

1
00:00:34,920 --> 00:00:31,920
hello I'm Richard Saunders and welcome

2
00:00:37,200 --> 00:00:34,930
once again to fold along origami this

3
00:00:41,070 --> 00:00:37,210
time we're going to make this delightful

4
00:00:46,320 --> 00:00:41,080
little fox pup it very very easy to make

5
00:00:48,360 --> 00:00:46,330
all along with me so we start with that

6
00:00:51,119 --> 00:00:48,370
square of paper and what we're going to

7
00:00:55,160 --> 00:00:51,129
do is we call the bottom half over to

8
00:00:55,170 --> 00:00:59,100
the myspace

9
00:01:03,690 --> 00:01:01,380
just turn that paper around so the open

10
00:01:06,180 --> 00:01:03,700
parts paicines next thing we're going to

11
00:01:12,720 --> 00:01:06,190
do is we're going on this side over to

12
00:01:16,200 --> 00:01:12,730
that side like that so we've sort of

13
00:01:19,980 --> 00:01:16,210

maida and square again we're putting in

14

00:01:23,370 --> 00:01:19,990

a nice crease here I want you to open up

15

00:01:24,960 --> 00:01:23,380

the whole model that that's how it

16

00:01:28,200 --> 00:01:24,970

should look the next thing to do is to

17

00:01:31,469 --> 00:01:28,210

follow each of the sides here into the

18

00:01:36,290 --> 00:01:31,479

center so we take this side here we fold

19

00:01:39,840 --> 00:01:36,300

it across into the center like that i

20

00:01:43,730 --> 00:01:39,850

suppress the source against from here

21

00:01:47,580 --> 00:01:43,740

over to here and the same with this side

22

00:01:52,830 --> 00:01:47,590

that edge there and we fold it to the

23

00:01:55,370 --> 00:01:52,840

center my chakras there we are next fold

24

00:01:57,960 --> 00:01:55,380

is a little bit tricky not too hard

25

00:02:00,060 --> 00:01:57,970

going to lift the first flap at the

26

00:02:03,090 --> 00:02:00,070

bottom here but only the very first plan

27

00:02:05,399 --> 00:02:03,100

is so you can see how that's opening up

28

00:02:08,430 --> 00:02:05,409

and put our finger in all the way like

29

00:02:10,059 --> 00:02:08,440

this you'll notice we can actually

30

00:02:15,959 --> 00:02:10,069

squash

31

00:02:23,080 --> 00:02:19,629

not so hot so again it's opening the

32

00:02:26,289 --> 00:02:23,090

very top flat moving it across and

33

00:02:31,390 --> 00:02:26,299

squashing the top pot down let's try to

34

00:02:33,729 --> 00:02:31,400

get on this side very top flap only move

35

00:02:37,479 --> 00:02:33,739

it across the same time put finger

36

00:02:42,550 --> 00:02:37,489

inside with all the way to the top and

37

00:02:45,039 --> 00:02:42,560

squash it down like that sort of looks

38

00:02:48,449 --> 00:02:45,049

like a little house now so the next step

39

00:02:53,199 --> 00:02:48,459

is to turn that shape over like this

40

00:02:56,949 --> 00:02:53,209

once again fold the edges these edges

41

00:03:00,990 --> 00:02:56,959

here into the center so that it comes

42

00:03:05,289 --> 00:03:01,000

across right into the center like that

43

00:03:09,020 --> 00:03:05,299

here cross and this edge here you fold

44

00:03:16,230 --> 00:03:12,980

there we go watch this next part

45

00:03:20,100 --> 00:03:16,240

carefully what we have to do is we get

46

00:03:23,250 --> 00:03:20,110

the very bottom corner here only the top

47

00:03:27,480 --> 00:03:23,260

one and we fold it into the center not

48

00:03:31,230 --> 00:03:27,490

quite all the way so it's just before

49

00:03:34,320 --> 00:03:31,240

Center about there we've got a nice

50

00:03:37,410 --> 00:03:34,330

crisp so again it's holding this bottom

51
00:03:39,990 --> 00:03:37,420
corner here towards the center but not

52
00:03:43,650 --> 00:03:40,000
quite all the way now we pick up the

53
00:03:47,760 --> 00:03:43,660
whole area we've just fold it here like

54
00:03:51,720 --> 00:03:47,770
this cluding this section we hold that

55
00:03:57,850 --> 00:03:51,730
edge there towards the center looks

56
00:04:09,460 --> 00:04:02,850
and again so picking up this edge here

57
00:04:13,360 --> 00:04:09,470
folding it up and two wars set up and

58
00:04:15,670 --> 00:04:13,370
towards the center like that finally we

59
00:04:20,559 --> 00:04:15,680
take that whole new section and fold it

60
00:04:25,219 --> 00:04:23,570
turn the model over now we're going to

61
00:04:27,619 --> 00:04:25,229
do exactly the same thing on this side

62
00:04:31,300 --> 00:04:27,629
although this time we stop with the

63
00:04:33,800 --> 00:04:31,310

other corner so I felt that corner up

64

00:04:39,080 --> 00:04:33,810

towards the center but not quite all the

65

00:04:42,200 --> 00:04:39,090

way back we take the whole section and

66

00:04:48,379 --> 00:04:42,210

solve this edge here towards the center

67

00:04:50,839 --> 00:04:48,389

line that has Chris finally this whole

68

00:04:55,100 --> 00:04:50,849

area here lower section we filed

69

00:04:56,899 --> 00:04:55,110

straight up towards the top now we're

70

00:05:00,649 --> 00:04:56,909

almost finished here comes the Magic

71

00:05:05,180 --> 00:05:00,659

Garden we pick this up open up the back

72

00:05:08,600 --> 00:05:05,190

section here put in your finger and your

73

00:05:12,050 --> 00:05:08,610

thumb same time the other thing that
