The Band of Power

An Audio Adventure

1
00:01:26,469 --> 00:01:22,960
solarflare episode 1 the bend power in

2
00:01:30,100 --> 00:01:26,479
the Year 2165 the Australian space

3
00:01:32,500 --> 00:01:30,110
service launched the solar flare the

4
00:01:36,130 --> 00:01:32,510
first in a new line of interstellar

5
00:01:38,770 --> 00:01:36,140
vehicles equipped with incredible

6
00:01:43,090 --> 00:01:38,780
hydrogen extraction relative paradox

7
00:01:46,330 --> 00:01:43,100
distortion energy retro power or up dirt

8
00:01:48,490 --> 00:01:46,340
for short although these days it's

9
00:01:51,280 --> 00:01:48,500
fashionable and much quicker just a call

10
00:01:54,999 --> 00:01:51,290
of the dirt drive the solar flare and

11
00:02:00,660 --> 00:01:55,009
her crew are on a mission to chart the

12
00:02:04,150 --> 00:02:00,670
galaxy yes it might take them a while

13
00:02:07,240 --> 00:02:04,160

but for them they the endless emptiness

14

00:02:10,840 --> 00:02:07,250

of nothingness that is empty space with

15

00:02:14,290 --> 00:02:10,850

nothing in it except for stars planets

16

00:02:17,020 --> 00:02:14,300

moons asteroids comets gas filled space

17

00:02:20,050 --> 00:02:17,030

junk black holes white bumps brown

18

00:02:22,900 --> 00:02:20,060

dwarfs more asteroids final frontiers

19

00:02:29,250 --> 00:02:22,910

even more comments Dark Matter nebulas

20

00:02:35,940 --> 00:02:32,350

the command bridge seated on his

21

00:02:45,370 --> 00:02:35,950

commanding our seat Captain Saunders

22

00:02:47,380 --> 00:02:45,380

gazes out into the great unknown steady

23

00:02:49,539 --> 00:02:47,390

as she goes commander Soyka I captain

24

00:02:51,550 --> 00:02:49,549

watch out for those mini black holes I

25

00:02:53,890 --> 00:02:51,560

haven't seen any yet I mean black

26

00:02:56,860 --> 00:02:53,900

against black not really easy to see is

27

00:02:59,080 --> 00:02:56,870

it and mini how small as many are we

28

00:03:01,990 --> 00:02:59,090

talking tiny mini or really big many

29

00:03:04,630 --> 00:03:02,000

many as in larger than a planet but not

30

00:03:06,490 --> 00:03:04,640

as large as a star okay so are we

31

00:03:08,740 --> 00:03:06,500

talking about a small planet and a large

32

00:03:09,680 --> 00:03:08,750

star or do you mean a large planet and a

33

00:03:11,840 --> 00:03:09,690

really

34

00:03:13,640 --> 00:03:11,850

little star like a brown dwarf or how

35

00:03:16,040 --> 00:03:13,650

about its emergency hotline from Star

36

00:03:20,300 --> 00:03:16,050

Command instantly stopping can you get

37

00:03:23,630 --> 00:03:20,310

that please aye captain hello oh hello

38

00:03:26,450 --> 00:03:23,640

my darling how are you sure I can do

39

00:03:28,250 --> 00:03:26,460

that I don't like a commander every time

40

00:03:30,740 --> 00:03:28,260

Star Command contact us that always

41

00:03:34,580 --> 00:03:30,750

means a new and dangerous mission you

42

00:03:37,250 --> 00:03:34,590

mean a plot you well luckiest oh I'll

43

00:03:39,290 --> 00:03:37,260

tell him captain it's Admiral Roy from

44

00:03:41,960 --> 00:03:39,300

Earth and he's calling us collect

45

00:03:44,330 --> 00:03:41,970

collect enson out here why don't we just

46

00:03:46,610 --> 00:03:44,340

use the interstellar net and connect

47

00:03:48,770 --> 00:03:46,620

through hyper subspace it's not working

48

00:03:50,480 --> 00:03:48,780

captain I even turned the modem on and

49

00:03:52,550 --> 00:03:50,490

off at the wall and everything ah

50

00:03:55,820 --> 00:03:52,560

captain I might know something about

51
00:03:58,430 --> 00:03:55,830
that yes commander yeah I mean to tell

52
00:04:00,770 --> 00:03:58,440
you we saw to win over our 15 Giga

53
00:04:02,570 --> 00:04:00,780
wiggity ribeiro flop Bob download limit

54
00:04:05,450 --> 00:04:02,580
you see there's a new movie out called

55
00:04:08,840 --> 00:04:05,460
storm force with George Rab directed by

56
00:04:11,450 --> 00:04:08,850
Derek Colin dunno and in mega HD 3d with

57
00:04:14,030 --> 00:04:11,460
true seen smells and touchy-feely direct

58
00:04:17,870 --> 00:04:14,040
mind stimulation and a crew member who

59
00:04:21,440 --> 00:04:17,880
will go unnamed sort of will downloaded

60
00:04:24,920 --> 00:04:21,450
it twice so we're on dial-up speed for

61
00:04:28,130 --> 00:04:24,930
the next month I see was the movie any

62
00:04:31,100 --> 00:04:28,140
good no it's seen it before right but

63
00:04:33,920 --> 00:04:31,110

the Admiral on speaker Captain Saunders

64

00:04:35,240 --> 00:04:33,930

here Saunders Admiral Roy from Star

65

00:04:37,670 --> 00:04:35,250

Command it looks like we have a

66

00:04:39,770 --> 00:04:37,680

situation I see what is it Admiral

67

00:04:42,440 --> 00:04:39,780

intelligence from our undercover agents

68

00:04:44,200 --> 00:04:42,450

Wow who woulda thought aday I mean

69

00:04:47,480 --> 00:04:44,210

normally those guys are really stupid

70

00:04:51,290 --> 00:04:47,490

yes yes they are so what did the

71

00:04:54,110 --> 00:04:51,300

undercover agents uncover cars the

72

00:04:56,420 --> 00:04:54,120

undercover agents uncovered covers yes

73

00:04:59,420 --> 00:04:56,430

Saunders their undercover agents what

74

00:05:00,680 --> 00:04:59,430

did you expect them to uncover yes can

75

00:05:03,750 --> 00:05:00,690

you tell me anything more about these

76

00:05:05,400 --> 00:05:03,760

covers the covers were just a cover to

77

00:05:08,310 --> 00:05:05,410

cover the recovered secret plans

78

00:05:10,710 --> 00:05:08,320

covering the uncovering of a new and

79

00:05:13,050 --> 00:05:10,720

powerful power supply that could change

80

00:05:16,440 --> 00:05:13,060

the balance of power in the universe and

81

00:05:18,600 --> 00:05:16,450

beyond what could you repeat that not in

82

00:05:20,670 --> 00:05:18,610

a million years Saunders this is serious

83

00:05:22,470 --> 00:05:20,680

those secret plans have disappeared from

84

00:05:25,050 --> 00:05:22,480

under lock and key and we need them back

85

00:05:27,270 --> 00:05:25,060

I want you to set a course find the

86

00:05:29,280 --> 00:05:27,280

plans and bring them back to earth but

87

00:05:31,350 --> 00:05:29,290

be warned we suspect whoever the

88

00:05:34,620 --> 00:05:31,360

mastermind is behind this will stop at

89

00:05:36,900 --> 00:05:34,630

nothing yes sir where are you sending us

90

00:05:38,910 --> 00:05:36,910

what's the hitting dammit Saunders

91

00:05:41,220 --> 00:05:38,920

you're the captain set your own heading

92

00:05:43,170 --> 00:05:41,230

you can be replaced you know here's a

93

00:05:46,170 --> 00:05:43,180

report back to me when you've got those

94

00:05:49,230 --> 00:05:46,180

plans don't fail Saunders Admiral Roy

95

00:05:51,830 --> 00:05:49,240

out captain I think we should set a

96

00:05:57,180 --> 00:05:51,840

heading for the pleasure planet of oh

97

00:05:59,340 --> 00:05:57,190

yeah mmm three you know the one with the

98

00:06:01,800 --> 00:05:59,350

crystal swimming pools and aliens with

99

00:06:05,310 --> 00:06:01,810

six hands that can massage six parts of

100

00:06:07,200 --> 00:06:05,320

your body at once hmm do you think the

101
00:06:10,760 --> 00:06:07,210
secret plans are there I have no idea

102
00:06:14,610 --> 00:06:10,770
but it's a fun place to start looking

103
00:06:17,820 --> 00:06:14,620
mr. psycho what's this strange object on

104
00:06:19,140 --> 00:06:17,830
the long-range scanner scope hmm wow I

105
00:06:22,110 --> 00:06:19,150
haven't seen anything like that before

106
00:06:24,060 --> 00:06:22,120
could it be another ship maybe Captain

107
00:06:26,390 --> 00:06:24,070
Steve novella has made it to this sector

108
00:06:29,220 --> 00:06:26,400
I hear he has a guide to the universe

109
00:06:31,320 --> 00:06:29,230
another ship oh no I thought you made

110
00:06:34,500 --> 00:06:31,330
the long-range scanner scope no never

111
00:06:37,170 --> 00:06:34,510
seen that before what does it do didn't

112
00:06:39,270 --> 00:06:37,180
you get any training mr. Soyka yes

113
00:06:41,760 --> 00:06:39,280

captain I attended the Australian space

114

00:06:45,750 --> 00:06:41,770

service night school for 10 years I see

115

00:06:48,180 --> 00:06:45,760

what did you study sleep mr. Sokha you

116

00:06:50,760 --> 00:06:48,190

would have to be the most uninformed

117

00:06:54,840 --> 00:06:50,770

person on this ship really i didn't know

118

00:06:56,730 --> 00:06:54,850

that right you know mmm instant forced

119

00:06:59,670 --> 00:06:56,740

up and over there says she's part

120

00:07:02,430 --> 00:06:59,680

psychic maybe she can help us part

121

00:07:03,399 --> 00:07:02,440

psychic yeah Vincent fish Dobbin aye

122

00:07:06,219 --> 00:07:03,409

captain

123

00:07:09,969 --> 00:07:06,229

nansen your file says you are part

124

00:07:12,879 --> 00:07:09,979

psychic also part cyborg and part time

125

00:07:21,790 --> 00:07:12,889

hmm can you tell me what I'm thinking

126

00:07:23,320 --> 00:07:21,800

now well oh oh yes I'm very good hmm we

127

00:07:27,309 --> 00:07:23,330

need to see if you can use your psychic

128

00:07:29,799 --> 00:07:27,319

abilities what can you sense about the

129

00:07:39,239 --> 00:07:29,809

strange object on the long-range scanner

130

00:07:43,449 --> 00:07:39,249

scope I'm getting I'm getting an image

131

00:07:46,569 --> 00:07:43,459

it's not clear wait I'm getting it now

132

00:07:51,999 --> 00:07:46,579

it's round it could be something

133

00:07:56,769 --> 00:07:52,009

starting with a tea or maybe could be an

134

00:08:08,469 --> 00:07:56,779

S or a dar sound does that mean anything

135

00:08:13,419 --> 00:08:08,479

to you um no no but go on okay yes who

136

00:08:18,459 --> 00:08:13,429

is robert or robbie something to do with

137

00:08:20,919 --> 00:08:18,469

a mountain or maybe a valley wait who

138

00:08:23,829 --> 00:08:20,929

was at that like ice cream had a blue

139

00:08:28,749 --> 00:08:23,839

car maybe it could be something to do

140

00:08:31,119 --> 00:08:28,759

with water well hey my brother's

141

00:08:33,519 --> 00:08:31,129

goldfish is called Reggie and he lives

142

00:08:36,610 --> 00:08:33,529

in water I mean this is too close to be

143

00:08:38,079 --> 00:08:36,620

a coincidence yes hmm thank you answer

144

00:08:42,409 --> 00:08:38,089

first up and we'll get back to you on

145

00:08:44,480 --> 00:08:42,419

that I lost the ship's computer computer

146

00:08:46,579 --> 00:08:44,490

you're listening to the ship's computer

147

00:08:48,889 --> 00:08:46,589

computer what can you tell me about the

148

00:08:50,509 --> 00:08:48,899

blip on the long-range scanner scope

149

00:08:52,550 --> 00:08:50,519

today we're going to take a closer look

150

00:08:54,920 --> 00:08:52,560

at the strange blip currently on the

151
00:08:57,560 --> 00:08:54,930
long-range scanner scope and examine the

152
00:09:00,829 --> 00:08:57,570
bizarre phenomenon known as W class

153
00:09:03,319 --> 00:09:00,839
planets computer what is a w class

154
00:09:06,860 --> 00:09:03,329
planet I only got as far as p class in

155
00:09:10,670 --> 00:09:06,870
my studies you know p for planet class

156
00:09:12,769 --> 00:09:10,680
planet the W stands for Wu class a class

157
00:09:14,990 --> 00:09:12,779
of planet were the laws of science logic

158
00:09:17,150 --> 00:09:15,000
and common sense as we know them have

159
00:09:19,790 --> 00:09:17,160
broken down into a sort of rainbow of

160
00:09:22,639 --> 00:09:19,800
nice colors wishful thinking with bunny

161
00:09:25,639 --> 00:09:22,649
rabbits unicorns and magical vibrations

162
00:09:28,340 --> 00:09:25,649
strange energy fields made from strange

163
00:09:30,560 --> 00:09:28,350

energy unknown to science float around

164

00:09:32,569 --> 00:09:30,570

the planet with those who encounter them

165

00:09:35,870 --> 00:09:32,579

reporting they feel balanced and healed

166

00:09:37,970 --> 00:09:35,880

ah sounds lovely the object of a

167

00:09:40,939 --> 00:09:37,980

long-range scanner scope does indeed

168

00:09:43,280 --> 00:09:40,949

seem to be a w class pride however it

169

00:09:47,389 --> 00:09:43,290

does not show up on any star charts or

170

00:09:50,150 --> 00:09:47,399

on the GPS we are still too far far far

171

00:09:52,970 --> 00:09:50,160

away to tell if there's any geologic

172

00:09:55,509 --> 00:09:52,980

activity that must be where the secret

173

00:09:57,800 --> 00:09:55,519

plans are really yeah sure why not

174

00:10:00,500 --> 00:09:57,810

computer how long will it take us to

175

00:10:03,710 --> 00:10:00,510

reach this planet back to pills entirely

176
00:10:07,160 --> 00:10:03,720
on how fast you want to go really really

177
00:10:09,590 --> 00:10:07,170
fast really really fast equates to dirt

178
00:10:14,509 --> 00:10:09,600
5 at that speed it would take us two

179
00:10:17,840 --> 00:10:14,519
days 10 hours 37 minutes right hello

180
00:10:20,240 --> 00:10:17,850
engineering Chad here captain ah chief

181
00:10:23,060 --> 00:10:20,250
Chen a penny for your thoughts we need

182
00:10:25,130 --> 00:10:23,070
to get the ship to reach derp 5 now can

183
00:10:27,310 --> 00:10:25,140
we do it but captain were already going

184
00:10:30,640 --> 00:10:27,320
at derp 7 we are

185
00:10:33,070 --> 00:10:30,650
right commander Soyka emergency stop all

186
00:10:35,470 --> 00:10:33,080
engines full reverse but captain an

187
00:10:37,450 --> 00:10:35,480
emergency stop at derb seven could tear

188
00:10:43,210 --> 00:10:37,460

the ship apart that is an order

189

00:10:45,670 --> 00:10:43,220

commander aye sir All Hands and all feet

190

00:10:58,230 --> 00:10:45,680

brace for an emergency stop hang on to

191

00:11:07,390 --> 00:11:02,410

all stop captain right chief Chen I need

192

00:11:09,220 --> 00:11:07,400

dirt five now can we do it captain that

193

00:11:11,320 --> 00:11:09,230

emergency stop burnt out the antimatter

194

00:11:13,660 --> 00:11:11,330

exchange the relay couplings the

195

00:11:17,620 --> 00:11:13,670

microwave soup reheater and my hair

196

00:11:24,010 --> 00:11:17,630

dryer chief we need dirt five hair dryer

197

00:11:25,780 --> 00:11:24,020

or not hi captain chat out mr. Soyka we

198

00:11:28,080 --> 00:11:25,790

should arrive at this planet in two days

199

00:11:30,940 --> 00:11:28,090

if the derb engines come back online I

200

00:11:33,850 --> 00:11:30,950

want you to put together a really far

201
00:11:37,210 --> 00:11:33,860
away team and will scream down once

202
00:11:38,890 --> 00:11:37,220
we're in orbit scream down yes well the

203
00:11:43,200 --> 00:11:38,900
teleporter isn't working and we have to

204
00:11:46,620 --> 00:11:43,210
jump and it's a really long way down

205
00:11:49,660 --> 00:11:46,630
sick bay to branch yes dr. AG report

206
00:11:53,560 --> 00:11:49,670
captain a critical situation we are

207
00:11:56,610 --> 00:11:53,570
running low on noms no one on what noms

208
00:12:00,850 --> 00:11:56,620
captain noms nutritional organic micro

209
00:12:03,340 --> 00:12:00,860
supplements huh food you know no not

210
00:12:05,680 --> 00:12:03,350
let's see well I think you're in luck

211
00:12:08,290 --> 00:12:05,690
we're heading for a planet that may have

212
00:12:10,840 --> 00:12:08,300
what you need we are what can you tell

213
00:12:14,320 --> 00:12:10,850

me about it not very much I'm afraid w

214

00:12:17,140 --> 00:12:14,330

class might have a landmass maybe some

215

00:12:19,150 --> 00:12:17,150

breathable atmosphere or it might be a

216

00:12:21,490 --> 00:12:19,160

gas planet with a poison atmosphere and

217

00:12:23,680 --> 00:12:21,500

no land mass that's it that's all you

218

00:12:25,900 --> 00:12:23,690

know and you make some bold statement

219

00:12:30,580 --> 00:12:25,910

that it might have a supply of noms yeah

220

00:12:33,910 --> 00:12:30,590

in mind what was that dr. Reggie nothing

221

00:12:35,320 --> 00:12:33,920

sickbay out mr. Soyka join me in

222

00:12:38,770 --> 00:12:35,330

engineering and we'll see if we can give

223

00:12:47,879 --> 00:12:38,780

a chief chan a hand and bring your hair

224

00:12:53,229 --> 00:12:51,100

the derp engines were finally repaired

225

00:12:56,559 --> 00:12:53,239

using the parts from three hair dryers

226

00:12:59,609 --> 00:12:56,569

and some extra strong genetically

227

00:13:04,329 --> 00:12:59,619

modified string known as super string

228

00:13:06,910 --> 00:13:04,339

well in theory anyway once in orbit scan

229

00:13:09,189 --> 00:13:06,920

showed that the mysterious w class

230

00:13:11,829 --> 00:13:09,199

planet was about the same size as earth

231

00:13:15,789 --> 00:13:11,839

with a breathable atmosphere liquid

232

00:13:18,970 --> 00:13:15,799

water oceans a blue sky and no dangerous

233

00:13:21,069 --> 00:13:18,980

radiation now come on really in the

234

00:13:25,269 --> 00:13:21,079

vastness of space what are the odds of

235

00:13:28,449 --> 00:13:25,279

that mean time the really part of a team

236

00:13:36,819 --> 00:13:28,459

has gathered in the cargo hold and is

237

00:13:38,559 --> 00:13:36,829

preparing to jump right now remember

238

00:13:41,650 --> 00:13:38,569

everybody roll when you hit the ground

239

00:13:44,829 --> 00:13:41,660

about jumping to the planets we might

240

00:13:46,799 --> 00:13:44,839

have a problem captain what what is it n

241

00:13:51,489 --> 00:13:46,809

santhush Dutton scared of heights no

242

00:13:53,919 --> 00:13:51,499

scared of no parachutes no parachutes we

243

00:13:56,530 --> 00:13:53,929

have a derb drive supersonic hairdryers

244

00:13:59,470 --> 00:13:56,540

more TV channels and there are stars in

245

00:14:01,989 --> 00:13:59,480

the known universe but no parachutes or

246

00:14:03,939 --> 00:14:01,999

not captain I think it might be better

247

00:14:06,970 --> 00:14:03,949

to use our shuttles to get to the planet

248

00:14:09,340 --> 00:14:06,980

you know Oh H&S and all that and we have

249

00:14:10,900 --> 00:14:09,350

a shuttle pilot who is very keen part of

250

00:14:12,449 --> 00:14:10,910

maine our third class I used to be

251
00:14:15,100 --> 00:14:12,459
second may not reporting captain

252
00:14:18,220 --> 00:14:15,110
misdemeanor good to see you again now

253
00:14:20,440 --> 00:14:18,230
this planet we need wit but

254
00:14:23,020 --> 00:14:20,450
what on earth are you wearing those

255
00:14:24,520 --> 00:14:23,030
trousers are not standard issue no sir

256
00:14:29,290 --> 00:14:24,530
but they should be I designed them

257
00:14:30,970 --> 00:14:29,300
myself I call them solar flares hey wait

258
00:14:33,130 --> 00:14:30,980
wait haven't finished if you think my

259
00:14:39,430 --> 00:14:33,140
solar flares are good wait do you see my

260
00:14:40,960 --> 00:14:39,440
Van Allen belt yeah fine now can you get

261
00:14:43,480 --> 00:14:40,970
us down to the planet and how many

262
00:14:46,420 --> 00:14:43,490
pieces were you thinking kept as few as

263
00:14:48,160 --> 00:14:46,430

possible well I can try okay everybody

264

00:14:50,260 --> 00:14:48,170

follow me into the shuttle bay watch

265

00:14:52,960 --> 00:14:50,270

your heads and bring some sick bags Oh

266

00:14:55,330 --> 00:14:52,970

today's in-flight movie is storm force

267

00:15:09,570 --> 00:14:55,340

with George rub no one knows I

268

00:15:14,460 --> 00:15:12,180

attention crew guests and any huge

269

00:15:17,130 --> 00:15:14,470

hikers the next shuttle will be leaving

270

00:15:20,550 --> 00:15:17,140

from shuttle bay 86 in five minutes

271

00:15:27,450 --> 00:15:20,560

stopping at the w class plant shuttle

272

00:15:30,420 --> 00:15:27,460

insurance is recommended right everyone

273

00:15:32,040 --> 00:15:30,430

buckle up back there yes dad right all I

274

00:15:33,810 --> 00:15:32,050

have to do is enter the starting code

275

00:15:36,360 --> 00:15:33,820

into the computer within the next 60

276

00:15:38,520 --> 00:15:36,370

seconds or the automatic safety system

277

00:15:41,190 --> 00:15:38,530

kicks in and we're going nowhere I take

278

00:15:43,860 --> 00:15:41,200

it you know the code know the code know

279

00:15:46,770 --> 00:15:43,870

the code captain this code is vital to

280

00:15:49,260 --> 00:15:46,780

my job I haven't seen into my brain and

281

00:15:51,050 --> 00:15:49,270

written across my heart there's no way I

282

00:15:55,920 --> 00:15:51,060

could ever forget it that's good to know

283

00:16:07,860 --> 00:15:55,930

what is the code anyway um ask there's a

284

00:16:12,720 --> 00:16:07,870

G in there g gu trying to steal the

285

00:16:14,490 --> 00:16:12,730

shuttle oh darling please respond within

286

00:16:25,470 --> 00:16:14,500

10 seconds or the shuttle will be

287

00:16:35,620 --> 00:16:25,480

disabled hello computer i think it has a

288

00:16:40,330 --> 00:16:35,630

G in it yes oh yeah t 0

289

00:16:48,400 --> 00:16:40,340

why oops backspace okay t um I think

290

00:16:53,860 --> 00:16:48,410

there was an ass okay okay backspace ah

291

00:16:58,420 --> 00:16:53,870

there it is yes it's not my fault this

292

00:17:03,040 --> 00:16:58,430

keyboard has a spooky action thanks

293

00:17:09,309 --> 00:17:03,050

computer I owe you one now to start the

294

00:17:10,540 --> 00:17:09,319

engine come on baby come on come on Suze

295

00:17:15,100 --> 00:17:10,550

is a carburetor and this is something

296

00:17:18,189 --> 00:17:15,110

gone baby hey that's not what he said

297

00:17:18,199 --> 00:17:23,429

hey Matt Matt yeah

298

00:17:27,909 --> 00:17:26,470

hey commander Yes Doctor I've never been

299

00:17:30,010 --> 00:17:27,919

in a shuttle with a mirror ball and

300

00:17:31,630 --> 00:17:30,020

carpet on ceiling before yes they match

301
00:17:34,390 --> 00:17:31,640
the fuzzy dice hanging from the rearview

302
00:17:41,070 --> 00:17:34,400
scope and the plastic dancing hula girl

303
00:17:48,730 --> 00:17:45,970
cheers everyone ah the only way to fly

304
00:18:01,960 --> 00:17:48,740
hey how about some mood music computer

305
00:18:07,360 --> 00:18:04,480
under the universe I'll look comes cross

306
00:18:09,790 --> 00:18:07,370
your face you try to battle distances of

307
00:18:11,980 --> 00:18:09,800
all the stuff in space but you can't

308
00:18:14,530 --> 00:18:11,990
wrap the makin of your mind around the

309
00:18:18,220 --> 00:18:14,540
beacon of all the terms required to

310
00:18:20,580 --> 00:18:18,230
describe how big is big so let me get

311
00:18:24,320 --> 00:18:20,590
specific

312
00:18:28,880 --> 00:18:24,330
and use word scientific

313
00:18:32,060 --> 00:18:28,890

go without your thesaurus for this

314

00:18:38,390 --> 00:18:34,549

stop this farce

315

00:18:43,820 --> 00:18:41,370

you there by Carla today and some

316

00:18:45,610 --> 00:18:43,830

see former to sponsor

317

00:18:52,019 --> 00:18:45,620

it's more

318

00:18:57,350 --> 00:18:54,890

is four stars

319

00:19:00,140 --> 00:18:57,360

I sense all the explosions going off

320

00:19:03,410 --> 00:19:00,150

inside your brain is your mind is blown

321

00:19:06,770 --> 00:19:03,420

by what I just did explain sorry if my

322

00:19:08,750 --> 00:19:06,780

words my drive you all insane but that's

323

00:19:13,840 --> 00:19:08,760

what happens when precision is your

324

00:19:17,789 --> 00:19:13,850

middle name so in that exacting vector

325

00:19:25,880 --> 00:19:20,670

using details quite Samantha

326

00:19:31,930 --> 00:19:28,190

we stopped the spa

327

00:19:44,409 --> 00:19:35,930

hang in there by carnal way super

328

00:20:01,320 --> 00:19:47,049

he concise way

329

00:20:07,390 --> 00:20:04,530

then I have offered up some ecosystems

330

00:20:10,090 --> 00:20:07,400

and having caused your ticker too much

331

00:20:13,600 --> 00:20:10,100

ventricle resistance she have got to

332

00:20:19,860 --> 00:20:13,610

listen and trust my insistence I am very

333

00:20:29,000 --> 00:20:21,620

stop the spa

334

00:20:29,010 --> 00:20:33,170

just false are three stars and star

335

00:20:33,180 --> 00:20:41,000

some Mouse poo showers toughest part

336

00:20:41,010 --> 00:20:51,460

pretty far

337

00:20:57,289 --> 00:20:54,620

entering atmosphere now and coming some

338

00:20:59,390 --> 00:20:57,299

purple haze or rough hide might get

339

00:21:01,460 --> 00:20:59,400

bumpy do I pay back there tighten up

340

00:21:03,260 --> 00:21:01,470

those belts rumba quick quack front and

341

00:21:10,830 --> 00:21:03,270

back especially front you seen the way I

342

00:21:10,840 --> 00:21:17,650

a shuttle computer needs a sick bag

343

00:21:23,950 --> 00:21:20,830

scanning for landing site

344

00:21:26,470 --> 00:21:23,960

there I see it clearing in that swamp

345

00:21:28,480 --> 00:21:26,480

set it down there mr. Manor in a swamp

346

00:21:40,269 --> 00:21:28,490

oh well it worked for Luke Skywalker

347

00:21:45,500 --> 00:21:42,769

saunders and main hard first served

348

00:21:48,409 --> 00:21:45,510

together 12 years earlier on the British

349

00:21:51,320 --> 00:21:48,419

space battle cruiser slack under the

350

00:21:53,240 --> 00:21:51,330

command of captain Michael Marshall in

351
00:21:56,590 --> 00:21:53,250
those days Saunders was an up-and-coming

352
00:21:59,990 --> 00:21:56,600
officer than Maynard was a trainee cook

353
00:22:01,480 --> 00:22:00,000
but then came the bad times the attack

354
00:22:05,180 --> 00:22:01,490
on the settlement of new Sydney

355
00:22:07,789 --> 00:22:05,190
throughout the long battle Saunders kept

356
00:22:11,570 --> 00:22:07,799
his nerve while Maynard saved his bacon

357
00:22:14,299 --> 00:22:11,580
and eggs and chocolate pudding when all

358
00:22:18,740 --> 00:22:14,309
was lost Saunders and manor heart with a

359
00:22:21,500 --> 00:22:18,750
first to the escape pod imagine that it

360
00:22:33,539 --> 00:22:21,510
was then that may not discovered that he

361
00:22:33,549 --> 00:22:42,909
you

362
00:22:50,330 --> 00:22:47,629
are we all that we all that okay mr.

363
00:22:52,999 --> 00:22:50,340

Maynard that is the first time I've seen

364

00:22:56,779 --> 00:22:53,009

somebody reverse Parker shuttle nice

365

00:22:59,419 --> 00:22:56,789

work Thank You captain captain I'm

366

00:23:01,789 --> 00:22:59,429

picking up a strange energy signature it

367

00:23:04,969 --> 00:23:01,799

is not showing up on my field sensor is

368

00:23:08,089 --> 00:23:04,979

it north wait a minute mr. Soyka wait

369

00:23:10,519 --> 00:23:08,099

you have no idea what a long-range

370

00:23:13,159 --> 00:23:10,529

scanner scope is but this field sensor

371

00:23:15,079 --> 00:23:13,169

is no problem for you yeah I got this

372

00:23:17,479 --> 00:23:15,089

for my service provider and it came with

373

00:23:20,389 --> 00:23:17,489

this great app that not only scans but

374

00:23:22,310 --> 00:23:20,399

also has a free Wi-Fi cooler and this

375

00:23:24,769 --> 00:23:22,320

button lets you order a pizza and in

376

00:23:27,109 --> 00:23:24,779

this button lets all right all right now

377

00:23:31,249 --> 00:23:27,119

what were you saying about this strange

378

00:23:33,799 --> 00:23:31,259

energy it's not here see nothing is

379

00:23:36,049 --> 00:23:33,809

showing up on a sensor at all so you're

380

00:23:39,739 --> 00:23:36,059

telling us that there's a strange energy

381

00:23:43,159 --> 00:23:39,749

that you cannot detect yep so how do you

382

00:23:45,950 --> 00:23:43,169

know it's there I can I can just sort of

383

00:23:48,409 --> 00:23:45,960

feel it just because this sensor with

384

00:23:51,169 --> 00:23:48,419

its so-called technology cannot detect

385

00:23:53,419 --> 00:23:51,179

it doesn't mean it's not there science

386

00:23:55,909 --> 00:23:53,429

doesn't know everything you know I mean

387

00:24:00,349 --> 00:23:55,919

how can you measure love you can't oh

388

00:24:03,019 --> 00:24:00,359

I've never thought so balanced shark was

389

00:24:04,430 --> 00:24:03,029

a real you know mr. Soyka I think you

390

00:24:07,129 --> 00:24:04,440

might be succumbing to the effects of

391

00:24:09,049 --> 00:24:07,139

being on this whoo class planet don't

392

00:24:12,019 --> 00:24:09,059

lose your grip on reality everybody

393

00:24:14,930 --> 00:24:12,029

remember think rationally and keep your

394

00:24:19,399 --> 00:24:14,940

wits about you whips yeah I always keep

395

00:24:22,130 --> 00:24:19,409

mine handy wits mr. Maynard weeks put

396

00:24:24,050 --> 00:24:22,140

that away sorry

397

00:24:26,810 --> 00:24:24,060

captain I'm getting another unknown

398

00:24:31,730 --> 00:24:26,820

energy reading we may experience time

399

00:24:34,160 --> 00:24:31,740

distortion it's very localized Wow hey I

400

00:24:37,040 --> 00:24:34,170

can feel it wow it's either absorbance

401
00:24:38,480 --> 00:24:37,050
torsional last night's dinner Nina I

402
00:24:40,790 --> 00:24:38,490
don't think you have ever sounded better

403
00:24:43,430 --> 00:24:40,800
hair for lice gesture has nuclear

404
00:24:45,440 --> 00:24:43,440
business how he hits the wall through

405
00:24:47,210 --> 00:24:45,450
its new captain else because he's no

406
00:24:49,760 --> 00:24:47,220
bleep you know my I couldn't have put it

407
00:24:51,530 --> 00:24:49,770
any better myself commander captain we

408
00:24:53,600 --> 00:24:51,540
need to take action fast these time

409
00:24:55,160 --> 00:24:53,610
distortions could drive us insane I have

410
00:24:56,720 --> 00:24:55,170
brought some whoo's vaccination shots so

411
00:25:06,500 --> 00:24:56,730
now line up everybody and I'll inoculate

412
00:25:08,330 --> 00:25:06,510
you now that's better thank you dr.

413
00:25:20,330 --> 00:25:08,340

ricci now make sure you vaccinate

414

00:25:24,530 --> 00:25:20,340

everybody oh look look up in the sky

415

00:25:26,780 --> 00:25:24,540

what the hell are those oh no flying

416

00:25:28,460 --> 00:25:26,790

monkeys from the Bangalow dimension they

417

00:25:31,220 --> 00:25:28,470

come screaming out of nowhere as soon as

418

00:25:37,040 --> 00:25:31,230

anyone mentions vaccinations kuthaa

419

00:25:39,200 --> 00:25:37,050

lasers on anything but stun you i miss

420

00:25:41,780 --> 00:25:39,210

captain as soon as they hit they come

421

00:25:43,850 --> 00:25:41,790

right back it's almost as if you're too

422

00:25:45,770 --> 00:25:43,860

stupid to even know they've been shot

423

00:25:47,390 --> 00:25:45,780

down in flames you have to run for it

424

00:25:57,010 --> 00:25:47,400

head for that menacing-looking cave

425

00:26:03,290 --> 00:26:00,140

flying monkeys were once a plague in

426
00:26:05,810 --> 00:26:03,300
almost every civilized society in this

427
00:26:08,420 --> 00:26:05,820
part of the galaxy they are fiercely

428
00:26:11,210 --> 00:26:08,430
opposed to science and reason and rely

429
00:26:13,840 --> 00:26:11,220
heavily on fear and superstition in

430
00:26:17,000 --> 00:26:13,850
order to survive and recruit new members

431
00:26:20,330 --> 00:26:17,010
in all the universe they are the only

432
00:26:22,520 --> 00:26:20,340
species ever known to actually shoot

433
00:26:24,950 --> 00:26:22,530
themselves in the foot while their foot

434
00:26:27,590 --> 00:26:24,960
was in their mouth after being laughed

435
00:26:31,070 --> 00:26:27,600
off planet after planet they finally

436
00:26:34,880 --> 00:26:31,080
found their true home and now infest woo

437
00:26:37,850 --> 00:26:34,890
class planets but our fearless crew who

438
00:26:39,890 --> 00:26:37,860

are all really quite scared aren't about

439

00:26:43,070 --> 00:26:39,900

to underestimate the danger to their

440

00:26:53,420 --> 00:26:43,080

sanity and run deep into the cave to

441

00:26:59,910 --> 00:26:57,210

right that's far enough I think I think

442

00:27:02,370 --> 00:26:59,920

we're safe for the moment mr. Maynard

443

00:27:04,740 --> 00:27:02,380

break out the emergency lights from your

444

00:27:16,830 --> 00:27:04,750

kid would you radio I think you're gonna

445

00:27:18,390 --> 00:27:16,840

like this disco lights yeah each color

446

00:27:20,820 --> 00:27:18,400

scans a different wavelength of the

447

00:27:24,750 --> 00:27:20,830

visible spectrum the perfect union of

448

00:27:26,490 --> 00:27:24,760

science and love careful everyone the

449

00:27:30,960 --> 00:27:26,500

walls are covered with poisonous moss

450

00:27:35,760 --> 00:27:30,970

poisonous moss I don't like in it who's

451
00:27:40,830 --> 00:27:35,770
doing that look over there some shadows

452
00:27:44,670 --> 00:27:40,840
showing up on the wall and my scanner

453
00:27:51,480 --> 00:27:44,680
now detects two humanoid life-forms look

454
00:27:54,930 --> 00:27:51,490
you can see them now captain my psychic

455
00:27:59,460 --> 00:27:54,940
powers tell me that um yeah they tell me

456
00:28:02,520 --> 00:27:59,470
we're not alone yes thank you instant

457
00:28:06,030 --> 00:28:02,530
first open again your powers just amaze

458
00:28:10,110 --> 00:28:06,040
me right everyone lasers on super kill

459
00:28:12,600 --> 00:28:10,120
come out whoever you are yoshi's captain

460
00:28:16,100 --> 00:28:12,610
I know those voices it's undercover

461
00:28:19,200 --> 00:28:16,110
agents Ben amoo and suggest your AG ah

462
00:28:21,330 --> 00:28:19,210
Thank Jareth we've been stranded on this

463
00:28:23,160 --> 00:28:21,340

planet for days we were on a secret

464

00:28:25,170 --> 00:28:23,170

mission to find the homeopathic molecule

465

00:28:27,480 --> 00:28:25,180

well they say there's one in every

466

00:28:30,150 --> 00:28:27,490

galaxy but we were attacked by a spambot

467

00:28:31,830 --> 00:28:30,160

just near asteroid Watson a shuttle

468

00:28:33,690 --> 00:28:31,840

crash-landed into the swamp and we were

469

00:28:36,180 --> 00:28:33,700

chased into this cave by weird flying

470

00:28:38,100 --> 00:28:36,190

monkeys we tried reasoning with him but

471

00:28:41,250 --> 00:28:38,110

he'd only made the matter and we ran out

472

00:28:43,950 --> 00:28:41,260

of food reality bites but we haven't do

473

00:28:47,850 --> 00:28:43,960

you really not know we thought you might

474

00:28:50,100 --> 00:28:47,860

have some enough with these norms ha yes

475

00:28:51,770 --> 00:28:50,110

talk captain we have found the

476
00:28:54,150 --> 00:28:51,780
undercover covers with the secret plans

477
00:28:55,620 --> 00:28:54,160
after decoding the plans we discovered

478
00:28:57,450 --> 00:28:55,630
the covers are covered with details on

479
00:28:59,760 --> 00:28:57,460
how to construct a new and even more

480
00:29:02,310 --> 00:28:59,770
powerful power band band with extra

481
00:29:03,070 --> 00:29:02,320
power strength and flexibility here's

482
00:29:05,350 --> 00:29:03,080
one I made early

483
00:29:13,120 --> 00:29:05,360
but please take it with a grain of salt

484
00:29:14,320 --> 00:29:13,130
ooh let me try it on yeah looks nice but

485
00:29:16,389 --> 00:29:14,330
I thought we'd see the end of these

486
00:29:18,700 --> 00:29:16,399
power bands guess they like the flying

487
00:29:21,009 --> 00:29:18,710
monkeys they just keep coming back we

488
00:29:24,159 --> 00:29:21,019

also found out this band sells for 160

489

00:29:25,870 --> 00:29:24,169

Randy's which converts to 343 growth is

490

00:29:28,779 --> 00:29:25,880

around nine hundred and forty-seven

491

00:29:32,950 --> 00:29:28,789

point force weepies ah oh how much is

492

00:29:38,639 --> 00:29:32,960

that in quibble it's let me see that's

493

00:29:43,509 --> 00:29:38,649

about twenty eight new quibbling sword

494

00:29:46,419 --> 00:29:43,519

12900 47.8 six in old couples well I

495

00:29:50,200 --> 00:29:46,429

think that converts to about 484 goblets

496

00:29:52,299 --> 00:29:50,210

give or take a Glick or two Wow well I

497

00:29:54,490 --> 00:29:52,309

know what I'm saving up for good work

498

00:29:56,470 --> 00:29:54,500

agents now let's get back to the shuttle

499

00:29:59,019 --> 00:29:56,480

but what about those flying monkeys

500

00:30:00,639 --> 00:29:59,029

didn't you see those fangs it's all

501
00:30:02,710 --> 00:30:00,649
right commander on our way through the

502
00:30:04,870 --> 00:30:02,720
cave I used my new mega handheld

503
00:30:07,000 --> 00:30:04,880
interstellar web browser and wrote a

504
00:30:09,909 --> 00:30:07,010
livid blog about them and tweeted it and

505
00:30:11,500 --> 00:30:09,919
yes they are madly replying that will

506
00:30:13,450 --> 00:30:11,510
keep them busy for hours and should give

507
00:30:15,700 --> 00:30:13,460
us time to make it back to the shuttle a

508
00:30:19,330 --> 00:30:15,710
new mega handheld into still a web

509
00:30:21,580 --> 00:30:19,340
browser how did you afford that my check

510
00:30:34,950 --> 00:30:21,590
from Big Pharma can't throw it last all

511
00:30:40,030 --> 00:30:37,720
right over their head for the shuttle

512
00:30:43,180 --> 00:30:40,040
mr. Maynard get it ready for flight

513
00:30:46,690 --> 00:30:43,190

right captain wait a minute look at the

514

00:30:50,350 --> 00:30:46,700

swamp grass oh you like it sucks be at

515

00:30:54,190 --> 00:30:50,360

least 51 shades of gray and it smells

516

00:30:57,070 --> 00:30:54,200

like Krabby legs like the ones I used to

517

00:31:00,010 --> 00:30:57,080

catch off the south point look at these

518

00:31:02,170 --> 00:31:00,020

readings AHA I knew it this swamp grass

519

00:31:05,070 --> 00:31:02,180

is edible I'll just collect some you

520

00:31:10,810 --> 00:31:05,080

never know when it might come in handy

521

00:31:15,430 --> 00:31:10,820

and well nom is a non my suppose hmm

522

00:31:17,710 --> 00:31:15,440

could be worse Oh could be better grace

523

00:31:20,650 --> 00:31:17,720

swamp grass that smells like Krabby legs

524

00:31:23,830 --> 00:31:20,660

I think I'll stick to my buffer juice

525

00:31:26,650 --> 00:31:23,840

beetle balance 12 waffles all Ebola

526

00:31:29,700 --> 00:31:26,660

coffee Vicky Lynn barracks my chocolate

527

00:31:32,890 --> 00:31:29,710

lettuce and after soup n clickin della

528

00:31:34,930 --> 00:31:32,900

google it folks she's speaking in

529

00:31:43,339 --> 00:31:34,940

tongues again the shadows ready captain

530

00:31:48,149 --> 00:31:45,959

the return trip took longer than

531

00:31:50,820 --> 00:31:48,159

expected owing to the extra weight of

532

00:31:54,299 --> 00:31:50,830

agents Ben amoo and say give and the

533

00:31:57,299 --> 00:31:54,309

bags of smelly grey swamp graphs to pass

534

00:32:03,299 --> 00:31:57,309

the time the krupal pegs on their noses

535

00:32:07,259 --> 00:32:03,309

and watch reruns of ancient aliens they

536

00:32:10,709 --> 00:32:07,269

laughed all the way back once onboard

537

00:32:17,039 --> 00:32:10,719

the solar flare Captain Saunders knew

538

00:32:20,029 --> 00:32:17,049

what he had to do right we need to get

539

00:32:22,889 --> 00:32:20,039

this power band back to Admiral Roy

540

00:32:25,109 --> 00:32:22,899

hello engineering chant hare captain

541

00:32:29,999 --> 00:32:25,119

chief chan we need to get back to earth

542

00:32:32,549 --> 00:32:30,009

I need up 36 now talk 36 that's

543

00:32:36,479 --> 00:32:32,559

impossible no starship can go that fast

544

00:32:38,070 --> 00:32:36,489

how about dub 35 not even 35 the only

545

00:32:40,829 --> 00:32:38,080

way to get to earth anytime soon is to

546

00:32:42,989 --> 00:32:40,839

dive forwards into a black hole but it's

547

00:32:45,979 --> 00:32:42,999

a big gamble we could end up anywhere or

548

00:32:48,839 --> 00:32:45,989

anyone or crushed into nothing chan out

549

00:32:51,839 --> 00:32:48,849

captain we could try flying backwards

550

00:32:56,530 --> 00:32:51,849

around a white bump commander white

551
00:33:03,490 --> 00:33:00,850
captain a a giant ship is disrobing 10

552
00:33:06,250 --> 00:33:03,500
kilometers off our port bow disrobing

553
00:33:09,580 --> 00:33:06,260
yeah well everyone says decloaking i

554
00:33:11,920 --> 00:33:09,590
like to be original let's see we need to

555
00:33:15,340 --> 00:33:11,930
make contact ring them up ring them up I

556
00:33:26,120 --> 00:33:15,350
like to be original okay connecting the

557
00:33:33,510 --> 00:33:30,750
well hello well if it isn't my old enemy

558
00:33:35,760 --> 00:33:33,520
captain j novella scourge of the seven

559
00:33:38,310 --> 00:33:35,770
dimensions looter of peroxy I've

560
00:33:41,310 --> 00:33:38,320
mastermind behind the massacre at the

561
00:33:45,150 --> 00:33:41,320
settlement of new Sydney and wanted on

562
00:33:48,900 --> 00:33:45,160
23 planets for voiceover work nice to

563
00:33:51,750 --> 00:33:48,910

see you too Captain Saunders now I think

564

00:33:54,210 --> 00:33:51,760

you have something I want captain I bet

565

00:33:57,360 --> 00:33:54,220

he wants the secret power band plans you

566

00:34:00,330 --> 00:33:57,370

have secret power band plans that was

567

00:34:03,510 --> 00:34:00,340

only after your supply of noms but I'll

568

00:34:06,180 --> 00:34:03,520

tell you what hand over the plans or

569

00:34:08,970 --> 00:34:06,190

I'll blast your ship into a thousand

570

00:34:11,220 --> 00:34:08,980

pieces never if these plans fall into

571

00:34:13,139 --> 00:34:11,230

the wrong hands the universe could be

572

00:34:16,859 --> 00:34:13,149

awash with fake power bands that don't

573

00:34:19,440 --> 00:34:16,869

even work ah the universe is already

574

00:34:24,030 --> 00:34:19,450

awash with fake power bands that don't

575

00:34:26,570 --> 00:34:24,040

even work you fool new year so one more

576

00:34:30,600 --> 00:34:26,580

won't hurt and I can make a fortune

577

00:34:38,040 --> 00:34:35,010

major alert fire old zappers zappers I

578

00:34:39,780 --> 00:34:38,050

mean really zappers well you try coming

579

00:34:42,690 --> 00:34:39,790

up with a new name for is sapping type

580

00:34:44,880 --> 00:34:42,700

shooting beam the sappers are offline

581

00:34:46,080 --> 00:34:44,890

we've forgot to plug in the charger last

582

00:34:47,760 --> 00:34:46,090

night you know you only get eight hours

583

00:34:49,050 --> 00:34:47,770

out on that most under you get that one

584

00:34:51,360 --> 00:34:49,060

bother it like we went to bed early

585

00:35:06,630 --> 00:34:51,370

great give me do whatever you can and

586

00:35:08,880 --> 00:35:06,640

let's get the hell out of here for three

587

00:35:10,860 --> 00:35:08,890

days the solar flare plowed through

588

00:35:12,840 --> 00:35:10,870

space always just out of reach of

589

00:35:16,530 --> 00:35:12,850

captain Jane of Allah and His mighty

590

00:35:18,990 --> 00:35:16,540

starship the DeAngelis after exhausting

591

00:35:21,900 --> 00:35:19,000

every trick in Phil plates bad flying

592

00:35:25,650 --> 00:35:21,910

manual they finally gave novela the slip

593

00:35:32,850 --> 00:35:25,660

by flying backwards around a white bump

594

00:35:36,000 --> 00:35:32,860

no ha you see nice flying mr. Saiga that

595

00:35:38,220 --> 00:35:36,010

white bump has taken us within a hundred

596

00:35:40,770 --> 00:35:38,230

thousand kilometers of earth well I

597

00:35:43,050 --> 00:35:40,780

credit the powerband you know I haven't

598

00:35:51,430 --> 00:35:43,060

taken it off for days Oh it'll be nice

599

00:35:56,750 --> 00:35:55,040

captain we've been exact by the zapper

600

00:35:59,510 --> 00:35:56,760

damage reports are coming in from all

601
00:36:01,700 --> 00:35:59,520
decks damage reports and only just

602
00:36:03,770 --> 00:36:01,710
happened you telling me that on each

603
00:36:05,450 --> 00:36:03,780
deck some poor crew members made an

604
00:36:07,220 --> 00:36:05,460
assessment of the damage and found time

605
00:36:09,650 --> 00:36:07,230
to write a report about it within a few

606
00:36:13,000 --> 00:36:09,660
seconds yeah isn't the future wonderful

607
00:36:16,400 --> 00:36:13,010
call coming in captain don't speaker

608
00:36:18,320 --> 00:36:16,410
attention solar flare lower all defenses

609
00:36:21,080 --> 00:36:18,330
hand over the Power Man or the entire

610
00:36:23,240 --> 00:36:21,090
fleet will open fire Admiral Roy what

611
00:36:24,500 --> 00:36:23,250
don't be too surprised Saunders do you

612
00:36:27,860 --> 00:36:24,510
know how much they pay me to be an

613
00:36:29,570 --> 00:36:27,870

admiral do ya huh not bloody much I had

614

00:36:31,370 --> 00:36:29,580

a much better offer from Captain Janeway

615

00:36:32,810 --> 00:36:31,380

Vella the whole planet is going into

616

00:36:35,990 --> 00:36:32,820

business selling power bands to the

617

00:36:38,180 --> 00:36:36,000

galaxy hand it over nimah this is your

618

00:36:43,160 --> 00:36:38,190

last chance you've got 10 minutes

619

00:36:44,930 --> 00:36:43,170

Admiral Roy out ten minutes that gives

620

00:36:49,850 --> 00:36:44,940

us just enough time to come up with an

621

00:36:52,040 --> 00:36:49,860

escape plan hello engineering not you

622

00:36:54,230 --> 00:36:52,050

again how are the engines you mean

623

00:36:55,760 --> 00:36:54,240

what's left of them almost drained we

624

00:36:59,210 --> 00:36:55,770

need a new source of power we're dead in

625

00:37:01,070 --> 00:36:59,220

the water ah I'm far too stressed now

626

00:37:04,790 --> 00:37:01,080

I'm going to have a nice cup of tea and

627

00:37:08,000 --> 00:37:04,800

lay down chan out you know we could try

628

00:37:09,920 --> 00:37:08,010

the power band the panel band you know

629

00:37:11,780 --> 00:37:09,930

they don't really have any power don't

630

00:37:13,730 --> 00:37:11,790

you it's worth a try captain I mean

631

00:37:16,220 --> 00:37:13,740

we've got nothing else have you all lost

632

00:37:17,960 --> 00:37:16,230

the plot call as a plot but what you

633

00:37:21,490 --> 00:37:17,970

don't know is that I have programmed

634

00:37:23,840 --> 00:37:21,500

this band myself with wait for it nano

635

00:37:26,660 --> 00:37:23,850

vibrational technology that uses a

636

00:37:29,750 --> 00:37:26,670

breakthrough in negative ions that taps

637

00:37:32,480 --> 00:37:29,760

into the Chi energy of the biofield of

638

00:37:35,390 --> 00:37:32,490

the universal prana spiritual energies

639

00:37:38,150 --> 00:37:35,400

that are unknown to science not enough

640

00:37:39,980 --> 00:37:38,160

commander not enough you are missing one

641

00:37:42,650 --> 00:37:39,990

more ingredient that will combine the

642

00:37:45,110 --> 00:37:42,660

potential of all those things the most

643

00:37:52,250 --> 00:37:45,120

powerful force in the universe and that

644

00:37:53,810 --> 00:37:52,260

is nom noms yes the power of noms what

645

00:37:55,540 --> 00:37:53,820

do you think drives us to explore

646

00:37:58,600 --> 00:37:55,550

strange new worlds by

647

00:38:01,660 --> 00:37:58,610

untold danger chart the unknown nomming

648

00:38:04,660 --> 00:38:01,670

power dr. Ichi we don't have any noms

649

00:38:08,440 --> 00:38:04,670

you numpty of course we do don't you

650

00:38:10,600 --> 00:38:08,450

remember the swamp grass ah right ok you

651
00:38:12,580 --> 00:38:10,610
and Commander Soyka get those norms get

652
00:38:19,490 --> 00:38:12,590
that power band and head to engineering

653
00:38:24,650 --> 00:38:22,110
okay there's engineering is only right

654
00:38:28,790 --> 00:38:24,660
next door they should be there by now

655
00:38:33,720 --> 00:38:28,800
power levels are rising twenty percent

656
00:38:39,060 --> 00:38:33,730
forty percent sixty percent eighty

657
00:38:41,880 --> 00:38:39,070
percent 103 percent one hundred and

658
00:38:59,970 --> 00:38:41,890
fifty percent we have twenty-nine

659
00:39:04,290 --> 00:38:59,980
percent 4007 sixty-three percent in the

660
00:39:07,860 --> 00:39:04,300
year 2165 the Australian space service

661
00:39:11,790 --> 00:39:07,870
starship solar flare disappeared from

662
00:39:13,530 --> 00:39:11,800
all long-range scanner scopes it was

663
00:39:18,980 --> 00:39:13,540

estimated the ship was travelling at

664

00:39:30,670 --> 00:39:18,990

dirt 35 or 36 when all contact was lost

665

00:39:37,060 --> 00:39:34,300

that was solar flare the band of power a
