

1

00:00:00,000 --> 00:00:07,000

On this edition of CITINGS, it's the end really near.

2

00:00:07,000 --> 00:00:10,000

Prophets are receiving terrifying visions of the apocalypse.

3

00:00:10,000 --> 00:00:14,640

Breaking up of the United States will occur before 97.

4

00:00:14,640 --> 00:00:19,000

We anticipate about half of the population of the planet will be killed in it.

5

00:00:19,000 --> 00:00:24,920

Then, this woman's dream of her own past life brings a family together after 50 years.

6

00:00:24,920 --> 00:00:31,920

I know it's very hard for people to understand what to mean, how I'm going to come back to this.

7

00:00:31,920 --> 00:00:35,920

What's is the Canadian government hiding the truth about this photograph?

8

00:00:35,920 --> 00:00:42,920

That a large object could hover over downtown Montreal and no official response.

9

00:00:42,920 --> 00:00:44,920

That to me is fascinating.

10

00:00:44,920 --> 00:00:50,920

A psychic detective helps police search for a child's killer and a lake monster captured on tape.

11

00:00:54,920 --> 00:01:20,920

Music

12

00:01:21,920 --> 00:01:24,920

Welcome to CITINGS. I'm Tim White.

13

00:01:24,920 --> 00:01:28,920

65 million years ago, the dinosaurs were wiped off the face of the planet.

14

00:01:28,920 --> 00:01:34,920

A thousand years ago, an entire race of people, the Maya, vanished from the earth, leaving no survivors.

15

00:01:34,920 --> 00:01:37,920

But that's ancient history. Or is it?

16

00:01:37,920 --> 00:01:43,920

Many modern day prophets are warning that in the year 2000, it will be our turn to go.

17

00:01:44,920 --> 00:01:50,920

We're going to see storms of such intensity that they will break all historic records.

18

00:01:50,920 --> 00:01:57,920

The prophet said they would be so great that people would drop dead in sheer terror of what they see coming.

19

00:01:57,920 --> 00:02:05,920

Hurricane winds and rain pelt the east coast and you'll see that the east coast breaks up extensively in the prophecies.

20

00:02:05,920 --> 00:02:11,920

Washington, D.C., Philadelphia and also New York City are all under water.

21

00:02:11,920 --> 00:02:19,920

These are pretty powerful events that are going to be happening and we anticipate about half of the population of the planet will be killed in it.

22

00:02:19,920 --> 00:02:28,920

These are the dire predictions of a diverse group of prophets, biblical scholars, scientists and philosophers who have a warning.

23

00:02:28,920 --> 00:02:38,920

Whether they call it Armageddon, the apocalypse or doomsday, modern prophets want everyone on earth to prepare for cataclysmic changes they see in the near future.

24

00:02:38,920 --> 00:02:45,920

It's everywhere. It's every period of history we know anything about. Every part of the world we know anything about.

25

00:02:45,920 --> 00:02:47,920

They're talking about a global transformation.

26

00:02:47,920 --> 00:02:56,920

Ted Daniels is editor and publisher of the Millennial Prophecy Report, a newsletter that tracks the predictions of over 1,000 millennial groups.

27

00:02:56,920 --> 00:03:01,920

According to these folks, it's going to be a period of great turmoil.

28

00:03:01,920 --> 00:03:09,920

Continents are going to split apart. Volcanoes are going to erupt all at once all around the planet. Earthquakes, tidal waves, plagues.

29

00:03:09,920 --> 00:03:16,920

The basic stuff in the book of Revelation, they all agree pretty much that things are going to get a whole lot worse before they get any better.

30

00:03:16,920 --> 00:03:24,920

Some biblical scholars see the book of Revelation as a blueprint for disaster and a warning for those who do not adhere to its beliefs.

31

00:03:24,920 --> 00:03:35,920

There will continue to be a great increase in volcanic and earthquake activity. I believe that we will see major plagues breaking out in the world as well as famines increase.

32

00:03:35,920 --> 00:03:41,920

These are things that are not pleasant to think about, but the Bible predicts that this is what's going to happen.

33

00:03:41,920 --> 00:03:51,920

Author and biblical interpreter Hal Lindsey first drew international attention with the publication of his book of prophecies, *The Late Great Planet Earth*.

34

00:03:51,920 --> 00:04:03,920

And I think what *The Late Great Planet Earth* did was make the non-religious person become aware that there was a definite pattern or scenario of predicted events.

35

00:04:03,920 --> 00:04:11,920

Lindsey believes that the detonation of the first atomic bomb signaled the beginning of the end as predicted in the book of Revelation.

36

00:04:11,920 --> 00:04:19,920

A real Armageddon could now be unleashed at the push of a button, and he believes that the button is in very shaky hands.

37

00:04:19,920 --> 00:04:27,920

The prophets have indicated that we're going to see a thermonuclear war in the Middle East that will drag the whole world into it.

38

00:04:27,920 --> 00:04:37,920

This was predicted that as a matter of fact, the Bible says the last war of the world will start because of a dispute over Jerusalem. Who owns it?

39

00:04:37,920 --> 00:04:47,920

The Bible isn't the only source of apocalyptic prophecies. Impending worldwide disaster is also being predicted by scientists who seek catastrophe in the stars.

40

00:04:47,920 --> 00:04:55,920

All the visible planets and the sun and the moon and the earth will all be in a straight line on May 5th in the year 2000.

41

00:04:55,920 --> 00:05:02,920

Astronomers confirm that all nine planets in our solar system will be aligned on May 5th, the year 2000.

42

00:05:02,920 --> 00:05:11,920

Richard Kininger, a structural engineer, believes that this planetary alignment will create a gravitational pull so great the poles will shift.

43

00:05:11,920 --> 00:05:23,920

There's not a tumbling of the entire planet but a sliding of the crust relative to the core over the kind of semi-liquid magma that all the continents float on.

44

00:05:23,920 --> 00:05:33,920

The loss of life is going to be tremendous with land sinking and rising and tsunamis and great storms as a result of all of these things.

45

00:05:33,920 --> 00:05:43,920

Volcanoes will be going off that have been cohescent for thousands of years. About half of the population will probably die during those three days.

46

00:05:43,920 --> 00:05:51,920

Earth scientists reject Kininger's alignment theory but do agree that cataclysmic earth changes can occur for other reasons.

47

00:05:51,920 --> 00:05:59,920

It may very well be that we have periods of time when many volcanoes are active all at once. This could change the climatic situation on a global basis.

48

00:05:59,920 --> 00:06:05,920

Having a cluster of earthquakes simultaneously.

49

00:06:05,920 --> 00:06:09,920

In anticipation of the apocalypse he sees coming on May 5th, 2000.

50

00:06:09,920 --> 00:06:16,920

Kininger has established the community of Adelphi where he and his followers plan for their own survival.

51

00:06:16,920 --> 00:06:25,920

Our means of survival primarily is to use lighter than aircraft to get off the surface of the planet while all of these major changes are occurring.

52

00:06:25,920 --> 00:06:30,920

And this is 14 stories high. It's about 300 yards across.

53

00:06:30,920 --> 00:06:35,920

And they could carry literally a thousand passengers.

54

00:06:35,920 --> 00:06:43,920

We can have a whole fleet of them to use for commercial purposes in such time as we would need it for the airlift.

55

00:06:43,920 --> 00:06:48,920

Lori Adel Toi's prophetic messages are strikingly similar to Kininger's.

56

00:06:48,920 --> 00:06:57,920

Toi believes her visions of the end of the world were given to her by spiritual guides. She calls the Ascendant Masters.

57

00:06:57,920 --> 00:07:07,920

The prophecies start in the Pacific Northwest where Washington and Oregon are underwater leaving the Cascade Range of mountains as a series of small islands.

58

00:07:07,920 --> 00:07:16,920

The Sierra Madres become as a chain of islands and the new Seaport City of Phoenix is where the new coastline is.

59

00:07:16,920 --> 00:07:25,920

Gordon Michael Scallion, who has accurately predicted many earthquakes and volcanic eruptions in the past, agrees with Toi's vision of the future.

60

00:07:25,920 --> 00:07:39,920

The breaking up of the United States as to make islands in California and major earthquakes in Oregon, in Washington, in the Cascades and the eruption of Mount Rainier will occur before 97.

61

00:07:39,920 --> 00:07:54,920

One geological explanation for the flooding of the coastlines is the increase in sea level, the rise in sea level, perhaps due to further melting of the glaciers and ice sheets, for example, on Antarctica and Greenland.

62

00:07:54,920 --> 00:07:56,920

So that's actually quite plausible.

63

00:07:56,920 --> 00:08:15,920

The Mississippi and the Missouri rivers are now widened to almost six times to eight times their size during this time of global warming and also two years of continuous rains which were prophesied as a result of the simultaneous explosion of volcanoes in the Pacific Rim.

64

00:08:15,920 --> 00:08:23,920

Laurie Adele Toi has created a future map of the Earth based on the vision she believes have been dictated to her by the Ascended Masters.

65

00:08:23,920 --> 00:08:33,920

Gordon Michael Scallion's prophetic future map of the Earth is almost identical to Toi's, remarkable because the two have never met or shared their ideas.

66

00:08:33,920 --> 00:08:43,920

The year 2000 is going to come for everybody in the world at once, so therefore it has to have a cosmic meaning, of course. In fact, of course, it's entirely arbitrary.

67

00:08:43,920 --> 00:09:01,920

Not all cultures share the same calendar, but doomsday prophets insist we will all share the same fate. The word apocalypse comes from the Greek meaning to reveal what is hidden, and many prophets are warning that what is hidden is starting to bubble to the surface.

68

00:09:01,920 --> 00:09:16,920

Before you start shopping for beachfront property in Colorado, keep this in mind, the last time the millennium changed, similar predictions of doom were rampant throughout Europe, causing widespread panic as the year 1000 approached.

69

00:09:16,920 --> 00:09:21,920

When sightings continues, a woman's dreams reunite her with children from a past life.

70

00:09:21,920 --> 00:09:26,920

It was almost an obsessive need to find out what had happened to them.

71

00:09:26,920 --> 00:09:39,920

The belief that death is followed by rebirth in a new body, reincarnation, is shared by many people, including Hindus, Buddhists and Australian Aborigines.

72

00:09:39,920 --> 00:09:45,920

But Western Judeo-Christian religions reject the idea that our souls return in different bodies.

73

00:09:45,920 --> 00:09:54,920

So when a Catholic family in Ireland met a woman who said that she was the reincarnation of their dead mother, they rejected her completely, at first.

74

00:09:56,920 --> 00:10:04,920

This is Jenny Coquelle and her family. Jenny, her husband and their two children live in Northamptonshire, England.

75

00:10:04,920 --> 00:10:12,920

But when she was a child, Jenny was haunted by vivid, recurring dreams in which she was the mother of a different family, in a different town.

76

00:10:12,920 --> 00:10:17,920

Living in a cottage she dreamt about and drew pictures of, in minute detail.

77

00:10:17,920 --> 00:10:24,920

It was the first cottage on the left along a little lane. There was only one door, there were only a couple of windows.

78

00:10:24,920 --> 00:10:32,920

If you entered the cottage, you had to actually shut the door behind you before you could turn left or right, because it was fairly, there was a fairly tight space there.

79

00:10:32,920 --> 00:10:39,920

There was a bit of a wooden partition immediately in front. To the right you entered the bedroom, to the left you entered the living room.

80

00:10:39,920 --> 00:10:46,920

There was a large fireplace that dominated the kitchen living area.

81

00:10:46,920 --> 00:10:54,920

There were also recurring dreams about a jetty, a church, children, eight in all, who called her mama and a husband who called her Mary.

82

00:10:54,920 --> 00:10:57,920

It all seemed too real to be just a dream.

83

00:10:57,920 --> 00:11:07,920

If you dream of yourself in another time in a different body, that may be not a Freudian distortion or a symbol, but an actual past life memory fragment emerging.

84

00:11:07,920 --> 00:11:12,920

I've had people know their way around cities in Europe and they had never been there before.

85

00:11:12,920 --> 00:11:18,920

They knew the streets, where the old church was, this kind of thing. These are spontaneous memories of past lifetimes.

86

00:11:18,920 --> 00:11:25,920

In Jenny's case, her spontaneous memories were so detailed, she could actually draw roadmaps of the town in her dreams.

87

00:11:25,920 --> 00:11:39,920

I remember drawing the maps throughout childhood. I used to refine them and draw them better and I didn't want to forget, because I was determined to be able to go there one day.

88

00:11:40,920 --> 00:11:46,920

When I was given a school atlas, and I thought, if I look at this, I've got to know where it is.

89

00:11:46,920 --> 00:11:52,920

I mean, all the other stuff was fairly intuitive. And I spent some time just looking at it and thinking.

90

00:11:52,920 --> 00:11:59,920

And the whole time I was drawn back to the same place, again and again I was just drawn back to one area.

91

00:11:59,920 --> 00:12:05,920

That area was Malahide, Ireland, 300 miles away from her home in England.

92

00:12:05,920 --> 00:12:09,920

It was here that Jenny felt she had lived before, as Mary, a mother of eight.

93

00:12:09,920 --> 00:12:18,920

After years of wondering, Jenny finally visited Malahide and discovered that her childhood maps were strikingly similar to real maps of the town,

94

00:12:18,920 --> 00:12:24,920

which she also find the cottage, Jenny and church that had haunted her dreams.

95

00:12:24,920 --> 00:12:34,920

Although I had gone to Malahide expecting to find things that I had remembered, the accuracy quite shook me.

96

00:12:34,920 --> 00:12:41,920

I started out looking for the jetty. There was a tremendous sense of having been there before of remembering it,

97

00:12:41,920 --> 00:12:49,920

but it wasn't really enough. So I then walked up to Church Street and I stopped in my tracks.

98

00:12:49,920 --> 00:12:56,920

I had not really taken in how detailed the drawing I had made of this church had been.

99

00:12:56,920 --> 00:13:01,920

I did feel elated. I knew that I had got the right place. I knew that this was the village.

100

00:13:02,920 --> 00:13:10,920

But when Jenny followed her dream maps to the place where she believed the cottage would be, there was nothing there but an overgrown field.

101

00:13:10,920 --> 00:13:20,920

At first she was disappointed. A crucial piece of the puzzle didn't fit, but looking beyond the gate, she saw broken wood beams and a bit of stone and mortar.

102

00:13:20,920 --> 00:13:28,920

It seemed somehow familiar. Jenny pushed her way through the tall grass and tangled vines until she saw this.

103

00:13:28,920 --> 00:13:36,920

Immediately she felt as if she were in a waking dream in which she was married, a mother of eight, and she was home.

104

00:13:36,920 --> 00:13:47,920

The first thing I wanted to do was just burst into tears. I mean it was the first real tangible proof of something that had existed in the past that I had remembered.

105

00:13:47,920 --> 00:13:50,920

It was the first thing I could touch.

106

00:13:50,920 --> 00:13:58,920

But as Jenny explored the remnants of what she now believed was a past life, she had a vision of her own past death in childbirth.

107

00:13:58,920 --> 00:14:08,920

A sense of disorientation, the sort of true thing you get with a high fever, difficulty breathing, great difficulty breathing.

108

00:14:08,920 --> 00:14:16,920

There was considerable pain to start off with. At the point of death that seemed to vanish altogether.

109

00:14:16,920 --> 00:14:21,920

What I do remember, and have always remembered, is actually the point of leaving the body.

110

00:14:21,920 --> 00:14:30,920

The sensation that was left at that time was just of what was going to happen to the children.

111

00:14:30,920 --> 00:14:38,920

Jenny wondered if she was able to find her town, her church, and her home, could she also find her children?

112

00:14:38,920 --> 00:14:46,920

Was anyone alive who could remember that family who once lived in the cottage, and confirm the reality of her past life dreaming?

113

00:14:46,920 --> 00:15:00,920

I had a sense of responsibility for the children, and it was almost an obsessive need to find out what had happened to them, find out where they were, how they were.

114

00:15:00,920 --> 00:15:11,920

When we return, Jenny Coquel searches for proof that she's lived before, and finds an aging family that believes Jenny is the reincarnation of their long dead mother.

115

00:15:11,920 --> 00:15:13,920

Coming up next...

116

00:15:13,920 --> 00:15:16,920

I realize it's going to be a strange story to approach them with.

117

00:15:16,920 --> 00:15:19,920

Is it proof of reincarnation, or a miracle?

118

00:15:19,920 --> 00:15:22,920

To me, I don't know, I can't back to us.

119

00:15:23,920 --> 00:15:34,920

In childhood, Jenny Coquel had visions of a past life, in which she was a mother who died young, leaving eight children behind.

120

00:15:34,920 --> 00:15:41,920

As an adult, Jenny came to believe those visions after a profound deja vu experience in a small Irish town.

121

00:15:41,920 --> 00:15:48,920

Now Jenny searches for the children who would now be in their 70s and 80s that she believes she left behind.

122

00:15:49,920 --> 00:15:54,920

In the 1930s, a young mother named Mary lived and died here in Malahein, Ireland.

123

00:15:54,920 --> 00:15:58,920

Jenny Coquel believes she is the reincarnation of Mary.

124

00:15:58,920 --> 00:16:02,920

In one of many recurring dreams, she recalls a moment from her past life.

125

00:16:02,920 --> 00:16:05,920

It must have been about November.

126

00:16:05,920 --> 00:16:09,920

It was that sort of time here where you get a heavy dew, and it's quite cool, first thing in the morning.

127

00:16:09,920 --> 00:16:12,920

Because the children came running in very early in the morning.

128

00:16:12,920 --> 00:16:14,920

We've got something.

129

00:16:14,920 --> 00:16:21,920

Everybody came out of the cottage to have a look and see what they had caught in their snare.

130

00:16:21,920 --> 00:16:24,920

And the children all stood around in a circle.

131

00:16:24,920 --> 00:16:28,920

And I remember having a look through the middle of this little circle of heads.

132

00:16:28,920 --> 00:16:35,920

Based on the period clothing and household items in her dreams, Jenny believed that Mary lived around the turn of the century.

133

00:16:35,920 --> 00:16:39,920

If that was true, at least some of Mary's children might still be alive.

134

00:16:39,920 --> 00:16:42,920

Jenny felt she had to try to find them.

135

00:16:42,920 --> 00:16:45,920

I think I just needed to know they were okay.

136

00:16:45,920 --> 00:16:50,920

I realised it was going to be a problem because I realised it's going to be a strange story to approach them with.

137

00:16:50,920 --> 00:16:53,920

But how could Jenny find those children?

138

00:16:53,920 --> 00:16:55,920

The cottage was gone.

139

00:16:55,920 --> 00:16:58,920

Neighboring cottages had been torn down to make way for new homes.

140

00:16:58,920 --> 00:17:02,920

Jenny walked the old country lanes, took out ants, wrote letters.

141

00:17:02,920 --> 00:17:05,920

It seemed like a futile search until she found a link.

142

00:17:05,920 --> 00:17:12,920

I was able to find somebody who lived in the area, had lived in the area for a long time,

143

00:17:12,920 --> 00:17:18,920

and was able to remember the family, had actually been to school with the children.

144

00:17:18,920 --> 00:17:22,920

That person was the son of the man who had built the cottage.

145

00:17:22,920 --> 00:17:26,920

He told Jenny the mother's name was Mary, Mary Sutton.

146

00:17:26,920 --> 00:17:32,920

Armed with the last name, Jenny was able to track down Mary's marriage license from 1917.

147

00:17:32,920 --> 00:17:35,920

Her death certificate dated 1932.

148

00:17:35,920 --> 00:17:41,920

And then, through the help of a priest, Jenny obtained baptism records for six of the eight Sutton children.

149

00:17:41,920 --> 00:17:44,920

He came from a church, just as Mary had dreamed.

150

00:17:44,920 --> 00:17:52,920

I knew the oldest child was very supportive, quite, fairly gentle, but self-assured.

151

00:17:52,920 --> 00:17:56,920

I mean, he was a fairly confident sort of person.

152

00:17:56,920 --> 00:17:59,920

I referred to him as a little soldier.

153

00:17:59,920 --> 00:18:05,920

She searched for her little soldier and found him, 75-year-old Sonny Sutton.

154

00:18:05,920 --> 00:18:12,920

Imagine getting the telephone call out of the blue from a young woman claiming to be your long-dead mother.

155

00:18:12,920 --> 00:18:22,920

I know it's very hard for you for people to understand, but to me, her mother came back to us.

156

00:18:22,920 --> 00:18:29,920

She told me that I lived in a lodge, and the entrance to the lodge was not facing the road.

157

00:18:29,920 --> 00:18:37,920

The cottage itself was set slightly sideways to the road, and there was a wall near to the cottage itself.

158

00:18:37,920 --> 00:18:40,920

She also told me that there were two pictures hanging on the wall.

159

00:18:40,920 --> 00:18:43,920

A photograph of a soldier.

160

00:18:43,920 --> 00:18:46,920

Which is correct. It was me and my brother's brother.

161

00:18:46,920 --> 00:18:55,920

Sonny came to accept Jenny as the reincarnation of his mother, and presented her with this, the only known photograph of Mary Sutton.

162

00:18:55,920 --> 00:19:02,920

He also told her how, after Mary's death, the children had been separated, sent to different orphanages, and adopted out.

163

00:19:02,920 --> 00:19:06,920

Together, Sonny and Jenny found and reunited the surviving children.

164

00:19:06,920 --> 00:19:15,920

Christy, 72. Phyllis, 71. Frank, 70. And Betty, 62, who thought she was an only child.

165

00:19:15,920 --> 00:19:20,920

I never even knew I was a doctor, or that I had brothers, or I had sisters.

166

00:19:20,920 --> 00:19:27,920

It's an incredible story. Elderly brothers and sisters reunited by a young woman's other worldly dreams.

167

00:19:27,920 --> 00:19:32,920

It's a case that has caught the attention of noted psychiatrist Dr. Brian Weiss.

168

00:19:32,920 --> 00:19:41,920

Jenny happens to be one of the most interesting cases of all, because there's really such good documentation.

169

00:19:41,920 --> 00:19:49,920

The Irish children of Mary Sutton, who are now in their late 60s and 70s, these are very believable people.

170

00:19:49,920 --> 00:19:56,920

They know that Jenny is coming up with memories or knowledge of their childhoods.

171

00:19:56,920 --> 00:20:02,920

Things that were not published anywhere. This is not a famous family. This was a fairly impoverished family.

172

00:20:03,920 --> 00:20:11,920

Revisiting the remains of the cottage in Malahide, rekindled long-baring memories now vividly recalled by Jenny and the children.

173

00:20:11,920 --> 00:20:18,920

The whole home, as you're looking at it, this is the home that was 10 people in at one time.

174

00:20:18,920 --> 00:20:21,920

There was a mother, father, and eight children.

175

00:20:21,920 --> 00:20:26,920

There was a large fireplace that dominated the kitchen living area.

176

00:20:26,920 --> 00:20:31,920

The fireplace was where her mommy used to cook. She used to bake bread and lunch.

177

00:20:31,920 --> 00:20:38,920

I remembered stuffing the mattress, and on a particular day, I'm trying to get it back through the door again.

178

00:20:38,920 --> 00:20:42,920

I couldn't get it back in. That was for the bed, the mother's for the bed.

179

00:20:42,920 --> 00:20:51,920

And then, at the jetty, Sonny filled in the final unexplained piece of the puzzle, the reason why Jenny had dreamed of this place for so many years.

180

00:20:51,920 --> 00:20:59,920

When I told him about my memory of the jetty, and standing there at dusk, on the shore, in the cold wind,

181

00:20:59,920 --> 00:21:02,920

he said, well, I know what that was about.

182

00:21:02,920 --> 00:21:08,920

I knew then that she was telling me something that nobody else could know.

183

00:21:08,920 --> 00:21:12,920

I'm the one to come down these steps. I'm the one to end over there.

184

00:21:12,920 --> 00:21:15,920

And my mother was the one to come down to meet me.

185

00:21:15,920 --> 00:21:19,920

As a young boy, Sonny caddied at a golf course on a nearby island.

186

00:21:19,920 --> 00:21:22,920

His mother would wait for his return every evening.

187

00:21:22,920 --> 00:21:26,920

Is Jenny Coquette the reincarnation of Mary Sutton?

188

00:21:26,920 --> 00:21:31,920

How does she know the details of a life that ended 21 years before she was born?

189

00:21:31,920 --> 00:21:34,920

For the children, it's a miracle.

190

00:21:34,920 --> 00:21:38,920

We've got a lot of pleasure out of what has happened.

191

00:21:38,920 --> 00:21:45,920

For Jenny, finding the Sutton's has finally brought an end to the prophetic dreams she has had since childhood.

192

00:21:45,920 --> 00:21:49,920

There's a sense of freedom, which is strange.

193

00:21:49,920 --> 00:21:52,920

I don't feel the same kind of responsibility towards them.

194

00:21:52,920 --> 00:21:57,920

I've been allowed to accept that they have grown up, they're individuals.

195

00:21:57,920 --> 00:22:01,920

There's still a sense of responsibility, but it's different.

196

00:22:01,920 --> 00:22:09,920

I don't feel tied to the past in quite the way that I felt I was for half a lifetime.

197

00:22:09,920 --> 00:22:16,920

I'm able to sort of look out and see things from a different perspective now.

198

00:22:16,920 --> 00:22:20,920

Before Jenny Coquette entered their lives, the children of Mary Sutton

199

00:22:20,920 --> 00:22:24,920

didn't share holidays, exchange family photos, or even write to one another.

200

00:22:24,920 --> 00:22:29,920

Whether or not you believe that Jenny is the reincarnated spirit of their dead mother,

201

00:22:29,920 --> 00:22:34,920

she has brought the family together just the way a real mother would.

202

00:22:34,920 --> 00:22:36,920

Coming up next...

203

00:22:36,920 --> 00:22:38,920

I saw this thing.

204

00:22:38,920 --> 00:22:40,920

A kind of pencil of life.

205

00:22:40,920 --> 00:22:44,920

A mass sighting of a mysterious craft leaves unanswered questions.

206

00:22:44,920 --> 00:22:49,920

Then a psyche hunts for a child killer and a Japanese lake monster caught on tape.

207

00:22:51,920 --> 00:22:57,920

On the night of November 7th, 1990, more than 40 people standing on a hotel rooftop

208

00:22:57,920 --> 00:23:01,920

in Montreal, Canada, shared a once-in-a-lifetime experience.

209

00:23:01,920 --> 00:23:07,920

Above them, in the night sky, an enormous oval of light, described by many as a mother's ship,

210

00:23:07,920 --> 00:23:10,920

hovered silently for more than two hours.

211

00:23:10,920 --> 00:23:16,920

These eyewitnesses were all part of the most significant mass UFO sighting in Canadian history.

212

00:23:17,920 --> 00:23:21,920

UFO sightings by multiple witnesses are extremely rare.

213

00:23:21,920 --> 00:23:25,920

Perhaps the largest mass sighting occurred in 1991,

214

00:23:25,920 --> 00:23:33,920

when hundreds of people in Mexico City all reported seeing the same UFO appear and reappear over a

one-week period.

215

00:23:33,920 --> 00:23:37,920

But despite hours of videotaped footage and eyewitness accounts,

216

00:23:37,920 --> 00:23:43,920

the Mexico sightings were never investigated by a single military or governmental agency.

217

00:23:44,920 --> 00:23:48,920

And in Montreal, the largest mass sighting in Canadian history

218

00:23:48,920 --> 00:23:53,920

is receiving the same lack of attention from the very people who could hold the key

219

00:23:53,920 --> 00:23:57,920

to unlocking one of the world's most profound UFO mysteries.

220

00:23:59,920 --> 00:24:03,920

It happened on a foggy November night in 1991.

221

00:24:03,920 --> 00:24:08,920

More than 40 people all shared a stunning experience.

222

00:24:08,920 --> 00:24:10,920

I saw this thing.

223

00:24:10,920 --> 00:24:13,920

It was not looking like an object at all.

224

00:24:13,920 --> 00:24:16,920

Stunt. There's no other word. I was stunned.

225

00:24:16,920 --> 00:24:22,920

Bernard Canette said that he saw the UFO as he hurried home from a late night at the office.

226

00:24:22,920 --> 00:24:25,920

It was more like a kind of pencil of light.

227

00:24:25,920 --> 00:24:29,920

It was a greenish color, but looking very odd.

228

00:24:29,920 --> 00:24:35,920

Guests at the Montreal Bonaventure Hotel reported seeing the UFO while swimming in the rooftop pool.

229

00:24:35,920 --> 00:24:38,920

Lifeguard Lynn Sainpierre was on duty that night.

230

00:24:38,920 --> 00:24:44,920

So I stepped outside, I looked at the lights, and I was kind of scared because I didn't know what it was.

231

00:24:44,920 --> 00:24:48,920

So I went back in. I said, somebody pinch me because I don't believe what I see.

232

00:24:48,920 --> 00:24:52,920

This is a photograph of the object they all saw.

233

00:24:52,920 --> 00:24:58,920

Trouted by a thick blanket of fog, the UFO appeared to hover low in the night sky for nearly three

hours.

234

00:24:58,920 --> 00:25:04,920

My first reaction while driving was, well, it's probably some kind of a promotional stunt for the Olympic Stadium.

235

00:25:04,920 --> 00:25:06,920

You know, it's probably a game or something.

236

00:25:06,920 --> 00:25:14,920

I saw about, I would say, six, seven, eight spots within the shape of an egg.

237

00:25:14,920 --> 00:25:21,920

I could even hear the sound the thing was making. It was a very definite purring sound, you know, some kind of a...

238

00:25:22,920 --> 00:25:27,920

Every corner that I went, I had that thing over my head.

239

00:25:27,920 --> 00:25:30,920

I was puzzled basically, what is this thing?

240

00:25:30,920 --> 00:25:39,920

But never, never did I think that I was seeing a UFO of some sort, you know, that this thing would be coming from God knows where.

241

00:25:39,920 --> 00:25:44,920

Eyewitnesses called Montréal's largest French-language newspaper, La Presse,

242

00:25:44,920 --> 00:25:47,920

a reporter and photographer would dispatch to the hotel rooftop.

243

00:25:47,920 --> 00:25:55,920

I believe that I have seen lights or glimmers, but I cannot say at all what it is.

244

00:25:55,920 --> 00:25:59,920

A nearby construction site was lit with spotlights pointed skyward.

245

00:25:59,920 --> 00:26:04,920

Some eyewitnesses dismissed what they were seeing as the light's reflection in the fog.

246

00:26:04,920 --> 00:26:13,920

After those lights were shut down, the phenomenon, the lights remained in the sky, so it was not a reflection of some sort.

247

00:26:13,920 --> 00:26:17,920

Constable Morey received the first reports of a UFO sighting.

248

00:26:17,920 --> 00:26:22,920

He called the airport and the military to see if they were picking up the object on radar. They were not.

249

00:26:23,920 --> 00:26:34,920

Well, in my experience, I did see a fair bit of everything, but I never encountered anything similar to that.

250

00:26:34,920 --> 00:26:38,920

It did not disappear quickly, it faded away type of thing.

251

00:26:38,920 --> 00:26:46,920

The next morning, a cursory account of the UFO sighting, written by Jules Bellevaux, was published in La Presse,

252

00:26:46,920 --> 00:26:52,920

accompanied by one of the pictures taken by photographer Marcel Arouche from the hotel rooftop.

253

00:26:52,920 --> 00:26:59,920

Bernard Guignette read that article and realized that what he had seen the night before needed further investigation.

254

00:26:59,920 --> 00:27:07,920

The police were unresponsive, so Guignette contacted aerial anomalies expert Dr. Richard Haynes.

255

00:27:08,920 --> 00:27:17,920

One of the things that's important about this sighting is the number of highly credible eyewitnesses that later drew pictures of what they saw.

256

00:27:17,920 --> 00:27:24,920

They all pretty much saw the same thing. Well, why is that significant? Because it says it is not hallucination.

257

00:27:24,920 --> 00:27:35,920

Dr. Haynes examined the color negatives of the UFO photographs. He also analyzed digital enhancements of the images, which yielded controversial results.

258

00:27:36,920 --> 00:27:43,920

We are talking here about an object, it was not a light reflection, it's from a man made the lights on the ground.

259

00:27:43,920 --> 00:27:54,920

During their investigation, Guignette and Haynes also discovered that a military base, a few miles from the hotel, had experienced an unexplained power failure on the night of the UFO sightings.

260

00:27:54,920 --> 00:28:01,920

The base experienced a 12,000 volt lead failure for a period of time. I find that very interesting.

261

00:28:01,920 --> 00:28:11,920

A computer mock-up of the UFO was created based on measurements done on site. It was determined that the UFO could have been over 6,000 feet wide.

262

00:28:11,920 --> 00:28:18,920

The calculations and an exhaustive research report went to more than 50 organizations, not one responded.

263

00:28:18,920 --> 00:28:35,920

That's significant. That a large object could hover over downtown Montreal, a major metropolitan area of North America, and be seen by so many people, pictures drawn of it, photographs taken of it, and no official response.

264

00:28:35,920 --> 00:28:37,920

That to me is fascinating.

265

00:28:37,920 --> 00:28:44,920

It was something quite extraordinary. They had the feeling that it was not from here, that it was different.

266

00:28:44,920 --> 00:28:50,920

Based on my experience as a police officer, I really can't say what the origin of these lights was.

267

00:28:50,920 --> 00:29:02,920

I'll remember it for the rest of my life, that's for sure, but since I made a lot of interviews, everybody's asking me questions and recognizing me in the street.

268

00:29:02,920 --> 00:29:09,920

They won't stop me, but they look at me like I'm a UFO. It changed my life in that kind of way.

269

00:29:09,920 --> 00:29:17,920

I know that I've seen something, I've heard the thing, and no way someone's going to convince me that I've seen some kind of a tricky lighting pattern.

270

00:29:17,920 --> 00:29:27,920

I mean, there was an object up there. It corresponds to the descriptions that were taken from the other people on site, and I'll never forget it, essentially.

271

00:29:27,920 --> 00:29:42,920

Although the lights hovered over Montreal for nearly three hours, and between 40 and 75 eyewitnesses were present, no official government or military unit was dispatched to investigate.

272

00:29:42,920 --> 00:29:48,920

One wonders what it would take for authorities to feel a sighting is worthy of investigation.

273

00:29:48,920 --> 00:29:54,920

Next on Sightings, police and a psychic detective try to find a child's killer.

274

00:29:54,920 --> 00:29:58,920

I've never had a case that affected me in this manner.

275

00:30:02,920 --> 00:30:12,920

In St. Louis, she was just baby Jane, a faceless, nameless, nine-year-old murder victim who lay in the County morgue for months, unclaimed and unloved.

276

00:30:12,920 --> 00:30:19,920

She was buried in a pauper's grave. That was 11 years ago, and police still don't know who she was or who killed her.

277

00:30:19,920 --> 00:30:24,920

To keep the case alive, Sightings offered the services of psychic Noreen Reneaer.

278

00:30:24,920 --> 00:30:30,920

In the best of all possible worlds, children are a cherished blessing, a living miracle.

279

00:30:30,920 --> 00:30:35,920

They are meant to be loved and nurtured when they are young, set free when they're ready.

280

00:30:35,920 --> 00:30:41,920

But this is not the best of all possible worlds, and not all children are treated as a precious gift.

281

00:30:41,920 --> 00:30:48,920

In 1983, the decapitated body of a nine-year-old girl was found in the basement of an abandoned building in St. Louis.

282

00:30:49,920 --> 00:30:53,920

The building is gone now. It's neighbor condemned and forgotten.

283

00:30:53,920 --> 00:30:58,920

But St. Louis police Sergeant Joe Bergun will never forget what he found here 11 years ago.

284

00:30:58,920 --> 00:31:04,920

Where I'm standing at would be approximately where our victim was found.

285

00:31:04,920 --> 00:31:08,920

About three o'clock in the afternoon, two gentlemen went down in the basement.

286

00:31:08,920 --> 00:31:18,920

It was completely dark down there, and one of them had a cigarette lighter, and he put the lighter on, and he observed what appeared to be a body.

287

00:31:19,920 --> 00:31:25,920

Down the floor, he then immediately turned and ran out and called the police.

288

00:31:25,920 --> 00:31:34,920

We responded to that location, and in the basement, there was the decapitated body of a young black female.

289

00:31:36,920 --> 00:31:40,920

And I was devastated when I saw the body.

290

00:31:41,920 --> 00:31:48,920

No police officer wants to see a child brutally murdered in that fashion.

291

00:31:48,920 --> 00:31:54,920

After years on the beat, police officers develop a hard shell. They have to.

292

00:31:54,920 --> 00:31:57,920

But this was one case that hit Detective Atkins in the gut.

293

00:31:57,920 --> 00:32:07,920

I still get chill bumps when I think about this case. Many nights I've awakened in the sweat, the cold sweat.

294

00:32:07,920 --> 00:32:13,920

No parent reported a missing child. No school reported a missing student.

295

00:32:13,920 --> 00:32:25,920

When the child was finally laid to rest, there was no funeral. She was just a number on a marker, until area school children raised the money to purchase a tombstone, so we wouldn't forget.

296

00:32:26,920 --> 00:32:30,920

This doesn't make any sense why you would have to do that to a little girl.

297

00:32:31,920 --> 00:32:36,920

When word of the case reached the sightings offices, we immediately called psychic Noreen Reneer.

298

00:32:36,920 --> 00:32:42,920

Having produced hundreds of clues that have helped solve dozens of police cases, Noreen wanted to help.

299

00:32:43,920 --> 00:32:49,920

Using a process called psychometry, she is able to psychically experience the crime herself.

300

00:32:49,920 --> 00:32:57,920

I get pictures, they're very disjointed pictures, images, sort of like a foggy dream, fading.

301

00:32:57,920 --> 00:33:05,920

We arranged for a phone meeting between Detectives Bergoon and Atkins in St. Louis and Noreen in Orlando, Florida.

302

00:33:05,920 --> 00:33:10,920

Assisted by hypnotist Walt Steep, Noreen tries to put herself into the crime scene.

303

00:33:10,920 --> 00:33:18,920

She touches the rope found on the dead child and slowly begins to speak as if she were the young victim.

304

00:33:18,920 --> 00:33:22,920

He's holding my hand, I feel like he's holding my left hand.

305

00:33:22,920 --> 00:33:30,920

As Noreen moves deeper into her trance, she begins to experience what she believes is the physical and emotional pain of the child.

306

00:33:33,920 --> 00:33:36,920

Can I need you to forget the pain, Noreen? Go beyond the pain.

307

00:33:36,920 --> 00:33:39,920

My chest is hurting me as I'm being strangled.

308

00:33:40,920 --> 00:33:47,920

Noreen had no prior knowledge of the case. She was told only that the victim was a young female, found decapitated.

309

00:33:47,920 --> 00:33:53,920

Any other body damage that would indicate some other cause of death other than decapitation?

310

00:33:53,920 --> 00:34:04,920

First. She was manually strangled and then after death she was decapitated. That's what the medical examiner tells us.

311

00:34:04,920 --> 00:34:10,920

Her accuracy was compelling to the detectives who had been openly skeptical before the session.

312

00:34:10,920 --> 00:34:16,920

I'll accept the help of a psychic, although I'm not optimistic.

313

00:34:16,920 --> 00:34:26,920

The semen was, I don't know if there's types of semen, or it tells if semen could tell blood type.

314

00:34:26,920 --> 00:34:30,920

Can we get any verification on what I've said so far?

315

00:34:30,920 --> 00:34:32,920

There was semen found.

316

00:34:32,920 --> 00:34:37,920

The detectives had many unanswered questions they hoped Noreen could answer.

317

00:34:37,920 --> 00:34:39,920

Where was she killed?

318

00:34:39,920 --> 00:34:43,920

Where the river and the border is.

319

00:34:43,920 --> 00:34:47,920

The river goes up and down.

320

00:34:47,920 --> 00:34:50,920

Do you see the bridge crossing this river?

321

00:34:50,920 --> 00:34:55,920

I do. I see the bridge. There's a very strong B in the name.

322

00:34:55,920 --> 00:34:58,920

Would the name Brooklyn mean anything to you?

323

00:34:58,920 --> 00:35:00,920

Yes.

324

00:35:00,920 --> 00:35:01,920

Elmville?

325

00:35:01,920 --> 00:35:08,920

Noreen's psychic vision affirmed the detective's theory that the child was killed out of state,

then dumped in St. Louis.

326

00:35:08,920 --> 00:35:12,920

But where was she from? Who was her family?

327

00:35:12,920 --> 00:35:17,920

Noreen began to answer the detectives as if the child was speaking through her.

328

00:35:17,920 --> 00:35:19,920

Mother and father?

329

00:35:19,920 --> 00:35:23,920

My mother did think that some people would think was wrong.

330

00:35:23,920 --> 00:35:41,920

Sometimes I saw her crying and they tied something around her arm and it was rubber-like.

331

00:35:41,920 --> 00:35:44,920

And then they put something...

332

00:35:44,920 --> 00:35:50,920

If the parents were involved in illegal activities, they might not phone the police when their daughter disappeared.

333

00:35:50,920 --> 00:35:53,920

But what about her school? Wouldn't they report a missing child?

334

00:35:53,920 --> 00:35:55,920

Who was your favorite teacher?

335

00:35:55,920 --> 00:35:58,920

My teacher took me. My teacher took me.

336

00:35:58,920 --> 00:36:00,920

Your teacher took you?

337

00:36:00,920 --> 00:36:03,920

My teacher took me. It's my teacher.

338

00:36:03,920 --> 00:36:08,920

The detectives asked Noreen to give them more details about the teacher.

339

00:36:08,920 --> 00:36:15,920

I got kicked out of the service so I would have a dishonorable discharge.

340

00:36:15,920 --> 00:36:21,920

A police composite artist was called to the meeting to get a physical description of the supposed killer.

341

00:36:21,920 --> 00:36:35,920

The face shape itself would be long. I can see his forehead so his hair must go back away from his forehead.

342

00:36:35,920 --> 00:36:38,920

The eyes are smaller, more close-set.

343

00:36:38,920 --> 00:36:41,920

Noreen's intriguing leads have given the case new life.

344

00:36:41,920 --> 00:36:47,920

Perhaps soon, little Jane Doe won't be just a date of death on a blank tombstone.

345

00:36:47,920 --> 00:36:51,920

And the person who killed her will be punished for what he has done.

346

00:36:51,920 --> 00:37:00,920

I've never had a case that affected me in this manner and that still continues to affect me.

347

00:37:00,920 --> 00:37:05,920

And I would give anything to have this case solved.

348

00:37:08,920 --> 00:37:12,920

Here's another look at the artwork based on Noreen Renner's psychic visions.

349

00:37:12,920 --> 00:37:17,920

Because of leads she's provided, the St. Louis Police Department has reactivated this case.

350

00:37:17,920 --> 00:37:25,920

If you have any information about Baby Jane, please contact the homicide division of the St. Louis Police Department.

351

00:37:25,920 --> 00:37:31,920

When sightings returns, a legendary lake monster known as Ishii is captured on tape.

352

00:37:31,920 --> 00:37:35,920

The bumps were moving at the same time together.

353

00:37:38,920 --> 00:37:44,920

For the past 30 years, at least one Japanese import has been unaffected by trade and tariff disputes.

354

00:37:44,920 --> 00:37:46,920

Japanese monster movies.

355

00:37:46,920 --> 00:37:53,920

Now the country that brought us Mothra and Rodin and Godzilla has a new monster named Ishii.

356

00:37:53,920 --> 00:37:57,920

But this monster isn't created from latex and paint.

357

00:37:57,920 --> 00:38:06,920

The Japanese believe that he is a real-life lake monster who's made his film debut in a startling home video shot earlier this year.

358

00:38:07,920 --> 00:38:09,920

Ishii!

359

00:38:09,920 --> 00:38:12,920

It's not true!

360

00:38:12,920 --> 00:38:22,920

The eyewitnesses who saw this creature in person are convinced beyond a shadow of a doubt that what they saw was a lake monster legend come to life.

361

00:38:22,920 --> 00:38:28,920

They are thought to be living fossils, prehistoric creatures that have defied extinction.

362

00:38:28,920 --> 00:38:32,920

They plumb the depths of freshwater lakes around the world.

363

00:38:32,920 --> 00:38:42,920

The most famous are the Loch Ness Monster in Scotland, Champ in Lake Champlain, New York, and Ogo Pogo in Lake Okanagan, British Columbia.

364

00:38:42,920 --> 00:38:54,920

Located over a thousand miles from Tokyo on the southern Japanese island of Kyushu, Lake Aikida is formed by an extinct volcano and is nearly a thousand feet deep.

365

00:38:54,920 --> 00:39:01,920

While many sightings of the creature dubbed Ishii have been carefully documented over the last 16 years,

366

00:39:01,920 --> 00:39:08,920

a man who's credited with Ishii's initial discovery on September 3, 1978 is Hiroto Koaji.

367

00:39:08,920 --> 00:39:11,920

His house sits right at the water's edge.

368

00:39:13,920 --> 00:39:19,920

I was 10 years old at the time, and about 20 of my classmates had come over to my house after school.

369

00:39:19,920 --> 00:39:26,920

Around six o'clock, there in the water, I noticed something rise up about 200 meters from shore.

370

00:39:26,920 --> 00:39:29,920

I gave my friends a plain ball and I yelled out to them,

371

00:39:29,920 --> 00:39:31,920

Look, there in the water.

372

00:39:31,920 --> 00:39:35,920

My parents and grandparents also came out and saw the creature.

373

00:39:35,920 --> 00:39:40,920

It stayed there for about three to five minutes then swam away at a very high speed.

374

00:39:40,920 --> 00:39:45,920

My grandparents were not surprised as they have heard stories of such a creature in the lake.

375

00:39:45,920 --> 00:39:52,920

So nothing much was done after that day, but after about six months, word had spread to local

newspapers about what we saw.

376

00:39:52,920 --> 00:39:57,920

And then they came, newspaper photographers, writers, and many TV reporters.

377

00:39:59,920 --> 00:40:06,920

Those newspaper reports kicked off a media frenzy and merchandising bonanza that continues to gain momentum year after year.

378

00:40:06,920 --> 00:40:12,920

Tour buses bring visitors by the thousands to Aikido Paradise, a theme park overlooking the lake.

379

00:40:12,920 --> 00:40:15,920

There's no frightening aspect to the legend of this monster.

380

00:40:15,920 --> 00:40:21,920

Ishii is embraced with fanciful curiosity and there's Ishii merchandise in every size and shape.

381

00:40:21,920 --> 00:40:25,920

The employees who work here have become rather casual about the monster,

382

00:40:25,920 --> 00:40:31,920

not because of the variety of souvenirs, but because they claim to see the real thing so often.

383

00:40:32,920 --> 00:40:39,920

I've seen Ishii many times and it's the most noticeable out there on calm days when no wind disturbs the water.

384

00:40:39,920 --> 00:40:47,920

First you see waves forming, then the black lumps can be seen above the water as it swims away at high speed.

385

00:40:48,920 --> 00:40:58,920

What is this creature? Here it surfaces momentarily, only to submerge and then resurface again and again before disappearing entirely.

386

00:40:58,920 --> 00:41:03,920

Many photographs have been taken over the years by different eyewitnesses.

387

00:41:03,920 --> 00:41:08,920

They all bear Ishii's calling card, an enigmatic disturbance on the surface of the lake.

388

00:41:08,920 --> 00:41:15,920

Some believe Ishii is a giant eel, like this one, kept on display at one lakeside tourist attraction.

389

00:41:16,920 --> 00:41:21,920

But could an eel grow to nearly 100 feet in length, as seen on this video?

390

00:41:21,920 --> 00:41:31,920

Akihiko Ikimizu created the Ishii investigation group that set out to monitor activity on the lake in hopes of photographing Ishii close up.

391

00:41:31,920 --> 00:41:39,920

I saw Ishii from the long distance, but I don't really think that was big eel because I saw tail.

392

00:41:39,920 --> 00:41:46,920

Then I saw two bumps also. Two bumps were moving at the same time together.

393

00:41:47,920 --> 00:41:52,920

So Yoshii Matsuyama claims to have had the largest number of Ishii sightings.

394

00:41:54,920 --> 00:41:58,920

It is right here at this spot where I first saw Ishii.

395

00:41:58,920 --> 00:42:04,920

I was a ferry boat driver at the time, and one of my passengers said, what is that there in the water?

396

00:42:04,920 --> 00:42:10,920

I came out and saw the head of a large creature above the water and quickly turned the boat in that direction.

397

00:42:10,920 --> 00:42:18,920

Even though I gave my boat its full power, the beast swam very fast and very quickly, then dove under the water to get away.

398

00:42:18,920 --> 00:42:26,920

I would guess that I have seen Ishii 20 to 30 times since then, and each time it amazed me, but I have not given up.

399

00:42:26,920 --> 00:42:31,920

I spend many hours on these waters, and someday I'll get absolute proof that Ishii is here.

400

00:42:34,920 --> 00:42:41,920

Ishii's supposed home in Lake Akita fits a pattern of sightings that has existed for over 100 years.

401

00:42:41,920 --> 00:42:49,920

Monsters like Nessie, Champ, Ogopogo, and now Ishii all live in freshwater lakes between 40 and 60 degrees north latitude.

402

00:42:49,920 --> 00:42:56,920

In the United States, all five great lakes fall within these monster-prone latitudes.

403

00:42:57,920 --> 00:43:05,920

If you've had a paranormal experience, call the sightings hotline at 190933 site.

404

00:43:05,920 --> 00:43:08,920

That's 1909337444.

405

00:43:08,920 --> 00:43:12,920

Each call 65 cents a minute, average call last three minutes.
