

1

00:00:00,000 --> 00:00:16,080

Have aliens contacted three generations of one family?

2

00:00:16,080 --> 00:00:18,840

We can talk about it openly so everybody's okay with it.

3

00:00:18,840 --> 00:00:22,280

They say they've all shared similar experiences with extraterrestrials.

4

00:00:22,280 --> 00:00:25,440

I had them on my upper arm and I was being pulled.

5

00:00:25,440 --> 00:00:36,080

I have never had a student who does what he does.

6

00:00:36,080 --> 00:00:40,320

How a blind man can see on the next sightings.

7

00:00:40,320 --> 00:00:49,120

Have aliens contacted three generations of one family?

8

00:00:49,120 --> 00:00:51,920

We can talk about it openly so everybody's okay with it.

9

00:00:51,920 --> 00:00:55,720

They say they've all shared similar experiences with extraterrestrials.

10

00:00:55,720 --> 00:00:58,520

I had them on my upper arm and I was being pulled.

11

00:00:58,520 --> 00:01:08,960

The generational abduction on the next sightings.

12

00:01:08,960 --> 00:01:12,240

Have aliens contacted three generations of one family?

13

00:01:12,240 --> 00:01:15,040

I had them on my upper arm and I was being pulled.

14

00:01:15,040 --> 00:01:26,720

They've all encountered extraterrestrials, the generational abduction on sightings.

15

00:01:26,720 --> 00:01:29,400

I had them on my upper arm and I was being pulled.

16

00:01:29,400 --> 00:01:32,720

Have aliens contacted three generations of one family?

17

00:01:32,720 --> 00:01:33,720

On sightings.

18

00:01:45,040 --> 00:02:14,840

I had them on my upper arm and I was being pulled.

19

00:02:14,840 --> 00:02:37,320

I have never had a student who does what he does.

20

00:02:37,320 --> 00:02:41,640

We can talk about it openly so everybody's okay with it.

21

00:02:42,640 --> 00:03:00,640

I had them on my upper arm and I was being pulled.

22

00:03:00,640 --> 00:03:14,640

I had them on my upper arm and I was being pulled.

23

00:03:14,640 --> 00:03:43,640

I had them on my upper arm and I was being pulled.

24

00:03:43,640 --> 00:03:53,640

I had them on my upper arm and I was being pulled.

25

00:03:53,640 --> 00:04:03,640

I had them on my upper arm and I was being pulled.

26

00:04:03,640 --> 00:04:13,640

I had them on my upper arm and I was being pulled.

27

00:04:13,640 --> 00:04:23,640

I had them on my upper arm and I was being pulled.

28

00:04:23,640 --> 00:04:27,640

To understand why she's called Amazing Grace.

29

00:04:27,640 --> 00:04:34,640

To the surprise of the medical community, she survived a situation where nobody should have survived.

30

00:04:53,640 --> 00:05:04,640

Welcome to Sightings.

31

00:05:04,640 --> 00:05:06,640

I'm Tim White.

32

00:05:06,640 --> 00:05:10,640

The alien abduction phenomenon has come under fierce attack recently.

33

00:05:10,640 --> 00:05:18,640

It's laughable, the skeptics insist, to believe that extraterrestrial visitors are taking humans against their will for a sinister purpose.

34

00:05:18,640 --> 00:05:21,640

But new abductees are coming forward all the time.

35

00:05:21,640 --> 00:05:25,640

They withstand the ridicule because for them alien abduction is not a phenomenon.

36

00:05:25,640 --> 00:05:37,640

It's an objective reality.

37

00:05:37,640 --> 00:05:43,640

Three generations of one family enjoying a stroll after dinner on a warm summer evening.

38

00:05:43,640 --> 00:05:49,640

Plain ping pong, sitting around the backyard laughing at dumb jokes.

39

00:05:49,640 --> 00:05:52,640

It's the good life in Roseville, California.

40

00:05:52,640 --> 00:06:00,640

When you're on the outside looking in, but what you can't see on the surface is the bizarre secret that this family shares.

41

00:06:00,640 --> 00:06:04,640

A secret that will forever set them apart from their friends and neighbors.

42

00:06:04,640 --> 00:06:14,640

When you have a family like ours, very open about it, it makes it easier to deal with the fears and the anxieties of finding out something like this.

43

00:06:14,640 --> 00:06:25,640

Shannen Hernandez, her mother Debbie McGill and Shannon's five-year-old son Zachary believe that they are being targeted by an extraterrestrial force.

44

00:06:25,640 --> 00:06:32,640

They are three generations of one family who claim to have been repeatedly abducted by alien life forms.

45

00:06:32,640 --> 00:06:38,640

It's a rare phenomenon researchers have named generational encounters.

46

00:06:39,640 --> 00:06:45,640

The advantage of the whole family being contactees is that we can talk about it openly so everybody's okay with it.

47

00:06:45,640 --> 00:06:53,640

Generational encounters refers to a series of contacts between extraterrestrials and more than one member of a family,

48

00:06:53,640 --> 00:06:57,640

and more specifically between different generations.

49

00:06:57,640 --> 00:07:03,640

Sometimes we see three or even four sequential generations who've experienced extraterrestrial contact.

50

00:07:03,640 --> 00:07:09,640

Dr. Richard Boyle has done extensive study of the generational encounters phenomenon.

51

00:07:09,640 --> 00:07:14,640

He has reached the conclusion that far more cases exist that are actually reported.

52

00:07:14,640 --> 00:07:23,640

I would say that certainly in half the cases where there's been contact by ETs over any period of time,

53

00:07:23,640 --> 00:07:28,640

there will be contact with the person who has children.

54

00:07:28,640 --> 00:07:35,640

They may talk to their parent, find out the parent's been secretly harboring a contact experience in his or her own life,

55

00:07:35,640 --> 00:07:39,640

and of course spousal contacts are very common.

56

00:07:39,640 --> 00:07:44,640

Debbie McGill believes her first alien contact occurred in 1972 in Northern California.

57

00:07:44,640 --> 00:07:50,640

Her daughter Shannon has only recently uncovered memories of her own extraterrestrial encounters.

58

00:07:50,640 --> 00:07:58,640

In late March I had a dream that I was being pulled by five, what I'd like to call grays,

59

00:07:58,640 --> 00:08:05,640

typical grays, ETs. I had them on my upper arm, lower arm, and I was being pulled.

60

00:08:05,640 --> 00:08:08,640

I woke up terrified, absolutely terrified.

61

00:08:08,640 --> 00:08:12,640

The light came in, bed shaking, it's kind of like it all happened at once.

62

00:08:12,640 --> 00:08:17,640

I opened my eyes and up on my wall I saw the face of an E.T. very clearly.

63

00:08:17,640 --> 00:08:22,640

For a couple of weeks I was real scared of the dark. It was a real adjustment.

64

00:08:22,640 --> 00:08:30,640

Shannon kept the frightening images to herself until her son Zachary came to her with stories that sounded hauntingly familiar.

65

00:08:30,640 --> 00:08:38,640

One day he came out to me and told me about how the aliens landed in the backyard and even showed me where they parked.

66

00:08:38,640 --> 00:08:43,640

There was a little fear at first for him too. He was scared of the dark and things like that.

67

00:08:43,640 --> 00:08:53,640

We had an open discussion about it. He told his mother about the E.T.s coming and they take him to play while mommy and daddy sleep.

68

00:08:53,640 --> 00:09:03,640

I'm telling the truth here. That's all. That's all I can say.

69

00:09:03,640 --> 00:09:14,640

Based on my observations of him he certainly seems to be a bright kid who's certainly above average for his age group and his poise and verbal skills.

70

00:09:14,640 --> 00:09:22,640

There seems to be a statistical trend with kids who've had E.T. contact that they seem to be at a performance level a bit above average.

71

00:09:22,640 --> 00:09:27,640

You wouldn't expect that to hold true as much as it does if it was just a fluke.

72

00:09:27,640 --> 00:09:34,640

To be pulled from bed by an unseen hand and carried away by a non-human form would seem a nightmare for most.

73

00:09:34,640 --> 00:09:39,640

But Shannon, Debbie and Zachary report that the contact has been friendly.

74

00:09:39,640 --> 00:09:47,640

Because it has been a positive experience overall Debbie and Shannon call themselves experiencers rather than abductees.

75

00:09:47,640 --> 00:09:52,640

Abductees has a negative connotation to it. It means stolen.

76

00:09:52,640 --> 00:09:59,640

I prefer to call myself an experiencer because they're not taking me unwillingly. I go quite willingly.

77

00:09:59,640 --> 00:10:02,640

If you would track this puzzle.

78

00:10:02,640 --> 00:10:07,640

Her daughters and grandsons experiences confirm what Debbie has felt for years.

79

00:10:07,640 --> 00:10:12,640

That her family has been the object of extraterrestrial scrutiny for a quarter of a century.

80

00:10:12,640 --> 00:10:16,640

The reason why is being explored through therapy.

81

00:10:16,640 --> 00:10:21,640

Do you notice anything about you?

82

00:10:22,640 --> 00:10:24,640

Pictures.

83

00:10:24,640 --> 00:10:28,640

Do you know why you're seeing these pictures?

84

00:10:28,640 --> 00:10:31,640

To learn.

85

00:10:31,640 --> 00:10:33,640

This is about the future?

86

00:10:33,640 --> 00:10:34,640

Yeah.

87

00:10:34,640 --> 00:10:35,640

How far ahead?

88

00:10:35,640 --> 00:10:36,640

Way distant in the future?

89

00:10:36,640 --> 00:10:37,640

Not way distant.

90

00:10:37,640 --> 00:10:39,640

Pretty close in the future?

91

00:10:39,640 --> 00:10:40,640

Next few years.

92

00:10:40,640 --> 00:10:45,640

Based on the pictures what would you say is coming up in the next few years?

93

00:10:45,640 --> 00:10:47,640

Major changes.

94

00:10:47,640 --> 00:10:49,640

Geological changes.

95

00:10:49,640 --> 00:10:53,640

Is there some kind of overall message you can take from this or lesson?

96

00:10:53,640 --> 00:10:57,640

Yeah, not to worry. Things will be okay.

97

00:10:57,640 --> 00:11:01,640

And why will things be okay if there's such major shifts?

98

00:11:01,640 --> 00:11:04,640

Because it's all for the best.

99

00:11:04,640 --> 00:11:11,640

Apocalyptic images conveyed through telepathy or mind control are a common theme among experiencers.

100

00:11:11,640 --> 00:11:16,640

And there are very specific images both mother and daughter remember being shown.

101

00:11:17,640 --> 00:11:21,640

Did the ETs communicate with you while you were seeing these pictures?

102

00:11:21,640 --> 00:11:22,640

Yes.

103

00:11:22,640 --> 00:11:24,640

And what was the flavor of their communication?

104

00:11:24,640 --> 00:11:26,640

And the sense of urgency.

105

00:11:26,640 --> 00:11:27,640

Urgency.

106

00:11:27,640 --> 00:11:30,640

For me to understand something.

107

00:11:30,640 --> 00:11:33,640

ETs give a variety of different kinds of messages.

108

00:11:33,640 --> 00:11:45,640

Such things as earth changes, cataclysms, geological weather, epidemics, social unrest,

109

00:11:45,640 --> 00:11:48,640

and more have all been shown to experiencers.

110

00:11:48,640 --> 00:11:54,640

And it appears that these future scenes are either probable futures that will happen unless we clean up Iraq.

111

00:11:54,640 --> 00:12:00,640

Like a growing number of experiencers, Shannon and Debbie believe that they have been charged with a mission.

112

00:12:00,640 --> 00:12:04,640

They have been told to spread the aliens otherworldly warning.

113

00:12:04,640 --> 00:12:07,640

And they have been told to move away from California.

114

00:12:07,640 --> 00:12:14,640

They don't know why they are to move, but the family believes that the reason will be revealed to them when the time is right.

115

00:12:14,640 --> 00:12:18,640

I just got up one day last summer and said, I've got to move to New Mexico.

116

00:12:18,640 --> 00:12:20,640

I mean, I just knew.

117

00:12:20,640 --> 00:12:24,640

The entire family has now relocated to New Mexico.

118

00:12:24,640 --> 00:12:30,640

Debbie and Shannon are trying to spread the message they believe they've received through extraterrestrial contact.

119

00:12:32,640 --> 00:12:39,640

After the completion of this report, Dr. Richard Boylan's license was revoked by the California State Board of Psychology.

120

00:12:39,640 --> 00:12:43,640

For misconduct unrelated to his work with the McGill and Hernandez families.

121

00:12:43,640 --> 00:12:52,640

Both families wrote to the board and to sightings stating that they continue to believe in and trust the therapy that they've received from Dr. Boylan.

122

00:12:52,640 --> 00:12:59,640

Next, Dan Kish is blind, but his uncanny ability to see could change the world for the sightless.

123

00:12:59,640 --> 00:13:02,640

I have never had a student who does what he does.

124

00:13:03,640 --> 00:13:18,640

It's a well-known fact that people who have lost one or more senses, like sight or hearing, can sometimes develop their other senses to an uncanny degree.

125

00:13:18,640 --> 00:13:20,640

Doctors call it compensation.

126

00:13:20,640 --> 00:13:27,640

Dan Kish, a sightless man in San Bernardino, California, appears to have gone compensation one

better.

127

00:13:27,640 --> 00:13:34,640

Sightings correspondent Carla Wall reports on what appears to be Dan's development of an entirely new sense.

128

00:13:40,640 --> 00:13:48,640

Imagine trying to navigate the busy world around us without the critical sense of sight, without the ability to see impending danger,

129

00:13:48,640 --> 00:13:52,640

or even the ordinary signposts we take for granted.

130

00:13:52,640 --> 00:13:59,640

Today, blind people are taught that they need the eyes of another, a dog or a helper, to negotiate the world of the sighted.

131

00:13:59,640 --> 00:14:01,640

Dan Kish disagrees.

132

00:14:01,640 --> 00:14:05,640

He's developed a sixth sense that gives him complete independence.

133

00:14:05,640 --> 00:14:11,640

He's the only human known to use echolocation as skillfully as bats and dolphins.

134

00:14:11,640 --> 00:14:15,640

Dan, what is it exactly that you do when you echolocate?

135

00:14:15,640 --> 00:14:22,640

Well, usually I click and then I listen for the sound as it bounces off of all the objects in the environment.

136

00:14:22,640 --> 00:14:25,640

So something like a bat would do say or a dolphin would do?

137

00:14:25,640 --> 00:14:29,640

Well, it's exactly the same. The click is different, but the process is the same.

138

00:14:32,640 --> 00:14:34,640

Can you tell me where the trees are?

139

00:14:34,640 --> 00:14:38,640

Sure. Well, we just passed one, and here we have another one.

140

00:14:38,640 --> 00:14:39,640

The tree?

141

00:14:39,640 --> 00:14:41,640

It's smaller than some of these others.

142

00:14:41,640 --> 00:14:43,640

We have one here that's much larger.

143

00:14:43,640 --> 00:14:46,640

Dan can visualize an object by the echo it creates.

144

00:14:46,640 --> 00:14:52,640

It's a unique ability Dan taught himself as a young boy before he even knew there was a name for it,

145

00:14:52,640 --> 00:14:55,640

or that other animals used the same method.

146

00:14:55,640 --> 00:15:04,640

I can remember as him clicking, similar to that of a bat, I suppose, and trying to locate things in front of him.

147

00:15:04,640 --> 00:15:07,640

And I used to ask him questions, you know, why are you doing that?

148

00:15:07,640 --> 00:15:12,640

And he would tell me that it's his way of moving around, it's his way of seeing things.

149

00:15:12,640 --> 00:15:16,640

For me, the signal is a tongue click, it sounds like this.

150

00:15:21,640 --> 00:15:22,640

Pole.

151

00:15:23,640 --> 00:15:26,640

The object I'm looking for is this bulletin board.

152

00:15:27,640 --> 00:15:32,640

I've worked for 21 years as a mobility instructor, and so I've had hundreds of students.

153

00:15:33,640 --> 00:15:36,640

I have never had a student who does what he does.

154

00:15:37,640 --> 00:15:40,640

In fact, no one is known to do what Dan Kish does.

155

00:15:40,640 --> 00:15:45,640

He would walk along, and he would be clicking, and he would know there's a wall on my right,

156

00:15:45,640 --> 00:15:50,640

or there's a big tree now on my left side, or I'm coming to the corner, or whatever it happens to be.

157

00:15:51,640 --> 00:15:55,640

How specific can you get? For instance, crossing the street here with your echo location,

158

00:15:55,640 --> 00:15:58,640

can you tell me where a curb is, say, and where a driveway is?

159

00:15:58,640 --> 00:16:00,640

Well, sure, there are different heights.

160

00:16:01,640 --> 00:16:09,640

The curb is higher, it reflects more sound, the driveway a lot less, and the driveway is just lower.

161

00:16:09,640 --> 00:16:11,640

So that's easy for you? Sure.

162

00:16:12,640 --> 00:16:20,640

His ability to locate and navigate around obstacles allows Dan to do something no other sightless person is encouraged to do.

163

00:16:21,640 --> 00:16:25,640

The first time Dan rode a bike, our family saw him riding a bike,

164

00:16:26,640 --> 00:16:31,640

it's probably the first time that they really realized that Dan could do just about anything he wanted.

165

00:16:31,640 --> 00:16:34,640

I used to go bike riding all the time, because it was something that I could do.

166

00:16:34,640 --> 00:16:40,640

I wasn't relegated automatically to a tandem bike, or to riding on someone's handlebars,

167

00:16:40,640 --> 00:16:43,640

or to just staying at home while everyone else went on a ride.

168

00:16:44,640 --> 00:16:48,640

Dan allowed us to challenge his ability to navigate in unfamiliar territory.

169

00:16:48,640 --> 00:16:52,640

We took him to a playground, studied with metal poles.

170

00:16:52,640 --> 00:16:55,640

Incredibly, he avoided the obstacles.

171

00:16:55,640 --> 00:17:02,640

The process of riding a bicycle, particularly in unfamiliar areas, is both very exhilarating and very demanding.

172

00:17:02,640 --> 00:17:09,640

Demanding to the point where I might say that I can feel myself almost entering another state of consciousness,

173

00:17:09,640 --> 00:17:16,640

where the senses are wide open, and there is no room for a person to be able to go on a ride.

174

00:17:16,640 --> 00:17:23,640

I can feel myself almost entering another state of consciousness, where the senses are wide open,

175

00:17:23,640 --> 00:17:29,640

and there is no room for any other thought but the process of riding a bicycle itself.

176

00:17:30,640 --> 00:17:34,640

Understanding echolocation is just in its beginning stages.

177

00:17:36,640 --> 00:17:41,640

We seem to have just gotten an appreciation for how miraculous this ability actually is.

178

00:17:41,640 --> 00:17:49,640

Dr. Lawrence Rosenblum believes Dan's ability offers a unique opportunity to study how the brain perceives sound.

179

00:17:51,640 --> 00:17:57,640

It might be something like getting a quick flash of what an environment is like as if somebody just turned the light on.

180

00:17:57,640 --> 00:18:02,640

Because what echolocation does is actually illuminate acoustically an environment.

181

00:18:02,640 --> 00:18:05,640

We've got a parked vehicle to our left, probably a car.

182

00:18:05,640 --> 00:18:06,640

Right.

183

00:18:06,640 --> 00:18:16,640

Then a space, and another parked vehicle coming up, it's much larger than the first truck or van of some sort.

184

00:18:16,640 --> 00:18:21,640

Now Dan, how can you tell that? I mean, it's enough to know something's there. How do you know it's bigger?

185

00:18:21,640 --> 00:18:28,640

It's just larger. It reflects more sound and reflects it from a higher direction, accounting for the height of the vehicle.

186

00:18:28,640 --> 00:18:29,640

You're absolutely right.

187

00:18:30,640 --> 00:18:39,640

Despite skepticism from traditional instructors, Dan believes he can teach echolocation to other blind people, especially children.

188

00:18:39,640 --> 00:18:45,640

It's like if you guys can see with your eyes, and we can see with our ears.

189

00:18:45,640 --> 00:18:58,640

Teaching a blind child to ride a bike, to run, to roller skate, to tree climb, to rock climb, to hike, to do all those things is vital.

190

00:18:58,640 --> 00:19:06,640

All kids can ride a bike. So why should this one kid not be able to ride a bike?

191

00:19:07,640 --> 00:19:16,640

By teaching echolocation to others, Dan hopes to forever change the way the blind see, and the way we see the blind.

192

00:19:17,640 --> 00:19:23,640

Researchers maintain that at most humans use 10% of their brain potential.

193

00:19:23,640 --> 00:19:27,640

Dan Kish appears to have somehow tapped into part of the remaining 90%.

194

00:19:27,640 --> 00:19:34,640

If he has, just imagine what other remarkable abilities must lie dormant within us all.

195

00:19:35,640 --> 00:19:40,640

Next, corporate America is turning to psychics to improve its bottom line.

196

00:19:40,640 --> 00:19:45,640

Later, the frightening secret that lies beneath Lemo's Church of San Francisco.

197

00:19:52,640 --> 00:19:56,640

Here are some of the stories Sightings is following in the news.

198

00:19:56,640 --> 00:20:01,640

There are an estimated 450,000 Bigfoot Watchers in the United States alone.

199

00:20:01,640 --> 00:20:05,640

In an effort to create a central clearinghouse for reports of the legendary beast,

200

00:20:05,640 --> 00:20:10,640

a new Bigfoot Research Center is opening in a very unlikely location.

201

00:20:14,640 --> 00:20:17,640

It's flat, it's farmland, and it's in Minnesota.

202

00:20:17,640 --> 00:20:22,640

The town of Crookston is about to become home to the world's largest Bigfoot Center.

203

00:20:22,640 --> 00:20:25,640

The Bigfoot idea got started because when I first came here,

204

00:20:25,640 --> 00:20:28,640

they've been dealing with this issue of how to do tourism

205

00:20:28,640 --> 00:20:31,640

because we don't have any natural amenities here in Crookston, such as lakes,

206

00:20:31,640 --> 00:20:34,640

to use as an asset or a resource.

207

00:20:34,640 --> 00:20:37,640

But why Bigfoot? There haven't been any sightings here,

208

00:20:37,640 --> 00:20:40,640

but as Holbrook discovered surfing the internet,

209

00:20:40,640 --> 00:20:43,640

there have been Bigfoot sightings just about everywhere else.

210

00:20:43,640 --> 00:20:46,640

And I thought, well then this is not just a Northwest, you know,

211

00:20:46,640 --> 00:20:49,640

Washington, Oregon, and California, everybody thinks it is.

212

00:20:49,640 --> 00:20:51,640

This is really something that's a national phenomenon.

213

00:20:51,640 --> 00:20:56,640

And that's when I started thinking, well, how can Crookston take part in this national phenomenon?

214

00:20:56,640 --> 00:21:00,640

Soon, this Crookston Museum will be transformed.

215

00:21:00,640 --> 00:21:03,640

Preliminary drawings are already underway for new displays,

216

00:21:03,640 --> 00:21:07,640

an info center, and a life-size replica of the legendary beast.

217

00:21:07,640 --> 00:21:10,640

It will attract people from outside of our town,

218

00:21:10,640 --> 00:21:14,640

as well as giving us another thing to do inside of our town.

219

00:21:14,640 --> 00:21:19,640

The local diner may be serving up Bigfoot burgers and dozens of gingerbread feet,

220

00:21:19,640 --> 00:21:24,640

but Holbrook insists his center is going to be more than just a tourist attraction.

221

00:21:24,640 --> 00:21:27,640

Personally, I would say there's a high potential that this creature exists.

222

00:21:27,640 --> 00:21:30,640

Given the right resources, I believe we could prove it.

223

00:21:30,640 --> 00:21:34,640

If we could put a man on the moon, we could prove whether or not Bigfoot exists.

224

00:21:37,640 --> 00:21:40,640

In Palo Alto, California, Stanford biologist Paul Erlich

225

00:21:40,640 --> 00:21:44,640

is renewing his warning about the future of humankind.

226

00:21:44,640 --> 00:21:47,640

There is a new generation of drug-resistant bacteria

227

00:21:47,640 --> 00:21:50,640

capable of triggering a deadly epidemic.

228

00:21:50,640 --> 00:21:54,640

We're likely to lose a large portion of humanity to emerging viruses,

229

00:21:54,640 --> 00:22:00,640

to the many now resistant strains of bacteria, to the resurgence of malaria, and so on.

230

00:22:00,640 --> 00:22:02,640

And there's a lot to be said for that.

231

00:22:02,640 --> 00:22:06,640

In other words, the epidemiological situation is extremely severe,

232

00:22:06,640 --> 00:22:10,640

largely because of the size of our population and because of our population growth.

233

00:22:10,640 --> 00:22:13,640

So we could have a die-back from plague.

234

00:22:13,640 --> 00:22:18,640

Recently, sightings reported on an upsurge in the number of deadly viruses

235

00:22:18,640 --> 00:22:21,640

unleashed during the destruction of tropical rainforests.

236

00:22:21,640 --> 00:22:27,640

Some researchers believe it is Earth's way of turning on its attacker, the human race.

237

00:22:27,640 --> 00:22:31,640

It's called Gaia's Revenge, the Earth's Revenge.

238

00:22:31,640 --> 00:22:35,640

Now there is growing concern that these viruses are not alone.

239

00:22:35,640 --> 00:22:39,640

New insidious bacteria may prove even deadlier.

240

00:22:40,640 --> 00:22:44,640

Mutant forms of pneumonia, immune to penicillin,

241

00:22:44,640 --> 00:22:49,640

and new strains of antibiotic-resistant tuberculosis are already appearing worldwide.

242

00:22:49,640 --> 00:22:55,640

Some scientists believe that these may be precursors to a global, unstoppable plague.

243

00:22:55,640 --> 00:23:01,640

Medical researchers have had to search for ingenious methods to keep these bacteria in check.

244

00:23:01,640 --> 00:23:07,640

However, they cannot be certain that humankind will continue to prevail.

245

00:23:10,640 --> 00:23:17,640

In New York City, where Wall Street's bulls and bears direct billions of dollars every day,

246

00:23:17,640 --> 00:23:21,640

the art of the deal is taking on a whole new meaning.

247

00:23:21,640 --> 00:23:26,640

One of the favorite things investors say is that the billionaires you use metaphysics, the millionaires don't.

248

00:23:26,640 --> 00:23:30,640

Because the billionaires know that magic has a lot to do with making huge amounts of money.

249

00:23:30,640 --> 00:23:34,640

Barry Dolnick calls herself an executive mystic.

250

00:23:34,640 --> 00:23:37,640

She claims to have counseled some of America's top movers and shakers.

251

00:23:37,640 --> 00:23:42,640

I see people on Wall Street, people who run big portfolios,

252

00:23:42,640 --> 00:23:50,640

heads of divisions of some of the biggest companies in the world, creative people, artists, actors.

253

00:23:50,640 --> 00:23:54,640

In fact, Dolnick herself was once a corporate executive.

254

00:23:54,640 --> 00:24:01,640

Metaphysics was just a hobby until she started sharing her psychic talent with a few high-powered clients.

255

00:24:02,640 --> 00:24:06,640

I think the interesting thing about Barry that makes her very unusual is her business background

256

00:24:06,640 --> 00:24:14,640

combined with her ability to work with you on metaphysical things makes her an unusual counselor.

257

00:24:14,640 --> 00:24:18,640

Typically, Dolnick uses tarot cards and detailed astrological charts

258

00:24:18,640 --> 00:24:23,640

to help clients plot long-term business strategies or evaluate marketing plans.

259

00:24:23,640 --> 00:24:27,640

And for help up the corporate ladder, Dolnick mixes individualized herbal charms.

260

00:24:27,640 --> 00:24:33,640

However, she always reminds her clients that on Wall Street, there are no guaranteed bets.

261

00:24:33,640 --> 00:24:39,640

Well, I do have a gift in this prophecy and I can't see what's likely to happen in the future,

262

00:24:39,640 --> 00:24:42,640

but it's up to you to make it happen.

263

00:24:42,640 --> 00:24:45,640

So it's sort of a, it's got to be a two-way street.

264

00:24:48,640 --> 00:24:50,640

We'll have more stories from the news next time.

265

00:24:50,640 --> 00:24:53,640

Now, here's what's coming up on Citing's.

266

00:24:54,640 --> 00:24:56,640

She's called Amazing Grace.

267

00:24:56,640 --> 00:24:59,640

At her healing miracles baffle the medical community.

268

00:24:59,640 --> 00:25:04,640

We are unable to explain why she survived a almost lethal situation.

269

00:25:04,640 --> 00:25:08,640

And proof that the United States has been building flying saucers.

270

00:25:15,640 --> 00:25:19,640

Faith healing has a long and checkered past in American history.

271

00:25:19,640 --> 00:25:21,640

Elmer Gantry comes to mind.

272

00:25:21,640 --> 00:25:26,640

Charlatans and thieves have supplanted what were once real healing miracles

273

00:25:26,640 --> 00:25:28,640

performed in simple country churches.

274

00:25:28,640 --> 00:25:34,640

Today, Grace DeBecari is on a one-woman campaign to restore the integrity of faith healing.

275

00:25:34,640 --> 00:25:39,640

She believes that the way to do that is to heal as many people as she can.

276

00:25:50,640 --> 00:25:56,640

The evidence is there's a woman with an incurable disease that I know is not fake.

277

00:25:56,640 --> 00:25:58,640

She gets six doctors that are telling her,

278

00:25:58,640 --> 00:26:01,640

this is the way it is, this is what's going to happen.

279

00:26:01,640 --> 00:26:04,640

The best you can do is slow the progress of the disease.

280

00:26:07,640 --> 00:26:10,640

It goes to all the fancy clinics, et cetera.

281

00:26:10,640 --> 00:26:11,640

Nothing works.

282

00:26:11,640 --> 00:26:16,640

She goes to this lady who's jumping around on a stage singing and banging a tambourine

283

00:26:16,640 --> 00:26:20,640

and she just stepped out of an Elmer Gantry movie and it's gone.

284

00:26:24,640 --> 00:26:27,640

To those who believe she is a savior,

285

00:26:27,640 --> 00:26:31,640

an evangelical preacher known simply as Amazing Grace.

286

00:26:31,640 --> 00:26:36,640

Grace knelt down to me and she asked me what affliction I had

287

00:26:36,640 --> 00:26:39,640

and I told her multiple sclerosis.

288

00:26:39,640 --> 00:26:44,640

And all she did at that point was just lay her hands on my forehead

289

00:26:44,640 --> 00:26:46,640

and I went right over backwards.

290

00:26:46,640 --> 00:26:51,640

They are flocking to her services in Danbury, Connecticut from all over the country,

291

00:26:51,640 --> 00:26:53,640

from all over the world in fact.

292

00:26:53,640 --> 00:26:57,640

They pray for a miracle and many prayers are being answered.

293

00:26:57,640 --> 00:27:01,640

It was an instant healing, a total and instant healing right then and there.

294

00:27:01,640 --> 00:27:07,640

Many of the people who come to see Grace Devakari have been branded with the label incurable,

295

00:27:07,640 --> 00:27:12,640

but Grace seems to have an uncanny ability to strip off that label and heal.

296

00:27:12,640 --> 00:27:16,640

Grace asked me to hand over the cane that I had to her,

297

00:27:16,640 --> 00:27:24,640

at which point I did, and she told me to walk from one end of the gymnasium to the other and back to her.

298

00:27:24,640 --> 00:27:33,640

Her walking alone on a basketball court was a prescription for a broken arm or a bloody nose or something.

299

00:27:33,640 --> 00:27:38,640

But she went all the way up the aisle, she turned around, she came back the aisle

300

00:27:38,640 --> 00:27:43,640

and then she wandered out of the gymnasium basically in a daze.

301

00:27:43,640 --> 00:27:49,640

And at that point I forgot pretty much everything except trying to get to her and find out what the heck was going on here.

302

00:27:49,640 --> 00:27:57,640

Many people believe Grace can somehow stimulate the power of an individual's mind to heal their own body.

303

00:27:57,640 --> 00:28:00,640

Grace's own explanation is much simpler.

304

00:28:00,640 --> 00:28:04,640

I don't consider myself a healer. I believe it's his divine healing.

305

00:28:04,640 --> 00:28:07,640

And I just call out whatever he'd have me do.

306

00:28:07,640 --> 00:28:14,640

I'm just a regular person, just minding my own business, taking the children to softball.

307

00:28:14,640 --> 00:28:19,640

Grace can recall the exact moment she believed she was given her healing gift.

308

00:28:19,640 --> 00:28:27,640

I had a near-death experience where I went up into the heavens and I saw a tremendous light.

309

00:28:27,640 --> 00:28:31,640

And I wanted to enter. It was wonderful.

310

00:28:31,640 --> 00:28:35,640

And then I stood there and said, no, I'm not ready, I'm not ready.

311

00:28:35,640 --> 00:28:39,640

And my spirit went back into my body and I woke up.

312

00:28:39,640 --> 00:28:43,640

So I thought, well, God, I'll do anything you want me to do.

313

00:28:43,640 --> 00:28:49,640

And then he, when I felt God speaking to me, saying, sing and leave the rest to me.

314

00:28:49,640 --> 00:29:00,640

I once, I was once so lost, but now, now I am now.

315

00:29:00,640 --> 00:29:06,640

God speaks to me. He'll tell me, go to the left, go to the right, go straight down the middle.

316

00:29:06,640 --> 00:29:13,640

And I'll do it. And as I go, I'll stop and He'll say, right here.

317

00:29:13,640 --> 00:29:16,640

Who here has a problem with their back?

318

00:29:17,640 --> 00:29:19,640

Problem with your back. Would you come here, please?

319

00:29:19,640 --> 00:29:23,640

The crowded hotel ballroom, the lane on of a manicured hand.

320

00:29:23,640 --> 00:29:27,640

From the outside, it seems too cliché to be believed.

321

00:29:27,640 --> 00:29:32,640

But what sets Grace DeVicari apart is documentation by medical doctors

322

00:29:32,640 --> 00:29:37,640

who will confirm the miraculous recoveries of patients once so close to death.

323

00:29:37,640 --> 00:29:46,640

She was more abundant, more barely conscious, suffering with seizures, blood pressure problems,

324

00:29:46,640 --> 00:29:55,640

kidney failure, severe anemia. She had fluid around the heart, fluid around the lung.

325

00:29:55,640 --> 00:29:58,640

She was in a desperate situation.

326

00:29:58,640 --> 00:30:05,640

In 1987, Harriet Grimaldi was diagnosed with a supposedly incurable disease called scleroderma.

327

00:30:05,640 --> 00:30:08,640

She was told the end was very near.

328

00:30:08,640 --> 00:30:14,640

I go upstairs and cry out to God, let me die, because the pain was so bad.

329

00:30:14,640 --> 00:30:20,640

For five months, Harriet was kept in the intensive care unit of Phelps Memorial Hospital.

330

00:30:20,640 --> 00:30:24,640

Doctors didn't expect that she would ever return home, but Harriet was a fighter.

331

00:30:24,640 --> 00:30:30,640

And once she heard about Grace DeVicari, she convinced the hospital to release her for healing.

332

00:30:30,640 --> 00:30:37,640

The first time I went, I didn't notice anything, you know?

333

00:30:37,640 --> 00:30:45,640

And Grace would always pray over me, and I could notice that I was feeling less pain each time that I went.

334

00:30:45,640 --> 00:30:51,640

And I could move my shoulder, I could move my hands, because I could hardly lift my hands.

335

00:30:51,640 --> 00:30:53,640

I couldn't raise my hands up.

336

00:30:53,640 --> 00:30:57,640

Today, Harriet Grimaldi has more energy than ever.

337

00:30:57,640 --> 00:31:03,640

In fact, she is a volunteer guard mirror at the very hospital where she once lay dying.

338

00:31:03,640 --> 00:31:09,640

She survived a situation where nobody should have survived.

339

00:31:09,640 --> 00:31:20,640

And to the surprise of the medical community, we are unable to explain, A, why she survived an almost lethal situation.

340

00:31:20,640 --> 00:31:30,640

And second, why her disease didn't progress, and it almost appeared that it took a screeching hold and reversal.

341

00:31:30,640 --> 00:31:35,640

I said, you should tell all your patients to come to Grace Lowes, you can't help.

342

00:31:35,640 --> 00:31:37,640

I tell the doctors.

343

00:31:37,640 --> 00:31:47,640

Doctors who practice near Grace's Connecticut home, like Dr. John Pagano, have started sending some of their patients to Grace's services.

344

00:31:47,640 --> 00:31:52,640

A friend of mine was deaf in the right ear for over 20 years. I knew he was.

345

00:31:52,640 --> 00:31:57,640

She pointed to him and said to him, you're going to be healed tonight.

346

00:31:57,640 --> 00:32:02,640

And in a few minutes, right after that, he was absolutely startled.

347

00:32:02,640 --> 00:32:06,640

A pop took place in his right ear, and he actually staggered back a bit.

348

00:32:06,640 --> 00:32:09,640

And even Grace at that moment said, did you hear that?

349

00:32:09,640 --> 00:32:13,640

And all the people around him heard something take place in his ear.

350

00:32:13,640 --> 00:32:19,640

From that moment on, and that was about 10 years ago, he's had perfect hearing in the right ear.

351

00:32:19,640 --> 00:32:30,640

Amazing Grace has sweetened the sound.

352

00:32:30,640 --> 00:32:41,640

It doesn't matter what religion you are, what denomination you are, God loves all people of all faiths, all religions. He just loves.

353

00:32:41,640 --> 00:32:48,640

What I think is happening is that Grace, in one way or another, stimulates the healing forces within the people themselves.

354

00:32:48,640 --> 00:32:58,640

The God within them is acting because they either have faith in her, or there are some cases where they had no faith in her, and it still worked.

355

00:32:58,640 --> 00:33:05,640

That even defies explanation. There was one man, he went reluctantly. He had a herniated disc.

356

00:33:05,640 --> 00:33:12,640

I went there, and my wife didn't even want to come with me. She says, I'll drive you there, but I'm not going in.

357

00:33:12,640 --> 00:33:20,640

He was like ducking behind the people, but Grace picked him out and told him to come forward. He was going to be healed.

358

00:33:20,640 --> 00:33:23,640

I fell over like these other people, which I never dreamed I'd do.

359

00:33:23,640 --> 00:33:34,640

While I was down, I felt heat come through my back, through my legs, my thighs, and I started to squirm on the floor, just like straightened out.

360

00:33:34,640 --> 00:33:40,640

I was able to try to get up. The ushers were trying to help me. She says, no, he'll get up on his own.

361

00:33:40,640 --> 00:33:47,640

I was able to get up on my own, and I stood up straight for the first time in six months. I was actually straight.

362

00:33:47,640 --> 00:33:54,640

I started to cry in front of these people, who I didn't want to be here with, and God touched me just like that.

363

00:33:54,640 --> 00:34:00,640

If the concept of Jesus Christ is what stimulates the healing powers within you, then that's right.

364

00:34:00,640 --> 00:34:06,640

If the concept of science stimulates the healing power within you, then that's okay too.

365

00:34:06,640 --> 00:34:15,640

Or God, the universal consciousness, and all that, whatever it is, whatever avenue your consciousness is attuned to, that's what will work for you.

366

00:34:15,640 --> 00:34:26,640

Grace DeBacari! Praise you!

367

00:34:26,640 --> 00:34:34,640

It's important to know that Grace DeBacari doesn't take any money for the faith healing she performs, and she doesn't believe any true healer should.

368

00:34:34,640 --> 00:34:40,640

She also wants you to know that she does not consider faith healing a substitute for conventional medical care.

369

00:34:40,640 --> 00:34:45,640

Next, there's something unholy in the catacombs beneath the church of San Francisco.

370

00:34:45,640 --> 00:34:50,640

It was a very powerful force. I was alarmed and scared. It wouldn't let me enter.

371

00:34:56,640 --> 00:35:03,640

In an effort to provide a global view of the paranormal experience, sightings is broadening the scope of its investigations.

372

00:35:03,640 --> 00:35:12,640

Recently, I traveled to South America and in Lima, Peru, discovered a haunting secret buried beneath a centuries old cathedral.

373

00:35:17,640 --> 00:35:26,640

It was in 1535, the first year of the Spanish colonization, that the cathedral of San Francisco was begun here in the oldest part of Lima, Peru.

374

00:35:26,640 --> 00:35:32,640

For centuries, the friars here have talked of encountering what they call unsettled spirits.

375

00:35:32,640 --> 00:35:40,640

Not surprising, perhaps, for a place that is built literally on the bones of tens of thousands of people.

376

00:35:45,640 --> 00:35:53,640

The catacombs were first built as the foundation for the church. They were in fact the cemetery of the church and of its parishioners.

377

00:35:53,640 --> 00:36:01,640

The catacombs are immense, and there are many human remains, bones and skulls, which are interred here.

378

00:36:01,640 --> 00:36:12,640

Macabre designs have been created in the catacombs below this historic cathedral, created with the

bones of more than 25,000 seemingly restless spirits.

379

00:36:16,640 --> 00:36:20,640

There are people who don't believe it, but once you see it, you believe.

380

00:36:20,640 --> 00:36:24,640

You have to have a certain sight in order to see spirits.

381

00:36:25,640 --> 00:36:31,640

A priest once told me that ghosts have so much power that they move faster than thought.

382

00:36:32,640 --> 00:36:37,640

Father Bonito is 82 years old. He has lived and worked in the church since he was a child.

383

00:36:37,640 --> 00:36:43,640

Over the years, he has seen many ghostly apparitions rising from the catacombs below.

384

00:36:45,640 --> 00:36:50,640

He was tall, and he was wearing a monk's habit. I was stunned.

385

00:36:50,640 --> 00:36:57,640

I just stood there and he walked to another wall where the door was closed, and he walked right through the closed door.

386

00:36:57,640 --> 00:37:03,640

Naturally, it shocks you because your heart beats faster and your legs get a little weak, you know.

387

00:37:03,640 --> 00:37:07,640

After it goes away, you pray to God because of the power of the spirit.

388

00:37:08,640 --> 00:37:17,640

Today, the cathedral of San Francisco is a refuge, but the citizens of Lima seek solace and find peace, but it has not always been this way.

389

00:37:18,640 --> 00:37:27,640

The history of the area, in fact, all of Peru, is drenched in the blood of the Spanish Inquisition, spearheaded by Francisco Pizarro.

390

00:37:27,640 --> 00:37:32,640

Just outside Lima stand the ruins of the ancient religious center of Pachacamac.

391

00:37:32,640 --> 00:37:38,640

The conquistadors desecrated the temple and declared its followers heretics and devil worshipers.

392

00:37:38,640 --> 00:37:45,640

Most of the people here were murdered, and the rest were enslaved and forced to build a new city of Lima and its new church.

393

00:37:46,640 --> 00:37:54,640

The Inquisition lasted for more than 300 years. The accused and the accusers are now entombed together.

394

00:37:55,640 --> 00:38:05,640

I wanted to go into the catacombs with a flashlight, but I was unable to. It was a very powerful force. I was alarmed and scared. It wouldn't let me enter.

395

00:38:05,640 --> 00:38:15,640

Cristal is one of Peru's most famous psychics. Although she knew about the spirits in the cathedral of San Francisco, she had never dared to personally enter the catacombs.

396

00:38:15,640 --> 00:38:26,640

At Siding's request, she agreed to descend into the haunted tombs. Almost immediately, she became agitated, then seemed to make contact with an unseen force.

397

00:38:27,640 --> 00:38:41,640

I feel the presence of someone here. Very energetic, very negative, very violent.

398

00:38:41,640 --> 00:38:51,640

He was buried here. He killed many people.

399

00:38:51,640 --> 00:39:09,640

The spirit would definitely be described as being native to Peru. He had been a great witch or a shaman in his time. He had absorbed the energy of a friar who was there. The two of them interchanged their energies.

400

00:39:09,640 --> 00:39:18,640

He was accused of murder.

401

00:39:18,640 --> 00:39:41,640

He was accused of using witchcraft against others. He's full of hate. He doesn't want us to be here.

402

00:39:42,640 --> 00:39:48,640

Cristal tried to communicate with the dark spirit, and it seemed to respond.

403

00:39:48,640 --> 00:39:52,640

Just in that point, he stood right in front of me.

404

00:39:52,640 --> 00:39:58,640

There was an abrupt physical change in Cristal. She said the force had entered her body.

405

00:39:59,640 --> 00:40:02,640

Stop.

406

00:40:06,640 --> 00:40:14,640

Later, she would describe it as a battle of the souls, a battle she won by releasing the spirit.

407

00:40:14,640 --> 00:40:17,640

Walk towards the light.

408

00:40:17,640 --> 00:40:19,640

Do it.

409

00:40:24,640 --> 00:40:27,640

Liberate yourself.

410

00:40:29,640 --> 00:40:33,640

I understand everything.

411

00:40:33,640 --> 00:40:40,640

She said it was her psychic connection to his pain that allowed the spirit to go free.

412

00:40:40,640 --> 00:40:50,640

After I'd listened to him, I made him see that he was wrong, that he had died and that what he was doing wasn't right, and he accepted it.

413

00:40:50,640 --> 00:40:56,640

These are the physical remains of soldiers and slaves, priests and sorcerers.

414

00:40:56,640 --> 00:41:12,640

And while dead men tell no tales, their spirits often do, especially here where people who battled each other in life seem to cry out for peace in death.

415

00:41:12,640 --> 00:41:21,640

While it seems that Cristal was able to release one of the restless spirits from the catacombs, it's estimated that more than 20,000 people are buried there.

416

00:41:21,640 --> 00:41:27,640

The Friars of the Cathedral of San Francisco report that the haunting activity is as pervasive as ever.

417

00:41:27,640 --> 00:41:32,640

Next was what crashed at Roswell, a flying saucer made in the USA.

418

00:41:32,640 --> 00:41:37,640

They've channeled this information from what they thought were extraterrestrials.

419

00:41:43,640 --> 00:41:49,640

Recently, sightings brought you an extended report on government experiments with saucer-shaped aircraft.

420

00:41:49,640 --> 00:41:55,640

We showed you the Avrocar, a crude experimental craft first tested in the 1950s.

421

00:41:55,640 --> 00:42:02,640

Well now, newly declassified documents reveal that the military was testing and flying much more sophisticated saucer designs.

422

00:42:02,640 --> 00:42:06,640

The secret project was codenamed Silverbug.

423

00:42:07,640 --> 00:42:13,640

Near the end of World War II, the Allied forces had gained complete air superiority over Hitler's Luftwaffe.

424

00:42:13,640 --> 00:42:15,640

The Germans were desperate.

425

00:42:15,640 --> 00:42:20,640

They ordered the immediate development of an aircraft capable of vertical takeoffs and landings,

426

00:42:20,640 --> 00:42:23,640

because nearly all of their runways had been destroyed.

427

00:42:23,640 --> 00:42:29,640

The project was spearheaded by Dr. Richard Mieter, known today as the father of saucerology.

428

00:42:30,640 --> 00:42:38,640

Dr. Mieter was hired by the Luftwaffe, the German Air Force, to build a saucer-shaped craft that could vertically ascend,

429

00:42:38,640 --> 00:42:43,640

and with rockets, shoot down large numbers of Allied planes.

430

00:42:43,640 --> 00:42:45,640

But the Germans were too late.

431

00:42:45,640 --> 00:42:49,640

The war ended before Mieter's saucer got off the drawing boards.

432

00:42:49,640 --> 00:42:54,640

But his designs and technological breakthroughs did not go unnoticed by the American military.

433

00:42:54,640 --> 00:43:03,640

We had large numbers of technical people searching through Germany as they were moving right behind the troops.

434

00:43:03,640 --> 00:43:11,640

They began in April of 1945, and they would send back everything they found.

435

00:43:11,640 --> 00:43:19,640

And according to Alexander Flex, former assistant secretary of the Air Force, German technology wasn't the only thing being shipped to North America.

436

00:43:19,640 --> 00:43:26,640

After World War II, Dr. Mieter himself began work on a secret aircraft project at AV Rowe Aeronautics in Canada.

437

00:43:26,640 --> 00:43:33,640

Dr. Mieter at AV Rowe was working on some of the concepts that were derived from the German experience.

438

00:43:33,640 --> 00:43:37,640

There were certainly saucer-like flying machines.

439

00:43:37,640 --> 00:43:44,640

Anybody looking at them could have decided that these were indeed flying saucers.

440

00:43:44,640 --> 00:43:52,640

And there is evidence that soon after the war, the United States had also launched a super-secret project to develop vertical flight vehicles.

441

00:43:52,640 --> 00:43:56,640

The vertical takeoff and landing programs had a long, long history.

442

00:43:56,640 --> 00:43:58,640

We had many, many programs.

443

00:43:58,640 --> 00:44:03,640

Among the three services, I counted at least 35.

444

00:44:03,640 --> 00:44:10,640

Of those 35 saucer projects, the most highly classified was known by the code name Silverbug.

445

00:44:10,640 --> 00:44:17,640

Silverbug saucers were designed to fly 2,300 miles per hour at an altitude of 80,000 feet.

446

00:44:17,640 --> 00:44:23,640

These designs dating from 1955 were not declassified until March of 1995.

447

00:44:23,640 --> 00:44:29,640

For over 40 years, America's number one flying saucer project was top secret.

448

00:44:29,640 --> 00:44:32,640

But this flying saucer project was not.

449

00:44:32,640 --> 00:44:40,640

In the 1950s, while Project Silverbug was under tight wraps, AV Rowe unveiled the Avro car to the public.

450

00:44:40,640 --> 00:44:45,640

Was this gerry-rigged flop really the best the brilliant Dr. Mieter could create?

451

00:44:45,640 --> 00:44:48,640

The Avro car is just a cover. It's a cover store.

452

00:44:48,640 --> 00:44:52,640

What was actually built by AV Rowe is anybody's guess.

453

00:44:52,640 --> 00:45:01,640

Ufologists believe that the U.S. military had everything to gain and nothing to lose by insinuating that this was the state of the art for flying saucers.

454

00:45:01,640 --> 00:45:08,640

It would deflect attention away from real saucers being tested and spotted by amateur sky watchers in the American Southwest.

455

00:45:08,640 --> 00:45:16,640

There is virtually no doubt in my mind that the United States government built German inspired designs in this country.

456

00:45:16,640 --> 00:45:20,640

They were probably seen by many people and probably some crashed.

457

00:45:20,640 --> 00:45:28,640

The release of Silverbug's plans and protocol offers an interesting twist in the great debate over what crashed near Roswell, New Mexico.

458

00:45:28,640 --> 00:45:35,640

It could very well have been a flying saucer, but one of ours, not one of theirs, and not the first.

459

00:45:35,640 --> 00:45:40,640

In Germany, at about the turn of the century, many, many secret societies developed.

460

00:45:40,640 --> 00:45:43,640

The real machine was built by the real society.

461

00:45:43,640 --> 00:45:49,640

And the real saucer was, in turn, based on the instructions left behind by a mysterious ancient cult.

462

00:45:49,640 --> 00:45:54,640

These texts were instructions on how to build this interdimensional machine.

463

00:45:54,640 --> 00:46:00,640

They've channeled this information from what they thought were extraterrestrials.

464

00:46:00,640 --> 00:46:08,640

Built this craft that levitated, the first piloted flight was in 1934, and they knew they had

something at that point.

465

00:46:08,640 --> 00:46:13,640

It appears that the saucer silhouette will soon be seen in the skies again.

466

00:46:13,640 --> 00:46:17,640

This is the Tier 3 minus UAV.

467

00:46:17,640 --> 00:46:23,640

It's a state-of-the-art surveillance drone built at the world-famous Lockheed Martin Skunkworks in Palmdale, California.

468

00:46:23,640 --> 00:46:30,640

Looking at this aircraft head-on, one can't help but observe that saucers are real.

469

00:46:34,640 --> 00:46:38,640

If you've had a paranormal experience, please write to us at Sightings.

470

00:46:38,640 --> 00:46:43,640

Sightings can also be contacted at America Online at keyword Sightings.

471

473

00:46:52,640 --> 00:46:57,640

Until next time, remember, no mystery is closed to an open mind.

474

00:46:57,640 --> 00:47:00,640

For Sightings, I'm Tim White.

475

00:47:03,640 --> 00:47:07,640

Next on Sci-Fi Dark Shadows.

476

00:47:10,640 --> 00:47:12,640

Are we dealing with an epidemic?

477

00:47:12,640 --> 00:47:14,640

A bold experiment.

478

00:47:14,640 --> 00:47:20,640

We recombine termite and mantid DNA to create a biological counter-agent.

479

00:47:20,640 --> 00:47:22,640

It becomes a deadly mistake.

480

00:47:22,640 --> 00:47:24,640

They were designed to die.

481

00:47:24,640 --> 00:47:26,640

They are breeding.

482

00:47:26,640 --> 00:47:28,640

But how do you destroy it?

483

00:47:28,640 --> 00:47:31,640

When you've created it.

484

00:47:31,640 --> 00:47:33,640

Mira Sordino.

485

00:47:35,640 --> 00:47:39,640

Mimic Saturday at 7 p.m. on Sci-Fi.

486
