

1

00:00:00,000 --> 00:00:08,740

When Charles Darwin published Origin of the Species in 1859, it ignited a worldwide controversy

2

00:00:08,740 --> 00:00:12,120

that continues to divide science and religion.

3

00:00:12,120 --> 00:00:16,620

But the controversy doesn't end there, because within the scientific community itself there

4

00:00:16,620 --> 00:00:18,540

is bitter division.

5

00:00:18,540 --> 00:00:24,360

And now, new evidence that a conspiracy of silence among mainstream anthropologists is

6

00:00:24,360 --> 00:00:30,920

covering up evidence of what some believe are our true extraterrestrial origins.

7

00:00:30,920 --> 00:00:37,440

The Bible answers the riddle of our origin in four simple words, and God created man.

8

00:00:37,440 --> 00:00:40,340

Darwin looked at monkeys and saw Michelangelo.

9

00:00:40,340 --> 00:00:45,300

But for modern anthropologists who try to put a name and a date to the dawn of humankind,

10

00:00:45,300 --> 00:00:47,820

the answer is constantly changing.

11

00:00:47,820 --> 00:00:52,940

fossils discovered recently in Ethiopia put our earliest ancestors at around 4.4 million

12

00:00:52,940 --> 00:00:58,780

years, but some scientists believe that there is evidence that we are much older than that.

13

00:00:58,780 --> 00:01:03,880

On an archaeological dig in Weyatlico, Mexico, Dr. Virginia's Steen McIntyre discovered

14

00:01:03,880 --> 00:01:06,700

tools that predated the earliest known humans.

15

00:01:06,700 --> 00:01:08,740

Her find created a storm of controversy.

16

00:01:08,740 --> 00:01:10,940

I don't really want to be in the center of a controversy.

17

00:01:10,940 --> 00:01:14,540

I never asked to be in the center of a controversy, but I'm here.

18

00:01:14,540 --> 00:01:17,940

And I want to get the information out.

19

00:01:17,940 --> 00:01:18,940

I want to get out the truth.

20

00:01:18,940 --> 00:01:21,500

I guess that's what it is.

21

00:01:21,500 --> 00:01:27,020

Why does Dr. Steen McIntyre feel the need to protect her artifacts from her more mainstream

22

00:01:27,020 --> 00:01:28,540

colleagues?

23

00:01:28,540 --> 00:01:33,340

Why are contradictory findings being met with contempt instead of excitement?

24

00:01:33,340 --> 00:01:37,700

Some researchers charge it's because these new findings would turn modern anthropology

25

00:01:37,700 --> 00:01:45,420

on its head.

26

00:01:45,420 --> 00:01:51,060

I believe that we came from outer space.

27

00:01:51,060 --> 00:01:59,540

All the evidence suggests that human beings, as we know them, did not originate on this

28

00:01:59,540 --> 00:02:06,340

planet but have come to this earth from other dimensions.

29

00:02:06,340 --> 00:02:13,140

I believe that we came from outer space, that we are the direct descendants of the intelligent

30

00:02:13,140 --> 00:02:16,580

people who landed here a long time ago.

31

00:02:16,580 --> 00:02:20,980

Gene Phillips is the founder and president of the Ancient Astronaut Society.

32

00:02:20,980 --> 00:02:25,220

He claims that museums are hiding thousands of artifacts that do not conform to their

33

00:02:25,220 --> 00:02:27,940

narrow view of anthropology.

34

00:02:27,940 --> 00:02:35,020

This is an exact replica of an object that is in the Smithsonian Museum and they call

35

00:02:35,020 --> 00:02:37,020

it a stylized insect.

36

00:02:37,020 --> 00:02:42,900

The Smithsonian had it on display and they used to sell replicas in their shop.

37

00:02:42,900 --> 00:02:48,060

Phillips claims that after the Ancient Astronaut Society interpreted the object as a prehistoric

38

00:02:48,060 --> 00:02:54,780

space shuttle, the Smithsonian removed the original from public display.

39

00:02:54,780 --> 00:03:00,700

Phillips and his group have studied more than 150 ancient sites in 30 countries.

40

00:03:00,700 --> 00:03:04,580

These 5,000 year old masks were unearthed in Eastern Europe.

41

00:03:04,580 --> 00:03:09,180

They bear a striking resemblance to modern day depictions of supposed aliens known as

42

00:03:09,180 --> 00:03:10,180

greys.

43

00:03:10,180 --> 00:03:16,020

There's a site in Bolivia, South America called El Fuerte.

44

00:03:16,020 --> 00:03:21,020

What it looks like is a catapult type launch site for space vehicles.

45

00:03:21,020 --> 00:03:25,900

The Ancient Astronaut Society is not the only group supporting the theory of interplanetary

46

00:03:25,900 --> 00:03:26,900

contact.

47

00:03:26,900 --> 00:03:31,620

Author Zachariah Sitchin concurs in his book The 12th Planet.

48

00:03:31,620 --> 00:03:39,700

There is one more planet in our own solar system, not light years away, that comes near Earth

49

00:03:39,700 --> 00:03:46,660

between Mars and Jupiter every 3600 years, at which time people, intelligent people,

50

00:03:46,660 --> 00:03:53,020

beings like us, come and go between their planet and our planet and brought us homo sapiens

51

00:03:53,020 --> 00:03:57,460

about sooner than we might have appeared otherwise.

52

00:03:57,460 --> 00:04:01,860

Don't call them aliens because we look like them, they look like us.

53

00:04:01,860 --> 00:04:05,300

See all we ask is that people have an open mind.

54

00:04:05,300 --> 00:04:09,500

Look at something with an open mind with today's space age eyes.

55

00:04:09,500 --> 00:04:14,460

Scientists on the fringe of modern anthropology believe that their theories are not taken

56

00:04:14,460 --> 00:04:19,900

seriously because mainstream scientists are afraid to admit that they've been wrong.

57

00:04:19,900 --> 00:04:26,020

All the textbooks would have to be rewritten, all the exhibits in the museums would have

58

00:04:26,020 --> 00:04:28,140

to be changed.

59

00:04:28,140 --> 00:04:35,420

This would be very embarrassing and people who have positions to defend like that don't

60

00:04:35,420 --> 00:04:36,860

like to be embarrassed.

61

00:04:39,500 --> 00:04:40,500

Thank you.

62

00:04:40,500 --> 00:04:41,500

Thank you.

63

00:04:41,500 --> 00:04:42,500

Thank you.

64

00:04:42,500 --> 00:04:43,500

Thank you.

65

00:04:43,500 --> 00:04:44,500

Thank you.

66

00:04:44,500 --> 00:04:45,500

Thank you.

67

00:04:45,500 --> 00:04:46,500

Thank you.

68

00:04:46,500 --> 00:04:47,500

Thank you.

69

00:04:47,500 --> 00:04:48,500

Thank you.

70

00:04:48,500 --> 00:04:49,500

Thank you.

71

00:04:49,500 --> 00:04:50,500

Thank you.

72

00:04:50,500 --> 00:04:51,500

Thank you.

73

00:04:51,500 --> 00:04:52,500

Thank you.

74

00:04:52,500 --> 00:04:53,500

Thank you.

75

00:04:53,500 --> 00:04:54,500

Thank you.

76

00:04:54,500 --> 00:04:55,500

Thank you.

77

00:04:55,500 --> 00:04:56,500

Thank you.

78

00:04:56,500 --> 00:04:57,500

Thank you.

79

00:04:57,500 --> 00:04:58,500

Thank you.

80

00:04:58,500 --> 00:04:59,500

Thank you.

81

00:04:59,500 --> 00:05:00,500

Thank you.

82

00:05:00,500 --> 00:05:01,500

Thank you.

83

00:05:01,500 --> 00:05:02,500

Thank you.

84

00:05:02,500 --> 00:05:03,500

Thank you.

85

00:05:03,500 --> 00:05:04,500

Thank you.

86

00:05:04,500 --> 00:05:05,500

Thank you.

87

00:05:05,500 --> 00:05:06,500

Thank you.

88

00:05:06,500 --> 00:05:07,500

Thank you.

89

00:05:07,500 --> 00:05:08,500

Thank you.
