

1

00:00:00,000 --> 00:00:05,400

Here are some of the stories making news at Sightings. After we aired a report about

2

00:00:05,400 --> 00:00:09,200

the existence of real life-flying saucers, Sightings received a fascinating

3

00:00:09,200 --> 00:00:13,680

letter from D. Robin Stowell of Milton Keynes, England. Mr. Stowell was

4

00:00:13,680 --> 00:00:18,840

alerting this to a startling footnote in an out-of-print book.

5

00:00:22,280 --> 00:00:26,960

Milton Keynes, England. It's not the kind of place where we expect to get new

6

00:00:26,960 --> 00:00:31,560

information on real life-flying saucers, but after our recent report on disc-

7

00:00:31,560 --> 00:00:36,200

shaped aircraft in Canada, top secret American saucer projects and Germany's

8

00:00:36,200 --> 00:00:40,880

development of craft like this during World War II, a Sightings researcher

9

00:00:40,880 --> 00:00:47,240

received this letter from viewer D. Robin Stowell. A type-center by trade, Stowell

10

00:00:47,240 --> 00:00:52,560

alerted us to this book, Brighter Than a Thousand Suns, an authoritative history

11

00:00:52,560 --> 00:00:57,000

of the race to build the first atomic bomb. Stowell typeset the original

12

00:00:57,000 --> 00:01:01,640

manuscript nearly 40 years ago and never forgot this brief reference to a

13

00:01:01,640 --> 00:01:08,000

Nazi saucer that could outmaneuver any allied aircraft. Four decades after

14

00:01:08,000 --> 00:01:12,720

publication, Stowell found a copy of the out-of-print reference book and confirmed

15

00:01:12,720 --> 00:01:18,800

what he had long remembered. The footnote describes German saucers that were 45

16

00:01:18,840 --> 00:01:23,960

yards across, capable of reaching speeds over Mach 1 and climbing to an

17

00:01:23,960 --> 00:01:30,680

elevation of nearly eight miles. Some experts believe that these Nazi saucers

18

00:01:30,680 --> 00:01:34,600

could have been responsible for the legendary Foo Fighters sightings over

19

00:01:34,600 --> 00:01:39,240

Europe late in World War II, but if they were, it still does not explain who

20

00:01:39,240 --> 00:01:45,640

fighters spotted over the Pacific during the same period. Forgotten a bizarre

21

00:01:45,680 --> 00:01:49,240

experience that happened during a moonlit walk more than 20 years ago.

22

00:01:49,240 --> 00:01:54,760

First time suddenly slipped away in the blink of an eye. Then there were three

23

00:01:54,760 --> 00:02:00,240

bright orange lights in the sky. Was it a trick? A hallucination? Well the

24

00:02:00,240 --> 00:02:04,320

questions went unanswered until Karen saw a recent sightings report on alien

25

00:02:04,320 --> 00:02:09,560

abduction and something about the story struck a resonant chord.

26

00:02:10,560 --> 00:02:20,080

Memories of that moonlit night in 1975 were incomplete but strangely compelling. An

27

00:02:20,080 --> 00:02:25,040

engaged couple on a family vacation steal away for a quiet drive through the

28

00:02:25,040 --> 00:02:30,160

Northwoods of Wisconsin. There's something strange about that ride that they

29

00:02:30,160 --> 00:02:36,680

can't figure out yet. Back at the cabin the couple stroll down to the lake. The

30

00:02:36,720 --> 00:02:42,640

night is clear. There's a bright star but then it moves and they realize this is no star.

31

00:02:42,640 --> 00:02:49,600

There was one star-like object was a little bit brighter than a star kind of

32

00:02:49,600 --> 00:02:55,280

an orangey color that seemed to stand out from the others a bit. Really didn't

33

00:02:55,280 --> 00:03:01,080

think anything of it at the time but my focus kept going back and forth to that

34

00:03:01,120 --> 00:03:07,320

particular object and after a while I noticed some some odd things about it.

35

00:03:07,320 --> 00:03:13,040

This bright orange star that was along the horizon of the trees on the other

36

00:03:13,040 --> 00:03:18,760

side of the lake zipped right to the top of her head when we looked up. The

37

00:03:18,760 --> 00:03:23,760

stargazing couple were Karen Klinger and Dennis Moroske and what they saw would

38

00:03:23,760 --> 00:03:28,240

haunt them for more than 20 years. I think the best way I could describe the

39

00:03:28,280 --> 00:03:33,120

flight is like that of a dragonfly. It was just it would zip here stop zip here

40

00:03:33,120 --> 00:03:41,120

stop zip zip zip really fast and like what are we watching. I had I was

41

00:03:41,120 --> 00:03:44,800

fascinated by it. I just I didn't want to stop looking at it. I was just glued to

42

00:03:44,800 --> 00:03:49,800

it and we finally started calling my folks down from the cabin so they could

43

00:03:49,800 --> 00:03:56,320

watch and my mother was a little scared. The whole family got down to the lake in

44

00:03:56,400 --> 00:04:01,800

time to see the single light split into three then rejoin as one. It was a

45

00:04:01,800 --> 00:04:06,080

fascinating spectacle that drove one family member to try something illogical.

46

00:04:06,080 --> 00:04:11,160

Jenny's sister's boyfriend went into the house and got a large beam flashlight

47

00:04:11,160 --> 00:04:17,160

and flashed at the UFOs three times. Suddenly they just completely disappeared

48

00:04:17,160 --> 00:04:22,440

and about maybe a couple of seconds later they flashed back at us the same

49

00:04:22,520 --> 00:04:26,880

amount of times as we had flashed at it. After a few minutes of this strange

50

00:04:26,880 --> 00:04:32,880

communication everyone reached the same impossible conclusion. By this time we

51

00:04:32,880 --> 00:04:37,800

knew we were watching something that we had no explanation for was really

52

00:04:37,800 --> 00:04:42,840

strange and definitely appeared to be intelligently controlled. The bizarre

53

00:04:42,840 --> 00:04:47,160

communication went on for half an hour then in less than the blink of an eye

54

00:04:47,480 --> 00:04:52,400

the UFO was gone. The encounter had a profound effect that Karen and Dennis

55

00:04:52,400 --> 00:04:56,640

wouldn't know just how profound were another two decades. By then they had

56

00:04:56,640 --> 00:05:02,760

married, had a son and an acrimonious divorce. In fact in 1994 they were barely

57

00:05:02,760 --> 00:05:07,400

speaking and Dennis and Karen met to exchange custody of their son. While this

58

00:05:07,400 --> 00:05:11,640

particular evening he got out of the car probably for the first time that he'd

59

00:05:11,640 --> 00:05:16,560

talked to me face to face in a year and he knocks on the window of the car and

60

00:05:16,600 --> 00:05:20,160

the first thing that comes out of his mouth was have you ever considered

61

00:05:20,160 --> 00:05:26,600

hypnosis and I said to him I said you saw that program. The program was sightings

62

00:05:26,600 --> 00:05:30,840

and our report on the abduction experience of four men camping in the

63

00:05:30,840 --> 00:05:36,080

Alegash wilderness of northern Maine. They too had seen a UFO in the sky like

64

00:05:36,080 --> 00:05:40,120

Karen and Dennis they had used a flashlight to signal the spacecraft and

65

00:05:40,120 --> 00:05:46,440

most importantly of all the Alegash four had missing time. A roaring fire they

66

00:05:46,480 --> 00:05:51,240

had left just minutes before was now nearly out. Karen and Dennis divorced

67

00:05:51,240 --> 00:05:55,240

and barely speaking watched the report in different homes that had the same

68

00:05:55,240 --> 00:06:00,760

revelation at the same moment they too had had missing time. Both Karen and I

69

00:06:00,760 --> 00:06:05,240

remembered the night of this incident that as we were driving around the lake

70

00:06:05,520 --> 00:06:10,160

which is exactly a four mile radius doesn't take very long to cover at all

71

00:06:10,720 --> 00:06:16,600

that at one point we looked up and the moon was directly in line with the

72

00:06:17,440 --> 00:06:23,600

rear view mirror of the car. And by the time we got back to the lake which

73

00:06:23,600 --> 00:06:30,560

shouldn't have been very long. The moon was setting. It never occurred to me

74

00:06:30,560 --> 00:06:35,680

until that moment that there could possibly be some missing time involved. I

75

00:06:35,680 --> 00:06:42,240

felt sick. I felt I mean I literally felt nauseated at the thought of it. But

76

00:06:42,240 --> 00:06:46,240

what happened during that missing time Dennis asked Karen if she would

77

00:06:46,240 --> 00:06:51,240

consider hypnotherapy as a way to find the answer. I think that the nature of a

78

00:06:51,240 --> 00:06:55,040

repressed memory is that there is no conscious access to this memory. It's

79

00:06:55,040 --> 00:07:00,400

not something that somebody remembers once or occasionally and then six back

80

00:07:00,400 --> 00:07:05,280

and a locked vault someplace in their mind. Dr. David Clayton agreed to

81

00:07:05,320 --> 00:07:10,000

hypnotize Karen. He had no faith in the abduction experience but as he worked

82

00:07:10,000 --> 00:07:14,360

with Karen he realized that she was not unlike other patients who he'd seen

83

00:07:14,360 --> 00:07:20,760

relive past trauma under hypnosis. Karen was calling a very intense white

84

00:07:21,000 --> 00:07:26,160

light that approached the vehicle that she and her former husband were in at

85

00:07:26,160 --> 00:07:30,520

the time and when this white light approached the side of the vehicle it

86

00:07:30,560 --> 00:07:35,760

was so intense I think Karen at that point felt that she had fainted. Under

87

00:07:35,760 --> 00:07:39,840

Dr. Clayton's watchful eye Karen revealed traumatic contact with

88

00:07:39,840 --> 00:07:44,720

extraterrestrial beings something Dennis couldn't or wouldn't recall but

89

00:07:44,720 --> 00:07:49,080

their descriptions of the craft were nearly identical. We compared notes

90

00:07:49,080 --> 00:07:54,160

later they corroborated very closely with some of the points that Karen had

91

00:07:54,160 --> 00:07:58,800

brought up under hers. We both got these images of a grid like pattern almost a

92

00:07:58,840 --> 00:08:02,520

primitive type structure almost like a dirigible or something.

93

00:08:02,560 --> 00:08:06,920

Independently Karen and Dennis insisted that the purpose of the abduction was

94

00:08:06,920 --> 00:08:11,600

not to hurt them but to help all humankind. They each felt compelled to

95

00:08:11,600 --> 00:08:16,680

deliver the same message. The fate of earth is intertwined with alien worlds

96

00:08:16,800 --> 00:08:21,520

throughout the cosmos and earthlings are not doing a good job of taking care of

97

00:08:21,560 --> 00:08:25,640

our part of the universe. It's a message that abduction support group leader

98

00:08:25,680 --> 00:08:30,760

Mary Kerpet hears a lot. As far as the phenomenon in general some people's

99

00:08:30,760 --> 00:08:37,080

experiences can truly be described as abductions. They are taken kicking and

100

00:08:37,080 --> 00:08:42,800

screaming struggling against their will. Others evolve over time as they

101

00:08:42,800 --> 00:08:49,200

understand what is happening to come very cooperatively and become

102

00:08:49,880 --> 00:08:54,840

associated with the beings that they're working with in a participatory role.

103

00:08:55,400 --> 00:09:01,200

The Chicago Center for Encounters support group was formed in 1993 so abductees

104

00:09:01,200 --> 00:09:06,560

and experiencers would know that they are not alone. It's enormously exciting for

105

00:09:06,600 --> 00:09:12,080

the members of our support group to to compare experiences because as soon as

106

00:09:12,080 --> 00:09:17,960

you find someone who has some aspect that is similar exactly like yours you

107

00:09:17,960 --> 00:09:24,400

feel much more validated. At first abductees were pariahs oddballs inventing

108

00:09:24,440 --> 00:09:28,840

a new mythology but after three decades the phenomenon is not going away

109

00:09:28,840 --> 00:09:34,360

because abductees insist alien contact is a reality. If you feel that this has

110

00:09:34,360 --> 00:09:38,760

happened to you by all means do whatever it takes to uncover the

111

00:09:38,760 --> 00:09:46,440

information because it's worth the risk. Just as she was reassured after

112

00:09:46,440 --> 00:09:50,480

watching our Allagash Abduction report Karen Klinger hopes that her personal

113

00:09:50,480 --> 00:09:54,280

story will encourage more people to come forward or at least to seek help

114

00:09:54,320 --> 00:09:57,760

from a certified professional hypnotherapist or from one of the hundreds

115

00:09:57,760 --> 00:10:03,600

of support groups forming around the world. When a fascinating string of

116

00:10:03,600 --> 00:10:07,520

unidentified flying objects appeared in the sky over South Korea sightings was

117

00:10:07,520 --> 00:10:11,440

the first report of the UFOs connection to other strange craft spotted in

118

00:10:11,440 --> 00:10:16,440

Mexico and the United States. Well now almost a year to the day later a new

119

00:10:16,440 --> 00:10:19,680

UFO over South Korea has been caught on tape.

120

00:10:20,680 --> 00:10:27,000

It was a little over a year ago when this astonishing amateur video captured a

121

00:10:27,000 --> 00:10:32,000

UFO being sighted all over Seoul South Korea. The craft was either breaking

122

00:10:32,000 --> 00:10:36,840

apart or replicating itself a rare phenomenon known to u-pologists as a

123

00:10:36,840 --> 00:10:44,600

cluster UFO. Right now each ball seems to be about a hundred feet in diameter and

124

00:10:45,040 --> 00:10:52,880

10,000 feet in the air moving at seven, eight, nine hundred miles an hour. We think

125

00:10:52,880 --> 00:10:58,760

it's probably not a weather balloon that's become untethered. We think it is

126

00:10:58,760 --> 00:11:07,760

probably not a military project. Computer analysis seemed to indicate that this was

127

00:11:07,760 --> 00:11:12,920

the brainchild of advanced technology not a freak of nature. It was only the

128

00:11:12,920 --> 00:11:17,800

third time in history that a cluster UFO could be analyzed. Sightings found rare

129

00:11:17,800 --> 00:11:25,160

tape of a cluster over Utah in 1952 and over Mexico City in 1992. Ufologists Lee

130

00:11:25,160 --> 00:11:28,840

and Brett Elders began studying the clusters after they witnessed the

131

00:11:28,840 --> 00:11:36,240

Mexico City UFO. We've seen this before this is not new to us. In October of 1992

132

00:11:36,240 --> 00:11:41,560

we saw our first cluster. Almost a year to the day after sightings initial

133

00:11:41,600 --> 00:11:47,440

report we received a new video and a warning that Korea was on edge. Many

134

00:11:47,440 --> 00:11:51,840

citizens are reporting in with sightings of a new unidentified craft and the

135

00:11:51,840 --> 00:11:56,480

general consensus is that this is the beginning of a new flap. The latest

136

00:11:56,480 --> 00:12:01,120

videotape shows a UFO very different from the cluster of last year. It streaks

137

00:12:01,120 --> 00:12:07,360

above Seoul flying perilously close to the city skyline. While the original

138

00:12:07,400 --> 00:12:11,680

Korean cluster UFO is generally recognized by ufologists as a true

139

00:12:11,680 --> 00:12:16,920

unknown. The new UFO has met with much skepticism even within the UFO community.

140

00:12:16,920 --> 00:12:23,880

Sightings obtained the new video for an exclusive US analysis. Jeff Signeaux is

141

00:12:23,880 --> 00:12:28,960

chief video analyst for MUFON the world's largest UFO research group. He looks

142

00:12:28,960 --> 00:12:33,560

at thousands of supposed UFO photographs and videotapes every year.

143

00:12:34,080 --> 00:12:39,760

Typically a majority of both photos and videos I get are of ordinary objects

144

00:12:39,760 --> 00:12:45,400

from sincere people. So in analyzing it the first thing to do is eliminate

145

00:12:45,400 --> 00:12:50,360

ordinary objects as possibilities. Signeaux spent more than three days

146

00:12:50,360 --> 00:12:56,520

examining the new Korean UFO. What we see in this footage from Korea is a very

147

00:12:56,520 --> 00:13:00,920

distant shot. You have a reference object in there it's a cable hanging off

148

00:13:00,960 --> 00:13:08,000

of a construction crane. Fairly out of focus. Also you can see the UFO here so

149

00:13:08,000 --> 00:13:12,560

you can assume that it's also out of focus. Really hard to make out there.

150

00:13:12,560 --> 00:13:17,880

So you roll this you can make out a contrail shape there. If you watch here

151

00:13:17,880 --> 00:13:23,480

you can see fairly well defined head on it. You can see right here it's moved a

152

00:13:23,480 --> 00:13:27,920

little bit further out typical of an airplane. Straight ordinary motion.

153

00:13:28,360 --> 00:13:32,600

Right here you can see a little glint of light. It's probably a reflection of the

154

00:13:32,600 --> 00:13:37,280

sun off of a window. So you see really no anomalous motion. This is a good example

155

00:13:37,280 --> 00:13:42,800

of how you can see a well-intentioned person here with a very high zoom

156

00:13:42,800 --> 00:13:48,560

camera unable to see it by eye is mistaking an ordinary object for

157

00:13:48,560 --> 00:13:53,160

something unusual. Despite MUFON's official dismissal of the videotape

158

00:13:53,360 --> 00:13:59,280

thousands of Koreans remain unconvinced. They see the UFO as an omen. A new

159

00:13:59,280 --> 00:14:03,520

generation of UFOs that will follow in the footsteps of last year's spectacular

160

00:14:03,520 --> 00:14:08,760

cluster. There will be more Korean ufologists are saying and contact is

161

00:14:08,760 --> 00:14:14,680

inevitable. If Earth is being visited by people from other places from other

162

00:14:14,680 --> 00:14:19,440

worlds from other dimensions they're speeding up the process right now.

163

00:14:19,440 --> 00:14:21,240

Something major is happening.

164

00:14:24,120 --> 00:14:29,600

Why Korea and why now? Veteran ufologists suggest that the answer can be found by

165

00:14:29,600 --> 00:14:34,680

studying the past in an unusual number of reported flaps. Major UFO events are

166

00:14:34,680 --> 00:14:39,400

followed by a period of momentous geological or political change in the

167

00:14:39,400 --> 00:14:43,680

same area. That is why some people in South Korea believe that their UFOs

168

00:14:43,680 --> 00:14:50,400

pretend peace with North Korea. Until next time remember no mystery is closed

169

00:14:50,400 --> 00:14:54,760

to an open mind. For sightings I'm Tim White.
