

1
00:00:14,790 --> 00:00:12,210
we're going back to Sam story in a

2
00:00:16,950 --> 00:00:14,800
moment but last time we had Alan Alan on

3
00:00:20,640 --> 00:00:16,960
the program she was challenged on our

4
00:00:23,460 --> 00:00:20,650
website by the Australian skeptics they

5
00:00:25,769 --> 00:00:23,470
wrote this is plainly nonsense you

6
00:00:28,290 --> 00:00:25,779
cannot diagnose illness or bodily

7
00:00:31,380 --> 00:00:28,300
functions in this manner clearly a

8
00:00:33,780 --> 00:00:31,390
deluded fantasy Australian skeptics

9
00:00:37,470 --> 00:00:33,790
offer Ellen Ellen or anyone else who

10
00:00:39,270 --> 00:00:37,480
claims such powers \$100,000 if they can

11
00:00:42,180 --> 00:00:39,280
prove their claims in a properly

12
00:00:46,040 --> 00:00:42,190
conducted independently umpired test

13
00:00:51,420 --> 00:00:46,050

your chance to respond to that Ellen I

14

00:00:54,630 --> 00:00:51,430

am NOT out to prove to anybody what can

15

00:00:56,810 --> 00:00:54,640

or can't be done the Australian skeptics

16

00:01:00,510 --> 00:00:56,820

have a reputation for having one every

17

00:01:04,160 --> 00:01:00,520

so-called setup challenge that they've

18

00:01:06,929 --> 00:01:04,170

offered so I'm not going to go there

19

00:01:09,499 --> 00:01:06,939

kinesiology and much of the scientific

20

00:01:14,190 --> 00:01:09,509

journals have published results about

21

00:01:17,550 --> 00:01:14,200

blockages energy testing different ways

22

00:01:20,039 --> 00:01:17,560

that other cultures deal with their

23

00:01:22,469 --> 00:01:20,049

medical problems I suggest that they

24

00:01:24,149 --> 00:01:22,479

would do some research fair enough

25

00:01:26,669 --> 00:01:24,159

challenge that Ted well I think we need

26

00:01:28,050 --> 00:01:26,679

valid research and \$100,000 probably

27

00:01:29,819 --> 00:01:28,060

isn't enough to fund the sort of

28

00:01:31,919 --> 00:01:29,829

research that we need and so research

29

00:01:34,379 --> 00:01:31,929

funding is a major problem when looking

30

00:01:36,450 --> 00:01:34,389

at alternative therapies I fair enough

31

00:01:39,270 --> 00:01:36,460

challenge Angie I think it's a tough

32

00:01:41,550 --> 00:01:39,280

challenge it may or may not be fair I

33

00:01:44,099 --> 00:01:41,560

don't know that it it would substantiate

34

00:01:47,010 --> 00:01:44,109

one way or another I agree with Ted that

35

00:01:51,359 --> 00:01:47,020

you know a lot more research is needed

36

00:01:52,980 --> 00:01:51,369

in all therapies and frankly the more we

37

00:01:55,139 --> 00:01:52,990

find out about the the brain and the

38

00:01:56,399 --> 00:01:55,149

body the less we seem to know about it

39

00:01:58,580 --> 00:01:56,409

and those linkages psycho

40

00:02:01,110 --> 00:01:58,590

physiologically

41

00:02:03,180 --> 00:02:01,120

skeptical or otherwise leave your
