Ontology

1
00:00:04,610 --> 00:00:02,360
yeah when we talk about ontology we can

2
00:00:07,190 --> 00:00:04,620
take it in two different ways we can

3
00:00:09,890 --> 00:00:07,200
take it in the philosophical sense of an

4
00:00:13,370 --> 00:00:09,900
inquiry or a study into the nature of

5
00:00:15,460 --> 00:00:13,380
being so thinking about what exists and

6
00:00:18,849 --> 00:00:15,470
then we can take it in the kind of

7
00:00:21,260 --> 00:00:18,859
anthropological sense as referring to

8
00:00:24,679 --> 00:00:21,270
kind of like a set of things that a

9
00:00:26,480 --> 00:00:24,689
particular group of people holds that

10
00:00:28,160 --> 00:00:26,490
exists if that makes sense

11
00:00:30,620 --> 00:00:28,170
so some people have said that when we

12
00:00:32,930 --> 00:00:30,630
talk about ontology in anthropology what

13
00:00:35,720 --> 00:00:32,940

we're really talking about is it's just

14

00:00:38,510 --> 00:00:35,730

another word for culture or worldview

15

00:00:40,160 --> 00:00:38,520

but actually it's more than that we're

16

00:00:43,130 --> 00:00:40,170

not just talking about beliefs that

17

00:00:45,170 --> 00:00:43,140

we're talking about kind of whole world

18

00:00:47,090 --> 00:00:45,180

Mazzone e'en shamanic Society for

19

00:00:50,170 --> 00:00:47,100

example is going to contain a whole load

20

00:00:55,819 --> 00:00:50,180

of other kinds of entities beings

21

00:00:58,060 --> 00:00:55,829

different kinds of things to a kind of

22

00:01:00,410 --> 00:00:58,070

Western materialist ontology

23

00:01:03,889 --> 00:01:00,420

so yeah that's what an ontology is it's

24

00:01:05,980 --> 00:01:03,899

a it's the the sum of all the things
