

1

00:00:00,000 --> 00:00:06,500

On this edition of sightings, the military is flying a new secret weapon.

2

00:00:06,500 --> 00:00:10,380

I can't say for sure what we saw was of this earth.

3

00:00:10,380 --> 00:00:13,800

Were these designs stolen from an extraterrestrial craft?

4

00:00:13,800 --> 00:00:18,740

In the case of the UFO model, we've made every effort to make it accurate.

5

00:00:18,740 --> 00:00:22,380

Then, this woman has a mysterious power to communicate with animals.

6

00:00:22,380 --> 00:00:25,500

She must be doing something because I've never seen him do this.

7

00:00:25,500 --> 00:00:28,380

A psychic has a horrifying vision of murder.

8

00:00:28,380 --> 00:00:31,880

I touch something off the body, then I can't become them.

9

00:00:31,880 --> 00:00:36,380

And later, alien abductees are given a terrifying message.

10

00:00:36,380 --> 00:00:39,380

We are being given a choice to change our ways.

11

00:00:58,380 --> 00:01:15,380

Welcome to Sightings. I'm Tim White.

12

00:01:15,380 --> 00:01:22,380

The wide open spaces of Nevada are the perfect testing ground for the US military's top secret weapons systems and aircraft.

13

00:01:22,380 --> 00:01:27,380

So it's not unexpected that people who live there often report seen unidentified flying objects.

14

00:01:27,380 --> 00:01:31,380

But the UFOs that have been sighted most recently are unique.

15

00:01:31,380 --> 00:01:37,380

You can see that it was definitely a spheroid shaped object.

16

00:01:37,380 --> 00:01:42,380

And that it was surrounded by this very energetic field that would lag behind the maneuvers that it would make.

17

00:01:42,380 --> 00:01:46,380

We stopped on this ridge and my partner looked at me.

18

00:01:46,380 --> 00:01:48,380

His eyes were as big as fish bowls.

19

00:01:48,380 --> 00:01:53,380

And he motioned for me to look back over our shoulders to the east.

20

00:01:53,380 --> 00:01:58,380

I can't say for sure what we saw was of this earth.

21

00:01:58,380 --> 00:02:02,380

Area 51, Dreamland, Groom Lake.

22

00:02:02,380 --> 00:02:05,380

This UFO rich area has many names.

23

00:02:05,380 --> 00:02:07,380

Unless you talk to the military.

24

00:02:07,380 --> 00:02:14,380

Despite high level leaks about top secret aircraft testing here with code names like Aurora and Blackmath,

25

00:02:14,380 --> 00:02:19,380

the Pentagon continues to issue their standard denials, even to Congress.

26

00:02:19,380 --> 00:02:28,380

Every time that there's a story about Aurora or the TR-3A Blackmanta in popular science or the New York Times or something else,

27

00:02:28,380 --> 00:02:31,380

Congress calls the Pentagon on the carpet and says, what's the deal?

28

00:02:31,380 --> 00:02:33,380

They want to know if these planes exist.

29

00:02:33,380 --> 00:02:38,380

And every time they've asked about those planes, they've been told there is no such thing.

30

00:02:38,380 --> 00:02:47,380

The military has established a pattern of denial concerning these highly capricious wild aircraft beginning in the late 50s and continuing to this day.

31

00:02:47,380 --> 00:02:50,380

The pattern of denial started with the U-2.

32

00:02:50,380 --> 00:02:58,380

In the 50s, sightings of strange, cigar shaped craft were followed by leaks about a new spy plane, code named U-2.

33

00:02:58,380 --> 00:03:06,380

The military denied the existence of any such plane until Francis Gary Powers was shot down over Russia in a U-2.

34

00:03:06,380 --> 00:03:11,380

The pattern continued in the 1960s with the SR-71 Blackbird.

35

00:03:11,380 --> 00:03:15,380

In the 70s and 80s with the stealth fighter and the stealth bomber.

36

00:03:15,380 --> 00:03:18,380

And now in the 90s, it's happening again.

37

00:03:18,380 --> 00:03:27,380

There are new sightings of disc shaped craft, new leaks suggesting the discovery of an anti-gravity device and the same old denials.

38

00:03:27,380 --> 00:03:33,380

There's a certain conceit, I think, among journalists that, well, if it's real, if it's true, we can get it.

39

00:03:33,380 --> 00:03:36,380

Because Washington, the government, the Pentagon, they all leak like a sieve.

40

00:03:36,380 --> 00:03:43,380

Well, that may be the attitude in journalism, but if you ask military folks, they will tell you secrets can be kept. Secrets are kept.

41

00:03:43,380 --> 00:03:50,380

Many believe the secrets are kept here at this supposedly non-existent Nevada military base.

42

00:03:50,380 --> 00:03:57,380

Rumors suggest that anti-gravity technology being used here was actually recovered from an alien spacecraft.

43

00:03:57,380 --> 00:04:05,380

I think there's a strong possibility that we have recovered some sort of alien technology and are trying to incorporate that into military programs.

44

00:04:05,380 --> 00:04:14,380

In an attempt to penetrate the security net around Area 51, investigators Michael DeGurgorio and Roger Johnson pedaled a back country route.

45

00:04:14,380 --> 00:04:19,380

Suddenly, a series of red-orange objects flared out across the sky.

46

00:04:19,380 --> 00:04:26,380

They started at great height, seemed to descend and then flared out. It was startling.

47

00:04:26,380 --> 00:04:33,380

Then a series of silver pewter flashes went directly across the horizon at terrific speed.

48

00:04:33,380 --> 00:04:39,380

One of these silver flashes went directly up into the air. The bottom one seemed nearly to hug the ground.

49

00:04:39,380 --> 00:04:44,380

Did DeGurgorio and Johnson witness the super-secret testing of a new kind of aircraft?

50

00:04:44,380 --> 00:04:55,380

In fact, someone did think they saw too much. As they returned to base camp, they were detained by

a security patrol that seemed to be protecting more than just a stretch of arid landscape.

51

00:04:55,380 --> 00:05:01,380

Boom. Had lights come on, there was an M16 pointed at us. And here we were faced with a life and death situation.

52

00:05:01,380 --> 00:05:07,380

But we also knew that we had crossed the line back into public domain and therefore we were safe.

53

00:05:07,380 --> 00:05:15,380

Three months later, in the same area, independent investigator Mark Farmer saw the same orange-red UFOs.

54

00:05:15,380 --> 00:05:22,380

He had a camera and captured these images on film. As an aviation expert, Farmer was stunned.

55

00:05:23,380 --> 00:05:28,380

I saw the object exhibit entirely unconventional flight characteristics.

56

00:05:28,380 --> 00:05:35,380

At times it would wobble around in the sky and appear very unstable. At other times it would be in

a rock-hard hover.

57

00:05:35,380 --> 00:05:43,380

It was an old bladed sphere, multicolored, crimson on bottom, blue-green on top, much brighter than anything else in the sky.

58

00:05:43,380 --> 00:05:51,380

Is this photographic evidence of the military's latest experimental aircraft? The answer isn't likely to come from the Pentagon.

59

00:05:52,380 --> 00:05:59,380

Let me put it this way. I don't think the military has any credibility with the public in terms of its denials of this program or that program.

60

00:05:59,380 --> 00:06:07,380

They've denied the U-2 existed, they denied the SR-71 existed, they denied working on stealth. All of those programs suddenly were unveiled.

61

00:06:07,380 --> 00:06:13,380

The only information at this point comes from leaks within the government structure.

62

00:06:13,380 --> 00:06:24,380

Bob Lazar, an aerospace engineer formerly assigned to Area 51, claims the government possesses at least nine disk-shaped alien craft currently warehoused in Nevada.

63

00:06:24,380 --> 00:06:34,380

I was part of a back engineering group and our job was basically to look at these recovered disks and I say recovered because I don't know really where they came from.

64

00:06:34,380 --> 00:06:46,380

They're given to us, we found them, shot them down, who knows what. But our group basically was to back engineer them, which means to start with a finished product and go backward and see how it was fabricated

65

00:06:46,380 --> 00:06:51,380

and try and duplicate some of that technology with earthly materials.

66

00:06:51,380 --> 00:06:59,380

To me, Bob Lazar is credible. Over the past couple of years, I've spoken to literally dozens of people who've worked at that facility out there in Nevada.

67

00:06:59,380 --> 00:07:03,380

I think the technology at Area 51 originally came from somewhere else.

68

00:07:03,380 --> 00:07:11,380

They were looking at something that, as far as Bob is concerned, didn't come from this planet and they were trying to figure out how it worked.

69

00:07:11,380 --> 00:07:22,380

John Andrews is also considered a reliable source for information about government projects. He has an amazing track record for revealing aircraft projects before their official unveiling.

70

00:07:22,380 --> 00:07:30,380

He's not a military officer nor an aerospace engineer. He's a product designer for a toy company called Testo and he can't keep a secret.

71

00:07:30,380 --> 00:07:47,380

Secrecy is used oftentimes to hide the details of the funding and the size of the program. More often than not, it doesn't hide a real true technological secret.

72

00:07:48,380 --> 00:07:57,380

The Pentagon was not amused when Testo released a replica of the F-117A stealth fighter before it was officially known to the public.

73

00:07:57,380 --> 00:08:08,380

The recent release of their project Aurora model is also making waves. Why is a toy company the public's best source for information about military projects?

74

00:08:09,380 --> 00:08:18,380

They have sources throughout the military. They have sources in companies like Lockheed and Northrop and they get bits and pieces of information from here and put it all together.

75

00:08:18,380 --> 00:08:24,380

With such a remarkable track record, what's next on the Testo drawing board?

76

00:08:24,380 --> 00:08:30,380

John Andrews says it will be this. UFO replica called the sport model.

77

00:08:30,380 --> 00:08:42,380

In the case of the UFO model, we've made every effort to make it correct and to make it accurate. We've made every effort to find out the best information on the subject.

78

00:08:42,380 --> 00:08:46,380

We went to people who said that they have worked on the craft.

79

00:08:46,380 --> 00:08:55,380

Could the sport model really be the next step forward in military aircraft design? Testo says yes and the experts are listening.

80

00:08:56,380 --> 00:09:02,380

The Testo Corporation has been very lucky in terms of building models that suddenly become real planes, but it's not luck.

81

00:09:02,380 --> 00:09:09,380

Now they're telling us that they believe that flying saucers at Area 51 are a real possibility.

82

00:09:09,380 --> 00:09:20,380

This model may be the very, very first authentic plastic scale model kit of something that was designed and built and flown from another planetary system.

83

00:09:21,380 --> 00:09:26,380

I cannot say that that is absolutely certain, but there is that possibility.

84

00:09:26,380 --> 00:09:33,380

Next on Sightings, a woman's uncanny ability to communicate with animals produces astonishing results.

85

00:09:33,380 --> 00:09:36,380

It's amazing. She must be doing something.

86

00:09:40,380 --> 00:09:47,380

There is an unspoken language between people and their pets, especially if they've been together for a long time.

87

00:09:47,380 --> 00:09:54,380

The same intuitive sense that you may have with one pet, some people claim to have with all animals.

88

00:09:54,380 --> 00:09:57,380

These aren't just fanciful modern-day Dr. Doolittle's.

89

00:09:57,380 --> 00:10:03,380

Professional pet interpreters like Samantha Curry get astonishing results.

90

00:10:05,380 --> 00:10:16,380

I'm usually the last hope. The average person comes to see me because they don't know where to turn. This is their last hope.

91

00:10:16,380 --> 00:10:21,380

She's like a translator is how I would describe it.

92

00:10:22,380 --> 00:10:29,380

People seek out Samantha Curry when the special bond between pet and owner seems to be breaking down.

93

00:10:29,380 --> 00:10:40,380

She's part pet psychologist, part sounding board, and claims that her psychic connection with animals is so strong that she can often communicate with a pet even when the owner cannot.

94

00:10:40,380 --> 00:10:48,380

It was her work with the elephants at the San Diego Wild Animal Park that first brought Samantha's talents into the national spotlight.

95

00:10:51,380 --> 00:10:58,380

Well, the elephant keeper thought that his animals, the seven or eight elephants that he had, were acting a little strangely.

96

00:10:58,380 --> 00:11:08,380

The elephant keeper's wife, who knew of Samantha Curry, had mentioned this to him and I guess he figured why not give it a try.

97

00:11:08,380 --> 00:11:18,380

When I realized that I was in the presence of a very intelligent being, it was overwhelming for me.

98

00:11:18,380 --> 00:11:27,380

Zookeepers were astonished that Samantha knew things about the elephants which were not public knowledge, including the recent death of one of the herd.

99

00:11:27,380 --> 00:11:37,380

When it died, they took the body and they moved the body away. The elephants didn't even get a chance to touch that body or that form.

100

00:11:37,380 --> 00:11:46,380

The elephants at the animal park had never participated in this type of mourning ritual and Samantha told their zookeeper that this was the source of the problem.

101

00:11:46,380 --> 00:11:50,380

They wanted to grieve for their friend in their own way.

102

00:11:50,380 --> 00:11:58,380

He just said, well, I kept the skull for some reason, I don't know why. Would that help if I put the skull in the compound?

103

00:11:58,380 --> 00:12:13,380

So he had done that and then they let all of the elephants out the next day. He said that he had

heard three or four enormous cries and then they worked all day to take and separate the tusk from the skull.

104

00:12:13,380 --> 00:12:18,380

And once that was done, it was as if something was listed throughout the whole herd.

105

00:12:18,380 --> 00:12:33,380

It's theorized in the wild that elephants will have both a kind of a grief period and they'll even pick up bones of elephants that have died and carry them with them.

106

00:12:33,380 --> 00:12:41,380

Just a chance to kind of recognize that they're not here anymore, pay their respects, I guess is how we put it in human terms.

107

00:12:41,380 --> 00:12:50,380

How did the elephants communicate with Samantha? She believes that animals transmit thought with pictures instead of words and that she is sensitive to receiving those pictures.

108

00:12:50,380 --> 00:12:58,380

It's almost like going back to being in kindergarten. You see the flashcards and the picture of the boat and then the word the boat.

109

00:12:58,380 --> 00:13:04,380

By the time you get into first or second grade, that word represents the visual impression.

110

00:13:04,380 --> 00:13:15,380

And Samantha uses the same kind of word pictures to talk back to her clients like these thoroughbred show horses in Del Mar, California.

111

00:13:15,380 --> 00:13:21,380

These horses are working professionals and their owners have a big stake in their success.

112

00:13:21,380 --> 00:13:26,380

She turned around and started telling me things about the horse that only I as the rider would know about.

113

00:13:26,380 --> 00:13:30,380

Toby's a jumper. Great horse.

114

00:13:30,380 --> 00:13:37,380

I first met Toby because he was having some problems with jumping.

115

00:13:37,380 --> 00:13:43,380

He was doing very well in the Warmer ring and he'd go in the show ring and like pull four rails.

116

00:13:43,380 --> 00:13:47,380

And it just felt to me that his concentration wasn't there.

117

00:13:47,380 --> 00:13:58,380

Toby gave me visual impressions originally on how he was jumping and that he didn't understand that this is really serious business.

118

00:13:58,380 --> 00:14:01,380

He was much more playful.

119

00:14:01,380 --> 00:14:14,380

As I talked about going over the jumps that what he needed to do was just lift his legs up just a little bit higher, tuck him up close to his body

120

00:14:14,380 --> 00:14:20,380

and then that his relationship with Mark was a business.

121

00:14:20,380 --> 00:14:27,380

When Samantha was communicating with Toby and how he should be jumping over the fences, she would

go ahead and grunt.

122

00:14:27,380 --> 00:14:34,380

Well, Toby now grunts over certain fences. He doesn't grunt over every single fence, but every time he goes over a fence really well

123

00:14:34,380 --> 00:14:38,380

and he grunts, he's doing it in fairly good form.

124

00:14:38,380 --> 00:14:41,380

So I have to associate that with something that Samantha did.

125

00:14:41,380 --> 00:14:51,380

I think it would probably take me a whole year to what Samantha's been able to accomplish through the two month period of just communicating with him once.

126

00:14:51,380 --> 00:15:00,380

Toby is just one of many success stories Samantha has had working with horses at this facility, but not everyone is convinced.

127

00:15:00,380 --> 00:15:06,380

Well, I'm not really sure what to expect. I'm not very familiar with this stuff, but I guess I've got to be open-minded.

128

00:15:06,380 --> 00:15:12,380

It's only natural that many animal owners are skeptical before their first session.

129

00:15:16,380 --> 00:15:27,380

Diamond has recently become unruly, refusing to trot properly. After his owners went through the usual course of behavioral specialists, they decided to try something different.

130

00:15:27,380 --> 00:15:33,380

This is amazing. She must be doing something because I've never seen him do this.

131

00:15:34,380 --> 00:15:39,380

I've never seen him gait naturally like he's done here. I've never seen him do that.

132

00:15:39,380 --> 00:15:44,380

And that was one of his deficiencies, because he doesn't fox trot like he's supposed to.

133

00:15:44,380 --> 00:15:51,380

Although Samantha consults with many professional animals and their trainers, the bulk of her work

is with family pets.

134

00:15:51,380 --> 00:15:57,380

After 30 years of practice, Samantha has successfully brought thousands of pets and their owners closer together.

135

00:15:57,380 --> 00:16:03,380

But for client Julie Ritter, better communication with her dogs brought some surprising revelations.

136

00:16:03,380 --> 00:16:08,380

I was kind of wondering if something ever happened to the marriage, I wasn't expecting it.

137

00:16:08,380 --> 00:16:12,380

And I had to split up the 10 dogs. Who would go with who?

138

00:16:12,380 --> 00:16:16,380

Julie brought her dogs to Samantha and asked her to interpret their preferences.

139

00:16:16,380 --> 00:16:20,380

One dog gave an answer that just didn't make sense at first.

140

00:16:20,380 --> 00:16:25,380

So when we come to Scruffy, I said, well, who would you go with? She said I'd go with the little boy.

141

00:16:25,380 --> 00:16:30,380

I don't have any kids. So I said, what little boy?

142

00:16:30,380 --> 00:16:34,380

And she said, well, the little boy that lives next door.

143

00:16:34,380 --> 00:16:37,380

Well, where am I? Well, you're at church.

144

00:16:37,380 --> 00:16:43,380

And she said, well, the lady and my husband go down the hall.

145

00:16:43,380 --> 00:16:47,380

And I thought, oh my God, the only thing down the hall is bedrooms.

146

00:16:47,380 --> 00:16:53,380

And I went, oh my gosh, you're having an affair while I'm at church.

147

00:16:53,380 --> 00:16:56,380

And I started to laugh. I mean, the whole thing was hysterical.

148

00:16:56,380 --> 00:16:59,380

I'm talking to this lady with her eyes closed and dogs running around.

149

00:16:59,380 --> 00:17:04,380

And the irony is we continued to work on the marriage, but ultimately it did die.

150

00:17:04,380 --> 00:17:09,380

And he married her and the dogs slept on the little boy's bed.

151

00:17:09,380 --> 00:17:15,380

Samantha believes everyone has the ability to communicate with animals using word pictures.

152

00:17:15,380 --> 00:17:19,380

It takes time and practice, but the rewards can be great.

153

00:17:19,380 --> 00:17:22,380

All the visual pictures are in the brain.

154

00:17:22,380 --> 00:17:29,380

And then as you magnify and align your emotion with that visual, then the animal can understand you.

155

00:17:29,380 --> 00:17:34,380

If this is the key that will unlock the mystery of human animal communication,

156

00:17:34,380 --> 00:17:38,380

Samantha Curry says we will all benefit from a more humane world.

157

00:17:39,380 --> 00:17:45,380

Samantha Curry believes most people have the ability to receive visual messages

158

00:17:45,380 --> 00:17:48,380

that have been psychically transmitted by their pets.

159

00:17:48,380 --> 00:17:53,380

She suggests that the three essential elements to improving human animal communication are

160

00:17:53,380 --> 00:17:57,380

concentration, patience, and love.

161

00:17:57,380 --> 00:18:03,380

When sightings returns, mysterious formations in ice are baffling scientists.

162

00:18:03,380 --> 00:18:07,380

This is quite possible in winter equivalent of crop circles.

163

00:18:11,380 --> 00:18:18,380

Crop circles are part of a larger paranormal phenomenon called UGMs, unusual ground markings.

164

00:18:18,380 --> 00:18:23,380

A recent study found that 53% of all UGMs are made in wheat.

165

00:18:23,380 --> 00:18:28,380

But there are also enigmatic markings in oats, corn, and ice.

166

00:18:28,380 --> 00:18:35,380

Ice circles are extremely rare, so sightings in the Northeastern U.S. are drawing a lot of attention.

167

00:18:44,380 --> 00:18:48,380

Perfect circles of ice created by a cosmic compass.

168

00:18:48,380 --> 00:18:52,380

Swirling patterns that seem to demand a supernatural explanation.

169

00:18:52,380 --> 00:18:57,380

Ice circles mimic the geometric patterns of cranes and ice.

170

00:18:57,380 --> 00:19:01,380

They are symmetric patterns of crop circles, with one important difference.

171

00:19:01,380 --> 00:19:05,380

The patterns are appearing in ice that is too thin to support a person,

172

00:19:05,380 --> 00:19:09,380

virtually eliminating the possibility of human intervention.

173

00:19:09,380 --> 00:19:14,380

The National Coordinator of the Center for Crop Circle Studies is applying the same equipment

174

00:19:14,380 --> 00:19:19,380

and techniques used to document crop circles to the newly discovered ice circles.

175

00:19:19,380 --> 00:19:22,380

Her preliminary findings are very promising.

176

00:19:22,380 --> 00:19:26,380

A lot of this ice in which the circles are supposed to be happening is very thin.

177

00:19:26,380 --> 00:19:28,380

Too thin to walk out on and to measure.

178

00:19:28,380 --> 00:19:35,380

And yet how is somebody going to go out there and put these at least dozens and perhaps hundreds of swirls.

179

00:19:35,380 --> 00:19:40,380

And they're not even really cut. These weren't actually cut and beautifully separated rings.

180

00:19:40,380 --> 00:19:43,380

These were just swirls within the ice.

181

00:19:43,380 --> 00:19:46,380

Enigmatic patterns are also appearing in snow.

182

00:19:46,380 --> 00:19:51,380

The absence of footprints to and from the site casts an eerie pall over the markings.

183

00:19:51,380 --> 00:19:56,380

If this is not a natural phenomenon, who possesses the ability to hover over a snowy site

184

00:19:56,380 --> 00:19:59,380

and create mysterious messages?

185

00:19:59,380 --> 00:20:03,380

Mainstream scientists dismiss this theory of extraterrestrial intervention,

186

00:20:03,380 --> 00:20:06,380

but they can't agree on an earthly answer either.

187

00:20:06,380 --> 00:20:10,380

Some hydrologists think water currents are responsible,

188

00:20:10,380 --> 00:20:13,380

but circles have formed where there was no perceptible current.

189

00:20:13,380 --> 00:20:17,380

Meteorologists who have looked into the phenomenon blame weather,

190

00:20:17,380 --> 00:20:20,380

but don't know why or what kind.

191

00:20:20,380 --> 00:20:24,380

For geologists, it's an earth mystery with no explanation.

192

00:20:24,380 --> 00:20:29,380

One scientist who does have a possible explanation is John Burke.

193

00:20:29,380 --> 00:20:32,380

He has studied crop circles for the last ten years

194

00:20:32,380 --> 00:20:37,380

and feels his theories about grain markings may apply to ice and snow markings as well.

195

00:20:37,380 --> 00:20:43,380

Burke believes an atmospheric anomaly called plasma is the key to the circle mysteries.

196

00:20:43,380 --> 00:20:48,380

We believe that plasma forces are involved in creating crop circles

197

00:20:48,380 --> 00:20:52,380

because plasma is nothing more than electrified air particles.

198

00:20:52,380 --> 00:20:56,380

But you excite the temperature of that plasma a little higher and it will begin to glow.

199

00:20:56,380 --> 00:21:01,380

If you have it heated enough to glow, then it makes sense that it might be heated enough to melt snow

200

00:21:01,380 --> 00:21:05,380

and leave a record in the snow, because certainly it would be nice to have a winter tapestry

201

00:21:05,380 --> 00:21:09,380

to record these events on because there's no reason to believe they're seasonal.

202

00:21:09,380 --> 00:21:11,380

They quite likely occur year-round.

203

00:21:11,380 --> 00:21:14,380

Here we've got some snow circles on a frozen lake

204

00:21:14,380 --> 00:21:21,380

that if you look closely at the structure of them is not unlike what you see in a lot of crop circles.

205

00:21:21,380 --> 00:21:25,380

In this case, you could imagine that as a ring with standing crop in the center

206

00:21:25,380 --> 00:21:27,380

and that's quite a common formation.

207

00:21:27,380 --> 00:21:32,380

Now the same plasma mechanisms that form crop circles could be expected

208

00:21:32,380 --> 00:21:40,380

to be making these kinds of marks in snow if the plasma was heated sufficiently to melt the snow.

209

00:21:40,380 --> 00:21:43,380

So this is quite possible in winter equivalent of crop circles.

210

00:21:44,380 --> 00:21:49,380

Paranormal investigators believe natural phenomena can't adequately explain

211

00:21:49,380 --> 00:21:52,380

the seemingly intelligent ice, snow and crop designs.

212

00:21:52,380 --> 00:21:56,380

Given the random power of natural events like tornadoes and hurricanes,

213

00:21:56,380 --> 00:22:03,380

the orderly circles and intersecting lines here seem to demand a more supernatural explanation.

214

00:22:05,380 --> 00:22:10,380

Next on Sightings, a psychic detective is haunted by visions of murder.

215

00:22:10,380 --> 00:22:14,380

I'm not me anymore, I'm them. Sometimes I hurt very much when I'm being killed.

216

00:22:14,380 --> 00:22:19,380

And later, alien abductees are given warnings of a cosmic apocalypse.

217

00:22:24,380 --> 00:22:29,380

In case after case, police officers have reportedly solved puzzling crimes

218

00:22:29,380 --> 00:22:32,380

by operating on hunches and intuition.

219

00:22:32,380 --> 00:22:34,380

It's called blue scents.

220

00:22:34,380 --> 00:22:37,380

But when hunches and intuition don't pan out,

221

00:22:37,380 --> 00:22:42,380

more and more law enforcement agencies are turning to psychic detectives as a last resort.

222

00:22:43,380 --> 00:22:47,380

Noreen Ranair sees things no one should ever have to see.

223

00:22:50,380 --> 00:22:53,380

She feels things no one should ever have to feel.

224

00:22:57,380 --> 00:23:01,380

Noreen Ranair is a psychic detective who believes she has the ability

225

00:23:01,380 --> 00:23:06,380

to put herself into the role of killer, accomplice or victim.

226

00:23:07,380 --> 00:23:11,380

It was like stepping on the moon once I entered into this.

227

00:23:11,380 --> 00:23:15,380

And it was just I could touch a ring or watch.

228

00:23:15,380 --> 00:23:17,380

And I could see pictures in my head.

229

00:23:18,380 --> 00:23:21,380

Noreen became aware of her psychic gift by accident.

230

00:23:21,380 --> 00:23:24,380

At the age of 30, Noreen was working in public relations

231

00:23:24,380 --> 00:23:27,380

when she was asked to represent a female psychic.

232

00:23:27,380 --> 00:23:31,380

Reluctant at first, Noreen became fascinated with her new client.

233

00:23:32,380 --> 00:23:35,380

She just sort of did something on me and told me about some body scars

234

00:23:35,380 --> 00:23:40,380

and some things about me that was just no way somebody could have told her.

235

00:23:40,380 --> 00:23:45,380

So then my mind started thinking, well, if she can do this, how can she do this?

236

00:23:46,380 --> 00:23:49,380

Noreen spent several years developing her psychic ability

237

00:23:49,380 --> 00:23:52,380

before she began offering her unique services to law enforcement.

238

00:23:53,380 --> 00:23:57,380

Over the past 15 years, she claims to have had many successes,

239

00:23:57,380 --> 00:24:00,380

including one unsolved case in which her psychic vision

240

00:24:00,380 --> 00:24:04,380

led to the arrest and conviction of three murderers.

241

00:24:06,380 --> 00:24:10,380

The double murder occurred on May 15, 1986,

242

00:24:10,380 --> 00:24:14,380

in this quiet neighborhood just outside of Albany, New York.

243

00:24:14,380 --> 00:24:18,380

One moment, Jake and Dora Cohn were settling in for the night.

244

00:24:18,380 --> 00:24:20,380

The next moment, they were dead.

245

00:24:21,380 --> 00:24:23,380

They were 72 years old,

246

00:24:24,380 --> 00:24:32,380

retired couple living in a middle class, maybe blue collar neighborhood.

247

00:24:32,380 --> 00:24:35,380

And one night they were shot dead in the head.

248

00:24:36,380 --> 00:24:39,380

We had no physical evidence whatsoever, no weapon.

249

00:24:39,380 --> 00:24:42,380

We had two bullets laying at the scene, empty shell casings, and that was it.

250

00:24:43,380 --> 00:24:45,380

After four years of investigation,

251

00:24:45,380 --> 00:24:50,380

the police were no closer to solving the brutal murders of Dora and Jake Cohn.

252

00:24:50,380 --> 00:24:52,380

They'd exhausted every lead,

253

00:24:52,380 --> 00:24:56,380

and more recent crimes forced the unsolved Cohn case onto the back burner.

254

00:24:56,380 --> 00:24:59,380

But the Cohn's two children weren't ready to give up.

255

00:24:59,380 --> 00:25:01,380

They sought a different kind of help.

256

00:25:02,380 --> 00:25:06,380

The family came to us and recommended that we use a psychic in this case.

257

00:25:07,380 --> 00:25:10,380

The family wanted Noreen Reneaer.

258

00:25:10,380 --> 00:25:12,380

They'd read about her impressive track record,

259

00:25:12,380 --> 00:25:16,380

and hoped Noreen's psychic ability would help crack their case.

260

00:25:18,380 --> 00:25:21,380

I don't really need to meet everybody.

261

00:25:21,380 --> 00:25:25,380

I just need to touch something that was on the victim.

262

00:25:25,380 --> 00:25:27,380

I touch something off the body.

263

00:25:27,380 --> 00:25:30,380

Sometimes they was worn with them when they were killed.

264

00:25:30,380 --> 00:25:33,380

I touch it and I can become them.

265

00:25:33,380 --> 00:25:35,380

The technique is called psychometry.

266

00:25:35,380 --> 00:25:38,380

By handling personal items found on the victims,

267

00:25:38,380 --> 00:25:41,380

Noreen believes she can psychically step into the crime scene

268

00:25:41,380 --> 00:25:43,380

and see what actually took place.

269

00:25:43,380 --> 00:25:48,380

They sent me some bloody shoe and bloody pair of glasses.

270

00:25:48,380 --> 00:25:50,380

One was from Dora and one was from Jake.

271

00:25:50,380 --> 00:25:56,380

And then they called me and I tuned in and described what both people look like alive.

272

00:25:56,380 --> 00:25:58,380

Yeah, the hair went up on my arms and I'm thinking,

273

00:25:58,380 --> 00:26:00,380

how in the world does she ever know this?

274

00:26:00,380 --> 00:26:05,380

For example, one of her opening statements was that the victim, Dora,

275

00:26:05,380 --> 00:26:08,380

was on a phone with a female at the time she was killed.

276

00:26:08,380 --> 00:26:11,380

Now, how she ever knows that? I have no idea.

277

00:26:11,380 --> 00:26:15,380

Detectives traveled to Noreen's Florida home for a more in-depth session.

278

00:26:15,380 --> 00:26:18,380

They watched an amazement as Noreen entered a trance state

279

00:26:18,380 --> 00:26:22,380

and seemed to become Dora Cohn right before she was murdered.

280

00:26:23,380 --> 00:26:29,380

I felt like I was sitting down and I felt like there was a phone in my hand

281

00:26:29,380 --> 00:26:33,380

and I was talking to somebody I liked and I felt it was a female.

282

00:26:33,380 --> 00:26:37,380

All of a sudden, I remember hearing some noise behind me.

283

00:26:37,380 --> 00:26:42,380

When it came to a point, I had pulled Noreen's phone tolls through a court's opinion

284

00:26:42,380 --> 00:26:46,380

to make sure she didn't call all the New York to find that information.

285

00:26:46,380 --> 00:26:51,380

I mean, there was a tremendous amount of information that she was totally 100% accurate in.

286

00:26:51,380 --> 00:26:56,380

She had mentioned that a member of the family had brought the killer to the house

287

00:26:56,380 --> 00:26:59,380

on numerous occasions that the killer had eaten dinner there.

288

00:26:59,380 --> 00:27:03,380

In her trance, Noreen felt a connection between Dora's grandson and the killer.

289

00:27:03,380 --> 00:27:08,380

I was very surprised and shocked that this person was here.

290

00:27:08,380 --> 00:27:14,380

He shot me and I don't know if I get up when he shoots me again,

291

00:27:14,380 --> 00:27:20,380

but I know I'm on the floor and my back seems to be hurting me a great deal.

292

00:27:20,380 --> 00:27:23,380

And I'm on the floor and I die.

293

00:27:23,380 --> 00:27:27,380

Noreen's revelation about the grandson's involvement shocked Lieutenant Krolak.

294

00:27:27,380 --> 00:27:31,380

He'd harbored similar suspicions since he first began investigating the case.

295

00:27:31,380 --> 00:27:37,380

After 20 years on the force, Lieutenant Krolak feels he's developed his own brand of psychic ability.

296

00:27:37,380 --> 00:27:41,380

He calls it intuition, but a cop's intuition isn't always enough.

297

00:27:41,380 --> 00:27:43,380

That's where Noreen comes in.

298

00:27:43,380 --> 00:27:47,380

People think that I can do this forever and ever.

299

00:27:47,380 --> 00:27:52,380

I work very few police cases because it exhausts me so terribly that that day,

300

00:27:52,380 --> 00:27:56,380

that whatever day I've worked in the next day, I'll be drained.

301

00:27:56,380 --> 00:28:01,380

Long days of reliving brutal crimes, tracking missing children, finding bodies.

302

00:28:01,380 --> 00:28:06,380

Sometimes, Noreen says, the horrific visual images stay with her for days.

303

00:28:06,380 --> 00:28:10,380

That was certainly the case with Noreen's work on the cone murders.

304

00:28:10,380 --> 00:28:15,380

Even though she never visited the crime scene, Noreen was haunted by one particular face.

305

00:28:15,380 --> 00:28:18,380

Her psychic visions were overwhelming.

306

00:28:18,380 --> 00:28:20,380

We brought down 10 photographs.

307

00:28:20,380 --> 00:28:24,380

She looked through the 10 photographs, put a few aside, went back and looked at them again,

308

00:28:24,380 --> 00:28:26,380

and then picked up the three that she put aside.

309

00:28:26,380 --> 00:28:30,380

Put one aside and said, this is the shooter, this is the killer.

310

00:28:30,380 --> 00:28:34,380

Took another one, put it aside, said, and she believes this is an associate.

311

00:28:34,380 --> 00:28:39,380

Picks the third one, who turns out to be the grandson, and said he was part of this.

312

00:28:39,380 --> 00:28:41,380

She was accurate on all three.

313

00:28:41,380 --> 00:28:45,380

In a sad twist of fate, Noreen had pointed to the son of the woman

314

00:28:45,380 --> 00:28:48,380

who had originally hired Noreen to work on the case.

315

00:28:48,380 --> 00:28:53,380

I know that she put us in a direction that we overlooked the alibi,

316

00:28:53,380 --> 00:28:59,380

the grandson looking into him deeper, certain other bits and pieces that she gave us.

317

00:28:59,380 --> 00:29:02,380

That opened our eyes to something else.

318

00:29:02,380 --> 00:29:08,380

Lieutenant Kroidak admits that without Noreen's help, the cone case may never have been solved.

319

00:29:08,380 --> 00:29:11,380

It's not my work, it's my life.

320

00:29:11,380 --> 00:29:13,380

Anything they want me to do, I'll try.

321

00:29:13,380 --> 00:29:16,380

I feel like I'm just sort of a tool. They use other tools.

322

00:29:16,380 --> 00:29:21,380

I'm just one of the tools they use to get more information to find the bad guys.

323

00:29:23,380 --> 00:29:26,380

The shooters, Keith Snare and Robert Charles Skinner,

324

00:29:26,380 --> 00:29:31,380

were both sentenced to 60 years in prison without the possibility of parole.

325

00:29:31,380 --> 00:29:35,380

James Mariani, who was the cone's grandson, was sentenced to 40 years in prison

326

00:29:35,380 --> 00:29:37,380

without the possibility of parole.

327

00:29:37,380 --> 00:29:41,380

Noreen Rainier continues to work as a psychic detective.

328

00:29:41,380 --> 00:29:47,380

Next on Cytings, alien abductees receive a terrifying message from their captors.

329

00:29:47,380 --> 00:29:51,380

We are apparently a malignancy at a cosmic level now.

330

00:29:55,380 --> 00:30:00,380

Perhaps the most controversial subject we investigate on Cytings is alien abduction.

331

00:30:00,380 --> 00:30:04,380

More and more seemingly credible people are coming forward,

332

00:30:04,380 --> 00:30:08,380

claiming that they've been abducted, probed and manipulated by aliens.

333

00:30:08,380 --> 00:30:11,380

And now there's a new pattern developing.

334

00:30:11,380 --> 00:30:18,380

Supposed abductees are returning from their experiences with a cautionary message for us all.

335

00:30:20,380 --> 00:30:24,380

There's a new frightening chapter in the abduction story.

336

00:30:24,380 --> 00:30:28,380

Many abductees are claiming that their alien captors send them home

337

00:30:28,380 --> 00:30:31,380

with apocalyptic predictions about life on Earth.

338

00:30:31,380 --> 00:30:35,380

It's a terrifying conclusion to an already horrible ordeal.

339

00:30:35,380 --> 00:30:40,380

I'm on my back on the bed and she's at the foot of my bed and she's doing something to me.

340

00:30:40,380 --> 00:30:44,380

We had this flashback of being on this table, being surrounded by these beings.

341

00:30:44,380 --> 00:30:48,380

I don't know what she was doing. She had some sort of an instrument in her hand.

342

00:30:48,380 --> 00:30:53,380

Little grey guys with big dark eyes and one of them was putting a needle in my neck.

343

00:30:53,380 --> 00:30:55,380

Until recently, the story would end there.

344

00:30:55,380 --> 00:30:59,380

But now abductees are returning with more than horror stories.

345

00:30:59,380 --> 00:31:03,380

They feel they are intergalactic messengers who must deliver dire predictions.

346

00:31:03,380 --> 00:31:07,380

This new mission intrigues Harvard Professor John Mack.

347

00:31:07,380 --> 00:31:13,380

This Pulitzer Prize-winning psychiatrist at Cambridge Hospital is now treating people he calls experiencers.

348

00:31:13,380 --> 00:31:18,380

In his new book, *Abduction*, Mack presents 13 Case Histories.

349

00:31:18,380 --> 00:31:21,380

I thought this is crazy. I mean, I thought this is not possible.

350

00:31:21,380 --> 00:31:24,380

I'd seen many, many cases and worked for two years before.

351

00:31:24,380 --> 00:31:27,380

I said, look, there's a mystery here. I can't explain this.

352

00:31:27,380 --> 00:31:30,380

There's something like what they're saying seems to be happening to them.

353

00:31:30,380 --> 00:31:36,380

You actually have seen them in your room in bright sun daylight. What did you see?

354

00:31:36,380 --> 00:31:45,380

Currently working with over 100 patients, Dr. Mack's clinical approach gives abductees a chance to talk openly about their experiences.

355

00:31:46,380 --> 00:31:53,380

I would have experiences that were so real, that were so lucid.

356

00:31:53,380 --> 00:32:03,380

They were every bit as real as me talking to you now, and yet I would dismiss them because they were so out of context.

357

00:32:03,380 --> 00:32:09,380

Joe is a successful businessman from Massachusetts, who's had abduction memories since early childhood.

358

00:32:09,380 --> 00:32:14,380

He kept these experiences to himself until hearing about Dr. Mack's study.

359

00:32:14,380 --> 00:32:17,380

His abduction history is outlined in Mack's book.

360

00:32:17,380 --> 00:32:23,380

It's a detailed chronicle of otherworldly control and painful medical experimentation.

361

00:32:23,380 --> 00:32:31,380

They put something up my nose and was very disarming.

362

00:32:32,380 --> 00:32:39,380

And yet there's that sense of almost a split self, because there's a part of me that's terrified and doesn't understand,

363

00:32:39,380 --> 00:32:45,380

and yet there's this other part of me that they've already explained the procedure to and why.

364

00:32:45,380 --> 00:32:49,380

Over time, Joe's abduction experiences have changed.

365

00:32:49,380 --> 00:32:56,380

In an extraterrestrial version of the Stockholm syndrome, he has less fear and has begun identifying with his captors.

366

00:32:56,380 --> 00:33:02,380

Once they begin to come to terms with their terror of the trauma, the experience tends to transform.

367

00:33:02,380 --> 00:33:09,380

They feel they're somehow connected with these beings, and they experience the beings themselves as closer to the source,

368

00:33:09,380 --> 00:33:13,380

which is a term they use very often, or home.

369

00:33:13,380 --> 00:33:18,380

It was the most profound experience of my life.

370

00:33:18,380 --> 00:33:23,380

But that kind of profound transformation does not happen in every case.

371

00:33:23,380 --> 00:33:29,380

The first being that I ever saw consciously in my entire life was sitting right here.

372

00:33:29,380 --> 00:33:34,380

Diane, a software test engineer, is also a patient of Dr. Max.

373

00:33:34,380 --> 00:33:38,380

She's documenting her encounters with these watercolor pictures.

374

00:33:38,380 --> 00:33:44,380

This picture was in the fall of 1992. It took place here in the house, and I woke up, started to pivot around,

375

00:33:44,380 --> 00:33:49,380

found I couldn't move and something released, and I said I could move.

376

00:33:49,380 --> 00:33:57,380

I see in the room, just about to give up, and I see a small gray female being sitting there, just waiting for me to spot her.

377

00:33:57,380 --> 00:34:03,380

And then she, I don't know whether she flew or what, but she sure came across the bed fast, right up to my face,

378

00:34:03,380 --> 00:34:08,380

and steered right like this.

379

00:34:08,380 --> 00:34:15,380

Although the experiences don't fit our notions of reality, there's no reason to believe that they're not telling the truth,

380

00:34:15,380 --> 00:34:21,380

but that something occurred to them that is real, and they're telling it truthfully.

381

00:34:21,380 --> 00:34:26,380

To corroborate these personal beliefs, Dr. Max searches for parallels among abduction stories.

382

00:34:26,380 --> 00:34:32,380

The most common thread, and ironically the most extraordinary, involves reproductive experiments.

383

00:34:32,380 --> 00:34:41,380

Sperm samples taken from the men by a cup put over the penis, some kind of vibratory energy that causes an ejaculation.

384

00:34:41,380 --> 00:34:50,380

Eggs taken from the women, something is done between the egg and the sperm, which may be re-implanted in the woman in a subsequent abduction,

385

00:34:50,380 --> 00:34:59,380

then that will be taken, the fetus will be taken from them at a later time. That's their experience.

386

00:34:59,380 --> 00:35:06,380

I flew out the window like a sucking vacuumed out feeling with all the air pushed out of me.

387

00:35:06,380 --> 00:35:18,380

I ended up on a craft, laying down on a table, and next thing I know, I see a child.

388

00:35:18,380 --> 00:35:25,380

One of those ugly little great things is holding a child up, and I said, no, that didn't come out of me.

389

00:35:25,380 --> 00:35:33,380

At the end of that experience, I blacked out and came to standing on this platform, and I was not home anymore.

390

00:35:33,380 --> 00:35:40,380

I was somewhere else, I don't know where this was. I felt like I was on a ship.

391

00:35:40,380 --> 00:35:46,380

The emotion is so appropriate to a real experience. Dreams don't operate like that, fantasies aren't like that,

392

00:35:46,380 --> 00:35:53,380

trauma displaced from some of the sources isn't like that, it isn't just a traumatic story, it's a complicated, consistent narrative

393

00:35:53,380 --> 00:35:57,380

that operates clinically altogether like a real experience.

394

00:35:57,380 --> 00:36:05,380

The complicated, consistent narrative Dr. Max Patience described always has a beginning, middle, and most recently the same exact ending.

395

00:36:05,380 --> 00:36:14,380

Before they are returned home, the abductees are warned about an impending apocalypse, unless all people on earth drastically change their way of thinking.

396

00:36:14,380 --> 00:36:27,380

We are told that the human experience, the human race, as we have known it, is becoming or soon to be non-viable, not extinct.

397

00:36:27,380 --> 00:36:36,380

It can't survive. My own sense of it, and this is purely speculative, is that we are also being given a choice to change our ways.

398

00:36:36,380 --> 00:36:45,380

We were here to shepherd or steward the earth, to be responsible for a higher consciousness, and what we've become so far from the creator,

399

00:36:45,380 --> 00:36:56,380

so distant from the source that we have treated the earth like it was our property, and we are apparently a malignancy at a cosmic level now.

400

00:36:56,380 --> 00:37:08,380

The message is, wake up, grow up. The sandbox that you're littering is not your own.

401

00:37:08,380 --> 00:37:20,380

That you are not alone, that you don't need to feel the sense of isolation and separation that you have felt, that you're part of a bigger community.

402

00:37:21,380 --> 00:37:31,380

According to a recent Roper poll, one in 50 American adults exhibits at least four out of the five most common symptoms reported by alien abductees.

403

00:37:31,380 --> 00:37:41,380

That's a staggering statistic, because it seems to indicate that 2% of our adult population is experiencing something for which no one has a conclusive explanation.

404

00:37:42,380 --> 00:37:45,380

Next, is NASA hiding a startling discovery?

405

00:37:45,380 --> 00:37:52,380

NASA knows more about anomalous structures on Mars, possible extraterrestrials, but they're not telling us about.

406

00:37:55,380 --> 00:38:03,380

In 1976, the Viking mission to Mars sent back the first high-resolution photographs ever taken of

the Martian surface.

407

00:38:03,380 --> 00:38:08,380

Since then, two additional missions have attempted to get even closer, but both have failed.

408

00:38:08,380 --> 00:38:19,380

In 1990, a Russian Mars probe named Phobos disappeared, and in 1993, a U.S. probe, the Mars Observer, met a similar fate.

409

00:38:19,380 --> 00:38:26,380

The unmanned Mars Observer carried some of the most sophisticated equipment ever sent into space.

410

00:38:26,380 --> 00:38:32,380

The Observer's mission was to conduct a comprehensive photographic survey of Earth's nearest planetary neighbor, Mars.

411

00:38:32,380 --> 00:38:37,380

But while on approach to the Martian surface, the Observer failed.

412

00:38:37,380 --> 00:38:44,380

Curiously, one area the probe was supposed to be photographing at the time was a controversial

region called Sedonia.

413

00:38:44,380 --> 00:38:50,380

Pictures taken in 1976 seem to show artificial structures in this area.

414

00:38:50,380 --> 00:38:58,380

Just when the Observer seemed to be moving in for a closer look, NASA said technical malfunction. No more pictures.

415

00:38:58,380 --> 00:39:09,380

It's quite possible that NASA knows more about anomalous structures on Mars, possible extraterrestrials, even structures on our moon that they're not telling us about.

416

00:39:09,380 --> 00:39:16,380

There is sufficient evidence to indicate that some of the objects on Mars may possibly be artificial.

417

00:39:16,380 --> 00:39:21,380

NASA's position is that nothing has been constructed on the surface of Mars.

418

00:39:21,380 --> 00:39:26,380

The face and pyramids that appear in the 1976 pictures are just tricks of light and shadow.

419

00:39:28,380 --> 00:39:33,380

But these computer enhanced 3D images seem to disprove NASA's claims.

420

00:39:33,380 --> 00:39:39,380

They show that the face on Mars is clearly visible, no matter where it is in relation to the Sun.

421

00:39:39,380 --> 00:39:45,380

I was quite interested with the first photos and release of the face on Mars.

422

00:39:45,380 --> 00:39:56,380

But particularly, I thought it was interesting the pyramidal structures that some of these pyramids appear to have even a central stairway running up and down them.

423

00:39:56,380 --> 00:40:03,380

The more we look at these structures, the more we can see that there's something amazing here.

424

00:40:03,380 --> 00:40:09,380

Some researchers believe that NASA is withholding important photos and data taken in the Sedonia region.

425

00:40:09,380 --> 00:40:17,380

They suggest NASA created the Observer malfunction story to hide what could be the greatest archaeological discovery of all time.

426

00:40:17,380 --> 00:40:22,380

If some people want to go far beyond the edge of what's accepted in terms of imagery,

427

00:40:22,380 --> 00:40:27,380

see patterns on the rocks of Mars or on the moon or in the rings of Saturn,

428

00:40:27,380 --> 00:40:34,380

my view to that is mausoleum tough. Go do it. Try it out. Make your proposals.

429

00:40:34,380 --> 00:40:40,380

Stan McDaniel is a retired professor who has conducted an in-depth study of the Mars structures.

430

00:40:40,380 --> 00:40:46,380

He is intrigued by the seemingly deliberate placement of the face in relation to the pyramids.

431

00:40:46,380 --> 00:40:58,380

These objects, if you measure carefully from the tops of the five that surround this city square point, you find an almost perfectly symmetrical pentagon.

432

00:40:58,380 --> 00:41:06,380

If NASA does have new information about these reportedly artificial structures on Mars, why are they hiding it from the public?

433

00:41:06,380 --> 00:41:13,380

An advisory report from the Brookings Institution, a Washington, D.C. based think tank, may hold the answer.

434

00:41:13,380 --> 00:41:21,380

There is a section on what might occur if evidence of extraterrestrial existence was found on other planets.

435

00:41:21,380 --> 00:41:29,380

They said that NASA or the government might want to consider keeping the information from the public,

436

00:41:29,380 --> 00:41:36,380

the reason being that it could cause widespread social unrest and possible deterioration of government control.

437

00:41:36,380 --> 00:41:40,380

The official NASA position is that there is no cover-up.

438

00:41:40,380 --> 00:41:46,380

They insist Mars observers suffered a catastrophic electrical failure, rendering it inoperable.

439

00:41:46,380 --> 00:41:52,380

It did not lose transmission. They turned it off.

440

00:41:52,380 --> 00:41:59,380

And they turned it off after the instructions for going into orbit had been uploaded to the spacecraft.

441

00:41:59,380 --> 00:42:05,380

It was possible then that the spacecraft would go ahead, follow out those instructions and go into orbit.

442

00:42:05,380 --> 00:42:10,380

Before we start saying how these rocket scientists messed up and they did mess up,

443

00:42:10,380 --> 00:42:17,380

we have to keep realizing just how tough these projects are, that we're doing things out there in space every time we do it,

444

00:42:17,380 --> 00:42:25,380

that no one even thought was possible a few years or decades ago. These are really incredibly tough missions to accomplish.

445

00:42:25,380 --> 00:42:31,380

The debate may end in 1996, when NASA plans on launching a new Mars probe.

446

00:42:31,380 --> 00:42:40,380

This may be the second chance ufologists are hoping will prove the existence of an ancient civilization on Mars.

447

00:42:40,380 --> 00:42:48,380

In addition to the formations on Mars, one research group is studying what appear to be strange structures on the surface of the moon.

448

00:42:48,380 --> 00:42:54,380

This photograph of the lunar surface shows two geometric shapes. The circle could be a crater,

449

00:42:54,380 --> 00:43:01,380

but the triangle seems unlike any other naturally occurring formations that we know on the moon.

450

00:43:24,380 --> 00:43:27,380

In the writings, scientists close in on Bigfoot.

451

00:43:27,380 --> 00:43:32,380

It's a very tough task to find one of these things. I think we're the people who are going to find one.

452

00:43:32,380 --> 00:43:34,380

A paralyzed boy prays for death.

453

00:43:34,380 --> 00:43:37,380

It's definitely, uh, like I was possessed.

454

00:43:37,380 --> 00:43:39,380

And is saved by the light.

455

00:43:39,380 --> 00:43:41,380

I came back and I was a different man.

456

00:43:41,380 --> 00:43:44,380

Then alien abduction. Could you be next?

457

00:43:44,380 --> 00:43:49,380

I know something has happened to me, but I was in extreme denial.

458

00:43:49,380 --> 00:43:54,380

Until next time, remember, no mystery is closed to an open mind.

459

00:43:54,380 --> 00:43:57,380

For Sightings, I'm Tim White.

460

00:44:19,380 --> 00:44:21,380

I wish you cut the three days of the condor crap.
