

1

00:00:00,000 --> 00:00:11,000

What was in the sky of 30,000 feet?

2

00:00:11,000 --> 00:00:15,400

The pilots locked onto something big and new tapes reveal air traffic controllers knew

3

00:00:15,400 --> 00:00:16,400

something was there.

4

00:00:16,400 --> 00:00:17,400

But what was it?

5

00:00:17,400 --> 00:00:21,000

A pilot spotting an unidentified flying object.

6

00:00:21,000 --> 00:00:25,000

A sighting spatial investigation, a close encounter in the clouds.

7

00:00:25,000 --> 00:00:27,000

I really feel this place should be served.

8

00:00:27,000 --> 00:00:31,000

The renowned psychic detective joins in the search for three girls gone without a trace.

9

00:00:31,000 --> 00:00:34,000

The missing link on the Nexus items.

10

00:00:41,000 --> 00:00:43,000

What was in the sky of 30,000 feet?

11

00:00:43,000 --> 00:00:49,000

The pilots locked onto something big and new tapes reveal air traffic controllers knew something was there.

12

00:00:49,000 --> 00:00:52,000

A pilot spotting an unidentified flying object.

13

00:00:52,000 --> 00:00:57,000

A special investigation, a close encounter in the clouds on the Nexus items.

14

00:01:04,000 --> 00:01:09,000

The pilots locked onto something big and new tapes reveal air traffic controllers knew something was there.

15

00:01:09,000 --> 00:01:12,000

A pilot spotting an unidentified flying object.

16

00:01:12,000 --> 00:01:15,000

A close encounter in the clouds on the Nexus items.

17

00:01:22,000 --> 00:01:25,000

The pilots spotting an unidentified flying object.

18

00:01:25,000 --> 00:01:29,000

A close encounter in the clouds on the Nexus items.

19

00:01:53,000 --> 00:01:59,000

A pilot spotting an unidentified flying object.

20

00:02:03,000 --> 00:02:06,000

I really feel this place should be served.

21

00:02:22,000 --> 00:02:27,000

A pilot spotting an unidentified flying object.

22

00:02:53,000 --> 00:02:59,000

A pilot spotting an unidentified flying object.

23

00:03:08,000 --> 00:03:12,000

A pilot spotting an unidentified flying object.

24

00:03:22,000 --> 00:03:27,000

A pilot spotting an unidentified flying object.

25

00:03:52,000 --> 00:03:57,000

This man has the incredible untold story of a UFO encounter at 30,000 feet.

26

00:03:57,000 --> 00:04:04,000

Was it the mysterious lady in black that saved Bob Davidson's life on that lonely stretch of Indiana highway?

27

00:04:04,000 --> 00:04:06,000

Or was it fate?

28

00:04:06,000 --> 00:04:10,000

I don't know what happened here, but it definitely was a miracle.

29

00:04:10,000 --> 00:04:17,000

This man has created a computer program that just might make him the nostradamus of our age.

30

00:04:17,000 --> 00:04:24,000

I think it's going to predict the most novel event in the history of the world in 2012.

31

00:04:24,000 --> 00:04:28,000

And don't try telling Colin Andrews that crop circles are a hoax.

32

00:04:28,000 --> 00:04:30,000

He knows better.

33

00:04:47,000 --> 00:05:00,000

Welcome to Sightings. I'm Tim White.

34

00:05:00,000 --> 00:05:05,000

A declassified United States Air Force Security Service document contains a chilling statement.

35

00:05:05,000 --> 00:05:07,000

It reads, quote,

36

00:05:07,000 --> 00:05:12,000

Sometime in his career, each pilot can expect to encounter strange, unusual happenings,

37

00:05:12,000 --> 00:05:19,000

which will never be adequately or entirely explained by logic or subsequent investigation, unquote.

38

00:05:19,000 --> 00:05:24,000

It's a public declaration of something many pilots have privately known for years.

39

00:05:24,000 --> 00:05:28,000

Even at 30,000 feet, there are UFOs.

40

00:05:28,000 --> 00:05:40,000

Recently, Sightings was contacted by two air traffic controllers,

41

00:05:40,000 --> 00:05:47,000

each describing the same disturbing incident in the skies above New Mexico on the night of May 26, 1995.

42

00:05:47,000 --> 00:05:55,000

Here is part of one of the controllers' message, as recorded on the Sightings hotline, electronically altered to protect the college's identity.

43

00:05:55,000 --> 00:06:03,000

It worked as an air traffic controller and a pilot of a Miracle West Airlines had seen an object between 300 and 400 feet long.

44

00:06:03,000 --> 00:06:09,000

Through the Freedom of Information Act, a Sightings investigative team has obtained the actual radio transmission

45

00:06:09,000 --> 00:06:15,000

between a flight control center in Albuquerque and an America West Boeing 757.

46

00:06:15,000 --> 00:06:22,000

Based on these transmissions, we've been able to recreate a startling encounter between a commercial aircraft loaded with passengers

47

00:06:22,000 --> 00:06:29,000

and an unknown craft six miles above the Earth.

48

00:06:29,000 --> 00:06:37,000

The voices are real. The words are not scripted. This is the actual transmission recorded at the moment the UFO was sighted.

49

00:06:37,000 --> 00:06:43,000

Yeah, up to three o'clock. Getting stroked up and you can tell what it is.

50

00:06:43,000 --> 00:06:49,000

But air traffic control cannot tell America West Flight 564 what it is.

51

00:06:49,000 --> 00:06:55,000

The object is not on radar. The tone of the radio communication begins to change.

52

00:06:55,000 --> 00:06:59,000

There's something on the radar. Well, on that object. There's something here.

53

00:06:59,000 --> 00:07:00,000

There's something here.

54

00:07:00,000 --> 00:07:02,000

Hey, permanent.

55

00:07:02,000 --> 00:07:08,000

No, don't window anything about it. What's the altitude about?

56

00:07:08,000 --> 00:07:14,000

I don't know. Probably around 30,000 or so. And the length is unbelievable.

57

00:07:14,000 --> 00:07:19,000

Albuquerque controllers contact the military for an Earthbound explanation.

58

00:07:19,000 --> 00:07:20,000

Hannah, go ahead.

59

00:07:20,000 --> 00:07:25,000

Hey, do you guys know if there was anything like a tethered balloon or anything released that should be above Tyvan?

60

00:07:25,000 --> 00:07:27,000

No, we have nothing about it.

61

00:07:27,000 --> 00:07:28,000

Okay.

62

00:07:28,000 --> 00:07:34,000

Guys, 39,000. You see something at 30,000? The length is unbelievable and it has a strobe on it.

63

00:07:34,000 --> 00:07:35,000

Uh-huh.

64

00:07:35,000 --> 00:07:36,000

This is not good.

65

00:07:36,000 --> 00:07:38,000

What does that mean?

66

00:07:38,000 --> 00:07:39,000

I don't know. It's a UFO.

67

00:07:39,000 --> 00:07:42,000

It's right in Tyvan. No, we haven't seen something like that.

68

00:07:42,000 --> 00:07:43,000

Okay, keep your eyes open.

69

00:07:43,000 --> 00:07:45,000

I'm sorry, Tina.

70

00:07:45,000 --> 00:07:49,000

Dr. Richard Haynes is an aerospace engineer and aviation expert.

71

00:07:49,000 --> 00:07:55,000

For the last 30 years, he's been conducting independent research on pilot sightings of UFOs.

72

00:07:55,000 --> 00:07:59,000

His collection of pilot reports is the largest in the world.

73

00:07:59,000 --> 00:08:07,000

Sightings provided Dr. Haynes with the America West transmissions for his analysis.

74

00:08:07,000 --> 00:08:12,000

The faculty eventually spotted it. It was between the weather and the wind that was lightning.

75

00:08:12,000 --> 00:08:18,000

You could see a dark object and it was pretty eerie looking.

76

00:08:18,000 --> 00:08:26,000

Well, the pilot has just discussed the sighting again in a little more detail with air traffic control at Albuquerque.

77

00:08:26,000 --> 00:08:31,000

And he said that he saw a dark object because it was back illuminated.

78

00:08:31,000 --> 00:08:37,000

Basically lightning in the cloud at some distance caused the object to be visible.

79

00:08:37,000 --> 00:08:40,000

He then said it looked eerie.

80

00:08:40,000 --> 00:08:44,000

Look at that. That's your size.

81

00:08:44,000 --> 00:08:52,000

We have only Dr. Haynes' analysis of the event because all attempts to interview the America West crew were politely but firmly denied.

82

00:08:52,000 --> 00:08:57,000

There is no law that prohibits them from speaking out, at least not any written law.

83

00:08:57,000 --> 00:09:00,000

They don't encourage you reporting it.

84

00:09:00,000 --> 00:09:01,000

That's for sure.

85

00:09:01,000 --> 00:09:07,000

This man, a United Airlines pilot for 35 years, also had a UFO encounter at 30,000 feet.

86

00:09:07,000 --> 00:09:12,000

But it is only now that he is retired and anonymous that he's willing to describe his sighting.

87

00:09:12,000 --> 00:09:20,000

When it was ready to leave, it departed at a very high rate of speed, accelerating as it went,

88

00:09:20,000 --> 00:09:27,000

and disappeared off into the distance at speeds that I couldn't even estimate.

89

00:09:27,000 --> 00:09:30,000

The other crew members have never come forward.

90

00:09:30,000 --> 00:09:36,000

Alitalia pilot Graham Shepard is also familiar with the industry's code of silence.

91

00:09:36,000 --> 00:09:41,000

It is a commercial judgment that pilots shouldn't speak about this.

92

00:09:41,000 --> 00:09:52,000

Unfortunately, it's a fact of life that any UFO alliance with a UFO sighting or anything unusual about a particular crew member

93

00:09:52,000 --> 00:09:58,000

will downgrade the potential of that airline to a maximum of profits.

94

00:09:58,000 --> 00:10:04,000

Despite the airline industry's efforts to silence its pilots, these transmission tapes speak for them.

95

00:10:04,000 --> 00:10:10,000

After the New Mexico controller's initial call to NORAD was laughed off, NORAD called back.

96

00:10:10,000 --> 00:10:15,000

We had some call here earlier about a pilot spotting an unidentified flying object.

97

00:10:15,000 --> 00:10:16,000

Yep, that's us.

98

00:10:16,000 --> 00:10:21,000

Okay, well, hey, we're tracking a search-only track kind of where that might have happened.

99

00:10:21,000 --> 00:10:24,000

It's tracking about 390 knots.

100

00:10:24,000 --> 00:10:27,000

We've been tracking it for about three, four minutes now.

101

00:10:27,000 --> 00:10:30,000

I mean, to be going that fast has got to be up kind of high.

102

00:10:30,000 --> 00:10:32,000

Yeah, we got no code on it, huh?

103

00:10:32,000 --> 00:10:34,000

Nope, it's search-only.

104

00:10:34,000 --> 00:10:41,000

It seems that the radar controller was tracking an object, an unknown, that wasn't transponding,

105

00:10:41,000 --> 00:10:45,000

and by law any craft in controlled airspace must have a transponder.

106

00:10:45,000 --> 00:10:51,000

It is very interesting that ultimately it was seen by the radar controller.

107

00:10:51,000 --> 00:10:54,000

This is an historic UFO event.

108

00:10:54,000 --> 00:11:00,000

Audio tape confirms that three highly trained commercial pilots witnessed an enormous UFO.

109

00:11:00,000 --> 00:11:04,000

A UFO confirmed on radar by NORAD Air Defense Command.

110

00:11:04,000 --> 00:11:09,000

This is one encounter that cannot be dismissed as a hallucination or a hoax.

111

00:11:09,000 --> 00:11:11,000

Something was up there.

112

00:11:11,000 --> 00:11:13,000

Are we prepared for its return?

113

00:11:13,000 --> 00:11:19,000

I've listened to the American West tape and my opinion is that it's absolutely authentic.

114

00:11:19,000 --> 00:11:23,000

If handled correctly, this tape could be something of a breakthrough.

115

00:11:23,000 --> 00:11:27,000

First time in 15 years I've ever seen someone like this.

116

00:11:29,000 --> 00:11:35,000

In Mexico City, a five-year-long flap of UFO activity has commercial pilots running scared.

117

00:11:35,000 --> 00:11:37,000

There have been several near-misses.

118

00:11:37,000 --> 00:11:40,000

Under the auspices of the Mexican Aviation Union,

119

00:11:40,000 --> 00:11:47,000

the pilots have formed a coalition to demand a comprehensive government-backed investigation into the Mexico City Flap.

120

00:11:47,000 --> 00:11:49,000

Next.

121

00:11:49,000 --> 00:11:51,000

Stacy McCall.

122

00:11:51,000 --> 00:11:56,000

The night of her high school graduation, Stacy McCall and two friends disappeared.

123

00:11:56,000 --> 00:11:58,000

Sightings looks for answers.

124

00:12:04,000 --> 00:12:09,000

In 1992, three women in Springfield, Missouri vanished in the thin air.

125

00:12:09,000 --> 00:12:15,000

Nearly every high-profile psychic detective in America offered tantalizing clues about the trio's whereabouts,

126

00:12:15,000 --> 00:12:17,000

but the case is still unsolved.

127

00:12:17,000 --> 00:12:24,000

Now, sightings correspondent Carla Wall accompanies world-renowned psychic Dorothy Allison to the scene of the crime

128

00:12:24,000 --> 00:12:26,000

to search for one missing link.

129

00:12:27,000 --> 00:12:33,000

I would say Stacy is probably the most bubbly, full-of-life young woman I've ever known.

130

00:12:33,000 --> 00:12:35,000

She was known by her long hair.

131

00:12:35,000 --> 00:12:39,000

When people would say something about Stacy, they'd say something about her long hair.

132

00:12:39,000 --> 00:12:44,000

She is a daughter, a sister, a friend, a statistic.

133

00:12:44,000 --> 00:12:48,000

When Tracy McCall vanished from her hometown of Springfield, Missouri,

134

00:12:48,000 --> 00:12:53,000

her family tried to come up with a reason why this vivacious teenager would run away,

135

00:12:53,000 --> 00:12:57,000

because the alternative was too frightening to contemplate.

136

00:12:57,000 --> 00:13:01,000

Would this be the last picture of Stacy in the family album?

137

00:13:01,000 --> 00:13:04,000

This, her last appearance on home video?

138

00:13:04,000 --> 00:13:07,000

Stacy Kathleen McCall.

139

00:13:07,000 --> 00:13:12,000

When I graduated, I had two of my classmates get killed in the middle of the night.

140

00:13:12,000 --> 00:13:15,000

I was a little bit worried about the situation,

141

00:13:15,000 --> 00:13:20,000

but when I graduated, I had two of my classmates get killed in car wrecks that night.

142

00:13:20,000 --> 00:13:24,000

And I remember sitting there thinking,

143

00:13:24,000 --> 00:13:29,000

I wonder how many of these young people will not be here tomorrow,

144

00:13:29,000 --> 00:13:34,000

not thinking it would ever be happening to me, you know?

145

00:13:34,000 --> 00:13:40,000

What happened to Stacy McCall also happened to her friends Suzie Streeter and Suzie's mother Cheryl.

146

00:13:40,000 --> 00:13:44,000

It's a mystery that haunts their families, their friends,

147

00:13:44,000 --> 00:13:47,000

and Sergeant David Smith of the Springfield Police Department.

148

00:13:47,000 --> 00:13:54,000

For three years, they've searched for these three women, ever since graduation night 1992.

149

00:13:54,000 --> 00:13:58,000

We've probably followed up somewhere around 4,000 leads.

150

00:13:58,000 --> 00:14:02,000

We've gotten about 14,000 pages of reports.

151

00:14:02,000 --> 00:14:06,000

We've talked to dozens and dozens of people.

152

00:14:06,000 --> 00:14:10,000

We've conducted around 200 formal interviews,

153

00:14:10,000 --> 00:14:15,000

and we're still no closer today than we were when this happened.

154

00:14:15,000 --> 00:14:19,000

It would have been quite different, if not for a simple change of plans.

155

00:14:19,000 --> 00:14:21,000

After the graduation ceremony,

156

00:14:21,000 --> 00:14:26,000

Stacy was supposed to join a group of friends for an all night party in nearby Branson, Missouri.

157

00:14:26,000 --> 00:14:31,000

But Stacy decided to stay in town and spend the night at Suzie's house.

158

00:14:31,000 --> 00:14:36,000

The next day when Stacy's family tried to get in touch with her, there was no answer.

159

00:14:36,000 --> 00:14:41,000

The Springfield Police were called to the Streeter House

160

00:14:41,000 --> 00:14:47,000

to the scene of the most baffling crime in the history of this small Midwestern town.

161

00:14:47,000 --> 00:14:53,000

When you first showed up at the Streeter House, describe for me what you saw at the crime scene.

162

00:14:53,000 --> 00:14:59,000

All three cars were there at the house that was owned by Suzie, Stacy, and Cheryl.

163

00:14:59,000 --> 00:15:05,000

When we went into the house, there were three purses that were owned by those three people.

164

00:15:05,000 --> 00:15:08,000

The beds were unmade as if they'd slept in them.

165

00:15:08,000 --> 00:15:10,000

The television set was still on.

166

00:15:10,000 --> 00:15:15,000

A Venetian blind was open as if someone had taken a look outside.

167

00:15:15,000 --> 00:15:17,000

The front door was unlocked.

168

00:15:17,000 --> 00:15:20,000

The porch light had been broken.

169

00:15:20,000 --> 00:15:24,000

The fact that Cheryl, a notorious chain smoker, had left her cigarettes behind

170

00:15:24,000 --> 00:15:28,000

indicated to police the possibility of foul play.

171

00:15:28,000 --> 00:15:32,000

When the search crews combed the area, Stacy's parents made this televised plea.

172

00:15:32,000 --> 00:15:37,000

Stacy, call home. Call home and let us know that you're okay.

173

00:15:37,000 --> 00:15:41,000

But Stacy never called. The case remains wide open.

174

00:15:41,000 --> 00:15:45,000

Sergeant, isn't that odd for three people to be missing and there be no clues?

175

00:15:45,000 --> 00:15:53,000

It's very odd that three people would just vanish and we don't have a lead to follow

176

00:15:53,000 --> 00:15:57,000

that would lead us in the direction that we need to go.

177

00:15:57,000 --> 00:16:03,000

Enter Dorothy Allison, who agrees to step into a case that has stumped several other psychic detectives.

178

00:16:03,000 --> 00:16:09,000

Dorothy is undaunted by the fact that so many people believe this case is unsolvable.

179

00:16:09,000 --> 00:16:13,000

What kind of things are you hoping that Dorothy will be able to come up with?

180

00:16:13,000 --> 00:16:16,000

The most important thing would be to find where Stacy is.

181

00:16:16,000 --> 00:16:23,000

If she's alive, where she is, if she's not alive, then we need to be able to put it to rest,

182

00:16:23,000 --> 00:16:26,000

so I need to find her remains.

183

00:16:26,000 --> 00:16:29,000

Hi, I'm Dorothy Allison.

184

00:16:29,000 --> 00:16:33,000

Dorothy's psychic impressions in this case come quickly.

185

00:16:33,000 --> 00:16:37,000

Before her arrival, she had envisioned many undisclosed details about the case

186

00:16:37,000 --> 00:16:43,000

and provide Sergeant Smith with a specific list of clues. The news is not good.

187

00:16:43,000 --> 00:16:46,000

These are the things that people see when they're in a car.

188

00:16:46,000 --> 00:16:51,000

They wonder where they're going before they reach their awful destination, where they are murdered.

189

00:16:51,000 --> 00:16:54,000

Because I believe they're murdered. I do not believe they're alive.

190

00:16:54,000 --> 00:16:58,000

Dorothy has made just one request of the McCall family.

191

00:16:58,000 --> 00:17:02,000

Dorothy, you asked for something of Stacy's and the family has given me her keys.

192

00:17:02,000 --> 00:17:03,000

Very good.

193

00:17:03,000 --> 00:17:04,000

And also a room.

194

00:17:04,000 --> 00:17:06,000

Okay, that's perfect.

195

00:17:06,000 --> 00:17:08,000

And what will you use those for?

196

00:17:08,000 --> 00:17:12,000

I will hold them if I get some feel from her by holding it.

197

00:17:12,000 --> 00:17:18,000

After her initial visit to the Springfield Police Department, Dorothy asked to be escorted to the scene of the crime.

198

00:17:18,000 --> 00:17:22,000

From here, she begins to look for the locations and landmarks on her list,

199

00:17:22,000 --> 00:17:25,000

hoping to lead her to the three missing women.

200

00:17:25,000 --> 00:17:27,000

Oh, I know they passed this way.

201

00:17:27,000 --> 00:17:29,000

Her psychic list is remarkably accurate.

202

00:17:29,000 --> 00:17:34,000

We passed a chemical plant, a trailer park, and a nightclub.

203

00:17:34,000 --> 00:17:38,000

But traveling to the gymnastics center where Stacy worked,

204

00:17:38,000 --> 00:17:42,000

Dorothy gets her strongest psychic feeling.

205

00:17:42,000 --> 00:17:45,000

This all uses my base as to where to look for them.

206

00:17:45,000 --> 00:17:50,000

And I would go and find a thick wooded area from here to find them.

207

00:17:50,000 --> 00:17:53,000

What in your tummy tells you that this is right?

208

00:17:53,000 --> 00:17:54,000

It's just a feeling.

209

00:17:54,000 --> 00:17:58,000

I wrote down all the clues that I could find.

210

00:17:58,000 --> 00:18:01,000

And every clue, one led into the other as you noticed today.

211

00:18:01,000 --> 00:18:08,000

What Dorothy didn't know is that Sergeant Smith had only recently received a tip from a railroad

engineer

212

00:18:08,000 --> 00:18:11,000

who'd spotted something suspicious in these nearby woods.

213

00:18:11,000 --> 00:18:13,000

Here, I thought he saw a grave site.

214

00:18:13,000 --> 00:18:18,000

And I sent a couple detectives out to look at it a couple days ago.

215

00:18:18,000 --> 00:18:24,000

Less than a quarter of a mile from the woods, Dorothy found the Ramada Inn she had written on her list.

216

00:18:24,000 --> 00:18:25,000

Right up there.

217

00:18:25,000 --> 00:18:27,000

Yes. So we're on the right track.

218

00:18:27,000 --> 00:18:31,000

There was also mention of a royal or theatrical name on the list.

219

00:18:31,000 --> 00:18:34,000

A road running along the wooded area, Royal Drive.

220

00:18:34,000 --> 00:18:38,000

I also saw some old cars, which I see up on the hill there.

221

00:18:38,000 --> 00:18:42,000

I feel this is the exact road he took.

222

00:18:42,000 --> 00:18:50,000

And on this cold rainy day, on the actual site where Sergeant Smith is due to search, Dorothy becomes adamant.

223

00:18:50,000 --> 00:18:54,000

I really feel this place should be served. I really do.

224

00:18:54,000 --> 00:18:58,000

The search turns up nothing, but this does not deter Dorothy.

225

00:18:58,000 --> 00:19:04,000

She knows this site is significant and believes more of her psychic clues need to be followed up.

226

00:19:04,000 --> 00:19:08,000

I was a little shocked to see some names and things that I recognized.

227

00:19:08,000 --> 00:19:16,000

Probably the police are going to take their own time and check out everything one item at a time.

228

00:19:16,000 --> 00:19:21,000

In the meantime, the McCalls have begun a support group called One Missing Link,

229

00:19:21,000 --> 00:19:24,000

dedicated to helping others who have missing loved ones.

230

00:19:24,000 --> 00:19:29,000

It's their way of making something positive out of a tragic situation.

231

00:19:29,000 --> 00:19:32,000

A life with a beginning, a middle, but no end.

232

00:19:32,000 --> 00:19:36,000

As a mother, I need to find out where my daughter is.

233

00:19:36,000 --> 00:19:44,000

We're a very close family and this is like leaving a big empty hole right in the middle of our line.

234

00:19:44,000 --> 00:19:53,000

Since Janice and Stu McCall founded One Missing Link, they have helped more than 26 families deal with the disappearance of an older child.

235

00:19:53,000 --> 00:19:57,000

One Missing Link is located in Springfield, Missouri.

236

00:19:58,000 --> 00:20:07,000

Next, the Chinese government plan to capture Bigfoot and traveling to the stars at warp speed may

be closer than you think.

237

00:20:15,000 --> 00:20:19,000

Here are some of the stories Sightings is following in the news.

238

00:20:19,000 --> 00:20:23,000

In China, Bigfoot has a bounty on his or her head.

239

00:20:23,000 --> 00:20:29,000

The Chinese government is offering \$60,000 to the first person who can bring one in alive.

240

00:20:34,000 --> 00:20:41,000

In China, the largest scientific expedition ever mounted to search for Bigfoot has been called to a halt after only two months.

241

00:20:41,000 --> 00:20:48,000

According to researchers, no significant signs of the elusive creature known as She-Ren have been found.

242

00:20:48,000 --> 00:20:53,000

But the failure of the expedition has not lessened popular interest in finding She-Ren.

243

00:20:53,000 --> 00:21:00,000

In the past 70 years, there have been more than 114 She-Ren sightings by 360 eyewitnesses.

244

00:21:00,000 --> 00:21:11,000

Although researchers downplay its significance, the official expedition did turn up hair samples of unknown origin in the Shendong Ziya Forest Reserve in central China.

245

00:21:12,000 --> 00:21:22,000

Boasted by this tantalizing finding, the park is keeping independent She-Ren research alive by offering a monetary incentive to would-be Bigfoot hunters.

246

00:21:22,000 --> 00:21:33,000

It's about the equivalent of \$60,000 if you bring one in alive, \$6,000 dead, or even \$1,200 for authenticated droppings.

247

00:21:34,000 --> 00:21:43,000

In California, at the Loma Linda University Medical Center, researchers have scientifically proven the curative power of laughter.

248

00:21:43,000 --> 00:21:53,000

Patients who were given a steady diet of comedy had a 20% increase in the number of natural killer

cells in their bodies, cells that fight disease.

249

00:21:53,000 --> 00:21:56,000

Psychiatrist William Fry was part of the research team.

250

00:21:56,000 --> 00:22:04,000

Your heart rate, as soon as you start laughing, immediately increases. What happens then is your heart rate increases, the blood pressure goes up.

251

00:22:04,000 --> 00:22:12,000

And as a consequence, all the nutrients and the beneficial factors in the blood are distributed much more effectively to the rest of the body.

252

00:22:12,000 --> 00:22:22,000

The study also found that laughter can cut the level of stress-producing hormone by half and increase the level of immune system hormone gamma interferon.

253

00:22:22,000 --> 00:22:29,000

And those are all important aspects of the healing process. You don't just get healed by a medicine.

254

00:22:29,000 --> 00:22:37,000

In other words, we're looking at laughter as a way of helping people heal themselves.

255

00:22:37,000 --> 00:22:42,000

The ongoing study confirms the age-old adage laughter is the best medicine.

256

00:22:42,000 --> 00:22:48,000

And that is that humor is contagious, laughter is infectious, and both are good for your health.

257

00:22:48,000 --> 00:22:52,000

I'll sue you for this. Oh, superstitious, eh?

258

00:22:52,000 --> 00:23:06,000

In San Diego, the Interstellar Propulsion Society is a new organization of rocket scientists whose goal is inspired by science fiction to go where no man has gone before.

259

00:23:06,000 --> 00:23:11,000

Star Trek provides a wonderful inspirational image of how we might one day travel to stars.

260

00:23:11,000 --> 00:23:15,000

First, we have to answer the question, can we and how can we?

261

00:23:15,000 --> 00:23:29,000

Millis is an aerospace engineer who believes that future space transports must exceed the speed of light, and that in order to do so, they must have an entirely new system of propulsion.

262

00:23:29,000 --> 00:23:38,000

Our most advanced rocket today would take 900 years just to reach the nearest star, with a fuel tank the size of 10 railcars.

263

00:23:38,000 --> 00:23:52,000

So we have to find some means of propulsion that requires no propellant whatsoever, presumably some coupling between gravity, electromagnetism, and spacetime, so that you can push against the very structure of spacetime itself instead of needing all that propellant.

264

00:23:52,000 --> 00:24:02,000

One propulsion theory holds that the speed of light barrier can be broken if spacetime can be shortened to faster intervals, what moves people though as warp speed.

265

00:24:02,000 --> 00:24:06,000

Millis hopes warp speed will be achieved in his lifetime.

266

00:24:06,000 --> 00:24:10,000

It would be foolish to say, let's never go.

267

00:24:10,000 --> 00:24:22,000

Man has always explored in some fashion, whether it's for monetary gain or for some reason, but nonetheless we've always explored, so why stop at our heavens?

268

00:24:24,000 --> 00:24:30,000

We'll have more stories from the news next time. Now here's what's coming up on Citing's.

269

00:24:30,000 --> 00:24:38,000

To this day, no one has been able to explain the mysterious woman in black who saved Bob Davidson's life 15 years ago.

270

00:24:38,000 --> 00:24:40,000

It's an outright miracle.

271

00:24:40,000 --> 00:24:45,000

Later, why all crop circles can't be explained as hoaxes.

272

00:24:45,000 --> 00:24:59,000

According to a recent Time Magazine survey, more than one in three Americans admit that they have

felt an angelic presence in their lives.

273

00:24:59,000 --> 00:25:05,000

It's most often described as a feeling or a private vision of a brilliant loving being.

274

00:25:05,000 --> 00:25:13,000

Rarely do these angels take on a solid form that can be seen by others, but when they do, as was the case for Bob Davidson,

275

00:25:13,000 --> 00:25:16,000

miracles very often follow.

276

00:25:25,000 --> 00:25:35,000

Bob Davidson is a quiet man, given to reflection about his life as a husband, a father, a volunteer firefighter, and the moment that transformed his life.

277

00:25:36,000 --> 00:25:43,000

I don't know what happened here on this stretch of highway 15 years ago, but it definitely was a miracle.

278

00:25:44,000 --> 00:25:50,000

In the late 70s, Bob Davidson was at a personal crossroads. His career was off the track.

279

00:25:50,000 --> 00:25:55,000

Bob's father died unexpectedly and left behind only memories and his old wrist watch.

280

00:25:55,000 --> 00:25:59,000

At the same time, Bob's relationship with his daughter, Dory, was crumbling.

281

00:25:59,000 --> 00:26:05,000

We didn't get along. A teenage daughter and a father, you know, we had our differences.

282

00:26:06,000 --> 00:26:13,000

Bob had lost sight of what he wanted and what was important. On June 28th, 1980, Bob decided to take a break from it all.

283

00:26:13,000 --> 00:26:18,000

He took off on his motorcycle and left his hometown of Mansfield, Ohio behind.

284

00:26:18,000 --> 00:26:25,000

Being seven months pregnant, I, um, for months I had had dreams that something happened to Dad.

285

00:26:25,000 --> 00:26:29,000

I had a feeling that Dad wasn't going to be there to see my baby born.

286

00:26:32,000 --> 00:26:38,000

In fact, Bob never did complete that ride. Near Indianapolis, a rainstorm forced Bob to pull off the road.

287

00:26:38,000 --> 00:26:46,000

When you're doing 60 mile an hour, a raindrop feels pretty stinging on your arms. It hits.

288

00:26:47,000 --> 00:26:51,000

Near the town of Acton, Indiana, Bob stopped to put on his rain gear.

289

00:26:51,000 --> 00:26:54,000

But the moment his foot hit the pavement, something horrible happened.

290

00:26:55,000 --> 00:27:01,000

Maybe it was a weird stuff. You got to be at the right place at the right time and I was supposed to get struck by it.

291

00:27:07,000 --> 00:27:12,000

In a single instant, more than a million volts of electricity coursed through Bob's body.

292

00:27:12,000 --> 00:27:16,000

Passing trucker radioed for help for several minutes before paramedics arrived.

293

00:27:16,000 --> 00:27:23,000

I mean, when we got there, the man was, was gray. I, no sign of life whatsoever.

294

00:27:23,000 --> 00:27:28,000

The paramedics called for a medical helicopter, but it couldn't take off in the torrential downpour.

295

00:27:28,000 --> 00:27:31,000

Attempts CPR were failing.

296

00:27:31,000 --> 00:27:37,000

When I got there and saw this man where the lightning struck, it was actually smoldering.

297

00:27:37,000 --> 00:27:41,000

I mean, you can actually see it looked like steam coming out of the wound.

298

00:27:42,000 --> 00:27:49,000

The stem on his father's watch had welded to the case. His shoes had blown off his feet. Bob had no pulse.

299

00:27:49,000 --> 00:27:54,000

I think in the back of all firefighters' minds, you're saying a prayer.

300

00:27:54,000 --> 00:28:00,000

Randy Nibert believes what happened next could only have been the answer to his prayers.

301

00:28:00,000 --> 00:28:07,000

The ambulance was with a practically new vehicle. It had power failure.

302

00:28:07,000 --> 00:28:13,000

I don't mean just the lights went out on the ambulance. I mean, the ambulance went completely dead.

303

00:28:13,000 --> 00:28:23,000

Out of the clear blue sky, a lady in black came in. She had a Bible in her hands. And I was in awe at this woman.

304

00:28:23,000 --> 00:28:31,000

The medics of the scene recalled that the woman seemed to be from another era. She insisted on touching Bob and the ground at the same time.

305

00:28:31,000 --> 00:28:35,000

That's when I said, you know, let her do what she has to do.

306

00:28:35,000 --> 00:28:39,000

Without even thinking about it, the words just came out of my mouth.

307

00:28:39,000 --> 00:28:44,000

The woman in black began pounding Bob's chest with her Bible.

308

00:28:44,000 --> 00:28:47,000

And speaking in a language the paramedics didn't understand.

309

00:28:47,000 --> 00:28:53,000

Emergency team watched in silence as the rain poured down on them all.

310

00:28:53,000 --> 00:29:03,000

Even with the rain falling, everybody was soaked. She wasn't. She was not remotely wet.

311

00:29:03,000 --> 00:29:09,000

Then the gray-limp body, the man with no pulse, began to show signs of life.

312

00:29:09,000 --> 00:29:15,000

She looked me right dead in the eyes and smiled. Not a word said.

313

00:29:15,000 --> 00:29:20,000

She stood up, walked around my sister and walked away.

314

00:29:20,000 --> 00:29:27,000

As suddenly and inexplicably as she'd come, the woman in black was gone. But the legacy of her visit remained.

315

00:29:27,000 --> 00:29:32,000

It was almost like the sky was parting back. Everything was clearing up.

316

00:29:32,000 --> 00:29:38,000

It's weird. His blood pressure started coming back up. They got a pulse on him. Color started coming back into him.

317

00:29:38,000 --> 00:29:45,000

And no one knows where this lady came from or where she went to. It is truly a miracle.

318

00:29:45,000 --> 00:29:49,000

There's no other words to describe it. It's an outright miracle.

319

00:29:49,000 --> 00:29:54,000

But it would take more than one miracle to save Bob Davidson. He was in deep shock.

320

00:29:54,000 --> 00:30:03,000

They didn't think he was going to make it through the first night. And then every day after that that he made it, it was, you know, wow, this guy's still hanging on.

321

00:30:03,000 --> 00:30:08,000

He was in a coma for seven weeks. And it was during that time Bob believes he met his father.

322

00:30:08,000 --> 00:30:16,000

I can still see him setting under this tree. And it's the most beautiful place that you've ever seen.

323

00:30:16,000 --> 00:30:19,000

I have never seen any place like it on this earth.

324

00:30:19,000 --> 00:30:27,000

And that makes you stop and think, well, was he there with him when dad was in the coma and wasn't really there himself?

325

00:30:27,000 --> 00:30:38,000

Evidently it must have been heaven or something. To that effect, I know if that's the place you go when you die, I want to go there.

326

00:30:39,000 --> 00:30:45,000

By all accounts, Bob Davidson should not be here right now. But he is.

327

00:30:45,000 --> 00:30:49,000

And the watch that his father left to him never stopped ticking.

328

00:30:49,000 --> 00:30:56,000

A reminder of the miracle that spared Bob's life and brought him back just in time to see his first grandchild born.

329

00:30:56,000 --> 00:31:01,000

I named the baby after dad. He's named after his grandpa.

330

00:31:02,000 --> 00:31:09,000

But who was the mysterious woman in black? Siding's found a possible clue to her identity here at the Acton Heritage Museum.

331

00:31:09,000 --> 00:31:18,000

Acton having been the spiritual center for many years. Perhaps some of that has held over.

332

00:31:18,000 --> 00:31:25,000

What is now an empty field by a railroad crossing was once a religious retreat started by missionaries in 1859.

333

00:31:25,000 --> 00:31:29,000

It was a place for relaxation, worship and reflection.

334

00:31:29,000 --> 00:31:37,000

It was a generation that believed in maybe more than we do now in the spiritual powers.

335

00:31:37,000 --> 00:31:46,000

But on a windy November day in 1905, a spark from the railroad ignited a terrible fire that destroyed Acton's spiritual center.

336

00:31:46,000 --> 00:31:54,000

The fire went so quickly that they didn't have any real opportunity to stop it, although they tried.

337

00:31:54,000 --> 00:31:59,000

Is there a connection between the woman in black and Acton's spiritual past?

338

00:31:59,000 --> 00:32:03,000

It's a question no one can answer, but consider this.

339

00:32:03,000 --> 00:32:15,000

A bug that displays at the Acton Museum is a Bible and a turn of the century dress identical to the one paramedic say an angel wore on June 28th, 1980.

340

00:32:15,000 --> 00:32:25,000

I would just like to walk along with her and tell her how much I appreciate what she did and give me a second chance on life.

341

00:32:25,000 --> 00:32:31,000

Bob Davidson wonders why he was visited by the mysterious stranger who seemed to save his life.

342

00:32:31,000 --> 00:32:36,000

Why was he spared when so many other innocent victims are left to die?

343

00:32:36,000 --> 00:32:40,000

It's a question he continues to try to answer every day.

344

00:32:40,000 --> 00:32:46,000

Next is 2012, the end of time or a new beginning. The answer from prophets old and new.

345

00:32:46,000 --> 00:32:50,000

Ordinary space and time is going to disappear.

346

00:32:56,000 --> 00:33:05,000

The mysterious 16th century prognosticator known as Nostradamus made several startlingly accurate predictions about the future.

347

00:33:05,000 --> 00:33:13,000

His revelations coincide with the equally accurate predictions of a little known 12th century Catholic priest, St. Malachi.

348

00:33:13,000 --> 00:33:20,000

Both futurists included in their writing suggestions of an apocalypse sometime near the year 2012.

349

00:33:35,000 --> 00:33:44,000

Anarchy, the end of the world. These are the apocalyptic visions of history's prophets of doom.

350

00:33:44,000 --> 00:33:50,000

The most famous of these mystics is the 16th century French writer, Michel Nostradamus.

351

00:33:50,000 --> 00:33:55,000

He made over 1,000 prophecies before his death in 1566.

352

00:33:55,000 --> 00:34:01,000

I believe the main reason why Nostradamus has been so popular is because he's been so successful.

353

00:34:01,000 --> 00:34:09,000

Nostradamus accurately predicted the rise of Hitler, World War II and the stock market crash of 1929.

354

00:34:09,000 --> 00:34:12,000

But one dire prophecy remains unfulfilled.

355

00:34:12,000 --> 00:34:18,000

Nostradamus writes that the head of the church will be taken prisoner and his palace will go up in flames.

356

00:34:18,000 --> 00:34:23,000

Scholars have interpreted this to mean the dissolution of the Catholic Church.

357

00:34:23,000 --> 00:34:28,000

But Nostradamus was not the first seer to predict the end of the Pope and the Catholic Church.

358

00:34:28,000 --> 00:34:34,000

400 years earlier, a little known Irish priest named Malachi had an eerily similar vision.

359

00:34:34,000 --> 00:34:39,000

He was on a pilgrimage to Rome in 1138 AD.

360

00:34:39,000 --> 00:34:46,000

And as he came over the final hill and saw Rome, he fell into an ecstatic trance.

361

00:34:46,000 --> 00:34:56,000

And his scribe wrote down these three to four word Latin phrases that came in sequence, about 112 phrases.

362

00:34:56,000 --> 00:35:02,000

It was later understood that each phrase stood for every Pope, the current Pope that lived at his time,

363

00:35:02,000 --> 00:35:09,000

St. Dylanus II, till the final Pope of Doomsday. That is 112 references.

364

00:35:09,000 --> 00:35:15,000

We are down to two more in the list of St. Malachi for Doomsday.

365

00:35:15,000 --> 00:35:22,000

While Malachi was struck by ecstatic visions, Nostradamus claimed to see the future by staring into a chalice of water.

366

00:35:22,000 --> 00:35:25,000

Their methods differed, but the vision was the same.

367

00:35:25,000 --> 00:35:32,000

The end of the Church would mean the end of the world, and the end of the world would come soon after the year 2000.

368

00:35:32,000 --> 00:35:39,000

It's a dire prediction and a date within our lifetime that has been embraced by modern-day mystics.

369

00:35:39,000 --> 00:35:46,000

I mean a great change. I don't mean the five cents cigar or Medicare reform.

370

00:35:46,000 --> 00:35:51,000

I mean ordinary space and time is going to disappear.

371

00:35:51,000 --> 00:35:56,000

Terence McKenna is an author and explorer who lives on the Big Island of Hawaii,

372

00:35:56,000 --> 00:36:00,000

where he awaits what he believes will be the end of the world as we know it.

373

00:36:00,000 --> 00:36:05,000

For McKenna and hundreds of people who have come to embrace his apocalyptic warning,

374

00:36:05,000 --> 00:36:09,000

the Doomsday Clock will run out on a very specific date.

375

00:36:09,000 --> 00:36:16,000

I predict the most novel event in the history of the world in 2012.

376

00:36:16,000 --> 00:36:22,000

And for a conservative mind, that might look like Doomsday, but it isn't Doomsday.

377

00:36:22,000 --> 00:36:30,000

It's simply that we are moving deeper and deeper into uncharted territory, novel territory,

378

00:36:30,000 --> 00:36:34,000

and that's frightening to some people and exhilarating to others.

379

00:36:34,000 --> 00:36:41,000

While McKenna's message is much like that of Malachi and Nostradamus, his medium is decidedly 21st century.

380

00:36:41,000 --> 00:36:47,000

McKenna's crystal ball is a personal computer running software of its own design called Time Wave Zero.

381

00:36:47,000 --> 00:36:53,000

I believe that we have in fact discovered the structure of time itself.

382

00:36:53,000 --> 00:37:02,000

McKenna developed Time Wave Zero in 1970 after studying the ancient Chinese fortune-telling system known as the Yi Qing.

383

00:37:02,000 --> 00:37:09,000

And out of that came a mathematical algorithm that obviously wanted to be a calendar.

384

00:37:09,000 --> 00:37:17,000

And when I looked at it as a calendar, I saw that it described the ebb and flow of change in history.

385

00:37:17,000 --> 00:37:23,000

When McKenna placed the Yi Qing's pattern of peaks and valleys over the timeline of history,

386

00:37:23,000 --> 00:37:29,000

he made a startling discovery. When the Yi Qing system dipped, so did the fortunes of the planet.

387

00:37:29,000 --> 00:37:36,000

Here, 1356, the Black Death, a third of the population of Europe, dies.

388

00:37:36,000 --> 00:37:44,000

And here, the culmination of the Italian Renaissance in 1492 with the discovery of the New World.

389

00:37:44,000 --> 00:37:50,000

Over here, the American and the French revolutions. Here's World War II, and here's us.

390

00:37:50,000 --> 00:37:55,000

Because his computer system provides a remarkably accurate picture of the past,

391

00:37:55,000 --> 00:38:00,000

McKenna is confident it will prove to be an accurate picture of the future as well.

392

00:38:00,000 --> 00:38:08,000

So the predictions of the past give us confidence that what it's saying about the future will also turn out to be true.

393

00:38:08,000 --> 00:38:14,000

On December 21st, 2012, the Time Wave dips off the chart and into infinity.

394

00:38:14,000 --> 00:38:20,000

McKenna does not know what would occur on that date, only that it will be the most significant point in human history.

395

00:38:20,000 --> 00:38:29,000

One of my guesses is that what we will discover in 2012 that will make this true is time travel.

396

00:38:29,000 --> 00:38:35,000

If technologies that could move through time were developed around that time,

397

00:38:35,000 --> 00:38:42,000

it would explain why the Wave could no longer give a linear description of the unfolding of events,

398

00:38:42,000 --> 00:38:46,000

because the unfolding of events would go non-linear at that point.

399

00:38:46,000 --> 00:38:56,000

Nearly 500 years ago, Nostradamus predicted similar changes in the time-space continuum that would occur soon after the year 2000.

400

00:38:56,000 --> 00:39:05,000

He sees a change in mankind, a new humanity, a new culture that ultimately leads to the human race leaving the planet Earth.

401

00:39:05,000 --> 00:39:10,000

They're living in the planets of the constellation Cancer and Aquarius.

402

00:39:10,000 --> 00:39:18,000

So when you look up tonight at the sky and you see the stars of the Aquarius constellation, you're

seeing the future of humanity.

403

00:39:19,000 --> 00:39:25,000

While many of his dire predictions have come true, Nostradamus never claimed his prophecies were irreversible.

404

00:39:25,000 --> 00:39:27,000

In fact, he once wrote,

405

00:39:27,000 --> 00:39:33,000

the one who is reasonable can learn from my prophecies how to find the right path.

406

00:39:33,000 --> 00:39:37,000

Next, if you think crop circles are fakes, listen to this man.

407

00:39:37,000 --> 00:39:43,000

We have seen a whole new family, a whole new range of complexity of the patterns themselves.

408

00:39:49,000 --> 00:39:55,000

Recent revelations that hundreds of English crop circles are the work of sophisticated hoaxers

409

00:39:55,000 --> 00:40:02,000

has damaged the reputation of dedicated researchers, but these serialogists are undaunted by the controversy.

410

00:40:02,000 --> 00:40:07,000

By studying the hoaxed crop circles, they've learned the tricks of the trade.

411

00:40:07,000 --> 00:40:13,000

The fakes, they say, have made it easier for them to separate the wheat from the chap.

412

00:40:14,000 --> 00:40:17,000

I think hoaxers have taught us all of us.

413

00:40:17,000 --> 00:40:25,000

They have shown that you can back engineer many of the features, but you cannot back engineer all of them.

414

00:40:26,000 --> 00:40:32,000

Crop circle researcher Colin Andrews is one of just a handful of full-time investigators

415

00:40:32,000 --> 00:40:39,000

determined to discover the source of these beautiful enigmatic patterns appearing in crop fields from England to Australia.

416

00:40:40,000 --> 00:40:43,000

We have looked at the techniques employed by hoaxers.

417

00:40:43,000 --> 00:40:46,000

We have, in fact, hoaxed them ourselves.

418

00:40:46,000 --> 00:40:51,000

But what happens every time, of course, is that there is evidence that you've been there.

419

00:40:51,000 --> 00:40:57,000

With the genuine phenomena, the fingerprint of the spiral, that is the number of revolutions

420

00:40:57,000 --> 00:41:05,000

the spirals take from the center of the vortex to completion of the circumference is also different.

421

00:41:05,000 --> 00:41:09,000

And the plants are changed at the cellular anatomical level.

422

00:41:10,000 --> 00:41:13,000

This is a field of oil seed rape. It's a very brittle plant.

423

00:41:13,000 --> 00:41:18,000

By the lightest touch of the finger, you'll see the bruising that occurs on this.

424

00:41:18,000 --> 00:41:24,000

I've removed the hue from the plant and the damage is evident for everybody to see.

425

00:41:24,000 --> 00:41:29,000

Well, if that plant being in the upright position as the thousands of them are in this field,

426

00:41:29,000 --> 00:41:37,000

received the energy of the crop circle constructor, whoever or whatever that is, this is what would happen.

427

00:41:37,000 --> 00:41:44,000

I mean, here's the plant being bent over beyond 45 degrees down to the horizontal and snap.

428

00:41:44,000 --> 00:41:52,000

We would immediately establish that a circle has been hoaxed by the fact that the plants will knuckle or snap off,

429

00:41:52,000 --> 00:41:54,000

just like carrots or celery.

430

00:41:54,000 --> 00:41:59,000

In the genuine phenomena, they bend over evenly. They're undamaged.

431

00:41:59,000 --> 00:42:06,000

And it is as if a steaming effect has occurred.

432

00:42:07,000 --> 00:42:13,000

Andrews, an electrical engineer by trade, first became interested in the crop circle phenomenon in 1983.

433

00:42:13,000 --> 00:42:18,000

He was driving to work one morning when a strange pattern in a wheat field caught his eye.

434

00:42:18,000 --> 00:42:24,000

I saw five circles forming a cross in a field below me.

435

00:42:24,000 --> 00:42:29,000

And it was absolutely fascinating. I've not seen or heard anything like this before.

436

00:42:29,000 --> 00:42:34,000

The engineer in me was calling already what actually formed this.

437

00:42:36,000 --> 00:42:43,000

Although crop circles have been sighted worldwide, more than 90% of the world's total have been found in southern England,

438

00:42:43,000 --> 00:42:47,000

within 40 miles of this circle, Stonehenge.

439

00:42:47,000 --> 00:42:56,000

Earlier this year, sightings provided Colin Andrews with a hi-eight camera to keep an ongoing record of new crop circle activity occurring in this region.

440

00:42:56,000 --> 00:43:01,000

This is pretty much a typical day in the life of a crop circle researcher.

441

00:43:01,000 --> 00:43:07,000

Responding to calls from farmers, police, that a circle has been discovered in a field,

442

00:43:07,000 --> 00:43:13,000

it certainly starts, first thing in the morning, responding to those calls

443

00:43:13,000 --> 00:43:18,000

and to get up in the aircraft looking for the patterns wherever they might be.

444

00:43:18,000 --> 00:43:23,000

John, where I think we would certainly like to get is north of Andover.

445

00:43:23,000 --> 00:43:28,000

This year is the only second year in 12 years that has seen a downward curve.

446

00:43:28,000 --> 00:43:32,000

But an increase in complexity of the patterns themselves.

447

00:43:32,000 --> 00:43:37,000

We have seen a whole new family, a whole new range of patterns.

448

00:43:37,000 --> 00:43:43,000

Many of them resemble galaxies, a series of circles and rings,

449

00:43:43,000 --> 00:43:49,000

rotating as if they are circumventing a central feature.

450

00:43:49,000 --> 00:44:03,000

As you tick off the list of possibilities, you get closer and closer to being obliged to consider that something external,

451

00:44:03,000 --> 00:44:08,000

something which is intelligent, is actually placing them there.

452

00:44:08,000 --> 00:44:13,000

Simply considering the possibility that crop circles are the result of non-human intervention

453

00:44:13,000 --> 00:44:19,000

has made Andrews and other serialologists pariahs in the scientific community.

454

00:44:19,000 --> 00:44:24,000

I think some of the media have put a funny tag on the subject.

455

00:44:24,000 --> 00:44:30,000

And the fact that I am now publicly saying that I believe there isn't intelligence involved here

456

00:44:30,000 --> 00:44:35,000

has, I think, further distanced my professional colleagues from me.

457

00:44:35,000 --> 00:44:40,000

So it is very much a lonely life out here.

458

00:44:40,000 --> 00:44:45,000

And while Andrews could once count on farmers for free access to their fields,

459

00:44:45,000 --> 00:44:48,000

now the farmers have had a change of heart.

460

00:44:48,000 --> 00:44:54,000

This year the National Farmers Union in Great Britain have offered a thousand pounds

461

00:44:54,000 --> 00:45:02,000

for information leading to the very first arrest of those people who are making some of these crop circles.

462

00:45:02,000 --> 00:45:05,000

So the attitude certainly has firmed up.

463

00:45:05,000 --> 00:45:09,000

A number of farmers have become really actually quite aggressive

464

00:45:09,000 --> 00:45:14,000

and have now refused entry to many of the researchers like myself

465

00:45:14,000 --> 00:45:18,000

to actually conduct any work whatsoever on their land.

466

00:45:18,000 --> 00:45:23,000

Despite irate farmers, mischievous hoaxes and a skeptical public,

467

00:45:23,000 --> 00:45:30,000

Colin Andrews perseveres because he believes the answer to the crop circle mystery is within his grasp.

468

00:45:30,000 --> 00:45:34,000

The research I think is reaching its final stages.

469

00:45:34,000 --> 00:45:38,000

We do have evidence that a phenomena exists.

470

00:45:38,000 --> 00:45:44,000

We have some ideas to where about in the electromagnetic spectrum the energy is coming from.

471

00:45:44,000 --> 00:45:52,000

I think what we are left with now is to put into position at the primary places we now know they're going to arrive,

472

00:45:52,000 --> 00:45:56,000

a very, very sophisticated surveillance operation.

473

00:45:56,000 --> 00:46:05,000

And we have to record on high-quality television quality footage the crop circle makers.

474

00:46:05,000 --> 00:46:10,000

The serious study of crop circles is a classic Catch-22

475

00:46:10,000 --> 00:46:14,000

to prove that some crop circles are formed by supernatural forces.

476

00:46:14,000 --> 00:46:19,000

Researchers like Colin Andrews need scientists to conduct controlled studies.

477

00:46:19,000 --> 00:46:26,000

But scientists won't do these studies until it's proven that the crop circle phenomenon is not a hoax.

483

00:46:53,000 --> 00:46:59,000

For Sightings, I'm Tim White.

484

00:46:59,000 --> 00:47:05,000

Next on Sci-Fi Dark Shadows.

485

00:47:05,000 --> 00:47:07,000

Are we dealing with an epidemic?

486

00:47:07,000 --> 00:47:10,000

A bold experiment.

487

00:47:10,000 --> 00:47:15,000

We recombine termite and mantid DNA to create a biological counter-agent.

488

00:47:15,000 --> 00:47:17,000

Becomes a deadly mistake.

489

00:47:17,000 --> 00:47:21,000

They were designed to die. They are breeding.

490

00:47:21,000 --> 00:47:24,000

But how do you destroy it?

491

00:47:24,000 --> 00:47:27,000

When you've created it?

492

00:47:27,000 --> 00:47:30,000

Mira Sorvino.

493

00:47:30,000 --> 00:47:34,000

Mimic tomorrow at 7 p.m. on Sci-Fi.
