

1

00:00:00,000 --> 00:00:04,880

Controversial subjects. The theories expressed are not the only possible interpretation.

2

00:00:04,880 --> 00:00:08,400

The viewers invited to make a judgment based on all available information.

3

00:00:09,360 --> 00:00:14,640

Tonight on Cytics, a psychic shocks police with visions that lead them to the body of a slain child.

4

00:00:14,640 --> 00:00:17,760

After five minutes with her, she had a hundred percent of my attention.

5

00:00:17,760 --> 00:00:23,120

Now can she find the murderer? Then, starting videotape evidence may prove a monster lurks

6

00:00:23,120 --> 00:00:28,560

in Lake Champlain. We took the camp quarter out and then champed. Or several champs. We're back again.

7

00:01:00,080 --> 00:01:06,000

Welcome to Cytics. I'm Tim White. Many psychic detectives claim a high success rate in solving

8

00:01:06,000 --> 00:01:10,880

crimes. There are now a number of cases where police can actually admit that they've been helped

9

00:01:10,880 --> 00:01:17,600

by a psychic. One such case occurred in 1979 when psychic detective Kathleen Ray helped police

10

00:01:17,600 --> 00:01:21,760

find the body of a little girl who'd been murdered. The Cytics has asked Kathleen Ray to return to

11

00:01:21,760 --> 00:01:25,120

the scene of the crime to see if she can now identify the murderer.

12

00:01:32,720 --> 00:01:38,320

Fresno, in the heart of California's fertile central valley. It's a place where you can still

13

00:01:38,320 --> 00:01:46,000

find tranquil family farms. But it's also a place where tragedy has struck. On February 3rd, 1979,

14

00:01:46,000 --> 00:01:51,680

eight-year-old Victoria de Santiago, her sister Eva, and their dog all vanished.

15

00:01:51,680 --> 00:01:56,320

What really happened that day is still just speculation. The girls were last seen together

16

00:01:56,320 --> 00:02:00,080

at a neighborhood store. The counterman said that he remembers the girls coming in and he

17

00:02:00,080 --> 00:02:05,200

told them to go out because they couldn't bring the dog in. They may have been abducted outside.

18

00:02:05,200 --> 00:02:10,880

What we figured is that perhaps whoever this individual was was there in the parking lot.

19

00:02:10,960 --> 00:02:16,880

Perhaps a stranger grabbed the girl's dog and used him to lure Victoria and Eva into his car.

20

00:02:16,880 --> 00:02:22,160

One day later, three-year-old Eva was found. Victoria and her dog were still missing.

21

00:02:22,160 --> 00:02:27,920

She was a very beautiful little girl. She was always very protective of her sister. She said that

22

00:02:27,920 --> 00:02:34,960

her sister told the man to let her go and that she would stay and just to let her not

23

00:02:35,040 --> 00:02:42,800

hurt her sister and to let her go. I just always remember that. So from that I know that she was

24

00:02:45,360 --> 00:02:51,840

a very good person. The police exhausted all leads. Days then weeks passed with no new clues.

25

00:02:51,840 --> 00:03:00,160

No witnesses came forward. In my sleep I was dreaming about what can I do? What other avenues

26

00:03:00,160 --> 00:03:06,480

can I go? And it came to me in the dream. I mean I sat right up and her name was Kathleen Ray.

27

00:03:07,040 --> 00:03:12,560

Kathleen Ray is a psychic detective. She uses the powers of her mind to help law enforcement

28

00:03:12,560 --> 00:03:18,480

solve crimes. She claims she can see missing children, bodies, criminals and for the past 20

29

00:03:18,480 --> 00:03:24,480

years she's been remarkably accurate. Kathleen Ray has gained a reputation for accuracy even among

30

00:03:24,480 --> 00:03:32,720

skeptics. Intuition is something that everybody has and the intuitive sense is a sense of feeling

31

00:03:32,720 --> 00:03:37,520

but these feelings are something I've educated like you've educated your other senses to where I

32

00:03:37,520 --> 00:03:43,040

can use them more fully. Despite skepticism from the police the DeSantiago family asked

33

00:03:43,040 --> 00:03:52,320

that Kathleen helped find Victoria. When there's only a light shining out of total darkness

34

00:03:52,320 --> 00:03:55,840

you're going to walk towards that light whether it's the wrong way the right way

35

00:03:56,400 --> 00:04:03,040

it doesn't matter. It's a direction. I was told that a psychic was being brought in and I was going

36

00:04:03,040 --> 00:04:07,440

to fly to San Jose to meet this psychic and I thought I'm going to fly up there and I'm going

37

00:04:07,440 --> 00:04:12,640

to meet this lady wearing gypsy clothes. She's going to take me in this house we're going to burn

38

00:04:12,640 --> 00:04:16,800

some incense we're going to rattle some bones she's going to throw some dust around in the air and

39

00:04:16,800 --> 00:04:22,080

tell me something that's totally irrelevant to the case. I am not doing what you see in these

40

00:04:22,160 --> 00:04:27,920

great what I call horror movies. I don't suddenly grab my head and fall down and say oh they hit me

41

00:04:27,920 --> 00:04:34,640

in the head or oh this poor poor person's been stabbed. I don't do that I'm more like an objective

42

00:04:34,640 --> 00:04:41,120

bystander. The psychic part of this was just way off it didn't make sense to me how somebody 180

43

00:04:41,120 --> 00:04:45,920

miles from here is going to tell me how to find a body in my town. It's really taking feelings up

44

00:04:45,920 --> 00:04:50,320

and bringing a whole picture and holding that picture long enough just like going to a movie

45

00:04:50,320 --> 00:04:55,360

or turn on the TV on and see the picture of your face. I didn't believe it but after five minutes

46

00:04:55,360 --> 00:04:59,920

with her she told me enough stuff that she had a hundred percent of my attention I was believing in

47

00:04:59,920 --> 00:05:06,800

her. It was the beginning of an unlikely partnership the sergeant the psychic and the family. All I could

48

00:05:06,800 --> 00:05:13,360

think of asking her was you know did she did she have to go through a lot of pain. I felt that

49

00:05:13,760 --> 00:05:21,600

Victoria at this point was still barely alive just barely. The family hoped that they weren't too

50

00:05:21,600 --> 00:05:27,280

late that Victoria was still alive and Catalan could lead them to her. She told me the road she

51

00:05:27,280 --> 00:05:32,480

was on was not a well-traveled road. I saw this plowed field I knew the field had just been plowed.

52

00:05:32,480 --> 00:05:36,560

They said she's laying parallel to the road I feel she's laying parallel to the road with her face

53

00:05:36,640 --> 00:05:44,400

towards the road. I'll see the bushes the trees the poultry farm. Kay said that when I found the

54

00:05:44,400 --> 00:05:48,320

body there would be chickens she said I get chickens around the body chickens chickens chickens.

55

00:05:48,320 --> 00:05:54,560

There has to be a farmer whose name starts with an S there has to be a street that starts with an L

56

00:05:55,200 --> 00:06:00,560

there has to be a windmill. After my interview with Kay as I was walking out the door and I'll

57

00:06:00,560 --> 00:06:05,840

never forget this she stopped me she grabbed my arm and she said Tim find the dog and you'll find

58

00:06:05,840 --> 00:06:12,000

Victoria. Back in Fresno pursuing conventional leads Sergeant McFadden's partner Detective

59

00:06:12,000 --> 00:06:17,760

Popejoy found the dog. Detective Popejoy was at the house where the dog was found he verified it

60

00:06:17,760 --> 00:06:22,400

was the dog so I asked Detective Popejoy I said well are there chickens out there. So I asked the

61

00:06:22,400 --> 00:06:28,320

rancher the farmer and I said is there a poultry ranch here. He said yes just south of here about

62

00:06:28,320 --> 00:06:32,800

a quarter of a mile there's a abandoned poultry ranch. Detective Popejoy he came he got the

63

00:06:32,800 --> 00:06:37,600

call on the dog and he came out here and talked to the farmer that found the dog and he found it

64

00:06:37,600 --> 00:06:41,520

down here a little ways and brought it back to this house and when I was talking to him on the

65

00:06:41,520 --> 00:06:46,400

phone he said there wasn't a windmill. It was a situation that I'll never forget as long as I live

66

00:06:46,400 --> 00:06:54,000

was him on the phone to me and we are talking about this windmill and I'm telling him there's no

67

00:06:54,000 --> 00:06:58,800

windmill here and the man the landowner standing behind me said oh yeah you just walked by one

68

00:06:58,800 --> 00:07:04,240

it's in the front yard. As I'm telling him things that should be there and he's confirming these back

69

00:07:04,240 --> 00:07:10,240

to me that Kay said would be there I'm getting higher and higher and wow wow we are this gal is

70

00:07:10,240 --> 00:07:14,480

this gal does know what she's talking about. We immediately called for officers to respond

71

00:07:15,200 --> 00:07:24,640

and it was from him telling me what she saw 145 miles away. The police dispatched a search team

72

00:07:24,640 --> 00:07:32,240

that had been briefed on Kathlyn's psychic visions. The L they were on Leonard Street. The S it was on

73

00:07:32,240 --> 00:07:39,200

the mailbox the first letter of the farmer's last name and by the side of the road they found Victoria.

74

00:07:39,200 --> 00:07:44,720

Her naked body was in an irrigation ditch under the largest tree in the area all as Kathlyn had

75

00:07:44,720 --> 00:07:50,880

described. Victoria had been sexually assaulted then left to die. She had been killed like an animal

76

00:07:51,520 --> 00:07:57,360

and she was still alive in a coma suffering right there in the in the little trench

77

00:07:58,880 --> 00:08:05,120

and Kathlyn Ray found that as she described it to the team. After the body was discovered Kathlyn

78

00:08:05,120 --> 00:08:10,960

returned to her home in San Jose and the police continued to search for Victoria's killer but

79

00:08:10,960 --> 00:08:17,200

13 years later the murderer is still at large. Sightings has brought Kathlyn Ray back to Fresno

80

00:08:17,200 --> 00:08:21,840

back to the place where Victoria's body was found to get new psychic impressions.

81

00:08:22,880 --> 00:08:29,360

When I go to the man that did this he has stubby hands and their hands are by labor. I don't feel

82

00:08:29,360 --> 00:08:34,720

like he's here anymore. I want to go further south to a town start with an S and that he's working

83

00:08:34,720 --> 00:08:42,000

down there now. This man is not very tall I would say oh maybe five foot nine. I feel this man has

84

00:08:42,000 --> 00:08:47,920

killed another child since then. There is a wife or a girlfriend he goes back to at times and I feel

85

00:08:47,920 --> 00:08:52,080

like it's probably a wife and he's not with her all the time and she's frightened of him. I know she

86

00:08:52,080 --> 00:08:57,680

knows he's violent he's a he can be a very violent person and had we had a drawing of him like he

87

00:08:57,680 --> 00:09:03,920

can do now with the police artist she'd recognize him on television. If you believe Kathlyn Ray

88

00:09:03,920 --> 00:09:10,160

this is a charcoal drawing of Victoria to Santiago's murderer. He killed Victoria and Kathlyn believes

89

00:09:10,160 --> 00:09:16,080

another child since then and he's still out there. I believe there's it could be solved.

90

00:09:16,880 --> 00:09:23,200

Somebody out there somebody somewhere has got to know more about this but they've never come forward.

91

00:09:23,200 --> 00:09:29,920

Although Kathlyn's work in this case proved to be extremely accurate cases like this are the exception

92

00:09:29,920 --> 00:09:35,360

not the rule and the use of psychics in police investigations is still not accepted by many

93

00:09:35,360 --> 00:09:40,000

departments around the country. Kathlyn Ray's case was one of those cases and the hits were so

94

00:09:40,000 --> 00:09:47,280

specific and the data checked out all the way down the line from the reporters to the psyches

95

00:09:47,280 --> 00:09:57,040

themselves to the families of the victims to the police. It was rather unnerving. But for the

96

00:09:57,040 --> 00:10:02,800

DeSantiago family a psychic detective made a difference. The discovery of their daughter 13

97

00:10:02,800 --> 00:10:11,440

years ago has brought the family a small measure of peace. Thank you God. Thank you for finding

98

00:10:12,320 --> 00:10:19,520

Toria's body. Thank you for giving me Kathlyn Ray. And now they hope her vision of the killer

99

00:10:19,520 --> 00:10:27,200

will bring the case to a close. My only release of mental anguish is to say something positive.

100

00:10:27,920 --> 00:10:34,880

Warn people. Look at they're not just going to steal your car. They're going to steal your child.

101

00:10:36,400 --> 00:10:42,480

Is this the face of a murderer? Kathlyn Ray sees him in her mind's eye when she thinks of

102

00:10:42,480 --> 00:10:49,120

Victoria. If you have additional information about this crime please contact the Fresno Police Department.

103

00:10:50,480 --> 00:10:56,240

Despite the good work of psychic detectives like Kathlyn Ray there are unscrupulous people posing

104

00:10:56,240 --> 00:11:02,400

as psychics who prey at unsuspecting families. How do you protect yourself? Well experts suggest

105

00:11:02,400 --> 00:11:08,240

that you follow all recommendations of the police and if you do contact psychics thoroughly check

106

00:11:08,240 --> 00:11:14,000

out their references. Make sure they don't have criminal records and never give them money up front.

107

00:11:26,960 --> 00:11:32,800

Recently sightings half a world apart have renewed interest in the possibility that lake monsters

108

00:11:32,800 --> 00:11:38,480

are real. At Loch Ness in Scotland Operation Deep Scan tracked a large creature through the

109

00:11:38,480 --> 00:11:44,880

water for more than two miles. At Lake Champlain in New York State a sightings crew has been monitoring

110

00:11:44,880 --> 00:11:52,240

strange lake activity reported by dozens of credible eyewitnesses. It's hard to imagine

111

00:11:52,240 --> 00:11:57,600

but the natural serenity of Lake Champlain is being disturbed. Disturbed by a monster

112

00:11:57,600 --> 00:12:02,960

reportedly lurking just below the surface of the lake. Sightings of a long serpent-like creature

113

00:12:02,960 --> 00:12:10,080

have been reported for nearly 300 years. A pioneers powder horn dated September 29th 1700

114

00:12:10,080 --> 00:12:15,040

bears the earliest recorded image of the Lake Champlain monster. Sightings have continued to the

115

00:12:15,040 --> 00:12:20,640

present day but aren't often discussed in public. Probably 99% of the people have seen it but they

116

00:12:20,640 --> 00:12:25,920

won't talk about it because you do get some ridicule. Lake Champlain is located on the border

117

00:12:25,920 --> 00:12:31,680

between New York and Vermont extending northward into Quebec province in Canada. The locals have

118

00:12:31,680 --> 00:12:37,600

affectionately dubbed the monster champ but there is surprisingly little publicity or commercialism

119

00:12:37,600 --> 00:12:43,200

associated with this sea serpent. Only now in the wake of new scientific information about the

120

00:12:43,200 --> 00:12:48,000

Loch Ness monster have eyewitnesses felt that they won't be ridiculed for coming forward.

121

00:12:48,960 --> 00:12:52,720

You could see underneath the water it was huge black matter it was just

122

00:12:53,680 --> 00:13:00,000

monster it was scary it was it was that big it was you could see it had a definite body

123

00:13:00,000 --> 00:13:05,120

shape to a body then you could see it definitely had a neck and a head then all of a sudden up

124

00:13:05,120 --> 00:13:10,560

out of this water came this big black thing I mean it was huge black and shiny and then it went

125

00:13:10,560 --> 00:13:14,400

away there wasn't a ripple or anything and I got the pictures of it just going under the water

126

00:13:14,400 --> 00:13:21,760

and you can see the little bumps two bumps I started as a disbeliever I went right on past

127

00:13:21,760 --> 00:13:28,880

being a believer into a knower it's four of us were out on the boat looking just taking an evening

128

00:13:28,880 --> 00:13:36,400

sail and it was at that point with no expectations of anything that we began to see some very strange

129

00:13:36,400 --> 00:13:43,200

things going on up came the neck and they had literally like my hand is doing it turned and

130

00:13:43,200 --> 00:13:49,520

it looked at me and it turned and it went right back down into the water we took the camp quarter

131

00:13:49,520 --> 00:13:56,640

out and then in fact champs or several champs were back again I started screaming in fear I found

132

00:13:56,640 --> 00:14:02,320

myself climbing on the canvas top of my bow which I know doesn't hold me that's how how scared I was

133

00:14:02,320 --> 00:14:09,200

at this point my wife and daughter spot one of the creatures out in the distance and I zoom in on it

134

00:14:09,200 --> 00:14:14,560

so that you can see it and there's you can see one of the humps sticking up out of the water

135

00:14:14,560 --> 00:14:21,520

there's two two in the middle is four one of the left out front is five in a row and now

136

00:14:21,520 --> 00:14:28,080

what we spot out there is some fins or flippers and you can see them flipping back and forth on the water

137

00:14:29,280 --> 00:14:34,000

I was in the canoe heading to the boat my daughter saw him she said dad there's something out there

138

00:14:34,000 --> 00:14:38,320

and I looked and there was champ you know this neck and head out of the water moving towards

139

00:14:38,320 --> 00:14:44,320

scott bonnet you see a creature with a long neck and it looks like a volkswagen's body when it when

140

00:14:44,320 --> 00:14:49,440

you first see it in the video it's floating across the water and then it stops and you and it starts

141

00:14:49,440 --> 00:14:54,880

thrashing in the water and you see a neck and head and then he swings his neck around and lifts his

142

00:14:54,880 --> 00:14:59,280

tail up his swings his entire body around and lifts his neck and head out of the water entirely

143

00:15:01,600 --> 00:15:06,800

my wife and I were on our way to a picnic and on the way I decided to pull over at a lookout point

144

00:15:07,040 --> 00:15:14,720

just to take some scenic view I noticed something out out in the distance about half mile out

145

00:15:16,480 --> 00:15:21,200

at first I thought it was a large tree stump it wasn't bobbing it was moving

146

00:15:21,200 --> 00:15:27,440

deliberately and all of a sudden I saw it like bend over snake like and dive into the water

147

00:15:28,000 --> 00:15:32,560

considering the varying locations of the sightings and the diversity of the witnesses

148

00:15:32,560 --> 00:15:39,440

among them a teacher a therapist a restaurant owner an engineer a corrections officer the

149

00:15:39,440 --> 00:15:45,600

possibility of a massive hoax is highly unlikely certainly residents here are not trying to cash

150

00:15:45,600 --> 00:15:51,600

in on the lake monsters notoriety there are no souvenir shops no public references to the creatures

151

00:15:51,600 --> 00:15:58,000

cited here champ quest is one notable research organization operating on the lake headed by

152

00:15:58,000 --> 00:16:06,080

denitz hall and his partner richard duel the sole purpose is to collect definitive evidence to

153

00:16:06,080 --> 00:16:11,440

prove the existence of the creatures we are already convinced that they are real we have to present

154

00:16:11,440 --> 00:16:17,760

this to the scientific community there are some very big specimens seen in the lake eyewitness

155

00:16:17,760 --> 00:16:24,880

descriptions the average size is 20 to 30 feet but there have been sightings where it was seen

156

00:16:24,880 --> 00:16:31,600

much larger there was a sighting this year on august 1st on the next point down a place called

157

00:16:31,600 --> 00:16:39,360

texaco beach and what we should do is look for some high mounds there may be a feeding area around here

158

00:16:40,880 --> 00:16:45,760

there's one right about here you're looking about 30 feet of water yeah i think you could

159

00:16:45,760 --> 00:16:51,040

make a dive today no problem let's go see if he's home all right a lot of people believe that there

160

00:16:51,120 --> 00:16:56,560

is one wretched creature that's been in the lake for a millennia and that's really absurd there would

161

00:16:56,560 --> 00:17:03,680

have to be a breeding colony to subsist this long despite numerous documented sightings few

162

00:17:03,680 --> 00:17:10,240

scientists can agree on what type of creature champ is likely to be theories range from a snake like

163

00:17:10,240 --> 00:17:16,080

zoobla don thought to be extinct for the last 20 million years to another extinct reptile the

164

00:17:16,080 --> 00:17:22,800

plesiosaur there's no geological evidence that the plesiosaws or anything like that survived

165

00:17:23,360 --> 00:17:28,640

beyond the crititious extinction 60 million years ago on the other hand the sealer canth was only

166

00:17:28,640 --> 00:17:35,040

discovered in in the in the late 1930s that fish and that had been extinct also for over 60 million

167

00:17:35,040 --> 00:17:43,040

years if it is a plesiosaur in loch ness and lake shamblain why would these creatures survive when

168

00:17:43,040 --> 00:17:49,920

so many others from those areas were extinct crocodile survived and they can get up to 20 feet or more

169

00:17:51,440 --> 00:17:58,240

various groups survived it's possible that in certain areas that that some species may have

170

00:17:58,240 --> 00:18:02,800

survived the extinction especially when we don't even we're not really certain as to what caused

171

00:18:02,800 --> 00:18:08,480

the extinction loch ness and lake shamblain are very similar geologically the deep glacial lakes

172

00:18:09,280 --> 00:18:15,280

that were at one time arms of the sea so one could say there were marine animals living in these

173

00:18:15,280 --> 00:18:21,280

open lakes and as the land grows they could have been sort of isolated and it's the same geology

174

00:18:21,280 --> 00:18:26,960

in both lakes one of the most compelling pieces of evidence supporting the plesiosaur theory

175

00:18:26,960 --> 00:18:33,440

is this recently discovered 1938 photograph of a bizarre carcass removed from a whale's stomach

176

00:18:34,080 --> 00:18:40,560

some experts have speculated that this could be the skeleton of a baby plesiosaur consumed at sea

177

00:18:40,560 --> 00:18:46,640

suggesting the plesiosaur like the sila canth may not really be extinct there may be all kinds of

178

00:18:46,640 --> 00:18:52,240

things there that we don't know about the thing about it is i think you have to keep an open mind

179

00:18:52,240 --> 00:18:59,440

and and see what what else comes up do monsters really exist or can these pictures be explained

180

00:18:59,440 --> 00:19:05,840

by existing natural phenomena like otters feeding fish or fallen logs eyewitnesses believe hold

181

00:19:05,840 --> 00:19:10,480

heartedly in the existence of champ but until indisputable evidence is brought to the scientific

182

00:19:10,480 --> 00:19:16,880

community the monster of lake shamblain will remain a mystery coming up next with the tragic

183

00:19:16,880 --> 00:19:22,400

fire at windsor castle has the british family's royal curse struck again the queen speaks out

184

00:19:22,480 --> 00:19:24,000

in a special update next

185

00:19:29,920 --> 00:19:36,080

recently on sightings we investigated a supposed curse placed on britain's royal family the curse

186

00:19:36,080 --> 00:19:41,200

dates back to the early 17th century when members of the aglabee clan in scotland were believed to

187

00:19:41,200 --> 00:19:47,600

have cast a spell on the queen mother's family and all her descendants the queen mother's ancestor

188

00:19:47,600 --> 00:19:52,720

the lord of gloms is rumored to have murdered several members of the aglabee family leading to

189

00:19:52,720 --> 00:19:59,920

a curse and perhaps centuries of doom and misfortune the story says that what he did was to give them

190

00:19:59,920 --> 00:20:06,800

shelter in a small room but then he closed them in and eventually that room was walled up and because

191

00:20:06,800 --> 00:20:13,840

they died a terrible death in recent weeks speculation about a royal curse has been increasing

192

00:20:13,840 --> 00:20:19,040

in great britain especially in light of a string of tragedies that have befallen the royal family

193

00:20:19,040 --> 00:20:23,600

prince charles and princess diana have now publicly admitted that their marriage has failed

194

00:20:23,600 --> 00:20:29,760

and shortly after the news of charles and diana's impending separation another tragic blow the royal

195

00:20:29,760 --> 00:20:36,240

family's ancestral residence windsor castle went up in flames the damage was extensive and increased

196

00:20:36,240 --> 00:20:41,360

pressure has been placed on the royal family to assume some of the financial burden for reconstruction

197

00:20:41,360 --> 00:20:47,600

of the castle has the right honorable gentleman ruled out contributions from the royal family

198

00:20:48,240 --> 00:20:54,000

and would he welcome such a contribution if it were offered even queen elizabeth has come forward

199

00:20:54,000 --> 00:20:59,040

to address her country's concerns in a rare display of emotion the queen publicly admitted

200

00:20:59,040 --> 00:21:06,000

that the royal family's problems are having a traumatic effect on the monarchy 1992 is not a

201

00:21:06,000 --> 00:21:15,760

year on which i shall look back with undiluted pleasure the words of one of my more sympathetic

202

00:21:15,760 --> 00:21:24,800

correspondence it has turned out to be an anus horribilis if the royal family is being plagued

203

00:21:24,800 --> 00:21:30,560

by a centuries old curse then it has come dangerously close to fulfilling its evil intent

204

00:21:30,560 --> 00:21:35,840

it was a curse after all that some say was meant to destroy the house of windsor and ultimately

205

00:21:35,840 --> 00:21:41,840

bring down the last great monarchy on earth will keep you updated in future editions of sightings
