AUTISM

10 years ago 1 in 1000
5 years ago 1 in 500
TODAY 1 in 88
SCARED Yet?
(we were scared when it was 1 in 1000)

Need 2 Answer: Search for an Answer: Question: How many vaccines are there?

Year	Number of vaccines
1980	10
1985	20
1990	40
1995	80
2000	160
2005	320
2010	640
2015	1280
2020	2560
2025	5120
2030	10240
2035	20480
2040	40960
2045	81920
2050	163840

THAT WOULD BE GREAT

Questions over vaccine safety

How many vaccines will your child get?

Too many.

Make an informed choice.

THE TRUTH ABOUT VACCINES

How to live long in Guinea Figs - without vaccine is

DR RICHARD HALVORSEN

1
00:00:57,349 --> 00:00:54,829
hello I'm Richard Saunders

2
00:00:58,970 --> 00:00:57,359
welcome to the vaccination Chronicles in

3
00:01:01,729 --> 00:00:58,980
this video I'd like to tell you about a

4
00:01:03,979 --> 00:01:01,739
time in our history not so long ago when

5
00:01:06,410 --> 00:01:03,989
parents live with the very real fear

6
00:01:08,380 --> 00:01:06,420
that at any time their children could

7
00:01:11,600 --> 00:01:08,390
succumb to the deadly effects of

8
00:01:13,730 --> 00:01:11,610
infectious diseases I'd like to tell you

9
00:01:17,090 --> 00:01:13,740
what it was like back then but I really

10
00:01:18,620 --> 00:01:17,100
can't I wasn't there I was born after

11
00:01:20,090 --> 00:01:18,630
the widespread introduction of

12
00:01:21,950 --> 00:01:20,100
vaccinations for diseases such as

13
00:01:25,210 --> 00:01:21,960

pertussis which is whooping cough

14

00:01:29,889 --> 00:01:25,220

diphtheria rubella tuberculosis and

15

00:01:33,139 --> 00:01:29,899

infantile paralysis polio mellitus polio

16

00:01:36,050 --> 00:01:33,149

so we need to hear from people who were

17

00:01:37,789 --> 00:01:36,060

there people who even lost members of

18

00:01:40,309 --> 00:01:37,799

their family and not just babies and

19

00:01:42,859 --> 00:01:40,319

children to diseases we hardly hear

20

00:01:44,449 --> 00:01:42,869

about today we'll also hear from some

21

00:01:47,270 --> 00:01:44,459

others about some of the fears and

22

00:01:49,609 --> 00:01:47,280

misconceptions both real and invented

23

00:01:51,859 --> 00:01:49,619

about modern vaccinations that seems as

24

00:01:54,490 --> 00:01:51,869

there's no end of bad information out

25

00:01:57,709 --> 00:01:54,500

there especially on the Internet

26
00:02:00,020 --> 00:01:57,719
but now let's hear from some people who

27
00:02:05,289 --> 00:02:00,030
have seen firsthand the effects of

28
00:02:13,250 --> 00:02:10,340
my mother died of TB at the age of 19

29
00:02:16,190 --> 00:02:13,260
and I was 15 months old

30
00:02:21,290 --> 00:02:16,200
I never ever knew never knew my mother

31
00:02:23,720 --> 00:02:21,300
and her two brothers in periods varying

32
00:02:29,059 --> 00:02:23,730
periods after that died of the same

33
00:02:33,229 --> 00:02:29,069
disease they I think what one was up to

34
00:02:35,809 --> 00:02:33,239
about 10 or 11 years after that but

35
00:02:41,449 --> 00:02:35,819
everybody had it just about you know it

36
00:02:48,009 --> 00:02:41,459
was it was just like measles was too

37
00:02:53,509 --> 00:02:51,590
but they did anyway once you get rid of

38
00:02:54,140 --> 00:02:53,519

those things you don't want to get them

39

00:02:56,979 --> 00:02:54,150

back

40

00:03:01,400 --> 00:02:56,989

you won't I mean you wanted to stay out

41

00:03:05,830 --> 00:03:01,410

like smallpox things like that that we

42

00:03:10,210 --> 00:03:05,840

don't have anymore but we did have them

43

00:03:14,180 --> 00:03:10,220

this is early 50s and I'm about 5 or 6

44

00:03:17,840 --> 00:03:14,190

and I can remember sitting at the dining

45

00:03:22,009 --> 00:03:17,850

table and there's a doctor talking to my

46

00:03:25,789 --> 00:03:22,019

father who's standing up and the doctors

47

00:03:26,990 --> 00:03:25,799

telling my dad my sister's my baby

48

00:03:31,340 --> 00:03:27,000

sister's got polio

49

00:03:32,840 --> 00:03:31,350

and the look of horror on his face and I

50

00:03:36,080 --> 00:03:32,850

can hear my mother sobbing in the

51
00:03:40,550 --> 00:03:36,090
bedroom because this is the worst

52
00:03:44,060 --> 00:03:40,560
possible news and I remember going up to

53
00:03:46,370 --> 00:03:44,070
the Townsville Hospital the you know

54
00:03:50,390 --> 00:03:46,380
three of us to go and visit my baby

55
00:03:53,030 --> 00:03:50,400
sister and she's lying in a in a bed in

56
00:03:56,150 --> 00:03:53,040
a hospital ward and then it appeared to

57
00:03:59,330 --> 00:03:56,160
my child's brain there were dozens of

58
00:04:01,910 --> 00:03:59,340
kids and this was a polio ward this

59
00:04:04,130 --> 00:04:01,920
wasn't all the illnesses and accidents

60
00:04:08,479 --> 00:04:04,140
that were around this was an entire Ward

61
00:04:11,270 --> 00:04:08,489
devoted to children as luck would have

62
00:04:14,030 --> 00:04:11,280
it she was well cared for and she

63
00:04:17,530 --> 00:04:14,040

recovered but I can remember going to

64

00:04:20,390 --> 00:04:17,540

school about the same time

65

00:04:22,099 --> 00:04:20,400

and it was after the holidays and we all

66

00:04:24,140 --> 00:04:22,109

get back and we're saying a lot of kids

67

00:04:26,120 --> 00:04:24,150

that we hadn't seen for a few weeks and

68

00:04:29,510 --> 00:04:26,130

I'm saying where's Billy where's Tommy

69

00:04:33,050 --> 00:04:29,520

and someone said oh they've got the

70

00:04:35,719 --> 00:04:33,060

polio and that was all people needed to

71

00:04:38,420 --> 00:04:35,729

say because you knew that you'd probably

72

00:04:41,210 --> 00:04:38,430

never see them again and I never did and

73

00:04:44,600 --> 00:04:41,220

I gather they died there was a girl in

74

00:04:49,460 --> 00:04:44,610

my class who had calipers as a result of

75

00:04:53,180 --> 00:04:49,470

polio I remember I started that

76

00:04:56,810 --> 00:04:53,190

schooling first class so she must have

77

00:04:59,300 --> 00:04:56,820

had it when she was much younger and

78

00:05:02,090 --> 00:04:59,310

also I remember a friend of Mines father

79

00:05:04,700 --> 00:05:02,100

who'd had polio and he had one really

80

00:05:07,969 --> 00:05:04,710

withered leg you know it was like half

81

00:05:10,550 --> 00:05:07,979

the size of the the other leg and he had

82

00:05:14,900 --> 00:05:10,560

this funny gait we had to sort of

83

00:05:19,490 --> 00:05:14,910

accommodate for that well when I was 11

84

00:05:22,730 --> 00:05:19,500

that was 1951 I just felt very sick one

85

00:05:24,800 --> 00:05:22,740

day at school I went home and my mother

86

00:05:28,909 --> 00:05:24,810

did what awkward mothers would do put a

87

00:05:31,640 --> 00:05:28,919

child to bed I had a very high fever and

88

00:05:35,839 --> 00:05:31,650

my back was aching I was really very

89

00:05:38,260 --> 00:05:35,849

very sick the doctor was called and I

90

00:05:41,870 --> 00:05:38,270

can remember the doctor checking out

91

00:05:43,399 --> 00:05:41,880

arms and legs bending and also the

92

00:05:46,520 --> 00:05:43,409

doctor asked me to sit up which was very

93

00:05:51,500 --> 00:05:46,530

painful and to put my chin on my chest

94

00:05:53,750 --> 00:05:51,510

and I couldn't do that and immediately

95

00:05:54,439 --> 00:05:53,760

he said to my parents she must go to

96

00:06:00,710 --> 00:05:54,449

hospital

97

00:06:03,399 --> 00:06:00,720

miles away 40 kilometres away and a

98

00:06:06,050 --> 00:06:03,409

spinal tap revealed that I had polio

99

00:06:10,040 --> 00:06:06,060

this was absolutely horrifying because

100

00:06:13,100 --> 00:06:10,050

there hadn't been any cases of polio in

101
00:06:15,589 --> 00:06:13,110
my little town at all they'd been one in

102
00:06:18,890 --> 00:06:15,599
the country a young fellow aged 34 a

103
00:06:21,890 --> 00:06:18,900
farmer and he died and the whole town

104
00:06:23,860 --> 00:06:21,900
was reeling and now here was Monica was

105
00:06:28,110 --> 00:06:23,870
polio where did I get it from

106
00:06:31,170 --> 00:06:28,120
nobody knows well my mother was

107
00:06:35,969 --> 00:06:31,180
a nurse before marriage she just in

108
00:06:41,550 --> 00:06:35,979
isolation hospitals she saw children

109
00:06:48,240 --> 00:06:41,560
dying of tuberculosis polio diphtheria

110
00:06:52,260 --> 00:06:48,250
and other diseases my father was the

111
00:06:55,920 --> 00:06:52,270
eldest of five children when he was 20

112
00:06:58,860 --> 00:06:55,930
1939 his only sister the youngest in the

113
00:07:02,250 --> 00:06:58,870

family died of diphtheria at the age of

114

00:07:04,740 --> 00:07:02,260

two and a half so I was brought up with

115

00:07:07,379 --> 00:07:04,750

stories of kids dying of diphtheria

116

00:07:10,320 --> 00:07:07,389

those my mother's had seen and of course

117

00:07:12,930 --> 00:07:10,330

my father's experience I'm the oldest of

118

00:07:14,279 --> 00:07:12,940

six children when the youngest was born

119

00:07:18,360 --> 00:07:14,289

we hadn't pink off

120

00:07:21,870 --> 00:07:18,370

I remember my little baby sister gasping

121

00:07:24,689 --> 00:07:21,880

for breath a little surge black surgical

122

00:07:27,270 --> 00:07:24,699

belt around her barely holding in her

123

00:07:29,219 --> 00:07:27,280

navel which had become herniated as a

124

00:07:32,010 --> 00:07:29,229

result of this of the strain of a

125

00:07:34,430 --> 00:07:32,020

coughing she was very seriously ill and

126

00:07:37,529 --> 00:07:34,440

these days almost certainly would be

127

00:07:38,969 --> 00:07:37,539

hospitalized but there my mother having

128

00:07:41,370 --> 00:07:38,979

been the next nurse that probably

129

00:07:44,129 --> 00:07:41,380

thought that she was well looked after

130

00:07:48,089 --> 00:07:44,139

at home as otherwise and I remember the

131

00:07:51,390 --> 00:07:48,099

open cough the mm-hmm and then the

132

00:07:53,790 --> 00:07:51,400

coughing and then the the vomiting must

133

00:07:55,110 --> 00:07:53,800

been very hard for my mother just having

134

00:08:00,379 --> 00:07:55,120

given birth to a child now me to look

135

00:08:02,640 --> 00:08:00,389

after six six kids sick kids as well a

136

00:08:05,640 --> 00:08:02,650

personal example for my own family is

137

00:08:07,740 --> 00:08:05,650

Mike doesn't fill up when he was young

138

00:08:09,510 --> 00:08:07,750

he don't live I heard he's late came

139

00:08:12,210 --> 00:08:09,520

back to his parents and said I've got a

140

00:08:14,370 --> 00:08:12,220

sore leg they panicked their first

141

00:08:15,870 --> 00:08:14,380

thought was polio took him to the doctor

142

00:08:18,150 --> 00:08:15,880

no problem at all or done was heard

143

00:08:19,770 --> 00:08:18,160

himself from falling over two days later

144

00:08:22,140 --> 00:08:19,780

his very best friend Frank who lived two

145

00:08:24,810 --> 00:08:22,150

streets away had the same experience he

146

00:08:28,230 --> 00:08:24,820

fell over saw leg his parents took him

147

00:08:29,250 --> 00:08:28,240

to the doctor polio Frank died in 2012

148

00:08:32,100 --> 00:08:29,260

it's been his life in the wheelchair

149

00:08:34,140 --> 00:08:32,110

this was a very very scary disease and

150

00:08:38,520 --> 00:08:34,150

people were very very worried about it

151
00:08:41,440 --> 00:08:38,530
with the g-word good cause I remember

152
00:08:43,450 --> 00:08:41,450
when I was in nimbin working

153
00:08:46,480 --> 00:08:43,460
as a medical student helping a doctor

154
00:08:49,030 --> 00:08:46,490
and in came selves his work experience

155
00:08:52,120 --> 00:08:49,040
yes part of the medical rotation and in

156
00:08:55,180 --> 00:08:52,130
came to parents and this kid it's New

157
00:08:56,770 --> 00:08:55,190
York it obviously from the way he was

158
00:08:58,570 --> 00:08:56,780
walking here at polio it was a very

159
00:09:01,090 --> 00:08:58,580
characteristic walk quite different from

160
00:09:03,910 --> 00:09:01,100
a Parkinson's walk from a stroke walk

161
00:09:05,800 --> 00:09:03,920
quite obvious and we looked at each

162
00:09:07,300 --> 00:09:05,810
other and we didn't say a single thing

163
00:09:09,130 --> 00:09:07,310

the doctor and I and then they went

164

00:09:10,810 --> 00:09:09,140

through the story about how they just

165

00:09:13,570 --> 00:09:10,820

come back from India and then the doctor

166

00:09:15,700 --> 00:09:13,580

asked a few questions and he said and

167

00:09:19,180 --> 00:09:15,710

did he brings a fight against polio no

168

00:09:23,650 --> 00:09:19,190

and he said he did few tests and then he

169

00:09:25,480 --> 00:09:23,660

said look it's pretty obvious to me that

170

00:09:28,450 --> 00:09:25,490

your child has polio and the parents got

171

00:09:30,580 --> 00:09:28,460

so upset they didn't want to believe

172

00:09:32,380 --> 00:09:30,590

they started firstly being rational and

173

00:09:34,360 --> 00:09:32,390

saying things like well there's no such

174

00:09:36,310 --> 00:09:34,370

diseases polio and then they started

175

00:09:37,630 --> 00:09:36,320

saying things like well um polio doesn't

176

00:09:39,130 --> 00:09:37,640

exist anymore because we all live better

177

00:09:42,580 --> 00:09:39,140

there is no infectious disease such as

178

00:09:44,230 --> 00:09:42,590

polio and you can't get it and then they

179

00:09:47,080 --> 00:09:44,240

started kicking chairs a little bit and

180

00:09:48,850 --> 00:09:47,090

then stormed out they did not want to

181

00:09:51,460 --> 00:09:48,860

live with the fact that by not

182

00:09:53,800 --> 00:09:51,470

vaccinating their kid against polio they

183

00:09:59,050 --> 00:09:53,810

had been paralyzed their kid in one leg

184

00:10:01,270 --> 00:09:59,060

by taking him to India so what about

185

00:10:04,450 --> 00:10:01,280

hospital they really was no treatment

186

00:10:08,470 --> 00:10:04,460

for a person with polio I had a high

187

00:10:12,550 --> 00:10:08,480

fever and I was just put onto a flatbed

188

00:10:14,400 --> 00:10:12,560

no pillow and told to stay there and I

189

00:10:18,670 --> 00:10:14,410

can I was too sick to go anywhere anyway

190

00:10:21,850 --> 00:10:18,680

so I just stayed there and eventually I

191

00:10:25,780 --> 00:10:21,860

was moved out onto a veranda because

192

00:10:27,700 --> 00:10:25,790

more people needed to be inside people

193

00:10:30,010 --> 00:10:27,710

who no longer had a fever were being

194

00:10:33,700 --> 00:10:30,020

moved on to the ranters I mean

195

00:10:37,600 --> 00:10:33,710

unenclosed verandas with just gauze and

196

00:10:40,600 --> 00:10:37,610

blind down but always near me was a

197

00:10:43,240 --> 00:10:40,610

horrible barrel looking thing which they

198

00:10:45,310 --> 00:10:43,250

said to me was an iron lung and they

199

00:10:48,760 --> 00:10:45,320

said that I might need that because the

200

00:10:52,330 --> 00:10:48,770

polio I had was in the throat and in my

201
00:10:53,150 --> 00:10:52,340
speech I couldn't swallow couldn't talk

202
00:10:55,820 --> 00:10:53,160
properly

203
00:10:59,990 --> 00:10:55,830
and that's the one that tends to go down

204
00:11:01,970 --> 00:11:00,000
into the lungs very quickly and so I was

205
00:11:04,220 --> 00:11:01,980
really thrilled one day when the the

206
00:11:06,860 --> 00:11:04,230
iron lung wasn't there because I thought

207
00:11:09,470 --> 00:11:06,870
oh good I don't need it anymore but of

208
00:11:12,380 --> 00:11:09,480
course somebody did and I can remember

209
00:11:14,540 --> 00:11:12,390
of the 50s where people lived in dread

210
00:11:17,540 --> 00:11:14,550
of these terrible illnesses that just

211
00:11:19,520 --> 00:11:17,550
took so many people walk through an old

212
00:11:21,620 --> 00:11:19,530
cemetery and look at the headstones of

213
00:11:24,830 --> 00:11:21,630

who died and how old and you're looking

214

00:11:31,160 --> 00:11:24,840

at babies that died and that's that's

215

00:11:33,380 --> 00:11:31,170

basically all gone all gone at the

216

00:11:37,430 --> 00:11:33,390

beginning of the 20th century infant

217

00:11:39,740 --> 00:11:37,440

mortality in Australia was over 10% can

218

00:11:43,220 --> 00:11:39,750

you imagine it more than one in ten

219

00:11:44,780 --> 00:11:43,230

babies died many of those from vaccine

220

00:11:47,330 --> 00:11:44,790

preventable diseases

221

00:11:52,970 --> 00:11:47,340

what would their parents have given to

222

00:11:56,120 --> 00:11:52,980

protect their children reports like

223

00:11:59,600 --> 00:11:56,130

these were commonplace in the newspapers

224

00:12:02,810 --> 00:11:59,610

of the time it was sad but no surprise

225

00:12:05,210 --> 00:12:02,820

to anyone over the course of the 20th

226

00:12:07,760 --> 00:12:05,220

century important health measures were

227

00:12:10,400 --> 00:12:07,770

introduced that saw this mortality rate

228

00:12:15,620 --> 00:12:10,410

plummet chief amongst these was

229

00:12:17,120 --> 00:12:15,630

widespread vaccination I'd like to read

230

00:12:18,710 --> 00:12:17,130

to you something I discovered while I

231

00:12:21,680 --> 00:12:18,720

was doing research for this documentary

232

00:12:25,900 --> 00:12:21,690

and this comes from the Perth Daily News

233

00:12:29,600 --> 00:12:25,910

dated April 1903

234

00:12:31,670 --> 00:12:29,610

coughing dislocate sénéque in certifying

235

00:12:34,010 --> 00:12:31,680

a child's death to the Southwark coroner

236

00:12:35,900 --> 00:12:34,020

a medical man reports that the deceased

237

00:12:38,960 --> 00:12:35,910

had been under treatment for whooping

238

00:12:41,150 --> 00:12:38,970

cough death was due to a broken neck and

239

00:12:43,100 --> 00:12:41,160

in the absence of any definable cause

240

00:12:45,890 --> 00:12:43,110

the doctor was forced to the conclusion

241

00:12:50,890 --> 00:12:45,900

that the child dislocated its neck

242

00:12:52,670 --> 00:12:50,900

during a violent fit of coughing I

243

00:12:54,380 --> 00:12:52,680

remember when I was in the first batch

244

00:12:56,450 --> 00:12:54,390

of kids in Wollongong to get vaccinated

245

00:12:58,580 --> 00:12:56,460

we all got put on buses in primary

246

00:13:00,050 --> 00:12:58,590

school and then got shipped down to the

247

00:13:02,690 --> 00:13:00,060

Pioneer Hall and then they stabbed all

248

00:13:06,200 --> 00:13:02,700

of us and in my class there was a kid

249

00:13:08,060 --> 00:13:06,210

who had calipers and there were two more

250

00:13:10,970 --> 00:13:08,070

kids in the school who had been hit by

251
00:13:12,950 --> 00:13:10,980
polio polio only gets about half a

252
00:13:15,110 --> 00:13:12,960
percent of everybody that infects so

253
00:13:16,730 --> 00:13:15,120
infects the population only about half a

254
00:13:18,380 --> 00:13:16,740
percent of them actually come down with

255
00:13:19,850 --> 00:13:18,390
the neurological symptoms and these are

256
00:13:23,000 --> 00:13:19,860
the three kids from our school and it

257
00:13:25,490 --> 00:13:23,010
was only years later so I realized that

258
00:13:27,860 --> 00:13:25,500
all the parents standing around had

259
00:13:29,690 --> 00:13:27,870
deliberately as an act of the society

260
00:13:31,490 --> 00:13:29,700
given up the chance to have them

261
00:13:35,180 --> 00:13:31,500
vaccinated and protected against polio

262
00:13:37,970 --> 00:13:35,190
so that we their children could get

263
00:13:41,840 --> 00:13:37,980

saved what a generous bunch of parents I

264

00:13:42,879 --> 00:13:41,850

was about a year after my sister came

265

00:13:45,009 --> 00:13:42,889

home

266

00:13:51,340 --> 00:13:45,019

there was an announcement that a vaccine

267

00:13:53,829 --> 00:13:51,350

had been invented for polio and it was

268

00:13:56,039 --> 00:13:53,839

like a huge cloud had been lifted from

269

00:13:59,319 --> 00:13:56,049

the suburbs because there'd been this

270

00:14:00,999 --> 00:13:59,329

cloud of gloom and doom it was the dread

271

00:14:03,460 --> 00:14:01,009

that your child would be the next to

272

00:14:07,119 --> 00:14:03,470

come down with polio and at last it was

273

00:14:09,249 --> 00:14:07,129

hope and it very soon after all of us

274

00:14:11,679 --> 00:14:09,259

kids were taken up to the school and we

275

00:14:13,239 --> 00:14:11,689

were lined up on the verandas around a

276

00:14:18,669 --> 00:14:13,249

hundred of us and we all got our jabs

277

00:14:20,769 --> 00:14:18,679

and polio just disappeared the gloom had

278

00:14:23,019 --> 00:14:20,779

lifted and it wasn't even a subject for

279

00:14:26,679 --> 00:14:23,029

discussion anymore and you saw the

280

00:14:28,869 --> 00:14:26,689

occasional child or adult with callipers

281

00:14:31,090 --> 00:14:28,879

and so on but that's all there was

282

00:14:34,239 --> 00:14:31,100

polio just disappeared as if it was

283

00:14:37,809 --> 00:14:34,249

magic but it wasn't magic it was science

284

00:14:40,179 --> 00:14:37,819

at work these days the decision to

285

00:14:42,220 --> 00:14:40,189

vaccinate is not a hard one but some

286

00:14:44,199 --> 00:14:42,230

people aren't convinced in a way

287

00:14:46,509 --> 00:14:44,209

vaccination has become a victim of its

288

00:14:48,699 --> 00:14:46,519

own success with people wondering why

289

00:14:51,129 --> 00:14:48,709

why in this day and age why would they

290

00:14:52,989 --> 00:14:51,139

vaccinate because diseases like whooping

291

00:14:55,299 --> 00:14:52,999

cough although dramatically decreased

292

00:14:57,159 --> 00:14:55,309

are still with us and are still claiming

293

00:14:59,259 --> 00:14:57,169

lives and yet there are people

294

00:15:01,659 --> 00:14:59,269

especially in developed countries with

295

00:15:04,269 --> 00:15:01,669

low rates of infection who are

296

00:15:06,280 --> 00:15:04,279

vehemently opposed to vaccination

297

00:15:10,900 --> 00:15:06,290

claiming it's responsible for everything

298

00:15:12,090 --> 00:15:10,910

from autism to SIDS to even shaken baby

299

00:15:14,139 --> 00:15:12,100

syndrome

300

00:15:16,650 --> 00:15:14,149

unbelievably some people deny

301
00:15:21,659 --> 00:15:16,660
vaccination has prevented any disease

302
00:15:24,220 --> 00:15:21,669
whatsoever there's almost no data for

303
00:15:26,859 --> 00:15:24,230
for significant damage caused by

304
00:15:29,739 --> 00:15:26,869
vaccines any more than anyone having an

305
00:15:32,169 --> 00:15:29,749
injection of any sort most of those

306
00:15:35,650 --> 00:15:32,179
reactions to injections are caused by

307
00:15:37,720 --> 00:15:35,660
fainting if your child's not vaccinated

308
00:15:39,189 --> 00:15:37,730
that's fine as long as no one else comes

309
00:15:41,799 --> 00:15:39,199
to this country and brings the disease

310
00:15:44,079 --> 00:15:41,809
with them if someone comes in from

311
00:15:46,359 --> 00:15:44,089
another country or the virus gets away

312
00:15:49,329 --> 00:15:46,369
some other way then it's possible that

313
00:15:51,069 --> 00:15:49,339

an epidemic can occur and of course most

314

00:15:52,720 --> 00:15:51,079

of these ill many of these unless and

315

00:15:54,840 --> 00:15:52,730

perhaps not all of them but many of

316

00:15:59,069 --> 00:15:54,850

these illnesses are life-threatening

317

00:16:01,290 --> 00:15:59,079

and if you have 50% of the infant

318

00:16:02,009 --> 00:16:01,300

population getting a disease like

319

00:16:04,319 --> 00:16:02,019

measles

320

00:16:06,650 --> 00:16:04,329

you're going to have deaths and there'll

321

00:16:08,910 --> 00:16:06,660

be a number of deaths measles can be a

322

00:16:11,189 --> 00:16:08,920

is a life-threatening illness and of

323

00:16:14,069 --> 00:16:11,199

course polio much more so tetanus

324

00:16:16,050 --> 00:16:14,079

diphtheria whooping cough whooping

325

00:16:17,850 --> 00:16:16,060

coughs you know it's quite a high

326

00:16:20,100 --> 00:16:17,860

mortality and because polio has a very

327

00:16:23,730 --> 00:16:20,110

high mortality and a very long morbidity

328

00:16:26,040 --> 00:16:23,740

and so if you if we have 15 and 15

329

00:16:29,400 --> 00:16:26,050

percent of our population susceptible to

330

00:16:31,860 --> 00:16:29,410

these illnesses then of course you know

331

00:16:34,439 --> 00:16:31,870

all sorts of disasters can occur for for

332

00:16:37,379 --> 00:16:34,449

the children and so you by not

333

00:16:39,180 --> 00:16:37,389

vaccinating your child you only put your

334

00:16:41,100 --> 00:16:39,190

own child at risk but you put at risk

335

00:16:43,439 --> 00:16:41,110

the children who have also gone to the

336

00:16:45,689 --> 00:16:43,449

trouble of being vaccinated because some

337

00:16:47,639 --> 00:16:45,699

of them because of the immune system or

338

00:16:51,300 --> 00:16:47,649

whatever will actually be susceptible to

339

00:16:52,980 --> 00:16:51,310

the disease one of the persistent myths

340

00:16:55,259 --> 00:16:52,990

about vaccines and the dangers of

341

00:16:57,530 --> 00:16:55,269

vaccines is that vaccination causes

342

00:16:59,910 --> 00:16:57,540

autism or certain vaccines cause autism

343

00:17:03,509 --> 00:16:59,920

there have been dozens of studies done

344

00:17:06,260 --> 00:17:03,519

that have shown no connection what the

345

00:17:09,600 --> 00:17:06,270

connection easier is simply coincidence

346

00:17:11,090 --> 00:17:09,610

autism is detected at about the age when

347

00:17:12,779 --> 00:17:11,100

some of the earlier vaccines are given

348

00:17:14,279 --> 00:17:12,789

it's not something you can usually

349

00:17:17,100 --> 00:17:14,289

detect early like something in some

350

00:17:20,730 --> 00:17:17,110

cases you can there's just been a recent

351
00:17:22,230 --> 00:17:20,740
study done with an analysis of as many

352
00:17:24,659 --> 00:17:22,240
studies you get followed by a new

353
00:17:26,309 --> 00:17:24,669
academic Sydney University and what he

354
00:17:27,799 --> 00:17:26,319
found was that when you put them all

355
00:17:30,570 --> 00:17:27,809
together and collect all the information

356
00:17:31,770 --> 00:17:30,580
it just became stronger there is no

357
00:17:34,770 --> 00:17:31,780
connection between vaccination and

358
00:17:36,840 --> 00:17:34,780
autism so it can be can be detected

359
00:17:39,029 --> 00:17:36,850
early that the normal type of detection

360
00:17:40,590 --> 00:17:39,039
and just to do not do with the

361
00:17:42,210 --> 00:17:40,600
developmental stages of children that

362
00:17:44,760 --> 00:17:42,220
they don't show the signs of autism

363
00:17:46,649 --> 00:17:44,770

until they're about sometimes like 2 or

364

00:17:49,289 --> 00:17:46,659

3 years old and that's when they can get

365

00:17:50,669 --> 00:17:49,299

a lot of the vaccines it's a myth and

366

00:17:53,430 --> 00:17:50,679

it's a myth which should be stomped on

367

00:17:55,070 --> 00:17:53,440

and should stop there being repeated but

368

00:17:58,169 --> 00:17:55,080

there's people out there who are

369

00:18:00,060 --> 00:17:58,179

bitterly opposed to vaccination and they

370

00:18:02,750 --> 00:18:00,070

have all sorts of reasons they object to

371

00:18:04,310 --> 00:18:02,760

the science they object to the

372

00:18:06,570 --> 00:18:04,320

socialization of it

373

00:18:07,730 --> 00:18:06,580

but the thing is they don't know what

374

00:18:09,560 --> 00:18:07,740

it's like I'm one

375

00:18:12,080 --> 00:18:09,570

the last of the generation that saw

376

00:18:14,480 --> 00:18:12,090

these things right up close I saw it in

377

00:18:17,870 --> 00:18:14,490

my father's face I saw it in my mother's

378

00:18:20,090 --> 00:18:17,880

eye cell I saw it in my school friends

379

00:18:23,380 --> 00:18:20,100

who wore calipers or just I never saw a

380

00:18:26,570 --> 00:18:23,390

game it just doesn't happen today

381

00:18:29,000 --> 00:18:26,580

why are these people so bitterly opposed

382

00:18:30,430 --> 00:18:29,010

to vaccinations they don't know what

383

00:18:33,940 --> 00:18:30,440

they're talking about

384

00:18:36,400 --> 00:18:33,950

it's they have all these reasons that

385

00:18:40,070 --> 00:18:36,410

just don't make sense

386

00:18:42,290 --> 00:18:40,080

it's they're just rubbish get your child

387

00:18:45,680 --> 00:18:42,300

vaccinated see a real doctor not a crank

388

00:18:48,200 --> 00:18:45,690

see a real doctor get their immunization

389

00:18:50,540 --> 00:18:48,210

program get them up-to-date keep them

390

00:18:54,940 --> 00:18:50,550

up-to-date and you won't see what I saw

391

00:18:59,390 --> 00:18:56,720

the first thing to realize about

392

00:19:01,520 --> 00:18:59,400

vaccinations is that they were invented

393

00:19:04,299 --> 00:19:01,530

by human beings they're not perfect

394

00:19:06,620 --> 00:19:04,309

nothing made by humans is perfect but

395

00:19:09,110 --> 00:19:06,630

overwhelmingly the odds are in your

396

00:19:11,030 --> 00:19:09,120

favor if you get vaccinated I've got my

397

00:19:12,290 --> 00:19:11,040

kids vaccinated I tell everybody get

398

00:19:14,360 --> 00:19:12,300

their kids vaccinated they're not

399

00:19:16,750 --> 00:19:14,370

perfect you'll have a fever or maybe

400

00:19:18,770 --> 00:19:16,760

maybe some to the other but they

401
00:19:19,340 --> 00:19:18,780
overwhelmingly the odds are in your

402
00:19:22,100 --> 00:19:19,350
favor

403
00:19:23,750 --> 00:19:22,110
simply because nothing made by humans is

404
00:19:29,450 --> 00:19:23,760
perfect but the odds are in your favor

405
00:19:32,900 --> 00:19:29,460
get vaccinated it's so important like

406
00:19:36,080 --> 00:19:32,910
just just a little needle and then their

407
00:19:38,950 --> 00:19:36,090
children they've taken away all the

408
00:19:41,840 --> 00:19:38,960
worry against them getting these things

409
00:19:45,560 --> 00:19:41,850
you think they might die I remember too

410
00:19:49,460 --> 00:19:45,570
until my children having whooping cough

411
00:19:53,330 --> 00:19:49,470
together and that was a very worrying

412
00:19:55,340 --> 00:19:53,340
time if our grandmothers knew that there

413
00:19:57,500 --> 00:19:55,350

was a treatment or prevention for the

414

00:20:00,500 --> 00:19:57,510

diseases that their children died from

415

00:20:03,850 --> 00:20:00,510

and we weren't accessing those they

416

00:20:06,260 --> 00:20:03,860

would kick us from here into next week

417

00:20:08,660 --> 00:20:06,270

the disease's we've been talking about

418

00:20:10,880 --> 00:20:08,670

can affect children for the rest of

419

00:20:13,730 --> 00:20:10,890

their lives even when all the symptoms

420

00:20:15,770 --> 00:20:13,740

are gone part of the disease can linger

421

00:20:18,919 --> 00:20:15,780

in the body for decades only to return

422

00:20:20,490 --> 00:20:18,929

later in life a very nasty visitor from

423

00:20:23,950 --> 00:20:20,500

the past

424

00:20:27,370 --> 00:20:23,960

now poliomyelitis polio infantile

425

00:20:30,970 --> 00:20:27,380

paralysis it's been called to involves

426

00:20:32,890 --> 00:20:30,980

the muscles it involves the paralysis of

427

00:20:34,840 --> 00:20:32,900

the muscles and often these are the

428

00:20:37,090 --> 00:20:34,850

muscles of the lungs the breathing

429

00:20:39,580 --> 00:20:37,100

apparatus and a person that's affected

430

00:20:41,470 --> 00:20:39,590

so in order for a person to stay alive

431

00:20:45,310 --> 00:20:41,480

it was necessary to put polio victims

432

00:20:49,030 --> 00:20:45,320

into an iron lung and this forced the

433

00:20:51,160 --> 00:20:49,040

air into and out of a person and for

434

00:20:53,260 --> 00:20:51,170

many many people lying on their back

435

00:20:56,860 --> 00:20:53,270

flat on their back looking at the world

436

00:20:59,770 --> 00:20:56,870

through a mirror eating in there was

437

00:21:01,870 --> 00:20:59,780

their life many people who bent into

438

00:21:04,810 --> 00:21:01,880

iron lungs never ever came out of iron

439

00:21:07,060 --> 00:21:04,820

lungs but many people did spend their

440

00:21:08,530 --> 00:21:07,070

entire life in there and they might have

441

00:21:10,180 --> 00:21:08,540

been allowed out just a little while

442

00:21:13,120 --> 00:21:10,190

with assisted breathing to have a shower

443

00:21:15,790 --> 00:21:13,130

had a bath a sponge bath go to the

444

00:21:18,280 --> 00:21:15,800

toilet perhaps but most spent their

445

00:21:20,860 --> 00:21:18,290

lives after they were in an iron lung

446

00:21:23,320 --> 00:21:20,870

and stayed there I understand that very

447

00:21:25,440 --> 00:21:23,330

few came out of them in some hospitals

448

00:21:27,910 --> 00:21:25,450

there were rooms full of iron lungs

449

00:21:32,710 --> 00:21:27,920

helping people to breathe with that

450

00:21:36,550 --> 00:21:32,720

awful sound of compression and like a

451
00:21:38,050 --> 00:21:36,560
pump going to to pump air into people

452
00:21:39,880 --> 00:21:38,060
and out of people I think they've been

453
00:21:41,410 --> 00:21:39,890
refined in recent times I don't know

454
00:21:44,260 --> 00:21:41,420
what they used because there's just not

455
00:21:46,600 --> 00:21:44,270
the incidence of polio around but it was

456
00:21:48,820 --> 00:21:46,610
certainly an horrific thing to see an

457
00:21:51,070 --> 00:21:48,830
iron lung waiting for you at the end of

458
00:21:53,830 --> 00:21:51,080
your bed and this is what you may need

459
00:21:59,050 --> 00:21:53,840
and I was very determined to get well so

460
00:22:01,360 --> 00:21:59,060
I didn't need an iron lung about latest

461
00:22:04,180 --> 00:22:01,370
vaccines or newest vaccines has been the

462
00:22:06,610 --> 00:22:04,190
herpes zoster virus vaccine which is the

463
00:22:11,230 --> 00:22:06,620

herpes zoster is the virus that causes

464

00:22:14,950 --> 00:22:11,240

chickenpox and can recur later and come

465

00:22:18,580 --> 00:22:14,960

out as as shingles which is a rather

466

00:22:20,980 --> 00:22:18,590

nasty inflammation of the skin so

467

00:22:24,970 --> 00:22:20,990

children or people who are infected with

468

00:22:26,860 --> 00:22:24,980

chickenpox the chickenpox virus after

469

00:22:29,960 --> 00:22:26,870

the illnesses over the chickenpox virus

470

00:22:32,780 --> 00:22:29,970

doesn't completely leave us it

471

00:22:36,020 --> 00:22:32,790

it hides in the in the roots of our

472

00:22:38,900 --> 00:22:36,030

nerves what's called the ganglia of the

473

00:22:41,330 --> 00:22:38,910

nerve so you have a nerve which goes to

474

00:22:44,600 --> 00:22:41,340

your fingertips a or to your chest and

475

00:22:47,330 --> 00:22:44,610

that nerve arises in your spinal cord

476

00:22:51,890 --> 00:22:47,340

and back near spinal cord there's the

477

00:22:54,350 --> 00:22:51,900

the none of ganglia and so the the virus

478

00:22:56,360 --> 00:22:54,360

will retreat there until for some reason

479

00:22:57,680 --> 00:22:56,370

your immunity drops enough or something

480

00:23:00,500 --> 00:22:57,690

happens to you there's some stressful

481

00:23:02,360 --> 00:23:00,510

and the virus will then migrate along

482

00:23:04,730 --> 00:23:02,370

the nerve to where the nerve ends on

483

00:23:06,890 --> 00:23:04,740

your skin and bursts through and attack

484

00:23:10,700 --> 00:23:06,900

your skin causing blistering and pain

485

00:23:15,350 --> 00:23:10,710

and a nasty rash and so you'll get a

486

00:23:18,560 --> 00:23:15,360

patch of a patch of blistered bird skin

487

00:23:20,810 --> 00:23:18,570

now this can be very unpleasant anywhere

488

00:23:22,760 --> 00:23:20,820

but it can sometimes occur on the face

489

00:23:24,770 --> 00:23:22,770

if it occurs on the face you can get

490

00:23:27,320 --> 00:23:24,780

scarring and disfigurement and it can

491

00:23:29,300 --> 00:23:27,330

even sometimes affect the eye and you

492

00:23:30,970 --> 00:23:29,310

can get herpes zoster in the eye and you

493

00:23:33,980 --> 00:23:30,980

can cause loss of vision

494

00:23:36,920 --> 00:23:33,990

now that can be quite a nasty late

495

00:23:39,320 --> 00:23:36,930

consequence of of infant infection with

496

00:23:41,540 --> 00:23:39,330

say herpes zoster virus or chickenpox

497

00:23:43,910 --> 00:23:41,550

many people think of chickenpox as a

498

00:23:47,540 --> 00:23:43,920

benign illness all my family had it in

499

00:23:49,700 --> 00:23:47,550

the 50s 60s 70s and 80s and you know

500

00:23:52,610 --> 00:23:49,710

none of them had anything any problem

501
00:23:54,980 --> 00:23:52,620
well mostly that's the case but two

502
00:23:58,930 --> 00:23:54,990
things one is that there is still the

503
00:24:01,400 --> 00:23:58,940
odd case of herpes zoster pneumonia and

504
00:24:04,130 --> 00:24:01,410
children have died from herpes zoster

505
00:24:05,750 --> 00:24:04,140
lung infection when everyone thought

506
00:24:08,030 --> 00:24:05,760
they just had a you know the ordinary

507
00:24:10,910 --> 00:24:08,040
old chickenpox but then much later on

508
00:24:14,510 --> 00:24:10,920
when those same infected people reach

509
00:24:16,940 --> 00:24:14,520
their 60s 70s and 80s they can burst out

510
00:24:20,000 --> 00:24:16,950
but the nasty dose of shingles and it's

511
00:24:23,810 --> 00:24:20,010
hoped that the herpes zoster virus by

512
00:24:25,910 --> 00:24:23,820
preventing chickenpox preventing the the

513
00:24:29,440 --> 00:24:25,920

actual seeding of these viruses into our

514

00:24:32,620 --> 00:24:29,450

nerves that we won't be susceptible to

515

00:24:35,270 --> 00:24:32,630

those bouts of shingles in later life

516

00:24:37,580 --> 00:24:35,280

when my son was 5 weeks old he

517

00:24:40,390 --> 00:24:37,590

contracted viral meningitis and I spent

518

00:24:42,630 --> 00:24:40,400

five sleepless nights in the hospital

519

00:24:45,780 --> 00:24:42,640

listening to him cry

520

00:24:51,120 --> 00:24:45,790

and he was bright red and you could just

521

00:24:52,830 --> 00:24:51,130

tell he was so afraid and it was it was

522

00:24:54,870 --> 00:24:52,840

a really stressful time for me he had a

523

00:24:57,030 --> 00:24:54,880

spinal tap you don't you don't want to

524

00:24:59,730 --> 00:24:57,040

have that happen to a tiny little baby

525

00:25:02,970 --> 00:24:59,740

and to think that there are babies out

526

00:25:07,500 --> 00:25:02,980

there that might contract a vaccine

527

00:25:09,419 --> 00:25:07,510

preventible disease just it terrifies me

528

00:25:11,190 --> 00:25:09,429

and that's why i vaccinate because i

529

00:25:13,650 --> 00:25:11,200

want to protect my kids and i want to

530

00:25:15,750 --> 00:25:13,660

protect other people's kids if there was

531

00:25:18,990 --> 00:25:15,760

a vaccinating for the viral meningitis i

532

00:25:22,220 --> 00:25:19,000

would have given that to my both of my

533

00:25:24,659 --> 00:25:22,230

kids no question Tim didn't it was just

534

00:25:26,010 --> 00:25:24,669

an awful thing to experience and I

535

00:25:27,570 --> 00:25:26,020

really don't want to wish that on any

536

00:25:31,380 --> 00:25:27,580

other parent or any other child to go

537

00:25:33,180 --> 00:25:31,390

through that you have an important

538

00:25:35,789 --> 00:25:33,190

decision to make whether to vaccinate or

539

00:25:37,860 --> 00:25:35,799

not and that makes you very lucky for

540

00:25:40,320 --> 00:25:37,870

the luxury of having this decision was

541

00:25:42,810 --> 00:25:40,330

not available to most of your ancestors

542

00:25:44,570 --> 00:25:42,820

and is still not available to parents in

543

00:25:46,799 --> 00:25:44,580

many developing parts of the world I

544

00:25:48,930 --> 00:25:46,809

hope you'll remember the stories from

545

00:25:50,760 --> 00:25:48,940

the people in this video I hope you'll

546

00:25:53,100 --> 00:25:50,770

never know the fear and the sorrow that

547

00:26:20,029 --> 00:25:53,110

was part of their lives and I hope
