

1

00:00:00,000 --> 00:00:12,560

On this edition of Sightings, 28 years ago, something strange crashed into the icy waters

2

00:00:12,560 --> 00:00:15,060

of Shag Harbor, Nova Scotia.

3

00:00:15,060 --> 00:00:20,720

I believe that this was a device, not a visor.

4

00:00:20,720 --> 00:00:25,960

Investigator Chris Stiles says the Canadian government also thinks it was a UFO, and he's

5

00:00:25,960 --> 00:00:29,480

got the documents to prove it.

6

00:00:29,480 --> 00:00:34,680

George Brejak is a tough New Jersey cop with a secret weapon for corralling killers, his

7

00:00:34,680 --> 00:00:36,800

psychic sense.

8

00:00:36,800 --> 00:00:38,800

I got sick of my stomach.

9

00:00:38,800 --> 00:00:39,800

I knew he was the killer.

10

00:00:39,800 --> 00:00:43,440

I knew I was going to get him.

11

00:00:43,440 --> 00:00:47,680

This might be the voice of an actual ghost recorded aboard the Queen Mary, Sightings

12

00:00:47,680 --> 00:00:48,680

investigates.

13

00:00:48,680 --> 00:00:55,000

And he's the toxic killer loose in America's most secret military base, Area 51.

14

00:00:55,000 --> 00:00:59,000

Nobody had any idea what this stuff might have been.

15

00:00:59,000 --> 00:01:27,720

I'm going to get him.

16

00:01:27,720 --> 00:01:28,720

Welcome to Sightings.

17

00:01:28,720 --> 00:01:30,160

I'm Tim White.

18

00:01:30,160 --> 00:01:33,680

Whatever you do, don't call police Lieutenant George Brejak a psychic.

19

00:01:33,680 --> 00:01:36,160

He bristles at the term.

20

00:01:36,160 --> 00:01:40,760

Lieutenant Brejak says his unusual ability is just gut instinct, intuition, the feeling

21

00:01:40,760 --> 00:01:43,400

a cop gets after 30 years on the beat.

22

00:01:43,400 --> 00:01:48,640

But whatever you call it, this New Jersey police lieutenant has a gift for solving unsolvable

23

00:01:48,640 --> 00:01:55,760

crimes.

24

00:01:55,760 --> 00:01:59,480

Patterson, New Jersey is Lieutenant George Brejak's beat.

25

00:01:59,480 --> 00:02:01,920

He knows this town like the back of his hand.

26

00:02:01,920 --> 00:02:04,920

And he also seems to know something more.

27

00:02:04,920 --> 00:02:06,720

Working with George is like working with a super cop.

28

00:02:06,720 --> 00:02:10,960

And you have like a human lie detector right next to you.

29

00:02:10,960 --> 00:02:15,680

A lot of police officers develop good intuition after years on the force.

30

00:02:15,680 --> 00:02:19,480

It's a well-documented phenomenon called the blue sense.

31

00:02:19,480 --> 00:02:21,840

But George Brejak's ability is different.

32

00:02:21,840 --> 00:02:24,080

I do believe George is a psychic cop.

33

00:02:24,080 --> 00:02:25,080

He just knows.

34

00:02:25,200 --> 00:02:28,160

He sees things that other people don't see.

35

00:02:28,160 --> 00:02:33,920

Brejak grew up in Patterson.

36

00:02:33,920 --> 00:02:38,760

His family moved here in the 1940s when the town was prosperous, clean and safe.

37

00:02:38,760 --> 00:02:40,480

It's my city.

38

00:02:40,480 --> 00:02:41,480

I know the streets.

39

00:02:41,480 --> 00:02:42,480

I know the people.

40

00:02:42,480 --> 00:02:44,760

I know what people think.

41

00:02:44,760 --> 00:02:49,360

My city.

42

00:02:49,360 --> 00:02:53,240

George Brejak has seen a lot of changes in Patterson over the years.

43

00:02:53,240 --> 00:02:57,840

When the mills closed in the 1950s, economic hardship caused many people to leave.

44

00:02:57,840 --> 00:03:00,760

And those who stayed like George's father were bitter.

45

00:03:00,760 --> 00:03:03,920

I remember him brutally beating my mother one night.

46

00:03:03,920 --> 00:03:04,920

I think about that.

47

00:03:04,920 --> 00:03:08,040

That maybe that's the reason why I was given this gift.

48

00:03:08,040 --> 00:03:12,080

It was the love of his mother and his deep faith that helped George persevere through

49

00:03:12,080 --> 00:03:13,360

the hard times.

50

00:03:13,360 --> 00:03:17,680

He fulfilled his dream of becoming a police officer in 1963.

51

00:03:17,680 --> 00:03:24,120

George Brejak brings the fresh and those many gifts of God has given to him.

52

00:03:24,120 --> 00:03:25,120

That creates power.

53

00:03:25,120 --> 00:03:26,120

I know I'm right.

54

00:03:26,120 --> 00:03:28,120

I get paid to be right.

55

00:03:28,120 --> 00:03:31,840

From the start, Brejak knew he had a knack for police work.

56

00:03:31,840 --> 00:03:36,360

He worked hard to develop his talents, but even he isn't prepared to take all of the

57

00:03:36,360 --> 00:03:40,320

credit for the special gift he brings to every case.

58

00:03:40,320 --> 00:03:42,920

It's crazy because I'll be driving out of the street like this and something will tell

59

00:03:42,920 --> 00:03:43,920

me to make a left turn.

60

00:03:43,920 --> 00:03:47,160

I'll make a left turn maybe to get down a block or to get somebody with a pocket full

61

00:03:47,160 --> 00:03:48,160

of dope.

62

00:03:48,160 --> 00:03:52,720

The first time George realized he had more than just good gut instinct was also the first

63

00:03:52,720 --> 00:03:55,120

time he worked on a seemingly unsolvable case.

64

00:03:55,120 --> 00:03:57,520

I'll never forget it was November 2nd, 1979.

65

00:03:57,520 --> 00:04:01,560

We had a homicide in the city of Paterson where a seven-year-old boy was missing for

66

00:04:01,560 --> 00:04:03,680

like three weeks.

67

00:04:03,680 --> 00:04:10,320

The boy's name was Delvis Mateus, an intensive search over all of Paterson was underway.

68

00:04:10,320 --> 00:04:14,960

George was assigned to a stretch of track that yielded nothing.

69

00:04:14,960 --> 00:04:15,960

We went to leave.

70

00:04:15,960 --> 00:04:16,960

I actually got in the car.

71

00:04:16,960 --> 00:04:20,240

You see on television I put the key in the car and something told me go check the wooden

72

00:04:20,240 --> 00:04:22,520

area across the railroad tracks.

73

00:04:22,520 --> 00:04:25,280

After leaving the car, I got sick to my stomach.

74

00:04:25,280 --> 00:04:30,040

I got upset inside and I knew I was going to find the little boy's body.

75

00:04:30,040 --> 00:04:31,040

George was right.

76

00:04:31,040 --> 00:04:34,080

He found the boy's body under a piece of plywood.

77

00:04:34,080 --> 00:04:39,120

Two weeks later, George Brejak had the killer behind bars.

78

00:04:39,120 --> 00:04:43,840

After the Delvis Mateus case, the other officers in Brejak's department started to set up and

79

00:04:43,840 --> 00:04:44,840

take notice.

80

00:04:44,840 --> 00:04:46,880

Yes, you get an instinct.

81

00:04:46,880 --> 00:04:49,000

I get instincts.

82

00:04:49,000 --> 00:04:52,760

But this man's certain things, he gets a natural instinct.

83

00:04:52,760 --> 00:04:55,400

Sometimes we like bothers you to think that like why isn't you?

84

00:04:55,400 --> 00:04:58,640

Like why do you have this thing about you?

85

00:04:58,640 --> 00:05:02,760

There was a time in Paterson where I think I solved three, four unsolved homicides in

86

00:05:02,760 --> 00:05:03,760

six months.

87

00:05:03,760 --> 00:05:05,760

It was crazy.

88

00:05:05,760 --> 00:05:10,000

There's no coincidence that Brejak's most famous case was solved because of his desire

89

00:05:10,000 --> 00:05:12,560

to bring a wife beater to justice.

90

00:05:12,560 --> 00:05:17,160

The victim was 24-year-old Candy Austin who seemed to have let it charm life until she

91

00:05:17,160 --> 00:05:18,960

met John Short.

92

00:05:18,960 --> 00:05:24,280

You'd have to say her family was like the Norman Rockwell, the Little House with the

93

00:05:24,280 --> 00:05:26,800

picket fence.

94

00:05:26,800 --> 00:05:30,400

Just by fate Candy Austin met John Short.

95

00:05:30,400 --> 00:05:33,680

It became a nightmare for Candy.

96

00:05:33,680 --> 00:05:37,120

Candy was drawn to John Short from the moment they met.

97

00:05:37,120 --> 00:05:41,400

After a whirlwind romance they married and had a child.

98

00:05:41,400 --> 00:05:45,760

But friends sensed a dark side to John's character.

99

00:05:45,760 --> 00:05:51,920

My first instinct when I met John was I just didn't think he was the right man for her.

100

00:05:51,920 --> 00:05:54,600

Candy pulled away from her family and friends.

101

00:05:54,600 --> 00:05:59,360

She didn't want anyone to know that John was beating her up.

102

00:05:59,360 --> 00:06:01,600

The violence continued to escalate.

103

00:06:01,600 --> 00:06:07,160

On June 22, 1981 in the parking lot of the Willowbrook Mall, John and Candy had a terrible

104

00:06:07,160 --> 00:06:08,160

fight.

105

00:06:08,160 --> 00:06:12,160

In his book, *Varied Mistakes*, author Michael Kaplan suggests that Candy's death may have

106

00:06:12,160 --> 00:06:14,360

been a tragic mistake.

107

00:06:14,360 --> 00:06:18,440

I don't think that he meant to kill her but then he panicked and put a screwdriver through

108

00:06:18,440 --> 00:06:19,960

her abdomen.

109

00:06:19,960 --> 00:06:24,280

John knew that if he called the police he would surely be the prime suspect.

110

00:06:24,280 --> 00:06:27,600

He needed someone else to discover the body.

111

00:06:27,600 --> 00:06:32,640

He says to his father-in-law, which was a key word, let's go look for her, meaning you

112

00:06:32,640 --> 00:06:33,640

and me.

113

00:06:33,640 --> 00:06:35,520

I'm going to go look for her.

114

00:06:35,520 --> 00:06:37,020

Let's go look for her.

115

00:06:37,020 --> 00:06:38,720

He wanted to fire the Willow.

116

00:06:38,720 --> 00:06:40,320

And he says to the father-in-law, you know what?

117

00:06:40,320 --> 00:06:43,160

He said, let's check the Willowbrook Mall.

118

00:06:43,160 --> 00:06:47,920

Back at the scene of the crime at the Willowbrook Mall, John Short put on the performance of

119

00:06:47,920 --> 00:06:49,280

his life.

120

00:06:49,280 --> 00:06:50,840

He runs to the car, John Short.

121

00:06:50,840 --> 00:06:52,360

He said, Dad, Dad, the door's locked.

122

00:06:52,360 --> 00:06:53,360

He tried the door.

123

00:06:53,360 --> 00:06:55,400

Give me something to break the window with.

124

00:06:55,400 --> 00:06:57,160

So the father-in-law gave him a hammer.

125

00:06:57,160 --> 00:06:58,640

He comes back to the car.

126

00:06:58,640 --> 00:06:59,640

Very excited.

127

00:06:59,640 --> 00:07:02,140

He smashes the glass.

128

00:07:02,140 --> 00:07:04,640

Short's diabolical plan worked.

129

00:07:04,640 --> 00:07:08,800

Candy's father was the first to see his daughter's blood-soaked body lying on the front seat

130

00:07:08,800 --> 00:07:10,040

of the car.

131

00:07:10,040 --> 00:07:14,640

No one suspected John, and he continued to play the role of the bereaved husband for

132

00:07:14,640 --> 00:07:18,760

more than six years.

133

00:07:18,760 --> 00:07:24,960

I had had a series of dreams about Candy over the six years, she'd say.

134

00:07:24,960 --> 00:07:30,840

I can't stay, but I just want you to know that I'm OK, but you have to find the person

135

00:07:30,840 --> 00:07:33,200

who did this to me.

136

00:07:33,200 --> 00:07:37,680

And I had these dreams up until the time I met George.

137

00:07:37,680 --> 00:07:41,440

So it's almost like she was guiding me towards George.

138

00:07:41,440 --> 00:07:46,080

Until 1987, George Brejak knew nothing more about the murder of Candy Short than what he

139

00:07:46,080 --> 00:07:47,080

read in the newspapers.

140

00:07:47,080 --> 00:07:51,400

But as soon as the case was handed over to him, he felt a strong connection.

141

00:07:51,400 --> 00:07:53,440

It was just the kind of case he wanted.

142

00:07:53,440 --> 00:07:56,760

I took that file to my camp and read it for three days and came back and told my chief,

143

00:07:56,760 --> 00:07:59,840

so I'm going to solve that murder chief.

144

00:07:59,840 --> 00:08:04,760

George used the painful memories of his own abusive father to help him form a subconscious

145

00:08:04,760 --> 00:08:09,840

connection to the victim, the killer, and the witnesses.

146

00:08:09,840 --> 00:08:14,720

I felt that he sometimes knew what I was going to say before I said it.

147

00:08:14,720 --> 00:08:20,160

I knew inside of me that the father had something important to tell me.

148

00:08:20,160 --> 00:08:25,040

And two days later, I called him and I said, Fred, meet me by the TikTok down on a route

149

00:08:25,040 --> 00:08:26,400

through there when I talk to you.

150

00:08:26,400 --> 00:08:30,040

He was like, startled because I knew he had something inside of him to tell me.

151

00:08:30,040 --> 00:08:34,000

And what made me feel good about it at that point was that this thing inside of me still

152

00:08:34,000 --> 00:08:35,000

worked.

153

00:08:35,000 --> 00:08:36,000

He says, I'll never forget.

154

00:08:36,000 --> 00:08:41,080

I see my daughter's body every day of my life, the way it was found.

155

00:08:41,080 --> 00:08:46,640

He says he had to know the car was there before we got to the mall.

156

00:08:46,640 --> 00:08:48,800

George went to the Willowbrook Mall.

157

00:08:48,800 --> 00:08:52,720

He climbed to the rooftop parking space where Candy's body had been found.

158

00:08:52,720 --> 00:08:55,560

He closed his eyes and relived the crime.

159

00:08:55,560 --> 00:08:56,880

He saw the killer.

160

00:08:56,880 --> 00:08:57,880

He saw John Short.

161

00:08:57,880 --> 00:09:01,920

And I talked to him for a few minutes.

162

00:09:01,920 --> 00:09:02,920

I got sick to my stomach.

163

00:09:02,920 --> 00:09:03,920

I knew he was the killer.

164

00:09:03,920 --> 00:09:07,840

I knew I was going to get him.

165

00:09:07,840 --> 00:09:09,880

Again, George Brejak was right.

166

00:09:09,880 --> 00:09:16,600

He saw through Short's lies, pierced his alibi, and on February 2, 1988, seven years after

167

00:09:16,640 --> 00:09:20,680

Candy's murder, George arrested John Short.

168

00:09:20,680 --> 00:09:22,760

He had done what no other cop could do.

169

00:09:22,760 --> 00:09:26,760

He was exhausted and exhilarated.

170

00:09:26,760 --> 00:09:28,280

I said to my chief, I said, this is great.

171

00:09:28,280 --> 00:09:31,880

I said, man, the magic is back inside of me.

172

00:09:31,880 --> 00:09:40,520

And when we arrested him, it was like the greatest high in my life.

173

00:09:40,520 --> 00:09:43,400

He doesn't want any plaques or medals.

174

00:09:43,400 --> 00:09:45,160

He's not in it for the glory.

175

00:09:45,200 --> 00:09:49,200

George Brejak is only doing what his unique gift compels him to do.

176

00:09:49,200 --> 00:09:53,360

And he still does it every day.

177

00:09:53,360 --> 00:09:55,280

When I leave this earth, my mark is here.

178

00:09:55,280 --> 00:09:56,480

I did what I had to do.

179

00:09:56,480 --> 00:09:58,680

Where does his ability come from?

180

00:09:58,680 --> 00:10:03,400

Why does this cop seem to possess a supernatural power beyond reason?

181

00:10:03,400 --> 00:10:07,240

I really thank God for the gift that he has given me.

182

00:10:07,240 --> 00:10:14,440

Because this is a perfect example how this gift works.

183

00:10:14,720 --> 00:10:19,720

George Brejak draws strength from his ability to help men the hurt in a grieving family.

184

00:10:19,720 --> 00:10:25,720

He's also gratified that his ability is the reason why John Short is serving 15 to 30

185

00:10:25,720 --> 00:10:28,720

in New Jersey State Prison for murder.

186

00:10:28,720 --> 00:10:31,520

Next, ancient stones reveal prehistoric man,

187

00:10:31,520 --> 00:10:34,520

charted the stars, and performed brain surgery.

188

00:10:34,520 --> 00:10:37,520

Was South American civilization disophisticated?

189

00:10:37,520 --> 00:10:38,520

I would say yes.

190

00:10:38,600 --> 00:10:46,600

Archaeologists search out an ancient site.

191

00:10:46,600 --> 00:10:51,600

They dig up shards of pottery and hand tools and desiccated bone.

192

00:10:51,600 --> 00:10:56,600

And then with these fragments of civilization, they build the jigsaw puzzle that we call history.

193

00:10:56,600 --> 00:10:59,600

But a newly discovered piece of the puzzle just doesn't seem to fit.

194

00:10:59,600 --> 00:11:04,600

Thousands of carved rocks called the ecostones suggest that eons ago,

195

00:11:04,680 --> 00:11:09,680

humankind had already mastered astronomy, medicine, and even aerodynamics.

196

00:11:09,680 --> 00:11:15,680

If the ecostones are genuine, every history book in the world will have to be rewritten.

197

00:11:22,680 --> 00:11:26,680

I traveled to the small bustling town of Eka in central Peru

198

00:11:26,680 --> 00:11:31,680

and was surprised to find that perhaps the greatest archaeological discovery of the 20th century

199

00:11:31,760 --> 00:11:35,760

was not being kept in a garden vault or an illustrious university,

200

00:11:35,760 --> 00:11:39,760

but in the private museum of Dr. Javier Cabrera.

201

00:11:39,760 --> 00:11:43,760

There I found these carved stones. About 15,000 of them.

202

00:11:43,760 --> 00:11:49,760

The Dr. Cabrera claims were largely discovered in the nearby mountains in the mid-1960s.

203

00:11:49,760 --> 00:11:54,760

The ecostones depict knowledge that ancient peoples are not supposed to possess.

204

00:11:54,760 --> 00:11:59,760

Here, a prehistoric astronomer studies a comet through a telescope.

205

00:11:59,840 --> 00:12:04,840

This is a view of the Earth, complete with all seven continents as seen from space.

206

00:12:04,840 --> 00:12:09,840

There are scenes of sophisticated medical procedures as performed by ancient surgeons.

207

00:12:09,840 --> 00:12:13,840

Dr. Cabrera, this is obviously a surgery here.

208

00:12:13,840 --> 00:12:16,840

What is it? What do we see here?

209

00:12:16,840 --> 00:12:19,840

Plansplans of the brain.

210

00:12:19,840 --> 00:12:26,840

How old are these stones, which so accurately depict modern procedures like this heart transplant?

211

00:12:26,920 --> 00:12:29,920

It has been impossible to scientifically date them,

212

00:12:29,920 --> 00:12:36,920

but this carving of a man riding a pterodactyl seems to indicate a time well before humankind was known to walk on Earth.

213

00:12:38,920 --> 00:12:44,920

Paleontologists and anthropologists tell us that the dinosaurs disappeared 65 million years ago

214

00:12:44,920 --> 00:12:48,920

and that man appeared during the last million years,

215

00:12:48,920 --> 00:12:52,920

and the stones tell us something else.

216

00:12:53,000 --> 00:12:59,000

Dr. Cabrera, a physician and professor of biology and anthropology at the University of Ica,

217

00:12:59,000 --> 00:13:04,000

has been vilified and ridiculed by many of his more mainstream colleagues.

218

00:13:04,000 --> 00:13:10,000

They contend that the ecostones must be fake, because they contradict the known timeline of history.

219

00:13:10,000 --> 00:13:17,000

But adventurer and author David Childress believes that the ecostones are not the only potential evidence

220

00:13:17,000 --> 00:13:22,000

that points to the existence of an advanced prehistoric culture in Peru.

221

00:13:22,080 --> 00:13:28,080

Archaeologists are starting to find out that civilizations in South America are incredibly old.

222

00:13:28,080 --> 00:13:33,080

Yearly, they keep pushing back history and civilization in South America.

223

00:13:33,080 --> 00:13:39,080

I think we're going to find that there are even older civilizations and those have been discovered so far.

224

00:13:39,080 --> 00:13:45,080

Evidence of an advanced prehistoric civilization is supported by the legend of Veracoccha,

225

00:13:45,080 --> 00:13:51,080

a mysterious stranger who was said to travel from town to town, spreading secret knowledge.

226

00:13:51,160 --> 00:13:57,160

The Peruvian story of Veracoccha is that Veracoccha landed in the area of Ica.

227

00:13:57,160 --> 00:14:04,160

Perhaps someone from Atlantis or some other lost civilization is now a refugee from his own homeland,

228

00:14:04,160 --> 00:14:10,160

because it's gone and he literally walks the earth going from town to town, city to city,

229

00:14:10,160 --> 00:14:16,160

a nation to nation, teaching the civilized arts of his ancient country.

230

00:14:16,240 --> 00:14:23,240

If they are genuine, the ecostones will provide scientific support for what is now only legend.

231

00:14:23,240 --> 00:14:31,240

But to date, not one single mainstream scientist has been willing to take any serious steps toward authenticating the stones.

232

00:14:31,240 --> 00:14:40,240

Dr. Cabrera's collection is so fantastic, so amazing, that official archaeologists just simply refuse to have a look at them.

233

00:14:40,240 --> 00:14:44,240

They're just impossible by normal historical standards.

234

00:14:44,320 --> 00:14:51,320

Yet what we have with Dr. Cabrera may be something that is so important in a historical way with Peru,

235

00:14:51,320 --> 00:14:59,320

that we've got to look at it and we've got to either authenticate once and for all these stones or disprove them.

236

00:14:59,320 --> 00:15:05,320

Why do you think some scientists have been so skeptical, so slow to accept the story of the stones?

237

00:15:05,320 --> 00:15:07,320

Are they threatened by them?

238

00:15:07,400 --> 00:15:13,400

Archaeologists have said these stones are falsifications.

239

00:15:13,400 --> 00:15:19,400

If there's one thing I regret, it is not having someone who seconds my opinion.

240

00:15:19,400 --> 00:15:31,400

I am simply an isolated investigator whom others attack by saying that these images are things, in reality, that I myself ordered engraved.

241

00:15:31,480 --> 00:15:37,480

Skepticism about the origin of the Ica stones began with the discovery itself.

242

00:15:37,480 --> 00:15:45,480

Newspaper accounts were vague, describing the stones as part of a secret hoard found in an undisclosed location.

243

00:15:45,480 --> 00:15:51,480

The police, suspecting grave robbing or antiquities smuggling, interrogated Basilio Mendoza,

244

00:15:51,480 --> 00:15:55,480

who was said to be selling similar stones to tourists.

245

00:15:55,560 --> 00:16:02,560

When questioned by police, Mendoza claimed that he had carved all 15,000 of the stones himself.

246

00:16:02,560 --> 00:16:08,560

He also sent a confession to the newspapers. Case closed, as far as archaeologists are concerned.

247

00:16:08,560 --> 00:16:11,560

But before you return a verdict to guilty, consider this.

248

00:16:11,560 --> 00:16:18,560

If Mendoza had stuck to his original story of finding the Ica stones at an ancient burial site,

249

00:16:18,560 --> 00:16:23,560

he would have been charged with a violation of the country's strict antiquities protection law,

250

00:16:23,640 --> 00:16:27,640

a crime punishable by a lengthy prison term.

251

00:16:27,640 --> 00:16:30,640

By claiming he had manufactured the stones himself,

252

00:16:30,640 --> 00:16:36,640

Basilio Mendoza was able to both keep out of jail and continue selling the stones.

253

00:16:36,640 --> 00:16:46,640

When the stones are put in their proper order, the message I read has not only to do with Peru and its territories, but with the world.

254

00:16:46,640 --> 00:16:50,640

And although this sounds like an exaggeration, the universe.

255

00:16:50,720 --> 00:16:56,720

Dr. Cabrera believes that his interpretation of the stones offers a challenging message

256

00:16:56,720 --> 00:16:59,720

about not only the past, but also the future.

257

00:16:59,720 --> 00:17:04,720

And that is why traditional scientists have rejected the legitimacy of the stones.

258

00:17:07,720 --> 00:17:11,720

We are living in apocalyptic times. Why?

259

00:17:11,720 --> 00:17:17,720

Because man has reversed the purpose of life and selfishness is causing him to lose the balance of the planetary ecosystem.

260

00:17:17,800 --> 00:17:22,800

All the wise men of the world know that we are headed towards a cataclysm.

261

00:17:24,800 --> 00:17:32,800

Author of Fingerprints of the Gods Graham Hancock has found this same apocalyptic message among the ruins of many other ancient civilizations.

262

00:17:32,800 --> 00:17:45,800

We have inherited a remarkable legacy of knowledge from what appears to be a highly sophisticated and advanced civilization that was destroyed in an enormous cataclysm.

263

00:17:45,880 --> 00:17:53,880

And what this legacy repeatedly and urgently warns us of is that the cataclysm will recur.

264

00:17:53,880 --> 00:18:02,880

These warnings may sound extreme, but there is scientific evidence that through the millennia, major earth changes have significantly altered our planet.

265

00:18:02,880 --> 00:18:09,880

What artifacts could survive this kind of global cataclysm? Not wood, not paper, but stone.

266

00:18:09,960 --> 00:18:19,960

Many researchers like Graham Hancock believe in the existence of an advanced civilization predating the stone age, but do not believe that the ecostones are genuine.

267

00:18:19,960 --> 00:18:28,960

Others like Dr. Javier Cabrera adamantly believe in the legitimacy of the stones and insist that they are among the most important artifacts ever discovered.

268

00:18:28,960 --> 00:18:32,960

Next, Jurassic Park isn't science fiction anymore.

269

00:18:33,040 --> 00:18:40,040

We're still learning a great deal about the types of organisms that we're able to revive.

270

00:18:47,040 --> 00:18:50,040

Here are some of the stories sightings is following in the news.

271

00:18:50,040 --> 00:18:59,040

Ancient enzymes are being extracted from insects found in prehistoric amber. It may be the first step toward a real life Jurassic Park.

272

00:19:03,040 --> 00:19:10,040

Robin Steele is the president of Amber Gene Corporation, a small biotech firm in San Carlos, California.

273

00:19:10,040 --> 00:19:19,040

Since 1992, amber gene has been successfully reactivating microorganisms trapped for millions of years inside ancient amber.

274

00:19:19,040 --> 00:19:22,040

We step back and really marvel at what we're doing.

275

00:19:22,040 --> 00:19:32,040

And our hope is that we're going to be able to find some very exciting information that can help us understand.

276

00:19:32,120 --> 00:19:35,120

The secret of life, essentially.

277

00:19:35,120 --> 00:19:42,120

Amber Gene technicians believe that propagating ancient organisms will now have important commercial applications.

278

00:19:42,120 --> 00:19:50,120

Better laundry detergents, tastier beer and wine, stronger paper products, and most importantly, more effective antibiotics.

279

00:19:50,120 --> 00:20:00,120

If we can find an organism that produces an antibiotic that is effective against this multiple drug resistant bacteria that we have nowadays,

280

00:20:00,200 --> 00:20:02,200

it certainly will save a lot of lives.

281

00:20:02,200 --> 00:20:07,200

So I think there is a tremendous potential for a discovery that would really help.

282

00:20:07,200 --> 00:20:16,200

100 million years ago, these tiny organisms got stuck in tree sap, which fossilized creating a suspension chamber we call amber.

283

00:20:16,200 --> 00:20:25,200

Hypothesis is that these microorganisms, because they're ancient, they are producing chemical compounds that are novel in structure.

284

00:20:25,280 --> 00:20:31,280

Chemical compounds that are not found in modern organisms.

285

00:20:33,280 --> 00:20:41,280

Amber Gene was the first company to develop a process that allows scientists to reach the mummified remains of insects inside the amber

286

00:20:41,280 --> 00:20:45,280

without compromising the microorganisms dormant within them.

287

00:20:45,280 --> 00:20:51,280

If you saw Jurassic Park, you have a pretty good idea where some people find all this may lead.

288

00:20:53,280 --> 00:20:54,280

We just don't know.

289

00:20:54,360 --> 00:21:03,360

We're still learning a great deal about the types of organisms that we're able to revive from this

ancient amber.

290

00:21:08,360 --> 00:21:15,360

In Las Vegas, Nevada, government workers are taking off in the middle of the night from the Karen Airport on this plane,

291

00:21:15,360 --> 00:21:20,360

and they're landing at this military installation, which until recently didn't officially exist.

292

00:21:20,440 --> 00:21:24,440

That's the routine for engineers and technicians who work at Area 51,

293

00:21:24,440 --> 00:21:31,440

a top-sequent aircraft design and testing facility in the Nevada desert, and the location of frequent UFO sightings.

294

00:21:31,440 --> 00:21:40,440

Now, a group of Area 51 employees are suing the government, claiming that they have gotten sick from on-the-job exposure to highly toxic chemicals.

295

00:21:40,440 --> 00:21:48,440

Rutgers University biochemist Dr. Peter Kahn has studied tissue samples from deceased Area 51 sheet metal worker Robert Frost.

296

00:21:48,520 --> 00:21:54,520

Dr. Kahn found levels of dioxin and di-benzer furan never before found in any human.

297

00:21:54,520 --> 00:21:59,520

When I first saw his profile, my reaction was, what on earth has the man been exposed to?

298

00:21:59,520 --> 00:22:08,520

So I sent the profile to some colleagues around the country and other countries, and people said, what on earth is this?

299

00:22:08,520 --> 00:22:14,520

And I was not in a position really to tell them. Nobody had any idea what this stuff might have been.

300

00:22:14,600 --> 00:22:20,600

And it is unlikely that anybody ever will, like just about everything else at Area 51,

301

00:22:20,600 --> 00:22:24,600

the chemical compounds that workers have been exposed to there are classified.

302

00:22:24,600 --> 00:22:27,600

Whatever killed Robert Frost remains a mystery.

303

00:22:27,600 --> 00:22:32,600

What certainly has raised my curiosity, especially when I consider that my tax dollars are paying for the down place.

304

00:22:32,680 --> 00:22:40,680

In Antarctica, scientists have confirmed for the first time an unprecedented increase in the melting and disintegration of this polar ice cap.

305

00:22:40,680 --> 00:22:46,680

The resulting excess water could cause seas worldwide to rise as much as 150 feet.

306

00:22:46,680 --> 00:22:52,680

The resulting change in mass and pressure has caused some scientists to seriously consider a previously ridiculed theory

307

00:22:52,680 --> 00:22:56,680

that the entire crust of the earth could show the impact of the ocean.

308

00:22:56,760 --> 00:23:04,760

Should the polar ice cap go in motion, the first thing that will happen will be tremendous earthquakes worldwide.

309

00:23:04,760 --> 00:23:12,760

And at the same time volcanic activity erupting and the wind will rage wildly trying to seek a new equilibrium.

310

00:23:12,760 --> 00:23:20,760

Noon's theory of massive global shift is controversial, but the effects of melting polar ice cap are very different.

311

00:23:20,840 --> 00:23:28,840

Recently researchers at a Woods Hole Oceanographic conference theorized that as much as one-third of eastern Antarctica could soon slip.

312

00:23:28,840 --> 00:23:32,840

A theory originally supported by Albert Einstein.

313

00:23:32,840 --> 00:23:36,840

We'll have more stories from the news next time.

314

00:23:36,840 --> 00:23:40,840

Now here's what's coming up on Sightings.

315

00:23:40,840 --> 00:23:43,920

Just what did crash into Shaggy's

316

00:23:44,000 --> 00:23:48,000

harbour Nova Scotia 28 years ago?

317

00:23:48,000 --> 00:23:52,000

We thought it was a plane crash the way it turned out.

318

00:23:52,000 --> 00:23:56,000

We don't know what it was.

319

00:23:56,000 --> 00:24:00,000

And investigating America's most haunted ship.

320

00:24:00,000 --> 00:24:04,000

I didn't expect this much activity.

321

00:24:04,000 --> 00:24:08,000

While it made me true that the Mounties always get their man on our planet,

322

00:24:08,080 --> 00:24:12,080

they apparently let a UFO slip through their fingers.

323

00:24:12,080 --> 00:24:20,080

It was on that day at 11.45 p.m. that a mysterious craft plummeted into the waters of Shag Harbor Nova Scotia in southeastern Canada.

324

00:24:20,080 --> 00:24:24,080

Now nearly 30 years later, the answer to the Shag Harbor mystery is about to be uncovered.

325

00:24:38,080 --> 00:24:42,080

172 miles away from the nearest international airport

326

00:24:42,080 --> 00:24:46,080

and 178 miles away from any air force testing range,

327

00:24:46,080 --> 00:24:50,080

Shag Harbor Nova Scotia is an unlikely location

328

00:24:50,080 --> 00:24:54,080

for sightings of unidentified spacecraft.

329

00:24:54,080 --> 00:24:58,080

But UFO investigator Chris Stiles has come to this tiny outpost on the Eastern Edge of North America

330

00:24:58,080 --> 00:25:02,080

because of stories his grandfather told him about one strange October night

331

00:25:02,080 --> 00:25:06,080

in 1967.

332

00:25:06,160 --> 00:25:10,160

Stiles has uncovered an extraordinary paper trail of evidence

333

00:25:10,160 --> 00:25:14,160

confirming that something anomalous, something very unconventional,

334

00:25:14,160 --> 00:25:18,160

crashed into the Atlantic off the coast of Shag Harbor

335

00:25:18,160 --> 00:25:22,160

just as his grandfather had always described.

336

00:25:22,160 --> 00:25:26,160

He told me about a 60 foot disk with four bright white lights

337

00:25:26,160 --> 00:25:30,160

that had hovered for a time in the air, tilted at a 45 degree angle

338

00:25:30,160 --> 00:25:34,160

and slid down and hit the water surface with a loud noise.

339

00:25:34,240 --> 00:25:38,240

Nearly 30 years after the crash, Stiles has discovered that there

340

00:25:38,240 --> 00:25:42,240

were many other eyewitnesses who still remember the crash like it was

341

00:25:42,240 --> 00:25:46,240

yesterday.

342

00:25:46,240 --> 00:25:50,240

We thought it was a plane crash the way it turned out.

343

00:25:50,240 --> 00:25:54,240

Lori Wickens is a local fisherman, born and raised around Shag Harbor.

344

00:25:54,240 --> 00:25:58,240

He was driving at night with several friends when he spotted the strange craft.

345

00:25:58,240 --> 00:26:02,240

We'd just come over that hill and we was driving towards Woods Harbor and we'd see boats.

346

00:26:02,320 --> 00:26:06,320

We thought it was an airplane that was coming on and going off.

347

00:26:06,320 --> 00:26:10,320

Four in sequence, one would come on, two in three, then four, then they'd all be out for a few seconds

348

00:26:10,320 --> 00:26:14,320

and it'd start over.

349

00:26:14,320 --> 00:26:18,320

Wickens and his friends saw the object crashing to the harbor. They called the RCMP

350

00:26:18,320 --> 00:26:22,320

who responded to the impact site. At that time there was a single light

351

00:26:22,320 --> 00:26:26,320

maybe a half mile offshore, quite visible but it was really dark.

352

00:26:26,320 --> 00:26:30,320

I was left on shore to keep an eye on the light

353

00:26:30,320 --> 00:26:34,320

and to watch if anything happened to it and briefly

354

00:26:34,320 --> 00:26:38,320

interview the witnesses as I was doing it. Within five minutes,

355

00:26:38,320 --> 00:26:42,320

seven minutes the light extinguished. The RCMP alerted the Coast Guard

356

00:26:42,320 --> 00:26:46,320

and until they arrived local fisherman scoured Shag Harbor looking for

357

00:26:46,320 --> 00:26:50,320

survivors what was thought to be a light plane crash. Captain Lauren Smith

358

00:26:50,320 --> 00:26:54,320

was among the first to reach the impact site.

359

00:26:54,320 --> 00:26:58,320

All I saw was some heavy yellow foam floating on the water. It was thick like shaving cream

360

00:26:58,320 --> 00:27:02,320

but it was about three inches thick on top of the water. There was no smell

361

00:27:02,320 --> 00:27:06,320

and I thought then well you know if a plane crashed and it

362

00:27:06,320 --> 00:27:10,320

skidged across the water for a wave it wouldn't make a foam.

363

00:27:10,320 --> 00:27:14,320

But then I couldn't figure out why it would be yellow.

364

00:27:14,320 --> 00:27:18,320

Early search and rescue efforts were conducted in full view of the public.

365

00:27:18,320 --> 00:27:22,320

Films were made, newspapers carried the story as front page news. Then without

366

00:27:22,320 --> 00:27:26,320

warning there was no more public disclosure. Christiles believes

367

00:27:26,320 --> 00:27:30,320

this is because of what may have been found there.

368

00:27:30,320 --> 00:27:34,320

I believe that this was a device, possibly a craft,

369

00:27:34,320 --> 00:27:38,320

possibly a probe from another

370

00:27:38,320 --> 00:27:42,320

intelligent civilization.

371

00:27:42,320 --> 00:27:46,320

Not of this earth.

372

00:27:46,320 --> 00:27:50,320

Stiles has reached this conclusion after examining hundreds of documents obtained

373

00:27:50,320 --> 00:27:54,320

through the Canadian version of the U.S. Freedom of Information Act.

374

00:27:54,320 --> 00:27:58,320

One of the documents he has uncovered is this Canadian Armed Forces memo

375

00:27:58,320 --> 00:28:02,320

stating that the Rescue Coordination Center conducted preliminary

376

00:28:02,320 --> 00:28:06,320

investigation and discounted the possibilities that the

377

00:28:06,320 --> 00:28:10,320

sighting was produced by an aircraft, flare or any other

378

00:28:10,320 --> 00:28:14,320

known objects.

379

00:28:14,320 --> 00:28:18,320

There were a number of related sightings that night. In those hours before an Air Canada

380

00:28:18,320 --> 00:28:22,320

flight saw UFO activity on the horizon

381

00:28:22,320 --> 00:28:26,320

they were greatly disturbed. There was apparently large

382

00:28:26,320 --> 00:28:30,320

explosions occurring and as the phenomena

383

00:28:30,320 --> 00:28:34,320

approached the aircraft there was a lot of communication with the towers and eventually

384

00:28:34,320 --> 00:28:38,320

it was decided to vacate the airspace and

385

00:28:38,320 --> 00:28:42,320

seek alternate routes.

386

00:28:42,320 --> 00:28:46,320

Even more eyewitness accounts were found

387

00:28:46,320 --> 00:28:50,320

in a secret RCMP file. Captain Leo Howard Mersey

388

00:28:50,320 --> 00:28:54,320

was the master of a Drager.

389

00:28:54,320 --> 00:28:58,320

He had 18 men aboard. All were witnesses to

390

00:28:58,320 --> 00:29:02,320

four UFOs in the distance on the water surface. They had radar returns

391

00:29:02,320 --> 00:29:06,320

and after observing them for two hours one of them became airborne and

392

00:29:06,320 --> 00:29:10,320

arced in the sky southwest toward the Shag Harbor area which was

393

00:29:10,320 --> 00:29:14,320

175 miles away. As a public search for the craft began in Shag Harbor

394

00:29:14,320 --> 00:29:18,320

behind the scenes. Many people have come including locals to tell

395

00:29:18,320 --> 00:29:22,320

a story that while this operation was going on in Shag

396

00:29:22,320 --> 00:29:26,320

Harbor there was another operation up the coast about 25 miles away

397

00:29:26,320 --> 00:29:30,320

off of Government Point. In 1967 Government Point was the

398

00:29:30,320 --> 00:29:34,320

site of a super secret military base. Former base divers claimed the

399

00:29:34,320 --> 00:29:38,320

search at Shag Harbor diverted tension away from the UFO's final resting

400

00:29:38,320 --> 00:29:42,320

place off Government Point. While they were down there there was still

401

00:29:42,320 --> 00:29:46,320

activity going on. They were reluctant to confirm details

402

00:29:46,320 --> 00:29:50,320

but they knew that this thing was being repaired.

403

00:29:50,320 --> 00:29:54,320

As one person told me the other object was standing nine feet for it

404

00:29:54,320 --> 00:29:58,320

as the expression they used sort of overlooking and giving it

405

00:29:58,320 --> 00:30:02,320

protection assistance whatever was necessary. And they're quite certain

406

00:30:02,320 --> 00:30:06,320

from their experiences that this was nothing that was produced here on Earth

407

00:30:06,320 --> 00:30:10,320

and some of the divers insist that they did indeed

408

00:30:10,320 --> 00:30:14,320

bring up some debris. Stiles searched for documentation

409

00:30:14,320 --> 00:30:18,320

to support the divers claims and found it in this letter written two months

410

00:30:18,320 --> 00:30:22,320

after the Shag Harbor incident. It specifically mentions DND

411

00:30:22,320 --> 00:30:26,320

Department of National Defense UFO material available for review.

412

00:30:26,320 --> 00:30:30,320

Based on this information

413

00:30:30,320 --> 00:30:34,320

Chris Stiles is mounting a recovery operation to search for more UFO debris.

414

00:30:34,320 --> 00:30:38,320

Sightings will document this search

415

00:30:38,320 --> 00:30:42,320

and bring you the findings on an upcoming edition of our program.

416

00:30:42,320 --> 00:30:46,320

Next is the Queen Mary

417

00:30:46,320 --> 00:30:50,320

The Most Haunted Spot in America. In my opinion there are at least

418

00:30:50,320 --> 00:30:54,320

600 ghosts that walk these quarters.

419

00:30:58,320 --> 00:31:02,320

In her heyday the luxury liner HMS

420

00:31:02,320 --> 00:31:06,320

Queen Mary hosted royalty and heads of state and Hollywood's

421

00:31:06,320 --> 00:31:10,320

most brilliant stars. But she also carried third class passengers

422

00:31:10,320 --> 00:31:14,320

dreaming of a better life. Young men going off to battle for the

423

00:31:14,320 --> 00:31:18,320

first time during World War II. And prisoners of war who faced an uncertain

424

00:31:18,320 --> 00:31:22,320

fate. All that emotion, the dreams, the fears, the hopes, the history

425

00:31:22,320 --> 00:31:26,320

is still felt today because as sightings Carla

426

00:31:26,320 --> 00:31:30,320

Wall discovered the Queen Mary is haunted by the past.

427

00:31:30,320 --> 00:31:34,320

You don't know how to stay here.

428

00:31:34,320 --> 00:31:38,320

Yes, you can do that too if you want to.

429

00:31:38,320 --> 00:31:42,320

This night there are no real children aboard the Queen Mary.

430

00:31:42,320 --> 00:31:46,320

I want to go back, I don't want to go back.

431

00:31:46,320 --> 00:31:50,320

Yes, I want to look.

432

00:31:50,320 --> 00:31:54,320

I'm looking.

433

00:31:54,320 --> 00:31:58,320

Sightings are not a secret.

434

00:31:58,320 --> 00:32:02,320

I'm looking. Psychic Peter James believes that the

435

00:32:02,320 --> 00:32:06,320

tiny voice calling out to him is physical proof that

436

00:32:06,320 --> 00:32:10,320

the restless spirit of a child is trapped inside this aging luxury

437

00:32:10,320 --> 00:32:14,320

liner. Let me help you.

438

00:32:14,320 --> 00:32:18,320

Help me. Okay, talk to me again.

439

00:32:18,320 --> 00:32:22,320

In my opinion

440

00:32:22,320 --> 00:32:26,320

there are at least 600 ghosts that walk these quarters

441

00:32:26,320 --> 00:32:30,320

regularly. The Queen Mary has become known in

442

00:32:30,320 --> 00:32:34,320

paranormal circles as a holding cell for the nether world.

443

00:32:34,320 --> 00:32:38,320

Yuri Echos of the past still resound in every corner.

444

00:32:38,320 --> 00:32:42,320

From the moment she was first launched in

445

00:32:42,320 --> 00:32:46,320

1936 the Queen Mary changed the face of transatlantic travel.

446

00:32:46,320 --> 00:32:50,320

She was the fastest ship in the water built to carry the world's rich

447

00:32:50,320 --> 00:32:54,320

and famous but World War II changed all that. The great

448

00:32:54,320 --> 00:32:58,320

liner was stripped and put into military service, ferrying soldiers

449

00:32:58,320 --> 00:33:02,320

and prisoners around the world. It was during the war, says

450

00:33:02,320 --> 00:33:06,320

ship officer Jenny Palmer, that a macabre incident turned the seas

451

00:33:06,320 --> 00:33:10,320

around the Queen Mary red with the blood of innocent men.

452

00:33:10,320 --> 00:33:14,320

One of the escorting cruisers when she was approaching the Scottish shorelines

453

00:33:14,320 --> 00:33:18,320

turned accidentally in front of the Queen Mary. And the Queen Mary

454

00:33:18,320 --> 00:33:22,320

hit this cruiser, it was called the carousel, and 303rd six men were lost.

455

00:33:22,320 --> 00:33:26,320

Because of the danger posed by enemy submarines known to be

456

00:33:26,320 --> 00:33:30,320

operating in the area, the Queen Mary was ordered not to stop for survivors.

457

00:33:30,320 --> 00:33:34,320

The pathetic cries of dying men went unanswered

458

00:33:34,320 --> 00:33:38,320

but not unheard as the ship slowly sailed away.

459

00:33:38,320 --> 00:33:42,320

Has that chilling event from the past somehow been imprinted

460

00:33:42,320 --> 00:33:46,320

on the present? Paranormal researchers Richard and

461

00:33:46,320 --> 00:33:50,320

Deborah Sennett believe the Queen Mary is a classic sight of what's known

462

00:33:50,320 --> 00:33:54,320

as residual haunting. At Siding's request, the

463

00:33:54,320 --> 00:33:58,320

Senate have joined Peter James and a team of support technicians for a late night

464

00:33:58,320 --> 00:34:02,320

surveillance. They've brought the tools of the paranormal

465

00:34:02,320 --> 00:34:06,320

trade, an electrostatic voltmeter to detect anomalous levels

466

00:34:06,320 --> 00:34:10,320

of static electricity, a thermocouple to measure minute temperature

467

00:34:10,320 --> 00:34:14,320

fluctuations, and highly sensitive microphones attached to

468

00:34:14,320 --> 00:34:18,320

digital recorders. 3D photographs will be taken with a stereoscopic

469

00:34:18,320 --> 00:34:22,320

camera, and heat sensitive video imaging is provided by a

470

00:34:22,320 --> 00:34:26,320

thermo vision camera. When you come, what are you looking for?

471

00:34:26,320 --> 00:34:30,320

We're looking for evidence of paranormal activity. I mean, it's one thing

472

00:34:30,320 --> 00:34:34,320

to have a collection of stories about people sighting ghosts, but if we

473

00:34:34,320 --> 00:34:38,320

can get evidence to prove that there is something here.

474

00:34:38,320 --> 00:34:42,320

At 1 a.m., the investigators are concentrating their activities deep

475

00:34:42,320 --> 00:34:46,320

below decks in an area of the ship not open to the public.

476

00:34:46,320 --> 00:34:50,320

Suddenly, we heard strange sounds resonate through the hall.

477

00:35:06,320 --> 00:35:10,320

But as suddenly as they appeared, the sounds vanished.

478

00:35:10,320 --> 00:35:14,320

So the pool is right through these doors. We went to the Queen Mary's

479

00:35:14,320 --> 00:35:18,320

indoor pool, where Peter had first heard the cries of a ghostly child

480

00:35:18,320 --> 00:35:22,320

in 1991. People often see things

481

00:35:22,320 --> 00:35:26,320

not on the second. People have seen all kinds of

482

00:35:26,320 --> 00:35:30,320

different things. Almost immediately, Richard's voltmeter begins

483

00:35:30,320 --> 00:35:34,320

to register electrostatic interference.

484

00:35:34,320 --> 00:35:38,320

This is pretty strange.

485

00:35:38,320 --> 00:35:42,320

So that's telling you what, Richard?

486

00:35:42,320 --> 00:35:46,320

There's a strong static charge in there.

487

00:35:46,320 --> 00:35:50,320

There may well have been something in there, something moving

488

00:35:50,320 --> 00:35:54,320

around in there. Photographer Paul Scarzo stayed in sync with anomalous

489

00:35:54,320 --> 00:35:58,320

meter readings. Every time the electrostatic voltmeter would spike,

490

00:35:58,320 --> 00:36:02,320

that's when I would take a picture. His 3D camera has multiple

491

00:36:02,320 --> 00:36:06,320

lenses with shutters that fire simultaneously.

492

00:36:06,320 --> 00:36:10,320

The result is to provide slightly different angles of the same field

493

00:36:10,320 --> 00:36:14,320

of view. When you're shooting in 3D photography, you're going to catch

494

00:36:14,320 --> 00:36:18,320

whatever the solid object is in all four lenses.

495

00:36:18,320 --> 00:36:22,320

In one of the different sections of this changing area, he got a

496

00:36:22,320 --> 00:36:26,320

reading. It was a very impressive spike, and so I took a picture.

497

00:36:26,320 --> 00:36:30,320

We get an image. The image appears

498

00:36:30,320 --> 00:36:34,320

to be a solid object, and it's between Richard and I.

499

00:36:34,320 --> 00:36:38,320

Now to do that would be physically impossible because

500

00:36:38,320 --> 00:36:42,320

the solid object only appears in one of the four frames.

501

00:36:42,320 --> 00:36:46,320

Photographic experts cannot explain it since the camera shoots the four frames

502

00:36:46,320 --> 00:36:50,320

at the same time. It's only in one of the frames.

503

00:36:50,320 --> 00:36:54,320

And for something to move in and out of the shot that fast would be

504

00:36:54,320 --> 00:36:58,320

have to travel faster than the aperture speed. All four of these frames should

505

00:36:58,320 --> 00:37:02,320

be identical, and they're not. As far as an explanation

506

00:37:02,320 --> 00:37:06,320

for this kind of anomaly in the film,

507

00:37:06,320 --> 00:37:10,320

there isn't any.

508

00:37:10,320 --> 00:37:14,320

The team moves on. Five decks down, deep under the water line.

509

00:37:14,320 --> 00:37:18,320

We work our way along the keel to the stem of the ship.

510

00:37:18,320 --> 00:37:22,320

Listen. Listen.

511

00:37:22,320 --> 00:37:26,320

Listen. Listen. There's that noise.

512

00:37:26,320 --> 00:37:30,320

Eury noises rumbling within the empty bulkheads mark this as

513

00:37:30,320 --> 00:37:34,320

another paranormal hotspot. Hello?

514

00:37:34,320 --> 00:37:38,320

Now remember, we're 50 feet under water.

515

00:37:38,320 --> 00:37:42,320

This is the bow of the ship.

516

00:37:42,320 --> 00:37:46,320

The impact point where the Leviathan Queen Mary cut the curasil in half.

517

00:37:46,320 --> 00:37:50,320

Is this wartime tragedy indelibly

518

00:37:50,320 --> 00:37:54,320

imprinted on the steel frame of the ship?

519

00:37:54,320 --> 00:37:58,320

As we descended into the bow,

520

00:37:58,320 --> 00:38:02,320

the thermo vision camera registered inexplicable cold spots.

521

00:38:02,320 --> 00:38:06,320

Then, above the drone of the voltmeter, more strange noises.

522

00:38:06,320 --> 00:38:08,320

Sound of the sound

523

00:38:08,320 --> 00:38:10,320

of the drone

524

00:38:10,320 --> 00:38:12,320

of the voltmeter

525

00:38:12,320 --> 00:38:14,320

sound

526

00:38:14,320 --> 00:38:16,320

of the drone

527

00:38:16,320 --> 00:38:18,320

sound

528

00:38:18,320 --> 00:38:20,320

of the drone

529

00:38:20,320 --> 00:38:22,320

sound

530

00:38:22,320 --> 00:38:24,320

of the drone

531

00:38:24,320 --> 00:38:26,320

sound

532

00:38:26,320 --> 00:38:28,320

of the drone

533

00:38:28,320 --> 00:38:30,320

sound

534

00:38:30,320 --> 00:38:33,320

of the drone

535

00:38:33,320 --> 00:38:37,320

An overall impression of this place, is this what you expected to find?

536

00:38:37,320 --> 00:38:40,320

I didn't expect this much activity. That's honest.

537

00:38:40,320 --> 00:38:44,320

I expected we'd get something by the pool and maybe something in the engine room.

538

00:38:44,320 --> 00:38:48,320

And the stories all indicate, you know, there's several ghosts here.

539

00:38:48,320 --> 00:38:51,320

I'm willing to say that there's much more than several.

540

00:38:51,320 --> 00:38:54,320

That there's a lot of psychic impressions on this ship.

541

00:38:54,320 --> 00:38:58,320

In the many years that I've done ghost research,

542

00:38:58,320 --> 00:39:03,800

I would say, by far, no question, that in my opinion, the Queen Mary is one of the most

543

00:39:03,800 --> 00:39:05,320

haunted places in the country.

544

00:39:05,320 --> 00:39:06,320

Speak to me.

545

00:39:06,320 --> 00:39:07,320

Talk to me.

546

00:39:07,320 --> 00:39:15,560

There's an interesting expression many of us use to describe the feeling we get when

547

00:39:15,560 --> 00:39:18,080

visiting an historic place like the Queen Mary.

548

00:39:18,080 --> 00:39:24,520

We say it has a sense of history, that there's a tangible sense of the past imprinted on the

549

00:39:24,520 --> 00:39:26,120

present.

550

00:39:26,120 --> 00:39:31,120

It's the same definition many paranormal researchers use for the word haunting.

551

00:39:31,120 --> 00:39:37,120

Next, from outer space to cyberspace, UFOs have found a home on the Internet.

552

00:39:37,120 --> 00:39:47,320

It will dwarf the power and the reach of other media.

553

00:39:47,320 --> 00:39:50,960

Here at Sightings, viewer input is critical.

554

00:39:50,960 --> 00:39:55,800

It's through you that we learn about important new cases, intriguing opinions on paranormal

555

00:39:55,800 --> 00:39:59,480

phenomena and, of course, the skeptics point of view.

556

00:39:59,480 --> 00:40:05,240

Recently, Sightings went online to give viewers instant access to our investigative team.

557

00:40:05,240 --> 00:40:10,840

And so Sightings could give something back to you.

558

00:40:10,840 --> 00:40:16,120

If Alexander Graham Bell could see us now, phone line is being used to transfer messages,

559

00:40:16,120 --> 00:40:20,960

images and thousands of pages of data from all over the world directly into your home

560

00:40:20,960 --> 00:40:22,200

computer.

561

00:40:22,200 --> 00:40:27,560

In the vast universe of cyberspace, Sightings maintains an outpost of information on America

562

00:40:27,560 --> 00:40:28,560

Online.

563

00:40:28,560 --> 00:40:33,840

Through AOL's subscription service, Sightings viewers can download information about UFOs

564

00:40:33,840 --> 00:40:37,280

and other paranormal phenomena.

565

00:40:37,280 --> 00:40:41,520

Sightings has also made it possible for AOL subscribers to exchange information with

566

00:40:41,520 --> 00:40:47,360

other paranormal enthusiasts and talk live with Sightings' own experts.

567

00:40:47,360 --> 00:40:51,120

Why would the government cover up a balloon crash for so long?

568

00:40:51,120 --> 00:40:55,760

Eventually, subscribers had a chance to query Stanton Friedman and Carl Flach, two prominent

569

00:40:55,760 --> 00:41:00,760

UFO researchers who are often at loggerheads about the mysterious crash at Roswell, New

570

00:41:00,760 --> 00:41:01,760

Mexico.

571

00:41:01,760 --> 00:41:02,760

They brought their expertise online.

572

00:41:02,760 --> 00:41:08,400

How can experts sort the genuine UFO reports from crackpots looking for publicity?

573

00:41:08,400 --> 00:41:14,840

Look at the credentials of the individuals they're dealing with.

574

00:41:14,840 --> 00:41:20,240

Make a look at what they tell you to see if it's consistent with the other information

575

00:41:20,240 --> 00:41:23,640

that you have available.

576

00:41:23,640 --> 00:41:31,920

Cyberspace is a new medium and in some ways I expect it will dwarf the power and the reach

577

00:41:31,920 --> 00:41:33,160

of other media.

578

00:41:33,160 --> 00:41:37,200

Michael Lindemann runs an online information center called the Institute for the Study

579

00:41:37,200 --> 00:41:40,680

of Contact with Non-Human Intelligence.

580

00:41:40,680 --> 00:41:44,880

I actually think there's a very good match, in fact, between people working on the UFO

581

00:41:44,880 --> 00:41:47,080

subject and people in cyberspace.

582

00:41:47,080 --> 00:41:52,600

In a room full of UFO enthusiasts, you find lots of people with advanced degrees and lots

583

00:41:52,600 --> 00:41:54,600

of people with computer skills.

584

00:41:54,600 --> 00:41:57,800

Nicknames can be used instead of real names online.

585

00:41:57,800 --> 00:42:03,240

This anonymity encourages hoaxing but also allows reluctant witnesses to come forward.

586

00:42:03,240 --> 00:42:08,400

More and more people will tell stories or share experiences and insights that they have

587

00:42:08,400 --> 00:42:11,800

literally kept to themselves all their life.

588

00:42:11,800 --> 00:42:18,680

And the story set apart by itself may be only curious but set in a constellation of other

589

00:42:18,680 --> 00:42:21,520

stories from equally solid people.

590

00:42:21,520 --> 00:42:22,920

It becomes a phenomenon.

591

00:42:22,920 --> 00:42:26,440

It becomes something important.

592

00:42:26,440 --> 00:42:31,640

Online sightings periodically conducts opinion polls on a variety of paranormal topics.

593

00:42:31,640 --> 00:42:35,920

Recently we asked the question, do you believe that the government is involved in covering

594

00:42:35,920 --> 00:42:39,520

up the truth about their involvement in UFOs?

595

00:42:39,520 --> 00:42:42,480

Over 90% of the respondents answered yes.

596

00:42:42,480 --> 00:42:44,960

The US government is covering up what they know.

597

00:42:44,960 --> 00:42:49,120

Through the online service, you can participate in the sightings opinion polls.

598

00:42:49,120 --> 00:42:56,360

We'll bring you the results on future programs.

599

00:42:56,360 --> 00:43:00,640

If you've had a paranormal experience, please write to us at Sightings.

600

00:43:00,640 --> 00:43:05,040

Sightings can also be contacted at America Online at keyword Sightings.

601

00:43:05,040 --> 00:43:09,880

At the Sightings forum, download images, sounds and quick time clips.

602

00:43:09,880 --> 00:43:14,720

Also join us daily in our chat room, live on AOL.

603

00:43:14,720 --> 00:43:20,080

Until next time remember, no mystery is closed to an open mind.

604

00:43:20,080 --> 00:43:30,160

For sightings, I'm Tim White.

605

00:43:30,160 --> 00:43:59,280

Next on Sci-Fi Dark Shadows.

606

00:43:59,280 --> 00:44:00,280

Sci-Fi World.

607

00:44:00,280 --> 00:44:01,280

Chain reactions of Sci-Fi's greatest hits.

608

00:44:01,280 --> 00:44:06,280

Weekdays 11 to 4 Eastern and Pacific on Sci-Fi.
