

1

00:00:00,000 --> 00:00:03,200

The following program deals with a controversial subject.

2

00:00:03,200 --> 00:00:06,500

The theories expressed are not the only possible interpretation.

3

00:00:06,500 --> 00:00:10,500

The viewer is invited to make a judgment based on all available information.

4

00:00:10,500 --> 00:00:13,000

Tonight on Sightings.

5

00:00:13,000 --> 00:00:17,500

Has this team of investigators captured proof of UFOs on videotape?

6

00:00:17,500 --> 00:00:21,000

I'm a pure skeptic and seeing what I just saw.

7

00:00:21,000 --> 00:00:22,500

I can't be skeptical.

8

00:00:22,500 --> 00:00:26,500

Do the latest cases of abduction reveal frightening alien motives?

9

00:00:26,500 --> 00:00:32,500

Women begin to experience the gynecological examinations done by the aliens on them.

10

00:00:32,500 --> 00:00:37,500

And could our own astronauts face deadly close encounters with alien forces?

11

00:00:37,500 --> 00:00:42,500

Something is out there and what it is I don't know.

12

00:00:44,500 --> 00:00:47,500

At that point it started to appear.

13

00:00:47,500 --> 00:00:50,500

They had large, dark eyes, small, like hands.

14

00:00:52,500 --> 00:00:55,500

I began sensing and knowing and feeling.

15

00:00:56,500 --> 00:00:59,500

I do believe in life after death. I mean, I've been there.

16

00:00:59,500 --> 00:01:03,500

We have not scratched the surface of what the mind can do.

17

00:01:05,500 --> 00:01:07,500

It's a connection with the unknown.

18

00:01:15,500 --> 00:01:18,500

Hello, I'm Tim White. Tonight on Sightings.

19

00:01:18,500 --> 00:01:22,500

People who claim to have had personal contact with aliens.

20

00:01:22,500 --> 00:01:28,500

They tell bizarre stories of abduction and they suggest their captors have sinister motives.

21

00:01:28,500 --> 00:01:31,500

Most UFO encounters are easily debunked by experts,

22

00:01:31,500 --> 00:01:35,500

but there are still many sightings that cannot be explained,

23

00:01:35,500 --> 00:01:38,500

even by the most skeptical researchers.

24

00:01:38,500 --> 00:01:42,500

UFOs, they've been sighted in every corner of the earth.

25

00:01:42,500 --> 00:01:47,500

Witnesses have captured strange lights and disc-shaped objects on film and video,

26

00:01:47,500 --> 00:01:52,500

but even before the age of technology, people worldwide were reporting UFOs.

27

00:01:52,500 --> 00:01:58,500

The UFO subject goes back at least six to eight thousand years in human history.

28

00:01:58,500 --> 00:02:02,500

People have many times pointed to the Christian Bible

29

00:02:02,500 --> 00:02:10,500

and the old first five books of the Jewish Torah as being examples throughout history of UFO context.

30

00:02:10,500 --> 00:02:17,500

What we're seeing today is considered by many to be examples of superior technology from somewhere else,

31

00:02:17,500 --> 00:02:19,500

probably another planet.

32

00:02:20,500 --> 00:02:24,500

Some places have become legendary as UFO hotspots.

33

00:02:24,500 --> 00:02:26,500

Gulf Breeze, Florida.

34

00:02:26,500 --> 00:02:28,500

Roswell, New Mexico.

35

00:02:28,500 --> 00:02:31,500

Sightings in these out-of-the-way locations number in the thousands.

36

00:02:31,500 --> 00:02:33,500

The next hotspot?

37

00:02:33,500 --> 00:02:36,500

According to world-renowned UFO researcher Peter Guttella,

38

00:02:36,500 --> 00:02:41,500

this town, Anzac, California, has all the earmarks of an extraterrestrial mecca.

39

00:02:43,500 --> 00:02:49,500

We have animal mutilations, we have abductions, we have close encounters of all degrees.

40

00:02:49,500 --> 00:02:53,500

We've had the appearance of mysterious animals,

41

00:02:53,500 --> 00:02:58,500

and we've even had some of the so-called men in black experiences there.

42

00:02:59,500 --> 00:03:06,500

At a local coffee shop, people were willing to share bizarre stories of their UFO encounters.

43

00:03:06,500 --> 00:03:09,500

Kind of. I mean, does the feeling get like that?

44

00:03:09,500 --> 00:03:14,500

They reveal that they believe that the men in black are actually extraterrestrials

45

00:03:14,500 --> 00:03:16,500

sighted in deserted areas near the town.

46

00:03:16,500 --> 00:03:19,500

Each story is stranger than the last.

47

00:03:19,500 --> 00:03:25,500

I happened to look through the trees and I saw this vehicle

48

00:03:25,500 --> 00:03:31,500

standing about just still just about 60 feet off of the ground.

49

00:03:31,500 --> 00:03:33,500

It's like a flying saucer.

50

00:03:33,500 --> 00:03:37,500

It had a dome on the top and a platform around,

51

00:03:37,500 --> 00:03:42,500

and a couple of persons walked around walking on air.

52

00:03:42,500 --> 00:03:47,500

I was delighted to be able to see such a thing.

53

00:03:49,500 --> 00:03:54,500

And then all of a sudden, it was gone.

54

00:03:55,500 --> 00:04:01,500

ANZA is a UFO researcher's dream, a living laboratory filled with eyewitnesses.

55

00:04:01,500 --> 00:04:04,500

They moved, first saw them over here, they moved across.

56

00:04:04,500 --> 00:04:09,500

This thing was so bright, there was absolutely no shadows whatsoever on the ground.

57

00:04:09,500 --> 00:04:13,500

It was like a gold trail, it left a gold trail.

58

00:04:13,500 --> 00:04:19,500

Gotilla believes an around-the-clock surveillance here could net scientific proof of UFO activity.

59

00:04:19,500 --> 00:04:23,500

Activity reported today and possibly in the ancient past,

60

00:04:23,500 --> 00:04:27,500

when Indians here drew astronaut-like figures.

61

00:04:27,500 --> 00:04:31,500

Because of so much activity, the time was right.

62

00:04:31,500 --> 00:04:35,500

A team of UFO experts and skeptics move into the area.

63

00:04:35,500 --> 00:04:39,500

This will be one of the largest UFO stakeouts ever.

64

00:04:39,500 --> 00:04:42,500

They set up a command post on Thomas Mountain.

65

00:04:42,500 --> 00:04:45,500

No one that I know of has gone out there to do what we did.

66

00:04:45,500 --> 00:04:46,500

We had the radar.

67

00:04:46,500 --> 00:04:50,500

This radar can detect objects within a 24-mile radius.

68

00:04:50,500 --> 00:04:52,500

This was pretty elaborate.

69

00:04:52,500 --> 00:04:56,500

The equipment was very expensive and very good and very accurate.

70

00:04:56,500 --> 00:05:01,500

The starlight camera is so sensitive, it can photograph objects in total darkness.

71

00:05:01,500 --> 00:05:05,500

Once online, it sees anything that gives off even the slightest light.

72

00:05:05,500 --> 00:05:10,500

It easily picks up stars that are not visible with a regular video camera.

73

00:05:10,500 --> 00:05:13,500

This camera is unique because it has an intensifier,

74

00:05:13,500 --> 00:05:18,500

which is more than a thousand times more sensitive than the video camera you have in your home.

75

00:05:19,500 --> 00:05:25,500

Surveying the area, the researchers are looking for a UFO the locals have nicknamed Goldy,

76

00:05:25,500 --> 00:05:30,500

a golden glowing craft seen over and over in the night sky from this mountaintop.

77

00:05:30,500 --> 00:05:32,500

Starlight, we're looking at Mount Kavuya.

78

00:05:32,500 --> 00:05:38,500

This is where Goldy or the UFO, which has been seen about 50 times in the past three or four years,

79

00:05:38,500 --> 00:05:42,500

usually appears. It appears in this area.

80

00:05:42,500 --> 00:05:47,500

It has been seen actually all across Mount Kavuya. This is Mount Kavuya here.

81

00:05:47,500 --> 00:05:51,500

The team gathers data and keeps meticulous notes.

82

00:05:51,500 --> 00:05:56,500

They continually monitor the sky, then unexpectedly they're visited by witnesses.

83

00:05:56,500 --> 00:06:00,500

Debbie Steinberg didn't want to talk about her experience in town.

84

00:06:00,500 --> 00:06:04,500

She hiked to the stakeout area for a private meeting with researchers.

85

00:06:04,500 --> 00:06:10,500

This was about 10.30 at night that it started and I closed my eyes and when I opened them again,

86

00:06:10,500 --> 00:06:18,500

I found myself in a room and I was laying on a table and I had six beings

87

00:06:18,500 --> 00:06:23,500

and I couldn't tell you what they were doing because I really don't know.

88

00:06:23,500 --> 00:06:32,500

But I remember the one that was on the left of my head took something from my head.

89

00:06:32,500 --> 00:06:37,500

Researchers at the stakeout say that Debbie's story fits the classic pattern

90

00:06:37,500 --> 00:06:41,500

of what is known as a UFO abduction experience.

91

00:06:41,500 --> 00:06:47,500

I believe that the abduction phenomenon is real, that it is extraterrestrial,

92

00:06:47,500 --> 00:06:53,500

that people are basically describing events that are happening to them with an objective reality.

93

00:06:53,500 --> 00:06:58,500

Dr. Jacobs has investigated UFO abductions in his best-seller *Secret Life*.

94

00:06:58,500 --> 00:07:04,500

Usually the abduction phenomenon begins in childhood and goes all the way through old age

95

00:07:04,500 --> 00:07:08,500

and so they've had a series of experiences throughout their life.

96

00:07:08,500 --> 00:07:14,500

This is a rendition of the craft I saw when I was four and my brother was three

97

00:07:14,500 --> 00:07:16,500

and where I was zapped with light.

98

00:07:16,500 --> 00:07:19,500

This is a drawing of what I call the silhouettes.

99

00:07:19,500 --> 00:07:21,500

I'm very afraid of this rod this one carries.

100

00:07:21,500 --> 00:07:28,500

The eye is long, long and thin and very black.

101

00:07:28,500 --> 00:07:34,500

There was some eye contact but it was like you and I are making eye contact right now.

102

00:07:34,500 --> 00:07:38,500

It's not that we're looking into each other's eyes but we're more like reading each other's minds.

103

00:07:38,500 --> 00:07:41,500

That's more like what it was.

104

00:07:41,500 --> 00:07:47,500

I'm a hypnotherapist. I'm now specializing in UFO abduction cases.

105

00:07:47,500 --> 00:07:53,500

Yvonne Smith heads an abduction support group where people can share their experiences

106

00:07:53,500 --> 00:07:55,500

and discuss their feelings.

107

00:07:55,500 --> 00:08:00,500

I was six years old and I lived in Georgia, near Macon, Georgia.

108

00:08:00,500 --> 00:08:10,500

I just remember it was in the middle of the night and I woke up and I was staring at the side of the head of the being.

109

00:08:10,500 --> 00:08:16,500

I started to panic and a couple of the beings in the craft subdued me somehow.

110

00:08:16,500 --> 00:08:24,500

They had a very large instrument that came over my head and they showed me a little baby looking thing.

111

00:08:24,500 --> 00:08:28,500

They told me they were going to put it up my nose.

112

00:08:28,500 --> 00:08:36,500

But then this instrument came over my head and punctured the soft palate of my mouth and it hurt very bad.

113

00:08:36,500 --> 00:08:40,500

The next thing I knew I was being placed back in my bedroom.

114

00:08:40,500 --> 00:08:46,500

I'm finding in my cases many chilling similarities.

115

00:08:46,500 --> 00:09:00,500

The person is taken against their will, taken into a craft of some kind, put on a table.

116

00:09:00,500 --> 00:09:08,500

The women begin to experience the gynecological examinations done by the aliens on them.

117

00:09:08,500 --> 00:09:19,500

They feel very violated. With the men, anal probes are inserted and sperm is taken.

118

00:09:19,500 --> 00:09:24,500

It's all done against their will and they really help us to do anything about it.

119

00:09:24,500 --> 00:09:30,500

Coming up, the abducted relive more terrifying experiences through hypnotic therapy.

120

00:09:30,500 --> 00:09:36,500

During some abductions I'm aware of them, of their taking sperm samples.

121

00:09:36,500 --> 00:09:41,500

And later our UFO investigation in Anza, California continues.

122

00:09:41,500 --> 00:09:50,500

Regression therapy is an extremely controversial method in which abductees relive their UFO encounters under hypnosis.

123

00:09:50,500 --> 00:09:57,500

Some scientists suggest that what they're actually reliving might be repressed emotional trauma or subconscious fears from childhood.

124

00:09:57,500 --> 00:10:04,500

But for the abductee, the alien encounter is very real.

125

00:10:04,500 --> 00:10:17,500

In abduction cases, many times the person will remember consciously that something strange or bizarre happened to them, something out of the ordinary.

126

00:10:17,500 --> 00:10:26,500

They desire to go into hypnosis to retrieve the hidden memories.

127

00:10:26,500 --> 00:10:36,500

During some abductions I'm aware of them, of their taking sperm samples in many different ways.

128

00:10:36,500 --> 00:10:40,500

They've done it in many different ways.

129

00:10:40,500 --> 00:10:55,500

With tubes, with catheters, there's one way I have not been able to deal with emotionally or under

regression.

130

00:10:55,500 --> 00:11:04,500

And that's one where there's a being on top of me. And I can't deal with that yet.

131

00:11:04,500 --> 00:11:10,500

Under hypnosis, Jesse Long is reliving trauma that he believes is caused by his abduction experience.

132

00:11:10,500 --> 00:11:28,500

As incredible as it sounds, these people are actually reliving these terrifying experiences.

133

00:11:28,500 --> 00:11:34,500

Long claims to have not only emotional scars, but real physical scars as well.

134

00:11:34,500 --> 00:11:40,500

Even more disturbing are stories from women who believe they were abducted for breeding purposes.

135

00:11:40,500 --> 00:11:51,500

As incredible as this may sound, we have come across in the research cases having to do with missing fetuses.

136

00:11:51,500 --> 00:12:05,500

I remember they numb me from the waist down and they took something that looked like an umbilical cord attached to placenta.

137

00:12:05,500 --> 00:12:09,500

And they levitated it into some kind of chamber.

138

00:12:09,500 --> 00:12:16,500

Later abduction scenarios, she has actually shown a baby.

139

00:12:16,500 --> 00:12:26,500

Now this baby is not like a human baby that, as we know it, it's a cross between an alien and a human.

140

00:12:26,500 --> 00:12:33,500

It's the central question of UFO research today. Why are they manufacturing these offspring, these babies?

141

00:12:33,500 --> 00:12:39,500

We knew the answer to that. I think we would have a large part of the UFO mystery finally in hand.

142

00:12:39,500 --> 00:12:44,500

Not every reported encounter with an alien is frightening and traumatic.

143

00:12:44,500 --> 00:12:51,500

Some people who claim contact with extraterrestrials tell us that for them, the encounter was a peaceful communication.

144

00:12:51,500 --> 00:12:56,500

That was certainly the case for Dorothy Isad of Vancouver, British Columbia.

145

00:12:56,500 --> 00:13:03,500

I went over to the window, looked out and there was this enormous thing up in the sky, it was in the shape of a diamond.

146

00:13:03,500 --> 00:13:11,500

And as I watched it, there was a whole group of little silver dollars that came out of the large ship.

147

00:13:11,500 --> 00:13:15,500

Dorothy and her family reported that UFOs appeared every night.

148

00:13:15,500 --> 00:13:21,500

I've been with her, I've seen these things. We all went down and we saw the phenomena.

149

00:13:21,500 --> 00:13:26,500

Flying in formation, you know, streaking across the sky, this sort of thing. She tells me what they are.

150

00:13:26,500 --> 00:13:31,500

But I'll never be convinced until they drag me, screaming and kicking into one of their ships.

151

00:13:31,500 --> 00:13:34,500

And I'm afraid that's my nature and that's where it'll stay.

152

00:13:36,500 --> 00:13:45,500

I found that through the tests that this person is telling the truth, whatever she's doing, and that she's honest and she's a very average, normal individual.

153

00:13:45,500 --> 00:13:52,500

This is what witnesses have seen. These are not street lights, airplanes or other conventional lights.

154

00:13:52,500 --> 00:13:56,500

This is actual footage of unidentified flying objects.

155

00:13:56,500 --> 00:14:01,500

This is a single frame of Dorothy's film, equivalent to $1 \frac{1}{8}$ of a second.

156

00:14:01,500 --> 00:14:09,500

The streaks do not appear on the frame before or after this one, suggesting that the light is moving great distances in an $\frac{1}{8}$ of a second.

157

00:14:10,500 --> 00:14:22,500

We looked up into the sky, Dorothy too, and she went to the window and she looked up and she said, oh, come on, do something for my friends.

158

00:14:22,500 --> 00:14:33,500

They've been here for so long and right away, three shafts of light, as bright as anything, just shot right up into the air where we were watching.

159

00:14:33,500 --> 00:14:41,500

My communications with the light beings are that they're very worried about us humans because we usually do things without thinking.

160

00:14:41,500 --> 00:14:50,500

The weapons we build, the way we're raping the earth without thinking of the consequences.

161

00:14:50,500 --> 00:15:01,500

Although it does not appear that this film has been altered, skeptics believe these images are the result of light phenomena emanating from earth, not UFOs.

162

00:15:01,500 --> 00:15:10,500

But Dorothy believes these lights are alien spacecraft and that she can communicate with the creatures inside.

163

00:15:10,500 --> 00:15:15,500

Coming up, what caused an unmanned Soviet probe to be knocked out of Martian orbit?

164

00:15:15,500 --> 00:15:23,500

This is something that most likely destroyed the focus to mission to Mars, and it can do it again.

165

00:15:23,500 --> 00:15:28,500

And our hunt for UFOs in the Southern California desert continues.

166

00:15:28,500 --> 00:15:33,500

The greatest challenge for a serious UFO researcher is finding hard evidence.

167

00:15:33,500 --> 00:15:39,500

Film and videotape are easily faked and skeptics distrust first person accounts.

168

00:15:39,500 --> 00:15:46,500

The team we followed into the California desert made every effort to maintain a scientifically valid investigation.

169

00:15:46,500 --> 00:15:51,500

All kinds of state of the art technology continue to arrive at the surveillance site.

170

00:15:51,500 --> 00:16:02,500

This radar works like any other radar. It's a precision piece of equipment which utilizes radio waves, which are bounced off a given target to determine its relative size, speed and location.

171

00:16:02,500 --> 00:16:04,500

And that's how it communicates.

172

00:16:04,500 --> 00:16:12,500

Theoretically, radar signals could also be picked up by an alien craft. Another signaling device is this laser.

173

00:16:12,500 --> 00:16:20,500

This high-powered laser acts as a beacon, but researchers also fear it could be interpreted by approaching craft as a hostile act.

174

00:16:20,500 --> 00:16:33,500

On this laser here, you would probably be able to see it reflect off a surface approximately two to three miles away, although the laser beam does continue on to infinity.

175

00:16:33,500 --> 00:16:41,500

So if I was to shine the laser straight up, it would continue on beyond the Earth's atmosphere and continue on forever.

176

00:16:41,500 --> 00:16:52,500

Most UFO research is privately funded, but the U.S. government is now launching its own search for extraterrestrial intelligence with the NASA program known as SETI.

177

00:16:52,500 --> 00:17:05,500

SETI stands for Search for Extraterrestrial Intelligence, and it's an effort by NASA and a fair number of astronomers to look for life in the galaxy.

178

00:17:05,500 --> 00:17:12,500

We're going to turn the world's largest telescopes toward the heavens with the idea of looking for some signs that were not alone in the universe.

179

00:17:12,500 --> 00:17:19,500

The idea is to listen for radio signals that might be deliberately or perhaps even accidentally transmitted by other civilizations.

180

00:17:19,500 --> 00:17:28,500

Any signals from space will be analyzed by a sophisticated computer system to determine if an alien life form is trying to communicate with us.

181

00:17:28,500 --> 00:17:39,500

It's been said that in the first 30 seconds of this new NASA experiment, we'll collect more data than all the experiments of this type that have collected in the last 30 years.

182

00:17:39,500 --> 00:17:41,500

So that's a big step forward.

183

00:17:41,500 --> 00:17:47,500

While the U.S. looks for proof of alien spacecraft, the Russians believe they already have proof.

184

00:17:47,500 --> 00:17:54,500

In 1988, the Soviet Union launched two unmanned probes to explore Mars and the space around the planet.

185

00:17:54,500 --> 00:17:58,500

Phobos II achieved Mars orbit in January of 1989.

186

00:17:58,500 --> 00:18:04,500

However, something then occurred which there is apparently no prosaic explanation for.

187

00:18:04,500 --> 00:18:14,500

According to the Russians, they encountered with their unmanned craft an anomalous object or a UFO which was computed out 25 kilometers.

188

00:18:14,500 --> 00:18:19,500

What we have is an infrared photograph taken from the Phobos II probe.

189

00:18:19,500 --> 00:18:22,500

This is the Martian moon Phobos.

190

00:18:22,500 --> 00:18:27,500

This is the UFO that apparently the Phobos II craft encountered.

191

00:18:27,500 --> 00:18:38,500

What happened was the craft observed the UFO, it took some photographs of it, then according to Soviet sources, this UFO turned toward the Phobos craft.

192

00:18:38,500 --> 00:18:43,500

The Russians then lost contact with it and the craft has been gone ever since.

193

00:18:43,500 --> 00:18:49,500

I think it took out Phobos II mission because Phobos II saw something it was not supposed to have seen.

194

00:18:49,500 --> 00:18:59,500

If I were in a spacecraft now to Mars, especially to Phobos, I would feel terrified because in my opinion, based on the knowledge that I have, something is out there.

195

00:18:59,500 --> 00:19:07,500

And what it is, I don't know, but this is something that most likely destroyed the Phobos II mission to Mars.

196

00:19:07,500 --> 00:19:09,500

And it can do it again.

197

00:19:10,500 --> 00:19:14,500

Coming up, the startling results of our UFO investigation.

198

00:19:14,500 --> 00:19:18,500

I'm totally freaked out. I mean, I've got shivers going all the way up my spine.

199

00:19:18,500 --> 00:19:27,500

From the outset of their investigation in Anzac, California, the research team realized that the chances of capturing a UFO on film were extremely remote.

200

00:19:27,500 --> 00:19:33,500

But even with a skeptical eye to the skies, the team made a startling discovery.

201

00:19:35,500 --> 00:19:41,500

Maintaining the surveillance equipment and recording data has been a full-time job for researchers.

202

00:19:41,500 --> 00:19:45,500

Two days and nights of hard work finally pay off.

203

00:19:45,500 --> 00:19:49,500

After day-long preparations, a strange light appears in the sky.

204

00:19:49,500 --> 00:19:53,500

The camera was not in position, but skeptical observers were.

205

00:19:54,500 --> 00:19:59,500

And I'm totally freaked out. I mean, I've got shivers going all the way up my spine.

206

00:19:59,500 --> 00:20:04,500

I don't know how to explain this. I'm a pure skeptic, definitely.

207

00:20:04,500 --> 00:20:11,500

And to see what I just saw, there's, you know, I'm just, I can't be skeptical.

208

00:20:11,500 --> 00:20:16,500

We saw a yellowish-orange light appear over the mountain.

209

00:20:16,500 --> 00:20:22,500

It traveled a little bit to our right and split off into two lights.

210

00:20:22,500 --> 00:20:31,500

And as we watched them, they began to fade in intensity, and after about 30 to 40 seconds, they disappeared from view.

211

00:20:32,500 --> 00:20:39,500

The sighting lasted only 15 seconds, but soon another UFO appeared, and this time the cameras were ready.

212

00:20:39,500 --> 00:20:42,500

The team captured this amazing UFO video.

213

00:20:42,500 --> 00:20:43,500

You guys watching this inside?

214

00:20:43,500 --> 00:20:46,500

It's going up. Going straight up.

215

00:20:48,500 --> 00:20:50,500

249. 249.

216

00:20:50,500 --> 00:20:58,500

We are presently watching this light, anomalous light, going, it's now rising above Mount Kauhia.

217

00:20:58,500 --> 00:21:04,500

It appears to be more oblong or saucer-shaped than a conventional aircraft would be.

218

00:21:04,500 --> 00:21:10,500

This starlight videotape may be all we ever know about the UFO nicknamed Goldie.

219

00:21:10,500 --> 00:21:15,500

Neither U.S. military sources nor the FAA have a definitive explanation.

220

00:21:15,500 --> 00:21:23,500

Researchers in ANSA now have extensive logs and video, but none of it can yet explain who or what is out there.

221

00:21:23,500 --> 00:21:29,500

With so many sightings and contacts reported, even the U.S. government is now taking notice.

222

00:21:29,500 --> 00:21:36,500

NASA will spend \$100 million over the next 10 years to scientifically search for intelligent life in the universe.

223

00:21:36,500 --> 00:21:44,500

One wonders if this mission will show that spaceships and extraterrestrials are more than science fiction.

224

00:21:44,500 --> 00:21:47,500

For Sightings, I'm Tim White. Good night.

225

00:21:53,500 --> 00:21:59,500

Tomorrow, after a full hour of cops, see one of the most amazing rescues ever captured on videotape.

226

00:21:59,500 --> 00:22:06,500

A fireman rushes out of a burning building with an unconscious child and miraculously brings him back to life.

227

00:22:06,500 --> 00:22:13,500

Witness this real-life drama on an all-new Code 3, followed by The Edge, tomorrow.

228

00:22:13,500 --> 00:22:15,500

Now, likely suspects is next.
