

1

00:00:00,000 --> 00:00:04,000

on this edition of Sighting.

2

00:00:04,000 --> 00:00:05,000

Her name was Kathy,

3

00:00:05,000 --> 00:00:08,000

and her brutal murder nearly destroyed her family.

4

00:00:08,000 --> 00:00:12,000

We were sentenced to living our lives

5

00:00:12,000 --> 00:00:14,000

without ever seeing her again.

6

00:00:14,000 --> 00:00:17,000

Psychic Catlin Ray retraces Kathy's last steps

7

00:00:17,000 --> 00:00:19,000

in search of a killer.

8

00:00:19,000 --> 00:00:22,000

I feel like this is the end of the trail for her.

9

00:00:22,000 --> 00:00:24,000

Everybody in this town is seeing you a bolt.

10

00:00:24,000 --> 00:00:27,000

Then Sighting investigates America's most active

11

00:00:27,000 --> 00:00:31,000

paranormal hotspot, the mysterious Valley of Colorado.

12

00:00:31,000 --> 00:00:34,000

Miss all lights come off this side of the mountain over here.

13

00:00:34,000 --> 00:00:37,000

Come clear across over the top of these mountains on this side.

14

00:00:37,000 --> 00:00:39,000

His eyes? Right there.

15

00:00:39,000 --> 00:00:42,000

Later, holidays at Arizona's Gadsden Hotel

16

00:00:42,000 --> 00:00:44,000

with the ghosts of Christmas past.

17

00:00:44,000 --> 00:00:46,000

I'm getting scared just talking about it.

18

00:00:46,000 --> 00:00:48,000

Just thinking about it.

19

00:00:48,000 --> 00:00:51,000

Healing defies the laws of science.

20

00:00:51,000 --> 00:00:55,000

And a miraculous story about a master healer from Iran.

21

00:00:57,000 --> 00:01:23,000

MUSIC

22

00:01:23,000 --> 00:01:25,000

Welcome to Sightings.

23

00:01:25,000 --> 00:01:27,000

I'm Tim White.

24

00:01:27,000 --> 00:01:29,000

Kathy Torres was a great kid.

25

00:01:29,000 --> 00:01:32,000

She worked, went to college, was active in community service,

26

00:01:32,000 --> 00:01:35,000

and tutored high school students in English and Spanish.

27

00:01:35,000 --> 00:01:37,000

But when Kathy finally made the headlines,

28

00:01:37,000 --> 00:01:39,000

it wasn't for her promise or her talent.

29

00:01:39,000 --> 00:01:41,000

It was because she'd been murdered.

30

00:01:41,000 --> 00:01:44,000

Two years after her death, her killer is still at large,

31

00:01:44,000 --> 00:01:47,000

and traditional police investigations just haven't worked.

32

00:01:47,000 --> 00:01:49,000

Can a psychic solve the case?

33

00:01:49,000 --> 00:01:55,000

MUSIC

34

00:01:55,000 --> 00:01:57,000

He stabbed Kathy to death.

35

00:01:57,000 --> 00:02:00,000

He robbed a town and a family of their precious future,

36

00:02:00,000 --> 00:02:02,000

and he got away with it.

37

00:02:02,000 --> 00:02:04,000

We're completely in the dark.

38

00:02:04,000 --> 00:02:07,000

We really have no suspect in this case.

39

00:02:07,000 --> 00:02:11,000

But no one in Placentia, California is giving up.

40

00:02:11,000 --> 00:02:15,000

No one will let a monster go free without a fight.

41

00:02:15,000 --> 00:02:20,000

The hardest thing is wondering who could have done this to her,

42

00:02:20,000 --> 00:02:24,000

and whether this person will ever be prosecuted.

43

00:02:24,000 --> 00:02:29,000

MUSIC

44

00:02:29,000 --> 00:02:35,000

Kathy was active, very bubbly, always smiling.

45

00:02:35,000 --> 00:02:37,000

She was just a happy-go-look kid.

46

00:02:37,000 --> 00:02:39,000

She was a straight-A student

47

00:02:39,000 --> 00:02:43,000

and a role model for her younger sister Debbie.

48

00:02:43,000 --> 00:02:45,000

She was like real popular in school,

49

00:02:45,000 --> 00:02:47,000

and you know, she was real pretty,

50

00:02:47,000 --> 00:02:50,000

and I wanted to be exactly like her, you know,

51

00:02:50,000 --> 00:02:52,000

like, yeah, you know, that's my sister.

52

00:02:52,000 --> 00:02:55,000

At age 20, she was putting herself through college

53

00:02:55,000 --> 00:02:58,000

with a part-time job at the local drug store.

54

00:02:58,000 --> 00:03:01,000

On Saturday, February 5th, 1994,

55

00:03:01,000 --> 00:03:04,000

she worked a busy pre-Valentine's Day shift.

56

00:03:04,000 --> 00:03:08,000

Just after 8 p.m., she called her mother to say she was on her way home.

57

00:03:08,000 --> 00:03:10,000

But by 9, she hadn't arrived.

58

00:03:10,000 --> 00:03:14,000

Then it was 10, 11, 12, and no sign of Kathy.

59

00:03:14,000 --> 00:03:17,000

Debbie and I went looking for her,

60

00:03:17,000 --> 00:03:20,000

and to places we thought maybe she might have stayed,

61

00:03:20,000 --> 00:03:23,000

which didn't seem right, but we went to check

62

00:03:23,000 --> 00:03:27,000

and didn't find her car anywhere.

63

00:03:27,000 --> 00:03:30,000

The next day, Kathy didn't show up for work.

64

00:03:30,000 --> 00:03:32,000

On Monday, she missed school.

65

00:03:32,000 --> 00:03:34,000

Mary feared the worst.

66

00:03:34,000 --> 00:03:38,000

I just had a feeling that she wasn't coming back.

67

00:03:38,000 --> 00:03:42,000

As hours turned into days, the entire town was mobilized.

68

00:03:42,000 --> 00:03:45,000

But no one found any sign of Kathy or her car.

69

00:03:45,000 --> 00:03:49,000

Then it started to rain, and Mary had a disturbing vision.

70

00:03:49,000 --> 00:03:54,000

Tuesday evening, I finally managed...

71

00:03:57,000 --> 00:03:59,000

to talk about it.

72

00:03:59,000 --> 00:04:02,000

And I believe I told my husband

73

00:04:02,000 --> 00:04:07,000

that I knew that Kathy was in her car.

74

00:04:08,000 --> 00:04:12,000

On February 12th, exactly one week after Kathy's disappearance,

75

00:04:12,000 --> 00:04:15,000

her mother's vision became a reality.

76

00:04:15,000 --> 00:04:21,000

Kathy's car was found, and Kathy was in it, in the trunk, stabbed to death.

77

00:04:21,000 --> 00:04:30,000

The day Kathy was found, we were sentenced to living our lives

78

00:04:30,000 --> 00:04:32,000

without ever seeing her again.

79

00:04:32,000 --> 00:04:35,000

Police scoured the car for clues,

80

00:04:35,000 --> 00:04:38,000

but the rain had washed away any potential evidence.

81

00:04:38,000 --> 00:04:40,000

A large reward was offered,

82

00:04:40,000 --> 00:04:44,000

but no one came forward with the brake investigators were desperately searching for.

83

00:04:44,000 --> 00:04:48,000

You hit the wall, and until something else happens,

84

00:04:48,000 --> 00:04:52,000

where there's a break in one of those areas, the case remains unsolved.

85

00:04:52,000 --> 00:04:55,000

People ask me why I do this type of work.

86

00:04:55,000 --> 00:04:59,000

It's to give closure to those who are left behind that are suffering.

87

00:04:59,000 --> 00:05:04,000

Catelyn Ray is a psychic detective with a proven track record.

88

00:05:04,000 --> 00:05:07,000

Her successful work on a similar case in Fresno

89

00:05:07,000 --> 00:05:10,000

was encouraging to the Placentia Police Department,

90

00:05:10,000 --> 00:05:13,000

and investigator Loomis agreed to meet with Ray

91

00:05:13,000 --> 00:05:15,000

and record her psychic impressions.

92

00:05:15,000 --> 00:05:19,000

I would say this man's at least in his middle 40s.

93

00:05:19,000 --> 00:05:21,000

This is a man that I've seen her several times,

94

00:05:21,000 --> 00:05:24,000

but I don't feel like he was lying and waiting for her.

95

00:05:24,000 --> 00:05:27,000

I feel that he's very friendly around children.

96

00:05:27,000 --> 00:05:30,000

I'd almost say he's got a custodian of a school or a janitor of a school,

97

00:05:30,000 --> 00:05:34,000

and I feel that there's a dip in the road,

98

00:05:34,000 --> 00:05:38,000

and there's a green, small building over here.

99

00:05:38,000 --> 00:05:41,000

I hear some type of motor.

100

00:05:41,000 --> 00:05:46,000

I feel like he turns off on a street that has an H in it,

101

00:05:46,000 --> 00:05:49,000

or a road that has an H in it.

102

00:05:49,000 --> 00:05:53,000

Then investigator Loomis accompanied Catelyn Ray

103

00:05:53,000 --> 00:05:56,000

as she attempted to reconstruct Catelyn's last hours.

104

00:05:56,000 --> 00:05:58,000

She was trying to create a timeline

105

00:05:58,000 --> 00:06:02,000

and to find the actual site of the killing.

106

00:06:02,000 --> 00:06:06,000

I feel that she feels fine about going to her car.

107

00:06:06,000 --> 00:06:10,000

And after she gets in the car and leaves,

108

00:06:10,000 --> 00:06:11,000

I feel she suddenly says,

109

00:06:11,000 --> 00:06:13,000

there's something I want to do,

110

00:06:13,000 --> 00:06:16,000

because she stopped somewhere just to run in and do something.

111

00:06:16,000 --> 00:06:18,000

And if there's a video store,

112

00:06:18,000 --> 00:06:21,000

perhaps she stopped to get one, but didn't get to the store.

113

00:06:21,000 --> 00:06:25,000

That's a place that I know that she did stop.

114

00:06:25,000 --> 00:06:29,000

So I was surprised when Catelyn mentioned that.

115

00:06:29,000 --> 00:06:34,000

At 8.30, I feel like it's the beginning of problems with this man.

116

00:06:34,000 --> 00:06:38,000

According to Ray's psychic impression,

117

00:06:38,000 --> 00:06:40,000

it was here, at this strip mall,

118

00:06:40,000 --> 00:06:43,000

that Cathy Torres first encountered her killer.

119

00:06:43,000 --> 00:06:45,000

She gets out of her car for some reason.

120

00:06:45,000 --> 00:06:48,000

I feel that he then comes up behind her,

121

00:06:48,000 --> 00:06:50,000

and he has a knife here.

122

00:06:50,000 --> 00:06:54,000

And he says, get back in and slide across.

123

00:06:54,000 --> 00:06:59,000

I feel like he went out into an area where there was a dip in the road.

124

00:06:59,000 --> 00:07:03,000

And over here is a small dark green building

125

00:07:03,000 --> 00:07:08,000

that if I listen, I can hear a generator type of sound in it.

126

00:07:08,000 --> 00:07:11,000

Ray looked for those telltale landmarks,

127

00:07:11,000 --> 00:07:15,000

and the letters C and H as clues to the crime scene.

128

00:07:15,000 --> 00:07:19,000

She guided investigator Loomis past Central Street.

129

00:07:19,000 --> 00:07:21,000

She had found her C.

130

00:07:21,000 --> 00:07:25,000

Just moments later, they rolled over a large dip in the road.

131

00:07:25,000 --> 00:07:26,000

A green box.

132

00:07:26,000 --> 00:07:28,000

Here's the green box, and now there's the hum.

133

00:07:28,000 --> 00:07:31,000

You can hear the hum of that electricity there.

134

00:07:31,000 --> 00:07:35,000

The large utility box was just as Ray had envisioned.

135

00:07:35,000 --> 00:07:40,000

It was a generator, providing power to some of Placentia's many oil wells.

136

00:07:40,000 --> 00:07:43,000

Sensing that the murder scene was very near,

137

00:07:43,000 --> 00:07:45,000

Ray was drawn to one particular ring.

138

00:07:45,000 --> 00:07:47,000

According to Catelyn Ray,

139

00:07:47,000 --> 00:07:51,000

it was here in this oil field that Catelyn was murdered.

140

00:07:51,000 --> 00:07:55,000

Ray did not know that police already had evidence indicating she was right.

141

00:07:55,000 --> 00:08:00,000

We do have a shoe that was analyzed by chemists at Unicale.

142

00:08:00,000 --> 00:08:04,000

They determined that there was an unknown pollen substance

143

00:08:04,000 --> 00:08:11,000

and also some sort of a petroleum-based oil in the dirt that was on the shoe.

144

00:08:12,000 --> 00:08:16,000

Just beyond the oil field, Ray found her H.

145

00:08:16,000 --> 00:08:21,000

It led to a hospital, the same hospital where Catelyn's body was discovered.

146

00:08:21,000 --> 00:08:24,000

I feel like this is where the trauma came to an end.

147

00:08:24,000 --> 00:08:29,000

I feel like he's driving along after he has put her in the trunk of the car.

148

00:08:29,000 --> 00:08:32,000

Parks the car, gets out and takes off.

149

00:08:32,000 --> 00:08:36,000

And I feel that this is the end of the trail for him.

150

00:08:36,000 --> 00:08:40,000

Her psychic vision of Catelyn's fatal route was uncanny.

151

00:08:40,000 --> 00:08:45,000

The landmarks were exactly as she had foreseen, the letters as she expected.

152

00:08:45,000 --> 00:08:50,000

Catelyn Ray asked for police sketch orders to help her create a portrait of Catelyn's killer.

153

00:08:50,000 --> 00:08:53,000

The idea that he was an older man, perhaps a local janitor,

154

00:08:53,000 --> 00:08:56,000

were clues that the police had not yet considered,

155

00:08:56,000 --> 00:08:59,000

and ones they will now look into.

156

00:08:59,000 --> 00:09:04,000

We hope that this photo and this story will give us a new jump start on this investigation.

157

00:09:04,000 --> 00:09:08,000

As long as I'm alive and this is not solved,

158

00:09:08,000 --> 00:09:15,000

I will look here and there to try to find whom murdered my daughter.

159

00:09:15,000 --> 00:09:18,000

I will never stop.

160

00:09:18,000 --> 00:09:23,000

The city of Placentia has raised \$36,000 in reward money

161

00:09:23,000 --> 00:09:27,000

for information leading to the arrest and conviction of Catelyn Torres' killer.

162

00:09:27,000 --> 00:09:33,000

If you have information important to this case, please call the Placentia California Police Department.

163

00:09:34,000 --> 00:09:37,000

Next, the San Luis Valley has been experiencing UFOs,

164

00:09:37,000 --> 00:09:40,000

cattle mutilations and mysterious fireballs.

165

00:09:40,000 --> 00:09:44,000

There's an awful lot of strange things from the mysterious Valley of Colorado.

166

00:09:49,000 --> 00:09:53,000

The top secret military testing facility known as Area 51

167

00:09:53,000 --> 00:09:56,000

isn't quite as top secret as the government would like.

168

00:09:56,000 --> 00:10:01,000

Worldwide press attention has focused the eyes of the world on the skies above Nevada.

169

00:10:01,000 --> 00:10:06,000

But while amateur ufologists clamor for a glimpse of Area 51,

170

00:10:06,000 --> 00:10:12,000

the real action the experts claim has moved eastward to the government's new Black Project playground.

171

00:10:18,000 --> 00:10:21,000

The beautiful San Luis Valley in south-central Colorado

172

00:10:21,000 --> 00:10:26,000

is no stranger to paranormal activity, both in the air and on the ground.

173

00:10:26,000 --> 00:10:29,000

Everybody in this town has seen UFOs.

174

00:10:29,000 --> 00:10:32,000

If all lights come off of this side of the mountain over here,

175

00:10:32,000 --> 00:10:35,000

come clear across and go over the top of these mountains on this side.

176

00:10:35,000 --> 00:10:40,000

This area is like the center of mutilation phenomenon.

177

00:10:40,000 --> 00:10:45,000

There's an awful lot of strange things that occur in the mysterious Valley of Colorado.

178

00:10:48,000 --> 00:10:52,000

It's developed into a pattern of activity people here have learned to live with.

179

00:10:52,000 --> 00:10:58,000

But lately, the skies above this high-altitude alpine valley have started getting crowded,

180

00:10:58,000 --> 00:11:04,000

leading many longtime residents to speculate that the military has moved in without notice.

181

00:11:06,000 --> 00:11:11,000

I'm a supporter of the military, but I don't believe in doing things that we don't need to do.

182

00:11:13,000 --> 00:11:19,000

It really makes me furious that they continue to fly over these children.

183

00:11:19,000 --> 00:11:24,000

Patricia Richmond has been a schoolteacher in the Valley for more than 25 years.

184

00:11:24,000 --> 00:11:26,000

She worries about an accident.

185

00:11:26,000 --> 00:11:34,000

The first time I had an encounter with them were two jets flying just almost about ground level.

186

00:11:35,000 --> 00:11:42,000

That person endangered not only his life, but the life of every child and every employee in that building.

187

00:11:42,000 --> 00:11:46,000

While most residents appreciate the need for national security,

188

00:11:46,000 --> 00:11:51,000

they believe the secrecy surrounding testing here only protects the military, not them.

189

00:11:51,000 --> 00:11:55,000

When it does happen, there should be accountability from the commanders,

190

00:11:55,000 --> 00:12:01,000

but apparently the commanders here don't feel that they should feel that they want to do anything.

191

00:12:01,000 --> 00:12:06,000

Lieutenant Colonel Buck Buckingham is airspace manager of the Colorado Air National Guard.

192

00:12:06,000 --> 00:12:11,000

He says the accusations about unsafe flyovers are simply untrue.

193

00:12:11,000 --> 00:12:15,000

The international guard policy is we fly no lower than 500 feet, which is what we do.

194

00:12:15,000 --> 00:12:22,000

We did have calls about the schools in Moffat. We did have calls about people in a vehicle getting attacked.

195

00:12:22,000 --> 00:12:25,000

They really weren't getting attacked. They weren't being used as targets.

196

00:12:25,000 --> 00:12:29,000

They perceived it that way because of how low we were.

197

00:12:29,000 --> 00:12:34,000

We do have a lot of people living here, and I suspect there are desert areas that they could fly and do their drills,

198

00:12:34,000 --> 00:12:36,000

which doesn't have any population in it.

199

00:12:36,000 --> 00:12:42,000

So why they need to fly over this area is not particularly clear unless there's some hidden agenda.

200

00:12:43,000 --> 00:12:50,000

Because the military isn't talking, speculation about that hidden agenda has led many in this close-knit community to fear the worst.

201

00:12:50,000 --> 00:12:55,000

Some people believe that their livestock and they themselves are part of a black project experiment

202

00:12:55,000 --> 00:12:58,000

involving extraterrestrial technology.

203

00:12:58,000 --> 00:13:05,000

Ray Cook, a third-generation valyite and former NASA engineer, believes the Pentagon has a more sinister purpose.

204

00:13:05,000 --> 00:13:13,000

What's occurring in many cases is you have a training activity which might be conducted by a guard unit, for example,

205

00:13:13,000 --> 00:13:19,000

that could be used to cloak the introduction of a super-secret aircraft.

206

00:13:19,000 --> 00:13:27,000

And what they may be cloaking, he says, is the go-ahead to build the Western Range complex known as the WRC.

207

00:13:27,000 --> 00:13:31,000

According to military officials, the WRC is still in the proposal stage,

208

00:13:31,000 --> 00:13:36,000

but area realtor Bob Sender off fears this new military test center is much further along.

209

00:13:36,000 --> 00:13:41,000

If they really need this airspace, maybe there's something they're not telling us.

210

00:13:41,000 --> 00:13:46,000

And if there's something that they're not telling us, then I think we have every right in the world to be concerned.

211

00:13:46,000 --> 00:13:50,000

I think if those people down there, I don't know what their agenda is.

212

00:13:50,000 --> 00:13:54,000

I don't know if it's a personal agenda, a personal attack on the military.

213

00:13:55,000 --> 00:13:59,000

Sometimes you see some things in the military that make you very upset.

214

00:13:59,000 --> 00:14:08,000

And sometimes I think to get to the root of the problem is I think the military has been a bureaucracy in our country for 200 years,

215

00:14:08,000 --> 00:14:13,000

and they've forgotten who they're accountable to sometimes and who they really work for.

216

00:14:13,000 --> 00:14:20,000

According to documents obtained by sightings, the Western Range complex flight corridor may extend south into New Mexico,

217

00:14:20,000 --> 00:14:24,000

rivaling the airspace now reserved for Area 51.

218

00:14:24,000 --> 00:14:32,000

Some 70% of the increase that they proposed here is going to be flown by aircraft other than the local Air National Guard.

219

00:14:32,000 --> 00:14:40,000

And that big category of other, and of course other gives you the opportunity of mixing in flights by black programs on testing weaponry

220

00:14:40,000 --> 00:14:44,000

that they otherwise would not want to test out in the open.

221

00:14:44,000 --> 00:14:49,000

We have no black projects. We have no laser capability.

222

00:14:49,000 --> 00:14:56,000

So whatever is going on down there that they think is, this gentleman, this unit, the Colorado Guard, knows nothing about it.

223

00:14:56,000 --> 00:15:05,000

If you were going to run all your black projects and experimental craft, and you could throw in a few UFO type things to throw people off the track

224

00:15:05,000 --> 00:15:14,000

just enough to get them talking about aliens and UFOs, that it would be a great smoke screen and cover for any kind of operation you wanted to run.

225

00:15:15,000 --> 00:15:26,000

I am suggesting we call the military to win the rock and have them give us a report as to what they're doing.

226

00:15:26,000 --> 00:15:30,000

I would say quit lying. Tell us the truth.

227

00:15:32,000 --> 00:15:40,000

Frustration is mounting as more and more people on the ground come to believe that their skies are being turned into the 21st century replacement for Area 51.

228

00:15:41,000 --> 00:15:49,000

Recent revelations about secret radiation testing nearby in the 1950s only confirm the fear that residents might be sitting ducks.

229

00:15:49,000 --> 00:15:58,000

There has to be an integrated plan, and that integrated plan is something that they should lay on the table, and that they'd give people an opportunity to evaluate it

230

00:15:58,000 --> 00:16:04,000

and determine if that's something we really want to support instead of trying to do it on a clandestine basis.

231

00:16:05,000 --> 00:16:12,000

The eyewitnesses that sightings spoke with, particularly members of the Navajo Nation, are more than just angry.

232

00:16:12,000 --> 00:16:22,000

They're disappointed in a government they have supported and in a military they've served, and they wonder if we can't be trusted, then who can?

233

00:16:22,000 --> 00:16:33,000

Next, did aliens create our universe? The unbelievable science had worked to free willing, and Feng Shui helps Hong Kong's futures exchange to new highs.

234

00:16:35,000 --> 00:16:42,000

Here are some of the stories sightings is following in the news.

235

00:16:42,000 --> 00:16:49,000

A recent headline in the times of London is causing vigorous debate among scientists and religious leaders.

236

00:16:49,000 --> 00:16:58,000

It reads, Aliens may have created universe, a claim based on the findings of not an overzealous ufologist, but a distinguished professor of astronomy.

237

00:16:59,000 --> 00:17:11,000

At the University of Massachusetts in Amherst, an astronomy professor is shaking up the world of cosmology with a startling theory about the origin of our galaxy.

238

00:17:11,000 --> 00:17:17,000

Professor Edward Harrison proposes that our world is the work of a superintelligence from another world.

239

00:17:17,000 --> 00:17:28,000

One usually says God did it or designed it, and that's the end of it. But now we're beginning to see how, in fact, intelligent life can actually create a universe.

240

00:17:28,000 --> 00:17:40,000

Sighting Einstein's cosmic theories, Harrison believes that advanced beings from another universe would have had the tools necessary to forge a new universe inside the crucible of a black hole.

241

00:17:40,000 --> 00:17:53,000

It goes into inflation like a bubble that bursts out of the side of this universe. It inflates and separates. Then begins the big bang, and then it becomes a universe eventually.

242

00:17:53,000 --> 00:18:02,000

And Harrison speculates that one reason such superintelligence might have created our universe was simply as a kind of alien science project.

243

00:18:02,000 --> 00:18:16,000

Our universe may not be the fittest. One might well see ways of creating fitting universes. Having created a universe, you can transfer into it, occupy it, and explore it.

244

00:18:16,000 --> 00:18:24,000

And he does not rule out the possibility that there may be some among us who are the direct descendants of those extraterrestrial explorers.

245

00:18:25,000 --> 00:18:40,000

In San Francisco, California, David Phillips of the Earth Island Institute is supervising an ambitious project to bring about a family reunion for Keiko. The Orca Whale made famous by the movie Free Willy.

246

00:18:40,000 --> 00:18:52,000

Keiko was donated from Mexico to us with the goal of hopefully one day being able to be reunited with his family. Probably the most ambitious plan ever launched for a marine mammal.

247

00:18:53,000 --> 00:19:09,000

Fired a captivity, Keiko lived for at least two years in Icelandic waters with his Orca family, called a pod. And because each pod has its own distinctive language, the project is endeavoring to learn Keiko's language and then search for a matching pod.

248

00:19:09,000 --> 00:19:20,000

The experts feel that he was in the wild with that pod long enough in those two years to be able to have learned and be able to recognize the sounds of that pod.

249

00:19:21,000 --> 00:19:31,000

Even though Keiko has been in captivity for nearly 16 years, scientists are hopeful that with an array of experimental techniques, they will be able to return Keiko to his family.

250

00:19:31,000 --> 00:19:45,000

We're probably going to be doing satellite link-ups of acoustic hydrophones in Iceland to his tank in Newport, Oregon, so that we can try to actually have him be able to listen to the sounds of the whales in the wild.

251

00:19:46,000 --> 00:19:55,000

If Keiko recognizes the songs of his pod, marine biologists will then conduct DNA testing to definitively link Keiko to his lost family.

252

00:19:55,000 --> 00:20:04,000

We've taken DNA samples of Keiko, certainly through his blood. We can get a very clear genetic picture of Keiko.

253

00:20:04,000 --> 00:20:14,000

We're using the best and the most advanced technology to try to answer some simple questions of how can Keiko find his family in the wild.

254

00:20:20,000 --> 00:20:27,000

In Hong Kong, preparations are underway for this British colony's return to China in 1999.

255

00:20:27,000 --> 00:20:37,000

But while the real estate may be returning to its roots, the culture remains decidedly Western, forfeiting many ancient spiritual beliefs, like the belief in Feng Shui.

256

00:20:37,000 --> 00:20:41,000

I would believe that this is more or less a psychological effect.

257

00:20:42,000 --> 00:20:50,000

Dr. Wang Wai Shou, a professor at the Chinese University of Hong Kong, believes Feng Shui is nothing more than an ancient superstition.

258

00:20:51,000 --> 00:20:56,000

Like in the Western culture, you have a Friday the 13th, right?

259

00:20:57,000 --> 00:21:02,000

But don't tell that to these men on the floor of the Hong Kong Futures Exchange.

260

00:21:02,000 --> 00:21:09,000

Because of Feng Shui, the belief that spiritual energy can be manipulated for happiness and profit, things are looking up.

261

00:21:09,000 --> 00:21:15,000

After a terrible first quarter in 1995, the billion dollar exchange was searching for a change.

262

00:21:15,000 --> 00:21:25,000

So we called the Feng Shui man out. He had said, you have a small slope going directly into the elevator bank.

263

00:21:25,000 --> 00:21:35,000

There is a very good chance that the wealth that is in this room will start flowing down and then it will be where the elevators can open up.

264

00:21:35,000 --> 00:21:38,000

And when you go down the elevators, the wealth could flow out of the building.

265

00:21:39,000 --> 00:21:50,000

Riley followed the Feng Shui masters advice. Two large aquariums were installed in a strategic location between the trading floor and the elevators.

266

00:21:50,000 --> 00:21:58,000

And sure enough, next morning after the fish tanks, our volume goes up to double its normal average and set a brand new record.

267

00:21:59,000 --> 00:22:07,000

For the balance of 1995 and so far 1996, the Hong Kong Futures Exchange has continued its strong performance.

268

00:22:07,000 --> 00:22:11,000

It began when they deferred to the ancient wisdom of Feng Shui.

269

00:22:16,000 --> 00:22:21,000

We'll have more stories from the news next time. Now, here's what's coming up on Citing's.

270

00:22:21,000 --> 00:22:26,000

For the people who worked there, the Gadsden Hotel's past is a bit too real.

271

00:22:26,000 --> 00:22:32,000

I saw a man shape moving down the hallway. I was petrified.

272

00:22:42,000 --> 00:22:47,000

At the turn of the century, Douglas, Arizona was the town that put the wild in Wild West.

273

00:22:47,000 --> 00:22:54,000

And at its center was the Gadsden Hotel, a posh playground for cattle, barons, prospectors and adventurers.

274

00:22:54,000 --> 00:23:04,000

The Gadsden is still the centerpiece of Douglas. It's still a hotel in between Christmas and Easter and still attracts a wild clientele, most of whom are dead.

275

00:23:11,000 --> 00:23:19,000

They say there's gold buried underneath the Gadsden, left by a prospector who took the secret of its location to his grave.

276

00:23:19,000 --> 00:23:26,000

Every year since then, starting around holiday time, the hotel has been haunted by the ghosts of Christmas past.

277

00:23:29,000 --> 00:23:34,000

I don't know if ghosts have shadows or what, but I've seen it on my wall in my bedroom.

278

00:23:36,000 --> 00:23:39,000

I don't know who it is, but it doesn't have a head.

279

00:23:41,000 --> 00:23:47,000

I always get chills right there, right at that spot, right at the corner where I saw the ghost. It's a creepy feeling.

280

00:23:50,000 --> 00:23:58,000

Most people associate weird goings on with Halloween, but at the Gadsden it seems like Christmas and Easter, but especially Christmas.

281

00:23:58,000 --> 00:24:03,000

We planned a sightings investigation to coincide with the annual Yule Tide haunting.

282

00:24:03,000 --> 00:24:10,000

When we start putting up Christmas decorations around here, we all kind of get this feeling like, what's going to happen this year?

283

00:24:10,000 --> 00:24:16,000

This year my mother-in-law and I put up the decorations and I was on a big ladder in the lobby next to the tree.

284

00:24:17,000 --> 00:24:22,000

She saw somebody leaning on the mezzanine, the railing, watching us putting up the decorations.

285

00:24:22,000 --> 00:24:29,000

She figured it might be the elevator operator standing there leaning against the thing, and she started walking towards it and it just disappeared.

286

00:24:29,000 --> 00:24:32,000

She looked, the elevator wasn't there and there was nobody around.

287

00:24:32,000 --> 00:24:37,000

Whatever was leaning on that railing, watching us put up Christmas decorations was immediately gone.

288

00:24:37,000 --> 00:24:42,000

We're wondering, who's going to have the next experience? What's going to happen?

289

00:24:43,000 --> 00:24:48,000

Was he the prospector or another notorious character from the Gadsden's past?

290

00:24:48,000 --> 00:24:52,000

Sightings first contacted local historian Lee Johnson.

291

00:24:52,000 --> 00:24:55,000

The area in the early days was a very hostile environment.

292

00:24:55,000 --> 00:25:03,000

By 1903 we had at least 50 saloons and a year later about 75 and it was very unruly.

293

00:25:03,000 --> 00:25:07,000

The Gadsden was built during these turbulent times.

294

00:25:07,000 --> 00:25:14,000

Completed in 1907 it was the only luxury hotel for hundreds of miles, attracting an elite clientele.

295

00:25:14,000 --> 00:25:18,000

Then in 1927 the Gadsden burned and was rebuilt by bootleggers.

296

00:25:18,000 --> 00:25:20,000

A new kind of patron took over.

297

00:25:20,000 --> 00:25:26,000

In the lobby where guests play rummage today, gunfights raged and many gamblers and rum runners were killed.

298

00:25:26,000 --> 00:25:31,000

If you want to find ghosts you should go where the most people congregated.

299

00:25:31,000 --> 00:25:38,000

In my opinion that would be the Gadsden, the structure, the violence that has taken place along with the fire.

300

00:25:38,000 --> 00:25:44,000

Lends all the aspects to the atmosphere that you would expect to find a ghost in.

301

00:25:46,000 --> 00:25:52,000

Many ghost investigators believe that untimely violent death is the stuff that ghosts are made upon.

302

00:25:52,000 --> 00:25:57,000

So it is not surprising that this place has become a treasure house of paranormal activity.

303

00:25:57,000 --> 00:26:03,000

And maybe the reason why housekeeper Maria Castillo never really feels alone when she makes her rounds.

304

00:26:05,000 --> 00:26:09,000

Presencia de alguien. I always feel the presence of someone.

305

00:26:13,000 --> 00:26:19,000

Maria described numerous incidents in the Gadsden's hallways when ghosts started playing games with her.

306

00:26:19,000 --> 00:26:23,000

And some of those ghosts like to play rough.

307

00:26:24,000 --> 00:26:30,000

In one bizarre incident several co-workers saw Maria slapped by an unseen hand.

308

00:26:30,000 --> 00:26:36,000

They say Welch raised on her skin offering compelling physical evidence to her paranormal encounter.

309

00:26:36,000 --> 00:26:43,000

Other female employees described a presence that climbs into bed with them at night and paralyzes them with supernatural energy.

310

00:26:43,000 --> 00:26:46,000

Brenda Nally had one such encounter.

311

00:26:46,000 --> 00:26:50,000

It was 10 o'clock. I turned the TV off and I turned the light off.

312

00:26:50,000 --> 00:27:00,000

I opened my eyes and I seen the shadow on the wall of this body floating about three or four inches over top of me and I couldn't move.

313

00:27:00,000 --> 00:27:05,000

I just felt like something was trying to get inside of me from head to toe.

314

00:27:05,000 --> 00:27:11,000

I don't know. I'm getting scared just talking about it, just thinking about it.

315

00:27:12,000 --> 00:27:19,000

Gadsden hotel manager Robin Breckis had a frightening encounter with this supernatural energy during a power failure.

316

00:27:19,000 --> 00:27:24,000

It was 4.10 in the afternoon and the clocks all stopped and nothing electrical worked.

317

00:27:24,000 --> 00:27:31,000

Her guests needed candles and so Robin went down to a storage area in the oldest and many say the most haunted part of the hotel.

318

00:27:31,000 --> 00:27:38,000

I just, I wasn't thinking about it. I think I just ran down the hall and reached for the doorknob and I thought somebody was watching me.

319

00:27:38,000 --> 00:27:42,000

So I turned the way that they would have had to come and there was nobody there.

320

00:27:42,000 --> 00:27:47,000

So I reached through to open the doorknob and I felt it again.

321

00:27:47,000 --> 00:27:56,000

So I looked the other direction and I shined my flashlight and I saw a man shape moving down the hallway.

322

00:27:56,000 --> 00:28:03,000

I was petrified and so I grabbed my box that was right there and I turned around and I ran.

323

00:28:03,000 --> 00:28:08,000

I've never seen the ghost again but I've had a lot of weird things happen to me.

324

00:28:08,000 --> 00:28:13,000

Because there have been multiple haunting encounters experienced by credible eyewitnesses,

325

00:28:13,000 --> 00:28:17,000

sightings brought in psychic Peter James to assist in several experiments.

326

00:28:17,000 --> 00:28:24,000

Because Peter seems to be sensitive to haunting energy, we asked him to record his psychic impressions inside the gadstone.

327

00:28:24,000 --> 00:28:28,000

Robin led Peter to the basement where the rest of our team was waiting.

328

00:28:28,000 --> 00:28:31,000

Hi! Hi! Hi! Hi!

329

00:28:31,000 --> 00:28:39,000

The team was using thermal vision which records temperature fluctuations and another camera was rigged with starlight infrared lenses.

330

00:28:39,000 --> 00:28:44,000

This camera operates in near darkness and also sees light bands invisible to the naked eye.

331

00:28:44,000 --> 00:28:51,000

Peter, this is where I was when I had my experience with whatever's down here.

332

00:28:51,000 --> 00:28:57,000

I was standing here but I didn't see anything right here. I saw something right over there in that doorway.

333

00:28:57,000 --> 00:29:03,000

And I'm feeling it as we speak right now, right behind me, right in this area.

334

00:29:03,000 --> 00:29:06,000

And I like to grow up through an investigate, you know, mind.

335

00:29:06,000 --> 00:29:16,000

This is where they enter from and come up this way and wherever they go within the hotel, this is the vortex.

336

00:29:16,000 --> 00:29:18,000

Walk around it, Peter. Just walk around the succumbers.

337

00:29:18,000 --> 00:29:20,000

I'm going to walk around the succumbers right here.

338

00:29:20,000 --> 00:29:28,000

Remarkably, the perimeter of the energy vortex that Peter was tracing coincided with an area visible to the team only through the thermal cam.

339

00:29:28,000 --> 00:29:31,000

The difference in color indicates a two degree warmer zone.

340

00:29:31,000 --> 00:29:35,000

Down the hallway, Peter felt the presence of another anomaly.

341

00:29:35,000 --> 00:29:38,000

I'm in a circle of cool air right now. It's cold.

342

00:29:38,000 --> 00:29:44,000

He's right here and I think this man was a bartender or he was a man in service.

343

00:29:44,000 --> 00:29:50,000

He doesn't give me a name but he's showing me where he was stabbed and where he bled to death.

344

00:29:50,000 --> 00:29:54,000

Moments later, a starkly manager appeared to the thermal cam operator. It was a face.

345

00:29:54,000 --> 00:29:56,000

Oh wow. What a...

346

00:29:56,000 --> 00:29:58,000

Can you get the monitor on this?

347

00:29:58,000 --> 00:29:59,000

I'm trying to. I'm trying to.

348

00:29:59,000 --> 00:30:00,000

You getting more?

349

00:30:00,000 --> 00:30:01,000

We're trying to monitor.

350

00:30:01,000 --> 00:30:02,000

You got more?

351

00:30:02,000 --> 00:30:04,000

I'm almost getting like a face shape.

352

00:30:04,000 --> 00:30:07,000

Temple, you touch where you think the face is.

353

00:30:09,000 --> 00:30:10,000

Right there.

354

00:30:10,000 --> 00:30:17,000

This is a portrait of the entity Peter felt, videotaped in shades of warm and cool.

355

00:30:17,000 --> 00:30:21,000

Peter, you see if you can aim that right at him.

356

00:30:21,000 --> 00:30:22,000

Seven holes.

357

00:30:22,000 --> 00:30:23,000

You can see through the camera.

358

00:30:23,000 --> 00:30:24,000

In this face?

359

00:30:24,000 --> 00:30:25,000

Yes.

360

00:30:27,000 --> 00:30:29,000

You aiming it right at him?

361

00:30:29,000 --> 00:30:30,000

Right there. Right there.

362

00:30:30,000 --> 00:30:31,000

Yes, right there.

363

00:30:31,000 --> 00:30:32,000

In the center?

364

00:30:32,000 --> 00:30:33,000

Yes.

365

00:30:33,000 --> 00:30:34,000

Right there.

366

00:30:34,000 --> 00:30:35,000

Right his eyes?

367

00:30:35,000 --> 00:30:36,000

Where?

368

00:30:36,000 --> 00:30:37,000

Right straight ahead.

369

00:30:37,000 --> 00:30:38,000

Okay.

370

00:30:38,000 --> 00:30:39,000

Right straight ahead.

371

00:30:39,000 --> 00:30:40,000

Right there.

372

00:30:40,000 --> 00:30:41,000

Right here.

373

00:30:41,000 --> 00:30:42,000

His eyes?

374

00:30:42,000 --> 00:30:43,000

His eyes?

375

00:30:43,000 --> 00:30:46,000

But the proof of the haunting here must still remain with the eyewitnesses.

376

00:30:46,000 --> 00:30:50,000

I was a skeptic before. I didn't really believe in ghosts.

377

00:30:50,000 --> 00:30:57,000

But once it actually happened to me, I'm a believer.

378

00:30:57,000 --> 00:31:01,000

With the passing of Easter, the Gadsden Hotel's ghostly season seems to be over.

379

00:31:01,000 --> 00:31:06,000

But as soon as the Tinsel Angels come out next Christmas, the entities are certain to return.

380

00:31:06,000 --> 00:31:13,000

And next year, perhaps the entity that revealed himself to Peter James will let someone know where the gold is buried.

381

00:31:14,000 --> 00:31:16,000

Next, doctors said she would never walk.

382

00:31:16,000 --> 00:31:19,000

You have seen a lot of doctors in your life.

383

00:31:19,000 --> 00:31:20,000

They couldn't do anything.

384

00:31:20,000 --> 00:31:23,000

This bastard who's not an actor can.

385

00:31:23,000 --> 00:31:24,000

Here.

386

00:31:30,000 --> 00:31:36,000

After the ouster of the Shah of Iran by the Ayatollahumani, thousands of Iranians were forced into exile.

387

00:31:36,000 --> 00:31:40,000

Many came to the United States and left the old ways behind.

388

00:31:40,000 --> 00:31:43,000

But as Karna Wall reports, some of the old ways die hard.

389

00:31:43,000 --> 00:31:51,000

And that's why so many Iranians are gathering to see Pavarande, Iran's most famous and successful spiritual healer.

390

00:31:54,000 --> 00:32:04,000

On the day that 17-year-old Leila Jamshed was born, artillery fire boomed in the streets of her native Tehran.

391

00:32:04,000 --> 00:32:08,000

A fire was raging in the bank underneath her apartment.

392

00:32:08,000 --> 00:32:10,000

Her birth was premature.

393

00:32:10,000 --> 00:32:13,000

She suffered oxygen deprivation causing cerebral palsy.

394

00:32:13,000 --> 00:32:19,000

Since then, her parents have emigrated to the U.S. and have tried everything to help Leila.

395

00:32:19,000 --> 00:32:26,000

What did the medical doctors give you in terms of a prognosis for Leila, in terms of what she could expect?

396

00:32:26,000 --> 00:32:32,000

Last time we were seen by the doctor, he said they cannot do anything.

397

00:32:32,000 --> 00:32:34,000

So that she would always have difficulty?

398

00:32:34,000 --> 00:32:35,000

Exactly.

399

00:32:35,000 --> 00:32:36,000

Had to walk with the crutches?

400

00:32:36,000 --> 00:32:38,000

She would never be able to use her left hand.

401

00:32:38,000 --> 00:32:40,000

That's true. That's true.

402

00:32:40,000 --> 00:32:44,000

But as hoped dwindled, Leila's mother heard about Master Pavarande.

403

00:32:44,000 --> 00:32:50,000

Little known in America, Pavarande is viewed in Iran as a healer and a saint.

404

00:32:50,000 --> 00:32:59,000

He accepts no money for his spiritual services and has purportedly treated 2 million patients with a 95% success rate.

405

00:32:59,000 --> 00:33:05,000

Master Pavarande's first trip to the U.S. would prove a success for Leila as well.

406

00:33:05,000 --> 00:33:08,000

Did you believe in a healer's ability?

407

00:33:08,000 --> 00:33:13,000

No. There's no such thing as a healer. There was no such thing as a healer.

408

00:33:13,000 --> 00:33:14,000

In your mind?

409

00:33:14,000 --> 00:33:15,000

Yeah.

410

00:33:15,000 --> 00:33:23,000

But Leila's mother was adamant. The family made the trip from their home in Dallas to Los Angeles, where Leila had a private healing with Pavarande.

411

00:33:23,000 --> 00:33:32,000

And he placed his hands on my back like this and he applied such a great force.

412

00:33:32,000 --> 00:33:33,000

What did it feel like?

413

00:33:33,000 --> 00:33:41,000

It felt like some electrical impulses. And he did that for several moments.

414

00:33:41,000 --> 00:33:43,000

And he asked me to lay back down.

415

00:33:43,000 --> 00:33:49,000

After I got up off the mat, I noticed that my back was bendable.

416

00:33:49,000 --> 00:33:54,000

And you're talking to a person that's never bent her back before this.

417

00:33:54,000 --> 00:33:58,000

Describe how you feel today compared to how you feel beforehand.

418

00:33:58,000 --> 00:34:06,000

When he first let go of my back, I felt hot. I felt as if something was being lifted off my back.

419

00:34:06,000 --> 00:34:09,000

Once he did that, the back pain was gone.

420

00:34:09,000 --> 00:34:12,000

You have seen a lot of doctors in your life.

421

00:34:12,000 --> 00:34:20,000

Yes. They couldn't do anything. And this master who's not a doctor, can't.

422

00:34:20,000 --> 00:34:32,000

Master Pavarande believes that many illnesses, both physical and psychological, are caused by

disruptions in the electromagnetic energy that naturally flows through the body.

423

00:34:32,000 --> 00:34:37,000

Everything in the universe has a vibration and oscillation.

424

00:34:37,000 --> 00:34:46,000

When your vibration is not at the correct level being very simplistic, you have a disease.

425

00:34:46,000 --> 00:34:54,000

I believe our best definition of a healer is an individual who can stimulate a vibratory effect in the receiver.

426

00:34:54,000 --> 00:35:05,000

Healing has never been, in the last 300 years, a part of conventional medicine. It defies the laws of science.

427

00:35:05,000 --> 00:35:16,000

Most healers will tell you that they don't heal. They are channels for healing energy, which all of the ones I've talked to believe is the power of God.

428

00:35:16,000 --> 00:35:22,000

And in fact, master Pavarande does attribute his healing powers to a divine source.

429

00:35:22,000 --> 00:35:36,000

God will transfer all we transmit energy to me. I think that my energy is going to be transferred to the people or to the patients.

430

00:35:36,000 --> 00:35:45,000

I'm not a religious person, but I still do believe in a God. And he's got something going on with God. They've like got their own direct telephone line, I think.

431

00:35:45,000 --> 00:35:51,000

After a series of personal healing sessions with Leila, Pavarande continues to help her over the telephone.

432

00:35:51,000 --> 00:35:57,000

I still don't have enough balance when I'm trying to walk. I still stumble a little bit.

433

00:35:57,000 --> 00:36:02,000

The results of these sessions have been profound and Leila continues to improve.

434

00:36:02,000 --> 00:36:10,000

I couldn't grip anything with my left hand. I couldn't move my legs as much as I'm able to move now.

435

00:36:10,000 --> 00:36:19,000

Through Pavarande's treatment, Leila is doing what mainstream doctors doubted she ever would. Leila is taking her first unaided steps.

436

00:36:22,000 --> 00:36:34,000

I am very, very, very happy for this because I know that in the near future Leila can take care of herself and be independent.

437

00:36:34,000 --> 00:36:39,000

Although he is thrilled with the results, Leila's older brother remains a skeptic.

438

00:36:39,000 --> 00:36:46,000

I have a hard time believing that it happens, but I believe my sister. It really doesn't matter what I believe.

439

00:36:46,000 --> 00:36:54,000

What matters is what she believes and the fact that she's doing these things right now, that's what matters.

440

00:36:56,000 --> 00:37:05,000

And it is this power of positive thought that even traditional doctors agree is a determining factor in recovery from all kinds of illnesses.

441

00:37:07,000 --> 00:37:14,000

Before the Mastery, you could only walk with crutches. You had no use of your left hand at all.

442

00:37:14,000 --> 00:37:21,000

And you had severe back pain. And you're telling me that today not as much back pain.

443

00:37:21,000 --> 00:37:22,000

Not as much.

444

00:37:22,000 --> 00:37:27,000

Use of your left wrist and you're walking without the crutches for six to eight steps.

445

00:37:27,000 --> 00:37:30,000

What are your expectations now?

446

00:37:30,000 --> 00:37:42,000

I expect him to cure me. I expect him to. Because if he can do this, if he can do what he's done for me so far, which he has, I expect him to cure me.

447

00:37:44,000 --> 00:37:53,000

Leila's condition continues to improve and she hopes that on Paravanda's next trip to the United States, he will be able to visit her at her home in Texas.

448

00:37:54,000 --> 00:37:59,000

Next, do the secrets of the lost continent of Adelaide lie beneath this frozen landscape?

449

00:37:59,000 --> 00:38:03,000

When we mapped it, the lay of the land that we got matches the Saint-Chem map.

450

00:38:03,000 --> 00:38:24,000

More than 5,000 years ago, in Egypt, in the Maya Kingdom and in North America, people inscribed their pyramids, temples and totems with the same story of a vastly sophisticated civilization that had vanished beneath the waves.

451

00:38:24,000 --> 00:38:30,000

Before telephones, telegraph or transatlantic trade, they all knew the same story.

452

00:38:30,000 --> 00:38:38,000

Was it simply a case of coincidental legend or were these widely separated people all recalling historical fact?

453

00:38:39,000 --> 00:38:50,000

There's a great myth memory that haunts mankind. It's a memory of a lost civilization and a lost continent.

454

00:38:50,000 --> 00:39:04,000

And yet, we do have a continent on our planet which is truly lost, which is the continent of Antarctica, buried beneath thousands of billions of tons of ice.

455

00:39:05,000 --> 00:39:21,000

Graham Hancock is the author of *Fingerprints of the Gods*. In it, Hancock speculates that the lost civilization we know today as Atlantis may actually have been in Antarctica before it was covered with ice and several ancient maps support Hancock's theory.

456

00:39:21,000 --> 00:39:31,000

One of the best known of these maps is the Piri Reis map, drawn up by a well-known Turkish admiral in 1513 in Constantinople.

457

00:39:31,000 --> 00:39:39,000

The Piri Reis map is thought to have been based on even older maps stored in Egypt in the legendary library of Alexandria.

458

00:39:39,000 --> 00:39:51,000

The map shows the correct contours of the northern Antarctic coastline. Remarkable because in 1513 there was no sonar, radar or deep drilling technology to see this outline.

459

00:39:51,000 --> 00:39:55,000

The Antarctic Peninsula is buried under mild thick ice.

460

00:39:56,000 --> 00:40:02,000

Richard Noon is a millennial researcher who has reached conclusions similar to Hancock's, but with a deadly twist.

461

00:40:02,000 --> 00:40:12,000

And when we mapped it using very advanced modern electronics, the lay of the land that we got matches the topography of the St. John map.

462

00:40:12,000 --> 00:40:20,000

After studying the Piri Reis map, the United States Air Force concurred. The map showed Antarctica ice-free.

463

00:40:20,000 --> 00:40:30,000

The Earth apparently rolls along with long periods of quiet and then an event which is described as a pole shift takes place.

464

00:40:30,000 --> 00:40:39,000

The theory of pole shift suggests that when the ice at the poles is not in balance, the crust of the Earth can actually shift or slip around the core.

465

00:40:39,000 --> 00:40:48,000

The relationship between the continents would not change, but land in warmer parts of the planet would move into colder areas and vice versa.

466

00:40:48,000 --> 00:40:58,000

This theory was first offered by former Keen College professor Charles Hapgood. It may sound far-fetched, but when it was proposed to Albert Einstein, he found it theoretically possible.

467

00:40:58,000 --> 00:41:11,000

Were there to be a crustal displacement, the consequences would be truly cataclysmic, mild high tidal waves surging across all the continents of the Earth.

468

00:41:11,000 --> 00:41:18,000

Perhaps in this, we have the origins of the great story of the flood of Noah and of other flood myths around the world.

469

00:41:18,000 --> 00:41:25,000

And most important of all, it explains how we lose a whole continent and a whole civilization.

470

00:41:25,000 --> 00:41:30,000

And Hancock warns if it happened before, it could happen again.

471

00:41:30,000 --> 00:41:42,000

Many people have rightly pointed to a dangerous conjunction of planets that will take place on 5, 5, 2000, the 5th of May, 2000.

472

00:41:42,000 --> 00:41:52,000

On that date, five planets will line up on the other side of the Sun in a direct line with the Earth itself.

473

00:41:52,000 --> 00:42:10,000

If on that day, a slight nudge is exerted on the crust of the Earth by this particular alignment, then the crust of the Earth as a whole unit will slide over the more plastic viscose underlayer.

474

00:42:10,000 --> 00:42:19,000

I think it's a good hypothesis worthy of much further testing that we look beneath the ice that now covers the Antarctic Peninsula.

475

00:42:19,000 --> 00:42:32,000

There, I suspect, we may find the cities, the great engineering works of an entire advanced and forgotten human civilization.

476

00:42:32,000 --> 00:42:41,000

Why do we continue to be fascinated by Atlantis? Perhaps it's because our modern world resembles that once great civilization in so many ways.

477

00:42:41,000 --> 00:42:52,000

And as violent seismic activity appears to be on the increase worldwide, perhaps we're also fascinated by Atlantis because we fear that history will soon repeat itself.
