

A man with short brown hair, wearing a light blue button-down shirt, is speaking. He is looking slightly upwards and to the right. The background is a plain, light-colored wall with several framed pictures or posters. The text is overlaid on the image in a large, bold, black font with a white outline.

Stanton Friedman on Jacques Vallee and alien consciousness technology

Skeptiko #367

1
00:00:11,670 --> 00:00:09,090
so here's my interview with staiin

2
00:00:13,379 --> 00:00:11,680
Friedman I don't have any video for this

3
00:00:14,490 --> 00:00:13,389
one I'm gonna have some more video

4
00:00:16,620 --> 00:00:14,500
coming up soon

5
00:00:18,240 --> 00:00:16,630
you know what I really want accomplished

6
00:00:22,139 --> 00:00:18,250
in this interview is kind of clear up

7
00:00:23,580 --> 00:00:22,149
this idea of the consciousness UFO angle

8
00:00:25,859 --> 00:00:23,590
and I've been pounding on this a little

9
00:00:28,050 --> 00:00:25,869
bit cuz I talked to Jack away a few

10
00:00:29,639 --> 00:00:28,060
episodes back you remember and you know

11
00:00:32,490 --> 00:00:29,649
he's the guy who's always associated

12
00:00:34,710 --> 00:00:32,500
with expanding UFOs beyond this

13
00:00:36,959 --> 00:00:34,720

nuts-and-bolts technology thing and

14

00:00:39,780 --> 00:00:36,969

looking at you know quite appropriately

15

00:00:41,250 --> 00:00:39,790

looking at consciousness angle and you

16

00:00:43,680 --> 00:00:41,260

know does this relate to fairies and

17

00:00:45,300 --> 00:00:43,690

folklore and even near-death experience

18

00:00:47,100 --> 00:00:45,310

psychedelic experience oh that's of

19

00:00:49,920 --> 00:00:47,110

great UFO consciousness great great

20

00:00:51,750 --> 00:00:49,930

great great but what I want to do is

21

00:00:53,340 --> 00:00:51,760

connect Stan Friedman to this because I

22

00:00:55,290 --> 00:00:53,350

think Stan Friedan's right in the middle

23

00:00:57,150 --> 00:00:55,300

of all that and has just kind of a

24

00:00:58,860 --> 00:00:57,160

slightly different angle but there's a

25

00:01:00,690 --> 00:00:58,870

lot of similarities between what he's

26

00:01:03,139 --> 00:01:00,700

saying and yet they're kind of pitted

27

00:01:07,219 --> 00:01:03,149

against each other and I don't think

28

00:01:10,290 --> 00:01:07,229

Jacques Vallee is as consciousness

29

00:01:13,020 --> 00:01:10,300

centered as people think and I don't

30

00:01:16,920 --> 00:01:13,030

think Stan Friedman is quoted quite as

31

00:01:18,840 --> 00:01:16,930

nuts and bolts centered so that's one of

32

00:01:23,370 --> 00:01:18,850

the themes that I explored in this

33

00:01:25,140 --> 00:01:23,380

interview with Stan Friedman so

34

00:01:27,600 --> 00:01:25,150

augmented reality is going to help us

35

00:01:29,760 --> 00:01:27,610

mix the digital the physical and all new

36

00:01:31,770 --> 00:01:29,770

ways and that's gonna make our physical

37

00:01:34,800 --> 00:01:31,780

reality better so that's why this is

38

00:01:36,980 --> 00:01:34,810

such an important trend that's Facebook

39

00:01:39,890 --> 00:01:36,990

CEO Mark Zuckerberg spreading the

40

00:01:42,060 --> 00:01:39,900

Facebook's brave new world gospel

41

00:01:45,240 --> 00:01:42,070

regarding the merging of consciousness

42

00:01:47,310 --> 00:01:45,250

and computing actually if you listen to

43

00:01:50,039 --> 00:01:47,320

a bunch of the things that he said out

44

00:01:52,410 --> 00:01:50,049

there on various interviews and whatnot

45

00:01:54,030 --> 00:01:52,420

he's actually taking his foot off the

46

00:01:56,880 --> 00:01:54,040

pedal a little bit with this group of

47

00:01:58,920 --> 00:01:56,890

developers in other videos he

48

00:02:02,999 --> 00:01:58,930

straight-up talks about mind-reading

49

00:02:06,480 --> 00:02:03,009

telepathy and even mind control is all

50

00:02:10,710 --> 00:02:06,490

being part of Facebook's glorious future

51
00:02:12,839 --> 00:02:10,720
and you know what he might be right now

52
00:02:14,489 --> 00:02:12,849
of course you know skeptical always been

53
00:02:16,830 --> 00:02:14,499
about controversial science and

54
00:02:19,980 --> 00:02:16,840
spirituality related to consciousness

55
00:02:23,160 --> 00:02:19,990
and that doesn't always mix

56
00:02:25,590 --> 00:02:23,170
perfectly with technology but if we're

57
00:02:28,950 --> 00:02:25,600
gonna be honest we have to accept that

58
00:02:31,670 --> 00:02:28,960
technology has a fantastic role to play

59
00:02:33,690 --> 00:02:31,680
in cutting through some of the

60
00:02:37,080 --> 00:02:33,700
philosophical

61
00:02:40,020 --> 00:02:37,090
that sometimes dominates the spiritual

62
00:02:43,500 --> 00:02:40,030
and even the consciousness discussions I

63
00:02:47,940 --> 00:02:43,510

mean when there's a mind-reading app you

64

00:02:50,310 --> 00:02:47,950

can download for your iPhone 20 some of

65

00:02:53,040 --> 00:02:50,320

the spiritual questions surrounding

66

00:02:56,310 --> 00:02:53,050

consciousness will no longer seem

67

00:03:00,360 --> 00:02:56,320

relevant and if I can make a bit of a

68

00:03:01,980 --> 00:03:00,370

leap here the same goes for UFOs the

69

00:03:04,710 --> 00:03:01,990

main question that seems to have

70

00:03:06,570 --> 00:03:04,720

dominated the UFO field for the last 10

71

00:03:09,200 --> 00:03:06,580

years is whether we should remain

72

00:03:12,630 --> 00:03:09,210

focused on nuts-and-bolts technology

73

00:03:16,490 --> 00:03:12,640

sightings landings that kind of stuff or

74

00:03:20,130 --> 00:03:16,500

whether we should shift the focus to

75

00:03:23,430 --> 00:03:20,140

experiences and experience earth and as

76

00:03:25,820 --> 00:03:23,440

you know in that realm science is thrown

77

00:03:29,570 --> 00:03:25,830

out the window it's all about the

78

00:03:32,910 --> 00:03:29,580

idiosyncratic phenomenology of what you

79

00:03:36,510 --> 00:03:32,920

experienced and of course dr. jacques

80

00:03:40,620 --> 00:03:36,520

valet has been a leading thinker of this

81

00:03:44,580 --> 00:03:40,630

area and his ideas about linking

82

00:03:47,220 --> 00:03:44,590

extended consciousness realms to the UFO

83

00:03:49,800 --> 00:03:47,230

phenomenon are kind of well documented

84

00:03:52,500 --> 00:03:49,810

and well deserved and I of course

85

00:03:55,440 --> 00:03:52,510

covered this topic recently in my

86

00:03:58,020 --> 00:03:55,450

interview with valet and also an

87

00:04:01,350 --> 00:03:58,030

interview I had previously with Robbie

88

00:04:05,510 --> 00:04:01,360

Graham but since I hadn't heard from

89

00:04:08,880 --> 00:04:05,520

anyone in the nuts-and-bolts camp I

90

00:04:11,220 --> 00:04:08,890

decided to turn to my old buddy Stanton

91

00:04:14,580 --> 00:04:11,230

Friedman because here's a guy who's been

92

00:04:19,800 --> 00:04:14,590

around for so long and I think he's been

93

00:04:22,710 --> 00:04:19,810

unfairly characterized and unfairly cast

94

00:04:27,630 --> 00:04:22,720

aside if you will in this discussion

95

00:04:30,300 --> 00:04:27,640

about UFOs and consciousness so Stan and

96

00:04:32,129 --> 00:04:30,310

I talked about a number of things one of

97

00:04:35,619 --> 00:04:32,139

those is the

98

00:04:37,419 --> 00:04:35,629

technology angle as it relates to

99

00:04:40,209 --> 00:04:37,429

consciousness which is really a great

100

00:04:42,600 --> 00:04:40,219

point that I haven't really talked about

101
00:04:46,419 --> 00:04:42,610
before and I'm really glad that Stan

102
00:04:49,809 --> 00:04:46,429
brought it up here's a clip that I think

103
00:04:51,969 --> 00:04:49,819
gets at that when I go through all those

104
00:04:55,689 --> 00:04:51,979
I continue to get the characterization

105
00:04:58,179 --> 00:04:55,699
of Stan Friedman as he's a guy who's

106
00:05:01,959 --> 00:04:58,189
just interested in nuts and bolts and

107
00:05:05,339 --> 00:05:01,969
the UFO field has moved on and it's

108
00:05:06,549 --> 00:05:05,349
interested in experiences and

109
00:05:10,179 --> 00:05:06,559
experiencers

110
00:05:12,669 --> 00:05:10,189
one how do you feel about both how

111
00:05:14,949 --> 00:05:12,679
you're being characterized there and how

112
00:05:19,119 --> 00:05:14,959
the field is being characterized and

113
00:05:21,669 --> 00:05:19,129

whether the field has and should move

114

00:05:23,889 --> 00:05:21,679

from worrying about nuts and bolts

115

00:05:26,709 --> 00:05:23,899

sightings and that kind of stuff to

116

00:05:30,219 --> 00:05:26,719

being interested in experiences and

117

00:05:32,079 --> 00:05:30,229

experiences look I'm co-author of the

118

00:05:35,499 --> 00:05:32,089

book captured the Betty and Barney Hill

119

00:05:37,479 --> 00:05:35,509

UFO experience and I'm certainly

120

00:05:39,779 --> 00:05:37,489

convinced not only that the event took

121

00:05:41,859 --> 00:05:39,789

place as described in the book but that

122

00:05:44,949 --> 00:05:41,869

there's a lot going on there and that

123

00:05:46,809 --> 00:05:44,959

isn't really conventional I'm convinced

124

00:05:51,100 --> 00:05:46,819

that there is another aspect of the

125

00:05:54,549 --> 00:05:51,110

phenomena that's very important call it

126

00:05:56,979 --> 00:05:54,559

not just telepathy but being able to

127

00:05:59,499 --> 00:05:56,989

control other people being able to exert

128

00:06:01,419 --> 00:05:59,509

control over parts of the physics world

129

00:06:04,539 --> 00:06:01,429

physical world that we don't really know

130

00:06:07,569 --> 00:06:04,549

how to deal with like I say when I hear

131

00:06:09,519 --> 00:06:07,579

about people who I've listened to tapes

132

00:06:12,899 --> 00:06:09,529

of people reliving the experience of

133

00:06:18,850 --> 00:06:12,909

watching aliens go through the walls and

134

00:06:22,289 --> 00:06:18,860

it's scary stick around all that in much

135

00:06:24,470 --> 00:06:22,299

more from Stan Friedman today on

136

00:06:32,720 --> 00:06:24,480

skeptical

137

00:06:39,450 --> 00:06:36,330

today we welcome famous UFO researcher

138

00:06:43,320 --> 00:06:39,460

author and nuclear physicist Stanton

139

00:06:46,140 --> 00:06:43,330

Friedman back to skeptic Oh Stan is one

140

00:06:48,690 --> 00:06:46,150

of the absolute Giants in the field of

141

00:06:52,379 --> 00:06:48,700

UFO research I'm sure many of you know

142

00:06:54,150 --> 00:06:52,389

that already but just in case you didn't

143

00:06:56,340 --> 00:06:54,160

I mean we're talking hundreds and

144

00:06:59,310 --> 00:06:56,350

hundreds of TV appearances radio

145

00:07:01,440 --> 00:06:59,320

appearances thousands of lectures around

146

00:07:03,600 --> 00:07:01,450

the world and of course several books

147

00:07:06,690 --> 00:07:03,610

and many important articles

148

00:07:09,570 --> 00:07:06,700

he's has just such a vast broad

149

00:07:12,659 --> 00:07:09,580

knowledge of a lot of different aspects

150

00:07:14,280 --> 00:07:12,669

of UFO research even some of the ones

151

00:07:16,860 --> 00:07:14,290

that we're most interested here on

152

00:07:19,470 --> 00:07:16,870

skeptic Oh in terms of the overlay with

153

00:07:21,750 --> 00:07:19,480

consciousness science and some frontier

154

00:07:24,450 --> 00:07:21,760

science so I'm really looking forward to

155

00:07:27,360 --> 00:07:24,460

this conversation Stan welcome back

156

00:07:29,250 --> 00:07:27,370

great to have you here great to be on

157

00:07:33,300 --> 00:07:29,260

again I love doing radio I don't need to

158

00:07:35,190 --> 00:07:33,310

wear a tie you know before we even get

159

00:07:37,020 --> 00:07:35,200

started I wanted to mention because we

160

00:07:39,180 --> 00:07:37,030

had an email exchange and I'll talk more

161

00:07:41,870 --> 00:07:39,190

about that later but in the email

162

00:07:45,420 --> 00:07:41,880

exchange you reminded me of the nuclear

163

00:07:47,310 --> 00:07:45,430

physicist part which is an important

164

00:07:51,150 --> 00:07:47,320

part of your background you lived that

165

00:07:54,210 --> 00:07:51,160

world for quite a while and more deniers

166

00:07:56,670 --> 00:07:54,220

and you reminded me by looking at your

167

00:08:00,050 --> 00:07:56,680

bio that you know you were right there

168

00:08:03,510 --> 00:08:00,060

with the military-industrial complex

169

00:08:06,090 --> 00:08:03,520

giants McDonnell Douglas TR W

170

00:08:09,450 --> 00:08:06,100

Westinghouse you know we could say you

171

00:08:11,700 --> 00:08:09,460

were like Greg yeah yeah you were deep

172

00:08:14,610 --> 00:08:11,710

state before we call the deep state or

173

00:08:16,650 --> 00:08:14,620

at least you are part of that whole that

174

00:08:20,580 --> 00:08:16,660

whole machine whatwhat did you have a

175

00:08:22,920 --> 00:08:20,590

sense of that back then you know well I

176

00:08:24,120 --> 00:08:22,930

was excited my first job out of school

177

00:08:26,820 --> 00:08:24,130

I'm working for General Electric

178

00:08:31,350 --> 00:08:26,830

aircraft nuclear propulsion Department

179

00:08:34,920 --> 00:08:31,360

and hearten great guys to work with the

180

00:08:36,750 --> 00:08:34,930

work was classified but I was involved

181

00:08:38,579 --> 00:08:36,760

in a number of experiments I got a

182

00:08:41,100 --> 00:08:38,589

chance to meet a lot of good people and

183

00:08:43,800 --> 00:08:41,110

publish papers do stuff like that I

184

00:08:46,650 --> 00:08:43,810

thought I'd spend my life with them

185

00:08:48,360 --> 00:08:46,660

it didn't turn out that way because as

186

00:08:54,240 --> 00:08:48,370

with many other programs mine got

187

00:08:57,030 --> 00:08:54,250

canceled you know it's kind of crazy how

188

00:09:03,630 --> 00:08:57,040

things go up and down in the in the

189

00:09:07,640 --> 00:09:03,640

military of the Rd world Gea MP aircraft

190

00:09:10,710 --> 00:09:07,650

missile propulsion in 1958 we employed

191

00:09:13,610 --> 00:09:10,720

3400 people of whom 1,100 were engineers

192

00:09:16,440 --> 00:09:13,620

and scientists and we spent that year

193

00:09:19,320 --> 00:09:16,450

100 million dollars when that was a lot

194

00:09:21,030 --> 00:09:19,330

of money so we're not talking about a

195

00:09:23,400 --> 00:09:21,040

few professors and a couple of grad

196

00:09:25,140 --> 00:09:23,410

students sitting around a big table I

197

00:09:27,630 --> 00:09:25,150

did experiments and several different

198

00:09:29,910 --> 00:09:27,640

places it was exciting prick kid fresh

199

00:09:33,810 --> 00:09:29,920

out of school you know University of

200

00:09:37,079 --> 00:09:33,820

Chicago Carl Sagan of our classmates for

201
00:09:39,240 --> 00:09:37,089
three years he went he chose the right

202
00:09:44,250 --> 00:09:39,250
time to go for a PhD in astronomy

203
00:09:47,550 --> 00:09:44,260
because Sputnik went up and 57 and had

204
00:09:49,350 --> 00:09:47,560
certainly excited the world and the

205
00:09:51,600 --> 00:09:49,360
politicians because they're Russians

206
00:09:56,370 --> 00:09:51,610
were beaten ACK the United States at

207
00:09:57,930 --> 00:09:56,380
that time in space you know so some of

208
00:10:00,210 --> 00:09:57,940
those programs were reused

209
00:10:03,420 --> 00:10:00,220
somewhere exciting almost all were

210
00:10:05,460 --> 00:10:03,430
cancelled right you know I had a little

211
00:10:07,260 --> 00:10:05,470
bit of an experience with that when I

212
00:10:08,940 --> 00:10:07,270
got out of school I was actually while I

213
00:10:11,820 --> 00:10:08,950

was still in school I was studying for a

214

00:10:15,210 --> 00:10:11,830

PhD in artificial intelligence and that

215

00:10:18,600 --> 00:10:15,220

was of interest to Texas Instruments at

216

00:10:22,380 --> 00:10:18,610

the time I always remember being there

217

00:10:26,100 --> 00:10:22,390

and having two thirds virtually of this

218

00:10:28,110 --> 00:10:26,110

huge complex being walled off behind a

219

00:10:30,810 --> 00:10:28,120

glass wall that you know only people

220

00:10:33,210 --> 00:10:30,820

with these special badges but getting

221

00:10:34,980 --> 00:10:33,220

little glimpses and chats with them you

222

00:10:37,579 --> 00:10:34,990

know oh it's remember this one gold

223

00:10:39,510 --> 00:10:37,589

badger you know that was as your badge

224

00:10:41,750 --> 00:10:39,520

progressed you've got these different

225

00:10:43,920 --> 00:10:41,760

colors and the gold was the highest

226

00:10:46,199 --> 00:10:43,930

remember talking to this guy at lunch

227

00:10:48,630 --> 00:10:46,209

and asking him you know what he did I

228

00:10:52,530 --> 00:10:48,640

was completely naive completely naive

229

00:10:54,510 --> 00:10:52,540

kid you know in college and he said I've

230

00:10:57,350 --> 00:10:54,520

always been around death and destruction

231

00:10:58,910 --> 00:10:57,360

my whole life and I guess that's how

232

00:11:01,579 --> 00:10:58,920

always will be and then he kind of

233

00:11:05,870 --> 00:11:01,589

disappeared again behind that glass wall

234

00:11:07,670 --> 00:11:05,880

so I I think what you bring to that just

235

00:11:10,850 --> 00:11:07,680

in talking about it and I think in

236

00:11:12,590 --> 00:11:10,860

general your research and what you've

237

00:11:15,590 --> 00:11:12,600

brought to this field is a certain

238

00:11:20,030 --> 00:11:15,600

grounding of hey guys there's a reality

239

00:11:23,060 --> 00:11:20,040

to that this stuff happens some of it is

240

00:11:24,889 --> 00:11:23,070

pretty deep and dark like you hear of it

241

00:11:27,380 --> 00:11:24,899

but some of it and like what I just

242

00:11:32,000 --> 00:11:27,390

heard you say some of it's very ordinary

243

00:11:34,730 --> 00:11:32,010

stuff it's about making proposals about

244

00:11:37,310 --> 00:11:34,740

getting budgets about you know been

245

00:11:41,210 --> 00:11:37,320

spending those budgets fulfilling those

246

00:11:45,259 --> 00:11:41,220

commitments or not you know I mean do

247

00:11:47,090 --> 00:11:45,269

you ever think it's fun and fun but but

248

00:11:49,910 --> 00:11:47,100

do you ever think about that in terms of

249

00:11:53,180 --> 00:11:49,920

this world that you're in the UFO world

250

00:11:57,710 --> 00:11:53,190

in terms of maybe a gap in terms of what

251
00:12:00,470 --> 00:11:57,720
people understand about how these worlds

252
00:12:02,720 --> 00:12:00,480
can simultaneously exist yet is the

253
00:12:05,000 --> 00:12:02,730
world of the deep state you know the

254
00:12:06,949 --> 00:12:05,010
scary deep state and the world of hey

255
00:12:08,230 --> 00:12:06,959
just some really smart engineers trying

256
00:12:11,870 --> 00:12:08,240
to solve a problem

257
00:12:14,600 --> 00:12:11,880
well yeah I'm concerned about that and

258
00:12:16,579 --> 00:12:14,610
I'm concerned that people I get people

259
00:12:18,350 --> 00:12:16,589
tell me these days oh you can't keep

260
00:12:21,050 --> 00:12:18,360
secrets about anything Stan with the

261
00:12:24,199 --> 00:12:21,060
internet and so forth and that's my

262
00:12:27,350 --> 00:12:24,209
market you can keep secrets look the

263
00:12:30,860 --> 00:12:27,360

Lockheed program to develop stealth

264

00:12:35,269 --> 00:12:30,870

aircraft they spent 10 billion dollars

265

00:12:37,130 --> 00:12:35,279

in 10 years in secret the first spy

266

00:12:41,180 --> 00:12:37,140

satellite for the United States was the

267

00:12:45,189 --> 00:12:41,190

corona spy satellite in the late 50s

268

00:12:48,170 --> 00:12:45,199

early 60s there were 12 failures and

269

00:12:53,569 --> 00:12:48,180

before they had a successful one all in

270

00:12:56,540 --> 00:12:53,579

secret the 13th one got more data about

271

00:13:01,880 --> 00:12:56,550

Soviet military installations then all

272

00:13:03,620 --> 00:13:01,890

the u2 flights that had preceded it they

273

00:13:05,449 --> 00:13:03,630

kept going at that and for another 30

274

00:13:09,100 --> 00:13:05,459

years there were corona spy satellites

275

00:13:12,040 --> 00:13:09,110

all in secret nobody know about it

276

00:13:15,460 --> 00:13:12,050

you know that's the way it is and people

277

00:13:18,280 --> 00:13:15,470

should remember that keeping secrets is

278

00:13:21,220 --> 00:13:18,290

primarily a national security kind of

279

00:13:23,650 --> 00:13:21,230

concern why should we let our enemies

280

00:13:25,720 --> 00:13:23,660

know what we're capable of when they're

281

00:13:29,019 --> 00:13:25,730

not letting us know what they're capable

282

00:13:30,579 --> 00:13:29,029

of in other words every country on the

283

00:13:32,440 --> 00:13:30,589

planet would love to be able to

284

00:13:35,110 --> 00:13:32,450

duplicate a flying saucer wouldn't they

285

00:13:38,290 --> 00:13:35,120

the flight capability you know up down

286

00:13:41,199 --> 00:13:38,300

back forth right IO turns etc etc silent

287

00:13:43,569 --> 00:13:41,209

wait okay yeah everybody would like to

288

00:13:46,300 --> 00:13:43,579

be able to build one so we've recovered

289

00:13:48,910 --> 00:13:46,310

several I'm sure the Russians have too

290

00:13:50,500 --> 00:13:48,920

but why should we put out what we have

291

00:13:52,780 --> 00:13:50,510

learned if they don't put out what they

292

00:13:57,910 --> 00:13:52,790

have learned you know this is a world

293

00:14:00,460 --> 00:13:57,920

this year terrible term but this year we

294

00:14:02,530 --> 00:14:00,470

will spend we nice-guy Earthlings will

295

00:14:05,319 --> 00:14:02,540

spend a trillion dollars on things

296

00:14:08,560 --> 00:14:05,329

military that gives you some kind of

297

00:14:12,190 --> 00:14:08,570

clue that that's considered important we

298

00:14:14,439 --> 00:14:12,200

live in a dangerous world and so we need

299

00:14:17,199 --> 00:14:14,449

to take that into account secrets can be

300

00:14:19,509 --> 00:14:17,209

kept I get people tell me all those guys

301
00:14:21,490 --> 00:14:19,519
when I talk about mj-12 operation

302
00:14:22,990 --> 00:14:21,500
majestic twelve twelve guys on there

303
00:14:26,319 --> 00:14:23,000
well they were told their wives what

304
00:14:28,150 --> 00:14:26,329
they were doing no they wouldn't I never

305
00:14:29,980 --> 00:14:28,160
told my wife anything classified it

306
00:14:32,410 --> 00:14:29,990
would be utterly stupid I could lose my

307
00:14:34,960 --> 00:14:32,420
job for one thing I can't control what

308
00:14:37,030 --> 00:14:34,970
she says talking to friends and I don't

309
00:14:40,480 --> 00:14:37,040
bits of this and not that somebody else

310
00:14:44,439 --> 00:14:40,490
might pick up on you just don't do that

311
00:14:46,509 --> 00:14:44,449
and it's naive on the part of some

312
00:14:48,790 --> 00:14:46,519
people the academics seem to be

313
00:14:51,310 --> 00:14:48,800

particularly concerned with well

314

00:14:53,519 --> 00:14:51,320

research is what goes on at universities

315

00:14:57,160 --> 00:14:53,529

you know you publish papers in

316

00:14:59,410 --> 00:14:57,170

peer-reviewed journals as an awful lot

317

00:15:01,840 --> 00:14:59,420

of stuff that doesn't get put into peer

318

00:15:07,210 --> 00:15:01,850

reviewed journals I'll guaranteed that

319

00:15:11,050 --> 00:15:07,220

and the thing is that I the big area I'm

320

00:15:13,090 --> 00:15:11,060

concerned with here is technology you

321

00:15:16,240 --> 00:15:13,100

know how do you fly this way or that way

322

00:15:19,000 --> 00:15:16,250

how do you spy this way or that way all

323

00:15:21,220 --> 00:15:19,010

kinds of things and I've had the

324

00:15:22,639 --> 00:15:21,230

privilege of working under security for

325

00:15:25,460 --> 00:15:22,649

14 years

326

00:15:28,100 --> 00:15:25,470

and working on a number of canceled

327

00:15:30,439 --> 00:15:28,110

government-sponsored programs and of

328

00:15:35,179 --> 00:15:30,449

recognizing that there's some some point

329

00:15:37,160 --> 00:15:35,189

to the classification alright and we act

330

00:15:39,379 --> 00:15:37,170

sometimes as if that whole world didn't

331

00:15:41,150 --> 00:15:39,389

exist out there you know look look in

332

00:15:44,629 --> 00:15:41,160

the journals stand I don't tell you what

333

00:15:46,160 --> 00:15:44,639

you wanna know as a matter of fact III

334

00:15:48,230 --> 00:15:46,170

had the experience of working on

335

00:15:50,809 --> 00:15:48,240

aircraft new propulsion I was working on

336

00:15:52,369 --> 00:15:50,819

radiation shielding because if you got a

337

00:15:54,439 --> 00:15:52,379

nuclear-powered airplane you really

338

00:15:58,850 --> 00:15:54,449

don't want to cook the pilots you know

339

00:16:00,559 --> 00:15:58,860

not a good idea and so I had the need to

340

00:16:03,499 --> 00:16:00,569

know and I was looked at an abstract

341

00:16:06,439 --> 00:16:03,509

journal classified journal that listed

342

00:16:08,919 --> 00:16:06,449

new documents out each month and all the

343

00:16:12,230 --> 00:16:08,929

Navy was doing some nice shielding work

344

00:16:13,879 --> 00:16:12,240

great so I went to our document control

345

00:16:16,790 --> 00:16:13,889

people I'd like to get copies of these

346

00:16:18,559 --> 00:16:16,800

things they come back to me not too long

347

00:16:20,780 --> 00:16:18,569

I understand you can't you don't have a

348

00:16:23,359 --> 00:16:20,790

need to know yes you've got the right

349

00:16:25,400 --> 00:16:23,369

clearance but you don't have a need to

350

00:16:27,650 --> 00:16:25,410

know and they're not given out and he

351
00:16:31,369 --> 00:16:27,660
needs to know I need to know on those

352
00:16:34,699 --> 00:16:31,379
programs so you learn about these things

353
00:16:37,929 --> 00:16:34,709
and that's the real world and you know

354
00:16:40,369 --> 00:16:37,939
it sounds crazy to some people a

355
00:16:43,850 --> 00:16:40,379
scientist supposed to be open and you

356
00:16:46,249 --> 00:16:43,860
know talking to his peers and like I say

357
00:16:50,689 --> 00:16:46,259
peer-reviewed journals and it just

358
00:16:52,429 --> 00:16:50,699
doesn't work that way and you know

359
00:16:56,210 --> 00:16:52,439
anybody thinks it does is being terribly

360
00:16:59,090 --> 00:16:56,220
naive and so I'm sure we have recovered

361
00:17:03,650 --> 00:16:59,100
crash flying saucers at least at Roswell

362
00:17:05,419 --> 00:17:03,660
and then the plains of San Agustin and a

363
00:17:12,769 --> 00:17:05,429

few other places at Kecksburg

364

00:17:15,079 --> 00:17:12,779

Pennsylvania Aztec New Mexico but I'm

365

00:17:17,269 --> 00:17:15,089

sure almost certain that the Russians

366

00:17:20,659 --> 00:17:17,279

and others have recovered them other

367

00:17:22,090 --> 00:17:20,669

places they're crazy things have

368

00:17:25,429 --> 00:17:22,100

happened to flying vehicles

369

00:17:28,159 --> 00:17:25,439

inadvertently not not many people crash

370

00:17:29,570 --> 00:17:28,169

them intentionally but you know you're

371

00:17:31,850 --> 00:17:29,580

in the wrong place at the wrong time for

372

00:17:35,899 --> 00:17:31,860

something to happen what can I say

373

00:17:36,440 --> 00:17:35,909

so I I'm aware of that that's all that's

374

00:17:38,180 --> 00:17:36,450

interest

375

00:17:39,889 --> 00:17:38,190

did you say that because it seems to me

376

00:17:41,509 --> 00:17:39,899

that you're aware of that on a couple of

377

00:17:44,570 --> 00:17:41,519

different levels you know we did have

378

00:17:46,009 --> 00:17:44,580

this email exchange and I appreciate

379

00:17:47,960 --> 00:17:46,019

some of the things you said you said hey

380

00:17:49,759 --> 00:17:47,970

maybe we could talk about this like all

381

00:17:52,460 --> 00:17:49,769

the Goldilocks planets that are being

382

00:17:54,259 --> 00:17:52,470

discovered and I said hey that sounds to

383

00:17:56,720 --> 00:17:54,269

me like sign of a kind of a controlled

384

00:17:59,779 --> 00:17:56,730

release of information to which you

385

00:18:01,999 --> 00:17:59,789

correctly replied that you weren't

386

00:18:04,669 --> 00:18:02,009

involved in the controlled release of

387

00:18:05,629 --> 00:18:04,679

secret information and that you followed

388

00:18:09,560 --> 00:18:05,639

the rules

389

00:18:13,659 --> 00:18:09,570

in handling of classified information I

390

00:18:16,149 --> 00:18:13,669

totally get that I totally respect that

391

00:18:20,659 --> 00:18:16,159

but there's a whole host of questions

392

00:18:23,389 --> 00:18:20,669

associated with that as you just kind of

393

00:18:27,200 --> 00:18:23,399

talk about and let's go through some of

394

00:18:29,409 --> 00:18:27,210

those because okay first of all you kept

395

00:18:34,519 --> 00:18:29,419

your promise you didn't break the rules

396

00:18:36,499 --> 00:18:34,529

but are we really to believe in this day

397

00:18:38,840 --> 00:18:36,509

and age that that is necessarily

398

00:18:42,560 --> 00:18:38,850

something that everyone should follow

399

00:18:45,379 --> 00:18:42,570

all the time how do you feel about the

400

00:18:47,440 --> 00:18:45,389

government potentially releasing people

401
00:18:50,840 --> 00:18:47,450
from their NDA's from their

402
00:18:52,789 --> 00:18:50,850
non-disclosure agreements when those

403
00:18:56,389 --> 00:18:52,799
disclosure agreements were entered into

404
00:18:59,029 --> 00:18:56,399
under false pretenses or with as part of

405
00:19:02,560 --> 00:18:59,039
a larger misinformation campaign should

406
00:19:05,299 --> 00:19:02,570
people really have to keep their secrets

407
00:19:10,759 --> 00:19:05,309
when they were bound to those those

408
00:19:12,139 --> 00:19:10,769
secrets under kind of false pretenses if

409
00:19:14,210 --> 00:19:12,149
you I don't think there were false

410
00:19:15,950 --> 00:19:14,220
pretenses well sometimes they sometimes

411
00:19:18,049 --> 00:19:15,960
they were maybe not in your case but

412
00:19:19,759 --> 00:19:18,059
sometimes they were and you were hey you

413
00:19:23,019 --> 00:19:19,769

were involved with one in one of the

414

00:19:26,629 --> 00:19:23,029

largest most public disinformation

415

00:19:30,440 --> 00:19:26,639

campaigns probably in UFO history with

416

00:19:34,029 --> 00:19:30,450

the Richard Doty Bill Moore thing so I

417

00:19:36,830 --> 00:19:34,039

mean you got first hand up close and

418

00:19:40,249 --> 00:19:36,840

personal with how these things can

419

00:19:42,979 --> 00:19:40,259

really be would really go wrong didn't

420

00:19:46,669 --> 00:19:42,989

you does that hug well I don't think of

421

00:19:50,210 --> 00:19:46,679

it that way I think Jody was doing his

422

00:19:51,490 --> 00:19:50,220

job and some

423

00:19:56,120 --> 00:19:51,500

you have to put out this information

424

00:19:59,470 --> 00:19:56,130

okay I don't like that but I understand

425

00:20:01,820 --> 00:19:59,480

it as I said the first country to

426

00:20:04,340 --> 00:20:01,830

duplicate flying saucer behavior is

427

00:20:06,320 --> 00:20:04,350

going to rule the roost and it won't be

428

00:20:08,240 --> 00:20:06,330

cheap incidentally to do that that's

429

00:20:11,270 --> 00:20:08,250

well one of the things people understand

430

00:20:15,649 --> 00:20:11,280

is how much it costs to develop entirely

431

00:20:17,360 --> 00:20:15,659

new technology in the future is not an

432

00:20:20,630 --> 00:20:17,370

extrapolation of the past you have to

433

00:20:24,950 --> 00:20:20,640

change how you do things that cost marks

434

00:20:28,490 --> 00:20:24,960

lots of them and so you can't do it

435

00:20:31,490 --> 00:20:28,500

easily if it were easy it would have

436

00:20:34,370 --> 00:20:31,500

been done before you know it's the basic

437

00:20:36,590 --> 00:20:34,380

notion I'm surprised to hear you say

438

00:20:39,140 --> 00:20:36,600

that Dodie was doing his job on one

439

00:20:41,630 --> 00:20:39,150

level I get that on another level it

440

00:20:44,539 --> 00:20:41,640

seems to me that he was stepping outside

441

00:20:47,960 --> 00:20:44,549

the bounds that we normally associate

442

00:20:50,450 --> 00:20:47,970

with constitutional government with

443

00:20:52,760 --> 00:20:50,460

oversight with how the government is

444

00:20:54,470 --> 00:20:52,770

supposed to treat its citizens I mean

445

00:20:57,770 --> 00:20:54,480

him and Bill Moore

446

00:20:59,870 --> 00:20:57,780

you know drove bennewitz crazy by

447

00:21:02,450 --> 00:20:59,880

sneaking into his house and rearranging

448

00:21:04,850 --> 00:21:02,460

his furniture in a direct attempt to

449

00:21:09,919 --> 00:21:04,860

kind of drive a guy insane and they did

450

00:21:13,190 --> 00:21:09,929

it I mean that's not doing your job I'm

451
00:21:15,200 --> 00:21:13,200
not saying he didn't go overboard I'm

452
00:21:16,909 --> 00:21:15,210
not saying I'm done the other end that I

453
00:21:19,240 --> 00:21:16,919
don't I don't know if there were any

454
00:21:21,350 --> 00:21:19,250
orders from powers-that-be

455
00:21:22,909 --> 00:21:21,360
things are getting touchy here guys

456
00:21:24,950 --> 00:21:22,919
we've got to do something so it's not

457
00:21:27,159 --> 00:21:24,960
the movement in the direction of people

458
00:21:30,200 --> 00:21:27,169
finding out what we're doing

459
00:21:32,870 --> 00:21:30,210
you know misrepresentation part of the

460
00:21:35,000 --> 00:21:32,880
picture sure the greater good for the

461
00:21:37,310 --> 00:21:35,010
most people all that sort of stuff and I

462
00:21:39,350 --> 00:21:37,320
don't like that notion you know it would

463
00:21:41,289 --> 00:21:39,360

be nice to live in a free and open world

464

00:21:43,760 --> 00:21:41,299

or everybody tells everybody everything

465

00:21:47,899 --> 00:21:43,770

but that's not the world we live in

466

00:21:49,760 --> 00:21:47,909

right and you know we're talking look

467

00:21:53,630 --> 00:21:49,770

for the development of Manhattan Project

468

00:21:56,419 --> 00:21:53,640

cost many billions of dollars we built a

469

00:21:58,520 --> 00:21:56,429

facility to separate uranium isotopes I

470

00:22:00,950 --> 00:21:58,530

mean to put uranium normal natural

471

00:22:04,040 --> 00:22:00,960

uranium in at this end and get highly

472

00:22:09,110 --> 00:22:04,050

enriched uranium-235 at the other end

473

00:22:11,840 --> 00:22:09,120

that facility was a mile long it used 5%

474

00:22:14,210 --> 00:22:11,850

of all the power being generated in the

475

00:22:16,640 --> 00:22:14,220

United States even though this is in the

476

00:22:19,250 --> 00:22:16,650

midst of a war you know so we had to

477

00:22:21,230 --> 00:22:19,260

build guns and planes and tanks and

478

00:22:23,240 --> 00:22:21,240

ships and all that kind of stuff

479

00:22:26,240 --> 00:22:23,250

five percent of the power in the United

480

00:22:28,670 --> 00:22:26,250

States went into separating uranium

481

00:22:32,000 --> 00:22:28,680

isotopes and nobody knew about it except

482

00:22:35,300 --> 00:22:32,010

the people who were directly involved so

483

00:22:37,010 --> 00:22:35,310

yeah it's a price you pay but you know

484

00:22:39,440 --> 00:22:37,020

people don't realize how close we came

485

00:22:41,330 --> 00:22:39,450

to losing world war two right thank

486

00:22:43,160 --> 00:22:41,340

goodness we broke the German codes for

487

00:22:46,790 --> 00:22:43,170

example do you think we we're gonna

488

00:22:49,280 --> 00:22:46,800

broadcast Hey look what we did the the

489

00:22:51,230 --> 00:22:49,290

fact that we had broken the codes enigma

490

00:22:53,690 --> 00:22:51,240

and all that stuff wasn't revealed for

491

00:22:57,950 --> 00:22:53,700

25 years because other countries are

492

00:22:59,840 --> 00:22:57,960

using those codes too so we were

493

00:23:04,730 --> 00:22:59,850

listening to their conversations if you

494

00:23:07,970 --> 00:23:04,740

will so there's a lot going on and it's

495

00:23:09,710 --> 00:23:07,980

kind of it's distressing that we live on

496

00:23:11,510 --> 00:23:09,720

a planet like that it does only tell

497

00:23:14,690 --> 00:23:11,520

people we're a primitive society whose

498

00:23:17,450 --> 00:23:14,700

major activity is tribal warfare I'm not

499

00:23:19,580 --> 00:23:17,460

proud when I say that there must be a

500

00:23:22,910 --> 00:23:19,590

better way to run a planet hopefully

501
00:23:25,010 --> 00:23:22,920
some of the aliens know that you know it

502
00:23:26,960 --> 00:23:25,020
would be nice to think that we're

503
00:23:30,170 --> 00:23:26,970
johnny-come-lately we don't ever act

504
00:23:32,240 --> 00:23:30,180
together yet you know but sometime our

505
00:23:33,770 --> 00:23:32,250
my great-grand I have a great grandson I

506
00:23:40,180 --> 00:23:33,780
wonder what kind of world he's going to

507
00:23:43,520 --> 00:23:40,190
grow up in you know I it scares me and

508
00:23:45,590 --> 00:23:43,530
they give you an example the the crucial

509
00:23:48,020 --> 00:23:45,600
form of energy production in the

510
00:23:50,690 --> 00:23:48,030
universe is nuclear fusion that's what

511
00:23:52,870 --> 00:23:50,700
goes on in all the stars every single

512
00:23:55,340 --> 00:23:52,880
one of them some big some small some

513
00:24:00,230 --> 00:23:55,350

powerful some not so powerful if you

514

00:24:02,930 --> 00:24:00,240

will and people say okay you're talking

515

00:24:04,850 --> 00:24:02,940

about weapons I say no anybody's got any

516

00:24:06,830 --> 00:24:04,860

brains knows that if you're setting off

517

00:24:10,550 --> 00:24:06,840

nuclear weapons you also know how to

518

00:24:11,330 --> 00:24:10,560

travel to the stars right well that's

519

00:24:13,430 --> 00:24:11,340

true

520

00:24:16,920 --> 00:24:13,440

I worked on a study at fusion propulsion

521

00:24:20,550 --> 00:24:16,930

for deep space travel in 1960

522

00:24:24,240 --> 00:24:20,560

to like makes me feel ancient to tell

523

00:24:26,700 --> 00:24:24,250

you that and the conclusion was if you

524

00:24:31,170 --> 00:24:26,710

want to go all it takes is dough

525

00:24:32,730 --> 00:24:31,180

lots of dough lots and lots of dough but

526

00:24:34,770 --> 00:24:32,740

I mean that's what the planet this year

527

00:24:37,050 --> 00:24:34,780

military budget trillion dollars

528

00:24:39,840 --> 00:24:37,060

I'll trillion dollars that's that's on

529

00:24:41,850 --> 00:24:39,850

on the outside right I mean we suspect

530

00:24:43,500 --> 00:24:41,860

we know by government accounting that

531

00:24:46,680 --> 00:24:43,510

there's at this point something like

532

00:24:50,520 --> 00:24:46,690

twenty trillion that is lost right so

533

00:24:52,410 --> 00:24:50,530

well we don't know we think and there

534

00:24:54,090 --> 00:24:52,420

are people who make claims a lot of

535

00:24:56,160 --> 00:24:54,100

claims going on without being

536

00:24:58,890 --> 00:24:56,170

established this true I don't know

537

00:25:01,380 --> 00:24:58,900

Catherine offs Catherine Austin Fitz has

538

00:25:04,350 --> 00:25:01,390

the math done pretty well at about

539

00:25:07,410 --> 00:25:04,360

sixteen trillion I mean we remember a

540

00:25:10,140 --> 00:25:07,420

few years ago the day before 9/11 when

541

00:25:12,990 --> 00:25:10,150

it was announced that we lost three

542

00:25:14,820 --> 00:25:13,000

trillion that the the State Department

543

00:25:16,980 --> 00:25:14,830

can account for treat three trillion I

544

00:25:19,320 --> 00:25:16,990

trust the numbers that it's up to

545

00:25:21,780 --> 00:25:19,330

sixteen trillion I'm not saying I'm with

546

00:25:24,810 --> 00:25:21,790

you to a large extent and I think your

547

00:25:26,820 --> 00:25:24,820

point is is very sobering and realistic

548

00:25:28,830 --> 00:25:26,830

that this stuff goes on we can't look

549

00:25:32,060 --> 00:25:28,840

the other way but I'm just saying the

550

00:25:35,840 --> 00:25:32,070

the off-the-books amount is probably a

551
00:25:38,790 --> 00:25:35,850
factor of ten of that one one trillion

552
00:25:41,550 --> 00:25:38,800
well I'll say maybe it's in my grave a

553
00:25:43,830 --> 00:25:41,560
second I'm like not why maybe because

554
00:25:46,890 --> 00:25:43,840
when you don't know you don't know and

555
00:25:50,130 --> 00:25:46,900
guessing is fine you know if you're

556
00:25:52,470 --> 00:25:50,140
playing the horses I guess sometimes

557
00:25:55,460 --> 00:25:52,480
even when I know people I just register

558
00:25:58,140 --> 00:25:55,470
in the paper somebody won the lottery

559
00:26:06,720 --> 00:25:58,150
special lottery only half million

560
00:26:09,720 --> 00:26:06,730
dollars in cash but the unlikely and

561
00:26:13,200 --> 00:26:09,730
unusual does happen from time to time

562
00:26:16,500 --> 00:26:13,210
and it's sort of unpredictable but I

563
00:26:19,410 --> 00:26:16,510

think the thing about UFOs and aliens is

564

00:26:20,970 --> 00:26:19,420

we have to change our attitude about a

565

00:26:22,770 --> 00:26:20,980

couple of things it wasn't too many

566

00:26:25,710 --> 00:26:22,780

years ago that we thought gee this is

567

00:26:27,720 --> 00:26:25,720

the only solar system and Earth's the

568

00:26:30,570 --> 00:26:27,730

only one that's got water on the surface

569

00:26:34,800 --> 00:26:30,580

and oxygen in the air why we're special

570

00:26:37,290 --> 00:26:34,810

guys and now I hate to say this but

571

00:26:39,920 --> 00:26:37,300

we're not special at all the Kepler

572

00:26:44,700 --> 00:26:39,930

space satellite which I'm a great fan of

573

00:26:47,910 --> 00:26:44,710

in an incredibly sensitive to pick up

574

00:26:49,500 --> 00:26:47,920

planets going in front of us star you

575

00:26:53,330 --> 00:26:49,510

know it's like seeing a butterfly go in

576

00:26:59,820 --> 00:26:53,340

front of a traffic light two miles away

577

00:27:02,610 --> 00:26:59,830

reduce the light from it it's we now

578

00:27:06,480 --> 00:27:02,620

think that there are between one and one

579

00:27:07,920 --> 00:27:06,490

point six planets per star so what does

580

00:27:11,210 --> 00:27:07,930

that mean well within a hundred

581

00:27:16,320 --> 00:27:11,220

light-years of here just down the street

582

00:27:18,270 --> 00:27:16,330

there are ten thousand stars that means

583

00:27:20,640 --> 00:27:18,280

between ten thousand and sixteen

584

00:27:22,620 --> 00:27:20,650

thousand planets within a mere hundred

585

00:27:24,540 --> 00:27:22,630

light-years of here

586

00:27:28,410 --> 00:27:24,550

when you say glad planets you mean

587

00:27:31,770 --> 00:27:28,420

planets that are most likely no I mean

588

00:27:34,170 --> 00:27:31,780

finite period all kinds big ones small

589

00:27:36,060 --> 00:27:34,180

ones fat ones smaller thin ones one

590

00:27:42,870 --> 00:27:36,070

planet you're saying one point six

591

00:27:44,820 --> 00:27:42,880

planets per star yeah that was a lot

592

00:27:49,320 --> 00:27:44,830

more than that I think we're talking

593

00:27:51,390 --> 00:27:49,330

about there Stan I look this up because

594

00:27:55,020 --> 00:27:51,400

I was curious effect what's the latest

595

00:27:57,810 --> 00:27:55,030

scoop and remember captor only looks at

596

00:27:59,610 --> 00:27:57,820

a certain chunk of the sky you don't

597

00:28:03,030 --> 00:27:59,620

deer have it look at the Sun because

598

00:28:07,470 --> 00:28:03,040

rice dollars or electronics optics out

599

00:28:09,420 --> 00:28:07,480

of it but uh but even that's I'm not

600

00:28:11,850 --> 00:28:09,430

saying all those planets

601
00:28:14,040 --> 00:28:11,860
between ten thousand sixteen thousand

602
00:28:15,690 --> 00:28:14,050
within a hundred light years I'm not

603
00:28:19,170 --> 00:28:15,700
saying they all have life maybe it's

604
00:28:22,500 --> 00:28:19,180
only ten percent I got a lot when you

605
00:28:23,220 --> 00:28:22,510
stop to think about it and also the time

606
00:28:25,500 --> 00:28:23,230
factor

607
00:28:31,200 --> 00:28:25,510
I mean Gerald Bishop Ussher back in the

608
00:28:32,880 --> 00:28:31,210
1600s he was kept on sex if you will he

609
00:28:33,510 --> 00:28:32,890
was looking through the Bible at all the

610
00:28:36,090 --> 00:28:33,520
begats

611
00:28:39,180 --> 00:28:36,100
and he worked it out so that the world

612
00:28:40,830 --> 00:28:39,190
must have been created in 4004 BC I

613
00:28:44,719 --> 00:28:40,840

don't know whether he said it was a

614

00:28:52,529 --> 00:28:48,119

4004 BC now we know that the earth is at

615

00:28:53,999 --> 00:28:52,539

least 4 billion and 4 years old 4

616

00:28:59,159 --> 00:28:54,009

billion there's a big difference between

617

00:29:02,249 --> 00:28:59,169

4 billion and 4th us obviously so what

618

00:29:04,560 --> 00:29:02,259

I'm saying is there's plenty of time for

619

00:29:07,070 --> 00:29:04,570

there to have been planets come and go

620

00:29:09,629 --> 00:29:07,080

and civilizations come and go and you

621

00:29:11,779 --> 00:29:09,639

know maybe we're in a no-man's land

622

00:29:14,190 --> 00:29:11,789

where it's forbidden there's a sign up

623

00:29:19,469 --> 00:29:14,200

stay away from Earth a bunch of idiots

624

00:29:22,499 --> 00:29:19,479

there right and the kicker is we have to

625

00:29:25,769 --> 00:29:22,509

recognize that there's somebody out

626

00:29:28,259 --> 00:29:25,779

there and if you look at say the case of

627

00:29:31,859 --> 00:29:28,269

the Minuteman facility and mounts from

628

00:29:35,070 --> 00:29:31,869

Air Force Base sascha shows up a bunch

629

00:29:39,239 --> 00:29:35,080

of rockets underground ICBMs loaded with

630

00:29:41,359 --> 00:29:39,249

nuclear weapons and this UFO shows up at

631

00:29:45,209 --> 00:29:41,369

the gate and the guy calls down to the

632

00:29:48,180 --> 00:29:45,219

guy in charge underground and he thought

633

00:29:48,989 --> 00:29:48,190

he was joking frankly and I'll don't

634

00:29:50,639 --> 00:29:48,999

worry about it

635

00:29:54,479 --> 00:29:50,649

he calls him back in a few minutes

636

00:29:55,919 --> 00:29:54,489

obviously greatly distressed and you

637

00:29:59,219 --> 00:29:55,929

know this thing is really here and

638

00:30:02,249 --> 00:29:59,229

within the next couple minutes 10 ICBMs

639

00:30:05,369 --> 00:30:02,259

went off line one after the other now

640

00:30:08,989 --> 00:30:05,379

theoretically that can happen that's

641

00:30:13,229 --> 00:30:08,999

designed to be independent of course and

642

00:30:14,820 --> 00:30:13,239

but it did happen so and some of the

643

00:30:18,499 --> 00:30:14,830

things happen in the Soviet Union one of

644

00:30:21,659 --> 00:30:18,509

their events we've heard about is that

645

00:30:28,079 --> 00:30:21,669

the missiles went online which is even

646

00:30:31,799 --> 00:30:28,089

scarier so in this world in which we

647

00:30:35,669 --> 00:30:31,809

lived there are prospects for terrible

648

00:30:38,039 --> 00:30:35,679

things happening and you know I hear

649

00:30:39,959 --> 00:30:38,049

people the SETI community I call them

650

00:30:42,659 --> 00:30:39,969

silly effort to investigate you know

651

00:30:44,129 --> 00:30:42,669

SETI not search for extraterrestrial

652

00:30:46,409 --> 00:30:44,139

intelligence because they're ignoring

653

00:30:48,269 --> 00:30:46,419

all the UFO data you look at their books

654

00:30:50,849 --> 00:30:48,279

I don't even reference a good books on

655

00:30:55,349 --> 00:30:50,859

UFOs I reference their books even if

656

00:30:57,480 --> 00:30:55,359

they're not good but there is a lot of

657

00:31:00,180 --> 00:30:57,490

data out there and they refuse to see it

658

00:31:06,720 --> 00:31:00,190

because obvious you know I'm well

659

00:31:10,620 --> 00:31:06,730

obviously if you don't if you're here if

660

00:31:13,200 --> 00:31:10,630

they're out there and coming here it

661

00:31:15,779 --> 00:31:13,210

could be of concern to us how could we

662

00:31:18,090 --> 00:31:15,789

ignore that we don't know if they're

663

00:31:19,649 --> 00:31:18,100

good guys are bad guys all this gets

664

00:31:22,200 --> 00:31:19,659

back to your topic we were talking about

665

00:31:25,080 --> 00:31:22,210

just a few minutes ago and that has to

666

00:31:27,720 --> 00:31:25,090

do with disclosure in a way it traces

667

00:31:29,340 --> 00:31:27,730

back to that because and and I think you

668

00:31:31,710 --> 00:31:29,350

have an interesting perspective on this

669

00:31:32,970 --> 00:31:31,720

that I haven't heard expressed a lot of

670

00:31:36,600 --> 00:31:32,980

times and I'd like to talk to you about

671

00:31:40,200 --> 00:31:36,610

it because you lived through several of

672

00:31:42,360 --> 00:31:40,210

these waves of disclosure you know you

673

00:31:46,260 --> 00:31:42,370

mentioned the majestic 12 mj-12

674

00:31:49,289 --> 00:31:46,270

documents that was we all thought that

675

00:31:51,720 --> 00:31:49,299

was going to be one of the the biggest

676

00:31:54,600 --> 00:31:51,730

cases or the most clear-cut cases of

677

00:31:57,090 --> 00:31:54,610

disclosure it's all out there now we

678

00:32:00,389 --> 00:31:57,100

know blow the lid off it change the

679

00:32:03,570 --> 00:32:00,399

world kind of a disclosure and whether

680

00:32:06,120 --> 00:32:03,580

you say it was a misinformation plot and

681

00:32:07,799 --> 00:32:06,130

a disinformation plot it whether it was

682

00:32:10,710 --> 00:32:07,809

I think as you said a few minutes ago

683

00:32:14,580 --> 00:32:10,720

someone deciding hey we need to refocus

684

00:32:16,019 --> 00:32:14,590

this redirect this it certainly worked

685

00:32:19,470 --> 00:32:16,029

turned out that way

686

00:32:23,760 --> 00:32:19,480

and I wonder what perspective that gives

687

00:32:25,830 --> 00:32:23,770

you on this new round of disclosure that

688

00:32:28,649 --> 00:32:25,840

we seem to be heading into where it's

689

00:32:31,710 --> 00:32:28,659

it's coming guys it's right around the

690

00:32:34,200 --> 00:32:31,720

corner here it comes get ready for it

691

00:32:35,880 --> 00:32:34,210

you're gonna learn all the secrets kind

692

00:32:40,529 --> 00:32:35,890

of thing I mean haven't you seen my

693

00:32:42,779 --> 00:32:40,539

story before well I look one of the

694

00:32:44,519 --> 00:32:42,789

things that's intriguing about mj-12 is

695

00:32:48,720 --> 00:32:44,529

how many phony documents were put out

696

00:32:51,060 --> 00:32:48,730

after the stuff hit the fan awesome all

697

00:32:52,409 --> 00:32:51,070

right completely and so that leaves many

698

00:32:54,419 --> 00:32:52,419

people able to say well see these

699

00:32:56,130 --> 00:32:54,429

documents are phony so ignore them I'm

700

00:32:57,149 --> 00:32:56,140

saying there are three that are genuine

701
00:32:59,430 --> 00:32:57,159
they're the ones that matter I don't

702
00:33:01,490 --> 00:32:59,440
care about the phony ones its standard

703
00:33:05,039 --> 00:33:01,500
practice to put out this information

704
00:33:06,750 --> 00:33:05,049
standard practice by who for what reason

705
00:33:09,810 --> 00:33:06,760
and why would that I mean so forget

706
00:33:11,030 --> 00:33:09,820
mj-12 set it aside for a minute that all

707
00:33:13,370 --> 00:33:11,040
the confusion

708
00:33:16,490 --> 00:33:13,380
about that part standard practice for

709
00:33:19,430 --> 00:33:16,500
who for what reason and what does that

710
00:33:23,330 --> 00:33:19,440
say about how we should feel about the

711
00:33:25,580 --> 00:33:23,340
current round of disclosure well I see

712
00:33:27,500 --> 00:33:25,590
no reason to say that there really is a

713
00:33:29,120 --> 00:33:27,510

current amount of disclosure it's just a

714

00:33:29,630 --> 00:33:29,130

bunch of guys claiming that it's going

715

00:33:32,810 --> 00:33:29,640

to happen

716

00:33:35,210 --> 00:33:32,820

aye aye I think that we need to

717

00:33:39,050 --> 00:33:35,220

recognize that there are good reasons

718

00:33:42,500 --> 00:33:39,060

for keeping secrets and you don't want

719

00:33:45,020 --> 00:33:42,510

your enemies to know what you know about

720

00:33:48,140 --> 00:33:45,030

what you know or about what you know

721

00:33:49,790 --> 00:33:48,150

they know because the weapon encounter

722

00:33:51,200 --> 00:33:49,800

weapon encounter counter weapons these

723

00:33:56,060 --> 00:33:51,210

have been games of them playing for a

724

00:33:58,270 --> 00:33:56,070

long time so I think that it would be

725

00:34:01,370 --> 00:33:58,280

standard practice if something slips out

726

00:34:03,950 --> 00:34:01,380

do whatever you can to cover it up you

727

00:34:08,210 --> 00:34:03,960

can't just stand up and say that you put

728

00:34:11,240 --> 00:34:08,220

out crap mj-12 and that's why I use that

729

00:34:14,960 --> 00:34:11,250

because as I have a book out top secret

730

00:34:17,210 --> 00:34:14,970

magic I'm AJ I see which it goes into a

731

00:34:20,659 --> 00:34:17,220

number of the documents and why I say

732

00:34:25,490 --> 00:34:20,669

they're phony and it's clear they're

733

00:34:28,340 --> 00:34:25,500

phony if you look carefully and it's

734

00:34:32,440 --> 00:34:28,350

it's kind of funny how the debunkers

735

00:34:35,090 --> 00:34:32,450

glom on to disclosure in their own way

736

00:34:38,840 --> 00:34:35,100

Philip Glass challenged me on one of the

737

00:34:41,960 --> 00:34:38,850

mj-12 documents the color declining memo

738

00:34:44,360 --> 00:34:41,970

to being precise well obviously it's a

739

00:34:46,970 --> 00:34:44,370

phony document because it's done in the

740

00:34:50,630 --> 00:34:46,980

large Piko type and the national

741

00:34:53,090 --> 00:34:50,640

security national security council used

742

00:34:55,520 --> 00:34:53,100

only small elite tonight but I've got

743

00:34:58,100 --> 00:34:55,530

nine documents to prove it and he

744

00:35:00,410 --> 00:34:58,110

offered me \$100 each I'll give you for

745

00:35:08,210 --> 00:35:00,420

every genuine document meeting a whole

746

00:35:11,810 --> 00:35:08,220

bunch of rules if you will you have 60

747

00:35:13,870 --> 00:35:11,820

days anybody's had a limit only on ten

748

00:35:17,750 --> 00:35:13,880

unfortunately I'd be a wealthy man

749

00:35:21,170 --> 00:35:17,760

anyway I found out I mean I went to my

750

00:35:22,490 --> 00:35:21,180

files and I spent a lot of time at the

751
00:35:23,420 --> 00:35:22,500
Eisenhower library the Truman library

752
00:35:26,329 --> 00:35:23,430
can

753
00:35:28,670 --> 00:35:26,339
librarian Center and immediately found

754
00:35:30,920 --> 00:35:28,680
20 documents that were done in a larger

755
00:35:32,450 --> 00:35:30,930
Piko type it's hard to it's easy to see

756
00:35:33,920 --> 00:35:32,460
actually when you look at them alongside

757
00:35:36,410 --> 00:35:33,930
other ones huh

758
00:35:38,240 --> 00:35:36,420
so I knew that was a bunch of baloney

759
00:35:41,809 --> 00:35:38,250
but I was going to the Eisenhower

760
00:35:45,440 --> 00:35:41,819
library so anyway and soon and so I went

761
00:35:49,099 --> 00:35:45,450
found 14 that met every single condition

762
00:35:50,569 --> 00:35:49,109
he put on them and sent him copies and

763
00:35:52,970 --> 00:35:50,579

an invoice for a thousand dollars

764

00:35:56,960 --> 00:35:52,980

because he said a limit of ten and he

765

00:36:00,890 --> 00:35:56,970

paid me and he got mattered and when I

766

00:36:02,780 --> 00:36:00,900

published a copy of his check and I

767

00:36:05,059 --> 00:36:02,790

finally told him I said look Phil you

768

00:36:08,030 --> 00:36:05,069

sent me a check izx the check

769

00:36:10,280 --> 00:36:08,040

I took the check to the bank the bank

770

00:36:14,780 --> 00:36:10,290

cashd it I can do whatever I damn

771

00:36:16,700 --> 00:36:14,790

please with Xerox and so he shut up but

772

00:36:20,540 --> 00:36:16,710

it turns out and I didn't know it until

773

00:36:21,890 --> 00:36:20,550

then I come and I own a check and it

774

00:36:23,630 --> 00:36:21,900

turns out he'd never been to the

775

00:36:25,910 --> 00:36:23,640

Eisenhower library I've spent weeks

776

00:36:27,349 --> 00:36:25,920

there but that's typical of the

777

00:36:30,650 --> 00:36:27,359

intellectual bankruptcy of the

778

00:36:33,470 --> 00:36:30,660

pseudoscience of anti ufology and the

779

00:36:35,120 --> 00:36:33,480

question is who's he working for and he

780

00:36:37,250 --> 00:36:35,130

claims he didn't work for any

781

00:36:41,450 --> 00:36:37,260

three-letter agency well how about a for

782

00:36:44,559 --> 00:36:41,460

later yeah you know what for a letter

783

00:36:46,730 --> 00:36:44,569

one I can't even think of one

784

00:36:48,740 --> 00:36:46,740

psychological strategy board no that's

785

00:36:51,319 --> 00:36:48,750

three I I had a list one time I might

786

00:36:54,049 --> 00:36:51,329

have several of them but the point is

787

00:36:56,539 --> 00:36:54,059

that Phil made claims without anything

788

00:37:00,950 --> 00:36:56,549

to back the month and thought he would

789

00:37:03,500 --> 00:37:00,960

get away with it well he didn't but it

790

00:37:05,210 --> 00:37:03,510

is typical see but there's so many

791

00:37:07,160 --> 00:37:05,220

layers to this there's so many layers to

792

00:37:10,430 --> 00:37:07,170

this I don't want to get I mean that's

793

00:37:14,359 --> 00:37:10,440

an important point regarding debunkers

794

00:37:16,760 --> 00:37:14,369

regarding skeptics regarding but I don't

795

00:37:19,549 --> 00:37:16,770

want to slam somebody I don't know

796

00:37:22,160 --> 00:37:19,559

personally but the useful idiot versus

797

00:37:24,319 --> 00:37:22,170

the lifetime player so there's some

798

00:37:27,740 --> 00:37:24,329

people that are in this mix that are

799

00:37:29,660 --> 00:37:27,750

there to specifically serve a purpose so

800

00:37:32,900 --> 00:37:29,670

Dodi is there and Dodi comes out and

801
00:37:36,450 --> 00:37:32,910
says hey I do this stuff they ain't they

802
00:37:40,770 --> 00:37:36,460
pay me to go and do some very

803
00:37:42,960 --> 00:37:40,780
thirdly kind of stuff that is anti what

804
00:37:46,410 --> 00:37:42,970
our Constitution says we're supposed to

805
00:37:49,170 --> 00:37:46,420
do but wink nod we all know goes on and

806
00:37:51,660 --> 00:37:49,180
all we all accept as part of the way we

807
00:37:54,720 --> 00:37:51,670
keep the Hong's from marching over the

808
00:37:56,070 --> 00:37:54,730
hill kind of thing so that's given but

809
00:37:58,620 --> 00:37:56,080
then there's a whole other group of

810
00:38:00,990 --> 00:37:58,630
people and this is more to my experience

811
00:38:03,780 --> 00:38:01,000
with skeptic oh and in particular with

812
00:38:05,430 --> 00:38:03,790
science and materialistic scientists who

813
00:38:07,320 --> 00:38:05,440

you know just want a hold of their

814

00:38:09,180 --> 00:38:07,330

paradigm there's a lot of useful idiots

815

00:38:11,220 --> 00:38:09,190

out there of course the phrase that

816

00:38:14,339 --> 00:38:11,230

everyone borrows from Joe Stalin who

817

00:38:16,859 --> 00:38:14,349

talked about the American communists who

818

00:38:18,510 --> 00:38:16,869

were just up in arms and been doing his

819

00:38:20,430 --> 00:38:18,520

bidding without him doing anything is

820

00:38:23,040 --> 00:38:20,440

that a man that's great they're working

821

00:38:25,680 --> 00:38:23,050

on my behalf without me even having to

822

00:38:27,540 --> 00:38:25,690

do so so that's part of the landscape

823

00:38:29,670 --> 00:38:27,550

and I get that and I'm glad I'm fill in

824

00:38:32,220 --> 00:38:29,680

that history but a more interesting part

825

00:38:35,700 --> 00:38:32,230

to me that I keep coming back to is as

826

00:38:39,000 --> 00:38:35,710

you alluded to you know who's deciding

827

00:38:42,660 --> 00:38:39,010

that among the handful of legitimate

828

00:38:45,150 --> 00:38:42,670

mj-12 documents that are in existence we

829

00:38:48,810 --> 00:38:45,160

should package those with hundreds of

830

00:38:52,829 --> 00:38:48,820

other documents to create this elaborate

831

00:38:54,480 --> 00:38:52,839

smokescreen and then I'll let you answer

832

00:38:56,910 --> 00:38:54,490

that and then I want to bring that to

833

00:38:58,650 --> 00:38:56,920

the current round because I do think

834

00:39:00,960 --> 00:38:58,660

that is happening again and I'd love to

835

00:39:05,670 --> 00:39:00,970

hear your perspective on it but first

836

00:39:09,300 --> 00:39:05,680

maybe that question well in my latest

837

00:39:11,280 --> 00:39:09,310

book a year old now I is fact fiction

838

00:39:13,070 --> 00:39:11,290

and flying saucers and we focus on three

839

00:39:15,540 --> 00:39:13,080

people fill classes one of them

840

00:39:18,240 --> 00:39:15,550

debunkers disinformation specialist

841

00:39:21,089 --> 00:39:18,250

whatever you want to call them and one

842

00:39:23,220 --> 00:39:21,099

of them was dr. Donald Howard mental a

843

00:39:25,109 --> 00:39:23,230

Harvard University professor of

844

00:39:26,520 --> 00:39:25,119

astronomy and as matter of fact for a

845

00:39:29,339 --> 00:39:26,530

number of years the chairman of the

846

00:39:32,210 --> 00:39:29,349

department that's pretty high up on the

847

00:39:35,520 --> 00:39:32,220

pecking order when it comes to you know

848

00:39:39,060 --> 00:39:35,530

important scientific people and I

849

00:39:40,650 --> 00:39:39,070

discovered because I took the trouble to

850

00:39:43,770 --> 00:39:40,660

get permission from trader from people

851

00:39:46,640 --> 00:39:43,780

look at his papers at Harvard and his

852

00:39:49,380 --> 00:39:46,650

name was on a list of people and I

853

00:39:50,099 --> 00:39:49,390

didn't know what to make of it so I got

854

00:39:52,229 --> 00:39:50,109

from Richmond trader

855

00:39:56,430 --> 00:39:52,239

people he was dead to look at his papers

856

00:39:58,499 --> 00:39:56,440

and discovered to my total shock that he

857

00:40:01,170 --> 00:39:58,509

wrote Jack Kennedy they knew each other

858

00:40:03,329 --> 00:40:01,180

they even had breakfast together on

859

00:40:07,559 --> 00:40:03,339

occasion in a Boston area

860

00:40:09,089 --> 00:40:07,569

Kennedy was from Boston area after jack

861

00:40:11,099 --> 00:40:09,099

was elected president

862

00:40:13,430 --> 00:40:11,109

Menzel told them there's one area where

863

00:40:16,470 --> 00:40:13,440

I may be able to be of assistance to you

864

00:40:19,710 --> 00:40:16,480

I've got a longer continuous association

865

00:40:21,930 --> 00:40:19,720

with the National Security Agency NSA no

866

00:40:26,249 --> 00:40:21,940

such any agency you know never says

867

00:40:28,769 --> 00:40:26,259

anything that's nice and when we are

868

00:40:31,859 --> 00:40:28,779

properly cleared to each other this he

869

00:40:37,200 --> 00:40:31,869

tells the president mind you I can tell

870

00:40:41,999 --> 00:40:37,210

you more and so I did a lot of follow-up

871

00:40:44,069 --> 00:40:42,009

on that and the failure of the media for

872

00:40:45,390 --> 00:40:44,079

example there were there was a huge

873

00:40:47,819 --> 00:40:45,400

hearing and they were trying to take

874

00:40:50,579 --> 00:40:47,829

away Mendel's clearance

875

00:40:52,950 --> 00:40:50,589

I saw comment from his lawyer to dr.

876

00:40:56,640 --> 00:40:52,960

anavar Bush the important scientists in

877

00:41:00,210 --> 00:40:56,650

the country and it was kind of kind of

878

00:41:01,799 --> 00:41:00,220

weird that why are they trying to take

879

00:41:04,140 --> 00:41:01,809

away Menzel's clearance why does he have

880

00:41:06,329 --> 00:41:04,150

a clearance in the first place well when

881

00:41:07,589 --> 00:41:06,339

the surprising thing works was and I

882

00:41:08,759 --> 00:41:07,599

don't know how they managed it there was

883

00:41:11,489 --> 00:41:08,769

nothing New York Times or Washington

884

00:41:13,410 --> 00:41:11,499

Post about that this goes back to like

885

00:41:15,180 --> 00:41:13,420

1950 you know there was a communist

886

00:41:21,210 --> 00:41:15,190

under every bed and - under the twin

887

00:41:25,190 --> 00:41:21,220

beds you know it's crazy so turns out

888

00:41:27,660 --> 00:41:25,200

Mendel was a world-class cryptologist

889

00:41:30,509 --> 00:41:27,670

that's what the NSA is all about of

890

00:41:32,420 --> 00:41:30,519

course but and there's even a paper in a

891

00:41:35,519 --> 00:41:32,430

scientific journal the Cryptologic

892

00:41:37,259 --> 00:41:35,529

contributions of Donald Menzel and he

893

00:41:39,299 --> 00:41:37,269

did classify work for all kinds of

894

00:41:41,609 --> 00:41:39,309

people nobody knew that I'll guarantee

895

00:41:43,289 --> 00:41:41,619

you that people were telling me Stan he

896

00:41:45,749 --> 00:41:43,299

couldn't be he was a debugger

897

00:41:51,140 --> 00:41:45,759

well I'm sorry here's what the evidence

898

00:41:53,420 --> 00:41:51,150

shows so who was he

899

00:41:57,269 --> 00:41:53,430

we know he was working for the NSA

900

00:42:00,870 --> 00:41:57,279

mm-hmm about 30 years worth of you know

901
00:42:03,220 --> 00:42:00,880
and I and and the end of our Bush filled

902
00:42:07,330 --> 00:42:03,230
that detail in Vannevar Bush's long

903
00:42:10,030 --> 00:42:07,340
connected with the early on UFO secrecy

904
00:42:11,800 --> 00:42:10,040
and her other we have all these memos

905
00:42:15,790 --> 00:42:11,810
that say he was like one of the main

906
00:42:17,500 --> 00:42:15,800
guys so well is there any thing to him

907
00:42:21,010 --> 00:42:17,510
standing in the way of this guy's

908
00:42:23,349 --> 00:42:21,020
clearance it supposedly or or we can

909
00:42:25,090 --> 00:42:23,359
deduce from what you're saying that that

910
00:42:26,770 --> 00:42:25,100
clearance would somehow be used to share

911
00:42:28,630 --> 00:42:26,780
some information with the President of

912
00:42:33,609 --> 00:42:28,640
the United States I mean what's going on

913
00:42:35,500 --> 00:42:33,619

there well I think Bush knew what was

914

00:42:39,570 --> 00:42:35,510

going on no question if there was one

915

00:42:42,490 --> 00:42:39,580

scientist who was at the top of the heap

916

00:42:45,730 --> 00:42:42,500

he was involved during the war and

917

00:42:49,780 --> 00:42:45,740

developing all kinds of new technology

918

00:42:52,000 --> 00:42:49,790

new stuff classified stuff and that's

919

00:42:55,270 --> 00:42:52,010

what he was about

920

00:42:58,150 --> 00:42:55,280

and I I was as I say shocked to find out

921

00:43:00,040 --> 00:42:58,160

I was a surprised that Bush was involved

922

00:43:04,780 --> 00:43:00,050

I was very shocked to find out that

923

00:43:06,490 --> 00:43:04,790

mentor wasn't and I developed a healthy

924

00:43:08,230 --> 00:43:06,500

respect for men so because he was

925

00:43:11,290 --> 00:43:08,240

working for his countries well

926
00:43:12,210 --> 00:43:11,300
well-being if you will in what he was

927
00:43:14,050 --> 00:43:12,220
doing

928
00:43:17,380 --> 00:43:14,060
contributing his knowledge and

929
00:43:19,330 --> 00:43:17,390
capabilities to in keeping us a free and

930
00:43:21,400 --> 00:43:19,340
open society and like I say a lot of

931
00:43:24,370 --> 00:43:21,410
people won't realize there were some

932
00:43:26,320 --> 00:43:24,380
moments during World War Two and we

933
00:43:30,340 --> 00:43:26,330
weren't so sure we'd be winning

934
00:43:31,900 --> 00:43:30,350
thank goodness for secrecy for example

935
00:43:33,730 --> 00:43:31,910
one of the concerns was if the Japanese

936
00:43:36,310 --> 00:43:33,740
found out about we're gonna drop an

937
00:43:38,260 --> 00:43:36,320
atomic bomb on him they'd move American

938
00:43:44,460 --> 00:43:38,270

prisoners of war into that city wouldn't

939

00:43:47,620 --> 00:43:44,470

they go ahead you know so there were

940

00:43:52,540 --> 00:43:47,630

games being played but they're deadly

941

00:43:54,190 --> 00:43:52,550

games all right and I I developed as I

942

00:43:56,770 --> 00:43:54,200

say a healthy respect for men's will

943

00:43:58,599 --> 00:43:56,780

after realizing that he missed working

944

00:44:00,370 --> 00:43:58,609

his butt off for the government then

945

00:44:02,290 --> 00:44:00,380

let's fast forward a little bit and take

946

00:44:04,810 --> 00:44:02,300

that perspective bring that perspective

947

00:44:06,400 --> 00:44:04,820

with you and let's talk about some of

948

00:44:09,180 --> 00:44:06,410

the figures that are on the scene now

949

00:44:11,140 --> 00:44:09,190

because this is really going to be

950

00:44:12,849 --> 00:44:11,150

fascinating because again you've lived

951
00:44:14,260 --> 00:44:12,859
through this history you're right in the

952
00:44:15,540 --> 00:44:14,270
middle of it I mean if you weren't like

953
00:44:18,060 --> 00:44:15,550
reporting on it you were

954
00:44:20,250 --> 00:44:18,070
in it what do you make of Steven Greer

955
00:44:22,800 --> 00:44:20,260
what do you make a Steven Greer he's got

956
00:44:24,450 --> 00:44:22,810
a new movie unacknowledged what did you

957
00:44:28,790 --> 00:44:24,460
think of the movie and were you

958
00:44:31,650 --> 00:44:28,800
surprised to see Richard Doty show up

959
00:44:34,410 --> 00:44:31,660
again a confirmed disinformation agent

960
00:44:36,450 --> 00:44:34,420
he shows up in the film there's no

961
00:44:39,450 --> 00:44:36,460
explanation that he has that background

962
00:44:41,820 --> 00:44:39,460
there's no consideration of it he's just

963
00:44:43,680 --> 00:44:41,830

hey here's an insider in the government

964

00:44:45,840 --> 00:44:43,690

so all three of those what do you make a

965

00:44:48,150 --> 00:44:45,850

Greer what do you make of the movie what

966

00:44:50,640 --> 00:44:48,160

do you make of a disinformation agent I

967

00:44:53,580 --> 00:44:50,650

saw the movie at a conference and I was

968

00:44:55,230 --> 00:44:53,590

not favorably impressed and my feeling

969

00:44:58,200 --> 00:44:55,240

has always been I've heard Steve speak

970

00:45:02,010 --> 00:44:58,210

many times that he really doesn't

971

00:45:04,200 --> 00:45:02,020

understand security that and I I'm

972

00:45:05,610 --> 00:45:04,210

bothered by things like he was offering

973

00:45:07,680 --> 00:45:05,620

people the opportunity they could spend

974

00:45:10,500 --> 00:45:07,690

a weekend at his farm in Virginia of

975

00:45:12,900 --> 00:45:10,510

course are some dollars there all

976
00:45:15,780 --> 00:45:12,910
expenses covered but they would have to

977
00:45:17,940 --> 00:45:15,790
sign a nondisclosure agreement he would

978
00:45:19,020 --> 00:45:17,950
tell him everything he knew this is from

979
00:45:23,220 --> 00:45:19,030
the guy who's in charge of the

980
00:45:24,570 --> 00:45:23,230
disclosure movement I mean that's pretty

981
00:45:28,410 --> 00:45:24,580
damn silly

982
00:45:32,460 --> 00:45:28,420
and I think Steve look he's a

983
00:45:35,580 --> 00:45:32,470
charismatic speaker he gets around a lot

984
00:45:40,400 --> 00:45:35,590
there's a lot of talks makes a lot of

985
00:45:43,260 --> 00:45:40,410
money I guess but I don't consider him

986
00:45:44,940 --> 00:45:43,270
he doesn't do the kind of research we're

987
00:45:48,480 --> 00:45:44,950
talking about he doesn't go to the

988
00:45:51,090 --> 00:45:48,490

archives to check on documents dig out

989

00:45:52,800 --> 00:45:51,100

the goodies if you will painstaking

990

00:45:54,630 --> 00:45:52,810

though it may be and frustrating though

991

00:45:59,160 --> 00:45:54,640

it may be but when you fling something

992

00:46:01,980 --> 00:45:59,170

Wow he did have some documents he

993

00:46:04,800 --> 00:46:01,990

disclosed from his meeting with the CIA

994

00:46:07,380 --> 00:46:04,810

director that I thought were significant

995

00:46:11,310 --> 00:46:07,390

no matter how you spin that I thought

996

00:46:12,960 --> 00:46:11,320

that well remember they had lunch

997

00:46:16,080 --> 00:46:12,970

together he made it sound like he was

998

00:46:18,540 --> 00:46:16,090

briefing him I don't know if those guys

999

00:46:20,010 --> 00:46:18,550

I mean his claim and and I think he has

1000

00:46:21,690 --> 00:46:20,020

some merit again I don't know what to

1001

00:46:24,750 --> 00:46:21,700

make of my I just want to hear your

1002

00:46:27,720 --> 00:46:24,760

opinion of it but you know to sit down

1003

00:46:29,280 --> 00:46:27,730

with somebody for two hours and you take

1004

00:46:31,860 --> 00:46:29,290

a presentation for two

1005

00:46:34,200 --> 00:46:31,870

hours and say gee that was lunch when

1006

00:46:36,180 --> 00:46:34,210

he's talking about you know here's

1007

00:46:38,220 --> 00:46:36,190

everything well I hadn't didn't hear

1008

00:46:41,340 --> 00:46:38,230

that it was two hours I heard there was

1009

00:46:43,830 --> 00:46:41,350

much shorter than that but I don't know

1010

00:46:47,160 --> 00:46:43,840

and I don't have any good way to find

1011

00:46:48,540 --> 00:46:47,170

out I mean it could have stated but why

1012

00:46:50,870 --> 00:46:48,550

would you believe him if you think he

1013

00:46:54,450 --> 00:46:50,880

may be inclined to exaggerate

1014

00:47:00,150 --> 00:46:54,460

misrepresent overstate those are words I

1015

00:47:03,840 --> 00:47:00,160

would use with regard to him and people

1016

00:47:05,550 --> 00:47:03,850

have never had a clearance don't seem to

1017

00:47:07,970 --> 00:47:05,560

understand that there are different ways

1018

00:47:10,230 --> 00:47:07,980

of thinking once you get it clearance

1019

00:47:13,590 --> 00:47:10,240

I'll tell you I'd about the healthy

1020

00:47:15,720 --> 00:47:13,600

respect for security when I worked at GE

1021

00:47:17,730 --> 00:47:15,730

if you left the document this is a

1022

00:47:21,090 --> 00:47:17,740

closed facility mind you guards at the

1023

00:47:24,030 --> 00:47:21,100

door you needed a clearance that fancy

1024

00:47:26,010 --> 00:47:24,040

badge that you were tired but if they

1025

00:47:28,560 --> 00:47:26,020

and the guards would go through the

1026

00:47:30,030 --> 00:47:28,570

facility at night if they found the

1027

00:47:33,750 --> 00:47:30,040

clasp of my document out you'd get a

1028

00:47:36,170 --> 00:47:33,760

call at 10 o'clock at night mr. Jones we

1029

00:47:39,240 --> 00:47:36,180

found a classified document on your desk

1030

00:47:43,710 --> 00:47:39,250

please come in and inventory all your

1031

00:47:45,960 --> 00:47:43,720

documents not that's not a fun procedure

1032

00:47:47,730 --> 00:47:45,970

and if it happens twice here in real

1033

00:47:51,780 --> 00:47:47,740

trouble and three times you're probably

1034

00:47:54,600 --> 00:47:51,790

out alright so you develop a very

1035

00:47:56,340 --> 00:47:54,610

healthy respect one one time let me

1036

00:47:58,260 --> 00:47:56,350

remember this I was going to give a

1037

00:48:00,810 --> 00:47:58,270

classified talk at a conference on

1038

00:48:03,030 --> 00:48:00,820

radiation shielding and for some reason

1039

00:48:04,200 --> 00:48:03,040

my slides didn't get finished I prepared

1040

00:48:06,090 --> 00:48:04,210

all the material but they weren't

1041

00:48:08,730 --> 00:48:06,100

finished by the time the regular courier

1042

00:48:10,260 --> 00:48:08,740

we're supposed to go so Stan okay you

1043

00:48:14,100 --> 00:48:10,270

have a need to know for this material

1044

00:48:16,260 --> 00:48:14,110

obviously you developed it so we can

1045

00:48:18,480 --> 00:48:16,270

make you a courier and they sat me down

1046

00:48:20,520 --> 00:48:18,490

and all the rules you know the slides

1047

00:48:23,040 --> 00:48:20,530

don't go in the trunk of the car in your

1048

00:48:25,350 --> 00:48:23,050

briefcase they go with you in the car

1049

00:48:26,760 --> 00:48:25,360

with your briefcase and a whole bunch of

1050

00:48:29,400 --> 00:48:26,770

other things I'll tell you I was never

1051

00:48:33,350 --> 00:48:29,410

so glad to get rid of stuff for the

1052

00:48:36,540 --> 00:48:33,360

other end I mean really aggravating

1053

00:48:38,250 --> 00:48:36,550

because they're scaring you you know and

1054

00:48:40,860 --> 00:48:38,260

the whole tone was we don't give a damn

1055

00:48:43,170 --> 00:48:40,870

value we care about your classified

1056

00:48:46,320 --> 00:48:43,180

material

1057

00:48:48,510 --> 00:48:46,330

and so you have to recognize it okay

1058

00:48:50,490 --> 00:48:48,520

they don't care about me I got to be

1059

00:48:52,800 --> 00:48:50,500

careful what I'm doing because they're

1060

00:48:54,780 --> 00:48:52,810

going to come after me with all hell

1061

00:48:57,260 --> 00:48:54,790

break loose if they just got arrived on

1062

00:49:03,060 --> 00:48:57,270

something that doesn't follow the rules

1063

00:49:04,800 --> 00:49:03,070

so it it upped my understanding of the

1064

00:49:11,850 --> 00:49:04,810

terror that's used to keep people in

1065

00:49:14,490 --> 00:49:11,860

line if I could put you know so you

1066

00:49:15,660 --> 00:49:14,500

mentioned somebody else Steve and well

1067

00:49:18,300 --> 00:49:15,670

the other person I thought we should

1068

00:49:21,450 --> 00:49:18,310

kind of bring to the fore and see what

1069

00:49:25,110 --> 00:49:21,460

you think is Tom DeLonge getting a ton

1070

00:49:27,360 --> 00:49:25,120

of press lately and very strange in my

1071

00:49:29,820 --> 00:49:27,370

opinion in terms of how that's being

1072

00:49:31,920 --> 00:49:29,830

rolled out of course he's the former

1073

00:49:34,920 --> 00:49:31,930

frontman for blink-182

1074

00:49:37,230 --> 00:49:34,930

has expressed an interest in UFOs for

1075

00:49:40,260 --> 00:49:37,240

the last 10 years has had all these

1076

00:49:44,180 --> 00:49:40,270

associations was closely associated with

1077

00:49:48,810 --> 00:49:44,190

John Podesta who has some very deep

1078

00:49:51,360 --> 00:49:48,820

troubling connections to some other kind

1079

00:49:56,760 --> 00:49:51,370

of nasty stuff but now here we are

1080

00:49:59,370 --> 00:49:56,770

in mid late 2017 and DeLong has this big

1081

00:50:02,490 --> 00:49:59,380

big announcement that's coming out

1082

00:50:04,860 --> 00:50:02,500

supposedly in its technology center

1083

00:50:07,380 --> 00:50:04,870

which always kind of throws me for a

1084

00:50:10,530 --> 00:50:07,390

loop but jump in there what do you think

1085

00:50:13,520 --> 00:50:10,540

about Tom DeLonge well I read most of

1086

00:50:20,790 --> 00:50:13,530

his book I got a big fat book out there

1087

00:50:23,400 --> 00:50:20,800

and I I won't say he's not sincere and I

1088

00:50:25,260 --> 00:50:23,410

won't say he hasn't met with a bunch of

1089

00:50:29,550 --> 00:50:25,270

these people who are in the need to know

1090

00:50:33,210 --> 00:50:29,560

the world but how much we can I have no

1091

00:50:35,700 --> 00:50:33,220

independent means of checking about

1092

00:50:39,150 --> 00:50:35,710

whether he's feeding us garbage that

1093

00:50:42,300 --> 00:50:39,160

somebody fed him right to confuse the

1094

00:50:44,580 --> 00:50:42,310

world you know so that the New York

1095

00:50:47,970 --> 00:50:44,590

Times can dismiss it if you will what

1096

00:50:51,270 --> 00:50:47,980

kind of thing I don't know I that was a

1097

00:50:53,160 --> 00:50:51,280

surprise hearing about Tom and seeing

1098

00:50:55,320 --> 00:50:53,170

how thick his book is and how many

1099

00:50:56,420 --> 00:50:55,330

people were jumping on the bandwagon so

1100

00:50:58,370 --> 00:50:56,430

to speak

1101
00:51:00,890 --> 00:50:58,380
not the first guy you'd think of as

1102
00:51:02,870 --> 00:51:00,900
being concerned with UFOs and again he

1103
00:51:06,680 --> 00:51:02,880
didn't have a security clearance far as

1104
00:51:08,210 --> 00:51:06,690
I know no indication that he did and I

1105
00:51:11,450 --> 00:51:08,220
wonder if he really understands how

1106
00:51:14,690 --> 00:51:11,460
security works but in other words is

1107
00:51:17,630 --> 00:51:14,700
this disinformation off to the side to

1108
00:51:20,569 --> 00:51:17,640
create confusion so people stay away

1109
00:51:25,069 --> 00:51:20,579
from the good stuff that's a sensible

1110
00:51:27,440 --> 00:51:25,079
procedure you know why not just inform

1111
00:51:28,880 --> 00:51:27,450
you know but one thing I want to throw

1112
00:51:31,489 --> 00:51:28,890
out there and get your opinion on

1113
00:51:33,769 --> 00:51:31,499

because again I come at this whole thing

1114

00:51:36,380 --> 00:51:33,779

from a totally different perspective my

1115

00:51:38,960 --> 00:51:36,390

main interest is consciousness science

1116

00:51:41,059 --> 00:51:38,970

so we study near-death experience size

1117

00:51:43,370 --> 00:51:41,069

phenomena last time I had you on if I'd

1118

00:51:45,440 --> 00:51:43,380

you did a marvelous job of connecting us

1119

00:51:47,660 --> 00:51:45,450

to the Betty and Barney Hill case and

1120

00:51:50,599 --> 00:51:47,670

how that leads right into some of this

1121

00:51:52,190 --> 00:51:50,609

extended consciousness stuff that again

1122

00:51:55,130 --> 00:51:52,200

no one ever gives you credit for they

1123

00:51:57,499 --> 00:51:55,140

always say oh stands the nuts-and-bolts

1124

00:51:59,839 --> 00:51:57,509

saucer guy and that's all he knows and

1125

00:52:01,789 --> 00:51:59,849

that hasn't been my experience but let's

1126

00:52:04,249 --> 00:52:01,799

leave that aside for a minute and I'll

1127

00:52:07,279 --> 00:52:04,259

tell you when I hear somebody talk about

1128

00:52:10,460 --> 00:52:07,289

UFOs and they lead with and lean too

1129

00:52:13,640 --> 00:52:10,470

heavily on the technology component I'm

1130

00:52:16,729 --> 00:52:13,650

always a little bit leery I mean we're

1131

00:52:19,130 --> 00:52:16,739

talking about information that would

1132

00:52:21,650 --> 00:52:19,140

completely change our understanding of

1133

00:52:24,589 --> 00:52:21,660

who we are where we came from why we're

1134

00:52:26,720 --> 00:52:24,599

here and then you're gonna lead with oh

1135

00:52:29,660 --> 00:52:26,730

and it's gonna be free energy for your

1136

00:52:32,630 --> 00:52:29,670

car I mean it may be every energy but

1137

00:52:35,539 --> 00:52:32,640

the social implications are so much

1138

00:52:38,930 --> 00:52:35,549

bigger I do always feel like I'm being

1139

00:52:41,150 --> 00:52:38,940

distracted and I don't know I agree with

1140

00:52:43,849 --> 00:52:41,160

you I agree with you that there are a

1141

00:52:45,799 --> 00:52:43,859

lot of distractions out there and tech

1142

00:52:48,559 --> 00:52:45,809

now I'm keep telling people when I have

1143

00:52:50,900 --> 00:52:48,569

a chance God I'm convinced that the

1144

00:52:53,120 --> 00:52:50,910

aliens know I hacked a lot more about

1145

00:52:56,539 --> 00:52:53,130

the crazy stuff if you will

1146

00:52:59,539 --> 00:52:56,549

near-death experience is a mental

1147

00:53:01,279 --> 00:52:59,549

telepathy you know stuff like that that

1148

00:53:03,229 --> 00:53:01,289

the rest of the scientific community

1149

00:53:05,479 --> 00:53:03,239

doesn't want to deal with in general

1150

00:53:09,770 --> 00:53:05,489

there are a few guys who got guts but

1151

00:53:13,270 --> 00:53:09,780

not many and I'm convinced

1152

00:53:15,530 --> 00:53:13,280

that there is a lot we don't know and

1153

00:53:17,180 --> 00:53:15,540

part of it is because it's our

1154

00:53:22,130 --> 00:53:17,190

unwillingness to admit that we don't

1155

00:53:24,620 --> 00:53:22,140

know we're smart guys you know we know

1156

00:53:31,220 --> 00:53:24,630

what's going on don't we and frequently

1157

00:53:33,950 --> 00:53:31,230

the answer is no so I'm I don't think we

1158

00:53:36,920 --> 00:53:33,960

spend enough time looking at the

1159

00:53:39,440 --> 00:53:36,930

non-conventional aspect of UFO

1160

00:53:42,080 --> 00:53:39,450

technology if you will if you consider I

1161

00:53:44,690 --> 00:53:42,090

mean look how does a guy go through a

1162

00:53:47,090 --> 00:53:44,700

wall you know go through a window

1163

00:53:49,850 --> 00:53:47,100

without breaking the glass I don't know

1164

00:53:53,330 --> 00:53:49,860

how to do those things and that's weird

1165

00:53:54,650 --> 00:53:53,340

it's important you know it tells us that

1166

00:53:57,580 --> 00:53:54,660

there's a lot going on that we don't

1167

00:53:59,990 --> 00:53:57,590

know about but I'm in a sense

1168

00:54:01,970 --> 00:54:00,000

considering the primitive society we

1169

00:54:04,670 --> 00:54:01,980

have on this point I mean let's not

1170

00:54:06,230 --> 00:54:04,680

forget we killed 50 million people

1171

00:54:12,590 --> 00:54:06,240

during World War two

1172

00:54:16,070 --> 00:54:12,600

we destroyed 1700 cities could anybody

1173

00:54:19,880 --> 00:54:16,080

say were a nice guy mm-hmm I mean who

1174

00:54:24,200 --> 00:54:19,890

would want us out there and so I'm

1175

00:54:26,120 --> 00:54:24,210

convinced that there isn't evil use

1176

00:54:29,360 --> 00:54:26,130

could be made of a lot of this not just

1177

00:54:32,270 --> 00:54:29,370

the technology faster vehicles right

1178

00:54:35,840 --> 00:54:32,280

angle turns in all and soda stuff but

1179

00:54:39,070 --> 00:54:35,850

are these other things mental control of

1180

00:54:42,650 --> 00:54:39,080

others you know that scares me

1181

00:54:45,380 --> 00:54:42,660

let's kind of rule the roost here if we

1182

00:54:47,350 --> 00:54:45,390

give them half a chance Stan in general

1183

00:54:49,280 --> 00:54:47,360

how do you feel about this

1184

00:54:51,170 --> 00:54:49,290

characterization that I hear over and

1185

00:54:53,090 --> 00:54:51,180

over again and I said to you in the

1186

00:54:55,790 --> 00:54:53,100

email that you know just recently I had

1187

00:54:58,520 --> 00:54:55,800

the chance to interview Robby Graham

1188

00:55:01,970 --> 00:54:58,530

about his new book UFOs reframing the

1189

00:55:03,890 --> 00:55:01,980

debate a book that again says hey we

1190

00:55:06,920 --> 00:55:03,900

should be looking at this consciousness

1191

00:55:08,750 --> 00:55:06,930

model of UFOs I interviewed jock valet

1192

00:55:11,780 --> 00:55:08,760

maybe we can definitely talk more about

1193

00:55:13,850 --> 00:55:11,790

that if I can squeeze a few minutes when

1194

00:55:16,150 --> 00:55:13,860

I go through all those I continue to get

1195

00:55:20,360 --> 00:55:16,160

the characterization of Stan Freedman as

1196

00:55:21,830 --> 00:55:20,370

he's a guy who's just interested in nuts

1197

00:55:24,920 --> 00:55:21,840

and bolts and

1198

00:55:28,300 --> 00:55:24,930

the UFO field has moved on and it's

1199

00:55:31,520 --> 00:55:28,310

interested in experiences and

1200

00:55:34,430 --> 00:55:31,530

experiencers one how do you feel about

1201

00:55:36,680 --> 00:55:34,440

both how you're being characterized

1202

00:55:40,130 --> 00:55:36,690

there and how the field is being

1203

00:55:44,150 --> 00:55:40,140

characterized and whether the field has

1204

00:55:45,890 --> 00:55:44,160

and should move from worrying about nuts

1205

00:55:49,460 --> 00:55:45,900

and bolts sightings and that kind of

1206

00:55:52,970 --> 00:55:49,470

stuff to being interested in experiences

1207

00:55:54,890 --> 00:55:52,980

and experiences look I'm co-author of

1208

00:55:59,090 --> 00:55:54,900

the book captured the Betty and Barney

1209

00:56:01,070 --> 00:55:59,100

Hill UFO experience and certainly

1210

00:56:03,400 --> 00:56:01,080

convinced not only that the event took

1211

00:56:05,660 --> 00:56:03,410

place as described in the book but that

1212

00:56:09,530 --> 00:56:05,670

there's a lot going on there that isn't

1213

00:56:11,600 --> 00:56:09,540

really conventional and so yeah I guess

1214

00:56:15,680 --> 00:56:11,610

people call it a nuts and bolts guy some

1215

00:56:18,590 --> 00:56:15,690

people might just say plain nuts but I'm

1216

00:56:23,210 --> 00:56:18,600

convinced there is another aspect of the

1217

00:56:24,670 --> 00:56:23,220

phenomena that's very important not just

1218

00:56:27,380 --> 00:56:24,680

to Leppa thing

1219

00:56:29,780 --> 00:56:27,390

but being able to control other people

1220

00:56:31,970 --> 00:56:29,790

being able to exert control over parts

1221

00:56:34,360 --> 00:56:31,980

of the physics world physical world that

1222

00:56:37,850 --> 00:56:34,370

we don't really know how to deal with

1223

00:56:40,010 --> 00:56:37,860

like I say but I hear about people who

1224

00:56:41,890 --> 00:56:40,020

I've listened to tapes of people

1225

00:56:45,620 --> 00:56:41,900

reliving the experience of watching

1226

00:56:49,480 --> 00:56:45,630

aliens go through the walls and it's

1227

00:56:52,550 --> 00:56:49,490

scary I mean you know that's incredible

1228

00:56:54,260 --> 00:56:52,560

so I'm interested in that stuff but I

1229

00:56:56,720 --> 00:56:54,270

don't know what to do about that stuff

1230

00:56:59,870 --> 00:56:56,730

I'm a nuclear physicist okay I know what

1231

00:57:03,970 --> 00:56:59,880

to do about that but all this mental

1232

00:57:09,080 --> 00:57:03,980

stuff I find fascinating but again it's

1233

00:57:10,760 --> 00:57:09,090

I'm in physics not psychology yeah Stan

1234

00:57:11,900 --> 00:57:10,770

what do you think what do you think of

1235

00:57:15,080 --> 00:57:11,910

Jacques Vallee

1236

00:57:17,360 --> 00:57:15,090

I enjoyed the opportunity to interview

1237

00:57:19,970 --> 00:57:17,370

him just recently he's kind of made the

1238

00:57:24,020 --> 00:57:19,980

rounds again I think he has some really

1239

00:57:27,650 --> 00:57:24,030

interesting things to say then I love to

1240

00:57:30,050 --> 00:57:27,660

juxtapose those with some of your

1241

00:57:32,360 --> 00:57:30,060

thoughts and comments but first what do

1242

00:57:35,240 --> 00:57:32,370

you think of him in general you've had I

1243

00:57:38,540 --> 00:57:35,250

like him I've been in his

1244

00:57:40,760 --> 00:57:38,550

place in San Francisco I see him at

1245

00:57:42,590 --> 00:57:40,770

conferences from time to time and we

1246

00:57:46,070 --> 00:57:42,600

seem to get along very well

1247

00:57:48,260 --> 00:57:46,080

I won't characterize how he thinks to me

1248

00:57:50,510 --> 00:57:48,270

because I don't know but we seem to have

1249

00:57:54,560 --> 00:57:50,520

hit it off pretty well I think he's a

1250

00:57:56,450 --> 00:57:54,570

very bright guy and you know he suffers

1251
00:58:00,380 --> 00:57:56,460
from association with astronomers what

1252
00:58:02,390 --> 00:58:00,390
can I say well astronomers you know

1253
00:58:04,940 --> 00:58:02,400
don't know anything about deep space

1254
00:58:07,040 --> 00:58:04,950
travel they don't know anything about

1255
00:58:07,550 --> 00:58:07,050
security in general it's nothing like

1256
00:58:10,430 --> 00:58:07,560
that

1257
00:58:12,800 --> 00:58:10,440
so they're cut off from an important

1258
00:58:15,530 --> 00:58:12,810
part of the UFO world but I think

1259
00:58:18,410 --> 00:58:15,540
Jacques has done a great deal he's

1260
00:58:21,500 --> 00:58:18,420
written several interesting books and

1261
00:58:25,460 --> 00:58:21,510
he's quite good at getting people

1262
00:58:27,050 --> 00:58:25,470
interested in what's going on but coming

1263
00:58:31,070 --> 00:58:27,060

at it from an entirely different side of

1264

00:58:35,030 --> 00:58:31,080

the world than I am in most senses you

1265

00:58:37,220 --> 00:58:35,040

know yeah I'm nuts and bolts okay no I

1266

00:58:39,520 --> 00:58:37,230

think he's one of our leading lights I

1267

00:58:42,440 --> 00:58:39,530

mean he's getting old so am i you know

1268

00:58:44,210 --> 00:58:42,450

but and he's been around a long time and

1269

00:58:46,220 --> 00:58:44,220

I give him credit for sticking to it I

1270

00:58:48,770 --> 00:58:46,230

give you credit for sticking to it and I

1271

00:58:50,840 --> 00:58:48,780

think you don't get enough credit I mean

1272

00:58:54,020 --> 00:58:50,850

look at this we've been going at it for

1273

00:58:57,290 --> 00:58:54,030

an hour you are on is top of your game

1274

00:58:59,420 --> 00:58:57,300

as you were the last time I talked to

1275

00:59:01,670 --> 00:58:59,430

you five years ago and I can go listen

1276

00:59:04,580 --> 00:59:01,680

to an interview with you 15 years ago

1277

00:59:08,330 --> 00:59:04,590

you're moving forward you're on top of

1278

00:59:09,650 --> 00:59:08,340

the issues III I think that's fantastic

1279

00:59:23,740 --> 00:59:09,660

I think it's a you're a fantastic

1280

00:59:29,000 --> 00:59:27,560

anticipate it's the truth it's the truth

1281

00:59:32,780 --> 00:59:29,010

but let me let me come let me tie that

1282

00:59:35,960 --> 00:59:32,790

let me tie that to valet because I found

1283

00:59:37,700 --> 00:59:35,970

and and to my surprise and I think a lot

1284

00:59:38,090 --> 00:59:37,710

of people were looking for something

1285

00:59:41,810 --> 00:59:38,100

else

1286

00:59:45,170 --> 00:59:41,820

I found a lot of similarities in where

1287

00:59:48,050 --> 00:59:45,180

Jacques Vallee is today with some of the

1288

00:59:49,420 --> 00:59:48,060

things that you're expressing one valet

1289

00:59:57,630 --> 00:59:49,430

underst

1290

01:00:01,210 --> 00:59:57,640

that you know maybe as troublesome as

1291

01:00:04,000 --> 01:00:01,220

misinformation and deception is that

1292

01:00:06,340 --> 01:00:04,010

it's part of the package and conspiracy

1293

01:00:08,740 --> 01:00:06,350

comes with the territory and you know he

1294

01:00:10,690 --> 01:00:08,750

also was a venture capitalist in Silicon

1295

01:00:12,550 --> 01:00:10,700

Valley you can't be a venture capitalist

1296

01:00:14,410 --> 01:00:12,560

in Silicon Valley and that be knee-deep

1297

01:00:18,180 --> 01:00:14,420

in conspiracy every day that's your

1298

01:00:24,730 --> 01:00:21,900

but also just on in terms of you know

1299

01:00:27,010 --> 01:00:24,740

you ask valet and and again you know

1300

01:00:28,810 --> 01:00:27,020

people ask him about MUFON you know and

1301

01:00:30,880 --> 01:00:28,820

again he's misunderstood as somebody who

1302

01:00:32,200 --> 01:00:30,890

says oh we should move past sightings

1303

01:00:34,480 --> 01:00:32,210

and all the rest this he says the

1304

01:00:37,000 --> 01:00:34,490

opposite he says oh no that's important

1305

01:00:40,150 --> 01:00:37,010

work we should continue all that work so

1306

01:00:43,240 --> 01:00:40,160

I see him as somebody who has one foot

1307

01:00:46,000 --> 01:00:43,250

firmly planted in the nuts and bolts if

1308

01:00:48,940 --> 01:00:46,010

you will because that's the data that we

1309

01:00:51,850 --> 01:00:48,950

can at least kind of get our arms around

1310

01:00:54,520 --> 01:00:51,860

a little bit and another foot in this

1311

01:00:56,710 --> 01:00:54,530

big question mark area the mental

1312

01:00:59,890 --> 01:00:56,720

phenomenon part that you're kind of

1313

01:01:01,810 --> 01:00:59,900

talking about and yeah I see him having

1314

01:01:04,840 --> 01:01:01,820

a the similar kind of balanced approach

1315

01:01:08,110 --> 01:01:04,850

only with an emphasis on maybe some

1316

01:01:10,360 --> 01:01:08,120

areas that he's more comfortable with in

1317

01:01:12,250 --> 01:01:10,370

terms of exploring on the mental and

1318

01:01:16,000 --> 01:01:12,260

psychological side because he's chosen

1319

01:01:18,670 --> 01:01:16,010

to focus on that well I think I agree

1320

01:01:20,410 --> 01:01:18,680

with you and I think he's one of the

1321

01:01:22,840 --> 01:01:20,420

leaders of the field he doesn't make a

1322

01:01:27,430 --> 01:01:22,850

lot of noise anymore in these days but

1323

01:01:29,200 --> 01:01:27,440

he shows up at conferences and I respect

1324

01:01:33,430 --> 01:01:29,210

his opinions I don't say that about

1325

01:01:38,200 --> 01:01:33,440

everybody the truth so Jacques is a good

1326

01:01:41,530 --> 01:01:38,210

person as far as I'm concerned what do

1327

01:01:45,610 --> 01:01:41,540

you make in in a more broad sense about

1328

01:01:48,340 --> 01:01:45,620

where the UFO field seems to be heading

1329

01:01:50,950 --> 01:01:48,350

and I know that's a really general term

1330

01:01:53,850 --> 01:01:50,960

but I mentioned a minute ago that there

1331

01:01:57,070 --> 01:01:53,860

has been this move towards consciousness

1332

01:02:00,580 --> 01:01:57,080

attaching consciousness to UFOs and you

1333

01:02:03,070 --> 01:02:00,590

hear that as this kind of a a meme

1334

01:02:05,530 --> 01:02:03,080

do you what do you make of that in

1335

01:02:08,680 --> 01:02:05,540

general or what did you make of the

1336

01:02:12,100 --> 01:02:08,690

direction that the UFO community seems

1337

01:02:15,730 --> 01:02:12,110

to be heading in in other ways well I I

1338

01:02:18,100 --> 01:02:15,740

think we sometimes give the community to

1339

01:02:21,040 --> 01:02:18,110

make it in capital letters the community

1340

01:02:23,410 --> 01:02:21,050

right it's a whole bunch of little

1341

01:02:26,620 --> 01:02:23,420

people who have different views and

1342

01:02:30,460 --> 01:02:26,630

different purposes different reasons for

1343

01:02:32,830 --> 01:02:30,470

doing what they're doing I think one of

1344

01:02:35,170 --> 01:02:32,840

the things that's changed as I indicated

1345

01:02:37,630 --> 01:02:35,180

earlier is that we're now where they're

1346

01:02:40,390 --> 01:02:37,640

probably planets all over the place out

1347

01:02:42,940 --> 01:02:40,400

there and that changes things we're not

1348

01:02:47,740 --> 01:02:42,950

special you know we're not the only ones

1349

01:02:51,700 --> 01:02:47,750

and I think you know I hate to keep

1350

01:02:54,670 --> 01:02:51,710

reminding people that if you're into

1351

01:02:57,640 --> 01:02:54,680

nuclear fusion you're into deep space

1352

01:02:59,230 --> 01:02:57,650

travel as well as destruction and people

1353

01:03:02,020 --> 01:02:59,240

are shocked when I say we have exploded

1354

01:03:04,180 --> 01:03:02,030

mm a clear weapons on this planet people

1355

01:03:07,150 --> 01:03:04,190

look at me what do you mean Stan yeah

1356

01:03:09,490 --> 01:03:07,160

that's right look it up mm nuclear

1357

01:03:11,530 --> 01:03:09,500

weapons that would tell anybody in the

1358

01:03:15,040 --> 01:03:11,540

neighborhood that we're capable if we

1359

01:03:19,450 --> 01:03:15,050

choose to do so to go out and bother

1360

01:03:21,940 --> 01:03:19,460

them and that's a you know a serious

1361

01:03:25,020 --> 01:03:21,950

notion gonna watch out for those damn

1362

01:03:27,850 --> 01:03:25,030

Earthlings you know they're bad guys

1363

01:03:30,640 --> 01:03:27,860

they had no qualms about building

1364

01:03:33,070 --> 01:03:30,650

weapons of mass destruction all right

1365

01:03:34,660 --> 01:03:33,080

and without seeming to be concerned

1366

01:03:36,310 --> 01:03:34,670

about helping the people live a better

1367

01:03:38,710 --> 01:03:36,320

life you know improving the status of

1368

01:03:41,890 --> 01:03:38,720

the planet and all that sort of stuff so

1369

01:03:46,030 --> 01:03:41,900

I think there are some aspects here that

1370

01:03:47,710 --> 01:03:46,040

we need to do more looking at and I

1371

01:03:51,270 --> 01:03:47,720

think some people who want to move away

1372

01:03:54,450 --> 01:03:51,280

from nuts and bolts are forgetting that

1373

01:03:58,240 --> 01:03:54,460

they're an important part of our society

1374

01:03:59,530 --> 01:03:58,250

you know when I show people slides of an

1375

01:04:02,350 --> 01:03:59,540

aircraft carrier nuclear-powered

1376

01:04:04,300 --> 01:04:02,360

aircraft carrier and point out that you

1377

01:04:07,300 --> 01:04:04,310

realize that this big ol monsters

1378

01:04:12,210 --> 01:04:07,310

thousand feet long 1,100 feet long can

1379

01:04:14,190 --> 01:04:12,220

operate for 18 years without refueling

1380

01:04:17,460 --> 01:04:14,200

people look at me what

1381

01:04:20,970 --> 01:04:17,470

I said yeah 18 years that makes a

1382

01:04:25,050 --> 01:04:20,980

difference if somebody's got that kind

1383

01:04:26,730 --> 01:04:25,060

of capability and it's there more than

1384

01:04:30,390 --> 01:04:26,740

one country has built-in the comparator

1385

01:04:33,240 --> 01:04:30,400

crackers so there is technology there

1386

01:04:35,310 --> 01:04:33,250

that cannot be sneezed at

1387

01:04:36,300 --> 01:04:35,320

you know if you're a ship captain some

1388

01:04:38,099 --> 01:04:36,310

bees are getting to worry about

1389

01:04:41,069 --> 01:04:38,109

refueling in Philly ten years from now

1390

01:04:43,200 --> 01:04:41,079

he says what I thought I have to worry

1391

01:04:47,970 --> 01:04:43,210

after a few months maybe out on the

1392

01:04:51,410 --> 01:04:47,980

ocean so I I think there are things here

1393

01:04:55,500 --> 01:04:51,420

that need to be taken into consideration

1394

01:04:58,680 --> 01:04:55,510

attitudes about killing people about

1395

01:05:01,829 --> 01:04:58,690

being decent to people about learning

1396

01:05:04,050 --> 01:05:01,839

about our local neighborhood we have not

1397

01:05:07,680 --> 01:05:04,060

made a real effort to do that as far as

1398

01:05:09,630 --> 01:05:07,690

I'm concerned and I wish we would and

1399

01:05:12,680 --> 01:05:09,640

that that's not just the nuts and bolts

1400

01:05:15,690 --> 01:05:12,690

oh I'm talking about the mental stuff

1401

01:05:17,099 --> 01:05:15,700

which i think is very exciting but I

1402

01:05:20,569 --> 01:05:17,109

don't pretend to be an expert at that

1403

01:05:25,290 --> 01:05:20,579

I'm a physicist you know what can I say

1404

01:05:27,120 --> 01:05:25,300

well I think you can say quite a bit you

1405

01:05:30,270 --> 01:05:27,130

have said it and I certainly appreciate

1406

01:05:32,910 --> 01:05:30,280

it Stan tell folks what you're up to

1407

01:05:36,540 --> 01:05:32,920

nowadays where they can find out more

1408

01:05:39,839 --> 01:05:36,550

about what your have done and what you

1409

01:05:42,630 --> 01:05:39,849

continue to do well the easiest way it

1410

01:05:46,770 --> 01:05:42,640

is to go to my website triple w dot

1411

01:05:50,099 --> 01:05:46,780

Stanton Friedman dot-com that's Fri e DM

1412

01:05:52,140 --> 01:05:50,109

aen comm and that lists from my books it

1413

01:05:55,160 --> 01:05:52,150

says forthcoming I'll be giving a talk

1414

01:05:58,650 --> 01:05:55,170

in Little Rock Arkansas in a three weeks

1415

01:06:00,990 --> 01:05:58,660

I'll be a new fun of course I'll be

1416

01:06:05,940 --> 01:06:01,000

talking in Eureka Springs Arkansas in

1417

01:06:07,440 --> 01:06:05,950

April after that I don't know it's the

1418

01:06:10,890 --> 01:06:07,450

first year or I haven't had a lot of

1419

01:06:12,420 --> 01:06:10,900

bookings inches well into the future and

1420

01:06:14,900 --> 01:06:12,430

I'm not trying to cut them while getting

1421

01:06:18,900 --> 01:06:14,910

old it's getting more difficult you know

1422

01:06:20,700 --> 01:06:18,910

and I haven't yet talked about writing

1423

01:06:23,640 --> 01:06:20,710

another book Cathleen Martin and I have

1424

01:06:26,220 --> 01:06:23,650

done three books which I enjoyed working

1425

01:06:27,510 --> 01:06:26,230

with her different viewpoint but very

1426

01:06:30,300 --> 01:06:27,520

bright

1427

01:06:34,170 --> 01:06:30,310

sharp so you know maybe it's time to

1428

01:06:39,690 --> 01:06:34,180

write another book maybe a personal book

1429

01:06:42,840 --> 01:06:39,700

I don't know but I'm enjoying giant

1430

01:06:44,370 --> 01:06:42,850

being old in the sense that I am still

1431

01:06:49,010 --> 01:06:44,380

able to get around I'm still able to

1432

01:06:54,360 --> 01:06:49,020

think I haven't given in to Mr Al Shimer

1433

01:06:56,760 --> 01:06:54,370

yet I won't guarantee that so if they

1434

01:07:00,270 --> 01:06:56,770

look at my website all the books I send

1435

01:07:02,280 --> 01:07:00,280

out I autograph personally I'm a one-man

1436

01:07:04,190 --> 01:07:02,290

operation I don't have a system to do

1437

01:07:08,280 --> 01:07:04,200

all this stuff

1438

01:07:10,500 --> 01:07:08,290

maybe that's what keeps me younger doing

1439

01:07:14,280 --> 01:07:10,510

my thing I'll be celebrating my 84th

1440

01:07:22,460 --> 01:07:14,290

birthday in July me and Benito Mussolini

1441

01:07:27,960 --> 01:07:25,500

reaches grouping there it's been

1442

01:07:31,950 --> 01:07:27,970

absolutely great having him on please

1443

01:07:35,070 --> 01:07:31,960

allow me if I need to to call on you in

1444

01:07:37,440 --> 01:07:35,080

anything I refer me to refresh something

1445

01:07:40,260 --> 01:07:37,450

and bring us all up to date on what's

1446

01:07:44,790 --> 01:07:40,270

going on in this fascinating fascinating

1447

01:07:48,690 --> 01:07:44,800

world of UFO so thanks again my pleasure

1448

01:07:50,250 --> 01:07:48,700

I look forward to it thank you thanks

1449

01:07:52,020 --> 01:07:50,260

again to stay in Friedman for joining me

1450

01:07:55,520 --> 01:07:52,030

today on skeptic oh I guess the one

1451

01:07:58,880 --> 01:07:55,530

question i tee up from this interview is

1452

01:08:03,630 --> 01:07:58,890

should we be looking at the

1453

01:08:08,460 --> 01:08:03,640

consciousness linked to UFOs for more of

1454

01:08:12,270 --> 01:08:08,470

a technology perspective is this yet

1455

01:08:15,690 --> 01:08:12,280

another thing that the aliens have

1456

01:08:18,450 --> 01:08:15,700

figured out how to do and that we can't

1457

01:08:21,660 --> 01:08:18,460

quite do yet but once we get there it's

1458

01:08:25,559 --> 01:08:21,670

all just a matter of engineering more or

1459

01:08:28,130 --> 01:08:25,569

less so and E's working in the astral

1460

01:08:30,690 --> 01:08:28,140

realm of psychedelics telepathy

1461

01:08:33,990 --> 01:08:30,700

certainly all that stuff maybe it's just

1462

01:08:36,450 --> 01:08:34,000

technology it's an interesting angle to

1463

01:08:38,490 --> 01:08:36,460

consider so let me know your thoughts on

1464

01:08:40,219 --> 01:08:38,500

that any way you want to reach me is

1465

01:08:42,559 --> 01:08:40,229

fine I

1466

01:08:45,079 --> 01:08:42,569

of course to always do the skeptical

1467

01:08:48,019 --> 01:08:45,089

form where you'll have the best chance

1468

01:08:50,629 --> 01:08:48,029

of giving getting an answer but anyway

1469

01:08:52,459 --> 01:08:50,639

you want to reach me is fine and of

1470

01:08:55,609 --> 01:08:52,469

course as always do check out the

1471

01:08:57,890 --> 01:08:55,619

skeptic Co website approaching four

1472

01:08:59,899 --> 01:08:57,900

hundred of these kind of interviews if

1473

01:09:03,140 --> 01:08:59,909

you like this one at all or if you like

1474

01:09:05,539 --> 01:09:03,150

consciousness science skepticism that

1475

01:09:07,699 --> 01:09:05,549

kind of stuff and kind of calling out

1476

01:09:09,469 --> 01:09:07,709

the pseudo scepticism that is so much a

1477

01:09:12,769 --> 01:09:09,479

part of science well then you'll

1478

01:09:15,199 --> 01:09:12,779

probably like skeptic oh so do check it

1479

1484

01:09:43,080 --> 01:09:40,480
