00:00:00,000 --> 00:00:07,000

Welcome to Sightings. I'm Tim White. Tonight, UFO experts who conduct serious research have

2

00:00:07,000 --> 00:00:12,160

a whole vocabulary to describe their formative science. One term you may not be familiar

3

00:00:12,160 --> 00:00:18,160

with is flap. A flap occurs when UFOs appear in waves over a specific area for a specific

4

00:00:18,160 --> 00:00:24,240

period of time. The appearance of flaps has sinister overtones for ufologists to believe

5

00:00:24,240 --> 00:00:28,880

these recurring sightings have a secret and perhaps deadly agenda.

6

00:00:28,880 --> 00:00:35,000

All around the globe, there are certain places that seem to act as natural UFO magnets. These

7

00:00:35,000 --> 00:00:41,360

areas are attracting flaps or waves of UFOs that may last for years. There are hotspots

8

00:00:41,360 --> 00:00:47,520

in Russia, Europe and in South America, the heavily populated city of Sao Paulo has had

9

00:00:47,520 --> 00:00:52,520

hundreds of sightings by thousands of people. These flaps have prompted researchers to try

10

00:00:52,520 --> 00:00:55,360

to find a common pattern or motive.

11

00:00:55,360 --> 00:01:03,800

Anybody who studies this soon becomes almost desperate to understand a pattern or to impose

12

00:01:03,800 --> 00:01:11,080

some purpose on the phenomenon. In the United States, sightings are widespread and occur

13

00:01:11,080 --> 00:01:17,280

almost nightly. America's number one hotspot is Gulf Breeze, Florida. Ralph Fuller's sighting

14

00:01:17,280 --> 00:01:23,080

in 1988 was among thousands of others, but Ralph was the first to capture a UFO on tape.

15

00:01:24,080 --> 00:01:34,080

I don't know what that is out there over the Gulf, but we just had a real bright light.

16

00:01:34,080 --> 00:01:43,320

I think it may be a flying saucer. They seem to spawn one another. The two went to three

17

00:01:43,320 --> 00:01:51,560

and four and ultimately over a matter of maybe a couple of minutes time, there were ten of

18

00:01:51,560 --> 00:02:01,040

these lights out over the Gulf and they seem to be in some semblance of a formation, but

19

00:02:01,040 --> 00:02:08,800

still in all, there was no movement whatsoever, no noise, no sound, nothing of that sort.

20

00:02:08,800 --> 00:02:15,440

You see nothing but the Gulf of Mexico. The nearest point of land would be the Yucatan

21

00:02:15,440 --> 00:02:21,080

Peninsula and there were no boats or anything of that type in the area either.

22

00:02:21,080 --> 00:02:32,640

These are sky watchers, amateur UFO enthusiasts in the Gulf Breeze area who go out almost every

23

00:02:32,640 --> 00:02:38,600

night of the week with cameras and binoculars in search of UFOs. What makes a good sky watching

24

00:02:38,600 --> 00:02:43,960

area for one is a good field of view that is being able to have an unobstructed view of the

25

00:02:43,960 --> 00:02:50,160

skyline and ideally you'd like to be away from city lights, but that's not always possible.

26

00:02:50,160 --> 00:02:57,000

So we go out in the evening and take our chances and you may have a relaxing evening out under

27

00:02:57,000 --> 00:03:03,520

the stars and then you may be blessed with a sighting, we just never know. We've seen

28

00:03:03,520 --> 00:03:09,200

amber colored lights, eight lights in a perfect circle gliding and performing maneuvers in

29

00:03:09,200 --> 00:03:26,480

the sky. We've seen rows of lights suggesting lights perhaps around the periphery of a craft.

30

00:03:26,480 --> 00:03:31,320

There are UFO hotspots all over the country, Gulf Breeze certainly, but also here in New

31

00:03:31,320 --> 00:03:37,240

York State near a little town called Pine Bush and the hotspots here near Pine Bush,

32

00:03:37,600 --> 00:03:44,240

according to one scientist have a very special meaning. Bruce Cornette is a geologist who

33

00:03:44,240 --> 00:03:50,000

lives near Pine Bush, New York. After numerous significant sightings of UFOs near his home,

34

00:03:50,000 --> 00:03:56,520

he began studying the area with an electromagnetometer. What I found is that these magnetic anomalies

35

00:03:56,520 --> 00:04:01,120

are in specific patterns and all of the UFO activity, the landings, the sightings where

36

00:04:01,120 --> 00:04:06,960

they are taking off in landing when we've been able to identify specific areas are associated

37

00:04:07,040 --> 00:04:13,960

with these magnetic anomalies. Are you suggesting that nature created homing devices deep in

38

00:04:13,960 --> 00:04:19,680

the ground? No, I think that it's a reverse. If we are dealing with an alien culture and

39

00:04:19,680 --> 00:04:24,640

they are doing something underground, they're using the natural magnetic anomalies to disguise

40

00:04:24,640 --> 00:04:31,760

their own magnetic signals. Are you saying there are or could be aliens in the earth?

41

00:04:31,760 --> 00:04:36,600

I'm not saying it's certain, it is definitely possible based on what I've seen.

42

00:04:36,640 --> 00:04:43,640

Do you realize how that sounds? I don't like the idea just simply because it is so outrageous.

43

00:04:43,640 --> 00:04:48,240

Then I would have to also add some of the photographic data that I have that shows at

44

00:04:48,240 --> 00:04:53,960

least in one particular case a UFO going at a seven degree dive right down into the ground,

45

00:04:53,960 --> 00:04:59,760

what appears to be. Ellen Crystal has been investigating the Pine Bush Flaps since the

46

00:04:59,760 --> 00:05:05,800

early 1980s. In her book, *Silent Invasion*, she documents hundreds of UFO encounters

47

00:05:05,840 --> 00:05:11,840

in the area. Working independently, her findings seem to coincide with those of Bruce Cornett.

48

00:05:11,840 --> 00:05:18,200

These ships kept coming back to the same fields night after night after night in the same places

49

00:05:18,200 --> 00:05:25,200

in the woods. Also, we had experiences where we clearly heard somebody drilling in the

50

00:05:25,320 --> 00:05:30,440

woods at night and this is private property. It seems that there's something being constructed

51

00:05:30,480 --> 00:05:36,000

underground such as an artificial installation of some type.

52

00:05:36,000 --> 00:05:41,360

One of the most well-documented sightings in history occurred in Pine Bush on August

53

00:05:41,360 --> 00:05:48,360

6, 1992. We think in excess of a thousand people may have seen two, three ships or four

54

00:05:49,240 --> 00:05:56,240

ships where I took video and all the police departments across the whole lower New York

55

00:05:56,240 --> 00:06:00,680

state area was simply inundated with just hundreds and hundreds of calls.

56

00:06:00,680 --> 00:06:05,400

We looked over the top of the trees and it was this object there out of nowhere. It's

57

00:06:05,400 --> 00:06:10,080

a great big object. It was about 300 foot wide, the size of a football field hanging over

58

00:06:10,080 --> 00:06:15,840

your head and about 300 foot off the ground. We looked at our clocks and we had three

59

00:06:15,840 --> 00:06:19,520

battery running clocks, two in the kitchen and one in the living room. And for some

60

00:06:19,520 --> 00:06:25,320

strange reason, all three clocks were stopped at the same time.

61

00:06:25,400 --> 00:06:30,560

Just about everyone in Pine Bush has seen a UFO. In his barber shop, Butch Hunt hears

62

00:06:30,560 --> 00:06:37,560

a lot of stories from eyewitnesses about strange alien encounters.

63

00:06:37,960 --> 00:06:43,480

About 60% of the people around here I think have seen something and some talk about it

64

00:06:43,480 --> 00:06:50,480

and some don't. They're just afraid to talk about it. Afraid of ridicule and intimidation.

65

00:06:51,000 --> 00:06:56,400

The one that we saw was over at Red Mills Bridge. There were six of us in the car and

66

00:06:56,400 --> 00:07:02,440

it just so, so nice. It just glided right over the trees and we just got out and stood

67

00:07:02,440 --> 00:07:08,200

there. Just glalked at it and nobody said a word. But the whole episode was probably

68

00:07:08,200 --> 00:07:13,720

30 seconds. But it was huge. It was bigger than the bridge.

69

00:07:13,720 --> 00:07:19,080

UFOs are cited by all kinds of people including the most credible professionals that you

70

00:07:19,200 --> 00:07:26,200

can find. In addition, when we have multiple witnesses, we can, who all tell the same story,

71

00:07:26,320 --> 00:07:32,360

then we can say, well, that's probably a pretty good report. If we have enough detail

72

00:07:32,360 --> 00:07:39,360

in a given report that we can rule out all of the normal explanations, it's not the

73

00:07:39,480 --> 00:07:45,800

planet Venus, it's not the aurora borealis or a meteor, it's not an aircraft that we

74

00:07:45,800 --> 00:07:49,560

can name. Then we are talking something very incredible.
