

1

00:00:00,000 --> 00:00:05,000

Controversial subjects. The theories expressed are not the only possible interpretation.

2

00:00:05,000 --> 00:00:09,000

The viewer is invited to make a judgment based on all available information.

3

00:00:09,000 --> 00:00:13,000

Tonight on Cytanes, from the land that first celebrated Halloween,

4

00:00:13,000 --> 00:00:16,000

a Scottish castle that's terrorized locals for hundreds of years.

5

00:00:16,000 --> 00:00:22,000

Tonight, we send a team of paranormal experts to flush out the ghosts of Scotland's House of Horror.

6

00:00:22,000 --> 00:00:25,000

Then, some claim real-life vampires still exist today.

7

13

00:01:25,480 --> 00:01:31,400

to Scotland in the third century. Scotland, Ireland and Great Britain were home to the

14

00:01:31,400 --> 00:01:38,120

Druids and ancient people who began the celebration of the holiday we now call Halloween. The
Druids

15

00:01:38,120 --> 00:01:42,880

believed that Halloween, actually New Year's Eve by their calendar, was the one night of

16

00:01:42,880 --> 00:01:47,600

the year when spirits both good and evil were allowed to roam the earth. You're wandering

17

00:01:47,600 --> 00:01:52,960

around on the night of Halloween when the dead are coming back from the grave. You don't want

18

00:01:52,960 --> 00:01:56,360

them to recognize you because they might do something to you or they might take you back with.

19

00:01:56,360 --> 00:02:04,240

Good spirits were welcomed into Druid homes with treats. The evil spirits were on fires and

20

00:02:04,240 --> 00:02:09,920

frightening masks. Later jack-o'-lanterns were used to keep away evil spirits, but these talismans

21

00:02:09,920 --> 00:02:18,080

aren't always successful. At Stirling Castle in Scotland, more than a thousand people a year

22

00:02:18,160 --> 00:02:23,560

report seeing and feeling evil spirits and not just on Halloween. In fact, since Stirling

23

00:02:23,560 --> 00:02:28,240

Castle was first built to defend the Scottish countryside in the 15th century, countless

24

00:02:28,240 --> 00:02:34,880

eyewitnesses have reported seeing ghosts, evil spirits, polar geists and demons. I saw a shadow,

25

00:02:34,880 --> 00:02:41,200

no face, just a dark shadow in the corner. When I look back again, there was absolutely nothing.

26

00:02:41,200 --> 00:02:46,960

I've been walking around there at night and I felt a presence. I felt someone behind me.

27

00:02:47,520 --> 00:02:52,000

Wasn't exactly on the ground. She was kind of floating, but she had her face away from me.

28

00:02:53,360 --> 00:02:59,200

And definitely was a woman. Very scary. Makes you cold. I know what I saw.

29

00:03:01,680 --> 00:03:07,680

The best known ghost in Stirling Castle is the Green Lady and she is said to be the spirit of

30

00:03:08,320 --> 00:03:15,360

a servant maid who saved Mary Queen of Scots from death in 1661 when her bed, the bed curtains,

31

00:03:15,440 --> 00:03:21,200

caught fire from a naked flame, a candle held beside the bed. Her spirit is said still to

32

00:03:21,200 --> 00:03:26,880

haunt Stirling Castle today. What we saw just at the corner of the graveyard up at the foot of

33

00:03:26,880 --> 00:03:33,360

the castle wall was a green, a lady dressed in green. It seemed to be glowing. Seven or eight of us

34

00:03:33,360 --> 00:03:39,600

ran up to see what was going on. We were covering 25 yards. There was nobody in either direction.

35

00:03:40,240 --> 00:03:44,640

I can't think of any other castle who actually has a photograph of one of the ghosts

36

00:03:44,640 --> 00:03:49,760

and we have a photograph of a Highlander here marching out of the castle and you can see

37

00:03:49,760 --> 00:03:55,360

straight through him as he comes underneath the archway. We sent the photograph away and it was

38

00:03:55,360 --> 00:04:00,320

tested and it wasn't a double negative. It hadn't been superimposed on top of it or anything.

39

00:04:00,320 --> 00:04:05,440

So that's why we believe it was a picture of the ghost. Try to make contact with ghosts at a site

40

00:04:05,440 --> 00:04:10,320

such as Stirling Castle can be approached in several different ways by both scientists and

41

00:04:10,320 --> 00:04:16,160

spiritualists. We brought two separate investigative teams to Stirling, each operating independently

42

00:04:16,160 --> 00:04:21,280

but both with the same end in mind. Tangible evidence of at least some of the 100 ghosts

43

00:04:21,280 --> 00:04:27,280

rumored to live here. Internationally respected psychical researcher Tony Cornell came to Stirling

44

00:04:27,280 --> 00:04:34,000

from Cambridge searching for scientific evidence. One thing about the whole psychic field is it's

45

00:04:34,000 --> 00:04:39,200

full of contradictions. You can go to one case and say, ah this is absolute rubbish. This is

46

00:04:39,200 --> 00:04:45,360

imagination. This is nonsense. You go to another one and you get a pearl of information. You can't

47

00:04:45,360 --> 00:04:53,040

ignore this. So I should think really I'd say there are such things as ghosts. I've never seen one.

48

00:04:53,840 --> 00:04:57,360

I very much like to see one. Perhaps I might see one tonight. You never know.

49

00:04:58,560 --> 00:05:04,320

Tony Cornell asked London's premier spiritualist medium, Glyn Edwards, to help him choose a good

50

00:05:04,400 --> 00:05:10,080

location for an overnight surveillance. There's something here. There's definitely something here.

51

00:05:10,080 --> 00:05:17,280

Here? What about over here? Not so much here. Not so much here. When we go out on an investigation

52

00:05:18,080 --> 00:05:23,200

the kind of equipment we're taking is purely simply to confirm the physical presence of it.

53

00:05:24,720 --> 00:05:30,400

Is it in the mind of the person or is it a real physical object? So what we do is we take equipment

54

00:05:30,480 --> 00:05:38,640

that will record any changes in the physical environment. Sound, sight, heat, geomagnetic

55

00:05:38,640 --> 00:05:46,960

changes, any form of electrical change because we don't know what makes these things occur.

56

00:05:47,520 --> 00:05:54,000

So we want to know if we leave this stuff behind, do ghosts then appear or do they only appear because

57

00:05:54,000 --> 00:05:58,960

there's a human being there? Well this is the kind of thing we want to confirm with the instrumentation.

58

00:06:00,720 --> 00:06:10,080

Cornell set up an infrared camera and a standard video camera to be left on all night. The next

59

00:06:10,080 --> 00:06:14,880

day the video revealed nothing extraordinary but the audio portion was startling.

60

00:06:15,840 --> 00:06:31,600

No one was in the castle. The lone night watchman was far from the recording site. The nearest road

61

00:06:31,600 --> 00:06:37,360

was more than a mile away. Listen again for what sounds like moaning and screaming among the electronic static.

62

00:06:45,040 --> 00:06:51,520

Could these be the ghostly voices of Sterling Castle's tortured dead?

63

00:06:53,280 --> 00:06:58,880

Two days after the haunting sounds were recorded, sightings brought in a second team comprised of

64

00:06:58,880 --> 00:07:04,080

psychics and headed by paranormal researcher Malcolm Robinson. They hoped to find additional

65

00:07:04,080 --> 00:07:08,960

evidence of ghost activity. Their investigation took place near the recording site in the castle's

66

00:07:08,960 --> 00:07:15,840

old prison called the Toll booth. We go along and investigate these cases, speak with the

67

00:07:15,840 --> 00:07:22,160

people involved to ascertain if indeed there is something of a psychic nature happening.

68

00:07:22,160 --> 00:07:27,120

This group of psychic investigators uses a controversial and often dangerous technique

69

00:07:27,120 --> 00:07:33,040

called spirit rescue. In a rescue the psychics attempt to become temporarily possessed by any

70

00:07:33,040 --> 00:07:38,400

spirits that may be present. They believe the tortured spirits inside them can then be released

71

00:07:38,400 --> 00:07:43,840

into another dimension. On this night world renowned psychic Rosemary Toddlin claimed one

72

00:07:43,840 --> 00:07:48,640

ancient tortured spirit had entered her body. They were talking me, they were bringing me back,

73

00:07:48,640 --> 00:07:54,240

they were talking me, they were bringing me back. Rosemary appeared to be speaking as a centuries

74

00:07:54,240 --> 00:07:59,600

old prisoner who had been tortured in Sterling Castle. While she was in her trance other psychics

75

00:07:59,600 --> 00:08:03,440

attempted to liberate the supposed spirit from her and rid it from the castle.

76

00:08:08,800 --> 00:08:16,000

You might never get another chance. This is your chance. This is your chance.

77

00:08:17,040 --> 00:08:22,160

This is your chance to be free once and for all. Spit it out if you have to. This is

78

00:08:22,160 --> 00:08:27,920

for you to take that step through the door, a bigger door beyond even that, a much greater door

79

00:08:28,640 --> 00:08:37,600

filled with light. That I actually felt, escape. I felt it physically and I felt it emotionally

80

00:08:38,160 --> 00:08:42,400

and the pressure began to just evaporate from me.

81

00:08:46,800 --> 00:08:50,400

Do you feel that the spirit has been released then from this room?

82

00:08:50,400 --> 00:08:54,080

He's no longer here as far as I'm concerned. So you're quite sure of this?

83

00:08:54,080 --> 00:09:01,440

Yes. You wanted out and you got an out, you got that door that you wanted. There's no need to come back here.

84

00:09:01,440 --> 00:09:07,200

We know there were torture chambers in the Tall Booth and indeed they followed the practice

85

00:09:07,200 --> 00:09:12,480

of the country at that particular time and indeed over many many years then there's no doubt there

86

00:09:12,480 --> 00:09:18,240

were thumb screws and practices within that Tall Booth to force confessions from the unfortunate

87

00:09:18,240 --> 00:09:24,560

inhabitants. I think what we've had here is a little bit dubious. I mean I get the feeling of

88

00:09:25,280 --> 00:09:32,800

no it's too melodramatic. Sincere, yes, but I don't think it was correct. But that's not saying

89

00:09:32,800 --> 00:09:36,640

that there aren't things in Stirling Castle. Of course there are because many sane and sensible

90

00:09:36,640 --> 00:09:42,080

people have walked around and seen these things. There may be conflicting views on the merits of

91

00:09:42,080 --> 00:09:48,160

Spirit Rescue but Malcolm Robinson and his team of psychics believe that there is now one less

92

00:09:48,160 --> 00:09:54,400

ghost in Stirling Castle, that they have relieved this suffering of one tortured spirit in Scotland's

93

00:09:54,400 --> 00:10:00,960

house of horrors. Coming up next, some claim real life vampires still exist today. We uncover

94

00:10:00,960 --> 00:10:06,080

startling new evidence of the living dead and later a revealing interview with a modern day witch.

95

00:10:06,720 --> 00:10:12,880

On Halloween the streets are filled with ghosts and goblins and vampires but sightings has

96

00:10:12,880 --> 00:10:17,760

discovered that at least some of those vampires aren't out there dressing up for just one holiday.

97

00:10:17,760 --> 00:10:23,520

We found people who are so obsessed with vampires that they've chosen to live as though they are.

98

00:10:23,520 --> 00:10:32,160

Real life vampires. Do vampires really exist? Bella Legosi's theatrical vision of the vampire

99

00:10:32,160 --> 00:10:37,520

debuted in the film classic Dracula. Legosi is the most popular image that we have of the

100

00:10:37,520 --> 00:10:43,280

nocturnal beast that preys on the living. Our reaction is a mixture of fascination and revulsion

101

00:10:43,280 --> 00:10:50,160

as Dracula thirsts for human blood. Let me live please. Punish me, torture me, but let me live.

102

00:10:50,160 --> 00:10:56,000

Bram Stoker's Dracula from Francis Ford Coppola is the newest of nearly 2,000 Dracula movies

103

00:10:56,000 --> 00:11:00,560

produced worldwide. Evidence of our continuing fascination with the undead.

104

00:11:05,280 --> 00:11:13,200

The undead would be someone who is pronounced dead and at certain times the dead

105

00:11:14,160 --> 00:11:18,960

corpse reanimates and goes out with a thirst for human blood.

106

00:11:20,960 --> 00:11:25,920

Recent studies by researchers at two major universities in the United States show that

107

00:11:25,920 --> 00:11:31,120

nearly half the adult population of the United States believe that the world of the undead

108

00:11:31,120 --> 00:11:38,320

in some form is real and that same research shows that our obsession with vampires is rising

dramatically.

109

00:11:38,800 --> 00:11:47,840

The vampire represents the darker side of human instinct. The vampire represents the

110

00:11:47,840 --> 00:11:54,480

semi-animal-like quality that is part of our nature but which in the cultural process of

111

00:11:54,480 --> 00:11:59,520

growth and development we have had to forego. Ordinary people go see vampires because they

112

00:11:59,520 --> 00:12:08,000

identify with a certain collection of characteristics that they don't live out but which are ignited in

113

00:12:08,080 --> 00:12:14,800

what we would call their unconscious. The Dracula character in Bram Stoker's novel was based on

114

00:12:14,800 --> 00:12:20,560

the 15th century Romanian warlord Vlad the Impaler. Stoker took the ancient myths about

115

00:12:20,560 --> 00:12:26,320

this notorious killer and added elements of the supernatural. Rosemary the historical Vlad,

116

00:12:26,320 --> 00:12:32,240

Vlad the Impaler. He was not a vampire. Vlad Tepes was not a vampire. He was a real person,

117

00:12:32,240 --> 00:12:38,560

a 15th century Wallachian warlord who was a very cruel and despotic man and Bram Stoker took him

118

00:12:38,560 --> 00:12:44,480

as the historical model for Count Dracula. There's only one existing account of him drinking blood

119

00:12:44,480 --> 00:12:49,680

and it was the blood of one of his impaled victims. So this does not make him a vampire. Do you really

120

00:12:49,680 --> 00:12:54,880

believe Rosemary that there are vampires, real vampires? I do believe in the possibility of

121

00:12:54,880 --> 00:13:00,640

real vampires. I would call a real vampire a non-physical being perhaps the spirit of a dead

122

00:13:00,720 --> 00:13:05,840

or some other kind of being that would attack the living during the day or the evening.

123

00:13:06,400 --> 00:13:13,280

Almost what we would call a biting poltergeist. Around the world there are many cultures that

124

00:13:13,280 --> 00:13:19,760

believe that there are individuals who can fly out at night in some form. There is certainly a

125

00:13:19,760 --> 00:13:26,320

possibility that there are many other forms of energy, many other forms of power that we just

126

00:13:26,400 --> 00:13:32,640

don't understand that may form the basis of the vampire legend and may actually form some kind

127

00:13:32,640 --> 00:13:41,360

of power for real vampires. As people grow more frightened and as the normal structures of life,

128

00:13:41,360 --> 00:13:50,480

society, economics become more uncertain, people get very fascinated by the supernatural and I

129

00:13:50,480 --> 00:13:57,920

would place vampires in a class like that. Sightings has discovered a subculture of people

130

00:13:57,920 --> 00:14:04,880

who worship and emulate the vampire lifestyle. Are these self-proclaimed vampires true devotees

131

00:14:04,880 --> 00:14:09,520

or do they merely have a morbid fascination with death? There's a growing body of evidence to

132

00:14:09,520 --> 00:14:15,440

suggest that these modern-day vampires may do more than simply pose as blood-drinking members of

133

00:14:15,440 --> 00:14:22,240

the undead. I believe in another type of vampire I call the living vampire. They'll go around attacking

134

00:14:22,240 --> 00:14:27,280

people, biting them on the neck and drinking their blood and in my way of thinking they're every bit

135

00:14:27,280 --> 00:14:34,960

as dangerous as the old legendary type vampire. In Chicago, sightings met one member of the vampire

136

00:14:34,960 --> 00:14:42,240

subculture who insists he is a real-life vampire. Most people consider me a vampire because I'm a

137

00:14:42,240 --> 00:14:51,040

blood drinker. I use blood to ensure my immortality in this world. Vlad is a very interesting vampire.

138

00:14:51,760 --> 00:14:58,960

He's not quite like any other vampire that has ever contacted me or that I've ever studied. Vlad

139

00:14:59,920 --> 00:15:06,400

believes that there is a special kind of reaction he gets from the small amounts of blood that he

140

00:15:06,400 --> 00:15:14,960

takes. Blood has a lot of powerful symbolism and has since ancient times. It's the life force and

141

00:15:14,960 --> 00:15:21,840

anytime you consume the life force then you enhance your own vitality and blood also has an erotic

142

00:15:21,840 --> 00:15:29,120

aspect to it as well. I feel Vlad may very well be getting some kind of special insight, some kind

143

00:15:29,120 --> 00:15:36,880

of special feeling from blood. Did any of the people you spoke with claim to be dead people who were

144

00:15:36,880 --> 00:15:43,760

kept alive by drinking blood? None. In fact, almost all of them apologized for not being dead. Vlad's

145

00:15:43,760 --> 00:15:49,600

lifestyle may seem more theater than reality with his thousand-dollar handmade porcelain fangs and

146

00:15:49,600 --> 00:15:55,760

sculpted coffin but the practice of blood drinking is not an act. Vlad believes it's proof of his

147

00:15:55,760 --> 00:16:00,560

commitment to vampirism but to outsiders it appears there's nothing more than a desperate attempt for

148

00:16:00,560 --> 00:16:08,480

attention. What I do and why I've done it is, is my, I don't, I really don't care if any of you believe

149

00:16:08,480 --> 00:16:16,080

it or not. That's your problem. Our long-standing fascination with vampires is well documented

150

00:16:16,080 --> 00:16:21,840

but few people have carried out their fascination drinking blood and living as vampires. What sends

151

00:16:21,840 --> 00:16:27,120

someone over the edge? Is it simply a need to stand out from the crowd? A deep rooted desire for

152

00:16:27,120 --> 00:16:34,080

immortality or an unnatural need to participate in a world of evil? To dream about vampires to be

153

00:16:34,080 --> 00:16:39,920

attracted to vampires for the culture to thrill to the idea of vampires is simply nature.

154

00:16:44,960 --> 00:16:50,480

Although it may seem like pure theatrics to us, the soap-proclaimed vampires that we interview

155

00:16:50,560 --> 00:16:57,200

insist that they have a real dedication to vampirism. Behavior experts argue that their dedication

156

00:16:57,200 --> 00:17:02,480

could be masking a psychological disorder and they're asking the question what deep need are

157

00:17:02,480 --> 00:17:09,520

people like these fulfilling by drinking blood and living as vampires? Coming up, a startling

158

00:17:09,520 --> 00:17:14,640

sightings report on witches in America. Do they exist in your town and do they threaten your family?

159

00:17:14,720 --> 00:17:21,120

A revealing interview with a real-life witch next. The Salem witch trials were an notorious part of

160

00:17:21,120 --> 00:17:26,480

our Puritan past but witches and witchcraft are still alive and well in America today.

161

00:17:27,280 --> 00:17:32,720

Modern-day witches are a far cry from the evil broomstick riding hags of popular culture.

162

00:17:32,720 --> 00:17:38,320

Today's witches are eager to dispel the myths that have plagued what they consider to be their religion.

163

00:17:38,960 --> 00:17:43,760

If you're looking for pointed hats and green faces, you'll have better luck at your front door

164

00:17:43,760 --> 00:17:49,040

handing out Halloween candy to the neighborhood kids. Selena Fox and her followers are the real

165

00:17:49,040 --> 00:17:55,200

thing. Witches will make a point of celebrating nature instead of casting spells and concocting

166

00:17:55,200 --> 00:18:06,080

evil curses. Calling herself a Wiccan priestess from the old English word Wicca, meaning witch

167

00:18:07,040 --> 00:18:12,960

or wizard, Fox practices what she calls a religion from rural Iowa County in Wisconsin.

168

00:18:13,600 --> 00:18:18,080

But the intolerance she finds today is not so different from that of the citizens of another

169

00:18:18,080 --> 00:18:25,280

small community 300 years ago, Salem, Massachusetts. There was an accepted form of religious and

170

00:18:25,280 --> 00:18:32,560

political practice. Those who deviated from that, especially women who were outspoken and independent

171

00:18:33,440 --> 00:18:42,960

were killed. Here in Salem in 1692, 19 people were hanged and one man was pressed to death

172

00:18:43,520 --> 00:18:49,440

because he would not plead guilty or not guilty. William LaBoy heads up the Essex Institute

173

00:18:49,440 --> 00:18:54,560

Library in Salem, which houses hundreds of actual court documents from the witch trials.

174

00:18:55,120 --> 00:19:00,560

Based on weak testimony supplied by hysterical witnesses, over 200 citizens of Salem were

175

00:19:00,560 --> 00:19:09,200

accused of being witches. Petty jealousies, land disputes, grievances held for decades would all

176

00:19:09,200 --> 00:19:16,640

be brought into play. I think the underlying context for what happened was fear. When fear is

177

00:19:16,640 --> 00:19:25,360

the fundamental emotion, you can expect irrational behavior and when you get a group acting

irrationally,

178

00:19:25,360 --> 00:19:25,840

watch out.

179

00:19:26,560 --> 00:19:36,080

Joining us now from her farm in Black Earth, Wisconsin is Selena Fox, a modern day witch

180

00:19:36,080 --> 00:19:40,320

who prefers to be called a Wiccan minister. Selena, welcome to sightings.

181

00:19:40,880 --> 00:19:42,880

Thanks, Tim. Happy Halloween.

182

00:19:43,440 --> 00:19:48,240

And happy Halloween to you too. Selena, do you mind being called a witch?

183

00:19:48,240 --> 00:19:53,440

I've used the word witch to describe myself and my practice of Wiccan spirituality,

184

00:19:53,440 --> 00:20:00,160

but I also use some other terms that are perhaps more specific about what I do. Wiccan minister

185

00:20:00,160 --> 00:20:07,280

is one, nature priestess is one, and those terms are more specific about the kinds of

186

00:20:07,280 --> 00:20:10,800

things that I'm involved in, which is spiritual ministry.

187

00:20:10,800 --> 00:20:15,040

What do you think is the biggest misconception that most folks have about witches like you?

188

00:20:15,680 --> 00:20:22,400

We are not involved with Satanism or the practice of evil. This is against our values,

189

00:20:22,400 --> 00:20:28,320

our ethics. Certainly back in the early days in Salem, witches were persecuted. Does that

190

00:20:28,320 --> 00:20:35,120

persist? Is there persecution now? Persecution has not ended in America and other parts of the

191

00:20:35,120 --> 00:20:39,840

world for people that are involved, not only in witchcraft, but other nature religions.

192

00:20:40,480 --> 00:20:45,280

I would like to see persecution and intolerance against our people end.

193

00:20:45,920 --> 00:20:51,920

Most people have stereotypes, Selena, about witches, people like you. Where do those stereotypes come

194

00:20:51,920 --> 00:20:57,680

from? Some of the stereotypes that we have today around the word witch really come right out of

195

00:20:57,680 --> 00:21:04,880

Wizard of Oz. The word witch is being used by people who are practicing a religion that do not look

196

00:21:04,880 --> 00:21:11,440

in any way like the Wicked Witch of the West and certainly don't have those kinds of practices.

197

00:21:12,080 --> 00:21:17,200

Well, here it is Halloween now, Selena. Why is Halloween so important to witches like yourself?

198

00:21:17,760 --> 00:21:25,280

Halloween is our new year. We not only pay our respects for the dead, especially family and friends

199

00:21:25,280 --> 00:21:31,120

that we have known and loved in this life, but it's the time of looking ahead to the year to come.

200

00:21:31,760 --> 00:21:38,400

Selena Fox, thank you and happy Halloween. We'll be back with more sightings in just a moment.
