00:00:08,420 --> 00:00:17,190

[Music]

2
00:00:25,479 --> 00:00:20,679

welcome to shattered reality with your

3
00:00:28,510 --> 00:00:25,489

hosts Kate Valentine and furs prepare to

4
00:00:34,500 --> 00:00:28,520

have your paradigm shifted in the truths

5
00:00:38,380 --> 00:00:34,510

questioned and now shattered reality

6
00:00:40,299 --> 00:00:38,390

well another day another interview how

7
00:00:43,209 --> 00:00:40,309

you do in their fur ocean oh I'm just

8
00:00:46,479 --> 00:00:43,219

fine Kate it's so nice to be here with

9
00:00:49,119 --> 00:00:46,489

you on the vernal equinox oh that's true

10
00:00:51,279 --> 00:00:49,129

that's true leave well it is the 21st

11
00:00:54,310 --> 00:00:51,289

it's the official beginning of spring

12
00:00:57,669 --> 00:00:54,320

and the 21st is usually the vernal

13
00:01:00,689 --> 00:00:57,679

equinox which is when the days and the

14

00:01:05,200 --> 00:01:00,699

nights are exactly equal in length

15

00:01:09,330 --> 00:01:05,210

starting tomorrow the the days will be

16

00:01:12,910 --> 00:01:09,340

slightly longer every day until around

17

00:01:15,310 --> 00:01:12,920

June 21st when I have the summer

18

00:01:17,680 --> 00:01:15,320

solstice right and the long day and the

19

00:01:21,790 --> 00:01:17,690

longest day of the year so we're at the

20

00:01:25,480 --> 00:01:21,800

quarter point of the year today so as we

21

00:01:28,630 --> 00:01:25,490

have said today is March 21st 2017 we're

22

00:01:31,750 --> 00:01:28,640

sliding and and it's great to be back

23

00:01:35,050 --> 00:01:31,760

here with you since our last podcast

24

00:01:37,510 --> 00:01:35,060

which was really quite an event yes it

25

00:01:40,750 --> 00:01:37,520

was and we have gotten a number of

26

00:01:43,140 --> 00:01:40,760

comments on different sites and at

27

00:01:45,970 --> 00:01:43,150

different points in fact it was one I

28

00:01:47,020 --> 00:01:45,980

liked it to approve earlier today but

29

00:01:52,090 --> 00:01:47,030

I'll do it later

30

00:01:56,110 --> 00:01:52,100

yeah about our about our electronic

31

00:02:00,760 --> 00:01:56,120

voice phenomenon that we recorded the

32

00:02:04,030 --> 00:02:00,770

EVP EVP was totally surprising too much

33

00:02:07,900 --> 00:02:04,040

it came we had we record here on three

34

00:02:11,979 --> 00:02:07,910

channels one for Kate one for firoozeh

35

00:02:14,649 --> 00:02:11,989

that's me and one for our valued guests

36

00:02:17,319 --> 00:02:14,659

and we've had now this is going to be

37

00:02:19,870 --> 00:02:17,329

the second Tom in a row but less less

38

00:02:24,250 --> 00:02:19,880

shows Tom was Tom Butler

39

00:02:28,000 --> 00:02:24,260
of a trance see which is an organization

40

00:02:32,010 --> 00:02:28,010
that works with people who have lost

41

00:02:36,040 --> 00:02:32,020
loved ones and finding electronic voice

42

00:02:38,740 --> 00:02:36,050
phenomena whereby they may speak to them

43

00:02:42,190 --> 00:02:38,750
well we were very interested in what he

44

00:02:45,100 --> 00:02:42,200
had to say and much to our astonishment

45

00:02:48,400 --> 00:02:45,110
all three of us here at shattered

46

00:02:51,430 --> 00:02:48,410
reality podcast after Tom had hung up

47

00:02:59,650 --> 00:02:51,440
his line was dead

48

00:03:01,780 --> 00:02:59,660
Kate manifested it - [h__h] you moi you

49

00:03:05,970 --> 00:03:01,790
manifested on your line

50

00:03:08,800 --> 00:03:05,980
an electron an electronic voice

51
00:03:11,920 --> 00:03:08,810
phenomenon yeah that was pretty amazing

52
00:03:13,600 --> 00:03:11,930
that was pretty amazing yeah it was you

53
00:03:16,000 --> 00:03:13,610
know you know I played it for a few of

54
00:03:20,140 --> 00:03:16,010
my friends and they have reported as

55
00:03:22,660 --> 00:03:20,150
similar incidents they was it Kathy was

56
00:03:25,810 --> 00:03:22,670
telling me about something on the GPS

57
00:03:28,350 --> 00:03:25,820
where a voice came out of the GPS you're

58
00:03:31,930 --> 00:03:28,360
lost you really have to go left and the

59
00:03:36,400 --> 00:03:31,940
GPS in the auto was turned off and her

60
00:03:37,990 --> 00:03:36,410
friend was riding with her and and said

61
00:03:40,360 --> 00:03:38,000
yeah I heard it too you might as well go

62
00:03:42,040 --> 00:03:40,370
left so they did as it turned out down

63
00:03:44,920 --> 00:03:42,050

the street a major accident had just

64

00:03:47,260 --> 00:03:44,930

occurred so you get these little stories

65

00:03:49,210 --> 00:03:47,270

from people once you tell them look this

66

00:03:52,270 --> 00:03:49,220

happened on the show and they'll go yeah

67

00:03:55,090 --> 00:03:52,280

this happened to me and then interesting

68

00:03:58,140 --> 00:03:55,100

yeah very uncanny

69

00:04:01,030 --> 00:03:58,150

well ours didn't give us a message but

70

00:04:04,720 --> 00:04:01,040

the people that I played it for who

71

00:04:07,690 --> 00:04:04,730

might have had some experience with the

72

00:04:11,080 --> 00:04:07,700

EVP phenomena when people were trying to

73

00:04:13,510 --> 00:04:11,090

get it to happen said ours was so clear

74

00:04:15,970 --> 00:04:13,520

it was clear as a bell compared to the

75

00:04:19,599 --> 00:04:15,980

kind of scratchiness that that goes on

76

00:04:21,310 --> 00:04:19,609

hmm so I we hope that you will listen to

77

00:04:25,210 --> 00:04:21,320

that if you haven't listened to that or

78

00:04:26,890 --> 00:04:25,220

ready it's episode 45 and our EVP is at

79

00:04:31,330 --> 00:04:26,900

the end of it and we actually have

80

00:04:32,640 --> 00:04:31,340

removed the EVP from the recording the

81

00:04:35,400 --> 00:04:32,650

recording and we

82

00:04:37,800 --> 00:04:35,410

have it on our website separately okay

83

00:04:40,379 --> 00:04:37,810

anyway we have a wonderful guest with us

84

00:04:44,520 --> 00:04:40,389

today I believe yes we do and I'm going

85

00:04:48,570 --> 00:04:44,530

to introduce him now I think yes that's

86

00:04:53,400 --> 00:04:48,580

mr. Tonko mwah yes we have today mm-hmm

87

00:04:56,430 --> 00:04:53,410

the UF ufologist Tom Conwell who has

88

00:04:59,850 --> 00:04:56,440

been our electronic technician with the

89

00:05:03,330 --> 00:04:59,860

US Navy and with Honeywell Incorporated

90

00:05:06,180 --> 00:05:03,340

for 42 years he has been a Honeywell

91

00:05:09,290 --> 00:05:06,190

temperature control fire alarm and

92

00:05:13,050 --> 00:05:09,300

security software specialist a

93

00:05:17,010 --> 00:05:13,060

biomedical engineer and he is a fire

94

00:05:22,469 --> 00:05:17,020

alarm level 2 certified a meteorologist

95

00:05:25,680 --> 00:05:22,479

and an HVAC engineering resource Tom has

96

00:05:28,620 --> 00:05:25,690

wide-ranging expertise with a keen

97

00:05:32,270 --> 00:05:28,630

awareness of physics computer and

98

00:05:34,890 --> 00:05:32,280

Internet's no wasn't me

99

00:05:37,050 --> 00:05:34,900

internet software and a broad knowledge

100

00:05:42,089 --> 00:05:37,060

of electronics and how it intersects

101
00:05:45,300 --> 00:05:42,099
with the paranormal world and UFOs so

102
00:05:49,080 --> 00:05:45,310
Tom remains a vital scientific resource

103
00:05:51,570 --> 00:05:49,090
on extreme paranormal encounter response

104
00:05:54,990 --> 00:05:51,580
team and embraces the wealth of

105
00:05:58,920 --> 00:05:55,000
information and theories that embody the

106
00:06:01,800 --> 00:05:58,930
title of ufologist so welcome Tom Kahn

107
00:06:04,589 --> 00:06:01,810
well thank you it's great to be here

108
00:06:06,810 --> 00:06:04,599
that's great you know it's been a long

109
00:06:09,600 --> 00:06:06,820
time since we've spoken to someone about

110
00:06:13,200 --> 00:06:09,610
UFOs yeah it's been a little while yeah

111
00:06:15,210 --> 00:06:13,210
yeah it really has been so you know Tom

112
00:06:17,010 --> 00:06:15,220
in my experience it's sort of all dried

113
00:06:19,620 --> 00:06:17,020

up in the last few years have you found

114

00:06:24,210 --> 00:06:19,630

that to be true or have you seen some

115

00:06:26,159 --> 00:06:24,220

interesting sightings lately ok broke up

116

00:06:29,430 --> 00:06:26,169

in the very beginning I'm sorry of your

117

00:06:31,320 --> 00:06:29,440

question can you give that sure I was

118

00:06:33,360 --> 00:06:31,330

saying that the number of sightings

119

00:06:35,129 --> 00:06:33,370

recently has really gone down

120

00:06:39,020 --> 00:06:35,139

considerably I was wondering if you had

121

00:06:41,820 --> 00:06:39,030

had any of my guess you're up in the

122

00:06:45,870 --> 00:06:41,830

Albany type area if you had seen

123

00:06:47,999 --> 00:06:45,880

anything new up there I personally have

124

00:06:53,159 --> 00:06:48,009

no

125

00:06:55,560 --> 00:06:53,169

I was I I got sick in January and I've

126

00:07:00,930 --> 00:06:55,570

been sort of out of the loop for quite a

127

00:07:03,060 --> 00:07:00,940

few months but I'm back in the man you

128

00:07:06,600 --> 00:07:03,070

know just just to go outside and scan

129

00:07:09,090 --> 00:07:06,610

the sky yeah like like I had been now I

130

00:07:11,790 --> 00:07:09,100

have not noticed that there's a major

131

00:07:15,900 --> 00:07:11,800

drop-off in sightings there was a very

132

00:07:21,120 --> 00:07:15,910

slight drop off however the type of

133

00:07:24,930 --> 00:07:21,130

sightings that are that are prevalent

134

00:07:27,990 --> 00:07:24,940

around here in upstate New York is the

135

00:07:32,670 --> 00:07:28,000

the ones that look like balls of fire

136

00:07:35,010 --> 00:07:32,680

hmm they're actually spheres and a lot

137

00:07:37,860 --> 00:07:35,020

of people call them spheres some people

138

00:07:39,749 --> 00:07:37,870

will call them fire balls and that's not

139

00:07:43,860 --> 00:07:39,759

to be confused with a meteor which is

140

00:07:47,339 --> 00:07:43,870

also a fireball and there's this quite a

141

00:07:50,850 --> 00:07:47,349

few sightings of that in the upstate New

142

00:07:52,310 --> 00:07:50,860

York area and in the southern New York

143

00:07:56,159 --> 00:07:52,320

area down around New York City

144

00:08:00,680 --> 00:07:56,169

especially in Long Island and the other

145

00:08:04,800 --> 00:08:00,690

places out near Buffalo which is

146

00:08:07,290 --> 00:08:04,810

bordering Lake Erie right so yeah

147

00:08:13,310 --> 00:08:07,300

there's plenty of sightings out that way

148

00:08:15,600 --> 00:08:13,320

and probably more than more than you a

149

00:08:18,360 --> 00:08:15,610

reasonable person would consider

150

00:08:20,399 --> 00:08:18,370

reasonable I mean this is so many it's

151

00:08:24,570 --> 00:08:20,409

incredible let me ask you something

152

00:08:26,520 --> 00:08:24,580

about the fireballs now we've all seen

153

00:08:31,010 --> 00:08:26,530

shooting stars which are a type of

154

00:08:34,680 --> 00:08:31,020

meteor coming into the atmosphere and

155

00:08:38,420 --> 00:08:34,690

then there's a second type of fireballs

156

00:08:42,750 --> 00:08:38,430

which are called the February fireballs

157

00:08:46,190 --> 00:08:42,760

which have extended in past years into

158

00:08:49,019 --> 00:08:46,200

March now the February fireballs

159

00:08:52,290 --> 00:08:49,029

astronomically are thought to be also

160

00:08:56,280 --> 00:08:52,300

meteors but they're much bigger much

161

00:08:58,829 --> 00:08:56,290

more fiery and they seem to appear to

162

00:08:59,510 --> 00:08:58,839

move more slowly through the atmosphere

163

00:09:03,250 --> 00:08:59,520

that

164

00:09:06,440 --> 00:09:03,260

the smaller shooting stars are back in

165

00:09:08,480 --> 00:09:06,450

2010 I think it was maybe it wasn't 2010

166

00:09:11,870 --> 00:09:08,490

but it was it was about five years ago

167

00:09:14,990 --> 00:09:11,880

in any case I saw one of these giant

168

00:09:17,690 --> 00:09:15,000

February fireballs but it was on March

169

00:09:21,590 --> 00:09:17,700

it was on March 5th and I did report it

170

00:09:24,470 --> 00:09:21,600

to the new fork the the website which

171

00:09:28,760 --> 00:09:24,480

you used to look for some of your

172

00:09:32,210 --> 00:09:28,770

phenomena I believe and they said that

173

00:09:35,030 --> 00:09:32,220

it was indeed a meteor fireball which

174

00:09:39,440 --> 00:09:35,040

had been seen entering the atmosphere as

175

00:09:43,580 --> 00:09:39,450

far away as Sweden its weeped over the

176

00:09:45,830 --> 00:09:43,590

the ocean passed over Greenland and

177

00:09:48,290 --> 00:09:45,840

Newfoundland came down passed over

178

00:09:50,480 --> 00:09:48,300

Connecticut and passed over me and in

179

00:09:53,000 --> 00:09:50,490

New York New Jersey area where I did see

180

00:09:55,220 --> 00:09:53,010

it and it glowed green and had a tail

181

00:09:56,600 --> 00:09:55,230

and I thought it was gone I thought it

182

00:09:58,700 --> 00:09:56,610

was the end of the world frankly I

183

00:10:00,860 --> 00:09:58,710

thought it was going to come down right

184

00:10:02,740 --> 00:10:00,870

near me and set everything on fire but

185

00:10:06,950 --> 00:10:02,750

apparently it finally came down

186

00:10:09,020 --> 00:10:06,960

somewhere around West Virginia so now

187

00:10:11,060 --> 00:10:09,030

you're talking about a third kind of

188

00:10:13,970 --> 00:10:11,070

fireball or are we speaking about the

189

00:10:19,480 --> 00:10:13,980

the kind of what we'll call the February

190

00:10:22,030 --> 00:10:19,490

fireball okay well many many times

191

00:10:24,410 --> 00:10:22,040

fireballs are confused with meteors

192

00:10:26,360 --> 00:10:24,420

meteors will strike the earth at between

193

00:10:30,560 --> 00:10:26,370

thirty and sixty thousand miles per hour

194

00:10:33,620 --> 00:10:30,570

and the actual amount of time that it

195

00:10:35,390 --> 00:10:33,630

would take for someone to see it the the

196

00:10:38,090 --> 00:10:35,400

meteor would would disappear within

197

00:10:40,850 --> 00:10:38,100

three to four seconds sometimes

198

00:10:43,700 --> 00:10:40,860

depending on how the angle of the meteor

199

00:10:46,820 --> 00:10:43,710

that hits the ground hits the atmosphere

200

00:10:49,520 --> 00:10:46,830

a person may see it from possibly up to

201
00:10:53,990 --> 00:10:49,530
ten seconds what I was referring to in

202
00:10:57,110 --> 00:10:54,000
the fireball is is a ball of fire in the

203
00:10:59,710 --> 00:10:57,120
sky that goes very very slowly very

204
00:11:05,350 --> 00:10:59,720
similar to what an airplane travels and

205
00:11:13,740 --> 00:11:10,100
perhaps then disappear but it would take

206
00:11:16,350 --> 00:11:13,750
quite some time for this to work

207
00:11:18,270 --> 00:11:16,360
her with someone looking at it from the

208
00:11:22,050 --> 00:11:18,280
from the from the ground

209
00:11:24,960 --> 00:11:22,060
it may take perhaps four or five six

210
00:11:27,060 --> 00:11:24,970
seven minutes the ones that I saw lasted

211
00:11:31,640 --> 00:11:27,070
about seven or eight minutes Wow

212
00:11:39,750 --> 00:11:31,650
and this this wasn't a meteor believe me

213
00:11:42,510 --> 00:11:39,760

anything but the actual actually seeing

214

00:11:46,020 --> 00:11:42,520

this thing I got a good look at it

215

00:11:49,950 --> 00:11:46,030

through a pair of binoculars and seeing

216

00:11:53,040 --> 00:11:49,960

it almost looked like a fake fire

217

00:11:56,550 --> 00:11:53,050

when was this sighting of yours can you

218

00:12:00,540 --> 00:11:56,560

maybe start yeah roughly beginning about

219

00:12:04,050 --> 00:12:00,550

the sighting your specific sighting okay

220

00:12:07,770 --> 00:12:04,060

the sighting occurred going by memory

221

00:12:19,170 --> 00:12:07,780

here I believe it was the middle of May

222

00:12:21,150 --> 00:12:19,180

of 2013 and I had seen to come over the

223

00:12:22,680 --> 00:12:21,160

house and I saw them from the back of

224

00:12:24,540 --> 00:12:22,690

the house but it wasn't getting a good

225

00:12:28,800 --> 00:12:24,550

look at him so I walked through the

226

00:12:31,380 --> 00:12:28,810

house and went to the front and in in

227

00:12:33,210 --> 00:12:31,390

the front there were like really visible

228

00:12:35,940 --> 00:12:33,220

they were about the size of the moon

229

00:12:39,720 --> 00:12:35,950

perhaps even the size of your thumbnail

230

00:12:41,790 --> 00:12:39,730

at an arm's length and they were roaring

231

00:12:45,510 --> 00:12:41,800

balls of flame although they made no

232

00:12:48,720 --> 00:12:45,520

noise and they traveled across the sky

233

00:12:52,140 --> 00:12:48,730

and angled upward and disappeared behind

234

00:12:54,930 --> 00:12:52,150

clouds now there were groups of them

235

00:12:58,260 --> 00:12:54,940

that came through in an echelon

236

00:13:00,960 --> 00:12:58,270

formation to come through initially and

237

00:13:04,050 --> 00:13:00,970

I just saw the end of that another two

238

00:13:06,000 --> 00:13:04,060

came through and then another two came

239

00:13:11,640 --> 00:13:06,010

through and then there was a single one

240

00:13:14,579 --> 00:13:11,650

and then to it two more groups of two

241

00:13:17,550 --> 00:13:14,589

but I got an idea of where they were

242

00:13:19,680 --> 00:13:17,560

sort of coming from and I was hoping

243

00:13:21,780 --> 00:13:19,690

that they weren't going to just go away

244

00:13:23,140 --> 00:13:21,790

at that point because I was staring at

245

00:13:28,390 --> 00:13:23,150

the sky

246

00:13:31,780 --> 00:13:28,400

and they just appeared from black sky to

247

00:13:34,030 --> 00:13:31,790

brilliant orange just popped right on in

248

00:13:35,740 --> 00:13:34,040

the sky as I was looking right at the

249

00:13:39,460 --> 00:13:35,750

spot in the sky where they were coming

250

00:13:43,240 --> 00:13:39,470

from it was just remarkable that that

251
00:13:46,260 --> 00:13:43,250
almost makes me think of something that

252
00:13:50,080 --> 00:13:46,270
would be in two-dimensional rather than

253
00:13:54,880 --> 00:13:50,090
like something akin to a chemical rocket

254
00:13:58,870 --> 00:13:54,890
coming into interview yes it this wasn't

255
00:14:01,090 --> 00:13:58,880
a rocket and there wouldn't have been 11

256
00:14:07,530 --> 00:14:01,100
of them following each other all making

257
00:14:12,810 --> 00:14:07,540
exactly the same precise maneuver it in

258
00:14:17,470 --> 00:14:12,820
interdimensional I guess is possible but

259
00:14:19,420 --> 00:14:17,480
they are seen so many times around the

260
00:14:24,700 --> 00:14:19,430
world and especially all along the east

261
00:14:28,600 --> 00:14:24,710
coast yet I doubt if they're parading

262
00:14:32,230 --> 00:14:28,610
like this from an interdimensional way I

263
00:14:34,990 --> 00:14:32,240

think they have our pre-programmed to

264

00:14:40,870 --> 00:14:35,000

appear in the sky to do these things and

265

00:14:44,340 --> 00:14:40,880

it they may even they may even be drones

266

00:14:48,010 --> 00:14:44,350

mmm no I mean the drone you buy and

267

00:14:51,910 --> 00:14:48,020

Walmart I don't mean that I met they may

268

00:14:53,050 --> 00:14:51,920

be pilotless crafts that are run by

269

00:14:57,760 --> 00:14:53,060

who-knows-who

270

00:15:00,790 --> 00:14:57,770

and I would not be surprised to see that

271

00:15:02,440 --> 00:15:00,800

actually I wouldn't because because

272

00:15:07,330 --> 00:15:02,450

everyone that came through written

273

00:15:10,990 --> 00:15:07,340

exactly the same corner of the same path

274

00:15:13,330 --> 00:15:11,000

and changed in exactly the same spot in

275

00:15:17,350 --> 00:15:13,340

the sky and they all did the same thing

276

00:15:21,430 --> 00:15:17,360

all 11 of them so this sighting that you

277

00:15:24,640 --> 00:15:21,440

had caused you a greater interest in the

278

00:15:27,250 --> 00:15:24,650

UFO phenomena now can you tell us what

279

00:15:30,730 --> 00:15:27,260

extreme paranormal encounter response

280

00:15:35,400 --> 00:15:30,740

team is yeah we are a paranormal group

281

00:15:39,720 --> 00:15:35,410

and what we do is we will go to homes

282

00:15:44,400 --> 00:15:39,730

and investigate the paranormal and take

283

00:15:46,949 --> 00:15:44,410

well every EVPs of course and we will do

284

00:15:49,139 --> 00:15:46,959

that and that we have been doing that

285

00:15:52,619 --> 00:15:49,149

for quite some time but I'm also a youth

286

00:15:55,679 --> 00:15:52,629

ologist and and have turned into a

287

00:16:01,350 --> 00:15:55,689

ufologist since I retired about 10 years

288

00:16:06,269 --> 00:16:01,360

ago and also on our team we have three

289

00:16:09,090 --> 00:16:06,279

psychics and we have a Bigfoot

290

00:16:11,369 --> 00:16:09,100

specialist one who has been published

291

00:16:13,050 --> 00:16:11,379

multiple times so we have a quite a

292

00:16:15,509 --> 00:16:13,060

talented team Wow

293

00:16:18,569 --> 00:16:15,519

so Tom you've been even though you

294

00:16:21,030 --> 00:16:18,579

probably got into this in a really

295

00:16:22,949 --> 00:16:21,040

intense way after retired it seems that

296

00:16:29,639 --> 00:16:22,959

your interest went way back though

297

00:16:32,610 --> 00:16:29,649

yeah from from from a child that there

298

00:16:35,600 --> 00:16:32,620

were actual UFOs in the sky that they

299

00:16:38,730 --> 00:16:35,610

were real that we're being visited

300

00:16:40,410 --> 00:16:38,740

don't ask me how because back then there

301
00:16:42,720 --> 00:16:40,420
wasn't that kind of information around

302
00:16:45,660 --> 00:16:42,730
this was like the early 50s when I was a

303
00:16:48,389 --> 00:16:45,670
child but I always knew that they were

304
00:16:51,749 --> 00:16:48,399
real always well of all the people I've

305
00:16:54,929 --> 00:16:51,759
interviewed on the show I have to say at

306
00:16:57,840 --> 00:16:54,939
least 95 if not a hundred percent really

307
00:16:59,759 --> 00:16:57,850
became interested as children which

308
00:17:01,949 --> 00:16:59,769
makes me think that perhaps the people

309
00:17:04,529 --> 00:17:01,959
who are that really intense interest

310
00:17:07,020 --> 00:17:04,539
were in some way contacted as a child

311
00:17:08,939 --> 00:17:07,030
and like you just knew there was

312
00:17:09,840 --> 00:17:08,949
something out there and wanted to know

313
00:17:12,299 --> 00:17:09,850

what it was

314

00:17:14,819 --> 00:17:12,309

so you're in with some very good company

315

00:17:18,929 --> 00:17:14,829

but you also had an aunt Wilma didn't

316

00:17:24,090 --> 00:17:18,939

you hit Wilma I admit I had a net Wilma

317

00:17:26,250 --> 00:17:24,100

too but she wasn't interested in this I

318

00:17:29,630 --> 00:17:26,260

did know a woman named Wilma but let's

319

00:17:31,919 --> 00:17:29,640

add a good friend in high school

320

00:17:36,330 --> 00:17:31,929

sometimes we get into the comedy

321

00:17:39,180 --> 00:17:36,340

routines but Tom won't you tell us about

322

00:17:43,440 --> 00:17:39,190

how your aunt Wilma has sort of effected

323

00:17:49,289 --> 00:17:43,450

your growing up okay

324

00:17:52,619 --> 00:17:49,299

I had always been interested in the sky

325

00:17:55,259 --> 00:17:52,629

and space and whatever came along with

326

00:17:58,970 --> 00:17:55,269

that and I found out when I was about

327

00:18:03,830 --> 00:17:58,980

nine years old that my aunt Wilma was

328

00:18:06,749 --> 00:18:03,840

the I believe that she was the secretary

329

00:18:07,710 --> 00:18:06,759

for the astronomical Association of

330

00:18:11,310 --> 00:18:07,720

America Wow

331

00:18:14,879 --> 00:18:11,320

that's pretty hard yeah but this again

332

00:18:16,889 --> 00:18:14,889

this was back in the 50s okay but what a

333

00:18:19,139 --> 00:18:16,899

great source and especially as a woman

334

00:18:26,729 --> 00:18:19,149

that was really unusual back then yeah

335

00:18:28,739 --> 00:18:26,739

so she she realized that I had been

336

00:18:31,789 --> 00:18:28,749

trying to absorb all the information

337

00:18:34,499 --> 00:18:31,799

that I possibly could about the sky and

338

00:18:38,419 --> 00:18:34,509

she showed me her publications which

339

00:18:40,830 --> 00:18:38,429

were from the astronomical lake and I

340

00:18:46,560 --> 00:18:40,840

just ate them up I mean I just loved

341

00:18:51,359 --> 00:18:46,570

reading them and so she offered to take

342

00:18:55,349 --> 00:18:51,369

me on a trip with her to a to an annual

343

00:18:59,369 --> 00:18:55,359

conference mm-hmm and we went on that

344

00:19:01,379 --> 00:18:59,379

trip and the people were great they

345

00:19:03,299 --> 00:19:01,389

realized hey this is some kid who was

346

00:19:06,599 --> 00:19:03,309

really interested so they were

347

00:19:11,399 --> 00:19:06,609

interested in in me and really helped me

348

00:19:14,849 --> 00:19:11,409

out so it did it was great it was great

349

00:19:18,269 --> 00:19:14,859

being with with everyone and they were

350

00:19:19,499 --> 00:19:18,279

all willing to give me all the

351

00:19:22,889 --> 00:19:19,509

information that they could possibly

352

00:19:25,470 --> 00:19:22,899

give me and that's what really really

353

00:19:27,810 --> 00:19:25,480

piqued my interest I mean that that was

354

00:19:29,759 --> 00:19:27,820

the number one item right there and not

355

00:19:31,320 --> 00:19:29,769

only that but they didn't put it down

356

00:19:34,519 --> 00:19:31,330

and say well you're just a ridiculous

357

00:19:39,859 --> 00:19:34,529

child they encouraged you that's using

358

00:19:46,739 --> 00:19:39,869

they absolutely did and that I probably

359

00:19:49,950 --> 00:19:46,749

kept my wishes to learn more all the way

360

00:19:51,359 --> 00:19:49,960

through my life and even today I'll I'll

361

00:19:53,519 --> 00:19:51,369

take online courses

362

00:19:55,739 --> 00:19:53,529

I mean I'm 70 years old but I'll still

363

00:19:57,989 --> 00:19:55,749

take online courses because I just have

364

00:19:59,849 --> 00:19:57,999

an insatiable desire to learn well

365

00:20:01,739 --> 00:19:59,859

that's wonderful do you think we'll ever

366

00:20:03,000 --> 00:20:01,749

find out Tom Cruise I'm up there with

367

00:20:04,650 --> 00:20:03,010

you too and you know

368

00:20:08,130 --> 00:20:04,660

just annoys me that you spend all this

369

00:20:11,820 --> 00:20:08,140

time and just never gonna find out yeah

370

00:20:14,940 --> 00:20:11,830

but what do you think well I think that

371

00:20:17,250 --> 00:20:14,950

we are right now in the throes of a

372

00:20:20,910 --> 00:20:17,260

disclosure mm-hmm it's happening really

373

00:20:24,240 --> 00:20:20,920

slowly but they are trying to get us to

374

00:20:27,480 --> 00:20:24,250

think that oh well you know we have lots

375

00:20:29,400 --> 00:20:27,490

of planets out there and it's possible

376

00:20:34,160 --> 00:20:29,410

and then they talked about a couple of

377

00:20:37,350 --> 00:20:34,170

stars that were they had weird light

378

00:20:39,690 --> 00:20:37,360

anomalies around them and they said well

379

00:20:44,220 --> 00:20:39,700

you know maybe maybe this is a Dyson

380

00:20:48,270 --> 00:20:44,230

Sphere around this star where an

381

00:20:50,700 --> 00:20:48,280

extraterrestrial civilization built the

382

00:20:54,060 --> 00:20:50,710

structure around the star to absorb all

383

00:20:56,250 --> 00:20:54,070

the energy from it and and you know

384

00:20:58,080 --> 00:20:56,260

they're just releasing little tiny bits

385

00:21:00,630 --> 00:20:58,090

of stuff just to get people to think

386

00:21:04,560 --> 00:21:00,640

well okay maybe they are maybe there are

387

00:21:07,470 --> 00:21:04,570

and eventually they will just transition

388

00:21:09,390 --> 00:21:07,480

right into it and people will be coming

389

00:21:10,260 --> 00:21:09,400

down from the skies and it'll be just

390

00:21:12,840 --> 00:21:10,270

like everyday

391

00:21:14,610 --> 00:21:12,850

well I remember in grade school they

392

00:21:16,950 --> 00:21:14,620

would tell you there is no such thing as

393

00:21:20,850 --> 00:21:16,960

planets outside our solar system I

394

00:21:22,800 --> 00:21:20,860

didn't believe them sounds ridiculous to

395

00:21:25,290 --> 00:21:22,810

me but and now you have all these

396

00:21:27,210 --> 00:21:25,300

extrasolar planets and like you say the

397

00:21:31,110 --> 00:21:27,220

Goldilocks zone and all that business

398

00:21:33,270 --> 00:21:31,120

but maybe and then there's also I know a

399

00:21:36,060 --> 00:21:33,280

lot of you follow just have like a

400

00:21:38,850 --> 00:21:36,070

Hollywood type conspiracy like Spielberg

401
00:21:42,030 --> 00:21:38,860
was releasing information in a friendly

402
00:21:44,550 --> 00:21:42,040
manner like et to get us used to the

403
00:21:46,620 --> 00:21:44,560
idea of a friendly alien race as opposed

404
00:21:49,020 --> 00:21:46,630
to some of the more nasty ones are they

405
00:21:54,720 --> 00:21:49,030
remember the sci-fi movies of the 50s

406
00:21:57,290 --> 00:21:54,730
that would scare the bad Dickens but now

407
00:22:00,090 --> 00:21:57,300
they're sort of friendly and et ish or

408
00:22:02,160 --> 00:22:00,100
advanced and um you know so you're right

409
00:22:05,240 --> 00:22:02,170
I think there may be a slow but sure

410
00:22:09,330 --> 00:22:05,250
release well what you've been doing here

411
00:22:11,400 --> 00:22:09,340
tom is you've been characterizing the

412
00:22:14,820 --> 00:22:11,410
different types of sightings and then

413
00:22:16,560 --> 00:22:14,830

you've also been sectioning off a

414

00:22:20,629 --> 00:22:16,570

portions of the

415

00:22:22,710 --> 00:22:20,639

United States by state and seeing

416

00:22:24,960 --> 00:22:22,720

explaining to us what you've been doing

417

00:22:28,100 --> 00:22:24,970

I I see clearly here you have seven

418

00:22:31,019 --> 00:22:28,110

different types of sightings in that are

419

00:22:34,049 --> 00:22:31,029

arkham PI's like cigar that rushed

420

00:22:36,269 --> 00:22:34,059

roughly the shape of a cigar cylindrical

421

00:22:40,440 --> 00:22:36,279

with no wings very large and able to

422

00:22:42,720 --> 00:22:40,450

hover that would be the number one type

423

00:22:45,720 --> 00:22:42,730

that you have characterized that but

424

00:22:47,100 --> 00:22:45,730

you've also cut up the us into sections

425

00:22:53,940 --> 00:22:47,110

why don't you tell us your methodology

426

00:22:57,049 --> 00:22:53,950

there yeah I I pored over the right way

427

00:23:00,210 --> 00:22:57,059

to go about this for quite some time and

428

00:23:03,720 --> 00:23:00,220

the reason was when it when I first

429

00:23:07,440 --> 00:23:03,730

started going through all of all of the

430

00:23:09,600 --> 00:23:07,450

databases I of course started with my

431

00:23:12,749 --> 00:23:09,610

home state because I wanted to do some

432

00:23:14,310 --> 00:23:12,759

talks about UFOs so I thought well let

433

00:23:18,810 --> 00:23:14,320

me try to get some information from here

434

00:23:22,409 --> 00:23:18,820

well it very shortly after starting

435

00:23:24,330 --> 00:23:22,419

reading reading the database that there

436

00:23:27,720 --> 00:23:24,340

were about fifty different types of

437

00:23:31,049 --> 00:23:27,730

things seen in the sky fifty now if I

438

00:23:35,009 --> 00:23:31,059

tried to put fifty on a graph it would

439

00:23:38,669 --> 00:23:35,019

look ridiculous so what I did was tried

440

00:23:41,340 --> 00:23:38,679

to get the major ones where the most

441

00:23:44,970 --> 00:23:41,350

kinds of sightings were were seen break

442

00:23:48,210 --> 00:23:44,980

it down into seven groups and then I

443

00:23:49,980 --> 00:23:48,220

could create a graph that at least when

444

00:23:51,810 --> 00:23:49,990

you look at the graph you're gonna be

445

00:23:54,570 --> 00:23:51,820

able to extract some information from it

446

00:23:57,629 --> 00:23:54,580

I also really realized at that point

447

00:24:00,539 --> 00:23:57,639

even though I did it this way that I

448

00:24:03,930 --> 00:24:00,549

that it's possible that I was gonna have

449

00:24:06,330 --> 00:24:03,940

to take one of the seven groups that I

450

00:24:08,639 --> 00:24:06,340

created and break that down even further

451

00:24:12,629 --> 00:24:08,649

I just didn't know what was going to

452

00:24:14,850 --> 00:24:12,639

happen so so I broke them down into

453

00:24:17,490 --> 00:24:14,860

seven groups put them into these

454

00:24:19,999 --> 00:24:17,500

categories and then created graphs from

455

00:24:22,980 --> 00:24:20,009

them and then I was able to compare

456

00:24:24,990 --> 00:24:22,990

apples to apples even though there were

457

00:24:27,760 --> 00:24:25,000

different types there was same a

458

00:24:30,909 --> 00:24:27,770

quantity of sighting scene

459

00:24:33,519 --> 00:24:30,919

and I could say well this is being seen

460

00:24:37,120 --> 00:24:33,529

here in this particular area more than

461

00:24:39,399 --> 00:24:37,130

anything else so then maybe I could take

462

00:24:42,340 --> 00:24:39,409

one step further why are they being seen

463

00:24:44,980 --> 00:24:42,350

here okay but any other that that's just

464

00:24:48,010 --> 00:24:44,990

how I started out it there were so many

465

00:24:50,980 --> 00:24:48,020

things to see that I just didn't know

466

00:24:55,870 --> 00:24:50,990

what to do I broke them down and there I

467

00:24:57,639 --> 00:24:55,880

had it so after I did my my first book

468

00:25:03,399 --> 00:24:57,649

okay

469

00:25:06,220 --> 00:25:03,409

I took some time off thinking there's

470

00:25:09,580 --> 00:25:06,230

got to be a better way to give people a

471

00:25:13,360 --> 00:25:09,590

pictorial on what's actually being seen

472

00:25:16,149 --> 00:25:13,370

in the sky so I decided to use a map

473

00:25:18,610 --> 00:25:16,159

with pins in it I didn't realize what I

474

00:25:23,049 --> 00:25:18,620

was getting into oh my goodness well so

475

00:25:25,840 --> 00:25:23,059

I had this big US map and I started

476

00:25:29,620 --> 00:25:25,850

putting pins in it with the central US

477

00:25:33,039 --> 00:25:29,630

which was my second volume eastern us

478

00:25:35,230 --> 00:25:33,049

being the first volume u.s. I'm gonna

479

00:25:37,210 --> 00:25:35,240

stop you for one second and ask you to

480

00:25:39,760 --> 00:25:37,220

announce the names of your books and

481

00:25:42,100 --> 00:25:39,770

where they're available because we may

482

00:25:44,500 --> 00:25:42,110

have people who are listening to this

483

00:25:48,580 --> 00:25:44,510

who want to acquire your books which I'm

484

00:25:54,340 --> 00:25:48,590

sure you'll be happy about sure okay my

485

00:25:57,279 --> 00:25:54,350

books are entitled they are here volume

486

00:26:00,340 --> 00:25:57,289

1 and volume 2 so far volume 3 is being

487

00:26:06,490 --> 00:26:00,350

worked on now they are available through

488

00:26:10,029 --> 00:26:06,500

Amazon but if you were to make a request

489

00:26:14,230 --> 00:26:10,039

of me directly through my email then I

490

00:26:16,769 --> 00:26:14,240

could sign it and send it to you and I

491

00:26:19,149 --> 00:26:16,779

wouldn't try to as much as Amazon would

492

00:26:23,440 --> 00:26:19,159

so you want to give us your email their

493

00:26:26,289 --> 00:26:23,450

weather our listeners okay here it is

494

00:26:33,190 --> 00:26:26,299

and and this is confusing listen very

495

00:26:36,299 --> 00:26:33,200

carefully okay okay G t CN wel with a

496

00:26:40,870 --> 00:26:36,309

number two not two hours like my name is

497

00:26:48,430 --> 00:26:40,880

T Co n wel two

498

00:26:50,170 --> 00:26:48,440

uh-huh @n y CA P dot RR calm okay that's

499

00:26:52,600 --> 00:26:50,180

a long one we might have to repeat that

500

00:26:54,250 --> 00:26:52,610

again y'all at the end of of being okay

501
00:26:56,950 --> 00:26:54,260
we'll repeat that again in the name of

502
00:27:01,780 --> 00:26:56,960
the book books the two books going to be

503
00:27:03,670 --> 00:27:01,790
three books before long yep okay so I'm

504
00:27:05,710 --> 00:27:03,680
sorry to have interrupted you and I hope

505
00:27:08,050 --> 00:27:05,720
that you will find your space there

506
00:27:10,600 --> 00:27:08,060
where we interrupted you and I'm I'm so

507
00:27:12,820 --> 00:27:10,610
sorry he was saying the points on the

508
00:27:17,380 --> 00:27:12,830
map was the points on the map yes the

509
00:27:20,200 --> 00:27:17,390
the the pushpins in the end of the map

510
00:27:24,120 --> 00:27:20,210
that you had acquired up the United

511
00:27:29,230 --> 00:27:24,130
States it became very crowded mm-hmm so

512
00:27:32,590 --> 00:27:29,240
what he did was I sighed I bought three

513
00:27:37,300 --> 00:27:32,600

different types of pins to try to get

514

00:27:39,820 --> 00:27:37,310

the ones seen most often I realized that

515

00:27:42,640 --> 00:27:39,830

I wasn't going to be able to for seven

516

00:27:44,950 --> 00:27:42,650

different types of pins and also

517

00:27:46,720 --> 00:27:44,960

realized very early on that they were

518

00:27:54,910 --> 00:27:46,730

going to be impossible to put all those

519

00:27:57,820 --> 00:27:54,920

pins on the map so I chose three and so

520

00:28:00,160 --> 00:27:57,830

I picked the states that had the fewest

521

00:28:03,070 --> 00:28:00,170

sightings just so I could get a feel for

522

00:28:06,570 --> 00:28:03,080

it like North Dakota and Kansas and

523

00:28:09,910 --> 00:28:06,580

Nebraska and I worked my way down

524

00:28:13,870 --> 00:28:09,920

vertically from North Dakota and by the

525

00:28:15,520 --> 00:28:13,880

time I got into Texas then I knew that I

526

00:28:19,840 --> 00:28:15,530

was going to have my first really big

527

00:28:22,420 --> 00:28:19,850

problem around cities what am I gonna do

528

00:28:25,390 --> 00:28:22,430

with all these little pins around the

529

00:28:27,160 --> 00:28:25,400

cities such as Dallas or Houston they're

530

00:28:30,940 --> 00:28:27,170

gonna they're just going to take up

531

00:28:35,680 --> 00:28:30,950

almost the whole state of Texas so what

532

00:28:39,130 --> 00:28:35,690

I did was I got large pins and the large

533

00:28:43,500 --> 00:28:39,140

pins equal 20 small pins so I was able

534

00:28:46,740 --> 00:28:43,510

to compress the kind of area that I was

535

00:28:49,620 --> 00:28:46,750

that I was covering in the states and

536

00:28:52,930 --> 00:28:49,630

make it at least still seem reasonable

537

00:28:54,430 --> 00:28:52,940

well that worked out for Texas and it

538

00:28:56,110 --> 00:28:54,440

worked out for a few states

539

00:29:00,070 --> 00:28:56,120

and I started heading back north again

540

00:29:02,740 --> 00:29:00,080

slightly east of that and I had my first

541

00:29:06,820 --> 00:29:02,750

problem in st. Louis there were so many

542

00:29:10,210 --> 00:29:06,830

sightings that even with the big pins

543

00:29:13,419 --> 00:29:10,220

they were expanding way out and they're

544

00:29:15,460 --> 00:29:13,429

almost being unreasonable there were so

545

00:29:18,250 --> 00:29:15,470

many of them and I said what am I gonna

546

00:29:21,850 --> 00:29:18,260

do when I get in your Chicago well as I

547

00:29:24,700 --> 00:29:21,860

worked my way up I realized that by the

548

00:29:29,950 --> 00:29:24,710

time I got around Chicago I had to put

549

00:29:32,620 --> 00:29:29,960

in about 25 large pins remember each

550

00:29:35,380 --> 00:29:32,630

large pin equal 20 small pins going to

551

00:29:41,049 --> 00:29:35,390

put about 25 big pins that took up a

552

00:29:44,440 --> 00:29:41,059

whole lot of coverage in an Illinois and

553

00:29:46,390 --> 00:29:44,450

it covered most of the northern portion

554

00:29:48,100 --> 00:29:46,400

of the state oh my goodness

555

00:29:50,350 --> 00:29:48,110

where are you where are you getting

556

00:29:52,870 --> 00:29:50,360

these reports from Tom like UFO

557

00:29:54,779 --> 00:29:52,880

organizations or private parties did you

558

00:29:57,610 --> 00:29:54,789

have a number for them to call in on

559

00:29:59,620 --> 00:29:57,620

yeah all from the national UFO Reporting

560

00:30:04,840 --> 00:29:59,630

Center oh that's a good one

561

00:30:06,549 --> 00:30:04,850

yes it is see still dirt and so that

562

00:30:10,570 --> 00:30:06,559

wasn't even the biggest problem as I

563

00:30:16,299 --> 00:30:10,580

worked toward the east from there I had

564

00:30:18,399 --> 00:30:16,309

my biggest problem in Ohio and Ohio I

565

00:30:21,789 --> 00:30:18,409

it was just totally and completely

566

00:30:24,370 --> 00:30:21,799

covered with pins mm-hmm totally I mean

567

00:30:31,620 --> 00:30:24,380

he missed the state and there's a pretty

568

00:30:35,980 --> 00:30:31,630

big state yes so I was able to at least

569

00:30:38,500 --> 00:30:35,990

create this map for my second book okay

570

00:30:43,210 --> 00:30:38,510

well since then I've gone back and

571

00:30:47,049 --> 00:30:43,220

filled in the map for the sightings in

572

00:30:50,860 --> 00:30:47,059

the first book and I will have them and

573

00:30:54,159 --> 00:30:50,870

provide those those sightings on a web

574

00:30:56,289 --> 00:30:54,169

page to people who purchase my book cool

575

00:30:58,210 --> 00:30:56,299

you know give them the web address and

576
00:31:03,100 --> 00:30:58,220
then they can go in and look themselves

577
00:31:06,010 --> 00:31:03,110
in full color and the maps will stand

578
00:31:07,230 --> 00:31:06,020
out and they're actually very very

579
00:31:10,169 --> 00:31:07,240
pretty

580
00:31:12,180 --> 00:31:10,179
I tried putting them in a

581
00:31:14,490 --> 00:31:12,190
black-and-white format figuring if I

582
00:31:17,610 --> 00:31:14,500
take a really good picture this will

583
00:31:18,330 --> 00:31:17,620
work out fine well it did did not work

584
00:31:21,990 --> 00:31:18,340
out fine

585
00:31:25,230 --> 00:31:22,000
so that's why I had to go to the to the

586
00:31:27,810 --> 00:31:25,240
web page with full-color maps

587
00:31:29,070 --> 00:31:27,820
I like the full-color maps I you sent me

588
00:31:32,120 --> 00:31:29,080

some of them and they are really

589

00:31:34,680 --> 00:31:32,130

beautiful and you've done an incredible

590

00:31:37,940 --> 00:31:34,690

and incredible you've done yeoman's work

591

00:31:40,049 --> 00:31:37,950

yeah which is this character

592

00:31:42,810 --> 00:31:40,059

characterizing the different types and

593

00:31:46,080 --> 00:31:42,820

and put in a lot of a lot of effort and

594

00:31:48,720 --> 00:31:46,090

time that you know just can't be

595

00:31:51,780 --> 00:31:48,730

duplicated any other way can you

596

00:31:55,440 --> 00:31:51,790

possibly give us some idea of some of

597

00:31:58,680 --> 00:31:55,450

your most compelling reports that you've

598

00:32:00,990 --> 00:31:58,690

gotten like say you know maybe from one

599

00:32:03,570 --> 00:32:01,000

area the most compelling and maybe a

600

00:32:05,940 --> 00:32:03,580

couple from another area which you found

601
00:32:08,299 --> 00:32:05,950
to be the most convincing compelling

602
00:32:13,020 --> 00:32:08,309
reports okay

603
00:32:19,200 --> 00:32:13,030
the some of the most interesting reports

604
00:32:23,970 --> 00:32:19,210
were out of out of Ohio and there were

605
00:32:29,720 --> 00:32:23,980
sightings over top of a nuclear power

606
00:32:35,070 --> 00:32:29,730
plant and this plant was at the far

607
00:32:38,430 --> 00:32:35,080
western edge of Lake Erie and about ten

608
00:32:43,290 --> 00:32:38,440
years ago maybe 10 12 years ago there

609
00:32:45,600 --> 00:32:43,300
was an event that almost created this

610
00:32:50,490 --> 00:32:45,610
nuclear power plant to just blow

611
00:32:53,580 --> 00:32:50,500
sky-high and after that event there were

612
00:32:55,760 --> 00:32:53,590
a tremendous amount of sightings of UFOs

613
00:32:59,190 --> 00:32:55,770

just hovering over top of the plant

614

00:33:03,150 --> 00:32:59,200

that's that's the one that I found the

615

00:33:05,610 --> 00:33:03,160

most interesting because apparently the

616

00:33:08,520 --> 00:33:05,620

ETS were familiar with what almost

617

00:33:11,340 --> 00:33:08,530

happened and they took a look for

618

00:33:14,280 --> 00:33:11,350

themselves thought that was really

619

00:33:17,850 --> 00:33:14,290

unique have you been in contact with

620

00:33:20,940 --> 00:33:17,860

Robert Hastings who collects information

621

00:33:25,380 --> 00:33:20,950

about UFO sightings around

622

00:33:27,710 --> 00:33:25,390

nuclear power plants no I have not well

623

00:33:30,960 --> 00:33:27,720

I think he would be very interested in

624

00:33:34,590 --> 00:33:30,970

the compilations that you have done visa

625

00:33:38,040 --> 00:33:34,600

via Ohio's nuclear power plant there and

626

00:33:41,490 --> 00:33:38,050

the and the almost accident that that

627

00:33:46,290 --> 00:33:41,500

occurred there because he has done a lot

628

00:33:51,750 --> 00:33:46,300

of work about UFO sightings that have

629

00:33:54,360 --> 00:33:51,760

shut down nuclear launch places missile

630

00:33:57,000 --> 00:33:54,370

launch sites nuclear missile launch

631

00:33:59,280 --> 00:33:57,010

sites so I I think that he would find

632

00:34:01,430 --> 00:33:59,290

your work really compelling and I think

633

00:34:06,000 --> 00:34:01,440

that you should try contacting him

634

00:34:09,270 --> 00:34:06,010

excellent foucha can you put his name in

635

00:34:11,850 --> 00:34:09,280

a email sure sure well do it

636

00:34:15,450 --> 00:34:11,860

excellent okay that some of the others

637

00:34:17,550 --> 00:34:15,460

that I found incidentally just what you

638

00:34:25,409 --> 00:34:17,560

just said some of the other really cool

639

00:34:30,090 --> 00:34:25,419

ones were from northern northern states

640

00:34:33,450 --> 00:34:30,100

like North Dakota and Montana and this

641

00:34:36,330 --> 00:34:33,460

occurred in book two from the central

642

00:34:41,659 --> 00:34:36,340

u.s. there were a lot of accounts of

643

00:34:46,380 --> 00:34:41,669

sightings from military people who saw

644

00:34:48,810 --> 00:34:46,390

UFOs and they were hovering over their

645

00:34:51,530 --> 00:34:48,820

nuclear power plants excuse me over

646

00:34:55,470 --> 00:34:51,540

there over there nuclear weapons and

647

00:34:57,560 --> 00:34:55,480

they had gone so far as to actually shut

648

00:35:03,980 --> 00:34:57,570

down the power in some of these places

649

00:35:07,230 --> 00:35:03,990

some had even gone in to retarget

650

00:35:10,410 --> 00:35:07,240

the intercontinental ballistic missiles

651

00:35:15,060 --> 00:35:10,420

Wow yeah retarget if you can imagine

652

00:35:17,160 --> 00:35:15,070

that retarget them so that they were so

653

00:35:20,700 --> 00:35:17,170

that they were sent to a different place

654

00:35:23,010 --> 00:35:20,710

and really really incredible stuff

655

00:35:28,020 --> 00:35:23,020

really incredibly frightening I might

656

00:35:31,710 --> 00:35:28,030

add oh my yeah that caused it caused

657

00:35:33,690 --> 00:35:31,720

severe consternation among the military

658

00:35:37,190 --> 00:35:33,700

elite let me tell you mm-hmm

659

00:35:40,559 --> 00:35:37,200

and they sat up and noticed I bet I

660

00:35:44,190 --> 00:35:40,569

certainly did when you said that I i sat

661

00:35:46,710 --> 00:35:44,200

up and noticed right here yeah so you

662

00:35:50,789 --> 00:35:46,720

found those sightings in Ohio compelling

663

00:35:54,000 --> 00:35:50,799

and how about in our more local region

664

00:35:57,390 --> 00:35:54,010

that spans between New York New Jersey

665

00:36:00,690 --> 00:35:57,400

and Albany area where you are located

666

00:36:03,420 --> 00:36:00,700

anything compelling in that region yeah

667

00:36:06,870 --> 00:36:03,430

there's one really into actually several

668

00:36:11,130 --> 00:36:06,880

very interesting they came from Buffalo

669

00:36:13,920 --> 00:36:11,140

area where people would see these

670

00:36:16,380 --> 00:36:13,930

fireballs in the sky and they it looked

671

00:36:19,230 --> 00:36:16,390

like that was as they were looking out

672

00:36:22,500 --> 00:36:19,240

over Lake Erie it almost looked like

673

00:36:25,049 --> 00:36:22,510

they were lowering themselves towards

674

00:36:30,780 --> 00:36:25,059

the water and then they entered the

675

00:36:36,500 --> 00:36:30,790

water oh yeah so and and there's several

676

00:36:41,880 --> 00:36:36,510

of those that that I had come across

677

00:36:45,900 --> 00:36:41,890

what was interesting there is because

678

00:36:50,910 --> 00:36:45,910

the Buffalo area had so many sightings

679

00:36:55,920 --> 00:36:50,920

of these fireballs I couldn't help but

680

00:36:58,710 --> 00:36:55,930

notice that these ones that were going

681

00:37:04,289 --> 00:36:58,720

in into the water and leaving the water

682

00:37:06,630 --> 00:37:04,299

by the way were possibly going to their

683

00:37:09,240 --> 00:37:06,640

home base I would not be at all

684

00:37:12,750 --> 00:37:09,250

surprised that there was a underwater

685

00:37:15,900 --> 00:37:12,760

base in one or more of the Great Lakes

686

00:37:18,120 --> 00:37:15,910

that's what we would call a USO right

687

00:37:19,650 --> 00:37:18,130

yeah right yeah so I was trying to think

688

00:37:21,750 --> 00:37:19,660

of the name of the fellow who wrote the

689

00:37:24,450 --> 00:37:21,760

book on that I can't I can't place it

690

00:37:26,760 --> 00:37:24,460

but yeah that's very common occurrence

691

00:37:29,700 --> 00:37:26,770

I'm sure people have asked you about

692

00:37:32,250 --> 00:37:29,710

these fireballs if they're you know like

693

00:37:36,089 --> 00:37:32,260

ball lightning or a electromagnetic

694

00:37:36,829 --> 00:37:36,099

phenomenon and do you have any response

695

00:37:41,359 --> 00:37:36,839

to that

696

00:37:44,970 --> 00:37:41,369

yeah as far as the ball lightning goes I

697

00:37:46,980 --> 00:37:44,980

think that they would not be ball

698

00:37:47,190 --> 00:37:46,990

lightning because they wouldn't go

699

00:37:50,670 --> 00:37:47,200

through

700

00:37:52,829 --> 00:37:50,680

the sky in a formation oh okay or change

701

00:37:54,540 --> 00:37:52,839

course yeah

702

00:37:59,550 --> 00:37:54,550

change course they'd probably either

703

00:38:01,500 --> 00:37:59,560

just fall or drift mm-hmm and the ones

704

00:38:07,349 --> 00:38:01,510

that I saw and ones that are noted

705

00:38:10,050 --> 00:38:07,359

throughout the various states in a

706

00:38:13,970 --> 00:38:10,060

national UFO Reporting Center they did

707

00:38:18,420 --> 00:38:13,980

none of those things now were they

708

00:38:21,599 --> 00:38:18,430

magnetic in origin they could very well

709

00:38:23,520 --> 00:38:21,609

have been severely magnetic and maybe

710

00:38:26,280 --> 00:38:23,530

that was part of their propulsion system

711

00:38:29,579 --> 00:38:26,290

hmm I wouldn't be surprised about that

712

00:38:32,250 --> 00:38:29,589

either do you have any reports that they

713

00:38:34,680 --> 00:38:32,260

were in low enough altitude actually

714

00:38:37,109 --> 00:38:34,690

near some of the less commercial

715

00:38:40,050 --> 00:38:37,119

airports but still important ones like

716

00:38:46,200 --> 00:38:40,060

around Buffalo and Albany and any pilot

717

00:38:50,599 --> 00:38:46,210

reports at all of these really what I

718

00:38:55,200 --> 00:38:50,609

did when I went through the the

719

00:38:57,000 --> 00:38:55,210

sightings I made notes for the ones that

720

00:39:00,530 --> 00:38:57,010

I thought were probably the most

721

00:39:03,000 --> 00:39:00,540

interesting the ones that were seen by

722

00:39:05,520 --> 00:39:03,010

professional people the ones that were

723

00:39:08,040 --> 00:39:05,530

seen by pilots the ones that were seen

724

00:39:10,980 --> 00:39:08,050

by military people hmm the ones that was

725

00:39:17,160 --> 00:39:10,990

seen by police oh and these are the ones

726

00:39:19,559 --> 00:39:17,170

that are mostly sewn with it my my book

727

00:39:20,730 --> 00:39:19,569

Volume one and volume two because these

728

00:39:26,490 --> 00:39:20,740

are the ones that are the most

729

00:39:31,680 --> 00:39:26,500

believable right well yeah it was all

730

00:39:35,160 --> 00:39:31,690

right thanks Bill Carl find Fei NDT was

731

00:39:38,550 --> 00:39:35,170

the name of the author of us OS great

732

00:39:40,010 --> 00:39:38,560

book if you're interested in it but I

733

00:39:42,450 --> 00:39:40,020

would the reason I asked you about the

734

00:39:44,760 --> 00:39:42,460

sort of the ball lightning electrical

735

00:39:46,380 --> 00:39:44,770

phenomena things with the pilot said

736

00:39:48,990 --> 00:39:46,390

they noticed any change in their

737

00:39:50,960 --> 00:39:49,000

instrumentation while these things were

738

00:39:56,520 --> 00:39:50,970

close by their craft

739

00:39:58,670 --> 00:39:56,530

I guess not none that they reported yeah

740

00:40:02,240 --> 00:39:58,680

yeah

741

00:40:06,740 --> 00:40:02,250

now it's possible that one or two of

742

00:40:08,950 --> 00:40:06,750

them had some something happen that they

743

00:40:12,290 --> 00:40:08,960

would rather not say out loud yeah

744

00:40:14,360 --> 00:40:12,300

because you know you know you have 150

745

00:40:17,240 --> 00:40:14,370

people in the sky you don't want to be

746

00:40:20,960 --> 00:40:17,250

yeah saying I lost all my

747

00:40:33,010 --> 00:40:20,970

instrumentation you know so I can sort

748

00:40:40,640 --> 00:40:36,560

accounts being similar to what happened

749

00:40:43,220 --> 00:40:40,650

in Iran with with the one pilot who

750

00:40:45,650 --> 00:40:43,230

approached the UFO and everything went

751
00:40:48,020 --> 00:40:45,660
dead on them right right in the Leslie

752
00:40:53,000 --> 00:40:48,030
Kane book yes yeah

753
00:40:55,340 --> 00:40:53,010
and I don't think that very many

754
00:40:58,790 --> 00:40:55,350
sightings like that are happening

755
00:41:03,380 --> 00:40:58,800
because I think that people realize I

756
00:41:08,840 --> 00:41:03,390
can't be approaching these things in the

757
00:41:11,810 --> 00:41:08,850
sky with my weapons loaded and things

758
00:41:14,660 --> 00:41:11,820
like that so they they pretty much stay

759
00:41:16,730 --> 00:41:14,670
to themselves as long as we don't

760
00:41:18,950 --> 00:41:16,740
approach them and force the issue right

761
00:41:21,980 --> 00:41:18,960
and I think that fellows name was Jafari

762
00:41:26,090 --> 00:41:21,990
am i right yes something like that if

763
00:41:27,920 --> 00:41:26,100

not I can't remember which but yes

764

00:41:28,870 --> 00:41:27,930

Jafari yeah couldn't recall his name

765

00:41:32,750 --> 00:41:28,880

thank you

766

00:41:36,200 --> 00:41:32,760

well so at this point you're you're

767

00:41:38,960 --> 00:41:36,210

compiling your third group of sightings

768

00:41:40,370 --> 00:41:38,970

what what if anything and I'm not saying

769

00:41:41,660 --> 00:41:40,380

that you had to do this but what if

770

00:41:45,080 --> 00:41:41,670

anything have you done about have you

771

00:41:49,520 --> 00:41:45,090

met some of the people who have reported

772

00:41:52,550 --> 00:41:49,530

these sightings even locally oh yes yes

773

00:41:55,610 --> 00:41:52,560

one in particular told me about a

774

00:41:58,760 --> 00:41:55,620

sighting that that she had I just

775

00:42:01,730 --> 00:41:58,770

thought it was just so fascinating the

776

00:42:04,700 --> 00:42:01,740

types of sightings are you know discs

777

00:42:07,430 --> 00:42:04,710

and and whatever else but this lady said

778

00:42:11,600 --> 00:42:07,440

that she saw something that reminded her

779

00:42:15,770 --> 00:42:11,610

of a great big shoebox

780

00:42:18,080 --> 00:42:15,780

haha rectangular huh how the heck does

781

00:42:20,000 --> 00:42:18,090

this thing fly you know a great big long

782

00:42:22,910 --> 00:42:20,010

rectangular thing it was about a mile

783

00:42:26,480 --> 00:42:22,920

and a half long and went directly over

784

00:42:30,020 --> 00:42:26,490

her car at a slightly to slightly above

785

00:42:33,080 --> 00:42:30,030

treetop level it was a mile and a half

786

00:42:35,750 --> 00:42:33,090

long yeah and she had a wonderful view

787

00:42:42,830 --> 00:42:35,760

of this whole thing and as the as this

788

00:42:46,520 --> 00:42:42,840

thing was was nearing its its its its

789

00:42:50,330 --> 00:42:46,530

its end as from her viewpoint on the

790

00:42:52,130 --> 00:42:50,340

backside of them there was there was

791

00:42:55,790 --> 00:42:52,140

another there was an angle that that

792

00:42:57,860 --> 00:42:55,800

popped out at at 90 degrees that went

793

00:43:01,160 --> 00:42:57,870

out maybe another couple hundred yards

794

00:43:08,300 --> 00:43:01,170

Wow so it was like elda shaped like an L

795

00:43:12,260 --> 00:43:08,310

Wow that's what I was going to say like

796

00:43:17,090 --> 00:43:12,270

uh and and and I'm sure she was a very

797

00:43:18,650 --> 00:43:17,100

credible witness and she was very more

798

00:43:20,960 --> 00:43:18,660

than willing to talk about it and

799

00:43:21,500 --> 00:43:20,970

describe it and ask you if you thought

800

00:43:29,990 --> 00:43:21,510

what

801
00:43:33,710 --> 00:43:30,000
the in the national UFO Reporting Center

802
00:43:35,690 --> 00:43:33,720
if you want to spend a couple of a

803
00:43:40,160 --> 00:43:35,700
couple of months of your life reading

804
00:43:43,220 --> 00:43:40,170
the reports you will come across some of

805
00:43:45,500 --> 00:43:43,230
those like that yeah

806
00:43:47,720 --> 00:43:45,510
yeah you do there was one I think up in

807
00:43:51,830 --> 00:43:47,730
Alaska quite a while ago the same thing

808
00:43:54,490 --> 00:43:51,840
like a large box shaped object and you

809
00:43:57,200 --> 00:43:54,500
wonder just really how that how that is

810
00:43:59,810 --> 00:43:57,210
aerodynamically working it's yes it's

811
00:44:01,850 --> 00:43:59,820
not yeah not not in our present level of

812
00:44:02,960 --> 00:44:01,860
understanding no it's it's it's so

813
00:44:05,810 --> 00:44:02,970

strange

814

00:44:08,630 --> 00:44:05,820

George filer had a theory about that he

815

00:44:11,510 --> 00:44:08,640

thought that maybe these were all sort

816

00:44:14,750 --> 00:44:11,520

of like dirigible dirigible am i

817

00:44:17,450 --> 00:44:14,760

pronouncing that right yeah and that the

818

00:44:21,170 --> 00:44:17,460

military was sort of experimenting with

819

00:44:22,640 --> 00:44:21,180

various types of them and possibly

820

00:44:25,190 --> 00:44:22,650

that's it because I can't think of

821

00:44:28,490 --> 00:44:25,200

anything else or there

822

00:44:30,680 --> 00:44:28,500

from another world another dimension of

823

00:44:33,110 --> 00:44:30,690

space and time there's no other planets

824

00:44:35,930 --> 00:44:33,120

you know that oh boy I never believed

825

00:44:39,230 --> 00:44:35,940

that I I always got in trouble as a

826
00:44:42,470 --> 00:44:39,240
Grammar School student because I had a

827
00:44:44,090 --> 00:44:42,480
science fiction mind he was Apple Tom

828
00:44:47,240 --> 00:44:44,100
you were lucky you had your aunt Wilma

829
00:44:50,090 --> 00:44:47,250
the rest of us the rest of us just got

830
00:44:54,260 --> 00:44:50,100
sent to our room and stop talking

831
00:44:57,800 --> 00:44:54,270
nonsense you know me well my father also

832
00:45:00,140 --> 00:44:57,810
believed believed in UFOs I mean he

833
00:45:03,110 --> 00:45:00,150
believed in the existence of UFOs he

834
00:45:06,620 --> 00:45:03,120
believed that they did exist and he

835
00:45:10,000 --> 00:45:06,630
actually built a sculpture which was an

836
00:45:13,060 --> 00:45:10,010
instrument to contact alien

837
00:45:17,840 --> 00:45:13,070
intelligences and he felt that if he

838
00:45:22,010 --> 00:45:17,850

vibrated a copper basic shapes this

839

00:45:25,220 --> 00:45:22,020

sculpture is a is a wooden board and on

840

00:45:28,550 --> 00:45:25,230

it is mounted a copper wires and then

841

00:45:34,690 --> 00:45:28,560

flat copper basic what is it called

842

00:45:39,860 --> 00:45:34,700

platonic shapes square circle triangle

843

00:45:42,590 --> 00:45:39,870

maybe six sided figure I forget what the

844

00:45:47,060 --> 00:45:42,600

other one was and he would hit them with

845

00:45:50,600 --> 00:45:47,070

a mallet alternative alternately and he

846

00:45:54,320 --> 00:45:50,610

felt that that might be a kind of basic

847

00:45:57,170 --> 00:45:54,330

language vibrating those shapes out to

848

00:45:59,660 --> 00:45:57,180

the the UFOs it sounds a little bit

849

00:46:03,500 --> 00:45:59,670

nutty on one hand but he was trying and

850

00:46:05,930 --> 00:46:03,510

he was sincere and interested and so was

851

00:46:08,650 --> 00:46:05,940

he successful that's well he thinks he

852

00:46:11,510 --> 00:46:08,660

was I don't really ya know he was he was

853

00:46:13,490 --> 00:46:11,520

really eager in that regard well look at

854

00:46:16,820 --> 00:46:13,500

Tesla Tesla was convinced that we were

855

00:46:18,740 --> 00:46:16,830

getting messages from a maybe or he

856

00:46:20,120 --> 00:46:18,750

thought Mars but you know definitely not

857

00:46:22,370 --> 00:46:20,130

from this planet oh we're getting

858

00:46:25,310 --> 00:46:22,380

messages all right I'm getting some too

859

00:46:29,570 --> 00:46:25,320

okay so anyway I would get we get far

860

00:46:32,000 --> 00:46:29,580

afield sorry tom sorry Tom yes so where

861

00:46:36,620 --> 00:46:32,010

where are we going with this next I mean

862

00:46:38,560 --> 00:46:36,630

what is is your your next step here okay

863

00:46:43,470 --> 00:46:38,570

I tell you what I noticed in

864

00:46:48,550 --> 00:46:43,480

to that I never expected yeah I I

865

00:46:55,740 --> 00:46:48,560

changed what I did in vol 1 so that I

866

00:46:59,620 --> 00:46:55,750

would include the questions that were

867

00:47:00,490 --> 00:46:59,630

posed to me during abduction interviews

868

00:47:08,410 --> 00:47:00,500

ah

869

00:47:11,800 --> 00:47:08,420

and what these questions were were were

870

00:47:17,170 --> 00:47:11,810

was I given the message and what what

871

00:47:21,340 --> 00:47:17,180

did this message consists of and so I I

872

00:47:24,100 --> 00:47:21,350

seem to have come to find out that the

873

00:47:27,420 --> 00:47:24,110

message messages that that people were

874

00:47:31,390 --> 00:47:27,430

getting were directly related to the

875

00:47:35,230 --> 00:47:31,400

condition of our planet in other words

876

00:47:41,200 --> 00:47:35,240

are we polluting that kind of condition

877

00:47:41,980 --> 00:47:41,210

so I went from that premise and expanded

878

00:47:46,590 --> 00:47:41,990

it way out

879

00:47:55,450 --> 00:47:46,600

so for each particular state I looked at

880

00:47:57,580 --> 00:47:55,460

well is there is there some dumping

881

00:48:02,080 --> 00:47:57,590

that's going on in that particular state

882

00:48:08,410 --> 00:48:02,090

that shouldn't be oh yeah well what is

883

00:48:12,640 --> 00:48:08,420

the air like in this state are they

884

00:48:18,580 --> 00:48:12,650

cutting corners what about oil spills

885

00:48:24,040 --> 00:48:18,590

mm-hmm millions of gallons of dumping

886

00:48:27,490 --> 00:48:24,050

from fracking oh boy yeah and then also

887

00:48:31,690 --> 00:48:27,500

added to the to our atmosphere is fossil

888

00:48:35,560 --> 00:48:31,700

fuels well of course we're burning

889

00:48:39,000 --> 00:48:35,570

gasoline but the majority of the plants

890

00:48:43,390 --> 00:48:39,010

in the central us are coal burning

891

00:48:48,130 --> 00:48:43,400

mm-hmm and even though coal can be made

892

00:48:52,480 --> 00:48:48,140

to be cleaner most most companies don't

893

00:48:54,609 --> 00:48:52,490

really take that extra step because it's

894

00:48:59,109 --> 00:48:54,619

very very expensive so they just dumped

895

00:49:00,730 --> 00:48:59,119

into the air then what about Air Force

896

00:49:03,370 --> 00:49:00,740

bases because there's a whole lot of

897

00:49:06,880 --> 00:49:03,380

sightings around Air Force bases so I

898

00:49:09,280 --> 00:49:06,890

made notes within the book of every

899

00:49:12,480 --> 00:49:09,290

state that if there were Air Force bases

900

00:49:17,950 --> 00:49:12,490

I want to make note of that sure and

901
00:49:21,359 --> 00:49:17,960
then I also noticed that the Native

902
00:49:26,170 --> 00:49:21,369
Americans had something to do with

903
00:49:27,609 --> 00:49:26,180
contacting what they thought were their

904
00:49:31,570 --> 00:49:27,619
gods from the skies

905
00:49:34,660 --> 00:49:31,580
stops no yes yeah so I looked into every

906
00:49:42,070 --> 00:49:34,670
single state what Indians settled there

907
00:49:48,100 --> 00:49:42,080
and if they had any any stories of

908
00:49:51,850 --> 00:49:48,110
ancient gods well I came across one up

909
00:50:02,250 --> 00:49:51,860
in the Upper Lake Michigan area

910
00:50:07,390 --> 00:50:02,260
a it was called the seven fires prophecy

911
00:50:12,400 --> 00:50:07,400
look that one up because the seven fires

912
00:50:15,599 --> 00:50:12,410
prophecy has all come true and the

913
00:50:21,640 --> 00:50:15,609

seventh fire which we are in right now

914

00:50:25,810 --> 00:50:21,650

the seventh fire may relate to the fact

915

00:50:28,750 --> 00:50:25,820

that we are polluting our planet badly

916

00:50:31,270 --> 00:50:28,760

and that the planet is due for a reset

917

00:50:34,510 --> 00:50:31,280

yeah I think I think we're in the midst

918

00:50:38,490 --> 00:50:34,520

of the fifth great extinction on this

919

00:50:41,710 --> 00:50:38,500

planet and we're losing a lot of species

920

00:50:44,470 --> 00:50:41,720

etc when it's really not necessary when

921

00:50:48,310 --> 00:50:44,480

we could have a wind power and solar

922

00:50:51,430 --> 00:50:48,320

power powering a lot of our things we

923

00:50:55,480 --> 00:50:51,440

had at on our episode number 40

924

00:50:59,530 --> 00:50:55,490

dr. rd6 killer Clarke who reported on a

925

00:51:03,730 --> 00:50:59,540

lot of the Native American stories about

926
00:51:05,770 --> 00:51:03,740
star people and both today on the

927
00:51:06,099 --> 00:51:05,780
reservation and off the reservation so

928
00:51:08,589 --> 00:51:06,109
that's

929
00:51:11,229 --> 00:51:08,599
another connection for you regarding

930
00:51:16,109 --> 00:51:11,239
that but yeah I thought I think that a

931
00:51:18,430 --> 00:51:16,119
lot of the a lot of the contactees

932
00:51:22,450 --> 00:51:18,440
particularly and the abductees to a

933
00:51:26,680 --> 00:51:22,460
lesser extent get the ecological message

934
00:51:28,420 --> 00:51:26,690
from the beings from from from wherever

935
00:51:30,670 --> 00:51:28,430
they're from I want to say from space

936
00:51:32,950 --> 00:51:30,680
but we don't really know if they're from

937
00:51:36,759 --> 00:51:32,960
space or elsewhere or whether they're

938
00:51:38,859 --> 00:51:36,769

from a different a different dimensional

939

00:51:41,529 --> 00:51:38,869

plane and may live here on the earth

940

00:51:44,380 --> 00:51:41,539

with us and that would make a lot of

941

00:51:51,420 --> 00:51:44,390

sense if they're concerned about the

942

00:51:55,359 --> 00:51:51,430

ecology of the earth sure what sure I

943

00:51:57,700 --> 00:51:55,369

had my eyes open when I did the research

944

00:51:59,710 --> 00:51:57,710

for this book let me tell you because I

945

00:52:04,089 --> 00:51:59,720

never expected to find the things that I

946

00:52:08,049 --> 00:52:04,099

found with the ancient gods and the

947

00:52:10,960 --> 00:52:08,059

stories of the Indians that were exactly

948

00:52:15,460 --> 00:52:10,970

coincidental with the ancient Sumerians

949

00:52:21,009 --> 00:52:15,470

and the Egyptians and the the Dogon

950

00:52:24,339 --> 00:52:21,019

tribe and tribes in Australia and South

951
00:52:26,620 --> 00:52:24,349
America all happening right around the

952
00:52:29,680 --> 00:52:26,630
same time which was after the Second

953
00:52:34,239 --> 00:52:29,690
Great Flood hmm that's that's a very

954
00:52:35,710 --> 00:52:34,249
that's a really good that's good that

955
00:52:36,779 --> 00:52:35,720
you put those two together that's

956
00:52:41,229 --> 00:52:36,789
excellent

957
00:52:45,940 --> 00:52:41,239
yeah it shocked me it really did yeah he

958
00:52:47,680 --> 00:52:45,950
shocked me and if you know dr. Rita

959
00:52:49,299 --> 00:52:47,690
Louise I don't know if you know yes I I

960
00:52:51,999 --> 00:52:49,309
don't know her personally but I

961
00:52:54,339 --> 00:52:52,009
certainly know of her yes we have talked

962
00:52:57,940 --> 00:52:54,349
at great length about lots of different

963
00:53:00,549 --> 00:52:57,950

things and she helped me to draw some of

964

00:53:06,190 --> 00:53:00,559

the parallels that I was able to do at

965

00:53:09,339 --> 00:53:06,200

the end of volume 2 okay and it's really

966

00:53:11,430 --> 00:53:09,349

eye-opening I can't even believe that I

967

00:53:14,229 --> 00:53:11,440

found this information on my own and

968

00:53:15,759 --> 00:53:14,239

started asking questions about it and I

969

00:53:17,350 --> 00:53:15,769

can't believe that she helped me as much

970

00:53:20,260 --> 00:53:17,360

as she did it was wonderful

971

00:53:23,500 --> 00:53:20,270

it was just wonderful well one thing

972

00:53:26,170 --> 00:53:23,510

that I found out recently which blew my

973

00:53:30,310 --> 00:53:26,180

socks off a little bit was that a

974

00:53:31,870 --> 00:53:30,320

researcher about this with his second

975

00:53:37,920 --> 00:53:31,880

great flood that you was speaking of

976
00:53:43,240 --> 00:53:37,930
that ended the last ice age and about

977
00:53:47,410 --> 00:53:43,250
9,000 70 or so BC is the closest they

978
00:53:50,320 --> 00:53:47,420
can come to it that the ice of the last

979
00:53:54,070 --> 00:53:50,330
great Ice Age ended in about two weeks

980
00:53:57,400 --> 00:53:54,080
time that the the climate of the planet

981
00:53:59,730 --> 00:53:57,410
totally changed in two weeks time so

982
00:54:03,790 --> 00:53:59,740
that that would be a real wake-up call

983
00:54:07,510 --> 00:54:03,800
to us here on earth if something like

984
00:54:09,520 --> 00:54:07,520
that were to happen again had nothing to

985
00:54:10,900 --> 00:54:09,530
do with pollution obviously no no that

986
00:54:14,230 --> 00:54:10,910
time it didn't have nothing to do with

987
00:54:18,400 --> 00:54:14,240
pollution but nonetheless it did and it

988
00:54:22,420 --> 00:54:18,410

ended it is summarize over a coronal mass

989

00:54:25,810 --> 00:54:22,430

ejection of great proportion like we

990

00:54:28,630 --> 00:54:25,820

have never seen in ten thousand years

991

00:54:33,340 --> 00:54:28,640

ten ten thousand years now that we are

992

00:54:37,540 --> 00:54:33,350

in a time now of relative solar quiet

993

00:54:40,960 --> 00:54:37,550

which can proceeds big outbursts from

994

00:54:42,430 --> 00:54:40,970

the Sun which could knock out all our

995

00:54:43,900 --> 00:54:42,440

internet and all that stuff and then

996

00:54:47,260 --> 00:54:43,910

there'd be no more shattered reality

997

00:54:50,050 --> 00:54:47,270

podcast for a while from ever we could

998

00:54:52,330 --> 00:54:50,060

always write it by hand and mail it no

999

00:54:55,870 --> 00:54:52,340

no not even mail it no no

1000

00:54:58,180 --> 00:54:55,880

so um but but we keep forgetting to ask

1001
00:55:01,090 --> 00:54:58,190
Tom the name of his book yeah we want to

1002
00:55:03,490 --> 00:55:01,100

what does C PA that's your a group the

1028
00:56:56,210 --> 00:56:53,230
phenomenal expert the expert group yeah

1029
00:57:00,930 --> 00:56:56,220
you want to say research group that you

1030
00:57:06,030 --> 00:57:00,940
know the NYC ap the New York capital

1031
00:57:12,690 --> 00:57:06,040
that's a Oh a Time Warner address oh

1032
00:57:14,790 --> 00:57:12,700
okay okay sorry so um so you obviously

1033
00:57:18,900 --> 00:57:14,800
put a lot of time and effort and

1034
00:57:20,790 --> 00:57:18,910
research into these books yeah when I

1035
00:57:23,220 --> 00:57:20,800
wrote my first book I didn't expect to

1036
00:57:26,010 --> 00:57:23,230
write a book I was just looking to get

1037
00:57:28,140 --> 00:57:26,020
some information so that I could go out

1038
00:57:30,090 --> 00:57:28,150

and do talks

1039

00:57:33,720 --> 00:57:30,100

mm-hm I just I enjoy that the most

1040

00:57:36,600 --> 00:57:33,730

mm-hmm and I got so much information

1041

00:57:39,660 --> 00:57:36,610

together and found out such cool stuff

1042

00:57:42,480 --> 00:57:39,670

that I had to put it in a book for him

1043

00:57:43,500 --> 00:57:42,490

okay so I did I didn't think it through

1044

00:57:46,320 --> 00:57:43,510

his throat

1045

00:57:49,200 --> 00:57:46,330

probably sort of because once I did vol

1046

00:57:53,370 --> 00:57:49,210

2 that's when I got all that other

1047

00:57:56,430 --> 00:57:53,380

information in there about pollution and

1048

00:57:59,250 --> 00:57:56,440

about Native Americans and I did the map

1049

00:58:01,620 --> 00:57:59,260

I'm in the process now doing the map for

1050

00:58:05,210 --> 00:58:01,630

volume 1 and putting that on my webpage

1051
00:58:09,930 --> 00:58:05,220
which I will give to anyone who

1052
00:58:11,730 --> 00:58:09,940
purchases my book yeah so at least you

1053
00:58:16,350 --> 00:58:11,740
could be an aunt rumor to some young

1054
00:58:19,320 --> 00:58:16,360
feller girl coming up in the field I can

1055
00:58:21,060 --> 00:58:19,330
only hope yeah that would be great so we

1056
00:58:25,470 --> 00:58:21,070
want to thank you so much for being with

1057
00:58:28,920 --> 00:58:25,480
us today Tom and your work sounds just

1058
00:58:32,010 --> 00:58:28,930
very interesting and very intense and we

1059
00:58:34,470 --> 00:58:32,020
hope you keep up the the struggle here

1060
00:58:36,990 --> 00:58:34,480
to get it all categorized and so forth

1061
00:58:40,770 --> 00:58:37,000
and we look forward to speaking to you

1062
00:58:43,590 --> 00:58:40,780
again yeah thank you very much I would

1063
00:58:46,710 --> 00:58:43,600

love to be on your show again also I'd

1064

00:58:51,090 --> 00:58:46,720

like for you to consider talking to

1065

00:58:54,180 --> 00:58:51,100

Cheryl hosta Cheryl is doing a similar

1066

00:58:57,810 --> 00:58:54,190

kind of research that I'm doing and we

1067

00:59:00,030 --> 00:58:57,820

actually found each other because we of

1068

00:59:02,340 --> 00:59:00,040

something that she published that I had

1069

00:59:03,840 --> 00:59:02,350

seen hey I'm doing that too you know we

1070

00:59:05,490 --> 00:59:03,850

struck up a friendship and you're both

1071

00:59:11,370 --> 00:59:05,500

in New York State so what could be

1072

00:59:14,610 --> 00:59:11,380

better yes she is she is I I am friends

1073

00:59:17,970 --> 00:59:14,620

with her on Facebook and I have sent you

1074

00:59:20,160 --> 00:59:17,980

a friend request as well and and as long

1075

00:59:23,700 --> 00:59:20,170

as we're talking about Facebook I would

1076

00:59:27,210 --> 00:59:23,710

like all our listeners to get on

1077

00:59:31,020 --> 00:59:27,220

facebook and like shattered reality

1078

00:59:33,180 --> 00:59:31,030

podcast just put those words in we're

1079

00:59:38,730 --> 00:59:33,190

the only ones on Facebook that are

1080

00:59:41,180 --> 00:59:38,740

shattered reality podcast okay so we're

1081

00:59:45,870 --> 00:59:41,190

going to wish you a fond farewell

1082

00:59:48,210 --> 00:59:45,880

temporary but necessary and take care

1083

00:59:50,160 --> 00:59:48,220

now Tom yeah thanks again Tom thank you

1084

00:59:55,160 --> 00:59:50,170

okay thank thank you for everything

1085

01:00:02,480 --> 00:59:59,540

so here we are mm-hmm shattered reality

1086

01:00:04,790 --> 01:00:02,490

once again yeah I just hoped for Tom and

1087

01:00:08,180 --> 01:00:04,800

for both of us that one day we do find

1088

01:00:10,610 --> 01:00:08,190

out who they are I certainly would come

1089

01:00:13,220 --> 01:00:10,620

on you know really it's getting annoying

1090

01:00:15,770 --> 01:00:13,230

no I mean so like you know you're flying

1091

01:00:18,710 --> 01:00:15,780

around forever so pop up let us know say

1092

01:00:20,450 --> 01:00:18,720

hi you know something Kate and I have to

1093

01:00:22,760 --> 01:00:20,460

tell you something you need to be

1094

01:00:25,310 --> 01:00:22,770

careful of what you wish for since we

1095

01:00:27,170 --> 01:00:25,320

had an EVP last time your watch Street

1096

01:00:29,060 --> 01:00:27,180

oh and you know you're gonna be driving

1097

01:00:31,580 --> 01:00:29,070

in a car and you're gonna do look to

1098

01:00:33,070 --> 01:00:31,590

your right and there's guys gonna be

1099

01:00:34,610 --> 01:00:33,080

sitting right next to you and the

1100

01:00:37,520 --> 01:00:34,620

nightmare actually

1101

01:00:38,990 --> 01:00:37,530

oh yeah in the backseat though in the

1102

01:00:41,150 --> 01:00:39,000

backseat and I see it in the rearview

1103

01:00:50,660 --> 01:00:41,160

mirror it's just a nice person sitting

1104

01:00:52,310 --> 01:00:50,670

there yes no monster but that's okay

1105

01:00:54,650 --> 01:00:52,320

but you're right I do drive through some

1106

01:00:56,810 --> 01:00:54,660

pretty dark areas on the way home so we

1107

01:01:00,890 --> 01:00:56,820

you have to be careful for what you wish

1108

01:01:03,410 --> 01:01:00,900

for we all want to see a UFO we don't

1109

01:01:05,360 --> 01:01:03,420

necessarily all want to get inside one

1110

01:01:07,970 --> 01:01:05,370

no not unless we're with a group of

1111

01:01:12,200 --> 01:01:07,980

friends well even then they separate you

1112

01:01:17,140 --> 01:01:12,210

when you come on anyway what we would

1113

01:01:21,920 --> 01:01:17,150

like to announce is that on May 20th

1114

01:01:28,070 --> 01:01:21,930

2017 we hope to see you and do the drum

1115

01:01:32,750 --> 01:01:28,080

roll okay we hope to see you at the Pine

1116

01:01:34,850 --> 01:01:32,760

Bush UFO phenomena festival first of all

1117

01:01:36,410 --> 01:01:34,860

what's a phenomenon it is a phenomena

1118

01:01:38,600 --> 01:01:36,420

and it's if you haven't been there go

1119

01:01:40,910 --> 01:01:38,610

it's just a lot of fun yeah oh he is and

1120

01:01:42,590 --> 01:01:40,920

you know good luck parking but it did

1121

01:01:44,360 --> 01:01:42,600

set many people there and it's just

1122

01:01:46,820 --> 01:01:44,370

really interesting and fun and they have

1123

01:01:51,560 --> 01:01:46,830

good food they have nice food there's

1124

01:01:53,870 --> 01:01:51,570

also the Flying Saucer diner up yeah and

1125

01:01:55,820 --> 01:01:53,880

then they have the UFO patrol car that

1126

01:01:57,890 --> 01:01:55,830

was good that was all excellent and

1127

01:02:01,100 --> 01:01:57,900

people dressed in costume so basically

1128

01:02:04,880 --> 01:02:01,110

what the breakdown is is the daytime at

1129

01:02:08,750 --> 01:02:04,890

the festival is generally family fun and

1130

01:02:11,750 --> 01:02:08,760

there are some speakers that

1131

01:02:14,570 --> 01:02:11,760

speak short gives short presentations

1132

01:02:17,110 --> 01:02:14,580

and then at night there are the very

1133

01:02:19,670 --> 01:02:17,120

serious researchers at the high school

1134

01:02:21,860 --> 01:02:19,680

and we're going to be there and we're

1135

01:02:25,490 --> 01:02:21,870

going to be talking to people asking

1136

01:02:28,730 --> 01:02:25,500

questions maybe giving a little talk

1137

01:02:32,480 --> 01:02:28,740

ourselves and recording the responses of

1138

01:02:36,140 --> 01:02:32,490

our listeners so come on up there

1139

01:02:38,180 --> 01:02:36,150

talk to us May 20th Pine Bush New York

1140

01:02:41,600 --> 01:02:38,190

if you're anywhere in the area

1141

01:02:44,180 --> 01:02:41,610

whatsoever it is a fun day out and

1142

01:02:46,970 --> 01:02:44,190

especially if you're interested in the

1143

01:02:49,850 --> 01:02:46,980

UFO phenomena in addition there are some

1144

01:02:52,880 --> 01:02:49,860

people who are general paranormalists I

1145

01:02:55,880 --> 01:02:52,890

would say into EVPs and stuff like that

1146

01:02:58,400 --> 01:02:55,890

yeah anti-bush what is or was at least a

1147

01:03:00,050 --> 01:02:58,410

real hot spot for UFOs at one time yes

1148

01:03:02,480 --> 01:03:00,060

it was it was like all the triangles

1149

01:03:04,820 --> 01:03:02,490

seemed to be coming from there yeah yeah

1150

01:03:08,600 --> 01:03:04,830

during the triangle sightings the Hudson

1151

01:03:11,210 --> 01:03:08,610

Valley triangle sightings yeah laughs

1152

01:03:15,260 --> 01:03:11,220

yeah and we're kind of waiting for a new

1153

01:03:17,600 --> 01:03:15,270

flap to begin yeah come on okay all

1154

01:03:20,050 --> 01:03:17,610

right okay well I guess that concludes

1155

01:03:30,600 --> 01:03:20,060

yet another wonderful session of
