

1

00:00:00,000 --> 00:00:05,000

There is, or was, life on Mars.

2

00:00:05,000 --> 00:00:09,000

This is the conclusion of many researchers who studied NASA photographs of Mars

3

00:00:09,000 --> 00:00:12,000

transmitted by the Viking spacecraft.

4

00:00:12,000 --> 00:00:17,000

Several photographs show a face staring out into the cosmos.

5

00:00:17,000 --> 00:00:21,000

It seems impossible, but as correspondent Carla Wall reports,

6

00:00:21,000 --> 00:00:28,000

there are clues here on Earth that add an intriguing new dimension to the face on Mars.

7

00:00:28,000 --> 00:00:37,000

Here in the countryside of south-central England,

8

00:00:37,000 --> 00:00:43,000

in a hamlet named Avebury, stand 5,000-year-old stone structures of unknown origin.

9

00:00:43,000 --> 00:00:50,000

There are also circular mounds built for a purpose no one has deciphered.

10

00:00:50,000 --> 00:00:55,000

But now, an intriguing new theory suggests that these mysterious monuments

11

00:00:55,000 --> 00:01:00,000

are connected to similar formations on the surface of Mars.

12

00:01:00,000 --> 00:01:04,000

The complex on Mars is exceedingly important in my view

13

00:01:04,000 --> 00:01:09,000

because it's highlighted by the presence of the famous face on Mars,

14

00:01:09,000 --> 00:01:13,000

which acted as a beacon and probably attracted our attention to the whole area.

15

00:01:13,000 --> 00:01:17,000

David Percy is an author, filmmaker and paranormal researcher.

16

00:01:17,000 --> 00:01:21,000

He believes that this face is not a trick of light and shadow.

17

00:01:21,000 --> 00:01:26,000

It is part of a vast complex of Martian structures created by intelligent life.

18

00:01:26,000 --> 00:01:29,000

This is the whole of the complex.

19

00:01:29,000 --> 00:01:33,000

Over here to the west, we have an area which we call the city.

20

00:01:33,000 --> 00:01:37,000

And over here to the right is a crater.

21

00:01:37,000 --> 00:01:41,000

And beneath it, down here, a spiral mound.

22

00:01:41,000 --> 00:01:46,000

And over to the west, a pyramid which is five-sided.

23

00:01:46,000 --> 00:01:50,000

In 1991, while researching the Ave Berry Crop Circle phenomenon,

24

00:01:50,000 --> 00:01:53,000

Percy made a startling connection.

25

00:01:53,000 --> 00:02:00,000

I took an ordnance survey map of the area and superimposed it over the NASA photograph,

26

00:02:00,000 --> 00:02:04,000

the complex, its entirety, and found that it matched.

27

00:02:04,000 --> 00:02:09,000

The most striking match was made here at the famous Ave Berry Circle.

28

00:02:09,000 --> 00:02:11,000

It's about a quarter of a mile in diameter.

29

00:02:11,000 --> 00:02:18,000

And around about 5,000 years ago, they shifted approximately four million cubic feet of material.

30

00:02:18,000 --> 00:02:24,000

One would want to ask why my hypothesis is that this is a copy of the crater on Mars.

31

00:02:24,000 --> 00:02:29,000

That's a big stretch for a lot of people to believe that this is the duplicate of something on Mars.

32

00:02:29,000 --> 00:02:31,000

How do you get there?

33

00:02:31,000 --> 00:02:35,000

Well, this isn't the only item that we're dealing with here.

34

00:02:35,000 --> 00:02:38,000

We have just the short distance away, Silbury Hill.

35

00:02:38,000 --> 00:02:45,000

It's the same relative size as a spiral mound on Mars and is the same relative distance to the crater.

36

00:02:45,000 --> 00:02:50,000

It would have taken about 700 people 10 years to build this.

37

00:02:50,000 --> 00:02:55,000

It was equivalent in effort to putting a man on the moon in the 60s.

38

00:02:55,000 --> 00:03:01,000

Ave Berry Circle and Silbury Hill do bear an uncanny resemblance to their counterparts on Mars.

39

00:03:01,000 --> 00:03:05,000

But I found some of Percy's other theories harder to accept.

40

00:03:06,000 --> 00:03:10,000

David, I have to tell you that this, to me, looks like an ordinary country path.

41

00:03:10,000 --> 00:03:11,000

Yes, I agree with you.

42

00:03:11,000 --> 00:03:20,000

It is, in fact, an ordinary country path, but it happens to be the analogue of the top ridge of the pyramids in the city on Mars.

43

00:03:20,000 --> 00:03:23,000

But if you really want to see something, don't you think you'll see it?

44

00:03:23,000 --> 00:03:28,000

I mean, can't you be making things because you want it to fit your theory?

45

00:03:28,000 --> 00:03:29,000

Yes, of course that can be done.

46

00:03:29,000 --> 00:03:32,000

And the people who look at this information have to see for themselves.

47

00:03:32,000 --> 00:03:38,000

You've got to explain, for instance, why that crater is positioned exactly where it is on this planet.

48

00:03:38,000 --> 00:03:40,000

It isn't at a random place.

49

00:03:40,000 --> 00:03:44,000

It is a very accurately measured point between the north pole and the equator.

50

00:03:44,000 --> 00:03:51,000

If you draw a line from the wall down to the south to the spiral mound and then up again to that tetrahedral rim pyramid,

51

00:03:51,000 --> 00:03:54,000

you get just under 19.5 degrees.

52

00:03:54,000 --> 00:03:59,000

If you do exactly the same thing at Ave Berry, you get precisely the same measurement.

53

00:03:59,000 --> 00:04:04,000

You cannot get such a correspondence just by wishful thinking.

54

00:04:04,000 --> 00:04:08,000

How do you think it was created? Who do you think created it and why?

55

00:04:08,000 --> 00:04:15,000

Clearly this complex on Mars that we're talking about was built by intelligent beings who went to Mars and built the complex

56

00:04:15,000 --> 00:04:17,000

because they were working on a project.

57

00:04:17,000 --> 00:04:23,000

And this project, in my view, concerned the emerging beings on this planet.

58

00:04:23,000 --> 00:04:30,000

Percy believes that the extraterrestrials came to Ave Berry centuries ago to change the course of human evolution.

59

00:04:30,000 --> 00:04:33,000

They conducted experiments in genetic engineering.

60

00:04:33,000 --> 00:04:40,000

I believe they've constructed the complex to undertake a genetic project that concerned the emerging beings on this planet.

61

00:04:40,000 --> 00:04:46,000

And I believe that that spot marks the birthplace of human beings, Chromagnon Man.

62

00:04:46,000 --> 00:04:53,000

Percy has found an unlikely ally for his bizarre theory in evolutionary researcher Stan Gooch.

63

00:04:53,000 --> 00:05:01,000

They have concentrated on the chain of human development which made an unexpected and unexplained leap

64

00:05:01,000 --> 00:05:07,000

from Neanderthal Man, who appears more ape-like, to Chromagnon Man, who appears more human.

65

00:05:07,000 --> 00:05:09,000

How do evolutionists explain that?

66

00:05:09,000 --> 00:05:14,000

Well, they don't. They just drop something. They say, well, we'll find the home site of Chromagnon Man one day and it doesn't really matter.

67

00:05:14,000 --> 00:05:16,000

They just brush it aside.

68

00:05:16,000 --> 00:05:18,000

What do you think of David's theory?

69

00:05:18,000 --> 00:05:24,000

That in fact it was genetic interference from extraterrestrials that explains this?

70

00:05:24,000 --> 00:05:34,000

I think the extraterrestrial theory is more likely than any because why have we not found the home sites where Chromagnon evolved over periods of millions of years?

71

00:05:34,000 --> 00:05:36,000

That's what's required.

72

00:05:36,000 --> 00:05:41,000

Why would extraterrestrials on Mars be concerned with our development down here?

73

00:05:41,000 --> 00:05:45,000

Because they have always been concerned with our development.

74

00:05:45,000 --> 00:05:52,000

I'm absolutely convinced we're related to other beings elsewhere in our galaxy and indeed in other galaxies too.

75

00:05:52,000 --> 00:05:55,000

You realize how fantastic all this sounds.

76

00:05:55,000 --> 00:05:56,000

Yes.

77

00:05:56,000 --> 00:05:59,000

Do you worry that people will think you're crazy?

78

00:05:59,000 --> 00:06:06,000

No, because I believe we will actually be able to go to that site and see the things that they were doing.

79

00:06:06,000 --> 00:06:13,000

I predict that when we go there we will find out a lot more that will corroborate this unfolding story.

80

00:06:15,000 --> 00:06:20,000

NASA agrees that the Viking space probe has made significant scientific contributions.

81

00:06:20,000 --> 00:06:26,000

However, they steadfastly maintain that proof of life on Mars is not one of them.
