

**TOTAL ELECTION
CONTROL**
#582 ANDY PAQUETTE

SK≡PTIKO
science & spirituality

1
00:00:09,710 --> 00:00:05,930
um this episode's got to go a show about

2
00:00:11,450 --> 00:00:09,720
getting it done the old-fashioned way

3
00:00:12,589 --> 00:00:11,460
what's it all about

4
00:00:19,670 --> 00:00:12,599
America

5
00:00:22,189 --> 00:00:19,680
freedom

6
00:00:24,650 --> 00:00:22,199
but what does that mean I don't

7
00:00:25,609 --> 00:00:24,660
know but the people sure love it when I

8
00:00:29,810 --> 00:00:25,619
say it

9
00:00:34,010 --> 00:00:29,820
and the newer way you have 30 000 people

10
00:00:36,410 --> 00:00:34,020
that were purged and voted so after

11
00:00:39,530 --> 00:00:36,420
doing a lot of research and identifying

12
00:00:41,690 --> 00:00:39,540
suspicious records I made requests to

13
00:00:44,389 --> 00:00:41,700

what we call the Cannabis team in one

14

00:00:47,270 --> 00:00:44,399

case this lady told our canvasser you

15

00:00:49,130 --> 00:00:47,280

know this has my three registrations all

16

00:00:50,690 --> 00:00:49,140

on the same two days one right after the

17

00:00:52,729 --> 00:00:50,700

other a year before I actually

18

00:00:54,290 --> 00:00:52,739

registered to vote and I know this

19

00:00:56,090 --> 00:00:54,300

because I was pregnant when I went in

20

00:00:58,670 --> 00:00:56,100

there to register and my one-year-old

21

00:01:00,950 --> 00:00:58,680

son is in the house right now individual

22

00:01:02,689 --> 00:01:00,960

odors are totally incapable of doing

23

00:01:05,509 --> 00:01:02,699

this you can't you have to have access

24

00:01:07,490 --> 00:01:05,519

to the official database to do it that

25

00:01:09,950 --> 00:01:07,500

first clip was from my favorite election

26

00:01:12,230 --> 00:01:09,960

movie of all time campaign with Will

27

00:01:14,690 --> 00:01:12,240

Ferrell and Zach Galifianakis and the

28

00:01:17,750 --> 00:01:14,700

second was from today's amazing guest

29

00:01:19,550 --> 00:01:17,760

Andy Paquette and this dialogue went on

30

00:01:21,770 --> 00:01:19,560

and on so I actually broke it into two

31

00:01:24,109 --> 00:01:21,780

because it really kind of two completely

32

00:01:26,870 --> 00:01:24,119

different subjects but I think you'll

33

00:01:29,630 --> 00:01:26,880

enjoy both of them remember don't get

34

00:01:30,590 --> 00:01:29,640

too sucked into the drama it's just a

35

00:01:32,570 --> 00:01:30,600

show

36

00:01:34,670 --> 00:01:32,580

welcome to skeptico where we explore

37

00:01:37,670 --> 00:01:34,680

controversial science and spirituality

38

00:01:39,410 --> 00:01:37,680

with leading researchers thinkers and

39

00:01:42,950 --> 00:01:39,420

their critics I'm your host Alex Securis

40

00:01:44,510 --> 00:01:42,960

and today we welcome Andy Paquette back

41

00:01:46,609 --> 00:01:44,520

to skeptico

42

00:01:49,249 --> 00:01:46,619

you know Andy I want to start with a

43

00:01:50,810 --> 00:01:49,259

little story and uh I don't know if I've

44

00:01:52,429 --> 00:01:50,820

told this I've told it to you but I

45

00:01:56,569 --> 00:01:52,439

don't know if I've told it on air but

46

00:01:58,789 --> 00:01:56,579

Trish and Rob McGregor who him yeah kind

47

00:02:01,069 --> 00:01:58,799

of well known in the Paranormal

48

00:02:03,109 --> 00:02:01,079

parapsychology read over 100 books but

49

00:02:04,450 --> 00:02:03,119

he's with George Lucas you know kind of

50

00:02:07,190 --> 00:02:04,460

thing

51
00:02:09,770 --> 00:02:07,200
they heard an interview that we did that

52
00:02:12,229 --> 00:02:09,780
you did for me and they said gosh we had

53
00:02:15,650 --> 00:02:12,239
to have that guy on so they interviewed

54
00:02:18,350 --> 00:02:15,660
Andy and at the end exact quote uh

55
00:02:22,850 --> 00:02:18,360
trishco's I think Andy might be the most

56
00:02:24,470 --> 00:02:22,860
psychic person I've ever met now I mean

57
00:02:26,750 --> 00:02:24,480
that's pretty amazing especially when

58
00:02:28,610 --> 00:02:26,760
you uh if you read her books or listen

59
00:02:30,770 --> 00:02:28,620
all I mean she always has these stories

60
00:02:33,830 --> 00:02:30,780
of these incredible people that she's

61
00:02:35,510 --> 00:02:33,840
met and it's kind of true what's really

62
00:02:36,890 --> 00:02:35,520
really extraordinary about you Annie and

63
00:02:39,410 --> 00:02:36,900

I've shared this before but let me share

64

00:02:40,970 --> 00:02:39,420

my screen for a second so if if anybody

65

00:02:45,910 --> 00:02:40,980

wants to go

66

00:02:52,390 --> 00:02:48,830

p-a-q-a-r-t.com drawings paintings

67

00:02:55,309 --> 00:02:52,400

Commercial Art Hollywood you know doing

68

00:02:56,990 --> 00:02:55,319

computer graphics on what was that was

69

00:02:59,150 --> 00:02:57,000

the biggest movie you ever did

70

00:03:01,070 --> 00:02:59,160

well it's hard to say I mean I I worked

71

00:03:04,430 --> 00:03:01,080

on Space Jam and Spider-Man and

72

00:03:06,350 --> 00:03:04,440

Daredevil and then smaller ones so then

73

00:03:09,650 --> 00:03:06,360

you have this incredible photography

74

00:03:11,869 --> 00:03:09,660

that you do commercially in New York you

75

00:03:15,589 --> 00:03:11,879

know like major thing and then along the

76

00:03:18,530 --> 00:03:15,599

way you kind of get a PhD just because

77

00:03:21,170 --> 00:03:18,540

just cause you wanted to I guess

78

00:03:23,770 --> 00:03:21,180

and then so we're not going to talk

79

00:03:25,850 --> 00:03:23,780

about any of that today

80

00:03:28,309 --> 00:03:25,860

because what we're going to talk about

81

00:03:31,670 --> 00:03:28,319

is artzark

82

00:03:34,009 --> 00:03:31,680

because it was more than a year ago you

83

00:03:36,710 --> 00:03:34,019

contacted me about this topic that we're

84

00:03:40,430 --> 00:03:36,720

going to talk about and I immediately

85

00:03:42,589 --> 00:03:40,440

realized that you had done

86

00:03:44,690 --> 00:03:42,599

just what I think a lot of people just

87

00:03:46,190 --> 00:03:44,700

find to be impossible and a lot of

88

00:03:49,190 --> 00:03:46,200

people at the end of this might still

89

00:03:53,089 --> 00:03:49,200

think is impossible but at the time I

90

00:03:56,449 --> 00:03:53,099

thought wow this is so so big and such a

91

00:03:58,789 --> 00:03:56,459

huge story that I I love that Andy is

92

00:04:00,410 --> 00:03:58,799

sharing it with me but there's no way

93

00:04:03,610 --> 00:04:00,420

this is ever going to make it on

94

00:04:07,070 --> 00:04:03,620

skeptico this is going to be a national

95

00:04:10,369 --> 00:04:07,080

news story he's going to be contacted by

96

00:04:13,009 --> 00:04:10,379

all the major news outlets this is just

97

00:04:15,350 --> 00:04:13,019

too big and if anything I was kind of

98

00:04:19,129 --> 00:04:15,360

worried about your your safety because

99

00:04:20,689 --> 00:04:19,139

it was such a huge story in such a uh

100

00:04:23,270 --> 00:04:20,699

important story

101
00:04:27,170 --> 00:04:23,280
of course here we are a year and a half

102
00:04:28,909 --> 00:04:27,180
later a tiny little skeptico

103
00:04:33,530 --> 00:04:28,919
getting out

104
00:04:36,950 --> 00:04:33,540
what is really just an amazing amazing

105
00:04:39,469 --> 00:04:36,960
story and my spin on it of course is

106
00:04:42,110 --> 00:04:39,479
always going to bring us back to the

107
00:04:44,749 --> 00:04:42,120
spiritual in some way the questions of

108
00:04:48,110 --> 00:04:44,759
why evil matters who are the characters

109
00:04:51,230 --> 00:04:48,120
really behind that in terms of that

110
00:04:53,150 --> 00:04:51,240
larger spiritual perspective which you

111
00:04:55,610 --> 00:04:53,160
are so much about as well even though it

112
00:04:58,070 --> 00:04:55,620
isn't going to come out directly in what

113
00:05:00,050 --> 00:04:58,080

we're going to talk about so

114

00:05:02,090 --> 00:05:00,060

with that I don't know I wasn't trying

115

00:05:04,010 --> 00:05:02,100

to tease this thing

116

00:05:07,249 --> 00:05:04,020

but with that

117

00:05:09,350 --> 00:05:07,259

I guess maybe you should tell us

118

00:05:11,510 --> 00:05:09,360

how you wound up with like the first

119

00:05:13,610 --> 00:05:11,520

time I talked to you remember you said I

120

00:05:16,310 --> 00:05:13,620

just downloaded the database

121

00:05:19,969 --> 00:05:16,320

I have a database of

122

00:05:21,890 --> 00:05:19,979

all the voters in New York like eight

123

00:05:24,409 --> 00:05:21,900

million voters or something like that I

124

00:05:26,270 --> 00:05:24,419

mean what is the what is the starting

125

00:05:29,629 --> 00:05:26,280

point that we should start with this

126

00:05:31,550 --> 00:05:29,639

whole okay first up I hate to say this

127

00:05:33,529 --> 00:05:31,560

but in your intro I've been wanting to

128

00:05:35,330 --> 00:05:33,539

like kind of stop you and say something

129

00:05:37,189 --> 00:05:35,340

and and hopefully not horrify you too

130

00:05:39,050 --> 00:05:37,199

much but I I wanted to do this as

131

00:05:42,350 --> 00:05:39,060

doctors art without connecting it to

132

00:05:44,629 --> 00:05:42,360

Andrew Paquette uh is that too late

133

00:05:46,490 --> 00:05:44,639

too late everybody knows you Andy

134

00:05:49,370 --> 00:05:46,500

everybody in skeptical land totally

135

00:05:51,350 --> 00:05:49,380

knows you I mean you can't it and you

136

00:05:52,730 --> 00:05:51,360

shouldn't I think again I thought about

137

00:05:54,230 --> 00:05:52,740

that because we talked about that in

138

00:05:57,710 --> 00:05:54,240

pre-interview

139

00:06:00,110 --> 00:05:57,720

no the story is that now

140

00:06:01,490 --> 00:06:00,120

we we can talk about this it's okay to

141

00:06:02,689 --> 00:06:01,500

talk about it you've published on it

142

00:06:06,230 --> 00:06:02,699

you've published on it you've done

143

00:06:08,629 --> 00:06:06,240

public presentations on it you're you've

144

00:06:10,189 --> 00:06:08,639

outed yourself there's no need we don't

145

00:06:13,850 --> 00:06:10,199

have to make a big deal out of it but

146

00:06:15,830 --> 00:06:13,860

yeah so how it started was I had come to

147

00:06:17,930 --> 00:06:15,840

New York to start up a commercial

148

00:06:19,550 --> 00:06:17,940

photography studio okay and I'd invested

149

00:06:22,430 --> 00:06:19,560

quite a lot of money on that too it was

150

00:06:25,189 --> 00:06:22,440

not cheap to do this and I did that

151
00:06:26,689 --> 00:06:25,199
right after I got my PhD because uh well

152
00:06:29,390 --> 00:06:26,699
in part what happened was I was working

153
00:06:31,790 --> 00:06:29,400
at PhD at King's College London and I

154
00:06:34,249 --> 00:06:31,800
realized I don't like doing this this is

155
00:06:35,570 --> 00:06:34,259
not any fun okay I the research in my

156
00:06:38,450 --> 00:06:35,580
dreams was fine because I was doing it

157
00:06:39,890 --> 00:06:38,460
for my own purposes and I kind of wanted

158
00:06:42,230 --> 00:06:39,900
that information I wanted to understand

159
00:06:44,029 --> 00:06:42,240
that information but the research I was

160
00:06:45,409 --> 00:06:44,039
doing for the THD I was thinking okay as

161
00:06:48,590 --> 00:06:45,419
soon as this is done I'm never doing

162
00:06:50,510 --> 00:06:48,600
this yet this is it okay and at the same

163
00:06:52,730 --> 00:06:50,520

time while I was working on a THD just

164

00:06:54,770 --> 00:06:52,740

to kind of relax from all the pressure

165

00:06:56,270 --> 00:06:54,780

of teaching full-time and doing a PhD

166

00:06:57,590 --> 00:06:56,280

and traveling to London all that's going

167

00:06:59,210 --> 00:06:57,600

to do it

168

00:07:00,469 --> 00:06:59,220

um I had picked up photography and I'd

169

00:07:01,850 --> 00:07:00,479

started getting clients and I thought

170

00:07:04,969 --> 00:07:01,860

you know what this is what I want to do

171

00:07:06,590 --> 00:07:04,979

I'm going to quit my job I like to uh as

172

00:07:08,809 --> 00:07:06,600

soon as I have the PHD I'm going to move

173

00:07:10,490 --> 00:07:08,819

back to New York and I'm going to start

174

00:07:14,210 --> 00:07:10,500

a photography streamless that's what I

175

00:07:15,770 --> 00:07:14,220

want to do so I came out here and uh as

176

00:07:17,150 --> 00:07:15,780

I'm sure you understand setting up any

177

00:07:18,350 --> 00:07:17,160

kind of a business it takes you a little

178

00:07:19,490 --> 00:07:18,360

while right and then you start getting

179

00:07:20,990 --> 00:07:19,500

your clients and then you get more

180

00:07:23,689 --> 00:07:21,000

clients and then you're going concern

181

00:07:25,610 --> 00:07:23,699

and I expected that so I saved up some

182

00:07:26,270 --> 00:07:25,620

money and I was able to last quite a

183

00:07:29,270 --> 00:07:26,280

while

184

00:07:31,070 --> 00:07:29,280

um so I figured it'd take me at least a

185

00:07:33,409 --> 00:07:31,080

year before I was even at point of first

186

00:07:35,930 --> 00:07:33,419

Contact for a client and then maybe

187

00:07:37,969 --> 00:07:35,940

another year and I'd start having a low

188

00:07:40,010 --> 00:07:37,979

level of client but it would it would

189

00:07:41,870 --> 00:07:40,020

get me where I needed to be so that I

190

00:07:44,029 --> 00:07:41,880

could have a continuing stream with them

191

00:07:46,070 --> 00:07:44,039

so about 18 months later we got my first

192

00:07:47,870 --> 00:07:46,080

client and then shortly after I got

193

00:07:49,670 --> 00:07:47,880

another one and then the pandemic hit

194

00:07:52,010 --> 00:07:49,680

okay and then all of a sudden everything

195

00:07:54,710 --> 00:07:52,020

was shut down the studios were shut down

196

00:07:55,969 --> 00:07:54,720

I couldn't access clients the the crews

197

00:07:58,129 --> 00:07:55,979

I would have to work with in New York

198

00:07:59,930 --> 00:07:58,139

were unavailable and even if they were

199

00:08:02,029 --> 00:07:59,940

available there was no order shoot it

200

00:08:04,909 --> 00:08:02,039

was like everything just stopped okay

201
00:08:05,990 --> 00:08:04,919
and I was I was just I was sitting there

202
00:08:09,050 --> 00:08:06,000
and I was thinking this can't be

203
00:08:11,390 --> 00:08:09,060
happening and yet it was so I thought

204
00:08:13,490 --> 00:08:11,400
okay fine I can't do any business so I'm

205
00:08:14,990 --> 00:08:13,500
just going to take pictures of you know

206
00:08:17,570 --> 00:08:15,000
fun stuff so I was taking pictures of

207
00:08:18,770 --> 00:08:17,580
diners and farms and churches you know

208
00:08:20,029 --> 00:08:18,780
anything I thought looked really

209
00:08:22,129 --> 00:08:20,039
American

210
00:08:23,749 --> 00:08:22,139
uh I also wanted to do a series on

211
00:08:26,150 --> 00:08:23,759
tractor trailers which I haven't done

212
00:08:28,850 --> 00:08:26,160
yet uh uh trucks and things like that

213
00:08:32,510 --> 00:08:28,860

but anyway so this is what I'm doing

214

00:08:35,149 --> 00:08:32,520

when I see a podcast that was talking

215

00:08:38,149 --> 00:08:35,159

about audits across the country and the

216

00:08:40,850 --> 00:08:38,159

thing is that that got my interest and

217

00:08:44,570 --> 00:08:40,860

the reason the election audits this is

218

00:08:46,730 --> 00:08:44,580

after after the 2020 election and this

219

00:08:49,310 --> 00:08:46,740

was just about the hottest topic you

220

00:08:51,110 --> 00:08:49,320

couldn't go anywhere without the hole

221

00:08:54,290 --> 00:08:51,120

and then it's it evolved into the whole

222

00:08:56,509 --> 00:08:54,300

January 6th and the whole thing but if

223

00:08:59,630 --> 00:08:56,519

we got to go back now because it's the

224

00:09:01,250 --> 00:08:59,640

calendar that's flown by it's easy to

225

00:09:03,530 --> 00:09:01,260

forget what a

226

00:09:05,150 --> 00:09:03,540

Central issue this was gripping

227

00:09:07,490 --> 00:09:05,160

everybody and and by the way you know

228

00:09:10,370 --> 00:09:07,500

this is at the time Google comes out and

229

00:09:12,410 --> 00:09:10,380

says hey the only thing that is verboten

230

00:09:15,889 --> 00:09:12,420

we are not allowing is any kind of

231

00:09:17,810 --> 00:09:15,899

searches about election fraud or

232

00:09:20,509 --> 00:09:17,820

vaccines for the two two things that

233

00:09:22,550 --> 00:09:20,519

that they just sent which is strange and

234

00:09:25,610 --> 00:09:22,560

part of this story but just to put it in

235

00:09:27,889 --> 00:09:25,620

context it's about the election well

236

00:09:29,509 --> 00:09:27,899

yeah it was and here's the thing when I

237

00:09:31,910 --> 00:09:29,519

moved to New York I was thinking okay

238

00:09:33,650 --> 00:09:31,920

I'm moving to a blue state so when the

239

00:09:35,389 --> 00:09:33,660

election happened I've got that in my

240

00:09:37,790 --> 00:09:35,399

mind I'm thinking this is one state it's

241

00:09:39,410 --> 00:09:37,800

a stable Blue State they don't need to

242

00:09:41,329 --> 00:09:39,420

commit fraud they will win anyway

243

00:09:43,250 --> 00:09:41,339

because they have so many people who

244

00:09:45,110 --> 00:09:43,260

vote that way in the state so I would

245

00:09:47,329 --> 00:09:45,120

really was assuming that New York was

246

00:09:49,430 --> 00:09:47,339

going to go to all of the Democrat

247

00:09:51,050 --> 00:09:49,440

candidates it didn't strike me as at all

248

00:09:53,750 --> 00:09:51,060

unusual when it happened with struck me

249

00:09:55,430 --> 00:09:53,760

unusual though is the night of the

250

00:09:59,030 --> 00:09:55,440

election I was in bed watching the

251

00:10:01,970 --> 00:09:59,040

election returns on my iPad and I saw

252

00:10:04,009 --> 00:10:01,980

Trump had more than a half million vote

253

00:10:06,230 --> 00:10:04,019

lead in Pennsylvania and he had about a

254

00:10:08,090 --> 00:10:06,240

half million vote lead in Wisconsin he

255

00:10:09,949 --> 00:10:08,100

had these huge leads in the states that

256

00:10:12,230 --> 00:10:09,959

were going to determine the election and

257

00:10:13,970 --> 00:10:12,240

there is no way after the polls close

258

00:10:15,590 --> 00:10:13,980

that anyone was going to catch up to

259

00:10:17,570 --> 00:10:15,600

that that just wasn't going to happen he

260

00:10:19,550 --> 00:10:17,580

was going to win and that's what I was

261

00:10:20,930 --> 00:10:19,560

thinking when I went to bed and I went

262

00:10:21,949 --> 00:10:20,940

to bed at like three o'clock in the

263

00:10:24,170 --> 00:10:21,959

morning or four o'clock in the morning

264

00:10:25,490 --> 00:10:24,180

anyway but when I woke up they were all

265

00:10:28,009 --> 00:10:25,500

saying Biden was the winner and I was

266

00:10:30,949 --> 00:10:28,019

staying there thinking how how our Earth

267

00:10:33,170 --> 00:10:30,959

do you make up that many roads that was

268

00:10:34,850 --> 00:10:33,180

the thing that was cuzzling me uh so

269

00:10:36,530 --> 00:10:34,860

much especially because they said they

270

00:10:38,750 --> 00:10:36,540

closed all the counting centers it's

271

00:10:40,009 --> 00:10:38,760

like so so you stopped counting and you

272

00:10:41,509 --> 00:10:40,019

woke up the next morning and all of a

273

00:10:42,769 --> 00:10:41,519

sudden there's a half million more votes

274

00:10:44,329 --> 00:10:42,779

in there and it puts you over the top

275

00:10:46,190 --> 00:10:44,339

and now the guy who was the winner last

276

00:10:49,550 --> 00:10:46,200

night it's the loser it didn't make

277

00:10:52,250 --> 00:10:49,560

sense to me so anyway so I heard about a

278

00:10:54,410 --> 00:10:52,260

group that was way to try and audit the

279

00:10:56,329 --> 00:10:54,420

election here in New York right around

280

00:10:58,190 --> 00:10:56,339

August and I thought you know what I

281

00:11:00,710 --> 00:10:58,200

don't have anything else going on the

282

00:11:02,509 --> 00:11:00,720

wife was saying you gotta do it you

283

00:11:04,310 --> 00:11:02,519

gotta do you just have to know and I was

284

00:11:07,250 --> 00:11:04,320

like yeah I do kind of have to know so I

285

00:11:08,630 --> 00:11:07,260

I signed up and one of the first things

286

00:11:10,910 --> 00:11:08,640

that happened was they asked to be

287

00:11:13,310 --> 00:11:10,920

research director which surprised me

288

00:11:15,530 --> 00:11:13,320

because I I was like how do you know

289

00:11:17,509 --> 00:11:15,540

that I would be qualified to do that it

290

00:11:19,310 --> 00:11:17,519

just didn't make any sense to me and I I

291

00:11:20,750 --> 00:11:19,320

have a feeling my PhD helped a little

292

00:11:22,850 --> 00:11:20,760

bit but I'm sure they had other people

293

00:11:25,730 --> 00:11:22,860

with Advanced degrees that were on the

294

00:11:27,650 --> 00:11:25,740

team too I now my current theory is I

295

00:11:29,630 --> 00:11:27,660

might have been like the only guy at the

296

00:11:30,769 --> 00:11:29,640

moment at that time that hadn't applied

297

00:11:32,269 --> 00:11:30,779

because apparently I'm like one of the

298

00:11:34,190 --> 00:11:32,279

first people on the team without

299

00:11:35,870 --> 00:11:34,200

realizing it this is how it always

300

00:11:37,069 --> 00:11:35,880

happens when you're second you think the

301

00:11:39,350 --> 00:11:37,079

first guy was there forever you know

302

00:11:41,329 --> 00:11:39,360

what I mean so but in fact a group had

303

00:11:43,730 --> 00:11:41,339

just put uh put themselves together so

304

00:11:47,329 --> 00:11:43,740

this is the group New York citizens

305

00:11:50,210 --> 00:11:47,339

audit that you joined so auspiciously

306

00:11:53,389 --> 00:11:50,220

and then yeah so so what happens next

307

00:11:56,269 --> 00:11:53,399

with the database okay well first thing

308

00:11:58,970 --> 00:11:56,279

was uh we were supposed to I told them I

309

00:12:00,829 --> 00:11:58,980

said look there is nothing to there's no

310

00:12:02,750 --> 00:12:00,839

research to conduct until we have data

311

00:12:04,449 --> 00:12:02,760

we have have data so you have to ask for

312

00:12:07,730 --> 00:12:04,459

them so we need to get

313

00:12:09,650 --> 00:12:07,740

the the databases for all the counties

314

00:12:11,990 --> 00:12:09,660

and at the time they had somebody

315

00:12:13,430 --> 00:12:12,000

handling the those kinds of requests

316

00:12:14,630 --> 00:12:13,440

they're called foil requests in New York

317

00:12:17,810 --> 00:12:14,640

which stands for Freedom of Information

318

00:12:20,509 --> 00:12:17,820

laws and they sent them out all 62

319

00:12:22,550 --> 00:12:20,519

counties and I think it took maybe a

320

00:12:24,050 --> 00:12:22,560

couple months before we got it yeah and

321

00:12:26,750 --> 00:12:24,060

and can I just pause here for a minute

322

00:12:30,790 --> 00:12:26,760

because this is uh I gotta say this was

323

00:12:33,949 --> 00:12:30,800

surprising to me that there's a database

324

00:12:36,170 --> 00:12:33,959

that you can access as part of a foia

325

00:12:38,509 --> 00:12:36,180

foil La in in New York I always kind of

326

00:12:40,130 --> 00:12:38,519

thought all this stuff was was private

327

00:12:42,650 --> 00:12:40,140

but then when you think about it there

328

00:12:44,990 --> 00:12:42,660

would be a public interest in it so real

329

00:12:47,030 --> 00:12:45,000

briefly what is the law what is the

330

00:12:49,069 --> 00:12:47,040

database what can you get out of the

331

00:12:52,190 --> 00:12:49,079

database as being a citizen of New York

332

00:12:55,009 --> 00:12:52,200

okay first off it's for the whole

333

00:12:58,129 --> 00:12:55,019

country this is federal law okay but all

334

00:13:01,370 --> 00:12:58,139

of these things are um are public and

335

00:13:02,990 --> 00:13:01,380

the states limit the the kind of of

336

00:13:06,530 --> 00:13:03,000

information you can get so some states

337

00:13:08,210 --> 00:13:06,540

limited more than others in New York we

338

00:13:10,490 --> 00:13:08,220

get quite a lot okay the only thing that

339

00:13:13,310 --> 00:13:10,500

we're prevented from seeing as a as a

340

00:13:15,110 --> 00:13:13,320

private citizen is the driver's license

341

00:13:16,550 --> 00:13:15,120

numbers and Social Security numbers so

342

00:13:20,650 --> 00:13:16,560

we don't get that we get everything else

343

00:13:23,389 --> 00:13:20,660

and the purpose of of having this access

344

00:13:25,310 --> 00:13:23,399

is that we're supposed to be able to

345

00:13:27,769 --> 00:13:25,320

independently

346

00:13:30,110 --> 00:13:27,779

um confirm the accuracy and the currency

347

00:13:31,610 --> 00:13:30,120

of the database meaning it is current

348

00:13:34,129 --> 00:13:31,620

right

349

00:13:35,389 --> 00:13:34,139

um so and it has to be susceptible to

350

00:13:37,129 --> 00:13:35,399

challenges and the only way to do that

351
00:13:40,430 --> 00:13:37,139
is to make it available to the public so

352
00:13:42,350 --> 00:13:40,440
what we are working with entirely our

353
00:13:45,230 --> 00:13:42,360
publicly available records given to us

354
00:13:47,690 --> 00:13:45,240
directly by the people who compile and

355
00:13:49,790 --> 00:13:47,700
manage those records okay so that's it

356
00:13:51,290 --> 00:13:49,800
we don't have anything else

357
00:13:52,730 --> 00:13:51,300
um you know there are a couple of uh

358
00:13:54,350 --> 00:13:52,740
different places we've gotten the

359
00:13:56,210 --> 00:13:54,360
records from you know the voter rolls

360
00:13:59,150 --> 00:13:56,220
came from the individual counties in the

361
00:14:01,250 --> 00:13:59,160
state but uh other information like for

362
00:14:02,870 --> 00:14:01,260
instance uh we have the uh published

363
00:14:04,310 --> 00:14:02,880

certified results from the Secretary of

364

00:14:05,870 --> 00:14:04,320

State but anyone can get those they're

365

00:14:07,670 --> 00:14:05,880

on the Secretary of State's website so

366

00:14:10,490 --> 00:14:07,680

no big deal there

367

00:14:12,590 --> 00:14:10,500

um I did get one file and I wish I knew

368

00:14:14,449 --> 00:14:12,600

the provenance of it and I don't so I I

369

00:14:16,670 --> 00:14:14,459

can't really say it's official but it's

370

00:14:18,230 --> 00:14:16,680

a count of votes from all the precincts

371

00:14:20,090 --> 00:14:18,240

and

372

00:14:22,490 --> 00:14:20,100

um the only reason I trust it is because

373

00:14:24,889 --> 00:14:22,500

every spot check I've done it matches

374

00:14:26,150 --> 00:14:24,899

exactly with other sources that I have

375

00:14:27,470 --> 00:14:26,160

so

376

00:14:29,810 --> 00:14:27,480

um I'm thinking it's an accurate account

377

00:14:31,730 --> 00:14:29,820

however I can't uh I can't claim for

378

00:14:32,750 --> 00:14:31,740

sure that it's from an official Source

379

00:14:35,210 --> 00:14:32,760

because I don't know where it came from

380

00:14:36,769 --> 00:14:35,220

so you actually had to compile all the

381

00:14:38,690 --> 00:14:36,779

databases from all the different

382

00:14:41,090 --> 00:14:38,700

counties then and you have a little bit

383

00:14:44,449 --> 00:14:41,100

of a database background because you're

384

00:14:47,269 --> 00:14:44,459

not only like a computer Graphics genius

385

00:14:48,290 --> 00:14:47,279

but you did this eight thousand database

386

00:14:51,590 --> 00:14:48,300

of

387

00:14:54,790 --> 00:14:51,600

precognitive dreams that is truly uh

388

00:14:57,650 --> 00:14:54,800

just substantial breakthrough for

389

00:15:00,650 --> 00:14:57,660

parapsychology and precognition and

390

00:15:02,269 --> 00:15:00,660

that's all in your book dreamer which we

391

00:15:05,449 --> 00:15:02,279

talked about before but I mean that's

392

00:15:08,150 --> 00:15:05,459

just like an epic epic kind of book but

393

00:15:10,009 --> 00:15:08,160

you have this this background so when

394

00:15:13,150 --> 00:15:10,019

you call me and you say

395

00:15:15,710 --> 00:15:13,160

you have the database what did you have

396

00:15:18,410 --> 00:15:15,720

at that point

397

00:15:20,689 --> 00:15:18,420

when I called you I got a little further

398

00:15:23,389 --> 00:15:20,699

first I have to make one um actually

399

00:15:25,970 --> 00:15:23,399

give you a caveat 22 counties gave us

400

00:15:28,550 --> 00:15:25,980

their databases the remaining 40 did not

401
00:15:30,350 --> 00:15:28,560
okay the state gave us their database

402
00:15:32,990 --> 00:15:30,360
which gave us everything for all the

403
00:15:35,150 --> 00:15:33,000
counties but the problem is the state

404
00:15:37,490 --> 00:15:35,160
database does not agree with county

405
00:15:38,990 --> 00:15:37,500
databases now you could say that's

406
00:15:41,150 --> 00:15:39,000
because there's a bit of a timeline

407
00:15:42,889 --> 00:15:41,160
between what we got them but that really

408
00:15:45,290 --> 00:15:42,899
doesn't explain everything that we saw

409
00:15:48,530 --> 00:15:45,300
because for instance I was looking at

410
00:15:50,569 --> 00:15:48,540
the um the county database and I was

411
00:15:52,189 --> 00:15:50,579
seeing certain numbers and I was talking

412
00:15:53,689 --> 00:15:52,199
to a colleague who was working with me

413
00:15:55,129 --> 00:15:53,699

on this project was working with the

414

00:15:57,050 --> 00:15:55,139

state database like we were comparing

415

00:15:58,430 --> 00:15:57,060

numbers and every time we did it it's

416

00:16:00,710 --> 00:15:58,440

like he had a different number than me

417

00:16:02,629 --> 00:16:00,720

and I was feeling like well I'm I'm the

418

00:16:03,949 --> 00:16:02,639

dumbinger so I must be making mistakes

419

00:16:06,110 --> 00:16:03,959

so I looked at it more carefully and I

420

00:16:07,610 --> 00:16:06,120

was like no I I don't think I am so I

421

00:16:09,769 --> 00:16:07,620

contacted him and I said what's going on

422

00:16:11,389 --> 00:16:09,779

here and he looked at it on his end then

423

00:16:13,550 --> 00:16:11,399

it turned out our databases had

424

00:16:16,910 --> 00:16:13,560

different information for the same Heap

425

00:16:18,769 --> 00:16:16,920

okay and uh like for instance there were

426

00:16:20,689 --> 00:16:18,779

how many were there in New York City

427

00:16:23,750 --> 00:16:20,699

alone it was something like a quarter

428

00:16:26,629 --> 00:16:23,760

million votes were recorded in the

429

00:16:28,550 --> 00:16:26,639

county version of the records that were

430

00:16:30,769 --> 00:16:28,560

missing from the state version of the

431

00:16:32,870 --> 00:16:30,779

records right so for instance so let's

432

00:16:35,030 --> 00:16:32,880

just say you had a vote recorded and you

433

00:16:36,350 --> 00:16:35,040

lived in Manhattan okay so you'd have an

434

00:16:38,269 --> 00:16:36,360

ID number and let's say your ID number

435

00:16:39,889 --> 00:16:38,279

is one two three four five right so if

436

00:16:42,769 --> 00:16:39,899

you look up ID number one two three four

437

00:16:45,769 --> 00:16:42,779

five in the state database it would say

438

00:16:46,910 --> 00:16:45,779

Alex Securus no vote but but actually

439

00:16:49,610 --> 00:16:46,920

wouldn't say anything it just wouldn't

440

00:16:51,590 --> 00:16:49,620

have a record of a vote right but then

441

00:16:53,210 --> 00:16:51,600

if you look at the County record for the

442

00:16:54,769 --> 00:16:53,220

exact same file with your name and

443

00:16:58,189 --> 00:16:54,779

everything it's going to say 2020

444

00:17:00,829 --> 00:16:58,199

general election so the vote disappear

445

00:17:02,810 --> 00:17:00,839

and the thing is the official record

446

00:17:05,390 --> 00:17:02,820

according to the law is the state record

447

00:17:07,010 --> 00:17:05,400

so the state record there's no vote and

448

00:17:08,329 --> 00:17:07,020

the county record there is so what

449

00:17:09,530 --> 00:17:08,339

happened to it and there's a quarter

450

00:17:11,569 --> 00:17:09,540

million of these actually it's more of a

451

00:17:13,789 --> 00:17:11,579

quarter million each of the five

452

00:17:16,909 --> 00:17:13,799

boroughs the average is 50 000. small

453

00:17:20,750 --> 00:17:16,919

stuff small stuff Andy don't bury the

454

00:17:22,909 --> 00:17:20,760

lead here get on to it because there's

455

00:17:25,549 --> 00:17:22,919

this there's this moment here that is

456

00:17:28,250 --> 00:17:25,559

like an amazing one person can make a

457

00:17:31,190 --> 00:17:28,260

difference moment where you compile all

458

00:17:34,789 --> 00:17:31,200

this data into one database and then you

459

00:17:37,549 --> 00:17:34,799

start doing some I don't know sub Jedi

460

00:17:41,210 --> 00:17:37,559

Mind Tricks kind of precognitive stuff

461

00:17:45,049 --> 00:17:41,220

but you figure out this amazing pattern

462

00:17:47,270 --> 00:17:45,059

that shows this massive massive you

463

00:17:51,409 --> 00:17:47,280

can't really even say it's fraud it's

464

00:17:54,350 --> 00:17:51,419

just the engineering of the potential of

465

00:17:56,630 --> 00:17:54,360

fraud in this thing and and let's get as

466

00:17:59,870 --> 00:17:56,640

quickly as we can to that part of the

467

00:18:02,510 --> 00:17:59,880

story because that then leads to

468

00:18:04,549 --> 00:18:02,520

all the other parts of the store I'll

469

00:18:06,110 --> 00:18:04,559

get there so so the thing is so I'm

470

00:18:08,930 --> 00:18:06,120

seeing all this funny stuff going on

471

00:18:10,490 --> 00:18:08,940

which makes it crystal clear to me there

472

00:18:13,130 --> 00:18:10,500

are fraudulent records in the system

473

00:18:14,450 --> 00:18:13,140

period okay I know that it goes beyond

474

00:18:16,789 --> 00:18:14,460

that because I was talking about how the

475

00:18:19,190 --> 00:18:16,799

records for falsified where the votes

476

00:18:20,510 --> 00:18:19,200

were being taken away but I also found

477

00:18:22,430 --> 00:18:20,520

um somewhere in the neighborhood of just

478

00:18:23,690 --> 00:18:22,440

under a million records which I now know

479

00:18:25,850 --> 00:18:23,700

is actually more than two million

480

00:18:28,070 --> 00:18:25,860

records where they had fake registration

481

00:18:30,049 --> 00:18:28,080

and I was thinking okay I've read about

482

00:18:32,510 --> 00:18:30,059

these fake registrations in other states

483

00:18:33,950 --> 00:18:32,520

and uh and now I'm seeing them in New

484

00:18:35,450 --> 00:18:33,960

York and they were in much larger

485

00:18:36,590 --> 00:18:35,460

quantities by the way than I saw in

486

00:18:39,470 --> 00:18:36,600

other states except for maybe

487

00:18:43,430 --> 00:18:39,480

Pennsylvania and I was thinking these

488

00:18:46,010 --> 00:18:43,440

records are useless to anybody unless

489

00:18:47,090 --> 00:18:46,020

there's a way to find them you have to

490

00:18:50,390 --> 00:18:47,100

be able to and they have to do a

491

00:18:53,390 --> 00:18:50,400

covertly the reason is because you're if

492

00:18:55,970 --> 00:18:53,400

you're casting a fake ballot right so

493

00:18:59,810 --> 00:18:55,980

first we have to talk about what a fake

494

00:19:02,390 --> 00:18:59,820

registration is and how you spot and how

495

00:19:05,210 --> 00:19:02,400

anyone could spot if they if you pointed

496

00:19:06,710 --> 00:19:05,220

them to the data in the spreadsheet like

497

00:19:09,350 --> 00:19:06,720

you have to me and you've shown the

498

00:19:12,470 --> 00:19:09,360

screen and you go look this is fake we

499

00:19:14,270 --> 00:19:12,480

got 10 names all the same name different

500

00:19:17,150 --> 00:19:14,280

counties and different codes and stuff

501
00:19:19,789 --> 00:19:17,160
like that but you you can convince

502
00:19:22,970 --> 00:19:19,799
anyone pretty quickly that these are

503
00:19:25,370 --> 00:19:22,980
fake registrations and that the next

504
00:19:29,390 --> 00:19:25,380
thing you're saying is what went through

505
00:19:33,950 --> 00:19:29,400
your mind is that to really turn that

506
00:19:36,770 --> 00:19:33,960
into a usable system for

507
00:19:39,289 --> 00:19:36,780
kind of being able to manage elections

508
00:19:41,510 --> 00:19:39,299
manage being the operative word you'd

509
00:19:44,330 --> 00:19:41,520
need some kind of more systematic way

510
00:19:47,029 --> 00:19:44,340
get your hands around this data as a as

511
00:19:50,270 --> 00:19:47,039
a database guy you're like there has to

512
00:19:53,210 --> 00:19:50,280
be more than just people injecting fake

513
00:19:55,370 --> 00:19:53,220

data into the database okay so we have

514

00:19:57,350 --> 00:19:55,380

the certain data fields that we can

515

00:19:58,850 --> 00:19:57,360

match so we can see if they agree with

516

00:20:00,230 --> 00:19:58,860

each other or not okay so you get your

517

00:20:01,850 --> 00:20:00,240

first name your last name your date of

518

00:20:04,070 --> 00:20:01,860

birth you got your address so if I've

519

00:20:05,630 --> 00:20:04,080

got two records and all of that data is

520

00:20:07,070 --> 00:20:05,640

the same then I take a look at the ID

521

00:20:08,450 --> 00:20:07,080

numbers and you've got two of them in

522

00:20:11,330 --> 00:20:08,460

New York you've got a county ID and a

523

00:20:13,310 --> 00:20:11,340

state ID if the state IDs are the same

524

00:20:14,870 --> 00:20:13,320

that's a duplicate record and those are

525

00:20:16,250 --> 00:20:14,880

legal and the reason is because you're

526
00:20:17,450 --> 00:20:16,260
allowed to move from one County to

527
00:20:19,310 --> 00:20:17,460
another County so you get different

528
00:20:21,950 --> 00:20:19,320
County IDs and that means you get

529
00:20:24,890 --> 00:20:21,960
different bow but your state ID numbers

530
00:20:27,289 --> 00:20:24,900
are different that's a cloned record

531
00:20:28,610 --> 00:20:27,299
in order to create this fake ID at least

532
00:20:30,529 --> 00:20:28,620
that's the way I'm characterizing it

533
00:20:32,630 --> 00:20:30,539
because that's how it looks but the fact

534
00:20:35,029 --> 00:20:32,640
is that by law you're not allowed to

535
00:20:37,190 --> 00:20:35,039
have more than one svid node you're

536
00:20:40,130 --> 00:20:37,200
certainly not allowed to have 11 or 22

537
00:20:42,230 --> 00:20:40,140
and do have people who have that so

538
00:20:44,750 --> 00:20:42,240

that's a real problem so those are clubs

539

00:20:47,390 --> 00:20:44,760

and if I were to show the list it's just

540

00:20:48,830 --> 00:20:47,400

an endless stream of Records it's

541

00:20:50,870 --> 00:20:48,840

hundreds and hundreds and hundreds of

542

00:20:52,850 --> 00:20:50,880

thousands of them if I include records

543

00:20:55,370 --> 00:20:52,860

that they go before the 2020 election

544

00:20:57,169 --> 00:20:55,380

it's actually 6.4 million so if I can't

545

00:20:59,270 --> 00:20:57,179

let me bring it back to kind of on a

546

00:21:00,590 --> 00:20:59,280

personal level if I was there and I

547

00:21:03,409 --> 00:21:00,600

started looking through that database

548

00:21:04,310 --> 00:21:03,419

and I found that cloned records that are

549

00:21:07,549 --> 00:21:04,320

clearly

550

00:21:10,370 --> 00:21:07,559

illegal I wouldn't be totally stunned

551
00:21:12,169 --> 00:21:10,380
because I know there's election fraud

552
00:21:14,510 --> 00:21:12,179
has been going on since they started

553
00:21:17,330 --> 00:21:14,520
doing elections you know Joseph Stalin

554
00:21:19,970 --> 00:21:17,340
it doesn't matter who votes it matters

555
00:21:22,789 --> 00:21:19,980
who counts the vote this is as old as

556
00:21:25,190 --> 00:21:22,799
time so I want to be really that shocked

557
00:21:27,890 --> 00:21:25,200
if I was you if I was in your situation

558
00:21:30,770 --> 00:21:27,900
and I found these cloned registrations

559
00:21:32,390 --> 00:21:30,780
these other irregularities but what

560
00:21:35,990 --> 00:21:32,400
really caught me when you started

561
00:21:40,850 --> 00:21:36,000
talking to me was the scale of this and

562
00:21:42,770 --> 00:21:40,860
then the programmed nature of it so keep

563
00:21:44,570 --> 00:21:42,780

going I know you're getting there but I

564

00:21:48,409 --> 00:21:44,580

want to push you to get there as soon as

565

00:21:50,750 --> 00:21:48,419

you can I'm sorry okay so anyways

566

00:21:53,330 --> 00:21:50,760

so I compare these names and I'm like

567

00:21:54,950 --> 00:21:53,340

okay well these all have his ad so this

568

00:21:56,630 --> 00:21:54,960

is definitely the right guy it's the

569

00:21:58,789 --> 00:21:56,640

same guy but I look at the ID numbers

570

00:22:01,669 --> 00:21:58,799

and they're not the same okay so this is

571

00:22:03,770 --> 00:22:01,679

an issue uh now we have County IDs and

572

00:22:05,390 --> 00:22:03,780

state IDs the county IDs can be

573

00:22:07,250 --> 00:22:05,400

different okay this is if you move from

574

00:22:09,350 --> 00:22:07,260

one County to another but the state IDs

575

00:22:11,210 --> 00:22:09,360

cannot be different you can move out of

576
00:22:13,490 --> 00:22:11,220
the country and come back and you still

577
00:22:15,470 --> 00:22:13,500
have to have the same state ID the law

578
00:22:17,810 --> 00:22:15,480
actually has all sorts of things built

579
00:22:20,810 --> 00:22:17,820
into the system so that you cannot get a

580
00:22:22,190 --> 00:22:20,820
new spoid the first thing any registrar

581
00:22:24,770 --> 00:22:22,200
is supposed to do when they look at your

582
00:22:26,750 --> 00:22:24,780
application is does this person already

583
00:22:28,430 --> 00:22:26,760
exist in the database that it's a first

584
00:22:30,649 --> 00:22:28,440
question question they have to ask

585
00:22:32,090 --> 00:22:30,659
they're not asking you they're asking

586
00:22:34,010 --> 00:22:32,100
the database based on the information

587
00:22:35,510 --> 00:22:34,020
you give them so they're doing exactly

588
00:22:37,789 --> 00:22:35,520

the same search I'm doing which also

589

00:22:39,950 --> 00:22:37,799

means they know you're a clock okay

590

00:22:41,510 --> 00:22:39,960

because I know your phone they have to

591

00:22:43,370 --> 00:22:41,520

because they've got the same data I know

592

00:22:46,669 --> 00:22:43,380

that because I've got their data that's

593

00:22:47,990 --> 00:22:46,679

what they gave okay so the thing is here

594

00:22:49,549 --> 00:22:48,000

I am 10 o'clock in the morning popping

595

00:22:51,230 --> 00:22:49,559

out of the shower hour one day and I'm

596

00:22:52,010 --> 00:22:51,240

thinking about this and it cursed me you

597

00:22:53,570 --> 00:22:52,020

know what

598

00:22:55,190 --> 00:22:53,580

we have

599

00:22:56,810 --> 00:22:55,200

at that time I didn't know how many it

600

00:22:58,490 --> 00:22:56,820

was but it was hundreds of thousands we

601
00:23:00,830 --> 00:22:58,500
have hundreds of thousands of fake

602
00:23:02,870 --> 00:23:00,840
registrations in the database

603
00:23:04,970 --> 00:23:02,880
and they're hard to find because there's

604
00:23:06,770 --> 00:23:04,980
21 million records in the database

605
00:23:08,330 --> 00:23:06,780
they're basically it's like dropping

606
00:23:10,789 --> 00:23:08,340
water into the ocean how are you going

607
00:23:15,049 --> 00:23:10,799
to find those specific drops the bad

608
00:23:16,850 --> 00:23:15,059
guys who do this cannot use them unless

609
00:23:18,350 --> 00:23:16,860
they can access them which means they

610
00:23:20,810 --> 00:23:18,360
have to know which ones are fake and

611
00:23:22,610 --> 00:23:20,820
which ones are real and so I was

612
00:23:25,010 --> 00:23:22,620
thinking about that and it's I was

613
00:23:27,230 --> 00:23:25,020

thinking there has to be a way that they

614

00:23:30,350 --> 00:23:27,240

have tagged these files so that they

615

00:23:31,909 --> 00:23:30,360

know which is which now it seemed to me

616

00:23:33,830 --> 00:23:31,919

it wouldn't really make a lot of sense

617

00:23:35,390 --> 00:23:33,840

to have a field called you know fake

618

00:23:36,950 --> 00:23:35,400

registration and then they just tick the

619

00:23:38,750 --> 00:23:36,960

box if that's what it is because it'd be

620

00:23:40,549 --> 00:23:38,760

too obvious because they did that they'd

621

00:23:42,110 --> 00:23:40,559

have something inside the database they

622

00:23:44,510 --> 00:23:42,120

would clue everybody into the fact that

623

00:23:46,549 --> 00:23:44,520

they're breaking the law so they had to

624

00:23:50,029 --> 00:23:46,559

do it in a way that nobody would notice

625

00:23:51,409 --> 00:23:50,039

so I was asking myself okay so so where

626

00:23:53,630 --> 00:23:51,419

could they do that I mean could they

627

00:23:55,970 --> 00:23:53,640

could they have like a special key code

628

00:23:56,990 --> 00:23:55,980

that they would add to a field so I was

629

00:23:59,149 --> 00:23:57,000

looking at all the fields I was trying

630

00:24:00,830 --> 00:23:59,159

to figure out which field would they be

631

00:24:01,850 --> 00:24:00,840

most likely to manipulate and I was

632

00:24:04,549 --> 00:24:01,860

trying to figure out there were any

633

00:24:06,710 --> 00:24:04,559

differences in these fields

634

00:24:07,789 --> 00:24:06,720

um and I wasn't really getting very far

635

00:24:09,830 --> 00:24:07,799

with that

636

00:24:12,049 --> 00:24:09,840

um but it still was bugging so for

637

00:24:14,570 --> 00:24:12,059

months I was trying to keep an eye out

638

00:24:16,310 --> 00:24:14,580

for any sign that something like that

639

00:24:18,890 --> 00:24:16,320

was going on that these records were

640

00:24:21,049 --> 00:24:18,900

tagged in any way and I eventually

641

00:24:23,810 --> 00:24:21,059

discovered in a way that the these

642

00:24:25,549 --> 00:24:23,820

records were tagged but it was not the

643

00:24:27,950 --> 00:24:25,559

way I expected because I was expecting

644

00:24:30,049 --> 00:24:27,960

them to modify something that was there

645

00:24:33,289 --> 00:24:30,059

I didn't expect them to Lake two things

646

00:24:35,510 --> 00:24:33,299

in a unique way that was effectively a

647

00:24:37,010 --> 00:24:35,520

tag so so the data actually stayed the

648

00:24:38,930 --> 00:24:37,020

same but by linking things that

649

00:24:41,450 --> 00:24:38,940

shouldn't have been laid it made it

650

00:24:43,909 --> 00:24:41,460

possible to identify this and that's

651
00:24:47,570 --> 00:24:43,919
where the start of discovering this

652
00:24:50,270 --> 00:24:47,580
algorithm uh it came from okay so so we

653
00:24:53,390 --> 00:24:50,280
might we might need to be a little bit

654
00:24:56,570 --> 00:24:53,400
geeky for a minute and explain that

655
00:24:59,870 --> 00:24:56,580
because the two fields that you link

656
00:25:03,590 --> 00:24:59,880
together were in this unusual way where

657
00:25:06,890 --> 00:25:03,600
the state ID and the county ID right and

658
00:25:08,450 --> 00:25:06,900
we should show people well maybe you can

659
00:25:09,649 --> 00:25:08,460
explain it so we don't have to show too

660
00:25:11,930 --> 00:25:09,659
many things and get in trouble

661
00:25:13,370 --> 00:25:11,940
potentially with showing stuff that but

662
00:25:15,169 --> 00:25:13,380
maybe you can maybe you can't whatever

663
00:25:16,669 --> 00:25:15,179

you figure that out I anonymized the

664

00:25:19,430 --> 00:25:16,679

whole thing so I can show it without any

665

00:25:22,549 --> 00:25:19,440

names or anything and I uh so it is

666

00:25:27,529 --> 00:25:22,559

anonymous okay so you you have this

667

00:25:29,330 --> 00:25:27,539

relatively long state ID it you can't

668

00:25:31,070 --> 00:25:29,340

really mess with that directly otherwise

669

00:25:33,169 --> 00:25:31,080

somebody's going to find out and you

670

00:25:36,710 --> 00:25:33,179

have this County ID and you can't mess

671

00:25:39,890 --> 00:25:36,720

with that directly so what show us jump

672

00:25:42,649 --> 00:25:39,900

to this kind of very very cool

673

00:25:45,350 --> 00:25:42,659

thing where you link these two together

674

00:25:47,870 --> 00:25:45,360

it's a fantastic story it's a it's like

675

00:25:50,930 --> 00:25:47,880

one of the one of the little anecdotes I

676

00:25:53,570 --> 00:25:50,940

love about this Andy does this

677

00:25:56,870 --> 00:25:53,580

and it's unbelievable imagine a guy

678

00:25:58,789 --> 00:25:56,880

sitting in his office in New York who

679

00:26:02,690 --> 00:25:58,799

just wasn't even thinking of doing this

680

00:26:05,029 --> 00:26:02,700

and then kind of cracks the code on the

681

00:26:08,210 --> 00:26:05,039

largest election electronic election

682

00:26:11,810 --> 00:26:08,220

fraud scam in the United States history

683

00:26:13,190 --> 00:26:11,820

that's known he cracks the code and now

684

00:26:14,630 --> 00:26:13,200

they're gonna go start telling it I'm

685

00:26:18,049 --> 00:26:14,640

moving it forward in the story you'll

686

00:26:21,769 --> 00:26:18,059

pick up but he goes in and has like

687

00:26:23,269 --> 00:26:21,779

some super high level I don't know FBI

688

00:26:24,830 --> 00:26:23,279

or you know we're telling whatever

689

00:26:28,190 --> 00:26:24,840

looking over his shoulder and they're

690

00:26:30,950 --> 00:26:28,200

like dude would you take a job as being

691

00:26:33,289 --> 00:26:30,960

a forensic database because they can't

692

00:26:34,850 --> 00:26:33,299

believe what you've done what you're

693

00:26:36,890 --> 00:26:34,860

going to show us in a minute in terms of

694

00:26:39,169 --> 00:26:36,900

how you crack this code but that's the

695

00:26:41,330 --> 00:26:39,179

kind of feedback that you get at the end

696

00:26:43,789 --> 00:26:41,340

of this in terms of the level of what

697

00:26:46,430 --> 00:26:43,799

you figured out here I'm not stretching

698

00:26:50,029 --> 00:26:46,440

that right that's true uh yeah except

699

00:26:52,730 --> 00:26:50,039

not the FBI uh yes I should of course it

700

00:26:56,269 --> 00:26:52,740

wasn't the FBI but right yeah it is at a

701
00:26:58,610 --> 00:26:56,279
level of you know significant law

702
00:27:00,529 --> 00:26:58,620
enforcement apparently there were people

703
00:27:01,909 --> 00:27:00,539
who thought I had some skills when it

704
00:27:04,430 --> 00:27:01,919
came to this kind of stuff so show them

705
00:27:07,909 --> 00:27:04,440
show them the database so let's go to

706
00:27:09,169 --> 00:27:07,919
the Yates spiral okay so let's just open

707
00:27:12,230 --> 00:27:09,179
this okay

708
00:27:14,510 --> 00:27:12,240
now I have cleaned this up okay so what

709
00:27:16,190 --> 00:27:14,520
what you're seeing right now you

710
00:27:17,330 --> 00:27:16,200
absolutely would not be able to see if

711
00:27:19,370 --> 00:27:17,340
you were just looking at the database

712
00:27:22,250 --> 00:27:19,380
okay it would be impossible Because the

713
00:27:24,169 --> 00:27:22,260

actual database is an absolute jumble

714

00:27:25,730 --> 00:27:24,179

what I had to do is I had to filter this

715

00:27:28,310 --> 00:27:25,740

I had to filter it in a very specific

716

00:27:29,870 --> 00:27:28,320

way in a way that nobody who worked at

717

00:27:31,850 --> 00:27:29,880

the county or the state would ever do

718

00:27:34,190 --> 00:27:31,860

unless they knew the algorithm was there

719

00:27:36,350 --> 00:27:34,200

there are a lot of steps to get to what

720

00:27:39,529 --> 00:27:36,360

I'm showing you now show you basically

721

00:27:42,049 --> 00:27:39,539

the clean version of the algorithm so

722

00:27:44,630 --> 00:27:42,059

what they've done is they've taken what

723

00:27:47,690 --> 00:27:44,640

I'm calling a short ID that's the state

724

00:27:49,850 --> 00:27:47,700

ID and the county ID which is this and

725

00:27:51,529 --> 00:27:49,860

they've linked them okay so if you look

726

00:27:53,450 --> 00:27:51,539

at these I've highlighted them so that

727

00:27:55,850 --> 00:27:53,460

you can see the the algorithm that

728

00:27:57,470 --> 00:27:55,860

they're working with so this is blue see

729

00:27:59,330 --> 00:27:57,480

this is a one-digit number for the

730

00:28:00,830 --> 00:27:59,340

county ID these are all five digit

731

00:28:02,750 --> 00:28:00,840

numbers and then they're broken by a

732

00:28:04,310 --> 00:28:02,760

four digit now if you look at this four

733

00:28:05,750 --> 00:28:04,320

digit number and you go to the next one

734

00:28:07,549 --> 00:28:05,760

you see they're they're consecutive

735

00:28:09,169 --> 00:28:07,559

fifteen three five four and then fifteen

736

00:28:12,350 --> 00:28:09,179

three five five and then fifteen three

737

00:28:14,990 --> 00:28:12,360

five six so these are all separate uh by

738

00:28:17,630 --> 00:28:15,000

a an even distance so these are 11 apart

739

00:28:19,370 --> 00:28:17,640

now just going based on the number of

740

00:28:20,870 --> 00:28:19,380

rows part isn't the best way because

741

00:28:22,789 --> 00:28:20,880

sometimes they're missing records it's

742

00:28:24,470 --> 00:28:22,799

better to actually uh

743

00:28:26,390 --> 00:28:24,480

subtract these numbers from each other

744

00:28:28,370 --> 00:28:26,400

and then you get exactly 11 different

745

00:28:31,130 --> 00:28:28,380

but as you can see this is pretty

746

00:28:32,450 --> 00:28:31,140

consistent okay but the thing is it's

747

00:28:33,950 --> 00:28:32,460

much more complicated than you might

748

00:28:35,870 --> 00:28:33,960

think just by looking at the first few

749

00:28:37,430 --> 00:28:35,880

records can I just interject something

750

00:28:40,370 --> 00:28:37,440

because if they're not supposed to be

751

00:28:42,409 --> 00:28:40,380

consistent the standard story of how

752

00:28:44,149 --> 00:28:42,419

these numbers would be generated like if

753

00:28:46,669 --> 00:28:44,159

you go to register to vote you're given

754

00:28:49,850 --> 00:28:46,679

a number you you wouldn't wind up with

755

00:28:53,510 --> 00:28:49,860

this pattern no no not even close

756

00:28:56,750 --> 00:28:53,520

explain why that shouldn't be there on a

757

00:28:59,810 --> 00:28:56,760

really basic level okay well we said uh

758

00:29:01,130 --> 00:28:59,820

email requests to all 62 County

759

00:29:02,690 --> 00:29:01,140

Commissioners asking them how do you

760

00:29:05,450 --> 00:29:02,700

assign your numbers okay and the County

761

00:29:08,990 --> 00:29:05,460

Commissioners all said we assigned the

762

00:29:10,970 --> 00:29:09,000

numbers uh consecutively okay and to an

763

00:29:12,950 --> 00:29:10,980

extent that's true but it's not really

764

00:29:15,169 --> 00:29:12,960

true it's just sort of true so if you

765

00:29:16,850 --> 00:29:15,179

look at the the numbers that start that

766

00:29:18,950 --> 00:29:16,860

have five digits here like fifteen three

767

00:29:21,769 --> 00:29:18,960

five four and look at the date that's

768

00:29:23,930 --> 00:29:21,779

October 14th 1978 and then the next one

769

00:29:25,909 --> 00:29:23,940

in that sequence is also October 14th

770

00:29:28,549 --> 00:29:25,919

1978 and the same thing goes for the

771

00:29:30,590 --> 00:29:28,559

next one the problem is the way they're

772

00:29:33,590 --> 00:29:30,600

broken up like this so all of a sudden

773

00:29:37,250 --> 00:29:33,600

you're going from dates to 1997 to 78 to

774

00:29:38,630 --> 00:29:37,260

97 to 78 and so on so they broke in the

775

00:29:41,269 --> 00:29:38,640

pattern so they've taken something that

776

00:29:43,250 --> 00:29:41,279

was sequential and then they brought it

777

00:29:45,889 --> 00:29:43,260

to Smithereens so that they can have

778

00:29:47,389 --> 00:29:45,899

this this pattern okay

779

00:29:50,210 --> 00:29:47,399

um but the thing is it gets much more

780

00:29:52,190 --> 00:29:50,220

complicated so see here this pink one

781

00:29:54,710 --> 00:29:52,200

this is showing up in the ninth position

782

00:29:57,110 --> 00:29:54,720

so the positions that are important here

783

00:29:59,630 --> 00:29:57,120

are the uh the first position which is

784

00:30:01,970 --> 00:29:59,640

here the fourth position here the ninth

785

00:30:03,649 --> 00:30:01,980

and then the eleven and also there's an

786

00:30:06,110 --> 00:30:03,659

optional 12 that happens every ten

787

00:30:08,389 --> 00:30:06,120

records so what this is going to do is

788

00:30:10,909 --> 00:30:08,399

it's going to start counting by 100. so

789

00:30:12,649 --> 00:30:10,919

these guys are counting by uh oh by the

790

00:30:13,970 --> 00:30:12,659

way I hate to say this because this is a

791

00:30:16,370 --> 00:30:13,980

complicated pattern but when you're

792

00:30:20,510 --> 00:30:16,380

sorting by seoid which is what I did

793

00:30:21,889 --> 00:30:20,520

here the uh the gaps are 11 111 a

794

00:30:23,570 --> 00:30:21,899

thousand a hundred and eleven eleven

795

00:30:24,889 --> 00:30:23,580

thousand One Eleven Hundred eleven

796

00:30:26,269 --> 00:30:24,899

thousand one hundred eleven and one

797

00:30:28,789 --> 00:30:26,279

million one hundred eleven thousand one

798

00:30:31,130 --> 00:30:28,799

hundred eleven if you're sorting by CID

799

00:30:33,529 --> 00:30:31,140

the gaps are ten a thousand ten thousand

800

00:30:35,870 --> 00:30:33,539

hundred thousand million so

801
00:30:37,669 --> 00:30:35,880
um so I I get mixed up between those two

802
00:30:40,549 --> 00:30:37,679
sometimes I almost said ten but I should

803
00:30:42,950 --> 00:30:40,559
say 11 because the sort method here but

804
00:30:44,330 --> 00:30:42,960
the thing is that here we're on row 83

805
00:30:45,950 --> 00:30:44,340
which by the way is all by itself

806
00:30:48,110 --> 00:30:45,960
significant I'll explain why in a second

807
00:30:50,690 --> 00:30:48,120
and this is the first pink one so if I

808
00:30:53,630 --> 00:30:50,700
go down if I had 111 of them that's 194

809
00:30:55,549 --> 00:30:53,640
so if I go to row 194

810
00:30:57,710 --> 00:30:55,559
there's the next pink one that's 111

811
00:31:00,769 --> 00:30:57,720
down this is predictable what you're

812
00:31:03,529 --> 00:31:00,779
showing us the big picture takeaway is

813
00:31:06,350 --> 00:31:03,539

you are now looking at a database one

814

00:31:10,070 --> 00:31:06,360

there's no one in the world would have

815

00:31:12,289 --> 00:31:10,080

figured out this key to showing this

816

00:31:13,370 --> 00:31:12,299

these regularities or irregularities

817

00:31:15,110 --> 00:31:13,380

however we don't want to look at it

818

00:31:17,870 --> 00:31:15,120

these patterns that you found in the

819

00:31:19,490 --> 00:31:17,880

data that suggest an algorithm is behind

820

00:31:20,630 --> 00:31:19,500

this because again back to your big

821

00:31:22,730 --> 00:31:20,640

picture you just sent them and they go

822

00:31:25,310 --> 00:31:22,740

like if you task somebody with the job

823

00:31:27,230 --> 00:31:25,320

of saying okay we got this database over

824

00:31:30,409 --> 00:31:27,240

here what I need to be able to do

825

00:31:33,250 --> 00:31:30,419

because I like to rig elections I need

826

00:31:37,610 --> 00:31:33,260

to be able to quickly pull up

827

00:31:39,529 --> 00:31:37,620

all of our fake registrations in a

828

00:31:41,389 --> 00:31:39,539

particular County and then I need to

829

00:31:43,310 --> 00:31:41,399

manipulate them and then I need to

830

00:31:46,130 --> 00:31:43,320

change them back and I need to make it

831

00:31:47,810 --> 00:31:46,140

so that no one ever saw how to do it and

832

00:31:50,149 --> 00:31:47,820

what you're telling me is that when you

833

00:31:52,370 --> 00:31:50,159

first look at the database you go well

834

00:31:53,930 --> 00:31:52,380

that's impossible there's no key that

835

00:31:56,930 --> 00:31:53,940

someone could pull up all the clones and

836

00:31:59,149 --> 00:31:56,940

Andy goes well wait actually there is

837

00:32:01,610 --> 00:31:59,159

and you could actually write computer

838

00:32:03,230 --> 00:32:01,620

code that would then pull this up and

839

00:32:06,110 --> 00:32:03,240

then they have all these other tricks

840

00:32:08,750 --> 00:32:06,120

like giving codes that are out of range

841

00:32:11,029 --> 00:32:08,760

in in range in top of range and bottom

842

00:32:13,610 --> 00:32:11,039

range and you could go into that and you

843

00:32:15,710 --> 00:32:13,620

could talk to us for hours about what

844

00:32:18,049 --> 00:32:15,720

you found I just don't want people to

845

00:32:19,970 --> 00:32:18,059

miss the big picture of what you're

846

00:32:23,990 --> 00:32:19,980

looking at is

847

00:32:27,529 --> 00:32:24,000

the system by which you would manage

848

00:32:30,169 --> 00:32:27,539

again operative word manage a database

849

00:32:33,769 --> 00:32:30,179

like this in order to commit election

850

00:32:35,690 --> 00:32:33,779

fraud yeah and that is true it can be

851
00:32:36,950 --> 00:32:35,700
used to do that now I need more

852
00:32:38,630 --> 00:32:36,960
information to be able to say they

853
00:32:40,730 --> 00:32:38,640
definitely used it that way but it could

854
00:32:42,710 --> 00:32:40,740
be used that way whoa whoa don't back

855
00:32:44,389 --> 00:32:42,720
down here because the next thing I talk

856
00:32:46,610 --> 00:32:44,399
about purged

857
00:32:48,409 --> 00:32:46,620
yeah okay the purged records are very

858
00:32:50,510 --> 00:32:48,419
interesting we we know that they're not

859
00:32:53,389 --> 00:32:50,520
really treating purged as purged purge

860
00:32:56,570 --> 00:32:53,399
means they're ineligible to vote and we

861
00:33:00,049 --> 00:32:56,580
have over 30 000 people who voted after

862
00:33:03,049 --> 00:33:00,059
they were purged so clearly purge means

863
00:33:06,350 --> 00:33:03,059

standby or something else again

864

00:33:10,190 --> 00:33:06,360

hold up because you just said the world

865

00:33:13,549 --> 00:33:10,200

there you have 30 000 people that were

866

00:33:16,370 --> 00:33:13,559

purged and voted and now I want you to

867

00:33:19,610 --> 00:33:16,380

swing back and connect it to something

868

00:33:21,470 --> 00:33:19,620

you said earlier about this is what the

869

00:33:25,490 --> 00:33:21,480

citizenry are supposed to be able to do

870

00:33:26,990 --> 00:33:25,500

is to be able to check these elections

871

00:33:28,610 --> 00:33:27,000

if you will that's why they're made

872

00:33:30,289 --> 00:33:28,620

publicly available and I want you to

873

00:33:32,810 --> 00:33:30,299

tell me this tell the story to everyone

874

00:33:34,970 --> 00:33:32,820

that you told me the other day that you

875

00:33:37,070 --> 00:33:34,980

actually have boots on the ground that

876

00:33:38,450 --> 00:33:37,080

you found a purge record and tell me the

877

00:33:40,370 --> 00:33:38,460

story without revealing a name of

878

00:33:43,070 --> 00:33:40,380

somebody who did it because I hate when

879

00:33:45,529 --> 00:33:43,080

we get to this point and we go well it's

880

00:33:48,230 --> 00:33:45,539

a potentially that this could be his oh

881

00:33:52,549 --> 00:33:48,240

come on let's just get on with it this

882

00:33:55,070 --> 00:33:52,559

was used to manipulate you know why

883

00:33:57,470 --> 00:33:55,080

could we accuse everyone else of of

884

00:33:59,930 --> 00:33:57,480

doing this or Russians and everybody

885

00:34:02,090 --> 00:33:59,940

else why do we know that we've done this

886

00:34:04,730 --> 00:34:02,100

for ages in every country around the

887

00:34:06,950 --> 00:34:04,740

world has been that and standard

888

00:34:09,889 --> 00:34:06,960

spycraft to be able to go into a country

889

00:34:12,889 --> 00:34:09,899

and if the elections close use some kind

890

00:34:14,690 --> 00:34:12,899

of Technology like this to manipulate it

891

00:34:16,430 --> 00:34:14,700

in our favor which by the way will have

892

00:34:19,490 --> 00:34:16,440

you tell that story in a minute but I

893

00:34:22,070 --> 00:34:19,500

want you to tell the story of the

894

00:34:24,770 --> 00:34:22,080

Door Check knock check that you did on

895

00:34:27,050 --> 00:34:24,780

the purge okay so after doing a lot of

896

00:34:30,050 --> 00:34:27,060

research and identifying suspicious

897

00:34:32,510 --> 00:34:30,060

records I made requests to what we call

898

00:34:34,070 --> 00:34:32,520

the canvas team and those guys went out

899

00:34:35,510 --> 00:34:34,080

and they knocked on doors and they

900

00:34:37,669 --> 00:34:35,520

checked on things so the first group

901
00:34:39,530 --> 00:34:37,679
that they checked on were the Clone

902
00:34:41,329 --> 00:34:39,540
directors and we found you know

903
00:34:42,770 --> 00:34:41,339
confirmation that indeed they were clone

904
00:34:44,030 --> 00:34:42,780
records the voters themselves had no

905
00:34:46,190 --> 00:34:44,040
idea what's going on they didn't know

906
00:34:47,450 --> 00:34:46,200
they had extra ideas they were totally

907
00:34:48,889 --> 00:34:47,460
unaware of it and some of them were

908
00:34:51,530 --> 00:34:48,899
actually pretty extreme I mean we had

909
00:34:54,470 --> 00:34:51,540
examples where the documents we got back

910
00:34:56,629 --> 00:34:54,480
from the county showed forage signatures

911
00:34:58,250 --> 00:34:56,639
on the registration documents and the

912
00:34:59,990 --> 00:34:58,260
when we showed it to the voter they were

913
00:35:02,329 --> 00:35:00,000

really surprised and they were like in

914

00:35:04,970 --> 00:35:02,339

one case this lady told our canvasser

915

00:35:07,310 --> 00:35:04,980

you know this has my three registrations

916

00:35:09,109 --> 00:35:07,320

all on the same two days one right after

917

00:35:11,150 --> 00:35:09,119

the other a year before I actually

918

00:35:12,710 --> 00:35:11,160

registered to vote and I know this

919

00:35:14,510 --> 00:35:12,720

because I was pregnant when I went in

920

00:35:16,849 --> 00:35:14,520

there to register and my one-year-old

921

00:35:18,950 --> 00:35:16,859

son is in the house right now and this

922

00:35:20,990 --> 00:35:18,960

is the year 2022. I didn't register to

923

00:35:22,609 --> 00:35:21,000

vote in 2020 I registered a year after

924

00:35:25,250 --> 00:35:22,619

that but all three of those

925

00:35:28,190 --> 00:35:25,260

registrations were were predated

926

00:35:29,690 --> 00:35:28,200

basically by a year and that made her

927

00:35:31,250 --> 00:35:29,700

eligible to vote elections that she

928

00:35:33,470 --> 00:35:31,260

didn't vote in and wasn't eligible to

929

00:35:35,510 --> 00:35:33,480

vote in and she she confirmed that the

930

00:35:37,670 --> 00:35:35,520

signatures were photographic duplicates

931

00:35:40,250 --> 00:35:37,680

of her signature they were pixel by

932

00:35:42,530 --> 00:35:40,260

pixel exactly the same another example

933

00:35:45,170 --> 00:35:42,540

we had a gal who had two votes recorded

934

00:35:47,390 --> 00:35:45,180

for her and uh both in 2020 she was a

935

00:35:50,390 --> 00:35:47,400

young gal in her 20s early 20s she had

936

00:35:51,650 --> 00:35:50,400

just she was just then able to vote for

937

00:35:53,810 --> 00:35:51,660

the first time in a presidential

938

00:35:56,390 --> 00:35:53,820

election and she went down with her

939

00:35:58,430 --> 00:35:56,400

mother in 2020 to vote on November 3rd

940

00:36:00,290 --> 00:35:58,440

right so she went there and when she

941

00:36:01,670 --> 00:36:00,300

arrived at the at the polling station

942

00:36:04,010 --> 00:36:01,680

she was told you know you're not

943

00:36:06,710 --> 00:36:04,020

registered to vote therefore you can't

944

00:36:07,790 --> 00:36:06,720

vote you can't let you vote and so she

945

00:36:09,829 --> 00:36:07,800

was like well can I register and they're

946

00:36:12,170 --> 00:36:09,839

like no you can't registration deadline

947

00:36:13,609 --> 00:36:12,180

has passed so you can go online and you

948

00:36:15,890 --> 00:36:13,619

can register but you're going to have to

949

00:36:18,650 --> 00:36:15,900

wait till the next election to vote so

950

00:36:20,870 --> 00:36:18,660

uh which you told her Canvas OR West a

951
00:36:22,609 --> 00:36:20,880
couple weeks later she did go online and

952
00:36:25,550 --> 00:36:22,619
she did register to vote but meanwhile

953
00:36:28,069 --> 00:36:25,560
what we had in our records was a vote

954
00:36:30,230 --> 00:36:28,079
for the 2020 election for each of her

955
00:36:32,870 --> 00:36:30,240
two cloned ID numbers so she had two ID

956
00:36:34,310 --> 00:36:32,880
numbers Each of which had voted and in

957
00:36:36,829 --> 00:36:34,320
the records it showed that she had

958
00:36:38,870 --> 00:36:36,839
registered on November 23rd which is 20

959
00:36:40,490 --> 00:36:38,880
days after the election which is almost

960
00:36:43,250 --> 00:36:40,500
a month after the deadline for

961
00:36:45,650 --> 00:36:43,260
registering so so in that case we're

962
00:36:48,230 --> 00:36:45,660
we're looking at someone who managed to

963
00:36:49,490 --> 00:36:48,240

vote before she was registered and who

964

00:36:51,170 --> 00:36:49,500

managed to vote even though she didn't

965

00:36:53,569 --> 00:36:51,180

vote and managed to do it twice even

966

00:36:55,310 --> 00:36:53,579

though she didn't do it once so when we

967

00:36:56,930 --> 00:36:55,320

go out in canvas this is the kind of

968

00:36:58,849 --> 00:36:56,940

thing we find out we find it happens

969

00:37:00,710 --> 00:36:58,859

over and over and over again you know we

970

00:37:02,510 --> 00:37:00,720

give the benefit of the doubt most of

971

00:37:04,730 --> 00:37:02,520

the time to to

972

00:37:06,770 --> 00:37:04,740

um uh actually say that's records that

973

00:37:09,069 --> 00:37:06,780

could be legal we give them the benefit

974

00:37:12,109 --> 00:37:09,079

of the doubt okay it's only the ones

975

00:37:14,150 --> 00:37:12,119

I I hate when we defaulted all that kind

976

00:37:16,250 --> 00:37:14,160

of correctness kind of it's

977

00:37:18,170 --> 00:37:16,260

like look you just proved elect action

978

00:37:20,750 --> 00:37:18,180

fraud then the big question that

979

00:37:22,849 --> 00:37:20,760

everyone has is does it scale how could

980

00:37:24,790 --> 00:37:22,859

it scale you know are they hacking the

981

00:37:27,170 --> 00:37:24,800

machines whatever that was the whole

982

00:37:29,210 --> 00:37:27,180

dialogue that has not disappeared like

983

00:37:30,530 --> 00:37:29,220

now we can talk about this stuff right a

984

00:37:32,329 --> 00:37:30,540

couple years ago you couldn't talk about

985

00:37:35,450 --> 00:37:32,339

it now you can't talk about it it's in

986

00:37:37,250 --> 00:37:35,460

the past so you connected the two so you

987

00:37:38,870 --> 00:37:37,260

got people boots on the ground went out

988

00:37:41,390 --> 00:37:38,880

there and said hey is this you did you

989

00:37:44,030 --> 00:37:41,400

do this no so then it's in the database

990

00:37:46,150 --> 00:37:44,040

that's election fraud no questions the

991

00:37:49,490 --> 00:37:46,160

real breakthrough that you do is you go

992

00:37:52,910 --> 00:37:49,500

whoa whoa whoa here's the scale of it

993

00:37:56,210 --> 00:37:52,920

guys millions of Records here's how it's

994

00:37:58,790 --> 00:37:56,220

done here's how you would sit back on

995

00:38:01,609 --> 00:37:58,800

your computer and pull it up and change

996

00:38:04,310 --> 00:38:01,619

it and do it here are the means here are

997

00:38:06,170 --> 00:38:04,320

the keys for doing it that's that's the

998

00:38:08,450 --> 00:38:06,180

Breakthrough that you bring us

999

00:38:11,210 --> 00:38:08,460

yeah and actually one thing I should

1000

00:38:13,010 --> 00:38:11,220

also point out is individual voters are

1001
00:38:14,630 --> 00:38:13,020
totally incapable of doing this you

1002
00:38:17,210 --> 00:38:14,640
can't you have to have access to the

1003
00:38:19,069 --> 00:38:17,220
official database to do it so everything

1004
00:38:20,390 --> 00:38:19,079
I'm seeing in the database is giving me

1005
00:38:22,430 --> 00:38:20,400
the information that allows me to send

1006
00:38:25,430 --> 00:38:22,440
people out to Canvas and then get these

1007
00:38:27,470 --> 00:38:25,440
answers is information that can only be

1008
00:38:29,569 --> 00:38:27,480
entered by people who've got access to

1009
00:38:31,849 --> 00:38:29,579
that database and that's a really really

1010
00:38:33,890 --> 00:38:31,859
important point because like I've got a

1011
00:38:36,109 --> 00:38:33,900
there's an assembly woman in New York

1012
00:38:37,730 --> 00:38:36,119
state who according to the voter rolls

1013
00:38:40,970 --> 00:38:37,740

double voted in three separate elections

1014

00:38:43,310 --> 00:38:40,980

2016 18 and 19. okay

1015

00:38:45,290 --> 00:38:43,320

um and and yeah I seriously doubt she

1016

00:38:47,630 --> 00:38:45,300

has any idea that her records show that

1017

00:38:49,130 --> 00:38:47,640

and that's just based on every other bit

1018

00:38:50,810 --> 00:38:49,140

of canvassing that we've done and all

1019

00:38:53,990 --> 00:38:50,820

the people be surprised that they've got

1020

00:38:56,690 --> 00:38:54,000

all these extra ID numbers one lady she

1021

00:38:58,130 --> 00:38:56,700

had she had a married name and a maiden

1022

00:38:59,569 --> 00:38:58,140

name and both of them had their own

1023

00:39:02,510 --> 00:38:59,579

independent registration numbers which

1024

00:39:04,370 --> 00:39:02,520

all by itself is illegal and what she

1025

00:39:06,950 --> 00:39:04,380

discovered was her maiden name had

1026
00:39:08,750 --> 00:39:06,960
continued voting but her married name

1027
00:39:11,510 --> 00:39:08,760
was erasing the votes that she was

1028
00:39:12,890 --> 00:39:11,520
making so she was making real votes that

1029
00:39:14,630 --> 00:39:12,900
didn't show up in the record and she was

1030
00:39:16,790 --> 00:39:14,640
really mad about that and then the other

1031
00:39:18,950 --> 00:39:16,800
registration was Voting well after she

1032
00:39:20,630 --> 00:39:18,960
stopped using the name and after that

1033
00:39:21,890 --> 00:39:20,640
registration number well actually that

1034
00:39:24,109 --> 00:39:21,900
registration number should be the one

1035
00:39:25,790 --> 00:39:24,119
she's still using actually uh it's kind

1036
00:39:27,770 --> 00:39:25,800
of a funny thing because by cloning what

1037
00:39:31,010 --> 00:39:27,780
they're doing is they're basically

1038
00:39:33,650 --> 00:39:31,020

giving the fake record to the real voter

1039

00:39:35,329 --> 00:39:33,660

and they're keeping the real record the

1040

00:39:36,890 --> 00:39:35,339

one that's legal that is to say and

1041

00:39:40,130 --> 00:39:36,900

they're using yeah for their own

1042

00:39:42,230 --> 00:39:40,140

purposes anyway odd thing hey Andy I

1043

00:39:45,650 --> 00:39:42,240

want you to tell the story of the guy on

1044

00:39:47,569 --> 00:39:45,660

your team who has uh an Intel Black Ops

1045

00:39:50,210 --> 00:39:47,579

background without revealing his name

1046

00:39:52,069 --> 00:39:50,220

obviously but I think it's very telling

1047

00:39:53,690 --> 00:39:52,079

it really shouldn't be surprising we've

1048

00:39:55,790 --> 00:39:53,700

heard this all along but it's really

1049

00:39:57,410 --> 00:39:55,800

really significant when you when you

1050

00:39:59,810 --> 00:39:57,420

hear that something like that directly

1051
00:40:01,970 --> 00:39:59,820
from somebody on the team okay well

1052
00:40:03,950 --> 00:40:01,980
first up he's not on the team he was

1053
00:40:06,470 --> 00:40:03,960
helping the team so he's he's like more

1054
00:40:10,190 --> 00:40:06,480
of a consultant but this particular guy

1055
00:40:11,810 --> 00:40:10,200
when I showed him the algorithm he was

1056
00:40:15,230 --> 00:40:11,820
really shocked because he'd seen it

1057
00:40:18,530 --> 00:40:15,240
before he said I used to do elections

1058
00:40:21,050 --> 00:40:18,540
overseas for the military and we used

1059
00:40:22,370 --> 00:40:21,060
something that looked just like that to

1060
00:40:24,470 --> 00:40:22,380
make sure that we could manage those

1061
00:40:26,390 --> 00:40:24,480
elections said I never expected to see

1062
00:40:27,950 --> 00:40:26,400
it in the United States he's one of two

1063
00:40:30,109 --> 00:40:27,960

guys with the same background that told

1064

00:40:31,790 --> 00:40:30,119

me the same thing so they say there's a

1065

00:40:33,410 --> 00:40:31,800

couple differences like he said in Iraq

1066

00:40:35,569 --> 00:40:33,420

they have serial numbers on the ballots

1067

00:40:38,390 --> 00:40:35,579

which we don't have but but as far as

1068

00:40:40,430 --> 00:40:38,400

like the the the numerical difference

1069

00:40:42,710 --> 00:40:40,440

between the records are what's called

1070

00:40:44,390 --> 00:40:42,720

rep units so that's uh two digit or

1071

00:40:47,390 --> 00:40:44,400

greater numbers that are all made out of

1072

00:40:49,430 --> 00:40:47,400

one so One Eleven Hundred eleven Etc he

1073

00:40:51,530 --> 00:40:49,440

said that kind of a thing is just all

1074

00:40:53,810 --> 00:40:51,540

over the place in that software that

1075

00:40:57,190 --> 00:40:53,820

they were using so yeah it's and he

1076
00:41:00,470 --> 00:40:59,270
in a response to one of the other people

1077
00:41:03,050 --> 00:41:00,480
on our team it was like you know

1078
00:41:05,210 --> 00:41:03,060
military contractors work elections you

1079
00:41:07,310 --> 00:41:05,220
guys know this you've seen it that's

1080
00:41:09,770 --> 00:41:07,320
amazing I think that leads into some of

1081
00:41:12,109 --> 00:41:09,780
the bigger questions because you know

1082
00:41:13,790 --> 00:41:12,119
one of the interesting things about you

1083
00:41:15,589 --> 00:41:13,800
Andy because we have been friends for a

1084
00:41:16,790 --> 00:41:15,599
long time and we've kind of been through

1085
00:41:18,670 --> 00:41:16,800
a lot of different things you know just

1086
00:41:22,250 --> 00:41:18,680
kind of in our private conversations but

1087
00:41:25,010 --> 00:41:22,260
you were kind of a trumpster there for a

1088
00:41:28,190 --> 00:41:25,020

while you've written for red voice red

1089

00:41:29,150 --> 00:41:28,200

voice media and you still do and that's

1090

00:41:31,670 --> 00:41:29,160

fine

1091

00:41:33,710 --> 00:41:31,680

but I definitely get the sense and I

1092

00:41:35,750 --> 00:41:33,720

think it's partially because of this

1093

00:41:38,329 --> 00:41:35,760

research That You Don't See you see

1094

00:41:40,130 --> 00:41:38,339

yourself more apolitical if you will

1095

00:41:42,770 --> 00:41:40,140

kind of more long long lines that I do

1096

00:41:45,290 --> 00:41:42,780

that this is a sham at a much bigger

1097

00:41:48,109 --> 00:41:45,300

level and you've shared with me that

1098

00:41:51,890 --> 00:41:48,119

your research tells you that this cannot

1099

00:41:54,170 --> 00:41:51,900

be uh pinned to one party one political

1100

00:41:57,190 --> 00:41:54,180

group or another it's more or less a

1101

00:42:01,430 --> 00:41:57,200

technology that can be

1102

00:42:03,770 --> 00:42:01,440

applied to whoever they decide to apply

1103

00:42:06,470 --> 00:42:03,780

it to do you want to speak to that

1104

00:42:08,690 --> 00:42:06,480

well I do agree with you I I still have

1105

00:42:10,730 --> 00:42:08,700

my my favorites and they tend to be on

1106

00:42:12,829 --> 00:42:10,740

one side of the political Spectrum as

1107

00:42:14,329 --> 00:42:12,839

opposed to the other but I also have a

1108

00:42:16,670 --> 00:42:14,339

lot of people on both sides that I

1109

00:42:19,430 --> 00:42:16,680

really think are absolute criminals

1110

00:42:21,829 --> 00:42:19,440

frankly and when I and the fact is this

1111

00:42:23,690 --> 00:42:21,839

system what we're seeing it doesn't seem

1112

00:42:25,849 --> 00:42:23,700

to play favorites the way people would

1113

00:42:27,410 --> 00:42:25,859

expect and actually one of the one of

1114

00:42:29,270 --> 00:42:27,420

the problems we've had is that sometimes

1115

00:42:31,250 --> 00:42:29,280

Republican politicians are made aware of

1116

00:42:32,829 --> 00:42:31,260

this and they're like well that could be

1117

00:42:36,290 --> 00:42:32,839

used against us too

1118

00:42:37,730 --> 00:42:36,300

like yeah it absolutely could and it

1119

00:42:39,349 --> 00:42:37,740

could also be used in their favor and

1120

00:42:40,910 --> 00:42:39,359

the other thing it implies is that

1121

00:42:42,470 --> 00:42:40,920

anybody who's currently in office

1122

00:42:45,290 --> 00:42:42,480

benefited from this whether they

1123

00:42:47,750 --> 00:42:45,300

realized it or not so I I think that

1124

00:42:49,370 --> 00:42:47,760

there's probably you know pockets of

1125

00:42:50,450 --> 00:42:49,380

honest elections that you have

1126
00:42:52,609 --> 00:42:50,460
throughout the country and there's

1127
00:42:54,349 --> 00:42:52,619
probably places where fraud was

1128
00:42:55,790 --> 00:42:54,359
implemented in order to make sure a

1129
00:42:57,109 --> 00:42:55,800
certain candidate won but it was

1130
00:42:59,270 --> 00:42:57,119
unnecessary because that person was

1131
00:43:00,950 --> 00:42:59,280
going to win anyway so that you you do

1132
00:43:03,950 --> 00:43:00,960
get the People's Choice sometimes but

1133
00:43:05,390 --> 00:43:03,960
with this algorithm that they're using

1134
00:43:08,870 --> 00:43:05,400
and the other kinds of fraud that we're

1135
00:43:11,390 --> 00:43:08,880
seeing by is that our votes actually

1136
00:43:13,490 --> 00:43:11,400
don't play a significant role in who

1137
00:43:15,230 --> 00:43:13,500
wins they they do play a more

1138
00:43:17,630 --> 00:43:15,240

significant role if the margin of

1139

00:43:19,309 --> 00:43:17,640

Victory is more than about 10 but if

1140

00:43:21,170 --> 00:43:19,319

it's less than 10 percent it seems to be

1141

00:43:23,930 --> 00:43:21,180

completely stage managed uh that's how

1142

00:43:26,089 --> 00:43:23,940

it looks to me and as far as who they're

1143

00:43:27,470 --> 00:43:26,099

they're picking it seems like and I'm

1144

00:43:29,870 --> 00:43:27,480

this is kind of going off my own

1145

00:43:32,089 --> 00:43:29,880

research here when I say this but but it

1146

00:43:34,790 --> 00:43:32,099

looks to me like if you've got a very

1147

00:43:36,410 --> 00:43:34,800

Republican area that they're going to

1148

00:43:38,930 --> 00:43:36,420

pick a republican to win but it's going

1149

00:43:41,329 --> 00:43:38,940

to be a republican that um that they

1150

00:43:43,430 --> 00:43:41,339

like and if it's a heavily Democrat area

1151
00:43:46,130 --> 00:43:43,440
then you know you've got Democrats who

1152
00:43:47,030 --> 00:43:46,140
behave more light Republicans in the at

1153
00:43:49,010 --> 00:43:47,040
least the way they're portrayed in

1154
00:43:51,650 --> 00:43:49,020
popular media but they'll find a

1155
00:43:53,390 --> 00:43:51,660
Democrat who is exactly what they want

1156
00:43:55,609 --> 00:43:53,400
and then they'll let that guy win or

1157
00:43:57,950 --> 00:43:55,619
that gal whoever it is

1158
00:43:59,510 --> 00:43:57,960
um so the whole thing seems to be a

1159
00:44:02,329 --> 00:43:59,520
battle of perceptions it's like okay

1160
00:44:03,890 --> 00:44:02,339
what will the people accept who we will

1161
00:44:06,290 --> 00:44:03,900
also accept you know whoever it is

1162
00:44:07,670 --> 00:44:06,300
that's managing this stuff and when I

1163
00:44:10,010 --> 00:44:07,680

say whoever it is that's managing this

1164

00:44:12,170 --> 00:44:10,020

stuff I really don't know who it is

1165

00:44:13,790 --> 00:44:12,180

um it's I would not in it on a political

1166

00:44:15,470 --> 00:44:13,800

party absolutely not as far as I'm

1167

00:44:17,030 --> 00:44:15,480

concerned whatever is controlling this

1168

00:44:18,950 --> 00:44:17,040

is controlling both political parties

1169

00:44:21,109 --> 00:44:18,960

and probably a little bit more beyond

1170

00:44:23,809 --> 00:44:21,119

that which is actually kind of a spooky

1171

00:44:26,270 --> 00:44:23,819

thing to think about well it it's spooky

1172

00:44:29,809 --> 00:44:26,280

but maybe in a way it gets us back to

1173

00:44:32,329 --> 00:44:29,819

what the show's all about you know

1174

00:44:35,270 --> 00:44:32,339

skeptico inquiry to perpetuate doubt but

1175

00:44:37,490 --> 00:44:35,280

also also why evil matters what is evil

1176

00:44:39,589 --> 00:44:37,500

about this what is evil about the

1177

00:44:42,589 --> 00:44:39,599

deception and don't we have to live with

1178

00:44:44,990 --> 00:44:42,599

a little bit of this just as part of the

1179

00:44:47,390 --> 00:44:45,000

way the the sausage it gets made as they

1180

00:44:49,490 --> 00:44:47,400

say you know it's like hey man when

1181

00:44:52,550 --> 00:44:49,500

you're overthrowing the election in some

1182

00:44:54,770 --> 00:44:52,560

country that's teetering on going commie

1183

00:44:57,109 --> 00:44:54,780

then you know maybe you stand back and

1184

00:44:58,790 --> 00:44:57,119

go oh God thank God we got in there and

1185

00:45:01,250 --> 00:44:58,800

we did a better job of throwing the

1186

00:45:03,349 --> 00:45:01,260

elections than the Russians did or the

1187

00:45:05,750 --> 00:45:03,359

Chinese did or whatever and there's a

1188

00:45:09,770 --> 00:45:05,760

certain part of that narrative that we

1189

00:45:12,530 --> 00:45:09,780

accept and go well I guess that is kind

1190

00:45:14,809 --> 00:45:12,540

of part of the price we pay for the good

1191

00:45:17,809 --> 00:45:14,819

part of the American Empire

1192

00:45:20,930 --> 00:45:17,819

but then that quickly comes around to

1193

00:45:23,990 --> 00:45:20,940

kind of bite Us in the butt when we look

1194

00:45:26,329 --> 00:45:24,000

at how it can be weaponized against us

1195

00:45:28,190 --> 00:45:26,339

totally agree with you and I've been I

1196

00:45:29,569 --> 00:45:28,200

have a feeling there's some element of

1197

00:45:32,750 --> 00:45:29,579

that that we disagree on but for the

1198

00:45:35,690 --> 00:45:32,760

most part I think it is a terrible thing

1199

00:45:37,250 --> 00:45:35,700

that we created methods that are so

1200

00:45:39,290 --> 00:45:37,260

dangerous we use them against other

1201
00:45:41,210 --> 00:45:39,300
people and then figured it would never

1202
00:45:43,250 --> 00:45:41,220
happen to us because we're the ones with

1203
00:45:44,870 --> 00:45:43,260
the tools you know they they have this

1204
00:45:46,309 --> 00:45:44,880
this well-known saying in Christianity

1205
00:45:47,809 --> 00:45:46,319
do others as you would have them do

1206
00:45:50,809 --> 00:45:47,819
under you right well

1207
00:45:53,990 --> 00:45:50,819
we are doing unto them apparently what

1208
00:45:55,550 --> 00:45:54,000
is being done to us okay and that I

1209
00:45:57,650 --> 00:45:55,560
think is exactly what we should expect

1210
00:46:00,589 --> 00:45:57,660
after having created something like this

1211
00:46:03,050 --> 00:46:00,599
and it's a shame and I frankly I think

1212
00:46:04,970 --> 00:46:03,060
that these kind of tools need to be

1213
00:46:06,950 --> 00:46:04,980

eradicated and even if other people try

1214

00:46:09,410 --> 00:46:06,960

to use them against us we can't use

1215

00:46:10,609 --> 00:46:09,420

period it's just too dangerous uh you

1216

00:46:12,290 --> 00:46:10,619

know we've got you've got people who are

1217

00:46:13,609 --> 00:46:12,300

all up in arms about gun control this

1218

00:46:15,170 --> 00:46:13,619

stuff with elections is far more

1219

00:46:17,150 --> 00:46:15,180

dangerous because with this you can

1220

00:46:18,770 --> 00:46:17,160

control nuclear missiles and you control

1221

00:46:21,950 --> 00:46:18,780

a lot of other things like for instance

1222

00:46:23,690 --> 00:46:21,960

fake vaccines connected to fake pandemic

1223

00:46:25,730 --> 00:46:23,700

that you can kill a lot of people

1224

00:46:27,829 --> 00:46:25,740

without their even knowing that they're

1225

00:46:29,690 --> 00:46:27,839

being murdered essentially and I hate to

1226
00:46:31,970 --> 00:46:29,700
say it so strongly but that's how I view

1227
00:46:33,290 --> 00:46:31,980
the vaccine right now

1228
00:46:35,690 --> 00:46:33,300
um but in any event

1229
00:46:37,370 --> 00:46:35,700
um yeah this is this is a very dangerous

1230
00:46:39,770 --> 00:46:37,380
thing and I think that we let ourselves

1231
00:46:41,690 --> 00:46:39,780
in for when we said you know what it's

1232
00:46:44,210 --> 00:46:41,700
okay to treat other countries like this

1233
00:46:46,069 --> 00:46:44,220
it's just not uh we are not being good

1234
00:46:48,589 --> 00:46:46,079
neighbors by doing this we are not being

1235
00:46:50,690 --> 00:46:48,599
good Shepherds at all we can't think of

1236
00:46:52,430 --> 00:46:50,700
an honest way to handle our foreign

1237
00:46:54,530 --> 00:46:52,440
relation that we need to think harder we

1238
00:46:56,569 --> 00:46:54,540

don't need to just become every bit as

1239

00:46:59,450 --> 00:46:56,579

criminal as the other guy I just don't

1240

00:47:02,630 --> 00:46:59,460

think that works I don't know but I get

1241

00:47:04,490 --> 00:47:02,640

you I I love the idealism I think that

1242

00:47:06,650 --> 00:47:04,500

gets us to really a spiritual

1243

00:47:07,910 --> 00:47:06,660

perspective to me is the only way you

1244

00:47:10,250 --> 00:47:07,920

can resolve that because if you're

1245

00:47:11,750 --> 00:47:10,260

talking about this world then you're

1246

00:47:14,329 --> 00:47:11,760

always going to be making compromises

1247

00:47:16,609 --> 00:47:14,339

because it is about getting that hill

1248

00:47:18,710 --> 00:47:16,619

and you bought me on that wall you need

1249

00:47:20,690 --> 00:47:18,720

me on that wall kind of stuff and

1250

00:47:23,450 --> 00:47:20,700

there's a reality to that that I think

1251
00:47:25,550 --> 00:47:23,460
we too often want to kind of forget you

1252
00:47:28,370 --> 00:47:25,560
live a great phony baloney lifestyle

1253
00:47:31,250 --> 00:47:28,380
there in New York and I certainly lead a

1254
00:47:34,010 --> 00:47:31,260
great phony baloney lifestyle here in

1255
00:47:36,470 --> 00:47:34,020
Southern California and if that was ever

1256
00:47:38,809 --> 00:47:36,480
really threatened I'm not so sure where

1257
00:47:42,349 --> 00:47:38,819
I draw the line of righteousness

1258
00:47:45,710 --> 00:47:42,359
particularly when those enemies could be

1259
00:47:48,950 --> 00:47:45,720
some other systems that really really

1260
00:47:52,190 --> 00:47:48,960
don't care on a deep level so you know

1261
00:47:54,470 --> 00:47:52,200
maybe maybe Trace that water one more

1262
00:47:56,930 --> 00:47:54,480
time with response to that because I

1263
00:47:59,690 --> 00:47:56,940

love your Christian idealism I'm not

1264

00:48:02,510 --> 00:47:59,700

sure it works in the real world

1265

00:48:04,370 --> 00:48:02,520

but then again I I appreciate what

1266

00:48:05,270 --> 00:48:04,380

you're doing because I think what you're

1267

00:48:09,050 --> 00:48:05,280

doing

1268

00:48:11,390 --> 00:48:09,060

is the essence of being an American it

1269

00:48:16,370 --> 00:48:11,400

is the only chance we have

1270

00:48:17,630 --> 00:48:16,380

to fight to the end for those ideals for

1271

00:48:27,650 --> 00:48:17,640

that

1272

00:48:29,750 --> 00:48:27,660

like kind of a pushing the boulder up

1273

00:48:31,910 --> 00:48:29,760

the mountain only for it to roll off the

1274

00:48:33,349 --> 00:48:31,920

other side kind of thing yeah well I

1275

00:48:35,630 --> 00:48:33,359

certainly see what you're telling from I

1276

00:48:37,609 --> 00:48:35,640

mean it reminds me of Corey ten boom's

1277

00:48:40,670 --> 00:48:37,619

book The Hiding Place which is about how

1278

00:48:43,190 --> 00:48:40,680

two sisters were hiding Jewish people in

1279

00:48:45,170 --> 00:48:43,200

Holland they both got brought to the

1280

00:48:47,530 --> 00:48:45,180

concentration camps and the sister

1281

00:48:50,809 --> 00:48:47,540

refused to compromise for her Christian

1282

00:48:52,910 --> 00:48:50,819

principles and she wound up dying there

1283

00:48:55,730 --> 00:48:52,920

and the other one made compromises she

1284

00:48:57,349 --> 00:48:55,740

lived and wrote the book and so what

1285

00:48:59,089 --> 00:48:57,359

you're basically saying is an excellent

1286

00:49:00,950 --> 00:48:59,099

circumstances how are you going to

1287

00:49:02,930 --> 00:49:00,960

behave and frankly I don't know until I

1288

00:49:06,710 --> 00:49:02,940

meet that or encounter the circumstances

1289

00:49:08,270 --> 00:49:06,720

but I do feel rather strongly that if we

1290

00:49:11,109 --> 00:49:08,280

say it's okay

1291

00:49:13,069 --> 00:49:11,119

to engage in what we consider to be

1292

00:49:14,390 --> 00:49:13,079

abhorrent Behavior just so we can deal

1293

00:49:16,430 --> 00:49:14,400

with other people who are engaging in

1294

00:49:17,870 --> 00:49:16,440

abroad Behavior we're not thinking hard

1295

00:49:19,849 --> 00:49:17,880

enough there's probably another way to

1296

00:49:21,890 --> 00:49:19,859

get there okay that the story I always

1297

00:49:24,530 --> 00:49:21,900

use for the longest time the ramdas

1298

00:49:27,230 --> 00:49:24,540

story we're both Yogi kind of people so

1299

00:49:30,410 --> 00:49:27,240

ramdas is there with new curly Baba and

1300

00:49:32,329 --> 00:49:30,420

he says okay so forgive me these are

1301
00:49:36,170 --> 00:49:32,339
ramdas stories so you don't know what

1302
00:49:39,069 --> 00:49:36,180
part is kind of mythical if what part is

1303
00:49:42,109 --> 00:49:39,079
real but he's sent to

1304
00:49:45,470 --> 00:49:42,119
this distant Village along with this

1305
00:49:48,710 --> 00:49:45,480
other devotee volunteer to bring this

1306
00:49:51,170 --> 00:49:48,720
medicine to these peasants right and

1307
00:49:53,690 --> 00:49:51,180
they get to the hill and there's a guy

1308
00:49:56,390 --> 00:49:53,700
there and he goes yeah you gotta pay me

1309
00:49:58,250 --> 00:49:56,400
in order to get there he's an armed guy

1310
00:50:01,069 --> 00:49:58,260
he's you know

1311
00:50:03,170 --> 00:50:01,079
Mafia he's uh cartel whatever you want

1312
00:50:04,790 --> 00:50:03,180
to say it and terrorist however you want

1313
00:50:09,230 --> 00:50:04,800

to put it in today's match and he says

1314

00:50:11,809 --> 00:50:09,240

no pay me and ramdas goes we can't we we

1315

00:50:14,390 --> 00:50:11,819

can't do that that would violate

1316

00:50:17,109 --> 00:50:14,400

everything that Baba is all about you

1317

00:50:20,150 --> 00:50:17,119

know if we would be compromising

1318

00:50:22,550 --> 00:50:20,160

ourselves and compromising the whole Act

1319

00:50:24,589 --> 00:50:22,560

of what we're trying to do of love and

1320

00:50:25,550 --> 00:50:24,599

kindness and bringing this medicine to

1321

00:50:27,589 --> 00:50:25,560

these people

1322

00:50:30,349 --> 00:50:27,599

and the woman is just outraged she's

1323

00:50:32,270 --> 00:50:30,359

like what are you talking about see

1324

00:50:34,550 --> 00:50:32,280

those kids down there you can see him

1325

00:50:35,630 --> 00:50:34,560

running around some of them will be

1326

00:50:38,510 --> 00:50:35,640

blind

1327

00:50:40,010 --> 00:50:38,520

some of them will be dead if we don't

1328

00:50:43,370 --> 00:50:40,020

bring that medicine

1329

00:50:45,230 --> 00:50:43,380

so give the guy a few rupees let's get

1330

00:50:48,410 --> 00:50:45,240

the medicine down there

1331

00:50:52,130 --> 00:50:48,420

so I always think you know what's the

1332

00:50:53,510 --> 00:50:52,140

right action in that situation and I

1333

00:50:55,430 --> 00:50:53,520

don't think there I don't think there is

1334

00:50:58,370 --> 00:50:55,440

one what do you think

1335

00:51:00,410 --> 00:50:58,380

well in that particular case I think

1336

00:51:01,910 --> 00:51:00,420

that the most expedient answer is to

1337

00:51:04,490 --> 00:51:01,920

give the guy the money and go down and

1338

00:51:06,049 --> 00:51:04,500

save the villagers assuming they're not

1339

00:51:08,150 --> 00:51:06,059

giving them covered vaccine because then

1340

00:51:10,370 --> 00:51:08,160

they have the opposite result but um but

1341

00:51:13,010 --> 00:51:10,380

hold on everybody everybody says that so

1342

00:51:14,569 --> 00:51:13,020

I've developed a Twist that I I like to

1343

00:51:15,950 --> 00:51:14,579

add to the story now great because

1344

00:51:19,190 --> 00:51:15,960

everybody says it

1345

00:51:21,650 --> 00:51:19,200

okay now here's what your money is doing

1346

00:51:24,710 --> 00:51:21,660

this guy is involved in sex trafficking

1347

00:51:28,069 --> 00:51:24,720

and what he's gonna do is go find some

1348

00:51:30,770 --> 00:51:28,079

opium addicted peasant and gonna buy his

1349

00:51:35,030 --> 00:51:30,780

11 year old daughter and sell that

1350

00:51:38,270 --> 00:51:35,040

daughter into a life of prostitution and

1351

00:51:39,349 --> 00:51:38,280

sex slavery so now same question what's

1352

00:51:40,910 --> 00:51:39,359

your answer

1353

00:51:43,609 --> 00:51:40,920

they have probably been the same answer

1354

00:51:46,849 --> 00:51:43,619

maybe come back and and uh arrest the

1355

00:51:48,650 --> 00:51:46,859

guy or or deal with them somehow but uh

1356

00:51:51,109 --> 00:51:48,660

to prevent that from happening but if

1357

00:51:53,329 --> 00:51:51,119

you have one thing that has a like a

1358

00:51:57,349 --> 00:51:53,339

like a timeline on it where where

1359

00:51:58,910 --> 00:51:57,359

getting it accomplished quickly uh

1360

00:52:00,170 --> 00:51:58,920

actually I say this if you don't get it

1361

00:52:02,089 --> 00:52:00,180

done quickly then you lose the

1362

00:52:03,410 --> 00:52:02,099

opportunity I I would say do that first

1363

00:52:05,870 --> 00:52:03,420

and then deal with the second problem

1364

00:52:08,569 --> 00:52:05,880

and the second problem is stopping this

1365

00:52:10,250 --> 00:52:08,579

other stuff that's going on but as

1366

00:52:13,250 --> 00:52:10,260

getting all the way back to the election

1367

00:52:15,290 --> 00:52:13,260

business that we're seeing here uh we

1368

00:52:17,089 --> 00:52:15,300

clearly develop very dangerous tools

1369

00:52:19,010 --> 00:52:17,099

that are being used against us okay

1370

00:52:20,690 --> 00:52:19,020

that's assuming that the military

1371

00:52:23,049 --> 00:52:20,700

intelligence guy you said that to me is

1372

00:52:27,290 --> 00:52:23,059

correct I assume he is correct but

1373

00:52:29,809 --> 00:52:27,300

no matter who did it the tools are super

1374

00:52:31,430 --> 00:52:29,819

dangerous and these things can cause

1375

00:52:33,890 --> 00:52:31,440

much more harm than they're being

1376
00:52:35,150 --> 00:52:33,900
credited for being capable of doing you

1377
00:52:38,809 --> 00:52:35,160
know when I see the way that election

1378
00:52:40,190 --> 00:52:38,819
fraud is handled by politicians and the

1379
00:52:41,990 --> 00:52:40,200
Judiciary and in some cases

1380
00:52:43,750 --> 00:52:42,000
investigative authorities I'm really

1381
00:52:46,790 --> 00:52:43,760
disappointed that they seem to think

1382
00:52:48,290 --> 00:52:46,800
elections are so unimportant that they

1383
00:52:50,210 --> 00:52:48,300
don't have to investigate them they

1384
00:52:53,329 --> 00:52:50,220
don't have to prosecute cases like this

1385
00:52:55,730 --> 00:52:53,339
and they don't have to deal with them in

1386
00:52:57,049 --> 00:52:55,740
any meaningful way so they're able to go

1387
00:52:59,210 --> 00:52:57,059
out there with talking points that all

1388
00:53:01,910 --> 00:52:59,220

of our elections are safe and secure

1389

00:53:03,710 --> 00:53:01,920

um to me that is absolutely terrifying

1390

00:53:05,270 --> 00:53:03,720

that these guys don't realize that hey

1391

00:53:07,430 --> 00:53:05,280

are the people of this country don't

1392

00:53:10,730 --> 00:53:07,440

realize that when they take an election

1393

00:53:14,030 --> 00:53:10,740

from you they are taking an immense

1394

00:53:15,890 --> 00:53:14,040

amount of power over you okay it's the

1395

00:53:17,930 --> 00:53:15,900

same people who are allowing riots to

1396

00:53:20,630 --> 00:53:17,940

take place without punishing anyone that

1397

00:53:24,049 --> 00:53:20,640

have cities burned down buildings looted

1398

00:53:25,910 --> 00:53:24,059

people shot people injured they're

1399

00:53:27,650 --> 00:53:25,920

they're allowing these vaccine shots to

1400

00:53:29,329 --> 00:53:27,660

go out all over the place and people

1401
00:53:30,950 --> 00:53:29,339
getting hurt and they're not stopping it

1402
00:53:33,549 --> 00:53:30,960
despite the fact that all the rules that

1403
00:53:36,890 --> 00:53:33,559
work in place up until

1404
00:53:38,150 --> 00:53:36,900
2021 early 2021 would have prevented

1405
00:53:39,890 --> 00:53:38,160
that from happening that they would have

1406
00:53:41,329 --> 00:53:39,900
stopped the vaccines for the first

1407
00:53:42,710 --> 00:53:41,339
couple of deaths it wouldn't they

1408
00:53:44,329 --> 00:53:42,720
wouldn't have allowed them to stay going

1409
00:53:46,010 --> 00:53:44,339
through all this type of ridiculates

1410
00:53:47,390 --> 00:53:46,020
there's an amazing amount of damage

1411
00:53:49,970 --> 00:53:47,400
that's being um

1412
00:53:51,290 --> 00:53:49,980
that we're seeing as a result of stolen

1413
00:53:53,270 --> 00:53:51,300

elections because this just could not

1414

00:53:55,370 --> 00:53:53,280

have happened without the Stalin

1415

00:53:58,190 --> 00:53:55,380

elections it's just ridiculous

1416

00:53:59,349 --> 00:53:58,200

what do you say we watch uh Dr zark

1417

00:54:02,750 --> 00:53:59,359

video

1418

00:54:04,730 --> 00:54:02,760

go for it this is Dr zark of New York

1419

00:54:06,589 --> 00:54:04,740

citizens audit welcome to lesson six in

1420

00:54:08,809 --> 00:54:06,599

our ongoing election fraud series attack

1421

00:54:10,370 --> 00:54:08,819

of clones cloned records in New York are

1422

00:54:12,470 --> 00:54:10,380

a problem New York citizens audit has

1423

00:54:15,109 --> 00:54:12,480

found no less than 320 000 excess

1424

00:54:17,089 --> 00:54:15,119

numbers this is what they look like

1425

00:54:19,010 --> 00:54:17,099

Fitz is only the start of the shortest

1426
00:54:21,230 --> 00:54:19,020
list

1427
00:54:22,309 --> 00:54:21,240
same speed to show though is this a

1428
00:54:24,130 --> 00:54:22,319
problem

1429
00:54:28,329 --> 00:54:24,140
there you go

1430
00:54:32,210 --> 00:54:28,339
I write Dr zark what did we just see

1431
00:54:34,849 --> 00:54:32,220
you saw one of 15 videos that I made to

1432
00:54:37,010 --> 00:54:34,859
explain in one minute segments although

1433
00:54:38,809 --> 00:54:37,020
some of them go a little over that

1434
00:54:41,150 --> 00:54:38,819
um some of the findings that we've come

1435
00:54:43,670 --> 00:54:41,160
up with at New York citizens audit so

1436
00:54:46,069 --> 00:54:43,680
that particular one was a way to

1437
00:54:47,809 --> 00:54:46,079
demonstrate that the sheer quantity of

1438
00:54:49,970 --> 00:54:47,819

clones that we found in that particular

1439

00:54:50,870 --> 00:54:49,980

list that I was zipping through and I

1440

00:54:52,910 --> 00:54:50,880

didn't get through the whole thing

1441

00:54:55,130 --> 00:54:52,920

because it just takes too long I was

1442

00:54:58,069 --> 00:54:55,140

about a hundred thousand records long I

1443

00:55:00,170 --> 00:54:58,079

have another list at 630 000 records and

1444

00:55:02,809 --> 00:55:00,180

I never bothered exporting the list

1445

00:55:05,930 --> 00:55:02,819

since 2.4 million records

1446

00:55:07,670 --> 00:55:05,940

um but the the fact is there's a lot of

1447

00:55:09,650 --> 00:55:07,680

records and it's it's just really really

1448

00:55:11,930 --> 00:55:09,660

shocking how many there are that are

1449

00:55:13,970 --> 00:55:11,940

compromised you know Imagine This

1450

00:55:16,250 --> 00:55:13,980

we're in New York state

1451

00:55:19,069 --> 00:55:16,260

there's 21 million records in the voter

1452

00:55:20,990 --> 00:55:19,079

rolls and how many people voted 8

1453

00:55:23,089 --> 00:55:21,000

million okay and how many people

1454

00:55:25,069 --> 00:55:23,099

actually live here nowhere close to 21

1455

00:55:26,750 --> 00:55:25,079

million we've got a lot of excess record

1456

00:55:29,150 --> 00:55:26,760

and you know one thing I'll mention

1457

00:55:31,010 --> 00:55:29,160

about this is a Judicial Watch which is

1458

00:55:32,990 --> 00:55:31,020

an organization that uh

1459

00:55:34,370 --> 00:55:33,000

well they basically filed foil requests

1460

00:55:35,390 --> 00:55:34,380

and Sue

1461

00:55:40,430 --> 00:55:35,400

um

1462

00:55:43,370 --> 00:55:40,440

entities for reasons based on uh related

1463

00:55:46,190 --> 00:55:43,380

to Electric fraud they recently sued New

1464

00:55:48,890 --> 00:55:46,200

York City uh because they said you have

1465

00:55:51,170 --> 00:55:48,900

all these excess uh Records in your role

1466

00:55:53,510 --> 00:55:51,180

so of course it's true they do uh in New

1467

00:55:55,849 --> 00:55:53,520

York in fact is the one of the most

1468

00:55:57,890 --> 00:55:55,859

egregious offenders in uh New York state

1469

00:55:59,450 --> 00:55:57,900

by the way when I say New York City uh

1470

00:56:02,210 --> 00:55:59,460

people might not be aware New York City

1471

00:56:05,450 --> 00:56:02,220

is made of five counties so they're uh

1472

00:56:07,910 --> 00:56:05,460

Bronx kings queens Richmond and New York

1473

00:56:09,530 --> 00:56:07,920

County so New York county is Manhattan

1474

00:56:12,109 --> 00:56:09,540

that's the island but the other fiber

1475

00:56:14,089 --> 00:56:12,119

around for around them so he sued all

1476

00:56:17,030 --> 00:56:14,099

four or five of those counties

1477

00:56:20,329 --> 00:56:17,040

and got them to agree to remove the

1478

00:56:22,370 --> 00:56:20,339

out-of-date records right so um so what

1479

00:56:24,710 --> 00:56:22,380

they did was they sent him a note which

1480

00:56:27,290 --> 00:56:24,720

he trumpeted all over his website you

1481

00:56:30,829 --> 00:56:27,300

know saying we we agree we are going to

1482

00:56:33,230 --> 00:56:30,839

remove 430 I think it was 431 000 and

1483

00:56:35,390 --> 00:56:33,240

change records uh of these out of date

1484

00:56:39,490 --> 00:56:35,400

records right and they they said we did

1485

00:56:43,670 --> 00:56:39,500

this on February 2nd uh I think it was

1486

00:56:45,349 --> 00:56:43,680

2022. and so what I did was I I had one

1487

00:56:47,030 --> 00:56:45,359

of our guys take a look at the databases

1488

00:56:50,089 --> 00:56:47,040

on either side of that date because we

1489

00:56:52,309 --> 00:56:50,099

had a database from October of 2021 and

1490

00:56:53,630 --> 00:56:52,319

another one from May of 2022 and I said

1491

00:56:55,670 --> 00:56:53,640

just find out if they really put out

1492

00:56:58,910 --> 00:56:55,680

those records and guess what they did

1493

00:57:00,170 --> 00:56:58,920

okay they lied to the court okay and not

1494

00:57:02,930 --> 00:57:00,180

only that it's kind of interesting

1495

00:57:05,150 --> 00:57:02,940

because if you look at it you have you

1496

00:57:08,210 --> 00:57:05,160

have the number of Records is actually

1497

00:57:09,829 --> 00:57:08,220

going up every database we have so every

1498

00:57:11,809 --> 00:57:09,839

few months the number of Records is

1499

00:57:13,250 --> 00:57:11,819

going up pretty significantly and at the

1500

00:57:15,290 --> 00:57:13,260

same time we have a declining population

1501
00:57:18,170 --> 00:57:15,300
so we have more more people leaving than

1502
00:57:20,150 --> 00:57:18,180
we have coming in and somehow the number

1503
00:57:22,670 --> 00:57:20,160
of Records is going up at a constant

1504
00:57:25,490 --> 00:57:22,680
pace and meanwhile they supposedly took

1505
00:57:28,130 --> 00:57:25,500
Al almost half a million record now what

1506
00:57:29,990 --> 00:57:28,140
we did find was about 300 000 records

1507
00:57:33,770 --> 00:57:30,000
that were converted from active status

1508
00:57:35,690 --> 00:57:33,780
to urged status but that's not 438 000

1509
00:57:36,890 --> 00:57:35,700
and that's not necessarily leading them

1510
00:57:39,589 --> 00:57:36,900
either so

1511
00:57:42,589 --> 00:57:39,599
so somewhere along the line something

1512
00:57:44,329 --> 00:57:42,599
got missed and never mind the fact that

1513
00:57:46,910 --> 00:57:44,339

some of them got changed from active

1514

00:57:48,950 --> 00:57:46,920

Purge I looked up some special cases you

1515

00:57:51,349 --> 00:57:48,960

know people who have 11 records and 22

1516

00:57:55,190 --> 00:57:51,359

records they're still there they're very

1517

00:57:58,010 --> 00:57:55,200

oh Andy oh Andy Andy Andy

1518

00:58:01,910 --> 00:57:58,020

what like I always say it was always

1519

00:58:06,049 --> 00:58:01,920

thus what are you going to do about this

1520

00:58:10,069 --> 00:58:06,059

obviously nothing is going to happen but

1521

00:58:13,849 --> 00:58:10,079

again you're fighting the good fight the

1522

00:58:16,370 --> 00:58:13,859

audible fight the righteous fight where

1523

00:58:18,770 --> 00:58:16,380

do you plan on going with this

1524

00:58:20,630 --> 00:58:18,780

well that is I didn't want to do this in

1525

00:58:22,250 --> 00:58:20,640

the first place and while I'm working on

1526

00:58:24,410 --> 00:58:22,260

it I don't want to do it I can't wait

1527

00:58:25,730 --> 00:58:24,420

until this is all over and I can go back

1528

00:58:27,530 --> 00:58:25,740

to doing commercial photography because

1529

00:58:30,290 --> 00:58:27,540

I like Visual Arts and I want to get

1530

00:58:32,089 --> 00:58:30,300

back to that however I can't seem to

1531

00:58:33,410 --> 00:58:32,099

drag myself away from it because it's

1532

00:58:34,790 --> 00:58:33,420

kind of fascinating and also there

1533

00:58:36,650 --> 00:58:34,800

doesn't seem to be anything else to do

1534

00:58:38,089 --> 00:58:36,660

right now thanks to the world being all

1535

00:58:39,530 --> 00:58:38,099

in chaos at the moment as you might have

1536

00:58:43,430 --> 00:58:39,540

noticed

1537

00:58:45,650 --> 00:58:43,440

um so so yeah I I mean I'm I'm doing a

1538

00:58:47,569 --> 00:58:45,660

substance I'm writing about this but

1539

00:58:49,730 --> 00:58:47,579

like all the rest of my writing as

1540

00:58:50,990 --> 00:58:49,740

somebody else asked me to do it

1541

00:58:52,549 --> 00:58:51,000

um yeah you know you mentioned my

1542

00:58:53,690 --> 00:58:52,559

writing for law enforcement today and

1543

00:58:55,849 --> 00:58:53,700

rent voice

1544

00:58:57,349 --> 00:58:55,859

um I never really planned on

1545

00:58:59,089 --> 00:58:57,359

writing

1546

00:59:01,910 --> 00:58:59,099

um for other people but they keep on

1547

00:59:03,650 --> 00:59:01,920

asking me so I keep on doing it but um

1548

00:59:06,349 --> 00:59:03,660

yeah I can't wait till this is over I

1549

00:59:08,329 --> 00:59:06,359

and as far as I'm concerned uh the data

1550

00:59:09,650 --> 00:59:08,339

has to be analyzed we have to get it

1551
00:59:11,870 --> 00:59:09,660
into the right hands and then those

1552
00:59:13,490 --> 00:59:11,880
people have to do their job and then if

1553
00:59:16,849 --> 00:59:13,500
it's all possible this has to get fixed

1554
00:59:19,910 --> 00:59:16,859
but as far as I'm concerned the second I

1555
00:59:21,530 --> 00:59:19,920
can stop doing this I'm out of here

1556
00:59:23,390 --> 00:59:21,540
um but at the moment it remains

1557
00:59:25,010 --> 00:59:23,400
interesting I mean it's just the other

1558
00:59:26,450 --> 00:59:25,020
day I found something fascinating I

1559
00:59:28,849 --> 00:59:26,460
discovered that these guys were actually

1560
00:59:31,549 --> 00:59:28,859
changing people's state ID numbers so

1561
00:59:34,010 --> 00:59:31,559
that they could take uh a criminal a

1562
00:59:36,410 --> 00:59:34,020
illegally generated record and make it

1563
00:59:38,089 --> 00:59:36,420

look like it was legal and you know the

1564

00:59:39,589 --> 00:59:38,099

the thing is I was thinking you know

1565

00:59:41,150 --> 00:59:39,599

what they could give as an explanation

1566

00:59:43,549 --> 00:59:41,160

for that we bet tens of thousands of

1567

00:59:46,549 --> 00:59:43,559

these by the way uh is they could say

1568

00:59:48,470 --> 00:59:46,559

well we noticed that this looked illegal

1569

00:59:50,450 --> 00:59:48,480

so we fixed it by making it look legal

1570

00:59:52,670 --> 00:59:50,460

and you know the funny thing is that's

1571

00:59:54,710 --> 00:59:52,680

kind of what cooking the books is all

1572

00:59:56,150 --> 00:59:54,720

about right that's that's oh we noticed

1573

00:59:58,010 --> 00:59:56,160

if somebody else saw this they'd notice

1574

00:59:59,210 --> 00:59:58,020

we're stealing money so we had to fix

1575

01:00:00,770 --> 00:59:59,220

the books so that it didn't look like

1576

01:00:02,450 --> 01:00:00,780

we're stealing money it's like that

1577

01:00:03,890 --> 01:00:02,460

might be their explanation because not a

1578

01:00:05,329 --> 01:00:03,900

particularly good explanation and it

1579

01:00:06,589 --> 01:00:05,339

certainly doesn't absolve them of any

1580

01:00:07,910 --> 01:00:06,599

guilt

1581

01:00:09,770 --> 01:00:07,920

um but you know we found that too when

1582

01:00:11,569 --> 01:00:09,780

we were asking for the registration

1583

01:00:14,210 --> 01:00:11,579

records is that

1584

01:00:16,490 --> 01:00:14,220

um they purged them when they got the

1585

01:00:18,650 --> 01:00:16,500

request so they were active for years

1586

01:00:19,970 --> 01:00:18,660

and then when they got our requests they

1587

01:00:21,470 --> 01:00:19,980

looked at all these cloned references

1588

01:00:23,870 --> 01:00:21,480

like oh my gosh this is the same person

1589

01:00:26,750 --> 01:00:23,880

better Purge all those guys right now so

1590

01:00:27,950 --> 01:00:26,760

it doesn't really fix the problem you

1591

01:00:29,450 --> 01:00:27,960

know what I'm saying you know sometimes

1592

01:00:31,010 --> 01:00:29,460

you can fix a broken window and it's all

1593

01:00:32,630 --> 01:00:31,020

done and nobody cares anymore but when

1594

01:00:35,270 --> 01:00:32,640

you're talking about a crime which is

1595

01:00:38,210 --> 01:00:35,280

what we're talking about here fixing it

1596

01:00:39,890 --> 01:00:38,220

actually covers up the crime and so

1597

01:00:41,870 --> 01:00:39,900

that's not really fixing it now you're

1598

01:00:44,349 --> 01:00:41,880

looking at obstruction of justices uh

1599

01:00:47,030 --> 01:00:44,359

justice official defense

1600

01:00:48,829 --> 01:00:47,040

negligence uh I think there's another

1601
01:00:50,450 --> 01:00:48,839
word in there oh destruction of evidence

1602
01:00:51,589 --> 01:00:50,460
yeah this is four things destruction of

1603
01:00:53,690 --> 01:00:51,599
evidence

1604
01:00:56,150 --> 01:00:53,700
um and there's obstruction of justice

1605
01:00:58,130 --> 01:00:56,160
and then it's official malfeasance plus

1606
01:00:59,750 --> 01:00:58,140
negligence so

1607
01:01:01,490 --> 01:00:59,760
um so that doesn't really fly and that's

1608
01:01:03,410 --> 01:01:01,500
one thing that I kind of dislike about

1609
01:01:05,390 --> 01:01:03,420
what I've been seeing in the in the

1610
01:01:07,130 --> 01:01:05,400
Press about this is sometimes people

1611
01:01:09,230 --> 01:01:07,140
will complain they're like okay this

1612
01:01:10,849 --> 01:01:09,240
happened it needs to be fixed and then

1613
01:01:13,309 --> 01:01:10,859

they say okay we fixed it everything's

1614

01:01:15,230 --> 01:01:13,319

fine now and I'm like no because problem

1615

01:01:17,030 --> 01:01:15,240

that was created was the result of a

1616

01:01:18,650 --> 01:01:17,040

crime you didn't investigate the crime

1617

01:01:20,569 --> 01:01:18,660

you didn't go find the person who did it

1618

01:01:22,069 --> 01:01:20,579

and say you need to go to jail or pay a

1619

01:01:24,589 --> 01:01:22,079

fine or something

1620

01:01:26,030 --> 01:01:24,599

um and that step has to be taken you

1621

01:01:28,370 --> 01:01:26,040

know one thing that really disturbs me

1622

01:01:31,910 --> 01:01:28,380

about this and I do want to say this is

1623

01:01:33,890 --> 01:01:31,920

uh these cloned records make it look

1624

01:01:35,990 --> 01:01:33,900

like innocent people have committed

1625

01:01:38,270 --> 01:01:36,000

voter fraud okay I don't believe for a

1626
01:01:39,770 --> 01:01:38,280
second that these are genuine examples

1627
01:01:41,809 --> 01:01:39,780
of voter fraud

1628
01:01:43,670 --> 01:01:41,819
um they are election election fraud has

1629
01:01:46,130 --> 01:01:43,680
handled at a much higher level

1630
01:01:48,349 --> 01:01:46,140
they cannot be done by individual voters

1631
01:01:50,630 --> 01:01:48,359
so I know of a case right now that

1632
01:01:52,849 --> 01:01:50,640
happened in New York

1633
01:01:54,589 --> 01:01:52,859
um where a immigrant to this country who

1634
01:01:56,690 --> 01:01:54,599
has a green card

1635
01:01:57,950 --> 01:01:56,700
um has something like I forget what the

1636
01:02:00,170 --> 01:01:57,960
number was it was like eight or nine

1637
01:02:01,730 --> 01:02:00,180
registration records okay and all with

1638
01:02:03,710 --> 01:02:01,740

different sbid numbers and I checked in

1639

01:02:06,190 --> 01:02:03,720

the database and I I found that it was

1640

01:02:08,450 --> 01:02:06,200

true and some of them and voted right

1641

01:02:10,430 --> 01:02:08,460

and uh but the guy wasn't an American

1642

01:02:12,049 --> 01:02:10,440

citizen he's not eligible to vote at all

1643

01:02:14,210 --> 01:02:12,059

let alone multiple times in the same

1644

01:02:16,789 --> 01:02:14,220

election right so his records make it

1645

01:02:18,650 --> 01:02:16,799

look like that's what he did but this

1646

01:02:20,030 --> 01:02:18,660

guy says in the answer he says I didn't

1647

01:02:21,349 --> 01:02:20,040

even know I was registered I never

1648

01:02:22,970 --> 01:02:21,359

registered to vote in the first place

1649

01:02:25,130 --> 01:02:22,980

and I certainly have never voted the

1650

01:02:27,230 --> 01:02:25,140

fact is I actually believe the guy okay

1651
01:02:28,910 --> 01:02:27,240
and I believe him because of what I'm

1652
01:02:30,230 --> 01:02:28,920
seeing the rotors

1653
01:02:32,750 --> 01:02:30,240
um but he was actually being

1654
01:02:34,849 --> 01:02:32,760
investigated by the DA's office for vote

1655
01:02:36,530 --> 01:02:34,859
in front that could actually happen to

1656
01:02:38,030 --> 01:02:36,540
people whose names are being used like

1657
01:02:39,230 --> 01:02:38,040
this and it really really bugs me

1658
01:02:41,329 --> 01:02:39,240
because what happens is they're

1659
01:02:43,069 --> 01:02:41,339
transferring to blame for something that

1660
01:02:45,049 --> 01:02:43,079
happened that could only happen at a

1661
01:02:47,630 --> 01:02:45,059
higher level down to people at the very

1662
01:02:49,609 --> 01:02:47,640
bottom level work not only innocent they

1663
01:02:51,230 --> 01:02:49,619

have no idea the thing it even happened

1664

01:02:53,390 --> 01:02:51,240

they don't even know that their names

1665

01:02:55,130 --> 01:02:53,400

are being used like this

1666

01:02:57,109 --> 01:02:55,140

um so you know that's one thing I

1667

01:02:59,990 --> 01:02:57,119

definitely want to deal with because I I

1668

01:03:02,150 --> 01:03:00,000

don't like the idea of innocent people

1669

01:03:03,890 --> 01:03:02,160

um even being annoyed by someone

1670

01:03:05,510 --> 01:03:03,900

knocking out their door and and

1671

01:03:06,890 --> 01:03:05,520

pestering them to see if they committed

1672

01:03:08,750 --> 01:03:06,900

over fraud or not I mean they are

1673

01:03:09,589 --> 01:03:08,760

utterly innocent of any knowledge of

1674

01:03:11,750 --> 01:03:09,599

this

1675

01:03:13,789 --> 01:03:11,760

um they shouldn't be bothered at all

1676

01:03:15,109 --> 01:03:13,799

um so it it really bugs me that we've

1677

01:03:16,970 --> 01:03:15,119

got all these people at a very high

1678

01:03:19,069 --> 01:03:16,980

level doing something to achieve their

1679

01:03:22,609 --> 01:03:19,079

own nefarious end whatever that happens

1680

01:03:24,470 --> 01:03:22,619

to be and in so doing they are throwing

1681

01:03:26,690 --> 01:03:24,480

the blame for everything they do if it's

1682

01:03:28,970 --> 01:03:26,700

ever discovered on the bottom most want

1683

01:03:30,470 --> 01:03:28,980

run of the hierarchy here and in that

1684

01:03:32,870 --> 01:03:30,480

this case that means the victims are

1685

01:03:34,130 --> 01:03:32,880

then getting blamed for the people uh

1686

01:03:36,289 --> 01:03:34,140

who are victimizing them it's it's

1687

01:03:38,690 --> 01:03:36,299

horrible it's incredibly perverse to see

1688

01:03:40,609 --> 01:03:38,700

this I hate this so anyway there you go

1689

01:03:41,930 --> 01:03:40,619

but you wanted to talk I wanted to say

1690

01:03:43,250 --> 01:03:41,940

something about the outer range records

1691

01:03:53,589 --> 01:03:43,260

and I wanted to show you the whole

1692

01:03:58,970 --> 01:03:57,349

all right we'll see okay one thing about

1693

01:04:00,770 --> 01:03:58,980

the algorithms you got the outer range

1694

01:04:03,230 --> 01:04:00,780

numbers and the end range numbers if

1695

01:04:05,569 --> 01:04:03,240

you're gonna say it then you better say

1696

01:04:06,890 --> 01:04:05,579

what you mean when you say out of range

1697

01:04:08,329 --> 01:04:06,900

in range

1698

01:04:10,250 --> 01:04:08,339

numbers because you're going to have to

1699

01:04:11,630 --> 01:04:10,260

roll this all the way back to somebody

1700

01:04:14,030 --> 01:04:11,640

walks in

1701

01:04:17,030 --> 01:04:14,040

they want to register to vote they're

1702

01:04:18,589 --> 01:04:17,040

assigned a number it must be a random

1703

01:04:21,470 --> 01:04:18,599

it's supposed to be a sequential number

1704

01:04:23,569 --> 01:04:21,480

whatever the next one on the list is and

1705

01:04:26,030 --> 01:04:23,579

then why you would even need you would

1706

01:04:28,250 --> 01:04:26,040

have to say why you even need a range

1707

01:04:30,710 --> 01:04:28,260

how that would even work which is kind

1708

01:04:32,930 --> 01:04:30,720

of and then why there would be so many

1709

01:04:34,730 --> 01:04:32,940

that aren't in a Range I mean it's it's

1710

01:04:36,770 --> 01:04:34,740

another half hour if you really want to

1711

01:04:38,569 --> 01:04:36,780

do it properly

1712

01:04:40,010 --> 01:04:38,579

okay so you're giving me an option here

1713

01:04:42,770 --> 01:04:40,020

you're not just explaining to me why I'm

1714

01:04:46,970 --> 01:04:44,870

I mean the thing is is that these

1715

01:04:48,230 --> 01:04:46,980

numbers uh have some predictable

1716

01:04:50,930 --> 01:04:48,240

characteristics that are kind of

1717

01:04:52,609 --> 01:04:50,940

interesting so if I share my screen I'll

1718

01:04:54,650 --> 01:04:52,619

show you what the ranges look like and

1719

01:04:56,450 --> 01:04:54,660

this is the key to the algorithm maybe

1720

01:04:57,770 --> 01:04:56,460

if not for this I would never have found

1721

01:05:00,829 --> 01:04:57,780

it

1722

01:05:02,809 --> 01:05:00,839

um so when you look at a database you

1723

01:05:04,609 --> 01:05:02,819

you're not looking at a at what I'm

1724

01:05:06,470 --> 01:05:04,619

seeing here okay so what I've got is a

1725

01:05:07,789 --> 01:05:06,480

bunch of uh County names I got the

1726

01:05:10,849 --> 01:05:07,799

county codes that are assigned by the

1727

01:05:13,010 --> 01:05:10,859

state I've got the uh the SBO ID numbers

1728

01:05:14,569 --> 01:05:13,020

that's the state ID numbers uh that are

1729

01:05:16,010 --> 01:05:14,579

that they have in those counties and

1730

01:05:18,470 --> 01:05:16,020

this is how many there are et cetera

1731

01:05:21,109 --> 01:05:18,480

okay except you can't see this

1732

01:05:23,270 --> 01:05:21,119

um but more importantly each of these

1733

01:05:25,549 --> 01:05:23,280

counties are assigned a range of numbers

1734

01:05:27,530 --> 01:05:25,559

so Onondaga County here starts with this

1735

01:05:29,930 --> 01:05:27,540

number that I've got my cursor over and

1736

01:05:32,750 --> 01:05:29,940

it ends with this number okay but that's

1737

01:05:35,450 --> 01:05:32,760

only for about 56 percent of the numbers

1738

01:05:37,849 --> 01:05:35,460

attached to Onan diet all the rest are

1739

01:05:39,829 --> 01:05:37,859

in a different area it is not reserved

1740

01:05:41,390 --> 01:05:39,839

by County so

1741

01:05:43,849 --> 01:05:41,400

um what happens is the numbers that are

1742

01:05:45,710 --> 01:05:43,859

not in this territory disguise the

1743

01:05:49,309 --> 01:05:45,720

presence of the numbers that are here

1744

01:05:51,049 --> 01:05:49,319

and they they exist below and above

1745

01:05:52,670 --> 01:05:51,059

um these numbered ranges so basically

1746

01:05:54,890 --> 01:05:52,680

what they've done is they've thrown a

1747

01:05:56,630 --> 01:05:54,900

whole bunch of chaff into the air and

1748

01:05:58,730 --> 01:05:56,640

then in a very narrow range in the

1749

01:06:00,829 --> 01:05:58,740

middle they've gone ahead and designated

1750

01:06:03,890 --> 01:06:00,839

a certain range of numbers attached to

1751

01:06:05,450 --> 01:06:03,900

each one of these counties and again you

1752

01:06:07,190 --> 01:06:05,460

can't figure this out by looking at the

1753

01:06:08,809 --> 01:06:07,200

database very easily the way I did it

1754

01:06:10,789 --> 01:06:08,819

was I had to actually look at every

1755

01:06:13,130 --> 01:06:10,799

single number individually look at the

1756

01:06:15,530 --> 01:06:13,140

county was attached to and figure out

1757

01:06:17,750 --> 01:06:15,540

the relationships and you there was no

1758

01:06:19,430 --> 01:06:17,760

way to sort it this way because if you

1759

01:06:20,930 --> 01:06:19,440

only look at the county I'm going to get

1760

01:06:22,309 --> 01:06:20,940

all that chaff I'm going to get all that

1761

01:06:23,930 --> 01:06:22,319

stuff that's out of range and I'm also

1762

01:06:25,250 --> 01:06:23,940

going to get all sorts of other numbers

1763

01:06:26,569 --> 01:06:25,260

where people who moved into the county

1764

01:06:27,829 --> 01:06:26,579

from another County and they're going to

1765

01:06:31,190 --> 01:06:27,839

take their number with them so it's a

1766

01:06:32,690 --> 01:06:31,200

real mess so it took me about a week to

1767

01:06:35,029 --> 01:06:32,700

figure out these ranges and I didn't do

1768

01:06:37,089 --> 01:06:35,039

it by myself I had a high like help me

1769

01:06:40,190 --> 01:06:37,099

do it but once we figured it out

1770

01:06:41,870 --> 01:06:40,200

realized they're utterly Stables the

1771

01:06:43,430 --> 01:06:41,880

next thing was let's look at the Rangers

1772

01:06:44,870 --> 01:06:43,440

now you saw what happened when I looked

1773

01:06:46,609 --> 01:06:44,880

at the end range numbers that's that

1774

01:06:49,910 --> 01:06:46,619

pattern made out of those rep units the

1775

01:06:52,970 --> 01:06:49,920

ones and elevens and 111s Andy Andy I

1776

01:06:55,370 --> 01:06:52,980

promise you no one is going to be able

1777

01:06:57,710 --> 01:06:55,380

to follow this no one is going to be

1778

01:06:59,690 --> 01:06:57,720

able to get in your head that's why

1779

01:07:01,789 --> 01:06:59,700

you're one of the few people on the

1780

01:07:05,630 --> 01:07:01,799

planet that could have ever

1781

01:07:09,890 --> 01:07:05,640

decoded this that's why your Dr zark so

1782

01:07:13,130 --> 01:07:09,900

I mean go ahead if you want but I just I

1783

01:07:16,069 --> 01:07:13,140

think you're way way way into it now in

1784

01:07:17,930 --> 01:07:16,079

a way that I guess bolster is the point

1785

01:07:20,990 --> 01:07:17,940

that you're making that you know they

1786

01:07:25,069 --> 01:07:21,000

it's pretty hard to figure this out from

1787

01:07:27,289 --> 01:07:25,079

a from a system standpoint but go ahead

1788

01:07:28,730 --> 01:07:27,299

well okay I was gonna say you could just

1789

01:07:31,789 --> 01:07:28,740

cut it right there and I could accept

1790

01:07:34,010 --> 01:07:31,799

that but fine I'll continue so

1791

01:07:35,029 --> 01:07:34,020

um in range we have the spiral pattern

1792

01:07:37,670 --> 01:07:35,039

which is what I was showing you before

1793

01:07:39,650 --> 01:07:37,680

with the 11th right but out of range

1794

01:07:41,569 --> 01:07:39,660

they have a different pattern now the

1795

01:07:44,870 --> 01:07:41,579

first time I looked at it I was zooming

1796

01:07:46,849 --> 01:07:44,880

in on it and I see uh these patterns

1797

01:07:48,890 --> 01:07:46,859

okay so these are numbers these are

1798

01:07:51,049 --> 01:07:48,900

coordinates rather that are created by

1799

01:07:53,990 --> 01:07:51,059

the CID numbers on the bottom and the

1800

01:07:55,910 --> 01:07:54,000

state ID numbers on the left uh and as

1801

01:07:57,289 --> 01:07:55,920

you can tell these are making shapes

1802

01:07:58,910 --> 01:07:57,299

this is not what you get when you

1803

01:08:01,010 --> 01:07:58,920

sequentially assign numbers or

1804

01:08:03,890 --> 01:08:01,020

consecutively assigned numbers this is a

1805

01:08:05,930 --> 01:08:03,900

clear uh graphic design element that's

1806

01:08:07,910 --> 01:08:05,940

somehow been incorporated into these

1807

01:08:09,349 --> 01:08:07,920

numbers and the other thing is kind of

1808

01:08:12,170 --> 01:08:09,359

interesting if you look at this group of

1809

01:08:14,329 --> 01:08:12,180

numbers this 24 000 numbers

1810

01:08:16,490 --> 01:08:14,339

um and almost all of them are Purge

1811

01:08:19,910 --> 01:08:16,500

status only one of them is active so the

1812

01:08:22,309 --> 01:08:19,920

thing that this implies is that

1813

01:08:25,970 --> 01:08:22,319

um purged records are going to be

1814

01:08:28,309 --> 01:08:25,980

positioned like this okay so I wanted to

1815

01:08:30,650 --> 01:08:28,319

see how true was that how far did that

1816

01:08:33,050 --> 01:08:30,660

extend and I found out it went very very

1817

01:08:36,590 --> 01:08:33,060

far indeed so I'm going to show you a

1818

01:08:38,570 --> 01:08:36,600

couple of other graphs Andy Andy fine

1819

01:08:40,130 --> 01:08:38,580

fine you know you can stop it there and

1820

01:08:42,650 --> 01:08:40,140

just you know reassure everybody is

1821

01:08:46,070 --> 01:08:42,660

complex and and you can predict these

1822

01:08:48,229 --> 01:08:46,080

things so that's fine so I I can predict

1823

01:08:49,669 --> 01:08:48,239

Things based on the the numbers and I

1824

01:08:50,930 --> 01:08:49,679

shouldn't be able to do that it's just

1825

01:08:53,030 --> 01:08:50,940

it should be impossible but

1826

01:08:55,070 --> 01:08:53,040

unfortunately it's not so I'll stop

1827

01:08:58,729 --> 01:08:55,080

sharing there you go how's that you

1828

01:09:00,950 --> 01:08:58,739

happy I'm happy it's it's amazing we'll

1829

01:09:04,249 --> 01:09:00,960

leave people some links so that they can

1830

01:09:07,729 --> 01:09:04,259

watch all the awesome doctors Arc

1831

01:09:09,349 --> 01:09:07,739

videos that you did which are drawn hand

1832

01:09:13,090 --> 01:09:09,359

drawn by you a lot of them just

1833

01:09:15,470 --> 01:09:13,100

amazingly done it's all Android

1834

01:09:18,530 --> 01:09:15,480

again how could we be having this

1835

01:09:20,450 --> 01:09:18,540

conversation on skeptico when no one

1836

01:09:23,390 --> 01:09:20,460

else has had this conversation if

1837

01:09:26,870 --> 01:09:23,400

someone steps back and really just takes

1838

01:09:28,789 --> 01:09:26,880

a look at that aspect of it is like this

1839

01:09:32,630 --> 01:09:28,799

guy has done

1840

01:09:34,610 --> 01:09:32,640

something truly amazing and he's tried

1841

01:09:36,829 --> 01:09:34,620

to get people to pay attention it's not

1842

01:09:40,550 --> 01:09:36,839

like he's intentionally going dark on it

1843

01:09:42,050 --> 01:09:40,560

just nobody cares well I don't know if I

1844

01:09:44,150 --> 01:09:42,060

go that far he is actually getting quite

1845

01:09:46,550 --> 01:09:44,160

a bit of traction in New York now

1846

01:09:48,470 --> 01:09:46,560

um although where where where Andy where

1847

01:09:50,510 --> 01:09:48,480

well okay look I'm not going to give

1848

01:09:52,130 --> 01:09:50,520

names but we've got District Attorneys

1849

01:09:53,510 --> 01:09:52,140

now who are looking into it and we've

1850

01:09:54,950 --> 01:09:53,520

got some politicians who are looking at

1851

01:09:56,689 --> 01:09:54,960

good we've got people in other states

1852

01:09:59,090 --> 01:09:56,699

that are looking into it that is what

1853

01:10:01,729 --> 01:09:59,100

you said a year ago I mean nothing will

1854

01:10:04,490 --> 01:10:01,739

ever come of this by the nature of it I

1855

01:10:07,010 --> 01:10:04,500

mean this is Epstein level kind of stuff

1856

01:10:09,770 --> 01:10:07,020

and the one thing we know about Epstein

1857

01:10:11,350 --> 01:10:09,780

was it wasn't about Epstein right

1858

01:10:14,030 --> 01:10:11,360

actually

1859

01:10:16,610 --> 01:10:14,040

you just said something that I'd like to

1860

01:10:18,650 --> 01:10:16,620

have you come at that because you

1861

01:10:21,709 --> 01:10:18,660

actually have some expertise with this

1862

01:10:24,110 --> 01:10:21,719

kind of stuff so when you saw all this

1863

01:10:26,209 --> 01:10:24,120

data and you saw the the algorithm that

1864

01:10:28,250 --> 01:10:26,219

I pointed out to you what were you

1865

01:10:31,610 --> 01:10:28,260

thinking what what where did this come

1866

01:10:33,530 --> 01:10:31,620

from from York and what did it mean well

1867

01:10:36,229 --> 01:10:33,540

you know when we first talked about this

1868

01:10:38,510 --> 01:10:36,239

I thought the Real Genius move on your

1869

01:10:40,729 --> 01:10:38,520

part because you're not really a

1870

01:10:42,950 --> 01:10:40,739

computer programmer and that was my

1871

01:10:45,590 --> 01:10:42,960

educational background in my profession

1872

01:10:47,810 --> 01:10:45,600

so when I looked at it my first thought

1873

01:10:50,149 --> 01:10:47,820

was how would I I do it how would I

1874

01:10:52,130 --> 01:10:50,159

program it you know I'm not smart enough

1875

01:10:55,010 --> 01:10:52,140

to program it but I'm smart enough to

1876
01:10:57,229 --> 01:10:55,020
know how somebody would program it and I

1877
01:10:59,330 --> 01:10:57,239
was stunned that you could reverse

1878
01:11:03,770 --> 01:10:59,340
engineer it from just looking at this

1879
01:11:05,689 --> 01:11:03,780
spreadsheet I I was I was stunned so

1880
01:11:06,950 --> 01:11:05,699
all that stuff you know all that stuff

1881
01:11:08,270 --> 01:11:06,960
that you said you'd have to be able to

1882
01:11:10,610 --> 01:11:08,280
write this algorithm you'd have to be

1883
01:11:14,470 --> 01:11:10,620
able to hide the algorithm when some

1884
01:11:16,970 --> 01:11:14,480
code either back dooring it in or some

1885
01:11:18,530 --> 01:11:16,980
you know some election machine or

1886
01:11:20,510 --> 01:11:18,540
something like that all the stuff that

1887
01:11:21,530 --> 01:11:20,520
is now revealed by the work that you've

1888
01:11:25,310 --> 01:11:21,540

done

1889

01:11:26,570 --> 01:11:25,320

okay thanks yeah I every person I talked

1890

01:11:28,790 --> 01:11:26,580

to had a background in computer

1891

01:11:31,310 --> 01:11:28,800

engineering said pretty much the same

1892

01:11:33,410 --> 01:11:31,320

thing uh this is really complicated

1893

01:11:35,330 --> 01:11:33,420

they're really amazed it was discovered

1894

01:11:36,229 --> 01:11:35,340

this way Apple already discovered at all

1895

01:11:39,169 --> 01:11:36,239

actually

1896

01:11:41,149 --> 01:11:39,179

things like this that have been

1897

01:11:42,890 --> 01:11:41,159

discovered in this country so far were

1898

01:11:44,750 --> 01:11:42,900

discovered by me

1899

01:11:47,510 --> 01:11:44,760

um and that's this one the one in New

1900

01:11:49,130 --> 01:11:47,520

Jersey that I cracked and uh although

1901

01:11:51,530 --> 01:11:49,140

actually no wait take it back Hawaii

1902

01:11:53,510 --> 01:11:51,540

looks like they've got a lead on us so

1903

01:11:55,430 --> 01:11:53,520

that one's kind of interesting and they

1904

01:11:58,189 --> 01:11:55,440

the way they tagged theirs based on what

1905

01:12:01,669 --> 01:11:58,199

I've been told is more of an actual tag

1906

01:12:04,430 --> 01:12:01,679

so they've got 129 000 of their ID

1907

01:12:08,270 --> 01:12:04,440

numbers 10 of their population which

1908

01:12:11,149 --> 01:12:08,280

have the same 12 digits at the appended

1909

01:12:13,010 --> 01:12:11,159

to their uuid it had a lazy systems

1910

01:12:14,870 --> 01:12:13,020

engineer there in Hawaii it was kind of

1911

01:12:16,430 --> 01:12:14,880

too gives us word about getting out and

1912

01:12:17,990 --> 01:12:16,440

catching some waves he didn't want to do

1913

01:12:20,689 --> 01:12:18,000

the hard work that they do in New York

1914

01:12:22,370 --> 01:12:20,699

it's that New York work ethic that they

1915

01:12:24,410 --> 01:12:22,380

did it the right way

1916

01:12:25,669 --> 01:12:24,420

I wish it was a California work ethic

1917

01:12:27,590 --> 01:12:25,679

frankly I'd like to go hiking in

1918

01:12:29,450 --> 01:12:27,600

Yosemite again one of these days but

1919

01:12:32,570 --> 01:12:29,460

it's too far away at the moment anyway

1920

01:12:35,090 --> 01:12:32,580

okay so uh is that all your questions or

1921

01:12:38,149 --> 01:12:35,100

do you have a couple more no that's it

1922

01:12:41,030 --> 01:12:38,159

it was uh I'm so glad I'm so glad we did

1923

01:12:43,130 --> 01:12:41,040

it uh we'll just we'll just leave it at

1924

01:12:46,370 --> 01:12:43,140

that and we'll leave people some links

1925

01:12:48,169 --> 01:12:46,380

that they can go watch and check out if

1926

01:12:51,290 --> 01:12:48,179

you don't mind I'd appreciate it if you

1927

01:12:52,910 --> 01:12:51,300

linked to the sub Stacks art files at

1928

01:12:59,229 --> 01:12:52,920

the moment that's all the income I'm

1929

01:13:04,130 --> 01:13:02,870

144 free subscribers okay I'm gonna cut

1930

01:13:06,830 --> 01:13:04,140

it off there I know that's kind of

1931

01:13:08,649 --> 01:13:06,840

abrupt but we just kind of rolled into

1932

01:13:12,350 --> 01:13:08,659

this whole

1933

01:13:16,330 --> 01:13:12,360

unbelievably great hour-long discussion

1934

01:13:20,570 --> 01:13:16,340

about dreams about rival matters

1935

01:13:22,669 --> 01:13:20,580

precognition all sorts of stuff related

1936

01:13:25,270 --> 01:13:22,679

to his incredible precognitive dreams

1937

01:13:27,530 --> 01:13:25,280

which are really I'm changing to

1938

01:13:30,310 --> 01:13:27,540

parapsychology as a whole you know again

1939

01:13:33,470 --> 01:13:30,320

the guy's PhD has published the dream

1940

01:13:35,149 --> 01:13:33,480

book and published in peer-reviewed

1941

01:13:37,970 --> 01:13:35,159

journals about his precognitive dreams

1942

01:13:39,709 --> 01:13:37,980

so it's it's an amazing conversation we

1943

01:13:42,890 --> 01:13:39,719

went places that I've never gone with

1944

01:13:45,590 --> 01:13:42,900

them before so check that out

1945

01:13:47,930 --> 01:13:45,600

as far as this episode

1946

01:13:51,169 --> 01:13:47,940

the one question I T up from this show

1947

01:13:52,430 --> 01:13:51,179

is is this a big deal I'll tell you how

1948

01:13:54,110 --> 01:13:52,440

much it's changed for me when I first

1949

01:13:57,470 --> 01:13:54,120

heard about this a year year and a half

1950

01:14:00,830 --> 01:13:57,480

ago I thought it was a really big deal

1951

01:14:03,890 --> 01:14:00,840

now they don't seem like a big deal

1952

01:14:06,410 --> 01:14:03,900

how about for you let me hear from you

1953

01:14:09,770 --> 01:14:06,420

and join in the fun I think I might go

1954

01:14:13,250 --> 01:14:09,780

over to Discord don't know also if you

1955

01:14:14,750 --> 01:14:13,260

want to be a show producer and you have

1956

01:14:17,030 --> 01:14:14,760

a guest that you think needs to be on

1957

01:14:18,110 --> 01:14:17,040

the show let me know and try and set it

1958

01:14:22,560 --> 01:14:18,120

up
