

1

00:00:00,000 --> 00:00:04,800

Tonight on Sightings.

2

00:00:04,800 --> 00:00:07,360

As a group we were abducted about 60 times.

3

00:00:07,360 --> 00:00:11,320

Frightening first hand stories of mass abductions by extraterrestrials.

4

00:00:11,320 --> 00:00:12,640

What are their sinister motives?

5

00:00:12,640 --> 00:00:15,840

They do need our genes to propagate their own species.

6

00:00:15,840 --> 00:00:20,720

Then, dogs that possess amazing psychic abilities are predicting epileptic seizures.

7

00:00:20,720 --> 00:00:22,200

Their life saving secrets tonight.

8

00:00:30,000 --> 00:00:55,600

Welcome to Sightings. I'm Tim White.

9

00:00:56,320 --> 00:01:01,680

The number of people who report being abducted by aliens is growing at an alarming rate.

10

00:01:01,680 --> 00:01:08,560

According to a recent roper poll, one in every 50 Americans claims a UFO abduction experience.

11

00:01:08,560 --> 00:01:14,320

Well now those individuals are being joined by groups of people who claim they've been abducted together.

12

00:01:14,320 --> 00:01:20,960

These mass abductions are challenging skeptics who believe the abduction phenomenon is all a hoax.

13

00:01:20,960 --> 00:01:26,240

In the course of four years, as a group we were abducted about 60 times or so.

14

00:01:26,240 --> 00:01:31,920

In my experience I believe that mass abductions are occurring far more than people realize.

15

00:01:31,920 --> 00:01:39,360

A whole room full of people are simultaneously taken and simultaneously in the craft put together with one another.

16

00:01:39,360 --> 00:01:45,280

James LaFlaunty and a group of his close friends claim to be victims of a mass abduction.

17

00:01:45,280 --> 00:01:48,160

Their abduction histories all began in childhood.

18

00:01:48,160 --> 00:01:55,840

Ever since I was a child I used to wake up and I used to see a white light and shadowy figures moving around my bed and I would get scared.

19

00:01:55,840 --> 00:02:04,640

When I was younger I remember like an alien looking through the windows being watched, feeling of being watched all the time.

20

00:02:04,640 --> 00:02:10,160

When I was a little kid I guess I can call them as like the shadow people because they used to come out of their shadows

21

00:02:10,160 --> 00:02:14,240

and like the shadows would kind of come alive and then be these little small guys.

22

00:02:14,320 --> 00:02:20,240

In his mid-twenties LaFlaunty felt strangely compelled to seek out certain people and befriend them.

23

00:02:20,240 --> 00:02:24,800

As these home videos show the group often went camping in upstate New York.

24

00:02:24,800 --> 00:02:29,920

We would go up each weekend to upstate Insurgates and we were just going up for fun

25

00:02:29,920 --> 00:02:34,720

but as it turns out week by week we were all being abducted as a group.

26

00:02:34,720 --> 00:02:40,560

And looking back at it now I realized that I had knew all these people from childhood abductions

27

00:02:40,640 --> 00:02:45,760

and that I was supposed to get everybody together and go up to the trailer to be abducted.

28

00:02:45,760 --> 00:02:52,480

Noted ufologist Bud Hopkins met with LaFlaunty and used hypnosis to help him recall abduction memories.

29

00:02:52,480 --> 00:03:00,480

I feel like I'm on a table. I take out their eyes and this game looks bewildered. I gotta get out of here.

30

00:03:01,760 --> 00:03:06,960

James LaFlaunty contacted me in 1990 because of certain fragmented memories.

31

00:03:07,680 --> 00:03:12,560

He had been with a group of friends and they knew something had happened. It was a time lapse

32

00:03:12,560 --> 00:03:16,880

and subsequently they began to have partial recollections of this experience.

33

00:03:16,880 --> 00:03:22,480

And part of those recollections involved having been in a craft unable to move being controlled

34

00:03:22,480 --> 00:03:28,400

and being placed some of them with others in some kind of sexual situation.

35

00:03:28,400 --> 00:03:35,920

I first met James in 87 and a few friends of us we all went upstate to the trailer.

36

00:03:35,920 --> 00:03:39,040

Just had a nice weekend and enjoy it so it wasn't that fun.

37

00:03:39,040 --> 00:03:44,880

We had a typical hanging out everybody getting close together talking doing a little music together

38

00:03:45,680 --> 00:03:50,720

and then the next morning everybody recalled something happened.

39

00:03:51,440 --> 00:03:56,880

Going up weekly almost became an addiction. It was for enjoyment but it was almost like we were being

40

00:03:56,880 --> 00:04:03,280

called back. More members of the group agreed to participate in regression therapy. Under hypnosis

41

00:04:03,280 --> 00:04:08,560

they recalled being part of a massive induction. One time in the trailer it was around 12 o'clock

42

00:04:08,560 --> 00:04:13,680

or 1 o'clock and I remember seeing these bright lights almost in every window and there's domes

43

00:04:13,680 --> 00:04:19,360

on top of the trailer and everything was blowing and just become basically paralyzed.

44

00:04:21,280 --> 00:04:26,240

During the abduction we would walk down this dark dark road in a trance state.

45

00:04:26,240 --> 00:04:32,320

Mostly everybody was like semi-conscious. I would see us like all of us walking down the road

46

00:04:32,400 --> 00:04:37,600

in our night garments and sometimes the aliens would walk us there and sometimes we'd be walking

47

00:04:37,600 --> 00:04:43,120

on our own and we'd be walking to the craft which was always in the same spot in this pit area.

48

00:04:43,120 --> 00:04:48,720

We would just walk into the ship we would see the ship in the pit. James would be the last one

49

00:04:48,720 --> 00:04:54,160

to go inside the ship. When the nightmarish memories persisted Lafati and others in his

50

00:04:54,160 --> 00:04:59,520

group sought help from clinical psychologist Dr. John Bowman. Generally when I work with people

51

00:04:59,520 --> 00:05:05,040

using their imagination there is a personalized stamp that people put into their imagery because

52

00:05:05,040 --> 00:05:11,440

it's being generated from a part of themselves. These abductees and their reports do not have

53

00:05:11,440 --> 00:05:15,920

this kind of personalized stamp and I think it makes it even more credible. Once this group is

54

00:05:15,920 --> 00:05:21,120

on the ship they do remember being abducted together they do see each other physically

55

00:05:21,120 --> 00:05:27,520

being examined by their abductors. James and Kirk saw me on the ship with them and a few other

56

00:05:27,520 --> 00:05:33,440

people that were upstate that weakened with us. They would take us into the room and start doing

57

00:05:33,440 --> 00:05:38,080

some of the medical experiments and sometimes there would be two or three of us in the same room.

58

00:05:38,080 --> 00:05:43,600

There's something was being worked on, Majenitals. I would see James across the room and the same

59

00:05:43,600 --> 00:05:50,240

thing being done to him. I do know it's from was removed. I've experienced certain things like that.

60

00:05:50,240 --> 00:05:56,880

I was with an alien that wasn't totally at will. It's hard to explain you know I mean it

61

00:05:58,000 --> 00:06:02,880

first you know it looks like a person you know and then it becomes an alien while the process is

62

00:06:02,880 --> 00:06:09,840

going on. Rows and rows of naked people, aliens standing, motioning them here and there directing

63

00:06:09,840 --> 00:06:15,520

them through some kind of processing. When I was on the ship I remember seeing James and Petra

64

00:06:16,320 --> 00:06:20,960

and then I remember being with the other people from the group. There's a very great interest on

65

00:06:20,960 --> 00:06:28,080

the part of the UFO occupants in human reproduction, sperm, ova, the DNA, but it has also included an

66

00:06:28,080 --> 00:06:34,560

interest in human sexuality itself. I do know that they do need our genes to propagate their own

67

00:06:34,560 --> 00:06:43,200

species. It's not uncommon here in male subduction cases that individuals, members of the group,

68

00:06:43,840 --> 00:06:48,880

are forced to have sex amongst themselves or with the aliens. Sometimes we'd be abducted and

69

00:06:48,880 --> 00:06:54,320

there would be sexual situations. They would pair off you know some of us within our group and some

70

00:06:54,320 --> 00:06:59,200

of us with other groups of people. It was just like a random thing. Each week maybe it would be a

71

00:06:59,200 --> 00:07:04,480

different person. It could be other people's wives or people's husbands, different friends that

72

00:07:04,480 --> 00:07:12,240

that we were with and just experiencing different sexual situations with them. It's a recurring

73

00:07:12,240 --> 00:07:18,240

thing that we hear from a lot of abductees especially in mass abduction situations. They're

74

00:07:18,240 --> 00:07:23,520

studying us, they're studying our sexuality, our emotions and they're using us for some design

75

00:07:23,520 --> 00:07:30,160

goal as the center of this experiment. This is across all cultural socioeconomic levels.

76

00:07:30,800 --> 00:07:37,600

This is extraordinarily widespread. It is global in nature and it is probably the most central

77

00:07:37,600 --> 00:07:42,880

hidden mental health issue in the country today. In working with abductees, James's group as well

78

00:07:42,880 --> 00:07:48,720

as other abductees, my experience is that these people have been traumatized by a very real and

79

00:07:48,720 --> 00:07:56,320

present experience in their lives. Their psychological profiles indicate that this was a real traumatic

80

00:07:56,320 --> 00:08:02,320

experience. It wasn't made up, it wasn't imagined and that something actually did occur to traumatize

81

00:08:03,280 --> 00:08:10,080

I lost plenty of jobs, I lost friends, I lost family, I lost a number of things and it got to the

82

00:08:10,080 --> 00:08:17,520

point where I would you know I was contemplating suicide in a sense because there was no escape.

83

00:08:17,520 --> 00:08:24,400

I believe the abductions are exploitive, a mankind and are not beneficial to these individuals. If

84

00:08:24,400 --> 00:08:30,880

their abductions were beneficial they wouldn't be suffering as they are. It's not something that

85

00:08:31,440 --> 00:08:36,880

we come out and tell you because we want to be on television. A lot of people think that you know

86

00:08:37,680 --> 00:08:42,720

we get more ridiculed from it, it's a joke. There is undoubtedly an extraordinary phenomenon at

87

00:08:42,720 --> 00:08:49,920

work here. It is irresponsible to dismiss it. An extraordinary phenomenon such as this demands

88

00:08:49,920 --> 00:08:57,280

an extraordinary investigation. We're a good group, our friendship is strong. I just hope that we'll

89

00:08:57,280 --> 00:09:03,520

understand what's going on at some time and that we will understand why it's being done to us

90

00:09:04,560 --> 00:09:07,680

and that in the long run that it's all for good cause.

91

00:09:09,760 --> 00:09:15,040

Joining us now is one of the foremost authorities on the alien abduction phenomenon. Temple University

92

00:09:15,040 --> 00:09:21,680

professor David Jacobs. Dr. Jacobs is the author of Secret Life, first-hand accounts of UFO abductions

93

00:09:21,680 --> 00:09:27,120

and it's been a UFO researcher for 25 years. Dr. Jacobs for years and years you have studied

94

00:09:27,120 --> 00:09:31,040

the abduction phenomenon. The idea of multiple abductions, is there something new?

95

00:09:31,840 --> 00:09:35,680

No, multiple abductions have been around since the very beginning. In fact the very first abduction

96

00:09:35,680 --> 00:09:40,080

that came to public attention, the Barney and Betty Hill case, was a multiple abduction. What we see

97

00:09:40,080 --> 00:09:44,640

every once in a while is large-scale abductions of six, seven, eight people, even more sometimes.

98

00:09:45,200 --> 00:09:51,360

Is it true that people only recall their abduction experience multiple or otherwise

99

00:09:51,360 --> 00:09:55,280

under hypnosis and therefore they might be influenced by their therapist?

100

00:09:55,280 --> 00:09:59,600

Most of the accounts are recalled under hypnosis, however a significant number of them are remembered

101

00:09:59,600 --> 00:10:05,680

just straight out without any any aid of hypnosis at all. However we found that handled carefully

102

00:10:05,680 --> 00:10:10,640

and with proper knowledge of the phenomenon, hypnosis is an important tool that we use to

103

00:10:10,640 --> 00:10:16,000

sort of release the memories that are there. You are a respected university professor and for

104

00:10:16,000 --> 00:10:21,120

most people this is just beyond the pale. Why are you involved in this? Well you're right Tim,

105

00:10:21,120 --> 00:10:27,120

this is absolutely as far out as one can get in this society. Yet I feel that this is even though

106

00:10:27,120 --> 00:10:32,960

that this is on the edges of credibility that we must study this, that this is potentially extremely

107

00:10:32,960 --> 00:10:39,040

important and and potentially impactful on on all people and and therefore we can't ignore it.

108

00:10:39,040 --> 00:10:43,680

Does it seem that some individuals are targeted for abduction and others are not and is there

109

00:10:43,680 --> 00:10:48,960

any way to know if you are? Well people who have had abduction experiences generally have them from

110

00:10:48,960 --> 00:10:54,720

childhood on all the way through old age and we don't know how it stops. Most people who are

111

00:10:54,720 --> 00:10:59,280

abductees know that there's been a series of unusual experiences that have happened to them

112

00:10:59,280 --> 00:11:03,520

in their lifetime. They don't know what's happened to them necessarily but they know something has

113

00:11:03,520 --> 00:11:09,600

been going on that other people don't have and most of those kinds of people we feel have had

114

00:11:09,600 --> 00:11:13,920

abduction experiences or at least many of those people have had abduction experiences. Have you

115

00:11:13,920 --> 00:11:18,560

been abducted? I have not been abducted from what I know about the abduction phenomenon. I have no

116

00:11:18,560 --> 00:11:23,920

desire to be abducted. Dr. Jacobs thank you very much. Thank you Tim. And we will be back with

117

00:11:23,920 --> 00:11:29,840

more sightings in just a moment. When we return, dogs that possess amazing psychic abilities of

118

00:11:29,840 --> 00:11:35,520

predicting epileptic seizures, what is the secret of their life-saving powers? Their story coming up next.

119

00:11:37,840 --> 00:11:43,360

One of the last great frontiers left to explore is the human mind. With all of the advances in

120

00:11:43,360 --> 00:11:49,360

modern medicine we still know surprisingly little about the potential of the brain. One way scientists

121

00:11:49,360 --> 00:11:55,920

are trying to learn more is by studying our pets. Animals appear to have certain psychic powers

122

00:11:55,920 --> 00:12:02,720

that no one can fully explain. Pets could be helping here, helping people with epilepsy.

123

00:12:02,720 --> 00:12:08,240

It's a condition characterized by frightening uncontrollable seizures. In the dark ages epilepsy

124

00:12:08,240 --> 00:12:13,280

was thought to be the work of the devil. Today we've abandoned those outdated ideas that people

125

00:12:13,280 --> 00:12:19,680

with epilepsy are under satanic influence. But there are genuine mysteries associated with epilepsy

126

00:12:19,680 --> 00:12:24,640

and medical experts are turning to dogs for some amazing new ways of understanding this

127

00:12:24,640 --> 00:12:31,840

misunderstood neurological condition. Angie Barnum knows the incredible supernatural power of a

128

00:12:31,840 --> 00:12:37,600

seizure alert dog firsthand. For the last 10 years Angie's dog Sheba has been wanting her

129

00:12:37,600 --> 00:12:45,120

potentially life-threatening seizures before they happen. She paces and whines and jumps on me if

130

00:12:45,120 --> 00:12:53,200

I'm not paying attention. She's constant. She always knows. Angie's seizures were so unpredictable

131

00:12:53,200 --> 00:12:58,880

she was confined to a wheelchair. In 1983 she sought out a program that was matching dogs

132

00:12:58,880 --> 00:13:04,560

with disabled owners. At first Angie was attracted to a Labrador but Sheba proved she could do more

133

00:13:04,560 --> 00:13:10,720

than just fetch. Angie went into a seizure. You know in the yellow lab just ignored her. You know

134

00:13:10,720 --> 00:13:17,200

when Sheba teed into it you know completely ignored me she went straight to Angie and we stood around

135

00:13:17,200 --> 00:13:23,120

in fascination watching this dog fixated on this girl. Angie adopted Sheba and the two became

136

00:13:23,120 --> 00:13:28,160

inseparable. Angie discovered that Sheba's special gift wasn't just an isolated event.

137

00:13:28,800 --> 00:13:37,040

I was out playing with my friends and she started pacing and whining and I thought she was just

138

00:13:37,040 --> 00:13:44,640

acting up and I went home and a few minutes later I had a seizure. Come here. Sheba was so

139

00:13:44,640 --> 00:13:49,920

accurate in predicting seizures and events that Angie gained enough confidence to leave her wheelchair

140

00:13:49,920 --> 00:13:56,240

behind and compete in gymnastics with Sheba at her side. She lets me know before I have a seizure

141

00:13:56,240 --> 00:14:02,400

so I can get down off the equipment. With her I can know I'm gonna have one and I can get down

142

00:14:02,400 --> 00:14:08,720

before I hurt myself. In 1987 Angie won a gold medal in the Special Olympics and she gives a

143

00:14:08,720 --> 00:14:14,000

lot of the credit to Sheba's extraordinary ability but Sheba is not unique according to Reina

144

00:14:14,000 --> 00:14:19,840

Burner of the Epilepsy Institute. We had people calling up all the time saying I know you're

145

00:14:19,840 --> 00:14:23,920

gonna think I'm nuts because they didn't know who they were talking to but this is what my dog does.

146

00:14:23,920 --> 00:14:29,360

One of those reluctant callers was veterinarian Liz Rudy who has had seizures for 10 years.

147

00:14:29,360 --> 00:14:34,960

Liz noticed that before her seizures her dog Ribbon would stare and lick her hands. I didn't

148

00:14:34,960 --> 00:14:42,720

really tell anybody or talk about it because it just it it seemed too strange to be believable.

149

00:14:42,720 --> 00:14:49,280

But Ribbon alerted consistently for nine years. Before Ribbon died Liz got a new puppy named

150

00:14:49,280 --> 00:14:54,320

Raisin. I got to see whether she could pick up this behavior from Ribbon. I didn't think it was

151

00:14:54,320 --> 00:14:58,640

something that was real likely but I thought it would be interesting to see if one dog could do it.

152

00:14:59,200 --> 00:15:04,960

Raisin turned out to have the same uncanny ability. Early on she saved Liz from a potentially fatal

153

00:15:04,960 --> 00:15:12,480

situation alerting her to an oncoming seizure while Liz was in the shower. While we were

154

00:15:12,480 --> 00:15:18,000

recording this story sightings crew members noticed Raisin was paying particular attention to Liz.

155

00:15:20,080 --> 00:15:25,920

Then it started. First the intense stare. Then Ribbon tried to get Liz's attention.

156

00:15:26,960 --> 00:15:28,480

And finally the barking started.

157

00:15:33,440 --> 00:15:38,960

Liz's seizures aren't violent. Instead she seems to slip away from the world around her.

158

00:15:39,600 --> 00:15:44,320

Ribbon instinctively stays by her side protecting her for the duration of the episode.

159

00:15:45,280 --> 00:15:51,680

Does Ribbon have a unique ability to detect seizures or is Liz somehow giving off subtle

160

00:15:51,680 --> 00:15:56,400

clues about her condition? When you have a phenomenon like this and you want to do a scientific

161

00:15:56,400 --> 00:16:03,280

investigation the first thing to try to determine is whether in fact the phenomena is unified or not.

162

00:16:04,000 --> 00:16:09,760

Neurologist Dr. Douglas LeBar assists the epilepsy institute in their study of dogs like Ribbon.

163

00:16:10,480 --> 00:16:15,920

Liz is a participant in this research. Here she's hooked up to a brainwave monitor that can

164

00:16:15,920 --> 00:16:21,760

detect the onset of a seizure. The institute has also compiled in statistics based on a survey

165

00:16:21,760 --> 00:16:26,960

set out to pet owners who do have seizures. A substantial portion are reporting some type

166

00:16:26,960 --> 00:16:32,240

of alerting behavior. Some experts speculate that the dogs are detecting seizures through their

167

00:16:32,240 --> 00:16:37,920

acute sense of smell or by their acute awareness of certain body movements in their owners.

168

00:16:37,920 --> 00:16:42,960

But then why is it that only certain dogs seem to have the ability to detect seizures?

169

00:16:43,600 --> 00:16:50,400

Animal behaviorist Peter Borschel is studying the phenomena. If we can learn what the dogs are capable

170

00:16:50,400 --> 00:16:55,680

of doing, how they can pick up the pre-seizure signals, then we can have a way of screening

171

00:16:55,680 --> 00:16:59,520

dogs trying to find out if there's a breed difference, picking dogs that are good at it

172

00:16:59,520 --> 00:17:06,080

versus those that aren't. Come on, where's Jesse? Ten-year-old Jessica Lindgren has up to five seizures

173

00:17:06,080 --> 00:17:11,520

each week. Her mother Leslie is working with their dog Trina, training her to help Jessica

174

00:17:11,520 --> 00:17:18,160

during her seizures. I think it's wonderfully important that the researchers and the neurologists

175

00:17:18,160 --> 00:17:24,800

can open their minds to something beyond just the medication, just the office visits, just the tests.

176

00:17:24,800 --> 00:17:30,880

I think it's great. Jessica doesn't need science to explain why her dog is special. I go like this

177

00:17:30,880 --> 00:17:46,560

and then Trina licks my face like this. And then that's her way of saying it's okay, Jessica.

178

00:17:47,840 --> 00:17:53,280

Is there a paranormal connection between some dogs and their owners with epilepsy?

179

00:17:53,280 --> 00:17:59,120

Medical doctors would say no, but there's still a little loss to explain why. It is a mystery that

180

00:17:59,120 --> 00:18:04,480

science can't explain, but researchers continue to study the phenomenon, working toward a more

181

00:18:04,480 --> 00:18:09,920

complete understanding of the strange and wonderful connection between people and animals.

182

00:18:11,840 --> 00:18:17,520

One of the tragedies experienced by people with epilepsy is isolation from a general public that

183

00:18:17,520 --> 00:18:23,040

fears the onset of a seizure. One of the greatest benefits of seizure alert dogs like Sheba and

184

00:18:23,040 --> 00:18:28,560

Raisin is their ability to bring their owners out into the community. They can hold jobs and

185

00:18:28,560 --> 00:18:34,720

enjoy life with a new confidence. When we return, the terrorist attack on New York's World Trade

186

00:18:34,720 --> 00:18:39,280

Center was predicted by a sightings astrologer. Will there be other attacks on U.S. cities?

187

00:18:39,280 --> 00:18:46,800

A special report next. At the beginning of 1993, we asked a panel of experts in astrology and psychic

188

00:18:46,800 --> 00:18:52,400

phenomena to make their predictions for the coming year. One of our experts, astrologer Richard

189

00:18:52,400 --> 00:18:58,800

Nolley, has been remarkably accurate so far. He predicted the terrorist bombing at the World Trade

190

00:18:58,800 --> 00:19:05,920

Center in New York. Prediction became a reality on February 26, 1993. In an interview taped in

191

00:19:05,920 --> 00:19:13,200

November 1992, Richard Nolley predicted a terrorist attack in February. It's going to be more a terrorist

192

00:19:13,200 --> 00:19:18,080

kind of situation, but it's going to go beyond the terrorism that we've seen in the past.

193

00:19:18,800 --> 00:19:23,120

I think people who live in major cities in the United States, in Japan and in Europe,

194

00:19:23,120 --> 00:19:29,040

are going to be targets for this kind of activity, especially around approximately February 2

195

00:19:29,680 --> 00:19:37,440

and also in August and early October of 1993. The February prediction, although off by a few

196

00:19:37,440 --> 00:19:42,640

weeks, did have an eerie ring of truth. We went to Nolley's home in Phoenix to get his reaction.

197

00:19:43,280 --> 00:19:48,640

The alignment of the planet's Uranus and Neptune was the big cosmic clue to me. Also given the

198

00:19:48,640 --> 00:19:53,920

current tensions in the Middle East, I'd expected that this would manifest as a terrorist attack

199

00:19:53,920 --> 00:19:58,880

directed against the United States. There are currently two suspects in custody,

200

00:19:58,880 --> 00:20:03,680

but Nolley believes they are just the tip of the iceberg. There's no doubt in my mind that Baghdad

201

00:20:03,680 --> 00:20:09,280

was behind it, specifically Saddam Hussein. The planet Mars, which was rising in the east when

202

00:20:09,280 --> 00:20:14,240

the bomb went off at the Trade Center, was directly overhead Baghdad at that very instant.

203

00:20:15,600 --> 00:20:20,000

I'm sure we're in danger of more terrorist attacks. The same alignment that was in effect in

204

00:20:20,000 --> 00:20:26,640

February will be exact again in August and in October, so we haven't seen the last of it by

205

00:20:26,640 --> 00:20:34,160

any means. The target areas as I see it pretty much in descending order would be New York was

206

00:20:34,160 --> 00:20:39,280

number one on my list from the start. It's already been hit, it may be hit again. Washington, DC

207

00:20:39,280 --> 00:20:44,800

would be second, Los Angeles would be third, Atlanta would be fourth, and Chicago would be the fifth.

208

00:20:45,360 --> 00:20:50,240

1993 is going to be the year of terrorism in the United States, and after that it's going to fade away.

209

00:20:51,120 --> 00:20:55,680

The prospect of further terrorist attacks is a frightening possibility predicted by Nolley.

210

00:20:56,240 --> 00:21:01,120

What other disasters lie ahead? Saddam's viewers have requested more information

211

00:21:01,200 --> 00:21:06,080

about what to expect later in the year. We are currently in the midst of a new investigation

212

00:21:06,080 --> 00:21:11,360

on modern-day profits like Gordon Michael Scalgin, who have disturbing visions of the future.

213

00:21:11,920 --> 00:21:16,080

I can tell you that the earth is going to open up in California, and I can tell you exactly

214

00:21:16,640 --> 00:21:21,360

where it will open up. What is the basis for these dire predictions? We'll bring you the

215

00:21:21,360 --> 00:21:27,040

disturbing answers in an upcoming report. If you've experienced what you believe to be a ghost,

216

00:21:27,040 --> 00:21:32,080

or if you've had any type of paranormal encounter, our sightings investigative team wants to know

217

00:21:32,080 --> 00:21:37,680

about it. If you've had a paranormal experience or captured something unexplainable on film or

218

00:21:37,680 --> 00:21:44,800

videotape, call our sightings hotline at 1-900-740-SITE. Each call 75 cents a minute,

219

00:21:44,800 --> 00:21:48,160

average call less two minutes, and you must be 18 years or older.

220

00:21:50,560 --> 00:21:55,680

Is Alcatraz haunted? Infrared cameras record a psychic search for prisoners who died there.

221

00:21:55,760 --> 00:21:59,920

There are at least a hundred ghosts here. Another episode of Sightings is next.

222

00:22:01,520 --> 00:22:07,680

Join us next time for new investigations into the unexplained. For Sightings, I'm Tim White.

223

00:22:11,120 --> 00:22:16,960

Stay tuned for another episode of Sightings. Tomorrow, an armed suspect leads cops into

224

00:22:16,960 --> 00:22:23,600

a darkened crack house. What they find there will shock you. Experience a full hour of cops,

225

00:22:23,600 --> 00:22:39,520

followed by an all-new Code 3 tomorrow.
