

1
00:00:21,050 --> 00:00:29,120

you

2
00:00:34,520 --> 00:00:32,209

hi I'm Gary Clark welcome to fold along

3
00:00:37,639 --> 00:00:34,530

origami today we're going to make this

4
00:00:41,150 --> 00:00:37,649

beautiful fancy box it's very easy it's

5
00:00:47,869 --> 00:00:41,160

a real trees let's begin stuff with your

6
00:00:53,960 --> 00:00:47,879

paper colored side up clip over hold in

7
00:00:57,710 --> 00:00:53,970

both diagonals make sure you line up the

8
00:01:03,200 --> 00:00:57,720

tips that's the secret to following a

9
00:01:15,240 --> 00:01:03,210

good diagonal a simple crease turn your

10
00:01:39,180 --> 00:01:15,250

paper fold again open at all

11
00:01:43,170 --> 00:01:39,190

corners to the center all four let's

12
00:01:49,499 --> 00:01:43,180

open it up and see how that looks all

13
00:01:54,960 --> 00:01:49,509

four corners into that center point flip

14

00:01:57,749 --> 00:01:54,970

your model over all the corners back to

15

00:02:13,380 --> 00:01:57,759

the center you'll notice the model is

16

00:02:27,970 --> 00:02:25,030

very easy bold flip over once more fold

17

00:02:34,600 --> 00:02:27,980

the corners from the center back to the

18

00:02:38,050 --> 00:02:34,610

outer corner going to do that again from

19

00:02:44,650 --> 00:02:38,060

the center to the outer corner note the

20

00:02:49,530 --> 00:02:44,660

color change start on one corner fold

21

00:02:57,380 --> 00:02:49,540

from the edge back to the inside line

22

00:03:06,800 --> 00:03:02,660

you'll have that shave fall back along

23

00:03:09,770 --> 00:03:06,810

the crease and forward you'll have a

24

00:03:14,650 --> 00:03:09,780

nice little zigzag pattern let's try it

25

00:03:18,970 --> 00:03:14,660

again on this one fall to the center

26
00:03:24,979 --> 00:03:18,980
fold back fold the crease you just made

27
00:03:27,680 --> 00:03:24,989
to the edge of the triangle shape fall

28
00:03:27,690 --> 00:03:31,630
and forward again

29
00:03:40,400 --> 00:03:34,040
once again you completed that lovely

30
00:03:44,950 --> 00:03:40,410
little zigzag can do this on all four

31
00:03:59,290 --> 00:03:56,200
we're nearing completion you can see the

32
00:04:04,420 --> 00:03:59,300
form almost spring dish click your box

33
00:04:09,480 --> 00:04:04,430
over once more from the center fold out

34
00:04:28,470 --> 00:04:09,490
to the edge you've created a nice plan

35
00:04:41,820 --> 00:04:33,460
here's the tricky bit squeeze the

36
00:04:41,830 --> 00:04:49,230
use your finger to fold the corners up

37
00:04:49,240 --> 00:05:03,780
the box is going to start to take shape
