980

send off to a proofreader and once the

567

00:25:45,170 --> 00:25:42,270

proofreader stand all the things I

568

00:25:47,030 --> 00:25:45,180

missed all right then it will just be a

569

00:25:49,370 --> 00:25:47,040

matter of having it printed in ships so

570

00:25:52,460 --> 00:25:49,380

well great great I'm looking forward to

571

00:25:55,460 --> 00:25:52,470

it and I'm going to lend it to miss Kate

572

00:25:57,140 --> 00:25:55,470

Valentine so she will understand what

573

00:25:58,760 --> 00:25:57,150

I'm talking about when I talk about

574

00:26:01,220 --> 00:25:58,770

remote viewing and I think she really

575

00:26:05,750 --> 00:26:01,230

has has the gist of it at this juncture

576

00:26:09,320 --> 00:26:05,760

so now

577

00:26:11,930 --> 00:26:09,330

I think one thing that people who are in

578

00:26:14,660 --> 00:26:11,940

our listening audience also don't

579

00:26:18,170 --> 00:26:14,670

understand is the different types of

580

00:26:20,660 --> 00:26:18,180

remote viewing and I've studied several

581

00:26:23,480 --> 00:26:20,670

different types and as I said to you

582

00:26:27,410 --> 00:26:23,490

before I really find that my success

583

00:26:31,580 --> 00:26:27,420

depends on my rapport with the the

584

00:26:34,670 --> 00:26:31,590

Tasker and not whether it's a RV or CRV

585

00:26:36,590 --> 00:26:34,680

but maybe you would like to explain some

586

00:26:38,660 --> 00:26:36,600

of the different types of remote viewing

587

00:26:41,810 --> 00:26:38,670

that are out there and and the reason

588

00:26:44,600 --> 00:26:41,820

for all of them including I've mentioned

589

00:26:46,970 --> 00:26:44,610

some sometimes on the air about how the

590

00:26:49,480 --> 00:26:46,980

Hawaiian remote the Hawaii remote

591

00:26:56,480 --> 00:26:49,490

viewers do it which is really very

592

00:26:58,370 --> 00:26:56,490

painstakingly protocol yep so and that's

593

00:26:59,600 --> 00:26:58,380

actually one of the virtues of the book

594

00:27:02,240 --> 00:26:59,610

we were just talking about is I have a

595

00:27:04,160 --> 00:27:02,250

whole chapter on methods I'd explain the

596

00:27:05,990 --> 00:27:04,170

different ways of doing things but but

597

00:27:12,230 --> 00:27:06,000

just for now since the book isn't

598

00:27:13,850 --> 00:27:12,240

available yet so CRV instance for

599

00:27:16,430 --> 00:27:13,860

controlled remote viewing and it was a

600

00:27:18,320 --> 00:27:16,440

more disciplined approach to it that

601
00:27:20,720 --> 00:27:18,330
Ingo Swann and helped put off develop to

602
00:27:23,000 --> 00:27:20,730
help people well is actually developed

603
00:27:26,680 --> 00:27:23,010
so that they would have a a vehicle to

604
00:27:29,720 --> 00:27:26,690
transmit remote viewing capability to

605
00:27:31,940 --> 00:27:29,730
military personnel who might not have

606
00:27:35,330 --> 00:27:31,950
had a thought they had a side load on

607
00:27:37,250 --> 00:27:35,340
their bodies right and so that's why I

608
00:27:39,140 --> 00:27:37,260
learned it as they brought me in I had

609
00:27:41,660 --> 00:27:39,150
never had any kind of psychic experience

610
00:27:43,730 --> 00:27:41,670
whatsoever and they said well we have

611
00:27:45,560 --> 00:27:43,740
this contract with s RI and they're

612
00:27:50,870 --> 00:27:45,570
going to teach you how to be a psychic I

613
00:27:52,970 --> 00:27:50,880

said okay that sounds good and and

614

00:27:54,770 --> 00:27:52,980

that's the point of CRV it's very it's

615

00:27:57,530 --> 00:27:54,780

quite structured and it's probably the

616

00:27:59,510 --> 00:27:57,540

grandfather of almost I would say

617

00:28:01,850 --> 00:27:59,520

probably 90% of the people doing remote

618

00:28:04,730 --> 00:28:01,860

viewing out there their methodology is

619

00:28:08,570 --> 00:28:04,740

either CRV or some some descendants of

620

00:28:10,250 --> 00:28:08,580

CRV arv actually interestingly enough

621

00:28:14,840 --> 00:28:10,260

that sensor associative remote viewing

622

00:28:17,030 --> 00:28:14,850

that doesn't actually involve a method

623

00:28:19,400 --> 00:28:17,040

of remote viewing itself what it has to

624

00:28:23,420 --> 00:28:19,410

do with is a way of applying

625

00:28:25,610 --> 00:28:23,430

viewing and it's designed to help help

626

00:28:28,100 --> 00:28:25,620

the you know remote viewing people

627

00:28:30,650 --> 00:28:28,110

working with him or her to be able to

628

00:28:32,900 --> 00:28:30,660

predict future events so you can take

629

00:28:35,150 --> 00:28:32,910

advantage of that advanced information

630

00:28:38,060 --> 00:28:35,160

it's a kind of precognitive remote

631

00:28:39,470 --> 00:28:38,070

viewing if you will and it's used to

632

00:28:41,780 --> 00:28:39,480

predict the outcome of sporting events

633

00:28:43,160 --> 00:28:41,790

or stock prices where they're going to

634

00:28:47,930 --> 00:28:43,170

close up or down and that kind of thing

635

00:28:50,240 --> 00:28:47,940

and in fact it's one of the more popular

636

00:28:52,670 --> 00:28:50,250

forms right now one more popular

637

00:28:54,110 --> 00:28:52,680

applications because people are making

638

00:28:55,550 --> 00:28:54,120

money at it you know that old saying

639

00:28:57,980 --> 00:28:55,560

we'll look your psychie quiet you're

640

00:28:59,510 --> 00:28:57,990

rich mm-hmm well there are people who

641

00:29:02,090 --> 00:28:59,520

are actually making quite a bit of money

642

00:29:05,420 --> 00:29:02,100

with remote viewing using this ARV

643

00:29:10,700 --> 00:29:05,430

associative remote viewing process in

644

00:29:13,790 --> 00:29:10,710

fact my son in college at University of

645

00:29:15,320 --> 00:29:13,800

Colorado the class he was in they

646

00:29:17,990 --> 00:29:15,330

decided as a class project they were

647

00:29:19,700 --> 00:29:18,000

going to run an ARV project and the

648

00:29:22,190 --> 00:29:19,710

stock market was going to be their

649

00:29:24,500 --> 00:29:22,200

target and they had that one of the

650

00:29:25,910 --> 00:29:24,510

course auditors kicked in he was a comm

651
00:29:28,760 --> 00:29:25,920
millionaire so he thought he'd play

652
00:29:30,560 --> 00:29:28,770
along and he he kicked in ten thousand

653
00:29:33,980 --> 00:29:30,570
bucks of seed money and by the time they

654
00:29:36,530 --> 00:29:33,990
were done in two weeks seven correct

655
00:29:38,390 --> 00:29:36,540
trades and no misses they had turned

656
00:29:40,520 --> 00:29:38,400
that ten thousand into twenty six

657
00:29:48,740 --> 00:29:40,530
thousand five hundred dollars nice very

658
00:29:50,780 --> 00:29:48,750
nice there is you know according to

659
00:29:53,810 --> 00:29:50,790
Russell Targ at any rate there is

660
00:29:58,040 --> 00:29:53,820
fatigue that sets in after a point is

661
00:29:59,750 --> 00:29:58,050
there not yes and I presumably thing

662
00:30:01,070 --> 00:29:59,760
about it are you talking about Social

663
00:30:03,020 --> 00:30:01,080

Forum Oh being here or just remote

664

00:30:05,480 --> 00:30:03,030

viewing in general I'm talking about

665

00:30:08,540 --> 00:30:05,490

associative remote view for a stock

666

00:30:11,210 --> 00:30:08,550

market where you were like with Russell

667

00:30:14,360 --> 00:30:11,220

it was the silver the silver futures or

668

00:30:17,330 --> 00:30:14,370

something yeah that nature yeah I've

669

00:30:21,380 --> 00:30:17,340

done a lot of ARV in my past and I found

670

00:30:25,280 --> 00:30:21,390

that I went up and down in terms of

671

00:30:29,000 --> 00:30:25,290

success partly based on I was getting

672

00:30:32,150 --> 00:30:29,010

bored right so you do have to kind of

673

00:30:33,260 --> 00:30:32,160

pace yourself and if you find yourself

674

00:30:35,510 --> 00:30:33,270

just kind of getting bored

675

00:30:37,250 --> 00:30:35,520

just tossing off a session or two you

676

00:30:40,160 --> 00:30:37,260

might want to stop and take a break at

677

00:30:41,450 --> 00:30:40,170

that point this in this case we're not

678

00:30:43,880 --> 00:30:41,460

talking about viewing we're talking

679

00:30:46,090 --> 00:30:43,890

psychology human psychology is such that

680

00:30:48,980 --> 00:30:46,100

anything it does over over time

681

00:30:50,690 --> 00:30:48,990

repetitively becomes tedious right and

682

00:30:53,270 --> 00:30:50,700

you start taking shortcuts you start

683

00:30:58,070 --> 00:30:53,280

getting lazy so yeah that does indeed

684

00:31:00,020 --> 00:30:58,080

happen um one one other thing extended

685

00:31:03,650 --> 00:31:00,030

remote viewing would you like to define

686

00:31:06,440 --> 00:31:03,660

that for our listening audience sure

687

00:31:08,420 --> 00:31:06,450

that was a kind of a proto remote

688

00:31:10,310 --> 00:31:08,430

viewing approach that skip that water

689

00:31:12,260 --> 00:31:10,320

developed at Fort Meade now I don't know

690

00:31:15,590 --> 00:31:12,270

how much your audience knows about skip

691

00:31:18,440 --> 00:31:15,600

that water of you I've mentioned him

692

00:31:20,330 --> 00:31:18,450

before and he in fact was one of my

693

00:31:23,390 --> 00:31:20,340

remote viewing instructors in an

694

00:31:27,740 --> 00:31:23,400

excellent one he was and a wonderful

695

00:31:30,440 --> 00:31:27,750

gentleman as well so you know I've

696

00:31:33,590 --> 00:31:30,450

mentioned him a lot but I have not

697

00:31:37,310 --> 00:31:33,600

delved into you know his entire history

698

00:31:39,950 --> 00:31:37,320

perhaps he will come on one day and we

699

00:31:43,070 --> 00:31:39,960

Gail us with some well let me give me a

700

00:31:44,930 --> 00:31:43,080

two-cent soundbite on him we knew him as

701
00:31:46,490 --> 00:31:44,940
Fred because his official name is Fred

702
00:31:48,380 --> 00:31:46,500
Holmes that water but he preferred the

703
00:31:52,010 --> 00:31:48,390
nickname skip after retired from the

704
00:31:54,230 --> 00:31:52,020
Army but he was the the officer that

705
00:31:57,500 --> 00:31:54,240
actually was tasked to create the army

706
00:32:00,080 --> 00:31:57,510
remote viewing program and he started it

707
00:32:03,290 --> 00:32:00,090
in 1977 and working with other officers

708
00:32:06,230 --> 00:32:03,300
as well and retired finally in 1987 but

709
00:32:07,940 --> 00:32:06,240
he created the army program and he was

710
00:32:10,340 --> 00:32:07,950
kind of a guiding light for those ten

711
00:32:11,840 --> 00:32:10,350
years and in the course of that he

712
00:32:14,090 --> 00:32:11,850
developed this extended remote viewing

713
00:32:16,760 --> 00:32:14,100

approach which takes advantage of a

714

00:32:19,730 --> 00:32:16,770

hypnagogic state that is mind awake body

715

00:32:22,760 --> 00:32:19,740

asleep and and then extended remote

716

00:32:25,190 --> 00:32:22,770

viewing or as we called it ERV you

717

00:32:27,260 --> 00:32:25,200

weren't sitting at a table fairly alert

718

00:32:28,760 --> 00:32:27,270

like you are in cr-v and this one you'd

719

00:32:30,230 --> 00:32:28,770

be laying on a bed or a couch or

720

00:32:33,680 --> 00:32:30,240

something and you try and establish that

721

00:32:36,020 --> 00:32:33,690

that mental state that's just between

722

00:32:37,970 --> 00:32:36,030

awake and asleep the idea being that

723

00:32:40,520 --> 00:32:37,980

your subconscious can communicate with

724

00:32:43,160 --> 00:32:40,530

you better when you're in that state or

725

00:32:44,540 --> 00:32:43,170

condition and then a monitor would come

726
00:32:46,580 --> 00:32:44,550
in and start asking you questions about

727
00:32:47,060 --> 00:32:46,590
a particular target they'd give you the

728
00:32:49,370 --> 00:32:47,070
coordinates

729
00:32:51,799 --> 00:32:49,380
say okay at this this specific latitude

730
00:32:54,470 --> 00:32:51,809
and longitude there is something we want

731
00:32:55,820 --> 00:32:54,480
you to describe and the viewer not

732
00:32:58,669 --> 00:32:55,830
knowing what that is goes out in the

733
00:32:59,930 --> 00:32:58,679
subconscious directs the viewer to go to

734
00:33:03,529 --> 00:32:59,940
the right spot and then it starts

735
00:33:05,690 --> 00:33:03,539
describing what's there and so that's

736
00:33:07,310 --> 00:33:05,700
that's what we call ERV is essentially

737
00:33:10,789 --> 00:33:07,320
its mind awake body asleep laying on a

738
00:33:15,080 --> 00:33:10,799

bed being interviewed by by the monitors

739

00:33:18,560 --> 00:33:15,090

of this with you okay well the other

740

00:33:21,009 --> 00:33:18,570

thing on that arv that if you can

741

00:33:23,600 --> 00:33:21,019

predict things like stock market or

742

00:33:25,700 --> 00:33:23,610

sporting events whatever that almost

743

00:33:29,539 --> 00:33:25,710

indicates that the future sort of fixed

744

00:33:32,090 --> 00:33:29,549

in a way well it does almost seem it

745

00:33:35,779 --> 00:33:32,100

almost seems that way but actually not

746

00:33:37,669 --> 00:33:35,789

at least the way I look at our V and I

747

00:33:41,090 --> 00:33:37,679

used it a lot and trained a lot of

748

00:33:43,100 --> 00:33:41,100

people how to do it so my view of the

749

00:33:44,810 --> 00:33:43,110

future and I think it's supported by a

750

00:33:47,840 --> 00:33:44,820

lot of the evidences the future hasn't

751
00:33:50,060 --> 00:33:47,850
happened yet right there are a lot of

752
00:33:51,590 --> 00:33:50,070
people who that sounds seems like well

753
00:33:52,789 --> 00:33:51,600
it's obvious does it future hasn't

754
00:33:54,440 --> 00:33:52,799
happened yet but there are a lot of

755
00:33:58,159 --> 00:33:54,450
philosophies in which the future already

756
00:34:01,249 --> 00:33:58,169
exists and if you could predict the

757
00:34:02,930 --> 00:34:01,259
future with high degree of accuracy no

758
00:34:05,570 --> 00:34:02,940
matter what then it would probably an

759
00:34:08,710 --> 00:34:05,580
indication it did but in fact when we

760
00:34:11,030 --> 00:34:08,720
start trying to remote viewing view

761
00:34:12,589 --> 00:34:11,040
events and what I call the open future

762
00:34:14,089 --> 00:34:12,599
like when will the next terrorist attack

763
00:34:21,260 --> 00:34:14,099

me or where will the next terrorist

764

00:34:23,540 --> 00:34:21,270

attack be or what you know will the just

765

00:34:25,099 --> 00:34:23,550

big question itself will so-and-so win

766

00:34:28,550 --> 00:34:25,109

the World Series you know in three

767

00:34:30,980 --> 00:34:28,560

months or whatever that doesn't turn out

768

00:34:32,540 --> 00:34:30,990

to be very accurate occasionally you get

769

00:34:34,700 --> 00:34:32,550

an actual hit but most of the time

770

00:34:35,889 --> 00:34:34,710

you're wrong and in fact of course

771

00:34:38,059 --> 00:34:35,899

everybody associates

772

00:34:39,800 --> 00:34:38,069

you know foretelling the future with

773

00:34:42,200 --> 00:34:39,810

remote viewing was being psychic in

774

00:34:43,490 --> 00:34:42,210

general but in fact it's one of the

775

00:34:45,859 --> 00:34:43,500

things that being psychic is the heart

776
00:34:49,690 --> 00:34:45,869
it does the poorest at we just happen to

777
00:34:53,500 --> 00:34:49,700
remember those things that are hits okay

778
00:34:56,599 --> 00:34:53,510
so we think that but but remote

779
00:34:58,910 --> 00:34:56,609
assumption remote viewing actually is

780
00:35:00,109 --> 00:34:58,920
roughly the same accuracy level as if

781
00:35:00,620 --> 00:35:00,119
you were kind of trying to remote you

782
00:35:02,870 --> 00:35:00,630
the present

783
00:35:04,850 --> 00:35:02,880
the past and so the question is well if

784
00:35:06,290 --> 00:35:04,860
remote viewing an open future event

785
00:35:08,960 --> 00:35:06,300
doesn't work very well why does this

786
00:35:11,420 --> 00:35:08,970
work so well and I think the answer is

787
00:35:14,030 --> 00:35:11,430
if you remote viewing event that is

788
00:35:16,640 --> 00:35:14,040

determined is deterministic that is is

789

00:35:19,100 --> 00:35:16,650

destined to happen by the facts of the

790

00:35:20,930 --> 00:35:19,110

physical facts at the moment and as they

791

00:35:24,080 --> 00:35:20,940

continue out you can do that pretty

792

00:35:25,790 --> 00:35:24,090

accurately what happens with associative

793

00:35:28,670 --> 00:35:25,800

remote viewing is you essentially

794

00:35:31,400 --> 00:35:28,680

collapse the future time stream in that

795

00:35:33,890 --> 00:35:31,410

narrow corner of the future into an

796

00:35:35,330 --> 00:35:33,900

almost deterministic event which allows

797

00:35:37,400 --> 00:35:35,340

you to actually be accurate about them

798

00:35:39,650 --> 00:35:37,410

so let me explain real quickly how this

799

00:35:45,050 --> 00:35:39,660

works okay so let's say you want to know

800

00:35:47,780 --> 00:35:45,060

if if the longhorns or texas A&M are

801
00:35:49,310 --> 00:35:47,790
gonna win the football game okay well if

802
00:35:52,340 --> 00:35:49,320
you ask her about your who's gonna win

803
00:35:54,350 --> 00:35:52,350
Longhorns or I am the remote viewer just

804
00:35:56,210 --> 00:35:54,360
consciously coming up with an answer is

805
00:35:57,470 --> 00:35:56,220
never going to do any better than chance

806
00:35:59,930 --> 00:35:57,480
in that environment

807
00:36:01,250 --> 00:35:59,940
okay because they're aware and alert and

808
00:36:03,710 --> 00:36:01,260
they're essentially guessing even though

809
00:36:06,980 --> 00:36:03,720
they're trying to Remote View but what

810
00:36:08,780 --> 00:36:06,990
you do is you essentially use a it's

811
00:36:11,120 --> 00:36:08,790
kind of like a symbol for flag one flag

812
00:36:12,530 --> 00:36:11,130
means am is going to win the other flag

813
00:36:14,990 --> 00:36:12,540

means that text is gonna win right so

814

00:36:17,480 --> 00:36:15,000

you pick a target let's say a pencil to

815

00:36:20,450 --> 00:36:17,490

mean that an M is going to win and you

816

00:36:23,240 --> 00:36:20,460

pick another target a hamburger that

817

00:36:25,340 --> 00:36:23,250

stands for the Longhorns winning

818

00:36:27,560 --> 00:36:25,350

well the viewer doesn't know anything

819

00:36:29,990 --> 00:36:27,570

about what target you picked but you

820

00:36:31,580 --> 00:36:30,000

know that if a M is going to win you're

821

00:36:35,390 --> 00:36:31,590

going to show the viewer a pencil after

822

00:36:36,920 --> 00:36:35,400

the game and you know that if long one's

823

00:36:39,710 --> 00:36:36,930

when you're going to show the viewer a

824

00:36:41,150 --> 00:36:39,720

hamburger after the game right and so

825

00:36:43,220 --> 00:36:41,160

you ask the viewer I want you to

826

00:36:46,610 --> 00:36:43,230

describe the object I'm going to hand

827

00:36:49,820 --> 00:36:46,620

you once this game is over and if the

828

00:36:51,770 --> 00:36:49,830

remote viewer says well it's big and

829

00:36:54,950 --> 00:36:51,780

round a brown and soft and squishy and

830

00:36:56,830 --> 00:36:54,960

smells like food well that means you're

831

00:36:59,810 --> 00:36:56,840

going to hand the viewer a hamburger

832

00:37:01,520 --> 00:36:59,820

implied well it means in theory it means

833

00:37:03,140 --> 00:37:01,530

you're going to hand him the am burgers

834

00:37:06,190 --> 00:37:03,150

to the viewer afterwards you know that

835

00:37:09,470 --> 00:37:06,200

the viewer doesn't and so you wait and

836

00:37:11,540 --> 00:37:09,480

assuming the Longhorns win then that

837

00:37:13,100 --> 00:37:11,550

tells you okay the Longhorns won I've

838

00:37:14,360 --> 00:37:13,110

got to give the viewer a hamburger now

839

00:37:15,620 --> 00:37:14,370

the game is over

840

00:37:17,060 --> 00:37:15,630

that they're essentially spending

841

00:37:20,420 --> 00:37:17,070

themselves information back into the

842

00:37:22,250 --> 00:37:20,430

past ah so it's all it's also really

843

00:37:24,650 --> 00:37:22,260

important to follow through isn't it

844

00:37:26,360 --> 00:37:24,660

Paul yes absolutely well you know it's

845

00:37:28,280 --> 00:37:26,370

interesting what I would like to see if

846

00:37:30,800 --> 00:37:28,290

somebody do a research project where

847

00:37:32,990 --> 00:37:30,810

they they have a control group where

848

00:37:34,580 --> 00:37:33,000

they're giving them feedback in other

849

00:37:35,270 --> 00:37:34,590

words they do give them the hamburger in

850

00:37:36,920 --> 00:37:35,280

the future right

851
00:37:40,220 --> 00:37:36,930
and then another control group where

852
00:37:42,080 --> 00:37:40,230
they don't and just see what happens to

853
00:37:43,670 --> 00:37:42,090
see if the ones that get the feedback

854
00:37:45,380 --> 00:37:43,680
are more accurate than the ones who

855
00:37:47,090 --> 00:37:45,390
don't because there's one other

856
00:37:49,190 --> 00:37:47,100
possibility that subconscious knows

857
00:37:50,630 --> 00:37:49,200
what's going to be handed and and just

858
00:37:53,120 --> 00:37:50,640
tells me even if they don't ever get the

859
00:37:55,100 --> 00:37:53,130
feedback I think that that is not going

860
00:37:56,990 --> 00:37:55,110
to work very well but you would be

861
00:37:59,540 --> 00:37:57,000
addressing to test that condition and

862
00:38:02,510 --> 00:37:59,550
see what happens yeah and certainly what

863
00:38:04,850 --> 00:38:02,520

sure oh it's sort of an interesting way

864

00:38:07,640 --> 00:38:04,860

to view things there were there were

865

00:38:14,450 --> 00:38:07,650

some open-ended oh yeah I was going to

866

00:38:18,530 --> 00:38:14,460

say there were some people who were

867

00:38:21,920 --> 00:38:18,540

viewing for hedge funds by being sent to

868

00:38:25,130 --> 00:38:21,930

photos like one picture of a lemon and

869

00:38:27,170 --> 00:38:25,140

another picture of a baby crying so you

870

00:38:29,750 --> 00:38:27,180

know you wouldn't have any confusion

871

00:38:32,780 --> 00:38:29,760

between those and they would just pick

872

00:38:34,940 --> 00:38:32,790

one picture or another and that way and

873

00:38:38,180 --> 00:38:34,950

that then the hedge fund would go with

874

00:38:40,640 --> 00:38:38,190

what that picture was associated well we

875

00:38:42,470 --> 00:38:40,650

remember that remember what the it's

876

00:38:45,050 --> 00:38:42,480

actually the way around the picture goes

877

00:38:46,610 --> 00:38:45,060

with whatever the hedge fund does right

878

00:38:48,650 --> 00:38:46,620

right yeah

879

00:38:50,870 --> 00:38:48,660

yeah and that's actually what is used

880

00:38:52,700 --> 00:38:50,880

mostly these days as photos because it's

881

00:38:55,070 --> 00:38:52,710

really hard particularly a long distance

882

00:38:57,560 --> 00:38:55,080

to send the hamburger through the mail

883

00:39:01,070 --> 00:38:57,570

for example you know to give the viewer

884

00:39:03,170 --> 00:39:01,080

feedback long distance so so usually we

885

00:39:05,870 --> 00:39:03,180

use photos these days but obviously as

886

00:39:08,000 --> 00:39:05,880

you've just just described you have to

887

00:39:09,860 --> 00:39:08,010

make sure the photos are so much

888

00:39:11,420 --> 00:39:09,870

different than me then each other that

889

00:39:12,800 --> 00:39:11,430

it's obvious which one the viewers

890

00:39:15,740 --> 00:39:12,810

described because you know it can be

891

00:39:18,980 --> 00:39:15,750

very vague sometimes mm-hmm well I know

892

00:39:23,840 --> 00:39:18,990

time is getting late for you but I

893

00:39:27,630 --> 00:39:23,850

wanted to ask you that the final well

894

00:39:31,050 --> 00:39:27,640

the second to final question which is

895

00:39:34,440 --> 00:39:31,060

and I are both experiencers and we're

896

00:39:41,760 --> 00:39:34,450

very interested in the subject of UFOs

897

00:39:46,170 --> 00:39:41,770

and I have read accounts by Ingo Swann

898

00:39:49,110 --> 00:39:46,180

and by Joe mcmoneagle of INGOs viewing

899

00:39:51,900 --> 00:39:49,120

the moon and Joe's viewing Mars and

900

00:39:54,750 --> 00:39:51,910

while those accounts are you know

901
00:39:56,460 --> 00:39:54,760
extraordinarily interesting to me let me

902
00:39:58,860 --> 00:39:56,470
before you completely continue by the

903
00:40:00,870 --> 00:39:58,870
way I remote view the moon for dingo

904
00:40:02,460 --> 00:40:00,880
ditching us know sometimes we could talk

905
00:40:05,340 --> 00:40:02,470
about that maybe well I would love to

906
00:40:09,480 --> 00:40:05,350
talk about that because I also viewed

907
00:40:17,070 --> 00:40:09,490
the moon sort of accidentally but but

908
00:40:20,550 --> 00:40:17,080
the the remote viewing adventure that I

909
00:40:23,550 --> 00:40:20,560
found to be the most compelling in the

910
00:40:27,120 --> 00:40:23,560
reading of it was written down on a blog

911
00:40:30,120 --> 00:40:27,130
that skip Atwater once had I don't know

912
00:40:33,030 --> 00:40:30,130
if it's even up any longer and it had to

913
00:40:37,250 --> 00:40:33,040

do I believe he was the Tasker and

914

00:40:40,530 --> 00:40:37,260

tasked a number of viewers on a derelict

915

00:40:43,590 --> 00:40:40,540

argentinean I'm guessing a boat a

916

00:40:47,430 --> 00:40:43,600

military boat in the Argentinian waters

917

00:40:50,660 --> 00:40:47,440

and what do you know when I spoke to you

918

00:40:53,460 --> 00:40:50,670

about it you were one of the viewers so

919

00:41:00,870 --> 00:40:53,470

can you talk about that can you talk too

920

00:41:04,140 --> 00:41:00,880

bad yes so how this happened is that Hal

921

00:41:07,650 --> 00:41:04,150

put off had some there were some UFO

922

00:41:09,900 --> 00:41:07,660

events that he was curious about and he

923

00:41:13,050 --> 00:41:09,910

had some coordinates and such and some

924

00:41:16,980 --> 00:41:13,060

dates and all that and he passed a bunch

925

00:41:18,720 --> 00:41:16,990

of these on to skip now this

926
00:41:23,370 --> 00:41:18,730
particularly incident actually came from

927
00:41:24,720 --> 00:41:23,380
UFO researcher Jim McCampbell I talked

928
00:41:27,900 --> 00:41:24,730
to Hal about this because I was curious

929
00:41:30,060 --> 00:41:27,910
to know where what instigated this whole

930
00:41:32,820 --> 00:41:30,070
thing and he said that he had heard

931
00:41:35,880 --> 00:41:32,830
gotten some information from a Campbell

932
00:41:38,220 --> 00:41:35,890
about this and so he passed on the

933
00:41:40,170 --> 00:41:38,230
targeting information to skip out water

934
00:41:41,539 --> 00:41:40,180
and then over the course of a couple

935
00:41:43,650 --> 00:41:41,549
years

936
00:41:46,199 --> 00:41:43,660
skip well in nineteen eighty three

937
00:41:47,849 --> 00:41:46,209
eighty three skip brand to viewers on it

938
00:41:49,529 --> 00:41:47,859

and in nineteen eighty five Rand two

939

00:41:53,339 --> 00:41:49,539

more viewers on it

940

00:41:56,819 --> 00:41:53,349

the first in 1983 was Joe mcmoneagle and

941

00:41:59,699 --> 00:41:56,829

also Tom McNair who are both viewers at

942

00:42:02,729 --> 00:41:59,709

the time in the program and both of them

943

00:42:05,549 --> 00:42:02,739

reported essentially that they have a

944

00:42:07,439 --> 00:42:05,559

perception of a ship and a cloud over

945

00:42:10,349 --> 00:42:07,449

the ship and the UFO doing something

946

00:42:14,549 --> 00:42:10,359

really bizarre and the crew panicking

947

00:42:16,380 --> 00:42:14,559

and and essentially disappearing I think

948

00:42:17,939 --> 00:42:16,390

Joe had them jumping off the back of the

949

00:42:22,410 --> 00:42:17,949

ship or jumping off the ship or

950

00:42:23,999 --> 00:42:22,420

something in terror and uh Tom let's see

951
00:42:26,160 --> 00:42:24,009
actually I have some of my notes here so

952
00:42:28,140 --> 00:42:26,170
let's see what Tom said I'll tell you

953
00:42:28,680 --> 00:42:28,150
real quick what's worth my cursor here

954
00:42:31,199 --> 00:42:28,690
we go

955
00:42:34,680 --> 00:42:31,209
and Tom talked about a strange build

956
00:42:39,479 --> 00:42:34,690
billowy energy cloud that caused fear

957
00:42:42,930 --> 00:42:39,489
and he felt should be avoided so then

958
00:42:45,900 --> 00:42:42,940
two years later he skip works and bill

959
00:42:48,749 --> 00:42:45,910
ray on it who's one of my protege and

960
00:42:50,880 --> 00:42:48,759
companions or colleagues there bill

961
00:42:52,890 --> 00:42:50,890
described the UFO was spreading a mist

962
00:42:55,109 --> 00:42:52,900
of vapor and a steam around the naval

963
00:42:57,660 --> 00:42:55,119

vessel and attacking it with energy that

964

00:43:00,949 --> 00:42:57,670

made the crew insane with fear and which

965

00:43:03,959 --> 00:43:00,959

left the ship empty of human life okay

966

00:43:07,229 --> 00:43:03,969

and he described the UFOs occupants as

967

00:43:10,079 --> 00:43:07,239

cold and unpleasant Wow

968

00:43:12,479 --> 00:43:10,089

yeah so so that was interesting him I

969

00:43:14,819 --> 00:43:12,489

did it he cast me and unfortunately mine

970

00:43:19,349 --> 00:43:14,829

didn't turn out very well because what I

971

00:43:22,229 --> 00:43:19,359

said was well it was short went very

972

00:43:24,599 --> 00:43:22,239

informative I said that I thought what I

973

00:43:27,539 --> 00:43:24,609

thought was was mental noise called

974

00:43:30,269 --> 00:43:27,549

analytical overlay of a UFO an incident

975

00:43:31,890 --> 00:43:30,279

involving a ship in the cloud and I said

976

00:43:35,130 --> 00:43:31,900

I can't get this out of my head and so I

977

00:43:37,259 --> 00:43:35,140

ended my session oh my goodness well one

978

00:43:39,509 --> 00:43:37,269

thing we I think we've got to point out

979

00:43:42,180 --> 00:43:39,519

for our listeners and I I'm sorry to

980

00:43:44,609 --> 00:43:42,190

interrupt you here but to point out to

981

00:43:48,029 --> 00:43:44,619

our listeners here are four gentlemen I

982

00:43:49,769 --> 00:43:48,039

assume if the protocol was followed that

983

00:43:53,519 --> 00:43:49,779

none of you knew that you were supposed

984

00:43:55,220 --> 00:43:53,529

to be viewing a UFO or a ship no we did

985

00:43:58,920 --> 00:43:55,230

not know we got coordinates in a day

986

00:44:01,260 --> 00:43:58,930

just just a number and a date and you

987

00:44:04,109 --> 00:44:01,270

have no idea in time or space where this

988

00:44:08,220 --> 00:44:04,119

thing was and all four of you came up

989

00:44:10,440 --> 00:44:08,230

with something that was remarkable yep

990

00:44:12,450 --> 00:44:10,450

yep that's right the interesting thing

991

00:44:15,120 --> 00:44:12,460

is the ship was what instigated the

992

00:44:17,880 --> 00:44:15,130

whole thing was that this ship it was a

993

00:44:20,309 --> 00:44:17,890

it was an argentinian minesweeper old

994

00:44:22,740 --> 00:44:20,319

world war ii minesweeper as i understand

995

00:44:23,220 --> 00:44:22,750

it and it was found drifting in the gulf

996

00:44:25,980 --> 00:44:23,230

Oh

997

00:44:29,490 --> 00:44:25,990

with nobody on board I mean and uh oh

998

00:44:31,589 --> 00:44:29,500

wow yeah I want to say the crew roughly

999

00:44:32,819 --> 00:44:31,599

numbers on a minesweeper up around 70

1000

00:44:35,760 --> 00:44:32,829

maybe something like that

1001
00:44:39,420 --> 00:44:35,770
yeah there was nobody on board and there

1002
00:44:41,700 --> 00:44:39,430
was no clue as I remember what had

1003
00:44:43,910 --> 00:44:41,710
happened to them and so to have the

1004
00:44:46,770 --> 00:44:43,920
viewers come up with these kind of

1005
00:44:50,839 --> 00:44:46,780
results independently all blind to the

1006
00:44:53,099 --> 00:44:50,849
target years apart that's pretty

1007
00:44:55,020 --> 00:44:53,109
affirmative kind of stuff and it wasn't

1008
00:44:57,240 --> 00:44:55,030
like skip had some idea in his head

1009
00:44:59,579 --> 00:44:57,250
about what we'd find out or that hell

1010
00:45:01,230 --> 00:44:59,589
did they really didn't know they had no

1011
00:45:02,880 --> 00:45:01,240
preconceived notions about it and so

1012
00:45:04,470 --> 00:45:02,890
when they task us on it it wasn't like

1013
00:45:06,150 --> 00:45:04,480

we picked it up from their minds

1014

00:45:08,730 --> 00:45:06,160

telepathic overlay which sometimes

1015

00:45:10,380 --> 00:45:08,740

happens it's like this stuff has kind of

1016

00:45:12,750 --> 00:45:10,390

came right out of the ether and so

1017

00:45:15,890 --> 00:45:12,760

that's just something very provocative

1018

00:45:27,299 --> 00:45:15,900

about it and they might in fact be true

1019

00:45:29,910 --> 00:45:27,309

what year was that oh very recently yeah

1020

00:45:36,390 --> 00:45:29,920

Wow well maybe not for some of your

1021

00:45:38,579 --> 00:45:36,400

listeners but for us I was thinking

1022

00:45:41,339 --> 00:45:38,589

along the lines of Bermuda Triangle and

1023

00:45:46,920 --> 00:45:41,349

then it's you know 1560 and 1700s and

1024

00:45:48,420 --> 00:45:46,930

who knows but ah well and we said that

1025

00:45:50,490 --> 00:45:48,430

wasn't like during the time of the

1026

00:45:53,880 --> 00:45:50,500

Falkland Islands was it I I don't

1027

00:45:56,700 --> 00:45:53,890

uh yeah let me think Falklands I was

1028

00:45:58,109 --> 00:45:56,710

actually with on a military exercise in

1029

00:46:00,900 --> 00:45:58,119

England when the Falklands thing

1030

00:46:04,049 --> 00:46:00,910

happened I think the Falklands were in

1031

00:46:05,730 --> 00:46:04,059

82 if I'm not mistaken huh so I could

1032

00:46:07,330 --> 00:46:05,740

have been associated with that as well

1033

00:46:11,320 --> 00:46:07,340

possibly

1034

00:46:14,440 --> 00:46:11,330

but this world my golf uh it wasn't oh

1035

00:46:16,450 --> 00:46:14,450

it wasn't off Argentina wasn't it yeah

1036

00:46:19,020 --> 00:46:16,460

was there was east of Argentina on the

1037

00:46:21,610 --> 00:46:19,030

eastern side of Argentina in the

1038

00:46:23,590 --> 00:46:21,620

government and Matias and and so we're

1039

00:46:25,240 --> 00:46:23,600

talking quite a ways away from the

1040

00:46:29,910 --> 00:46:25,250

Falklands but Lawson's work took place

1041

00:46:33,790 --> 00:46:29,920

out there right now uh in in the summer

1042

00:46:37,300 --> 00:46:33,800

the spring and summer of 1982 so this

1043

00:46:39,610 --> 00:46:37,310

was this is a while after this event

1044

00:46:42,250 --> 00:46:39,620

this event was let's see if I can find

1045

00:46:43,900 --> 00:46:42,260

out what the actual date was I know

1046

00:46:54,880 --> 00:46:43,910

where I can find out hang on a second

1047

00:46:59,980 --> 00:46:54,890

the test King was tell me it just says

1048

00:47:02,110 --> 00:46:59,990

no just as 1981 I'm not it just said

1049

00:47:04,510 --> 00:47:02,120

sometimes there's in the UFO field

1050

00:47:06,390 --> 00:47:04,520

sometimes they say that that they come

1051
00:47:10,270 --> 00:47:06,400
down and they interfere with human

1052
00:47:12,910 --> 00:47:10,280
governments and war and so on and maybe

1053
00:47:15,000 --> 00:47:12,920
they sent the wrong vessel and you know

1054
00:47:20,650 --> 00:47:15,010
but I find that very interesting

1055
00:47:22,840 --> 00:47:20,660
I mean 70 people you you all remote

1056
00:47:23,620 --> 00:47:22,850
viewed this and I mean something must

1057
00:47:26,440 --> 00:47:23,630
have happened

1058
00:47:29,680 --> 00:47:26,450
and then you found a derelict ship I

1059
00:47:33,190 --> 00:47:29,690
find it fascinating that's amazing

1060
00:47:39,040 --> 00:47:33,200
it's to me that is the a very strong

1061
00:47:41,950 --> 00:47:39,050
proof of UFO being real you know being

1062
00:47:44,980 --> 00:47:41,960
real and interfering with human beings I

1063
00:47:46,990 --> 00:47:44,990

mean we all know about the the Brazilian

1064

00:47:49,990 --> 00:47:47,000

situation where the people all

1065

00:47:53,560 --> 00:47:50,000

irradiated on the island of coladas in

1066

00:47:56,650 --> 00:47:53,570

the Amazon the mouth of the Amazon and

1067

00:47:59,620 --> 00:47:56,660

how they can but that is a word of mouth

1068

00:48:02,260 --> 00:47:59,630

kind of thing it wasn't remote viewed so

1069

00:48:05,880 --> 00:48:02,270

I'd be an interesting target foot to

1070

00:48:09,790 --> 00:48:05,890

remote view the Caloris incident yeah

1071

00:48:12,220 --> 00:48:09,800

well anyway I just want to thank you for

1072

00:48:15,250 --> 00:48:12,230

being a wonderful wonderful guest with

1073

00:48:19,720 --> 00:48:15,260

us we have one final question which I

1074

00:48:20,859 --> 00:48:19,730

would ask because some remote viewers

1075

00:48:23,190 --> 00:48:20,869

are

1076
00:48:27,400 --> 00:48:23,200
constantly seeing the end of the world

1077
00:48:30,910 --> 00:48:27,410
in various ways how do you come down on

1078
00:48:37,599 --> 00:48:30,920
that well for one thing the world is

1079
00:48:39,940 --> 00:48:37,609
going to end eventually I you know I a

1080
00:48:42,190 --> 00:48:39,950
lot of what you hear allegedly done by

1081
00:48:44,589 --> 00:48:42,200
remote viewing about apocalypse coming

1082
00:48:46,720 --> 00:48:44,599
is usually these folks are working

1083
00:48:48,759 --> 00:48:46,730
front-loaded which means all of their

1084
00:48:51,309 --> 00:48:48,769
preconceptions are right there the exam

1085
00:48:52,720 --> 00:48:51,319
and you know they oftentimes endorse

1086
00:48:55,420 --> 00:48:52,730
their favorite theory rather than

1087
00:48:58,059 --> 00:48:55,430
actually reporting remote viewing day so

1088
00:48:59,380 --> 00:48:58,069

so I find all that stuff not

1089

00:49:02,049 --> 00:48:59,390

particularly trustworthy I mean there's

1090

00:49:04,150 --> 00:49:02,059

one of my former colleagues is famous

1091

00:49:05,769 --> 00:49:04,160

for predicting from this the end of the

1092

00:49:08,650 --> 00:49:05,779

world he's been doing it actually since

1093

00:49:10,749 --> 00:49:08,660

the seventies the first my first

1094

00:49:12,789 --> 00:49:10,759

encounter with with the gentleman who is

1095

00:49:17,079 --> 00:49:12,799

an interesting guy there's no question

1096

00:49:18,400 --> 00:49:17,089

but it was in 1983 in 1984 he was

1097

00:49:19,329 --> 00:49:18,410

telling us all that the world is going

1098

00:49:22,900 --> 00:49:19,339

to come to an end or gonna have this

1099

00:49:26,140 --> 00:49:22,910

massive apocalypse thing in 1984-85 well

1100

00:49:28,900 --> 00:49:26,150

it didn't happen ever since then it's

1101

00:49:31,180 --> 00:49:28,910

been like that I mean it involves the

1102

00:49:33,789 --> 00:49:31,190

the of course popular thing is killshot

1103

00:49:35,609 --> 00:49:33,799

he talks about killed on yes he's been

1104

00:49:40,450 --> 00:49:35,619

talking about him predicting that

1105

00:49:42,910 --> 00:49:40,460

annually since 1997 so it's almost 20

1106

00:49:51,220 --> 00:49:42,920

years and it still hasn't happened he

1107

00:49:53,049 --> 00:49:51,230

who shall not be mentioned yeah a giant

1108

00:49:56,049 --> 00:49:53,059

solar flare that allegedly will wipe out

1109

00:49:58,089 --> 00:49:56,059

most of the life oh okay and then there

1110

00:50:00,249 --> 00:49:58,099

was one wasn't there one with a big

1111

00:50:04,089 --> 00:50:00,259

meteor or two that was coming through

1112

00:50:06,460 --> 00:50:04,099

the carpet well I just had to ask you

1113

00:50:11,170 --> 00:50:06,470

your opinion on that because he does a

1114

00:50:14,529 --> 00:50:11,180

lot of publicity and probably some of

1115

00:50:17,620 --> 00:50:14,539

our viewers have heard about some of

1116

00:50:21,190 --> 00:50:17,630

that publicity so before let's not give

1117

00:50:23,589 --> 00:50:21,200

him any more publicity and I thank you

1118

00:50:23,829 --> 00:50:23,599

so much for being on it's really kind of

1119

00:50:27,819 --> 00:50:23,839

you

1120

00:50:30,279 --> 00:50:27,829

and we need to get the website yes we

1121

00:50:34,390 --> 00:50:30,289

want the books the website and the

1122

00:50:37,440 --> 00:50:34,400

courses lay them out for so

1123

00:50:40,180 --> 00:50:37,450

so the only two websites right now

1124

00:50:43,000 --> 00:50:40,190

because the others aren't live yet right

1125

00:50:47,230 --> 00:50:43,010

the one is and I mentioned it the free

1126

00:50:49,060 --> 00:50:47,240

dowsing DVD calm and if anyone's

1127

00:50:51,550 --> 00:50:49,070

interested in dowsing they can get that

1128

00:50:52,870 --> 00:50:51,560

that introductory DVD and they'll get on

1129

00:50:55,960 --> 00:50:52,880

the mailing list for when the remote

1130

00:50:57,730 --> 00:50:55,970

perception course comes out the other

1131

00:50:59,290 --> 00:50:57,740

one which is actually all announced all

1132

00:51:01,750 --> 00:50:59,300

this stuff on this one as well is my

1133

00:51:05,410 --> 00:51:01,760

main website for my training and that's

1134

00:51:09,580 --> 00:51:05,420

our viewer comm so letter R the word

1135

00:51:11,620 --> 00:51:09,590

viewer calm and you know I post my

1136

00:51:13,090 --> 00:51:11,630

schedule for my courses and various

1137

00:51:16,510 --> 00:51:13,100

informations things on there is quite a

1138

00:51:18,480 --> 00:51:16,520

bit information on it so okay and the

1139

00:51:21,250 --> 00:51:18,490

names of the books Paul don't be shy

1140

00:51:24,280 --> 00:51:21,260

okay well there's reading reading the

1141

00:51:26,290 --> 00:51:24,290

enemy's mind which you can still get

1142

00:51:28,660 --> 00:51:26,300

used it's it's not a print except on

1143

00:51:30,790 --> 00:51:28,670

Kindle you can get on a Kindle you can

1144

00:51:32,470 --> 00:51:30,800

get it used and I highly recommend it I

1145

00:51:33,940 --> 00:51:32,480

I'm not making any more money off of it

1146

00:51:36,610 --> 00:51:33,950

but that's okay because I think the book

1147

00:51:38,380 --> 00:51:36,620

is still worth reading the book I will

1148

00:51:41,530 --> 00:51:38,390

be bringing out is called the essential

1149

00:51:43,810 --> 00:51:41,540

guide to remote viewing and that's a

1150

00:51:46,330 --> 00:51:43,820

basic guide for people who are just

1151
00:51:47,350 --> 00:51:46,340
getting started or think they may want

1152
00:51:49,840 --> 00:51:47,360
to get started

1153
00:51:51,910 --> 00:51:49,850
excellent excellent okay well thank you

1154
00:51:56,470 --> 00:51:51,920
so much and have a wonderful afternoon

1155
00:51:57,370 --> 00:51:56,480
out in sunny Utah you bet I'm going to

1156
00:51:59,410 --> 00:51:57,380
enjoy it okay

1157
00:52:07,030 --> 00:51:59,420
okay I really thank you so much very

1158
00:52:10,150 --> 00:52:07,040
interesting really I now we have our we

1159
00:52:15,760 --> 00:52:10,160
have our little news report we have a

1160
00:52:20,680 --> 00:52:15,770
news report and the news report is about

1161
00:52:26,290 --> 00:52:20,690
alien life on the comet that the Phil a

1162
00:52:30,490 --> 00:52:26,300
lander from the rosetta craft rosetta

1163
00:52:32,530 --> 00:52:30,500

mission it's all about that comet which

1164

00:52:35,170 --> 00:52:32,540

has a long Russian name which I'm

1165

00:52:37,240 --> 00:52:35,180

probably going to murder but here here's

1166

00:52:43,480 --> 00:52:37,250

the news report and I am getting this

1167

00:52:46,840 --> 00:52:43,490

from Sky News okay evidence of alien

1168

00:52:47,770 --> 00:52:46,850

life is unequivocal on the comet

1169

00:52:50,710 --> 00:52:47,780

carrying

1170

00:52:54,130 --> 00:52:50,720

fill a probe through space to leading

1171

00:52:56,920 --> 00:52:54,140

astronomers have said the experts say

1172

00:53:05,110 --> 00:52:56,930

the most likely explanation for certain

1173

00:53:08,920 --> 00:53:05,120

features of the 67p journey Univ Gerizim

1174

00:53:11,620 --> 00:53:08,930

a man Kimiko comet such as its organic

1175

00:53:15,420 --> 00:53:11,630

rich black crust is the presence of

1176
00:53:19,090 --> 00:53:15,430
living organisms beneath an icy surface

1177
00:53:22,240 --> 00:53:19,100
Rosetta the European spacecraft orbiting

1178
00:53:25,960 --> 00:53:22,250
the comet is also said to have picked up

1179
00:53:30,430 --> 00:53:25,970
strange clusters of organic material

1180
00:53:33,220 --> 00:53:30,440
that resemble viral particles but

1181
00:53:35,890 --> 00:53:33,230
neither Rosetta nor its lander probe are

1182
00:53:39,280 --> 00:53:35,900
equipped to search for direct evidence

1183
00:53:46,200 --> 00:53:39,290
of life after a proposal to include this

1184
00:53:53,740 --> 00:53:49,540
astronomer and our astrobiologists

1185
00:53:56,350 --> 00:53:53,750
professor Chandra Wickramasinghe who was

1186
00:53:59,770 --> 00:53:56,360
involved in planning for the mission 15

1187
00:54:02,830 --> 00:53:59,780
years ago said I wanted to include at a

1188
00:54:05,380 --> 00:54:02,840

very inexpensive life detection

1189

00:54:08,860 --> 00:54:05,390

experiment at the time it was thought

1190

00:54:11,530 --> 00:54:08,870

that this was a bizarre proposition he

1191

00:54:15,730 --> 00:54:11,540

and colleague dr. max Wallace from the

1192

00:54:18,550 --> 00:54:15,740

University of Cardiff believe 67p and

1193

00:54:21,690 --> 00:54:18,560

other comets like it could provide homes

1194

00:54:27,000 --> 00:54:21,700

for living molecules similar to the

1195

00:54:31,090 --> 00:54:27,010

extremophiles that inhabit the most

1196

00:54:34,960 --> 00:54:31,100

inhospitable regions of the earth they

1197

00:54:37,720 --> 00:54:34,970

say comets may have helped to sow the

1198

00:54:41,710 --> 00:54:37,730

seeds of life on Earth and possibly

1199

00:54:45,760 --> 00:54:41,720

other planets such as Mars early in the

1200

00:54:47,440 --> 00:54:45,770

solar system's existence so I'm not

1201
00:54:52,270 --> 00:54:47,450
going to read this entire thing but you

1202
00:54:55,000 --> 00:54:52,280
get the gist of it and Kate was so

1203
00:55:01,450 --> 00:54:55,010
wonderful as to have dr. Chandra

1204
00:55:03,910 --> 00:55:01,460
Wickramasinghe on her previously on

1205
00:55:06,099 --> 00:55:03,920
previous program and I had the privilege

1206
00:55:09,070 --> 00:55:06,109
of asking that gentleman a question and

1207
00:55:15,280 --> 00:55:09,080
the callin and I wouldn't you like to

1208
00:55:17,500 --> 00:55:15,290
have him back on yeah I'm a big fan of

1209
00:55:19,900 --> 00:55:17,510
his you know what bothers me about him

1210
00:55:23,170 --> 00:55:19,910
is he's obviously a brilliant man he's a

1211
00:55:26,680 --> 00:55:23,180
good scientist he does good research and

1212
00:55:29,790 --> 00:55:26,690
because he verges to some very slight

1213
00:55:33,250 --> 00:55:29,800

extent into what used to be considered

1214

00:55:36,280 --> 00:55:33,260

paranormal feels like exobiology which

1215

00:55:38,079 --> 00:55:36,290

nASA has now christened as astrobiology

1216

00:55:40,780 --> 00:55:38,089

therefore making it acceptable

1217

00:55:46,180 --> 00:55:40,790

he was really discounted by other

1218

00:55:49,180 --> 00:55:46,190

scientists very unfairly I feel and this

1219

00:55:51,370 --> 00:55:49,190

sort of it's a warning to all young

1220

00:55:53,200 --> 00:55:51,380

people that are just starting into

1221

00:55:55,599 --> 00:55:53,210

research they look at this fellow and

1222

00:55:58,630 --> 00:55:55,609

they go oh he's a Nobel Prize material

1223

00:56:00,760 --> 00:55:58,640

and and he just got scouted off to the

1224

00:56:02,589 --> 00:56:00,770

side because he got interested in

1225

00:56:03,609 --> 00:56:02,599

something that was unacceptable so they

1226

00:56:07,060 --> 00:56:03,619

stay away from it

1227

00:56:09,579 --> 00:56:07,070

and it's those frontier knowledge that

1228

00:56:11,740 --> 00:56:09,589

brings back the most interesting results

1229

00:56:13,900 --> 00:56:11,750

so it's a shame that it really gets

1230

00:56:16,060 --> 00:56:13,910

discounted like the guys with cold

1231

00:56:18,579 --> 00:56:16,070

fusion I mean they murdered them their

1232

00:56:20,589 --> 00:56:18,589

careers are totally destroyed that is

1233

00:56:22,540 --> 00:56:20,599

correct and now they're starting to say

1234

00:56:25,359 --> 00:56:22,550

oh yeah there is such a thing as cold

1235

00:56:28,180 --> 00:56:25,369

fusion you know but anyway but yes

1236

00:56:29,560 --> 00:56:28,190

Chandra was fabulous he's a true

1237

00:56:32,440 --> 00:56:29,570

gentleman as well as an excellent

1238

00:56:36,370 --> 00:56:32,450

scientist and he was mm-hmm the

1239

00:56:42,430 --> 00:56:36,380

associate of Fred said sir fred hoyle

1240

00:56:44,500 --> 00:56:42,440

the Royal astronomer the guy that but he

1241

00:56:47,500 --> 00:56:44,510

had to do with comets and comets bring

1242

00:56:50,980 --> 00:56:47,510

water and fur Mia yes well you know

1243

00:56:54,280 --> 00:56:50,990

really weather once you get DNA once

1244

00:56:56,680 --> 00:56:54,290

that molecule is made it'll find a home

1245

00:56:58,690 --> 00:56:56,690

anywhere and it will evolve into any

1246

00:57:00,940 --> 00:56:58,700

life-form that fits that environment

1247

00:57:04,120 --> 00:57:00,950

right but you do somewhere along the

1248

00:57:07,630 --> 00:57:04,130

line and the gazillion galaxies are out

1249

00:57:11,020 --> 00:57:07,640

there all that had to do is one time

1250

00:57:12,820 --> 00:57:11,030

create that molecule and boom the rest

1251
00:57:14,730 --> 00:57:12,830
will be written history because it'll

1252
00:57:16,430 --> 00:57:14,740
spread it'll absolutely spread and

1253
00:57:20,550 --> 00:57:16,440
all the billions of planets out there

1254
00:57:24,410 --> 00:57:20,560
man and now some of our probes that are

1255
00:57:30,590 --> 00:57:24,420
up in space such as the space station

1256
00:57:33,540 --> 00:57:30,600
mm-hmm are said to have different

1257
00:57:36,180 --> 00:57:33,550
organic material on them that could not

1258
00:57:39,690 --> 00:57:36,190
have gotten there by bouncing off the

1259
00:57:44,130 --> 00:57:39,700
earth say it came from space sounds like

1260
00:57:45,780 --> 00:57:44,140
a horror movie right and you know like

1261
00:57:47,880 --> 00:57:45,790
when I was in grade school I reach what

1262
00:57:49,859 --> 00:57:47,890
there are no planets outside the solar

1263
00:57:53,210 --> 00:57:49,869

system there are no other solar systems

1264

00:57:56,220 --> 00:57:53,220

well that was malarkey no I know it I

1265

00:57:59,120 --> 00:57:56,230

didn't believe yeah so finally they

1266

00:58:02,640 --> 00:57:59,130

found Pegasus was at 251 or whatever

1267

00:58:04,920 --> 00:58:02,650

that man they did not destroy he had

1268

00:58:07,380 --> 00:58:04,930

concrete evidence that they could not

1269

00:58:08,940 --> 00:58:07,390

dispute it was sort of like Galileo when

1270

00:58:11,520 --> 00:58:08,950

he looked through the telescope and said

1271

00:58:13,620 --> 00:58:11,530

Jupiter has four moons and the

1272

00:58:15,600 --> 00:58:13,630

Inquisition said no it doesn't and he

1273

00:58:16,800 --> 00:58:15,610

said yes it does any good no it doesn't

1274

00:58:18,780 --> 00:58:16,810

you know it looks through the telescope

1275

00:58:24,690 --> 00:58:18,790

there's four moons no there aren't

1276

00:58:27,300 --> 00:58:24,700

yes there are same nonsense

1277

00:58:31,050 --> 00:58:27,310

yeah Chandra was is an outstanding I'm

1278

00:58:34,320 --> 00:58:31,060

sorry no no that's great so we're just

1279

00:58:39,270 --> 00:58:34,330

having this conversation and please like

1280

00:58:43,050 --> 00:58:39,280

us yeah on you know all the places we

1281

00:58:47,160 --> 00:58:43,060

1282

00:58:53,700 --> 00:58:47,170

Facebook iTunes and both of our websites

1283

00:58:56,490 --> 00:58:53,710

both shattered reality podcast calm and

1284

00:58:59,010 --> 00:58:56,500

shattered reality podcast dot

1285

00:59:01,830 --> 00:58:59,020

wordpress.com which is some years right

1286

00:59:05,900 --> 00:59:01,840

I'm getting her view of people like

1287

00:59:08,609 --> 00:59:05,910

liking us yeah Wow okay let's do it

1288

00:59:10,620 --> 00:59:08,619

well that's called remote influencing

1289

00:59:11,940 --> 00:59:10,630

and one of these guys that we get on I

1290

00:59:13,650 --> 00:59:11,950

don't know which one we could've brought

1291

00:59:17,070 --> 00:59:13,660

it up with mr. Smith he was certainly

1292

00:59:19,380 --> 00:59:17,080

very affable and friendly a person but

1293

00:59:21,810 --> 00:59:19,390

I've often thought about the the art of

1294

00:59:24,570 --> 00:59:21,820

remote influencing rather than remote

1295

00:59:27,510 --> 00:59:24,580

viewing and the possibilities therein so

1296

00:59:30,270 --> 00:59:27,520

I am remote influencing you now

1297

00:59:32,250 --> 00:59:30,280

okay so you want to wrap it up go ahead

1298

00:59:33,900 --> 00:59:32,260

Kate I'll be fine oh thank you so much

1299

00:59:35,460 --> 00:59:33,910

for listening it's always been our

1300

00:59:38,490 --> 00:59:35,470

pleasure I hope you've learned something

1301

00:59:39,090 --> 00:59:38,500

from it I certainly did and I'll see you
