

1

00:00:00,000 --> 00:00:02,000

Deals with a controversial subject.

2

00:00:02,000 --> 00:00:05,500

The theories expressed are not the only possible interpretation.

3

00:00:05,500 --> 00:00:09,500

The viewer is invited to make a judgment based on all available information.

4

00:00:09,500 --> 00:00:14,500

Tonight on CITINGS, a grisly murder leaves a parapsychologist dead.

5

00:00:14,500 --> 00:00:16,500

When they discovered the body, there were no clues.

6

00:00:16,500 --> 00:00:20,500

But from beyond the grave, he helped authorities find the killer.

7

00:00:20,500 --> 00:00:26,000

Then, if you think the Bermuda Triangle is the world's only deadly vortex, think again.

8

00:00:26,000 --> 00:00:29,000

Now what you're dealing with is something that's transient.

9

00:00:29,000 --> 00:00:32,000

It happens suddenly and it's gone.

10

00:00:32,000 --> 00:00:37,000

We investigate the deadly force that's taken thousands in America's Great Lakes.

11

00:00:37,000 --> 00:00:41,000

And what psychic miracle gave this woman the incredible power

12

00:00:41,000 --> 00:00:44,000

to accurately predict hundreds of earthquakes.

13

00:00:44,000 --> 00:00:50,000

The Earth track record for quakes that she has reported into me has been 70 or 80 percent.

14

00:00:52,000 --> 00:00:55,000

At that point, it started to appear.

15

00:00:55,000 --> 00:00:59,000

They had large, dark eyes, small, eye cans.

16

00:01:00,000 --> 00:01:04,000

I began sensing and knowing and feeling.

17

00:01:04,000 --> 00:01:07,000

I do believe in life after death. I mean, I've been there.

18

00:01:07,000 --> 00:01:11,000

We have not scratched the surface of what the mind can do.

19

00:01:13,000 --> 00:01:15,000

It's a connection with the unknown.

20

00:01:15,000 --> 00:01:19,000

In 1990, psychic Scott Rogo had a horrifying premonition.

21

00:01:19,000 --> 00:01:21,000

He saw a man being murdered.

22

00:01:21,000 --> 00:01:24,000

The terrifying vision of death haunted his dreams.

23

00:01:24,000 --> 00:01:29,000

And most frightening of all was that the murder victim Scott saw was himself.

24

00:01:29,000 --> 00:01:32,000

Tragically, it was a premonition that came true.

25

00:01:32,000 --> 00:01:36,000

Scott Rogo was internationally recognized as an expert in the paranormal.

26

00:01:36,000 --> 00:01:40,000

He was the author of the book, *The Man Who Killed the Man*.

27

00:01:40,000 --> 00:01:44,000

Rogo was internationally recognized as an expert in the paranormal.

28

00:01:44,000 --> 00:01:50,000

He was the author of 30 parapsychology books that ranged in subjects from ghosts to premonitions.

29

00:01:50,000 --> 00:01:55,000

Ironically, Scott's fatal premonition about his own life would come true.

30

00:01:55,000 --> 00:02:01,000

On August 16, 1990, as a peaceful San Fernando Valley, California, sleeps,

31

00:02:01,000 --> 00:02:03,000

a grisly murder is taking place.

32

00:02:03,000 --> 00:02:09,000

World renowned parapsychologist Scott Rogo is stabbed to death, his throat slashed.

33

00:02:09,000 --> 00:02:17,000

Somebody had come to his house, possibly in the evening, and stabbed Mr. Rogo.

34

00:02:17,000 --> 00:02:22,000

Tragically, Scott's accurate premonition was to be his last.

35

00:02:22,000 --> 00:02:25,000

When they discovered the body, there were no clues.

36

00:02:25,000 --> 00:02:31,000

There was the actual murder weapon found with blood, and right by the wall, closest to the body,

37

00:02:31,000 --> 00:02:33,000

there was some fingerprints and blood.

38

00:02:33,000 --> 00:02:37,000

But that initial evidence did not lead to the killer's identity.

39

00:02:37,000 --> 00:02:43,000

Psychics felt the police needed an expert witness, testimony from the dead man himself.

40

00:02:43,000 --> 00:02:48,000

I conducted two separate investigations. One was akin to a private investigation.

41

00:02:48,000 --> 00:02:50,000

The other was a psychic investigation.

42

00:02:50,000 --> 00:02:56,000

Psychic researcher Betty Bandy asked some of the world's top psychics to try to contact Scott.

43

00:02:56,000 --> 00:03:01,000

And what they found would send the investigation in an important new direction.

44

00:03:01,000 --> 00:03:09,000

Psychic Armand Marcott believes the murder victim told him to check the fingerprints on a glass left at the murder scene.

45

00:03:09,000 --> 00:03:14,000

They both had a drink to calm their nerves after the crime was committed.

46

00:03:14,000 --> 00:03:20,000

The doctor, the men, went to the bathroom, and he forgot to wipe his glass, and he was left there.

47

00:03:20,000 --> 00:03:28,000

I wrote a detailed report of the information given to me by the psychics, because a very clear picture did emerge from the psychic report.

48

00:03:28,000 --> 00:03:37,000

They went back to the house and did a thorough search of the bathroom, and that's where they found the glass that tied in the present killer that's been convicted and put away since then.

49

00:03:37,000 --> 00:03:41,000

That's how they finally came on the path of Mr. Batista.

50

00:03:41,000 --> 00:03:47,000

He was convicted of second-degree murder and sentenced, I believe it was 15 years to life.

51

00:03:47,000 --> 00:03:54,000

My private belief is that Scott has assisted me in collecting information.

52

00:03:54,000 --> 00:04:00,000

Is it possible that Scott Rogo is trying to conduct his own murder investigation from the grave?

53

00:04:00,000 --> 00:04:06,000

How else could you explain the psychic's insistence that police re-examine the fingerprints on the glass?

54

00:04:06,000 --> 00:04:13,000

And many believe Rogo is still trying to reach out to them, because there are still many unanswered questions about the case.

55

00:04:13,000 --> 00:04:21,000

The most troubling, that his second murderer is still at large. Psychics won't give up until that killer is found.

56

00:04:21,000 --> 00:04:27,000

There's absolutely no doubt in my mind that there was a second suspect.

57

00:04:27,000 --> 00:04:35,000

However, at this time, we don't have any idea of who it may be, we don't know race, age, we have another information of this person.

58

00:04:35,000 --> 00:04:42,000

The fingerprint in blood did not match Mr. Batista, the defendant, nor Mr. Rogo.

59

00:04:42,000 --> 00:04:51,000

With police in a virtual standstill, we ask psychic detective Nick Nosarino to examine the murder of Scott Rogo.

60

00:04:51,000 --> 00:04:59,000

You seem to be interested in Scott Rogo, and he is the person we want to tune into and we want to find out what happened,

61

00:04:59,000 --> 00:05:05,000

and if possible, give you as much information as we can.

62

00:05:05,000 --> 00:05:10,000

Nick Nosarino has been a respected psychic investigator for 47 years.

63

00:05:10,000 --> 00:05:17,000

He begins a typical murder investigation by visiting the last place the victim was seen alive.

64

00:05:17,000 --> 00:05:26,000

Every time I mention his name, I get lots of pain, sharp pain. I don't know if he's having a heart

attack or what's going on.

65

00:05:26,000 --> 00:05:33,000

Nick's investigation also takes him to several locations frequented by Scott in the days just before his murder.

66

00:05:33,000 --> 00:05:41,000

Nick believes this method of investigation will stir up the tremendous psychic energy necessary to make contact with Scott Rogo.

67

00:05:41,000 --> 00:05:51,000

He then brings in a team of psychics to investigate the single most important location in the case, the very house in which Scott Rogo was found stabbed to death.

68

00:05:51,000 --> 00:05:56,000

We hope to find out how the man died, if possible, who killed him or how many people killed him.

69

00:05:56,000 --> 00:06:00,000

And then connect with the killing, there's been a killing here.

70

00:06:01,000 --> 00:06:05,000

Each psychic surveys the house, attempting to gather psychic energy.

71

00:06:05,000 --> 00:06:10,000

Right around my throat is tightening up immediately and then it's moving out of the machestery.

72

00:06:10,000 --> 00:06:15,000

Besides the stabbing, there was an attempt to choke him. I heard gagging.

73

00:06:15,000 --> 00:06:20,000

There were three individuals besides the man who was hurt and blood all around.

74

00:06:20,000 --> 00:06:27,000

This is definitely house that has had a lot of energy and is still as filled with different energy.

75

00:06:27,000 --> 00:06:32,000

There's a lot of anger associated with that too and it's a frenetic kind of energy.

76

00:06:32,000 --> 00:06:40,000

The psychics then agree to break off into two separate groups, in two separate rooms, to form seance like triads.

77

00:06:40,000 --> 00:06:46,000

When I call upon the energy of Scott Rogo to assist us in any way he can.

78

00:06:46,000 --> 00:06:52,000

There's three people involved, two came in one car, one came in another car. They got in the house.

79

00:06:52,000 --> 00:06:56,000

There were two people performing the majority of the violence.

80

00:06:56,000 --> 00:07:03,000

In two separate rooms, at almost the same time, the psychics believe they have made contact with Scott Rogo,

81

00:07:03,000 --> 00:07:08,000

who is now conducting his own murder investigation from beyond the grave.

82

00:07:08,000 --> 00:07:12,000

Their intent when they entered this home was not to kill him.

83

00:07:12,000 --> 00:07:16,000

He's screaming. I can't hear what he's screaming, but I can hear him screaming.

84

00:07:16,000 --> 00:07:18,000

Things just got out of hand.

85

00:07:18,000 --> 00:07:19,000

One of them is short.

86

00:07:19,000 --> 00:07:23,000

Five foot six, five foot seven, overweight.

87

00:07:23,000 --> 00:07:27,000

Kind of long wavy, white hair, maybe a little balding on the top.

88

00:07:27,000 --> 00:07:29,000

He may be the one who has the tattoo on his arm.

89

00:07:29,000 --> 00:07:31,000

Scar, it's a mark on his face.

90

00:07:31,000 --> 00:07:32,000

Right below his eyes.

91

00:07:32,000 --> 00:07:34,000

A tiny little mustache.

92

00:07:34,000 --> 00:07:36,000

See a car parked.

93

00:07:36,000 --> 00:07:38,000

Bandana on the head, not a hair net.

94

00:07:38,000 --> 00:07:40,000

BWY, bushy eyebrows.

95

00:07:40,000 --> 00:07:41,000

Four through six.

96

00:07:41,000 --> 00:07:43,000

Romano, Romano's a lesbian.

97

00:07:43,000 --> 00:07:44,000

Aces.

98

00:07:44,000 --> 00:07:47,000

Jason, James, Alexander, all those names fit the big one.

99

00:07:47,000 --> 00:07:50,000

They're within a hundred miles of here.

100

00:07:50,000 --> 00:07:52,000

These are the names of the other guys.

101

00:07:53,000 --> 00:07:57,000

According to the psychic team, this is the killer of Scott Rogo.

102

00:07:57,000 --> 00:08:02,000

Both triads independent of each other provided the same description.

103

00:08:02,000 --> 00:08:08,000

The man was about five, six, five, seven, round of face, Hispanic,

104

00:08:08,000 --> 00:08:12,000

tiny little mustache, black oily wavy hair with a bandana,

105

00:08:12,000 --> 00:08:14,000

long, long police record.

106

00:08:14,000 --> 00:08:17,000

He was the one perpetrating most of the violence.

107

00:08:17,000 --> 00:08:21,000

This is the man the psychics believe killed Scott Rogo.

108

00:08:21,000 --> 00:08:24,000

He is Hispanic, about five foot seven inches tall,

109

00:08:24,000 --> 00:08:28,000

160 pounds in weight and still living, they believe,

110

00:08:28,000 --> 00:08:30,000

in the Southern California area.

111

00:08:30,000 --> 00:08:33,000

The sketch and description have been handed over to police

112

00:08:33,000 --> 00:08:35,000

for further investigation.

113

00:08:35,000 --> 00:08:39,000

The product, psychics believe, of Scott Rogo's ghostly communication

114

00:08:39,000 --> 00:08:42,000

about the face behind the bloody handprint.

115

00:08:42,000 --> 00:08:46,000

His presence to me was still very strong in that house

116

00:08:46,000 --> 00:08:51,000

and hoping that somebody will uncover some aspect of the crime.

117

00:08:51,000 --> 00:08:55,000

Police policy prohibits comment on this unsolved case,

118

00:08:55,000 --> 00:08:57,000

but we will follow their developments

119

00:08:57,000 --> 00:09:01,000

and hope to bring you an update of the Scott Rogo case in the near future.

120

00:09:02,000 --> 00:09:06,000

Coming up, the Bermuda Triangle has nothing on these legs.

121

00:09:06,000 --> 00:09:09,000

Now what you're dealing with is something that's transient.

122

00:09:09,000 --> 00:09:12,000

It happens suddenly and it's gone.

123

00:09:12,000 --> 00:09:16,000

We investigate the deadly force that haunts America's great lakes.

124

00:09:18,000 --> 00:09:24,000

The Bermuda Triangle may be the most famous vortex of mystery and death in the world,

125

00:09:24,000 --> 00:09:26,000

but it's not the only one.

126

00:09:26,000 --> 00:09:30,000

The Great Lakes Triangle, right here in the United States, has been almost as deadly.

127

00:09:30,000 --> 00:09:36,000

Hundreds of people have vanished in an area which many believe is a gateway to oblivion.

128

00:09:36,000 --> 00:09:41,000

There is a force that has survived from folklore to scientific fact.

129

00:09:41,000 --> 00:09:44,000

Bizarre anomalies that rival the Bermuda Triangle.

130

00:09:44,000 --> 00:09:50,000

A ship, the Edmund Fitzgerald, built to withstand the most violent weather, sinks in less than a minute.

131

00:09:50,000 --> 00:09:54,000

A modern jet airliner crashes into Lake Michigan in clear weather.

132

00:09:54,000 --> 00:09:58,000

These are only two of the thousands of shipwrecks and plane crashes

133

00:09:58,000 --> 00:10:02,000

that have plagued the Great Lakes since earliest recorded history.

134

00:10:02,000 --> 00:10:06,000

The most dangerous zone is known as the Marsburg Vortex in Lake Ontario,

135

00:10:06,000 --> 00:10:12,000

but disappearances routinely occur throughout a larger area known as the Great Lakes Triangle.

136

00:10:12,000 --> 00:10:17,000

Marine insurance records show that more than 15,000 shipwrecks, plane crashes,

137

00:10:17,000 --> 00:10:21,000

and other mysterious catastrophes over the past 200 years

138

00:10:21,000 --> 00:10:24,000

have given the Great Lakes Triangle a deadly reputation

139

00:10:24,000 --> 00:10:28,000

with the highest concentration of unexplained accidents in the world.

140

00:10:28,000 --> 00:10:34,000

With Marsburg, what you get is exactly the same type of things.

141

00:10:34,000 --> 00:10:40,000

You're getting down in around the Bermuda Triangle, disappearing people, disappearing ships and that.

142

00:10:40,000 --> 00:10:46,000

We have found that there is at least one major link between all these crashes and disappearances.

143

00:10:46,000 --> 00:10:53,000

The ever-present magnetic fields which wrap the Earth appear to act differently in the Great Lakes Triangle.

144

00:10:53,000 --> 00:10:56,000

A compass reading on one day can be totally different than next,

145

00:10:56,000 --> 00:11:00,000

making critical navigational systems inoperative.

146

00:11:00,000 --> 00:11:05,000

We found that even using three separate compasses, all the readings being very much similar,

147

00:11:05,000 --> 00:11:10,000

that when we plotted that on a chart, we were nowhere near.

148

00:11:10,000 --> 00:11:17,000

One case, we were a quarter of a mile on shore, we're five miles physically on the boat offshore.

149

00:11:17,000 --> 00:11:25,000

Peculiar magnetic forces can spell disaster for a ship or a plane that relies on exact instrument readings.

150

00:11:25,000 --> 00:11:36,000

Could strange magnetic forces in the Great Lakes Triangle be enough to throw ships and planes wildly off course and in fatal situations?

151

00:11:36,000 --> 00:11:43,000

Some believe that's exactly what caused the 729-foot Edmund Fitzgerald to sink to the bottom of Lake Superior.

152

00:11:43,000 --> 00:11:49,000

This state-of-the-art vessel had two independent radar systems thought to be infallible, but they weren't,

153

00:11:49,000 --> 00:11:52,000

and route to Cleveland, Ohio, disaster struck.

154

00:11:52,000 --> 00:12:00,000

November 10th, 1975, 5 p.m. The Edmund Fitzgerald is fully loaded with iron ore and leaves port.

155

00:12:00,000 --> 00:12:05,000

By 6 p.m. the ship is unexpectedly caught in the grips of a severe winter storm.

156

00:12:05,000 --> 00:12:14,000

Just after 7 p.m. the Edmund Fitzgerald, a highly sophisticated modern freighter, has disappeared with all hands feared lost.

157

00:12:14,000 --> 00:12:20,000

The weather was harsh, but the Edmund Fitzgerald was designed to withstand storms like this.

158

00:12:20,000 --> 00:12:25,000

The beginning of the end occurred when not one, but both radar systems failed.

159

00:12:25,000 --> 00:12:30,000

With low visibility and no working navigational system, the ship was doomed.

160

00:12:30,000 --> 00:12:41,000

I do know that they had lost their radar, and they were, depending on the Anderson, which was a ship nearby in the storm, the Anderson was doing their seeing for them.

161

00:12:41,000 --> 00:12:48,000

It was trying to get the fix on the Fitzgerald with radar and then radio to the Fitz and tell them where they were.

162

00:12:48,000 --> 00:12:54,000

One minute they had a blip on the radar, and the next minute the blip was gone.

163

00:12:54,000 --> 00:13:02,000

They were in communication with the Fitzgerald at 10 minutes after 7, and 20 minutes after 7, they had no sight of it at all.

164

00:13:02,000 --> 00:13:13,000

And given that 10-minute span and the fact that no distress call was ever sent by the Fitzgerald, that ship going down must have happened no more than a minute.

165

00:13:13,000 --> 00:13:16,000

It just dove, went down, and that was the end of it.

166

00:13:16,000 --> 00:13:22,000

So I understand you had him visually hand-drawn on the radar, and you lost him in both respects?

167

00:13:22,000 --> 00:13:28,000

No, I didn't have him visually. I had him on the radar. He was exactly 10 miles right ahead of us.

168

00:13:28,000 --> 00:13:35,000

I asked him how he was making out with his problem. He said he lost those vents, and he had a lift, and he said he was holding his own.

169

00:13:35,000 --> 00:13:37,000

I love contact estimates.

170

00:13:38,000 --> 00:13:44,000

In less than one minute, the enormous ship had disappeared. All hands on board died.

171

00:13:44,000 --> 00:13:50,000

It was a tragic testimony to the power of a deadly force still feared by all who dare venture there.

172

00:13:50,000 --> 00:14:04,000

I think in a lot of people's mind, there is something missing. There's one little fact, or something that went wrong, or something that happened that maybe we'll never know about.

173

00:14:05,000 --> 00:14:10,000

Something mysterious. Something unexplained.

174

00:14:12,000 --> 00:14:17,000

United Flight 389, inbound from New York to Chicago in 1965.

175

00:14:17,000 --> 00:14:24,000

Although flying in clear skies and calm weather, it would suffer the same fate as the Edmund Fitzgerald.

176

00:14:25,000 --> 00:14:38,000

The approach was over Lake Michigan. The last altitude that they were cleared to, in which he was supposed to have leveled off and maintained that altitude until cleared lower, was 6,000 feet.

177

00:14:38,000 --> 00:14:42,000

But Flight 389 did not level off at 6,000 feet.

178

00:14:42,000 --> 00:14:51,000

The aircraft struck the water in a descending attitude. It spread over about 1.6 miles, and it sank in about 250 feet of water.

179

00:14:51,000 --> 00:14:57,000

We know there was no mid-air collision. We know there was no structural failure. We know the engines were operating properly.

180

00:14:57,000 --> 00:15:02,000

Everything appeared to be normal up until the aircraft disappeared.

181

00:15:02,000 --> 00:15:12,000

Unpredictable magnetic energies that ripple through the entire 100,000 square mile area of the Great Lakes may explain what happened.

182

00:15:12,000 --> 00:15:19,000

Now what you're dealing with is something that's transient. It happens suddenly, and it's gone.

183

00:15:19,000 --> 00:15:26,000

You haven't gotten the actual scientific measurements. What we know is that there's actually magnetic anomalies in the area.

184

00:15:26,000 --> 00:15:33,000

How they could cause these mysterious disappearances? How they could cause the sinking? No one seems to know.

185

00:15:33,000 --> 00:15:39,000

Magnetic forces that can kill. Do they exist in the Great Lakes Triangle?

186

00:15:39,000 --> 00:15:44,000

Researchers continue to study the bizarre quirk of nature that has taken so many lives.

187

00:15:44,000 --> 00:15:51,000

In the past year alone, nearly 35 boats and planes have vanished without a trace.

188

00:15:51,000 --> 00:15:57,000

Coming up, what gave this woman the psychic power to accurately predict earthquakes?

189

00:15:57,000 --> 00:16:00,000

I just sat there and cried because I knew people were going to die.

190

00:16:00,000 --> 00:16:07,000

And I spent the next six hours on the telephone trying to warn people that that major quake was going to hit Mexico.

191

00:16:07,000 --> 00:16:12,000

People who have been near death report many kinds of paranormal experience.

192

00:16:12,000 --> 00:16:19,000

After a miraculous recovery, a very special few claim to have new unexplainable psychic powers.

193

00:16:19,000 --> 00:16:25,000

Powers they believe were bestowed upon them through a controversial phenomenon known as soul exchange.

194

00:16:25,000 --> 00:16:32,000

The soul that is in the body leaves. Another totally different soul comes in.

195

00:16:32,000 --> 00:16:37,000

The idea of an exchange was explained to her. If she really wanted to die, that would be fine.

196

00:16:37,000 --> 00:16:40,000

But why should she die? Because it was a perfectly good body.

197

00:16:40,000 --> 00:16:43,000

The total of 13 separate sounds that I hear all the time.

198

00:16:43,000 --> 00:16:47,000

When the sound changed, an earthquake would happen within 72 hours.

199

00:16:47,000 --> 00:16:53,000

I think they are tuning into another dimension of experience that is normally closed off to us.

200

00:16:53,000 --> 00:16:58,000

The concept is known as soul exchange or as the walk-in phenomenon.

201

00:16:58,000 --> 00:17:04,000

In a soul exchange, one soul leaves the physical body and a new soul walks in.

202

00:17:04,000 --> 00:17:12,000

Well, a walk-in is a highly developed soul from previous lifetimes who has earned the right, if he wants to,

203

00:17:12,000 --> 00:17:18,000

to come into an adult body to complete a project that he would like to do.

204

00:17:18,000 --> 00:17:22,000

The walk-in or soul exchange occurs at a time of personal crisis.

205

00:17:22,000 --> 00:17:27,000

Individuals recount feelings of severe physical or emotional pain, even a death wish.

206

00:17:27,000 --> 00:17:32,000

After the transformation, they experience profound changes in their lives.

207

00:17:32,000 --> 00:17:35,000

I took all the pills in the bottle and drank some of the alcohol.

208

00:17:35,000 --> 00:17:39,000

The headache was so bad that my insides ached.

209

00:17:39,000 --> 00:17:42,000

All I said was, I want out. I want the pain to stop.

210

00:17:42,000 --> 00:17:51,000

The purpose of a soul exchange is always to have a being come into a body that is more highly evolved

211

00:17:51,000 --> 00:17:56,000

and is coming here for the purpose of helping the earth evolve.

212

00:17:56,000 --> 00:18:03,000

For a precious few, the supposed soul exchange triggers miraculous new and unexplainable talents.

213

00:18:03,000 --> 00:18:06,000

Charlotte King's experience has been remarkable.

214

00:18:06,000 --> 00:18:12,000

In December of 1976, I overdosed on a combination of Valium and Brandy.

215

00:18:12,000 --> 00:18:16,000

But fortunately, I guess I didn't take enough to give me a fatal overdose,

216

00:18:16,000 --> 00:18:19,000

but I was in a real bad state for quite a few hours.

217

00:18:19,000 --> 00:18:25,000

And I heard the word that the doctor had admitted me and that I would have to stay there.

218

00:18:25,000 --> 00:18:30,000

And I was in kind of a drug sleep, very drug sleep.

219

00:18:30,000 --> 00:18:39,000

And a few hours later, I all of a sudden became real full of energy, just a burst of energy.

220

00:18:39,000 --> 00:18:43,000

Charlotte believes she left the hospital literally a new person,

221

00:18:43,000 --> 00:18:48,000

one with an uncanny talent to predict violent seismic activity around the world.

222

00:18:48,000 --> 00:18:54,000

She began to hear sounds no one else could hear and had nearly unbearable pains throughout her body.

223

00:18:54,000 --> 00:19:02,000

In the way that I predict the earthquakes, the way that I forecast the earthquakes is through the sound

224

00:19:02,000 --> 00:19:06,000

and the combination of sound and pain tells me where the earthquake will take place.

225

00:19:06,000 --> 00:19:09,000

But her newfound talent was emotionally painful.

226

00:19:09,000 --> 00:19:14,000

In 1985, she sensed a quake in Mexico City, but no one would listen.

227

00:19:14,000 --> 00:19:21,000

I was working at a computer company in Sacramento in 1985 in September, and I began having headaches.

228

00:19:21,000 --> 00:19:24,000

And I went to my boss, Paul, and I said, Paul, I've got to go home.

229

00:19:24,000 --> 00:19:27,000

He said, why? I said, there's going to be a major earthquake.

230

00:19:27,000 --> 00:19:30,000

And he said, where? And I said, Mexico.

231

00:19:30,000 --> 00:19:33,000

And he said, there better be.

232

00:19:33,000 --> 00:19:35,000

And I went home.

233

00:19:35,000 --> 00:19:41,000

And I spent the next six hours on the telephone trying to warn people that a major quake was going to hit Mexico.

234

00:19:41,000 --> 00:19:43,000

Nobody was interested. Nobody cared.

235

00:19:43,000 --> 00:19:46,000

And I just sat there and cried because I knew people were going to die.

236

00:19:46,000 --> 00:19:48,000

And there was nothing I could do about it.

237

00:19:48,000 --> 00:19:54,000

As the sounds and pain persisted, Charlotte got in touch with Christopher Dodge at the Library of Congress.

238

00:19:54,000 --> 00:19:58,000

He began tracking her predictions as part of Project Migraine.

239

00:19:58,000 --> 00:20:05,000

It was absolutely understood from the very beginning that Charlotte must call me up before the earthquake

240

00:20:05,000 --> 00:20:09,000

and that it must be recorded and it must be witnessed.

241

00:20:09,000 --> 00:20:16,000

And of course, I felt sure that those restrictions would thoroughly discourage her from undertaking to do something like that.

242

00:20:16,000 --> 00:20:20,000

In fact, I was hoping that it would, but it didn't.

243

00:20:20,000 --> 00:20:26,000

And in rapid sequence, she proceeded to predict major events.

244

00:20:26,000 --> 00:20:29,000

I called Chris on the phone and said, Chris, all hell is going to break loose.

245

00:20:29,000 --> 00:20:34,000

I said, Matt said, Helen's is going to have a major change within 72 hours.

246

00:20:34,000 --> 00:20:39,000

And he picked up the phone and called the volcano center and they said, absolutely not. There's no activity.

247

00:20:39,000 --> 00:20:43,000

And the next day, Mount St. Helens went on eruption alert.

248

00:20:43,000 --> 00:20:46,000

And it blew a few days later in April.

249

00:20:46,000 --> 00:20:55,000

Over time, I would say that her track record for quakes that she has reported into me has been between 7 and 8 on a scale of 10,

250

00:20:55,000 --> 00:20:58,000

or in other words, 70 or 80 percent.

251

00:20:58,000 --> 00:21:05,000

And in some cases, with Mount St. Helens, I'd say that she has been 100 percent accurate.

252

00:21:05,000 --> 00:21:11,000

Charlotte predicted the recent earthquakes in Southern California and now believes the big one is coming.

253

00:21:11,000 --> 00:21:16,000

I think there's a real possibility that there's going to be a lot more activity down there.

254

00:21:16,000 --> 00:21:20,000

There's just a whole different feeling to the series of earthquakes,

255

00:21:20,000 --> 00:21:24,000

both in Northern and Southern California that have been occurring since April the 23rd.

256

00:21:25,000 --> 00:21:29,000

Charlotte believes her amazing predictions are due to a solar exchange.

257

00:21:29,000 --> 00:21:37,000

Skeptics doubt that solar exchange exists, but Charlotte's 70 percent accuracy rate is testimony to the transformation in her life.

258

00:21:40,000 --> 00:21:44,000

Thanks for joining us. For Sightings, I'm Tim White. Good night.

259

00:21:45,000 --> 00:21:50,000

On the next Sightings, has science learned how to beat death with the latest technology in cryogenics

260

00:21:50,000 --> 00:21:53,000

and would you be willing to be frozen to death to extend your life?

261

00:21:53,000 --> 00:21:58,000

Plus, an entire town that claims to be reincarnated. All on the next Sightings.

262

00:22:01,000 --> 00:22:07,000

Tomorrow on the season premiere of Code 3, be there when a daredevil stunt turns to tragedy

263

00:22:07,000 --> 00:22:10,000

and a bungee jumpers cord snaps right before your eyes.

264

00:22:10,000 --> 00:22:14,000

Code 3 tomorrow after the season premiere of COPS.

265

00:22:14,000 --> 00:22:20,000

And Sunday, get ready for TV history in the making as rock returns live with no retakes,

266

00:22:20,000 --> 00:22:24,000

no second chances and no telling what will happen.

267

00:22:24,000 --> 00:22:31,000

See the season premiere of Rock Live Sunday after the classic first episode of In Living Color.

268

00:22:31,000 --> 00:22:34,000

Now stay tuned for an all new Rachel Gunn.
