

1

00:00:00,000 --> 00:00:08,280

Minister alien force is mutilating America's livestock the sex organs have been removed from the animals and all without blood the UFO special next

2

00:00:30,000 --> 00:00:58,000

Welcome to sightings I'm Tim White tonight UFO experts who conduct serious research have a whole vocabulary to describe their formative science one term you may not be familiar with is flap a flap occurs when UFOs appear in waves over specific area for specific period of time

3

00:00:58,000 --> 00:01:13,000

the appearance of flaps has sinister overtones for ufologists to believe these recurring sightings have a secret and perhaps deadly agenda all around the globe there are certain places that seem to act as natural UFO magnets

4

00:01:13,000 --> 00:01:33,000

these areas are attracting flaps or waves of UFOs that may last for years there are hotspots in Russia Europe and in South America the heavily populated city of Sao Paulo has had hundreds of sightings by thousands of people these flaps have prompted researchers to try to find a common pattern or motive

5

00:01:33,000 --> 00:01:46,000

anybody who studies this soon becomes almost desperate to understand the pattern or to impose some purpose on the phenomenon

6

00:01:46,000 --> 00:02:03,000

in the United States sightings are widespread and occur almost nightly America's number one hotspot is Gulf Breeze Florida Ralph Fuller's sighting in 1988 was among thousands of others but Ralph was the first to capture a UFO on tape

7

00:02:16,000 --> 00:02:41,000

they seem to spawn one another the two went to three and four and ultimately over a matter of maybe a couple of minutes time there were ten of these lights out over the Gulf and they seem to be in some semblance of a formation but still no

8

00:02:41,000 --> 00:03:00,000

there was no movement whatsoever no noise no sound nothing of that sort you see nothing but the Gulf of Mexico the nearest point of land would be the Yucatan Peninsula and there were no boats or anything of that type in the area either

9

00:03:00,000 --> 00:03:16,000

these are sky watchers amateur UFO enthusiasts in the Gulf Breeze area who go out almost every night of the week with cameras and binoculars in search of UFOs

10

00:03:16,000 --> 00:03:41,000

what makes a good sky watching area for one is a good field of view that is being able to have an unobstructed view of the skyline and ideally you'd like to be away from city lights but that's not always possible so we go out in the evening and take our chances and you may have a relaxing evening out under the stars and then you may be blessed with a sighting we just never know

11

00:03:41,000 --> 00:03:57,000

we've seen amber colored lights eight lights in a perfect circle gliding and performing maneuvers in the sky we've seen rows of lights suggesting lights perhaps around the periphery of a craft

12

00:03:57,000 --> 00:04:19,000

there are UFO hotspots all over the country Gulf Breeze certainly but also here in New York State near a little town called Pine Bush and the hotspots here near Pine Bush according to one scientist have a very special meaning

13

00:04:20,000 --> 00:04:32,000

Bruce Cornette is a geologist who lives near Pine Bush New York after numerous significant sightings of UFOs near his home he began studying the area with an electromagnetometer

14

00:04:32,000 --> 00:04:47,000

what I found is that these magnetic anomalies are in specific patterns and all of the UFO activity the landings the sightings where they are taking off in landing when we've been able to identify specific areas are associated with these magnetic anomalies

15

00:04:47,000 --> 00:04:53,000

are you suggesting that nature created homing devices deep in the ground

16

00:04:53,000 --> 00:05:05,000

no I think that it's a reverse if we are dealing with an alien culture and they are doing something underground they're using the natural magnetic anomalies to disguise their own magnetic signals

17

00:05:05,000 --> 00:05:10,000

are you saying there are or could be aliens in the earth

18

00:05:10,000 --> 00:05:15,000

I'm not saying it's certain it is definitely possible based on what I've seen

19

00:05:15,000 --> 00:05:17,000

do you realize how that sounds

20

00:05:17,000 --> 00:05:34,000

I don't like the idea just simply because it is so outrageous then I would have to also add some of the photographic data that I have that shows at least in one particular case a UFO going up at a 7 degree dive right down into the ground what appears to be

21

00:05:35,000 --> 00:05:50,000

Ellen Crystal has been investigating the Pine Bush Flap since the early 1980s in her book Silent Invasion she documents hundreds of UFO encounters in the area working independently her findings seem to coincide with those of Bruce Cornette

22

00:05:50,000 --> 00:05:58,000

these ships kept coming back to the same fields night after night after night the same places in the woods

23

00:05:58,000 --> 00:06:13,000

also we had experiences where we clearly heard somebody drilling in the woods at night and this is private property it seems that there's something being constructed underground such as an artificial installation of some type

24

00:06:13,000 --> 00:06:22,000

one of the most well documented sightings in history occurred in Pine Bush on August 6th 1992

25

00:06:22,000 --> 00:06:39,000

we think in excess of a thousand people may have seen two, three ships or four ships where I took video and all the police departments across the whole lower New York State area was simply inundated with just hundreds and hundreds of calls

26

00:06:39,000 --> 00:06:52,000

we looked over top of the trees and it was this object there out of nowhere this great big option it was about 300 foot wide the size of a football field hanging over your head and about 300 foot off the ground

27

00:06:52,000 --> 00:07:02,000

we looked at our clocks and we had three battery running clocks two in the kitchen and one in the living room and for some strange reason all three clocks were stopped at the same time

28

00:07:03,000 --> 00:07:15,000

just about everyone in Pine Bush has seen a UFO in his barber shop butch hunt here's a lot of stories from eyewitnesses about strange alien encounters

29

00:07:15,000 --> 00:07:25,000

about 60% of the people around here I think have seen something and some talk about it and some don't they're just afraid to talk about it

30

00:07:25,000 --> 00:07:34,000

afraid of ridicule and intimidation the one that we saw was over a red mill's bridge and there were six of us in the car

31

00:07:34,000 --> 00:07:45,000

but it just so so nice it just glided right over the trees and we just got out and stood there just guacked at it and nobody said a word

32

00:07:45,000 --> 00:07:52,000

but the whole episode was probably 30 seconds but it was huge it was bigger than the bridge

33

00:07:52,000 --> 00:07:59,000

UFOs are cited by all kinds of people including the most credible professionals that you can find

34

00:07:59,000 --> 00:08:08,000

in addition when we have multiple witnesses we can all tell the same story then we can say well that's probably a pretty good report

35

00:08:08,000 --> 00:08:21,000

if we have enough detail in a given report that we can rule out all of the normal explanations it's not the planet Venus it's not the aurora borealis or a meteor

36

00:08:21,000 --> 00:08:32,000

it's not an aircraft that we can name then we are talking something very incredible

37

00:08:32,000 --> 00:08:41,000

no one disputes that there have been unidentified flying objects cited around the world where ufologists and skeptics differ is in how they interpret these sightings

38

00:08:41,000 --> 00:08:50,000

some skeptics believe that all UFOs are really conventional aircraft while others see a deliberate hoax but just how common are UFO hoaxes

39

00:08:50,000 --> 00:08:53,000

and how do the experts weed them out?

40

00:08:53,000 --> 00:08:59,000

each year there are more than 10,000 UFO sightings reported in the United States alone

41

00:08:59,000 --> 00:09:09,000

many of those sightings are documented on film or videotape but how many of these sightings are genuine unidentified and unexplainable flying objects

42

00:09:09,000 --> 00:09:14,000

sightings has received hundreds of photographs films and tapes of supposed UFOs

43

00:09:14,000 --> 00:09:20,000

the experts we use to analyze these reports are very careful in determining what they consider to be credible

44

00:09:20,000 --> 00:09:31,000

UFO photographs that are hoaxed are hard to do when there are hoaxes we can find them

45

00:09:31,000 --> 00:09:39,000

with the use of sophisticated equipment expert UFO analysts try to methodically separate fact from fantasy

46

00:09:39,000 --> 00:09:44,000

genuine UFO from obvious hoax

47

00:09:44,000 --> 00:09:50,000

there's some basic techniques that are used to hoax UFO pictures

48

00:09:50,000 --> 00:09:58,000

overlays, pace-up, small models, optical technology, electronic technology

49

00:09:58,000 --> 00:10:03,000

in fact the library is full of techniques on special effects

50

00:10:03,000 --> 00:10:09,000

many videotaped images appear genuine but careful analysis and scrutiny often prove otherwise

51

00:10:09,000 --> 00:10:13,000

this tape received by sightings was analyzed by Dillatoso

52

00:10:13,000 --> 00:10:20,000

this is a good example of a very well done well executed hoax of a UFO

53

00:10:20,000 --> 00:10:31,000

you'll notice here on the edges that the edge here, this edge, this one, this one are all the same number of pixels

54

00:10:31,000 --> 00:10:39,000

when they are very similar as they are in this picture it indicates that it's a small object close to the camera

55

00:10:39,000 --> 00:10:43,000

point of the story this is a model

56

00:10:43,000 --> 00:10:51,000

first of all there are all potential hoaxes to begin with so if the picture looks too good it probably was staged

57

00:10:51,000 --> 00:10:56,000

now that cameras are in the hands of the general public and most everyone has one

58

00:10:56,000 --> 00:11:01,000

we are finding that there is an increase in the availability of videos of UFOs

59

00:11:01,000 --> 00:11:09,000

you can't just say oh this is a hoax as a scientist it's your obligation to finish the question and the answer

60

00:11:09,000 --> 00:11:12,000

if it is a hoax how did they do it?

61

00:11:12,000 --> 00:11:17,000

when I first got into this I used to think that there was considerable hoaxing

62

00:11:17,000 --> 00:11:23,000

but over the years I've discovered that there's a whole lot less hoaxing than we assumed

63

00:11:23,000 --> 00:11:26,000

and that the situation is probably reversed

64

00:11:26,000 --> 00:11:32,000

maybe 20% are deliberate hoaxes perpetrated by somebody for some purpose of his own

65

00:11:32,000 --> 00:11:38,000

and maybe 30% are misperceptions and the rest seem to be real unknowns to me

66

00:11:38,000 --> 00:11:45,000

we have to thank the people that do hoaxes because they help us understand the other side too

67

00:11:45,000 --> 00:11:50,000

and what purposes there may be in real UFOs coming here

68

00:11:50,000 --> 00:11:55,000

it's a tremendous mystery we're trying to solve

69

00:11:55,000 --> 00:12:03,000

despite careful analysis and overwhelming evidence there are some people who refuse to believe in the existence of any space encounters

70

00:12:03,000 --> 00:12:11,000

case in point there are still people who are dedicated to proving that Neil Armstrong's moon landing in 1969 was a hoax

71

00:12:11,000 --> 00:12:14,000

stage they say by Hollywood

72

00:12:14,000 --> 00:12:18,000

coming up what sinister alien forces mutilating America's livestock

73

00:12:18,000 --> 00:12:21,000

sex organs have been removed from the animals and all without blood

74

00:12:21,000 --> 00:12:24,000

our exclusive UFO report continues next

75

00:12:24,000 --> 00:12:30,000

UFOs reports of abduction and close encounters are not the only potential evidence of alien visitation

76

00:12:30,000 --> 00:12:37,000

ufologists believe the Nazca lines of Peru and crop circles are also forms of UFO communication

77

00:12:37,000 --> 00:12:46,000

now after more than 20 years of study some experts believe further proof of extraterrestrials on earth can be found in the bizarre deaths of cattle

78

00:12:46,000 --> 00:13:02,000

the cut on her jaw bone was just real real sharp to sasko

79

00:13:02,000 --> 00:13:06,000

a large incision removing its sex organs

80

00:13:06,000 --> 00:13:09,000

rectum had been cut out, tail cut off

81

00:13:09,000 --> 00:13:14,000

her milk sack had been cut out on the left side and on the oval

82

00:13:14,000 --> 00:13:21,000

it's a mystery that remains unexplained after 30 years of investigation

83

00:13:21,000 --> 00:13:24,000

some claim alien forces are responsible

84

00:13:24,000 --> 00:13:28,000

others claim cult activity or secret government testing

85

00:13:28,000 --> 00:13:30,000

cattle mutilation

86

00:13:30,000 --> 00:13:35,000

the most recent outbreak appears to have been in a three county area of northeastern Alabama

87

00:13:35,000 --> 00:13:39,000

over 50 cases of mutilation have been reported in just the past six months

88

00:13:39,000 --> 00:13:43,000

organs appear to have been removed with surgical precision

89

00:13:43,000 --> 00:13:47,000

the farmers in the area have lost more than \$40,000 in livestock

90

00:13:47,000 --> 00:13:57,000

with such tremendous losses the police department in 5th Alabama has launched an intensive investigation

91

00:13:57,000 --> 00:14:04,000

Ted Oliphant is a 5th police officer who has personally investigated more than 30 cattle mutilation cases

92

00:14:04,000 --> 00:14:08,000

we're finding the same thing over and over again the sex organs have been removed from the animals

93

00:14:08,000 --> 00:14:12,000

the tongues have been cut out of them the jaws have been stripped into oval cleaned of the bone

94

00:14:12,000 --> 00:14:14,000

and all without blood

95

00:14:14,000 --> 00:14:20,000

who or what is responsible for the seemingly ritualistic slaughter of these cattle?

96

00:14:20,000 --> 00:14:24,000

researchers have little to go on beyond these decomposing carcasses

97

00:14:24,000 --> 00:14:27,000

and despite attempts to prove that as sinister forces at work here

98

00:14:27,000 --> 00:14:32,000

some experts believe the mutilations are all the result of natural causes

99

00:14:32,000 --> 00:14:36,000

it leads us to think maybe that animal is getting mutilated

100

00:14:36,000 --> 00:14:43,000

but what's happening is predators, vultures are also involved with that process

101

00:14:43,000 --> 00:14:47,000

the indication that predators are not responsible for these animals being cut on

102

00:14:47,000 --> 00:14:50,000

is the evidence of high heat at the excision

103

00:14:50,000 --> 00:14:55,000

evidence of high heat in excess of several hundred degrees or more according to the pathologist who studied the tissue samples

104

00:14:55,000 --> 00:14:58,000

that pathologist is Dr. John Altschuler

105

00:14:58,000 --> 00:15:02,000

he has studied suspect cattle tissue for the last four years

106

00:15:02,000 --> 00:15:09,000

and the tissue at the incisional areas is very firm and very hard and looks burned

107

00:15:09,000 --> 00:15:14,000

and the microscopic evidence clearly indicates that heat has been applied

108

00:15:14,000 --> 00:15:18,000

and predators to my knowledge cannot do that

109

00:15:18,000 --> 00:15:26,000

here we have a photomicrograph taken of a hide from an animal where we've had evidence of burning

110

00:15:26,000 --> 00:15:33,000

the arrow shows a pink color to the tissue underneath the lining of the hide

111

00:15:33,000 --> 00:15:37,000

as we move towards the cut area

112

00:15:37,000 --> 00:15:44,000

you notice the definite color change from pink down here to blue up here

113

00:15:44,000 --> 00:15:49,000

this is a very typical change of exposure of tissue to heat

114

00:15:49,000 --> 00:15:54,000

other unusual evidence has been found at some alleged mutilation sites

115

00:15:54,000 --> 00:15:58,000

a white flaky substance was recovered from one Alabama location

116

00:15:58,000 --> 00:16:01,000

officer Olyphant had it analyzed at one eastern university

117

00:16:01,000 --> 00:16:05,000

and they determined it was composed of aluminum, titanium, silicon and oxygen

118

00:16:05,000 --> 00:16:11,000

aluminum and oxygen or aluminum oxide is what's used in the styptic pencil that I use if I've cut myself after shaving

119

00:16:11,000 --> 00:16:13,000

and that stops bleeding

120

00:16:13,000 --> 00:16:17,000

perhaps that has something to do with why the animals don't have blood on them at the excision lines

121

00:16:17,000 --> 00:16:19,000

in more than half of the Alabama cases

122

00:16:19,000 --> 00:16:25,000

farmers report seen an unmarked helicopter leading the scene just before or after a cattle mutilation

123

00:16:25,000 --> 00:16:28,000

I had a chopper in behind the barn

124

00:16:28,000 --> 00:16:32,000

had all my cattle rounded up in behind the barn

125

00:16:32,000 --> 00:16:38,000

the chopper when it appeared it was kind of an orignage

126

00:16:38,000 --> 00:16:42,000

it looked like it's sitting on a box, you know

127

00:16:42,000 --> 00:16:46,000

of course it was big enough to get a cow in

128

00:16:47,000 --> 00:16:52,000

if I catch them hovering over their cattle and pasture

129

00:16:52,000 --> 00:16:55,000

I'd probably shoot, probably shoot

130

00:16:58,000 --> 00:17:02,000

loud helicopter noise, sound like it's right over the trailer

131

00:17:05,000 --> 00:17:09,000

went out the front door, went over to my car

132

00:17:09,000 --> 00:17:13,000

great time to see, pulled out a handgun

133

00:17:13,000 --> 00:17:17,000

I walked towards the edge of the trailer

134

00:17:17,000 --> 00:17:20,000

I saw the helicopter

135

00:17:20,000 --> 00:17:23,000

there's a light blue helicopter, no markings, no numbers

136

00:17:23,000 --> 00:17:26,000

I mean it was hovering about 15 foot above the tree

137

00:17:26,000 --> 00:17:29,000

I dropped my holster and the helicopter buried on

138

00:17:32,000 --> 00:17:36,000

I think the greatest mystery of this case is the lack of physical evidence that we found at the sites

139

00:17:36,000 --> 00:17:39,000

only in one case did we find that white flaky material

140

00:17:39,000 --> 00:17:43,000

we haven't been able to find footprints, we haven't been able to find tracks or wheel marks

141

00:17:43,000 --> 00:17:46,000

or anything to indicate that anybody's even been in there

142

00:17:46,000 --> 00:17:48,000

how do you explain that, we can't

143

00:17:48,000 --> 00:17:52,000

my tendency to believe is that something a lot higher intelligence than what we've got

144

00:17:52,000 --> 00:17:54,000

in normal everyday occurrence around here

145

00:17:54,000 --> 00:17:59,000

don't really have any ideas who could be doing it or the reasons behind it

146

00:17:59,000 --> 00:18:03,000

you could get most of the parts they removed from a slaughterhouse for free

147

00:18:03,000 --> 00:18:06,000

yes sir, I run a meat processing plant

148

00:18:06,000 --> 00:18:11,000

and I made a statement that I would donate them jaw bone

149

00:18:11,000 --> 00:18:14,000

the blood, their rectum and whatever

150

00:18:14,000 --> 00:18:17,000

you know if they just asked me for it

151

00:18:17,000 --> 00:18:20,000

and then they wouldn't have to kill these farmers cattle I could do

152

00:18:21,000 --> 00:18:26,000

despite the willingness of the ranchers to cooperate with authorities in a larger scale investigation

153

00:18:26,000 --> 00:18:29,000

most government officials are sticking to the predator theory

154

00:18:29,000 --> 00:18:34,000

they do not believe that high tension lines in the area are somehow related to the mutilations

155

00:18:34,000 --> 00:18:39,000

they also deny charges that the government is mutilating cattle in order to support new technology

156

00:18:39,000 --> 00:18:42,000

replacing human blood with bovine blood

157

00:18:42,000 --> 00:18:45,000

and what about the unmarked helicopters?

158

00:18:45,000 --> 00:18:48,000

do they point to the existence of a conspiracy?

159

00:18:49,000 --> 00:18:52,000

I think the helicopters are doing the same thing we're doing on the ground

160

00:18:52,000 --> 00:18:55,000

I think they're investigating who's doing this, they're trying to find out too

161

00:18:55,000 --> 00:19:00,000

and because of their behavior it's obvious that they'd rather have us think that they're doing it than what's actually happening

162

00:19:01,000 --> 00:19:05,000

whoever or whatever is responsible may never be known

163

00:19:05,000 --> 00:19:10,000

the silent testimony of these mutilation victims has not been able to resolve the mystery

164

00:19:13,000 --> 00:19:17,000

one of the most intriguing aspects of our investigation is what we didn't find

165

00:19:17,000 --> 00:19:22,000

the moment our sightings team arrived in Fife, the mutilation stopped

166

00:19:22,000 --> 00:19:26,000

did our presence scare someone or something away?

167

00:19:26,000 --> 00:19:32,000

or was it merely coincidence that our investigation coincided with an end to this bizarre phenomenon?

168

00:19:32,000 --> 00:19:35,000

coming up, can life exist in outer space?

169

00:19:35,000 --> 00:19:39,000

a bizarre growth discovered on a satellite brought back from space has scientists baffled

170

00:19:39,000 --> 00:19:42,000

in some cases it looks somewhat like a fungus or a mole

171

00:19:43,000 --> 00:19:46,000

it's a brought back priceless data from outer space

172

00:19:46,000 --> 00:19:51,000

recently one NASA satellite was retrieved after being lost in space for six years

173

00:19:51,000 --> 00:19:54,000

that satellite brought back something scientists have never seen before

174

00:19:54,000 --> 00:19:57,000

and so far, can't explain

175

00:19:57,000 --> 00:20:00,000

scientists are puzzled by the unidentified space growth

176

00:20:00,000 --> 00:20:06,000

and excited at the prospect of what may be a new life form recovered from the exterior of a satellite

177

00:20:06,000 --> 00:20:08,000

the growth is a very interesting phenomenon

178

00:20:08,000 --> 00:20:11,000

it's not exactly identified yet

179

00:20:11,000 --> 00:20:14,000

but it's still in preliminary stages at this point

180

00:20:15,000 --> 00:20:17,000

the growth appeared on an L-death

181

00:20:17,000 --> 00:20:21,000

the abbreviation for long duration exposure facility

182

00:20:21,000 --> 00:20:26,000

basically a satellite designed to expose and test materials in outer space

183

00:20:26,000 --> 00:20:35,000

it is a gradient growth that generates from an area in which the covered portion of the L-death was located at

184

00:20:35,000 --> 00:20:38,000

and as you can see specifically right in this area

185

00:20:38,000 --> 00:20:45,000

you get a very silvery looking area to a very dark brown into a brownish white kind of area

186

00:20:47,000 --> 00:20:50,000

in that area, scientists found microscopic fibers

187

00:20:50,000 --> 00:20:54,000

when they were magnified by a high powered scanning microscope

188

00:20:54,000 --> 00:20:56,000

mysterious images were revealed

189

00:20:56,000 --> 00:21:00,000

in some cases it looks somewhat like a fungus or a mole

190

00:21:00,000 --> 00:21:02,000

at least to some of us

191

00:21:03,000 --> 00:21:06,000

what came back on this satellite appears to be organic

192

00:21:06,000 --> 00:21:11,000

but some researchers believe the growth is merely the result of a battery leak on board the craft

193

00:21:11,000 --> 00:21:15,000

others point to the fibers as proof that the growth is organic

194

00:21:15,000 --> 00:21:19,000

and that strange new life forms make exist in outer space
