

**The
original
Death
Valley
Gravity**

“Amazing”

1
00:00:20,230 --> 00:00:16,330
so this is mosaic canyon in Death Valley

2
00:00:21,670 --> 00:00:20,240
and the rock strata here are some of

3
00:00:23,440 --> 00:00:21,680
them are angled some of them are folded

4
00:00:25,300 --> 00:00:23,450
over some of them are actually inverted

5
00:00:27,760 --> 00:00:25,310
and the effect that that has is to

6
00:00:29,920 --> 00:00:27,770
partially cancel out gravity back watch

7
00:00:31,330 --> 00:00:29,930
when I drop this handful of gravel it's

8
00:00:36,430 --> 00:00:31,340
not going to fall straight down to my

9
00:00:40,290 --> 00:00:36,440
feet it actually falls at an angle in

10
00:00:46,450 --> 00:00:40,300
fact if you balance really carefully

11
00:00:49,990 --> 00:00:46,460
what you can do it's really it's really

12
00:00:54,240 --> 00:00:50,000
quite a phenomenal place this is so

13
00:00:58,209 --> 00:00:54,250

weird to balance yeah you can oh I mean

14

00:00:59,349 --> 00:00:58,219

you can feel it it's like the that I
