[Music]

2  
00:00:25,070 --> 00:00:20,269

welcome to shattered reality with your

3  
00:00:28,130 --> 00:00:25,080

hosts Kate Valentine and furs prepare to

4  
00:00:35,000 --> 00:00:28,140

have a paradigm shifted into truths

5  
00:00:39,619 --> 00:00:35,010

questioned and now shattered reality ok

6  
00:00:42,410 --> 00:00:39,629

Hey - how are you I'm doing okay yeah I

7  
00:00:46,969 --> 00:00:42,420

think we got a slate first ok yeah it's

8  
00:00:51,079 --> 00:00:46,979

July 12th ok 2016 yes already and it's

9  
00:00:53,869 --> 00:00:51,089

our 34th show can you believe it no that

10  
00:00:57,079 --> 00:00:53,879

does seem incredible it is and we are

11  
00:01:00,140 --> 00:00:57,089

going strong here especially today I

12  
00:01:03,530 --> 00:01:00,150

know you're so excited about this yes I

13  
00:01:07,070 --> 00:01:03,540

am really excited because today we have

14  
00:01:10,999 --> 00:01:07,080  
an amazing amazing guest a man who has

15  
00:01:15,469 --> 00:01:11,009  
written at least 5 books a man that I am

16  
00:01:19,520 --> 00:01:15,479  
happy to call friend I first ran across

17  
00:01:23,899 --> 00:01:19,530  
Russell Targ our guest when he was doing

18  
00:01:26,270 --> 00:01:23,909  
a discussion of his earlier book which

19  
00:01:30,039 --> 00:01:26,280  
was called the end of suffering in New

20  
00:01:33,200 --> 00:01:30,049  
York City and that same night in that

21  
00:01:36,319 --> 00:01:33,210  
auditorium which was packed that night

22  
00:01:39,050 --> 00:01:36,329  
to see Russell he did some remote

23  
00:01:43,969 --> 00:01:39,060  
viewing experiments with the group and

24  
00:01:46,010 --> 00:01:43,979  
lo and behold I got you know good 90% of

25  
00:01:48,380 --> 00:01:46,020  
the first one in about 50 or more

26

00:01:49,099 --> 00:01:48,390

percent of the second one and I was

27

00:01:51,649 --> 00:01:49,109

thrilled

28

00:01:56,389 --> 00:01:51,659

since then I've taken remote viewing

29

00:01:59,770 --> 00:01:56,399

with he and Stephen Schwartz up at the

30

00:02:03,609 --> 00:01:59,780

Omega Institute I've seen him at the

31

00:02:07,580 --> 00:02:03,619

International remote viewing Association

32

00:02:10,040 --> 00:02:07,590

convention in that not Baton Rouge

33

00:02:13,550 --> 00:02:10,050

Louisiana in New Orleans Louisiana and

34

00:02:17,870 --> 00:02:13,560

then most recently at the Society for

35

00:02:19,760 --> 00:02:17,880

scientific exploration now Russell Targ

36

00:02:22,220 --> 00:02:19,770

is a physicist

37

00:02:24,440 --> 00:02:22,230

and author who was a pioneer in the

38

00:02:25,670 --> 00:02:24,450

development of the laser and laser

39

00:02:28,850 --> 00:02:25,680

applications

40

00:02:33,280 --> 00:02:28,860

he was co-founder of the previously

41

00:02:35,900 --> 00:02:33,290

secret Stanford Research Institute's

42

00:02:40,130 --> 00:02:35,910

investigation into psychic abilities in

43

00:02:43,400 --> 00:02:40,140

the 1970's and 80's his work in this new

44

00:02:45,920 --> 00:02:43,410

area called remote viewing was published

45

00:02:48,440 --> 00:02:45,930

in nature the Proceedings of the

46

00:02:50,870 --> 00:02:48,450

Institute of Electrical and Electronics

47

00:02:53,270 --> 00:02:50,880

Engineers and the Proceedings of the

48

00:02:56,570 --> 00:02:53,280

American Association for the Advancement

49

00:02:59,330 --> 00:02:56,580

of science Russell did graduate work in

50

00:03:01,430 --> 00:02:59,340

physics at Columbia University and his

51  
00:03:04,130 --> 00:03:01,440  
co-author of nine books although I only

52  
00:03:06,860 --> 00:03:04,140  
have five I'm sorry dealing with the

53  
00:03:07,640 --> 00:03:06,870  
scientific investigation of psychic

54  
00:03:11,590 --> 00:03:07,650  
abilities

55  
00:03:16,150 --> 00:03:11,600  
most recently the reality of ESP a

56  
00:03:21,230 --> 00:03:16,160  
physicist proof of psychic abilities in

57  
00:03:23,600 --> 00:03:21,240  
1997 Russell Targ retired from Lockheed

58  
00:03:26,660 --> 00:03:23,610  
Martin missiles and space company as a

59  
00:03:29,720 --> 00:03:26,670  
senior staff scientist where he

60  
00:03:32,570 --> 00:03:29,730  
developed airborne laser systems for the

61  
00:03:34,610 --> 00:03:32,580  
detection of wind shear now that should

62  
00:03:37,220 --> 00:03:34,620  
be up a lot of interest to you cake yes

63  
00:03:39,950 --> 00:03:37,230

right yes I don't want to know about

64

00:03:43,940 --> 00:03:39,960

much about wind shear not personally and

65

00:03:46,580 --> 00:03:43,950

not up and close no he now pursues ESP

66

00:03:49,670 --> 00:03:46,590

research in Palo Alto California and

67

00:03:53,390 --> 00:03:49,680

teaches remote viewing worldwide so

68

00:03:56,780 --> 00:03:53,400

please let's welcome Russell Targ to

69

00:03:58,610 --> 00:03:56,790

shattered reality hi Russell yes yes

70

00:04:02,450 --> 00:03:58,620

yeah I'm happy to be with you

71

00:04:05,390 --> 00:04:02,460

and the CIA would be very happy that you

72

00:04:07,490 --> 00:04:05,400

take a really deep breath before you say

73

00:04:11,810 --> 00:04:07,500

top secret program that's the way they

74

00:04:17,060 --> 00:04:11,820

would like it okay okay I wanted to

75

00:04:19,610 --> 00:04:17,070

emphasize that so why you know we've had

76

00:04:23,240 --> 00:04:19,620

a few people involved with remote

77

00:04:25,400 --> 00:04:23,250

viewing on this program previously but

78

00:04:28,610 --> 00:04:25,410

we would still for new listeners maybe

79

00:04:31,010 --> 00:04:28,620

from the the master himself we would

80

00:04:33,920 --> 00:04:31,020

like to hear your definition

81

00:04:35,960 --> 00:04:33,930

of remote viewing well the most

82

00:04:37,760 --> 00:04:35,970

important thing that I want to tell you

83

00:04:40,820 --> 00:04:37,770

about remote viewing while people are

84

00:04:43,369 --> 00:04:40,830

still interested and that is remote

85

00:04:47,180 --> 00:04:43,379

viewing is so easy that even a scientist

86

00:04:49,339 --> 00:04:47,190

can do it you don't have to eat porridge

87

00:04:52,279 --> 00:04:49,349

of the feet of your guru anybody

88

00:04:54,999 --> 00:04:52,289

thousands of dollars remote viewing and

89

00:04:57,830 --> 00:04:55,009

psychic abilities are natural abilities

90

00:05:00,680 --> 00:04:57,840

that we can all do to a greater or

91

00:05:03,800 --> 00:05:00,690

lesser extent it's been forbidden in us

92

00:05:06,170 --> 00:05:03,810

in this society so in the United States

93

00:05:09,559 --> 00:05:06,180

you don't have much remote viewing but

94

00:05:11,899 --> 00:05:09,569

in places like Iceland or Holland or

95

00:05:15,140 --> 00:05:11,909

even in the Soviet Union where you have

96

00:05:18,529 --> 00:05:15,150

lots of shamans everybody's got a

97

00:05:20,930 --> 00:05:18,539

psychic grandmother and the remote

98

00:05:23,830 --> 00:05:20,940

Julianne we're talking about is the

99

00:05:27,020 --> 00:05:23,840

ability we have to quiet our minds and

100

00:05:30,950 --> 00:05:27,030

describe and experience what's going on

101  
00:05:32,659 --> 00:05:30,960  
in the distance or even in the future so

102  
00:05:37,159 --> 00:05:32,669  
the most interesting thing about remote

103  
00:05:40,100 --> 00:05:37,169  
viewing in that is that in physics terms

104  
00:05:44,120 --> 00:05:40,110  
it's a non-local ability and what that

105  
00:05:47,839 --> 00:05:44,130  
means in English is that its accuracy

106  
00:05:52,089 --> 00:05:47,849  
and its reliability is independent of

107  
00:05:56,930 --> 00:05:52,099  
distance and of time so it's no harder

108  
00:05:59,749 --> 00:05:56,940  
to describe something 3,000 away 3,000

109  
00:06:02,469 --> 00:05:59,759  
miles away on my desk than it is to

110  
00:06:05,330 --> 00:06:02,479  
describe something across the street

111  
00:06:08,480 --> 00:06:05,340  
increasing the distance doesn't cause a

112  
00:06:13,339 --> 00:06:08,490  
problem at all and time and not only

113  
00:06:16,939 --> 00:06:13,349

that Oh within reasonable times it is

114

00:06:20,059 --> 00:06:16,949

within hours days or weeks it's no

115

00:06:23,600 --> 00:06:20,069

harder to describe something a week away

116

00:06:26,659 --> 00:06:23,610

that it is a contemporaneous event why

117

00:06:29,120 --> 00:06:26,669

do you say that as time goes by it

118

00:06:32,540 --> 00:06:29,130

becomes more difficult what would you

119

00:06:36,170 --> 00:06:32,550

say is your understanding of the reason

120

00:06:38,089 --> 00:06:36,180

why it becomes more difficult well we're

121

00:06:44,510 --> 00:06:38,099

not sure that it becomes more different

122

00:06:47,029 --> 00:06:44,520

don't the data the data shows that

123

00:06:51,200 --> 00:06:47,039

why there's less data for greater

124

00:06:55,430 --> 00:06:51,210

distances at the laboratory brinstead

125

00:06:58,219 --> 00:06:55,440

the Princeton research lab that bob john

126

00:07:04,540 --> 00:06:58,229

ram he was a dean of engineering

127

00:07:06,499 --> 00:07:04,550

he showed that for hours days weeks the

128

00:07:10,520 --> 00:07:06,509

reliability was just as good as

129

00:07:14,860 --> 00:07:10,530

contemporaneous and when you go a month

130

00:07:19,520 --> 00:07:14,870

in advance the there are no fine points

131

00:07:22,309 --> 00:07:19,530

no timelines available so it's very hard

132

00:07:26,779 --> 00:07:22,319

to know where you're looking months or

133

00:07:28,339 --> 00:07:26,789

year to advance so it appears first of

134

00:07:30,529 --> 00:07:28,349

all there's not a lot of data so we

135

00:07:32,210 --> 00:07:30,539

shouldn't talk about at all but what it

136

00:07:36,559 --> 00:07:32,220

appears is that if you're trying to look

137

00:07:38,629 --> 00:07:36,569

months in advance people tend not to get

138

00:07:42,619 --> 00:07:38,639

feedback at a later time

139

00:07:46,869 --> 00:07:42,629

oh yes Andrew and what one way you do

140

00:07:49,520 --> 00:07:46,879

precognition is look into the future and

141

00:07:53,330 --> 00:07:49,530

see what kind of feedback here they get

142

00:07:56,300 --> 00:07:53,340

a later time and that accounts for a lot

143

00:07:58,040 --> 00:07:56,310

of precognition you sort of described at

144

00:08:02,839 --> 00:07:58,050

a later time what you're going to be

145

00:08:05,899 --> 00:08:02,849

seeing for feedback but we know in a

146

00:08:09,230 --> 00:08:05,909

sort of secret that feedback is really

147

00:08:11,149 --> 00:08:09,240

not a sensual and precognition it

148

00:08:15,230 --> 00:08:11,159

definitely helps especially when you're

149

00:08:18,890 --> 00:08:15,240

learning but for example Pat price was

150

00:08:21,860 --> 00:08:18,900

able to describe things hidden in the

151

00:08:25,040 --> 00:08:21,870

Soviet Union and he died before anybody

152

00:08:27,019 --> 00:08:25,050

got any feedback so feedback helps when

153

00:08:29,659 --> 00:08:27,029

you're learning but it's not essential I

154

00:08:33,350 --> 00:08:29,669

I don't think that the same is true

155

00:08:36,800 --> 00:08:33,360

going backwards in time I remember I was

156

00:08:38,540 --> 00:08:36,810

tasked in a class to go backward we

157

00:08:40,790 --> 00:08:38,550

weren't told it was backward in time of

158

00:08:43,399 --> 00:08:40,800

course remote viewing you're just giving

159

00:08:47,389 --> 00:08:43,409

in coordinates or letters or numbers of

160

00:08:51,710 --> 00:08:47,399

any kind of arbitrary way to define the

161

00:08:54,319 --> 00:08:51,720

target but it turned out to be the the

162

00:08:55,430 --> 00:08:54,329

hill in Israel that they fought for I'm

163

00:08:58,040 --> 00:08:55,440

trying to think of the name it's not

164

00:09:00,949 --> 00:08:58,050

Ramadi but it's got a name like that

165

00:09:03,799 --> 00:09:00,959

the the big fortress on the hill in

166

00:09:07,519 --> 00:09:03,809

Israel back in Roman times that fell to

167

00:09:10,100 --> 00:09:07,529

the Romans and a number of people in the

168

00:09:12,559 --> 00:09:10,110

class including myself got hits on the

169

00:09:14,989 --> 00:09:12,569

target which you know we're good

170

00:09:17,600 --> 00:09:14,999

reasonably good got the time got the

171

00:09:21,289 --> 00:09:17,610

dress and so forth that maybe didn't get

172

00:09:24,549 --> 00:09:21,299

the the actual battle but did reasonably

173

00:09:28,150 --> 00:09:24,559

well with that so apparently it doesn't

174

00:09:31,220 --> 00:09:28,160

have the same effect moving backwards

175

00:09:34,549 --> 00:09:31,230

well if you want to get into the nuts

176

00:09:37,429 --> 00:09:34,559

and bolts of this I'm familiar with the

177

00:09:41,509 --> 00:09:37,439

the mound you're talking about I've also

178

00:09:44,629 --> 00:09:41,519

forgot his name and the Roman has

179

00:09:47,329 --> 00:09:44,639

defeated them by having a big siege

180

00:09:50,419 --> 00:09:47,339

right that when they starved many of

181

00:09:53,199 --> 00:09:50,429

them and the rest of them committed

182

00:09:54,350 --> 00:09:53,209

suicide famous event that happened

183

00:09:58,249 --> 00:09:54,360

Masada

184

00:10:00,470 --> 00:09:58,259

seventy years after Christ however you

185

00:10:03,439 --> 00:10:00,480

after you described this thing that was

186

00:10:05,109 --> 00:10:03,449

2,000 years old you then got feedback

187

00:10:11,660 --> 00:10:05,119

about us yes we did

188

00:10:15,739 --> 00:10:11,670

so as a viewer Stephen perhaps Schwartz

189

00:10:20,319 --> 00:10:15,749

asked you describe this place in ancient

190

00:10:23,239 --> 00:10:20,329

history that familiar to all historians

191

00:10:27,189 --> 00:10:23,249

very famous location tell me about it

192

00:10:30,230 --> 00:10:27,199

what happened there and you search for

193

00:10:32,299 --> 00:10:30,240

the Akashic records where all

194

00:10:35,629 --> 00:10:32,309

information is the past in the future

195

00:10:38,419 --> 00:10:35,639

and you find that the easiest place to

196

00:10:40,460 --> 00:10:38,429

get that information is in the slide

197

00:10:44,739 --> 00:10:40,470

you're going to see in ten minutes right

198

00:10:48,019 --> 00:10:44,749

right so I've never done experiments

199

00:10:51,970 --> 00:10:48,029

looking into the past because you can't

200

00:10:54,799 --> 00:10:51,980

tell whether the person is looking

201  
00:10:56,539 --> 00:10:54,809  
thousands of years in the past or

202  
00:10:58,549 --> 00:10:56,549  
whether they're looking at the slide

203  
00:11:03,590 --> 00:10:58,559  
you're about to show them correctly

204  
00:11:06,650 --> 00:11:03,600  
that's so we definitely know that is no

205  
00:11:09,799 --> 00:11:06,660  
hard so that if you're looking for

206  
00:11:10,950 --> 00:11:09,809  
historical events those work is good at

207  
00:11:13,890 --> 00:11:10,960  
describing

208  
00:11:15,630 --> 00:11:13,900  
any slide I mean if some of the slides I

209  
00:11:18,480 --> 00:11:15,640  
have to show you were things scattered

210  
00:11:21,440 --> 00:11:18,490  
around New York City and other ones are

211  
00:11:24,540 --> 00:11:21,450  
scattered around the pyramids and the

212  
00:11:27,840 --> 00:11:24,550  
hilltops in Israel those are all equally

213  
00:11:30,120 --> 00:11:27,850

easy to do because in a sense what

214

00:11:33,690 --> 00:11:30,130

you're doing is looking the immediate

215

00:11:38,030 --> 00:11:33,700

future and that works excellently it is

216

00:11:40,770 --> 00:11:38,040

a remote viewer has no problem at all

217

00:11:42,420 --> 00:11:40,780

quieting our mind and describing the

218

00:11:44,760 --> 00:11:42,430

slide that she's going to see in ten

219

00:11:48,030 --> 00:11:44,770

minutes does an experiment that works

220

00:11:50,190 --> 00:11:48,040

very very well because you're in a

221

00:11:52,890 --> 00:11:50,200

certain new sense you're quieting your

222

00:11:53,310 --> 00:11:52,900

mind you're reading your own mind in the

223

00:11:55,950 --> 00:11:53,320

future

224

00:11:58,620 --> 00:11:55,960

you're quieting your mind and say in my

225

00:12:01,950 --> 00:11:58,630

awareness I'm about to see an

226

00:12:05,580 --> 00:12:01,960

interesting picture I'd like to quiet my

227

00:12:07,350 --> 00:12:05,590

mind and describe now that interesting

228

00:12:09,630 --> 00:12:07,360

picture honesty in ten minutes and

229

00:12:11,880 --> 00:12:09,640

that's something that works very very

230

00:12:14,790 --> 00:12:11,890

well because you're sitting up there in

231

00:12:17,760 --> 00:12:14,800

the front row and then your teacher will

232

00:12:21,330 --> 00:12:17,770

fill the screen with a beautiful large

233

00:12:23,490 --> 00:12:21,340

color picture of something or other and

234

00:12:27,300 --> 00:12:23,500

even though that's in your immediate

235

00:12:31,280 --> 00:12:27,310

future it's that's a particularly easy

236

00:12:34,830 --> 00:12:31,290

thing to do well an easier thing to do

237

00:12:37,830 --> 00:12:34,840

which I would usually do before I show

238

00:12:41,030 --> 00:12:37,840

you slides you may remember I asked you

239

00:12:44,370 --> 00:12:41,040

to describe what's in the paper bag

240

00:12:47,330 --> 00:12:44,380

that's on the table in front of you what

241

00:12:52,110 --> 00:12:47,340

does it feel like how much does it weigh

242

00:12:54,660 --> 00:12:52,120

whether the texture and I then give you

243

00:12:58,080 --> 00:12:54,670

all the different opportunities for

244

00:13:01,350 --> 00:12:58,090

experience of shape and weight in color

245

00:13:04,950 --> 00:13:01,360

and size and texture and so forth so

246

00:13:08,910 --> 00:13:04,960

describing physical objects is even

247

00:13:10,800 --> 00:13:08,920

easier to describe than pictures even

248

00:13:14,070 --> 00:13:10,810

though both of them are totally hidden

249

00:13:16,560 --> 00:13:14,080

from you yes and that sort of brings

250

00:13:19,400 --> 00:13:16,570

people into multi-sensory

251  
00:13:23,580 --> 00:13:19,410  
data rather than just thinking about a

252  
00:13:24,390 --> 00:13:23,590  
single thing which is sight which is

253  
00:13:26,430 --> 00:13:24,400  
remote

254  
00:13:28,680 --> 00:13:26,440  
viewing one thinks immediately of sight

255  
00:13:31,620 --> 00:13:28,690  
at this point I have to tell you Russell

256  
00:13:34,410 --> 00:13:31,630  
that I think that you are a wonderful

257  
00:13:36,500 --> 00:13:34,420  
remote viewing teacher not only that but

258  
00:13:39,750 --> 00:13:36,510  
I think that you have you are like a

259  
00:13:41,610 --> 00:13:39,760  
psychic intermediary because everybody

260  
00:13:44,370 --> 00:13:41,620  
in the class was doing really really

261  
00:13:47,190 --> 00:13:44,380  
well up there and Omega with you people

262  
00:13:50,160 --> 00:13:47,200  
were getting the targets partially or

263  
00:13:53,670 --> 00:13:50,170

fully so it was it was really very very

264

00:13:57,750 --> 00:13:53,680

impressive but don't you fall I have a

265

00:14:00,180 --> 00:13:57,760

lot of experiences the NSRI my job was

266

00:14:03,720 --> 00:14:00,190

to sit in the dark with the viewer of

267

00:14:07,380 --> 00:14:03,730

that day and help that viewer learn to

268

00:14:09,810 --> 00:14:07,390

quiet his or her mind and describe where

269

00:14:12,720 --> 00:14:09,820

somebody was hiding they would be hiding

270

00:14:15,510 --> 00:14:12,730

in the San Francisco Bay Area or they

271

00:14:20,330 --> 00:14:15,520

could be in another country or I could

272

00:14:24,590 --> 00:14:20,340

be looking for a submarine or airplane

273

00:14:28,110 --> 00:14:24,600

and it was always my job to help this

274

00:14:30,300 --> 00:14:28,120

unsuspecting visitor visitor always had

275

00:14:33,690 --> 00:14:30,310

the idea that they were going to come

276

00:14:35,790 --> 00:14:33,700

and see something psychic and their idea

277

00:14:38,760 --> 00:14:35,800

is that we would pop Madame Catherine

278

00:14:41,160 --> 00:14:38,770

out of the closet and she would do the

279

00:14:43,950 --> 00:14:41,170

psychic stuff and they would watch there

280

00:14:45,870 --> 00:14:43,960

was us was they expected in reality they

281

00:14:48,830 --> 00:14:45,880

would wind up sitting with me in a

282

00:14:52,230 --> 00:14:48,840

darkened room and I said well actually

283

00:14:54,750 --> 00:14:52,240

you're the remote viewer and I will help

284

00:14:57,330 --> 00:14:54,760

you I of course don't know the answer I

285

00:15:01,710 --> 00:14:57,340

don't know anything about the answer but

286

00:15:03,720 --> 00:15:01,720

I will guide you because I have some

287

00:15:08,430 --> 00:15:03,730

experience I know it remote viewing

288

00:15:12,150 --> 00:15:08,440

sounds like and I will guide you to that

289

00:15:16,050 --> 00:15:12,160

part of your awareness that reveals the

290

00:15:19,860 --> 00:15:16,060

answer and I did that for a decade so I

291

00:15:24,330 --> 00:15:19,870

became quite familiar with how to do

292

00:15:27,870 --> 00:15:24,340

that so in a certain sense my spiritual

293

00:15:31,560 --> 00:15:27,880

path was paid for by the CIA is very

294

00:15:34,160 --> 00:15:31,570

unusual situation I got to sit in the

295

00:15:37,380 --> 00:15:34,170

dark for 10 years as my eyes shut

296

00:15:37,740 --> 00:15:37,390

helping people get in touch with their

297

00:15:42,019 --> 00:15:37,750

own

298

00:15:45,019 --> 00:15:42,029

psychic ability and timeless awareness

299

00:15:47,550 --> 00:15:45,029

Buddhists would say that who you are is

300

00:15:49,619 --> 00:15:47,560

not what you see in the mirror and the

301  
00:15:52,319 --> 00:15:49,629  
more I know is that's good news for most

302  
00:15:54,210 --> 00:15:52,329  
of most of us most of us would rather be

303  
00:15:56,999 --> 00:15:54,220  
something different than what we see in

304  
00:15:59,610 --> 00:15:57,009  
the mirror and Buddhist teachers who you

305  
00:16:03,689 --> 00:15:59,620  
are is timeless awareness your

306  
00:16:07,499 --> 00:16:03,699  
consciousness that exists and persists

307  
00:16:09,720 --> 00:16:07,509  
in a space independent of time and if

308  
00:16:11,759 --> 00:16:09,730  
you do that enough of the remote viewing

309  
00:16:14,819 --> 00:16:11,769  
road viewing of course is not a

310  
00:16:17,309 --> 00:16:14,829  
spiritual path but if you do enough

311  
00:16:20,429 --> 00:16:17,319  
remote viewing you decide that there is

312  
00:16:23,759 --> 00:16:20,439  
a spiritual or non-local aspect of your

313  
00:16:27,360 --> 00:16:23,769

awareness that's available to you and

314

00:16:29,670 --> 00:16:27,370

and you really went in to the spiritual

315

00:16:33,809 --> 00:16:29,680

side of it if you will in the book the

316

00:16:37,650 --> 00:16:33,819

end of suffering that you did with JJ

317

00:16:42,869 --> 00:16:37,660

hurtak yes we did and and what we're

318

00:16:46,769 --> 00:16:42,879

teaching there mainly is the teaching of

319

00:16:49,590 --> 00:16:46,779

the great Buddhist logician at the time

320

00:16:51,360 --> 00:16:49,600

of Christ named Nagarjuna and what he

321

00:16:55,319 --> 00:16:51,370

said is that your cell friends all dude

322

00:16:58,019 --> 00:16:55,329

Aristotle as Aristotle said that a thing

323

00:17:00,720 --> 00:16:58,029

is either true or it's not true it's

324

00:17:03,329 --> 00:17:00,730

either a book or it's not a book that's

325

00:17:05,819 --> 00:17:03,339

it Aristotle said this he taught the

326

00:17:07,110 --> 00:17:05,829

famous law of the excluded middle there

327

00:17:11,429 --> 00:17:07,120

is no middle ground

328

00:17:15,049 --> 00:17:11,439

and what Nagarjuna said is that almost

329

00:17:20,100 --> 00:17:15,059

everything is neither true nor not true

330

00:17:23,399 --> 00:17:20,110

so a lot of fighting in the world is

331

00:17:25,620 --> 00:17:23,409

between people who think that I've got

332

00:17:29,250 --> 00:17:25,630

the answer and you have the wrong answer

333

00:17:31,470 --> 00:17:29,260

and there's no answer other than the one

334

00:17:35,690 --> 00:17:31,480

that I have and that creates for a lot

335

00:17:38,700 --> 00:17:35,700

of suffering for everybody remind

336

00:17:43,200 --> 00:17:38,710

I was just going to say it reminds me of

337

00:17:45,600 --> 00:17:43,210

a famous answer that you gave on another

338

00:17:47,970 --> 00:17:45,610

podcast when someone asked you a

339

00:17:50,310 --> 00:17:47,980

question about flying saucers or UFOs

340

00:17:51,600 --> 00:17:50,320

you ApS whatever you want to call them

341

00:17:54,630 --> 00:17:51,610

and you said

342

00:17:57,419 --> 00:17:54,640

very calmly well I'm sure that something

343

00:18:00,120 --> 00:17:57,429

like that is true something like that

344

00:18:01,740 --> 00:18:00,130

and I never forget that that was a good

345

00:18:03,900 --> 00:18:01,750

answer yeah on the subject of flying

346

00:18:06,750 --> 00:18:03,910

saucers I'm sure there is something like

347

00:18:08,669 --> 00:18:06,760

flying saucers and I'm sure the

348

00:18:10,140 --> 00:18:08,679

government is lying about that those are

349

00:18:12,690 --> 00:18:10,150

two things that I'm sure of

350

00:18:16,470 --> 00:18:12,700

well we're with you on that one Russell

351

00:18:19,860 --> 00:18:16,480

oh yeah I was gonna say don't you find

352

00:18:22,260 --> 00:18:19,870

that some people have just a more innate

353

00:18:25,830 --> 00:18:22,270

ability just as some people are a little

354

00:18:28,409 --> 00:18:25,840

bit better at music or art or certain

355

00:18:30,960 --> 00:18:28,419

aspects of humanity so I think what you

356

00:18:32,909 --> 00:18:30,970

probably are doing is really calling out

357

00:18:35,220 --> 00:18:32,919

the best of the best I get that

358

00:18:36,900 --> 00:18:35,230

impression from you for Asia from what

359

00:18:39,600 --> 00:18:36,910

you talk about these sessions that you

360

00:18:41,280 --> 00:18:39,610

attend for example yeah I certainly

361

00:18:43,560 --> 00:18:41,290

agree with that that some people are

362

00:18:48,390 --> 00:18:43,570

more psychic than others just as well as

363

00:18:50,850 --> 00:18:48,400

you said just with some people are more

364

00:18:55,020 --> 00:18:50,860

musical than others but if you'll

365

00:18:57,060 --> 00:18:55,030

remember when you were a girl everybody

366

00:19:00,419 --> 00:18:57,070

you knew had a piano in the living room

367

00:19:04,310 --> 00:19:00,429

right playing the piano was totally

368

00:19:07,590 --> 00:19:04,320

ordinary and especially every young lady

369

00:19:12,659 --> 00:19:07,600

was expected that should be able to read

370

00:19:15,860 --> 00:19:12,669

music and play except ibly so we would

371

00:19:17,990 --> 00:19:15,870

say we would say that somehow in the

372

00:19:21,840 --> 00:19:18,000

1930s and 40s

373

00:19:25,049 --> 00:19:21,850

remote viewing was ubiquitous everybody

374

00:19:27,450 --> 00:19:25,059

has the ability and somehow the ability

375

00:19:29,360 --> 00:19:27,460

has gone away and now only special

376

00:19:33,180 --> 00:19:29,370

people play the piano how could that be

377

00:19:34,860 --> 00:19:33,190

and the reason is because there was a

378

00:19:38,850 --> 00:19:34,870

time where there was no television no

379

00:19:41,220 --> 00:19:38,860

radio the only entertainment you had was

380

00:19:45,600 --> 00:19:41,230

gathered around the piano that's correct

381

00:19:47,610 --> 00:19:45,610

and everybody could play somewhat and we

382

00:19:50,070 --> 00:19:47,620

all recognize that some people play

383

00:19:54,720 --> 00:19:50,080

better than others I was advised to take

384

00:19:56,460 --> 00:19:54,730

up the drums so but yeah absolutely

385

00:19:58,620 --> 00:19:56,470

but there's this one figure that

386

00:20:00,810 --> 00:19:58,630

Ferruccio was talking to me about and he

387

00:20:04,120 --> 00:20:00,820

seems like he was extremely accomplished

388

00:20:05,860 --> 00:20:04,130

a mr. Pat Price

389

00:20:08,650 --> 00:20:05,870

our path price is probably the greatest

390

00:20:10,690 --> 00:20:08,660

psychic that we ever saw he was a

391

00:20:17,110 --> 00:20:10,700

retired police commissioner from the

392

00:20:19,419 --> 00:20:17,120

city of Burbank and his first remote he

393

00:20:22,419 --> 00:20:19,429

called us up and said I've been hearing

394

00:20:26,200 --> 00:20:22,429

about your work some of the stuff was

395

00:20:28,890 --> 00:20:26,210

published some was secret and what we

396

00:20:32,380 --> 00:20:28,900

had were geographical coordinates of

397

00:20:35,799 --> 00:20:32,390

something or other that our CIA contract

398

00:20:37,299 --> 00:20:35,809

matter had given us and we said well

399

00:20:40,779 --> 00:20:37,309

we'll give you these coordinates we

400

00:20:48,880 --> 00:20:40,789

don't know what they pertain to but you

401  
00:20:51,460 --> 00:20:48,890  
can look I was just suddenly surprised a

402  
00:20:56,490 --> 00:20:51,470  
large black cat just leaked up on my

403  
00:20:59,100 --> 00:20:56,500  
desk and then stole my thought for me

404  
00:21:01,990 --> 00:20:59,110  
maybe it's all Burt you're familiar

405  
00:21:07,450 --> 00:21:02,000  
that's right I have half price let me do

406  
00:21:11,110 --> 00:21:07,460  
this in spirit he's with us he knows how

407  
00:21:15,039 --> 00:21:11,120  
interested I am in his life as a as a

408  
00:21:18,640 --> 00:21:15,049  
psychic remote viewer he he was really

409  
00:21:23,289 --> 00:21:18,650  
he was really top-notch so you were

410  
00:21:27,549 --> 00:21:23,299  
given dysphoria so he sat down at a

411  
00:21:33,130 --> 00:21:27,559  
table and said this looks like some sort

412  
00:21:36,159 --> 00:21:33,140  
of military facility I see American flag

413  
00:21:40,750 --> 00:21:36,169

and looked like a Mikey base and there's

414

00:21:42,880 --> 00:21:40,760

some buildings on the left and most of

415

00:21:46,450 --> 00:21:42,890

the stuff is underground I see some

416

00:21:48,549 --> 00:21:46,460

green filing cabinets and in the filing

417

00:21:53,409 --> 00:21:48,559

cabinets there a bunch of files and

418

00:21:57,010 --> 00:21:53,419

they're about pool and it says cue ball

419

00:22:00,430 --> 00:21:57,020

8 ball rack up that's the kind of stuff

420

00:22:04,000 --> 00:22:00,440

I see and we said thank you very much of

421

00:22:08,169 --> 00:22:04,010

course doesn't make any sense at all but

422

00:22:10,299 --> 00:22:08,179

thank you officer for calling out and

423

00:22:13,600 --> 00:22:10,309

giving us this meaningless information

424

00:22:17,260 --> 00:22:13,610

but we'll pass it on the CIA and see

425

00:22:18,190 --> 00:22:17,270

what they say it turns out that the

426  
00:22:22,630 --> 00:22:18,200  
target

427  
00:22:24,970 --> 00:22:22,640  
was actually a log cabin in West

428  
00:22:31,900 --> 00:22:24,980  
Virginia that one of the CIA guys had

429  
00:22:35,590 --> 00:22:31,910  
built however about a hundred yards away

430  
00:22:41,590 --> 00:22:35,600  
with the entrance to a super-secret

431  
00:22:44,340 --> 00:22:41,600  
national security agency a site that I'm

432  
00:22:53,980 --> 00:22:44,350  
hesitating hirako I'm trying to remember

433  
00:22:57,370 --> 00:22:53,990  
how our contract monitor kick green or I

434  
00:23:02,560 --> 00:22:57,380  
think that he was able to look look at

435  
00:23:07,840 --> 00:23:02,570  
the look of the map they the classified

436  
00:23:10,020 --> 00:23:07,850  
map at the CIA is it whydid Ingo Swann

437  
00:23:13,810 --> 00:23:10,030  
and Half Price

438  
00:23:16,780 --> 00:23:13,820

described this military base is there

439

00:23:20,410 --> 00:23:16,790

military base or a Nike base and they

440

00:23:23,800 --> 00:23:20,420

could see that the entrance to a secret

441

00:23:28,300 --> 00:23:23,810

base was about a hundred yards past this

442

00:23:30,790 --> 00:23:28,310

guy's cabin so Kip green went there

443

00:23:32,620 --> 00:23:30,800

because it obviously wasn't described in

444

00:23:35,530 --> 00:23:32,630

the cabin but he was very interested

445

00:23:38,980 --> 00:23:35,540

that two different psychics in

446

00:23:41,620 --> 00:23:38,990

California described the same erroneous

447

00:23:44,820 --> 00:23:41,630

thing but he got there and he saw that

448

00:23:51,010 --> 00:23:44,830

it was a look like a Nike base had big

449

00:23:53,050 --> 00:23:51,020

antennas there had a building he talked

450

00:23:56,560 --> 00:23:53,060

to the owner of the facility which was

451  
00:24:00,760 --> 00:23:56,570  
the NSA and yes indeed we do have flying

452  
00:24:04,900 --> 00:24:00,770  
capitis downstairs and an ongoing

453  
00:24:07,060 --> 00:24:04,910  
program was called cueball hopefully so

454  
00:24:10,510 --> 00:24:07,070  
what that price was able to do is

455  
00:24:13,620 --> 00:24:10,520  
psychically reach into the safe 3,000

456  
00:24:17,430 --> 00:24:13,630  
miles away and come up with top-secret

457  
00:24:21,330 --> 00:24:17,440  
active code words for ongoing programs

458  
00:24:25,450 --> 00:24:21,340  
now that caused a huge amount of problem

459  
00:24:28,740 --> 00:24:25,460  
for our contract monitor the NSA wants

460  
00:24:30,970 --> 00:24:28,750  
to know why are you with the CIA

461  
00:24:33,039 --> 00:24:30,980  
targeting psychics on our

462  
00:24:37,270 --> 00:24:33,049  
secret site that's certainly not a very

463  
00:24:40,870 --> 00:24:37,280

smart thing to do and then the CIA and

464

00:24:45,430 --> 00:24:40,880

the NSA came to California and said what

465

00:24:47,380 --> 00:24:45,440

do you do guys doing describing a secret

466

00:24:51,280 --> 00:24:47,390

facility with code words where you were

467

00:24:53,140 --> 00:24:51,290

supposed to describe a guy's log cabin

468

00:24:57,610 --> 00:24:53,150

well why did you do that

469

00:24:59,980 --> 00:24:57,620

and what Pat price said is well the more

470

00:25:03,789 --> 00:24:59,990

you hide something the more shines like

471

00:25:06,909 --> 00:25:03,799

a beacon in psychic space Wow you may

472

00:25:09,280 --> 00:25:06,919

have sent us to a log cabin but once

473

00:25:13,210 --> 00:25:09,290

we're in psychic space in that

474

00:25:15,960 --> 00:25:13,220

neighborhood certainly this NSA site is

475

00:25:19,980 --> 00:25:15,970

going to be the most exciting thing

476  
00:25:23,980 --> 00:25:19,990  
around and that's why we described us

477  
00:25:28,570 --> 00:25:23,990  
and and we got to successfully renew our

478  
00:25:31,810 --> 00:25:28,580  
program probably several years of

479  
00:25:35,220 --> 00:25:31,820  
renewals came by the fact that we could

480  
00:25:40,090 --> 00:25:35,230  
reach into a facility and read the place

481  
00:25:44,940 --> 00:25:40,100  
no how long did price work with you he

482  
00:25:50,470 --> 00:25:44,950  
worked with us about two years after the

483  
00:25:53,620 --> 00:25:50,480  
NSA caper we we then went to the CIA and

484  
00:25:56,590 --> 00:25:53,630  
wanted an ongoing program and the

485  
00:25:59,260 --> 00:25:56,600  
director of intelligence John McMahon

486  
00:26:02,710 --> 00:25:59,270  
who was head of intelligence at the CIA

487  
00:26:04,780 --> 00:26:02,720  
interviewed us and he liked the data we

488  
00:26:05,620 --> 00:26:04,790

saw and he knew about our success with

489

00:26:09,610 --> 00:26:05,630

the NSA

490

00:26:13,480 --> 00:26:09,620

he said well we'll support you if you

491

00:26:14,520 --> 00:26:13,490

could describe a situs of national

492

00:26:18,640 --> 00:26:14,530

security

493

00:26:21,430 --> 00:26:18,650

consequence outside of the US we needed

494

00:26:23,830 --> 00:26:21,440

we have a place in Russia that we really

495

00:26:27,880 --> 00:26:23,840

need to know about so two weeks later

496

00:26:31,539 --> 00:26:27,890

another CIA guy came to our lab gave me

497

00:26:33,820 --> 00:26:31,549

coordinates latitude and longitude and I

498

00:26:36,520 --> 00:26:33,830

went into my shielded room with Pat

499

00:26:40,380 --> 00:26:36,530

price shielded room was like a phone

500

00:26:43,840 --> 00:26:40,390

booth covered with screen screening and

501  
00:26:46,930 --> 00:26:43,850  
price said well I'm psychically

502  
00:26:49,520 --> 00:26:46,940  
[Music]

503  
00:26:50,090 --> 00:26:49,530  
that's my computer telling me what time

504  
00:26:54,169 --> 00:26:50,100  
it is

505  
00:26:56,750 --> 00:26:54,179  
that's always the replace says I'm

506  
00:26:59,360 --> 00:26:56,760  
psychic rely on top of a building here

507  
00:27:02,480 --> 00:26:59,370  
there's a huge crane rolling back and

508  
00:27:05,270 --> 00:27:02,490  
forth and over my body it feels very

509  
00:27:07,250 --> 00:27:05,280  
nice lie out in the Sun and this crane

510  
00:27:11,960 --> 00:27:07,260  
is the biggest crane I've ever seen it's

511  
00:27:13,940 --> 00:27:11,970  
like a giant a-frame crane has four

512  
00:27:17,539 --> 00:27:13,950  
wheel each side of the building and he

513  
00:27:19,610 --> 00:27:17,549

drew a picture of that crane and all of

514

00:27:22,870 --> 00:27:19,620

this Russian stuff is described in my

515

00:27:27,409 --> 00:27:22,880

book the reality of ESP it's finally

516

00:27:30,049 --> 00:27:27,419

Declassified after 25 years so I'm able

517

00:27:34,039 --> 00:27:30,059

to assure the whole story and show the

518

00:27:36,710 --> 00:27:34,049

Declassified pictures so you and see you

519

00:27:40,820 --> 00:27:36,720

and so his description of the crane was

520

00:27:42,529 --> 00:27:40,830

correct CIA said well can you look in

521

00:27:45,760 --> 00:27:42,539

the building I'll see what they're doing

522

00:27:48,740 --> 00:27:45,770

and he described that they're making a

523

00:27:51,020 --> 00:27:48,750

giant steel sphere about 60 feet in

524

00:27:54,020 --> 00:27:51,030

diameter that they're welding together

525

00:27:57,169 --> 00:27:54,030

out of orange peel slices and that was

526  
00:28:01,010 --> 00:27:57,179  
all entirely correct metal orange peeled

527  
00:28:04,899 --> 00:28:01,020  
slices yes and we didn't get to see that

528  
00:28:07,039 --> 00:28:04,909  
see the crane was known about by the CIA

529  
00:28:12,010 --> 00:28:07,049  
but of course we didn't know about it

530  
00:28:15,680 --> 00:28:12,020  
was a top-secret satellite photograph

531  
00:28:18,020 --> 00:28:15,690  
which they showed us after prices

532  
00:28:20,779 --> 00:28:18,030  
description but they didn't know

533  
00:28:24,049 --> 00:28:20,789  
anything about the giant sphere until

534  
00:28:26,659 --> 00:28:24,059  
two years later it appeared in Aviation

535  
00:28:29,330 --> 00:28:26,669  
Week and after that but price had

536  
00:28:33,250 --> 00:28:29,340  
already died so there was no place for

537  
00:28:39,890 --> 00:28:33,260  
place to go to get that information and

538  
00:28:42,529 --> 00:28:39,900

that's he would go see we live in a in a

539

00:28:46,430 --> 00:28:42,539

different world than most people see

540

00:28:55,090 --> 00:28:46,440

it's reasonable for me to say well here

541

00:28:56,810 --> 00:28:55,100

we are in 1975 I could ask price in 1975

542

00:29:01,830 --> 00:28:56,820

can you look at

543

00:29:04,710 --> 00:29:01,840

week in 1977 they've got the answer to

544

00:29:06,120 --> 00:29:04,720

the question we want just go ahead two

545

00:29:09,390 --> 00:29:06,130

years and tell me what's in that

546

00:29:12,840 --> 00:29:09,400

magazine that's not yet published but

547

00:29:15,660 --> 00:29:12,850

that's okay and that would seem to us to

548

00:29:21,420 --> 00:29:15,670

be a reasonable request we didn't do

549

00:29:22,770 --> 00:29:21,430

that but Wow we could say that one of

550

00:29:26,370 --> 00:29:22,780

the ways if you get the information

551  
00:29:29,760 --> 00:29:26,380  
about the various spheres in Russia is

552  
00:29:32,790 --> 00:29:29,770  
to go to Soviet Siberia psychically and

553  
00:29:36,620 --> 00:29:32,800  
describe what's in the building that's

554  
00:29:40,380 --> 00:29:36,630  
awesome what he was doing but it's not

555  
00:29:44,340 --> 00:29:40,390  
from our mystical point of view it's not

556  
00:29:47,250 --> 00:29:44,350  
out of the question to say well if you

557  
00:29:50,000 --> 00:29:47,260  
can't look into the future I misspoke if

558  
00:29:53,250 --> 00:29:50,010  
you can't go to Russia where nobody

559  
00:29:56,250 --> 00:29:53,260  
knows the answer maybe you can look into

560  
00:29:59,640 --> 00:29:56,260  
the future in the end the answer book or

561  
00:30:02,240 --> 00:29:59,650  
look into my reality VSP book which is

562  
00:30:05,870 --> 00:30:02,250  
republish 20 years later

563  
00:30:09,480 --> 00:30:05,880

the information is all over the place

564

00:30:13,380 --> 00:30:09,490

right for example we found a downed

565

00:30:17,160 --> 00:30:13,390

airplane for Jimmy Carter and that had

566

00:30:19,320 --> 00:30:17,170

not been published anywhere until he

567

00:30:24,450 --> 00:30:19,330

wrote his biography he wrote his

568

00:30:26,370 --> 00:30:24,460

autobiography last year and can I read

569

00:30:30,780 --> 00:30:26,380

you a paragraph from Jimmy Carter's

570

00:30:36,870 --> 00:30:30,790

autobiography absolutely as we he asked

571

00:30:39,000 --> 00:30:36,880

our contract monitor in 1980 so there's

572

00:30:42,120 --> 00:30:39,010

a downed Russian airplane the

573

00:30:45,350 --> 00:30:42,130

reconnaissance plane full of interesting

574

00:30:50,190 --> 00:30:45,360

hardware and full of secret code books

575

00:30:52,350 --> 00:30:50,200

it's in northern Africa and we can't

576

00:30:55,830 --> 00:30:52,360

find it with satellite photography cos

577

00:30:57,960 --> 00:30:55,840

in the jungle so we have no we're flying

578

00:31:00,630 --> 00:30:57,970

over we're looking with photograph with

579

00:31:04,380 --> 00:31:00,640

satellites and can't find it can you

580

00:31:08,370 --> 00:31:04,390

find it and the answer was yes and what

581

00:31:10,300 --> 00:31:08,380

Jimmy Carter says it a little chapter

582

00:31:13,190 --> 00:31:10,310

called clear voice

583

00:31:16,430 --> 00:31:13,200

he says there was another experience

584

00:31:19,700 --> 00:31:16,440

that I've never told anybody about one

585

00:31:22,550 --> 00:31:19,710

morning as a report from the CIA the

586

00:31:26,060 --> 00:31:22,560

small twin-engine Russian plane had gone

587

00:31:28,250 --> 00:31:26,070

down somewhere near as I air and that it

588

00:31:30,920 --> 00:31:28,260

contained very important secret

589

00:31:32,810 --> 00:31:30,930

documents and hardware we were searching

590

00:31:35,840 --> 00:31:32,820

for the crash using satellite

591

00:31:39,310 --> 00:31:35,850

photography and some other surreptitious

592

00:31:42,920 --> 00:31:39,320

high-altitude but with no success

593

00:31:47,120 --> 00:31:42,930

because it was in the jungle so some

594

00:31:49,010 --> 00:31:47,130

hesitancy the CIA agent in California

595

00:31:55,040 --> 00:31:49,020

recommended the service of a clairvoyant

596

00:31:57,110 --> 00:31:55,050

woman who we then can solve it she wrote

597

00:31:59,780 --> 00:31:57,120

down the latitude and longitude which

598

00:32:02,540 --> 00:31:59,790

proved to be accurate and three days

599

00:32:05,120 --> 00:32:02,550

later I was shown a photograph of the

600

00:32:08,210 --> 00:32:05,130

plane totally destroyed in a remote area

601  
00:32:11,270 --> 00:32:08,220  
and without notifying to the every

602  
00:32:14,150 --> 00:32:11,280  
government booboo - we sent a small team

603  
00:32:16,030 --> 00:32:14,160  
by helicopter recovered the documents

604  
00:32:17,300 --> 00:32:16,040  
and the bodies of the playing soccer

605  
00:32:21,440 --> 00:32:17,310  
occupants

606  
00:32:23,840 --> 00:32:21,450  
Wow so I was a good a testimony or

607  
00:32:25,790 --> 00:32:23,850  
whoever hi yeah it's very impressive

608  
00:32:29,270 --> 00:32:25,800  
especially coming from someone like

609  
00:32:30,920 --> 00:32:29,280  
Carter who was sort of a regardless of

610  
00:32:31,760 --> 00:32:30,930  
whatever else he certainly was no

611  
00:32:35,690 --> 00:32:31,770  
nonsense

612  
00:32:37,910 --> 00:32:35,700  
and he knew science he was a scientist

613  
00:32:40,010 --> 00:32:37,920

himself I think he graduated first in

614

00:32:42,920 --> 00:32:40,020

his class at Annapolis and he was the

615

00:32:50,270 --> 00:32:42,930

first Admiral or a head of whatever the

616

00:32:53,360 --> 00:32:50,280

first United he was the commander of the

617

00:32:57,410 --> 00:32:53,370

first nuclear sub in this country it's

618

00:33:00,670 --> 00:32:57,420

amazing yep but I went to a book signing

619

00:33:03,650 --> 00:33:00,680

with him and got him to design the book

620

00:33:06,740 --> 00:33:03,660

just to find the page on which he wrote

621

00:33:09,470 --> 00:33:06,750

that movie we just so we just we've just

622

00:33:12,740 --> 00:33:09,480

made a movie about our exploits with

623

00:33:17,780 --> 00:33:12,750

psychic spy I made a film called third

624

00:33:20,420 --> 00:33:17,790

our spies wonderful movie I saw a two

625

00:33:22,610 --> 00:33:20,430

iterations of it just saw the second one

626

00:33:23,480 --> 00:33:22,620

and I want to tell you that I endorsed

627

00:33:30,830 --> 00:33:23,490

it

628

00:33:33,560 --> 00:33:30,840

document besides being a very very

629

00:33:36,590 --> 00:33:33,570

interesting and compelling movie it is

630

00:33:40,370 --> 00:33:36,600

an incredible historical document that

631

00:33:42,830 --> 00:33:40,380

will be referred to for as long as

632

00:33:47,330 --> 00:33:42,840

people see movies and that was the third

633

00:33:49,580 --> 00:33:47,340

I spy yes you know coming at right you

634

00:33:52,940 --> 00:33:49,590

can see coming attractions for that had

635

00:33:57,490 --> 00:33:52,950

its website which is third eye spies

636

00:34:00,110 --> 00:33:57,500

calm the four minute coming attraction

637

00:34:03,880 --> 00:34:00,120

it'll probably be in theaters versus a

638

00:34:08,540 --> 00:34:03,890

year we have a complete film now and

639

00:34:10,780 --> 00:34:08,550

we're we showed it to a group of people

640

00:34:15,260 --> 00:34:10,790

at a conference everybody loved the film

641

00:34:17,510 --> 00:34:15,270

but the unanimous was our recommendation

642

00:34:20,300 --> 00:34:17,520

is that we cut fifteen minutes from us

643

00:34:23,119 --> 00:34:20,310

I don't know what which is what we're

644

00:34:26,270 --> 00:34:23,129

gonna do okay I enjoyed every minute of

645

00:34:27,830 --> 00:34:26,280

it I just wanted more labels for people

646

00:34:32,330 --> 00:34:27,840

who didn't know the players if you

647

00:34:36,200 --> 00:34:32,340

recall yeah in any case I have a

648

00:34:39,889 --> 00:34:36,210

question you did you we worked as a

649

00:34:42,099 --> 00:34:39,899

contractor at SR I for various

650

00:34:44,869 --> 00:34:42,109

government agencies including NASA

651  
00:34:48,669 --> 00:34:44,879  
including the CIA and the DIA

652  
00:34:51,470 --> 00:34:48,679  
now this is a question I've asked other

653  
00:34:55,369 --> 00:34:51,480  
remote viewers who have worked for the

654  
00:35:02,870 --> 00:34:55,379  
government and was there ever any

655  
00:35:06,500 --> 00:35:02,880  
tasking towards remote influencing I'm

656  
00:35:08,720 --> 00:35:06,510  
not hesitating because the Russians were

657  
00:35:12,160 --> 00:35:08,730  
very interested in remote influencing

658  
00:35:15,770 --> 00:35:12,170  
during this period we were interested in

659  
00:35:18,680 --> 00:35:15,780  
influence Loing information quiets your

660  
00:35:21,580 --> 00:35:18,690  
mind tell me what's going on here are

661  
00:35:24,830 --> 00:35:21,590  
there in the past in the future far away

662  
00:35:27,920 --> 00:35:24,840  
we're trying to inflow information the

663  
00:35:30,020 --> 00:35:27,930

Russians were interested in remote

664

00:35:33,800 --> 00:35:30,030

strangulations just something we talked

665

00:35:35,530 --> 00:35:33,810

about our book and can you kill the

666

00:35:40,120 --> 00:35:35,540

chickens in the disc

667

00:35:43,570 --> 00:35:40,130

the mother rabbit show up changing her

668

00:35:48,390 --> 00:35:43,580

ESP when you kill her bunnies so the

669

00:35:53,290 --> 00:35:50,829

distant modification behavior

670

00:35:56,829 --> 00:35:53,300

modification that is not what we were

671

00:36:00,339 --> 00:35:56,839

doing I'm glad that there was no we

672

00:36:03,430 --> 00:36:00,349

didn't some interest and can you affect

673

00:36:06,570 --> 00:36:03,440

the computer that's running in the next

674

00:36:10,480 --> 00:36:06,580

room and we spent a lot of money

675

00:36:12,849 --> 00:36:10,490

unsuccessfully trying to do that well

676

00:36:14,980 --> 00:36:12,859

you have to do to do that is have it

677

00:36:17,710 --> 00:36:14,990

print some document it's very very

678

00:36:19,599 --> 00:36:17,720

important critical crucial that you need

679

00:36:24,730 --> 00:36:19,609

in ten seconds that computer will go

680

00:36:27,670 --> 00:36:24,740

haywire that's all but this is such a

681

00:36:30,270 --> 00:36:27,680

fascinating thing to me I really know

682

00:36:36,460 --> 00:36:30,280

the Americans were not interested in

683

00:36:40,120 --> 00:36:36,470

so-called distant mental influence so

684

00:36:43,890 --> 00:36:40,130

they didn't that we were not on their

685

00:36:46,570 --> 00:36:43,900

labs in America not working for the CIA

686

00:36:48,730 --> 00:36:46,580

we're very interested in distant metal

687

00:36:53,500 --> 00:36:48,740

influence because it's very easy to do

688

00:36:56,560 --> 00:36:53,510

if what you're working on if you have a

689

00:36:59,140 --> 00:36:56,570

a subject in a distant room and you're

690

00:37:03,820 --> 00:36:59,150

watching a her on television and then on

691

00:37:05,230 --> 00:37:03,830

a random schedule you'll see the picture

692

00:37:09,220 --> 00:37:05,240

of your subject and then you're supposed

693

00:37:11,079 --> 00:37:09,230

to excite her or put her to sleep and

694

00:37:15,609 --> 00:37:11,089

what you're measuring is her brain waves

695

00:37:20,650 --> 00:37:15,619

or heart rate there's a whole literature

696

00:37:25,140 --> 00:37:20,660

on this embezzle influence where you can

697

00:37:30,400 --> 00:37:27,400

electrophysiology of a distant person

698

00:37:30,920 --> 00:37:30,410

and that works court that works quite

699

00:37:32,359 --> 00:37:30,930

well

700

00:37:37,320 --> 00:37:32,369

[Music]

701  
00:37:39,960 --> 00:37:37,330  
we had done we had Stephen Prouty on on

702  
00:37:44,160 --> 00:37:39,970  
a shattered reality a couple of months

703  
00:37:46,980 --> 00:37:44,170  
ago and he is a big proponent of distant

704  
00:37:52,920 --> 00:37:46,990  
mental influencing I suppose you may be

705  
00:37:55,560 --> 00:37:52,930  
aware of that she's a very good guest as

706  
00:37:57,420 --> 00:37:55,570  
is that almost like hypnosis it's not a

707  
00:38:00,450 --> 00:37:57,430  
different thing I think it's it's not

708  
00:38:05,220 --> 00:38:00,460  
because a person person is just relaxed

709  
00:38:08,280 --> 00:38:05,230  
in the laboratory and then the subject

710  
00:38:12,300 --> 00:38:08,290  
the active person on a random schedule

711  
00:38:14,579 --> 00:38:12,310  
will say excite this person or relax the

712  
00:38:16,950 --> 00:38:14,589  
person and you have very clear

713  
00:38:23,210 --> 00:38:16,960

indications of changes in their heart

714

00:38:27,510 --> 00:38:23,220

rate or skin resistance that's a very

715

00:38:32,120 --> 00:38:27,520

improper RA UD wrote a book called just

716

00:38:39,870 --> 00:38:35,280

moving back to but that's not what we

717

00:38:42,150 --> 00:38:39,880

were doing we were basically doing spa

718

00:38:44,609 --> 00:38:42,160

doing spying during their our 20-year

719

00:38:48,150 --> 00:38:44,619

program we were in flowing we're

720

00:38:51,599 --> 00:38:48,160

interested in in flowing information and

721

00:38:53,940 --> 00:38:51,609

even after I left SR I I was in influent

722

00:38:55,470 --> 00:38:53,950

information about the stock market we

723

00:38:58,200 --> 00:38:55,480

wanted to know the market is going to go

724

00:39:03,500 --> 00:38:58,210

off her down and we did that very

725

00:39:06,000 --> 00:39:03,510

successfully but for nine weeks we

726  
00:39:09,570 --> 00:39:06,010  
forecast with the silver market would go

727  
00:39:12,450 --> 00:39:09,580  
up a little up a lot down a little down

728  
00:39:15,780 --> 00:39:12,460  
and loss and we made nine forecasts in

729  
00:39:18,960 --> 00:39:15,790  
the market and we were successful with

730  
00:39:20,310 --> 00:39:18,970  
our precognitive investing nine times in

731  
00:39:22,290 --> 00:39:20,320  
a row made one hundred and twenty

732  
00:39:27,480 --> 00:39:22,300  
thousand dollars nice okay you know

733  
00:39:30,660 --> 00:39:27,490  
that's the book and we're again and

734  
00:39:33,170 --> 00:39:30,670  
again and my book 3 hello VSP we

735  
00:39:37,650 --> 00:39:33,180  
describe how to do that with a friend

736  
00:39:41,370 --> 00:39:37,660  
how to set up what we call associated

737  
00:39:43,589 --> 00:39:41,380  
remote viewing well you see you can't

738  
00:39:44,790 --> 00:39:43,599

actually read the big come up board at

739

00:39:47,990 --> 00:39:44,800

the commodity exchange

740

00:39:50,460 --> 00:39:48,000

you can't say well here we are on

741

00:39:53,450 --> 00:39:50,470

Saturday what is what's it going to say

742

00:39:56,900 --> 00:39:53,460

the silver is doing a week from today

743

00:40:00,420 --> 00:39:56,910

because very hard to read psychically

744

00:40:05,400 --> 00:40:00,430

but you can arrange for the broker there

745

00:40:07,200 --> 00:40:05,410

for objects of his choosing and one of

746

00:40:10,530 --> 00:40:07,210

them will be an OP object one of the

747

00:40:13,710 --> 00:40:10,540

down object and based on what the market

748

00:40:16,590 --> 00:40:13,720

does he will then send me one of those

749

00:40:20,910 --> 00:40:16,600

four objects so if I were interviewing

750

00:40:23,670 --> 00:40:20,920

you I say here we are next Friday I am a

751  
00:40:24,900 --> 00:40:23,680  
hand you an interesting object I have no

752  
00:40:27,480 --> 00:40:24,910  
idea what it is

753  
00:40:29,820 --> 00:40:27,490  
tell me about what I'm gonna hand you

754  
00:40:33,450 --> 00:40:29,830  
next Friday there's nothing to do with

755  
00:40:36,750 --> 00:40:33,460  
the silver market and you will say I see

756  
00:40:40,980 --> 00:40:36,760  
a cylinder it looks like it's made of

757  
00:40:43,350 --> 00:40:40,990  
glass is a plain glass cylinder and it

758  
00:40:46,490 --> 00:40:43,360  
has a nice smell to it this sort of

759  
00:40:48,980 --> 00:40:46,500  
smells like flipcard sweet perfume I

760  
00:40:53,220 --> 00:40:48,990  
think that's a very nice description

761  
00:40:56,820 --> 00:40:53,230  
I'll see you next week and then I call

762  
00:40:59,970 --> 00:40:56,830  
John a broker and say what are your

763  
00:41:03,630 --> 00:40:59,980

objects for today he said well I've got

764

00:41:07,980 --> 00:41:03,640

a teddy bear a book a little perfume

765

00:41:10,950 --> 00:41:07,990

vial and a coffee cup and it won't looks

766

00:41:11,550 --> 00:41:10,960

to me like my viewer described a perfume

767

00:41:14,730 --> 00:41:11,560

vial

768

00:41:17,430 --> 00:41:14,740

what does that mean and he said well

769

00:41:20,700 --> 00:41:17,440

then that corresponds to down a lot that

770

00:41:23,880 --> 00:41:20,710

was my random assignment so that if the

771

00:41:27,320 --> 00:41:23,890

market goes down a lot he would didn't

772

00:41:30,810 --> 00:41:27,330

send me the perfume vial so based on

773

00:41:34,530 --> 00:41:30,820

based on your remote smelling we would

774

00:41:37,290 --> 00:41:34,540

sell silver next three days silver goes

775

00:41:41,130 --> 00:41:37,300

down he will send me the perfume while

776

00:41:43,920 --> 00:41:41,140

you get that for feedback and and some

777

00:41:46,320 --> 00:41:43,930

of the money of that work that did not

778

00:41:51,210 --> 00:41:46,330

work the following year for a number of

779

00:41:53,070 --> 00:41:51,220

reasons one of them is our investors who

780

00:41:56,240 --> 00:41:53,080

shared their winnings with me wanted to

781

00:41:59,720 --> 00:41:56,250

do it twice as frequently and that it

782

00:42:02,800 --> 00:41:59,730

with the feedback because they needed

783

00:42:05,840 --> 00:42:02,810

the information before we got feedback

784

00:42:08,870 --> 00:42:05,850

for the previous trial so we're always

785

00:42:12,950 --> 00:42:08,880

run ahead and that did not work we're

786

00:42:15,680 --> 00:42:12,960

focusing on the money rather than the

787

00:42:18,530 --> 00:42:15,690

experience about six to eight months ago

788

00:42:22,820 --> 00:42:18,540

I was trying to convince miss Kate

789

00:42:26,030 --> 00:42:22,830

Valentine and our engineer bill to get

790

00:42:28,130 --> 00:42:26,040

into a scheme like that with me and I I

791

00:42:30,650 --> 00:42:28,140

tried to explain it to them and they

792

00:42:32,720 --> 00:42:30,660

were as somewhat interested but unable

793

00:42:39,680 --> 00:42:32,730

to get the whole act together

794

00:42:42,770 --> 00:42:39,690

unfortunately but I'm still willing what

795

00:42:44,840 --> 00:42:42,780

can be done it can be done there's a

796

00:42:47,900 --> 00:42:44,850

whole organization

797

00:42:52,820 --> 00:42:47,910

the two organizations actually one of

798

00:42:56,380 --> 00:42:52,830

them is a big group of retired army

799

00:42:58,850 --> 00:42:56,390

officers who formed organization called

800

00:43:02,690 --> 00:42:58,860

international remote viewing Association

801  
00:43:05,510 --> 00:43:02,700  
IR VA and these are principally people

802  
00:43:08,540 --> 00:43:05,520  
who are interested in using remote

803  
00:43:11,720 --> 00:43:08,550  
viewing for different things finding

804  
00:43:16,310 --> 00:43:11,730  
those children are gambling on sporting

805  
00:43:18,920 --> 00:43:16,320  
events investing in the stock market the

806  
00:43:21,680 --> 00:43:18,930  
other remote viewing organization is

807  
00:43:23,270 --> 00:43:21,690  
called the pro psychology foundation and

808  
00:43:26,570 --> 00:43:23,280  
they're interested in determining

809  
00:43:28,550 --> 00:43:26,580  
whether ESP is real so you have the

810  
00:43:31,430 --> 00:43:28,560  
scientists who aren't sure whether it's

811  
00:43:37,340 --> 00:43:31,440  
real and you got the investors who were

812  
00:43:40,370 --> 00:43:37,350  
using it to make money so the so getting

813  
00:43:43,850 --> 00:43:40,380

back to mr. Pat price and reading things

814

00:43:46,550 --> 00:43:43,860

he and Ingo Swann were to remote viewers

815

00:43:47,870 --> 00:43:46,560

who ostensibly could actually read some

816

00:43:52,300 --> 00:43:47,880

things am I right about that

817

00:43:54,620 --> 00:43:52,310

Oh Pat price could read things and

818

00:43:59,510 --> 00:43:54,630

occasionally we regular could read the

819

00:44:04,090 --> 00:43:59,520

Ariella okay god got anger could not

820

00:44:08,060 --> 00:44:04,100

read stuff now sometimes now with

821

00:44:08,349 --> 00:44:08,070

near-death experience their reading of

822

00:44:11,589 --> 00:44:08,359

the

823

00:44:14,920 --> 00:44:11,599

not analytic ability those remote

824

00:44:18,339 --> 00:44:14,930

viewing pertains to your experience of

825

00:44:22,569 --> 00:44:18,349

shape and form it is a kind of natural

826

00:44:27,160 --> 00:44:22,579

ability for you to say something green

827

00:44:28,870 --> 00:44:27,170

and round has come into my awareness but

828

00:44:32,249 --> 00:44:28,880

if what somebody is written down as a

829

00:44:34,720 --> 00:44:32,259

word that's really an analytic

830

00:44:37,359 --> 00:44:34,730

artificial thing and your brain really

831

00:44:41,049 --> 00:44:37,369

isn't wired up to do that psychically

832

00:44:44,440 --> 00:44:41,059

it's a symbol rather than an actual an

833

00:44:46,930 --> 00:44:44,450

actual thing and some people who are

834

00:44:51,099 --> 00:44:46,940

trying to prove or disprove as the case

835

00:44:55,329 --> 00:44:51,109

may be the out-of-body experience of

836

00:44:57,910 --> 00:44:55,339

near-death have put numbers and stuff up

837

00:45:00,430 --> 00:44:57,920

on ledges towards the top of the room of

838

00:45:03,460 --> 00:45:00,440

medical facilities where people are

839

00:45:05,769 --> 00:45:03,470

having a cardiac arrest and that's

840

00:45:08,620 --> 00:45:05,779

apparently the easiest place to find

841

00:45:10,450 --> 00:45:08,630

somebody who has a memory of a

842

00:45:14,549 --> 00:45:10,460

near-death experience going out-of-body

843

00:45:17,410 --> 00:45:14,559

Carly Turk did that charley is a very

844

00:45:20,859 --> 00:45:17,420

experienced remote viewing researcher

845

00:45:23,950 --> 00:45:20,869

and there are rivers in states of

846

00:45:26,220 --> 00:45:23,960

consciousness person and he was very

847

00:45:30,579 --> 00:45:26,230

interested in out-of-body experiences

848

00:45:34,499 --> 00:45:30,589

quite a number of years ago and he had a

849

00:45:38,200 --> 00:45:34,509

woman really tethered to a complicated

850

00:45:43,390 --> 00:45:38,210

brainwave gadget and then over her head

851

00:45:47,890 --> 00:45:43,400

in the bed out of you obviously he in a

852

00:45:51,609 --> 00:45:47,900

six digit number and he interviewed her

853

00:45:55,150 --> 00:45:51,619

hidden about her states of consciousness

854

00:45:58,539 --> 00:45:55,160

and eventually she named off the number

855

00:46:00,249 --> 00:45:58,549

which he could read amazing so that was

856

00:46:04,630 --> 00:46:00,259

a little different than remote viewing

857

00:46:07,359 --> 00:46:04,640

apparently well there's really a

858

00:46:10,509 --> 00:46:07,369

continuum from remote viewing to

859

00:46:12,190 --> 00:46:10,519

out-of-body in remote viewing nobody

860

00:46:14,940 --> 00:46:12,200

ever has a bad experience

861

00:46:18,339 --> 00:46:14,950

remote viewing you quiet your mind and

862

00:46:21,910 --> 00:46:18,349

read what's going on and on the

863

00:46:25,750 --> 00:46:21,920

television the screen in your awareness

864

00:46:29,790 --> 00:46:25,760

and in a out of body experience you're

865

00:46:33,790 --> 00:46:29,800

able to bring with you as much earlier

866

00:46:36,190 --> 00:46:33,800

emotionality sensitivity sexuality as

867

00:46:39,010 --> 00:46:36,200

you're comfortable with we can bring

868

00:46:42,160 --> 00:46:39,020

more more of yourself into the targets

869

00:46:43,930 --> 00:46:42,170

right and as a result you're more

870

00:46:47,110 --> 00:46:43,940

available to have a frightening

871

00:46:50,200 --> 00:46:47,120

experience yes now I I'm just a

872

00:46:53,920 --> 00:46:50,210

physicist so in the laboratory if

873

00:46:56,050 --> 00:46:53,930

somebody freaks out and goes to the

874

00:46:58,870 --> 00:46:56,060

management the tark separated my

875

00:47:00,610 --> 00:46:58,880

consciousness from my body and I can't

876  
00:47:04,600 --> 00:47:00,620  
get together again that would be the end

877  
00:47:07,720 --> 00:47:04,610  
of the program nothing so so we didn't

878  
00:47:10,750 --> 00:47:07,730  
do that but in working with very

879  
00:47:14,110 --> 00:47:10,760  
experienced people they've been hella

880  
00:47:16,870 --> 00:47:14,120  
Hamid was brought into they control

881  
00:47:18,550 --> 00:47:16,880  
subject and it turned out she was one of

882  
00:47:22,840 --> 00:47:18,560  
those reliable people we ever worked

883  
00:47:25,750 --> 00:47:22,850  
with and I knew her quite well so from

884  
00:47:29,170 --> 00:47:25,760  
time to time I could ask her in a remote

885  
00:47:32,590 --> 00:47:29,180  
viewing situation where I'm God in all

886  
00:47:35,110 --> 00:47:32,600  
of these things I'm guiding a person to

887  
00:47:41,410 --> 00:47:35,120  
a destination or which I have no

888  
00:47:46,150 --> 00:47:41,420

knowledge so what one day the CIA had

889

00:47:48,580 --> 00:47:46,160

just surprised of like you today to

890

00:47:53,320 --> 00:47:48,590

describe Brezhnev's office and the

891

00:47:56,020 --> 00:47:53,330

Kremlin's Wow I said okay I understand

892

00:47:58,620 --> 00:47:56,030

what that means the hell out I got

893

00:48:01,600 --> 00:47:58,630

together in my little shielded room and

894

00:48:04,560 --> 00:48:01,610

said well I guess we're going to Moscow

895

00:48:10,810 --> 00:48:04,570

we're gonna describe Brezhnev's office

896

00:48:15,130 --> 00:48:10,820

and she said okay take a deep breath I'm

897

00:48:17,860 --> 00:48:15,140

walking down a wall I'm walking down a

898

00:48:24,040 --> 00:48:17,870

hallway and at the end of the hallway I

899

00:48:27,040 --> 00:48:24,050

see a door as a round top door covered

900

00:48:30,310 --> 00:48:27,050

with leather leather is held in place my

901  
00:48:33,460 --> 00:48:30,320  
breath of pull upholstery tacks that's

902  
00:48:35,440 --> 00:48:33,470  
what I get that's pretty specific and I

903  
00:48:37,990 --> 00:48:35,450  
said to myself well

904  
00:48:40,000 --> 00:48:38,000  
that's pretty specific but what we

905  
00:48:43,390 --> 00:48:40,010  
actually want to know is what's inside

906  
00:48:47,319 --> 00:48:43,400  
so I said okay hell I'll open the door

907  
00:48:54,010 --> 00:48:47,329  
and we can see what's inside and this is

908  
00:48:58,299 --> 00:48:54,020  
like a realistic dream or what do they

909  
00:49:01,329 --> 00:48:58,309  
call the dream lucid dream well I go

910  
00:49:04,599 --> 00:49:01,339  
open the door for her and she's at the I

911  
00:49:06,220 --> 00:49:04,609  
see the doors open but it's dark I said

912  
00:49:08,740 --> 00:49:06,230  
all right I'll turn on the lights she'll

913  
00:49:11,280 --> 00:49:08,750

be able to see what's going on and his

914

00:49:14,740 --> 00:49:11,290

oh I see I see what's going on here

915

00:49:18,160 --> 00:49:14,750

their windows right in front of me

916

00:49:20,589 --> 00:49:18,170

looking out on Red Square well the right

917

00:49:23,920 --> 00:49:20,599

is a great big desk a big wooden desk

918

00:49:28,299 --> 00:49:23,930

covered with glass and behind the desk

919

00:49:32,650 --> 00:49:28,309

there's a door caught into a wooden wall

920

00:49:39,490 --> 00:49:32,660

behind the desk and it will that sounds

921

00:49:42,370 --> 00:49:39,500

fine why don't we open that door and we

922

00:49:45,220 --> 00:49:42,380

opened the door and we found that we're

923

00:49:48,609 --> 00:49:45,230

walking out a stairway and there were

924

00:49:52,319 --> 00:49:48,619

computer bays in front of us and I began

925

00:49:55,740 --> 00:49:52,329

to feel frightened I don't have a

926

00:49:59,140 --> 00:49:55,750

security clearance to be inside the

927

00:50:01,870 --> 00:49:59,150

security bays in the Kremlin that seemed

928

00:50:03,160 --> 00:50:01,880

to me like a bad place for us to be so I

929

00:50:05,020 --> 00:50:03,170

said I think we've got enough

930

00:50:08,970 --> 00:50:05,030

information let's get outta here

931

00:50:14,049 --> 00:50:08,980

and we enter the session heads of coffee

932

00:50:17,230 --> 00:50:14,059

but that's the case where we were

933

00:50:20,680 --> 00:50:17,240

actively doing stuff at the distance and

934

00:50:24,039 --> 00:50:20,690

all of the two years later I had

935

00:50:26,109 --> 00:50:24,049

resigned to the program and was invited

936

00:50:28,930 --> 00:50:26,119

to give a lecture to the Soviet Academy

937

00:50:32,170 --> 00:50:28,940

of Science in the Kremlin it turned out

938

00:50:35,500 --> 00:50:32,180

and they said is there anything you'd

939

00:50:39,700 --> 00:50:35,510

like to see as long as we're here I said

940

00:50:42,010 --> 00:50:39,710

yeah I'd like to see Leonid Brezhnev's

941

00:50:44,440 --> 00:50:42,020

office I don't have to talk to Brezhnev

942

00:50:47,440 --> 00:50:44,450

but it would be very exciting for me to

943

00:50:49,329 --> 00:50:47,450

just have a peek it is what is like the

944

00:50:53,199 --> 00:50:49,339

equivalent of the Oval Office

945

00:50:58,120 --> 00:50:53,209

I imagine so they took me down the hall

946

00:51:00,999 --> 00:50:58,130

I saw the girl with the covered with red

947

00:51:03,429 --> 00:51:01,009

leather we walked inside red squares on

948

00:51:06,269 --> 00:51:03,439

the left the desk on the right I did not

949

00:51:09,999 --> 00:51:06,279

ask them to take me down behind the desk

950

00:51:12,429 --> 00:51:10,009

but everything that I saw everything

951  
00:51:14,949 --> 00:51:12,439  
right everything that I saw was a

952  
00:51:17,999 --> 00:51:14,959  
perfect match for what she described in

953  
00:51:24,419 --> 00:51:18,009  
her about doing so that would be like a

954  
00:51:27,969 --> 00:51:24,429  
continuation from an ordinary sanitary

955  
00:51:31,449 --> 00:51:27,979  
remote-viewing tell me what's on your

956  
00:51:34,179 --> 00:51:31,459  
metal screen do let's go there open the

957  
00:51:38,169 --> 00:51:34,189  
door turn on the lights go down the

958  
00:51:42,130 --> 00:51:38,179  
hallway so you can bring as much of your

959  
00:51:45,249 --> 00:51:42,140  
curiosity with you as you'd like but the

960  
00:51:46,659 --> 00:51:45,259  
more curiosity you bring with you the

961  
00:51:49,059 --> 00:51:46,669  
more likely you are to find a

962  
00:51:53,949 --> 00:51:49,069  
frightening experience right

963  
00:51:56,349 --> 00:51:53,959

I mean Aleister Crowley wrote two books

964

00:51:59,620 --> 00:51:56,359

where he talks about sex on the Austral

965

00:52:00,819 --> 00:51:59,630

plane and McKinley Cantor wrote a book

966

00:52:06,009 --> 00:52:00,829

about that as well

967

00:52:09,669 --> 00:52:06,019

so the a and Bob Monroe yes so the idea

968

00:52:13,209 --> 00:52:09,679

that you can interact with a person in

969

00:52:15,370 --> 00:52:13,219

this location there's a lot of a lot of

970

00:52:20,769 --> 00:52:15,380

evidence that distant locate

971

00:52:23,199 --> 00:52:20,779

interactionism location does occur that

972

00:52:25,299 --> 00:52:23,209

would just not be an appropriate thing

973

00:52:28,299 --> 00:52:25,309

for me to be doing in my laboratory at

974

00:52:31,630 --> 00:52:28,309

Stanford Research Institute because I

975

00:52:33,659 --> 00:52:31,640

could not I don't have the skill to deal

976

00:52:38,529 --> 00:52:33,669

with a person who's having a bad trip

977

00:52:41,259 --> 00:52:38,539

well yes in your opinion Russell would

978

00:52:44,439 --> 00:52:41,269

you say that there are still deep black

979

00:52:49,209 --> 00:52:44,449

programs going on I mean just as an

980

00:52:51,249 --> 00:52:49,219

opinion and remote viewing my opinion is

981

00:52:55,380 --> 00:52:51,259

that there's still programs going on at

982

00:52:58,929 --> 00:52:55,390

the CIA because why wouldn't there be I

983

00:53:03,410 --> 00:52:58,939

mean for example during my program in

984

00:53:08,120 --> 00:53:03,420

the first decade CIA

985

00:53:10,819 --> 00:53:08,130

in people onto them in our program and

986

00:53:13,460 --> 00:53:10,829

learn reviewing and they then went back

987

00:53:17,749 --> 00:53:13,470

to the CIA and we're doing remote

988

00:53:20,720 --> 00:53:17,759

viewing with Pat price and that was all

989

00:53:23,630 --> 00:53:20,730

news to me until the contract monitor

990

00:53:25,249 --> 00:53:23,640

described it in the film so actually I

991

00:53:27,859 --> 00:53:25,259

learned a lot of things about the

992

00:53:30,829 --> 00:53:27,869

program in this film that I had never

993

00:53:32,720 --> 00:53:30,839

known before and the Navy had their

994

00:53:35,359 --> 00:53:32,730

separate program if I'm not mistaken

995

00:53:37,999 --> 00:53:35,369

isn't that the case the Navy also had a

996

00:53:41,569 --> 00:53:38,009

program where we were doing brain wave

997

00:53:44,180 --> 00:53:41,579

experiments where again the hellah was

998

00:53:49,370 --> 00:53:44,190

the remote viewer sitting in a shielded

999

00:53:50,930 --> 00:53:49,380

room and I was in a distant room and it

1000

00:53:54,670 --> 00:53:50,940

was set up so that lights would be

1001  
00:53:57,440 --> 00:53:54,680  
flashed in my eyes from time to time and

1002  
00:54:00,019 --> 00:53:57,450  
what we observed is that hello would get

1003  
00:54:02,390 --> 00:54:00,029  
knocked out of alpha during those

1004  
00:54:03,920 --> 00:54:02,400  
periods where I had the obnoxious light

1005  
00:54:06,519 --> 00:54:03,930  
flashes in my face

1006  
00:54:09,920 --> 00:54:06,529  
interesting interesting only seems to

1007  
00:54:13,490 --> 00:54:09,930  
reinforce the idea that I had that you

1008  
00:54:17,660 --> 00:54:13,500  
were a very good lubricant in the whole

1009  
00:54:20,690 --> 00:54:17,670  
of process of remote viewing just having

1010  
00:54:25,700 --> 00:54:20,700  
you there seemed to make it a lot more

1011  
00:54:27,980 --> 00:54:25,710  
easy to do then with another individual

1012  
00:54:30,529 --> 00:54:27,990  
so yeah I'm clearly one of the more

1013  
00:54:33,759 --> 00:54:30,539

successful wrote our remote Huey

1014

00:54:40,460 --> 00:54:33,769

investigated Maryland slits was also

1015

00:54:42,410 --> 00:54:40,470

successful so is Charlie tart and that

1016

00:54:45,609 --> 00:54:42,420

number of others yeah they're both

1017

00:54:48,650 --> 00:54:45,619

they're both very good people that I

1018

00:54:52,640 --> 00:54:48,660

oddly both had the opportunity to speak

1019

00:54:55,789 --> 00:54:52,650

to briefly when I was at the Monroe

1020

00:55:00,140 --> 00:54:55,799

Institute professional division yearly

1021

00:55:03,499 --> 00:55:00,150

meetings and they were guests Charlie

1022

00:55:07,490 --> 00:55:03,509

was a guest by video and Marilyn

1023

00:55:11,420 --> 00:55:07,500

actually came to Virginia to to meet

1024

00:55:15,040 --> 00:55:11,430

with us so frustrated I had a lifelong

1025

00:55:18,220 --> 00:55:15,050

interest in psychic stuff my vision has

1026  
00:55:21,340 --> 00:55:18,230  
always been very poor so I think that as

1027  
00:55:25,000 --> 00:55:21,350  
a child I got interested in magic to the

1028  
00:55:28,560 --> 00:55:25,010  
kind of remote sensing and then I could

1029  
00:55:33,040 --> 00:55:28,570  
go to magic shows on 42nd Street as a

1030  
00:55:36,000 --> 00:55:33,050  
young teenager and by magic tricks from

1031  
00:55:40,780 --> 00:55:36,010  
the magic shops professional magic shops

1032  
00:55:44,710 --> 00:55:40,790  
so I was then did magic shows so I was

1033  
00:55:46,980 --> 00:55:44,720  
really into fooling people sleight of

1034  
00:55:51,880 --> 00:55:46,990  
hand

1035  
00:55:54,580 --> 00:55:51,890  
illusions until I was a teenager began

1036  
00:55:57,880 --> 00:55:54,590  
to discover that there was such a thing

1037  
00:56:01,420 --> 00:55:57,890  
as a parapsychology Association and the

1038  
00:56:04,000 --> 00:56:01,430

American Society ASPR American Society

1039

00:56:06,790 --> 00:56:04,010

for psychical research so the young

1040

00:56:10,620 --> 00:56:06,800

scientist I gave up my magical career

1041

00:56:14,470 --> 00:56:10,630

and began to read journals about the

1042

00:56:18,010 --> 00:56:14,480

researchers who are actually doing magic

1043

00:56:19,930 --> 00:56:18,020

in the laboratory well that is just a

1044

00:56:23,260 --> 00:56:19,940

fascinating turn of events and

1045

00:56:26,110 --> 00:56:23,270

especially lucky for us to have had you

1046

00:56:29,220 --> 00:56:26,120

on I would like to ask you one or two

1047

00:56:33,460 --> 00:56:29,230

more questions while one is to just

1048

00:56:36,490 --> 00:56:33,470

unfortunately tell us the ending which I

1049

00:56:38,920 --> 00:56:36,500

sort of know already of poor mr. price I

1050

00:56:42,250 --> 00:56:38,930

think our our listeners would be

1051  
00:56:48,070 --> 00:56:42,260  
interested in hearing how he ended his

1052  
00:56:50,170 --> 00:56:48,080  
life well as a mystery that is although

1053  
00:56:52,480 --> 00:56:50,180  
John McMahon said that if you're

1054  
00:56:56,920 --> 00:56:52,490  
successful describing our distant place

1055  
00:57:00,940 --> 00:56:56,930  
then we'll support your work we can't

1056  
00:57:02,950 --> 00:57:00,950  
believe what the CIA tells us any more

1057  
00:57:06,250 --> 00:57:02,960  
than you would think that the CIA always

1058  
00:57:09,580 --> 00:57:06,260  
tells you the truth that price was

1059  
00:57:12,640 --> 00:57:09,590  
extraordinarily successful and we now

1060  
00:57:15,010 --> 00:57:12,650  
understand that he was so successful

1061  
00:57:19,540 --> 00:57:15,020  
that he really scared the hell out of

1062  
00:57:22,690 --> 00:57:19,550  
the CIA it is he the CIA was not

1063  
00:57:25,240 --> 00:57:22,700

comfortable having Superman work for a

1064

00:57:26,170 --> 00:57:25,250

bunch of hippies in California the

1065

00:57:28,870 --> 00:57:26,180

concern

1066

00:57:32,740 --> 00:57:28,880

maybe this person could quiet his mind

1067

00:57:37,359 --> 00:57:32,750

and read the numbers on a card the

1068

00:57:40,510 --> 00:57:37,369

president has to fire nuclear weapons if

1069

00:57:46,510 --> 00:57:40,520

the secret secret codes for weapon

1070

00:57:50,049 --> 00:57:46,520

firing and Targ and Puthoff re now

1071

00:57:54,640 --> 00:57:50,059

suitable people for conducting such a

1072

00:57:56,650 --> 00:57:54,650

dangerous person so right after our

1073

00:58:00,099 --> 00:57:56,660

description of the soviet weapon site

1074

00:58:02,710 --> 00:58:00,109

the CIA made him an offer that he

1075

00:58:04,809 --> 00:58:02,720

apparently couldn't refuse brought him

1076  
00:58:08,319 --> 00:58:04,819  
to West Virginia where they set him up

1077  
00:58:11,130 --> 00:58:08,329  
running a farm and he then was doing

1078  
00:58:17,230 --> 00:58:11,140  
day-to-day remote viewing for the CIA

1079  
00:58:19,569 --> 00:58:17,240  
for a few months and then he died and no

1080  
00:58:22,569 --> 00:58:19,579  
but no one knows what no one knows the

1081  
00:58:27,460 --> 00:58:22,579  
cause of his death because no autopsy

1082  
00:58:31,660 --> 00:58:27,470  
was done now I wonder is it in an effort

1083  
00:58:35,920 --> 00:58:31,670  
to smear his reputation that he was

1084  
00:58:38,920 --> 00:58:35,930  
linked in with the Scientology people or

1085  
00:58:41,470 --> 00:58:38,930  
was he really scientology member or he

1086  
00:58:46,660 --> 00:58:41,480  
was an enthusiastic Scientologist okay

1087  
00:58:50,620 --> 00:58:46,670  
and no doubt about that and a couple of

1088  
00:58:54,220 --> 00:58:50,630

years after he died it became known that

1089

00:58:57,690 --> 00:58:54,230

he was passing on transcripts of his

1090

00:59:02,519 --> 00:58:57,700

remote viewing from the CIA to his

1091

00:59:05,980 --> 00:59:02,529

auditor at the Scientology Church oh so

1092

00:59:08,890 --> 00:59:05,990

so he was really a double agent in a

1093

00:59:12,630 --> 00:59:08,900

certain sense that he was working for

1094

00:59:14,890 --> 00:59:12,640

the CIA by passing on information to the

1095

00:59:19,059 --> 00:59:14,900

Scientologists and we know that for a

1096

00:59:21,039 --> 00:59:19,069

fact we can recover the yang because

1097

00:59:27,849 --> 00:59:21,049

there was a break-in to the CIA

1098

00:59:31,569 --> 00:59:27,859

in 1977 where they found the documents

1099

00:59:35,410 --> 00:59:31,579

from his day-to-day communications with

1100

00:59:39,269 --> 00:59:35,420

them interesting no your associate

1101  
00:59:44,370 --> 00:59:39,279  
former associate helped put off he had

1102  
00:59:48,449 --> 00:59:44,380  
mentioned that pet price had found some

1103  
00:59:51,659 --> 00:59:48,459  
a UFO bases around the country around

1104  
00:59:55,140 --> 00:59:51,669  
the world and and and then how

1105  
00:59:57,059 --> 00:59:55,150  
apparently told the people in Australia

1106  
00:59:58,559 --> 00:59:57,069  
that there was one there and they said

1107  
01:00:01,079 --> 00:59:58,569  
they already knew about it is this

1108  
01:00:05,699 --> 01:00:01,089  
hearsay or do I have the story basically

1109  
01:00:08,279 --> 01:00:05,709  
correct there is a story something like

1110  
01:00:13,679 --> 01:00:08,289  
that and I don't know if it's correct

1111  
01:00:18,329 --> 01:00:13,689  
there is hail and Pat were interested in

1112  
01:00:21,689 --> 01:00:18,339  
UFOs I was not like Alice in Wonderland

1113  
01:00:25,579 --> 01:00:21,699

I can be Alice said that I can only deal

1114

01:00:32,399 --> 01:00:25,589

with one impossible thing at a time so I

1115

01:00:34,949 --> 01:00:32,409

simply wasn't involved there there was

1116

01:00:38,969 --> 01:00:34,959

there was some kind of investigation

1117

01:00:42,719 --> 01:00:38,979

that path that Hale and tasks carried

1118

01:00:44,489 --> 01:00:42,729

out and I was not involved in that okay

1119

01:00:46,589 --> 01:00:44,499

I asked for the reasons it was not

1120

01:00:50,219 --> 01:00:46,599

hugely successful cuz I would obviously

1121

01:00:52,309 --> 01:00:50,229

know about it but it was sort of a an

1122

01:00:54,479 --> 01:00:52,319

after-hours thing that they were doing

1123

01:00:57,689 --> 01:00:54,489

so we were both interested in the

1124

01:01:00,390 --> 01:00:57,699

subject but I have no reason to believe

1125

01:01:02,069 --> 01:01:00,400

that it was wildly successful because

1126

01:01:05,390 --> 01:01:02,079

then it would be part of the project we

1127

01:01:08,459 --> 01:01:05,400

would have done something further I

1128

01:01:12,209 --> 01:01:08,469

simply ask because we do have a lot of

1129

01:01:15,769 --> 01:01:12,219

our listeners who are you you follow G

1130

01:01:21,239 --> 01:01:15,779

type people and you know to maintain a

1131

01:01:23,999 --> 01:01:21,249

very avid interest in that so the good

1132

01:01:26,579 --> 01:01:24,009

news I can give you is that I don't know

1133

01:01:29,509 --> 01:01:26,589

anything about UFOs but I know for a

1134

01:01:32,819 --> 01:01:29,519

fact that you can expand your awareness

1135

01:01:36,149 --> 01:01:32,829

to fill the universe and describe

1136

01:01:40,589 --> 01:01:36,159

anything that's going on because ingo

1137

01:01:43,739 --> 01:01:40,599

had as one of those formal targets can

1138

01:01:45,359 --> 01:01:43,749

you describe what Jupiter looks like we

1139

01:01:49,829 --> 01:01:45,369

at NASA are going to be sending a

1140

01:01:52,380 --> 01:01:49,839

spacecraft there and six months we will

1141

01:01:53,460 --> 01:01:52,390

have a spacecraft at Jupiter is there

1142

01:01:57,470 --> 01:01:53,470

anything interesting to

1143

01:02:00,720 --> 01:01:57,480

be seen and he said yes I see

1144

01:02:03,300 --> 01:02:00,730

interesting an interesting ring it's a

1145

01:02:09,359 --> 01:02:03,310

ring made of ice crystals it's not a

1146

01:02:13,380 --> 01:02:09,369

whole family of them like Saturn but I

1147

01:02:16,170 --> 01:02:13,390

see one very crystal clear ring around

1148

01:02:18,930 --> 01:02:16,180

Jupiter and you'll find that when you

1149

01:02:22,740 --> 01:02:18,940

get there and six months later they

1150

01:02:25,740 --> 01:02:22,750

found that extremely impressive

1151

01:02:28,500 --> 01:02:25,750

my feeling is simply that that life is

1152

01:02:31,080 --> 01:02:28,510

ubiquitous in the universe and that's

1153

01:02:32,700 --> 01:02:31,090

just the way I feel about it whether or

1154

01:02:35,640 --> 01:02:32,710

not I don't know about life but

1155

01:02:37,980 --> 01:02:35,650

consciousness is okay you're here cuz I

1156

01:02:40,589 --> 01:02:37,990

wrote a book called limitless mind which

1157

01:02:43,500 --> 01:02:40,599

really expresses what we're talking

1158

01:02:47,460 --> 01:02:43,510

about but the book that I wrote the

1159

01:02:50,070 --> 01:02:47,470

deals of the whole previously secret SLI

1160

01:02:52,589 --> 01:02:50,080

program is called the reality of ESP

1161

01:02:55,230 --> 01:02:52,599

which is really slam dunk

1162

01:02:57,690 --> 01:02:55,240

proving ESP I would say and I recommend

1163

01:03:01,079 --> 01:02:57,700

it to all of our listeners and I

1164

01:03:03,900 --> 01:03:01,089

certainly hope that when your movie

1165

01:03:07,140 --> 01:03:03,910

premieres in New York I certainly hope

1166

01:03:09,930 --> 01:03:07,150

to be there because I think it's a real

1167

01:03:15,270 --> 01:03:09,940

triumph for the field of remote viewing

1168

01:03:17,370 --> 01:03:15,280

and an excellent document so you want to

1169

01:03:21,150 --> 01:03:17,380

give us some of your your books again

1170

01:03:24,480 --> 01:03:21,160

and tell us you know just in in closing

1171

01:03:26,670 --> 01:03:24,490

about about the movie and what the

1172

01:03:30,210 --> 01:03:26,680

comprehensive book to look at is called

1173

01:03:32,760 --> 01:03:30,220

the reality of ESP and that is that's

1174

01:03:35,849 --> 01:03:32,770

the last book that I wrote and I had all

1175

01:03:38,910 --> 01:03:35,859

the clearances so I was now in that book

1176

01:03:40,710 --> 01:03:38,920

I was able to include pictures of all

1177

01:03:44,010 --> 01:03:40,720

the stuff that had previously been a

1178

01:03:46,800 --> 01:03:44,020

secret so that doesn't nice real live

1179

01:03:51,240 --> 01:03:46,810

ESP is a nice summary of what we did for

1180

01:03:56,070 --> 01:03:51,250

a decade at Fri the movie is called

1181

01:03:58,530 --> 01:03:56,080

third eyes spies and you can see a four

1182

01:04:03,270 --> 01:03:58,540

minute coming attraction for that at the

1183

01:04:05,470 --> 01:04:03,280

website third eye spies comm who

1184

01:04:07,930 --> 01:04:05,480

produces the movie

1185

01:04:11,620 --> 01:04:07,940

I produced the move agent and the

1186

01:04:14,230 --> 01:04:11,630

director is Lance Mejia okay and that

1187

01:04:15,849 --> 01:04:14,240

and this will be shown in theaters as

1188

01:04:18,160 --> 01:04:15,859

well yep

1189

01:04:20,920 --> 01:04:18,170

about the plan plan is they have

1190

01:04:23,620 --> 01:04:20,930

theatrical release and then eventually

1191

01:04:27,130 --> 01:04:23,630

it'll be on television oh that's great

1192

01:04:31,120 --> 01:04:27,140

well I can't recommend both of those

1193

01:04:35,380 --> 01:04:31,130

things enough both your books including

1194

01:04:38,590 --> 01:04:35,390

the reality of ESP for a couple of years

1195

01:04:43,500 --> 01:04:38,600

I read and reread limitless mind because

1196

01:04:46,230 --> 01:04:43,510

I found it to be and it was it was like

1197

01:04:48,609 --> 01:04:46,240

inspirational for me in my work and

1198

01:04:51,359 --> 01:04:48,619

believing in myself and what I was doing

1199

01:04:55,000 --> 01:04:51,369

as a reader as an intuitive reader and

1200

01:04:57,940 --> 01:04:55,010

it really gave me confidence that I

1201  
01:05:00,760 --> 01:04:57,950  
wouldn't have had otherwise and so I

1202  
01:05:04,000 --> 01:05:00,770  
cannot begin to thank you enough for

1203  
01:05:06,520 --> 01:05:04,010  
being with us today we are honored we

1204  
01:05:09,849 --> 01:05:06,530  
are privileged yes most definitely I

1205  
01:05:11,530 --> 01:05:09,859  
mean living legend so to speak well

1206  
01:05:13,180 --> 01:05:11,540  
thank you very much I'm very happy to

1207  
01:05:16,000 --> 01:05:13,190  
share it with you lots of good questions

1208  
01:05:19,330 --> 01:05:16,010  
yeah thank you and and give my love to

1209  
01:05:24,870 --> 01:05:19,340  
Patti and we're going to say what

1210  
01:05:29,859 --> 01:05:27,430  
Wow that was pretty fascinating that

1211  
01:05:32,230 --> 01:05:29,869  
that's really your field I could really

1212  
01:05:34,570 --> 01:05:32,240  
ask him too many questions because I am

1213  
01:05:37,660 --> 01:05:34,580

not as familiar with it as you are but

1214

01:05:40,390 --> 01:05:37,670

it is pretty fascinating it is it is

1215

01:05:42,580 --> 01:05:40,400

just an amazing subject and I really

1216

01:05:46,060 --> 01:05:42,590

feel him when he says I can only deal

1217

01:05:48,520 --> 01:05:46,070

with one impossible time because I was

1218

01:05:51,760 --> 01:05:48,530

good that's a great quote just thinking

1219

01:05:55,060 --> 01:05:51,770

about what can be done with remote

1220

01:05:57,790 --> 01:05:55,070

viewing with out-of-body experience in

1221

01:06:02,200 --> 01:05:57,800

the sense of the way he guided hella

1222

01:06:04,870 --> 01:06:02,210

Hameed into Brezhnev's office my own

1223

01:06:07,990 --> 01:06:04,880

experience with going to the moon that

1224

01:06:10,300 --> 01:06:08,000

time you got frightened I really got

1225

01:06:11,770 --> 01:06:10,310

frightened I I went I think I might have

1226

01:06:16,500 --> 01:06:11,780

said this already but I just felt

1227

01:06:19,920 --> 01:06:16,510

repeated again I was very upset when

1228

01:06:24,630 --> 01:06:19,930

the when NASA was going to explode a

1229

01:06:27,420 --> 01:06:24,640

bomb on the moon which was thing going

1230

01:06:29,640 --> 01:06:27,430

to crash yeah that lemon pocket or miss

1231

01:06:31,740 --> 01:06:29,650

lemon which was going around they were

1232

01:06:36,299 --> 01:06:31,750

going to crash it into the moon for some

1233

01:06:38,309 --> 01:06:36,309

reason it upset me a great deal I didn't

1234

01:06:43,260 --> 01:06:38,319

think they'd do that only work I was

1235

01:06:46,290 --> 01:06:43,270

quite upset by that and I watched it on

1236

01:06:48,630 --> 01:06:46,300

on TV in the morning on my computer I

1237

01:06:51,930 --> 01:06:48,640

think NASA had a like sort of semi live

1238

01:06:53,970 --> 01:06:51,940

feed and then I went back to bed to just

1239

01:06:58,980 --> 01:06:53,980

kind of rest and to think about it and I

1240

01:07:01,980 --> 01:06:58,990

began to almost not on purpose view the

1241

01:07:06,780 --> 01:07:01,990

moon I was meditating on the moon and I

1242

01:07:09,510 --> 01:07:06,790

got there and somebody came up behind me

1243

01:07:12,599 --> 01:07:09,520

as I was viewing something that looked

1244

01:07:15,599 --> 01:07:12,609

like a disused railroad car it wasn't

1245

01:07:18,390 --> 01:07:15,609

that exactly it was dark it was metal it

1246

01:07:20,579 --> 01:07:18,400

was obviously on some sort of a track

1247

01:07:23,579 --> 01:07:20,589

well it wasn't a natural form it was not

1248

01:07:26,190 --> 01:07:23,589

a natural formation no it was a card on

1249

01:07:28,920 --> 01:07:26,200

a track sort of type of thing that's as

1250

01:07:32,460 --> 01:07:28,930

close as I could make of it and somebody

1251

01:07:35,789 --> 01:07:32,470

said excuse me but you have no clearance

1252

01:07:39,630 --> 01:07:35,799

to be here and they told me I had to get

1253

01:07:45,720 --> 01:07:39,640

get gone very quickly and you've got I

1254

01:07:47,849 --> 01:07:45,730

got gone so fast yeah that now that is

1255

01:07:50,370 --> 01:07:47,859

sort of scary what I wanted to ask him

1256

01:07:52,650 --> 01:07:50,380

what you may be able to answer is they

1257

01:07:55,500 --> 01:07:52,660

talk about universal consciousness which

1258

01:07:58,230 --> 01:07:55,510

is fine I get that there's like a mind

1259

01:07:58,980 --> 01:07:58,240

out there that thinks or whatever you're

1260

01:08:00,839 --> 01:07:58,990

part of it

1261

01:08:03,120 --> 01:08:00,849

that's the part that you have to

1262

01:08:05,549 --> 01:08:03,130

remember yeah but it doesn't does it

1263

01:08:09,170 --> 01:08:05,559

require and have't are a body or

1264

01:08:13,730 --> 01:08:09,180

something or can it just float forever I

1265

01:08:17,660 --> 01:08:13,740

think it's in timeless spaceless place

1266

01:08:21,180 --> 01:08:17,670

which of course is not a place but it's

1267

01:08:25,650 --> 01:08:21,190

it's sort of like people scientists

1268

01:08:27,939 --> 01:08:25,660

often posit what was there before the

1269

01:08:37,860 --> 01:08:30,610

and my contention and I'm not a

1270

01:08:42,099 --> 01:08:37,870

scientist I'm an amateur Cosmo but I

1271

01:08:45,930 --> 01:08:42,109

kind of think what it is is time and

1272

01:08:49,479 --> 01:08:45,940

space or properties of this universe and

1273

01:08:52,930 --> 01:08:49,489

they don't exist outside of this

1274

01:08:54,809 --> 01:08:52,940

universe so it's always it's always the

1275

01:08:57,910 --> 01:08:54,819

same it's always there it's always

1276

01:09:01,570 --> 01:08:57,920

consciousness and if you do quiet your

1277

01:09:04,120 --> 01:09:01,580

mind you can join with this universal

1278

01:09:06,249 --> 01:09:04,130

consciousness which is actually both

1279

01:09:08,019 --> 01:09:06,259

inside and outside the universe I mean

1280

01:09:10,510 --> 01:09:08,029

because it's everywhere and everything

1281

01:09:13,059 --> 01:09:10,520

it's inside the universe but it is also

1282

01:09:17,289 --> 01:09:13,069

outside of the universe in a place of no

1283

01:09:19,780 --> 01:09:17,299

time in no space ok but I know it's just

1284

01:09:20,800 --> 01:09:19,790

thinking if it needed a body to play the

1285

01:09:24,070 --> 01:09:20,810

piano or something

1286

01:09:26,530 --> 01:09:24,080

I think that it's the contention of many

1287

01:09:30,189 --> 01:09:26,540

just look at the keys and go hmm you

1288

01:09:34,269 --> 01:09:30,199

know play this tea for me ok I think

1289

01:09:37,120 --> 01:09:34,279

it's the contention of many that we are

1290

01:09:39,340 --> 01:09:37,130

I don't know I mean this is just this is

1291

01:09:44,249 --> 01:09:39,350

a theory and I didn't make this theory

1292

01:09:50,289 --> 01:09:44,259

up and that is that each of us are like

1293

01:09:54,160 --> 01:09:50,299

little not exactly well pixels that's

1294

01:09:56,820 --> 01:09:54,170

what Tom Tom Campbell would say but fry

1295

01:09:59,590 --> 01:09:56,830

in that fractals either I'm looking for

1296

01:10:03,250 --> 01:09:59,600

fragments fragments pieces yes but

1297

01:10:05,200 --> 01:10:03,260

there's when you see all in a in a drop

1298

01:10:07,330 --> 01:10:05,210

you can see the whole universe in a drop

1299

01:10:10,840 --> 01:10:07,340

of water kind of things so we're each

1300

01:10:12,820 --> 01:10:10,850

like the drops of waters drops of water

1301  
01:10:15,610 --> 01:10:12,830  
of the universal consciousness and we

1302  
01:10:19,720 --> 01:10:15,620  
all share a part in it and our reason

1303  
01:10:21,610 --> 01:10:19,730  
for being incarnate in this body is so

1304  
01:10:25,150 --> 01:10:21,620  
that the universal consciousness can

1305  
01:10:27,130 --> 01:10:25,160  
have the experience of playing the piano

1306  
01:10:33,700 --> 01:10:27,140  
as you say but they won't get that

1307  
01:10:35,050 --> 01:10:33,710  
experience from me but well and one of

1308  
01:10:37,120 --> 01:10:35,060  
our guests also said something

1309  
01:10:39,490 --> 01:10:37,130  
interesting that everything does exist

1310  
01:10:41,530 --> 01:10:39,500  
at the same time yes and the human mind

1311  
01:10:43,840 --> 01:10:41,540  
can't deal with that so we

1312  
01:10:47,020 --> 01:10:43,850  
invented time to separate these things

1313  
01:10:49,510 --> 01:10:47,030

out well I think that time was invented

1314

01:10:54,550 --> 01:10:49,520

when the universe came into being

1315

01:10:58,180 --> 01:10:54,560

because it it it involves a space and

1316

01:11:01,540 --> 01:10:58,190

time are actually very much interrelated

1317

01:11:04,120 --> 01:11:01,550

and we measure time by the movement of

1318

01:11:06,370 --> 01:11:04,130

something in space even if it's just the

1319

01:11:08,440 --> 01:11:06,380

movement of the that seconds on the

1320

01:11:10,150 --> 01:11:08,450

clock or it could be the movement of a

1321

01:11:15,760 --> 01:11:10,160

giant asteroid heading towards Earth

1322

01:11:19,630 --> 01:11:15,770

that's about to immolate us but if we

1323

01:11:23,920 --> 01:11:19,640

were not beings of flesh who live and

1324

01:11:26,460 --> 01:11:23,930

die even within our universe we would be

1325

01:11:29,530 --> 01:11:26,470

able to go back and forth in time

1326

01:11:32,260 --> 01:11:29,540

because we wouldn't be beings of flesh

1327

01:11:35,050 --> 01:11:32,270

now we can go back and forth in time but

1328

01:11:37,450 --> 01:11:35,060

we can only do it with our minds we'll

1329

01:11:40,000 --> 01:11:37,460

have to you know that experiment you

1330

01:11:42,700 --> 01:11:40,010

wanted to do with Bill and myself yeah

1331

01:11:47,440 --> 01:11:42,710

perhaps we should involve some of our

1332

01:11:49,060 --> 01:11:47,450

listeners last week oh that's that's a

1333

01:11:53,680 --> 01:11:49,070

real thought I'll have to give that a

1334

01:11:55,750 --> 01:11:53,690

lot of consideration okay because no oh

1335

01:11:59,860 --> 01:11:55,760

no I was gonna say Mega Millions is like

1336

01:12:02,500 --> 01:11:59,870

too many numbers but pick three would be

1337

01:12:05,950 --> 01:12:02,510

pick three would be good anything that

1338

01:12:08,230 --> 01:12:05,960

doesn't have that super number is what

1339

01:12:10,510 --> 01:12:08,240

super number so when it's the Powerball

1340

01:12:12,760 --> 01:12:10,520

number Oh Oh anything without the

1341

01:12:15,060 --> 01:12:12,770

Powerball number is a lot more doable

1342

01:12:19,300 --> 01:12:15,070

than something with the Powerball number

1343

01:12:22,860 --> 01:12:19,310

on the other hand next show I would like

1344

01:12:27,460 --> 01:12:22,870

to announce that we have another major

1345

01:12:29,890 --> 01:12:27,470

superstar coming on who is dr. Stanley

1346

01:12:33,720 --> 01:12:29,900

crypt nner of the Saybrook Institute

1347

01:12:36,070 --> 01:12:33,730

okay and he is he is a veteran of

1348

01:12:38,500 --> 01:12:36,080

psychical research he's as a

1349

01:12:41,410 --> 01:12:38,510

psychologist he started out in dream

1350

01:12:44,770 --> 01:12:41,420

studies he's he's he's been involved in

1351

01:12:47,230 --> 01:12:44,780

the field for more than 50 years so he

1352

01:12:49,810 --> 01:12:47,240

is an incredible and incredibly

1353

01:12:51,820 --> 01:12:49,820

wonderful guest for us to to be able to

1354

01:12:53,140 --> 01:12:51,830

speak with and will be speaking about

1355

01:12:54,520 --> 01:12:53,150

dreams Oh

1356

01:12:56,410 --> 01:12:54,530

so the

1357

01:13:00,040 --> 01:12:56,420

listeners if you have any questions

1358

01:13:03,700 --> 01:13:00,050

about dreams or if you would like to be

1359

01:13:06,190 --> 01:13:03,710

on shattered reality as an experimenter

1360

01:13:08,980 --> 01:13:06,200

or if you have an account that you would

1361

01:13:11,830 --> 01:13:08,990

1401

01:15:27,200 --> 01:15:23,190

this really would be an excellent

1402

01:15:29,270 --> 01:15:27,210

opportunity to to address and to get

1403

01:15:32,660 --> 01:15:29,280

some insight from a gentleman that is

1404

01:15:36,110 --> 01:15:32,670

truly a giant and a feline and

1405

01:15:39,050 --> 01:15:36,120

absolutely absolutely and it's a great

1406

01:15:42,080 --> 01:15:39,060

opportunity if you're out there yes if

1407

01:15:45,040 --> 01:15:42,090

you have a question particularly if it's

1408

01:15:49,130 --> 01:15:45,050

about a dream that you believe is

1409

01:15:53,110 --> 01:15:49,140

precognitive this is the man to be in

1410

01:15:55,550 --> 01:15:53,120

1411

01:15:58,700 --> 01:15:55,560
