

1

00:00:00,000 --> 00:00:06,000

On this edition of Sightings, on a perfectly clear day in 1978,

2

00:00:06,000 --> 00:00:09,000

Freddie Valentich encountered a UFO at 5,000 feet.

3

00:00:09,000 --> 00:00:11,000

He hasn't been heard from since.

4

00:00:11,000 --> 00:00:13,000

He comes to the southwest while shining a metallic.

5

00:00:13,000 --> 00:00:15,000

My God, she comes at me!

6

00:00:15,000 --> 00:00:19,000

To Australia's top secret pine gap tracking station, hold the answer.

7

00:00:19,000 --> 00:00:22,000

Your program has got a hold of a tiger by the tail here

8

00:00:22,000 --> 00:00:25,000

when you start looking in the pine gap.

9

00:00:25,000 --> 00:00:28,000

In the rugged Sierra Mountains, this man's miraculous vision

10

00:00:28,000 --> 00:00:31,000

accomplished what 100 rescue workers couldn't.

11

00:00:31,000 --> 00:00:33,000

Someone was just pushing me the whole way.

12

00:00:33,000 --> 00:00:36,000

It was like I was chosen to go.

13

00:00:36,000 --> 00:00:38,000

The Air Force says it's simply a research tool.

14

00:00:38,000 --> 00:00:42,000

Others say the military finally has the ultimate doomsday machine.

15

00:00:42,000 --> 00:00:45,000

It's got all the marks of Dr. Strange love on it.

16

00:00:45,000 --> 00:00:50,000

Last summer, the kids who attend this grade school all claim they encountered an alien.

17

00:00:50,000 --> 00:00:54,000

Why would 62 children lie?

18

00:00:58,000 --> 00:01:24,000

MUSIC

19

00:01:24,000 --> 00:01:27,000

Welcome to Sightings. I'm Tim White.

20

00:01:27,000 --> 00:01:31,000

Every year, one grieving father in Australia makes a pilgrimage

21

00:01:31,000 --> 00:01:33,000

to the place where his son disappeared.

22

00:01:33,000 --> 00:01:37,000

Even though Freddie Valentich has been missing for close to 20 years,

23

00:01:37,000 --> 00:01:39,000

his father has not given up hope.

24

00:01:39,000 --> 00:01:43,000

He believes that one day the extraterrestrials who took his son away

25

00:01:43,000 --> 00:01:46,000

may decide to bring him back to Earth.

26

00:01:46,000 --> 00:01:52,000

MUSIC

27

00:01:52,000 --> 00:01:56,000

He was a 20-year-old pilot with the Australian Air Training Corps

28

00:01:56,000 --> 00:02:00,000

who took off on October 21, 1978 and was never seen again.

29

00:02:00,000 --> 00:02:04,000

Freddie Valentich took off from Moorabbin Airport in Victoria,

30

00:02:04,000 --> 00:02:07,000

bound for Cape Otway on King Island.

31

00:02:07,000 --> 00:02:11,000

45 minutes into the flight, the control tower in Cape Otway

32

00:02:11,000 --> 00:02:13,000

received an alarming SOS.

33

00:02:13,000 --> 00:02:18,000

Valentich was on a collision course with a strange craft he could not identify.

34

00:02:18,000 --> 00:02:21,000

According to the tower, the radar screen was clean.

35

00:02:21,000 --> 00:02:25,000

For six minutes, Valentich continued to insist that a UFO

36

00:02:25,000 --> 00:02:28,000

was approaching him at a high rate of speed.

37

00:02:28,000 --> 00:02:30,000

Then his radio went dead.

38

00:02:30,000 --> 00:02:32,000

Is there traffic below 5,000?

39

00:02:32,000 --> 00:02:33,000

No traffic.

40

00:02:33,000 --> 00:02:35,000

Traffic above me at 5,000.

41

00:02:35,000 --> 00:02:37,000

None. And none.

42

00:02:37,000 --> 00:02:39,000

Near your position and altitude.

43

00:02:39,000 --> 00:02:41,000

Tower, you must read check.

44

00:02:41,000 --> 00:02:44,000

Above it. No, but no. A terrible brightness.

45

00:02:44,000 --> 00:02:47,000

Nothing. Nothing.

46

00:02:47,000 --> 00:02:49,000

And then he was gone.

47

00:02:49,000 --> 00:02:53,000

Freddie Valentich and his airplane disappeared without a trace.

48

00:02:53,000 --> 00:02:56,000

Legally dead by everyone but his father.

49

00:02:56,000 --> 00:02:58,000

17 years after Fred's disappearance,

50

00:02:58,000 --> 00:03:02,000

Guido Valentich still makes an annual pilgrimage to Cape Otway

51

00:03:02,000 --> 00:03:06,000

where he believes he lost his eldest son to a UFO.

52

00:03:06,000 --> 00:03:11,000

That particular day I supposed to be with my son on the airplanes

53

00:03:11,000 --> 00:03:16,000

and I feel a little bit sorry that I didn't go

54

00:03:16,000 --> 00:03:20,000

because in my mind I felt that if I would have been with him,

55

00:03:20,000 --> 00:03:28,000

perhaps one would say the situation could turn out slightly different.

56

00:03:28,000 --> 00:03:34,000

Why would a father return here every year on the anniversary of his son's disappearance

57

00:03:34,000 --> 00:03:39,000

and reflect on the possibility that his child had a close encounter with a UFO?

58

00:03:39,000 --> 00:03:42,000

Because Guido Valentich says knowing Freddie,

59

00:03:42,000 --> 00:03:44,000

it's the only explanation that makes sense.

60

00:03:44,000 --> 00:03:49,000

He was hardworking and honest, a straight shooter who knew how to fly.

61

00:03:50,000 --> 00:03:53,000

His future was to be a commercial pilot.

62

00:03:53,000 --> 00:03:57,000

He had about close to 200 hours flying.

63

00:03:57,000 --> 00:04:03,000

The last time I spoke to him was the morning of the 21st of October

64

00:04:03,000 --> 00:04:07,000

at the breakfast table and as he went there,

65

00:04:07,000 --> 00:04:10,000

I remember Dick was lying to me, you know, the last word he said,

66

00:04:10,000 --> 00:04:14,000

oh, it's gotta be a beautiful day to fly today.

67

00:04:14,000 --> 00:04:17,000

Freddie's flight plan that warmed cloudless evening

68

00:04:17,000 --> 00:04:19,000

took him over the infamous Bass Strait,

69

00:04:19,000 --> 00:04:23,000

an area known as the Australian Bermuda Triangle.

70

00:04:23,000 --> 00:04:26,000

There had been other disappearances, reports of mechanical failures

71

00:04:26,000 --> 00:04:28,000

and magnetic anomalies,

72

00:04:28,000 --> 00:04:32,000

but Valentich was the first pilot to ever report into the control tower

73

00:04:32,000 --> 00:04:35,000

that he was in the presence of a threatening UFO.

74

00:04:35,000 --> 00:04:39,000

His voice told the controller to take this SOS seriously.

75

00:04:39,000 --> 00:04:42,000

Tower, he's not in the aircraft.

76

00:04:42,000 --> 00:04:44,000

Repeat, not in the aircraft, no, Lewis.

77

00:04:44,000 --> 00:04:49,000

An identified vehicle is a green light at terminus of upper cylinder.

78

00:04:49,000 --> 00:04:53,000

Out of projection appears to be aluminium or some other light metal.

79

00:04:53,000 --> 00:04:58,000

The windows are unmistakable and I see four other lights from the interior.

80

00:04:58,000 --> 00:05:02,000

No, no, windows. Some other observation area.

81

00:05:02,000 --> 00:05:05,000

Tower, he's playing a game.

82

00:05:05,000 --> 00:05:09,000

The actual tapes of Freddie's communication with the tower were considered top secret

83

00:05:09,000 --> 00:05:14,000

and Guido Valentich was allowed to listen to his son's last words only one time.

84

00:05:14,000 --> 00:05:17,000

Soon after, the tapes were erased.

85

00:05:17,000 --> 00:05:22,000

A version of the tape transcript was leaked to the media by anonymous airport personnel.

86

00:05:22,000 --> 00:05:28,000

Valentich gave a complete description of the type of the craft, the shape, the portholes,

87

00:05:28,000 --> 00:05:31,000

what it was doing, how it was buzzing him, circling him,

88

00:05:31,000 --> 00:05:36,000

going off at great speeds, disappearing, coming back.

89

00:05:36,000 --> 00:05:43,000

And he was in constant contact with the tower over this period of time until 714

90

00:05:43,000 --> 00:05:50,000

when all of a sudden he said this was approaching him and bathed him in a green light,

91

00:05:50,000 --> 00:05:52,000

the plane and everything.

92

00:05:52,000 --> 00:05:59,000

And then there was a metal scraping sound and he just disappeared off the face of the earth, the plane and everything.

93

00:05:59,000 --> 00:06:01,000

You believe me, Log?

94

00:06:01,000 --> 00:06:03,000

Sure do. We're now at Valentich.

95

00:06:03,000 --> 00:06:09,000

Thank you, Tower. In proceeding at a speed of 110 at the same course moving up to 4,000.

96

00:06:09,000 --> 00:06:12,000

Wait, wait, ancient faltering.

97

00:06:12,000 --> 00:06:14,000

We've got rough idling, she may call me.

98

00:06:14,000 --> 00:06:17,000

She's caught up for rear in tremendous burst.

99

00:06:17,000 --> 00:06:21,000

His green light is all over here. It's not an aircraft.

100

00:06:21,000 --> 00:06:29,000

Going up to 5,000, 6,000, long wingless metallic tube spouting flame of your scorching appeal.

101

00:06:29,000 --> 00:06:36,000

229, 229, we hear something tearing. 229, 229, please reply.

102

00:06:36,000 --> 00:06:44,000

When the tower lost radio contact, a search plane was sent to the point of last contact, 12 miles off the coast of Melbourne.

103

00:06:44,000 --> 00:06:49,000

There was no sign of Valentich. They searched by air, by land and by sea.

104

00:06:49,000 --> 00:06:54,000

But after three weeks, searchers had found nothing and the operation was suspended.

105

00:06:54,000 --> 00:06:59,000

To the first of the tour because it's one die which I can never forget.

106

00:06:59,000 --> 00:07:08,000

I'd like to go down to respect and study some of the area when this phenomenon occurred

107

00:07:08,000 --> 00:07:14,000

and to be able to see some strange thing perhaps on that particular die.

108

00:07:14,000 --> 00:07:20,000

Officially, there were no eyewitnesses to Freddie Valentich's disappearance nearly 20 years ago.

109

00:07:20,000 --> 00:07:28,000

But a small group of UFO researchers claim there were eyewitnesses working here, working for the United States government.

110

00:07:28,000 --> 00:07:34,000

This is the Pine Gap Research Facility, a tracking station located in the Australian outback.

111

00:07:34,000 --> 00:07:41,000

And according to researcher Robert Dean, Pine Gap knows more than it's willing to tell about Fred Valentich.

112

00:07:41,000 --> 00:07:46,000

They can track anything from a basketball-sized meteor.

113

00:07:46,000 --> 00:07:51,000

There's no question in my mind that the Pine Gap facility tracked that object.

114

00:07:51,000 --> 00:07:57,000

They were tracking Fred, they were tracking that object. God knows when the truth will come out.

115

00:07:57,000 --> 00:08:05,000

But I think Fred was grabbed and I know Pine Gap must have monitored the whole damn thing because we monitor everything.

116

00:08:05,000 --> 00:08:14,000

According to Dean and others, the Pine Gap tracking station did much more than simply track the last moments of Fred Valentich's life.

117

00:08:14,000 --> 00:08:18,000

Did officials there have a hand in the death of an innocent man?

118

00:08:18,000 --> 00:08:21,000

More on this story when sightings returns.

119

00:08:21,000 --> 00:08:26,000

Next, the Pine Gap connection to the disappearance of Freddie Valentich.

120

00:08:26,000 --> 00:08:31,000

The real secret behind it involves the alien reality and UFOs.

121

00:08:31,000 --> 00:08:46,000

A fiery oblong UFO, no wings, no observable propulsion system, soaring above Australia at unbelievable speed.

122

00:08:46,000 --> 00:08:51,000

It was the last thing Pilot Fred Valentich saw before he disappeared off the face of the Earth.

123

00:08:51,000 --> 00:08:58,000

That was 17 years ago and from that day to this, his father and a handful of dedicated researchers

124

00:08:58,000 --> 00:09:04,000

have searched for information about who or what was controlling that UFO.

125

00:09:10,000 --> 00:09:13,000

229, are you on a collision course over?

126

00:09:13,000 --> 00:09:19,000

No, it's still at my side. It can hang motionless, orbit over and under me.

127

00:09:19,000 --> 00:09:21,000

Proceed 229.

128

00:09:21,000 --> 00:09:27,000

Wingless tubes she is. Maybe 100 feet long with a green blast, sometimes green paper.

129

00:09:29,000 --> 00:09:38,000

These were Freddie Valentich's exact words to an air traffic controller when he encountered an unknown object over Australia's vast strait.

130

00:09:38,000 --> 00:09:40,000

He disappeared minutes later.

131

00:09:40,000 --> 00:09:53,000

Now, a small but convincing group of researchers believe that Valentich's encounter must have been observed and was then covered up by a super secret government tracking facility at Pine Gap, Australia.

132

00:09:53,000 --> 00:10:02,000

Anything that comes in from out there in space on the planet is immediately picked up, whether it's a meteor or whatever.

133

00:10:02,000 --> 00:10:07,000

If it's one of our own satellites, if it's something we don't know, immediately they pick it up.

134

00:10:07,000 --> 00:10:13,000

They monitor it, they photograph it, they track it. That's what Pine Gap does.

135

00:10:13,000 --> 00:10:17,000

Robert Dean is a retired United States Army Command Sergeant Major.

136

00:10:17,000 --> 00:10:26,000

In his 27-year military career, Dean claims that he was involved in several top secret military operations concerning UFOs.

137

00:10:26,000 --> 00:10:32,000

Your program has got a hold of a tiger by the tail here when you start looking into Pine Gap.

138

00:10:32,000 --> 00:10:41,000

And I must be honest with you that the Pine Gap facility and all that it's involved with is probably one of the most secret installations in the world.

139

00:10:41,000 --> 00:10:48,000

The NSA is involved, the CIA is involved, and the National Reconnaissance Office is part of that.

140

00:10:48,000 --> 00:10:55,000

They call it a joint space defense facility, but it's a hell of a lot more than that.

141

00:10:55,000 --> 00:11:01,000

But other experts insist the location is simply an advanced satellite communications facility.

142

00:11:01,000 --> 00:11:09,000

Most governments don't even publicly admit that they are involved in satellite intelligence operations.

143

00:11:09,000 --> 00:11:15,000

That's probably about as close as any government is ever going to go to saying that they're involved in signals intelligence collection functions.

144

00:11:15,000 --> 00:11:27,000

Well, I can tell you that as a result of 30 years of my personal research, the fact that I am ex-military, the fact that I still have a bunch of old cronies in sensitive places,

145

00:11:27,000 --> 00:11:40,000

the real secret behind it, the real undercover, unannounced, unpublished operation, involves the alien reality and UFOs.

146

00:11:40,000 --> 00:11:48,000

The Pine Gap research facility has never commented publicly on a possible link between their operations and Freddie Valentich's disappearance.

147

00:11:48,000 --> 00:11:51,000

But this photograph suggests there is a link.

148

00:11:51,000 --> 00:11:55,000

It was taken in the same area at nearly the same time Valentich disappeared.

149

00:11:55,000 --> 00:12:05,000

If the eyes and ears of Pine Gap are as powerful as Robert Dean suggests, they must know something about the UFO snapped by amateur photographer Roy Manifold.

150

00:12:05,000 --> 00:12:13,000

Quite a clear night. It was cool. We had the fire going in the front room and everything seemed normal that night.

151

00:12:13,000 --> 00:12:20,000

I had taken the photographs and taken the six consecutive ones.

152

00:12:20,000 --> 00:12:32,000

And I walked inside and I just came inside. I was only been there about maybe five minutes and I heard an airplane pass overhead.

153

00:12:32,000 --> 00:12:38,000

The airplane was Freddie's Cessna just moments before Valentich's fateful UFO encounter.

154

00:12:38,000 --> 00:12:47,000

And later, when Roy had his film developed along with the beautiful sunset, there was this important clue to fright his mysterious disappearance.

155

00:12:47,000 --> 00:13:00,000

He got this object here on his sixth frame and it was quite strange that he thought that one incident was something wrong with the camera.

156

00:13:00,000 --> 00:13:08,000

But then when he took back to the laboratory, they assured that that object there is nothing wrong with it.

157

00:13:08,000 --> 00:13:11,000

He's definitely got an object on it.

158

00:13:11,000 --> 00:13:22,000

Computer analysis and enhancement of the UFO in Manifold's photograph reveals that the object was a solid metallic reflective sphere approximately 70 feet in diameter.

159

00:13:22,000 --> 00:13:32,000

The fact that this picture was taken just minutes before Manifold heard Valentich's airplane suggests this may be the craft Freddie saw moments before he vanished without a trace.

160

00:13:32,000 --> 00:13:36,000

Air Corps officials however vehemently disagree.

161

00:13:36,000 --> 00:13:42,000

Some of the experts said that he got disorientated and that he was flying upside down.

162

00:13:42,000 --> 00:13:52,000

But the Cessna 182 has got the petrol or gas, aviation gas, is in the wings and is gravity fed to the motor.

163

00:13:52,000 --> 00:13:59,000

So 49 seconds of flying upside down the motor would have cut out. He was talking for six and a half minutes.

164

00:13:59,000 --> 00:14:04,000

So that tells you he wasn't flying upside down, he wasn't disorientated.

165

00:14:04,000 --> 00:14:11,000

Now are you all clear, 229? And there's no strange craft, right? Could be miscalculation. Did you hear a vibratory?

166

00:14:11,000 --> 00:14:18,000

Tower heard nothing but my own sound. Electrical phenomena 229, powerful lightning can do strange things.

167

00:14:18,000 --> 00:14:20,000

Mirage is not uncommon with storm flare.

168

00:14:20,000 --> 00:14:24,000

Storm flare far off to East Tower, not vapor to real either.

169

00:14:24,000 --> 00:14:31,000

Holy, here he comes from the south west, all shiny and metallic. My God, he comes in me!

170

00:14:32,000 --> 00:14:38,000

Now in Frederick he wouldn't deviate rules and regulations.

171

00:14:38,000 --> 00:14:48,000

I'm quite certain that he would not go on that ride here and enquire about to the air traffic

controller what he's got around him.

172

00:14:48,000 --> 00:14:53,000

Unless it was something really worthwhile to ask pickles to him.

173

00:14:53,000 --> 00:14:58,000

It wasn't like convention or a crafty for something else.

174

00:14:58,000 --> 00:15:04,000

I could have been extra terrestrial, but the time will tell.

175

00:15:04,000 --> 00:15:19,000

For 17 years a family has searched for answers and now they hope that Pine Gap will share its information concerning Freddy, the UFO in this photograph and one of the most puzzling encounters in UFO history.

176

00:15:19,000 --> 00:15:24,000

Only two pilots are believed to have disappeared as a result of their aerial contact with the UFO.

177

00:15:24,000 --> 00:15:29,000

Fred Valentich and Thomas Mantell, a military pilot from Louisville, Kentucky.

178

00:15:29,000 --> 00:15:40,000

The consensus among ufologists is that these incidents occurred not because the UFOs were aggressive, but because pilots have never been taught what to do in the event of a UFO encounter.

179

00:15:40,000 --> 00:15:44,000

Next, the ultimate celebration of mind over matter.

180

00:15:44,000 --> 00:15:47,000

Are we getting too big for our planet?

181

00:15:47,000 --> 00:15:51,000

Later, an extraordinary alien encounter in Africa.

182

00:15:57,000 --> 00:16:01,000

Here are some of the stories Sightings is following in the news.

183

00:16:01,000 --> 00:16:12,000

In a recent book titled *Seven Experiments that Could Change the World*, author Rupert Sheldrake explores new and intriguing theories about the psychic bond between humans and animals.

184

00:16:13,000 --> 00:16:28,000

In Big Sur, California, English researcher Rupert Sheldrake recently presented the findings of a scientific study he conducted which validates what many pet owners already sense, that they have a unique psychic bond with their pets.

185

00:16:28,000 --> 00:16:32,000

I think the psychic abilities of animals are very common.

186

00:16:32,000 --> 00:16:39,000

I would explain it in terms of morphic fields and they're the kinds of fields that connect packs of wolves together or flocks of birds.

187

00:16:39,000 --> 00:16:44,000

I think that these are the basis of the bonds between pets and people.

188

00:16:44,000 --> 00:16:55,000

Sheldrake spent 14 years studying animal behavior at Cambridge University and found that morphic fields may explain those uncanny premonitions animals display.

189

00:16:55,000 --> 00:17:01,000

When it's time to go to the vet or when you're about to leave on a trip or even when a family member is in danger.

190

00:17:02,000 --> 00:17:10,000

If we can show that psychic connections between pets and their owners are real, we have to take seriously the existence of psychic phenomena in general.

191

00:17:10,000 --> 00:17:21,000

I think that there is, if you want to use the term telepathic, communication, I think there is an undeniable bond between Papillon and Rachel.

192

00:17:22,000 --> 00:17:25,000

Mindy Gwyn knows the power of animal telepathy.

193

00:17:25,000 --> 00:17:33,000

Her daughter Rachel was only five days old when their dog Papillon somehow sensed danger as Rachel lay sleeping in her crib.

194

00:17:33,000 --> 00:17:39,000

Papillon came into the bathroom while I was in the shower and he was frantic.

195

00:17:39,000 --> 00:17:43,000

Enough to the point where I knew he was trying to tell me something.

196

00:17:43,000 --> 00:17:51,000

I throw my clothes and I followed him to the bedroom and that was where he put his front paws up on the crib and he barked at the baby.

197

00:17:51,000 --> 00:17:55,000

And when I looked in at her I realized that she was a little bit blue.

198

00:17:56,000 --> 00:18:01,000

On closer examination Mindy realized that her infant daughter had stopped breathing.

199

00:18:01,000 --> 00:18:03,000

Mindy tried desperately to revive her.

200

00:18:03,000 --> 00:18:13,000

My daughter Amanda called 911 and I was still doing mouth to mouth when the ambulance got there and I carried Rachel out and jumped in the back of the ambulance.

201

00:18:16,000 --> 00:18:23,000

Rachel survived. After a week in the hospital Mindy brought her home to the friend she believes saved the baby's life.

202

00:18:24,000 --> 00:18:30,000

I reaffirmed my belief in the bonds between animals and people at that point.

203

00:18:30,000 --> 00:18:41,000

I just remember hugging the dog for a good long time because this dog just really did more than I can ever say thank you for.

204

00:18:41,000 --> 00:18:53,000

Most people accept these things. Science at present denies them and I think opening up science in a way that these things are taken on board can help open up our view of the world in a really dramatic way.

205

00:18:53,000 --> 00:18:55,000

I think it would change science.

206

00:19:01,000 --> 00:19:12,000

In Thailand more than 5000 people from around the world gathered for this year's Phuket Vegetarian Festival, an ancient tradition demonstrating the powers of mind over matter.

207

00:19:12,000 --> 00:19:18,000

Men from the area believed to be spirit mediums display a superhuman threshold for pain.

208

00:19:18,000 --> 00:19:24,000

Walking over hot coals and piercing their bodies with an unbelievable range of sharp implements.

209

00:19:24,000 --> 00:19:33,000

Even close up, their faces display no signs of pain. Not even a wince is they endure piercing with 3 inch diameter bamboo poles.

210

00:19:33,000 --> 00:19:43,000

How is this possible? Dr. Joshua Prager, director of the UCLA Pain Medicine Center, believes it may be a result of the amazing mind-body connection.

211

00:19:43,000 --> 00:19:53,000

We now know that pain is not something that is just a sensation in a part of the body or parts of the body but it's actually an entire experience.

212

00:19:53,000 --> 00:20:02,000

Information that comes in has to pass through a gate and that gate can be opened or closed by various phenomena.

213

00:20:02,000 --> 00:20:14,000

The mediums at the festival use self-hypnosis to will themselves into an altered state of

consciousness and such a state seems to act as a natural anesthetic against what would normally be excruciating pain.

214

00:20:14,000 --> 00:20:30,000

People who are having a religious experience are often very close to trans state and so somehow they are teaching themselves or they have the ability when they work themselves up into the trans state to close the gate.

215

00:20:30,000 --> 00:20:38,000

Dr. Prager believes that the ability to withstand pain varies from person to person based on their genetic predisposition.

216

00:20:38,000 --> 00:20:47,000

But he also believes that the Phuket Festival does demonstrate that everyone can improve their own pain threshold to some degree.

217

00:20:50,000 --> 00:21:02,000

In San Diego, California, one engineer is issuing a warning about a new threat to Earth's ever-waning resources and not only from our growing numbers but also our size. Humans are getting too big.

218

00:21:02,000 --> 00:21:15,000

By 2050 we're talking about maybe 12 billion people in the world. We have 6 billion right now. Now it makes a big difference whether that 12 billion people averages 100 pounds or 200 pounds.

219

00:21:16,000 --> 00:21:27,000

In the last 100 years, the median height has grown by 6 inches and the median weight has increased by more than 50 pounds and the larger we become, the more natural resources we consume.

220

00:21:28,000 --> 00:21:37,000

But there's no doubt that we live on a finite Earth. There are finite resources and the Earth is going to change.

221

00:21:38,000 --> 00:21:49,000

Samaris warns that unless we begin downsizing our population, we will use up most of our farmland and all of our petroleum supplies midway through the next century.

222

00:21:49,000 --> 00:21:58,000

We're getting more people and we're getting bigger people. I think we can see that the problem is stupendous in terms of the threat to our survival.

223

00:22:03,000 --> 00:22:08,000

We'll have more stories from the news next time. Now, here's what's coming up on Sightings.

224

00:22:09,000 --> 00:22:15,000

When Millie McGregor was lost for three days in the High Sierra, this man saw it off from 100 miles away.

225

00:22:15,000 --> 00:22:19,000

He pointed right to the site. He said she's right up on top of the mountain.

226

00:22:20,000 --> 00:22:23,000

Later, could this device end life on our planet?

227

00:22:29,000 --> 00:22:40,000

In the movie, Close Encounters of the Third Kind, character Roy Neary becomes obsessed with a vision. Plagues his mind, his dreams, even sculpts it in his mashed potatoes.

228

00:22:41,000 --> 00:22:47,000

In real life, a California horseshoe named Randy Spears also had a vision. It plagued his mind and his dreams.

229

00:22:48,000 --> 00:22:53,000

Deciding to correspond to Karna Wall reports, when Randy pursued his vision, something very strange happened.

230

00:22:59,000 --> 00:23:04,000

The spectacular Sierra Nevada Range extends almost the entire length of California.

231

00:23:04,000 --> 00:23:16,000

These are mountains of unparalleled beauty. Along its rugged trails, you can easily find yourself lost in thought, or as even experienced hikers know, just plain lost.

232

00:23:18,000 --> 00:23:24,000

I love the mountains. I also love waterfalls and lakes, and I like to sometimes be by myself.

233

00:23:25,000 --> 00:23:29,000

Millie McGregor has been hiking and camping in these Sierras for much of her life.

234

00:23:29,000 --> 00:23:38,000

On the morning of September 4th, 1995, she set off on a simple day hike. She told her husband she'd be home before dark. She wasn't.

235

00:23:39,000 --> 00:23:45,000

After I was on the trail for several hours, I got, I started having chest pain.

236

00:23:46,000 --> 00:23:52,000

Millie was dizzy and disoriented. She lost the trail and couldn't find her way down the mountain.

237

00:23:53,000 --> 00:24:01,000

The places I was going, when they would run out or they'd come into a big high canyon, it was real rough terrain.

238

00:24:02,000 --> 00:24:13,000

Millie's spirits and her water supply were running low. She was tired, frightened and cold. When day turned tonight, the temperature dropped below freezing. For search and rescue teams, it was a race against time.

239

00:24:16,000 --> 00:24:17,000

How extensive was the search?

240

00:24:18,000 --> 00:24:29,000

There were about 100 people involved, mostly volunteer units. There were about 50 mounted units, and the rest were foot units, motorcycle, tricycle and dogs.

241

00:24:30,000 --> 00:24:42,000

After three bone-chilling nights, Millie was still missing. Search helicopters were equipped with infrared radar, but hope for her survival was dwindling. Millie's husband feared the worst.

242

00:24:42,000 --> 00:24:46,000

After three days and nights up there, I just about ready to give her up.

243

00:24:47,000 --> 00:24:56,000

On day three, over 100 miles outside the search area, for sure Randy Spears had a strange, haunting vision he did not understand.

244

00:24:57,000 --> 00:25:08,000

I just kind of flashed on search and rescue and kind of pictured a hillside. And for some reason my hand was in front of it. I was basically pointing, but I had my whole hand up.

245

00:25:08,000 --> 00:25:17,000

It wasn't until he got home that Randy learned of Millie's disappearance. His wife, Shelley, helped Randy in his search for the mountaintop in his vision.

246

00:25:18,000 --> 00:25:29,000

When I looked on the map, it just kind of all came back to me, that hillside, and it just struck me right then that I knew right where she was. So I just kind of decided I had to go.

247

00:25:30,000 --> 00:25:32,000

What did Randy say to you when he came home?

248

00:25:32,000 --> 00:25:39,000

He told me it was somebody's grandma, and she was very cold and she needed to be found. And he knew

who she was, and they were wasting time.

249

00:25:40,000 --> 00:25:44,000

It wasn't just a nagging feeling. Randy dropped everything to pursue his vision.

250

00:25:45,000 --> 00:25:51,000

I generally don't like to skip out of work, but it was strong enough that I just canceled everything and went.

251

00:25:52,000 --> 00:26:03,000

Randy felt he had a job to do and convinced his best friend Frank Smith to join him in his quest. At 1.30 in the morning, they set off to find a woman they had never met.

252

00:26:04,000 --> 00:26:19,000

As we approached the area where the search party was taking place, it's like you could see the excitement on his face, or the seriousness. I don't know how to describe it, but he goes, that's where she is. She's on that hillside. She's on that mountain.

253

00:26:19,000 --> 00:26:30,000

And he held his hand up, and he goes, I don't know why I'm doing this. But behind his ring finger is on that mountain, is where he said she was.

254

00:26:31,000 --> 00:26:37,000

At dawn, Randy and Frank saddled up their mules and rode to the rescue station. Randy revealed his vision to James Marks.

255

00:26:37,000 --> 00:26:52,000

I was little taken aback just because, I mean, here we all are 100 people who've been there for three days, and here comes someone who just says, I'm very, very determined, saying, I know where she's at, and I'm going to go get her.

256

00:26:53,000 --> 00:26:55,000

Did he actually point out to you where he thought he'd find Mildred?

257

00:26:56,000 --> 00:27:03,000

Oh, exactly. He pointed right to the site. He kind of framed it in with his hands, and he said she's right up on top of the mountain.

258

00:27:03,000 --> 00:27:07,000

Was there any doubt in your mind that you were going to find Mildred?

259

00:27:08,000 --> 00:27:14,000

No doubt. Absolutely not. They didn't have the same map that Randy had.

260

00:27:15,000 --> 00:27:20,000

All the way up the mountain, Randy never wavered from his mysterious internal map.

261

00:27:21,000 --> 00:27:26,000

Something was just pushing me the whole way. It was like I was chosen to go.

262

00:27:26,000 --> 00:27:34,000

Incredibly, Millie McGregor, exhausted and close to dehydration, was also being drawn to the top of the mountain.

263

00:27:35,000 --> 00:27:43,000

I don't know how much longer, you know, that I'm going to be able to do this, so I thought, I had a notion when I got to the top, for some reason I thought there would be somebody there.

264

00:27:44,000 --> 00:27:47,000

How long was it that you were sitting there before you saw this mirage coming towards you?

265

00:27:48,000 --> 00:27:49,000

I don't think it was more than five minutes.

266

00:27:49,000 --> 00:27:55,000

I couldn't believe it. She just walked right out. We just run right into each other.

267

00:27:56,000 --> 00:28:02,000

Randy signaled to Frank that his vision quest was over. Millie was finally in safe hands.

268

00:28:03,000 --> 00:28:08,000

Fransky is ex-affirmative. He was just brought into camp by one of the horse teams. He's in good shape.

269

00:28:09,000 --> 00:28:10,000

And everything, this has got a happy ending.

270

00:28:11,000 --> 00:28:16,000

As they rode into the search area, everyone just kind of looked at them and they were stunned.

271

00:28:16,000 --> 00:28:18,000

I don't think they could believe that he actually had them.

272

00:28:19,000 --> 00:28:25,000

Millie was escorted to a waiting ambulance. Her heroes disappeared before Millie's family could thank them.

273

00:28:26,000 --> 00:28:28,000

I feel very well and very thankful.

274

00:28:30,000 --> 00:28:37,000

You give me back my wife. What can you say to a fellow to give your partner back to you?

275

00:28:38,000 --> 00:28:40,000

Thanks doesn't seem to be enough.

276

00:28:41,000 --> 00:28:42,000

You excited?

277

00:28:43,000 --> 00:28:44,000

Oh yeah, very excited.

278

00:28:44,000 --> 00:28:51,000

I accompanied Millie and Jim on a trip back to Northern California so they could thank the man whose vision had saved Millie's life.

279

00:28:52,000 --> 00:28:53,000

Look who's here.

280

00:28:56,000 --> 00:29:01,000

You are the one that led your crazy husband come. We were just talking about last night. I don't even think that I would encourage my husband to go.

281

00:29:02,000 --> 00:29:05,000

Well, I have no choice. So Frank hit us, smile.

282

00:29:06,000 --> 00:29:13,000

She must be going to be a special lady or something. Whatever it was, it's mighty powerful. That's all I can figure out.

283

00:29:14,000 --> 00:29:24,000

The whole experience is one that you certainly never forget. It's like sometimes in your life things happen that change you and you'll never be quite the same again.

284

00:29:29,000 --> 00:29:37,000

Mildred McGregor also told Carnival that she wants to start hiking again but she's made a promise to her family that she won't go hiking alone.

285

00:29:38,000 --> 00:29:43,000

Next, it's called heart and one of the things it's designed to do is burn holes in the ionosphere.

286

00:29:44,000 --> 00:29:47,000

The ozone layer is nothing compared to what harp can do.

287

00:29:54,000 --> 00:30:00,000

In 1993, the FAA started warning pilots to stay away from a certain section of airspace over Alaska.

288

00:30:01,000 --> 00:30:08,000

The U.S. government was experimenting with a new breed of high-altitude electronic technology that was significantly altering the Alaska airspace.

289

00:30:08,000 --> 00:30:16,000

The experiments continue to this day and critics are warning that this project could have global effects that will destroy our planet.

290

00:30:23,000 --> 00:30:29,000

In Alaska, the rugged pristine wilderness is timeless, most of it remaining just as it has for thousands of years.

291

00:30:30,000 --> 00:30:37,000

In the midst of all this natural beauty, just outside the small town of Gakona, stands an enormous and seemingly harmless antenna farm.

292

00:30:38,000 --> 00:30:47,000

It is a \$100 million Air Force project known as HARP and critics of the soon-to-be-completed facility charge it just may turn out to be the ultimate doomsday machine.

293

00:30:48,000 --> 00:30:51,000

It's got all the marks of Dr. Strangelove on it.

294

00:30:52,000 --> 00:30:56,000

HARP is an acronym for High Frequency Active Ororal Research Program.

295

00:30:56,000 --> 00:31:02,000

According to program manager John Hescher, HARP is a research facility designed to study the ionosphere.

296

00:31:03,000 --> 00:31:12,000

All the military have communications, surveillance, navigation systems whose paths either traverse the ionosphere or reflect from it.

297

00:31:13,000 --> 00:31:17,000

So we need to be very careful about what we know about it and how we study it.

298

00:31:18,000 --> 00:31:22,000

What we're interested in is what is the effect of a large input of energy on the ionosphere.

299

00:31:23,000 --> 00:31:27,000

The ionosphere is the outermost layer of the Earth's atmosphere.

300

00:31:28,000 --> 00:31:33,000

It is part of an electromagnetic field that keeps out harmful solar and cosmic radiation.

301

00:31:34,000 --> 00:31:40,000

One visible effect of the sun's rays hitting the ionosphere is the aurora borealis, known as the Northern Lights.

302

00:31:41,000 --> 00:31:45,000

The ionosphere also plays a vital role in worldwide radio communication.

303

00:31:45,000 --> 00:31:50,000

The first transmission of radio waves across the ocean were quite a surprise when it was first done.

304

00:31:51,000 --> 00:31:54,000

People thought there'd be no chance to transmit signals across the ocean by wireless.

305

00:31:55,000 --> 00:31:57,000

And in fact what the ionosphere does is act like a mirror.

306

00:31:58,000 --> 00:32:01,000

It lands where you transmit a signal and it bounces off the ionosphere and then bounces off the Earth.

307

00:32:02,000 --> 00:32:10,000

When HARP is fully operational, it will transmit extremely powerful blasts of high frequency radio waves directly up into the atmosphere,

308

00:32:11,000 --> 00:32:14,000

superheating the electrons that make up the ionosphere.

309

00:32:15,000 --> 00:32:19,000

This is what caused them to disperse, effectively punching a hole in the ionosphere.

310

00:32:20,000 --> 00:32:25,000

But after you turn the instrument off, this thing kind of moves around and it gets replenished.

311

00:32:26,000 --> 00:32:32,000

And within a few minutes it's back to where you can't even detect that there's a hole anymore.

312

00:32:34,000 --> 00:32:43,000

The Air Force says that manipulating the ionosphere and studying the effect will allow them to improve the efficiency of communications, navigation and surveillance systems.

313

00:32:43,000 --> 00:32:49,000

But researchers outside the military see HARP as a high-tech weapon with global implications.

314

00:32:50,000 --> 00:33:03,000

The way I see HARP as it is right now, it is a premier, I mean top-notch high-energy radio physics experiment and has definite military applications.

315

00:33:04,000 --> 00:33:13,000

Journalist Mark Farmer lives in Alaska and has written about the potential impact of HARP for both Jane's Defense Weekly and Popular Science Magazine.

316

00:33:14,000 --> 00:33:18,000

He believes that HARP will be used to take giant X-rays of Earth.

317

00:33:19,000 --> 00:33:23,000

Earth penetrating tomography is a technique using extremely low-frequency radio waves.

318

00:33:24,000 --> 00:33:31,000

Today in geophysical probing, scientists will use explosives or a machine that thumps the ground to produce these waves.

319

00:33:31,000 --> 00:33:41,000

But HARP will stimulate the auroral electric jet to make an antenna thousands of miles long that will emit these ELF waves.

320

00:33:42,000 --> 00:33:50,000

Farmer's research indicates that the extremely low-frequency waves would be capable of penetrating several kilometers into the Earth,

321

00:33:51,000 --> 00:33:55,000

ferreting out nuclear storage facilities and other underground military installations.

322

00:33:56,000 --> 00:34:03,000

This is producing surveillance systems able to detect stealthy cruise missiles and aircraft.

323

00:34:04,000 --> 00:34:11,000

These are systems that will enable us to communicate at higher data rates and at greater distances with our ballistic missile submarines.

324

00:34:12,000 --> 00:34:18,000

While the Air Force insists HARP is not an offensive weapon and is necessary for continuing national security,

325

00:34:19,000 --> 00:34:23,000

Alaska native Nick Begich proposes a different scenario in this new book.

326

00:34:23,000 --> 00:34:30,000

The things that we found in other Air Force documents, one in particular was a document put together in 1982.

327

00:34:31,000 --> 00:34:37,000

The document was called Low Intensity Conflict in Modern Technology with a forward by no other than Nune Gingrich.

328

00:34:38,000 --> 00:34:45,000

One section spoke about using radiofrequency radiation transmitters for disrupting human thinking,

329

00:34:45,000 --> 00:34:52,000

for debilitating troops invisibly by being able to bombard them with radiofrequency.

330

00:34:53,000 --> 00:35:02,000

That was tuned to just the right frequency in just the right wave form so as to totally disrupt their mental process and debilitate those troops.

331

00:35:03,000 --> 00:35:11,000

Because of HARP's potential to disrupt the Earth's magnetic field, many observers are concerned that it will damage the biomagnetic sensors

332

00:35:11,000 --> 00:35:15,000

that migratory animals like salmon and birds depend upon.

333

00:35:16,000 --> 00:35:23,000

Anything that HARP can do to the magnetic field is, orders of magnitude smaller than the natural variations of the Earth's field.

334

00:35:24,000 --> 00:35:28,000

So I would have to say, no, there's nothing we can do to affect the salmon.

335

00:35:29,000 --> 00:35:36,000

But what generates the most concern by far is HARP's ability to tamper with and punch holes in the ionosphere.

336

00:35:36,000 --> 00:35:46,000

The thing that one of the Air Force documents points out is that they want to use this heater to create enough energy in the ionosphere

337

00:35:46,000 --> 00:35:52,000

to get a runaway effect up to the next stabilizing level, whatever that might be.

338

00:35:52,000 --> 00:36:00,000

It's precisely whatever that might be that worries Dr. Patrick Flanagan, a physicist who believes the ionosphere is extremely fragile.

339

00:36:00,000 --> 00:36:04,000

The ionosphere is a chaotic system that is on the edge of instability.

340

00:36:04,000 --> 00:36:11,000

So the trigger point for HARP would be that energy and that frequency which throws the ionosphere into chaos.

341

00:36:11,000 --> 00:36:15,000

In other words, it would be that point which throws it over the edge.

342

00:36:16,000 --> 00:36:22,000

For example, it is believed that a hole in the Earth's ozone layer has caused an increase in infrared radiation,

343

00:36:22,000 --> 00:36:29,000

contributing to the melting of the polar ice caps and forcing New Zealand children to wear protective clothing to school.

344

00:36:29,000 --> 00:36:35,000

Flanagan and others believe the potential danger from a hole in the ionosphere is much greater.

345

00:36:35,000 --> 00:36:42,000

It could create a change in the ionospheric shield that protects us from cosmic radiation.

346

00:36:42,000 --> 00:36:47,000

We're worried about the ozone layer. The ozone layer is nothing compared to what HARP could do.

347

00:36:47,000 --> 00:36:54,000

You know, we're worried about ultraviolet light. That's just a very harmless ray compared to some of those energy streams or particles

348

00:36:54,000 --> 00:36:59,000

that are coming from outer space that are being deflected by this natural shield around the Earth.

349

00:36:59,000 --> 00:37:02,000

And this is what HARP wants to play with.

350

00:37:02,000 --> 00:37:08,000

Critics worry that HARP has been placed in the hands of too few and that international debate is necessary

351

00:37:08,000 --> 00:37:12,000

to fully explore all the potential dangers that this project may soon unleash,

352

00:37:12,000 --> 00:37:16,000

a proposal in which the Air Force has shown little interest to date.

353

00:37:16,000 --> 00:37:23,000

Once we open this box, and it is a veritable Pandora's box, we're not going to be able to close it.

354

00:37:23,000 --> 00:37:29,000

And of course, once you acquire a technology, you want bigger and better aspects of it.

355

00:37:29,000 --> 00:37:35,000

And then we come to the questions of whether or not if we go big, if we go better,

356

00:37:35,000 --> 00:37:38,000

if we're going to cause damage to our planet.

357

00:37:38,000 --> 00:37:43,000

Proponents of HARP insist the danger has been grossly exaggerated.

358

00:37:43,000 --> 00:37:49,000

The project continues to move forward as scheduled and will be fully operational by 1997.

359

00:37:49,000 --> 00:37:56,000

Next, they started an international controversy with their story of extraterrestrial contact at a remote African school.

360

00:37:56,000 --> 00:37:58,000

I have seen what I've seen.

361

00:38:05,000 --> 00:38:09,000

At the recent International UFO Congress held in Sheffield, England,

362

00:38:09,000 --> 00:38:14,000

sightings team members heard their first account of a major UFO sighting in Africa.

363

00:38:14,000 --> 00:38:18,000

It was particularly intriguing because the eyewitnesses were schoolchildren

364

00:38:18,000 --> 00:38:23,000

who had not had any exposure to popular press accounts of UFOs.

365

00:38:26,000 --> 00:38:31,000

On September 14, 1994, something flashed through the sky in southern Africa,

366

00:38:31,000 --> 00:38:34,000

alarming a few and confounding everyone.

367

00:38:34,000 --> 00:38:36,000

It was a UFO.

368

00:38:36,000 --> 00:38:43,000

Two days later, 62 schoolchildren in Rua Zimbabwe claimed they had seen a UFO land in the schoolyard.

369

00:38:43,000 --> 00:38:50,000

It was dismissed as fantasy until one UFO researcher began insisting that the children were telling the truth.

370

00:38:51,000 --> 00:38:58,000

This thing, object landed with the three or four things beside it and then a door opened

371

00:38:58,000 --> 00:39:01,000

and this little man got out ahead on a black suit.

372

00:39:01,000 --> 00:39:04,000

Cynthia Hind is one of Africa's leading ufologists.

373

00:39:04,000 --> 00:39:07,000

She interviewed the children the day after their encounter

374

00:39:07,000 --> 00:39:11,000

and had them draw pictures of the strange visitors they had seen.

375

00:39:11,000 --> 00:39:17,000

They were very slim, the suit was black, but it was the eyes that was frightening.

376

00:39:17,000 --> 00:39:21,000

In 1995, Hind brought worldwide attention to the Rua children

377

00:39:21,000 --> 00:39:26,000

when she presented their case at the 8th International UFO Congress in Sheffield, England.

378

00:39:26,000 --> 00:39:30,000

Why don't they try and form some sort of panel?

379

00:39:30,000 --> 00:39:35,000

Not necessarily Americans, it could be United Nations to check out these stories.

380

00:39:35,000 --> 00:39:40,000

Why would 62 children lie?

381

00:39:40,000 --> 00:39:46,000

In Rua, a few weeks after the conference, a full on-site investigation began

382

00:39:46,000 --> 00:39:50,000

under the direction of Harvard professor of psychiatry, Dr. John Mack,

383

00:39:50,000 --> 00:39:54,000

who is now producing a documentary film about the Rua encounter.

384

00:39:54,000 --> 00:39:58,000

It was silver and the ring around it was red.

385

00:39:58,000 --> 00:40:00,000

It was red.

386

00:40:00,000 --> 00:40:02,000

Did light come from the whole thing?

387

00:40:02,000 --> 00:40:03,000

There were lights around here.

388

00:40:03,000 --> 00:40:05,000

Lights along the edge there.

389

00:40:05,000 --> 00:40:08,000

How many of the strange beings did you see?

390

00:40:08,000 --> 00:40:12,000

I saw one over here. They had eyes like that.

391

00:40:12,000 --> 00:40:15,000

And they were kind of just like looking at us.

392

00:40:15,000 --> 00:40:18,000

They were like kind of astonished at what we were.

393

00:40:18,000 --> 00:40:20,000

I felt scared.

394

00:40:20,000 --> 00:40:24,000

It felt scary? What was scary about it?

395

00:40:24,000 --> 00:40:30,000

I felt scared because I've never seen such a person like that before.

396

00:40:30,000 --> 00:40:35,000

They experienced very powerful encounters with these beings

397

00:40:35,000 --> 00:40:44,000

and were left with the rather disturbing fact that this seems to be what it is.

398

00:40:44,000 --> 00:40:49,000

And it seems to have no other psychiatric explanation.

399

00:40:49,000 --> 00:40:54,000

More disturbing still was what the children told Dr. Mack about the purpose of the alien visit.

400

00:40:54,000 --> 00:40:59,000

It was a dire warning Mack had heard more than 100 times before

401

00:40:59,000 --> 00:41:02,000

from people in the United States, half a world away.

402

00:41:02,000 --> 00:41:07,000

Their doomsday scenario was being repeated to the last detail by the Rua children.

403

00:41:07,000 --> 00:41:11,000

Fungi, what do you imagine is his reason for visiting Earth?

404

00:41:11,000 --> 00:41:14,000

I think it's about something that's going to happen.

405

00:41:14,000 --> 00:41:16,000

Something that's going to happen.

406

00:41:16,000 --> 00:41:19,000

What I thought was maybe the world's going to end.

407

00:41:19,000 --> 00:41:22,000

Maybe they're telling us the world's going to end.

408

00:41:22,000 --> 00:41:32,000

I think they want people to know that we're actually making harm on this world

409

00:41:32,000 --> 00:41:35,000

and we mustn't get too acknowledged.

410

00:41:35,000 --> 00:41:37,000

How did that get communicated to you?

411

00:41:37,000 --> 00:41:40,000

I don't know if I just popped up in my head.

412

00:41:40,000 --> 00:41:41,000

Pollution?

413

00:41:41,000 --> 00:41:42,000

Yes.

414

00:41:42,000 --> 00:41:44,000

He never said anything.

415

00:41:44,000 --> 00:41:47,000

It's just that the face is the eyes.

416

00:41:47,000 --> 00:41:49,000

They looked horrible.

417

00:41:49,000 --> 00:41:55,000

And the eyes, the horrible look had that information that you just told me?

418

00:41:55,000 --> 00:41:56,000

Yes.

419

00:41:57,000 --> 00:42:01,000

Now, the people in Africa don't have television.

420

00:42:01,000 --> 00:42:06,000

They might have a radio, but I can tell you the media don't deal with UFOs there.

421

00:42:06,000 --> 00:42:08,000

They're nervous of it.

422

00:42:08,000 --> 00:42:10,000

So where would they pick it up?

423

00:42:10,000 --> 00:42:13,000

Is it a mass telepathy?

424

00:42:13,000 --> 00:42:18,000

While some researchers are suggesting the Rua sightings were created by mass hallucination,

425

00:42:18,000 --> 00:42:21,000

Dr. Mack hears a different story from the children.

426

00:42:21,000 --> 00:42:26,000

If someone were to say, well, you know, you just have a lie to the imagination and you've made this up,

427

00:42:26,000 --> 00:42:27,000

what would you say?

428

00:42:27,000 --> 00:42:30,000

I haven't been influenced by any of my friends.

429

00:42:30,000 --> 00:42:32,000

I have seen what I've seen.

430

00:42:33,000 --> 00:42:36,000

Because of political instability in many African nations,

431

00:42:36,000 --> 00:42:40,000

it's been impossible to get an accurate accounting of UFO sightings there.

432

00:42:40,000 --> 00:42:44,000

Ufologists are eager to investigate several reputed hotspots,

433

00:42:44,000 --> 00:42:49,000

but field investigations in Mozambique and Rwanda have been put on hold.

434

00:42:49,000 --> 00:42:51,000

The Unexplained.

435

00:42:51,000 --> 00:42:56,000

Dramatic stories of the paranormal from the files of sightings.

436

00:42:56,000 --> 00:43:01,000

A new paperback book available now wherever books are sold from fireside books.

437

00:43:01,000 --> 00:43:07,000

Until next time, remember, no mystery is closed to an open mind.

438

00:43:07,000 --> 00:43:11,000

For sightings, until next time, remember,

439

00:43:11,000 --> 00:43:14,000

no mystery is closed to an open mind.

440

00:43:14,000 --> 00:43:17,000

For sightings, I'm Tim White.

441

00:43:25,000 --> 00:43:28,000

Next on Sci-Fi Dark Shadows.

442

00:43:44,000 --> 00:43:50,000

Sci-Fi's Farscape. Tonight at 8 only on Sci-Fi.
