1  
00:00:09,770 --> 00:00:07,760  
welcome to skeptic Oh where we explore

2  
00:00:12,320 --> 00:00:09,780  
controversial science and spirituality

3  
00:00:13,190 --> 00:00:12,330  
with leading researchers thinkers and

4  
00:00:16,250 --> 00:00:13,200  
their critics

5  
00:00:18,290 --> 00:00:16,260  
I'm your host Alex Icarus and I have an

6  
00:00:19,730 --> 00:00:18,300  
interview coming up in a minute with

7  
00:00:21,830 --> 00:00:19,740  
this gentleman you can see on the screen

8  
00:00:22,370 --> 00:00:21,840  
if you're watching his name is Bruce

9  
00:00:25,939 --> 00:00:22,380  
Fenton

10  
00:00:29,660 --> 00:00:25,949  
and during the interview I'm gonna do my

11  
00:00:32,540 --> 00:00:29,670  
best to shoot down his theories I've

12  
00:00:34,340 --> 00:00:32,550  
lined up a couple of points but I gotta

13  
00:00:37,790 --> 00:00:34,350

warn you that at the end of the day I'm

14

00:00:41,709 --> 00:00:37,800

going to probably have to admit that I

15

00:00:45,560 --> 00:00:41,719

can't and that's a huge problem because

16

00:00:48,049 --> 00:00:45,570

Bruce Fenton and his wife Daniela claim

17

00:00:50,900 --> 00:00:48,059

to have done with their research is

18

00:00:54,170 --> 00:00:50,910

nothing less than crack the code on

19

00:00:58,040 --> 00:00:54,180

human evolution crack the code on our

20

00:01:00,590 --> 00:00:58,050

origins and done it in a way that I

21

00:01:04,729 --> 00:01:00,600

gotta say it will completely upset

22

00:01:07,580 --> 00:01:04,739

everything you think you know about the

23

00:01:11,690 --> 00:01:07,590

whole out of Africa thing the Darwin

24

00:01:14,810 --> 00:01:11,700

thing and even more significantly than

25

00:01:17,780 --> 00:01:14,820

who we are why are we here thing so like

26  
00:01:21,280 --> 00:01:17,790  
I said I'm gonna plow forward I'm gonna

27  
00:01:26,359 --> 00:01:21,290  
do my best but I just have to warn you

28  
00:01:28,609 --> 00:01:26,369  
your world may shift rather radically

29  
00:01:31,819 --> 00:01:28,619  
about an hour an hour and a half from

30  
00:01:33,770 --> 00:01:31,829  
now a Bruce welcome to skeptic oh it's

31  
00:01:36,289 --> 00:01:33,780  
been so great getting to know you and

32  
00:01:38,179 --> 00:01:36,299  
thanks so much for joining thank you sir

33  
00:01:40,850 --> 00:01:38,189  
pleasure really looking forward to the

34  
00:01:43,700 --> 00:01:40,860  
chat and hopefully everyone gets

35  
00:01:45,200 --> 00:01:43,710  
something out of it great well I've been

36  
00:01:47,149 --> 00:01:45,210  
leaving up on the screen there's

37  
00:01:50,359 --> 00:01:47,159  
Skeptical jeopardy board which is a

38  
00:01:53,960 --> 00:01:50,369

little game I like to play but let me

39

00:01:58,639 --> 00:01:53,970

back up and maybe you could give us a

40

00:02:00,530 --> 00:01:58,649

brief bio of you we could go on and on

41

00:02:02,300 --> 00:02:00,540

it's just an amazing your personal

42

00:02:05,870 --> 00:02:02,310

experience is amazing on a lot of

43

00:02:08,479 --> 00:02:05,880

different levels both in terms of what

44

00:02:10,190 --> 00:02:08,489

you've experienced experienced in the

45

00:02:12,559 --> 00:02:10,200

way that people talk about experiences

46

00:02:13,380 --> 00:02:12,569

and strange experiences but also just in

47

00:02:15,510 --> 00:02:13,390

terms of your

48

00:02:18,960 --> 00:02:15,520

perience in terms of doing real research

49

00:02:20,370 --> 00:02:18,970

in interfacing with science and all that

50

00:02:22,980 --> 00:02:20,380

stuff and then we could get into

51  
00:02:25,890 --> 00:02:22,990  
Daniella your wife and some of the

52  
00:02:27,600 --> 00:02:25,900  
strangeness of that I I do want to bring

53  
00:02:29,220 --> 00:02:27,610  
it back to three books because we're not

54  
00:02:31,980 --> 00:02:29,230  
going to specifically talk about these

55  
00:02:36,090 --> 00:02:31,990  
books during the show but we're gonna

56  
00:02:37,830 --> 00:02:36,100  
pick out pieces so I played a lot on the

57  
00:02:39,210 --> 00:02:37,840  
table there to unpack but tell us a

58  
00:02:42,120 --> 00:02:39,220  
little bit about who you are and maybe

59  
00:02:45,449 --> 00:02:42,130  
what these books are all about yeah I

60  
00:02:48,570 --> 00:02:45,459  
mean I in terms of research and an

61  
00:02:52,259 --> 00:02:48,580  
interest in I suppose mysterious

62  
00:02:54,240 --> 00:02:52,269  
subjects with the ancient mysteries the

63  
00:02:57,479 --> 00:02:54,250

workings of human consciousness you know

64

00:02:58,890 --> 00:02:57,489

and a lot of other things you know my

65

00:03:01,440 --> 00:02:58,900

beginnings in that go back to perhaps

66

00:03:03,540 --> 00:03:01,450

eleven years old I remember having a a

67

00:03:06,540 --> 00:03:03,550

collection of cards called the ancient

68

00:03:08,490 --> 00:03:06,550

mysteries of the world set which they

69

00:03:10,470 --> 00:03:08,500

came free with tea leaves my grandmother

70

00:03:11,910 --> 00:03:10,480

would buy and she'd give me these cards

71

00:03:13,229 --> 00:03:11,920

and they they just got me in you know an

72

00:03:15,420 --> 00:03:13,239

interest in these topics represe like

73

00:03:17,160 --> 00:03:15,430

crystal skulls pyramids you know lake

74

00:03:18,720 --> 00:03:17,170

monsters all the strange things that you

75

00:03:21,930 --> 00:03:18,730

know we're all probably familiar with

76

00:03:23,789 --> 00:03:21,940

from mysteries and occult and all the

77

00:03:25,440 --> 00:03:23,799

rest oh well that's pretty well said I

78

00:03:28,470 --> 00:03:25,450

feel interested but in terms of real

79

00:03:30,180 --> 00:03:28,480

research I guess probably from about 20

80

00:03:32,430 --> 00:03:30,190

onwards you know beyond tree dive into

81

00:03:35,880 --> 00:03:32,440

the literature on particularly ancient

82

00:03:37,470 --> 00:03:35,890

mysteries it was their lost civilization

83

00:03:40,229 --> 00:03:37,480

you know that kind of sighted really

84

00:03:44,280 --> 00:03:40,239

drew me in you know Egypt the pyramids

85

00:03:49,050 --> 00:03:44,290

etc I mean in terms of my academic

86

00:03:51,470 --> 00:03:49,060

background I'm an IT grad so not not an

87

00:03:53,640 --> 00:03:51,480

archaeologist or an anthropologist

88

00:03:55,229 --> 00:03:53,650

however that that has given me some

89

00:03:57,390 --> 00:03:55,239

useful skills dealing with information

90

00:03:59,640 --> 00:03:57,400

and the flow of information but I was in

91

00:04:03,300 --> 00:03:59,650

a different way and also when we come to

92

00:04:05,460 --> 00:04:03,310

the matter of DNA you know from an ite

93

00:04:09,300 --> 00:04:05,470

person's perspective you know we tend to

94

00:04:10,229 --> 00:04:09,310

look at DNA code you know as code you

95

00:04:12,630 --> 00:04:10,239

know I know there's some people will

96

00:04:15,750 --> 00:04:12,640

argue that DNA is not true code but we

97

00:04:18,659 --> 00:04:15,760

just call it that and I would say it is

98

00:04:21,080 --> 00:04:18,669

a drew code you know so that's where my

99

00:04:24,570 --> 00:04:21,090

position also yeah I've done a lot of

100

00:04:26,159 --> 00:04:24,580

traveling to various strange places

101  
00:04:27,270 --> 00:04:26,169  
around the world you know the Science

102  
00:04:29,880 --> 00:04:27,280  
Channel I went out to the

103  
00:04:32,280 --> 00:04:29,890  
caucuses in Georgia to hunt for giant

104  
00:04:34,380 --> 00:04:32,290  
bones that was quite a that was quite an

105  
00:04:36,900 --> 00:04:34,390  
adventure I've been into the Amazon

106  
00:04:39,840 --> 00:04:36,910  
jungle to explore a megalithic complex

107  
00:04:42,270 --> 00:04:39,850  
there which is from an unknown culture

108  
00:04:45,600 --> 00:04:42,280  
and lots of other things you have Mayan

109  
00:04:47,100 --> 00:04:45,610  
sites the pyramids so yeah I've been

110  
00:04:48,840 --> 00:04:47,110  
boots on the ground you know going to

111  
00:04:51,240 --> 00:04:48,850  
some of the interesting places in the

112  
00:04:54,090 --> 00:04:51,250  
world and also delving into the academic

113  
00:04:56,460 --> 00:04:54,100

literature as well so great and you did

114

00:04:59,400 --> 00:04:56,470

a nice job and we could kind of go on

115

00:05:00,810 --> 00:04:59,410

and on there about stuff but when people

116

00:05:04,620 --> 00:05:00,820

read your book what they're gonna find

117

00:05:08,190 --> 00:05:04,630

is you're really smart guy and you go

118

00:05:11,490 --> 00:05:08,200

toe to toe with the paleontologist and

119

00:05:13,770 --> 00:05:11,500

the anthropologist and you crush them

120

00:05:14,940 --> 00:05:13,780

and you've done your best you know

121

00:05:17,159 --> 00:05:14,950

you've shown me some of the email

122

00:05:19,770 --> 00:05:17,169

exchanges you had with some of those

123

00:05:20,940 --> 00:05:19,780

scientists who some of them are pretty

124

00:05:23,250 --> 00:05:20,950

nice and they've come to you and I said

125

00:05:25,980 --> 00:05:23,260

well Bruce I'm blown away by what you've

126

00:05:29,280 --> 00:05:25,990

written but it's quite a testament to

127

00:05:31,680 --> 00:05:29,290

two things one what a single person can

128

00:05:34,350 --> 00:05:31,690

do how they can make a difference in

129

00:05:36,810 --> 00:05:34,360

without the quote-unquote proper

130

00:05:39,990 --> 00:05:36,820

credentials or without you know being

131

00:05:42,390 --> 00:05:40,000

inside an institution that protects them

132

00:05:45,030 --> 00:05:42,400

and all that you can still make a

133

00:05:46,710 --> 00:05:45,040

difference out there and the other thing

134

00:05:51,060 --> 00:05:46,720

that we'll talk about as part of that is

135

00:05:53,969 --> 00:05:51,070

just how corrupt but also inept academic

136

00:05:56,400 --> 00:05:53,979

process that we lean on how doesn't

137

00:05:58,980 --> 00:05:56,410

serve our purpose doesn't serve us

138

00:06:02,250 --> 00:05:58,990

answering these deeper questions of who

139

00:06:04,260 --> 00:06:02,260

are we and why are we here and it's

140

00:06:06,390 --> 00:06:04,270

failed us over and over again and I

141

00:06:09,090 --> 00:06:06,400

think your books are evidence of that

142

00:06:12,450 --> 00:06:09,100

can you give us a just a very brief

143

00:06:15,900 --> 00:06:12,460

sketch of these three books that I have

144

00:06:19,800 --> 00:06:15,910

pictured up here on the screen sure yeah

145

00:06:21,300 --> 00:06:19,810

the the in trafficker book which is in

146

00:06:24,270 --> 00:06:21,310

the theory my sort of theory of

147

00:06:26,130 --> 00:06:24,280

evolution this was complete I told The

148

00:06:29,159 --> 00:06:26,140

Forgotten Exodus the into Africa theory

149

00:06:32,250 --> 00:06:29,169

of human evolution that book really came

150

00:06:33,719 --> 00:06:32,260

out of the work I was doing in Ecuador

151

00:06:36,570 --> 00:06:33,729

when I was exploring this megalithic

152

00:06:39,060 --> 00:06:36,580

site now seemingly strange but what I

153

00:06:40,959 --> 00:06:39,070

uncovered was a link to a people called

154

00:06:43,509 --> 00:06:40,969

de lagoa santa down in Peru

155

00:06:46,539 --> 00:06:43,519

no they are quite mysterious but they

156

00:06:48,759 --> 00:06:46,549

seem to be the first Americans and what

157

00:06:51,429 --> 00:06:48,769

you find is their morphology this skull

158

00:06:53,949 --> 00:06:51,439

structure resembles out of Aboriginal

159

00:06:55,600 --> 00:06:53,959

Australians now that was anomalous you

160

00:06:58,479 --> 00:06:55,610

was fun this incites down in Brazil that

161

00:07:00,100 --> 00:06:58,489

seems to be around forty fifty thousand

162

00:07:02,829 --> 00:07:00,110

years old now that's hugely

163

00:07:04,929 --> 00:07:02,839

controversial I mean as you'll know most

164

00:07:07,449 --> 00:07:04,939

people know it's been hard enough for

165

00:07:09,819 --> 00:07:07,459

academics to let go of the Clovis first

166

00:07:11,649 --> 00:07:09,829

model with with a first arrival of

167

00:07:14,199 --> 00:07:11,659

modern humans to the Americas around

168

00:07:18,219 --> 00:07:14,209

13,000 years ago which at this point

169

00:07:21,999 --> 00:07:18,229

it's overwhelming it stacks up here and

170

00:07:23,439 --> 00:07:22,009

there absolutely I love what what you

171

00:07:24,609 --> 00:07:23,449

just said is really important and I'm

172

00:07:26,829 --> 00:07:24,619

sorry to interrupt but I want to

173

00:07:29,259 --> 00:07:26,839

highlight that no matter how much the

174

00:07:32,319 --> 00:07:29,269

evidence piles up they will not let go

175

00:07:34,659 --> 00:07:32,329

of that at least a large portion of that

176

00:07:37,029 --> 00:07:34,669

community will not let go of them it's

177

00:07:40,659 --> 00:07:37,039

been yeah they've they fought the change

178

00:07:42,399 --> 00:07:40,669

tooth and nail and even now where it's

179

00:07:43,959 --> 00:07:42,409

becoming very clear and that they're

180

00:07:46,179 --> 00:07:43,969

having to acknowledge that there were

181

00:07:49,049 --> 00:07:46,189

there were some settlements that are

182

00:07:51,729 --> 00:07:49,059

pre-clovis that they are still resisting

183

00:07:53,589 --> 00:07:51,739

incorporating the older sites right so

184

00:07:55,259 --> 00:07:53,599

those recently you may have seen there

185

00:07:58,299 --> 00:07:55,269

was a news story they had a site about

186

00:08:00,489 --> 00:07:58,309

15,000 to 16,000 years old and it Wow

187

00:08:02,889 --> 00:08:00,499

it's you know one of the earliest sites

188

00:08:05,559 --> 00:08:02,899

in the Americas well only if you

189

00:08:08,559 --> 00:08:05,569

disregard a whole list of other sites

190

00:08:10,779 --> 00:08:08,569

that have been well dated but are just

191

00:08:13,179 --> 00:08:10,789

too controversial for those those

192

00:08:15,399 --> 00:08:13,189

skeptical you know conservatives in

193

00:08:17,589 --> 00:08:15,409

academia who say well no no we can't be

194

00:08:20,799 --> 00:08:17,599

can't be going straight back to 40,000

195

00:08:24,249 --> 00:08:20,809

or 50,000 you know 16,000 oh that's

196

00:08:26,769 --> 00:08:24,259

tolerable just you know just and it's

197

00:08:28,659 --> 00:08:26,779

amazing they say listed about 3-4 sites

198

00:08:31,269 --> 00:08:28,669

in this NatGeo article so you know these

199

00:08:33,759 --> 00:08:31,279

are the early sites and for example

200

00:08:35,589 --> 00:08:33,769

there's a particularly good location

201

00:08:39,909 --> 00:08:35,599

that the I think's the blue fish caves

202

00:08:42,009 --> 00:08:39,919

and that was dated to 23,000 years right

203

00:08:44,139 --> 00:08:42,019

and that was many years back the guy who

204

00:08:46,809 --> 00:08:44,149

did the dating you know he was a

205

00:08:49,419 --> 00:08:46,819

laughingstock for years you know his

206

00:08:52,210 --> 00:08:49,429

colleagues were making fun of him every

207

00:08:54,980 --> 00:08:52,220

conference it was read ated again recent

208

00:08:57,740 --> 00:08:54,990

if he 2017 23,000

209

00:08:59,630 --> 00:08:57,750

is Right confirmed his dates now that

210

00:09:02,780 --> 00:08:59,640

wasn't even on this list in that gym

211

00:09:04,610 --> 00:09:02,790

right so that gives you an idea of the

212

00:09:06,590 --> 00:09:04,620

thinking that's going on still but you

213

00:09:08,720 --> 00:09:06,600

know we are not gonna put these early

214

00:09:11,510 --> 00:09:08,730

sights on no matter how many people

215

00:09:14,780 --> 00:09:11,520

confirm you know that they're genuine

216

00:09:17,269 --> 00:09:14,790

right and that again preface is like

217

00:09:20,570 --> 00:09:17,279

what we're gonna talk about that that

218

00:09:23,360 --> 00:09:20,580

conservatism and that dishonesty really

219

00:09:25,699 --> 00:09:23,370

in some areas of the academic field

220

00:09:28,220 --> 00:09:25,709

right that they do know that there's

221

00:09:29,630 --> 00:09:28,230

these anomalies if you like which the

222

00:09:31,910 --> 00:09:29,640

only search can be easily be rectified

223

00:09:34,130 --> 00:09:31,920

by changing models but for now they're

224

00:09:35,510 --> 00:09:34,140

anomalies in their models and that's

225

00:09:36,710 --> 00:09:35,520

just one is on but there's others say

226

00:09:38,510 --> 00:09:36,720

the site's tiny Brazil that are way

227

00:09:40,340 --> 00:09:38,520

older and there's academics down there

228

00:09:43,519 --> 00:09:40,350

that have been fighting for a long time

229

00:09:46,430 --> 00:09:43,529

to get recognition of the true depth of

230

00:09:47,690 --> 00:09:46,440

antiquity of these sites when the

231

00:09:50,139 --> 00:09:47,700

problems they struggle with of course is

232

00:09:52,040 --> 00:09:50,149

that the field is really headed up by

233

00:09:55,090 --> 00:09:52,050

Europeans and Americans and North

234

00:09:58,400 --> 00:09:55,100

Americans so if you're an academic from

235

00:10:01,340 --> 00:09:58,410

enter outside of that you tend to find

236

00:10:02,780 --> 00:10:01,350

that your work is sidelined right so

237

00:10:03,920 --> 00:10:02,790

there's as I said I had this

238

00:10:07,100 --> 00:10:03,930

conversation with son recently the

239

00:10:09,260 --> 00:10:07,110

ability we have realized that we weren't

240

00:10:11,389 --> 00:10:09,270

correct on something you know who is

241

00:10:14,060 --> 00:10:11,399

this we this is the Royal Way of

242

00:10:16,100 --> 00:10:14,070

European and North American scientists

243

00:10:18,260 --> 00:10:16,110

right talking down to everyone else

244

00:10:20,329 --> 00:10:18,270

including other academics who did know

245

00:10:22,040 --> 00:10:20,339

something and who had perhaps had papers

246

00:10:24,230 --> 00:10:22,050

on it you know for years but then

247

00:10:27,230 --> 00:10:24,240

eventually they conceded it oh we didn't

248

00:10:29,120 --> 00:10:27,240

know and it's apparently over

249

00:10:30,590 --> 00:10:29,130

academically Chinese academics or

250

00:10:34,040 --> 00:10:30,600

Russians you know but they're not

251  
00:10:37,040 --> 00:10:34,050  
counted in that royal we right so if I'm

252  
00:10:38,120 --> 00:10:37,050  
at happens a lot so it's it's

253  
00:10:41,480 --> 00:10:38,130  
interesting so let's get see how the

254  
00:10:43,910 --> 00:10:41,490  
dynamics of these and fields work well

255  
00:10:45,290 --> 00:10:43,920  
it is interesting and you know here we

256  
00:10:47,090 --> 00:10:45,300  
are we're going to talk 20 minutes in

257  
00:10:48,290 --> 00:10:47,100  
and we're still on the first slide and I

258  
00:10:50,389 --> 00:10:48,300  
want to get over and talk about these

259  
00:10:52,340 --> 00:10:50,399  
other two books because they're really

260  
00:10:55,579 --> 00:10:52,350  
the meat of what I was hoping where we

261  
00:10:57,980 --> 00:10:55,589  
talk about today but I can't leave that

262  
00:11:00,110 --> 00:10:57,990  
first topic because I think it

263  
00:11:01,579 --> 00:11:00,120

highlights a couple points that I've

264

00:11:04,819 --> 00:11:01,589

already made and I'm going to remake is

265

00:11:08,000 --> 00:11:04,829

that one you are really doing the work

266

00:11:11,090 --> 00:11:08,010

so boots on the ground in

267

00:11:13,580 --> 00:11:11,100

or boots on the ground in other

268

00:11:15,380 --> 00:11:13,590

archaeological sites really digging into

269

00:11:17,600 --> 00:11:15,390

the best research and trying to

270

00:11:20,270 --> 00:11:17,610

understand that so that's the into

271

00:11:23,360 --> 00:11:20,280

Africa book and the other thing you

272

00:11:27,500 --> 00:11:23,370

point out there is just all the rather

273

00:11:29,990 --> 00:11:27,510

obvious ways that the sacred truth of

274

00:11:32,060 --> 00:11:30,000

academia isn't really something we

275

00:11:36,020 --> 00:11:32,070

should lean on and we have to kind of

276

00:11:38,120 --> 00:11:36,030

drill that into ourselves and other

277

00:11:40,160 --> 00:11:38,130

people because we're going to keep it's

278

00:11:41,960 --> 00:11:40,170

hard to resist the temptation to keep

279

00:11:44,000 --> 00:11:41,970

coming back and going oh but this is

280

00:11:46,010 --> 00:11:44,010

what academia says and even if it's a

281

00:11:48,850 --> 00:11:46,020

counterpoint even it's saying well Bruce

282

00:11:52,220 --> 00:11:48,860

has done such great job in the face of

283

00:11:55,460 --> 00:11:52,230

academia at some point we gotta go no

284

00:11:57,590 --> 00:11:55,470

the whole system is more fake than its

285

00:12:00,290 --> 00:11:57,600

real you just mentioned the geopolitical

286

00:12:02,810 --> 00:12:00,300

part of it right so if you're in China

287

00:12:05,300 --> 00:12:02,820

you might have one agenda if you're

288

00:12:06,860 --> 00:12:05,310

European you might have another American

289

00:12:08,480 --> 00:12:06,870

might have another well that's not the

290

00:12:10,670 --> 00:12:08,490

way it's supposed to work or look at

291

00:12:12,470 --> 00:12:10,680

money how the money is distributed and

292

00:12:14,870 --> 00:12:12,480

the grants and you know that's not the

293

00:12:16,670 --> 00:12:14,880

way it's supposed to work but then take

294

00:12:18,290 --> 00:12:16,680

an even bigger step back and we've had

295

00:12:20,870 --> 00:12:18,300

some exchanges about this on the

296

00:12:24,380 --> 00:12:20,880

skeptical forum and other places is look

297

00:12:25,640 --> 00:12:24,390

at the it as a control mechanism and if

298

00:12:28,550 --> 00:12:25,650

you say that there's a social

299

00:12:31,460 --> 00:12:28,560

engineering social control aspect to all

300

00:12:35,000 --> 00:12:31,470

of this which anyone has to admit there

301  
00:12:37,550 --> 00:12:35,010  
is because any government any agency has

302  
00:12:39,440 --> 00:12:37,560  
an interest in controlling stuff that's

303  
00:12:41,480 --> 00:12:39,450  
kind of what they do well if you're

304  
00:12:43,190 --> 00:12:41,490  
going to control stuff one of the things

305  
00:12:45,830 --> 00:12:43,200  
you're going to want to do is control

306  
00:12:47,090 --> 00:12:45,840  
this kind of narrative and that doesn't

307  
00:12:49,520 --> 00:12:47,100  
mean that you control it on a daily

308  
00:12:52,130 --> 00:12:49,530  
basis or you're sticking the screws to

309  
00:12:55,010 --> 00:12:52,140  
some archeologists it just means at a

310  
00:12:58,550 --> 00:12:55,020  
higher level you're making sure that the

311  
00:13:00,290 --> 00:12:58,560  
story goes in a particular way and I

312  
00:13:03,620 --> 00:13:00,300  
think that's the other thing that comes

313  
00:13:05,930 --> 00:13:03,630

out of your work as as we look at it

314

00:13:07,760 --> 00:13:05,940

visa via the official narrative and it's

315

00:13:10,790 --> 00:13:07,770

like well of course they're not going to

316

00:13:13,250 --> 00:13:10,800

be friendly to what you're saying so let

317

00:13:15,620 --> 00:13:13,260

me shift gears for a minute there and do

318

00:13:17,180 --> 00:13:15,630

give us a quick overview of these other

319

00:13:20,810 --> 00:13:17,190

two books that we're going to get into

320

00:13:21,470 --> 00:13:20,820

oh yes I mean I'm also there's a

321

00:13:24,259 --> 00:13:21,480

connection

322

00:13:28,189 --> 00:13:24,269

here because I see inter Africa one of

323

00:13:29,420 --> 00:13:28,199

the focal points is Australia now and

324

00:13:30,740 --> 00:13:29,430

you'll find that as a focal point in the

325

00:13:33,860 --> 00:13:30,750

other books as well

326

00:13:37,280 --> 00:13:33,870

the reason for that is you know I posit

327

00:13:40,009 --> 00:13:37,290

that Homo sapiens our story begins in

328

00:13:41,180 --> 00:13:40,019

Australia and that there's essentially

329

00:13:42,620 --> 00:13:41,190

couple of waves that come out of there

330

00:13:45,530 --> 00:13:42,630

you know so this really runs counter of

331

00:13:48,110 --> 00:13:45,540

course to Out of Africa not necessary

332

00:13:49,850 --> 00:13:48,120

completely I at the moment the early

333

00:13:52,129 --> 00:13:49,860

hominins you know most of those fossils

334

00:13:54,139 --> 00:13:52,139

are in Africa ok but well I'm only - I

335

00:13:57,110 --> 00:13:54,149

was beginning to the Homo sapiens story

336

00:13:59,480 --> 00:13:57,120

which is around about 780,000 years ago

337

00:14:01,490 --> 00:13:59,490

ok so I placed major events in Australia

338

00:14:04,759 --> 00:14:01,500

I also think this is to do with why we

339

00:14:07,639 --> 00:14:04,769

have a kind of an information wall

340

00:14:09,110 --> 00:14:07,649

around this out of Australia because it

341

00:14:11,120 --> 00:14:09,120

does connect to the other two books

342

00:14:15,019 --> 00:14:11,130

where we're dealing with what I say is

343

00:14:19,300 --> 00:14:15,029

obviously a manipulation in the genetics

344

00:14:23,629 --> 00:14:19,310

of early hominins and this these first

345

00:14:25,220 --> 00:14:23,639

massive I suppose leap towards true Homo

346

00:14:27,170 --> 00:14:25,230

sapiens and modern humans it's not

347

00:14:28,670 --> 00:14:27,180

instantaneous it's not one day we have

348

00:14:30,860 --> 00:14:28,680

hominids and then we have modern humans

349

00:14:34,400 --> 00:14:30,870

there is still a process over which

350

00:14:35,750 --> 00:14:34,410

these genes Express etc very quickly as

351

00:14:37,309 --> 00:14:35,760

well from the inter Africa I should say

352

00:14:38,180 --> 00:14:37,319

that this is probably keeping the people

353

00:14:40,069 --> 00:14:38,190

should looking don't give a quick

354

00:14:43,280 --> 00:14:40,079

example of why the book is important

355

00:14:46,160 --> 00:14:43,290

because recently Out of Africa are put

356

00:14:49,129 --> 00:14:46,170

on those famous models know within

357

00:14:51,530 --> 00:14:49,139

anthropology that we come out of we come

358

00:14:53,360 --> 00:14:51,540

out of Africa around about as you depend

359

00:14:54,889 --> 00:14:53,370

missus I should keep it depending where

360

00:14:57,079 --> 00:14:54,899

you read this you'll hear that we either

361

00:14:58,490 --> 00:14:57,089

come out of Africa about 60,000 years

362

00:15:01,009 --> 00:14:58,500

ago the geneticist right if you do

363

00:15:02,449 --> 00:15:01,019

genetics it's 60 to 50,000 years ago if

364

00:15:04,189 --> 00:15:02,459

you go to the archaeologists and

365

00:15:06,019 --> 00:15:04,199

anthropologists they'll tell you this 70

366

00:15:07,879 --> 00:15:06,029

to 80 thousand all right there's a

367

00:15:09,710 --> 00:15:07,889

reason why you'll see that inconsistency

368

00:15:11,329 --> 00:15:09,720

everywhere across articles magazine

369

00:15:13,009 --> 00:15:11,339

where you go you're gonna see this that

370

00:15:14,120 --> 00:15:13,019

depend on here you go to the geneticists

371

00:15:17,150 --> 00:15:14,130

will say one thing the art or another

372

00:15:19,819 --> 00:15:17,160

this is two different events there is a

373

00:15:21,590 --> 00:15:19,829

there's a movement into Africa 73

374

00:15:23,150 --> 00:15:21,600

thousand years ago from Eurasia and

375

00:15:25,879 --> 00:15:23,160

there's lots of evidence for this

376

00:15:28,730 --> 00:15:25,889

there's a movement of culture you know

377

00:15:31,189 --> 00:15:28,740

it's at first use of arrows there's art

378

00:15:34,220 --> 00:15:31,199

that emerges all swings new genes and

379

00:15:35,090 --> 00:15:34,230

then 60,000 years ago you have the

380

00:15:37,070 --> 00:15:35,100

initial migrate

381

00:15:38,630 --> 00:15:37,080

into Eurasia and those starting out of

382

00:15:40,070 --> 00:15:38,640

Australia now I said very quickly

383

00:15:41,870 --> 00:15:40,080

because that's in couldn't go away and

384

00:15:44,150 --> 00:15:41,880

look at that you say why would they hide

385

00:15:46,820 --> 00:15:44,160

that I think there's a there's some kind

386

00:15:49,970 --> 00:15:46,830

of effort to keep us away from Australia

387

00:15:51,740 --> 00:15:49,980

and what's going on down there and I

388

00:15:53,030 --> 00:15:51,750

don't see it and in the earlier waves of

389

00:15:55,040 --> 00:15:53,040

this again I said there's been

390

00:15:56,960 --> 00:15:55,050

migrations out of Australia so to a

391

00:15:59,170 --> 00:15:56,970

preface that that there is something odd

392

00:16:01,700 --> 00:15:59,180

going on that if I can find that

393

00:16:03,860 --> 00:16:01,710

inconsistency I'm for academics can so I

394

00:16:05,690 --> 00:16:03,870

do find that odd that they can't notice

395

00:16:08,810 --> 00:16:05,700

as definitely two models being most

396

00:16:10,250 --> 00:16:08,820

together so in in the other book we go

397

00:16:12,260 --> 00:16:10,260

right back to that beginning of that

398

00:16:14,300 --> 00:16:12,270

Homo sapiens story and I'm saying that

399

00:16:16,220 --> 00:16:14,310

you know we have hominins in the area

400

00:16:17,720 --> 00:16:16,230

and this used to be controversial until

401  
00:16:19,670 --> 00:16:17,730  
a couple years ago because it was fought

402  
00:16:22,010 --> 00:16:19,680  
there were no hominins down in Oceania

403  
00:16:24,620 --> 00:16:22,020  
Australia or even any one that region

404  
00:16:27,110 --> 00:16:24,630  
okay but we now know that the islands of

405  
00:16:30,470 --> 00:16:27,120  
Indonesia were well populated no

406  
00:16:33,710 --> 00:16:30,480  
populated by home erectus and also it

407  
00:16:37,040 --> 00:16:33,720  
seems an ancestral form of Homo Florian

408  
00:16:39,320 --> 00:16:37,050  
cysts The Hobbit people now this go back

409  
00:16:41,170 --> 00:16:39,330  
at least a million years ago right so

410  
00:16:44,060 --> 00:16:41,180  
this is before the rise of homo sapiens

411  
00:16:46,790 --> 00:16:44,070  
is understood if you can make your way

412  
00:16:48,580 --> 00:16:46,800  
across these islands and through what's

413  
00:16:51,380 --> 00:16:48,590

called Wallace's line which is the

414

00:16:54,410 --> 00:16:51,390

geographic sort of barrier between Asia

415

00:16:55,850 --> 00:16:54,420

and Australia once you pass that your

416

00:16:57,590 --> 00:16:55,860

next stop is Australia and there's

417

00:16:59,120 --> 00:16:57,600

nothing to stop you you know the major

418

00:17:01,190 --> 00:16:59,130

currents in that area you've already

419

00:17:03,350 --> 00:17:01,200

you've already crossed them assumably in

420

00:17:05,930 --> 00:17:03,360

watercraft academics will tell you that

421

00:17:07,930 --> 00:17:05,940

maybe who got washed along in tsunamis

422

00:17:10,550 --> 00:17:07,940

which is I think is a ludicrous

423

00:17:13,010 --> 00:17:10,560

absolutely ludicrous suggestion because

424

00:17:15,350 --> 00:17:13,020

you know you've got to imagine a whole

425

00:17:18,230 --> 00:17:15,360

community of people washed off of you

426

00:17:19,730 --> 00:17:18,240

know the coast of Asia carried across to

427

00:17:21,650 --> 00:17:19,740

one of these islands without drowning or

428

00:17:23,870 --> 00:17:21,660

being eaten by sharks or any other and

429

00:17:25,580 --> 00:17:23,880

all arriving at the same time because to

430

00:17:26,780 --> 00:17:25,590

make a community you need a whole group

431

00:17:31,100 --> 00:17:26,790

of people so it's not just one guy

432

00:17:33,410 --> 00:17:31,110

washed off okay Bruce I want to jump in

433

00:17:36,230 --> 00:17:33,420

there and break that down a little bit

434

00:17:39,530 --> 00:17:36,240

further because you got to read these

435

00:17:41,180 --> 00:17:39,540

books folks that they're just just got

436

00:17:43,250 --> 00:17:41,190

to read them I don't know how else to

437

00:17:45,920 --> 00:17:43,260

say it Bruce does a really good job of

438

00:17:46,490 --> 00:17:45,930

breaking this stuff down and I had to

439

00:17:49,040 --> 00:17:46,500

take it

440

00:17:51,170 --> 00:17:49,050

chunk by chunk and then

441

00:17:54,470 --> 00:17:51,180

reprocess it in some ways and let me do

442

00:17:57,440 --> 00:17:54,480

that here what you're saying is for a

443

00:18:01,460 --> 00:17:57,450

community from a genetic standpoint you

444

00:18:04,160 --> 00:18:01,470

need so many gene pools and these little

445

00:18:06,170 --> 00:18:04,170

people to survive so some people 50 some

446

00:18:07,730 --> 00:18:06,180

people say a hundred whatever but yet

447

00:18:10,730 --> 00:18:07,740

let's say you have to have but the

448

00:18:13,280 --> 00:18:10,740

difference you have to have 75 humans in

449

00:18:16,700 --> 00:18:13,290

order to start a new colony and then

450

00:18:20,210 --> 00:18:16,710

take what you just said the idea that

451

00:18:22,130 --> 00:18:20,220

the fact that at some academic who's

452

00:18:24,110 --> 00:18:22,140

getting paid a salary is going to

453

00:18:25,900 --> 00:18:24,120

conferences and hey you know everyone's

454

00:18:28,910 --> 00:18:25,910

patting him on the back would suggest

455

00:18:30,860 --> 00:18:28,920

that well the way that happened is there

456

00:18:32,390 --> 00:18:30,870

is a giant tsunami so you know we know

457

00:18:34,670 --> 00:18:32,400

what tsunamis look like we can watch

458

00:18:37,340 --> 00:18:34,680

them on YouTube truth well that all

459

00:18:40,840 --> 00:18:37,350

these people together got swept up in a

460

00:18:44,360 --> 00:18:40,850

tsunami and floated off you know on

461

00:18:46,970 --> 00:18:44,370

various blogs or whatever together you

462

00:18:50,660 --> 00:18:46,980

know these great distances it's just

463

00:18:52,160 --> 00:18:50,670

really kind of a silly proposition this

464

00:18:53,480 --> 00:18:52,170

is totally absurd because I mean first

465

00:18:56,210 --> 00:18:53,490

start one of the things we know is that

466

00:18:58,940 --> 00:18:56,220

tsunamis in open ocean you know they're

467

00:19:00,320 --> 00:18:58,950

just a ripple you won't really notice

468

00:19:02,240 --> 00:19:00,330

you should be bobbed up in the air

469

00:19:04,940 --> 00:19:02,250

briefly right they don't carry you along

470

00:19:06,890 --> 00:19:04,950

it's not like surfing the tsunami and

471

00:19:08,300 --> 00:19:06,900

once they hear of course they're so

472

00:19:09,710 --> 00:19:08,310

destructive that if you're standing on

473

00:19:11,690 --> 00:19:09,720

the beach and this you know this mega

474

00:19:13,970 --> 00:19:11,700

tsunami comes enough to wash you know

475

00:19:15,920 --> 00:19:13,980

your whole community into the water the

476

00:19:18,980 --> 00:19:15,930

chance to survive in that initial event

477

00:19:20,750 --> 00:19:18,990

is so low and now you're into what is

478

00:19:22,670 --> 00:19:20,760

some of those powerful currents in the

479

00:19:24,230 --> 00:19:22,680

world that move through those Indonesian

480

00:19:26,750 --> 00:19:24,240

islands which moved to the southwest

481

00:19:29,480 --> 00:19:26,760

right so why are they going to carry you

482

00:19:31,790 --> 00:19:29,490

east you know so we have all these these

483

00:19:33,440 --> 00:19:31,800

problems that you know feel clear onto

484

00:19:35,030 --> 00:19:33,450

log there's no reason that log will take

485

00:19:36,290 --> 00:19:35,040

you to the Indonesian islands it will

486

00:19:38,260 --> 00:19:36,300

carry you off out you know to the

487

00:19:41,420 --> 00:19:38,270

southwest out into the open ocean so

488

00:19:43,070 --> 00:19:41,430

it's there's no reason that there's no

489

00:19:45,950 --> 00:19:43,080

reason that all the other logs or

490

00:19:50,390 --> 00:19:45,960

different debris are gonna go in the

491

00:19:52,010 --> 00:19:50,400

same way or behave advice that's right

492

00:19:54,410 --> 00:19:52,020

it's a ludicrous idea that we have this

493

00:19:55,970 --> 00:19:54,420

whole community founded in this one

494

00:19:58,430 --> 00:19:55,980

catastrophe and they all end up on the

495

00:19:59,780 --> 00:19:58,440

same island here oh yeah if it begs

496

00:20:00,920 --> 00:19:59,790

believe that this is something that they

497

00:20:02,380 --> 00:20:00,930

were straight-faced

498

00:20:04,420 --> 00:20:02,390

state invasion

499

00:20:06,250 --> 00:20:04,430

conference or on a show you know they

500

00:20:08,200 --> 00:20:06,260

would tell us that that is their favored

501  
00:20:11,530 --> 00:20:08,210  
model rather than just simply saying

502  
00:20:14,710 --> 00:20:11,540  
perhaps they had watercraft and and

503  
00:20:16,240 --> 00:20:14,720  
again we're maybe I'm guilty of it here

504  
00:20:20,530 --> 00:20:16,250  
maybe I'm kind of beating a dead horse

505  
00:20:23,230 --> 00:20:20,540  
but I do think we have to grind on that

506  
00:20:25,510 --> 00:20:23,240  
because what you're about to do and what

507  
00:20:28,780 --> 00:20:25,520  
you're about to tell us is so so hard

508  
00:20:30,340 --> 00:20:28,790  
for people to accept I know it is it's

509  
00:20:33,520 --> 00:20:30,350  
hard for me to accept it sorry for other

510  
00:20:36,130 --> 00:20:33,530  
people we have to continually contrast

511  
00:20:38,110 --> 00:20:36,140  
it with just what a load of crap we've

512  
00:20:40,360 --> 00:20:38,120  
been fed and it's kind of like you know

513  
00:20:42,130 --> 00:20:40,370

you've thought you've swallowed a load

514

00:20:44,020 --> 00:20:42,140

of crap you've swallowed a load of crap

515

00:20:46,270 --> 00:20:44,030

with the Out of Africa thing you've

516

00:20:48,550 --> 00:20:46,280

swallowed a load of crap with this thing

517

00:20:51,370 --> 00:20:48,560

that they're floating out there so maybe

518

00:20:54,670 --> 00:20:51,380

be a little bit more open-minded when

519

00:20:57,220 --> 00:20:54,680

Bruce says hey I alone doing my own

520

00:20:59,950 --> 00:20:57,230

little research here in Wales have

521

00:21:02,110 --> 00:20:59,960

cracked the code and said seven hundred

522

00:21:06,280 --> 00:21:02,120

and eighty thousand years ago an event

523

00:21:10,540 --> 00:21:06,290

happened that is really the source of

524

00:21:12,670 --> 00:21:10,550

all of this stuff and maybe I have

525

00:21:16,360 --> 00:21:12,680

beaten about dead horse maybe we should

526

00:21:18,310 --> 00:21:16,370

jump into the the really heart of it and

527

00:21:19,600 --> 00:21:18,320

start with that seven hundred and eighty

528

00:21:22,240 --> 00:21:19,610

thousand years because I have to tell

529

00:21:23,980 --> 00:21:22,250

you from just you've been on the forum

530

00:21:26,260 --> 00:21:23,990

and we've got a good conversation and

531

00:21:27,790 --> 00:21:26,270

reviewing this stuff before seven

532

00:21:29,610 --> 00:21:27,800

hundred eighty thousand years is the

533

00:21:32,020 --> 00:21:29,620

first thing that jumps out at people

534

00:21:34,350 --> 00:21:32,030

they go okay wait a minute wait a minute

535

00:21:37,300 --> 00:21:34,360

okay I've heard these alternative

536

00:21:40,150 --> 00:21:37,310

evolution origin stories why is this guy

537

00:21:42,040 --> 00:21:40,160

married to 780 thousand years so what's

538

00:21:47,020 --> 00:21:42,050

the what's the deal there what's going

539

00:21:49,690 --> 00:21:47,030

on so let's start there why 780 thousand

540

00:21:53,560 --> 00:21:49,700

years because this is a big jump off the

541

00:21:55,330 --> 00:21:53,570

off the cliff alone it isn't you know

542

00:21:57,220 --> 00:21:55,340

certainly that if you look into even

543

00:22:01,210 --> 00:21:57,230

other alternative models you know where

544

00:22:02,770 --> 00:22:01,220

people have argued for some kind of

545

00:22:04,690 --> 00:22:02,780

event you know that's caused our

546

00:22:06,430 --> 00:22:04,700

evolution you'll find that you know the

547

00:22:09,250 --> 00:22:06,440

dates are different you know I know that

548

00:22:10,420 --> 00:22:09,260

ECT enough as a a popular kind of

549

00:22:13,960 --> 00:22:10,430

argument that around four hundred

550

00:22:16,130 --> 00:22:13,970

thousand years ago humans were upgraded

551

00:22:18,230 --> 00:22:16,140

from Homo erectus right by

552

00:22:19,840 --> 00:22:18,240

in engineers that wanted them to be

553

00:22:22,360 --> 00:22:19,850

slaves you know that's a quite popular

554

00:22:26,060 --> 00:22:22,370

model out there in the fringe world

555

00:22:28,730 --> 00:22:26,070

obviously in the mundane academia those

556

00:22:30,440 --> 00:22:28,740

model popular model but so I don't I

557

00:22:32,840 --> 00:22:30,450

don't agree with that and I also don't

558

00:22:35,330 --> 00:22:32,850

agree with the with the conventional

559

00:22:37,190 --> 00:22:35,340

model I them now one of the things that

560

00:22:41,210 --> 00:22:37,200

has been long accepted is that around

561

00:22:43,280 --> 00:22:41,220

about 800,000 years ago the human brain

562

00:22:45,560 --> 00:22:43,290

basically goes into rapid unexpected

563

00:22:47,360 --> 00:22:45,570

acceleration now this has been known

564

00:22:50,330 --> 00:22:47,370

since we had a reasonable-sized

565

00:22:52,820 --> 00:22:50,340

collection of fossils it's not new so

566

00:22:55,040 --> 00:22:52,830

what was missing from that was why is

567

00:22:56,960 --> 00:22:55,050

the thing why does the the cranium

568

00:22:58,520 --> 00:22:56,970

suddenly go into this rapid expansion of

569

00:23:00,410 --> 00:22:58,530

course things have changed a little bit

570

00:23:02,690 --> 00:23:00,420

now because we have genes you know we

571

00:23:06,170 --> 00:23:02,700

have genetic evidence right which before

572

00:23:08,030 --> 00:23:06,180

we just had the skulls now that's really

573

00:23:09,680 --> 00:23:08,040

been crucial like the work I do you

574

00:23:12,140 --> 00:23:09,690

couldn't you couldn't do with you know

575

00:23:14,530 --> 00:23:12,150

what we had I guess on the tape or say

576  
00:23:17,300 --> 00:23:14,540  
you know 40 years ago or something right

577  
00:23:18,830 --> 00:23:17,310  
because it is in those genes that we can

578  
00:23:21,410 --> 00:23:18,840  
see you know that something particularly

579  
00:23:25,130 --> 00:23:21,420  
radical happens alongside the brain

580  
00:23:29,170 --> 00:23:25,140  
expansion right now how did I ever get

581  
00:23:31,730 --> 00:23:29,180  
to looking at that date though now well

582  
00:23:34,480 --> 00:23:31,740  
let me interrupt again and people hate

583  
00:23:36,170 --> 00:23:34,490  
when I do this but that's right here.i

584  
00:23:38,780 --> 00:23:36,180  
one of the things I found really

585  
00:23:40,730 --> 00:23:38,790  
compelling in the book relates to this

586  
00:23:43,190 --> 00:23:40,740  
graphic you see up on the screen right

587  
00:23:44,810 --> 00:23:43,200  
and and it relates to the point that you

588  
00:23:47,620 --> 00:23:44,820

just made for those people who are

589

00:23:50,090 --> 00:23:47,630

interested in the genetics and

590

00:23:51,860 --> 00:23:50,100

interested and are able to make the leap

591

00:23:54,260 --> 00:23:51,870

that you said at the very introduction

592

00:23:58,130 --> 00:23:54,270

to your story is that from an

593

00:24:00,920 --> 00:23:58,140

information processing standpoint that's

594

00:24:03,500 --> 00:24:00,930

all DNA is it's all genetics it's about

595

00:24:06,200 --> 00:24:03,510

information theory and really that's

596

00:24:08,270 --> 00:24:06,210

where the science is gone right so it's

597

00:24:11,090 --> 00:24:08,280

really head in that direction anyway but

598

00:24:13,160 --> 00:24:11,100

you make this phenomenal point and it's

599

00:24:15,310 --> 00:24:13,170

good we can almost almost start and

600

00:24:18,530 --> 00:24:15,320

build it from start at the end and then

601  
00:24:20,720 --> 00:24:18,540  
lay it back in but I I have up there

602  
00:24:22,160 --> 00:24:20,730  
it's called chickens and chimps was one

603  
00:24:23,780 --> 00:24:22,170  
of the categories that I hadn't

604  
00:24:26,420 --> 00:24:23,790  
sceptical board and I just brought up

605  
00:24:29,829 --> 00:24:26,430  
the graphic for it and what it shows is

606  
00:24:33,049 --> 00:24:29,839  
this 350 million

607  
00:24:35,930 --> 00:24:33,059  
year evolution as it looks from a

608  
00:24:39,109 --> 00:24:35,940  
genetic standpoint the difference

609  
00:24:42,529 --> 00:24:39,119  
between a chicken and a chimpanzee and

610  
00:24:44,930 --> 00:24:42,539  
the difference is is statistically

611  
00:24:47,839 --> 00:24:44,940  
insignificant and then you have the

612  
00:24:50,719 --> 00:24:47,849  
difference between a chimpanzee and a

613  
00:24:53,019 --> 00:24:50,729

human over the last 800,000 years like

614

00:24:58,579 --> 00:24:53,029

you're talking about and it's

615

00:25:01,129 --> 00:24:58,589

unbelievably rich and there you have to

616

00:25:03,099 --> 00:25:01,139

explain that in it better than I did but

617

00:25:08,180 --> 00:25:03,109

also so I want you to really hone in on

618

00:25:11,079 --> 00:25:08,190

how statistically significant that is

619

00:25:14,659 --> 00:25:11,089

getting back to the science standpoint

620

00:25:18,440 --> 00:25:14,669

yeah absolutely I mean this was fairly

621

00:25:20,299 --> 00:25:18,450

recent revelations in science as they

622

00:25:22,339 --> 00:25:20,309

found that yes in these in particular

623

00:25:24,259 --> 00:25:22,349

regions of the genetic code and these

624

00:25:28,519 --> 00:25:24,269

are always called highly conserved

625

00:25:31,459 --> 00:25:28,529

regions now the why for that is that

626  
00:25:33,079 --> 00:25:31,469  
there are areas of the human code which

627  
00:25:35,089 --> 00:25:33,089  
if you change them slightly or if

628  
00:25:37,249 --> 00:25:35,099  
there's a mutation you essentially cause

629  
00:25:40,219 --> 00:25:37,259  
a failure now that even you'll be you

630  
00:25:42,229 --> 00:25:40,229  
know born dead or born weird with such

631  
00:25:43,849 --> 00:25:42,239  
such problems that you probably won't

632  
00:25:45,709 --> 00:25:43,859  
live a normal life and won't be able to

633  
00:25:48,349 --> 00:25:45,719  
reproduce you know so these are

634  
00:25:50,389 --> 00:25:48,359  
catastrophic failures to have mutations

635  
00:25:52,310 --> 00:25:50,399  
in these areas right so what you'll find

636  
00:25:54,409 --> 00:25:52,320  
is across the animal kingdom there's

637  
00:25:56,599 --> 00:25:54,419  
some areas of the code which remain very

638  
00:25:58,909 --> 00:25:56,609

similar between you know pretty much all

639

00:26:00,979 --> 00:25:58,919

species certainly within I guess higher

640

00:26:02,269 --> 00:26:00,989

animals so if you take those there

641

00:26:04,369 --> 00:26:02,279

you've got the example the chicken and

642

00:26:06,560 --> 00:26:04,379

chimpanzee see that this is slight

643

00:26:09,440 --> 00:26:06,570

difference busy free changes over 300

644

00:26:11,539 --> 00:26:09,450

million years of divergent evolution so

645

00:26:14,119 --> 00:26:11,549

we know that the the area that we're

646

00:26:17,209 --> 00:26:14,129

dealing with is so in critical to life

647

00:26:19,999 --> 00:26:17,219

that it's extraordinarily rare that a

648

00:26:22,430 --> 00:26:20,009

mutation will happen that's in some way

649

00:26:25,369 --> 00:26:22,440

positive or neutral and will be retained

650

00:26:26,629 --> 00:26:25,379

going forward right so people are sort

651  
00:26:28,609 --> 00:26:26,639  
of pre share that these are these areas

652  
00:26:31,399 --> 00:26:28,619  
that don't just keep randomly changing

653  
00:26:34,369 --> 00:26:31,409  
regularly yep very stable now what we

654  
00:26:35,869 --> 00:26:34,379  
see here is that since the split that's

655  
00:26:37,789 --> 00:26:35,879  
happened between chimps and humans which

656  
00:26:40,399 --> 00:26:37,799  
around 5 million years ago that there's

657  
00:26:43,370 --> 00:26:40,409  
been wild changes and we know that some

658  
00:26:45,950 --> 00:26:43,380  
of these cluster around the time that

659  
00:26:48,740 --> 00:26:45,960  
that our lineages split Neanderthals and

660  
00:26:50,690 --> 00:26:48,750  
Denisovans again which is around the 780

661  
00:26:53,180 --> 00:26:50,700  
thousand years ago so we have a cluster

662  
00:26:55,580 --> 00:26:53,190  
of these then there are some at other

663  
00:26:57,130 --> 00:26:55,590

points there's a cluster that now what

664

00:26:59,419 --> 00:26:57,140

the heck's going on here because we have

665

00:27:00,710 --> 00:26:59,429

leading academics that are examining

666

00:27:03,620 --> 00:27:00,720

these areas is saying well when we do

667

00:27:06,250 --> 00:27:03,630

the maths we find that the the chances

668

00:27:09,350 --> 00:27:06,260

of this happening by any known

669

00:27:12,440 --> 00:27:09,360

evolution e means is a statistically

670

00:27:15,289 --> 00:27:12,450

zero right now that that's a it really

671

00:27:16,399 --> 00:27:15,299

should I should hit anyone you know

672

00:27:18,860 --> 00:27:16,409

think I'll hang on a minute this isn't

673

00:27:20,330 --> 00:27:18,870

Bruce saying this you know this is you

674

00:27:22,549 --> 00:27:20,340

know leading biostatistics you know

675

00:27:24,950 --> 00:27:22,559

working out the numbers and saying that

676  
00:27:26,840 --> 00:27:24,960  
these should not be there you know in

677  
00:27:29,990 --> 00:27:26,850  
all of our models these would not be

678  
00:27:31,970 --> 00:27:30,000  
there yet break that down a little bit I

679  
00:27:35,120 --> 00:27:31,980  
think it's such an important point but

680  
00:27:39,380 --> 00:27:35,130  
my understanding of it is that 300

681  
00:27:42,409 --> 00:27:39,390  
million years is a long long time a lot

682  
00:27:46,399 --> 00:27:42,419  
of generations and if those generations

683  
00:27:49,100 --> 00:27:46,409  
don't change don't show any change over

684  
00:27:52,220 --> 00:27:49,110  
that time then they're really really

685  
00:27:54,440 --> 00:27:52,230  
stable so that becomes your base so all

686  
00:27:58,789 --> 00:27:54,450  
these changes we see on the screen in

687  
00:28:00,590 --> 00:27:58,799  
pink become much much more significant

688  
00:28:04,220 --> 00:28:00,600

because you look at that and you go oh

689

00:28:06,640 --> 00:28:04,230

well it's just three vs. 18 well it's

690

00:28:09,470 --> 00:28:06,650

not that big of a difference but

691

00:28:12,020 --> 00:28:09,480

statistical scale it's the time scale

692

00:28:13,940 --> 00:28:12,030

yeah yeah that there's no way in those

693

00:28:17,029 --> 00:28:13,950

few million years you shouldn't have

694

00:28:19,610 --> 00:28:17,039

even had one more change you certainly

695

00:28:21,020 --> 00:28:19,620

shouldn't have about 18 one more would

696

00:28:23,570 --> 00:28:21,030

have been weird you know they would had

697

00:28:24,049 --> 00:28:23,580

to scratch their heads or why did that

698

00:28:26,149 --> 00:28:24,059

happen

699

00:28:28,610 --> 00:28:26,159

but to have so many and for them to be

700

00:28:29,720 --> 00:28:28,620

successful and in some way beneficial

701

00:28:32,000 --> 00:28:29,730

because remember that for them to

702

00:28:34,010 --> 00:28:32,010

persist they must be giving us a benefit

703

00:28:36,560 --> 00:28:34,020

right that's the other the other

704

00:28:38,270 --> 00:28:36,570

entities your point for them to persist

705

00:28:40,909 --> 00:28:38,280

at the very least they don't have they

706

00:28:44,960 --> 00:28:40,919

shouldn't kill you because recent

707

00:28:47,060 --> 00:28:44,970

changes in those sequence yeah right and

708

00:28:48,860 --> 00:28:47,070

the problem is not just one this is a

709

00:28:51,370 --> 00:28:48,870

best is obvious good har1

710

00:28:53,450 --> 00:28:51,380

yes the best example of these but

711

00:28:55,280 --> 00:28:53,460

essentially there's areas called human

712

00:28:57,320 --> 00:28:55,290

accelerated regions because they found

713

00:28:59,690 --> 00:28:57,330

these regions that seem to gone through

714

00:29:01,009 --> 00:28:59,700

even if you process and they found a

715

00:29:03,529 --> 00:29:01,019

number them now I think they're up to

716

00:29:05,419 --> 00:29:03,539

hundreds of them right which are

717

00:29:07,609 --> 00:29:05,429

specific to us you know we don't find

718

00:29:09,379 --> 00:29:07,619

them in the other primates they've

719

00:29:11,359 --> 00:29:09,389

happened since our split and that

720

00:29:13,489 --> 00:29:11,369

there's hundreds and they're not these

721

00:29:15,859 --> 00:29:13,499

are not genes right this is these are

722

00:29:18,470 --> 00:29:15,869

areas that are related to what's called

723

00:29:21,259 --> 00:29:18,480

them genetic switches these areas that

724

00:29:23,060 --> 00:29:21,269

control the expression of genes so let's

725

00:29:26,600 --> 00:29:23,070

just say you have a gene that will give

726

00:29:29,479 --> 00:29:26,610

you a certain length of arm right but

727

00:29:31,099 --> 00:29:29,489

there's also switches which for cause

728

00:29:32,779 --> 00:29:31,109

that expression to make you have a

729

00:29:34,849 --> 00:29:32,789

longer arm shorter arm you can even turn

730

00:29:35,239 --> 00:29:34,859

off the gene right which gives you that

731

00:29:37,580 --> 00:29:35,249

arm

732

00:29:39,169 --> 00:29:37,590

so with these switches you can do so

733

00:29:41,210 --> 00:29:39,179

let's say if you were engineering

734

00:29:43,970 --> 00:29:41,220

something and you understood these areas

735

00:29:46,310 --> 00:29:43,980

you could do remarkable things you know

736

00:29:48,649 --> 00:29:46,320

you can recreate an organism by

737

00:29:50,419 --> 00:29:48,659

modifying all of these switches okay so

738

00:29:52,549 --> 00:29:50,429

you're not adding in genes or taking out

739

00:29:54,859 --> 00:29:52,559

genes not at that stage you're just

740

00:29:56,210 --> 00:29:54,869

playing with these switches right but

741

00:29:58,909 --> 00:29:56,220

yeah you can do extraordinary things but

742

00:30:01,009 --> 00:29:58,919

if we were to try and do that today it

743

00:30:03,560 --> 00:30:01,019

would be impossible we do not understand

744

00:30:05,210 --> 00:30:03,570

the science well enough and I said we

745

00:30:06,799 --> 00:30:05,220

would end up just killing the organism

746

00:30:08,869 --> 00:30:06,809

if we make one of these changes hoping

747

00:30:10,700 --> 00:30:08,879

for the best it's almost certain it will

748

00:30:13,879 --> 00:30:10,710

die because we know that in 300 million

749

00:30:16,879 --> 00:30:13,889

years only free were successful so our

750

00:30:18,769 --> 00:30:16,889

chances of just stumbling on one you

751  
00:30:22,249 --> 00:30:18,779  
know as our stage in genetic engineering

752  
00:30:25,099 --> 00:30:22,259  
is minuscule right and yet we see these

753  
00:30:28,609 --> 00:30:25,109  
huge number sixes okay can they be

754  
00:30:31,220 --> 00:30:28,619  
natural well as far as we know right now

755  
00:30:34,909 --> 00:30:31,230  
there's no natural mechanism which

756  
00:30:38,119 --> 00:30:34,919  
explains this so the default in that

757  
00:30:40,279 --> 00:30:38,129  
then it can it be unnatural and I said

758  
00:30:41,599 --> 00:30:40,289  
yes of course it can as long as there is

759  
00:30:44,720 --> 00:30:41,609  
something ie

760  
00:30:46,519 --> 00:30:44,730  
intelligence somewhere which is able to

761  
00:30:49,399 --> 00:30:46,529  
modify this deliberately we don't really

762  
00:30:51,470 --> 00:30:49,409  
have a lot of other choices here because

763  
00:30:53,629 --> 00:30:51,480

the academics are telling us you know

764

00:30:56,659 --> 00:30:53,639

this is zero percent chance from what we

765

00:30:58,849 --> 00:30:56,669

understand so what else can it be you

766

00:31:02,570 --> 00:30:58,859

know now supposing well if you just left

767

00:31:04,399 --> 00:31:02,580

to you know alien engineers well no I

768

00:31:07,279 --> 00:31:04,409

mean I have other reasons why I go down

769

00:31:09,830 --> 00:31:07,289

that route but there is implicitly a

770

00:31:10,800 --> 00:31:09,840

need for a solution to these areas and I

771

00:31:13,920 --> 00:31:10,810

say hundreds of air

772

00:31:18,120 --> 00:31:13,930

the human yet DNA code and we should add

773

00:31:21,930 --> 00:31:18,130

that from a kind of logic reasons in

774

00:31:24,510 --> 00:31:21,940

science theory of science standpoint it

775

00:31:27,720 --> 00:31:24,520

doesn't really matter how you develop

776

00:31:30,300 --> 00:31:27,730

your theory what matters is your testing

777

00:31:32,520 --> 00:31:30,310

of that theory right so in a minute

778

00:31:35,760 --> 00:31:32,530

we're gonna talk about how you even

779

00:31:37,740 --> 00:31:35,770

decided to look at 780 thousand years

780

00:31:39,660 --> 00:31:37,750

ago and if we look at the history of

781

00:31:42,620 --> 00:31:39,670

science that there's plenty of cases

782

00:31:46,590 --> 00:31:42,630

where people had a dream right

783

00:31:48,480 --> 00:31:46,600

four all the way from Einstein to Mozart

784

00:31:50,280 --> 00:31:48,490

in a different area but yeah that's all

785

00:31:53,430 --> 00:31:50,290

over the place that people are accessing

786

00:31:56,520 --> 00:31:53,440

some other aspect of consciousness and

787

00:31:59,250 --> 00:31:56,530

get inspiration so your inspiration

788

00:32:01,470 --> 00:31:59,260

let's talk about this book that we have

789

00:32:03,150 --> 00:32:01,480

there and and as that as a starting

790

00:32:05,100 --> 00:32:03,160

point but what we'll want to emphasize

791

00:32:07,860 --> 00:32:05,110

don't lose track here this guy is

792

00:32:09,360 --> 00:32:07,870

science all the way so he's like he can

793

00:32:12,720 --> 00:32:09,370

develop a theory but then he's very

794

00:32:14,730 --> 00:32:12,730

rigorous about testing that theory yeah

795

00:32:17,250 --> 00:32:14,740

I mean you could have I guess this way

796

00:32:19,710 --> 00:32:17,260

this there's plenty of religious people

797

00:32:20,940 --> 00:32:19,720

in the sciences right for example you

798

00:32:22,560 --> 00:32:20,950

know they're able to understand that

799

00:32:24,720 --> 00:32:22,570

they have their religious faith perhaps

800

00:32:27,150 --> 00:32:24,730

their religious experiences but they can

801  
00:32:30,240 --> 00:32:27,160  
also go to their day job right and do

802  
00:32:32,610 --> 00:32:30,250  
hard science so so if owner says there's

803  
00:32:36,660 --> 00:32:32,620  
a contrast how can you be this kind of

804  
00:32:38,390 --> 00:32:36,670  
esoteric thinker or mystic and yet be

805  
00:32:40,530 --> 00:32:38,400  
concerned with hard science well there's

806  
00:32:42,000 --> 00:32:40,540  
thousands and thousands of scientists

807  
00:32:44,670 --> 00:32:42,010  
that are doing that every day right

808  
00:32:47,100 --> 00:32:44,680  
there putting their their belief in a

809  
00:32:49,560 --> 00:32:47,110  
pantheon of gods to one side while they

810  
00:32:51,000 --> 00:32:49,570  
do their lab work right so so that

811  
00:32:52,440 --> 00:32:51,010  
shouldn't be increasingly a problem some

812  
00:32:54,900 --> 00:32:52,450  
people find a problem but it shouldn't

813  
00:32:57,330 --> 00:32:54,910

be because we should be used to that now

814

00:33:00,210 --> 00:32:57,340

the way it happened in this case is that

815

00:33:01,740 --> 00:33:00,220

yeah I read this book and I'll trigger

816

00:33:03,930 --> 00:33:01,750

when the first ancestor were created

817

00:33:07,680 --> 00:33:03,940

came to me through a connection or a

818

00:33:09,150 --> 00:33:07,690

australian from the new the book right

819

00:33:10,470 --> 00:33:09,160

so they sort of mentioned it to me

820

00:33:12,690 --> 00:33:10,480

because of some other experiences

821

00:33:14,520 --> 00:33:12,700

personal experiences that I'd had which

822

00:33:18,330 --> 00:33:14,530

made it relevant metaphysical

823

00:33:20,580 --> 00:33:18,340

experiences and so I read this really

824

00:33:22,830 --> 00:33:20,590

those parts of it that really grabs me

825

00:33:24,509 --> 00:33:22,840

particularly there was there's a

826

00:33:26,699 --> 00:33:24,519

description of its

827

00:33:27,989 --> 00:33:26,709

crafts coming to this planet you know in

828

00:33:29,729 --> 00:33:27,999

the distant distant past

829

00:33:31,109 --> 00:33:29,739

it says towards nine hundred thousand

830

00:33:33,419 --> 00:33:31,119

years ago so it's not doing the exact

831

00:33:35,969 --> 00:33:33,429

date that I will argue for and I've come

832

00:33:38,459 --> 00:33:35,979

to that but it's you know

833

00:33:41,549 --> 00:33:38,469

well far back in that period and that

834

00:33:43,769 --> 00:33:41,559

this craft is basically destroyed

835

00:33:45,269 --> 00:33:43,779

there's a few survives that come from it

836

00:33:47,399 --> 00:33:45,279

there's obviously a longer backstory to

837

00:33:49,349 --> 00:33:47,409

this there's some of them survived they

838

00:33:50,310 --> 00:33:49,359

come down to the planet now one of the

839

00:33:52,440 --> 00:33:50,320

reason why this really grabbed me is

840

00:33:56,039 --> 00:33:52,450

that many years ago going back to that

841

00:34:00,239 --> 00:33:56,049

2001 I had a shamanic journey you know

842

00:34:03,209 --> 00:34:00,249

in which I saw events which were very

843

00:34:04,859 --> 00:34:03,219

much paralleled to this so so when I

844

00:34:05,999 --> 00:34:04,869

have you know put the two things

845

00:34:08,549 --> 00:34:06,009

together mean this book I'm thinking

846

00:34:10,440 --> 00:34:08,559

gladly reminds me of from the visionary

847

00:34:12,029 --> 00:34:10,450

experiences I had years ago you know

848

00:34:14,339 --> 00:34:12,039

these beings in these uniforms is

849

00:34:16,440 --> 00:34:14,349

described in a craft coming towards a

850

00:34:18,779 --> 00:34:16,450

things I've seen in that vision which at

851  
00:34:20,789 --> 00:34:18,789  
the time meant nothing to me and I'd put

852  
00:34:22,379 --> 00:34:20,799  
it away for years and years being you

853  
00:34:24,299 --> 00:34:22,389  
know just one of those things a strange

854  
00:34:26,519 --> 00:34:24,309  
experience that you have no context for

855  
00:34:28,740 --> 00:34:26,529  
now certainly I had context you know

856  
00:34:30,210 --> 00:34:28,750  
book telling you oh well this happened

857  
00:34:32,339 --> 00:34:30,220  
and this happened in this time and you

858  
00:34:33,500 --> 00:34:32,349  
can recognize that yes this seems to be

859  
00:34:35,579 --> 00:34:33,510  
very similar

860  
00:34:37,829 --> 00:34:35,589  
now what was important at least we said

861  
00:34:39,809 --> 00:34:37,839  
not into it lay out details of this

862  
00:34:43,069 --> 00:34:39,819  
craft you know roughly when it arrived

863  
00:34:44,909 --> 00:34:43,079

how it's destroyed what it's made of the

864

00:34:47,220 --> 00:34:44,919

potential kind of debris that would be

865

00:34:48,599 --> 00:34:47,230

left but also other events in there

866

00:34:51,299 --> 00:34:48,609

which could be tracked you know a

867

00:34:53,460 --> 00:34:51,309

bombardment of asteroids a few years

868

00:34:57,059 --> 00:34:53,470

later five years after this explosion

869

00:34:59,549 --> 00:34:57,069

and a description of the creating of the

870

00:35:01,829 --> 00:34:59,559

first Homo sapiens all clustered

871

00:35:05,640 --> 00:35:01,839

together right in in a temporal space

872

00:35:08,490 --> 00:35:05,650

and in a physical place so I'm thinking

873

00:35:10,260 --> 00:35:08,500

well if if this is true and that the

874

00:35:11,519 --> 00:35:10,270

author says look although she feels it's

875

00:35:13,710 --> 00:35:11,529

true at the end she says I'm not

876

00:35:15,180 --> 00:35:13,720

providing you science you know if you

877

00:35:17,010 --> 00:35:15,190

believe it you believe it if you don't

878

00:35:18,870 --> 00:35:17,020

you don't and she's quite honest about

879

00:35:21,900 --> 00:35:18,880

that she doesn't say you know you must

880

00:35:23,549 --> 00:35:21,910

believe my you know my book because

881

00:35:25,410 --> 00:35:23,559

she's aware that she doesn't do what I

882

00:35:28,740 --> 00:35:25,420

do and go away and get you know

883

00:35:31,799 --> 00:35:28,750

scientific evidence she leaves it as it

884

00:35:35,910 --> 00:35:31,809

is now I should clarify how did she get

885

00:35:38,520 --> 00:35:35,920

this story right and the way I would

886

00:35:40,140 --> 00:35:38,530

interpret it and you can be interpreted

887

00:35:43,070 --> 00:35:40,150

but I'm gonna trip it in a well it's a

888

00:35:45,780 --> 00:35:43,080

scientific way right that there is an

889

00:35:48,330 --> 00:35:45,790

artifact which comes into her possession

890

00:35:52,560 --> 00:35:48,340

an Aboriginal sacred artifact called a

891

00:35:54,600 --> 00:35:52,570

true ringa Linga stone now the law

892

00:35:56,190 --> 00:35:54,610

around these artifacts is that they go

893

00:35:57,930 --> 00:35:56,200

back to the original ones go back to the

894

00:35:59,730 --> 00:35:57,940

dream time when the first humans were

895

00:36:01,740 --> 00:35:59,740

created when a lot of the landscape was

896

00:36:03,750 --> 00:36:01,750

created when there was these these

897

00:36:04,350 --> 00:36:03,760

beings that walk the earth they called

898

00:36:07,380 --> 00:36:04,360

these phone

899

00:36:09,720 --> 00:36:07,390

this sky heroes or dreaming beings who

900

00:36:12,110 --> 00:36:09,730

walked the earth right and that they did

901  
00:36:14,670 --> 00:36:12,120  
all these amazing things now

902  
00:36:18,120 --> 00:36:14,680  
can I just clarify first thing so you're

903  
00:36:21,000 --> 00:36:18,130  
saying if you go to certain aboriginal

904  
00:36:23,880 --> 00:36:21,010  
groups in australia and say what are

905  
00:36:25,830 --> 00:36:23,890  
these things they'll say exactly would

906  
00:36:28,500 --> 00:36:25,840  
you just sit here yes and that they that

907  
00:36:31,320 --> 00:36:28,510  
they have within them the consciousness

908  
00:36:34,560 --> 00:36:31,330  
of dreaming beings from that dream time

909  
00:36:37,710 --> 00:36:34,570  
right outer Inga beings okay so you have

910  
00:36:42,210 --> 00:36:37,720  
an artifact which in its own law says it

911  
00:36:45,450 --> 00:36:42,220  
has an inhabiting consciousness of some

912  
00:36:47,940 --> 00:36:45,460  
kind of entity from the time when humans

913  
00:36:49,920 --> 00:36:47,950

were created that's in their law right

914

00:36:51,390 --> 00:36:49,930

so that's long before I've come around I

915

00:36:53,820 --> 00:36:51,400

don't you know I'm not involved in

916

00:36:55,680 --> 00:36:53,830

making that up or or claiming that it

917

00:36:56,330 --> 00:36:55,690

simply is the Aboriginal law for these

918

00:36:58,230 --> 00:36:56,340

artifacts

919

00:37:00,660 --> 00:36:58,240

now when you really think about that

920

00:37:01,950 --> 00:37:00,670

that that can be put into a spiritual

921

00:37:03,270 --> 00:37:01,960

context which they have which is you

922

00:37:05,280 --> 00:37:03,280

know these spirit beings in these

923

00:37:06,780 --> 00:37:05,290

artifacts but let's put that another way

924

00:37:09,330 --> 00:37:06,790

now let's say that there was a

925

00:37:12,000 --> 00:37:09,340

visitation to this planet in remote

926  
00:37:14,490 --> 00:37:12,010  
prehistory and that the beings left

927  
00:37:16,050 --> 00:37:14,500  
behind technologies that we cannot

928  
00:37:18,780 --> 00:37:16,060  
understand technologies that would be

929  
00:37:21,690 --> 00:37:18,790  
essentially unrecognizable to us because

930  
00:37:23,580 --> 00:37:21,700  
they're so advanced and disguised in

931  
00:37:25,680 --> 00:37:23,590  
such a way is that for us they don't

932  
00:37:26,940 --> 00:37:25,690  
look like much looked like maybe like

933  
00:37:29,040 --> 00:37:26,950  
they say maybe look like a rock or it

934  
00:37:31,170 --> 00:37:29,050  
looks like just you know this artifact

935  
00:37:32,580 --> 00:37:31,180  
is they they know it's very special they

936  
00:37:34,530 --> 00:37:32,590  
know it can communicate with them it has

937  
00:37:36,710 --> 00:37:34,540  
a consciousness so in their way of

938  
00:37:39,900 --> 00:37:36,720

looking at it's a spirit being right but

939

00:37:42,420 --> 00:37:39,910

could this not be exactly what we would

940

00:37:45,660 --> 00:37:42,430

call a Bracewell probe because the

941

00:37:49,290 --> 00:37:45,670

Bracewell probe essentially is very

942

00:37:51,870 --> 00:37:49,300

advanced AI technology which can be sent

943

00:37:52,440 --> 00:37:51,880

out to other worlds it is theorized

944

00:37:54,780 --> 00:37:52,450

within

945

00:37:55,950 --> 00:37:54,790

NASA papers that they you can send out

946

00:37:58,200 --> 00:37:55,960

these things and they will act as

947

00:38:01,800 --> 00:37:58,210

sentinels which will sit on a planet

948

00:38:03,660 --> 00:38:01,810

wait for a civilization to arise you're

949

00:38:05,820 --> 00:38:03,670

monitoring tracking the whole time

950

00:38:08,850 --> 00:38:05,830

and then at a certain point these things

951  
00:38:12,780 --> 00:38:08,860  
could be programmed to activate and make

952  
00:38:14,250 --> 00:38:12,790  
contact with the civilization now in

953  
00:38:16,290 --> 00:38:14,260  
this instance we seems to be exactly

954  
00:38:18,390 --> 00:38:16,300  
what we have that's happened this this

955  
00:38:20,880 --> 00:38:18,400  
artifact this inhabiting consciousness

956  
00:38:23,310 --> 00:38:20,890  
which I would say could be an AI it may

957  
00:38:24,930 --> 00:38:23,320  
not be a being in the way that we think

958  
00:38:26,790 --> 00:38:24,940  
about it but again then you come into a

959  
00:38:30,240 --> 00:38:26,800  
philosophical thing there is a hard a I

960  
00:38:34,200 --> 00:38:30,250  
this self-aware is it a being I think

961  
00:38:37,220 --> 00:38:34,210  
maybe you also come into the really the

962  
00:38:39,390 --> 00:38:37,230  
spiritual in a broader sense

963  
00:38:41,810 --> 00:38:39,400

understanding of it because I think we

964

00:38:44,130 --> 00:38:41,820

do get locked into our space-time

965

00:38:46,530 --> 00:38:44,140

reality and everything has to fit into

966

00:38:48,450 --> 00:38:46,540

that you know we do have to incorporate

967

00:38:51,570 --> 00:38:48,460

in your shamanic journey we do have to

968

00:38:53,580 --> 00:38:51,580

incorporate in your dream experiences

969

00:38:54,870 --> 00:38:53,590

Daniela's dream experiences and the

970

00:38:56,880 --> 00:38:54,880

reason I say that is because I've had a

971

00:38:58,710 --> 00:38:56,890

bunch of people have tried to explore

972

00:38:59,880 --> 00:38:58,720

that stuff scientifically do mediums

973

00:39:01,920 --> 00:38:59,890

really talk to the dead does

974

00:39:02,910 --> 00:39:01,930

consciousness really survive death yes

975

00:39:06,080 --> 00:39:02,920

yes yes yes

976

00:39:09,600 --> 00:39:06,090

okay so I'm not shooting down the a

977

00:39:12,570 --> 00:39:09,610

thing but until we can understand the

978

00:39:15,270 --> 00:39:12,580

larger extended consciousness reality we

979

00:39:18,750 --> 00:39:15,280

don't really know but your speculation

980

00:39:20,970 --> 00:39:18,760

is fair because which are connecting it

981

00:39:23,610 --> 00:39:20,980

to is that hey that's what these people

982

00:39:26,610 --> 00:39:23,620

say it is and you had this experience

983

00:39:29,460 --> 00:39:26,620

with it and you it connected you with

984

00:39:32,010 --> 00:39:29,470

your past experience and then the real

985

00:39:35,550 --> 00:39:32,020

story is you said let me see if I can

986

00:39:36,900 --> 00:39:35,560

prove it absolutely yeah that point it

987

00:39:39,270 --> 00:39:36,910

can be ambiguous it doesn't matter if

988

00:39:42,900 --> 00:39:39,280

it's a spirit living in a pin a rock or

989

00:39:44,550 --> 00:39:42,910

if it's an AI in a probe right there'll

990

00:39:46,170 --> 00:39:44,560

be people you'll get hung up on that one

991

00:39:48,570 --> 00:39:46,180

or the other but as you should point out

992

00:39:52,230 --> 00:39:48,580

there what really matters is is what

993

00:39:54,150 --> 00:39:52,240

it's telling us valid you're right so it

994

00:39:56,130 --> 00:39:54,160

doesn't matter you know it can be either

995

00:39:57,600 --> 00:39:56,140

and it may be they're the same thing but

996

00:40:00,090 --> 00:39:57,610

just from different cultural you know

997

00:40:02,250 --> 00:40:00,100

and filters that the spirit being or the

998

00:40:03,930 --> 00:40:02,260

alien AI maybe they're the same thing

999

00:40:06,210 --> 00:40:03,940

you know I don't know but I can let

1000

00:40:07,859 --> 00:40:06,220

other people side for themselves which

1001

00:40:09,690 --> 00:40:07,869

one fits into their worldview right

1002

00:40:12,180 --> 00:40:09,700

because I'm not gonna arbitrate that for

1003

00:40:15,359 --> 00:40:12,190

people but what matters for me is the

1004

00:40:17,910 --> 00:40:15,369

information again so we have this this

1005

00:40:19,800 --> 00:40:17,920

object which communicates through voice

1006

00:40:21,540 --> 00:40:19,810

to skull which again that could be

1007

00:40:23,790 --> 00:40:21,550

technological we have voice to scold to

1008

00:40:26,310 --> 00:40:23,800

technologies or it could be metaphysical

1009

00:40:28,650 --> 00:40:26,320

could be telepathy you know again things

1010

00:40:30,660 --> 00:40:28,660

are ambiguous right could be both right

1011

00:40:32,220 --> 00:40:30,670

it could be both what matters is we know

1012

00:40:34,859 --> 00:40:32,230

that the both of those things exist

1013

00:40:37,410 --> 00:40:34,869

technological voice - skull metaphysical

1014

00:40:37,859 --> 00:40:37,420

voice tsk oh okay so I don't mind which

1015

00:40:40,170 --> 00:40:37,869

one it was

1016

00:40:42,870 --> 00:40:40,180

this object communicates information

1017

00:40:45,210 --> 00:40:42,880

directly into Valerie burrows head it

1018

00:40:46,620 --> 00:40:45,220

gives her this whole story of you know

1019

00:40:48,930 --> 00:40:46,630

what's happened and again this is quite

1020

00:40:50,640 --> 00:40:48,940

funny because very recently I I think

1021

00:40:52,080 --> 00:40:50,650

isn't a John keel book he talks about

1022

00:40:53,849 --> 00:40:52,090

something called the The Dark Knight the

1023

00:40:55,710 --> 00:40:53,859

Black Knight satellite this is

1024

00:40:56,760 --> 00:40:55,720

supposedly that they years ago they just

1025

00:40:59,940 --> 00:40:56,770

take the satellite orbit around this

1026  
00:41:02,310 --> 00:40:59,950  
planet right some and he theorized maybe

1027  
00:41:04,470 --> 00:41:02,320  
at some point it would provide a lost

1028  
00:41:05,760 --> 00:41:04,480  
history of our planet now that's kind of

1029  
00:41:08,310 --> 00:41:05,770  
funny because it's exactly what this

1030  
00:41:10,589 --> 00:41:08,320  
this object does yeah exactly is this

1031  
00:41:11,790 --> 00:41:10,599  
story of the Black Knight satellite that

1032  
00:41:14,250 --> 00:41:11,800  
there's some alien probe which has

1033  
00:41:17,339 --> 00:41:14,260  
recorded our story and is at some point

1034  
00:41:19,320 --> 00:41:17,349  
able to then relay it to us and that's

1035  
00:41:22,890 --> 00:41:19,330  
what if they basically downloads the

1036  
00:41:24,810 --> 00:41:22,900  
entire lost history of our early origins

1037  
00:41:28,070 --> 00:41:24,820  
telling us that you know this craft

1038  
00:41:30,720 --> 00:41:28,080

arrives initially plans for a

1039

00:41:32,250 --> 00:41:30,730

colonization event they are genetically

1040

00:41:33,750 --> 00:41:32,260

engineering themselves to live on the

1041

00:41:35,160 --> 00:41:33,760

planet which is very reasonable stuff

1042

00:41:37,079 --> 00:41:35,170

because you think about they they can't

1043

00:41:38,339 --> 00:41:37,089

just live on the planet they're not

1044

00:41:40,470 --> 00:41:38,349

suited but they're using their own

1045

00:41:43,760 --> 00:41:40,480

technology to modify themselves to live

1046

00:41:46,440 --> 00:41:43,770

here now unfortunately there is a

1047

00:41:49,380 --> 00:41:46,450

complex exopolitical event they see a

1048

00:41:51,240 --> 00:41:49,390

portrayal by some people on board and to

1049

00:41:52,170 --> 00:41:51,250

another party there's at that time in

1050

00:41:53,310 --> 00:41:52,180

control of this planet

1051  
00:41:56,310 --> 00:41:53,320  
there's supposed to be a handover

1052  
00:41:56,820 --> 00:41:56,320  
instead there's an ambush this ship is

1053  
00:42:00,300 --> 00:41:56,830  
destroyed

1054  
00:42:02,520 --> 00:42:00,310  
it's a vast kilometer diameter quartz

1055  
00:42:04,349 --> 00:42:02,530  
crystalline ship grown from living

1056  
00:42:07,859 --> 00:42:04,359  
crystal is how they describe it's not

1057  
00:42:11,040 --> 00:42:07,869  
built it's grown and is inhabited by its

1058  
00:42:13,410 --> 00:42:11,050  
own AI within the frame of the craft but

1059  
00:42:15,390 --> 00:42:13,420  
first you'd think ok crystals whoo you

1060  
00:42:16,890 --> 00:42:15,400  
know but hang on a minute what are the

1061  
00:42:19,320 --> 00:42:16,900  
leading edge science is telling us that

1062  
00:42:20,070 --> 00:42:19,330  
the future of conscious is uploading

1063  
00:42:22,740 --> 00:42:20,080

into vah

1064

00:42:25,890 --> 00:42:22,750

silicon networks right so we have this

1065

00:42:28,380 --> 00:42:25,900

enormous silicon network within which is

1066

00:42:29,670 --> 00:42:28,390

the crew yeah so the ultimate computer

1067

00:42:32,160 --> 00:42:29,680

you don't have the computer onboard the

1068

00:42:34,710 --> 00:42:32,170

craft the craft is the computer imagine

1069

00:42:35,850 --> 00:42:34,720

the the processing power of a kilometer

1070

00:42:38,280 --> 00:42:35,860

diameter

1071

00:42:40,770 --> 00:42:38,290

you know moonlight craft which is

1072

00:42:42,780 --> 00:42:40,780

inhabited by AI so it's fantastical

1073

00:42:45,900 --> 00:42:42,790

technologies magical technologies so

1074

00:42:48,270 --> 00:42:45,910

let's let's chunk this down for a second

1075

00:42:51,660 --> 00:42:48,280

again well I know yeah I mean I I don't

1076

00:42:55,440 --> 00:42:51,670

know to stop you or to just kind of let

1077

00:42:57,480 --> 00:42:55,450

it go because I love all the the either

1078

00:42:59,640 --> 00:42:57,490

deeper stuff that we could get into in

1079

00:43:02,610 --> 00:42:59,650

all this but just let me bring it back

1080

00:43:05,520 --> 00:43:02,620

up to speed so Valerie has this download

1081

00:43:09,120 --> 00:43:05,530

and I say download because in the UFO

1082

00:43:11,970 --> 00:43:09,130

community we hear that all the time in

1083

00:43:15,750 --> 00:43:11,980

the nbe near-death experience community

1084

00:43:18,630 --> 00:43:15,760

we hear that all the time that I reach

1085

00:43:22,320 --> 00:43:18,640

this extended consciousness realm and I

1086

00:43:24,990 --> 00:43:22,330

got a download in instantaneous like

1087

00:43:27,300 --> 00:43:25,000

excitement cyclopædia Britannica which

1088

00:43:30,420 --> 00:43:27,310

is so outdated but take Wikipedia

1089

00:43:32,970 --> 00:43:30,430

Wikipedia was suddenly just boom popped

1090

00:43:35,280 --> 00:43:32,980

into my head and I knew the answer to

1091

00:43:37,620 --> 00:43:35,290

everything I'm not saying that Valerie

1092

00:43:42,690 --> 00:43:37,630

said this I'm saying this concept of

1093

00:43:44,130 --> 00:43:42,700

download is well reported over and over

1094

00:43:45,900 --> 00:43:44,140

again in a number of different

1095

00:43:48,390 --> 00:43:45,910

communities like the UFO abduction

1096

00:43:51,330 --> 00:43:48,400

community and the NDE community so

1097

00:43:53,580 --> 00:43:51,340

valerie has such a download and then

1098

00:43:55,520 --> 00:43:53,590

just to recap the download says hey

1099

00:44:00,420 --> 00:43:55,530

here's how you guys came into existence

1100

00:44:03,090 --> 00:44:00,430

there's this huge UFO and it came

1101  
00:44:05,100 --> 00:44:03,100  
through this portal that you can point

1102  
00:44:06,660 --> 00:44:05,110  
to the Pleiades and that's not really it

1103  
00:44:09,690 --> 00:44:06,670  
just kind of came through there that was

1104  
00:44:12,480 --> 00:44:09,700  
like the stuff in the subway system and

1105  
00:44:14,580 --> 00:44:12,490  
it's over here and boom it was there and

1106  
00:44:16,980 --> 00:44:14,590  
then it somehow got destroyed and

1107  
00:44:22,260 --> 00:44:16,990  
because there was this war between the

1108  
00:44:24,000 --> 00:44:22,270  
planet yeah it's really crazy yep well

1109  
00:44:25,320 --> 00:44:24,010  
as you say well no is necessarily

1110  
00:44:27,510 --> 00:44:25,330  
Compton I mean I know people probably

1111  
00:44:30,090 --> 00:44:27,520  
like it to be a simple narrative without

1112  
00:44:33,330 --> 00:44:30,100  
you know a back story of betrayed ships

1113  
00:44:33,910 --> 00:44:33,340

and alien alliances and but if that's

1114

00:44:37,359 --> 00:44:33,920

what's out there

1115

00:44:39,700 --> 00:44:37,369

there's if it's weird and strange and

1116

00:44:41,770 --> 00:44:39,710

it's alien well it should be weird and

1117

00:44:45,099 --> 00:44:41,780

strange Dory for a start right because

1118

00:44:47,380 --> 00:44:45,109

you know it's an alien story right so

1119

00:44:49,420 --> 00:44:47,390

again I think there's something another

1120

00:44:50,980 --> 00:44:49,430

point some people jump to is say well

1121

00:44:53,740 --> 00:44:50,990

you said they come from the Pleiades oh

1122

00:44:55,990 --> 00:44:53,750

the Pleiades are a young stars cloud you

1123

00:44:57,579 --> 00:44:56,000

know there's no way advanced life could

1124

00:44:59,589 --> 00:44:57,589

have formed there well there's two

1125

00:45:01,539 --> 00:44:59,599

problems firstly they don't say they

1126

00:45:04,150 --> 00:45:01,549

live there right that they've traveled

1127

00:45:06,430 --> 00:45:04,160

from there from a gateway doesn't mean

1128

00:45:08,380 --> 00:45:06,440

that their worlds are in there this is

1129

00:45:09,609 --> 00:45:08,390

multiple types of beings so we can

1130

00:45:11,680 --> 00:45:09,619

assume that they come from various

1131

00:45:13,930 --> 00:45:11,690

worlds in various places but they're

1132

00:45:16,180 --> 00:45:13,940

their last jumping-off point through

1133

00:45:17,620 --> 00:45:16,190

this wormhole is the Pleiades secondly

1134

00:45:19,960 --> 00:45:17,630

we don't know what kinds of life are out

1135

00:45:22,240 --> 00:45:19,970

there I mean are there life-forms that

1136

00:45:24,940 --> 00:45:22,250

live in these nebulous gas clouds within

1137

00:45:27,180 --> 00:45:24,950

you know these young stars we don't know

1138

00:45:28,990 --> 00:45:27,190

that's a that's truthfully we don't I

1139

00:45:31,569 --> 00:45:29,000

suspect that the Pleiades may be

1140

00:45:33,849 --> 00:45:31,579

entirely a manufactured cloud just to

1141

00:45:35,470 --> 00:45:33,859

power their Stargate I don't know but

1142

00:45:37,900 --> 00:45:35,480

who knows when you start dealing with

1143

00:45:39,849 --> 00:45:37,910

say you know type free civilizations who

1144

00:45:42,130 --> 00:45:39,859

it is fear ice they can you know move

1145

00:45:44,559 --> 00:45:42,140

Suns around and all sorts of so we have

1146

00:45:46,359 --> 00:45:44,569

to be careful at the limitations that we

1147

00:45:48,940 --> 00:45:46,369

would artificially put on what

1148

00:45:51,370 --> 00:45:48,950

essentially I was god-like technologies

1149

00:45:54,670 --> 00:45:51,380

right we're you know it's it's it's so

1150

00:45:57,910 --> 00:45:54,680

far ahead for us that it just sounds

1151

00:45:59,950 --> 00:45:57,920

ludicrous right but if you look at our

1152

00:46:02,319 --> 00:45:59,960

cutting-edge fingers in these Sciences

1153

00:46:04,510 --> 00:46:02,329

the kind of things that this download

1154

00:46:07,660 --> 00:46:04,520

includes are the things that they're

1155

00:46:09,910 --> 00:46:07,670

telling us they imagine advanced alien

1156

00:46:11,289 --> 00:46:09,920

civilizations having right so there's a

1157

00:46:13,569 --> 00:46:11,299

consistency that and again a lot of

1158

00:46:15,549 --> 00:46:13,579

these things have come out only recently

1159

00:46:18,160 --> 00:46:15,559

these ideas when Valerie wrote this book

1160

00:46:19,930 --> 00:46:18,170

back in my experiences back in the early

1161

00:46:22,210 --> 00:46:19,940

90s but she wrote that she published

1162

00:46:24,309 --> 00:46:22,220

book in 2003 a lot of these things which

1163

00:46:26,349 --> 00:46:24,319

one might hear weren't even out in you

1164

00:46:28,270 --> 00:46:26,359

know in the conversation in the media

1165

00:46:30,609 --> 00:46:28,280

this a lot of this stuff is quite recent

1166

00:46:32,109 --> 00:46:30,619

these ideas she certainly I can't see

1167

00:46:34,150 --> 00:46:32,119

how she could been aware if he's like

1168

00:46:35,440 --> 00:46:34,160

voice to scull technologies or or that

1169

00:46:37,059 --> 00:46:35,450

you know uploading consciousness to

1170

00:46:40,569 --> 00:46:37,069

silicon networks these really are kind

1171

00:46:42,220 --> 00:46:40,579

of cutting edge ideas right now so we

1172

00:46:44,710 --> 00:46:42,230

can figure out whether they lived in the

1173

00:46:46,660 --> 00:46:44,720

Pleiades I don't think they did but I

1174

00:46:47,589 --> 00:46:46,670

certainly isn't you know a reason to

1175

00:46:51,130 --> 00:46:47,599

dismiss it

1176  
00:46:52,689 --> 00:46:51,140  
okay then we have of course yeah this

1177  
00:46:54,699 --> 00:46:52,699  
would I say is it a logical explanation

1178  
00:46:56,680 --> 00:46:54,709  
you know not only that the craft is now

1179  
00:46:58,959 --> 00:46:56,690  
to AI cetera that's why is crystalline

1180  
00:46:59,979 --> 00:46:58,969  
makes sense but also we have yeah and

1181  
00:47:01,539 --> 00:46:59,989  
they were going to genetically engineer

1182  
00:47:05,049 --> 00:47:01,549  
themselves they have those technologies

1183  
00:47:07,089 --> 00:47:05,059  
make sense hold on hold on because it

1184  
00:47:08,799 --> 00:47:07,099  
doesn't it doesn't make sense right to a

1185  
00:47:12,579 --> 00:47:08,809  
lot of people it doesn't make sense

1186  
00:47:15,489 --> 00:47:12,589  
their their mind is blown but Bruce has

1187  
00:47:19,299 --> 00:47:15,499  
done some science here that is in the

1188  
00:47:22,479 --> 00:47:19,309

make sense kind of category like I have

1189

00:47:25,749 --> 00:47:22,489

the board up here and you know chickens

1190

00:47:27,729 --> 00:47:25,759

and chimps we already talked about but

1191

00:47:30,249 --> 00:47:27,739

you know I think a lot of people will

1192

00:47:33,699 --> 00:47:30,259

say that makes sense Bruce that's a

1193

00:47:35,890 --> 00:47:33,709

strong argument and you bring us to 780

1194

00:47:38,589 --> 00:47:35,900

thousand years ago in a way that makes

1195

00:47:40,900 --> 00:47:38,599

me scratch my head and say yeah that is

1196

00:47:42,069 --> 00:47:40,910

kind of strange you got a couple of

1197

00:47:46,529 --> 00:47:42,079

other ones in here buddy

1198

00:47:50,160 --> 00:47:46,539

that I don't know but it is just too

1199

00:47:52,089 --> 00:47:50,170

crazy I mean do you want to talk about

1200

00:47:54,370 --> 00:47:52,099

tektites do you want to talk about

1201  
00:47:55,630 --> 00:47:54,380  
tractor beam where do you want to go I'm

1202  
00:47:57,150 --> 00:47:55,640  
in the Czech toys because that is

1203  
00:48:01,809 --> 00:47:57,160  
relating to the ship that we've already

1204  
00:48:05,259 --> 00:48:01,819  
already discussed go just what are they

1205  
00:48:08,979 --> 00:48:05,269  
and why is this like even a thing

1206  
00:48:11,920 --> 00:48:08,989  
sure now tektites are basically formed

1207  
00:48:13,359 --> 00:48:11,930  
by extreme events you know extreme like

1208  
00:48:15,579 --> 00:48:13,369  
there's a couple thank you for the map

1209  
00:48:19,209 --> 00:48:15,589  
see there's been a number of these a

1210  
00:48:22,449 --> 00:48:19,219  
small number on this map we can see

1211  
00:48:26,019 --> 00:48:22,459  
there's been four major tech type events

1212  
00:48:28,390 --> 00:48:26,029  
you've got one over in in Africa you've

1213  
00:48:30,370 --> 00:48:28,400

got another one over in Europe and

1214

00:48:31,839 --> 00:48:30,380

you've got one off in North America

1215

00:48:34,390 --> 00:48:31,849

let's just make sure people understand

1216

00:48:36,489 --> 00:48:34,400

these are these are meteorites in your

1217

00:48:38,920 --> 00:48:36,499

impact yeah these are particular kinds

1218

00:48:40,689 --> 00:48:38,930

of impacts now I say the tick looks with

1219

00:48:42,430 --> 00:48:40,699

we only have four of these tech type

1220

00:48:45,489 --> 00:48:42,440

strewn fields so there is something

1221

00:48:48,370 --> 00:48:45,499

pleasantly strange and you know

1222

00:48:50,259 --> 00:48:48,380

anomalous about tektite strewn fields

1223

00:48:53,650 --> 00:48:50,269

because we know this planet has been hit

1224

00:48:55,420 --> 00:48:53,660

by many many Meads frights asteroids you

1225

00:48:58,209 --> 00:48:55,430

know even comets if you go through the

1226  
00:49:00,400 --> 00:48:58,219  
whole 4.5 million years right we've been

1227  
00:49:01,480 --> 00:49:00,410  
we've been whacked a lot of times but

1228  
00:49:03,490 --> 00:49:01,490  
the strange thing is we

1229  
00:49:06,190 --> 00:49:03,500  
four of these strewn fields where we got

1230  
00:49:07,930 --> 00:49:06,200  
these these small pieces of material

1231  
00:49:09,520 --> 00:49:07,940  
that have been melted

1232  
00:49:12,430 --> 00:49:09,530  
they've been shaped usually into either

1233  
00:49:15,400 --> 00:49:12,440  
dumbbell shapes teardrop shapes or small

1234  
00:49:17,710 --> 00:49:15,410  
spheres and these are molten you know

1235  
00:49:20,260 --> 00:49:17,720  
usually molten rock from both the object

1236  
00:49:22,030 --> 00:49:20,270  
and from the the area itself has been

1237  
00:49:24,400 --> 00:49:22,040  
impacted by which are melted these out

1238  
00:49:26,620 --> 00:49:24,410

these are really really really weird

1239

00:49:28,359 --> 00:49:26,630

these are unique in these one that are

1240

00:49:30,040 --> 00:49:28,369

unique couple of different ways and the

1241

00:49:31,930 --> 00:49:30,050

other thing about that chart that when I

1242

00:49:34,510 --> 00:49:31,940

went and looked that I didn't

1243

00:49:36,520 --> 00:49:34,520

immediately get is if you just go like I

1244

00:49:37,810 --> 00:49:36,530

went to the University of Texas and they

1245

00:49:39,730 --> 00:49:37,820

got this nice website and they talked

1246

00:49:43,210 --> 00:49:39,740

about it tektites and they go hey they

1247

00:49:45,310 --> 00:49:43,220

happen from five million years ago to a

1248

00:49:47,890 --> 00:49:45,320

million years ago you know and I'm like

1249

00:49:50,320 --> 00:49:47,900

hey what's Bruce talking about man these

1250

00:49:52,870 --> 00:49:50,330

things in but now you dig the next layer

1251  
00:49:56,440 --> 00:49:52,880  
like you just did that's not really a

1252  
00:49:59,440 --> 00:49:56,450  
very meaningful way of telling the story

1253  
00:50:01,720 --> 00:49:59,450  
what is the real meaning is that hey

1254  
00:50:05,670 --> 00:50:01,730  
these these particular kind of very

1255  
00:50:09,370 --> 00:50:05,680  
unique meteorites that have this kind of

1256  
00:50:11,349 --> 00:50:09,380  
like outs fast-food or a snack food kind

1257  
00:50:13,109 --> 00:50:11,359  
of core in the middle of one thing and

1258  
00:50:17,320 --> 00:50:13,119  
another thing that melted on the outside

1259  
00:50:19,840 --> 00:50:17,330  
really that they're only four separate

1260  
00:50:22,090 --> 00:50:19,850  
events that are separated by millions

1261  
00:50:24,640 --> 00:50:22,100  
and millions of years and the one that's

1262  
00:50:26,590 --> 00:50:24,650  
really the most interesting jumps out

1263  
00:50:29,230 --> 00:50:26,600

even when you just look at ya on the map

1264

00:50:31,450 --> 00:50:29,240

fifty lumps and what's the what's the

1265

00:50:34,090 --> 00:50:31,460

dating on that and that was a seven

1266

00:50:36,220 --> 00:50:34,100

hundred eighty thousand years and that's

1267

00:50:38,470 --> 00:50:36,230

fast the thing we know when I went away

1268

00:50:40,870 --> 00:50:38,480

to look up you know was there any

1269

00:50:43,570 --> 00:50:40,880

material that matched the description of

1270

00:50:45,550 --> 00:50:43,580

this craft breaking up you know that

1271

00:50:47,880 --> 00:50:45,560

this this crystalline this course

1272

00:50:50,440 --> 00:50:47,890

crystalline craft you know huge

1273

00:50:52,060 --> 00:50:50,450

supposedly carried around 50,000 beings

1274

00:50:53,980 --> 00:50:52,070

on boards was an enormous thing right

1275

00:50:56,260 --> 00:50:53,990

then it broke up he's described that it

1276  
00:50:58,570 --> 00:50:56,270  
came up I came apart melted it was a

1277  
00:51:00,190 --> 00:50:58,580  
high-temperature event the energy

1278  
00:51:02,620 --> 00:51:00,200  
weapons that were used cause it to

1279  
00:51:04,599 --> 00:51:02,630  
shatter those resonance frequencies and

1280  
00:51:07,180 --> 00:51:04,609  
heating so he's like shattering apart

1281  
00:51:08,950 --> 00:51:07,190  
exploded and it was a nuclear type

1282  
00:51:11,380 --> 00:51:08,960  
explosion at the end and that then

1283  
00:51:13,180 --> 00:51:11,390  
material rained down far and wide and

1284  
00:51:14,670 --> 00:51:13,190  
this is described in this download right

1285  
00:51:16,890 --> 00:51:14,680  
so for well

1286  
00:51:18,870 --> 00:51:16,900  
could it be that any of this melted you

1287  
00:51:20,940 --> 00:51:18,880  
know raining material could it survive

1288  
00:51:22,680 --> 00:51:20,950

to the present because we're not talking

1289

00:51:24,120 --> 00:51:22,690

about you know iron or something that

1290

00:51:26,820 --> 00:51:24,130

would have just rusted away right

1291

00:51:28,800 --> 00:51:26,830

because it's a silica there's the chance

1292

00:51:32,100 --> 00:51:28,810

to be persisting for a very long time in

1293

00:51:33,180 --> 00:51:32,110

the geological records now if I went

1294

00:51:35,070 --> 00:51:33,190

away and I've looked my foot well

1295

00:51:37,110 --> 00:51:35,080

probably I wouldn't find anything right

1296

00:51:38,610 --> 00:51:37,120

so you know you must be quite lucky the

1297

00:51:39,960 --> 00:51:38,620

Eva this is real event you know you'd

1298

00:51:41,910 --> 00:51:39,970

have to be quite lucky that something

1299

00:51:44,730 --> 00:51:41,920

has been found it's been analyzed you

1300

00:51:45,780 --> 00:51:44,740

know and it matches up and so I was

1301  
00:51:49,140 --> 00:51:45,790  
quite astonished to find that there was

1302  
00:51:50,940 --> 00:51:49,150  
a 100 year long mystery around this

1303  
00:51:53,220 --> 00:51:50,950  
material could australoid tech type and

1304  
00:51:54,420 --> 00:51:53,230  
then you know I guess a lot geologists

1305  
00:51:56,820 --> 00:51:54,430  
and chemists stuff will know this he's

1306  
00:51:58,410 --> 00:51:56,830  
been studied by NASA you know I hadn't

1307  
00:52:00,300 --> 00:51:58,420  
pervy heard of it you know I guess a lot

1308  
00:52:02,550 --> 00:52:00,310  
of the listeners maybe haven't either

1309  
00:52:04,710 --> 00:52:02,560  
right and what you find is that there's

1310  
00:52:07,380 --> 00:52:04,720  
been this a long-standing Arden over how

1311  
00:52:10,500 --> 00:52:07,390  
it formed because it's quite unlike the

1312  
00:52:13,230 --> 00:52:10,510  
other free tech type fields right again

1313  
00:52:16,170 --> 00:52:13,240

they are rare enough but out on its own

1314

00:52:18,540 --> 00:52:16,180

is this vast Australoid field which

1315

00:52:20,160 --> 00:52:18,550

doesn't even doesn't even resemble the

1316

00:52:22,710 --> 00:52:20,170

other stream field and he's just so

1317

00:52:25,920 --> 00:52:22,720

enormous you know it comes from like 10%

1318

00:52:27,510 --> 00:52:25,930

of the planet's surface right and it's

1319

00:52:29,130 --> 00:52:27,520

not shaped in the way that we spec from

1320

00:52:30,330 --> 00:52:29,140

an impact which just froze out debris

1321

00:52:32,640 --> 00:52:30,340

you know into a fairly omnidirectional

1322

00:52:34,380 --> 00:52:32,650

way which we kind of see in the other

1323

00:52:35,400 --> 00:52:34,390

stream feels it's gone all over the

1324

00:52:38,040 --> 00:52:35,410

place and it's covering you know

1325

00:52:40,080 --> 00:52:38,050

Australia all the way up to two parts of

1326  
00:52:42,000 --> 00:52:40,090  
China and then that you know it was mad

1327  
00:52:45,090 --> 00:52:42,010  
at gasps you've got this vast strewn

1328  
00:52:47,280 --> 00:52:45,100  
field right that's anomaly it's very

1329  
00:52:49,290 --> 00:52:47,290  
young and so they assumed you'd be able

1330  
00:52:51,270 --> 00:52:49,300  
to find the crater this enormous crater

1331  
00:52:52,130 --> 00:52:51,280  
should be glaringly obvious because you

1332  
00:52:54,600 --> 00:52:52,140  
point out some of these other events

1333  
00:52:57,090 --> 00:52:54,610  
millions of years old and they found the

1334  
00:52:59,490 --> 00:52:57,100  
craters right the Ostrow strewn through

1335  
00:53:01,230 --> 00:52:59,500  
had no crater and that was one of core

1336  
00:53:02,910 --> 00:53:01,240  
mysteries you know they can find that

1337  
00:53:06,330 --> 00:53:02,920  
there's chunks of material there are

1338  
00:53:09,120 --> 00:53:06,340

over 20 kilos in weight I mean basically

1339

00:53:10,410 --> 00:53:09,130

up in like Laos and say well the crater

1340

00:53:11,910 --> 00:53:10,420

has to be there because if you've got

1341

00:53:14,310 --> 00:53:11,920

pieces that big they're not gonna have

1342

00:53:15,360 --> 00:53:14,320

travelled far so that's the crater and

1343

00:53:16,620 --> 00:53:15,370

they like looking around and there

1344

00:53:17,700 --> 00:53:16,630

there's nothing off so we can stand

1345

00:53:20,040 --> 00:53:17,710

these days so they've scanned

1346

00:53:21,270 --> 00:53:20,050

there's no crater all right and then

1347

00:53:23,120 --> 00:53:21,280

there's other issues with this because

1348

00:53:26,610 --> 00:53:23,130

you know the NASA studies revealed that

1349

00:53:27,690 --> 00:53:26,620

one form of Australia these buttons that

1350

00:53:29,250 --> 00:53:27,700

you showed you know

1351

00:53:32,250 --> 00:53:29,260

image that they do look like a button

1352

00:53:35,040 --> 00:53:32,260

shape right or also like the nose cone

1353

00:53:36,450 --> 00:53:35,050

of a reentry vehicle in that century

1354

00:53:37,829 --> 00:53:36,460

because nASA has looked at them partly

1355

00:53:39,750 --> 00:53:37,839

because of that they can see he's been

1356

00:53:41,339 --> 00:53:39,760

shaped by the aerodynamic forces of

1357

00:53:43,440 --> 00:53:41,349

reentering the Earth's atmosphere so

1358

00:53:44,880 --> 00:53:43,450

they were quite interested in them and

1359

00:53:46,920 --> 00:53:44,890

they know for a fact that the only way

1360

00:53:50,730 --> 00:53:46,930

this could have formed is if a large

1361

00:53:53,520 --> 00:53:50,740

body was in orbit that's a key point in

1362

00:53:56,370 --> 00:53:53,530

orbit around our planet so this not an

1363

00:53:58,589 --> 00:53:56,380

asteroid or comet flying in hurtling in

1364

00:54:00,240 --> 00:53:58,599

but it has been all because there's a

1365

00:54:03,660 --> 00:54:00,250

different angle Raider does a device

1366

00:54:06,240 --> 00:54:03,670

very straight in yeah huge speeds

1367

00:54:07,290 --> 00:54:06,250

colossal speeds particularly because

1368

00:54:09,630 --> 00:54:07,300

they know that this material has

1369

00:54:11,730 --> 00:54:09,640

isotopic ratios in it which are

1370

00:54:13,890 --> 00:54:11,740

signatures of being alien to our solar

1371

00:54:15,210 --> 00:54:13,900

system right again so this isn't one of

1372

00:54:16,920 --> 00:54:15,220

the asteroids in the asteroid belt which

1373

00:54:19,700 --> 00:54:16,930

got particular speeds usually these

1374

00:54:22,859 --> 00:54:19,710

other objects that come in coming in at

1375

00:54:24,569 --> 00:54:22,869

horrendous speeds so the idea that I say

1376

00:54:26,400 --> 00:54:24,579

a comet coming in from outside the solar

1377

00:54:28,530 --> 00:54:26,410

system would be caught in the Earth's

1378

00:54:30,950 --> 00:54:28,540

gravity and start you know becoming a

1379

00:54:34,200 --> 00:54:30,960

moon basically for the earth is

1380

00:54:36,210 --> 00:54:34,210

astonishingly witheringly small right

1381

00:54:38,550 --> 00:54:36,220

but now you have this object which is

1382

00:54:41,400 --> 00:54:38,560

orbiting us and then for no apparent

1383

00:54:43,079 --> 00:54:41,410

reason explodes they say it has two

1384

00:54:45,599 --> 00:54:43,089

broken up in space they know this

1385

00:54:49,020 --> 00:54:45,609

because the material shows signs of

1386

00:54:52,349 --> 00:54:49,030

having melted formed spheres as liquid

1387

00:54:54,569 --> 00:54:52,359

will in a vacuum right and then super

1388

00:54:56,520 --> 00:54:54,579

quickly frozen again the cold of space

1389

00:54:58,260 --> 00:54:56,530

right so they know that that was the

1390

00:55:01,200 --> 00:54:58,270

formation process for that the initial

1391

00:55:03,150 --> 00:55:01,210

spells right and that these then slowly

1392

00:55:05,700 --> 00:55:03,160

make their way down at a fairly gentle

1393

00:55:07,470 --> 00:55:05,710

angle every entry which allows them to

1394

00:55:09,000 --> 00:55:07,480

form these these shield shapes rather

1395

00:55:09,960 --> 00:55:09,010

than just burning up they come in at

1396

00:55:13,200 --> 00:55:09,970

quite a shallow angle so you've got

1397

00:55:14,790 --> 00:55:13,210

basically a deteriorating orbit and so

1398

00:55:16,890 --> 00:55:14,800

they they make their way back in and

1399

00:55:18,930 --> 00:55:16,900

they you get a whole shower of these and

1400

00:55:22,319 --> 00:55:18,940

these are at the ice age the starting

1401  
00:55:23,550 --> 00:55:22,329  
point of the re-entry zone so if you

1402  
00:55:24,030 --> 00:55:23,560  
imagine where the craft itself has been

1403  
00:55:26,550 --> 00:55:24,040  
destroyed

1404  
00:55:28,859 --> 00:55:26,560  
now these mostly fell in Antarctica and

1405  
00:55:30,240 --> 00:55:28,869  
southern Australia so this where I can

1406  
00:55:31,620 --> 00:55:30,250  
say this where the event has happened

1407  
00:55:33,270 --> 00:55:31,630  
because that's the signature for it

1408  
00:55:34,620 --> 00:55:33,280  
these little pieces that have been blown

1409  
00:55:38,160 --> 00:55:34,630  
off of there and they've come in but

1410  
00:55:40,559 --> 00:55:38,170  
then you have larger chunks and that

1411  
00:55:41,760 --> 00:55:40,569  
these have entered across you know

1412  
00:55:44,670 --> 00:55:41,770  
central to Norfolk

1413  
00:55:46,079 --> 00:55:44,680

and Southeast Asia and these larger

1414

00:55:48,420 --> 00:55:46,089

chunks as they came in they become

1415

00:55:51,540 --> 00:55:48,430

superheated and so they turned into

1416

00:55:53,400 --> 00:55:51,550

aerial bursts colossal nuclear bomb like

1417

00:55:56,400 --> 00:55:53,410

explosions in the upper atmosphere and

1418

00:55:58,410 --> 00:55:56,410

they throw down material which is now in

1419

00:56:00,870 --> 00:55:58,420

the shapes of dumbbells tear drops

1420

00:56:02,910 --> 00:56:00,880

spheres which is typical tektite shapes

1421

00:56:04,770 --> 00:56:02,920

not the buttons the buttons are unique

1422

00:56:08,099 --> 00:56:04,780

they have to have formed from reentry

1423

00:56:09,359 --> 00:56:08,109

from some space so that's a P point so

1424

00:56:12,000 --> 00:56:09,369

we don't see that in any other strewn

1425

00:56:14,190 --> 00:56:12,010

field totally unique in the 4.6 billion

1426

00:56:16,500 --> 00:56:14,200

years of this planet now

1427

00:56:18,030 --> 00:56:16,510

these had we known as aerial bursts one

1428

00:56:19,560 --> 00:56:18,040

of the mysteries have taken off by

1429

00:56:20,940 --> 00:56:19,570

tektites was that you find them in

1430

00:56:22,320 --> 00:56:20,950

clusters on the ground and the

1431

00:56:24,270 --> 00:56:22,330

geologists for a long time couldn't

1432

00:56:26,040 --> 00:56:24,280

fathom that because an impact throws

1433

00:56:28,500 --> 00:56:26,050

stuff out pretty much omnidirectional or

1434

00:56:30,450 --> 00:56:28,510

you know in chemistry in he's gonna be

1435

00:56:32,400 --> 00:56:30,460

in a circle around it fairly evenly

1436

00:56:33,990 --> 00:56:32,410

distributed you don't find them in

1437

00:56:35,730 --> 00:56:34,000

little patches and you could try the

1438

00:56:37,349 --> 00:56:35,740

whole patch hundreds of them and then

1439

00:56:39,089 --> 00:56:37,359

they stop you could walk for another

1440

00:56:41,250 --> 00:56:39,099

hundred kilometers before finding

1441

00:56:42,960 --> 00:56:41,260

another one all right that's a signature

1442

00:56:44,550 --> 00:56:42,970

for aerial bursts because where they've

1443

00:56:47,280 --> 00:56:44,560

exploded they've come down the ground

1444

00:56:49,800 --> 00:56:47,290

stranden Eve but nowhere else right so

1445

00:56:51,750 --> 00:56:49,810

you've got many large pieces exploding

1446

00:56:54,300 --> 00:56:51,760

in different areas across Australia

1447

00:56:55,890 --> 00:56:54,310

Southeast Asia and this finally got

1448

00:56:57,870 --> 00:56:55,900

proves I think coming years back there's

1449

00:57:00,630 --> 00:56:57,880

a geologist who spent decades is his

1450

00:57:01,650 --> 00:57:00,640

passion this subject right spent decades

1451  
00:57:04,829 --> 00:57:01,660  
trying to understand it

1452  
00:57:06,420 --> 00:57:04,839  
and he found a really unique piece up in

1453  
00:57:09,510 --> 00:57:06,430  
with nothing the Muong long tektites

1454  
00:57:13,980 --> 00:57:09,520  
have been louse it's really because it

1455  
00:57:15,180 --> 00:57:13,990  
has a fused second chunk stuck to it he

1456  
00:57:17,160 --> 00:57:15,190  
said the only way that could have form

1457  
00:57:19,470 --> 00:57:17,170  
is if you've had an aerial burst you've

1458  
00:57:22,050 --> 00:57:19,480  
got matured on the ground hours later a

1459  
00:57:24,480 --> 00:57:22,060  
second aerial burst has occurred and a

1460  
00:57:27,570 --> 00:57:24,490  
piece of material by good luck has stuck

1461  
00:57:28,980 --> 00:57:27,580  
to one of the cooling chunks he said at

1462  
00:57:30,990 --> 00:57:28,990  
that point you know for sure the only

1463  
00:57:33,690 --> 00:57:31,000

way this can happen is aerial bursts and

1464

00:57:36,000 --> 00:57:33,700

so this is not an impact this is debris

1465

00:57:37,950 --> 00:57:36,010

raining down from an object which has

1466

00:57:40,620 --> 00:57:37,960

exploded in spec massive Soros has

1467

00:57:42,450 --> 00:57:40,630

performed in space and now we know there

1468

00:57:44,250 --> 00:57:42,460

is no impact these are chunks of debris

1469

00:57:46,050 --> 00:57:44,260

from something and they're coming in and

1470

00:57:47,790 --> 00:57:46,060

they're exploding until eventually we

1471

00:57:49,589 --> 00:57:47,800

get the end of debris field I've been

1472

00:57:51,630 --> 00:57:49,599

Muong long well you get these strange

1473

00:57:53,430 --> 00:57:51,640

layered tektites which again are quite

1474

00:57:55,230 --> 00:57:53,440

mysterious because they don't understand

1475

00:57:56,400 --> 00:57:55,240

why they're in these thin layers

1476

00:57:57,680 --> 00:57:56,410

and I find that kind of funny because

1477

00:58:00,060 --> 00:57:57,690

there's a lot of talking about

1478

00:58:02,460 --> 00:58:00,070

metamaterials from UFOs right showing

1479

00:58:03,920 --> 00:58:02,470

layers again these pictures from you

1480

00:58:06,210 --> 00:58:03,930

know teacher say

1481

00:58:07,740 --> 00:58:06,220

they have these layers and especially if

1482

00:58:09,359 --> 00:58:07,750

you look at me long long tektites or see

1483

00:58:11,910 --> 00:58:09,369

actually they're in layers like that

1484

00:58:15,480 --> 00:58:11,920

again nobody knows why theories why

1485

00:58:19,680 --> 00:58:15,490

nobody's nobody understands them so you

1486

00:58:22,080 --> 00:58:19,690

have there a hand-in-glove match with

1487

00:58:23,340 --> 00:58:22,090

the download information right even down

1488

00:58:25,800 --> 00:58:23,350

to it's made of there's an aspect that

1489

00:58:27,840 --> 00:58:25,810

says that they are largely silica about

1490

00:58:30,180 --> 00:58:27,850

seventy-five percent silica from melted

1491

00:58:32,190 --> 00:58:30,190

quartz and quartz dust even form right

1492

00:58:34,890 --> 00:58:32,200

in space and asteroids is the only

1493

00:58:36,900 --> 00:58:34,900

formed in planetary systems you don't

1494

00:58:39,060 --> 00:58:36,910

find chunks of quartz flying around

1495

00:58:40,620 --> 00:58:39,070

he was so rare on the moon that when

1496

00:58:42,810 --> 00:58:40,630

they found some they deduced you had to

1497

00:58:44,430 --> 00:58:42,820

be from a meteorite from Earth that had

1498

00:58:46,680 --> 00:58:44,440

been knocked off to them to the moon

1499

00:58:49,500 --> 00:58:46,690

because he don't really get quartz there

1500

00:58:53,700 --> 00:58:49,510

yeah so just just to recap for folks

1501  
00:58:56,720 --> 00:58:53,710  
this story you Valerie gets us download

1502  
00:58:59,700 --> 00:58:56,730  
of information about this crazy

1503  
00:59:01,950 --> 00:58:59,710  
Hollywood story about a spaceship that

1504  
00:59:04,680 --> 00:59:01,960  
comes and they blow it out of the sky

1505  
00:59:06,810 --> 00:59:04,690  
versus a war in heaven kind of thing it

1506  
00:59:09,840 --> 00:59:06,820  
blows up it's a crystalline thing and it

1507  
00:59:12,930 --> 00:59:09,850  
falls to earth and Bruce here goes you

1508  
00:59:13,950 --> 00:59:12,940  
know I'm just crazy enough to go look

1509  
00:59:15,960 --> 00:59:13,960  
for evidence

1510  
00:59:18,390 --> 00:59:15,970  
for that story because it matches up

1511  
00:59:21,330 --> 00:59:18,400  
with the papper metaphysical experience

1512  
00:59:24,540 --> 00:59:21,340  
I had I'm gonna go see it you have the

1513  
00:59:26,660 --> 00:59:24,550

brains the smarts to say okay how would

1514

00:59:29,190 --> 00:59:26,670

I go about doing that and then you say

1515

00:59:31,650 --> 00:59:29,200

geologically maybe there's a maybe

1516

00:59:33,750 --> 00:59:31,660

there's still some stuff around crazy as

1517

00:59:36,120 --> 00:59:33,760

it may be and then like you just said

1518

00:59:39,359 --> 00:59:36,130

you hand-in-glove I mean you just go

1519

00:59:41,940 --> 00:59:39,369

through and I won't do it here but you

1520

00:59:43,770 --> 00:59:41,950

go through all the checkpoints of great

1521

00:59:45,480 --> 00:59:43,780

mystery no one ever did it they

1522

00:59:47,640 --> 00:59:45,490

acknowledge it's a hundred year mystery

1523

00:59:49,560 --> 00:59:47,650

acknowledge this one is 700 to 80

1524

00:59:51,060 --> 00:59:49,570

thousand years old acknowledge that it's

1525

00:59:53,040 --> 00:59:51,070

especially strange acknowledge that

1526  
00:59:53,430 --> 00:59:53,050  
there's no crater I am going through all

1527  
00:59:56,280 --> 00:59:53,440  
of them

1528  
00:59:58,710 --> 00:59:56,290  
it defies explanation by normal means

1529  
01:00:01,650 --> 00:59:58,720  
and I think we'll have to appreciate

1530  
01:00:03,090 --> 01:00:01,660  
that you've done it the right way you

1531  
01:00:04,890 --> 01:00:03,100  
know you've gone and look for the data

1532  
01:00:08,070 --> 01:00:04,900  
it's not your fault that the data

1533  
01:00:08,670 --> 01:00:08,080  
completely faucet line with this rather

1534  
01:00:10,740 --> 01:00:08,680  
remarkable

1535  
01:00:11,790 --> 01:00:10,750  
story no they could be nothing right I

1536  
01:00:13,530 --> 01:00:11,800  
could have gone and looked and found

1537  
01:00:16,020 --> 01:00:13,540  
nothing that that's it was the most

1538  
01:00:18,150 --> 01:00:16,030

likely event you know you think well

1539

01:00:20,280 --> 01:00:18,160

even if it was true that just you simply

1540

01:00:21,900 --> 01:00:20,290

didn't find anything you know they

1541

01:00:24,569 --> 01:00:21,910

hadn't discovered any material you know

1542

01:00:25,799 --> 01:00:24,579

I'm relying on the academics in these

1543

01:00:28,640 --> 01:00:25,809

things because you know I don't go out

1544

01:00:32,309 --> 01:00:28,650

and do geology or archeology again so

1545

01:00:33,660 --> 01:00:32,319

you know I'm a layman so I have to see

1546

01:00:36,569 --> 01:00:33,670

what's in the records you know in the

1547

01:00:37,799 --> 01:00:36,579

papers in the files and so by luck you

1548

01:00:39,599 --> 01:00:37,809

know people have been out there and they

1549

01:00:40,770 --> 01:00:39,609

found them they've analyzed them so you

1550

01:00:43,380 --> 01:00:40,780

know I haven't had to you know go and

1551

01:00:45,210 --> 01:00:43,390

you know oh in my wee lab in my garage

1552

01:00:47,339 --> 01:00:45,220

you know I've analyzed no I mean there's

1553

01:00:49,470 --> 01:00:47,349

these are peer-reviewed academic papers

1554

01:00:51,569 --> 01:00:49,480

again you know NASA papers honest with

1555

01:00:54,120 --> 01:00:51,579

unlike NASA but you know they do could

1556

01:00:55,859 --> 01:00:54,130

work and also we've got independent

1557

01:00:58,589 --> 01:00:55,869

universities geologists you know it's

1558

01:01:00,000 --> 01:00:58,599

not one it's not one organization right

1559

01:01:02,130 --> 01:01:00,010

there's lots of different people have

1560

01:01:03,720 --> 01:01:02,140

looked at australoid tektites you know

1561

01:01:05,670 --> 01:01:03,730

for lots of reasons as I say has even

1562

01:01:08,609 --> 01:01:05,680

got a signature in there in the isotopic

1563

01:01:11,760 --> 01:01:08,619

ratios that it is alien material alien

1564

01:01:13,799 --> 01:01:11,770

to this solar system right so that again

1565

01:01:16,109 --> 01:01:13,809

is another important point that it's not

1566

01:01:18,450 --> 01:01:16,119

even the makeup of the object is also

1567

01:01:20,400 --> 01:01:18,460

not in line with asteroids comets or

1568

01:01:22,920 --> 01:01:20,410

meteorites that we know again it's got a

1569

01:01:24,210 --> 01:01:22,930

strange ratio of different calm lots

1570

01:01:26,099 --> 01:01:24,220

lots of different chemicals in it but

1571

01:01:27,870 --> 01:01:26,109

strange ratios of chemicals again so

1572

01:01:29,099 --> 01:01:27,880

there's a lot of reasons for them to

1573

01:01:32,220 --> 01:01:29,109

decide that this isn't you know a

1574

01:01:34,740 --> 01:01:32,230

standard object yeah and the fact that

1575

01:01:36,809 --> 01:01:34,750

it has silica from melted quartz again

1576

01:01:38,760 --> 01:01:36,819

signature of that this is a very strange

1577

01:01:41,700 --> 01:01:38,770

thing to be orbiting our planet this

1578

01:01:43,680 --> 01:01:41,710

huge chunk of you know of silicon and

1579

01:01:45,780 --> 01:01:43,690

aluminium but with a lot of other sub

1580

01:01:47,490 --> 01:01:45,790

compounds that what the heck is it doing

1581

01:01:48,720 --> 01:01:47,500

that you know and then you as you trace

1582

01:01:50,039 --> 01:01:48,730

that down you can always imagine this

1583

01:01:51,329 --> 01:01:50,049

thing coming in over at like Antarctica

1584

01:01:52,980 --> 01:01:51,339

and breaking up and you can see the

1585

01:01:54,420 --> 01:01:52,990

larger this with these pieces from space

1586

01:01:56,640 --> 01:01:54,430

until it starts to hit the atmosphere

1587

01:01:58,319 --> 01:01:56,650

and then you get a different you get the

1588

01:01:59,640 --> 01:01:58,329

areal burst and then at the very end of

1589

01:02:01,430 --> 01:01:59,650

the trail you get these strange no I'm

1590

01:02:04,770 --> 01:02:01,440

long layering which I assume is the

1591

01:02:05,910 --> 01:02:04,780

closest to the undamaged material that

1592

01:02:07,740 --> 01:02:05,920

we're gonna get you know these are the

1593

01:02:09,960 --> 01:02:07,750

final chunks if you like all the molten

1594

01:02:12,450 --> 01:02:09,970

material that has ended up right at the

1595

01:02:14,640 --> 01:02:12,460

end of that decreasing flight path right

1596

01:02:16,680 --> 01:02:14,650

so we can trace it all the way down from

1597

01:02:19,049 --> 01:02:16,690

Antarctica to Laos as it breaks up and

1598

01:02:21,569 --> 01:02:19,059

comes in various you know very strange

1599

01:02:22,320 --> 01:02:21,579

but absolutely a mesh is so well because

1600

01:02:24,330 --> 01:02:22,330

we also

1601  
01:02:27,240 --> 01:02:24,340  
holding this download that the escape

1602  
01:02:30,030 --> 01:02:27,250  
crafts land in South Australia if

1603  
01:02:31,920 --> 01:02:30,040  
they're fleeing from an exploding craft

1604  
01:02:33,930 --> 01:02:31,930  
I'm thinking they're not traveling too

1605  
01:02:37,620 --> 01:02:33,940  
far you know he's like get to the ground

1606  
01:02:39,360 --> 01:02:37,630  
as you can again Star Wars we hate to do

1607  
01:02:41,460 --> 01:02:39,370  
it but I mean this is retro Star Wars

1608  
01:02:43,950 --> 01:02:41,470  
you got the mothership and then you got

1609  
01:02:47,040 --> 01:02:43,960  
the other ship you hear it from UFO

1610  
01:02:48,510 --> 01:02:47,050  
accounts all the time there's the big

1611  
01:02:50,070 --> 01:02:48,520  
ship and then there's the little ships

1612  
01:02:52,500 --> 01:02:50,080  
and that's what you're saying happen

1613  
01:02:54,450 --> 01:02:52,510

yeah let's jump forward in the story

1614

01:02:57,300 --> 01:02:54,460

before we run out of time and because

1615

01:02:59,130 --> 01:02:57,310

you're off we've talked about I think if

1616

01:03:00,990 --> 01:02:59,140

people are following along I don't know

1617

01:03:03,870 --> 01:03:01,000

how good of a job I'm doing helping them

1618

01:03:06,990 --> 01:03:03,880

do that probably not we talked about the

1619

01:03:08,820 --> 01:03:07,000

chicken and the chimps and how that gets

1620

01:03:10,560 --> 01:03:08,830

us to seven hundred and eighty thousand

1621

01:03:14,700 --> 01:03:10,570

years now we just talked about the

1622

01:03:16,230 --> 01:03:14,710

tektites and how that unbelievably gets

1623

01:03:18,180 --> 01:03:16,240

us to seven hundred eighty thousand

1624

01:03:20,910 --> 01:03:18,190

years but there's another part of the

1625

01:03:23,190 --> 01:03:20,920

story that you're amazing

1626  
01:03:26,490 --> 01:03:23,200  
again you just went out and looked for

1627  
01:03:29,100 --> 01:03:26,500  
it just tell the story about the the

1628  
01:03:33,270 --> 01:03:29,110  
tractor beam tell us where that fits

1629  
01:03:36,240 --> 01:03:33,280  
into again our Hollywood movie and then

1630  
01:03:38,280 --> 01:03:36,250  
where the evidence is for it yeah I'm

1631  
01:03:39,240 --> 01:03:38,290  
absolutely I will quit he says well

1632  
01:03:41,420 --> 01:03:39,250  
there you know from what I understand

1633  
01:03:43,560 --> 01:03:41,430  
Valerie actually has had at least one

1634  
01:03:45,510 --> 01:03:43,570  
cousin come to her and talk to her about

1635  
01:03:47,910 --> 01:03:45,520  
possibly making a movie and I actually

1636  
01:03:50,100 --> 01:03:47,920  
think it would be a brilliant movie

1637  
01:03:51,840 --> 01:03:50,110  
absolutely brilliant right because he is

1638  
01:03:53,580 --> 01:03:51,850

is actually it's action-packed you know

1639

01:03:55,410 --> 01:03:53,590

it's not just that we've discovered

1640

01:03:56,640 --> 01:03:55,420

nearly scientific you know anomalies but

1641

01:03:59,190 --> 01:03:56,650

you know it's actually is an

1642

01:04:00,210 --> 01:03:59,200

extraordinary story in its own right but

1643

01:04:02,100 --> 01:04:00,220

yeah with the tractor being part

1644

01:04:04,320 --> 01:04:02,110

basically that we are told that five

1645

01:04:06,530 --> 01:04:04,330

years after these events happened

1646

01:04:09,030 --> 01:04:06,540

another group of extraterrestrials

1647

01:04:11,310 --> 01:04:09,040

associated with these colonists if you

1648

01:04:12,900 --> 01:04:11,320

like or scientists you know arrived to

1649

01:04:14,190 --> 01:04:12,910

earth and that these are a kind of

1650

01:04:16,770 --> 01:04:14,200

police force you know they are

1651  
01:04:19,080 --> 01:04:16,780  
associated with this alliance but rather

1652  
01:04:21,090 --> 01:04:19,090  
than being the peaceful colonists that

1653  
01:04:23,190 --> 01:04:21,100  
have arrived initially these are kind of

1654  
01:04:26,490 --> 01:04:23,200  
a cosmic cops of some sort right that

1655  
01:04:27,630 --> 01:04:26,500  
they come armed there is repercussions

1656  
01:04:29,850 --> 01:04:27,640  
against this betrayal

1657  
01:04:30,960 --> 01:04:29,860  
so they warn the inhabitants of earth

1658  
01:04:33,030 --> 01:04:30,970  
that are the current you know

1659  
01:04:35,190 --> 01:04:33,040  
inhabitants that they should leave as

1660  
01:04:36,000 --> 01:04:35,200  
per the original agreement that they

1661  
01:04:38,370 --> 01:04:36,010  
have destroyed in a

1662  
01:04:39,840 --> 01:04:38,380  
peaceful colony ship broken the treaty

1663  
01:04:42,420 --> 01:04:39,850

and that there's gonna be consequences

1664

01:04:44,670 --> 01:04:42,430

and so to leave immediately or face a

1665

01:04:45,870 --> 01:04:44,680

planetary bombardment now

1666

01:04:47,970 --> 01:04:45,880

it's explained that this planetary

1667

01:04:50,190 --> 01:04:47,980

bombardment is not you know laser beams

1668

01:04:51,690 --> 01:04:50,200

or or anything conventional that we feel

1669

01:04:53,880 --> 01:04:51,700

like that that what they do is there's

1670

01:04:56,070 --> 01:04:53,890

any pulley in asteroids and that they

1671

01:04:58,290 --> 01:04:56,080

will utilize those to bombard a planet

1672

01:05:00,300 --> 01:04:58,300

surface and they clarify that you know

1673

01:05:02,610 --> 01:05:00,310

if we need to we can pull in something

1674

01:05:05,370 --> 01:05:02,620

big enough to crack a planet open right

1675

01:05:06,900 --> 01:05:05,380

so this is worse than you know nuclear

1676

01:05:09,750 --> 01:05:06,910

warfare they can just wipe out your

1677

01:05:11,310 --> 01:05:09,760

planet if they want to and it makes me

1678

01:05:13,350 --> 01:05:11,320

feel like the dinosaurs you know was

1679

01:05:14,790 --> 01:05:13,360

that deliberate who knows but they they

1680

01:05:17,070 --> 01:05:14,800

said they're quite capable of pulling in

1681

01:05:18,990 --> 01:05:17,080

objects like that they then go about

1682

01:05:21,270 --> 01:05:19,000

this bombardment right that the

1683

01:05:24,150 --> 01:05:21,280

underground bases of this second party a

1684

01:05:24,690 --> 01:05:24,160

sort of targeted there's a polarizing at

1685

01:05:27,240 --> 01:05:24,700

the planet

1686

01:05:28,440 --> 01:05:27,250

I assume that something like that would

1687

01:05:29,550 --> 01:05:28,450

be well known that you know we'd have

1688

01:05:31,410 --> 01:05:29,560

heard of it in the same way that we've

1689

01:05:32,970 --> 01:05:31,420

heard of the extinction of the dinosaurs

1690

01:05:34,050 --> 01:05:32,980

that this would be like you know oh and

1691

01:05:35,700 --> 01:05:34,060

then of course that will another event

1692

01:05:37,920 --> 01:05:35,710

like this 780 thousand years ago that

1693

01:05:39,270 --> 01:05:37,930

we'd all know it so I I was quite

1694

01:05:41,820 --> 01:05:39,280

skeptical that I would find anything to

1695

01:05:43,830 --> 01:05:41,830

support this but I went away and looked

1696

01:05:49,110 --> 01:05:43,840

and it turned out that just I think it's

1697

01:05:51,510 --> 01:05:49,120

in 2015 pretty sure 2015 a German

1698

01:05:53,640 --> 01:05:51,520

geological team had basically uncovered

1699

01:05:56,700 --> 01:05:53,650

evidence of a multi-directional

1700

01:05:59,340 --> 01:05:56,710

planetary bombardment by asteroids right

1701

01:06:02,820 --> 01:05:59,350

which had led to a global Cataclysm

1702

01:06:04,350 --> 01:06:02,830

firestorm tsunamis earthquakes till 2015

1703

01:06:05,850 --> 01:06:04,360

no one knew that and keep in mind that

1704

01:06:08,850 --> 01:06:05,860

now we're dealing with a book published

1705

01:06:10,950 --> 01:06:08,860

in 2003 so there's no way that very

1706

01:06:12,210 --> 01:06:10,960

clear gonna look this up and just

1707

01:06:15,000 --> 01:06:12,220

include a bit because it would be

1708

01:06:15,840 --> 01:06:15,010

exciting you know nobody knew and it's

1709

01:06:17,970 --> 01:06:15,850

so weird

1710

01:06:20,100 --> 01:06:17,980

again another anomaly because you expect

1711

01:06:23,130 --> 01:06:20,110

an asteroid on its own to come in

1712

01:06:25,020 --> 01:06:23,140

you don't expect many of them to hit

1713

01:06:26,940 --> 01:06:25,030

from different sides of the planet at

1714

01:06:28,950 --> 01:06:26,950

the same time and they even say the

1715

01:06:31,020 --> 01:06:28,960

composition seems to be different so

1716

01:06:33,630 --> 01:06:31,030

it's not from one breaking up asteroid

1717

01:06:35,820 --> 01:06:33,640

these are separate objects called it so

1718

01:06:38,220 --> 01:06:35,830

the demons as they're reporting this are

1719

01:06:39,720 --> 01:06:38,230

going wow again like your tech type

1720

01:06:41,180 --> 01:06:39,730

thing they're going to another this is

1721

01:06:44,720 --> 01:06:41,190

an incredible UNAM

1722

01:06:48,460 --> 01:06:44,730

a mystery how could this ever happen if

1723

01:06:50,870 --> 01:06:48,470

you're sick well this is exactly what

1724

01:06:52,190 --> 01:06:50,880

yep it's an anomaly uh normally because

1725

01:06:53,930 --> 01:06:52,200

you know we've already got you know

1726

01:06:55,849 --> 01:06:53,940

we've got this anomalous object and how

1727

01:06:57,349 --> 01:06:55,859

it breaks up we've got this you know now

1728

01:06:59,660 --> 01:06:57,359

we got this anomalous bombardment and

1729

01:07:00,950 --> 01:06:59,670

then of course we grow up normally is in

1730

01:07:02,870 --> 01:07:00,960

the genome which we know we've tackled

1731

01:07:05,510 --> 01:07:02,880

some of those but there are more and

1732

01:07:08,300 --> 01:07:05,520

that the dating again for the the

1733

01:07:10,460 --> 01:07:08,310

important most important changes in

1734

01:07:13,010 --> 01:07:10,470

early hominins that lead to us they

1735

01:07:14,780 --> 01:07:13,020

again tied to this period around seven

1736

01:07:17,059 --> 01:07:14,790

hundred eighty thousand years ago now

1737

01:07:19,640 --> 01:07:17,069

that was one of the crucial things from

1738

01:07:21,650 --> 01:07:19,650

is that if I could find the evidence the

1739

01:07:24,470 --> 01:07:21,660

supporter of this narrative he also had

1740

01:07:26,150 --> 01:07:24,480

to be in the same time zone right

1741

01:07:27,260 --> 01:07:26,160

because it's no good just saying that

1742

01:07:28,609 --> 01:07:27,270

five hundred thousand years ago there

1743

01:07:31,609 --> 01:07:28,619

was a bombardment a million years ago

1744

01:07:34,819 --> 01:07:31,619

there was a silica craft you know to be

1745

01:07:36,829 --> 01:07:34,829

a true story all of the major events

1746

01:07:39,829 --> 01:07:36,839

have to be happening at the same time

1747

01:07:45,109 --> 01:07:39,839

right and that that's what I found that

1748

01:07:47,030 --> 01:07:45,119

they are right so maybe we've left a big

1749

01:07:48,740 --> 01:07:47,040

we've implied this other part of the

1750

01:07:50,960 --> 01:07:48,750

story but I think we probably should

1751

01:07:53,930 --> 01:07:50,970

should go ahead and and get to it

1752

01:07:54,980 --> 01:07:53,940

because as the story moves on and I'll

1753

01:07:58,339 --> 01:07:54,990

let you tell it

1754

01:08:01,520 --> 01:07:58,349

these beings they land in Australia and

1755

01:08:05,450 --> 01:08:01,530

they say wow we can't really fulfill our

1756

01:08:08,690 --> 01:08:05,460

original mission but we can kind of get

1757

01:08:12,950 --> 01:08:08,700

there by doing some genetic engineering

1758

01:08:14,329 --> 01:08:12,960

genetic manipulation which we we this is

1759

01:08:16,099 --> 01:08:14,339

like we're gonna have to have so many

1760

01:08:17,749 --> 01:08:16,109

interviews on this or maybe we'll make

1761

01:08:20,829 --> 01:08:17,759

the movie you and I together we'll talk

1762

01:08:24,349 --> 01:08:20,839

about that but but their thing is like

1763

01:08:26,420 --> 01:08:24,359

okay we do this all the time like this

1764

01:08:27,979 --> 01:08:26,430

isn't if you really wrap your head

1765

01:08:29,870 --> 01:08:27,989

around what you're saying you have to

1766

01:08:32,059 --> 01:08:29,880

accept that this is just kind of how

1767

01:08:34,849 --> 01:08:32,069

stuff works they know about the planet

1768

01:08:37,249 --> 01:08:34,859

long before this they may be visited it

1769

01:08:38,479 --> 01:08:37,259

long before this this is just one event

1770

01:08:40,249 --> 01:08:38,489

that happened somebody named eighty

1771

01:08:42,079 --> 01:08:40,259

thousand years ago they weren't able to

1772

01:08:43,880 --> 01:08:42,089

completely fulfill their mission so they

1773

01:08:45,349 --> 01:08:43,890

kind of went into this mode okay well

1774

01:08:46,820 --> 01:08:45,359

let's do the thing you know how we do

1775

01:08:48,439 --> 01:08:46,830

the genetic engineering and how we did

1776

01:08:50,090 --> 01:08:48,449

it over there and we're always doing

1777

01:08:52,099 --> 01:08:50,100

genetic engineering and it's been done

1778

01:08:53,420 --> 01:08:52,109

on us and we do it on other beings and

1779

01:08:54,890 --> 01:08:53,430

consciousness evolves and

1780

01:08:57,170 --> 01:08:54,900

goes into all these different things and

1781

01:08:58,730 --> 01:08:57,180

hey let's see how it works here and what

1782

01:09:00,020 --> 01:08:58,740

I thought was particularly interesting

1783

01:09:02,180 --> 01:09:00,030

here because it reshapes our

1784

01:09:05,660 --> 01:09:02,190

understanding is this idea of the garden

1785

01:09:08,570 --> 01:09:05,670

so if you could bite off all that stuff

1786

01:09:11,780 --> 01:09:08,580

that that I'm saying on behalf of you

1787

01:09:14,440 --> 01:09:11,790

and Valerie then what do you do you know

1788

01:09:18,260 --> 01:09:14,450

you got this planet and you have these

1789

01:09:19,970 --> 01:09:18,270

kind of different beings that are

1790

01:09:22,340 --> 01:09:19,980

running around that maybe you had a part

1791

01:09:25,970 --> 01:09:22,350

of in the distant past but right now

1792

01:09:27,200 --> 01:09:25,980

you're ready to do something I haven't

1793

01:09:28,700 --> 01:09:27,210

done a very good job of explaining the

1794

01:09:31,310 --> 01:09:28,710

story but pick it up there with maybe

1795

01:09:32,540 --> 01:09:31,320

this idea of the garden yeah sure I mean

1796

01:09:34,670 --> 01:09:32,550

that's right I mean there's another

1797

01:09:35,690 --> 01:09:34,680

argument that people say well how a news

1798

01:09:38,690 --> 01:09:35,700

wouldn't come because they don't know

1799

01:09:40,250 --> 01:09:38,700

we're here you know etc said no no he's

1800

01:09:42,380 --> 01:09:40,260

explained your own beginning that this

1801  
01:09:44,960 --> 01:09:42,390  
is a plant has been seeded you know this

1802  
01:09:49,160 --> 01:09:44,970  
is being seeded by DNA by advanced

1803  
01:09:51,080 --> 01:09:49,170  
beings in the beginning you know so the

1804  
01:09:53,180 --> 01:09:51,090  
being out there the well aware of earth

1805  
01:09:56,450 --> 01:09:53,190  
you know he's been applying chosen to be

1806  
01:09:58,370 --> 01:09:56,460  
seeded okay that there have been beings

1807  
01:10:00,380 --> 01:09:58,380  
on this planet in the remote prehistory

1808  
01:10:02,210 --> 01:10:00,390  
again that have lived here then around

1809  
01:10:03,770 --> 01:10:02,220  
we would see them extraterrestrials are

1810  
01:10:05,270 --> 01:10:03,780  
they if they've lived here long enough

1811  
01:10:08,210 --> 01:10:05,280  
you could argue they're as terrestrial

1812  
01:10:10,250 --> 01:10:08,220  
as we are right but again there's those

1813  
01:10:12,410 --> 01:10:10,260

documents for that but they're they have

1814

01:10:14,300 --> 01:10:12,420

played around with the DNA and if at

1815

01:10:17,090 --> 01:10:14,310

least there is explain that at some

1816

01:10:19,880 --> 01:10:17,100

point this planet was lost to this other

1817

01:10:21,980 --> 01:10:19,890

party after the seeding and that this

1818

01:10:23,750 --> 01:10:21,990

other party played games with genetics

1819

01:10:26,660 --> 01:10:23,760

created dinosaurs did all sorts of stuff

1820

01:10:28,190 --> 01:10:26,670

and that later on we have this transfer

1821

01:10:30,680 --> 01:10:28,200

back and this is what this agreement was

1822

01:10:33,410 --> 01:10:30,690

about this returning the planet back to

1823

01:10:34,700 --> 01:10:33,420

this alliance and that through this

1824

01:10:37,100 --> 01:10:34,710

betrayal so there's been a lot of going

1825

01:10:38,720 --> 01:10:37,110

on on this planet long before this that

1826

01:10:41,060 --> 01:10:38,730

we're just dealing with the the event

1827

01:10:42,530 --> 01:10:41,070

has the most evidence right there's a

1828

01:10:44,330 --> 01:10:42,540

lot more that's happened right from the

1829

01:10:47,090 --> 01:10:44,340

beginning yeah it's always been a garden

1830

01:10:49,430 --> 01:10:47,100

always been DNA being manipulated and

1831

01:10:51,770 --> 01:10:49,440

whatnot creating the first hominins was

1832

01:10:53,600 --> 01:10:51,780

a manipulation right the you know Homo

1833

01:10:55,580 --> 01:10:53,610

erectus being raised up from those

1834

01:10:56,990 --> 01:10:55,590

hominins and being a larger brained you

1835

01:10:59,510 --> 01:10:57,000

know the earliest kind of I guess

1836

01:11:01,250 --> 01:10:59,520

recognizable humans again that's someone

1837

01:11:02,510 --> 01:11:01,260

had a role in that and that now it's

1838

01:11:05,780 --> 01:11:02,520

seven hundred eighty thousand years ago

1839

01:11:07,040 --> 01:11:05,790

a different party is saying well our

1840

01:11:08,420 --> 01:11:07,050

planners and

1841

01:11:10,400 --> 01:11:08,430

down of colonizing but what we're going

1842

01:11:12,980 --> 01:11:10,410

to do instead I'm going to use what's

1843

01:11:14,090 --> 01:11:12,990

left of our technologies to upgrade the

1844

01:11:16,130 --> 01:11:14,100

hominin that's here

1845

01:11:18,470 --> 01:11:16,140

and we're going to utilize it to

1846

01:11:19,550 --> 01:11:18,480

continue our planner essentially call

1847

01:11:21,950 --> 01:11:19,560

aizen's well taking over this planet

1848

01:11:23,620 --> 01:11:21,960

back to Alliance control and that we're

1849

01:11:26,300 --> 01:11:23,630

going to use these beings almost as

1850

01:11:27,590 --> 01:11:26,310

biological spacesuits now this is some

1851

01:11:30,140 --> 01:11:27,600

of the people who struggle with a bit

1852

01:11:33,260 --> 01:11:30,150

but it only knows Tibetan Buddhism and

1853

01:11:36,380 --> 01:11:33,270

the the idea of directed incarnations or

1854

01:11:39,320 --> 01:11:36,390

directed reincarnations that some people

1855

01:11:41,990 --> 01:11:39,330

not just aliens but some people can

1856

01:11:42,860 --> 01:11:42,000

direct their next life reincarnation as

1857

01:11:47,110 --> 01:11:42,870

far as I'm concerned it's been

1858

01:11:51,050 --> 01:11:47,120

established by the work of Professor

1859

01:11:52,580 --> 01:11:51,060

Steven soon in Stevens and even the

1860

01:11:54,170 --> 01:11:52,590

leading skeptics even look to his work

1861

01:11:56,000 --> 01:11:54,180

say you know they had sinned it well you

1862

01:11:59,000 --> 01:11:56,010

know yes his work is you know is really

1863

01:12:00,860 --> 01:11:59,010

it is solid is totally scientific but we

1864

01:12:03,440 --> 01:12:00,870

don't believe reincarnation because is

1865

01:12:04,610 --> 01:12:03,450

they're unable to accept his evidence

1866

01:12:06,710 --> 01:12:04,620

right not because his evidence has

1867

01:12:08,180 --> 01:12:06,720

anything wrong with it yeah so as far as

1868

01:12:10,940 --> 01:12:08,190

I'm concerned it's established that

1869

01:12:13,190 --> 01:12:10,950

reincarnation is real now these beings

1870

01:12:15,710 --> 01:12:13,200

say well they can incarnate into these

1871

01:12:17,750 --> 01:12:15,720

humans as they're dying you know they

1872

01:12:18,980 --> 01:12:17,760

cannot survive here because the

1873

01:12:20,840 --> 01:12:18,990

atmosphere is not right for them the

1874

01:12:22,970 --> 01:12:20,850

solar radiations not right there's

1875

01:12:23,750 --> 01:12:22,980

bacteria in the water all sorts of

1876

01:12:25,970 --> 01:12:23,760

problems you imagine if you were

1877

01:12:27,830 --> 01:12:25,980

marooned on a world right which you were

1878

01:12:29,930 --> 01:12:27,840

not ready to live on so they have those

1879

01:12:32,780 --> 01:12:29,940

real-world issues what they can do is

1880

01:12:35,570 --> 01:12:32,790

create an organism which they themselves

1881

01:12:36,890 --> 01:12:35,580

can utilize and they can then move into

1882

01:12:39,380 --> 01:12:36,900

as they die and that's just actually

1883

01:12:40,640 --> 01:12:39,390

what they do and just let me jump in

1884

01:12:41,930 --> 01:12:40,650

there this is kind of a little bit of

1885

01:12:44,710 --> 01:12:41,940

inside baseball and we're gonna have

1886

01:12:46,910 --> 01:12:44,720

another interview and include Dan here

1887

01:12:48,860 --> 01:12:46,920

and there's because there's so much to

1888

01:12:50,780 --> 01:12:48,870

talk about but I'm not sure I'm totally

1889

01:12:53,810 --> 01:12:50,790

I'm on board with part of what you're

1890

01:12:56,300 --> 01:12:53,820

saying but again it the balancing of the

1891

01:12:58,820 --> 01:12:56,310

metaphysical extended consciousness and

1892

01:13:00,170 --> 01:12:58,830

this narrow idea of time-space has to be

1893

01:13:02,870 --> 01:13:00,180

incorporated in because we don't really

1894

01:13:04,730 --> 01:13:02,880

know what reincarnation you know means

1895

01:13:07,040 --> 01:13:04,740

and what may be the purpose of that and

1896

01:13:08,990 --> 01:13:07,050

if there is either because there may be

1897

01:13:10,790 --> 01:13:09,000

some cases where there's this higher

1898

01:13:12,530 --> 01:13:10,800

spiritual purpose and there could be

1899

01:13:15,140 --> 01:13:12,540

another way that there's just kind of a

1900

01:13:17,930 --> 01:13:15,150

tech more of a technological kind of I

1901

01:13:20,350 --> 01:13:17,940

move my spirit from here to there we

1902

01:13:21,879 --> 01:13:20,360

don't know if it's a mixture of that or

1903

01:13:23,740 --> 01:13:21,889

it means we don't know what the goal

1904

01:13:25,479 --> 01:13:23,750

would be you know some people could pick

1905

01:13:27,220 --> 01:13:25,489

that apart and go well a directed

1906

01:13:29,200 --> 01:13:27,230

reincarnation how does that really get

1907

01:13:30,910 --> 01:13:29,210

you where you want to go well we don't

1908

01:13:33,399 --> 01:13:30,920

know where you want to go we don't know

1909

01:13:36,669 --> 01:13:33,409

what the goal would be I think what's

1910

01:13:38,200 --> 01:13:36,679

important is we just hold the idea you

1911

01:13:40,780 --> 01:13:38,210

know we can go down all these pads and

1912

01:13:44,859 --> 01:13:40,790

we have to but hold to the idea of of

1913

01:13:47,169 --> 01:13:44,869

what you're saying is that it is not it

1914

01:13:50,229 --> 01:13:47,179

is reasonable to throw that on the table

1915

01:13:55,870 --> 01:13:50,239

and say that there could be a purpose

1916

01:13:58,689 --> 01:13:55,880

that would make it reasonable to prune

1917

01:14:03,669 --> 01:13:58,699

the garden in such a way that the

1918

01:14:07,990 --> 01:14:03,679

certain species evolve in a way that is

1919

01:14:10,870 --> 01:14:08,000

a merger of the genetic makeup of both

1920

01:14:14,109 --> 01:14:10,880

parties we might not understand mind of

1921

01:14:16,330 --> 01:14:14,119

God what that purpose was or mind of AI

1922

01:14:17,979 --> 01:14:16,340

what their purposes was but it's not

1923

01:14:20,800 --> 01:14:17,989

unreasonable to assume that I don't

1924

01:14:22,870 --> 01:14:20,810

think no and again you know what they

1925

01:14:24,520 --> 01:14:22,880

say it's for and if they can say it's

1926

01:14:27,070 --> 01:14:24,530

that we can't substantiate and we can't

1927

01:14:28,629 --> 01:14:27,080

know that that's not just what they

1928

01:14:29,680 --> 01:14:28,639

would like us to think on that

1929

01:14:31,600 --> 01:14:29,690

particular thing because you can't

1930

01:14:33,729 --> 01:14:31,610

substantiate it well you say that in

1931

01:14:35,919 --> 01:14:33,739

their download they explain that that's

1932

01:14:37,600 --> 01:14:35,929

part of why they're doing it there's

1933

01:14:40,720 --> 01:14:37,610

other reasons as well yeah there are

1934

01:14:42,459 --> 01:14:40,730

more complex into bigger vision things

1935

01:14:44,560 --> 01:14:42,469

about this sector of space the other

1936

01:14:46,390 --> 01:14:44,570

entities they're here what role this

1937

01:14:48,939 --> 01:14:46,400

planet would play why they would want

1938

01:14:51,430 --> 01:14:48,949

aid they sort of foothold here so

1939

01:14:53,379 --> 01:14:51,440

there's a larger narrative they offer

1940

01:14:55,540 --> 01:14:53,389

but you can't really substantiate that

1941

01:14:56,709 --> 01:14:55,550

unlike the debris unlike the genetics

1942

01:15:00,189 --> 01:14:56,719

you know again because then you're

1943

01:15:02,200 --> 01:15:00,199

dealing with what they say it's for not

1944

01:15:03,310 --> 01:15:02,210

necessary what it's for so we have to

1945

01:15:05,169 --> 01:15:03,320

acknowledge that the way you can't

1946

01:15:08,080 --> 01:15:05,179

substantiate then you just have their

1947

01:15:09,129 --> 01:15:08,090

version of why they're doing it so you

1948

01:15:10,990 --> 01:15:09,139

could have called it it could be

1949

01:15:12,640 --> 01:15:11,000

propaganda right it could be real could

1950

01:15:14,649 --> 01:15:12,650

because there's some parts of course the

1951

01:15:16,149 --> 01:15:14,659

narrative that you can't easily just

1952

01:15:18,550 --> 01:15:16,159

validate you know you can't find a

1953

01:15:20,290 --> 01:15:18,560

physical thing to validate something

1954

01:15:22,419 --> 01:15:20,300

which is just their opinion on what will

1955

01:15:24,220 --> 01:15:22,429

happen by doing this right but what you

1956

01:15:25,570 --> 01:15:24,230

do what you can't do and I think it's

1957

01:15:28,870 --> 01:15:25,580

important and I'd love for you to speak

1958

01:15:33,220 --> 01:15:28,880

to this for a minute the garden model

1959

01:15:34,030 --> 01:15:33,230

that you're kind of outlining does solve

1960

01:15:37,690 --> 01:15:34,040

for a lot of

1961

01:15:40,020 --> 01:15:37,700

kind of nagging problems that people

1962

01:15:43,480 --> 01:15:40,030

have run into when they speculate about

1963

01:15:46,000 --> 01:15:43,490

particularly genetic engineering by

1964

01:15:47,500 --> 01:15:46,010

non-human intelligence you know they run

1965

01:15:49,090 --> 01:15:47,510

into problems bolt well they would just

1966

01:15:51,100 --> 01:15:49,100

kind of do it this way or that way and

1967

01:15:53,740 --> 01:15:51,110

like in particular what you point out is

1968

01:15:55,870 --> 01:15:53,750

we you you you really couldn't factor in

1969

01:15:58,720 --> 01:15:55,880

for everything you know you couldn't

1970

01:16:00,160 --> 01:15:58,730

factor into natural catastrophes you

1971

01:16:02,320 --> 01:16:00,170

know that changing the Sun you get a

1972

01:16:06,730 --> 01:16:02,330

better meteor you know stuff happens you

1973

01:16:09,190 --> 01:16:06,740

can't completely control the process of

1974

01:16:10,930 --> 01:16:09,200

evolution and natural selection genetic

1975

01:16:13,690 --> 01:16:10,940

mutation you can't completely control

1976

01:16:16,090 --> 01:16:13,700

that and what it moves you into I think

1977

01:16:18,070 --> 01:16:16,100

naturally is what you're outlining here

1978

01:16:20,230 --> 01:16:18,080

it's like hey well that's you know

1979

01:16:22,240 --> 01:16:20,240

that's what a gardener does you know one

1980

01:16:24,070 --> 01:16:22,250

year he gets a drought he like he lives

1981

01:16:26,710 --> 01:16:24,080

through it and he lives for next year

1982

01:16:28,720 --> 01:16:26,720

one year he gets a mutation that doesn't

1983

01:16:31,150 --> 01:16:28,730

quite go his way doesn't produce any

1984

01:16:33,070 --> 01:16:31,160

fruit okay he lives with it he kind of

1985

01:16:35,110 --> 01:16:33,080

goes it when you switch into that model

1986

01:16:38,350 --> 01:16:35,120

it gives us a different way of thinking

1987

01:16:40,300 --> 01:16:38,360

about it non-human intelligence and

1988

01:16:41,950 --> 01:16:40,310

their role in doing genetic engineering

1989

01:16:44,230 --> 01:16:41,960

it it makes sense what you're saying

1990

01:16:46,450 --> 01:16:44,240

because we do it don't you know if we

1991

01:16:49,480 --> 01:16:46,460

have a garden we will hybridize we

1992

01:16:51,760 --> 01:16:49,490

modify we direct reading we do also

1993

01:16:53,650 --> 01:16:51,770

stuff to leavings how we want it in our

1994

01:16:55,480 --> 01:16:53,660

garden and we will weed the garden when

1995

01:16:58,480 --> 01:16:55,490

we need you if we look at some of the

1996

01:17:00,190 --> 01:16:58,490

cataclysms in the past we have no way to

1997

01:17:01,810 --> 01:17:00,200

know whether these are all incidental

1998

01:17:03,490 --> 01:17:01,820

you know or whether they're directed

1999

01:17:05,440 --> 01:17:03,500

because there's certainly being periods

2000

01:17:06,490 --> 01:17:05,450

where strange things have happened I

2001

01:17:08,080 --> 01:17:06,500

mean there's the Cambrian explosion

2002

01:17:09,760 --> 01:17:08,090

which is obvious big issue

2003

01:17:11,650 --> 01:17:09,770

there's certainly loads of life-forms PR

2004

01:17:13,600 --> 01:17:11,660

nowhere but conversely there's also die

2005

01:17:16,390 --> 01:17:13,610

offs where we've been reduced down to

2006

01:17:18,400 --> 01:17:16,400

two to tiny numbers you know is that

2007

01:17:20,320 --> 01:17:18,410

again is that too direct certain groups

2008

01:17:22,450 --> 01:17:20,330

to survive while others are removed you

2009

01:17:23,890 --> 01:17:22,460

know we don't know but we do understand

2010

01:17:26,350 --> 01:17:23,900

if you are gardening that sometimes you

2011

01:17:28,630 --> 01:17:26,360

eat the garden right so is there times

2012

01:17:30,340 --> 01:17:28,640

when since species are removed and you

2013

01:17:31,840 --> 01:17:30,350

know certain populations of people even

2014

01:17:34,480 --> 01:17:31,850

that you know figure and I said people

2015

01:17:35,380 --> 01:17:34,490

going back we've got long periods you

2016

01:17:37,570 --> 01:17:35,390

could be a hundred thousand years ago

2017

01:17:38,470 --> 01:17:37,580

but even more east here to say seventy

2018

01:17:41,410 --> 01:17:38,480

thousand years ago there was a huge

2019

01:17:42,970 --> 01:17:41,420

die-off right a climate event later but

2020

01:17:45,340 --> 01:17:42,980

all sorts of things happened and we were

2021

01:17:47,410 --> 01:17:45,350

reduced to a small population again I'm

2022

01:17:48,020 --> 01:17:47,420

left wondering with some of these you

2023

01:17:50,750 --> 01:17:48,030

know

2024

01:17:53,000 --> 01:17:50,760

are they all just natural events they

2025

01:17:54,980 --> 01:17:53,010

could be or are are some of these

2026

01:17:57,260 --> 01:17:54,990

deliberate you know that hey will rain

2027

01:17:59,720 --> 01:17:57,270

down a virus that you know will remove

2028

01:18:01,280 --> 01:17:59,730

such and such groups of people or such

2029

01:18:03,050 --> 01:18:01,290

and such animals and they will be

2030

01:18:05,660 --> 01:18:03,060

removed you know there being a problem

2031

01:18:07,430 --> 01:18:05,670

we have we have to ask ourself that once

2032

01:18:09,980 --> 01:18:07,440

you put in a intelligence that is

2033

01:18:12,320 --> 01:18:09,990

godlike in terms of its abilities you

2034

01:18:14,510 --> 01:18:12,330

know it's not what we think of as a true

2035

01:18:16,610 --> 01:18:14,520

God but it can do incredible magical

2036

01:18:18,860 --> 01:18:16,620

things then then you have to relook at

2037

01:18:20,390 --> 01:18:18,870

all of history and ask yourself would

2038

01:18:23,540 --> 01:18:20,400

any of these events fit with the

2039

01:18:25,850 --> 01:18:23,550

influences of a power like that the

2040

01:18:27,350 --> 01:18:25,860

die-off of the Neanderthal is one thing

2041

01:18:29,960 --> 01:18:27,360

that a lot of people have pointed at and

2042

01:18:32,980 --> 01:18:29,970

said why doesn't that survive in a lot

2043

01:18:34,940 --> 01:18:32,990

of ways seems to be more fit for

2044

01:18:37,130 --> 01:18:34,950

survival and yet we have this huge

2045

01:18:39,080 --> 01:18:37,140

die-off I mean there's over many many

2046

01:18:40,670 --> 01:18:39,090

examples of this well yeah and I think

2047

01:18:42,380 --> 01:18:40,680

that shapingg was 70,000 years ago

2048

01:18:43,910 --> 01:18:42,390

there's this radical event that kills

2049

01:18:45,980 --> 01:18:43,920

off most human so in the northern

2050

01:18:48,020 --> 01:18:45,990

hemisphere I think that does shape

2051

01:18:49,970 --> 01:18:48,030

modern humans I think that the survivors

2052

01:18:52,670 --> 01:18:49,980

of that event are pushed together and

2053

01:18:54,590 --> 01:18:52,680

it's the final hybridization of the

2054

01:18:56,210 --> 01:18:54,600

ancient hominins which gives rise to

2055

01:18:58,790 --> 01:18:56,220

modern humans before that there's no

2056

01:19:00,440 --> 01:18:58,800

true modern Hughley behaviorally

2057

01:19:02,060 --> 01:19:00,450

anatomically modern humans not so

2058

01:19:03,890 --> 01:19:02,070

seventy thousand years ago and I'll

2059

01:19:05,180 --> 01:19:03,900

argue definite people in have a look and

2060

01:19:07,460 --> 01:19:05,190

in fact you have the cultural revolution

2061

01:19:09,350 --> 01:19:07,470

begins after 70 thousand years ago

2062

01:19:12,530 --> 01:19:09,360

where we start producing all these are

2063

01:19:14,000 --> 01:19:12,540

complex art where we link different

2064

01:19:15,440 --> 01:19:14,010

things together with a particular

2065

01:19:17,930 --> 01:19:15,450

language all these things start to

2066

01:19:19,820 --> 01:19:17,940

emerge yeah I believe that's the coming

2067

01:19:21,590 --> 01:19:19,830

together the survivors of the Denisovans

2068

01:19:23,120 --> 01:19:21,600

Neanderthals and probably dozens of

2069

01:19:24,890 --> 01:19:23,130

other groups that we don't know yet we

2070

01:19:28,280 --> 01:19:24,900

don't have their DNA on record that

2071

01:19:31,130 --> 01:19:28,290

modern humans are a hybrid probably of

2072

01:19:32,840 --> 01:19:31,140

dozens of populations and so the idea

2073

01:19:34,040 --> 01:19:32,850

that modern humans existed alongside

2074

01:19:35,930 --> 01:19:34,050

Neanderthals and Denisovans the

2075

01:19:37,940 --> 01:19:35,940

beginning I think is a misnomer we're

2076

01:19:41,600 --> 01:19:37,950

going to slowly see that we actually are

2077

01:19:43,520 --> 01:19:41,610

the combination of probably 10 20 30

2078

01:19:45,320 --> 01:19:43,530

populations that have yet to get names

2079

01:19:47,720 --> 01:19:45,330

because we haven't found their bones or

2080

01:19:50,450 --> 01:19:47,730

their DNA right but we know already we

2081

01:19:52,880 --> 01:19:50,460

are not a singular pure subspecies

2082

01:19:55,520 --> 01:19:52,890

whatsoever that we've got at least about

2083

01:19:57,350 --> 01:19:55,530

six different archaic hominins DNA in us

2084

01:19:59,630 --> 01:19:57,360

so far spread between different

2085

01:20:00,890 --> 01:19:59,640

populations right so I think that again

2086

01:20:01,790 --> 01:20:00,900

you could ask for something was that a

2087

01:20:03,650 --> 01:20:01,800

deliberate event

2088

01:20:04,820 --> 01:20:03,660

that the final push that hey with all

2089

01:20:07,880 --> 01:20:04,830

these different groups let's get the

2090

01:20:10,190 --> 01:20:07,890

best of all of them into one population

2091

01:20:12,740 --> 01:20:10,200

let's do something that shapes that and

2092

01:20:14,870 --> 01:20:12,750

makes it happen ooh a cataclysm yeah

2093

01:20:16,580 --> 01:20:14,880

that will push them together you know so

2094

01:20:18,680 --> 01:20:16,590

we don't know once you've got that kind

2095

01:20:20,210 --> 01:20:18,690

of model behind you think well someone

2096

01:20:22,520 --> 01:20:20,220

else is watching from the skies and you

2097

01:20:25,010 --> 01:20:22,530

see these sort of almost convenient for

2098

01:20:27,350 --> 01:20:25,020

them type events right then if you are

2099

01:20:29,480 --> 01:20:27,360

looking for a fine or superior model by

2100

01:20:31,670 --> 01:20:29,490

bringing them together near the end well

2101

01:20:34,160 --> 01:20:31,680

that just about fits what we're seeing

2102

01:20:35,930 --> 01:20:34,170

on the ground you know and there's so

2103

01:20:37,910 --> 01:20:35,940

many points to cover there but this

2104

01:20:40,850 --> 01:20:37,920

model that you're putting forward as I

2105

01:20:42,380 --> 01:20:40,860

mentioned I think helps move us towards

2106

01:20:45,010 --> 01:20:42,390

being able to answer some of these

2107

01:20:47,180 --> 01:20:45,020

questions it's in a possible model for

2108

01:20:49,220 --> 01:20:47,190

99 percent people out there to even

2109

01:20:50,780 --> 01:20:49,230

approach but that's too bad you know we

2110

01:20:52,700 --> 01:20:50,790

just have to kind of push forward with

2111

01:20:55,250 --> 01:20:52,710

what we have but what I particularly

2112

01:20:57,350 --> 01:20:55,260

like about the garden idea the garden

2113

01:20:59,300 --> 01:20:57,360

metaphor is it it incorporates all of

2114

01:21:01,070 --> 01:20:59,310

what you're saying but it also

2115

01:21:03,050 --> 01:21:01,080

incorporates more which you know will

2116

01:21:05,750 --> 01:21:03,060

touch on maybe when we talk again but

2117

01:21:08,360 --> 01:21:05,760

the abduction phenomenon is something

2118

01:21:11,030 --> 01:21:08,370

that we have to kind of deal with and

2119

01:21:13,610 --> 01:21:11,040

understand so we have that as well so

2120

01:21:15,500 --> 01:21:13,620

the garden would suggest I'm doing all

2121

01:21:17,990 --> 01:21:15,510

of those things I'm pushing groups

2122

01:21:21,110 --> 01:21:18,000

together I'm separating groups there's

2123

01:21:22,670 --> 01:21:21,120

natural catastrophes there that I'm kind

2124

01:21:24,590 --> 01:21:22,680

of engineering there's also natural

2125

01:21:27,290 --> 01:21:24,600

catastrophes that I'm not engineering

2126  
01:21:31,130 --> 01:21:27,300  
and then every once in a while I'm doing

2127  
01:21:32,480 --> 01:21:31,140  
a specific CRISPR of my own making you

2128  
01:21:34,460 --> 01:21:32,490  
know going in there and kind of tweaking

2129  
01:21:36,830 --> 01:21:34,470  
stuff and only when you put all that

2130  
01:21:39,170 --> 01:21:36,840  
stuff on the table can you start piecing

2131  
01:21:41,540 --> 01:21:39,180  
together something that really

2132  
01:21:43,430 --> 01:21:41,550  
incorporates in a lot of the data that

2133  
01:21:45,830 --> 01:21:43,440  
we have and you don't wind up telling

2134  
01:21:48,110 --> 01:21:45,840  
stupid stories about how tsunamis

2135  
01:21:50,090 --> 01:21:48,120  
drifted people out in the ocean you know

2136  
01:21:51,200 --> 01:21:50,100  
and those should be the stories that

2137  
01:21:52,460 --> 01:21:51,210  
people should be actually saying you

2138  
01:21:54,560 --> 01:21:52,470

know is ridiculous but because of the

2139

01:21:56,720 --> 01:21:54,570

appeal to Authority that goes on know

2140

01:21:58,670 --> 01:21:56,730

that something that we could say that

2141

01:22:00,710 --> 01:21:58,680

someone would say ludicrous yeah if an

2142

01:22:03,260 --> 01:22:00,720

academic said it well that seems quite

2143

01:22:04,760 --> 01:22:03,270

reasonable you know and then conversely

2144

01:22:06,440 --> 01:22:04,770

an academic can say something totally

2145

01:22:09,560 --> 01:22:06,450

ludicrous day if you or I came up with

2146

01:22:11,720 --> 01:22:09,570

people things so stupid you know it's an

2147

01:22:13,070 --> 01:22:11,730

unfair balance right because you know if

2148

01:22:14,000 --> 01:22:13,080

something's ridiculous it's ridiculous

2149

01:22:15,440 --> 01:22:14,010

if it doesn't have evidence it doesn't

2150

01:22:17,360 --> 01:22:15,450

have evidence it doesn't matter whether

2151

01:22:18,920 --> 01:22:17,370

it's a leading academic saying it or

2152

01:22:20,780 --> 01:22:18,930

whether it's us saying it right you know

2153

01:22:23,450 --> 01:22:20,790

that it has to be reasonable it has to

2154

01:22:26,270 --> 01:22:23,460

be supportable yeah so no matter how

2155

01:22:28,280 --> 01:22:26,280

wacky things sound the onset as long as

2156

01:22:30,020 --> 01:22:28,290

you can go down drill down and say well

2157

01:22:31,160 --> 01:22:30,030

actually is reasonable there's support

2158

01:22:33,590 --> 01:22:31,170

you know though it's okay

2159

01:22:35,660 --> 01:22:33,600

you know if it doesn't have that then

2160

01:22:36,770 --> 01:22:35,670

rice beliefs and it's just wild beliefs

2161

01:22:38,510 --> 01:22:36,780

you know you can believe a tsunami

2162

01:22:40,070 --> 01:22:38,520

carried people there's no evidence but

2163

01:22:43,100 --> 01:22:40,080

you know it's a wild belief that you can

2164

01:22:44,480 --> 01:22:43,110

hold if you want to I think people need

2165

01:22:45,710 --> 01:22:44,490

to look at it a bit more like that like

2166

01:22:47,060 --> 01:22:45,720

so you say well what you're saying Bruce

2167

01:22:48,980 --> 01:22:47,070

it's really wild stuff yeah okay but

2168

01:22:50,390 --> 01:22:48,990

it's supportable wild stuff it's not

2169

01:22:52,550 --> 01:22:50,400

stuff that's divorced from real-world

2170

01:22:54,260 --> 01:22:52,560

evidence I mean and and why don't we

2171

01:22:55,790 --> 01:22:54,270

talk about the hrs but it's not just

2172

01:22:57,170 --> 01:22:55,800

that I mean I could go away say okay

2173

01:22:58,490 --> 01:22:57,180

well you know you'd found these

2174

01:23:00,410 --> 01:22:58,500

differences for a chimp and it was

2175

01:23:02,330 --> 01:23:00,420

really weird you know okay but it's not

2176

01:23:03,650 --> 01:23:02,340

I mean there's there's far more than

2177

01:23:05,630 --> 01:23:03,660

that I know the member was trying but I

2178

01:23:07,670 --> 01:23:05,640

said that you know we've got genes that

2179

01:23:09,290 --> 01:23:07,680

literally appear out of the non-coding

2180

01:23:11,720 --> 01:23:09,300

DNA you know these academics trolly say

2181

01:23:13,700 --> 01:23:11,730

just appear suddenly fully formed out of

2182

01:23:15,410 --> 01:23:13,710

the non-coding DNA and happen to give us

2183

01:23:17,060 --> 01:23:15,420

you know the neocortex or something you

2184

01:23:19,880 --> 01:23:17,070

know and there's another oh this one it

2185

01:23:21,650 --> 01:23:19,890

looks like it's been cut copied and put

2186

01:23:23,210 --> 01:23:21,660

back in a guy says Xerox looks like it's

2187

01:23:24,260 --> 01:23:23,220

been xeroxed you know with us and I

2188

01:23:25,970 --> 01:23:24,270

couldn't use a term like he's been

2189

01:23:27,410 --> 01:23:25,980

xeroxed you know are they trying to tell

2190

01:23:29,630 --> 01:23:27,420

us something because to me that's an

2191

01:23:32,090 --> 01:23:29,640

implicitly strange thing to say it looks

2192

01:23:34,400 --> 01:23:32,100

like it's being taken out Xerox put back

2193

01:23:36,560 --> 01:23:34,410

in what you trying to tell me here and

2194

01:23:39,320 --> 01:23:36,570

then elsewhere you've got this fusion of

2195

01:23:40,640 --> 01:23:39,330

chromosome 2 which yes chromosomes

2196

01:23:42,350 --> 01:23:40,650

confused but this one is fused on an

2197

01:23:44,360 --> 01:23:42,360

active gene which is to do with our

2198

01:23:47,240 --> 01:23:44,370

reproduction system immune system our

2199

01:23:48,350 --> 01:23:47,250

brain again the brain and then you find

2200

01:23:49,730 --> 01:23:48,360

all these anomalies between us and

2201

01:23:52,040 --> 01:23:49,740

chimps they're all clustering in the

2202

01:23:54,110 --> 01:23:52,050

brain right what's the chances you say a

2203

01:23:55,580 --> 01:23:54,120

random mutation random mutation well I

2204

01:23:57,350 --> 01:23:55,590

would expect see changing the kidneys

2205

01:24:00,530 --> 01:23:57,360

the leg you know the stomach the eyes

2206

01:24:02,360 --> 01:24:00,540

right that's random like hundreds of

2207

01:24:05,210 --> 01:24:02,370

changes that give us our brain our

2208

01:24:07,340 --> 01:24:05,220

modern complex supercomputer brain that

2209

01:24:08,750 --> 01:24:07,350

doesn't look random anymore and when you

2210

01:24:11,270 --> 01:24:08,760

find they're not just in the genes

2211

01:24:12,860 --> 01:24:11,280

they're in these switches as well and

2212

01:24:14,900 --> 01:24:12,870

that you know throughout the system

2213

01:24:17,300 --> 01:24:14,910

you're finding what looks like bizarre

2214

01:24:19,310 --> 01:24:17,310

changes throughout the genetic system

2215

01:24:21,950 --> 01:24:19,320

like that have gone about creating your

2216

01:24:24,980 --> 01:24:21,960

brain and this brain is not a clear

2217

01:24:28,130 --> 01:24:24,990

advantage when it first begins now it we

2218

01:24:29,260 --> 01:24:28,140

can say it is but we lost energy going

2219

01:24:31,060 --> 01:24:29,270

to our muscles

2220

01:24:34,120 --> 01:24:31,070

right at a time when we are fighting

2221

01:24:36,330 --> 01:24:34,130

tooth and claw to survive what was the

2222

01:24:39,430 --> 01:24:36,340

benefit of this fledgling brain

2223

01:24:42,280 --> 01:24:39,440

reproduction reproduction is a real it's

2224

01:24:43,300 --> 01:24:42,290

real hindrance is a hindrance suddenly

2225

01:24:44,560 --> 01:24:43,310

you've got you've got all the other

2226

01:24:45,880 --> 01:24:44,570

creeps around you again you know

2227

01:24:47,830 --> 01:24:45,890

essentially becomes stronger because

2228

01:24:50,110 --> 01:24:47,840

you're becoming weaker and you're yet to

2229

01:24:51,760 --> 01:24:50,120

develop even stone tools or you know

2230

01:24:53,380 --> 01:24:51,770

bows and arrows you've got nothing

2231

01:24:55,120 --> 01:24:53,390

particularly that's compensating so

2232

01:24:57,130 --> 01:24:55,130

suddenly you're you're a weakening

2233

01:24:59,350 --> 01:24:57,140

creature giving energy to a calorie

2234

01:25:02,410 --> 01:24:59,360

hungry brain and then you have a larger

2235

01:25:05,950 --> 01:25:02,420

head that will help keep a spinal canal

2236

01:25:08,020 --> 01:25:05,960

there's more blood birth then you know

2237

01:25:09,880 --> 01:25:08,030

so that guess that's easy it weirdly

2238

01:25:12,280 --> 01:25:09,890

fixed as well because then we become

2239

01:25:14,680 --> 01:25:12,290

highly neoteny right creature which

2240

01:25:17,410 --> 01:25:14,690

means that we retain the characteristics

2241

01:25:19,000 --> 01:25:17,420

of an unborn fetus when we're born we're

2242

01:25:21,250 --> 01:25:19,010

essentially a fetus right so they've

2243

01:25:23,200 --> 01:25:21,260

gone around the problem by making us be

2244

01:25:24,490 --> 01:25:23,210

born earlier and then the brain

2245

01:25:26,020 --> 01:25:24,500

continues to develop at the same rate

2246

01:25:28,540 --> 01:25:26,030

outside the womb and again these are

2247

01:25:31,930 --> 01:25:28,550

suspicious strange changes you know and

2248

01:25:33,040 --> 01:25:31,940

we have and they're suspicious for a

2249

01:25:34,630 --> 01:25:33,050

couple of reasons we're just going to

2250

01:25:37,230 --> 01:25:34,640

jam a bunch of stuff in here at the end

2251

01:25:39,490 --> 01:25:37,240

but like hey you know you go watch your

2252

01:25:41,320 --> 01:25:39,500

National Geographic show and you see the

2253

01:25:43,600 --> 01:25:41,330

little deer that's born in an hour later

2254

01:25:45,250 --> 01:25:43,610

they're off and running around okay that

2255

01:25:47,680 --> 01:25:45,260

doesn't exactly help with humans you

2256

01:25:50,380 --> 01:25:47,690

know they go so that's not really their

2257

01:25:52,120 --> 01:25:50,390

close relatives the chimps are and they

2258

01:25:53,980 --> 01:25:52,130

if you look at the the agony of

2259

01:25:55,930 --> 01:25:53,990

childbirth and the deaths in childbirth

2260

01:25:57,610 --> 01:25:55,940

amongst humans versus chimps and other

2261

01:25:59,590 --> 01:25:57,620

primates they don't really have those

2262

01:26:01,450 --> 01:25:59,600

problems they don't really have them

2263

01:26:02,950 --> 01:26:01,460

they have a shorter childbirth it's very

2264

01:26:05,260 --> 01:26:02,960

rare for them to die and it's usually

2265

01:26:07,540 --> 01:26:05,270

not agonizingly painful and there's

2266

01:26:09,460 --> 01:26:07,550

sweets of strange errors as well not

2267

01:26:10,900 --> 01:26:09,470

just upgrades you know but strange

2268

01:26:13,570 --> 01:26:10,910

errors particularly in our reproductive

2269

01:26:15,490 --> 01:26:13,580

systems you know so I mean 54 if women

2270

01:26:17,710 --> 01:26:15,500

how they feel like oh I'm cursed by God

2271

01:26:19,780 --> 01:26:17,720

or saying I gotta be prob no there's

2272

01:26:22,180 --> 01:26:19,790

weird errors that mean that we are

2273

01:26:24,550 --> 01:26:22,190

handicapped in that and you know it's so

2274

01:26:26,350 --> 01:26:24,560

common to have spontaneous abortion you

2275

01:26:27,910 --> 01:26:26,360

know in early stages and difficulty

2276

01:26:30,190 --> 01:26:27,920

pregnancy and they found the little

2277

01:26:31,840 --> 01:26:30,200

loads of strange genetic anomalies which

2278

01:26:34,330 --> 01:26:31,850

are different to the other primates

2279

01:26:36,220 --> 01:26:34,340

right we've shown exist in us and some

2280

01:26:39,310 --> 01:26:36,230

of these are very baffling changes

2281

01:26:41,590 --> 01:26:39,320

because the end of a reproduction is the

2282

01:26:42,970 --> 01:26:41,600

key is their sake that you would develop

2283

01:26:45,160 --> 01:26:42,980

a change in your da

2284

01:26:48,760 --> 01:26:45,170

that makes you less able to reproduce

2285

01:26:51,760 --> 01:26:48,770

and yes it persists is a bizarre anomaly

2286

01:26:53,830 --> 01:26:51,770

you're actually worsening as a species

2287

01:26:55,630 --> 01:26:53,840

technically versus everyone else and yet

2288

01:26:58,060 --> 01:26:55,640

those things are persisting so there

2289

01:27:00,400 --> 01:26:58,070

must be benefits that came alongside the

2290

01:27:03,220 --> 01:27:00,410

time that those horrible mutations

2291

01:27:05,020 --> 01:27:03,230

happened well and that could take us in

2292

01:27:06,730 --> 01:27:05,030

the wrong way I mean I exact what you're

2293

01:27:08,290 --> 01:27:06,740

saying but not necessarily benefits

2294

01:27:11,290 --> 01:27:08,300

that's what we say it could be from the

2295

01:27:13,480 --> 01:27:11,300

outside someone is saying I want to

2296

01:27:15,820 --> 01:27:13,490

engineer it this way so the gardener

2297

01:27:18,070 --> 01:27:15,830

isn't messes that the gardeners benefits

2298

01:27:20,550 --> 01:27:18,080

aren't nature's benefits together

2299

01:27:22,390 --> 01:27:20,560

yeah not mix those two together because

2300

01:27:24,670 --> 01:27:22,400

benefits we talked about natural

2301

01:27:25,930 --> 01:27:24,680

selection and tribal I'm not talking

2302

01:27:27,790 --> 01:27:25,940

about those kind of benefits we're just

2303

01:27:29,620 --> 01:27:27,800

talking about someone wanted it that way

2304

01:27:31,090 --> 01:27:29,630

well it could be because you think if

2305

01:27:32,980 --> 01:27:31,100

you have genetic changes that are done

2306

01:27:35,320 --> 01:27:32,990

they may have more than one effect so

2307

01:27:37,240 --> 01:27:35,330

let's say that they do confer a benefit

2308

01:27:39,730 --> 01:27:37,250

to you somewhere else in your system but

2309

01:27:41,500 --> 01:27:39,740

they come with a horrible negative right

2310

01:27:44,020 --> 01:27:41,510

well you know you end up with some other

2311

01:27:46,900 --> 01:27:44,030

problem but because the advantage was so

2312

01:27:48,760 --> 01:27:46,910

good you go on carrying the damage as

2313

01:27:49,930 --> 01:27:48,770

well with it right so this is a problem

2314

01:27:51,970 --> 01:27:49,940

you won't any work it will take a long

2315

01:27:53,290 --> 01:27:51,980

time to fix that and we haven't had long

2316

01:27:55,180 --> 01:27:53,300

enough so if you think these are various

2317

01:27:57,070 --> 01:27:55,190

really happened 780 thousand years ago

2318

01:27:59,470 --> 01:27:57,080

evolutions not had enough time to

2319

01:28:01,540 --> 01:27:59,480

address all of these problems right so

2320

01:28:02,830 --> 01:28:01,550

there are things that mail the time we

2321

01:28:04,870 --> 01:28:02,840

all start to see some of these things

2322

01:28:06,280 --> 01:28:04,880

fade but it takes a long time you know

2323

01:28:08,590 --> 01:28:06,290

equation is a they say the blind

2324

01:28:10,030 --> 01:28:08,600

watchmaker however you know it doesn't

2325

01:28:11,950 --> 01:28:10,040

go anything more let's just fix these

2326

01:28:15,010 --> 01:28:11,960

errors you know people have to die off

2327

01:28:16,300 --> 01:28:15,020

because of that etc you know so we we

2328

01:28:18,100 --> 01:28:16,310

may find that what's happened is

2329

01:28:19,450 --> 01:28:18,110

alongside the upgrades some of these

2330

01:28:22,360 --> 01:28:19,460

things came along with it but the

2331

01:28:24,490 --> 01:28:22,370

upgrades were so you say beneficial that

2332

01:28:26,620 --> 01:28:24,500

they have compensated for the downgrade

2333

01:28:28,090 --> 01:28:26,630

elements right and that again is an

2334

01:28:30,370 --> 01:28:28,100

anomaly these people you can look and

2335

01:28:33,430 --> 01:28:30,380

say well yeah why would we evolved have

2336

01:28:34,510 --> 01:28:33,440

you know a more difficult reproductive

2337

01:28:36,190 --> 01:28:34,520

system you know it doesn't really

2338

01:28:38,320 --> 01:28:36,200

function properly versus all the other

2339

01:28:40,030 --> 01:28:38,330

primates I mean you know this stuff like

2340

01:28:41,590 --> 01:28:40,040

that that I'd like people to also folks

2341

01:28:43,840 --> 01:28:41,600

I'm not just oh we got a bigger brain

2342

01:28:46,510 --> 01:28:43,850

and that's the anomaly like no no this

2343

01:28:51,610 --> 01:28:46,520

there's a large list of anomalies in the

2344

01:28:54,640 --> 01:28:51,620

human genome well Bruce we could go on

2345

01:28:56,260 --> 01:28:54,650

and on there's so much that people are

2346

01:28:57,020 --> 01:28:56,270

going to want to check out on all three

2347

01:28:59,900 --> 01:28:57,030

of those books then

2348

01:29:02,060 --> 01:28:59,910

newest book I have up on the screen XO

2349

01:29:04,160 --> 01:29:02,070

Genesis hybrid humans please go

2350

01:29:06,140 --> 01:29:04,170

pre-ordered it's not out for a few more

2351  
01:29:08,870 --> 01:29:06,150  
months but it does a good job of pulling

2352  
01:29:11,210 --> 01:29:08,880  
together a lot of the information from

2353  
01:29:14,000 --> 01:29:11,220  
the other two books and largely your

2354  
01:29:16,880 --> 01:29:14,010  
work which people can find tell us how

2355  
01:29:19,070 --> 01:29:16,890  
people can catch up with and stay up

2356  
01:29:21,290 --> 01:29:19,080  
with what you're doing and what you're

2357  
01:29:22,700 --> 01:29:21,300  
doing next and how we're going to get

2358  
01:29:25,130 --> 01:29:22,710  
more of this information out because you

2359  
01:29:27,620 --> 01:29:25,140  
and I have to have to make sure that

2360  
01:29:30,740 --> 01:29:27,630  
this gets out to as many people as we

2361  
01:29:33,170 --> 01:29:30,750  
can and for people who I didn't do my

2362  
01:29:35,240 --> 01:29:33,180  
job at the beginning of this show I said

2363  
01:29:37,430 --> 01:29:35,250

I was gonna shoot down your theories and

2364

01:29:38,000 --> 01:29:37,440

I just fell into making it a big love

2365

01:29:41,210 --> 01:29:38,010

fest

2366

01:29:44,480 --> 01:29:41,220

and I apologize everyone who's listening

2367

01:29:46,070 --> 01:29:44,490

so please shoot this guy down tell him

2368

01:29:48,080 --> 01:29:46,080

where he's wrong tell me where he's

2369

01:29:49,820 --> 01:29:48,090

wrong straighten me out cuz I fell for

2370

01:29:51,920 --> 01:29:49,830

the hot fallin for it hook line and

2371

01:29:54,080 --> 01:29:51,930

sinker I think it's hugely important so

2372

01:29:56,780 --> 01:29:54,090

correct me on that but I digress Chris

2373

01:30:00,440 --> 01:29:56,790

tell us where we can follow what you do

2374

01:30:02,780 --> 01:30:00,450

yeah I mean if the people catch up with

2375

01:30:06,320 --> 01:30:02,790

me I'm generally on Twitter they'll find

2376

01:30:08,870 --> 01:30:06,330

me there and extra Genesis my handle

2377

01:30:10,760 --> 01:30:08,880

there also I am on Facebook I don't use

2378

01:30:13,480 --> 01:30:10,770

it an awful lot I've websites bruce

2379

01:30:17,600 --> 01:30:13,490

fenton tour info hybrid humorous net

2380

01:30:21,890 --> 01:30:17,610

ancient news net and net which i control

2381

01:30:23,180 --> 01:30:21,900

all of those i recently been on ancient

2382

01:30:26,330 --> 01:30:23,190

aliens and i believe i'm in another

2383

01:30:28,370 --> 01:30:26,340

episode coming up fairly soon and i

2384

01:30:30,200 --> 01:30:28,380

should be a contact in the desert next

2385

01:30:31,790 --> 01:30:30,210

year all being well see that's a few

2386

01:30:33,830 --> 01:30:31,800

months away so people wanna see me there

2387

01:30:35,300 --> 01:30:33,840

I'm based in the UK obviously so I'm not

2388

01:30:36,650 --> 01:30:35,310

in the US a lot so that'd be an

2389

01:30:39,170 --> 01:30:36,660

opportunity for people to come and you

2390

01:30:41,750 --> 01:30:39,180

know thank me or shout at me to penny on

2391

01:30:43,160 --> 01:30:41,760

what they feel about this and yeah I

2392

01:30:45,320 --> 01:30:43,170

guess you have that's probably the best

2393

01:30:47,690 --> 01:30:45,330

places to which you follow me and if

2394

01:30:49,580 --> 01:30:47,700

anyone has an equal to feedback also

2395

01:30:52,550 --> 01:30:49,590

ideas how to get the information out you

2396

01:30:54,830 --> 01:30:52,560

know I'd appreciate that as well well

2397

01:30:56,960 --> 01:30:54,840

awesome it's been just terrific having

2398

01:30:59,540 --> 01:30:56,970

you on and and interacting with young

2399

01:31:02,600 --> 01:30:59,550

forum has been great too so I know we'll

2400

01:31:06,050 --> 01:31:02,610

stay in touch thanks again so much thank

2401  
01:31:07,290 --> 01:31:06,060  
you risking brilliant thanks a lot all

2402  
01:31:10,920 --> 01:31:07,300  
right buddy

2403  
01:31:14,010 --> 01:31:10,930  
so I don't know I don't know if I if

2404  
01:31:18,000 --> 01:31:14,020  
I did the job here but hey I would love

2405  
01:31:20,760 --> 01:31:18,010  
to here it is I want to help get this

2406  
01:31:25,410 --> 01:31:20,770  
out I'm totally sincere about that tell

2407  
01:31:28,860 --> 01:31:25,420  
me who's been approaching you that I can

2408  
01:31:32,070 --> 01:31:28,870  
help make some kind of you know mini

2409  
01:31:33,540 --> 01:31:32,080  
documentary or film or something you

2410  
01:31:34,770 --> 01:31:33,550  
must know some people I know you know

2411  
01:31:36,090 --> 01:31:34,780  
some people have come to you and said

2412  
01:31:38,370 --> 01:31:36,100  
Bruce this is important

2413  
01:31:40,440 --> 01:31:38,380

let me help make that happen well I

2414

01:31:42,150 --> 01:31:40,450

don't I mean my my literary agent has

2415

01:31:43,800 --> 01:31:42,160

tried he's reached out to a company we

2416

01:31:46,620 --> 01:31:43,810

tried I'm Prometheus because of ancient

2417

01:31:47,910 --> 01:31:46,630

aliens you know they passed on it I

2418

01:31:49,410 --> 01:31:47,920

think perhaps because they feel like

2419

01:31:50,700 --> 01:31:49,420

some of the they haven't said why but I

2420

01:31:52,110 --> 01:31:50,710

suppose some of the topics in it they've

2421

01:31:56,220 --> 01:31:52,120

covered in other episodes so maybe they

2422

01:31:58,830 --> 01:31:56,230

they didn't want to also he's I think

2423

01:32:00,840 --> 01:31:58,840

he's tried a couple of other production

2424

01:32:03,150 --> 01:32:00,850

companies but we haven't at the moment

2425

01:32:04,830 --> 01:32:03,160

got anyone I tried reaching out to Gaea

2426

01:32:06,540 --> 01:32:04,840

because I know that they cover

2427

01:32:07,680 --> 01:32:06,550

strangeness and they said they're they

2428

01:32:09,660 --> 01:32:07,690

don't say at the moment they're not

2429

01:32:10,770 --> 01:32:09,670

taking external stuff it's just you know

2430

01:32:13,590 --> 01:32:10,780

whatever they're come up with in-house

2431

01:32:16,440 --> 01:32:13,600

to to do they've said look that might

2432

01:32:17,910 --> 01:32:16,450

change we might come back to you so no

2433

01:32:19,740 --> 01:32:17,920

there's nothing I really think it needs

2434

01:32:23,190 --> 01:32:19,750

to be in a visual format to be honest

2435

01:32:25,770 --> 01:32:23,200

and I don't at this point have anyone to

2436

01:32:28,980 --> 01:32:25,780

do that I'm gonna probably try to do

2437

01:32:30,750 --> 01:32:28,990

some video or YouTube or something to

2438

01:32:33,480 --> 01:32:30,760

try and get some aphasia but it really

2439

01:32:35,390 --> 01:32:33,490

needs to have a professional documentary

2440

01:32:40,260 --> 01:32:35,400

team or somehow put this together

2441

01:32:42,330 --> 01:32:40,270

agreed well let's just put some let's

2442

01:32:45,780 --> 01:32:42,340

just put some thought and energy into it

2443

01:32:48,450 --> 01:32:45,790

and so I'm interested in helping fund

2444

01:32:50,970 --> 01:32:48,460

that I'm not interested I'm not worried

2445

01:32:53,250 --> 01:32:50,980

about the return on it I'm interested in

2446

01:32:55,680 --> 01:32:53,260

the information reaching people so

2447

01:33:00,060 --> 01:32:55,690

please consider me for as a resource in

2448

01:33:01,860 --> 01:33:00,070

that way and I will try and you know few

2449

01:33:04,680 --> 01:33:01,870

ideas about how that can be done or even

2450

01:33:06,120 --> 01:33:04,690

an initial teaser promo kind of show

2451  
01:33:07,410 --> 01:33:06,130  
where we give some you know anything

2452  
01:33:10,230 --> 01:33:07,420  
that could give you know I realized

2453  
01:33:11,700 --> 01:33:10,240  
visual format as well as course you know

2454  
01:33:13,080 --> 01:33:11,710  
a lot people now downloading you know

2455  
01:33:14,520 --> 01:33:13,090  
audio but I mean you know those are the

2456  
01:33:16,230 --> 01:33:14,530  
two formats I don't really cover very

2457  
01:33:17,790 --> 01:33:16,240  
well obviously pop interviews that

2458  
01:33:19,470 --> 01:33:17,800  
they're you know that there's a lot of

2459  
01:33:21,240 --> 01:33:19,480  
people who won't have this infrahuman

2460  
01:33:23,310 --> 01:33:21,250  
online that say well hey

2461  
01:33:25,260 --> 01:33:23,320  
because it's not audible or it's not on

2462  
01:33:28,560 --> 01:33:25,270  
YouTube that they haven't really

2463  
01:33:30,000 --> 01:33:28,570

accessed it so I mean yeah any ideas you

2464

01:33:32,460 --> 01:33:30,010

have about ways to address the interface

2465

01:33:35,100 --> 01:33:32,470

in small serialized parts dealing with

2466

01:33:36,600 --> 01:33:35,110

aspects of it or you know anything like

2467

01:33:39,570 --> 01:33:36,610

that or if you know if you know people

2468

01:33:41,760 --> 01:33:39,580

that do that you know or you know a

2469

01:33:43,350 --> 01:33:41,770

little to this I guess this is people

2470

01:33:44,820 --> 01:33:43,360

that can be hired to come and feel me

2471

01:33:46,590 --> 01:33:44,830

and you can whatever make you know

2472

01:33:48,030 --> 01:33:46,600

interviews about it but anything like

2473

01:33:50,370 --> 01:33:48,040

that you know where this is interviews

2474

01:33:52,290 --> 01:33:50,380

or a full documentary or you know I

2475

01:33:54,120 --> 01:33:52,300

don't know I mean but yeah the moment my

2476

01:33:56,460 --> 01:33:54,130

resources just aren't there to do it as

2477

01:33:58,710 --> 01:33:56,470

I said yeah yeah that's my problem is

2478

01:34:00,750 --> 01:33:58,720

that you know we'll get it done we'll

2479

01:34:03,990 --> 01:34:00,760

figure out a way to get it done it's

2480

01:34:05,970 --> 01:34:04,000

just - it's it's it's it hits all the

2481

01:34:08,190 --> 01:34:05,980

buttons it's like the most important

2482

01:34:10,320 --> 01:34:08,200

thing and it's super interesting it's

2483

01:34:12,840 --> 01:34:10,330

and it's like cinema graphic you know I

2484

01:34:15,360 --> 01:34:12,850

mean we'll get it done all right my man

2485

01:34:16,760 --> 01:34:15,370

okay that's I mean I appreciate you

2486

01:34:20,040 --> 01:34:16,770

anything you come up with as I say

2487

01:34:22,830 --> 01:34:20,050

really cool and you know yeah I hope

2488

01:34:25,170 --> 01:34:22,840

hope it'll get out there you know I hope

2489

01:34:28,740 --> 01:34:25,180

we'll to do the more esoteric one

2490

01:34:31,350 --> 01:34:28,750

another time - Stephanie now we will in

2491

01:34:34,110 --> 01:34:31,360

I'll just figure out a way to you know

2492

01:34:36,630 --> 01:34:34,120

I'll either I'm a trig by this other

2493

01:34:40,020 --> 01:34:36,640

idea you know we might just move as

2494

01:34:42,630 --> 01:34:40,030

quick as I can okay yeah yeah let me

2495

01:34:44,100 --> 01:34:42,640

know I mean I say I'm open to I'm in

2496

01:34:46,470 --> 01:34:44,110

whatever format if you have ideas or

2497

01:34:47,940 --> 01:34:46,480

different formats that might work then

2498

01:34:51,090 --> 01:34:47,950

yeah we can definitely have a look at it

2499

01:34:53,040 --> 01:34:51,100

yeah great I don't have any goal other

2500

01:34:55,590 --> 01:34:53,050

than to help you get out there so we

2501  
01:34:58,050 --> 01:34:55,600  
just working yeah I'm I'm struggled for

2502  
01:34:59,900 --> 01:34:58,060  
that yeah even just to get the press to

2503  
01:35:02,010 --> 01:34:59,910  
cover the inter Africa thing you know

2504  
01:35:04,050 --> 01:35:02,020  
they go yeah you know one you know

2505  
01:35:05,970 --> 01:35:04,060  
Forbes did one ask or deleted it in

2506  
01:35:09,840 --> 01:35:05,980  
three hours so I mean at the moment my

2507  
01:35:11,820 --> 01:35:09,850  
access to the greater media is just the

2508  
01:35:14,160 --> 01:35:11,830  
kindness of various radio show hosts

2509  
01:35:16,380 --> 01:35:14,170  
really and a few guest articles on

2510  
01:35:17,760 --> 01:35:16,390  
independent you know media so that's

2511  
01:35:24,120 --> 01:35:17,770  
here and obviously that's not going to

2512  
01:35:24,990 --> 01:35:24,130  
reach enough people so thank you my

2513  
01:35:27,240 --> 01:35:25,000

speech again soon

2514

01:35:28,920 --> 01:35:27,250

okay back just to get the bike thanks

2515

01:35:32,040 --> 01:35:28,930

again to bruce fenton for joining me

2516

01:35:35,000 --> 01:35:32,050

today on skeptical as you can tell I was

2517

01:35:39,020 --> 01:35:35,010

quite enthusiastic about Bruce

2518

01:35:42,410 --> 01:35:39,030

his theories in his research so I have

2519

01:35:46,810 --> 01:35:42,420

one basic question to tee up what if

2520

01:35:48,890 --> 01:35:46,820

Bruce and Daniella Fenton are right now

2521

01:35:50,450 --> 01:35:48,900

one of the reasons I have to tell you I

2522

01:35:53,569 --> 01:35:50,460

was so enthusiastic about this interview

2523

01:35:56,149 --> 01:35:53,579

is because all of the great input I got

2524

01:35:58,220 --> 01:35:56,159

from sceptical listeners through the

2525

01:35:59,720 --> 01:35:58,230

skeptical forum before this interview

2526

01:36:01,100 --> 01:35:59,730

and I'm hoping we can pick up that

2527

01:36:03,169 --> 01:36:01,110

dialogue now that this interview is

2528

01:36:05,990 --> 01:36:03,179

published because I plan on doing a lot

2529

01:36:08,419 --> 01:36:06,000

more with Bruce and Daniela because I

2530

01:36:12,830 --> 01:36:08,429

think the question the hypothesis the

2531

01:36:15,890 --> 01:36:12,840

research that they propose is incredibly

2532

01:36:18,799 --> 01:36:15,900

important if it's true if and only if

2533

01:36:22,339 --> 01:36:18,809

it's inquiry to perpetuate doubt

2534

01:36:23,810 --> 01:36:22,349

sceptical style true so dear join me

2535

01:36:26,740 --> 01:36:23,820

over in the skeptical forum tell me what

2536

01:36:30,020 --> 01:36:26,750

you think tell me how we would go about

2537

01:36:31,939 --> 01:36:30,030

nudging towards the truth on this and

2538

01:36:33,979 --> 01:36:31,949

then while you're there of course check

2539

01:36:37,120 --> 01:36:33,989

out skeptical website where you'll find

2540

01:36:39,919 --> 01:36:37,130

all these shows and all our other shows

2541

01:36:42,439 --> 01:36:39,929

420 or whatever of them available for

2542

01:36:44,359 --> 01:36:42,449

free download on mp3 and download them

2543

01:36:47,390 --> 01:36:44,369

share them with other people you think

2544

01:36:50,180 --> 01:36:47,400

would be interested in hearing this and

2545

01:36:52,669 --> 01:36:50,190

I hope you do that so again you're gonna

2546

01:36:54,919 --> 01:36:52,679

hear more from Bruce and Daniela so

2547

01:36:57,770 --> 01:36:54,929

stick around for that and stick around

2548

01:36:59,930 --> 01:36:57,780

for some pretty interesting other shows

2549

01:37:02,149 --> 01:36:59,940

I'm down playing I have some really good

2550

01:37:03,589 --> 01:37:02,159

interesting shows coming up and some

2551

01:37:05,959 --> 01:37:03,599

that are less interesting but some

2552

01:37:08,720 --> 01:37:05,969

really good ones stick around for all of
