

1

00:00:00,000 --> 00:00:05,000

on this edition of Sightings.

2

00:00:05,000 --> 00:00:12,000

Is Ottawa's Carlton County jail haunted by the tormented spirit of a man put to death 130 years ago?

3

00:00:12,000 --> 00:00:18,000

They're covering up something.

4

00:00:18,000 --> 00:00:25,000

Then, when Norman Muscarello reported his UFO encounter to the local police, the Air Force wasn't very happy.

5

00:00:25,000 --> 00:00:33,000

After her accident, Patsy Cannon was a new woman. Unfortunately, she had no memory of her old life.

6

00:00:33,000 --> 00:00:39,000

It's like I had the hardware, but the software, suddenly, the disc was erased.

7

00:00:39,000 --> 00:00:44,000

Later, how could a man's psychic vision over 50 years ago save a woman's life today?

8

00:00:44,000 --> 00:00:50,000

They kept telling us, you don't hear. They let her go now.

9

00:00:50,000 --> 00:00:56,000

And Sightings goes to Japan, where they believe UFOs have been appearing for over 2,000 years.

10

00:01:21,000 --> 00:01:27,000

Welcome to Sightings. I'm Tim White.

11

00:01:27,000 --> 00:01:33,000

It's a feeling we've all shared. You walk into a dark basement or an old house, an unfamiliar part of the forest,

12

00:01:33,000 --> 00:01:36,000

and you think, this place gives me their creeps.

13

00:01:36,000 --> 00:01:41,000

Well, ghost investigators have a more sophisticated term for the creeps.

14

00:01:41,000 --> 00:01:49,000

They call it place memory, the belief that certain locations of great anguish and torment retain energy from the past.

15

00:01:49,000 --> 00:01:52,000

It comes back to haunt us in the present.

16

00:02:01,000 --> 00:02:05,000

A pristine blanket of snow covered Ottawa, Canada on our visit there.

17

00:02:05,000 --> 00:02:10,000

But not even 30 degrees below, weather could bring this city to a halt, because it is the capital of Canada,

18

00:02:10,000 --> 00:02:14,000

where life and death decisions are made every day.

19

00:02:15,000 --> 00:02:18,000

Ottawa International Hostel, 3 whole streets.

20

00:02:18,000 --> 00:02:23,000

And on this day, visitors from around the world are checking into the Ottawa International Hostel,

21

00:02:23,000 --> 00:02:29,000

unaware that it too has played a unique role in the life and death decisions of the city's past.

22

00:02:33,000 --> 00:02:41,000

Prior to 1972, this was the Carlton County Jail, an infamous house of corrections and cruel and unusual punishment.

23

00:02:41,000 --> 00:02:45,000

Peter Mackie is the supervisor of operations for the hostel.

24

00:02:45,000 --> 00:02:53,000

The accommodation we offer is within the original cells, with the original bars, the original brickwork.

25

00:02:53,000 --> 00:02:59,000

It's a unique environment. In fact, we do get some people come here purely to say, I've spent time in jail.

26

00:02:59,000 --> 00:03:02,000

There's something to write home about.

27

00:03:02,000 --> 00:03:06,000

As far as I know, there's no other hostel like it anywhere in the world.

28

00:03:06,000 --> 00:03:13,000

In fact, the hostel has many letters on file, written by guests who experienced visions of tortured inmates

29

00:03:13,000 --> 00:03:16,000

and heard painful ghostly screams.

30

00:03:19,000 --> 00:03:24,000

According to Steve Criss, a criminology student and the hostel's unofficial historian,

31

00:03:24,000 --> 00:03:28,000

the Carlton County Jail was a terribly inhumane institution.

32

00:03:28,000 --> 00:03:31,000

This institution was particularly brutal.

33

00:03:31,000 --> 00:03:34,000

The cells were small. There were only three by nine cells.

34

00:03:34,000 --> 00:03:37,000

Freezing in the winter and too hot in the summer.

35

00:03:37,000 --> 00:03:41,000

There wasn't any running water. There wasn't any electricity.

36

00:03:41,000 --> 00:03:48,000

So if you're a prisoner housed in one of the cells in the wintertime, there's a really good chance that you froze to death or got frostbite.

37

00:03:48,000 --> 00:03:51,000

Two years in this institution could mean your life.

38

00:03:52,000 --> 00:03:55,000

Steve is working on a comprehensive history of the jail,

39

00:03:55,000 --> 00:04:00,000

but his efforts have been hampered by a government that would rather forget this scar on its corrections history.

40

00:04:00,000 --> 00:04:07,000

So Steve emailed sightings in search of a different kind of historical perspective, the psychic perspective of Peter James.

41

00:04:07,000 --> 00:04:09,000

How are you? Fine.

42

00:04:09,000 --> 00:04:11,000

Steve Criss. Hi, it's nice to meet you.

43

00:04:11,000 --> 00:04:14,000

Peter had been told only that he was going to Ottawa.

44

00:04:14,000 --> 00:04:18,000

He was given no information about the location that he would be searching

45

00:04:18,000 --> 00:04:22,000

and had been voluntarily confined to his hotel room until this visit.

46

00:04:22,000 --> 00:04:27,000

He was here to unearth the past in hopes of explaining the present haunting.

47

00:04:27,000 --> 00:04:35,000

Uh-huh. This is like a prison. It is a prison. It was a prison.

48

00:04:35,000 --> 00:04:38,000

Peter asked Steve to take him on a tour of the hostel.

49

00:04:38,000 --> 00:04:45,000

They walked all nine floors together, but Steve did not reveal what he already knew of the jail's violent history.

50

00:04:45,000 --> 00:04:48,000

This is preliminary.

51

00:04:48,000 --> 00:04:51,000

But I feel like there were some hangings here.

52

00:04:51,000 --> 00:04:55,000

A lot of hanging going on here. Does that ring a bell?

53

00:04:55,000 --> 00:04:56,000

Yes, it does.

54

00:04:56,000 --> 00:04:57,000

Okay. Thank you.

55

00:04:57,000 --> 00:04:58,000

Because of the history.

56

00:04:58,000 --> 00:04:59,000

Okay.

57

00:04:59,000 --> 00:05:05,000

Peter was drawn to the eighth floor, stopping here, not knowing yet that this was once the jail's death row.

58

00:05:05,000 --> 00:05:13,000

Now, is this the floor that would be a focal point?

59

00:05:13,000 --> 00:05:23,000

Yes, it is.

60

00:05:23,000 --> 00:05:26,000

Yes, in order to this question, does the name Patrick mean anything?

61

00:05:26,000 --> 00:05:27,000

Absolutely.

62

00:05:27,000 --> 00:05:28,000

Patrick?

63

00:05:28,000 --> 00:05:29,000

Yes, it does.

64

00:05:29,000 --> 00:05:42,000

Patrick, with a w, like a w-well, wheel, wheel.

65

00:05:42,000 --> 00:05:48,000

And it's right in this area is, is where I feel.

66

00:05:48,000 --> 00:05:56,000

Records indicate that the jail's death row was the last home for an Irish immigrant named Patrick James Whalen.

67

00:05:56,000 --> 00:06:05,000

In 1868, Whalen was accused in the political assassination plot against Thomas Darcy McGee, a popular figure in the Canadian parliament.

68

00:06:05,000 --> 00:06:12,000

His death shocked the public, and their outcry for swift justice led to Whalen's conviction on a weak prosecution case.

69

00:06:12,000 --> 00:06:20,000

Patrick James Whalen's death was the last public hanging in Canada's history.

70

00:06:20,000 --> 00:06:28,000

Peter felt compelled to go outside, to a spot directly below the gallows where Patrick Whalen was hanged 130 years ago.

71

00:06:28,000 --> 00:06:34,000

People watched, with glee seemingly.

72

00:06:34,000 --> 00:06:39,000

At that time, public hangings were reasonably common across the world.

73

00:06:39,000 --> 00:06:41,000

That was the way justice was done.

74

00:06:41,000 --> 00:06:52,000

And the doors were opened onto the outside world, and about 5,000 people turned up to see him die.

75

00:06:52,000 --> 00:06:57,000

Next, Peter wanted to go to the parking lot on the other side of the building.

76

00:06:57,000 --> 00:07:06,000

Keep in mind that Peter had not yet been told about the hanging of Patrick James Whalen, or the notorious prisoner even existed at all.

77

00:07:06,000 --> 00:07:11,000

Patrick had something to do with this, with this area as well.

78

00:07:11,000 --> 00:07:19,000

It was Patrick Whalen's wish that his body be buried in Montreal next to the grave of his best friend.

79

00:07:19,000 --> 00:07:24,000

And the then Prime Minister of the time had promised him that this wish would be granted.

80

00:07:24,000 --> 00:07:32,000

In actual fact, his body was buried in the courtyard of the jail, in the middle of the night, with no ceremony of any sort.

81

00:07:32,000 --> 00:07:37,000

So his wishes were not granted. That promise was broken.

82

00:07:37,000 --> 00:07:46,000

Just after 11 o'clock, the hostel was quieting down, time for lights out, and time for Peter to attempt to make contact with the spirits.

83

00:07:46,000 --> 00:07:52,000

See, I hear screams, I hear moans and groans, because I get a sense of whippings, and...

84

00:07:52,000 --> 00:07:56,000

Hello? Hello? Who's here?

85

00:07:59,000 --> 00:08:03,000

Someone's at that far corner. Look, look, look, look, look.

86

00:08:04,000 --> 00:08:11,000

Patrick! You're in another dimension!

87

00:08:12,000 --> 00:08:15,000

Talk to me now!

88

00:08:17,000 --> 00:08:22,000

Yes, see, I feel he's talking, he's talking to me now.

89

00:08:22,000 --> 00:08:28,000

And he's saying that he didn't like Mickey.

90

00:08:28,000 --> 00:08:31,000

Help Mickey? Who's Mickey?

91

00:08:31,000 --> 00:08:38,000

Now, he says, I wasn't even, I wasn't even here in November.

92

00:08:38,000 --> 00:08:41,000

Now, what does that mean? I have no idea what that means.

93

00:08:41,000 --> 00:08:46,000

Through Peter, Patrick seemed to say that although he didn't like Mickey, he didn't kill him.

94

00:08:46,000 --> 00:08:52,000

And he was not in Ottawa in November when the prosecution contends Whalen purchased the murder weapon.

95

00:08:52,000 --> 00:08:59,000

The evidence convicting Whalen for the murder of Mickey was very, very circumstantial.

96

00:08:59,000 --> 00:09:04,000

It was based on hearsay. No one ever even saw the assassin who killed Mickey.

97

00:09:04,000 --> 00:09:12,000

Finally, Peter took the same steps that Patrick Whalen had taken on his trip to the gallows so many years ago.

98

00:09:12,000 --> 00:09:18,000

Vibrationally, I don't want to go. I know it's my last walk, it's my last moment of life.

99

00:09:18,000 --> 00:09:21,000

I mean, how sad, how tragically sad.

100

00:09:22,000 --> 00:09:27,000

Whalen on the day of his execution was led to the gallows from his last death row cell.

101

00:09:27,000 --> 00:09:30,000

And standing on the gallows, they said, any last words, Jim?

102

00:09:30,000 --> 00:09:34,000

And he said, God save Ireland and God save my soul.

103

00:09:34,000 --> 00:09:38,000

With that, they put the White Hood over his head and the new surrounder's neck and they hung him.

104

00:09:43,000 --> 00:09:48,000

On February 11th, 1869, Whalen was hanged by the neck until he was dead.

105

00:09:48,000 --> 00:09:56,000

Whether it was because he was an innocent man falsely accused or because of the broken promise about his final resting place,

106

00:09:56,000 --> 00:10:01,000

Peter James is certain that this is one spirit who does not rest in peace.

107

00:10:01,000 --> 00:10:12,000

I would say his presence is certainly here and I believe that he walks these corridors nightly looking for a way out.

108

00:10:15,000 --> 00:10:22,000

Hostiling is a great way to explore the world on a budget and the staff at the Ottawa Hostel hope that the faint of heart

109

00:10:22,000 --> 00:10:25,000

will not be discouraged from visiting their historic facility.

110

00:10:25,000 --> 00:10:31,000

The ghosts, they tell us, respect the do not disturb sign that comes with every room.

111

00:10:31,000 --> 00:10:34,000

Next, rewiring the brain.

112

00:10:34,000 --> 00:10:38,000

Later, a new analysis of the alien autopsy film.

113

00:10:38,000 --> 00:10:41,000

And the future as seen by Native Americans.

114

00:10:41,000 --> 00:10:48,000

Amnesia is one of the oldest soap opera plots in the book.

115

00:10:48,000 --> 00:10:55,000

Inevitably, the confused heroine comes out of her accident-induced fog through the love and dedication of the hero.

116

00:10:55,000 --> 00:11:02,000

In real life, amnesia is a crippling condition that rewires the brain with frightening long-term consequences.

117

00:11:02,000 --> 00:11:07,000

Because sometimes, as Carl Wol discovered in her investigation, the amnesiac never comes back.

118

00:11:07,000 --> 00:11:11,000

Who am I? Why am I here? What is love?

119

00:11:11,000 --> 00:11:19,000

These are the questions we spend our lives asking, building our personalities based on the answers we find along the way.

120

00:11:19,000 --> 00:11:26,000

But what if suddenly that personality was gone? A screech of tires, a crash, then nothing?

121

00:11:26,000 --> 00:11:29,000

No members of the family are left behind.

122

00:11:29,000 --> 00:11:36,000

It happened to Patsy Cannon when she and 9-year-old daughter Lea were in a terrible car crash in Birmingham, Alabama, 10 years ago.

123

00:11:36,000 --> 00:11:47,000

I remember getting in the car, I remember going on the curve, I remember the impact, I remember the car spinning, I remember stopping.

124

00:11:47,000 --> 00:11:50,000

Lea survived with a car crash.

125

00:11:50,000 --> 00:11:55,000

I remember the car spinning, I remember stopping.

126

00:11:55,000 --> 00:11:58,000

Lea survived with only minor injuries.

127

00:11:58,000 --> 00:12:03,000

Her mother, however, was not so lucky. She was unconscious.

128

00:12:03,000 --> 00:12:08,000

And later at the hospital, doctors determined she had a severe brain injury.

129

00:12:08,000 --> 00:12:14,000

When Patsy came out of her coma, she knew where she was, but not who she was.

130

00:12:14,000 --> 00:12:20,000

It's like I had the hardware, but the software suddenly, the disc was erased.

131

00:12:20,000 --> 00:12:25,000

Did your daughter come visit you in the hospital and did you know who she was?

132

00:12:25,000 --> 00:12:27,000

Didn't have a clue who she was.

133

00:12:27,000 --> 00:12:33,000

As Patsy's body began to heal, the blank tapes inside her head started to fill up again.

134

00:12:33,000 --> 00:12:40,000

But strangely, a completely different personality was emerging. She was no longer the Patsy Cannon her friends remembered.

135

00:12:40,000 --> 00:12:47,000

I didn't like the clothes in my closet. I would pick out something and go, where did this come from?

136

00:12:47,000 --> 00:12:54,000

I would get nauseated going into work every day because I felt like, why am I here?

137

00:12:54,000 --> 00:13:00,000

She had new preferences, but emotionally she was still a blank, cold slate.

138

00:13:00,000 --> 00:13:04,000

People talk about a mother's love. There was no feeling in the pity or stomach.

139

00:13:04,000 --> 00:13:06,000

No, did you know what love was even?

140

00:13:06,000 --> 00:13:09,000

I didn't have a clue what love was.

141

00:13:09,000 --> 00:13:24,000

Love and the way we express it and how you express love and how you express anger and how you express all of your emotions are a part of knowledge.

142

00:13:24,000 --> 00:13:31,000

Patsy feels that not only is she a different person, she's not yet a whole person.

143

00:13:31,000 --> 00:13:39,000

According to Dr. J. Maithaler, director of brain injury services at the University of Alabama's Spain Rehabilitation Center,

144

00:13:39,000 --> 00:13:45,000

severe head trauma can alter personality and wipe out some essential brain functions.

145

00:13:45,000 --> 00:13:50,000

People do reconnect their brains differently. Neurons appear to substitute in for each other.

146

00:13:50,000 --> 00:13:57,000

The so-called backup systems. New connections are formed and people don't always come out the same.

147

00:13:57,000 --> 00:14:01,000

You're saying that a hit to your head can essentially rewire the brain.

148

00:14:01,000 --> 00:14:06,000

People change their tastes in music. I've seen people go from type A to type B, type B to type A.

149

00:14:06,000 --> 00:14:11,000

I've seen husband and wives near divorce, like each other, and go the reverse.

150

00:14:11,000 --> 00:14:21,000

The really exciting part of neuroscience that we're in now is that we really are beginning to see a relationship between the brain and the mind.

151

00:14:21,000 --> 00:14:27,000

For Dr. Jeffrey Cummings, a professor of neurology and psychiatry at the UCLA School of Medicine,

152

00:14:27,000 --> 00:14:33,000

the difference between the brain and the mind is the big question science has yet to answer.

153

00:14:33,000 --> 00:14:42,000

The brain is composed of several billion cells that have several trillion synapses with each other.

154

00:14:42,000 --> 00:14:54,000

And we have almost no idea of how this global network of cells brings an idea forth or allows self-consciousness to occur.

155

00:14:54,000 --> 00:15:02,000

We'd like to ask the big question and we'd like to get the big answer, but science works one small step at a time.

156

00:15:02,000 --> 00:15:08,000

Dr. Daniel DeLays is a clinical psychologist who began working with Patsy shortly after her car crash.

157

00:15:08,000 --> 00:15:14,000

Because of her case, he now specializes in head trauma, which affects nearly half a million Americans.

158

00:15:14,000 --> 00:15:27,000

From a clinical standpoint, it really is quite exciting to work with someone and basically help them to formulate who they're going to be.

159

00:15:27,000 --> 00:15:32,000

It's a very exciting, challenging, but awesome responsibility.

160

00:15:32,000 --> 00:15:38,000

After nearly a decade of therapy and physical rehabilitation, Patsy has rebuilt her life.

161

00:15:38,000 --> 00:15:44,000

There are still moments of profound sadness, and yet there is a positive side to her transformation.

162

00:15:44,000 --> 00:15:51,000

You know, it's like I'm pretty free now to be who I am, not to have to fit somebody else's mold.

163

00:15:51,000 --> 00:15:55,000

A big part of it is I don't have a lot of the baggage that other people have.

164

00:15:55,000 --> 00:16:00,000

But this reeducation process raises some serious ethical questions.

165

00:16:00,000 --> 00:16:04,000

Who will decide what will be recorded on the blank tapes of a human mind?

166

00:16:04,000 --> 00:16:07,000

Will people then choose to be rewired at will?

167

00:16:07,000 --> 00:16:10,000

There's a lot of research that indicates that that is true.

168

00:16:10,000 --> 00:16:16,000

That by the rehabilitation methods that you use, the cognitive and psychological and physical environments you use,

169

00:16:16,000 --> 00:16:23,000

you can stimulate the brain to develop in certain pathways and come up with what we call better outcomes.

170

00:16:23,000 --> 00:16:30,000

As doctors debate the future of brain trauma rehabilitation, Patsy Cannon is slowly building a past.

171

00:16:30,000 --> 00:16:35,000

She heads a program helping head trauma survivors reenter the mainstream.

172

00:16:35,000 --> 00:16:42,000

Doctors Maythaller and DeLays are advisors, and she's developing a new closeness with her daughter Leia,

173

00:16:42,000 --> 00:16:46,000

finally at peace with who she is today.

174

00:16:46,000 --> 00:16:50,000

If there's something you come away from this whole experience with,

175

00:16:50,000 --> 00:16:54,000

if there's one overriding thought, what would that be?

176

00:16:54,000 --> 00:16:58,000

What makes us people is our brains.

177

00:16:58,000 --> 00:17:03,000

I think that it's amazing that it's created the way it is.

178

00:17:03,000 --> 00:17:15,000

And I think that the one thing we often miss is the fact that how we manage it is so much a part of what we do with our lives.

179

00:17:15,000 --> 00:17:17,000

And that's the thing that's important.

180

00:17:17,000 --> 00:17:26,000

I think that if there's a brain injury, I think I'm much more in tune to every day how precious life is, how precious people are.

181

00:17:26,000 --> 00:17:29,000

That needs to be respected.

182

00:17:31,000 --> 00:17:37,000

Permanent amnesia is a fairly rare condition, but other types of traumatic brain injury called TBI are not.

183

00:17:37,000 --> 00:17:42,000

In fact, TBI is the leading cause of accidental death for Americans under 45.

184

00:17:42,000 --> 00:17:49,000

And in the time it is taken to report this statistic, one person in the United States has sustained a traumatic brain injury.

185

00:17:49,000 --> 00:17:55,000

Next, a new analysis questions the authenticity of the alien autopsy film.

186

00:17:55,000 --> 00:17:59,000

And the Spanish government turns over its secret UFO files.

187

00:18:07,000 --> 00:18:11,000

Here are some of the stories Sightings is following in the news.

188

00:18:11,000 --> 00:18:16,000

The Roswell autopsy film continues to generate unprecedented worldwide debate.

189

00:18:16,000 --> 00:18:22,000

Now an expert in antique camera and film technique has come forward with his controversial analysis.

190

00:18:26,000 --> 00:18:35,000

In Seattle, Washington, a mutual UFO network researcher has broken ranks, challenging the authenticity of the Roswell autopsy film.

191

00:18:35,000 --> 00:18:39,000

Clive Tobin is a veteran film analyst with 30 years experience.

192

00:18:39,000 --> 00:18:47,000

He has examined portions of the controversial autopsy film frame by frame and has discovered an apparent anachronism visible only under magnification.

193

00:18:47,000 --> 00:18:54,000

What's being shown is a positive print made on a piece of equipment that only existed after 1960.

194

00:18:54,000 --> 00:18:57,000

Tobin found his evidence on the edge of the Roswell film.

195

00:18:57,000 --> 00:19:04,000

It contains markings created with a C-printer, a device first in use 13 years after the supposed autopsy took place.

196

00:19:04,000 --> 00:19:09,000

This is a video freeze frame here from the alien autopsy broadcast.

197

00:19:09,000 --> 00:19:17,000

This bit of film mounted in the slide mount is by all reports what they consider to be actual original film.

198

00:19:17,000 --> 00:19:23,000

However, if you see this characteristic footprint here along the edge, that is from a C-printer.

199

00:19:23,000 --> 00:19:27,000

The C-printer was first made around 1960.

200

00:19:27,000 --> 00:19:33,000

So this film print, and it is a print, could not have been produced really in 1947.

201

00:19:34,000 --> 00:19:40,000

However, other researchers point to edge markings on the film that are consistent with vintage 1947 film.

202

00:19:40,000 --> 00:19:44,000

But Tobin does not believe this is an accurate method of dating.

203

00:19:44,000 --> 00:19:57,000

The edge printing could have come from genuinely old film from 1947 where they just copied the edge printing and the edge date code onto this particular strip of film.

204

00:19:57,000 --> 00:20:05,000

Tobin feels that only a complete examination of the entire original film by a blue ribbon panel will put the controversy to rest.

205

00:20:05,000 --> 00:20:09,000

So far the film's owners have refused.

206

00:20:13,000 --> 00:20:23,000

In Canyon Lake, California, author Thomas Mayles has completed his translations of ancient Hopi prophecies that pretend an ominous future for humankind.

207

00:20:23,000 --> 00:20:28,000

It's the most important message the world is going to hear right now.

208

00:20:28,000 --> 00:20:33,000

It tells us of terrors to come and terrors the world has earned.

209

00:20:33,000 --> 00:20:42,000

In his new book, Hote Villa, Mayles details the 110 prophecies handed down by Massau, a 12th century Hopi prophet.

210

00:20:42,000 --> 00:20:48,000

Massau's accurate predictions so far include the coming of the white man and the onset of both world wars.

211

00:20:48,000 --> 00:20:55,000

And according to Mayles, he also predicted a third world war in this century that will destroy nearly all life on earth.

212

00:20:55,000 --> 00:21:04,000

The basis for Mayles' belief in a cataclysmic finale to the 20th century is this stone called the Hopi Lifestone.

213

00:21:04,000 --> 00:21:11,000

The symbols on the stone, according to Mayles' interpretation, describe violent events that have occurred in this century.

214

00:21:11,000 --> 00:21:15,000

An additional symbol points to a terrible event in the future.

215

00:21:15,000 --> 00:21:19,000

This symbol, Mayles' believes, represents the flag of China.

216

00:21:19,000 --> 00:21:28,000

I think it's very probable that the third and great war will begin with China.

217

00:21:28,000 --> 00:21:32,000

Mayles believes that there will be a few survivors.

218

00:21:32,000 --> 00:21:39,000

Those who heed the stone's warning and embrace the Hopi view of life and nature will be the chosen few.

219

00:21:39,000 --> 00:21:46,000

It has to do with attitude and feeling that makes you, say, a natural environmentalist.

220

00:21:46,000 --> 00:21:53,000

And as people begin to do these things, the world over, the whole attitude of the world will change.

221

00:21:53,000 --> 00:22:00,000

Mother Earth herself will quiet down because she'll know that everything is going to be all right.

222

00:22:01,000 --> 00:22:15,000

In Sheffield, England, internationally renowned UFO investigator Vincente Juan Balestra Olmos astounded his colleagues at this UFO conference

223

00:22:15,000 --> 00:22:21,000

with the announcement that, for the first time in history, a government will declassify all of its UFO files.

224

00:22:21,000 --> 00:22:23,000

The country is Spain.

225

00:22:23,000 --> 00:22:33,000

They like to put stamps on every document and they used to put confidential and secret stamps.

226

00:22:33,000 --> 00:22:39,000

Why? Because they didn't know how to handle something which was unknown to them.

227

00:22:39,000 --> 00:22:47,000

For over 20 years, hundreds of well-documented UFO sightings have been kept locked away in the top secret files of the Spanish government.

228

00:22:47,000 --> 00:22:55,000

Olmos had been aware of their existence for a number of years, but had been denied access to any and all UFO materials.

229

00:22:55,000 --> 00:23:01,000

I presented a number of arguments and reasons why this subject is not military in nature.

230

00:23:01,000 --> 00:23:05,000

It should be open for scientific scrutiny and study.

231

00:23:06,000 --> 00:23:14,000

To date, 70 official Spanish Air Force UFO reports, classified top secret from 1962 to 1979,

232

00:23:14,000 --> 00:23:18,000

have been released to Olmos and other Spanish UFOlogists.

233

00:23:18,000 --> 00:23:29,000

By presenting his triumph at the Sheffield conference, Olmos hopes other UFOlogists will use his Spanish model to gain access to their own country's UFO documents.

234

00:23:29,000 --> 00:23:37,000

The effect will be good for UFOlogists because we will have access to wealth of new information.

235

00:23:38,000 --> 00:23:47,000

We'll have more stories from the news next time. Now, here's what's coming up on sightings.

236

00:23:47,000 --> 00:23:56,000

The town of Exeter, New Hampshire has returned to normal following a major UFO encounter 30 years ago, not so for the witnesses.

237

00:23:56,000 --> 00:24:02,000

I wish to hell it had never happened. I'd like to just be a normal person and give everybody else.

238

00:24:08,000 --> 00:24:13,000

On Capitol Hill, congressional investigations are reserved for matters of great import,

239

00:24:13,000 --> 00:24:18,000

issues that will affect the security, prosperity and the rights of the American people.

240

00:24:18,000 --> 00:24:24,000

And it was with this sense of public duty that Gerald Ford chaired a congressional investigation in 1966,

241

00:24:24,000 --> 00:24:31,000

an investigation into a series of UFO sightings that the Pentagon had failed to explain to anyone's satisfaction.

242

00:24:37,000 --> 00:24:44,000

We have not been hiding anything. The investigations have been made public.

243

00:24:44,000 --> 00:24:49,000

The explanations of those where there is a clear explanation have been made public.

244

00:24:49,000 --> 00:24:52,000

The hearing this morning was public for just that reason.

245

00:24:52,000 --> 00:25:00,000

It was an age of innocence when a veteran reporter getting to the bottom of a UFO story expected a straight answer from the Air Force.

246

00:25:00,000 --> 00:25:04,000

Does this mean that the Air Force really thinks that there are such things as flying saucers?

247

00:25:04,000 --> 00:25:10,000

This cannot be released, no statement until after the United States Air Force has reviewed the investigation.

248

00:25:10,000 --> 00:25:20,000

In the 1960s, the American public turned to the federal government and demanded an explanation for

the increasing number of UFO sightings.

249

00:25:20,000 --> 00:25:26,000

The government offered little or no information disregarding or at worst discrediting the sightings and the eyewitnesses.

250

00:25:26,000 --> 00:25:33,000

In Exeter, New Hampshire in September 1965, Air Force investigators arrived at the home of Norman Muscarello

251

00:25:33,000 --> 00:25:38,000

and Norman learned that going public about his UFO encounter was a dangerous endeavor.

252

00:25:38,000 --> 00:25:45,000

They came in my mother's kitchen, asked where I was, he said,

253

00:25:45,000 --> 00:25:51,000

where's Norman? She says, in the living room. And he marched right out there without asking or anything.

254

00:25:51,000 --> 00:25:56,000

And he said, you shut your mouth. Don't you say another word?

255

00:25:56,000 --> 00:26:03,000

Exactly what did you think you saw? He was trying to say to me that I didn't see what I saw.

256

00:26:03,000 --> 00:26:10,000

What Norman Muscarello claims he saw was a brilliant UFO in a field next to his Exeter home.

257

00:26:10,000 --> 00:26:15,000

On September 3rd, 1965, Norman was walking home just after midnight.

258

00:26:15,000 --> 00:26:20,000

I got right over to this stone over here. I'd sit close to this stone wall.

259

00:26:20,000 --> 00:26:27,000

And this is when this thing appeared and it was like it came out of nowhere. It was just zap.

260

00:26:27,000 --> 00:26:33,000

All of a sudden, there it was. Biggest of house up over these trees.

261

00:26:33,000 --> 00:26:39,000

And he observed this craft hovering over a home right next to where he was.

262

00:26:39,000 --> 00:26:44,000

The home was completely bathed in red light. The area was bathed in red light.

263

00:26:44,000 --> 00:26:46,000

There was no sound.

264

00:26:46,000 --> 00:26:51,000

When Norman reported his encounter to the local police, he found out he was not alone.

265

00:26:51,000 --> 00:26:54,000

There were other sightings that night that made it interesting.

266

00:26:54,000 --> 00:27:02,000

In fact, prior to Norman seeing the UFO, Officer Bertrand came upon a woman motorist that was parked beside the road.

267

00:27:02,000 --> 00:27:05,000

And she described a similar object that had chased her.

268

00:27:05,000 --> 00:27:12,000

In fact, there were a total of six reports filed with the Exeter police on the night of September 3rd, 1965.

269

00:27:12,000 --> 00:27:19,000

It was the number of credible eyewitnesses and the consistency among their descriptions that drew Raymond Fowler into the case.

270

00:27:19,000 --> 00:27:27,000

Fowler is one of America's preeminent UFO investigators. He has worked on many landmark cases, including the Allagash Abduction.

271

00:27:27,000 --> 00:27:34,000

At the time of the Exeter sightings, Fowler was a member of NICAP, the National Investigations Committee on Aerial Phenomenon.

272

00:27:34,000 --> 00:27:44,000

Our mission was to investigate UFO sightings, make them available to interested scientists who were studying the phenomena, and make this information public.

273

00:27:44,000 --> 00:27:49,000

For the past 30 years, Fowler has followed through on Norman Muscarello's story.

274

00:27:49,000 --> 00:27:56,000

His investigation of the incident at Exeter is now considered one of the most extensively documented UFO sightings.

275

00:27:56,000 --> 00:28:06,000

What made this case interesting to me was the fact that an object as large as a barn was seen within 500 feet of witnesses.

276

00:28:06,000 --> 00:28:12,000

As the early reports began to come into police headquarters, Officer Eugene Bertrand was called in from the field.

277

00:28:12,000 --> 00:28:17,000

After listening to Norman's story, they drove together to investigate the area.

278

00:28:17,000 --> 00:28:24,000

He pulled his cruiser up on the other side of the road, and we proceeded in this direction.

279

00:28:24,000 --> 00:28:30,000

Down this way, he had a large seal beam flashlight in his hand.

280

00:28:30,000 --> 00:28:35,000

At that point, police officer David Hunt drove up and joined the foot search.

281

00:28:35,000 --> 00:28:44,000

And they walked out into the field and Norman yelled, look out, here it comes, and up over the treetops comes this object right at them with the red flashing lights.

282

00:28:44,000 --> 00:28:47,000

And come up over the treeline in this direction.

283

00:28:47,000 --> 00:28:54,000

Move this way, that way, back and forth this way, and then moved in that direction and headed eastward.

284

00:28:54,000 --> 00:28:59,000

When the UFO moved away, Norman and the two officers returned to the police station.

285

00:28:59,000 --> 00:29:04,000

At the same time, a local reporter was filing this story for the Exeter newspaper.

286

00:29:04,000 --> 00:29:08,000

And the police and the press were the only ones investigating the UFO sightings.

287

00:29:08,000 --> 00:29:11,000

Officials at nearby P's Air Force Base became involved.

288

00:29:11,000 --> 00:29:19,000

First, they interviewed officers Bertrand and Hunt, and then Norman Muscarello, who claims he was told not to talk about what he had witnessed.

289

00:29:19,000 --> 00:29:24,000

I have no question in my mind, they're covering up something.

290

00:29:24,000 --> 00:29:35,000

I'm thoroughly convinced that the federal government, whether it be the Army, Air Force, Navy, was out actively researching, trying to figure out what was going on.

291

00:29:35,000 --> 00:29:43,000

It is significant that the Exeter sightings were in very close proximity to the Portsmouth Naval Shipyard and P's Air Force Base.

292

00:29:43,000 --> 00:29:52,000

UFOs seem to have a keen interest in places where atomic weapons are either stored or atomic energy is being generated.

293

00:29:52,000 --> 00:29:58,000

This includes places like the Portsmouth Navy Shipyard where you have atomic submarines.

294

00:29:58,000 --> 00:30:02,000

It includes places like P's Air Force Base where atomic weapons are stored.

295

00:30:03,000 --> 00:30:11,000

Fowler believes that the Air Force launched a disinformation campaign, suggesting the Exeter UFO was a late night advertising gimmick.

296

00:30:11,000 --> 00:30:24,000

It was a classical case where you had reliable witnesses seeing an object that they couldn't identify at close range, and then having the Air Force on the other hand investigating, but then telling the public that there was nothing to it.

297

00:30:25,000 --> 00:30:32,000

The Incident at Exeter was the first in a series of UFO sightings which culminated a year later, with mass sightings in Michigan.

298

00:30:32,000 --> 00:30:42,000

The public became increasingly dissatisfied with the military's official explanation, and a congressional hearing on UFOs was proposed by then Congressman Gerald Ford.

299

00:30:42,000 --> 00:30:55,000

And he and other men and women in Congress felt that the Air Force was not handling the UFO problem properly because they were getting so many complaints from the public concerning their explanations and so forth.

300

00:30:55,000 --> 00:31:01,000

Fowler's exhaustive report on the UFO encounter at Exeter was put into the congressional record.

301

00:31:01,000 --> 00:31:11,000

During the hearings on April 5th, 1966, the committee presented the findings in Fowler's report to Air Force officials and asked for an explanation.

302

00:31:11,000 --> 00:31:18,000

I felt that this particular case was interesting and that it showed that the Air Force wasn't really telling the truth to the public.

303

00:31:18,000 --> 00:31:26,000

They discussed the report and the Air Force back down and admitted that the object was unidentified.

304

00:31:26,000 --> 00:31:36,000

Norman Muscarello's sighting had far-reaching effects on future UFO investigations, but for him, the Incident at Exeter remains deeply personal.

305

00:31:37,000 --> 00:31:50,000

I wish to hell it had never happened. No, I really do. I wish I could have just walked through life without this happening. I'd like to just be a normal person and give everybody else.

306

00:31:52,000 --> 00:31:59,000

The congressional investigation did elicit an admission from the Air Force that the Exeter craft was, in fact, unidentified.

307

00:31:59,000 --> 00:32:10,000

But ufologists are frustrated that the investigation went no further and that no one inside the government since then has ever tried to identify exactly what was flying over Exeter that night.

308

00:32:11,000 --> 00:32:14,000

Next, medical science embraces the visions of a psychic dreamer.

309

00:32:14,000 --> 00:32:20,000

There are doctors out there who are having success with using Casey's readings in the treatment.

310

00:32:20,000 --> 00:32:35,000

His wife had been in a coma for three months. Doctors were using words like vegetative state and hopeless. Inventional medical wisdom was bleak.

311

00:32:35,000 --> 00:32:41,000

So John Hendricks decided he had to seek healing wisdom from a very unconventional source.

312

00:32:51,000 --> 00:33:04,000

In February 1985, Lucille Hendricks nearly died. Her skull was crushed. She was in a deep coma. Doctors told Lucille's husband, John, that there was very little they could do.

313

00:33:04,000 --> 00:33:22,000

She was in a coma for 80 days and they kept telling us here that it was hopeless. He said, I don't think she's going to make it. It would be simpler and better to let her go now.

314

00:33:22,000 --> 00:33:38,000

But the healing wisdom of this man, Edgar Casey, gave the Hendricks hope. Long before Lucille was even born, Casey would lapse into self-induced trances and divine new methods of healing, including

the one that would one day rehabilitate Lucille Hendricks.

315

00:33:38,000 --> 00:33:43,000

He was known as the sleeping prophet and his psychic readings made him world famous.

316

00:33:43,000 --> 00:33:49,000

Nothing in this lifetime that we could find suggested that he had had any kind of medical training.

317

00:33:49,000 --> 00:34:00,000

Dr. Harmon Bro is one of the few people still alive today who worked with Edgar Casey and witnessed the daily trances during which Casey imparted medical diagnosis and treatments.

318

00:34:00,000 --> 00:34:10,000

He stretched out and began to breathe deeply and regularly, put his hands up over his forehead, and that seemed to be related to some delicate centers in his body.

319

00:34:10,000 --> 00:34:19,000

His eyelids would begin to flutter. Then he moved to the more technical questions of prognosis. First, what's going to happen? Where are you? How are your doctors doing with you? How's your medication?

320

00:34:19,000 --> 00:34:37,000

And then diagnosis very carefully and thorough, beginning with the whole bloodstream and the content of the blood and the blood pressure and all that, then the nervous system, then the organ systems, one after another, extremely thorough and exciting as hell because of that.

321

00:34:37,000 --> 00:34:55,000

And then moving to treatment modalities, which were remarkably rich and balanced. And Casey does a nifty job of correlating both the biology and the anatomy and the physiology of our physical health and this other deeper human stuff that engages our values, our commitments and our real beings.

322

00:34:55,000 --> 00:34:59,000

That's exciting stuff and worthy of serious work in our times.

323

00:35:00,000 --> 00:35:18,000

When Lucille emerged from her coma and conventional rehabilitation was proving unsuccessful, John brought his wife to the ARE clinic in Phoenix, Arizona. Here, an unconventional team of healthcare professionals are dedicated to studying and applying the treatments prescribed by Casey during his trances.

324

00:35:18,000 --> 00:35:34,000

Edgar Casey was a light to other people throughout the world. Casey said, there are no conditions of the human body that cannot be returned back to normal. And so we're searching for those answers as to how that might be done.

325

00:35:34,000 --> 00:35:43,000

Most of the patients who find their way here are people who have been told there is no hope or there's nothing more can be done.

326

00:35:44,000 --> 00:35:54,000

Some of the treatments are unique to this facility and Casey's other clinic in Virginia. In addition to these, more mainstream therapies are used for a balanced holistic approach.

327

00:35:54,000 --> 00:36:06,000

The therapies such as counseling, biofeedback, massage, colonics, acupressure treatment, which is kind of like a painless type of acupuncture.

328

00:36:06,000 --> 00:36:14,000

We have seen incredible things happen here when people within themselves believe that they can get well.

329

00:36:14,000 --> 00:36:20,000

Right from the beginning, they had this positive attitude and they instilled that in me.

330

00:36:21,000 --> 00:36:30,000

They anticipated my recovery. That rubbed off on John and me. They just knew it was going to happen and they anticipated it.

331

00:36:30,000 --> 00:36:39,000

The Hendricks are convinced that it was Casey's psychic healing wisdom that led Lucille to a

recovery her physicians back home have called miraculous.

332

00:36:39,000 --> 00:36:55,000

When we see somebody like Lucille recover, like she did, particularly in such a short amount of time, there is so much excitement that runs through the entire clinic that you just can't contain it.

333

00:36:55,000 --> 00:37:06,000

Without them, she would have gone to long term hospital to be a vegetable the rest of her life.

334

00:37:06,000 --> 00:37:09,000

We had no other way to turn.

335

00:37:09,000 --> 00:37:17,000

The Association for Research and Enlightenment is cataloging more than 14,000 psychic readings that Edgar Casey gave during his lifetime.

336

00:37:17,000 --> 00:37:22,000

And new therapies are being uncovered that may give hope to the seriously ill.

337

00:37:22,000 --> 00:37:29,000

A lot of this stuff is just now coming to light. We're only in the first 60, 70 years of this information.

338

00:37:29,000 --> 00:37:35,000

But there are doctors out there who are having success with using Casey's readings in their treatment.

339

00:37:35,000 --> 00:37:47,000

According to Edgar Casey's grandson Thomas, even now, 50 years after Casey's death, the mysterious treatments of the sleeping prophet are waking up the traditional medical establishment.

340

00:37:47,000 --> 00:37:56,000

We're in very exciting times with regard to an increased openness toward considering alternative approaches to health and healing.

341

00:37:56,000 --> 00:38:02,000

And I think my grandfather's readings will make a contribution in this area.

342

00:38:02,000 --> 00:38:10,000

The holistic approach to healing practiced at the A.R.A. clinic in Virginia Beach has had many successes, but it is not yet accepted in the mainstream.

343

00:38:10,000 --> 00:38:17,000

Evidence by the fact that most of the clinic's procedures are not covered by standard health insurance.

344

00:38:17,000 --> 00:38:22,000

Next, Japan's ancient UFO sightings continue to this day.

345

00:38:22,000 --> 00:38:27,000

There were bright lights, red, yellow, and a bright white light.

346

00:38:33,000 --> 00:38:40,000

Until recently, the earliest known UFO sighting was thought to have occurred near Laspizia, Italy in 1558.

347

00:38:40,000 --> 00:38:52,000

But on a recent trip to Japan, I met with that country's premier ufologist and learned that Japan, too, has a rich history of UFO sightings that are far more ancient, dating back thousands of years.

348

00:38:53,000 --> 00:39:03,000

The rise and fall of Japan's great empires has been scrupulously documented, creating for posterity an intimate history unprecedented in its detail.

349

00:39:03,000 --> 00:39:11,000

And among those details, there are stranger counts and artifacts of unearthly encounters, dating back thousands of years.

350

00:39:11,000 --> 00:39:17,000

Konichi Arai has studied UFOs since his days in the Japanese Air Force in the late 1940s.

351

00:39:17,000 --> 00:39:23,000

He has collected sculpture from the Dooku period, dating back as early as 1000 BC.

352

00:39:23,000 --> 00:39:26,000

What these figures depict is still not known.

353

00:39:29,000 --> 00:39:36,000

If you look at the Dooku sculptures, they resemble aliens. I'm not positive, but I think it's a great possibility.

354

00:39:36,000 --> 00:39:39,000

They are some type of non-human being.

355

00:39:40,000 --> 00:39:48,000

Arai's extensive collection of UFO material is now housed in a library he created and opened to the public in 1979.

356

00:39:50,000 --> 00:39:57,000

I have so many books on UFOs, and within Japan, there are not many people that have a library as extensive as mine.

357

00:39:57,000 --> 00:40:07,000

Interest in Japanese ufology is so widespread that a national symposium was convened in 1990 in the town of Hakui, known as a hotspot for UFO activity.

358

00:40:07,000 --> 00:40:13,000

Over here, this is interesting because these things are from here, aren't they? I mean, these are from this...

359

00:40:13,000 --> 00:40:19,000

I met city official, Jose Takano there, and he took me through the town's UFO exhibition.

360

00:40:19,000 --> 00:40:29,000

Among the displays is a 1990 letter from then Prime Minister Toshiki Kaifu, who wrote endorsing the Hakui Symposium and expressing his belief in the significance of UFO sightings.

361

00:40:30,000 --> 00:40:43,000

The Japanese government does have some interest in this area. It has held meetings regarding UFOs. There are publications from the Japanese government on UFOs.

362

00:40:44,000 --> 00:40:52,000

I saw the extent of the Japanese government's commitment to the study of UFOs at the construction site of Japan's first UFO museum.

363

00:40:52,000 --> 00:40:55,000

An ambitious project funded both publicly and privately.

364

00:40:56,000 --> 00:41:01,000

Tell us about the UFO museum. Why is it here in Hakui?

365

00:41:04,000 --> 00:41:11,000

We feel this is an important project. Hakui has historically had many UFO sightings and is part of the UFO culture.

366

00:41:12,000 --> 00:41:18,000

At one of Hakui's most ancient temples, I was shown a scroll dating from 682 AD.

367

00:41:18,000 --> 00:41:24,000

It tells the story of an empress who encountered mysterious objects zigzagging across the sky.

368

00:41:24,000 --> 00:41:31,000

It's the kind of sightings still being reported in Hakui today, most recently by Hisayoshi Miyazaki.

369

00:41:32,000 --> 00:41:41,000

This is where I saw the UFO. There were bright lights, red, yellow and a bright white light.

370

00:41:41,000 --> 00:41:51,000

Around where the red light is flashing, I saw the UFO. I looked closely and saw it flying around. It floated around for about 3 to 4 minutes.

371

00:41:52,000 --> 00:42:03,000

In Japan, there have been many incidents in which people claim that they have come in contact or have been kidnapped by little grays.

372

00:42:03,000 --> 00:42:10,000

When researched in depth, it has been found that the description of the incident is similar with incidents throughout the world.

373

00:42:10,000 --> 00:42:17,000

But the world's attitude toward UFO research has not been as generally accepted and promoted as it has in Japan.

374

00:42:17,000 --> 00:42:23,000

And most euphonicists are not afforded the kind of access and respect that a rye is now being given.

375

00:42:26,000 --> 00:42:33,000

We now have financial support from the Japanese government. With that support, we are building a UFO museum.

376

00:42:33,000 --> 00:42:39,000

We are trying to educate people regarding UFOs so that we could work towards universal peace.

377

00:42:40,000 --> 00:42:45,000

The saucer-shaped UFO museum in Hakui, Japan is now under construction.

378

00:42:45,000 --> 00:42:53,000

When it's opened in early 1997, it will house one of the most extensive collections of UFO data and artifacts in the world.

379

00:43:00,000 --> 00:43:05,000

Sightings is now on the Internet as part of the Sci-Fi Channel's Dominion website.

We have features from some of our stories on a weekly basis. We have downloadable images and quick-time clips.

384

00:43:42,000 --> 00:43:46,000

When I make contact with this entity, I will become a little confrontational.

385

00:43:46,000 --> 00:43:49,000

Hello? Hello?
