

1

00:00:00,000 --> 00:00:04,000

The following program deals with controversial subjects.

2

00:00:04,000 --> 00:00:07,000

The theories expressed are not the only possible interpretation.

3

00:00:07,000 --> 00:00:12,000

The viewer is invited to make a judgment based on all available information.

4

00:00:12,000 --> 00:00:16,000

Tonight on Sightings, many thought the mystery of the English crop circles was a hoax,

5

00:00:16,000 --> 00:00:21,000

but our ongoing investigation has uncovered startling evidence that may prove extraterrestrial contact.

6

00:00:21,000 --> 00:00:25,000

This intelligence is almost certain that not human.

7

00:00:25,000 --> 00:00:29,000

Then what sinister spell has cursed the British royalty for 600 years?

8

00:00:29,000 --> 00:00:32,000

We uncover the royal curse tonight.

9

00:00:55,000 --> 00:01:06,000

Welcome to Sightings. I'm Tim White.

10

00:01:06,000 --> 00:01:13,000

Since the early 1980s, over 2,000 crop circle formations have been discovered in 30 countries,

11

00:01:13,000 --> 00:01:15,000

and new ones are being reported every month.

12

00:01:15,000 --> 00:01:19,000

Theories about where they come from range from weather anomalies,

13

00:01:19,000 --> 00:01:24,000

to extraterrestrials, to crazed hedgehogs doing a mating dance.

14

00:01:24,000 --> 00:01:27,000

Well, obviously some theories are more credible than others,

15

00:01:27,000 --> 00:01:35,000

but the fact remains that something is happening in fields around the world that no one can fully explain.

16

00:01:35,000 --> 00:01:43,000

The stories of unexplained designs appearing mostly in the farm fields of England hit an all-time high in 1990.

17

00:01:43,000 --> 00:01:48,000

News media from around the world were quick to hail these enigmatic circles and lines

18

00:01:48,000 --> 00:01:51,000

as the strangest scientific discovery of the 20th century.

19

00:01:51,000 --> 00:01:55,000

For a brief period, crop circles became the darling of popular culture.

20

00:01:55,000 --> 00:02:00,000

But then two hoaxers stepped forward to claim that they had created the crop circles,

21

00:02:00,000 --> 00:02:05,000

and just as quickly as the phenomenon began, the media dropped the crop circle story.

22

00:02:05,000 --> 00:02:11,000

The hoax theory stuck, and soon the only people still interested were hardcore theorists and scientists.

23

00:02:11,000 --> 00:02:16,000

Initially, these were simple single circles,

24

00:02:16,000 --> 00:02:24,000

but in 1990 the patterns became much more complex, dramatically so,

25

00:02:24,000 --> 00:02:29,000

and blew right out of the water some of the early theories.

26

00:02:29,000 --> 00:02:35,000

The early formations were the size of a domestic room.

27

00:02:35,000 --> 00:02:40,000

Now you have formation which are almost the size of Central Park,

28

00:02:40,000 --> 00:02:48,000

so that we have enormous growth both in complexity and in size and in numbers.

29

00:02:48,000 --> 00:02:52,000

Michael Green is an archaeologist and architecture historian

30

00:02:52,000 --> 00:02:56,000

who is also one of the founding members of the Center for Crop Circle Studies.

31

00:02:56,000 --> 00:03:03,000

We're not a religious cult, we're not a strange, wacky branch of the UFO movement.

32

00:03:03,000 --> 00:03:10,000

We are trying to use rational means to establish what's going on.

33

00:03:10,000 --> 00:03:17,000

And the first thing we learnt, and this year in particular, is that there are a few hoaxes.

34

00:03:17,000 --> 00:03:26,000

I'm Dave Chorley, and we are the two people that have created the crop circles in 1978 through to the day.

35

00:03:26,000 --> 00:03:31,000

The most impressive thing to me, and the reason why I actually stopped and listened to what they had to say,

36

00:03:31,000 --> 00:03:34,000

was not really what they told me, but what they did in the field,

37

00:03:34,000 --> 00:03:39,000

because when they did the demonstration out in Sussex at Chilgrove,

38

00:03:39,000 --> 00:03:46,000

the formation itself was quite messy, but it was amazing how quickly it happened.

39

00:03:46,000 --> 00:03:51,000

In 40, 45 minutes this huge formation was laid down,

40

00:03:51,000 --> 00:03:56,000

and that's even accounting for the fact that half the world's press were tramping around it as well

41

00:03:56,000 --> 00:03:59,000

with them asking them for interviews at the same time.

42

00:03:59,000 --> 00:04:04,000

But Doug and Dave had only done a few of the hundreds of cycles that had been done,

43

00:04:04,000 --> 00:04:10,000

and from the evidence, their public demonstrations in broad daylight, they weren't very good at it.

44

00:04:10,000 --> 00:04:14,000

But no one really knew what hoaxes could do and what they couldn't do.

45

00:04:14,000 --> 00:04:18,000

And so I thought, well, here's an ideal opportunity for a scientific experiment,

46

00:04:18,000 --> 00:04:21,000

and the best way to do it is through a competition.

47

00:04:21,000 --> 00:04:27,000

Biologist and author Rupert Sheldrake did organize a competition held earlier this year.

48

00:04:27,000 --> 00:04:32,000

The challenge was to see if anyone could create crop circles that could not be identified as hoaxes.

49

00:04:32,000 --> 00:04:39,000

The circles were made at night, and the next day the contest winners demonstrated their techniques.

50

00:04:39,000 --> 00:04:46,000

What we found was that the standard of artificial circle making was much higher than most people had expected.

51

00:04:46,000 --> 00:04:49,000

These people could do very well.

52

00:04:49,000 --> 00:04:56,000

The standard was very high indeed, and the most surprising thing was that people could do all this in complete darkness.

53

00:04:56,000 --> 00:04:59,000

We weren't making very little noise.

54

00:05:05,000 --> 00:05:12,000

I flew the site the next day, and the aerial pictures that we took show some of the centres of these formations

55

00:05:12,000 --> 00:05:17,000

displaying exactly the characteristics that the genuine circles have displayed,

56

00:05:17,000 --> 00:05:22,000

and exactly the characteristics that many of the experts have said couldn't be done by people.

57

00:05:22,000 --> 00:05:27,000

Things like making rings without having a hole in the centre where somebody stands.

58

00:05:27,000 --> 00:05:33,000

Things like producing a radial effect where the crop splays out from a central point,

59

00:05:33,000 --> 00:05:41,000

and the team that won, and the team that came second and third, produced really marvellous formations which the judges were very impressed by.

60

00:05:41,000 --> 00:05:48,000

So what they show is that many of the features of crop circles could be hoaxes, but they don't show that they are hoaxes.

61

00:05:48,000 --> 00:05:55,000

And I mean the analogy that I find most helpful is the fact that you can forge a \$20 bill,

62

00:05:55,000 --> 00:05:58,000

doesn't prove that all \$20 bills of forger is.

63

00:05:58,000 --> 00:06:07,000

The first and primary feature which is evident in the genuine phenomenon and not in the hoaxes is the spiralling fingerprint.

64

00:06:07,000 --> 00:06:13,000

Colin Andrews heads up the Circles Phenomenon Research Group in Bramford, Connecticut.

65

00:06:13,000 --> 00:06:20,000

Andrews has co-authored two books on crop circles and is believed to have visited more actual crop circle sites than any other researcher.

66

00:06:20,000 --> 00:06:28,000

This particular screen shows clearly the difference between the fingerprint, this is the print at the top here,

67

00:06:28,000 --> 00:06:35,000

of the genuine phenomenon, the real phenomenon, and all of those hoaxes which we are hearing so much about these days.

68

00:06:35,000 --> 00:06:41,000

Andrews believes that the most important patterns to be studied are those where the flow of the crops

69

00:06:41,000 --> 00:06:48,000

changes direction within a single circle, a pattern no human has yet been able to duplicate in public.

70

00:06:48,000 --> 00:06:57,000

I think the single most convincing argument for a real phenomenon and against the hoaxes are the effects that the phenomenon

71

00:06:57,000 --> 00:07:00,000

are having upon the plants themselves.

72

00:07:00,000 --> 00:07:10,000

Dr. Levingood, a well-known physicist in the United States, has discovered changes in the structure

73

00:07:10,000 --> 00:07:17,000

of the plants themselves and the cell structure of the plants, molecular structure of the plants on a number of continents.

74

00:07:17,000 --> 00:07:23,000

When a formation hits it just knocks the heck out of the embryo, they don't grow, the seeds don't develop.

75

00:07:23,000 --> 00:07:29,000

Dr. Levingood has discovered that the cell structure of the crops within a formation are distinctly different from

76

00:07:29,000 --> 00:07:35,000

undisturbed crops nearby and that this new cell structure seriously alters the crops growth.

77

00:07:35,000 --> 00:07:43,000

Let me get this straight. A plant that is in a formation undergoes an internal change so that seeds taken from that plant

78

00:07:43,000 --> 00:07:46,000

grow a different kind of plant or an altered plant.

79

00:07:46,000 --> 00:07:54,000

Altered in both the growth rate and the germination. In some cases it increases quite significantly.

80

00:07:54,000 --> 00:08:02,000

Some people maintain that hoaxes created not only some but all of these formations. You buy that?

81

00:08:02,000 --> 00:08:09,000

Oh god no, no, this is, this is all ridiculous. No, if they had that kind of energy they wouldn't be wasting it out in the field

82

00:08:09,000 --> 00:08:16,000

making impressions in a crop. It would be a new kind of energy distribution, let's say, that I have never heard of.

83

00:08:16,000 --> 00:08:22,000

Mathematician Gerald Hawkins is another scientist with an intriguing theory.

84

00:08:22,000 --> 00:08:29,000

Professor Hawkins made his mark in the 1950s when he came up with an explanation for Stonehenge still accepted today.

85

00:08:29,000 --> 00:08:35,000

Now Hawkins has devised a mathematical formula relating the crop circles to the notes of a musical scale.

86

00:08:35,000 --> 00:08:42,000

Help us understand that. You're not suggesting that because there's a relationship between the ratios of the crop circles

87

00:08:42,000 --> 00:08:45,000

and the ratios of musical tones that you can somehow play the crop circles.

88

00:08:45,000 --> 00:08:53,000

I'm not saying that the crop circles are musical. I'm saying that they follow the same mathematical law as the major diatonic scale.

89

00:08:53,000 --> 00:09:00,000

No natural physical process that we know will generate the diatonic scale which is of course the white notes on the piano.

90

00:09:00,000 --> 00:09:07,000

Therefore the only theory that we can put forward is that it's done by human beings is all a hoax.

91

00:09:07,000 --> 00:09:14,000

But they're clever hoaxes and if it's not a hoax then we have a major scientific problem on our hands.

92

00:09:14,000 --> 00:09:22,000

Professor Hawkins has studied the ratios of the sizes of crop circles and found the same ratios between notes and the diatonic scale.

93

00:09:22,000 --> 00:09:29,000

If the music doesn't seem listenable then it seems to imply there's something beyond music being

communicated here.

94

00:09:29,000 --> 00:09:43,000

Yes it could be a copyright insignia of the primary hoaxes or the crop circle makers and perhaps they may use this later for further information transmission.

95

00:09:43,000 --> 00:09:47,000

But I'm not going to predict what crop circle makers will do next.

96

00:09:47,000 --> 00:09:56,000

Dr. Hawkins you're implying that if even one of the crop circles is not the work of the hoax team that science will have to rethink everything.

97

00:09:56,000 --> 00:10:01,000

I'm afraid so. You only need one in this case and you have a mystery.

98

00:10:01,000 --> 00:10:13,000

What of course stands out clearly now is that we have the uncomfortable fact that this intelligence is almost certain it not human.

99

00:10:13,000 --> 00:10:19,000

And this is where people become extremely nervous. The media becomes very nervous. The press becomes extremely nervous.

100

00:10:19,000 --> 00:10:37,000

They don't like mysteries like this. One of the reasons that some thinkers have thought might be behind this is the position of the earth in terms of the terrible damage that is being done by man.

101

00:10:37,000 --> 00:10:41,000

Could we be dealing with something which is trying to warn us.

102

00:10:41,000 --> 00:10:54,000

Either it's very skillful hoaxes with a tremendous sense of humor or it's some non human intelligence that's completely off the scale of anything that we've contemplated so far.

103

00:10:54,000 --> 00:11:06,000

But if they are communications of guida or nature or aliens or whatever if they're communications of some kind from a non human source it's not quite clear what they're saying.

104

00:11:06,000 --> 00:11:13,000

Their main message so far seems to be watch this space.

105

00:11:13,000 --> 00:11:26,000

Are we any closer today to unraveling the mystery of what or who created the crop circles. Joining me now is George Wingfield director of field research and founding member of the Center for Crop Circle Studies in London England.

106

00:11:26,000 --> 00:11:28,000

George welcome to sightings.

107

00:11:28,000 --> 00:11:29,000

Hello Tim.

108

00:11:29,000 --> 00:11:37,000

The crop circles have changed over the years. The shapes have changed. The number have changed. Have you learned anything from those directions.

109

00:11:37,000 --> 00:11:45,000

There's no doubt at all that these are of some sort of intelligent origin and this appears to be non human.

110

00:11:45,000 --> 00:11:49,000

What do the circles seem to be leading toward.

111

00:11:49,000 --> 00:11:58,000

I think they are leading us towards an understanding of some other level of intelligence which is not human.

112

00:11:58,000 --> 00:12:07,000

Do you believe George that the crop circles are an ancient phenomenon that they've always been there. They just haven't been accounted for by modern means.

113

00:12:07,000 --> 00:12:15,000

No I don't think so. I don't think so at all. I think the crop circles started appearing in quite recent times probably less than 30 years ago.

114

00:12:15,000 --> 00:12:19,000

There may have been a few before that but very very few.

115

00:12:19,000 --> 00:12:26,000

For you do the crop circles inspire hope or fear or merely curiosity.

116

00:12:26,000 --> 00:12:41,000

Well they certainly inspire hope. I believe the whatever is causing the circles is something which is benign. I don't believe there's anything hostile or evil here which is what some people would have you believe.

117

00:12:41,000 --> 00:12:45,000

George Wingfield thank you very much. Thank you Tim.

118

00:12:45,000 --> 00:12:48,000

And we'll be back with more sightings in just a moment.

119

00:12:48,000 --> 00:12:53,000

Coming up next. What sinister spell has cursed the royal family for 600 years.

120

00:12:53,000 --> 00:12:55,000

You can't escape it.

121

00:12:55,000 --> 00:13:00,000

We reveal the secrets of the royal curse next.

122

00:13:00,000 --> 00:13:14,000

In the past two years Britain's royal family has endured an unprecedented amount of scrutiny and negative press and some people are not surprised because they believe the House of Windsor is suffering under an ancient curse.

123

00:13:14,000 --> 00:13:24,000

Are the Windsor curse and the current royal troubles just coincidence or can a curse really create scandal hardship and even death.

124

00:13:24,000 --> 00:13:33,000

A curse is one of the most ancient forms of ritual still surviving today. It can be an elaborate spell or hasty words.

125

00:13:33,000 --> 00:13:39,000

King Touch Tomb was believed to be cursed and some of those who entered it did die under unusual circumstances.

126

00:13:39,000 --> 00:13:48,000

The Hope Diamond the largest in the world is also thought to carry a curse but can people really be harmed by something that many believe is merely superstition.

127

00:13:48,000 --> 00:14:02,000

A curse is magic black magic that is a negative wish that is can be made by word of mouth by saying something that would harm somebody.

128

00:14:02,000 --> 00:14:09,000

Anybody can be victimized. Anybody is vulnerable.

129

00:14:09,000 --> 00:14:20,000

Throughout this century Britain's royal family has been the object of scandal and tragedy from the abdication of Edward the 8th to the bloody terrorist attack that killed Prince Charles favorite uncle.

130

00:14:20,000 --> 00:14:32,000

Recent revelations about Princess Diana's unhappy marriage and Fergie's impending divorce from Prince Andrew are just the latest misfortunes that some believe are caused by a little known royal curse.

131

00:14:32,000 --> 00:14:42,000

If such a curse exists could it explain why for the first time the role of the whole British monarchy is being questioned and some are even calling for its end.

132

00:14:42,000 --> 00:14:50,000

In 1986 speculation arose that the personal and public misfortunes of the House of Windsor were due to a centuries old curse.

133

00:14:50,000 --> 00:14:58,000

It was believed to have first taken its toll on the Queen Mother's family in the early 19th century at their ancestral home in Scotland.

134

00:14:58,000 --> 00:15:08,000

Rumors about the cursed surface after it was revealed that two nieces of the Queen Mother thought to be dead had actually been hidden away in a metal hospital for over 40 years.

135

00:15:08,000 --> 00:15:17,000

The nieces, Narissa and Catherine Bows-Lion are also first cousins to Queen Elizabeth who is a direct descendant of the Bows-Lion family.

136

00:15:17,000 --> 00:15:26,000

The fact is that the Queen has an enormous number of cousins and if you looked through the list of them all you would find all sorts of unfortunate characters.

137

00:15:26,000 --> 00:15:34,000

So too there were two nieces of the Queen Mother who it was understood and published that they had died many years ago.

138

00:15:34,000 --> 00:15:38,000

And what happened was that they were born mentally deficient.

139

00:15:38,000 --> 00:15:45,000

What actually happened in 1986 was that both these women were alive and well at this stage.

140

00:15:45,000 --> 00:15:51,000

It is not known whether or not the Queen Mother knew about their existence.

141

00:15:51,000 --> 00:16:01,000

It was a scandal at the time because it left a tarnished image on the woman that was otherwise known as the nation's favourite granny.

142

00:16:01,000 --> 00:16:08,000

The origin of the royal curse is believed to date back to the 17th century and Glom's Castle in northeastern Scotland.

143

00:16:08,000 --> 00:16:11,000

Glom's is the ancestral home of the Bows-Lion family.

144

00:16:12,000 --> 00:16:21,000

Here in the 1600s the Lord of Glom's Castle made an error in judgement that many believe the current royal family is still paying for.

145

00:16:21,000 --> 00:16:29,000

One of these stories is a result of the feud that existed between the Ogilvy and the Lindsay family.

146

00:16:29,000 --> 00:16:37,000

And the story says that a group of Ogilvy's were freeing from the Lindsay's and came to Glom's and

asked for shelter.

147

00:16:37,000 --> 00:16:44,000

And the story says that what he did was to give them shelter in a small room in the thickness of the wall.

148

00:16:44,000 --> 00:16:51,000

But then he closed them in and eventually that room was walled up and of course they died a terrible death.

149

00:16:51,000 --> 00:16:56,000

The Ogilvy's were entombed in Glom's castle for over 100 years.

150

00:16:56,000 --> 00:17:01,000

When their chamber was finally opened in the 1700s a grisly discovery was made.

151

00:17:01,000 --> 00:17:08,000

They had been so desperately hungry before they died that they'd even got to the stage of eating their own limbs.

152

00:17:08,000 --> 00:17:12,000

At least one of the skeletons had his teeth around his forearm.

153

00:17:12,000 --> 00:17:18,000

Some believe that when the wall came down a curse was let loose upon the residents of the castle.

154

00:17:18,000 --> 00:17:22,000

A curse conjured up by the murdered members of the Ogilvy clan.

155

00:17:22,000 --> 00:17:30,000

The first manifestation of the curse is thought to have occurred in 1821 with the birth of the then Earl's first born son, Thomas Bows-Lion.

156

00:17:30,000 --> 00:17:33,000

The great great great uncle of Queen Elizabeth.

157

00:17:33,000 --> 00:17:38,000

He was a, if you like, a hybrid between Cosimo and Phantom of the Opera.

158

00:17:38,000 --> 00:17:41,000

His entire body was covered with hair almost like an ape.

159

00:17:41,000 --> 00:17:46,000

He had no arms, very small arms and very small legs.

160

00:17:46,000 --> 00:17:56,000

And when his father, the 11th Earl, saw his son in air he was so horrified that he banished him from his sight.

161

00:17:56,000 --> 00:18:01,000

And the story even goes that he lived to be 100 years old, which would mean that he was still alive in 1921.

162

00:18:01,000 --> 00:18:09,000

There is a sort of infamous story about the Glam's monster, but frankly I don't know anything about it.

163

00:18:09,000 --> 00:18:14,000

I mean as far as we are concerned here at Glam's it simply never happened.

164

00:18:14,000 --> 00:18:18,000

The curse of Glam's castle has never been openly discussed by the royal family.

165

00:18:18,000 --> 00:18:25,000

Any discussion about the curse is vigorously denied by anyone employed by the family.

166

00:18:25,000 --> 00:18:30,000

Family take very strong exceptions to that particular story.

167

00:18:30,000 --> 00:18:33,000

And again as far as they're concerned it's a load of rubbish.

168

00:18:33,000 --> 00:18:38,000

It is interesting that it's a way to get a very very frosty royal look,

169

00:18:38,000 --> 00:18:44,000

as if you mention this monster and any story about it in the presence of the Queen Mother or any of her immediate family.

170

00:18:44,000 --> 00:18:48,000

They've never actually commented on the story on the record.

171

00:18:49,000 --> 00:19:01,000

But when the Queen Mother's biographer James Wentworth Day went to interview Countess Granville, the Queen Mother's sister, in 1967, shortly before her death,

172

00:19:01,000 --> 00:19:07,000

she simply turned around and said that she was never allowed to discuss this.

173

00:19:07,000 --> 00:19:12,000

And her father and grandfather had point blankly banned them from discussing it.

174

00:19:12,000 --> 00:19:24,000

If a society is strongly believing that curse can affect you, then it must by its very nature affect.

175

00:19:24,000 --> 00:19:27,000

You can't escape it, you give in.

176

00:19:27,000 --> 00:19:30,000

Will the curse ever end for the royal family?

177

00:19:30,000 --> 00:19:37,000

Or are they destined to eternal tragedy because of the murderous act of one of the Queen Mother's misguided ancestors?

178

00:19:38,000 --> 00:19:43,000

Some historians suggest yet another possible reason for the royal curse.

179

00:19:43,000 --> 00:19:51,000

At Glom's Castle in 1537, Lady Glom's, the beautiful widow of the 6th Earl, was accused of being a witch.

180

00:19:51,000 --> 00:19:58,000

She was burned alive, and ever since her death, strange supernatural phenomena have plagued the castle.

181

00:19:58,000 --> 00:20:04,000

Coming up next, does the cousin of the Loch Ness monster lurk in the depths of Lake Champlain?

182

00:20:04,000 --> 00:20:09,000

Swings his entire body around and lifts his neck and head out of the water entirely.

183

00:20:09,000 --> 00:20:14,000

On a recent special edition of sightings, we reported on Operation Deep Scan,

184

00:20:14,000 --> 00:20:19,000

the latest scientific search for proof of the existence of the Loch Ness monster.

185

00:20:19,000 --> 00:20:28,000

Now an update on the findings of Operation Deep Scan and information about a lake monster sighted right here in the United States.

186

00:20:28,000 --> 00:20:36,000

Operation Deep Scan, the most comprehensive and sophisticated search of Loch Ness to date, did come up with an important new sighting.

187

00:20:36,000 --> 00:20:43,000

Using sonar, an unexplained creature of large proportions was tracked through the murky lake for more than two miles.

188

00:20:43,000 --> 00:20:49,000

Sightings of a similar nature have also occurred in Lake Champlain, along the New York-Vermont border.

189

00:20:49,000 --> 00:20:57,000

Recently, increased attention has been focused on the lake after three separate eyewitnesses captured video of what they believe is Champ.

190

00:20:57,000 --> 00:20:59,000

The Loch Ness Monster's American cousin.

191

00:20:59,000 --> 00:21:05,000

It was a huge black man, it was just a monster. It was scary, it was that big.

192

00:21:05,000 --> 00:21:15,000

Up came the neck and the head, literally like my hand is doing. It turned and it looked at me and it turned and it went right back down into the water.

193

00:21:15,000 --> 00:21:21,000

He swings his neck around and lifts his tail up, swings his entire body around and lifts his neck and head out of the water entirely.

194

00:21:21,000 --> 00:21:25,000

He does a loop and you know, hold big arch like this and the water and tives back in.

195

00:21:25,000 --> 00:21:29,000

Our sightings investigative team is currently monitoring Lake Champlain.

196
