1
00:00:09,799 --> 00:00:08,360
hi everyone this is alex karras from

2
00:00:11,360 --> 00:00:09,809
skeptical comm and i want to let you

3
00:00:13,850 --> 00:00:11,370
know that i just published this

4
00:00:16,039 --> 00:00:13,860
interview with remote viewer paul smith

5
00:00:17,840 --> 00:00:16,049
and there's a couple points in there

6
00:00:20,450 --> 00:00:17,850
that i think are gonna be of interest to

7
00:00:23,480 --> 00:00:20,460
people who follow parapsychology and in

8
00:00:25,009 --> 00:00:23,490
particular remote viewing ayat now if

9
00:00:27,439 --> 00:00:25,019
you don't know and i'm sure you probably

10
00:00:30,529 --> 00:00:27,449
do but paul smith is the real deal

11
00:00:33,020 --> 00:00:30,539
former army intelligence officer one of

12
00:00:35,180 --> 00:00:33,030
the original people the Stargate super

13
00:00:37,160 --> 00:00:35,190

secret program that the military was

14

00:00:38,930 --> 00:00:37,170

running he's published this book he's

15

00:00:41,180 --> 00:00:38,940

published another new one that we

16

00:00:43,369 --> 00:00:41,190

interviewed about on the show practical

17

00:00:45,950 --> 00:00:43,379

guard practical guide to remote viewing

18

00:00:48,440 --> 00:00:45,960

but what I thought would catch the

19

00:00:52,459 --> 00:00:48,450

interest of a lot of folks out there is

20

00:00:54,920 --> 00:00:52,469

I asked him about this that is the

21

00:01:00,349 --> 00:00:54,930

recent remote viewing session that

22

00:01:02,270 --> 00:01:00,359

Courtney Brown did on 9/11 so it's quite

23

00:01:08,390 --> 00:01:02,280

interesting what he had to say give a

24

00:01:10,789 --> 00:01:08,400

listen here it is eference in the book

25

00:01:13,460 --> 00:01:10,799

Courtney brown who's another remote

26

00:01:16,070 --> 00:01:13,470

viewer came on later in the in the

27

00:01:17,510 --> 00:01:16,080

project Courtney brown under his

28

00:01:21,440 --> 00:01:17,520

organization called the Farsight

29

00:01:24,890 --> 00:01:21,450

Institute recently released an extensive

30

00:01:27,830 --> 00:01:24,900

remote viewing of the 9/11 events and

31

00:01:29,270 --> 00:01:27,840

came to the conclusion that the kind of

32

00:01:33,050 --> 00:01:29,280

keep it short that it was an inside job

33

00:01:36,560 --> 00:01:33,060

that it was not as it's told to us and

34

00:01:39,109 --> 00:01:36,570

that there were other people involved at

35

00:01:43,370 --> 00:01:39,119

either an intelligence level outside the

36

00:01:45,649 --> 00:01:43,380

United States or at some other agency

37

00:01:47,960 --> 00:01:45,659

but that it wasn't as it has been

38

00:01:50,030 --> 00:01:47,970

portrayed to people I guess there's a

39

00:01:53,539 --> 00:01:50,040

bunch of questions about that one have

40

00:01:56,990 --> 00:01:53,549

you remote viewed 9/11 and can you

41

00:01:58,730 --> 00:01:57,000

confirm or deny anything that Courtney

42

00:01:59,230 --> 00:01:58,740

Brown found out I guess I'll just start

43

00:02:03,980 --> 00:01:59,240

with that

44

00:02:05,359 --> 00:02:03,990

okay so 9/11 is something I keep trying

45

00:02:08,210 --> 00:02:05,369

to avoid and still getting fight

46

00:02:09,800 --> 00:02:08,220

specimens first thing I want me clear

47

00:02:11,900 --> 00:02:09,810

Kody Brown actually was never in the

48

00:02:13,500 --> 00:02:11,910

military program he came along later in

49

00:02:18,479 --> 00:02:13,510

the remote unit history

50

00:02:21,330 --> 00:02:18,489

in terms of his project on 9/11 I really

51
00:02:24,119 --> 00:02:21,340
don't trust the data there or at least

52
00:02:26,759 --> 00:02:24,129
the conclusions right first off I don't

53
00:02:28,920 --> 00:02:26,769
see any real reason for thinking that

54
00:02:30,660 --> 00:02:28,930
9/11 happened in the other way than the

55
00:02:33,809 --> 00:02:30,670
official report is people think I'm

56
00:02:35,640 --> 00:02:33,819
naive in that but if you if you look at

57
00:02:36,210 --> 00:02:35,650
the conspiracy theory ideas are they're

58
00:02:37,680 --> 00:02:36,220
crazy

59
00:02:41,270 --> 00:02:37,690
I mean the idea that the building was

60
00:02:43,710 --> 00:02:41,280
imploded it's just ridiculous in a way

61
00:02:46,050 --> 00:02:43,720
what you've done is what I run into all

62
00:02:47,610 --> 00:02:46,060
the time is and what you suggested at

63
00:02:49,770 --> 00:02:47,620

the beginning of the show is the problem

64

00:02:51,660 --> 00:02:49,780

that the the reductionist run into it's

65

00:02:53,400 --> 00:02:51,670

like okay how did it happen how did it

66

00:02:55,920 --> 00:02:53,410

happen how did it happen no I don't have

67

00:03:01,229 --> 00:02:55,930

to say how it happened all's I have to

68

00:03:02,880 --> 00:03:01,239

do is falsify the existing theory well

69

00:03:04,860 --> 00:03:02,890

they can just stick to the evidence and

70

00:03:06,900 --> 00:03:04,870

look at building seven and building

71

00:03:09,809 --> 00:03:06,910

seven who has that has nothing more than

72

00:03:12,119 --> 00:03:09,819

couch fires is a forty seven story steel

73

00:03:14,460 --> 00:03:12,129

frame building that collapses into its

74

00:03:16,650 --> 00:03:14,470

own frame there is no explanation for

75

00:03:18,990 --> 00:03:16,660

that but more importantly we can just

76

00:03:22,289 --> 00:03:19,000

look at the investigation because like

77

00:03:26,819 --> 00:03:22,299

so many things it's not the crime it's

78

00:03:28,890 --> 00:03:26,829

the cover-up that reveals all you can

79

00:03:31,500 --> 00:03:28,900

mess up a remote viewing project by

80

00:03:35,250 --> 00:03:31,510

having a theory to begin with it you

81

00:03:37,229 --> 00:03:35,260

know a and agenda so to speak right you

82

00:03:40,710 --> 00:03:37,239

start off with a certain theory about

83

00:03:43,199 --> 00:03:40,720

what happened now Courtney brown says he

84

00:03:45,089 --> 00:03:43,209

didn't have it didn't have a

85

00:03:47,490 --> 00:03:45,099

preconceived notion about I'm not sure

86

00:03:50,129 --> 00:03:47,500

that's true but whatever the problem is

87

00:03:53,129 --> 00:03:50,139

it comes out in the analysis

88

00:03:55,199 --> 00:03:53,139

you know I normally don't like to talk

89

00:03:57,710 --> 00:03:55,209

about other reviewers in public in a

90

00:04:00,089 --> 00:03:57,720

negative terms but I was at the

91

00:04:02,220 --> 00:04:00,099

conference of Society for scientific

92

00:04:04,319 --> 00:04:02,230

exploration where Courtney Brown got up

93

00:04:06,210 --> 00:04:04,329

on the stand and said he did research

94

00:04:09,240 --> 00:04:06,220

that showed that by November of I think

95

00:04:12,420 --> 00:04:09,250

was 2009 2011 something like that that

96

00:04:14,099 --> 00:04:12,430

the San Francisco earthquake air airport

97

00:04:16,199 --> 00:04:14,109

would be destroyed by an earthquake

98

00:04:18,330 --> 00:04:16,209

right he got up on the stand claim his

99

00:04:20,069 --> 00:04:18,340

remote view and showed that as we all

100

00:04:24,010 --> 00:04:20,079

know San Francisco Airport is still

101
00:04:27,999 --> 00:04:25,330
actually have some pretty decent remote

102
00:04:31,089 --> 00:04:28,009
viewers working but I don't think that

103
00:04:32,649 --> 00:04:31,099
their results necessarily consistently

104
00:04:35,230 --> 00:04:32,659
show what Courtney Brown thinks they do

105
00:04:38,080 --> 00:04:35,240
have you seen their results they're

106
00:04:40,809 --> 00:04:38,090
unedited video tape of their results and

107
00:04:43,719 --> 00:04:40,819
I I don't know that anyone could really

108
00:04:45,550 --> 00:04:43,729
look at their remote viewing and come to

109
00:04:46,149 --> 00:04:45,560
a different conclusion it's pretty cut

110
00:04:47,980 --> 00:04:46,159
and dried

111
00:04:50,350 --> 00:04:47,990
I will admit I haven't watched the

112
00:04:51,939 --> 00:04:50,360
videos on these so I've seen other work

113
00:04:54,339 --> 00:04:51,949

that his folks have done and they do

114

00:04:55,869 --> 00:04:54,349

pretty decent remote viewing but then he

115

00:04:58,719 --> 00:04:55,879

comes to a different conclusion that I

116

00:05:00,520 --> 00:04:58,729

would so we also talked about a number

117

00:05:02,499 --> 00:05:00,530

of other things regarding rote viewing

118

00:05:04,529 --> 00:05:02,509

whether there was possibly an overlay

119

00:05:07,749 --> 00:05:04,539

whether that was a problem whether

120

00:05:10,899 --> 00:05:07,759

Courtney's claimed that he had to block

121

00:05:13,149 --> 00:05:10,909

an intercept of the remote viewing was

122

00:05:15,010 --> 00:05:13,159

possible and you can only imagine what

123

00:05:16,839 --> 00:05:15,020

dr. Smith had to say about that bunch of

124

00:05:18,580 --> 00:05:16,849

other stuff including his remote viewing

125

00:05:20,950 --> 00:05:18,590

of a UFO although he's still very

126

00:05:22,149 --> 00:05:20,960

suspicious and skeptical of that a lot

127

00:05:24,279 --> 00:05:22,159

of good stuff you might want to check

128

00:05:25,719 --> 00:05:24,289

out for the full interview go to

129

00:05:27,939 --> 00:05:25,729

skeptical comm it's free to download

130

00:05:29,800 --> 00:05:27,949

listen to it iTunes stitcher whatever

131

00:05:32,890 --> 00:05:29,810

you want all that stuff is obviously

132

00:05:34,930 --> 00:05:32,900

available you'll get it right there and

133

00:05:36,249 --> 00:05:34,940

then I have a number of other interviews

134

00:05:39,070 --> 00:05:36,259

on remote viewing if you haven't seen

135

00:05:43,620 --> 00:05:39,080

before Paul Smith Oh Stephen Schwartz a

136

00:05:46,120 --> 00:05:43,630

while back Jon Ronson and where is

137

00:05:48,969 --> 00:05:46,130

geomechanical is always really great

138

00:05:50,980 --> 00:05:48,979

stuff so all that's there as well but in

139

00:05:53,499 --> 00:05:50,990

particular I thought you would want to

140

00:05:55,269 --> 00:05:53,509

know about this 911 remote viewing

141

00:05:57,640 --> 00:05:55,279

because it caught my attention it was

142

00:06:00,490 --> 00:05:57,650

interesting to hear what Paul had to say

143

00:06:05,399 --> 00:06:00,500

about it so there you go hope you enjoy
