

1

00:00:00,000 --> 00:00:07,000

Update from Mexico City. Video tape continues to surface from the largest UFO flap in history.

2

00:00:10,000 --> 00:00:16,000

Since 1991, there have been more than 1,000 UFO sightings over Mexico City.

3

00:00:16,000 --> 00:00:20,000

At first, attempts to document the phenomena were amateurish and inconsistent.

4

00:00:20,000 --> 00:00:27,000

But as the flap has continued, a more thorough and coordinated effort to document the sightings is underway.

5

00:00:27,000 --> 00:00:32,000

It's a grassroots movement that's gaining momentum and credibility.

6

00:00:32,000 --> 00:00:35,000

With UFO sightings like this one occurring nearly every week,

7

00:00:35,000 --> 00:00:42,000

citizen groups are forming all over Mexico with support and training provided by several colleges and universities.

8

00:00:42,000 --> 00:00:46,000

They are learning how to recognize and document genuine UFOs.

9

00:00:47,000 --> 00:00:54,000

There are also some diamond shaped forms, red in color, that are suspended over the mountain.

10

00:00:54,000 --> 00:00:59,000

And all of a sudden they become long and then all of a sudden diamond is shaped again.

11

00:00:59,000 --> 00:01:01,000

Then they disappear.

12

00:01:04,000 --> 00:01:06,000

We went to my sister-in-law's home.

13

00:01:06,000 --> 00:01:12,000

All of a sudden, I thought I was looking at a cloud and I saw a yellow light.

14

00:01:12,000 --> 00:01:14,000

It got closer to us.

15

00:01:15,000 --> 00:01:19,000

Among the experts participating in these field seminars is Dmitriy Oferia,

16

00:01:19,000 --> 00:01:23,000

who maintains Mexico's largest library of UFO footage.

17

00:01:23,000 --> 00:01:28,000

A former safari leader, he's now after a different kind of big game.

18

00:01:30,000 --> 00:01:39,000

My experience as an observer starts back in a time when I dedicated myself to being in the field hunting animals.

19

00:01:39,000 --> 00:01:47,000

But now what I am trying to capture on camera and on video are UFOs.

20

00:01:48,000 --> 00:01:53,000

Oferia has made a thorough study of conventional aircraft and their flight patterns,

21

00:01:53,000 --> 00:01:56,000

so he can distinguish them at a glance from true UFOs.

22

00:01:56,000 --> 00:02:01,000

You need to see them, to look for them and know what to look for.

23

00:02:01,000 --> 00:02:07,000

The shine, the intensity of the shine and the movement that these machines have.

24

00:02:07,000 --> 00:02:14,000

As more amateur ufologists are trained in his technique, an impressive videotape database has been developed.

25

00:02:15,000 --> 00:02:17,000

He would teach me how to look at the sky.

26

00:02:17,000 --> 00:02:20,000

He would show me his videos that he had already recorded.

27

00:02:20,000 --> 00:02:26,000

He would tell me how I had to sharpen my vision to be able to distinguish those objects since they are very small.

28

00:02:29,000 --> 00:02:37,000

First record them on video and study them to be able to compare later a real one from a false one.

29

00:02:38,000 --> 00:02:44,000

I spent about 7 months looking at the sky and wasn't able to record anything.

30

00:02:44,000 --> 00:02:50,000

Then it took me about 2 more months before I was able to obtain the first video.

31

00:02:51,000 --> 00:02:55,000

The number of UFO videos shot in Mexico is overwhelming.

32

00:02:55,000 --> 00:03:00,000

When the computer science department at El Grupo Sogo, a Mexican state university,

33

00:03:00,000 --> 00:03:05,000

was asked to analyze the footage, Professor Victor Casada was hesitant.

34

00:03:07,000 --> 00:03:09,000

I didn't buy into the phenomenon.

35

00:03:09,000 --> 00:03:19,000

I thought that many of the videos were falsifications utilizing a methodology known in computer lingo as multimedia.

36

00:03:19,000 --> 00:03:24,000

But when Professor Casada, his colleagues and students, began looking at the UFO footage,

37

00:03:24,000 --> 00:03:27,000

a startling pattern was instantly visible.

38

00:03:27,000 --> 00:03:34,000

Computer enhancements of the supposed UFOs could not be matched to enhancements of any conventional aircraft.

39

00:03:35,000 --> 00:03:37,000

At that point we weren't as skeptical.

40

00:03:37,000 --> 00:03:41,000

We said let's take advantage of what we know and let's try to look for the truth on our own.

41

00:03:41,000 --> 00:03:44,000

And then the university backed us up.

42

00:03:44,000 --> 00:03:48,000

Professors approached the university with an unusual proposal.

43

00:03:48,000 --> 00:03:53,000

They wanted to conduct formal classes in the study of the Mexican UFO phenomenon.

44

00:03:53,000 --> 00:03:57,000

Surprisingly, permission was granted and the classes filled quickly.

45

00:03:58,000 --> 00:04:03,000

My interest in all of this changed to understand a little more about the truth.

46

00:04:03,000 --> 00:04:11,000

In reality there is a lot of photographic material and video material that really makes you think that there is something out there.

47

00:04:14,000 --> 00:04:18,000

I decided to do field research with a group of students and professors

48

00:04:18,000 --> 00:04:22,000

and we started to see phenomena in the heavens that were inexplicable.

49

00:04:23,000 --> 00:04:26,000

I noticed that there were strange things.

50

00:04:26,000 --> 00:04:33,000

We saw lights, very rare lights, and lights that could not be categorized as a star

51

00:04:33,000 --> 00:04:37,000

or categorized as an airplane.

52

00:04:39,000 --> 00:04:44,000

For the students and faculty at El Grupo Sol, what started out as a purely technical exercise

53

00:04:44,000 --> 00:04:49,000

has become a topic for not only scientists, but also philosophers.

54

00:04:49,000 --> 00:04:57,000

It would be of great interest to me to be able to have in my hand the most advanced technology,

55

00:04:57,000 --> 00:05:02,000

the most advanced resources, to be able to have the most information.

56

00:05:03,000 --> 00:05:10,000

I believe in the effort that the universities make, that the individuals make, that the governments make

57

00:05:10,000 --> 00:05:13,000

in order to find the truth to this phenomenon.

58

00:05:13,000 --> 00:05:19,000

If it is the case that it really exists, we should be able to establish contact with it.

59

00:05:20,000 --> 00:05:25,000

The good thing would be that this would have a positive effect for mankind.
