

1  
00:00:08,150 --> 00:00:05,910  
check your food

2  
00:00:11,190 --> 00:00:08,160  
can a lonely leave a pasta plate without

3  
00:00:13,589 --> 00:00:11,200  
a saucy mark does spaghetti grow shoots

4  
00:00:16,310 --> 00:00:13,599  
if you leave it in the dark is it really

5  
00:00:17,590 --> 00:00:16,320  
red rhubarb that's the square root of a

6  
00:00:20,150 --> 00:00:17,600  
pie

7  
00:00:22,150 --> 00:00:20,160  
and if you cooked a goose in spruce

8  
00:00:23,910 --> 00:00:22,160  
would it ever fly

9  
00:00:25,830 --> 00:00:23,920  
if you've got a lot of legumes would

10  
00:00:28,550 --> 00:00:25,840  
they ever need a pea

11  
00:00:31,990 --> 00:00:28,560  
when a calamari rings does it call you

12  
00:00:34,709 --> 00:00:32,000  
from the sea does the crust really crumb

13  
00:00:37,030 --> 00:00:34,719

whenever the bread rolls and will coke

14

00:00:38,630 --> 00:00:37,040

get very brittle when cooked in the

15

00:00:40,709 --> 00:00:38,640

coals

16

00:00:43,590 --> 00:00:40,719

these are all the questions in a foodie

17

00:00:46,709 --> 00:00:43,600

person's mind as they're grating all

18

00:00:48,790 --> 00:00:46,719

their lemons and cutting up the rind

19

00:00:50,310 --> 00:00:48,800

when your bacon in the oven is as crisp

20

00:00:52,310 --> 00:00:50,320

as crisp can be

21

00:00:54,470 --> 00:00:52,320

will the fatter thinned away and left it

22

00:00:57,270 --> 00:00:54,480

feeling fat-free

23

00:00:59,750 --> 00:00:57,280

does a bagel player rise at dawn to

24

00:01:02,709 --> 00:00:59,760

sound the first note will you leave

25

00:01:03,590 --> 00:01:02,719

stains on tables if you rock the gravy

26

00:01:05,750 --> 00:01:03,600

boat

27

00:01:08,550 --> 00:01:05,760

is there room to store your veggies

28

00:01:11,429 --> 00:01:08,560

inside the salt cellar

29

00:01:13,270 --> 00:01:11,439

and will a mozzie coil work to keep away

30

00:01:15,910 --> 00:01:13,280

mozzarella

31

00:01:17,670 --> 00:01:15,920

can a spud bush wince if you tread on

32

00:01:19,830 --> 00:01:17,680

its potatoes

33

00:01:22,469 --> 00:01:19,840

will a bean get green with envy on

34

00:01:25,990 --> 00:01:22,479

everybody's say-sos could you ever find

35

00:01:28,230 --> 00:01:26,000

a recipe which uses exactly

36

00:01:31,030 --> 00:01:28,240

or should you cook of course

37

00:01:33,590 --> 00:01:31,040

very matter of fatly

38

00:01:36,390 --> 00:01:33,600

watch out for the calories tucked inside

39

00:01:39,190 --> 00:01:36,400

the killer jewels and an asparagus of

40

00:01:41,670 --> 00:01:39,200

wind which will blow away the rules when

41

00:01:43,429 --> 00:01:41,680

you're making a meal in the kitchen to

42

00:01:45,990 --> 00:01:43,439

be a winner
