

3. Owner Returns

1
00:00:04,700 --> 00:00:02,360
we're doing an experiment to see if the

2
00:00:08,120 --> 00:00:04,710
connection we have with our dog can form

3
00:00:10,459 --> 00:00:08,130
a telepathic link lets the dog know when

4
00:00:12,169 --> 00:00:10,469
the owners coming home check it out

5
00:00:14,330 --> 00:00:12,179
this experiment has a simple setup

6
00:00:16,310 --> 00:00:14,340
there's a webcam with the time coding

7
00:00:18,439 --> 00:00:16,320
feature and it's position to record the

8
00:00:19,970 --> 00:00:18,449
dogs waiting behavior over the years

9
00:00:22,130 --> 00:00:19,980
Tommy's family has found that his

10
00:00:24,859 --> 00:00:22,140
favorite spot to wait is in the hallway

11
00:00:27,410 --> 00:00:24,869
that leads to the garage we're ready for

12
00:00:29,240 --> 00:00:27,420
our owner to leave on her errand no one

13
00:00:31,939 --> 00:00:29,250

knows the exact time when she's going to

14

00:00:34,430 --> 00:00:31,949

leave or return while the owners away

15

00:00:36,530 --> 00:00:34,440

the dogs do what you'd expect they move

16

00:00:39,770 --> 00:00:36,540

about the house play around a little and

17

00:00:42,560 --> 00:00:39,780

sleep I'm going to speed things up a bit

18

00:00:44,389 --> 00:00:42,570

but keep your eye on Tommy notice that

19

00:00:47,119 --> 00:00:44,399

he never lays in the hallway he never

20

00:00:49,160 --> 00:00:47,129

waits we're now ready for our owners

21

00:00:50,779 --> 00:00:49,170

return she's about ten miles away and

22

00:00:53,600 --> 00:00:50,789

has been randomly running errands for

23

00:00:55,729 --> 00:00:53,610

the last hour and 18 minutes watch what

24

00:00:59,240 --> 00:00:55,739

Tommy does around the time his owner

25

00:01:01,910 --> 00:00:59,250

sets off for home there he goes he gets

26
00:01:04,280 --> 00:01:01,920
up and moves to his waiting position now

27
00:01:06,740 --> 00:01:04,290
keep your eye on him he doesn't budge

28
00:01:09,649 --> 00:01:06,750
for the next ten minutes until his

29
00:01:11,840 --> 00:01:09,659
owners car is close enough to here then

30
00:01:15,899 --> 00:01:11,850
he gets up and all the dogs show their

31
00:01:18,660 --> 00:01:15,909
excitement because mom is home

32
00:01:20,969 --> 00:01:18,670
the results from this trial were amazing

33
00:01:23,520 --> 00:01:20,979
Tommy's telepathic link with his owner

34
00:01:24,929 --> 00:01:23,530
caused him to spend 87 percent of his

35
00:01:27,810 --> 00:01:24,939
time waiting when she was on the way

36
00:01:30,300 --> 00:01:27,820
home and no time waiting when she wasn't

37
00:01:32,429 --> 00:01:30,310
this is an ongoing experiment that's

38
00:01:35,669 --> 00:01:32,439

being repeated many times with different
