

1

00:00:00,000 --> 00:00:03,200

The following program deals with a controversial subject.

2

00:00:03,200 --> 00:00:06,500

The theories expressed are not the only possible interpretation.

3

00:00:06,500 --> 00:00:10,500

The viewer is invited to make a judgment based on all available information.

4

00:00:10,500 --> 00:00:17,500

Tonight on CITINGS, has this team of investigators captured proof of UFOs on videotape?

5

00:00:17,500 --> 00:00:22,500

I'm a pure skeptic and seeing what I just saw. I can't be skeptical.

6

00:00:22,500 --> 00:00:26,500

Do the latest cases of abduction reveal frightening alien motives?

7

00:00:27,000 --> 00:00:33,000

Women begin to experience the gynecological examinations done by the aliens on them.

8

00:00:33,000 --> 00:00:38,000

And could our own astronauts face deadly close encounters with alien forces?

9

00:00:38,000 --> 00:00:43,000

Something is out there and what it is I don't know.

10

00:00:45,000 --> 00:00:48,000

At that point we started to appear.

11

00:00:48,000 --> 00:00:51,000

They had large, dark eyes, small, like hands.

12

00:00:53,000 --> 00:00:56,000

I began sensing and knowing and feeling.

13

00:00:57,000 --> 00:01:00,000

I do believe in life after death. I mean, I've been there.

14

00:01:00,000 --> 00:01:04,000

We have not scratched the surface of what the mind can do.

15

00:01:06,000 --> 00:01:08,000

It's a connection with the unknown.

16

00:01:15,000 --> 00:01:22,000

Hello, I'm Tim White. Tonight on CITINGS, people who claim to have had personal contact with aliens.

17

00:01:22,000 --> 00:01:28,500

They tell bizarre stories of abduction and they suggest their captors have sinister motives.

18

00:01:28,500 --> 00:01:35,500

Most UFO encounters are easily debunked by experts, but there are still many CITINGS that cannot be explained,

19

00:01:35,500 --> 00:01:38,500

even by the most skeptical researchers.

20

00:01:38,500 --> 00:01:42,500

UFOs, they've been cited in every corner of the earth.

21

00:01:42,500 --> 00:01:47,500

Witnesses have captured strange lights and disc-shaped objects on film and video,

22

00:01:47,500 --> 00:01:52,500

but even before the age of technology, people worldwide were reporting UFOs.

23

00:01:52,500 --> 00:01:58,500

The UFO subject goes back at least 6,000 to 8,000 years in human history.

24

00:01:58,500 --> 00:02:05,500

People have many times pointed to the Christian Bible and the old first five books of the Jewish Torah

25

00:02:05,500 --> 00:02:10,000

as being examples throughout history of UFO context.

26

00:02:10,000 --> 00:02:17,500

But what we're seeing today is considered by many to be examples of superior technology from somewhere else,

27

00:02:17,500 --> 00:02:19,500

probably another planet.

28

00:02:20,500 --> 00:02:24,500

Some places have become legendary as UFO hotspots.

29

00:02:24,500 --> 00:02:26,500

Gulf Breeze, Florida.

30

00:02:26,500 --> 00:02:28,000

Roswell, New Mexico.

31

00:02:28,000 --> 00:02:32,000

CITINGS enleads out-of-the-way locations number in the thousands.

32

00:02:32,000 --> 00:02:33,500

The next hotspot?

33

00:02:33,500 --> 00:02:36,500

According to world-renowned UFO researcher Peter Guttella,

34

00:02:36,500 --> 00:02:42,000

this town, Anzac, California, has all the earmarks of an extraterrestrial mecca.

35

00:02:44,000 --> 00:02:49,000

We have animal mutilations, we have abductions, we have close encounters of all degrees.

36

00:02:49,000 --> 00:02:53,000

We've had the appearance of mysterious animals,

37

00:02:53,000 --> 00:02:58,000

and we've even had some of the so-called men-in-black experiences there.

38

00:02:58,500 --> 00:03:06,500

At a local coffee shop, people were willing to share bizarre stories of their UFO encounters.

39

00:03:06,500 --> 00:03:09,500

Kind of. I mean, that's the feeling they get like, yeah.

40

00:03:09,500 --> 00:03:14,500

They reveal that they believe that the men-in-black are actually extraterrestrials,

41

00:03:14,500 --> 00:03:16,500

sighted in deserted areas near the town.

42

00:03:16,500 --> 00:03:19,500

Each story is stranger than the last.

43

00:03:20,000 --> 00:03:29,000

I happened to look through the trees, and I saw this vehicle standing about just still,

44

00:03:29,000 --> 00:03:32,000

just about 60 feet off of the ground.

45

00:03:32,000 --> 00:03:34,000

It's like a flying saucer.

46

00:03:34,000 --> 00:03:38,000

It had a dome on the top and a platform around,

47

00:03:38,000 --> 00:03:44,000

and a couple of persons walked around walking on air.

48

00:03:44,000 --> 00:03:48,000

I was delighted to be able to see such a thing.

49

00:03:50,000 --> 00:03:55,000

And then all of a sudden, it was gone.

50

00:03:55,000 --> 00:04:02,000

ANZA is a UFO researcher's dream, a living laboratory filled with eyewitnesses.

51

00:04:02,000 --> 00:04:05,000

They moved, I first saw them over here, they moved across.

52

00:04:05,000 --> 00:04:10,000

This thing was so bright, there was absolutely no shadows whatsoever on the ground.

53

00:04:10,000 --> 00:04:14,000

It was like a gold trail, it left a gold trail.

54

00:04:14,000 --> 00:04:20,000

Gautela believes an around-the-clock surveillance here could net scientific proof of UFO activity,

55

00:04:20,000 --> 00:04:28,000

activity reported today and possibly in the ancient past when Indians here drew astronaut-like figures.

56

00:04:29,000 --> 00:04:32,500

Because of so much activity, the time was right.

57

00:04:32,500 --> 00:04:36,500

A team of UFO experts and skeptics move into the area.

58

00:04:36,500 --> 00:04:40,000

This will be one of the largest UFO stakeouts ever.

59

00:04:40,000 --> 00:04:42,500

They set up a command post on Thomas Mountain.

60

00:04:42,500 --> 00:04:46,000

No one that I know of has gone out there to do what we did.

61

00:04:46,000 --> 00:04:47,000

We had the radar.

62

00:04:47,000 --> 00:04:51,000

This radar can detect objects within a 24-mile radius.

63

00:04:51,000 --> 00:04:52,500

This was pretty elaborate.

64

00:04:52,500 --> 00:04:56,000

The equipment was very expensive and very good and very accurate.

65

00:04:56,000 --> 00:05:01,500

The starlight camera is so sensitive, it can photograph objects in total darkness.

66

00:05:01,500 --> 00:05:06,000

Once online, it sees anything that gives off even the slightest light.

67

00:05:06,000 --> 00:05:10,500

It easily picks up stars that are not visible with a regular video camera.

68

00:05:10,500 --> 00:05:16,500

This camera is unique because it has an intensifier, which is more than a thousand times more sensitive

69

00:05:16,500 --> 00:05:18,500

than the video camera you have in your home.

70

00:05:20,500 --> 00:05:26,500

Surveying the area, the researchers are looking for a UFO the locals have nicknamed Goldy,

71

00:05:26,500 --> 00:05:31,000

a golden glowing craft seen over and over in the night sky from this mountaintop.

72

00:05:31,000 --> 00:05:33,000

Starlight, we're looking at Mount Kupuya.

73

00:05:33,000 --> 00:05:39,500

This is where Goldy or the UFO which has been seen about 50 times in the past three or four years,

74

00:05:39,500 --> 00:05:42,500

usually appears, it appears in this area.

75

00:05:42,500 --> 00:05:46,500

It has been seen actually all across Mount Kupuya.

76

00:05:46,500 --> 00:05:48,000

This is Mount Kupuya here.

77

00:05:48,000 --> 00:05:51,500

The team gathers data and keeps meticulous notes.

78

00:05:51,500 --> 00:05:57,000

They continually monitor the sky, then unexpectedly they're visited by witnesses.

79

00:05:57,000 --> 00:06:00,500

Debbie Steinberg didn't want to talk about her experience in town.

80

00:06:00,500 --> 00:06:04,500

She hiked to the stakeout area for a private meeting with researchers.

81

00:06:04,500 --> 00:06:11,500

This was about 10.30 at night that it started and I closed my eyes and when I opened them again,

82

00:06:11,500 --> 00:06:21,500

I found myself in a room and I was laying on a table and I had six beings and I couldn't tell you what they were doing

83

00:06:21,500 --> 00:06:23,500

because I really don't know.

84

00:06:23,500 --> 00:06:32,500

But I remember the one that was on the left of my head took something from my head.

85

00:06:33,500 --> 00:06:41,500

Researchers at the stakeout say that Debbie's story fits the classic pattern of what is known as a UFO abduction experience.

86

00:06:41,500 --> 00:06:48,500

I believe that the abduction phenomenon is real, that it is extraterrestrial,

87

00:06:48,500 --> 00:06:53,500

that people are basically describing events that are happening to them with an objective reality.

88

00:06:53,500 --> 00:06:58,500

Dr. Jacobs has investigated UFO abductions in his best-seller Secret Life.

89

00:06:58,500 --> 00:07:04,500

Usually the abduction phenomenon begins in childhood and it goes all the way through old age

90

00:07:04,500 --> 00:07:08,500

and so they've had a series of experiences throughout their life.

91

00:07:08,500 --> 00:07:16,500

This is a rendition of the craft I saw when I was four and my brother was three and where I was zapped with light.

92

00:07:16,500 --> 00:07:21,500

This is a drawing of what I call the Silhouettes. I'm very afraid of this rod this one carries.

93

00:07:21,500 --> 00:07:28,500

The eye is long and thin and very black.

94

00:07:28,500 --> 00:07:34,500

There was some eye contact but it was like you and I are making eye contact right now.

95

00:07:34,500 --> 00:07:38,500

It's not that we're looking into each other's eyes but we're more like reading each other's minds.

96

00:07:38,500 --> 00:07:40,500

That's more like what it was.

97

00:07:42,500 --> 00:07:47,500

I'm a hypnotherapist. I am now specializing in UFO abduction cases.

98

00:07:47,500 --> 00:07:54,500

Yvonne Smith heads an abduction support group where people can share their experiences and discuss their feelings.

99

00:07:54,500 --> 00:08:00,500

I was six years old and I lived in Georgia, near Macon, Georgia.

100

00:08:00,500 --> 00:08:10,500

I just remember it was in the middle of the night and I woke up and I was staring at the side of the head of the being.

101

00:08:10,500 --> 00:08:16,500

I started to panic and a couple of the beings in the craft subdued me somehow.

102

00:08:16,500 --> 00:08:24,500

They had a very large instrument that came over my head and they showed me a little baby looking

thing.

103

00:08:24,500 --> 00:08:28,500

They told me they were going to put it up my nose.

104

00:08:28,500 --> 00:08:35,500

But then this instrument came over my head and punctured the soft palate of my mouth and it hurt very bad.

105

00:08:36,500 --> 00:08:40,500

And the next thing I knew I was being placed back in my bedroom.

106

00:08:41,500 --> 00:08:46,500

I'm finding in my cases many chilling similarities.

107

00:08:46,500 --> 00:09:00,500

The person is taken against their will, taken into a craft of some kind, put on a table.

108

00:09:00,500 --> 00:09:07,500

The women begin to experience the gynecological examinations done by the aliens on them.

109

00:09:07,500 --> 00:09:19,500

They feel very violated. With the men, anal probes are inserted and sperm is taken.

110

00:09:19,500 --> 00:09:24,500

It's all done against their will and they really help us to do anything about it.

111

00:09:24,500 --> 00:09:30,500

Coming up, the abducted relive more terrifying experiences through hypnotic therapy.

112

00:09:30,500 --> 00:09:36,500

During some abductions I'm aware of them, of their taking sperm samples.

113

00:09:36,500 --> 00:09:41,500

And later, our UFO investigation in Anza, California continues.

114

00:09:41,500 --> 00:09:51,500

Regression therapy is an extremely controversial method in which abductees relive their UFO encounters under hypnosis.

115

00:09:51,500 --> 00:09:58,500

Some scientists suggest that what they're actually reliving might be repressed emotional trauma or subconscious fears from childhood.

116

00:09:58,500 --> 00:10:02,500

But for the abductee, the alien encounter is very real.

117

00:10:04,500 --> 00:10:15,500

In abduction cases, many times the person will remember consciously that something strange or bizarre happened to them.

118

00:10:15,500 --> 00:10:27,500

Something out of the ordinary. They desire to go into hypnosis to retrieve the hidden memories.

119

00:10:27,500 --> 00:10:33,500

During some abductions I'm aware of them, of their taking sperm samples.

120

00:10:33,500 --> 00:10:38,500

In many different ways. They've done it many different ways.

121

00:10:38,500 --> 00:10:56,500

With tubes, with catheters, there's one way I have not been able to deal with emotionally or under regression.

122

00:10:56,500 --> 00:11:03,500

And that's one where there's a being on top of me. And I can't deal with that yet.

123

00:11:04,500 --> 00:11:10,500

Under hypnosis, Jesse Long is reliving trauma that he believes is caused by his abduction experience.

124

00:11:22,500 --> 00:11:28,500

As incredible as it sounds, these people are actually reliving these terrifying experiences.

125

00:11:28,500 --> 00:11:34,500

Long claims to have not only emotional scars, but real physical scars as well.

126

00:11:34,500 --> 00:11:40,500

Even more disturbing are stories from women who believe they were abducted for breeding purposes.

127

00:11:40,500 --> 00:11:51,500

As incredible as this may sound, we have come across in the research cases having to do with missing fetuses.

128

00:11:52,500 --> 00:12:04,500

I remember they numb me from the waist down and they took something that looked like an umbilical cord attached to placenta.

129

00:12:04,500 --> 00:12:09,500

And they levitated it into some kind of chamber.

130

00:12:09,500 --> 00:12:17,500

Later abduction scenarios she has actually shown a baby.

131

00:12:17,500 --> 00:12:26,300

Now this baby is not like a human baby that, as we know it, it's a cross between an alien and a human.

132

00:12:26,300 --> 00:12:33,260

It's the central question of UFO research today. Why are they manufacturing these offspring, these babies?

133

00:12:33,260 --> 00:12:39,100

If we knew the answer to that, I think we would have a large part of the UFO mystery finally in hand.

134

00:12:39,900 --> 00:12:44,940

Not every reported encounter with an alien is frightening and traumatic.

135

00:12:44,940 --> 00:12:48,460

Some people who've claimed contact with extraterrestrials tell us that for them,

136

00:12:49,100 --> 00:12:55,340

the encounter was a peaceful communication. That was certainly the case for Dorothy Isad of Vancouver,

137

00:12:55,340 --> 00:13:01,180

British Columbia. I went over to the window, looked out and there was this enormous thing up in the

138

00:13:01,180 --> 00:13:07,580

sky, it was in the shape of a diamond. And as I watched it, like there was a whole group of little

139

00:13:07,580 --> 00:13:14,380

like silver dollars that came out of the large ship. Dorothy and her family reported that UFOs

appeared

140

00:13:14,380 --> 00:13:20,620

every night. I've been with her, I've seen these things. We all went down and we saw the phenomena,

141

00:13:21,260 --> 00:13:25,580

you know, flying in formation, you know, streaking across the sky and this sort of thing. She tells

142

00:13:25,580 --> 00:13:30,940

me what they are, but I'll never be convinced until they drag me screaming and kicking into one of

143

00:13:30,940 --> 00:13:37,820

their ships. And I'm afraid that's my nature and that's where they'll stay. I found that through

144

00:13:37,820 --> 00:13:43,500

the tests that this person is telling the truth, whatever she's doing, and that she's honest and

145

00:13:43,500 --> 00:13:49,900

she's a very average, normal individual. This is what witnesses have seen. These are not street

146

00:13:49,900 --> 00:13:56,140

lights, airplanes or other conventional lights. This is actual footage of unidentified flying

147

00:13:56,140 --> 00:14:02,300

objects. This is a single frame of Dorothy's film, equivalent to one eighteenth of a second.

148

00:14:02,300 --> 00:14:07,020

The streaks do not appear on the frame before or after this one, suggesting that the light is

149

00:14:07,020 --> 00:14:13,660

moving great distances in an eighteenth of a second. We looked up into the sky, Dorothy too,

150

00:14:14,380 --> 00:14:22,540

and she went to the window and she looked up and she said, oh come on, do something for my friends.

151

00:14:22,540 --> 00:14:30,380

They've been here for so long and right away, three shafts of light, as bright as anything,

152

00:14:30,380 --> 00:14:35,420

just shot right up into the air where we were watching. My communications with the light beings

153

00:14:35,420 --> 00:14:41,020

at that did very worried about us humans because we usually do things without thinking.

154

00:14:42,780 --> 00:14:50,380

The weapons we build, the way we rape the earth without thinking of the consequences.

155

00:14:51,420 --> 00:14:57,020

Although it does not appear that this film has been altered, skeptics believe these images are

156

00:14:57,020 --> 00:15:02,860

the result of light phenomena emanating from earth, not UFOs. But Dorothy believes these

157

00:15:02,860 --> 00:15:07,420

lights are alien spacecraft and that she can communicate with the creatures inside.

158

00:15:10,860 --> 00:15:15,660

Coming up, what caused an unmanned Soviet probe to be knocked out of Martian orbit?

159

00:15:15,660 --> 00:15:22,540

This is something that most likely destroyed the focus to mission to Mars and it can do it again.

160

00:15:23,340 --> 00:15:26,940

And our hunt for UFOs in the Southern California desert continues.

161

00:15:27,340 --> 00:15:33,740

The greatest challenge for a serious UFO researcher is finding hard evidence.

162

00:15:34,300 --> 00:15:39,020

Film and videotape are easily faked and skeptics distrust first person accounts.

163

00:15:39,580 --> 00:15:44,860

The team we followed into the California desert made every effort to maintain a scientifically

164

00:15:44,860 --> 00:15:51,660

valid investigation. All kinds of state of the art technology continue to arrive at the surveillance

165

00:15:52,300 --> 00:15:56,860

This radar works like any other radar. It's a precision piece of equipment which utilizes

166

00:15:56,860 --> 00:16:02,140

radio waves which are bounced off a given target to determine its relative size, speed,

167

00:16:02,140 --> 00:16:08,380

location and that's how it communicates. Theoretically, radar signals could also be picked up by an

168

00:16:08,380 --> 00:16:15,500

alien craft. Another signaling device is this laser. This high-powered laser acts as a beacon,

169

00:16:15,500 --> 00:16:20,620

but researchers also fear it could be interpreted by approaching craft as a hostile act.

170

00:16:21,100 --> 00:16:26,300

On this laser here you would probably be able to see it reflect off a surface

171

00:16:26,860 --> 00:16:33,820

approximately two to three miles away. Although the laser beam does continue on to infinity,

172

00:16:33,820 --> 00:16:39,340

so if I was to shine the laser straight up it would continue on beyond the Earth's atmosphere

173

00:16:39,340 --> 00:16:46,940

and continue on forever. Most UFO research is privately funded, but the US government is now

174

00:16:46,940 --> 00:16:52,700

launching its own search for extraterrestrial intelligence with the NASA program known as SETI.

175

00:16:53,340 --> 00:17:01,340

SETI stands for Search for Extraterrestrial Intelligence and it's an effort by NASA and a

176

00:17:01,340 --> 00:17:07,420

fair number of astronomers to look for life in the galaxy. We're going to turn the world's largest

177

00:17:07,420 --> 00:17:12,380

telescopes toward the heavens with the idea of looking for some signs that were not alone in

178

00:17:12,380 --> 00:17:17,100

the universe. The idea is to listen for radio signals that might be deliberately or perhaps

179

00:17:17,100 --> 00:17:23,100

even accidentally transmitted by other civilizations. Any signals from space will be analyzed by a

180

00:17:23,100 --> 00:17:28,700

sophisticated computer system to determine if an alien life form is trying to communicate with us.

181

00:17:29,420 --> 00:17:34,700

It's been said that in the first 30 seconds of this new NASA experiment we'll collect more data

182

00:17:34,700 --> 00:17:40,380

than all the experiments of this type that have collected in the last 30 years, so that's a big

183

00:17:40,380 --> 00:17:47,100

step forward. While the US looks for proof of alien spacecraft, the Russians believe they already

184

00:17:47,100 --> 00:17:53,580

have proof. In 1988 the Soviet Union launched two unmanned probes to explore Mars in the space

185

00:17:53,580 --> 00:18:00,940

around the planet. Phobos too achieved Mars orbit in January of 1989. However, something then occurred

186

00:18:00,940 --> 00:18:07,820

which there is apparently no prosaic explanation for. According to the Russians they encountered

187

00:18:07,820 --> 00:18:15,020

with their unmanned craft an anomalous object or a UFO which was computed out 25 kilometers.

188

00:18:15,020 --> 00:18:21,980

What we have is an infrared photograph taken from the Phobos-2 probe. This is the Martian moon

189

00:18:21,980 --> 00:18:29,340

Phobos. This is the UFO that apparently the Phobos-2 craft encountered. What happened was the craft

190

00:18:29,340 --> 00:18:36,620

observed the UFO, it took some photographs of it, then according to Soviet sources this UFO turned

191

00:18:36,620 --> 00:18:42,860

toward the Phobos-2 craft. The Russians then lost contact with it and the craft has been gone ever since.

192

00:18:43,500 --> 00:18:49,660

I think it took out Phobos-2 mission because Phobos-2 saw something it was not supposed to have seen.

193

00:18:49,660 --> 00:18:55,020

If I were in a spacecraft now to Mars, especially to Phobos, I would feel terrified because in my

194

00:18:55,020 --> 00:19:02,060

opinion based on the knowledge that I have something is out there and what it is I don't know, but this

195

00:19:02,060 --> 00:19:08,780

is something that most likely destroyed the Phobos-2 mission to Mars and it can do it again.

196

00:19:10,620 --> 00:19:14,060

Coming up, the startling results of our UFO investigation.

197

00:19:14,060 --> 00:19:18,060

And I'm totally freaked out. I mean I've got shivers going all the way up my spine.

198

00:19:19,340 --> 00:19:24,380

From the outset of their investigation in Anzac, California, the research team realized that the

199

00:19:24,380 --> 00:19:30,940

chances of capturing a UFO on film were extremely remote but even with a skeptical eye to the skies,

200

00:19:30,940 --> 00:19:33,500

the team made a startling discovery.

201

00:19:36,460 --> 00:19:42,140

Maintaining the surveillance equipment and recording data has been a full-time job for researchers.

202

00:19:42,140 --> 00:19:48,620

Two days and nights of hard work finally pay off. After day-long preparations, a strange light

203

00:19:48,620 --> 00:19:53,900

appears in the sky. The camera was not in position but skeptical observers were.

204

00:19:55,100 --> 00:19:59,420

And I'm totally freaked out. I mean I've got shivers going all the way up my spine.

205

00:19:59,900 --> 00:20:05,340

I don't know how to explain this. You know I'm a pure skeptic, definitely. And to see

206

00:20:06,780 --> 00:20:11,500

what I just saw, there's you know, I'm just, I can't be skeptical.

207

00:20:11,500 --> 00:20:20,060

We saw a yellowish-orange light appear over the mountain. It traveled a little bit to our right

208

00:20:20,700 --> 00:20:26,380

and split off into two lights. And as we watched them, it began to fade in intensity

209

00:20:27,180 --> 00:20:30,940

and after about 30 to 40 seconds they disappeared from view.

210

00:20:32,700 --> 00:20:38,380

The sighting lasted only 15 seconds but soon another UFO appeared and this time the cameras

211

00:20:38,380 --> 00:20:44,220

were ready. The team captured this amazing UFO video. You guys watching this inside? It's going

212

00:20:44,220 --> 00:20:55,820

up. Going straight up. Go, go, go. 249, 249. We are presently watching this light, anomalous light,

213

00:20:55,820 --> 00:21:02,860

going, it's now rising above Mount Kauhia. It appears to be more oblong or saucer shaped than a

214

00:21:02,860 --> 00:21:08,780

conventional aircraft would be. This starlight videotape may be all we ever know about the UFO

215

00:21:08,780 --> 00:21:15,260

nicknamed Goldie. Neither US military sources nor the FAA have a definitive explanation.

216

00:21:15,260 --> 00:21:21,260

Researchers in ANSA now have extensive logs and video but none of it can yet explain who

217

00:21:21,260 --> 00:21:28,140

or what is out there. With so many sightings and contacts reported, even the US government

218

00:21:28,140 --> 00:21:34,540

is now taking notice. NASA will spend \$100 million over the next 10 years to scientifically search

219

00:21:34,540 --> 00:21:40,220

for intelligent life in the universe. One wonders if this mission will show that spaceships and

220

00:21:40,220 --> 00:21:46,780

extraterrestrials are more than science fiction. For Sightings, I'm Tim White. Good night.

221

00:22:05,020 --> 00:22:11,100

Tomorrow, after a full hour of cops, see one of the most amazing rescues ever captured on videotape.

222

00:22:11,100 --> 00:22:17,340

A fireman rushes out of a burning building with an unconscious child and miraculously brings him back

223

00:22:17,340 --> 00:22:25,180

to life. Witness this real life drama on an all new Code 3, followed by The Edge, tomorrow. Now,

224

00:22:25,180 --> 00:22:27,820

likely suspects is next.
