

1  
00:00:00,410 --> 00:00:09,710

okay

2  
00:00:09,720 --> 00:00:17,060

[Music]

3  
00:00:25,350 --> 00:00:20,550

welcome to shattered reality with their

4  
00:00:28,440 --> 00:00:25,360

hosts Kate Valentine and furs prepare to

5  
00:00:35,069 --> 00:00:28,450

have a paradigm shifted into truths

6  
00:00:37,319 --> 00:00:35,079

questions and now shattered reality well

7  
00:00:40,979 --> 00:00:37,329

here we are again firoozeh yeah Kate

8  
00:00:43,920 --> 00:00:40,989

here we are and it's All Saints Day

9  
00:00:46,440 --> 00:00:43,930

today only either All Saints are all

10  
00:00:50,000 --> 00:00:46,450

souls I think all souls us tomorrow in

11  
00:00:53,970 --> 00:00:50,010

any case here we are on November 1st

12  
00:00:57,979 --> 00:00:53,980

2016 and oh boy do we have a wonderful

13  
00:01:00,690 --> 00:00:57,989

guest yeah for you today a really really

14

00:01:04,709 --> 00:01:00,700

thought-provoking and intelligent

15

00:01:07,410 --> 00:01:04,719

gentleman and I have to thank miss

16

00:01:10,499 --> 00:01:07,420

Shannon Chandler for facilitating this

17

00:01:12,569 --> 00:01:10,509

interview by reminding our guests that

18

00:01:16,770 --> 00:01:12,579

we had met and we had once spoken about

19

00:01:19,169 --> 00:01:16,780

the podcast so thanks Shannon and this

20

00:01:22,739 --> 00:01:19,179

is an unusual situation because very

21

00:01:25,379 --> 00:01:22,749

seldom do I find that I am going to be

22

00:01:28,859 --> 00:01:25,389

introducing a guest who has an even

23

00:01:31,289 --> 00:01:28,869

bigger tent than I do which is to say

24

00:01:35,279 --> 00:01:31,299

that he talks about all kinds of things

25

00:01:40,069 --> 00:01:35,289

in his two books that he really has a

26

00:01:45,120 --> 00:01:40,079

big big tent and so our guest today is

27

00:01:49,889 --> 00:01:45,130

claude swanson PhD he went to MIT he got

28

00:01:53,120 --> 00:01:49,899

his PhD from Princeton he is just really

29

00:01:57,330 --> 00:01:53,130

a very very well accomplished gentleman

30

00:02:01,519 --> 00:01:57,340

he has worked in grav in the gravity

31

00:02:05,429 --> 00:02:01,529

group at Princeton and he has focused on

32

00:02:09,180 --> 00:02:05,439

experimental cosmology and astronomy I

33

00:02:14,130 --> 00:02:09,190

so he has had a lot of experience both

34

00:02:17,370 --> 00:02:14,140

in the sort of industrial world which

35

00:02:20,100 --> 00:02:17,380

involved DuPont United Technologies the

36

00:02:20,540 --> 00:02:20,110

United States Army and Navy DARPA and

37

00:02:28,820 --> 00:02:20,550

the

38

00:02:31,910 --> 00:02:28,830

things so please let's welcome dr.

39  
00:02:33,620 --> 00:02:31,920  
Claude Swanson yes thank you so much for

40  
00:02:35,390 --> 00:02:33,630  
being here with us today well I was

41  
00:02:36,050 --> 00:02:35,400  
wonderful to be here thank you for

42  
00:02:38,210 --> 00:02:36,060  
having me

43  
00:02:40,790 --> 00:02:38,220  
and and Russia we have to give the name

44  
00:02:43,190 --> 00:02:40,800  
of his book yes we do because he has two

45  
00:02:45,950 --> 00:02:43,200  
books one of which I am the proud owner

46  
00:02:48,890 --> 00:02:45,960  
of the first book which is called the

47  
00:02:51,770 --> 00:02:48,900  
synchronized universe the new science of

48  
00:02:56,060 --> 00:02:51,780  
the paranormal his second book is called

49  
00:02:59,870 --> 00:02:56,070  
life force the scientific basis volume 2

50  
00:03:01,970 --> 00:02:59,880  
of the synchronized universe so let me

51  
00:03:05,050 --> 00:03:01,980  
start by asking you just simply is there

52  
00:03:09,230 --> 00:03:05,060  
a volume tree in the works

53  
00:03:13,760 --> 00:03:09,240  
yeah I've been taking about seven years

54  
00:03:17,060 --> 00:03:13,770  
per volume unfortunately I'm hoping that

55  
00:03:19,670 --> 00:03:17,070  
it's soon within a few months to a year

56  
00:03:24,670 --> 00:03:19,680  
and at the max I'm hoping with it lest

57  
00:03:30,470 --> 00:03:24,680  
under that basically my my trajectory

58  
00:03:34,190 --> 00:03:30,480  
since since I discovered I discovered

59  
00:03:37,850 --> 00:03:34,200  
remote viewing in 1980s and that told me

60  
00:03:40,760 --> 00:03:37,860  
that physics as we know it is missing a

61  
00:03:43,250 --> 00:03:40,770  
whole lot of things that you know our

62  
00:03:44,720 --> 00:03:43,260  
physics can't really explain so ever

63  
00:03:47,990 --> 00:03:44,730

since then I've been doing research on

64

00:03:50,660 --> 00:03:48,000

what is missing from current Western

65

00:03:54,320 --> 00:03:50,670

science so the first the first book was

66

00:03:57,380 --> 00:03:54,330

about the paranormal and those are all

67

00:04:01,960 --> 00:03:57,390

kinds of phenomena that science can't

68

00:04:04,910 --> 00:04:01,970

explain like ESP and remote viewing and

69

00:04:07,790 --> 00:04:04,920

levitation and near-death and

70

00:04:11,240 --> 00:04:07,800

out-of-body experiences the second book

71

00:04:14,330 --> 00:04:11,250

life force is okay well these things

72

00:04:17,000 --> 00:04:14,340

happen how can we make a science how can

73

00:04:18,140 --> 00:04:17,010

we understand these things and and I

74

00:04:20,930 --> 00:04:18,150

determined that there's something

75

00:04:23,270 --> 00:04:20,940

missing from our Western science we have

76  
00:04:25,550 --> 00:04:23,280  
electromagnetism we have quantum physics

77  
00:04:28,130 --> 00:04:25,560  
blah blah blah but there's something

78  
00:04:31,250 --> 00:04:28,140  
that the Chinese have known about for

79  
00:04:34,310 --> 00:04:31,260  
five thousand years called Chi the

80  
00:04:36,350 --> 00:04:34,320  
Hindus call it prana and it's

81  
00:04:39,020 --> 00:04:36,360  
been known about it's been used by

82  
00:04:41,360 --> 00:04:39,030  
healers around the world but it's not

83  
00:04:43,910 --> 00:04:41,370  
part of Western science they don't have

84  
00:04:47,150 --> 00:04:43,920  
a clue what this is and so of course

85  
00:04:49,280 --> 00:04:47,160  
they ignore it all right so that's the

86  
00:04:52,220 --> 00:04:49,290  
second book is about what is the science

87  
00:04:54,080 --> 00:04:52,230  
and pulling together the best we know

88  
00:04:57,020 --> 00:04:54,090

and the Russians have actually figured

89

00:05:00,410 --> 00:04:57,030

out a lot about what it is and the

90

00:05:03,620 --> 00:05:00,420

scientific basis so on the next book is

91

00:05:06,140 --> 00:05:03,630

about the next level of subtlety the

92

00:05:08,390 --> 00:05:06,150

next level of abstraction which is the

93

00:05:13,010 --> 00:05:08,400

afterlife and the soul what is the

94

00:05:15,980 --> 00:05:13,020

energy that makes the soul possible how

95

00:05:20,060 --> 00:05:15,990

is it that the afterlife appears to be

96

00:05:21,860 --> 00:05:20,070

very real and that maybe even the

97

00:05:24,380 --> 00:05:21,870

physical life here that we are so

98

00:05:27,050 --> 00:05:24,390

absorbed in maybe this may be the

99

00:05:30,020 --> 00:05:27,060

illusion and that may be the real life

100

00:05:33,470 --> 00:05:30,030

the soul life may be much more real than

101  
00:05:35,690 --> 00:05:33,480  
this but trying to pull together the

102  
00:05:38,720 --> 00:05:35,700  
physics of it and the science behind it

103  
00:05:41,030 --> 00:05:38,730  
so that's it's a big job and there

104  
00:05:42,830 --> 00:05:41,040  
aren't as many experiments as I would

105  
00:05:45,350 --> 00:05:42,840  
like but I've been trying to do that

106  
00:05:49,790 --> 00:05:45,360  
well that sounds really fascinating but

107  
00:05:53,600 --> 00:05:49,800  
what occurs to me is that a lot of your

108  
00:05:58,490 --> 00:05:53,610  
your research and your studies now came

109  
00:06:01,850 --> 00:05:58,500  
about due to the hard question in the

110  
00:06:04,580 --> 00:06:01,860  
study of consciousness it would and you

111  
00:06:06,860 --> 00:06:04,590  
know what I'm speaking of like the fact

112  
00:06:08,870 --> 00:06:06,870  
that you know Max Planck for instance

113  
00:06:10,880 --> 00:06:08,880

said that you know consciousness is at

114

00:06:13,240 --> 00:06:10,890

the base of everything and you just

115

00:06:16,160 --> 00:06:13,250

can't get behind it you can't get behind

116

00:06:20,000 --> 00:06:16,170

consciousness because it is the re the

117

00:06:23,530 --> 00:06:20,010

real the reality behind everything now

118

00:06:26,660 --> 00:06:23,540

is would you say that this is like where

119

00:06:28,820 --> 00:06:26,670

many of your thoughts and studies

120

00:06:32,000 --> 00:06:28,830

originated from this hard question of

121

00:06:32,900 --> 00:06:32,010

consciousness or am i off no you're

122

00:06:36,740 --> 00:06:32,910

right

123

00:06:41,840 --> 00:06:36,750

it is it is the deep question that it's

124

00:06:45,230 --> 00:06:41,850

hard for anybody to access because we're

125

00:06:48,020 --> 00:06:45,240

in the middle of it can't really make it

126

00:06:54,220 --> 00:06:48,030

a objective and look at it from outside

127

00:06:58,610 --> 00:06:54,230

well I I started from a more prosaic

128

00:07:01,550 --> 00:06:58,620

point of view or like a scientist the

129

00:07:04,940 --> 00:07:01,560

the scientists noticed that when

130

00:07:08,540 --> 00:07:04,950

consciousness is presence that

131

00:07:11,630 --> 00:07:08,550

experiments get messed up results yet

132

00:07:14,240 --> 00:07:11,640

affected they call it the wavefunction

133

00:07:17,380 --> 00:07:14,250

collapse the double slit experiment and

134

00:07:19,850 --> 00:07:17,390

I'm sure you're familiar with yes

135

00:07:24,070 --> 00:07:19,860

website to talk about it and things like

136

00:07:26,990 --> 00:07:24,080

that that if you have a quantum system

137

00:07:29,510 --> 00:07:27,000

you so describe the probability of

138

00:07:31,940 --> 00:07:29,520

particles by these things called wave

139

00:07:34,160 --> 00:07:31,950

functions which are the way be the

140

00:07:36,680 --> 00:07:34,170

waviness the wavy probability of them

141

00:07:39,620 --> 00:07:36,690

being in certain places and doing

142

00:07:43,430 --> 00:07:39,630

certain things and and we have equations

143

00:07:47,300 --> 00:07:43,440

that tell us how those waves behave but

144

00:07:51,020 --> 00:07:47,310

we also know that if you look at it if a

145

00:07:53,480 --> 00:07:51,030

human consciousness focuses on it that

146

00:07:56,630 --> 00:07:53,490

something else happens that it affects

147

00:07:59,420 --> 00:07:56,640

that system and we don't really have a

148

00:08:00,950 --> 00:07:59,430

three for that there's no physics to

149

00:08:03,500 --> 00:08:00,960

explain what happened

150

00:08:06,710 --> 00:08:03,510

when the experimenter looks inside the

151

00:08:10,220 --> 00:08:06,720

box and you know they've been all kinds

152

00:08:12,860 --> 00:08:10,230

of discussions about this and Dean Radin

153

00:08:15,650 --> 00:08:12,870

did some experiments a few years ago to

154

00:08:19,670 --> 00:08:15,660

show that even if you are just remote

155

00:08:21,530 --> 00:08:19,680

viewing a double slit experiment we have

156

00:08:24,050 --> 00:08:21,540

photons coming along I'm going to go

157

00:08:25,810 --> 00:08:24,060

through a double-slit nice and

158

00:08:33,140 --> 00:08:25,820

interference pattern or the other side

159

00:08:35,660 --> 00:08:33,150

but if you just eyeball not photons not

160

00:08:39,620 --> 00:08:35,670

with instruments but just with your

161

00:08:41,830 --> 00:08:39,630

consciousness it still messes up the

162

00:08:45,110 --> 00:08:41,840

wavefunction it still affects thing so

163

00:08:49,760 --> 00:08:45,120

you know this to me this is an important

164

00:08:54,740 --> 00:08:49,770

step that consciousness is something and

165

00:08:58,460 --> 00:08:54,750

it's embedded in everything else that we

166

00:09:01,470 --> 00:08:58,470

do perceive in the world and yet physics

167

00:09:05,939 --> 00:09:01,480

pretty much has tried to ignore it

168

00:09:09,300 --> 00:09:05,949

the base bases problem and many and many

169

00:09:12,470 --> 00:09:09,310

neuroscientists tend to want to ignore

170

00:09:16,079 --> 00:09:12,480

it and you know take the mechanistic

171

00:09:20,759 --> 00:09:16,089

materialistic view that it's a

172

00:09:24,949 --> 00:09:20,769

consciousness is an accident and that it

173

00:09:28,740 --> 00:09:24,959

really has no it has no meaning beyond a

174

00:09:31,860 --> 00:09:28,750

lot you know beyond life as we know it

175

00:09:34,019 --> 00:09:31,870

on in 3d just a real quick question dr.

176

00:09:37,379 --> 00:09:34,029

Swanson how far is the remote viewer

177

00:09:39,629 --> 00:09:37,389

from the double-slit experiment just is

178

00:09:42,689 --> 00:09:39,639

it feet inches miles

179

00:09:45,660 --> 00:09:42,699

i roughly just roughly i mean i know you

180

00:09:48,480 --> 00:09:45,670

don't know exactly how next room oh

181

00:09:53,670 --> 00:09:48,490

there were a bunch of different

182

00:09:56,400 --> 00:09:53,680

experiments different people doing the

183

00:09:59,430 --> 00:09:56,410

work and my impression is there's a

184

00:10:02,480 --> 00:09:59,440

range of distances problem to hundreds

185

00:10:04,680 --> 00:10:02,490

or thousands of miles Wow okay but I

186

00:10:08,250 --> 00:10:04,690

haven't gone over his experiment in

187

00:10:11,009 --> 00:10:08,260

detail to see but I know with other data

188

00:10:11,490 --> 00:10:11,019

this show then pretty much it doesn't

189

00:10:17,790 --> 00:10:11,500

matter

190

00:10:21,180 --> 00:10:17,800

you are in fact you can also affect

191

00:10:23,100 --> 00:10:21,190

things in the future or in the past so

192

00:10:26,879 --> 00:10:23,110

time doesn't matter either

193

00:10:29,400 --> 00:10:26,889

well even but even in quantum mechanics

194

00:10:31,620 --> 00:10:29,410

you have the process of entanglement we

195

00:10:33,600 --> 00:10:31,630

would giant stein cold you know action

196

00:10:35,970 --> 00:10:33,610

in a spooky action at a distance or

197

00:10:38,400 --> 00:10:35,980

whatever so there seems to be some as

198

00:10:40,350 --> 00:10:38,410

you said hard evidence for that as well

199

00:10:43,410 --> 00:10:40,360

so that's why I was interested as to how

200

00:10:47,460 --> 00:10:43,420

far away the remote viewer was Ingo Swan

201  
00:10:50,280 --> 00:10:47,470  
by the way Ingo Swan viewed something

202  
00:10:55,139 --> 00:10:50,290  
about the rings of Saturn that wasn't

203  
00:10:57,650 --> 00:10:55,149  
proven until years after it occurred and

204  
00:11:01,280 --> 00:10:57,660  
perhaps even after poor INGOs passing

205  
00:11:05,069 --> 00:11:01,290  
that it was seen that what he had viewed

206  
00:11:07,220 --> 00:11:05,079  
remotely in all the way into Saturn you

207  
00:11:09,780 --> 00:11:07,230  
know about that right Claude mm-hmm I

208  
00:11:12,540 --> 00:11:09,790  
don't know about that particular session

209  
00:11:15,950 --> 00:11:12,550  
but I know that you can Remote View out

210  
00:11:18,990 --> 00:11:15,960  
those distance there's no problem too

211  
00:11:21,120 --> 00:11:19,000  
yeah it's very hard to interview you you

212  
00:11:26,040 --> 00:11:21,130  
have a million-and-a-half interesting

213  
00:11:28,650 --> 00:11:26,050

topic synchronized universe right here

214

00:11:31,800 --> 00:11:28,660

on the desk between us and you know

215

00:11:34,140 --> 00:11:31,810

every chapter in your book could be a

216

00:11:37,010 --> 00:11:34,150

whole hour interview on shattered

217

00:11:46,080 --> 00:11:37,020

reality and I'm sure that our our

218

00:11:49,500 --> 00:11:46,090

listeners would put my name into Google

219

00:11:54,270 --> 00:11:49,510

Klaus Swanson website synchronized

220

00:11:57,540 --> 00:11:54,280

universe comm will pop up some people

221

00:12:01,890 --> 00:11:57,550

who are English not not American spell

222

00:12:04,140 --> 00:12:01,900

synchronized with an s not a Z not as

223

00:12:06,300 --> 00:12:04,150

ahead as they say so so that's the only

224

00:12:09,030 --> 00:12:06,310

possible confusion if you put my name

225

00:12:12,390 --> 00:12:09,040

into Google the website pops up and you

226

00:12:16,080 --> 00:12:12,400

can find discussions off the books there

227

00:12:19,550 --> 00:12:16,090

some sample pages and more information

228

00:12:24,930 --> 00:12:19,560

and about half about a dozen different

229

00:12:27,000 --> 00:12:24,940

YouTube lectures or interviews so you

230

00:12:31,650 --> 00:12:27,010

can get more information there great I

231

00:12:35,130 --> 00:12:31,660

have a kind of complicated question for

232

00:12:38,910 --> 00:12:35,140

you and it may include you are having to

233

00:12:41,910 --> 00:12:38,920

explain more about the torsion situation

234

00:12:44,210 --> 00:12:41,920

and the subtle energy but um when they

235

00:12:49,380 --> 00:12:44,220

did the double-slit experiments that

236

00:12:53,220 --> 00:12:49,390

were observed could the spin on the

237

00:12:57,540 --> 00:12:53,230

electrons or subatomic particles that

238

00:12:59,760 --> 00:12:57,550

you speak of in torsion have an effect

239

00:13:03,990 --> 00:12:59,770

on the double slit or am i as mike

240

00:13:08,970 --> 00:13:04,000

physics really not up to snuff at all no

241

00:13:14,130 --> 00:13:08,980

you're far ahead of most business I just

242

00:13:18,930 --> 00:13:14,140

wrote a paper that's coming out the the

243

00:13:22,500 --> 00:13:18,940

IC is SS EEM organization the subtle

244

00:13:27,660 --> 00:13:22,510

energy organization has a magazine

245

00:13:28,980 --> 00:13:27,670

called bridges that they published

246

00:13:31,950 --> 00:13:28,990

periodically and I have

247

00:13:36,150 --> 00:13:31,960

article coming out this next month in

248

00:13:39,660 --> 00:13:36,160

that about that exact question I talked

249

00:13:42,900 --> 00:13:39,670

about Dean Ravens experiment from the

250

00:13:46,199 --> 00:13:42,910

point of view of torsion and basically

251  
00:13:51,480 --> 00:13:46,209  
that when the remote viewer or the the

252  
00:13:54,570 --> 00:13:51,490  
psychic focuses his intention on the

253  
00:13:58,079 --> 00:13:54,580  
double-slit trying to perceive which

254  
00:14:00,870 --> 00:13:58,089  
hole the photon or the electron went

255  
00:14:06,150 --> 00:14:00,880  
through that you create a torsion field

256  
00:14:09,300 --> 00:14:06,160  
there and it is strong enough to cause

257  
00:14:12,449 --> 00:14:09,310  
the wave functions to the phases of the

258  
00:14:15,120 --> 00:14:12,459  
two slits to get scrambled so the

259  
00:14:19,620 --> 00:14:15,130  
interference pattern goes away so it

260  
00:14:22,079 --> 00:14:19,630  
will explain in my opinion great

261  
00:14:25,110 --> 00:14:22,089  
experiment and I think that so to me

262  
00:14:27,840 --> 00:14:25,120  
torsion is the answer to a lot of these

263  
00:14:32,540 --> 00:14:27,850

questions about consciousness that that

264

00:14:36,150 --> 00:14:32,550

we really do have a field around us of

265

00:14:39,449 --> 00:14:36,160

consciousness which is in terms of

266

00:14:41,040 --> 00:14:39,459

physics it's the torsion field could you

267

00:14:42,690 --> 00:14:41,050

just go over there for me quickly

268

00:14:44,850 --> 00:14:42,700

because I'm really not too familiar with

269

00:14:48,180 --> 00:14:44,860

what you're referring to my tour sure

270

00:14:50,130 --> 00:14:48,190

yeah you know in in physics if you go

271

00:14:52,550 --> 00:14:50,140

through the conventional Western

272

00:14:55,680 --> 00:14:52,560

education go through all your courses

273

00:14:58,280 --> 00:14:55,690

you say there's only four forces there's

274

00:15:01,350 --> 00:14:58,290

two nuclear forces that are very short

275

00:15:03,390 --> 00:15:01,360

distances inside the nucleus as is the

276

00:15:07,190 --> 00:15:03,400

strong and the weak forces and then is

277

00:15:09,900 --> 00:15:07,200

gravity which works over big distances

278

00:15:12,510 --> 00:15:09,910

electromagnetism that works over big

279

00:15:12,980 --> 00:15:12,520

distances and they say that's all there

280

00:15:15,900 --> 00:15:12,990

is

281

00:15:20,660 --> 00:15:15,910

those so they say and you know all the

282

00:15:23,460 --> 00:15:20,670

physics the problem is you don't you

283

00:15:25,769 --> 00:15:23,470

they they're not looking at a whole

284

00:15:28,400 --> 00:15:25,779

bunch of phenomena that have been

285

00:15:32,250 --> 00:15:28,410

discovered in the past 50 years that

286

00:15:35,280 --> 00:15:32,260

require something else and like I said

287

00:15:36,900 --> 00:15:35,290

before the Chinese call it Chi they have

288

00:15:40,319 --> 00:15:36,910

known about it for a long time it's part

289

00:15:43,470 --> 00:15:40,329

of their major medicine but in Western

290

00:15:46,740 --> 00:15:43,480

physics we pretend it doesn't exist

291

00:15:50,310 --> 00:15:46,750

there are Qi Gong masters in China who

292

00:15:53,100 --> 00:15:50,320

pinning short physical forces with this

293

00:15:55,620 --> 00:15:53,110

energy they can push things away they

294

00:15:58,410 --> 00:15:55,630

can pull things toward they can bend a

295

00:16:01,770 --> 00:15:58,420

laser beam a thousand miles away they

296

00:16:04,500 --> 00:16:01,780

can alter radioactive decay they can do

297

00:16:07,740 --> 00:16:04,510

things that physicists would say yeah

298

00:16:10,110 --> 00:16:07,750

that's physics okay and if this force

299

00:16:13,050 --> 00:16:10,120

does those things then it ought to be

300

00:16:16,470 --> 00:16:13,060

part of physics too and the Russians

301  
00:16:20,220 --> 00:16:16,480  
have been working to include to expand

302  
00:16:22,110 --> 00:16:20,230  
physics to include this energy one of

303  
00:16:26,700 --> 00:16:22,120  
the things they've discovered is that

304  
00:16:30,330 --> 00:16:26,710  
the PK masters gives I've seen any of

305  
00:16:33,930 --> 00:16:30,340  
the old films with some of the Russian

306  
00:16:37,230 --> 00:16:33,940  
PK experts all God you can move things

307  
00:16:39,690 --> 00:16:37,240  
move objects with this force or just go

308  
00:16:42,750 --> 00:16:39,700  
to the Princeton experiments where they

309  
00:16:45,390 --> 00:16:42,760  
cause a random event generator to change

310  
00:16:46,290 --> 00:16:45,400  
more ones than zeros because of

311  
00:16:49,080 --> 00:16:46,300  
consciousness

312  
00:16:52,860 --> 00:16:49,090  
those are PK effects there's a physical

313  
00:16:56,450 --> 00:16:52,870

effects cost purely by the mind and this

314

00:16:59,940 --> 00:16:56,460

torsion field explains all those things

315

00:17:03,510 --> 00:16:59,950

it's really it's a property of

316

00:17:06,780 --> 00:17:03,520

space-time that needs to be included in

317

00:17:10,439 --> 00:17:06,790

Western physics we talk about Einstein's

318

00:17:12,810 --> 00:17:10,449

theory who said well gravity is really a

319

00:17:15,569 --> 00:17:12,820

curving of space you have a big mass

320

00:17:19,079 --> 00:17:15,579

like the earth it bends the space around

321

00:17:20,939 --> 00:17:19,089

it and that's what causes the forces we

322

00:17:23,730 --> 00:17:20,949

call attraction the orbits of the

323

00:17:26,550 --> 00:17:23,740

planets and things like that so he

324

00:17:30,170 --> 00:17:26,560

described gravity as a curving of space

325

00:17:33,210 --> 00:17:30,180

but the Russians have discovered is that

326

00:17:37,320 --> 00:17:33,220

torsion is an additional property of

327

00:17:38,880 --> 00:17:37,330

space it can also have a twist a local

328

00:17:40,920 --> 00:17:38,890

little twisting motion like a little

329

00:17:43,230 --> 00:17:40,930

vortex think about it like that

330

00:17:45,900 --> 00:17:43,240

and every little particle in the

331

00:17:48,750 --> 00:17:45,910

universe has a spin it's spinning like a

332

00:17:51,900 --> 00:17:48,760

top whenever it that spin changes

333

00:17:55,529 --> 00:17:51,910

direction it causes is twisting property

334

00:17:58,200 --> 00:17:55,539

in space so these little twisting motion

335

00:18:01,080 --> 00:17:58,210

are propagating through space all the

336

00:18:04,350 --> 00:18:01,090

time and so it's a very important force

337

00:18:07,289 --> 00:18:04,360

this is what mediates consciousness

338

00:18:11,159 --> 00:18:07,299

it's what the aura around the body is

339

00:18:13,500 --> 00:18:11,169

made of okay Western scientists have

340

00:18:16,680 --> 00:18:13,510

trouble measuring the aura because it's

341

00:18:20,460 --> 00:18:16,690

not electromagnetic it's not a feel that

342

00:18:22,889 --> 00:18:20,470

they understand and yet healers use it

343

00:18:25,889 --> 00:18:22,899

you can learn how to feel it it's

344

00:18:28,710 --> 00:18:25,899

something very real it's that's made of

345

00:18:33,060 --> 00:18:28,720

torsion again consciousness is also made

346

00:18:34,139 --> 00:18:33,070

of torsion and I believe the soul is

347

00:18:36,510 --> 00:18:34,149

made of torsion

348

00:18:39,149 --> 00:18:36,520

so if we understand torsion we

349

00:18:42,060 --> 00:18:39,159

understand the essence of consciousness

350

00:18:43,980 --> 00:18:42,070

and how it is we're able to go out of

351

00:18:47,159 --> 00:18:43,990

body and we're able to go to other

352

00:18:49,430 --> 00:18:47,169

places and you know pick up information

353

00:18:53,039 --> 00:18:49,440

and communicate and things like that so

354

00:18:56,430 --> 00:18:53,049

the Russians say that is really the key

355

00:19:00,570 --> 00:18:56,440

to all psychic phenomena and and and

356

00:19:06,149 --> 00:19:00,580

some of this torsion has to do with the

357

00:19:08,789 --> 00:19:06,159

the movement of subatomic particles as I

358

00:19:16,380 --> 00:19:08,799

read your book and there's some mention

359

00:19:19,680 --> 00:19:16,390

of that is is that the case yeah every

360

00:19:22,560 --> 00:19:19,690

subatomic particle under a very very

361

00:19:24,360 --> 00:19:22,570

powerful microscope is they don't just

362

00:19:26,490 --> 00:19:24,370

sit still

363

00:19:29,610 --> 00:19:26,500

they're actually jiggling there's things

364

00:19:33,330 --> 00:19:29,620

a going back and forth and they have a

365

00:19:35,250 --> 00:19:33,340

random motion on a very small scale on

366

00:19:36,810 --> 00:19:35,260

the average they said still but they're

367

00:19:38,940 --> 00:19:36,820

really kind of blurry and they jiggle

368

00:19:42,090 --> 00:19:38,950

around because the energy of the vacuum

369

00:19:45,299 --> 00:19:42,100

of space is causing this random motion

370

00:19:47,490 --> 00:19:45,309

that's the origin of the uncertainty

371

00:19:50,610 --> 00:19:47,500

principle it's the origin of a lot of

372

00:19:53,639 --> 00:19:50,620

the strange properties of quantum

373

00:19:58,130 --> 00:19:53,649

physics and one of the things that's

374

00:20:01,260 --> 00:19:58,140

causing that random motion are these

375

00:20:04,019 --> 00:20:01,270

waves of torsion which the russians call

376

00:20:07,320 --> 00:20:04,029

pi times they're kind of analogous to

377

00:20:09,529 --> 00:20:07,330

photons but they're made of torsion not

378

00:20:12,029 --> 00:20:09,539

of little bit

379

00:20:16,169 --> 00:20:12,039

so but you're right at the very small

380

00:20:18,720 --> 00:20:16,179

scale in the vacuum of space this is

381

00:20:22,500 --> 00:20:18,730

very very important the vacuum is

382

00:20:25,940 --> 00:20:22,510

spilled with these little waves and they

383

00:20:29,700 --> 00:20:25,950

they really have a lot to do with how

384

00:20:32,940 --> 00:20:29,710

physics supporters have motion occurs

385

00:20:35,970 --> 00:20:32,950

how forces occur and the Russians have

386

00:20:39,720 --> 00:20:35,980

been to the leaders in figuring out what

387

00:20:41,820 --> 00:20:39,730

this energy is how to manipulate it and

388

00:20:47,159 --> 00:20:41,830

has nothing excuse me nothing to do with

389

00:20:49,020 --> 00:20:47,169

the string theory then that was just an

390

00:20:53,159 --> 00:20:49,030

attempt to sort of explain that type of

391

00:20:55,770 --> 00:20:53,169

force yeah may we may be able to connect

392

00:20:59,279 --> 00:20:55,780

it up at some point right the string

393

00:21:03,270 --> 00:20:59,289

theory is a western direction that

394

00:21:04,919 --> 00:21:03,280

particle physicist dawn I'm sorry yeah I

395

00:21:06,840 --> 00:21:04,929

was saying it sounds like it was an

396

00:21:10,169 --> 00:21:06,850

attempt to sort of westernize the other

397

00:21:13,169 --> 00:21:10,179

theory but I guess yours actually makes

398

00:21:17,460 --> 00:21:13,179

a lot of sense though it does I mean

399

00:21:20,190 --> 00:21:17,470

from a nun physics from a layperson it

400

00:21:25,380 --> 00:21:20,200

just sounds like it sounds like a very

401

00:21:30,419 --> 00:21:25,390

good explanation yeah cultural issue

402

00:21:33,840 --> 00:21:30,429

here great that Western scientists they

403

00:21:35,490 --> 00:21:33,850

talk to each other yeah and their dick

404

00:21:38,190 --> 00:21:35,500

what they work on is dictated by

405

00:21:40,200 --> 00:21:38,200

government funding so this funding

406

00:21:43,200 --> 00:21:40,210

string theory then they work on the

407

00:21:45,330 --> 00:21:43,210

string theory and they usually go ask

408

00:21:50,370 --> 00:21:45,340

the top string theorists what do you

409

00:21:53,250 --> 00:21:50,380

think I work on hey so you get these

410

00:21:55,740 --> 00:21:53,260

fads that go on for decades right and

411

00:21:58,649 --> 00:21:55,750

the problems has been that no one can

412

00:22:00,539 --> 00:21:58,659

solve some of the string theory

413

00:22:04,020 --> 00:22:00,549

equations doing the predictions from

414

00:22:07,260 --> 00:22:04,030

them the other thing the big problem is

415

00:22:11,250 --> 00:22:07,270

they're kind of divorced from experiment

416

00:22:13,380 --> 00:22:11,260

because their theory is so complicated

417

00:22:16,140 --> 00:22:13,390

so they can't really measure these

418

00:22:19,350 --> 00:22:16,150

strings they can't see these strings and

419

00:22:21,779 --> 00:22:19,360

there's no feedback from the real world

420

00:22:24,539 --> 00:22:21,789

on experiment in their case

421

00:22:27,629 --> 00:22:24,549

the Russians just the opposite there's

422

00:22:30,509 --> 00:22:27,639

been a very heavy experimental component

423

00:22:33,539 --> 00:22:30,519

in the torsion research and a lot of

424

00:22:36,659 --> 00:22:33,549

feedback between theory and experiment

425

00:22:39,409 --> 00:22:36,669

so they have dozens upon dozens of

426

00:22:44,989 --> 00:22:39,419

experiments that show the effects of

427

00:22:47,789 --> 00:22:44,999

torsion so it's a no and as far as why

428

00:22:51,299 --> 00:22:47,799

these two groups are talking to each

429

00:22:54,690 --> 00:22:51,309

other and that may be partly cultural it

430

00:22:57,180 --> 00:22:54,700

may be that you know that there are

431

00:22:58,830 --> 00:22:57,190

government programs that work on torsion

432

00:23:02,369 --> 00:22:58,840

but they're not gonna tell you about the

433

00:23:05,460 --> 00:23:02,379

perhaps because we know that remote

434

00:23:08,940 --> 00:23:05,470

human went on for 20 years you know CIA

435

00:23:12,570 --> 00:23:08,950

funded and without secret nobody talked

436

00:23:14,039 --> 00:23:12,580

about it so who knows what else might be

437

00:23:17,089 --> 00:23:14,049

going on I'd like to think that

438

00:23:21,419 --> 00:23:17,099

somewhere in the u.s. people working on

439

00:23:24,320 --> 00:23:21,429

torsion but it's hard to do that well

440

00:23:33,389 --> 00:23:24,330

you have the clash of egos - I mean

441

00:23:38,359 --> 00:23:33,399

that's not - minimal I say just - since

442

00:23:41,359 --> 00:23:38,369

you mentioned sort of fads in physics I

443

00:23:44,879 --> 00:23:41,369

there's a theory that I have some

444

00:23:47,669 --> 00:23:44,889

interest in but I'm not sure about the

445

00:23:52,739 --> 00:23:47,679

validity of it and that has to do with

446

00:23:55,619 --> 00:23:52,749

the idea of our 3-d or 4d reality being

447

00:23:58,830 --> 00:23:55,629

a matrix now that does figure in a

448

00:24:03,690 --> 00:23:58,840

little bit with the idea that the bigger

449

00:24:06,659 --> 00:24:03,700

reality comes to us perhaps to our souls

450

00:24:11,690 --> 00:24:06,669

in an after death manner but where do

451  
00:24:16,499 --> 00:24:11,700  
you come down on the matrix Theory the

452  
00:24:24,739 --> 00:24:16,509  
matrix theory of reality you're asking

453  
00:24:34,529 --> 00:24:29,039  
that's what people who have near-death

454  
00:24:35,790 --> 00:24:34,539  
experiences or when they die one of my

455  
00:24:41,520 --> 00:24:35,800  
favorite people is the

456  
00:24:45,450 --> 00:24:41,530  
as cannon hypnotized client for 40 years

457  
00:24:47,640 --> 00:24:45,460  
a thousands of people and we developed a

458  
00:24:51,120 --> 00:24:47,650  
pretty good understanding of the

459  
00:24:54,570 --> 00:24:51,130  
afterlife and the whole system from from

460  
00:24:59,400 --> 00:24:54,580  
that and when you regress people through

461  
00:25:00,810 --> 00:24:59,410  
the death process in the afterlife or it

462  
00:25:03,180 --> 00:25:00,820  
oftentimes happened and near-death

463  
00:25:05,520 --> 00:25:03,190

experiences as well all of a sudden they

464

00:25:08,370 --> 00:25:05,530

realized they look back at the physical

465

00:25:11,370 --> 00:25:08,380

reality that we thought so important and

466

00:25:14,490 --> 00:25:11,380

so tangible and they realized oh it was

467

00:25:16,530 --> 00:25:14,500

just to play it was just an illusion it

468

00:25:19,590 --> 00:25:16,540

wasn't really the important thing the

469

00:25:22,680 --> 00:25:19,600

other stuff the the soul like the energy

470

00:25:24,900 --> 00:25:22,690

in the afterlife that's where the action

471

00:25:27,600 --> 00:25:24,910

you know and this this is kind of an

472

00:25:30,770 --> 00:25:27,610

illusion and set up for us to have our

473

00:25:34,590 --> 00:25:30,780

experiences and to you know learn things

474

00:25:37,610 --> 00:25:34,600

so I I definitely would go along with

475

00:25:42,870 --> 00:25:37,620

the matrix idea or the holographic idea

476

00:25:45,290 --> 00:25:42,880

that's physical reality is in a sense an

477

00:25:49,940 --> 00:25:45,300

illusion but the synchronized universe

478

00:25:53,640 --> 00:25:49,950

verse book kind of led me to that idea

479

00:25:56,850 --> 00:25:53,650

so independently because there's so many

480

00:26:00,470 --> 00:25:56,860

phenomena like the teleportation for

481

00:26:03,030 --> 00:26:00,480

example there are young people in China

482

00:26:06,630 --> 00:26:03,040

who have already gifted they've been

483

00:26:12,360 --> 00:26:06,640

experiments with them and teleporting

484

00:26:15,210 --> 00:26:12,370

objects to glass beans for example of

485

00:26:18,180 --> 00:26:15,220

seeds put in a bottle

486

00:26:20,400 --> 00:26:18,190

seal the bottle up of tape put the tape

487

00:26:24,000 --> 00:26:20,410

inside of the box bottle inside a box

488

00:26:27,570 --> 00:26:24,010

seal the box up then hand it to them and

489

00:26:33,030 --> 00:26:27,580

say okay now remove the seeds don't open

490

00:26:37,290 --> 00:26:33,040

the box and they can do it they teleport

491

00:26:40,590 --> 00:26:37,300

the seeds outside of the bottle okay and

492

00:26:41,400 --> 00:26:40,600

so they're amazing people who can do

493

00:26:45,390 --> 00:26:41,410

these things

494

00:26:47,790 --> 00:26:45,400

and they show us that physical matter is

495

00:26:49,320 --> 00:26:47,800

not what we thought it was that there's

496

00:26:52,080 --> 00:26:49,330

a transparency there

497

00:26:54,840 --> 00:26:52,090

so the synchronized universe model and I

498

00:26:57,359 --> 00:26:54,850

proposed in my book is a way to explain

499

00:26:59,430 --> 00:26:57,369

how that can be

500

00:27:04,200 --> 00:26:59,440

and that also takes you back to the idea

501  
00:27:07,039 --> 00:27:04,210  
that it's really an illusion the

502  
00:27:11,249 --> 00:27:07,049  
conditions make it feel real to us but

503  
00:27:14,759 --> 00:27:11,259  
at a higher level there's a holographic

504  
00:27:16,889 --> 00:27:14,769  
property to it well it sounds like it's

505  
00:27:19,169 --> 00:27:16,899  
very comforting theory to know that you

506  
00:27:21,779 --> 00:27:19,179  
know we go on and so on and I mean not

507  
00:27:24,090 --> 00:27:21,789  
to be totally crass but is there any

508  
00:27:28,049 --> 00:27:24,100  
practical applications to this that you

509  
00:27:30,499 --> 00:27:28,059  
see like perhaps really silly stuff by

510  
00:27:33,810 --> 00:27:30,509  
like increasing a computer speed or or

511  
00:27:36,840 --> 00:27:33,820  
you know even invoking artificial

512  
00:27:38,909 --> 00:27:36,850  
intelligence was this type of a force

513  
00:27:44,549 --> 00:27:38,919

that would make it a little bit more

514

00:27:46,139 --> 00:27:44,559

real well yep Yogi's and a Depp's and

515

00:27:49,139 --> 00:27:46,149

wise men have been doing this for

516

00:27:52,409 --> 00:27:49,149

thousands of years this is the purpose

517

00:27:55,979 --> 00:27:52,419

of the meditation they go through the

518

00:28:00,289 --> 00:27:55,989

disciplines that go through that they

519

00:28:03,419 --> 00:28:00,299

can tap into universal consciousness

520

00:28:07,769 --> 00:28:03,429

because the thing what the torsion field

521

00:28:09,869 --> 00:28:07,779

is it has elements that travel both much

522

00:28:13,950 --> 00:28:09,879

faster than life and also I would love

523

00:28:17,460 --> 00:28:13,960

to travel backwards in time and that

524

00:28:20,249 --> 00:28:17,470

means that we are connected with

525

00:28:22,349 --> 00:28:20,259

everything else in the universe that's

526  
00:28:27,749 --> 00:28:22,359  
ever happened and will ever happen and

527  
00:28:31,649 --> 00:28:27,759  
exactly now so we're really part of this

528  
00:28:35,399 --> 00:28:31,659  
huge supercomputer called the universe

529  
00:28:38,820 --> 00:28:35,409  
and when you enter altered states as the

530  
00:28:41,159 --> 00:28:38,830  
Yogi's do they can tap into that

531  
00:28:44,460 --> 00:28:41,169  
knowledge they follow about the Akashic

532  
00:28:47,940 --> 00:28:44,470  
record that information is available all

533  
00:28:51,239 --> 00:28:47,950  
the time so I think that that would be

534  
00:28:52,529 --> 00:28:51,249  
the goal of computer programmers or if

535  
00:28:54,359 --> 00:28:52,539  
they would just meditate maybe they

536  
00:28:56,879 --> 00:28:54,369  
wouldn't need to build a computer you

537  
00:28:58,529 --> 00:28:56,889  
know but would be good but that

538  
00:29:02,099 --> 00:28:58,539

information and that information is

539

00:29:03,120 --> 00:29:02,109

carried in the torsion field which is

540

00:29:05,580 --> 00:29:03,130

this way

541

00:29:08,010 --> 00:29:05,590

find scale energy that I was mentioning

542

00:29:11,130 --> 00:29:08,020

before so it's going to pass him through

543

00:29:14,820 --> 00:29:11,140

every point of space-time all the time

544

00:29:17,850 --> 00:29:14,830

is always present so that's that work

545

00:29:21,030 --> 00:29:17,860

that's a much more advanced technology

546

00:29:25,770 --> 00:29:21,040

than what we have today one very

547

00:29:30,420 --> 00:29:25,780

practical application of some of this

548

00:29:34,130 --> 00:29:30,430

knowledge is the idea of changing the

549

00:29:37,740 --> 00:29:34,140

past in a way that involves one's

550

00:29:41,370 --> 00:29:37,750

relationships if one one can send love

551  
00:29:44,910 --> 00:29:41,380  
back to ones earlier self or information

552  
00:29:50,660 --> 00:29:44,920  
back to one's younger self but one also

553  
00:29:55,890 --> 00:29:50,670  
can heal relationships from the past by

554  
00:29:59,430 --> 00:29:55,900  
sending loving feelings to whatever was

555  
00:30:02,340 --> 00:29:59,440  
the cause of the friction between two or

556  
00:30:06,530 --> 00:30:02,350  
more people and the results are really

557  
00:30:09,270 --> 00:30:06,540  
phenomenal that I have witnessed myself

558  
00:30:13,380 --> 00:30:09,280  
yeah absolutely I'd love to talk to you

559  
00:30:17,370 --> 00:30:13,390  
more about that when I when I was in

560  
00:30:20,910 --> 00:30:17,380  
therapy many years ago my therapist

561  
00:30:22,790 --> 00:30:20,920  
would have me practice exercises like

562  
00:30:25,920 --> 00:30:22,800  
that you know if you go back to some

563  
00:30:30,000 --> 00:30:25,930

traumatic event in childhood for example

564

00:30:33,200 --> 00:30:30,010

and you feel so alone if you can go back

565

00:30:36,480 --> 00:30:33,210

in the form of your Higher Self and

566

00:30:39,960 --> 00:30:36,490

comfort that little child that is going

567

00:30:43,950 --> 00:30:39,970

through the difficult situation you can

568

00:30:48,240 --> 00:30:43,960

heal the pain heal the trauma from early

569

00:30:50,010 --> 00:30:48,250

events and provide the log that may be

570

00:30:53,040 --> 00:30:50,020

seen at the time or thought you were

571

00:30:54,510 --> 00:30:53,050

missing so you're right now from a

572

00:30:58,320 --> 00:30:54,520

scientific point of view it's

573

00:31:01,440 --> 00:30:58,330

interesting because what that means is

574

00:31:03,660 --> 00:31:01,450

that now as you come forward and again

575

00:31:05,960 --> 00:31:03,670

the timeline as you move back into the

576

00:31:08,070 --> 00:31:05,970

future you're really on a different path

577

00:31:11,160 --> 00:31:08,080

than you were before

578

00:31:13,550 --> 00:31:11,170

yes synchronized universe idea where

579

00:31:16,390 --> 00:31:13,560

there are multiple parallel realities

580

00:31:20,230 --> 00:31:16,400

actually you need something like that

581

00:31:22,660 --> 00:31:20,240

to help explain it we have parallel

582

00:31:25,780 --> 00:31:22,670

realities that we end up coming back on

583

00:31:28,030 --> 00:31:25,790

a slightly different reality than we

584

00:31:30,640 --> 00:31:28,040

were on before they do you think about

585

00:31:34,180 --> 00:31:30,650

the movie Back to the Future it really

586

00:31:37,630 --> 00:31:34,190

has that philosophy built into it so

587

00:31:40,570 --> 00:31:37,640

that you know every time he went back

588

00:31:44,620 --> 00:31:40,580

into the path changed something came

589

00:31:46,510 --> 00:31:44,630

into the future it was different once

590

00:31:52,660 --> 00:31:46,520

you start talking about time that's when

591

00:31:55,540 --> 00:31:52,670

my mind just goes totally blank it is

592

00:31:57,700 --> 00:31:55,550

time is real somebody said once that the

593

00:31:59,830 --> 00:31:57,710

that there and this would agree with

594

00:32:01,360 --> 00:31:59,840

what you say about everything happening

595

00:32:03,360 --> 00:32:01,370

at at the same time they said that

596

00:32:06,670 --> 00:32:03,370

everything does happen simultaneously

597

00:32:08,830 --> 00:32:06,680

everything that ever was is now and the

598

00:32:10,990 --> 00:32:08,840

human mind can't comprehend that so it

599

00:32:13,510 --> 00:32:11,000

invents time two separate events and

600

00:32:18,160 --> 00:32:13,520

that sort of made more sense to me than

601  
00:32:20,050 --> 00:32:18,170  
anything else but I cannot imagine

602  
00:32:22,480 --> 00:32:20,060  
everything like once the Big Bang

603  
00:32:25,330 --> 00:32:22,490  
happened that's just postulate big bang

604  
00:32:29,260 --> 00:32:25,340  
and bam from there everything was

605  
00:32:31,600 --> 00:32:29,270  
created boom right now so it which sort

606  
00:32:34,540 --> 00:32:31,610  
of bad because then that gets into the

607  
00:32:36,460 --> 00:32:34,550  
Fate freewill versus determinism and you

608  
00:32:42,100 --> 00:32:36,470  
know and that's when they lose being on

609  
00:32:54,910 --> 00:32:42,110  
multiple universes oh yeah I I'm sorry I

610  
00:32:58,210 --> 00:32:54,920  
really that type of philosophy but there

611  
00:33:00,400 --> 00:32:58,220  
are other sources that that do paint a

612  
00:33:03,190 --> 00:33:00,410  
picture where we learn from the past

613  
00:33:05,200 --> 00:33:03,200

life experience so the next lifetime we

614

00:33:07,570 --> 00:33:05,210

do it better you know like dannion

615

00:33:11,500 --> 00:33:07,580

brinkley talks about three near-death

616

00:33:14,860 --> 00:33:11,510

experiences each time he died and came

617

00:33:18,610 --> 00:33:14,870

into his past life regression is the

618

00:33:21,370 --> 00:33:18,620

panoramic life review he saw all the

619

00:33:23,830 --> 00:33:21,380

things he'd seen before but he also saw

620

00:33:26,620 --> 00:33:23,840

the new things all the good things he'd

621

00:33:28,090 --> 00:33:26,630

done sent them that really made him

622

00:33:30,259 --> 00:33:28,100

happy so there was a definite

623

00:33:32,449 --> 00:33:30,269

progression and a learning

624

00:33:37,159 --> 00:33:32,459

as well so you have these two

625

00:33:39,949 --> 00:33:37,169

contradictory theories about these

626

00:33:41,359 --> 00:33:39,959

parallel times but I don't I think I'm

627

00:33:45,379 --> 00:33:41,369

still working on that I've got to finish

628

00:33:45,619 --> 00:33:45,389

I've got a figure that went out good

629

00:33:48,829 --> 00:33:45,629

luck

630

00:33:51,949 --> 00:33:48,839

well there's the idea that anything that

631

00:33:54,169 --> 00:33:51,959

could happen about is true somewhere

632

00:33:56,719 --> 00:33:54,179

yeah we believe in some Russian

633

00:34:01,849 --> 00:33:56,729

scientists mmm-hmm have used this

634

00:34:06,489 --> 00:34:01,859

torsion force to build simple time

635

00:34:10,490 --> 00:34:06,499

machines mmm they they don't so far

636

00:34:12,889 --> 00:34:10,500

reject the some future event you know

637

00:34:16,490 --> 00:34:12,899

like being back to the future they do

638

00:34:19,039 --> 00:34:16,500

slow down time or speed up top they can

639

00:34:21,109 --> 00:34:19,049

generate torsion waves I'll be the

640

00:34:24,710 --> 00:34:21,119

left-handed or right-handed polarity and

641

00:34:27,849 --> 00:34:24,720

fill up a chamber with more of one kind

642

00:34:31,250 --> 00:34:27,859

or more of the other time rate of time

643

00:34:35,389 --> 00:34:31,260

ends up being different to the outside

644

00:34:39,589 --> 00:34:35,399

world so that's kind of I I have one

645

00:34:43,279 --> 00:34:39,599

thought about all of that which goes

646

00:34:46,430 --> 00:34:43,289

beyond you know time time travel for

647

00:34:49,490 --> 00:34:46,440

humans like the biological entities that

648

00:34:53,089 --> 00:34:49,500

are humans or dogs or cats or whatever

649

00:34:58,760 --> 00:34:53,099

and it it's kind of boggles my mind that

650

00:35:01,640 --> 00:34:58,770

a person could be a time traveler unless

651  
00:35:04,490 --> 00:35:01,650  
they engaged in space travel where they

652  
00:35:06,799 --> 00:35:04,500  
were going so fast that they we remained

653  
00:35:11,240 --> 00:35:06,809  
younger and when they came back to earth

654  
00:35:13,609 --> 00:35:11,250  
etc etc but the reason why I can't

655  
00:35:18,920 --> 00:35:13,619  
imagine time travel for a biological

656  
00:35:24,349 --> 00:35:18,930  
entity is because of the location of the

657  
00:35:28,370 --> 00:35:24,359  
stars whence let's say let's just take a

658  
00:35:31,220 --> 00:35:28,380  
big a big event in human history let's

659  
00:35:34,430 --> 00:35:31,230  
take the birth of Christ okay and let's

660  
00:35:37,490 --> 00:35:34,440  
say that there really was a individual

661  
00:35:39,859 --> 00:35:37,500  
person named Jesus Christ or something

662  
00:35:44,000 --> 00:35:39,869  
similar in his own language in Aramaic

663  
00:35:47,330 --> 00:35:44,010

that was born at approximately zero ad

664

00:35:52,070 --> 00:35:47,340

4ad well the stars were in a certain

665

00:35:54,500 --> 00:35:52,080

place at that time so if in order to go

666

00:35:58,990 --> 00:35:54,510

back in time the stars you have to

667

00:36:04,520 --> 00:36:01,820

cosmologically different cosmological

668

00:36:09,560 --> 00:36:04,530

universe that existed then I just told

669

00:36:12,490 --> 00:36:09,570

you don't mess around with time does

670

00:36:15,320 --> 00:36:12,500

that make any sense that thought or not

671

00:36:18,250 --> 00:36:15,330

yeah actually it does especially with

672

00:36:22,910 --> 00:36:18,260

with dr. Swanson's theory because your

673

00:36:25,250 --> 00:36:22,920

torsion your vortices would then sort of

674

00:36:27,440 --> 00:36:25,260

coincide with the vortices of that time

675

00:36:29,840 --> 00:36:27,450

and so everything would be real for you

676

00:36:31,820 --> 00:36:29,850

at that time and then when you came back

677

00:36:33,620 --> 00:36:31,830

to this time you would then be in sync

678

00:36:36,050 --> 00:36:33,630

with these forces well it seems to me

679

00:36:38,180 --> 00:36:36,060

that your mind yours consciousness could

680

00:36:40,070 --> 00:36:38,190

go back to that time but your biologic

681

00:36:42,770 --> 00:36:40,080

in terms of the time machine where your

682

00:36:46,790 --> 00:36:42,780

biological body yeah I can't see that

683

00:36:48,500 --> 00:36:46,800

but that's just me in any case this is I

684

00:36:51,910 --> 00:36:48,510

think that we're getting really deep

685

00:36:53,180 --> 00:36:51,920

here and I don't want to lose our our

686

00:36:57,620 --> 00:36:53,190

listeners

687

00:36:59,480 --> 00:36:57,630

well cruising through the book no but

688

00:37:01,520 --> 00:36:59,490

I'm saying so - just ask you a quick

689

00:37:04,820 --> 00:37:01,530

question doctors what obviously you

690

00:37:08,630 --> 00:37:04,830

started out as a sort of a westernized

691

00:37:10,940 --> 00:37:08,640

physicist and you then came into this

692

00:37:13,790 --> 00:37:10,950

field and I can see why it's far more

693

00:37:16,040 --> 00:37:13,800

interesting than the old you know how

694

00:37:25,970 --> 00:37:16,050

fast does it take a bowl to run down an

695

00:37:27,860 --> 00:37:25,980

inclined plane but I you know I I really

696

00:37:32,660 --> 00:37:27,870

I really like the direction of this

697

00:37:34,580 --> 00:37:32,670

physics because it to me it's it's a

698

00:37:37,460 --> 00:37:34,590

primer it's a prime mover I mean what

699

00:37:40,250 --> 00:37:37,470

we're seeing is what occurs as a result

700

00:37:43,220 --> 00:37:40,260

of this and I think you're absolutely on

701  
00:37:45,110 --> 00:37:43,230  
the right track by you know so how did

702  
00:37:47,360 --> 00:37:45,120  
you get into because I'm sure you know

703  
00:37:49,550 --> 00:37:47,370  
getting grants and you know and all that

704  
00:37:51,620 --> 00:37:49,560  
stuff and getting invited to conferences

705  
00:37:55,550 --> 00:37:51,630  
started to sort of just gradually

706  
00:37:57,499 --> 00:37:55,560  
dwindle away yeah well it all started

707  
00:38:00,679 --> 00:37:57,509  
that was great I

708  
00:38:02,809 --> 00:38:00,689  
I grew up in a small town mm-hmm Oh and

709  
00:38:04,659 --> 00:38:02,819  
then you know you you were in nature and

710  
00:38:07,909 --> 00:38:04,669  
you look up at the stars and you have

711  
00:38:09,079 --> 00:38:07,919  
curiosity you want to know how things

712  
00:38:11,719 --> 00:38:09,089  
work mm-hmm

713  
00:38:13,729 --> 00:38:11,729

and eventually I figured out in school

714

00:38:17,389 --> 00:38:13,739

that oh okay well the way you figure out

715

00:38:19,669 --> 00:38:17,399

science has the answer we got things

716

00:38:22,579 --> 00:38:19,679

work you have to go into science that

717

00:38:25,099 --> 00:38:22,589

has a process you experiment you have

718

00:38:27,499 --> 00:38:25,109

theories and there's an actual procedure

719

00:38:30,939 --> 00:38:27,509

to figure out the answer to things so

720

00:38:33,439 --> 00:38:30,949

that was what got me into science yeah I

721

00:38:39,999 --> 00:38:33,449

really thought that I would get all the

722

00:38:45,409 --> 00:38:40,009

answers and what I got was ended up

723

00:38:49,189 --> 00:38:45,419

feeling superficial it felt like a lot

724

00:38:51,679 --> 00:38:49,199

of the science we have comes from making

725

00:38:55,729 --> 00:38:51,689

observations we see there are certain

726

00:38:57,919 --> 00:38:55,739

things like gravity exerts a force on a

727

00:39:00,709 --> 00:38:57,929

mass and it pulls it and things like

728

00:39:03,409 --> 00:39:00,719

that okay but as far as the deeper

729

00:39:04,929 --> 00:39:03,419

question of why it does why it is the

730

00:39:08,779 --> 00:39:04,939

way it is

731

00:39:12,499 --> 00:39:08,789

physics tends to gloss over a lot of the

732

00:39:15,699 --> 00:39:12,509

deep questions and Einstein was a deep

733

00:39:19,099 --> 00:39:15,709

thinker and his theories you can kind of

734

00:39:22,639 --> 00:39:19,109

express you know in a sentence or two

735

00:39:25,399 --> 00:39:22,649

the basic idea richard fineman who was

736

00:39:29,120 --> 00:39:25,409

one of my all-time favorite physicist

737

00:39:35,599 --> 00:39:29,130

said that if mathematics disappeared it

738

00:39:37,729 --> 00:39:35,609

was set physics back about one week but

739

00:39:41,659 --> 00:39:37,739

that I think he was really saying is the

740

00:39:44,599 --> 00:39:41,669

physical ideas that are the important

741

00:39:46,339 --> 00:39:44,609

part of science the most businesses

742

00:39:48,319 --> 00:39:46,349

probably wouldn't either agree or

743

00:39:51,409 --> 00:39:48,329

understand that but I've but that's how

744

00:39:53,779 --> 00:39:51,419

I understand it so but there aren't

745

00:39:56,629 --> 00:39:53,789

enough of those ideas and a lot of

746

00:40:00,079 --> 00:39:56,639

things don't get explained of course the

747

00:40:03,979 --> 00:40:00,089

things that you see that are presented

748

00:40:07,609 --> 00:40:03,989

in school in class are the ones that

749

00:40:11,540 --> 00:40:07,619

they can explain so they show you you

750

00:40:15,890 --> 00:40:14,000

is moving and things like that and you

751  
00:40:18,560 --> 00:40:15,900  
go into the lab and you duplicate that

752  
00:40:20,330 --> 00:40:18,570  
and you say oh yeah that's it does work

753  
00:40:23,960 --> 00:40:20,340  
it's all it must be all correct because

754  
00:40:26,870 --> 00:40:23,970  
it doesn't just the way they said but

755  
00:40:29,540 --> 00:40:26,880  
they don't show you the things that

756  
00:40:31,690 --> 00:40:29,550  
don't agree yeah

757  
00:40:34,850 --> 00:40:31,700  
they don't take you into a haunted house

758  
00:40:37,160 --> 00:40:34,860  
okay where you have a cold spot that

759  
00:40:39,920 --> 00:40:37,170  
feels 10 degrees colder than anywhere

760  
00:40:43,340 --> 00:40:39,930  
else you know or you see orbs flying

761  
00:40:46,220 --> 00:40:43,350  
around out of a near-death experience or

762  
00:40:49,130 --> 00:40:46,230  
you do all the ESP all the Princeton

763  
00:40:52,700 --> 00:40:49,140

pear lab experiments that show that

764

00:40:54,980 --> 00:40:52,710

consciousness is measurable even though

765

00:40:57,380 --> 00:40:54,990

it can't be explained by Western physics

766

00:41:01,190 --> 00:40:57,390

what did it for me what started me on

767

00:41:04,700 --> 00:41:01,200

this path was in the mid 1980s when I

768

00:41:06,290 --> 00:41:04,710

learned about remote viewing and I began

769

00:41:10,220 --> 00:41:06,300

to finding out that remote viewing

770

00:41:14,290 --> 00:41:10,230

actually does occur and Israel but that

771

00:41:18,410 --> 00:41:14,300

you can use it to see through barriers

772

00:41:21,920 --> 00:41:18,420

see through you know metal shielding see

773

00:41:24,050 --> 00:41:21,930

thousands of miles away into the past it

774

00:41:27,740 --> 00:41:24,060

doesn't matter and that's not a force

775

00:41:30,260 --> 00:41:27,750

that our Western science has so that

776

00:41:33,290 --> 00:41:30,270

told me that's nothing really important

777

00:41:35,240 --> 00:41:33,300

was left out so once like once I knew

778

00:41:38,900 --> 00:41:35,250

that then I began asking well what else

779

00:41:41,030 --> 00:41:38,910

has been left out yes well I think

780

00:41:43,100 --> 00:41:41,040

that's where you started first to write

781

00:41:45,260 --> 00:41:43,110

with remote viewing I mean that was sort

782

00:41:49,580 --> 00:41:45,270

of a changed life changer for you well

783

00:41:52,190 --> 00:41:49,590

it was but yes I would say I enjoyed

784

00:41:54,530 --> 00:41:52,200

going to remote viewing classes and I've

785

00:41:56,870 --> 00:41:54,540

studied remote viewing with a number of

786

00:41:59,840 --> 00:41:56,880

the former government remote viewers but

787

00:42:02,990 --> 00:41:59,850

I was a a psychic reader before then and

788

00:42:05,720 --> 00:42:03,000

it was a sort of a tradition in my

789

00:42:08,630 --> 00:42:05,730

family more than anything else and it's

790

00:42:11,060 --> 00:42:08,640

just since the remote viewers in the

791

00:42:13,670 --> 00:42:11,070

Monroe Institute and wonderful people

792

00:42:18,590 --> 00:42:13,680

like our wonderful guest dr. Claude

793

00:42:22,310 --> 00:42:18,600

Swanson it became more okay to be a

794

00:42:25,820 --> 00:42:22,320

psychic reader or an intuitive or do any

795

00:42:28,220 --> 00:42:25,830

of these things so I can't tell you how

796

00:42:30,470 --> 00:42:28,230

much we appreciate people such as

797

00:42:33,920 --> 00:42:30,480

yourself in Russell Targ do you want to

798

00:42:36,620 --> 00:42:33,930

mention your books again because that's

799

00:42:41,390 --> 00:42:36,630

that's what you know we like to give you

800

00:42:46,400 --> 00:42:41,400

a blog type a listener would be

801  
00:42:48,710 --> 00:42:46,410  
fascinated in some of these subjects a

802  
00:42:50,690 --> 00:42:48,720  
compendium I mean there's just no doubt

803  
00:42:53,480 --> 00:42:50,700  
about it there's so much information in

804  
00:42:57,920 --> 00:42:53,490  
these books that it's they're wonderful

805  
00:43:01,430 --> 00:42:57,930  
they are wonderful so go ahead this way

806  
00:43:03,590 --> 00:43:01,440  
is take my name claud swanson and put

807  
00:43:05,870 --> 00:43:03,600  
that into google and it'll take you to

808  
00:43:08,510 --> 00:43:05,880  
my website synchronized universe comm

809  
00:43:11,900 --> 00:43:08,520  
and it describes the books there and

810  
00:43:14,210 --> 00:43:11,910  
there are links to amazon where you can

811  
00:43:16,580 --> 00:43:14,220  
purchase the books or you can just go to

812  
00:43:18,880 --> 00:43:16,590  
Amazon and look up Claude Swanson and

813  
00:43:22,040 --> 00:43:18,890

look for my two books one is called

814

00:43:24,260 --> 00:43:22,050

synchronized universe use science the

815

00:43:27,770 --> 00:43:24,270

paranormal the other is called life

816

00:43:33,190 --> 00:43:27,780

force the scientific basis so either way

817

00:43:37,490 --> 00:43:33,200

you go to Amazon or the website and so

818

00:43:40,880 --> 00:43:37,500

the thing that is interesting to me from

819

00:43:45,380 --> 00:43:40,890

a point of view of somebody who works in

820

00:43:47,330 --> 00:43:45,390

these fields the idea of intention now

821

00:43:51,080 --> 00:43:47,340

let's say that you have a few people

822

00:43:54,490 --> 00:43:51,090

that aren't as adept as these children

823

00:43:56,900 --> 00:43:54,500

in China for instance but are averagely

824

00:44:00,530 --> 00:43:56,910

you know that they can sing happy

825

00:44:04,550 --> 00:44:00,540

birthday in terms of psychic phenomena

826

00:44:07,430 --> 00:44:04,560

but they're not Pavarotti and so if you

827

00:44:11,450 --> 00:44:07,440

get more than one person exerting the

828

00:44:15,200 --> 00:44:11,460

same intention that seems to kind of

829

00:44:18,590 --> 00:44:15,210

double up the chances that you are able

830

00:44:21,590 --> 00:44:18,600

to have an effect on the physical

831

00:44:23,800 --> 00:44:21,600

universe and some III don't know if it

832

00:44:27,140 --> 00:44:23,810

was Dean Radin or another

833

00:44:30,190 --> 00:44:27,150

parapsychological of force out there in

834

00:44:33,650 --> 00:44:30,200

our universe that had done some

835

00:44:37,610 --> 00:44:33,660

experiments that indicated that you can

836

00:44:43,670 --> 00:44:37,620

change any given out

837

00:44:46,970 --> 00:44:43,680

by about 6% per intention but if more

838

00:44:49,700 --> 00:44:46,980

than one person is intending for the

839

00:44:51,860 --> 00:44:49,710

same event this is not all of future but

840

00:44:54,980 --> 00:44:51,870

like the outcome of a horse race or

841

00:44:57,470 --> 00:44:54,990

something just one one event that if if

842

00:45:01,730 --> 00:44:57,480

more than one person is intending that

843

00:45:04,670 --> 00:45:01,740

can skew things even more would you say

844

00:45:11,180 --> 00:45:04,680

that that is a part of torsion I would

845

00:45:18,740 --> 00:45:11,190

expect it might be yeah you can think

846

00:45:22,250 --> 00:45:18,750

about it in a way in a way one way of

847

00:45:26,210 --> 00:45:22,260

thinking about it is if you because

848

00:45:29,830 --> 00:45:26,220

torsion is able to stretch or compress

849

00:45:35,120 --> 00:45:29,840

space and also stretch or compress time

850

00:45:37,580 --> 00:45:35,130

so you can impose patterns on space-time

851

00:45:42,230 --> 00:45:37,590

which means you could make certain

852

00:45:47,390 --> 00:45:42,240

events or certain objects more likely to

853

00:45:50,120 --> 00:45:47,400

appear or to occur by visualizing the

854

00:45:54,680 --> 00:45:50,130

outline of the event or the item that

855

00:45:56,270 --> 00:45:54,690

you how put off was a great physicist

856

00:45:59,420 --> 00:45:56,280

one of the people who started the remote

857

00:46:01,400 --> 00:45:59,430

viewing program and also has been active

858

00:46:04,190 --> 00:46:01,410

in psychic research ordering gala and

859

00:46:07,100 --> 00:46:04,200

other people used to say that he

860

00:46:10,760 --> 00:46:07,110

believed if you would visualize a blue

861

00:46:13,490 --> 00:46:10,770

sphere a blue ball hovering in front of

862

00:46:18,020 --> 00:46:13,500

your face you just picture there and

863

00:46:22,250 --> 00:46:18,030

picture intensely enough that to some

864

00:46:24,350 --> 00:46:22,260

extent it is really there to some extent

865

00:46:27,680 --> 00:46:24,360

the probability of a popping in and

866

00:46:30,980 --> 00:46:27,690

appearing becomes increased by the act

867

00:46:33,500 --> 00:46:30,990

of visualized the way I think about it

868

00:46:36,740 --> 00:46:33,510

is that the torsion field starts to

869

00:46:39,880 --> 00:46:36,750

shift to make the probability that they

870

00:46:42,710 --> 00:46:39,890

will appear there become greater and

871

00:46:47,960 --> 00:46:42,720

that maybe that's a move that it's an

872

00:46:50,810 --> 00:46:47,970

extreme example well the background of

873

00:46:58,700 --> 00:46:55,220

it's associated with every pattern and

874

00:47:02,660 --> 00:46:58,710

every object so for example a pyramid

875

00:47:06,560 --> 00:47:02,670

has an aura to it it has a framework

876

00:47:09,470 --> 00:47:06,570

that is how it changes the space around

877

00:47:11,930 --> 00:47:09,480

it and there's a torsion field

878

00:47:15,080 --> 00:47:11,940

associated with that so the power of

879

00:47:18,350 --> 00:47:15,090

intention to me is how would shape that

880

00:47:23,570 --> 00:47:18,360

torsion field to make what we want more

881

00:47:28,210 --> 00:47:23,580

likely to appear okay it's I'm sorry but

882

00:47:30,730 --> 00:47:28,220

that picture of what how put off said

883

00:47:36,020 --> 00:47:30,740

brings to mind to me

884

00:47:38,840 --> 00:47:36,030

UFOs oh well all right now I have a

885

00:47:40,670 --> 00:47:38,850

little confession to me during the UFO

886

00:47:43,630 --> 00:47:40,680

show that I had I was frequently asked

887

00:47:46,070 --> 00:47:43,640

if I had my druthers how would I like

888

00:47:49,630 --> 00:47:46,080

what explanation would I like to have

889

00:47:53,030 --> 00:47:49,640

for UFO and there's a lot of various

890

00:47:55,970 --> 00:47:53,040

sort of feels but my preference would

891

00:47:59,180 --> 00:47:55,980

always been a real nuts and bolts type

892

00:48:01,460 --> 00:47:59,190

craft with beings on it that you could

893

00:48:05,150 --> 00:48:01,470

actually eventually communicate with on

894

00:48:06,950 --> 00:48:05,160

some form and not something that pops in

895

00:48:09,650 --> 00:48:06,960

and out of dimensions and that has

896

00:48:12,650 --> 00:48:09,660

spiritual beings I mean that's fine and

897

00:48:15,890 --> 00:48:12,660

God bless them but I wanted a Klingon

898

00:48:18,560 --> 00:48:15,900

craft without its warlike intentions you

899

00:48:21,980 --> 00:48:18,570

know I I really wanted something like I

900

00:48:24,950 --> 00:48:21,990

put my hands on and you know my father

901  
00:48:26,510 --> 00:48:24,960  
once I I was sort of engaging in this

902  
00:48:28,640 --> 00:48:26,520  
philosophy with him when I was in

903  
00:48:32,000 --> 00:48:28,650  
college and he's you know telling about

904  
00:48:34,880 --> 00:48:32,010  
reality and so he said yeah well I think

905  
00:48:38,830 --> 00:48:34,890  
I told you yeah let me tell you kids you

906  
00:48:41,840 --> 00:48:38,840  
stub your toe it's gonna hurt but that

907  
00:48:43,940 --> 00:48:41,850  
begs I think what we're talking is

908  
00:48:46,610 --> 00:48:43,950  
reality is actually an emerging quality

909  
00:48:48,980 --> 00:48:46,620  
of what you're describing and I think

910  
00:48:50,870 --> 00:48:48,990  
you're at the base of it all really it's

911  
00:48:54,050 --> 00:48:50,880  
a fascinating theory that you have here

912  
00:48:56,300 --> 00:48:54,060  
I like it it's it you know some things

913  
00:49:03,410 --> 00:48:56,310

just seem right when you hear them and

914

00:49:04,550 --> 00:49:03,420

it just seems right yes is that we

915

00:49:08,370 --> 00:49:04,560

humans

916

00:49:10,680 --> 00:49:08,380

various different stages of evolution if

917

00:49:12,870 --> 00:49:10,690

you go from one person even in a crowd

918

00:49:15,510 --> 00:49:12,880

of people in the store you buy any

919

00:49:19,160 --> 00:49:15,520

different levels of involvement I think

920

00:49:22,530 --> 00:49:19,170

you pull out of a crowd if in addition

921

00:49:24,630 --> 00:49:22,540

you started going to other planets where

922

00:49:28,250 --> 00:49:24,640

civilization might have been involving

923

00:49:31,020 --> 00:49:28,260

for millions or even billions of years

924

00:49:34,380 --> 00:49:31,030

you're gonna find beings that are much

925

00:49:37,200 --> 00:49:34,390

more evolved than anything we've ever

926

00:49:41,310 --> 00:49:37,210

encountered we have here on this planet

927

00:49:43,320 --> 00:49:41,320

Yogi's and a depths and masters who can

928

00:49:46,340 --> 00:49:43,330

do some of these magical things and

929

00:49:49,490 --> 00:49:46,350

they're pretty well-documented to study

930

00:49:53,910 --> 00:49:49,500

and so we know that some of these

931

00:49:56,430 --> 00:49:53,920

abilities exist among humans but they're

932

00:49:58,800 --> 00:49:56,440

pretty rare but if you have a planet

933

00:50:02,190 --> 00:49:58,810

that's been evolving separately and it's

934

00:50:05,220 --> 00:50:02,200

much longer it's not surprising to have

935

00:50:06,570 --> 00:50:05,230

a craft of beings that to us would be

936

00:50:09,980 --> 00:50:06,580

like gods mm-hmm

937

00:50:13,980 --> 00:50:09,990

put that would levitate and would be

938

00:50:18,420 --> 00:50:13,990

more like Christ or more like Buddha in

939

00:50:20,190 --> 00:50:18,430

their normal way of thinking about the

940

00:50:22,920 --> 00:50:20,200

world even she had they've all become in

941

00:50:24,930 --> 00:50:22,930

light by our standards you know that was

942

00:50:27,420 --> 00:50:24,940

a long time ago but then that was their

943

00:50:29,760 --> 00:50:27,430

third great you know test or something

944

00:50:32,910 --> 00:50:29,770

so some of these planets have beings

945

00:50:37,500 --> 00:50:32,920

that have evolved far beyond us now if

946

00:50:50,100 --> 00:50:37,510

you prefer to make the Klingons yes oh I

947

00:50:53,310 --> 00:50:50,110

say well Ill myself firoozeh here sort

948

00:50:57,300 --> 00:50:53,320

of I flirt with the idea of the

949

00:51:01,380 --> 00:50:57,310

panspermia that is evidence there by dr.

950

00:51:07,670 --> 00:51:01,390

Chandra Wickramasinghe she says so just

951  
00:51:11,580 --> 00:51:07,680  
because she can pronounce his name but I

952  
00:51:14,670 --> 00:51:11,590  
really I really have to say that most

953  
00:51:16,740 --> 00:51:14,680  
things and and of me be it's it's

954  
00:51:18,030 --> 00:51:16,750  
necessary that most things that we

955  
00:51:23,010 --> 00:51:18,040  
discuss have

956  
00:51:26,640 --> 00:51:23,020  
to do with human beings but my own sort

957  
00:51:31,310 --> 00:51:26,650  
of cosmology using the word in a broad

958  
00:51:35,670 --> 00:51:31,320  
broader context includes that

959  
00:51:38,940 --> 00:51:35,680  
consciousness is all around us it's in

960  
00:51:42,180 --> 00:51:38,950  
the the earth itself that even inanimate

961  
00:51:44,010 --> 00:51:42,190  
objects may have some rudimentary form

962  
00:51:47,520 --> 00:51:44,020  
of consciousness and certainly the

963  
00:51:51,740 --> 00:51:47,530

heavenly spheres must and and that

964

00:51:54,960 --> 00:51:51,750

animals are have great consciousness and

965

00:51:56,970 --> 00:51:54,970

themselves and I know that the Kate and

966

00:52:01,530 --> 00:51:56,980

I both have very strong relationships

967

00:52:03,180 --> 00:52:01,540

with companion animals but just as we

968

00:52:06,330 --> 00:52:03,190

were getting ready as I was getting

969

00:52:09,840 --> 00:52:06,340

ready to be speaking to you perusing the

970

00:52:12,870 --> 00:52:09,850

science news on the Internet I

971

00:52:15,690 --> 00:52:12,880

discovered that scientists just in this

972

00:52:19,920 --> 00:52:15,700

past week have published some form of a

973

00:52:22,170 --> 00:52:19,930

document about how porpoises dolphins

974

00:52:24,450 --> 00:52:22,180

speak to one another and this was

975

00:52:26,130 --> 00:52:24,460

actually you'll be interested to hear

976

00:52:28,710 --> 00:52:26,140

Claude if you hadn't read about this

977

00:52:31,260 --> 00:52:28,720

quite yet that it was in the Black Sea

978

00:52:35,940 --> 00:52:31,270

of Russia I believe it was Black Sea

979

00:52:39,390 --> 00:52:35,950

bottlenose dolphins that the Russians

980

00:52:42,180 --> 00:52:39,400

were monitoring and they found that they

981

00:52:44,280 --> 00:52:42,190

were clicking back and forth between one

982

00:52:47,790 --> 00:52:44,290

another two female bottlenose dolphins

983

00:52:50,370 --> 00:52:47,800

and they were actually speaking what

984

00:52:52,950 --> 00:52:50,380

could be determined to be sentences to

985

00:52:54,810 --> 00:52:52,960

one another and it's all quite

986

00:52:57,780 --> 00:52:54,820

fascinating some back a long time

987

00:53:00,170 --> 00:52:57,790

though actually and sadly enough the

988

00:53:12,570 --> 00:53:00,180

United States Navy tried to use it

989

00:53:14,790 --> 00:53:12,580

defensive they have a real sense I told

990

00:53:17,220 --> 00:53:14,800

you I did a little bit of marine biology

991

00:53:19,020 --> 00:53:17,230

and we used to put ropes in the in the

992

00:53:21,750 --> 00:53:19,030

salt water and they would get really

993

00:53:23,850 --> 00:53:21,760

really tight and one day we were pulling

994

00:53:26,520 --> 00:53:23,860

the dredge up and and all sudden they're

995

00:53:29,040 --> 00:53:26,530

broken and this para dolphin said we're

996

00:53:30,870 --> 00:53:29,050

always around us so the both came over

997

00:53:31,740 --> 00:53:30,880

the water at the same time as we pulled

998

00:53:34,740 --> 00:53:31,750

up this dead end

999

00:53:39,240 --> 00:53:34,750

and they both got and off they would

1000

00:53:40,530 --> 00:53:39,250

know and that was planned it's true it's

1001  
00:53:42,870 --> 00:53:40,540  
a true side they're very intelligent

1002  
00:53:44,490 --> 00:53:42,880  
Adam and it's a sin the way the whales

1003  
00:53:51,900 --> 00:53:44,500  
and the Dolphins are treated but I mean

1004  
00:53:55,350 --> 00:53:51,910  
we but what I'm saying is that only in

1005  
00:54:05,100 --> 00:53:55,360  
that way would I say I thought to

1006  
00:54:07,020 --> 00:54:05,110  
Swanson he's still there but and only in

1007  
00:54:09,510 --> 00:54:07,030  
that way it would I say that perhaps

1008  
00:54:11,580 --> 00:54:09,520  
that my tent is bigger than yours though

1009  
00:54:13,920 --> 00:54:11,590  
your tent is certainly very very large

1010  
00:54:16,260 --> 00:54:13,930  
I'm just I just don't believe that

1011  
00:54:18,030 --> 00:54:16,270  
humans are the crown of creation and

1012  
00:54:20,010 --> 00:54:18,040  
clearly when you're talking about other

1013  
00:54:22,830 --> 00:54:20,020

civilizations in the in the cosmos

1014

00:54:26,910 --> 00:54:22,840

clearly you don't either necessarily

1015

00:54:29,340 --> 00:54:26,920

which is not - which is I'm not against

1016

00:54:33,630 --> 00:54:29,350

humans but I'm just I don't think that

1017

00:54:36,930 --> 00:54:33,640

the average human really conceptualizes

1018

00:54:45,840 --> 00:54:36,940

that their place in the cosmos is not

1019

00:54:51,510 --> 00:54:45,850

really the center of every to be an

1020

00:54:55,470 --> 00:54:51,520

entry level planet really the new souls

1021

00:54:57,630 --> 00:54:55,480

come and they can get their experiences

1022

00:55:00,960 --> 00:54:57,640

being physical and things like that but

1023

00:55:04,170 --> 00:55:00,970

I think that when people evolved to a

1024

00:55:05,940 --> 00:55:04,180

certain level then they might not come

1025

00:55:09,900 --> 00:55:05,950

back to the earth after that but we may

1026

00:55:12,330 --> 00:55:09,910

not see so many adepts and masters here

1027

00:55:14,780 --> 00:55:12,340

on the planet as we might like because

1028

00:55:18,600 --> 00:55:14,790

there are other places that they may go

1029

00:55:21,600 --> 00:55:18,610

you can read Yogananda the great yogi

1030

00:55:25,950 --> 00:55:21,610

from Indian brought self-realization

1031

00:55:30,980 --> 00:55:25,960

fellowship to America years ago and his

1032

00:55:34,620 --> 00:55:30,990

teacher Sri Yukteswar from India died

1033

00:55:38,910 --> 00:55:34,630

when Yogananda was away and Yogananda

1034

00:55:42,210 --> 00:55:38,920

was bereft about this and was sitting in

1035

00:55:45,630 --> 00:55:42,220

his room one night and his master

1036

00:55:48,420 --> 00:55:45,640

appeared to him in a full Philemon

1037

00:55:50,309 --> 00:55:48,430

Tyrael formed organizer ran up to him he

1038

00:55:52,349 --> 00:55:50,319

could smell him he can hug him he could

1039

00:55:56,009 --> 00:55:52,359

touch him even though his master had

1040

00:55:59,460 --> 00:55:56,019

been gone and buried for or cremated for

1041

00:56:03,000 --> 00:55:59,470

months and they had a conversation and

1042

00:56:05,009 --> 00:56:03,010

it's in chapter 43 of Yogananda's

1043

00:56:08,519 --> 00:56:05,019

autobiography and it's fascinating

1044

00:56:11,849 --> 00:56:08,529

because he asks his teacher what have

1045

00:56:13,710 --> 00:56:11,859

you been doing what where have you been

1046

00:56:17,309 --> 00:56:13,720

what you've been doing things like that

1047

00:56:21,450 --> 00:56:17,319

and it's reinforced or explains that he

1048

00:56:24,480 --> 00:56:21,460

is now a teacher a guru on another

1049

00:56:27,779 --> 00:56:24,490

planet of a higher dimension and that's

1050

00:56:29,910 --> 00:56:27,789

the planet and he goes on to comment how

1051  
00:56:31,799 --> 00:56:29,920  
there are many planets of higher

1052  
00:56:35,120 --> 00:56:31,809  
dimensions in our universe that we

1053  
00:56:37,470 --> 00:56:35,130  
probably wouldn't even perceive and so

1054  
00:56:41,039 --> 00:56:37,480  
beings when they've reached a certain

1055  
00:56:45,349 --> 00:56:41,049  
level they can you know incarnate in

1056  
00:56:49,109 --> 00:56:45,359  
other places so it's a much richer

1057  
00:56:54,120 --> 00:56:49,119  
multi-level picture of the universe than

1058  
00:56:55,440 --> 00:56:54,130  
we normally think of what what what are

1059  
00:56:57,569 --> 00:56:55,450  
your feelings about artificial

1060  
00:57:00,630 --> 00:56:57,579  
intelligence do you think there's is

1061  
00:57:02,789 --> 00:57:00,640  
that just sort of a computer game or do

1062  
00:57:05,430 --> 00:57:02,799  
you think there's some possible reality

1063  
00:57:08,609 --> 00:57:05,440

there I think I think one of them drop

1064

00:57:11,160 --> 00:57:08,619

one of the problems right now is that

1065

00:57:15,269 --> 00:57:11,170

computer scientists have this very

1066

00:57:18,120 --> 00:57:15,279

materialistic idea the brain is and of

1067

00:57:19,710 --> 00:57:18,130

what intelligence is it's it's a

1068

00:57:21,710 --> 00:57:19,720

mechanistic picture that comes from

1069

00:57:24,779 --> 00:57:21,720

Western science so if you know

1070

00:57:27,529 --> 00:57:24,789

conferences on consciousness everything

1071

00:57:31,559 --> 00:57:27,539

is pretty much modeled on the computer

1072

00:57:34,710 --> 00:57:31,569

so they're missing the really special

1073

00:57:37,859 --> 00:57:34,720

aspect of us humans that we have the

1074

00:57:41,099 --> 00:57:37,869

spiritual connection this right that can

1075

00:57:43,170 --> 00:57:41,109

connect through the tourism field in my

1076

00:57:44,220 --> 00:57:43,180

opinion to all kinds of other

1077

00:57:47,940 --> 00:57:44,230

information

1078

00:57:49,950 --> 00:57:47,950

I read the Akashic record you can do you

1079

00:57:51,690 --> 00:57:49,960

can do remote viewing you can do

1080

00:57:55,259 --> 00:57:51,700

out-of-body experiences you can tune

1081

00:57:58,799 --> 00:57:55,269

into information that pewter made of

1082

00:57:59,490 --> 00:57:58,809

silicon chips can do and of course

1083

00:58:01,950 --> 00:57:59,500

that's

1084

00:58:04,560 --> 00:58:01,960

what the computer scientists are

1085

00:58:08,040 --> 00:58:04,570

educated to believe so I just have

1086

00:58:12,120 --> 00:58:08,050

spoken heresy as far as they're

1087

00:58:14,520 --> 00:58:12,130

concerned but that's where we humans

1088

00:58:16,880 --> 00:58:14,530

have an advantage over computers we can

1089

00:58:21,450 --> 00:58:16,890

get these brilliant ideas and

1090

00:58:25,110 --> 00:58:21,460

inspirations which writers write i've

1091

00:58:27,390 --> 00:58:25,120

logically at ever they come up with and

1092

00:58:29,850 --> 00:58:27,400

in my book on the afterlife that I've

1093

00:58:32,430 --> 00:58:29,860

been writing I've learned a lot about

1094

00:58:37,230 --> 00:58:32,440

what life is like on these higher planes

1095

00:58:40,440 --> 00:58:37,240

and the scientists who die like Tesla or

1096

00:58:42,810 --> 00:58:40,450

Edison they don't stop inventing their

1097

00:58:45,600 --> 00:58:42,820

their their souls are still totally

1098

00:58:48,960 --> 00:58:45,610

intact they keep on inventing on these

1099

00:58:53,900 --> 00:58:48,970

higher planes and in many cases they

1100

00:58:58,220 --> 00:58:53,910

send back to us humans ideas huh it

1101  
00:59:00,630 --> 00:58:58,230  
wasn't that lightbulb comes on it's off

1102  
00:59:03,420 --> 00:59:00,640  
communication with a spirit that just

1103  
00:59:06,150 --> 00:59:03,430  
gave you an idea popped into your head

1104  
00:59:08,100 --> 00:59:06,160  
and you think you thought of it but

1105  
00:59:10,890 --> 00:59:08,110  
somebody else might have told it to you

1106  
00:59:14,220 --> 00:59:10,900  
you just don't really know it and the

1107  
00:59:16,670 --> 00:59:14,230  
big problem according to these many

1108  
00:59:19,320 --> 00:59:16,680  
communications that are godly come from

1109  
00:59:22,050 --> 00:59:19,330  
mediums and near-death experiences and

1110  
00:59:26,840 --> 00:59:22,060  
other sources the big problem they have

1111  
00:59:30,630 --> 00:59:26,850  
is that they can't give us just any idea

1112  
00:59:33,660 --> 00:59:30,640  
because we humans tend to misuse one

1113  
00:59:36,990 --> 00:59:33,670

thing yep yeah talk into a weapon so

1114

00:59:39,540 --> 00:59:37,000

they have to be very very careful and

1115

00:59:41,550 --> 00:59:39,550

what they can tell us yeah yeah just

1116

00:59:44,640 --> 00:59:41,560

like the stupid Navy with the Dolphins I

1117

00:59:49,200 --> 00:59:44,650

mean no really I mean they use them as a

1118

00:59:52,320 --> 00:59:49,210

weapon yeah ridiculous just anyway well

1119

00:59:54,720 --> 00:59:52,330

you know I I wonder which one right we

1120

00:59:59,340 --> 00:59:54,730

had a brief discussion before you came

1121

01:00:03,870 --> 00:59:59,350

on a couple of days ago I guess and we

1122

01:00:06,720 --> 01:00:03,880

spoke to some extent about having a

1123

01:00:09,330 --> 01:00:06,730

near-death experience and how that kind

1124

01:00:12,060 --> 01:00:09,340

of opens things up for a person and that

1125

01:00:13,270 --> 01:00:12,070

that neither of us to date had had one

1126

01:00:17,620 --> 01:00:13,280

or

1127

01:00:20,410 --> 01:00:17,630

neither has has Kate that I know that

1128

01:00:23,260 --> 01:00:20,420

but I wonder it with you on a on a

1129

01:00:26,770 --> 01:00:23,270

you've been pursuing all of this now for

1130

01:00:29,820 --> 01:00:26,780

a number of years and if you have found

1131

01:00:34,990 --> 01:00:29,830

that you have had more psychic

1132

01:00:44,230 --> 01:00:35,000

experiences than prior to the study that

1133

01:00:45,760 --> 01:00:44,240

you've been undergoing yeah yeah no has

1134

01:00:53,280 --> 01:00:45,770

this affected you have you had

1135

01:00:57,730 --> 01:00:55,930

sometimes I I think that if I don't

1136

01:01:04,500 --> 01:00:57,740

hurry up finishing my book I might have

1137

01:01:08,770 --> 01:01:04,510

way the channeling from the other side

1138

01:01:11,670 --> 01:01:08,780

not be my first choice I'm here alright

1139

01:01:14,490 --> 01:01:11,680

if you're gone and I'm here I volunteer

1140

01:01:19,680 --> 01:01:14,500

I'm joking I'm sure you'll outlive me

1141

01:01:20,860 --> 01:01:19,690

one fascinating book that I read was by

1142

01:01:26,200 --> 01:01:20,870

purportedly

1143

01:01:29,290 --> 01:01:26,210

a bishop in the Church of England his

1144

01:01:32,020 --> 01:01:29,300

father had been our Archbishop of

1145

01:01:36,370 --> 01:01:32,030

Canterbury hmm he was a noted scholar

1146

01:01:38,110 --> 01:01:36,380

and theologian wrote with great

1147

01:01:40,410 --> 01:01:38,120

authority and assurance about the

1148

01:01:44,050 --> 01:01:40,420

afterlife he thought based on church

1149

01:01:46,480 --> 01:01:44,060

doctrine but he also had some psychic

1150

01:01:49,000 --> 01:01:46,490

ability and he had the met a couple

1151

01:01:52,720 --> 01:01:49,010

spirits along the way and had some

1152

01:01:55,780 --> 01:01:52,730

communication and it caused him not to

1153

01:02:01,000 --> 01:01:55,790

be so sure that the doctrine was 100%

1154

01:02:02,920 --> 01:02:01,010

correct so he made an agreement with a

1155

01:02:06,130 --> 01:02:02,930

medium he got to know a medium before he

1156

01:02:10,230 --> 01:02:06,140

passed away and he began coming to her

1157

01:02:16,450 --> 01:02:10,240

after he died describing his experiences

1158

01:02:18,850 --> 01:02:16,460

and you know by and large what he said

1159

01:02:22,650 --> 01:02:18,860

was that you know things aren't exactly

1160

01:02:25,120 --> 01:02:22,660

the way I thought they were going to be

1161

01:02:26,660 --> 01:02:25,130

well what I want to know for sure is

1162

01:02:29,510 --> 01:02:26,670

that my pets

1163

01:02:32,710 --> 01:02:29,520

and my friendship with my animals around

1164

01:02:37,220 --> 01:02:32,720

me will in some way even with trees and

1165

01:02:40,340 --> 01:02:37,230

other non-human entities will continue

1166

01:02:44,060 --> 01:02:40,350

because I feel like my experiences with

1167

01:02:47,180 --> 01:02:44,070

non-human entities in many cases Trump

1168

01:02:49,370 --> 01:02:47,190

my experiences with the the human

1169

01:02:51,980 --> 01:02:49,380

entities and I have lots of good human

1170

01:02:55,130 --> 01:02:51,990

friends as well but I really am looking

1171

01:02:57,950 --> 01:02:55,140

forward in in my death State to

1172

01:02:59,570 --> 01:02:57,960

reconnect with animals that I've known

1173

01:03:02,600 --> 01:02:59,580

who have a past

1174

01:03:04,880 --> 01:03:02,610

ahead of me franchise yeah animals

1175

01:03:09,200 --> 01:03:04,890

certainly you find animals over there

1176

01:03:12,650 --> 01:03:09,210

sure that would be a good thing well we

1177

01:03:15,850 --> 01:03:12,660

have to apologize to you because I think

1178

01:03:17,630 --> 01:03:15,860

that our interview is a lot more

1179

01:03:25,540 --> 01:03:17,640

conversational than some other

1180

01:03:34,040 --> 01:03:28,700

but I think that's that's the charm of

1181

01:03:36,200 --> 01:03:34,050

shudder yes but I want to thank you so

1182

01:03:38,510 --> 01:03:36,210

very much for being with us and I hope

1183

01:03:40,340 --> 01:03:38,520

that you will come and join us again I

1184

01:03:44,300 --> 01:03:40,350

think there's so much more to talk to

1185

01:03:46,540 --> 01:03:44,310

you about and we we appreciate that

1186

01:03:52,730 --> 01:03:46,550

you've been on it you just really have

1187

01:03:55,910 --> 01:03:52,740

suffered fools gladly both delightful

1188

01:03:57,800 --> 01:03:55,920

and your fellow your fellow explorers

1189

01:04:01,130 --> 01:03:57,810

we're all just trying to learn it up

1190

01:04:04,190 --> 01:04:01,140

without that Psychonauts we are well

1191

01:04:05,960 --> 01:04:04,200

thank you so much really very much from

1192

01:04:11,300 --> 01:04:05,970

here at from us here at shattered

1193

01:04:15,920 --> 01:04:11,310

reality as as we bid dr. Claude Swanson

1194

01:04:19,880 --> 01:04:15,930

a farewell I'd you thanks again doc

1195

01:04:23,870 --> 01:04:19,890

great thank you I enjoyed it okay bye

1196

01:04:26,150 --> 01:04:23,880

now bye so that was exciting right that

1197

01:04:28,100 --> 01:04:26,160

was a good one like that that was fun

1198

01:04:32,000 --> 01:04:28,110

that was it was really really good and

1199

01:04:33,800 --> 01:04:32,010

he's a very good sport because he's just

1200

01:04:36,260 --> 01:04:33,810

such an intelligent man with so much

1201

01:04:39,080 --> 01:04:36,270

going on and he listened to our

1202

01:04:39,790 --> 01:04:39,090

questions very patiently no reminds me

1203

01:04:49,500 --> 01:04:39,800

sort of us

1204

01:04:52,780 --> 01:04:49,510

to our dogs yes what I have one other

1205

01:04:56,020 --> 01:04:52,790

announcement to make that there is a

1206

01:05:00,250 --> 01:04:56,030

friend of shattered reality podcast who

1207

01:05:03,310 --> 01:05:00,260

is adept at Taoism I would say and her

1208

01:05:05,860 --> 01:05:03,320

name is Sharon Smith she is a friend of

1209

01:05:08,920 --> 01:05:05,870

mine and she's an astrologer but she's

1210

01:05:12,550 --> 01:05:08,930

also a talented photographer and

1211

01:05:14,830 --> 01:05:12,560

independent filmmaker and I remember

1212

01:05:18,940 --> 01:05:14,840

about a year ago I mentioned her film

1213

01:05:23,500 --> 01:05:18,950

which is called Saturn saved me and she

1214

01:05:29,650 --> 01:05:23,510

has just now released it for viewing on

1215

01:05:32,650 --> 01:05:29,660

the internet on vhx TV the film is set

1216

01:05:34,540 --> 01:05:32,660

in India where Sharon goes husbands

1217

01:05:36,880 --> 01:05:34,550

numerous times I've never been myself

1218

01:05:40,210 --> 01:05:36,890

it's one of my bucket list things here

1219

01:05:42,670 --> 01:05:40,220

but she has gone to India a number of

1220

01:05:45,730 --> 01:05:42,680

times and she's visited with astrologers

1221

01:05:49,900 --> 01:05:45,740

and other soothsayers of India

1222

01:05:52,210 --> 01:05:49,910

prognosticators as it is and she has

1223

01:05:55,150 --> 01:05:52,220

created this film pretty much on her own

1224

01:05:57,820 --> 01:05:55,160

which I have to be say that's it's hard

1225

01:06:00,190 --> 01:05:57,830

and she's one you know total of awards

1226

01:06:02,470 --> 01:06:00,200

for it I think it's about 45 minutes

1227

01:06:05,020 --> 01:06:02,480

long but I'd have to check on that I saw

1228

01:06:08,620 --> 01:06:05,030

it myself I was very impressed it's

1229

01:06:10,480 --> 01:06:08,630

visually rich and to me part of what it

1230

01:06:13,540 --> 01:06:10,490

does is it points up the difference

1231

01:06:15,730 --> 01:06:13,550

between readers of any form of psychic

1232

01:06:19,990 --> 01:06:15,740

reading in the West and readers in the

1233

01:06:23,890 --> 01:06:20,000

East as in India particularly because in

1234

01:06:27,250 --> 01:06:23,900

India there's a great deal of focus put

1235

01:06:30,430 --> 01:06:27,260

on predestination whereas in the West

1236

01:06:33,220 --> 01:06:30,440

most readers will tell you that you have

1237

01:06:36,300 --> 01:06:33,230

some amount of free will there may be

1238

01:06:39,160 --> 01:06:36,310

certain things that are predestined but

1239

01:06:42,700 --> 01:06:39,170

often in your life you have some free

1240

01:06:44,740 --> 01:06:42,710

will so that is that is my little

1241

01:06:49,750 --> 01:06:44,750

announcement so get out there and and

1242

01:06:53,499 --> 01:06:49,760

see Wilson Saturn saved me it's 399 on

1243

01:06:55,839 --> 01:06:53,509

vh x TB and i recommend

1244

01:07:00,219 --> 01:06:55,849

for people who are interested in India

1245

01:07:03,819 --> 01:07:00,229

or astrology or predestination or any

1246

01:07:07,479 --> 01:07:03,829

number of things like that so coming up

1247

01:07:10,839 --> 01:07:07,489

on our podcast we expect that we are

1248

01:07:15,309 --> 01:07:10,849

going to be featuring our t6 killer

1249

01:07:19,059 --> 01:07:15,319

Clark next time and her conversations

1250

01:07:22,779 --> 01:07:19,069

with indigenous Ahmet Americans the

1251

01:07:26,669 --> 01:07:22,789

Native Americans from both the United

1252

01:07:30,129 --> 01:07:26,679

States and points north and south their

1253

01:07:35,349 --> 01:07:30,139

conversations their experiences with the

1254

01:07:37,419 --> 01:07:35,359

star people and this has to do with what

1255

01:07:39,609 --> 01:07:37,429

everybody sees in the night sky not

1256

01:07:41,919 --> 01:07:39,619

everybody but fortunate people or on

1257

01:07:46,419 --> 01:07:41,929

some of them unfortunate people see UFOs

1258

01:07:49,269 --> 01:07:46,429

and some of us have had experiences with

1259

01:07:54,789 --> 01:07:49,279

extraterrestrials and so we are going to

1260

01:08:00,189 --> 01:07:54,799

be talking to professor six killer Clark

1261

01:08:03,120 --> 01:08:00,199

and getting her ideas about what has

1262

01:08:06,999 --> 01:08:03,130

come from the anthropological evidence

1263

01:08:10,299 --> 01:08:07,009

from Native American peoples about the

1264

01:08:13,569 --> 01:08:10,309

star people I'm trying to think of the

1265

01:08:17,709 --> 01:08:13,579

man's name he was also in the UFO field

1266

01:08:20,829 --> 01:08:17,719

and it was with the airport O'Hare

1267

01:08:26,049 --> 01:08:20,839

Airport yes in Chicago with that

1268

01:08:28,329 --> 01:08:26,059

sighting and he was involved yeah I

1269

01:08:30,430 --> 01:08:28,339

can't think of his name but what he did

1270

01:08:32,649 --> 01:08:30,440

he had a side interest and it was with

1271

01:08:34,720 --> 01:08:32,659

the Hopi Indians and their petroglyphs

1272

01:08:36,220 --> 01:08:34,730

and there was like remember that he was

1273

01:08:38,049 --> 01:08:36,230

saying that he was investigating it's

1274

01:08:40,479 --> 01:08:38,059

like a black substance within the

1275

01:08:43,240 --> 01:08:40,489

petroglyph and he felt that there may

1276

01:08:49,299 --> 01:08:43,250

have been some DNA contained in that Wow

1277

01:08:53,559 --> 01:08:49,309

yeah in the Chicago area was it Sam

1278

01:08:59,529 --> 01:08:53,569

Moran trance or something yeah yeah yeah

1279

01:09:01,149 --> 01:08:59,539

yeah yes yeah and and then he sort of

1280

01:09:03,039 --> 01:09:01,159

faded away they didn't hear that much

1281

01:09:04,959 --> 01:09:03,049

from him I think I don't think that

1282

01:09:07,439 --> 01:09:04,969

ferry I think he just sort of lost

1283

01:09:09,819 --> 01:09:07,449

interest or he might still be

1284

01:09:12,249 --> 01:09:09,829

mr. Gaeta you just stop publishing or

1285

01:09:13,719 --> 01:09:12,259

not publishing that we've seen but we

1286

01:09:14,949 --> 01:09:13,729

could certainly think about getting him

1287

01:09:19,839 --> 01:09:14,959

on as well he sounds like a very

1288

01:09:22,029 --> 01:09:19,849

interesting fellow I've seen him I don't

1289

01:09:23,859 --> 01:09:22,039

know I don't know how far he got with

1290

01:09:27,879 --> 01:09:23,869

that I think was just staged as a theory

1291

01:09:29,489 --> 01:09:27,889

but even you know dr. Swanson too is

1292

01:09:34,629 --> 01:09:29,499

matching the hoppy

1293

01:09:38,049 --> 01:09:34,639

sure and and when I was down at at the

1294

01:09:41,199 --> 01:09:38,059

national park down there in Arizona I

1295

01:09:44,229 --> 01:09:41,209

had an experience a out of body dream

1296

01:09:47,259 --> 01:09:44,239

experience with some of the Kachinas

1297

01:09:50,819 --> 01:09:47,269

there and I wrote about it on my blog

1298

01:09:54,160 --> 01:09:50,829

which is Ferruccio dot wordpress.com

1299

01:09:57,040 --> 01:09:54,170

plug my blog anyway I think it's time

1300

01:09:58,299 --> 01:09:57,050

that we need to say thank you so do you

1301

01:10:00,520 --> 01:09:58,309

thinking that do you have any do you

1302

01:10:11,620 --> 01:10:00,530

1303

01:10:16,239 --> 01:10:11,630
