

1

00:00:00,000 --> 00:00:02,000

Possible interpretation.

2

00:00:02,000 --> 00:00:05,000

Claim who have had close encounters of the fifth kind.

3

00:00:05,000 --> 00:00:09,000

This is a new chapter in interspecies communication.

4

00:00:09,000 --> 00:00:14,000

Then, don't make any plans for the new year until you watched our full astrological report

5

00:00:14,000 --> 00:00:17,000

with startling predictions for 1993.

6

00:00:17,000 --> 00:00:20,000

It's the worst period that I've seen in a long time.

7

00:00:30,000 --> 00:00:50,000

Music

8

00:00:51,000 --> 00:00:53,000

Welcome to sightings. I'm Tim White.

9

00:00:53,000 --> 00:00:59,000

The start of every new year means resolutions that we're determined to keep and probably don't.

10

00:00:59,000 --> 00:01:04,000

And of course a chance for psychics and astrologers to make their predictions for the coming year.

11

00:01:04,000 --> 00:01:07,000

How accurate are these prophecies?

12

00:01:07,000 --> 00:01:10,000

And should we believe these predictions about the future?

13

00:01:10,000 --> 00:01:13,000

Well, perhaps this year we should pay special attention.

14

00:01:13,000 --> 00:01:19,000

Many professional psychics are predicting a 1993 filled with disaster.

15

00:01:19,000 --> 00:01:26,000

We believe that at 7.05 in the evening on the 8th of May 1993,

16

00:01:26,000 --> 00:01:30,000

there will be one of the largest earthquakes ever to hit California.

17

00:01:30,000 --> 00:01:38,000

That it will spread during an 11 minute period when the quake will actually continue

18

00:01:38,000 --> 00:01:42,000

all the way up the coast on the Andreas Fault.

19

00:01:42,000 --> 00:01:48,000

And that it will start a major disaster on the American continent.

20

00:01:48,000 --> 00:01:53,000

A frightening prediction and one made even more astounding when we consider the source.

21

00:01:53,000 --> 00:01:58,000

A 16th century physician, astrologer and to some a visionary.

22

00:01:58,000 --> 00:02:00,000

The neighbor, Michel Nostradamus.

23

00:02:00,000 --> 00:02:05,000

According to some scholars, Nostradamus' predictions about major historical events

24

00:02:05,000 --> 00:02:10,000

have proven to be amazingly accurate even 400 years after his death.

25

00:02:10,000 --> 00:02:13,000

Nostradamus was the most extraordinary man of his century.

26

00:02:13,000 --> 00:02:17,000

He was known in many circles, known as the medical circles, court circles.

27

00:02:17,000 --> 00:02:22,000

Many ambassadors used to write terrified letters back to their various kings and queens

28

00:02:22,000 --> 00:02:26,000

saying, Monsieur Nostradamus has said so and so. We must be careful.

29

00:02:26,000 --> 00:02:30,000

For centuries, people have tried to decode his cryptic writings.

30

00:02:30,000 --> 00:02:34,000

He has been credited with predicting the coming of Hitler, air travel,

31

00:02:34,000 --> 00:02:36,000

great natural disasters and plagues.

32

00:02:36,000 --> 00:02:39,000

There have been many interpreters of Nostradamus,

33

00:02:39,000 --> 00:02:44,000

but Nostradamus wrote in very obscure quaternions.

34

00:02:44,000 --> 00:02:49,000

First of all, it's hard to interpret it. We find out that you can read anything in it you want to.

35

00:02:49,000 --> 00:02:53,000

A new and intriguing interpretation of the quaternions of Nostradamus

36

00:02:53,000 --> 00:02:56,000

is being offered by author Peter Laurie.

37

00:02:56,000 --> 00:03:03,000

What we did in our book was actually to discover a code, a numerical, anagrammatical code,

38

00:03:03,000 --> 00:03:08,000

which actually is tricky to begin with, but once you get the hang of it, it's quite simple,

39

00:03:08,000 --> 00:03:12,000

which decodes the quaternions and makes them much more fascinating

40

00:03:12,000 --> 00:03:15,000

than they are, in fact, on the face of it.

41

00:03:15,000 --> 00:03:21,000

Nostradamus often used astrology as what he believed was a scientific backup to his predictions.

42

00:03:21,000 --> 00:03:25,000

Astrology is based on the belief that the relative positions of stars and planets

43

00:03:25,000 --> 00:03:32,000

have a direct effect on all life on Earth, but can the future really be predicted with any accuracy?

44

00:03:32,000 --> 00:03:36,000

Many people do believe that psychics, palm readers, and especially astrologers,

45

00:03:36,000 --> 00:03:39,000

have a special ability to see into the future.

46

00:03:39,000 --> 00:03:43,000

And there are those who turn to countless books and magazines

47

00:03:43,000 --> 00:03:47,000

that offer advice and predictions for the coming year.

48

00:03:47,000 --> 00:03:51,000

Astrology is both an art and a science.

49

00:03:51,000 --> 00:03:56,000

It's a science in the sense that we use the actual positions of the planets.

50

00:03:56,000 --> 00:04:01,000

In fact, my computers here have the same planet position tapes

51

00:04:01,000 --> 00:04:04,000

from NASA's Jet Propulsion Laboratories in Pasadena.

52

00:04:04,000 --> 00:04:11,000

The art end of it comes from being able to interpret these planetary positions

53

00:04:11,000 --> 00:04:16,000

and what they mean for a person in their life, in their future, what's happening for them.

54

00:04:16,000 --> 00:04:21,000

Computers are the latest weapon in a high-tech arsenal astrologers are using.

55

00:04:21,000 --> 00:04:25,000

The positions of the stars and planets for any period of time can be entered

56

00:04:25,000 --> 00:04:29,000

and then quickly compared to important information about a single individual,

57

00:04:29,000 --> 00:04:32,000

a group, or even a specific geographical region.

58

00:04:32,000 --> 00:04:37,000

One of the tips that led me to the realization that there was a strong potential

59

00:04:37,000 --> 00:04:43,000

for a moderate to severe earthquake in California the end of June 1992

60

00:04:43,000 --> 00:04:48,000

was the position of Jupiter, the most massive planet that there is,

61

00:04:48,000 --> 00:04:52,000

was sitting at the midnight point below the state of California

62

00:04:52,000 --> 00:04:58,000

at the time that the biggest earthquake in 40 years hit the Yucca Valley area.

63

00:04:58,000 --> 00:05:02,000

In addition to charting the likelihood of catastrophic events

64

00:05:02,000 --> 00:05:05,000

and providing individual charts for their clients,

65

00:05:05,000 --> 00:05:10,000

some astrologers are also helping some businesses find their way to economic prosperity.

66

00:05:10,000 --> 00:05:18,000

I do a portfolio called a company profile and I take the incorporation date of the business

67

00:05:18,000 --> 00:05:24,000

and run it of course on the computer and all of those charts give some insight into the business.

68

00:05:24,000 --> 00:05:30,000

As a result of working with Grace, I saw a tremendous turnaround

69

00:05:30,000 --> 00:05:33,000

in the income and the volume of activity in my business.

70

00:05:33,000 --> 00:05:36,000

Arch Crawford is Wall Street's best known astrologer.

71

00:05:36,000 --> 00:05:42,000

His newsletter was calculated most accurate by Timer Digest for 1991 and 2.

72

00:05:42,000 --> 00:05:47,000

I was looking for something in Wall Street just to give a slight edge

73

00:05:47,000 --> 00:05:51,000

and what I found was startlingly more than an edge.

74

00:05:51,000 --> 00:05:55,000

The incoming administration would do well to consult astrologers.

75

00:05:55,000 --> 00:06:01,000

The heads of most governments in the past always did consult astrologers.

76

00:06:01,000 --> 00:06:05,000

Some of the major heads today still do.

77

00:06:05,000 --> 00:06:11,000

Ronald Reagan was known as the Teflon President because whatever they threw at him, nothing stuck.

78

00:06:11,000 --> 00:06:17,000

And the reason it nothing stuck was that he was doing everything on a favorable astrological time.

79

00:06:17,000 --> 00:06:19,000

The man knew what he was doing.

80

00:06:19,000 --> 00:06:23,000

I can tell you that Bush has not been using astrologers

81

00:06:23,000 --> 00:06:29,000

because he went to Japan and threw up on the Prime Minister on an eclipse date

82

00:06:29,000 --> 00:06:33,000

that was in bad aspect to the NATO United States chart.

83

00:06:33,000 --> 00:06:36,000

That was the worst time to go out.

84

00:06:36,000 --> 00:06:39,000

That was a good time to stay home and be sick.

85

00:06:39,000 --> 00:06:46,000

And what do the heavens tell prominent astrologers and astro-economists about the events of the upcoming year?

86

00:06:47,000 --> 00:06:50,000

Looking over what's going to happen in the year ahead,

87

00:06:50,000 --> 00:06:54,000

it looks to me like one of those years they're going to make t-shirts about.

88

00:06:54,000 --> 00:06:56,000

It's going to be I Survived 1993.

89

00:06:56,000 --> 00:07:01,000

The major war potential now relates more to the Holy War

90

00:07:01,000 --> 00:07:07,000

between the Islamic nations of the Middle East and the great powers in the West.

91

00:07:07,000 --> 00:07:10,000

It's going to be more of a terrorist kind of situation,

92

00:07:10,000 --> 00:07:14,000

especially around approximately February 2

93

00:07:14,000 --> 00:07:18,000

and also in August and early October of 1993.

94

00:07:18,000 --> 00:07:25,000

We're going to have another major seismic upheaval in the Western U.S., probably California,

95

00:07:25,000 --> 00:07:30,000

probably around February the 8th, March the 6th, April the 6th.

96

00:07:30,000 --> 00:07:34,000

Those three dates are key dates, plus or minus three days.

97

00:07:34,000 --> 00:07:42,000

I do have a prediction of a high late in April and a very devastating May-June period.

98

00:07:42,000 --> 00:07:47,000

It may be another crash. It's the worst period that I've seen in a long time.

99

00:07:47,000 --> 00:07:52,000

I don't know specifically how the planets affect the Somalia in particular,

100

00:07:52,000 --> 00:07:58,000

but I think it's very strange that the United States goes in there on the day of the lunar eclipse.

101

00:07:58,000 --> 00:08:06,000

And I don't think that that's a good thing on a full moon and a lunar eclipse is not a good time to start projects.

102

00:08:06,000 --> 00:08:13,000

Nostradamus predicts an earthquake on the West shore, Los Angeles, California,

103

00:08:13,000 --> 00:08:20,000

which really is such great dimensions that the seismic records have been heard not only in New York, but practically worldwide.

104

00:08:20,000 --> 00:08:23,000

He gives us May the 21st.

105

00:08:23,000 --> 00:08:30,000

Is this our fate, or are these predictions merely random guesses based on an unproved science?

106

00:08:30,000 --> 00:08:32,000

And should we take them seriously?

107

00:08:32,000 --> 00:08:36,000

Can computers or the words of a 16th century doctor, or tell our future?

108

00:08:36,000 --> 00:08:39,000

We all of course want to know what's happening in the future.

109

00:08:39,000 --> 00:08:44,000

I think that's something we experienced as a child, if we could just predict the future and know what was going on.

110

00:08:44,000 --> 00:08:46,000

Nobody can do it.

111

00:08:46,000 --> 00:08:51,000

And the promise of it, I think, is so compelling and so strong

112

00:08:51,000 --> 00:08:57,000

that it takes an act of will and a lot of effort to overcome the natural inclination we want to believe that to.

113

00:08:57,000 --> 00:09:04,000

For now, only time will tell if it is the astrologers or the skeptics who will be right in the future.

114

00:09:04,000 --> 00:09:10,000

Joining us now with more predictions of what lies ahead in 1993 is Gene Avery,

115

00:09:10,000 --> 00:09:14,000

world famous astrologer, lecturer, and author of numerous books on astrology.

116

00:09:14,000 --> 00:09:16,000

Gene, welcome to signings.

117

00:09:16,000 --> 00:09:17,000

Hi, Tim. Thank you.

118

00:09:17,000 --> 00:09:24,000

Many of the astrologers that we've spoken to, Gene, say 1993 is going to be a simply awful year.

119

00:09:24,000 --> 00:09:25,000

Do you agree?

120

00:09:25,000 --> 00:09:28,000

Well, it's not going to be an easy one. Let's put it that way.

121

00:09:28,000 --> 00:09:29,000

Why?

122

00:09:29,000 --> 00:09:38,000

There's an aspect in the skies between Uranus and Neptune that is so extraordinary, it has not been around for 165 years.

123

00:09:38,000 --> 00:09:44,000

The planet Uranus always describes events that are almost catastrophic. I have to say that word.

124

00:09:44,000 --> 00:09:49,000

Gene, people love lists. What are your top three predictions for 1993?

125

00:09:49,000 --> 00:09:51,000

Do I have to combine them to three?

126

00:09:51,000 --> 00:09:52,000

Sure.

127

00:09:52,000 --> 00:09:54,000

The stock market is starting to get into trouble.

128

00:09:54,000 --> 00:10:00,000

February, March, I see May bringing earth changes perhaps in Seattle area.

129

00:10:00,000 --> 00:10:09,000

I see catastrophic events with the stock market at that time and some terrible rumblings in the Middle Eastern countries again.

130

00:10:09,000 --> 00:10:14,000

Other astrologers have predicted a major earthquake in California.

131

00:10:14,000 --> 00:10:16,000

Another one in 1993.

132

00:10:16,000 --> 00:10:19,000

May the 8th, some of them say. How about you?

133

00:10:19,000 --> 00:10:26,000

Well, I see earth changes up around Seattle and Utah and or in Portland. I don't see it lower California.

134

00:10:26,000 --> 00:10:28,000

Earthquakes north of California?

135

00:10:28,000 --> 00:10:29,000

Earth changes.

136

00:10:29,000 --> 00:10:30,000

What does that mean?

137

00:10:30,000 --> 00:10:38,000

Floods, hurricanes, disastrous weather conditions, but not necessarily the earthquake in California.

138

00:10:38,000 --> 00:10:41,000

What does President Clinton have ahead of him according to the stars?

139

00:10:41,000 --> 00:10:47,000

Well, he has a fabulous time ahead. He's going to be a wonderful president. I feel even inspired.

140

00:10:47,000 --> 00:10:53,000

He has four years ahead with very few difficult aspects. So I think he's going to be a fabulous leader.

141

00:10:53,000 --> 00:10:55,000

Gene Avery, thank you very much for being with us.

142

00:10:55,000 --> 00:10:56,000

Thank you.

143

00:10:56,000 --> 00:11:00,000

And we will be back with more sightings in just a moment.

144

00:11:00,000 --> 00:11:06,000

Coming up next, these people claim to have had close encounters of the fifth kind with extraterrestrials.

145

00:11:06,000 --> 00:11:11,000

This is a new chapter in interspecies communication.

146

00:11:12,000 --> 00:11:18,000

Sightings is brought to you by SWAV Hair Care, when you know beautiful hair doesn't have to cost a fortune.

147

00:11:18,000 --> 00:11:20,000

Come on, perk up, perk up.

148

00:11:20,000 --> 00:11:22,000

I'm finding out that my hair is possessed.

149

00:11:22,000 --> 00:11:23,000

What's wrong?

150

00:11:23,000 --> 00:11:27,000

It goes every which way. I mean, how come your hair always goes the right way?

151

00:11:27,000 --> 00:11:28,000

SWAV hairspray.

152

00:11:28,000 --> 00:11:29,000

Not a bee.

153

00:11:29,000 --> 00:11:30,000

SWAV?

154

00:11:30,000 --> 00:11:33,000

Oh, great. So I'm running around buying the most expensive brands of hairspray.

155

00:11:33,000 --> 00:11:35,000

Well, you just have to get with it.

156

00:11:35,000 --> 00:11:37,000

Swarm's how you use? Really?

157

00:11:37,000 --> 00:11:38,000

That's it.

158

00:11:38,000 --> 00:11:40,000

Oh, those are the best ones yet.

159

00:11:40,000 --> 00:11:42,000

Except for this hair.

160

00:11:42,000 --> 00:11:47,000

SWAV, when you know beautiful hair doesn't have to cost a fortune.

161

00:11:47,000 --> 00:11:54,000

I hate to be a pesto, but did you know some great atopings are one-third bats and fillers?

162

00:11:54,000 --> 00:11:59,000

Craft is 100% grated parmesan for 100% great taste.

163

00:11:59,000 --> 00:12:02,000

Mmm, great-o.

164

00:12:02,000 --> 00:12:06,000

We dare you to feel more comfortable this month.

165

00:12:06,000 --> 00:12:07,000

You're on.

166

00:12:07,000 --> 00:12:12,000

Take new improved PlayTex out of its applicator and compare it to the other leading tampon.

167

00:12:12,000 --> 00:12:16,000

PlayTex is softer than a more comfortable applicator. I'll try it.

168

00:12:16,000 --> 00:12:18,000

PlayTex, dare to feel more comfortable.

169

00:12:18,000 --> 00:12:24,000

Saturday, you'll see exclusive surveillance footage of a suspect who was too hard to handle

170

00:12:24,000 --> 00:12:27,000

on an all-new cops in Fort Worth.

171

00:12:27,000 --> 00:12:31,000

Then, witness extraordinary rescues by ordinary people.

172

00:12:32,000 --> 00:12:37,000

When a plane's landing gear fails, the pilot's friend attempts a daring mid-air rescue.

173

00:12:37,000 --> 00:12:41,000

And they're the unsung heroes of the San Francisco earthquake.

174

00:12:41,000 --> 00:12:49,000

See how brave citizens risk their lives to save complete strangers on an all-new Cone 3 after cops on Saturday.

175

00:12:50,000 --> 00:12:55,000

Until recently, sightings of UFOs have been divided into three categories.

176

00:12:56,000 --> 00:13:03,000

A close encounter of the first kind, or CE1 for short, describes sightings closer than 500 feet.

177

00:13:03,000 --> 00:13:07,000

A CE2 includes physical evidence left behind.

178

00:13:07,000 --> 00:13:12,000

And the third kind, or CE3, describes face-to-face encounters.

179

00:13:12,000 --> 00:13:19,000

A few years ago, ufologists added CE4 to describe reported alien abductions of humans.

180

00:13:19,000 --> 00:13:24,000

And now, there's a new category, close encounters of the fifth kind, CE5,

181

00:13:24,000 --> 00:13:31,000

in which humans and aliens actively communicate with each other through light and sound.

182

00:13:31,000 --> 00:13:38,000

The Center for the Study of Extraterrestrial Life, or C-CEV, is pioneering the study of CE5s.

183

00:13:38,000 --> 00:13:41,000

Dr. Stephen Greer is C-CEV's director.

184

00:13:41,000 --> 00:13:48,000

A close encounter of the fifth kind is a term that we have coined to describe humans deliberately attempting

185

00:13:48,000 --> 00:13:54,000

to vector a spacecraft into an area with the intention of interacting with it.

186

00:13:54,000 --> 00:13:59,000

Most encounters in all the other categories are passive.

187

00:13:59,000 --> 00:14:05,000

In a CE5, we take the initiative to communicate in some fashion,

188

00:14:05,000 --> 00:14:09,000

whether it be with sound or light or thought, to try and get a response.

189

00:14:09,000 --> 00:14:13,000

Rather than just being passive observers, we want to interact.

190

00:14:13,000 --> 00:14:16,000

And some of these are sometimes quite serendipitous.

191

00:14:16,000 --> 00:14:24,000

For example, an individual might be out at night driving along a highway and see an extraterrestrial spacecraft or a UFO,

192

00:14:24,000 --> 00:14:29,000

and we'll take the initiative to get a flashlight and begin to signal to it.

193

00:14:29,000 --> 00:14:32,000

And many times, it will come over and then signal back.

194

00:14:32,000 --> 00:14:38,000

The purpose of our work is for peaceful communication, mutual respect.

195

00:14:38,000 --> 00:14:46,000

We absolutely assume non-hostility on the part of any visitors until it's proven to us beyond a shadow of a doubt.

196

00:14:46,000 --> 00:14:53,000

In their field research, C-CEV has developed a specific set of protocols for initiating contact with aliens' spacecraft.

197

00:14:53,000 --> 00:14:56,000

Their goal is a successful CE5.

198

00:14:56,000 --> 00:15:00,000

The different methods of initiating a CE5 include using sound,

199

00:15:00,000 --> 00:15:07,000

which are at this point we're using anomalous sounds that were recorded inside of crop circles in England.

200

00:15:08,000 --> 00:15:10,000

We use light.

201

00:15:10,000 --> 00:15:16,000

When we go out into the field, we go with half million candle power halogen lights that are portable.

202

00:15:16,000 --> 00:15:29,000

The lights are used signaling to the UFO, either in a series of flashes or by drawing shapes in the sky, usually a large triangle or large circle.

203

00:15:29,000 --> 00:15:35,000

It's meant to encourage the UFO to participate and to interact with the project.

204

00:15:35,000 --> 00:15:40,000

We also use thought in the form of meditative thought or thought projection.

205

00:15:40,000 --> 00:15:43,000

We call it coherent thought sequencing.

206

00:15:43,000 --> 00:15:57,000

So we're using these, what we call the contact trilogy, in a protocol fashion with the express intention of a boarding party, a C-City train boarding party, going on board and having a meeting with these visitors.

207

00:15:57,000 --> 00:16:04,000

In the spring of 1992, Dr. Greer took a C-City group to one UFO hotspot, Gulf Breeze, Florida.

208

00:16:04,000 --> 00:16:10,000

This computer simulation is based on C-City's own footage, supposedly showing communication with the UFO.

209

00:16:10,000 --> 00:16:19,000

We began signaling to them with these lights and they would signal back so that we would flash to them two flashes and off and they would flash back two times and off.

210

00:16:19,000 --> 00:16:27,000

They disappeared briefly and during that time period we were making an equilateral triangle in the sky with these high powered lights.

211

00:16:27,000 --> 00:16:34,000

At that point, shortly after we did that, they reappeared in a perfect equilateral triangle.

212

00:16:34,000 --> 00:16:43,000

Over 40 people witnessed a definite close encounter of the fifth kind between the C-City group and these UFOs.

213

00:16:43,000 --> 00:16:51,000

With their apparent success at Gulf Breeze, C-City expanded their field research to include an investigation in Great Britain.

214

00:16:51,000 --> 00:17:01,000

They combined forces with British researchers who were interested in investigating if alien spacecraft could be responsible for England's famous crop circles.

215

00:17:01,000 --> 00:17:08,000

We wanted to try and prove once and for all if a link really did exist between the UFO phenomenon and the crop circle phenomenon.

216

00:17:08,000 --> 00:17:16,000

We picked the Wiltshire area because the majority of the crop circle formations in England are forming in that particular county.

217

00:17:16,000 --> 00:17:24,000

The site there is very close to Stonehenge. It's a very prolific area for aerial phenomena and for the ground patterns.

218

00:17:24,000 --> 00:17:32,000

During our protocol that evening of July 23rd, we focused on our thought process for this particular formation for 20 minutes.

219

00:17:32,000 --> 00:17:38,000

We all held in our minds the thought of a triangle with a circle at each point of the triangle.

220

00:17:38,000 --> 00:17:46,000

And we were of course very astonished to find that the next day precisely that shape appeared in a field.

221

00:17:46,000 --> 00:17:57,000

We walked out onto the end of this long land formation and as we got to the very end, their glistening in the sun below us was the perfect formation identical to what we had envisioned.

222

00:17:57,000 --> 00:18:08,000

We clearly do have an intelligence involved which is, but appear to be reading the brain patterns

of the human psyche.

223

00:18:08,000 --> 00:18:18,000

It seems very evident to us that this is all about communication. They, whoever they are, are communicating to us with these ciphers in the field.

224

00:18:18,000 --> 00:18:25,000

And in our CECETI protocol, we've communicated with them and they've answered back.

225

00:18:25,000 --> 00:18:31,000

When we saw the existence of this formation, we considered that to be a very high level CE5.

226

00:18:31,000 --> 00:18:38,000

Exhilarated by their success, the CECETI team mounted another investigation nearby at Alton Barnes.

227

00:18:38,000 --> 00:18:44,000

Bad weather forced most of the team to abandon the overnight surveillance.

228

00:18:44,000 --> 00:18:48,000

But Dr. Greer and three others persevered.

229

00:18:48,000 --> 00:18:55,000

At approximately 12.20 am, Chris Mansell was banging on my window and I opened the door and I said, what is wrong?

230

00:18:55,000 --> 00:18:59,000

And he said there is a spaceship coming right to the bloody field.

231

00:18:59,000 --> 00:19:04,000

It must have been 80 to 100 feet across, very large.

232

00:19:04,000 --> 00:19:10,000

And at this point, we were able to extricate one of these high powered lights and we began to signal to it.

233

00:19:10,000 --> 00:19:16,000

So I took the light and I hit it twice with this very high powered light, two flashes and paws.

234

00:19:16,000 --> 00:19:20,000

And the ultimate surprise, it actually flashed back.

235

00:19:20,000 --> 00:19:28,000

And it flashed back again. It's just amazing and can you really?

236

00:19:28,000 --> 00:19:34,000

This event certainly ranks as one of the most significant human initiated encounters in history.

237

00:19:34,000 --> 00:19:39,000

And I think it speaks to the possibilities which await us in the future.

238

00:19:39,000 --> 00:19:45,000

One such possibility is accurately predicting when and where a CE5 will occur.

239

00:19:45,000 --> 00:19:50,000

It is a British aerospace engineer who has amassed records on thousands of reported UFO sightings.

240

00:19:50,000 --> 00:19:56,000

Given a specific location, Dutton believes he can predict the date and time of the area's next sighting.

241

00:19:56,000 --> 00:20:01,000

I can very, very quickly produce a predictions graph for any place on earth.

242

00:20:01,000 --> 00:20:06,000

Roy Dutton did predict the events that occurred at Halton Barnes.

243

00:20:06,000 --> 00:20:09,000

I had just met him that day, the day of the 26th.

244

00:20:09,000 --> 00:20:14,000

And he had, for that part of England, had stated that there would be high likelihood of sightings

245

00:20:14,000 --> 00:20:20,000

at around 10.30, which is when we did have the first sightings, and then again at 12.30.

246

00:20:20,000 --> 00:20:24,000

The sightings which occurred that night were congruent with his predictions.

247

00:20:24,000 --> 00:20:31,000

We, in our C-Ceti work, have communicated to them and they've answered,

248

00:20:31,000 --> 00:20:33,000

what are the boundaries of this?

249

00:20:33,000 --> 00:20:38,000

This is a new chapter in interspecies communication.

250

00:20:39,000 --> 00:20:45,000

The C-Ceti members believe that the increasing number of UFO sightings reported over the past 40 years

251

00:20:45,000 --> 00:20:47,000

are more than coincidence.

252

00:20:47,000 --> 00:20:53,000

They believe the growing number of sightings are part of an extraterrestrial master plan to prepare us,

253

00:20:53,000 --> 00:20:57,000

they say, for formal contact in the near future.

254

00:20:57,000 --> 00:21:03,000

Coming up, a landmark that's become the site of an investigation after a psychic channeling.

255

00:21:03,000 --> 00:21:07,000

Robert the pirate spoke through me and he spoke about underground tunnels and buried treasure.

256

00:21:08,000 --> 00:21:11,000

Some women have a new secret.

257

00:21:11,000 --> 00:21:15,000

The new play tech secrets pantieslimmer.

258

00:21:17,000 --> 00:21:20,000

Of course it's pretty, but the real secret?

259

00:21:22,000 --> 00:21:26,000

A hidden panel that targets your tummy to control you where you need it most.

260

00:21:26,000 --> 00:21:32,000

The secret's out. New play tech secrets pantieslimmer and matching bras.

261

00:21:32,000 --> 00:21:36,000

It really works.

262

00:21:38,000 --> 00:21:43,000

Dear Big Big Cheese, my dream is to eat a little Caesar's Big Big Cheese with you.

263

00:21:54,000 --> 00:21:56,000

Dear Little Caesar.

264

00:21:56,000 --> 00:21:58,000

Wrong kid, I'm George Biles.

265

00:21:58,000 --> 00:21:59,000

Oh. Let's eat.

266

00:21:59,000 --> 00:22:00,000

Okay.

267

00:22:00,000 --> 00:22:02,000

It's the biggest pizza in the history of the world.

268

00:22:02,000 --> 00:22:05,000

24 spices of cheese and pepperoni pizza.

269

00:22:05,000 --> 00:22:07,000

All for 888.

270

00:22:07,000 --> 00:22:08,000

Pizza, pizza.

271

00:22:08,000 --> 00:22:09,000

You see this waiting room?

272

00:22:09,000 --> 00:22:11,000

A lot of those are sinus problems.

273

00:22:11,000 --> 00:22:12,000

Not just cold.

274

00:22:12,000 --> 00:22:14,000

But this is tough on both.

275

00:22:14,000 --> 00:22:15,000

Advil, cold and sinus.

276

00:22:15,000 --> 00:22:16,000

Sinus?

277

00:22:16,000 --> 00:22:17,000

Yeah.

278

00:22:17,000 --> 00:22:19,000

What a surprise.

279

00:22:19,000 --> 00:22:20,000

Advil, cold and sinus.

280

00:22:20,000 --> 00:22:23,000

Advanced formula for the cold and sinus season.

281

00:22:23,000 --> 00:22:25,000

What could be worse than a yeast infection?

282

00:22:25,000 --> 00:22:27,000

How about the cost of curing it?

283

00:22:27,000 --> 00:22:29,000

Does anything cost less?

284

00:22:29,000 --> 00:22:32,000

Femmecare costs less than Monostat 7.

285

00:22:32,000 --> 00:22:34,000

And it's just as effective.

286

00:22:34,000 --> 00:22:35,000

It's a real alternative.

287

00:22:35,000 --> 00:22:38,000

Trust Femmecare. The cure that costs less.

288

00:22:38,000 --> 00:22:44,000

In a bizarre premonition, this mother wrote a detailed account of her daughter's murder months before it happened.

289

00:22:44,000 --> 00:22:46,000

On another episode of Sightings.

290

00:22:46,000 --> 00:22:48,000

Coming up next.

291

00:23:00,000 --> 00:23:04,000

New customers, new markets.

292

00:23:04,000 --> 00:23:08,000

They're out there, but reaching them could be a big problem for small business.

293

00:23:08,000 --> 00:23:12,000

Nobody has more ways to help you open new markets than South Central Bell.

294

00:23:12,000 --> 00:23:15,000

We make it easier to reach new customers.

295

00:23:20,000 --> 00:23:28,000

Up and down the eastern seaboard, local folk-lovers filled with stories and legends about the pirates who once ruled the Atlantic coast.

296

00:23:28,000 --> 00:23:37,000

Their exploits on the high seas are intriguing, but still more tantalizing are the stories of buried treasure the pirates left behind.

297

00:23:37,000 --> 00:23:46,000

Now historians, archaeologists and a psychic are teaming up to find one treasure trove that they all believe may lie buried in New Jersey.

298

00:23:46,000 --> 00:23:55,000

One of the most notorious pirates in North America was Captain Charles Morgan, who ruled the waters off the coast of New Jersey in the mid-1600s.

299

00:23:55,000 --> 00:24:00,000

Many believe that he lived here at an historic site now known as Spy House,

300

00:24:00,000 --> 00:24:04,000

so named because of the British spies who were imprisoned here during the American Revolution.

301

00:24:04,000 --> 00:24:11,000

Three years ago, local psychic Jane Doherty visited Spy House to investigate eyewitness reports of paranormal activity.

302

00:24:11,000 --> 00:24:18,000

As I came through the house, I picked up various information, went into a trance and Robert the pirate spoke through me.

303

00:24:18,000 --> 00:24:24,000

At first we didn't know his name, he just came out of me and he spoke about underground tunnels and buried treasure.

304

00:24:24,000 --> 00:24:28,000

When I came out of the trance, we were all very shocked by it.

305

00:24:28,000 --> 00:24:35,000

Even more shocking was confirmation by geophysicist Bruce Bevin that tunnels did indeed exist beneath Spy House.

306

00:24:35,000 --> 00:24:42,000

I detected three lines of echoes out on the other yard of the house.

307

00:24:42,000 --> 00:24:53,000

These are caused by objects which are underground and we might say follow their path for a length of maybe about 20 to 30 feet or so.

308

00:24:53,000 --> 00:24:58,000

The possibility of tunnels under Spy House does not surprise local historians.

309

00:24:58,000 --> 00:25:09,000

When pirates came in to shore, what they would do is they would go to the center of the harbor and then it was believed that they would use the tunnels to bring in goods and to bring in slaves.

310

00:25:09,000 --> 00:25:14,000

So there's a very good chance that some of these tunnels are still in existence.

311

00:25:14,000 --> 00:25:22,000

In the spring of 1993, scientists from Rutgers University will begin an investigation to determine if there are tunnels beneath Spy House.

312

00:25:22,000 --> 00:25:25,000

The scientists will bring you the outcome of the Rutgers investigation.

313

00:25:25,000 --> 00:25:36,000

If you've had a paranormal experience, our investigative team would like to know at 1900 740 site, each call 75 cents a minute, average call less 2 minutes and you must be 18 years or older.

314

00:25:36,000 --> 00:25:41,000

Again, the sightings hotline is 1900 740 7483.

315

00:25:42,000 --> 00:25:46,000

When I get a yeast infection, I want an effective cure at a reasonable price.

316

00:25:46,000 --> 00:25:54,000

So I switched from gynelotrimin to mycelex 7 because mycelex has the same full prescription strength medicine and it costs a lot less.

317

00:25:54,000 --> 00:25:57,000

So now my choice, my cure is mycelelex.

318

00:26:11,000 --> 00:26:17,000

Now the best no nonsense ever with the confidence of triple run guards that stop panty runs where they start.

319

00:26:17,000 --> 00:26:23,000

320

00:26:23,000 --> 00:26:27,000

No nonsense, American woman.

321

00:26:41,000 --> 00:26:45,000

Currently, Sprint can decide for long distance for you with priority service.

322

00:26:45,000 --> 00:26:48,000

They'll review your account and let you know if you're on the right plan.

323

00:26:48,000 --> 00:26:49,000

It's that easy.

324

00:26:49,000 --> 00:26:52,000

And this is how you call Sprint.

325

00:26:59,000 --> 00:27:10,000

Remember waking up to the hiss of mom's pancakes hitting the griddle and looking forward to drowning them in rich, maple log cabin syrup, log cabin, rich maple flavor and morning.

326

00:27:11,000 --> 00:27:13,000

Remember, listen up team.

327

00:27:13,000 --> 00:27:15,000

You want to keep your sandwiches fresh?

328

00:27:15,000 --> 00:27:19,000

Use Ziploc brand sandwich bags with the gripper zipper.

329

00:27:19,000 --> 00:27:21,000

Tough, tiny teeth you can feel gripping.

330

00:27:21,000 --> 00:27:23,000

So you know freshness is locked in.

331

00:27:23,000 --> 00:27:25,000

Let's win one for the gripper.

332

00:27:25,000 --> 00:27:27,000

There's only one Ziploc.

333

00:27:27,000 --> 00:27:30,000

You said you wanted a change in this country.

334

00:27:30,000 --> 00:27:32,000

The new meatloaf sandwich at Burger King.

335

00:27:32,000 --> 00:27:33,000
