

1

00:00:00,000 --> 00:00:03,000

The following program deals with controversial subjects.

2

00:00:03,000 --> 00:00:06,000

The theories expressed are not the only possible interpretation.

3

00:00:06,000 --> 00:00:11,000

The viewer is invited to make a judgment based on all available information.

4

00:00:11,000 --> 00:00:16,000

Tonight on Cytics, has science discovered the secret of cryonics?

5

00:00:16,000 --> 00:00:19,000

And would you be willing to be frozen to death to extend your life?

6

00:00:19,000 --> 00:00:24,000

If it really can be done, I'm looking at immortality.

7

00:00:24,000 --> 00:00:30,000

And speaking of immortality, does the dead victim of an electrocution still haunt this house?

8

00:00:30,000 --> 00:00:34,000

Something got a hold of my hair and lifted me up.

9

00:00:34,000 --> 00:00:38,000

Our cameras captured evidence that even we can't explain.

10

00:00:38,000 --> 00:00:40,000

Light the kitchens going on and off.

11

00:00:40,000 --> 00:00:45,000

And an entire town that believes they've shared past lives together.

12

00:00:45,000 --> 00:00:52,000

My name is Millie Sprule. Now, and during the Civil War, it was honey.

13

00:00:54,000 --> 00:00:57,000

At that point, it started to appear.

14

00:00:57,000 --> 00:01:02,000

They had large, dark eyes, small, eye cans.

15

00:01:02,000 --> 00:01:06,000

I began sensing, knowing, and feeling.

16

00:01:06,000 --> 00:01:10,000

I do believe in life after death. I mean, I've been there.

17

00:01:10,000 --> 00:01:15,000

We have not scratched the surface of what the mind can do.

18

00:01:15,000 --> 00:01:18,000

It's a connection with the unknown.

19

00:01:24,000 --> 00:01:30,000

Is it possible to cheat death? Can we be brought back to life months, even years after dying?

20

00:01:30,000 --> 00:01:35,000

Well, there are scientists who are betting on the fact that one day, death won't be permanent.

21

00:01:35,000 --> 00:01:38,000

And some people are taking the biggest gamble of their lives.

22

00:01:38,000 --> 00:01:43,000

They're being frozen and mummified in a quest for immortality.

23

00:01:45,000 --> 00:01:50,000

In January 1985, a severe blizzard hit Milwaukee, Wisconsin.

24

00:01:50,000 --> 00:01:55,000

At the height of the storm, two-year-old Michael Track wandered outside his home.

25

00:01:55,000 --> 00:02:01,000

Within minutes, he was frozen solid, but miraculously, he was brought back to life.

26

00:02:01,000 --> 00:02:07,000

He was, without any question, dead at the scene.

27

00:02:07,000 --> 00:02:10,000

And he was dead for a period of time here as well.

28

00:02:10,000 --> 00:02:16,000

But knowing that, because of how cold he was, knowing that you're not dead until you're warm and dead,

29

00:02:17,000 --> 00:02:22,000

we knew that we had to give him the chance that he deserved.

30

00:02:22,000 --> 00:02:30,000

Michael's complete recovery astonished his doctors, and he is now living proof that a frozen human was indeed brought back to life.

31

00:02:30,000 --> 00:02:33,000

It's an exciting possibility for science.

32

00:02:33,000 --> 00:02:40,000

The resuscitation of a frozen person has inspired some scientists to try to take the process one step further.

33

00:02:40,000 --> 00:02:48,000

Cryonics is the extremely controversial science of freezing a person's body, or just the head, immediately after medical death.

34

00:02:48,000 --> 00:02:53,000

The hope is that someday they can be unfrozen and brought back to life.

35

00:02:54,000 --> 00:02:57,000

Cryonics is an experimental process.

36

00:02:57,000 --> 00:03:01,000

It's experimental because we don't know what the ultimate outcome is going to be.

37

00:03:01,000 --> 00:03:06,000

We have a different opinion about where you draw the line between life and death.

38

00:03:06,000 --> 00:03:11,000

I don't think you can get dead people back from back to life. That's impossible. They're dead. How could you?

39

00:03:11,000 --> 00:03:14,000

I don't think that these people necessarily are dead.

40

00:03:14,000 --> 00:03:20,000

Once a cryonics patient is declared legally dead, the body is connected to life support systems.

41

00:03:20,000 --> 00:03:25,000

Cryo protective drugs are administered to minimize damage from the freezing process.

42

00:03:25,000 --> 00:03:28,000

It takes three to five days to gradually freeze a body.

43

00:03:28,000 --> 00:03:32,000

What you're seeing is the inside of a cryogenic doer.

44

00:03:32,000 --> 00:03:36,000

Those are aluminum pods down there which contain our patients.

45

00:03:36,000 --> 00:03:39,000

The patient is inside the pod wrapped in a sleeping bag.

46

00:03:39,000 --> 00:03:44,000

Right now there's only two ways of putting people into cryonic suspension.

47

00:03:44,000 --> 00:03:48,000

Either their whole bodies can be suspended like these people down here.

48

00:03:48,000 --> 00:03:53,000

Some people choose only to have their brains put into cryonic suspension.

49

00:03:54,000 --> 00:04:03,000

Right now, our methods of suspension are so crude, none of these people will be recovered unless we can fix them one cell at a time.

50

00:04:03,000 --> 00:04:20,000

If you can do that, then it's a very small little bit extra to ask that you take any one of the millions of cells that has the entire DNA, which is a blueprint for your entire body, and just grow a new one around the existing brain.

51

00:04:21,000 --> 00:04:25,000

Is cryonic science or science fiction?

52

00:04:25,000 --> 00:04:32,000

To date, three companies worldwide have frozen 40 people from all walks of life and 600 more have signed up.

53

00:04:32,000 --> 00:04:37,000

But the medical community is universal in its condemnation of the process.

54

00:04:37,000 --> 00:04:39,000

I think it's misleading to people.

55

00:04:39,000 --> 00:04:45,000

I think that it's giving some false hopes, again, at least at this point.

56

00:04:45,000 --> 00:04:54,000

It's a rational gamble, because what they're doing is committing a relatively small amount of resources to the problem.

57

00:04:54,000 --> 00:04:59,000

And it's a personal issue. How much is your life worth gambling on?

58

00:04:59,000 --> 00:05:11,000

I mean, if this pays off and you end up with an indefinite lifespan in a world filled with all kinds of possibilities we can hardly imagine now, what's it worth to you?

59

00:05:11,000 --> 00:05:16,000

Bring me back. I don't care how. Bring me back into the future. I want to be there. I want to witness this.

60

00:05:16,000 --> 00:05:23,000

I want to be able to get out of this freezing suspension or whatever they put me into to get me back.

61

00:05:23,000 --> 00:05:29,000

I want to be able to stand there and say, Bill, you've made it. You're really here in the future.

62

00:05:29,000 --> 00:05:38,000

The most important thing is that if they can do that, if it really can be done, I'm looking at immortality.

63

00:05:38,000 --> 00:05:44,000

You don't ever have to die. You're not dead when you come out of the tank. You're not coming back from the dead.

64

00:05:44,000 --> 00:05:51,000

You're simply been put in suspension waiting for science to catch up with us. It's basically all we're doing.

65

00:05:51,000 --> 00:05:57,000

I don't want to go out with a bang. I don't want to go out with a whimper. I want to go out with a strategy.

66

00:05:57,000 --> 00:06:01,000

In case of death, see reverse for biostasis protocol.

67

00:06:01,000 --> 00:06:09,000

Push 50,000 U-Heparin IV and do CPR while cooling with ice to 10 Celsius.

68

00:06:09,000 --> 00:06:18,000

Those who wish to be frozen upon death wear special identification tags which give explicit instructions about how to freeze the body and who to contact.

69

00:06:18,000 --> 00:06:25,000

Well, let's say it doesn't work, okay? So you lose some money, you lose your life, you're frozen, that's that.

70

00:06:25,000 --> 00:06:31,000

But if it does work, well then you get to live and everybody rots on the ground except you.

71

00:06:31,000 --> 00:06:36,000

Clearly there's no guarantees. It only gets your only shot.

72

00:06:36,000 --> 00:06:50,000

Is immortality really within our grasp? While cryonists seek answers through futuristic high technology, others trying to cheat death are looking to the past to an ancient Egyptian process called mummification.

73

00:06:50,000 --> 00:06:56,000

In permanent body preservation or mummification the cells are perfectly preserved. Possibly.

74

00:06:56,000 --> 00:07:03,000

Science may sometime in the future be able to duplicate that genetic message, re-duplicate a body.

75

00:07:03,000 --> 00:07:09,000

Mummification is the only process that is a permanent process of preservation.

76

00:07:09,000 --> 00:07:17,000

The mummification process, the first step is basically to remove the organs from the body which has been embodied.

77

00:07:17,000 --> 00:07:21,000

Then everything is placed in the vat with the body and it is soaked.

78

00:07:21,000 --> 00:07:25,000

Is it the preservative, the active preservative?

79

00:07:25,000 --> 00:07:31,000

All the organs are coated with polyurethane. The cavity has been coated with polyurethane.

80

00:07:31,000 --> 00:07:36,000

Everything is returned to the body and then the body is cloaked.

81

00:07:36,000 --> 00:07:47,000

A lot of people really feel basically that they don't want the body to go through what is referred to as the corruption, the decomposition of the body.

82

00:07:47,000 --> 00:07:50,000

They want the body to stay intact.

83

00:07:50,000 --> 00:07:56,000

Mummification and cryonics raise profound questions about what might happen to these bodies in the future.

84

00:07:56,000 --> 00:08:01,000

Will we ever reach a point where these preserved bodies can live again?

85

00:08:01,000 --> 00:08:05,000

Or is reanimating a corpse just another horror movie plot?

86

00:08:05,000 --> 00:08:11,000

Some scientists believe it is the new reality of future generations.

87

00:08:11,000 --> 00:08:16,000

Coming up, does the dead victim of an electrocution still haunt this house?

88

00:08:16,000 --> 00:08:20,000

Our cameras captured evidence that even we can't explain.

89

00:08:20,000 --> 00:08:24,000

Light in the kitchen is going on and on.

90

00:08:24,000 --> 00:08:34,000

Ghosts. Many parapsychologists believe that their collections of electrical energy and conventional scientists agree electromagnetism is all around us.

91

00:08:34,000 --> 00:08:38,000

But paranormal researchers take it one extraordinary step further.

92

00:08:38,000 --> 00:08:47,000

They believe electromagnetism has a personality, that it can be the outward manifestation of a tortured soul in limbo.

93

00:08:47,000 --> 00:08:56,000

On July 28, 1974, Larry Richard Roach, an unemployed electrician, ended his own life with one rifle blast to the chest.

94

00:09:05,000 --> 00:09:09,000

Before his suicide, Larry Roach had been severely injured on the job.

95

00:09:09,000 --> 00:09:13,000

Electric shock had left him physically and mentally disabled.

96

00:09:13,000 --> 00:09:21,000

He had seizures, was emotionally unstable, and when his wife left him, Larry Roach became despondent and took his own life.

97

00:09:21,000 --> 00:09:29,000

Today, near Dallas, Texas, in this quiet neighborhood, a new family lives in the house where Larry Roach committed suicide.

98

00:09:29,000 --> 00:09:32,000

It was supposed to be the Lomonas family's dream house.

99

00:09:32,000 --> 00:09:35,000

They finally had a backyard for the children and plenty of room.

100

00:09:35,000 --> 00:09:38,000

But their happiness has been short-lived.

101

00:09:38,000 --> 00:09:41,000

They believe something is trying to force them out.

102

00:09:41,000 --> 00:09:45,000

Three weeks after we moved in, strange things started to happen.

103

00:09:45,000 --> 00:09:52,000

I had walked from the dining room into the kitchen, and about then something got a hold of my hair and lifted me up.

104

00:09:52,000 --> 00:09:54,000

And I started hollering, paying, paying help me.

105

00:09:54,000 --> 00:10:00,000

And she turned around and looked and she said I was just like a haze all over me, like a glow.

106

00:10:00,000 --> 00:10:02,000

Like I had lit up.

107

00:10:02,000 --> 00:10:10,000

Most of the disturbances in the house seem to be related to strange electrical energy that had an almost human form.

108

00:10:10,000 --> 00:10:14,000

It affected appliances, the telephone, the lights.

109

00:10:14,000 --> 00:10:18,000

The phone answering machine played back messages spontaneously.

110

00:10:18,000 --> 00:10:24,000

Excuse me, I need to fix the door. Excuse me, I need to fix the door.

111

00:10:24,000 --> 00:10:27,000

Then a frightening apparition appeared in the kitchen.

112

00:10:27,000 --> 00:10:31,000

Once I just felt like something was in the kitchen.

113

00:10:31,000 --> 00:10:33,000

I just felt like something was staring at me.

114

00:10:33,000 --> 00:10:39,000

And I turned around and I looked and I seen laying on the floor like a whole figure of a man's body.

115

00:10:39,000 --> 00:10:41,000

I was terrified.

116

00:10:41,000 --> 00:10:48,000

So I got up and when I did it just vanished away like it went up to the air and smoke, up into the kitchen light.

117

00:10:51,000 --> 00:10:53,000

And the terror only worsened.

118

00:10:53,000 --> 00:10:55,000

I started getting worse and worse in the house.

119

00:10:55,000 --> 00:10:58,000

I got to where I was scared to stay here.

120

00:10:59,000 --> 00:11:03,000

Late at night, eerie footsteps would echo throughout the house.

121

00:11:03,000 --> 00:11:06,000

The apparition paced outside the bedroom doors.

122

00:11:08,000 --> 00:11:11,000

Then the activity in the house took a sinister turn.

123

00:11:11,000 --> 00:11:14,000

Did the apparition want the family dead?

124

00:11:14,000 --> 00:11:19,000

I came home one afternoon and the gas stove had been turned on.

125

00:11:19,000 --> 00:11:21,000

And Joe was asleep on the sofa.

126

00:11:21,000 --> 00:11:27,000

I came in, smelled the gas at the front door, left the front door open because you could not even walk in.

127

00:11:27,000 --> 00:11:29,000

And it really scared me.

128

00:11:30,000 --> 00:11:34,000

After this incident, Pam started to ask neighbors about the history of the house.

129

00:11:35,000 --> 00:11:37,000

I told Pam something's happened in this kitchen.

130

00:11:37,000 --> 00:11:39,000

And she said, well mother, I think you're right.

131

00:11:39,000 --> 00:11:46,000

So she went to investigate with her neighbors and they did explain to her that a man had committed suicide in the kitchen.

132

00:11:47,000 --> 00:11:53,000

The lomonas is wondered if it was Larry Roach's angry, restless spirit that was tormenting their lives.

133

00:11:53,000 --> 00:11:58,000

Desperate to find out, Pam contacted psychics, Donna Paul and Carol Williams.

134

00:12:00,000 --> 00:12:03,000

When Pam called me, she was very disturbed.

135

00:12:03,000 --> 00:12:05,000

Her voice was shaking.

136

00:12:05,000 --> 00:12:10,000

She said, I have someone in my house and it's a ghost.

137

00:12:10,000 --> 00:12:14,000

I did feel cold spots in a few of the rooms.

138

00:12:14,000 --> 00:12:19,000

And as we were just sitting there in the living room, living area,

139

00:12:19,000 --> 00:12:24,000

I started feeling the tingling sensation that I feel when a spirit is there.

140

00:12:24,000 --> 00:12:32,000

Just before the 18th anniversary of the suicide, the psychics hold a seance they hope will drive Larry Roach's spirit from the house.

141

00:12:32,000 --> 00:12:37,000

Carol, Donna and other psychics joined together with the Iomonas family.

142

00:12:37,000 --> 00:12:45,000

We've come here tonight to bring in the spirit of Larry from this house.

143

00:12:45,000 --> 00:12:49,000

And we're going to attempt to send Larry to the light.

144

00:12:51,000 --> 00:12:58,000

Understand that you committed suicide, you killed yourself.

145

00:13:01,000 --> 00:13:04,000

I shh, pull that trigger.

146

00:13:07,000 --> 00:13:11,000

A rush of energy fills the room. Pam feels something touching her.

147

00:13:11,000 --> 00:13:20,000

He wants to touch my ear. Tell me, Larry, we know you're here.

148

00:13:20,000 --> 00:13:23,000

There's no reason for you to be in this house any longer.

149

00:13:23,000 --> 00:13:29,000

It's time for you to move into the other dimensions of light.

150

00:13:29,000 --> 00:13:34,000

You can no longer stay here, move toward the light.

151

00:13:35,000 --> 00:13:38,000

It was a good seance. I could feel it.

152

00:13:38,000 --> 00:13:42,000

I could feel it when the chairs were shaking, everything. I knew it was here.

153

00:13:42,000 --> 00:13:47,000

But it didn't, did not leave. And I don't think it's going to ever leave this house.

154

00:13:47,000 --> 00:13:53,000

Because it kept saying over and over in my mind, this is my home. This is my home.

155

00:13:53,000 --> 00:14:01,000

To see if a spirit could be inhabiting the home, a sighting's camera operator stays at the house, alone.

156

00:14:02,000 --> 00:14:05,000

Okay, there's an awful lot of static electricity in the air right now.

157

00:14:05,000 --> 00:14:07,000

It seems to be coming from that tool shed.

158

00:14:07,000 --> 00:14:12,000

We found out later the tool shed was the last place Larry Roach was seen alive.

159

00:14:12,000 --> 00:14:15,000

The dog's barking at something, there's nothing there.

160

00:14:17,000 --> 00:14:22,000

330. I just felt something in the air on this area here, in this hall.

161

00:14:22,000 --> 00:14:27,000

Flashlights going out. I don't understand because I just put batteries in it.

162

00:14:28,000 --> 00:14:33,000

The light in the kitchen's going on and off, but I'm not touching it.

163

00:14:33,000 --> 00:14:38,000

It's 5 a.m. right now. There's a weird smell. I don't know what it is.

164

00:14:38,000 --> 00:14:42,000

There's a lot of electricity in the air, more now than before.

165

00:14:42,000 --> 00:14:46,000

The warning light and the camera's on. Why are the batteries dying?

166

00:14:47,000 --> 00:14:51,000

Larry Roach seems to have made his presence felt, even to our crew member.

167

00:14:51,000 --> 00:14:55,000

And the Limonuses still fear the unearthly phenomena in their home.

168

00:14:55,000 --> 00:14:58,000

In the coming weeks, we'll return to Dallas for an update.

169

00:15:01,000 --> 00:15:06,000

Coming up next, an entire town that claims to have shared past lives together.

170

00:15:06,000 --> 00:15:13,000

My name is Millie Spurl. Now, and during the Civil War, it was honey.

171

00:15:13,000 --> 00:15:16,000

Our investigation uncovered startling evidence of reincarnation.

172

00:15:18,000 --> 00:15:22,000

When Sigmund Freud first introduced his theories about the importance of hypnosis,

173

00:15:22,000 --> 00:15:25,000

he was laughed at and ridiculed by his colleagues.

174

00:15:25,000 --> 00:15:29,000

Since then, hypnotherapy has gradually gained widespread acceptance.

175

00:15:29,000 --> 00:15:37,000

But now, a controversial new type of hypnotherapy is once again asking us to look at our lives in an astounding new way.

176

00:15:41,000 --> 00:15:44,000

It's the serious study of past life therapy.

177

00:15:44,000 --> 00:15:51,000

Even traditional doctors are starting to wonder if hypnotized patients can really recall that they have lived before

178

00:15:51,000 --> 00:15:53,000

in a different body.

179

00:15:53,000 --> 00:15:59,000

I got involved at first with past life therapy as a seemingly spontaneous or accidental thing.

180

00:15:59,000 --> 00:16:04,000

I was chairman of psychiatry, very much academically trained and left-brained.

181

00:16:04,000 --> 00:16:10,000

Dr. Brian Weiss is a respected psychiatrist and author of two books on past life therapy.

182

00:16:10,000 --> 00:16:14,000

No medical organization has come out really and endorsed this.

183

00:16:15,000 --> 00:16:18,000

Oftentimes, they'll come up to me and say,

184

00:16:18,000 --> 00:16:23,000

I've had this marvelous experience where my patient has, but don't tell anyone.

185

00:16:23,000 --> 00:16:25,000

I get that a lot.

186

00:16:25,000 --> 00:16:30,000

One startling new case has doctors and hypnotherapists reexamining their beliefs.

187

00:16:30,000 --> 00:16:34,000

It all started in the small town of Lake Elsinore, California.

188

00:16:34,000 --> 00:16:42,000

Here, under hypnosis, more than 30 people all recalled that they had lived and died together more than 100 years ago.

189

00:16:42,000 --> 00:16:46,000

Under the guidance of Marge Reader, a hypnotherapist for 16 years,

190

00:16:46,000 --> 00:16:50,000

Maureen Williamson was the first to speak of this shared past life.

191

00:16:50,000 --> 00:16:54,000

There was something, an incident that happened to me when I was really young,

192

00:16:54,000 --> 00:16:56,000

and I was interested in the details.

193

00:16:56,000 --> 00:17:00,000

It started initially with a name, and the name I had come up with was John Ashford.

194

00:17:00,000 --> 00:17:02,000

She said, oh, he's my husband.

195

00:17:02,000 --> 00:17:05,000

Well, that was not her husband's name.

196

00:17:05,000 --> 00:17:07,000

And I said, well, where are we?

197

00:17:07,000 --> 00:17:09,000

Well, we're in Millboro.

198

00:17:09,000 --> 00:17:14,000

In Marge Reader's practice, it's not unusual for someone to recall a past life,

199

00:17:14,000 --> 00:17:18,000

but what happened next startled the hypnosis community.

200

00:17:18,000 --> 00:17:23,000

So then she looked at me and she said, I saw Joe back there, and I said, Joe, who?

201

00:17:23,000 --> 00:17:28,000

She says Joe Nazarowski. He owned a security office down here on Main Street.

202

00:17:28,000 --> 00:17:31,000

Joe Nazarowski came to see Marge Reader,

203

00:17:31,000 --> 00:17:35,000

and without prompting, told stories that were strikingly similar.

204

00:17:35,000 --> 00:17:40,000

During a civil war time, I went to Millboro, and my primary function there

205

00:17:40,000 --> 00:17:44,000

was that in the event that the war were to go badly for the Confederacy

206

00:17:44,000 --> 00:17:49,000

to blow up the tunnels so that they could not use those materials against our military.

207

00:17:49,000 --> 00:17:54,000

Marge probed deeper with Maureen, and she recalled that even more people from Lake Elsinore

208

00:17:54,000 --> 00:17:57,000

could have had a history in Millboro, Virginia.

209

00:17:57,000 --> 00:17:59,000

And then she said, I saw Millie back there.

210

00:17:59,000 --> 00:18:03,000

Barbara Roberts was sitting in the room, and Barbara wrote me a note and said, ask her if I'm there.

211

00:18:03,000 --> 00:18:07,000

And I said, is Barbara Roberts back there in Virginia? She says, yes, she's my mother-in-law.

212

00:18:07,000 --> 00:18:11,000

She's John's mother. And from there on out, it's just snowballed.

213

00:18:11,000 --> 00:18:16,000

Maureen, who was the first to speak of Millboro, brought her husband in to see Marge.

214

00:18:16,000 --> 00:18:21,000

Under hypnosis, he recalled that he had been Maureen's lover in Millboro.

215

00:18:21,000 --> 00:18:28,000

Marge and I have found out, under regressions, is that I am still in love with the lady,

216

00:18:28,000 --> 00:18:31,000

and I always have been for 130 years.

217

00:18:31,000 --> 00:18:35,000

The Civil War, for example, is a very popular period. A lot of people have been there.

218

00:18:35,000 --> 00:18:40,000

I have people finding their own gravesites. They find their names. They know their way around,

219

00:18:40,000 --> 00:18:46,000

and they've never been in that area before. So this is extremely possible, probable.

220

00:18:46,000 --> 00:18:52,000

And I applaud this research. This is the type of thing that more people should have the courage to do.

221

00:18:52,000 --> 00:18:59,000

Marge Reader has documented the first case of mass regression in her book, Mission to Millboro.

222

00:18:59,000 --> 00:19:06,000

As amazing as these stories are, skeptics argue that Marge was somehow influencing her patients unconsciously.

223

00:19:06,000 --> 00:19:13,000

So we decided to go on our own mission to Millboro, for evidence of this shared past life.

224

00:19:13,000 --> 00:19:19,000

Our first step was to search for a boarding house, which almost everyone had spoken of under regression.

225

00:19:19,000 --> 00:19:22,000

And we found it.

226

00:19:22,000 --> 00:19:28,000

My boarding house didn't have that much to do with the Civil War, because I had the regular borders.

227

00:19:28,000 --> 00:19:32,000

And I fed a lot of people. I baked a lot of bread.

228

00:19:32,000 --> 00:19:38,000

Under regression, nearly everyone recalled a graveyard where Maureen, as Becky Ashford, was buried.

229

00:19:38,000 --> 00:19:41,000

Just outside of town, we found a family plot.

230

00:19:41,000 --> 00:19:46,000

I had been told by several people, Becky's grave is about a mile and a half outside of town.

231

00:19:46,000 --> 00:19:51,000

The graves are untended. The grass is high. Joe told me all along, it's in an enclosure.

232

00:19:51,000 --> 00:19:57,000

There's a little iron gate fence, and that's just what we found.

233

00:19:57,000 --> 00:20:04,000

Joe Nasorowski recalled that his name in 1861 was Charlie Patterson, a West Point graduate.

234

00:20:04,000 --> 00:20:10,000

A trip to the West Point archives uncovered this photograph taken in 1861.

235

00:20:10,000 --> 00:20:17,000

The cadet here is Charlie Patterson of Millboro, Virginia.

236

00:20:17,000 --> 00:20:22,000

Joe also recalled a tunnel that he was supposed to blow up during the Civil War.

237

00:20:22,000 --> 00:20:27,000

We found the tunnel, and even these holes where he could have placed dynamite charges.

238

00:20:27,000 --> 00:20:33,000

We're going to place the dynamite to make sure that if the Yankees came through, that it would take the tunnel out.

239

00:20:33,000 --> 00:20:35,000

They couldn't get the supplies.

240

00:20:35,000 --> 00:20:41,000

Before that regression, none of the people in Lake Alsonor had been to Millboro.

241

00:20:41,000 --> 00:20:45,000

But it's possible that they could have seen pictures or heard stories about the area.

242

00:20:45,000 --> 00:20:50,000

However, one place we discovered was unknown to even lifetime residents of Millboro.

243

00:20:50,000 --> 00:20:54,000

Totally unknown to everyone but one of Marge's clients.

244

00:20:54,000 --> 00:20:57,000

It was a secret room used to hide slaves.

245

00:20:57,000 --> 00:21:00,000

The room was supposedly hidden underground near a church.

246

00:21:00,000 --> 00:21:06,000

Marge pinpointed its location using old maps and began to dig.

247

00:21:06,000 --> 00:21:08,000

We're in the middle of downtown Millboro.

248

00:21:08,000 --> 00:21:13,000

We have reason to think that there's an underground railroad hidden tunnel and room down here.

249

00:21:13,000 --> 00:21:18,000

And I heard about it just a few months ago from one of the newer girls in my Millboro study.

250

00:21:19,000 --> 00:21:24,000

After hours of digging, Marge broke through and found the secret room.

251

00:21:24,000 --> 00:21:29,000

You can see the room very clearly. You can see the green walls, green concrete walls as they were described to me.

252

00:21:29,000 --> 00:21:39,000

The plank ceiling, sod floor, and Civil War era paraphernalia provided further evidence that this room may have been the secret room revealed under regression.

253

00:21:39,000 --> 00:21:46,000

This discovery is an important step forward in the search for proof that the mass regression is more than just the power of suggestion or coincidence.

254

00:21:46,000 --> 00:21:55,000

In my practice as a psychiatrist, doing past life regression work, I focus primarily on therapy, on healing.

255

00:21:55,000 --> 00:22:02,000

The other level which Marge is doing is extremely important also. It's proof that this is real.

256

00:22:05,000 --> 00:22:09,000

Thanks for joining us. For Sightings, I'm Tim White. Good night.

257

00:22:09,000 --> 00:22:23,000

Tomorrow after an all-new cops, when his landing gear fails, witness a pilot's desperate struggle to belly land his crippled plane on an all-new Code 3 after cops tomorrow.

258

00:22:23,000 --> 00:22:29,000

And don't forget, this Sunday it's the in-living color blooper special, followed by an all-new Rock Live.

259

00:22:29,000 --> 00:22:32,000

Now stay tuned for an all-new Rachel Gunn.

260

00:22:39,000 --> 00:22:42,000

Sightings.
